

DISCLOSURE
TEAM

Ben Smith Interview
'Roswell: The First Witness'

1
00:00:04,789 --> 00:00:02,230
hey guys welcome back to the disclosure

2
00:00:08,070 --> 00:00:04,799
team youtube channel in this interview i

3
00:00:10,790 --> 00:00:08,080
speak to former cia operative ben smith

4
00:00:13,749 --> 00:00:10,800
he is the host of the tv show roswell

5
00:00:14,950 --> 00:00:13,759
the first witness i hope you enjoy

6
00:00:18,390 --> 00:00:14,960
thank you

7
00:00:19,990 --> 00:00:18,400
today how are you doing

8
00:00:21,189 --> 00:00:20,000
i'm doing great thank you for having me

9
00:00:22,710 --> 00:00:21,199
this is exciting

10
00:00:24,790 --> 00:00:22,720
yeah my pleasure it's really i've been

11
00:00:26,310 --> 00:00:24,800
looking forward to speaking to you um so

12
00:00:27,509 --> 00:00:26,320
before we jump into talking about the

13
00:00:29,509 --> 00:00:27,519

show could you just give us a little bit

14

00:00:31,910 --> 00:00:29,519

of a background on yourself about your

15

00:00:34,389 --> 00:00:31,920

career and things like that yeah sure my

16

00:00:36,870 --> 00:00:34,399

name is ben smith i'm a former cia

17

00:00:39,830 --> 00:00:36,880

operations officer a case officer in

18

00:00:41,910 --> 00:00:39,840

hollywood parlance that would be like a

19

00:00:43,910 --> 00:00:41,920

field operative um

20

00:00:46,950 --> 00:00:43,920

but my job was to collect intelligence

21

00:00:49,830 --> 00:00:46,960

uh overseas abroad um from human sources

22

00:00:52,069 --> 00:00:49,840

so i would recruit and handle sources um

23

00:00:54,310 --> 00:00:52,079

collect intelligence use tradecraft to

24

00:00:55,510 --> 00:00:54,320

protect their identities and um the

25

00:00:57,910 --> 00:00:55,520

information

26

00:00:59,670 --> 00:00:57,920

and then uh write reports a lot of

27

00:01:00,869 --> 00:00:59,680

reports and uh send them back to

28

00:01:03,510 --> 00:01:00,879

washington

29

00:01:05,590 --> 00:01:03,520

uh resigned a couple years ago to pursue

30

00:01:09,030 --> 00:01:05,600

creative interests um investigative

31

00:01:10,950 --> 00:01:09,040

interests like like roswell and uh also

32

00:01:14,390 --> 00:01:10,960

to pursue my now wife

33

00:01:16,149 --> 00:01:14,400

so uh made that choice that hey look uh

34

00:01:17,749 --> 00:01:16,159

i've got one bird in the hand i've had a

35

00:01:19,749 --> 00:01:17,759

pretty exciting career uh pretty

36

00:01:20,630 --> 00:01:19,759

stressful life um

37

00:01:22,230 --> 00:01:20,640

and

38

00:01:24,870 --> 00:01:22,240

i got a good thing going here so let's

39

00:01:27,190 --> 00:01:24,880

um let's see what else i can do um so i

40

00:01:28,789 --> 00:01:27,200

resigned and since then i've done a

41

00:01:30,469 --> 00:01:28,799

little bit of tv work

42

00:01:31,990 --> 00:01:30,479

um i

43

00:01:33,670 --> 00:01:32,000

appeared on a chauffeur discovery

44

00:01:35,990 --> 00:01:33,680

channel we went to columbia looking for

45

00:01:37,670 --> 00:01:36,000

uh pablo escobar's money which was

46

00:01:39,190 --> 00:01:37,680

pretty funny had a good time with one of

47

00:01:42,230 --> 00:01:39,200

my my buddies colleen one of my

48

00:01:44,550 --> 00:01:42,240

colleagues and then um did a little

49

00:01:46,870 --> 00:01:44,560

documentary about a um looking for a

50

00:01:48,789 --> 00:01:46,880

world war ii plane in burma which we

51
00:01:50,789 --> 00:01:48,799
found which is great a buddy of mine an

52
00:01:52,710 --> 00:01:50,799
fbi agent a buddy of mine

53
00:01:55,749 --> 00:01:52,720
and now this show so

54
00:01:58,550 --> 00:01:55,759
uh jumping right in the thick of um you

55
00:02:01,109 --> 00:01:58,560
know the ufo world the universe i should

56
00:02:03,910 --> 00:02:01,119
say and um really kind of wrestling with

57
00:02:06,389 --> 00:02:03,920
the facts and um i'm i'm loving it i'm

58
00:02:08,309 --> 00:02:06,399
really enjoying the space and um wish i

59
00:02:11,029 --> 00:02:08,319
could have been doing it my whole life

60
00:02:13,430 --> 00:02:11,039
so before you took on this job um

61
00:02:15,910 --> 00:02:13,440
hosting the roswell show what was your

62
00:02:17,270 --> 00:02:15,920
history with ufos was it an interest at

63
00:02:19,990 --> 00:02:17,280

all or was it just something that you

64

00:02:23,350 --> 00:02:20,000

didn't really think about that often

65

00:02:25,830 --> 00:02:23,360

yeah absolutely i actually um i'm a big

66

00:02:27,990 --> 00:02:25,840

science fiction fan uh in public media

67

00:02:30,070 --> 00:02:28,000

right so a huge fan of the x-files and

68

00:02:31,350 --> 00:02:30,080

um you know all

69

00:02:33,509 --> 00:02:31,360

a lot of the great science fiction

70

00:02:36,470 --> 00:02:33,519

fiction classics our system our thirsty

71

00:02:38,869 --> 00:02:36,480

clark is a huge passion of mine um

72

00:02:40,229 --> 00:02:38,879

so i always was interested in that space

73

00:02:41,509 --> 00:02:40,239

and before i even got involved with this

74

00:02:43,270 --> 00:02:41,519

project actually i had to prove a little

75

00:02:44,550 --> 00:02:43,280

bit of my credibility uh to history

76

00:02:46,550 --> 00:02:44,560

channels like no i really want to do

77

00:02:48,150 --> 00:02:46,560

this investigation like yeah but you

78

00:02:50,309 --> 00:02:48,160

know what

79

00:02:52,470 --> 00:02:50,319

you have to prove you you love ufos but

80

00:02:54,229 --> 00:02:52,480

i've actually been to a disclosure group

81

00:02:56,790 --> 00:02:54,239

um i live in new york city and i've been

82

00:02:58,390 --> 00:02:56,800

to a group many times just out of

83

00:02:59,670 --> 00:02:58,400

personal interest to try to figure out

84

00:03:01,750 --> 00:02:59,680

like

85

00:03:05,910 --> 00:03:01,760

what are these people experiencing can i

86

00:03:08,229 --> 00:03:05,920

use my ability skills to um kind of

87

00:03:10,790 --> 00:03:08,239

to put together some overarching theory

88

00:03:12,550 --> 00:03:10,800

of ufology like what's going on

89

00:03:14,070 --> 00:03:12,560

uh and

90

00:03:15,110 --> 00:03:14,080

and this is before

91

00:03:18,470 --> 00:03:15,120

you know the government started getting

92

00:03:20,710 --> 00:03:18,480

involved with these questions and uh and

93

00:03:22,550 --> 00:03:20,720

and then also honestly i've also written

94

00:03:24,789 --> 00:03:22,560

this that's put a personal plug because

95

00:03:28,630 --> 00:03:24,799

it's very bad but i also wrote it like a

96

00:03:30,789 --> 00:03:28,640

a scientific a science fiction um novel

97

00:03:32,789 --> 00:03:30,799

you know dealing with this idea that if

98

00:03:34,630 --> 00:03:32,799

aliens are here

99

00:03:36,949 --> 00:03:34,640

how and they want and they want to be

100

00:03:38,470 --> 00:03:36,959

secret about it how would they how would

101
00:03:39,670 --> 00:03:38,480
they operate how would they move about

102
00:03:41,990 --> 00:03:39,680
this space how would they collect

103
00:03:44,309 --> 00:03:42,000
information on the human species and i

104
00:03:46,229 --> 00:03:44,319
brought in my background in espionage

105
00:03:47,830 --> 00:03:46,239
and intelligence to figure out like all

106
00:03:49,110 --> 00:03:47,840
right what are the how could they be

107
00:03:51,030 --> 00:03:49,120
hiding where would they be putting their

108
00:03:52,949 --> 00:03:51,040
bases and it was just more of a thought

109
00:03:54,949 --> 00:03:52,959
experiment really a terrible novel but i

110
00:03:56,869 --> 00:03:54,959
had a great time doing it and um i think

111
00:03:58,789 --> 00:03:56,879
it really prepped me to be

112
00:04:00,630 --> 00:03:58,799
to be ready to go out and jump right in

113
00:04:01,830 --> 00:04:00,640

the middle of the roswell

114

00:04:05,910 --> 00:04:01,840

story

115

00:04:08,550 --> 00:04:05,920

in the u.s

116

00:04:10,229 --> 00:04:08,560

yeah that's amazing um so then you

117

00:04:12,070 --> 00:04:10,239

obviously you know realize that you're

118

00:04:14,309 --> 00:04:12,080

going to be hosting this show on roswell

119

00:04:16,949 --> 00:04:14,319

which is probably the most famous ufo

120

00:04:18,789 --> 00:04:16,959

case in history did you feel any anxiety

121

00:04:19,909 --> 00:04:18,799

or was it just pure excitement when you

122

00:04:21,990 --> 00:04:19,919

knew you were going to be looking into

123

00:04:23,909 --> 00:04:22,000

such a big case

124

00:04:25,670 --> 00:04:23,919

mostly pure excitement because that

125

00:04:28,950 --> 00:04:25,680

usually gets the better part of me the

126

00:04:30,790 --> 00:04:28,960

the idea of adventure of new knowledge

127

00:04:32,790 --> 00:04:30,800

of a new experience kind of really drew

128

00:04:34,550 --> 00:04:32,800

me to that place but also a little like

129

00:04:36,070 --> 00:04:34,560

you said anxiety that

130

00:04:39,189 --> 00:04:36,080

everything's been done

131

00:04:40,950 --> 00:04:39,199

um i'm a total noob i you know

132

00:04:43,189 --> 00:04:40,960

i don't i may even have like a

133

00:04:46,390 --> 00:04:43,199

background hurtful to the investigation

134

00:04:49,030 --> 00:04:46,400

for people who are already um

135

00:04:50,469 --> 00:04:49,040

uh you know already suspicious of

136

00:04:52,550 --> 00:04:50,479

government or former government

137

00:04:55,110 --> 00:04:52,560

personnel working in this play space

138

00:04:56,390 --> 00:04:55,120

although lou elizondo made it quite a

139

00:04:57,590 --> 00:04:56,400

lot easier for me

140

00:04:59,270 --> 00:04:57,600

uh

141

00:05:01,990 --> 00:04:59,280

of being involved in this space at all

142

00:05:03,350 --> 00:05:02,000

so it was um definitely daunting to try

143

00:05:05,590 --> 00:05:03,360

to catch up and then there's so much

144

00:05:07,270 --> 00:05:05,600

research has been done over decades

145

00:05:08,230 --> 00:05:07,280

uh but fortunately and that's the best

146

00:05:10,150 --> 00:05:08,240

part that

147

00:05:12,230 --> 00:05:10,160

part of the show and for me learning

148

00:05:15,909 --> 00:05:12,240

experience going to interview all of the

149

00:05:18,070 --> 00:05:15,919

best investigators don schmidt um

150

00:05:19,990 --> 00:05:18,080

leslie kane uh from the new york times

151
00:05:21,749 --> 00:05:20,000
like all of these phenomenal people that

152
00:05:23,749 --> 00:05:21,759
have been studying this for decades and

153
00:05:25,830 --> 00:05:23,759
and like just plugging into their brains

154
00:05:27,430 --> 00:05:25,840
and and getting right to the the facts

155
00:05:29,430 --> 00:05:27,440
was was really fun

156
00:05:30,710 --> 00:05:29,440
that sounds great and am i right in

157
00:05:33,029 --> 00:05:30,720
saying that there was actually some new

158
00:05:35,270 --> 00:05:33,039
evidence that you were able to

159
00:05:37,350 --> 00:05:35,280
to use to help with the investigation

160
00:05:38,790 --> 00:05:37,360
for for the show yeah just talk about

161
00:05:41,029 --> 00:05:38,800
that briefly

162
00:05:43,350 --> 00:05:41,039
yeah two two main pieces of evidence one

163
00:05:46,950 --> 00:05:43,360

we have a journal that belonged to jesse

164

00:05:48,230 --> 00:05:46,960

marcel senior so uh with a date with

165

00:05:50,150 --> 00:05:48,240

information

166

00:05:52,390 --> 00:05:50,160

logs in that journal capturing the range

167

00:05:54,710 --> 00:05:52,400

of the roswell experience so

168

00:05:56,550 --> 00:05:54,720

this this journal was found among few

169

00:05:58,309 --> 00:05:56,560

possessions passed down to his children

170

00:06:00,550 --> 00:05:58,319

right so this grand children and then

171

00:06:02,150 --> 00:06:00,560

grandchildren base they got a trunk and

172

00:06:05,189 --> 00:06:02,160

in the trunk with some clothes and stuff

173

00:06:07,270 --> 00:06:05,199

and then uh a little binder and in that

174

00:06:10,230 --> 00:06:07,280

binder was some military documents in

175

00:06:12,230 --> 00:06:10,240

this journal so right away like what of

176

00:06:13,590 --> 00:06:12,240

all the things to pass down

177

00:06:14,469 --> 00:06:13,600

the heirlooms that you could give to

178

00:06:20,230 --> 00:06:14,479

your

179

00:06:22,950 --> 00:06:20,240

this journal uh and when you crack it

180

00:06:25,110 --> 00:06:22,960

open it's got dates that span roswell

181

00:06:27,029 --> 00:06:25,120

and then also as a former intelligence

182

00:06:28,629 --> 00:06:27,039

option you can see that like something's

183

00:06:30,070 --> 00:06:28,639

off about it there's

184

00:06:31,510 --> 00:06:30,080

there's some cryptic

185

00:06:33,510 --> 00:06:31,520

jargon there's some language there's

186

00:06:36,710 --> 00:06:33,520

some interesting quotes but like there's

187

00:06:39,029 --> 00:06:36,720

no narrative and there's dates at every

188

00:06:41,510 --> 00:06:39,039

point so uh for me as for someone who

189

00:06:43,510 --> 00:06:41,520

has used sort of uh techniques to to

190

00:06:46,230 --> 00:06:43,520

capture inform information in plain

191

00:06:48,790 --> 00:06:46,240

sight like this seems like a

192

00:06:51,350 --> 00:06:48,800

a technique to either remember something

193

00:06:53,430 --> 00:06:51,360

to recall facts or or to hide something

194

00:06:54,870 --> 00:06:53,440

potentially through encryption so jumps

195

00:06:56,629 --> 00:06:54,880

out right away okay here's a primary

196

00:06:57,749 --> 00:06:56,639

source document these are rare and

197

00:06:59,189 --> 00:06:57,759

there's never been anything else that

198

00:07:00,550 --> 00:06:59,199

we've seen

199

00:07:03,670 --> 00:07:00,560

in the possession of a witness at

200

00:07:05,189 --> 00:07:03,680

roswell with um you know

201
00:07:07,270 --> 00:07:05,199
for that time period so of course then

202
00:07:09,589 --> 00:07:07,280
we had to authenticate it and then and

203
00:07:12,150 --> 00:07:09,599
go down that rabbit hole like who wrote

204
00:07:14,390 --> 00:07:12,160
it why what's in it can we decrypt it is

205
00:07:15,350 --> 00:07:14,400
there any any hidden messages

206
00:07:16,710 --> 00:07:15,360
uh

207
00:07:18,390 --> 00:07:16,720
the other piece of data that we had

208
00:07:21,189 --> 00:07:18,400
which was super interesting are the the

209
00:07:23,189 --> 00:07:21,199
new evidence was we using technology to

210
00:07:25,270 --> 00:07:23,199
go actually um do some forensic

211
00:07:26,629 --> 00:07:25,280
investigation of the crash site itself

212
00:07:28,710 --> 00:07:26,639
which has never been done before they've

213
00:07:30,550 --> 00:07:28,720

done some archaeological digs

214

00:07:32,550 --> 00:07:30,560

those are tend to be very focused

215

00:07:34,469 --> 00:07:32,560

and the the pyramiding is so hard you

216

00:07:36,469 --> 00:07:34,479

can only dig so deep and it can be quite

217

00:07:39,270 --> 00:07:36,479

onerous but to go out there get permits

218

00:07:42,790 --> 00:07:39,280

to bring some drone technology to image

219

00:07:45,189 --> 00:07:42,800

every little piece of sand on that um

220

00:07:46,869 --> 00:07:45,199

in multi-spectral in multi across the

221

00:07:47,990 --> 00:07:46,879

spectrum of you know radio frequencies

222

00:07:50,790 --> 00:07:48,000

right so we're looking at infrared we're

223

00:07:52,550 --> 00:07:50,800

looking for uh we we brought a gamma-ray

224

00:07:55,909 --> 00:07:52,560

a gamma radiation detector out there we

225

00:07:58,469 --> 00:07:55,919

brought all kinds of cool stuff gizmos

226

00:08:01,270 --> 00:07:58,479

to see is there anything left right can

227

00:08:02,550 --> 00:08:01,280

we find evidence of a ufo crash is there

228

00:08:03,430 --> 00:08:02,560

anything left to be found

229

00:08:05,029 --> 00:08:03,440

uh

230

00:08:07,270 --> 00:08:05,039

can we find anything that corroborates

231

00:08:08,790 --> 00:08:07,280

witness eyewitness reports uh like a

232

00:08:11,430 --> 00:08:08,800

gouge or something in the earth that

233

00:08:13,589 --> 00:08:11,440

might might represent a high impact of

234

00:08:15,749 --> 00:08:13,599

something into the earth and can we find

235

00:08:17,589 --> 00:08:15,759

any evidence of a cover-up so

236

00:08:19,830 --> 00:08:17,599

uh were there bulldozers out here

237

00:08:21,749 --> 00:08:19,840

removing stuff and cranes and large

238

00:08:24,309 --> 00:08:21,759

trucks and is there any evidence of a

239

00:08:26,469 --> 00:08:24,319

large-scale uh military footprint here

240

00:08:29,430 --> 00:08:26,479

so those are kind of things we're after

241

00:08:30,629 --> 00:08:29,440

going out to this uh this site um which

242

00:08:31,430 --> 00:08:30,639

hadn't been done before which is pretty

243

00:08:32,790 --> 00:08:31,440

fun

244

00:08:34,149 --> 00:08:32,800

wow that's great and am i right in

245

00:08:37,350 --> 00:08:34,159

saying that you also had somebody

246

00:08:38,790 --> 00:08:37,360

analyze the actual photo of major marcel

247

00:08:40,790 --> 00:08:38,800

with the weather

248

00:08:43,350 --> 00:08:40,800

balloon debris

249

00:08:46,790 --> 00:08:43,360

right so we brought in um some body

250

00:08:48,389 --> 00:08:46,800

language experts so well as a former uh

251
00:08:50,790 --> 00:08:48,399
intelligence officer you know i have to

252
00:08:52,470 --> 00:08:50,800
validate this vouch for everything that

253
00:08:54,389 --> 00:08:52,480
we do and say and we actually had a

254
00:08:56,310 --> 00:08:54,399
producers on this show were

255
00:08:57,750 --> 00:08:56,320
uh also a former journalist so very

256
00:09:00,630 --> 00:08:57,760
committed to

257
00:09:03,750 --> 00:09:00,640
backing up any any potential claims we

258
00:09:06,630 --> 00:09:03,760
make or vetting um eyewitness reports or

259
00:09:09,509 --> 00:09:06,640
or any evidence uh you know

260
00:09:10,949 --> 00:09:09,519
scientifically or uh you know as best

261
00:09:13,269 --> 00:09:10,959
scientifically as we can to prove that

262
00:09:13,990 --> 00:09:13,279
it in fact is what it what they say it

263
00:09:19,590 --> 00:09:14,000

is

264

00:09:21,430 --> 00:09:19,600

right well can we validate what they say

265

00:09:23,910 --> 00:09:21,440

so in this particular instance you know

266

00:09:26,150 --> 00:09:23,920

that uh jesse marcel

267

00:09:27,350 --> 00:09:26,160

um

268

00:09:29,430 --> 00:09:27,360

well there's two things we did for this

269

00:09:32,070 --> 00:09:29,440

photo sorry one is we

270

00:09:34,230 --> 00:09:32,080

we brought in jesse uh a body language

271

00:09:36,230 --> 00:09:34,240

expert to come in and read jesse's

272

00:09:39,269 --> 00:09:36,240

face and figures and family and looking

273

00:09:40,870 --> 00:09:39,279

at that across footage from different um

274

00:09:43,670 --> 00:09:40,880

sorry i'm waving my hands in front of

275

00:09:46,630 --> 00:09:43,680

the camera here but looking um

276

00:09:47,910 --> 00:09:46,640

looking at uh you know is jesse lying in

277

00:09:49,430 --> 00:09:47,920

this photo what is he saying what is his

278

00:09:51,110 --> 00:09:49,440

body communicating

279

00:09:53,350 --> 00:09:51,120

at a subconscious level that can't be

280

00:09:54,550 --> 00:09:53,360

determined and and to confirm some of

281

00:09:56,870 --> 00:09:54,560

the interesting things that his family

282

00:09:58,949 --> 00:09:56,880

claimed and he claimed and then also we

283

00:10:00,230 --> 00:09:58,959

were able to take a look at this um

284

00:10:02,470 --> 00:10:00,240

photograph

285

00:10:04,389 --> 00:10:02,480

and dive into it at the molecular level

286

00:10:06,949 --> 00:10:04,399

so using some some new imaging

287

00:10:09,590 --> 00:10:06,959

technology you know uh super super

288

00:10:10,710 --> 00:10:09,600

computers to process this to getting

289

00:10:11,910 --> 00:10:10,720

past just the kind of like the

290

00:10:14,150 --> 00:10:11,920

two-dimensional thing and actually

291

00:10:16,310 --> 00:10:14,160

looking at the silver grains inside the

292

00:10:18,550 --> 00:10:16,320

photo to see if we could tease out more

293

00:10:20,870 --> 00:10:18,560

details the general ramy memo right the

294

00:10:22,230 --> 00:10:20,880

famous memo uh and he's holding

295

00:10:25,269 --> 00:10:22,240

something in his hand

296

00:10:26,230 --> 00:10:25,279

um that's blurry uh well can we like

297

00:10:30,150 --> 00:10:26,240

enhance

298

00:10:31,509 --> 00:10:30,160

the molecular level and see like where

299

00:10:34,550 --> 00:10:31,519

are those connections being made in this

300

00:10:35,990 --> 00:10:34,560

lettering so we do you know everything

301
00:10:37,750 --> 00:10:36,000
someone says they have ufo debris we're

302
00:10:39,269 --> 00:10:37,760
going to test it oh we find something on

303
00:10:41,190 --> 00:10:39,279
the site we're going to test it you know

304
00:10:42,870 --> 00:10:41,200
uh just really bringing in that science

305
00:10:44,870 --> 00:10:42,880
and technology too

306
00:10:46,949 --> 00:10:44,880
to find answers

307
00:10:47,990 --> 00:10:46,959
excellent and did you look into where

308
00:10:49,829 --> 00:10:48,000
the

309
00:10:51,190 --> 00:10:49,839
debris may have possibly been taken

310
00:10:52,870 --> 00:10:51,200
after the

311
00:10:55,750 --> 00:10:52,880
you know the alleged crash

312
00:10:58,310 --> 00:10:55,760
uh so we started with the the series is

313
00:11:00,710 --> 00:10:58,320

titled first witness uh mostly because

314

00:11:02,310 --> 00:11:00,720

we focused on the roswell uh or the

315

00:11:04,150 --> 00:11:02,320

marcel family

316

00:11:06,150 --> 00:11:04,160

because he was the most credible witness

317

00:11:08,949 --> 00:11:06,160

uh apart from mac brazil who was there

318

00:11:10,710 --> 00:11:08,959

on on site as well yeah um and the first

319

00:11:12,949 --> 00:11:10,720

to experience this and potentially kept

320

00:11:15,990 --> 00:11:12,959

to breed it pass it on to his children

321

00:11:18,310 --> 00:11:16,000

uh so we focused on that and we i think

322

00:11:20,550 --> 00:11:18,320

in the latter we did chase down threads

323

00:11:22,550 --> 00:11:20,560

we don't get to them in the show and we

324

00:11:24,790 --> 00:11:22,560

weren't able to get finality on some of

325

00:11:28,949 --> 00:11:24,800

those um leads just because of the

326

00:11:31,030 --> 00:11:28,959

limited uh resources and time but um we

327

00:11:32,630 --> 00:11:31,040

do know from witnesses that it did it

328

00:11:34,630 --> 00:11:32,640

went to uh

329

00:11:36,790 --> 00:11:34,640

went to dallas the airfield of dallas

330

00:11:38,470 --> 00:11:36,800

and then it went on to a base in ohio

331

00:11:40,550 --> 00:11:38,480

and you know we did talk to some family

332

00:11:44,230 --> 00:11:40,560

members and some individuals who claimed

333

00:11:46,230 --> 00:11:44,240

that yeah my uncle was a pilot and um

334

00:11:48,230 --> 00:11:46,240

he was in charge of the logistics for

335

00:11:49,750 --> 00:11:48,240

that or for the father they didn't

336

00:11:51,110 --> 00:11:49,760

really make any of the show either but

337

00:11:52,710 --> 00:11:51,120

we did talk to plenty plenty of

338

00:11:54,550 --> 00:11:52,720

witnesses say yeah my father was a

339

00:11:56,230 --> 00:11:54,560

somebody on that flight and he said

340

00:11:58,790 --> 00:11:56,240

something crazy happened and it wasn't a

341

00:12:00,790 --> 00:11:58,800

weather balloon uh so just a lot of

342

00:12:01,910 --> 00:12:00,800

uh confirming tertiary evidence

343

00:12:04,389 --> 00:12:01,920

confirming kind of the general

344

00:12:06,629 --> 00:12:04,399

trajectory of events that came out um

345

00:12:08,230 --> 00:12:06,639

you know immediately after that big

346

00:12:10,310 --> 00:12:08,240

press release

347

00:12:11,829 --> 00:12:10,320

great now you mentioned that you met um

348

00:12:13,829 --> 00:12:11,839

leslie kane the new york times

349

00:12:16,389 --> 00:12:13,839

journalist and she was discussing her

350

00:12:19,030 --> 00:12:16,399

investigation into more recent events

351
00:12:20,230 --> 00:12:19,040
such as the 2004 nimitz encounter with

352
00:12:23,269 --> 00:12:20,240
the tic tac

353
00:12:27,350 --> 00:12:23,279
have you got any thoughts on that case

354
00:12:28,790 --> 00:12:27,360
uh uh well i not any probably not any

355
00:12:32,150 --> 00:12:28,800
more intelligent than other people have

356
00:12:34,790 --> 00:12:32,160
said i you know as a case officer uh my

357
00:12:36,069 --> 00:12:34,800
job was human uh collection so

358
00:12:37,829 --> 00:12:36,079
collecting from human sources i didn't

359
00:12:39,990 --> 00:12:37,839
really deal with technology

360
00:12:43,509 --> 00:12:40,000
only when it may have involved like

361
00:12:47,110 --> 00:12:43,519
foreign craft when i read uh when i read

362
00:12:49,590 --> 00:12:47,120
uh the cia's releases of uh declassified

363
00:12:51,590 --> 00:12:49,600

documents from the cia i see a lot of

364

00:12:54,150 --> 00:12:51,600

reports

365

00:12:55,910 --> 00:12:54,160

the ufo perspective is well

366

00:12:58,870 --> 00:12:55,920

someone said they saw a ufo well we

367

00:13:01,190 --> 00:12:58,880

think it's a um some advanced technology

368

00:13:04,069 --> 00:13:01,200

some advanced bomber some fighter uh you

369

00:13:06,069 --> 00:13:04,079

know maybe uh missile technology let's

370

00:13:06,790 --> 00:13:06,079

go collect on the ufo because it could

371

00:13:07,829 --> 00:13:06,800

be

372

00:13:10,389 --> 00:13:07,839

uh

373

00:13:12,710 --> 00:13:10,399

like an immediate threat in in known

374

00:13:14,150 --> 00:13:12,720

human capabilities so it was in my

375

00:13:15,910 --> 00:13:14,160

perspective in reading those documents

376

00:13:17,430 --> 00:13:15,920

it was never quite

377

00:13:19,590 --> 00:13:17,440

let's go after this information because

378

00:13:21,269 --> 00:13:19,600

we think we actually think it's a ufo it

379

00:13:23,350 --> 00:13:21,279

was always um

380

00:13:24,710 --> 00:13:23,360

uh something else like

381

00:13:26,470 --> 00:13:24,720

sure the witnesses says this but we

382

00:13:28,470 --> 00:13:26,480

actually think it's this uh in terms of

383

00:13:31,190 --> 00:13:28,480

the the the tic tac videos you know i'm

384

00:13:32,710 --> 00:13:31,200

as perplexed as anybody uh i think some

385

00:13:35,350 --> 00:13:32,720

of the uh

386

00:13:38,150 --> 00:13:35,360

the convincing

387

00:13:39,590 --> 00:13:38,160

uh idea or quote and i i have to look up

388

00:13:41,030 --> 00:13:39,600

the youtube video here i could send you

389

00:13:43,590 --> 00:13:41,040

the link afterwards but i'm sure you've

390

00:13:45,590 --> 00:13:43,600

seen it one of the pilots on a i found

391

00:13:49,990 --> 00:13:45,600

it on reddit i'm a big fan of the uh the

392

00:13:53,030 --> 00:13:50,000

ufo subreddit um uh

393

00:13:54,710 --> 00:13:53,040

uh one of the pilots that says look i've

394

00:13:57,030 --> 00:13:54,720

one of the who captured that footage i

395

00:13:58,550 --> 00:13:57,040

have seen things i wasn't supposed to

396

00:14:00,389 --> 00:13:58,560

see before

397

00:14:01,990 --> 00:14:00,399

in my mind that's experimental aircraft

398

00:14:03,990 --> 00:14:02,000

that's experimental missile technology

399

00:14:05,350 --> 00:14:04,000

something he's seen it before every time

400

00:14:07,269 --> 00:14:05,360

that happens

401
00:14:09,910 --> 00:14:07,279
as soon as he gets off that place that

402
00:14:13,030 --> 00:14:09,920
plane somebody's on that airplane on

403
00:14:14,870 --> 00:14:13,040
that airfield getting him to sign an nda

404
00:14:17,590 --> 00:14:14,880
and and he says you know

405
00:14:18,870 --> 00:14:17,600
at this point like nope there was nobody

406
00:14:21,670 --> 00:14:18,880
nobody came

407
00:14:23,350 --> 00:14:21,680
to make me sign an nda and to me that's

408
00:14:26,230 --> 00:14:23,360
pretty convincing that

409
00:14:27,910 --> 00:14:26,240
um you know that is something if it is

410
00:14:29,910 --> 00:14:27,920
truly experimental

411
00:14:31,269 --> 00:14:29,920
few i don't think any government agency

412
00:14:33,110 --> 00:14:31,279
would risk something like that getting

413
00:14:35,670 --> 00:14:33,120

out exposed and they would certainly

414

00:14:37,430 --> 00:14:35,680

enforce an nda so that was pretty

415

00:14:38,949 --> 00:14:37,440

convincing for me but that's you know

416

00:14:41,509 --> 00:14:38,959

the best that i have to go on and my

417

00:14:43,430 --> 00:14:41,519

experience you know with that kind of

418

00:14:45,269 --> 00:14:43,440

field

419

00:14:47,590 --> 00:14:45,279

excellent so just going back to the

420

00:14:49,509 --> 00:14:47,600

roswell case um and your investigations

421

00:14:51,670 --> 00:14:49,519

how did it feel towards the end or at

422

00:14:53,590 --> 00:14:51,680

the end of the investigation speaking

423

00:14:55,509 --> 00:14:53,600

with the the grandchildren of jesse

424

00:14:57,110 --> 00:14:55,519

martial senior were they

425

00:15:00,710 --> 00:14:57,120

you know what how did they feel about

426

00:15:04,870 --> 00:15:02,310

uh they were they were quite pleased i

427

00:15:07,189 --> 00:15:04,880

felt um we were able to

428

00:15:09,430 --> 00:15:07,199

establish just a great rapport and great

429

00:15:11,509 --> 00:15:09,440

connection and i think they were really

430

00:15:13,910 --> 00:15:11,519

finally pleased that their grandfather

431

00:15:16,790 --> 00:15:13,920

was being vindicated right that there

432

00:15:18,870 --> 00:15:16,800

was a mountain of evidence and others

433

00:15:21,269 --> 00:15:18,880

who came out to say the same thing i

434

00:15:22,870 --> 00:15:21,279

feel like they felt that he had been

435

00:15:24,550 --> 00:15:22,880

burned a little bit by the government

436

00:15:25,910 --> 00:15:24,560

that they had they hadn't backed him up

437

00:15:28,310 --> 00:15:25,920

on what he saw and they threw him under

438

00:15:29,829 --> 00:15:28,320

the bus when it was convenient and um

439

00:15:31,030 --> 00:15:29,839

and and you know maligned his

440

00:15:34,389 --> 00:15:31,040

credibility

441

00:15:37,030 --> 00:15:34,399

and to research this and finally no he

442

00:15:38,230 --> 00:15:37,040

he wasn't crazy he wasn't a liar

443

00:15:40,069 --> 00:15:38,240

um

444

00:15:41,910 --> 00:15:40,079

do we have 100

445

00:15:44,230 --> 00:15:41,920

certainty do as an investigator do i

446

00:15:46,790 --> 00:15:44,240

have 100 certainty that he

447

00:15:48,470 --> 00:15:46,800

had possession of a ufo in his hands i

448

00:15:50,790 --> 00:15:48,480

don't have that yet that's what i need

449

00:15:52,790 --> 00:15:50,800

but uh do i believe him that he believed

450

00:15:55,269 --> 00:15:52,800

it yes do i think he was lying to

451
00:15:58,230 --> 00:15:55,279
himself and others for fame or for

452
00:15:59,829 --> 00:15:58,240
uh you know a last hurrah before you

453
00:16:02,710 --> 00:15:59,839
know in his old age no i don't i think

454
00:16:04,150 --> 00:16:02,720
he was telling the truth and uh for

455
00:16:06,710 --> 00:16:04,160
the family to go through that

456
00:16:08,230 --> 00:16:06,720
investigation with me and watch me

457
00:16:12,230 --> 00:16:08,240
kind of arrived to the same conclusion

458
00:16:13,829 --> 00:16:12,240
was very uh validating for them and um

459
00:16:14,949 --> 00:16:13,839
it was yeah it was just a great

460
00:16:15,990 --> 00:16:14,959
experience to be involved with the

461
00:16:17,910 --> 00:16:16,000
family

462
00:16:20,790 --> 00:16:17,920
excellent i'm really glad to hear that

463
00:16:22,629 --> 00:16:20,800

um so finally my last real question is

464

00:16:25,749 --> 00:16:22,639

after all of this

465

00:16:28,310 --> 00:16:25,759

what do you think crashed on that day in

466

00:16:29,189 --> 00:16:28,320

1947

467

00:16:30,550 --> 00:16:29,199

ah

468

00:16:32,870 --> 00:16:30,560

well there's still this is the

469

00:16:35,350 --> 00:16:32,880

frustration of doing a tv show is that

470

00:16:36,870 --> 00:16:35,360

there's still evidence out there um you

471

00:16:38,470 --> 00:16:36,880

know like the show ended we ran it we

472

00:16:39,829 --> 00:16:38,480

went we blew through our budget in

473

00:16:42,389 --> 00:16:39,839

record time

474

00:16:44,470 --> 00:16:42,399

uh and then covet hit so we didn't get

475

00:16:47,110 --> 00:16:44,480

to investigate all of the little leads

476
00:16:49,509 --> 00:16:47,120
that we had yet to tie off and you know

477
00:16:50,629 --> 00:16:49,519
as any this is an expense this is the

478
00:16:51,749 --> 00:16:50,639
interesting

479
00:16:58,150 --> 00:16:51,759
uh

480
00:17:00,710 --> 00:16:58,160
journalism and and like scientific um

481
00:17:02,870 --> 00:17:00,720
research right all of that costs money

482
00:17:04,630 --> 00:17:02,880
and to do something of this magnitude

483
00:17:05,429 --> 00:17:04,640
cost a lot of money and there there are

484
00:17:06,789 --> 00:17:05,439
no

485
00:17:09,110 --> 00:17:06,799
institutions that are going to risk

486
00:17:12,230 --> 00:17:09,120
their credibility giving any one of

487
00:17:13,909 --> 00:17:12,240
their doctorates or phd candidates

488
00:17:14,630 --> 00:17:13,919

money to go research something like this

489

00:17:16,309 --> 00:17:14,640

so

490

00:17:19,189 --> 00:17:16,319

we don't get that level of scientific

491

00:17:21,829 --> 00:17:19,199

scrutiny that that we want uh and then

492

00:17:24,150 --> 00:17:21,839

you know the the media side has to make

493

00:17:26,390 --> 00:17:24,160

money on this stuff uh to keep the the

494

00:17:28,390 --> 00:17:26,400

dream alive to hopefully do more to take

495

00:17:30,470 --> 00:17:28,400

on other projects that have public or

496

00:17:32,150 --> 00:17:30,480

public interest uh

497

00:17:34,310 --> 00:17:32,160

and yet sometimes there's not enough

498

00:17:36,870 --> 00:17:34,320

like people they want complete and

499

00:17:38,630 --> 00:17:36,880

answers every time and these things take

500

00:17:40,549 --> 00:17:38,640

multiple seasons and nobody's doing this

501
00:17:42,870 --> 00:17:40,559
for charity right like it's there are a

502
00:17:44,549 --> 00:17:42,880
few people who do it for their uh their

503
00:17:46,789 --> 00:17:44,559
their their own

504
00:17:48,549 --> 00:17:46,799
uh passion like some of the famous

505
00:17:50,870 --> 00:17:48,559
researchers researchers out there like

506
00:17:52,950 --> 00:17:50,880
don schmidt and others who do this

507
00:17:55,669 --> 00:17:52,960
their whole lives they put into this

508
00:17:57,909 --> 00:17:55,679
project uh so a program like this falls

509
00:18:00,950 --> 00:17:57,919
right in the middle that we are

510
00:18:03,350 --> 00:18:00,960
we have to attract people to watch this

511
00:18:05,190 --> 00:18:03,360
show because it's cool and it's exciting

512
00:18:07,510 --> 00:18:05,200
and we do make progress in answering

513
00:18:09,669 --> 00:18:07,520

some pretty uh parts of this mystery

514

00:18:11,029 --> 00:18:09,679

that were unsolved before

515

00:18:12,549 --> 00:18:11,039

but the the journey's not over and

516

00:18:14,470 --> 00:18:12,559

there's more to collect so you know if

517

00:18:16,789 --> 00:18:14,480

it's successful if the show

518

00:18:18,390 --> 00:18:16,799

uh attracts enough viewers uh we can

519

00:18:19,909 --> 00:18:18,400

justify going like these shows are

520

00:18:22,470 --> 00:18:19,919

expensive like really really expensive

521

00:18:23,669 --> 00:18:22,480

to make uh and it's a taking a lot of

522

00:18:25,990 --> 00:18:23,679

risk to

523

00:18:27,909 --> 00:18:26,000

to to send a whole film crew and live

524

00:18:29,909 --> 00:18:27,919

out in the desert for six weeks you know

525

00:18:32,230 --> 00:18:29,919

out at the crash site which is what we

526

00:18:35,190 --> 00:18:32,240

did you know it's it's insane but

527

00:18:37,190 --> 00:18:35,200

um except to say that like this is um

528

00:18:38,549 --> 00:18:37,200

you know it's a balance and we did the

529

00:18:39,830 --> 00:18:38,559

best we can and there's more there's

530

00:18:41,190 --> 00:18:39,840

more to find out so at the end of the

531

00:18:42,950 --> 00:18:41,200

day what do i believe

532

00:18:45,909 --> 00:18:42,960

i'm still waiting the jury's out we we

533

00:18:47,190 --> 00:18:45,919

got a few pings of some strange readings

534

00:18:49,110 --> 00:18:47,200

in that debris field i think there's

535

00:18:51,029 --> 00:18:49,120

something still buried there

536

00:18:54,230 --> 00:18:51,039

whether that's um

537

00:18:57,750 --> 00:18:54,240

you know if it's if it's a neoprene

538

00:18:59,909 --> 00:18:57,760

uh tin foil coded neoprene

539

00:19:02,150 --> 00:18:59,919

that could support the mogul theory that

540

00:19:04,470 --> 00:19:02,160

this was a top secret you know listening

541

00:19:09,750 --> 00:19:04,480

device flown over the soviet union

542

00:19:14,549 --> 00:19:11,909

now it raises all new kinds of questions

543

00:19:15,909 --> 00:19:14,559

we did kind we did plenty of testing on

544

00:19:17,430 --> 00:19:15,919

debris

545

00:19:20,630 --> 00:19:17,440

that people volunteered that they had

546

00:19:22,789 --> 00:19:20,640

collected from the debris field um and

547

00:19:25,990 --> 00:19:22,799

uh the reports were inconclusive we

548

00:19:28,230 --> 00:19:26,000

would need to destroy the actual

549

00:19:30,470 --> 00:19:28,240

uh piece of evidence to determine

550

00:19:32,230 --> 00:19:30,480

whether it was extraterrestrial aluminum

551
00:19:34,390 --> 00:19:32,240
like that alloy that some of the

552
00:19:37,110 --> 00:19:34,400
isotopes in that piece of metal were

553
00:19:39,029 --> 00:19:37,120
were shaped outside of

554
00:19:41,110 --> 00:19:39,039
you know earth's origins

555
00:19:42,789 --> 00:19:41,120
well then uh we need to destroy it and

556
00:19:44,150 --> 00:19:42,799
well then

557
00:19:46,870 --> 00:19:44,160
who's going to give up their the one

558
00:19:48,070 --> 00:19:46,880
piece of roswell debris so

559
00:19:49,830 --> 00:19:48,080
uh

560
00:19:51,190 --> 00:19:49,840
but you know if we continue this

561
00:19:53,190 --> 00:19:51,200
investigation long enough we could

562
00:19:55,669 --> 00:19:53,200
attract enough attention bring enough

563
00:19:57,510 --> 00:19:55,679

credibility to it from the um you know

564

00:19:59,350 --> 00:19:57,520

the media or the government perspective

565

00:20:01,029 --> 00:19:59,360

maybe we can force more openness and

566

00:20:03,590 --> 00:20:01,039

honesty on this issue because i

567

00:20:05,110 --> 00:20:03,600

personally you know i i think that i

568

00:20:07,110 --> 00:20:05,120

don't buy the mobile

569

00:20:08,710 --> 00:20:07,120

i don't buy the mogul balloon project i

570

00:20:10,710 --> 00:20:08,720

don't think the evidence the facts

571

00:20:12,630 --> 00:20:10,720

support that um

572

00:20:13,909 --> 00:20:12,640

i think the government was lying about

573

00:20:16,230 --> 00:20:13,919

the cover-up i think there was a

574

00:20:18,950 --> 00:20:16,240

cover-up i think that there's still

575

00:20:21,270 --> 00:20:18,960

information out there hidden whether

576

00:20:23,350 --> 00:20:21,280

willfully or just through negligence or

577

00:20:25,270 --> 00:20:23,360

just through time because it happens

578

00:20:26,630 --> 00:20:25,280

over time uh you know there's but

579

00:20:28,070 --> 00:20:26,640

there's boxes of information still

580

00:20:29,590 --> 00:20:28,080

around that if people took this

581

00:20:31,270 --> 00:20:29,600

seriously they could find and they could

582

00:20:32,870 --> 00:20:31,280

disclose um

583

00:20:34,070 --> 00:20:32,880

but um

584

00:20:36,950 --> 00:20:34,080

and i think it's there i think it's

585

00:20:38,870 --> 00:20:36,960

there to be found so i i i hope that um

586

00:20:41,669 --> 00:20:38,880

the government starts taking more

587

00:20:43,990 --> 00:20:41,679

accountability for uh cover stories

588

00:20:46,950 --> 00:20:44,000

things that it uses to sell

589

00:20:49,909 --> 00:20:46,960

um secret programs to the to the public

590

00:20:50,789 --> 00:20:49,919

i think the the pendulum is swinging now

591

00:20:53,909 --> 00:20:50,799

where

592

00:20:55,830 --> 00:20:53,919

the it we're seeing the the negative uh

593

00:20:57,510 --> 00:20:55,840

side of that the the unexpected

594

00:20:59,590 --> 00:20:57,520

consequences of

595

00:21:01,750 --> 00:20:59,600

something like that where now we have we

596

00:21:03,430 --> 00:21:01,760

have a crisis of trust in government

597

00:21:05,190 --> 00:21:03,440

which is something that i think

598

00:21:07,750 --> 00:21:05,200

disclosure and certainly and more

599

00:21:10,549 --> 00:21:07,760

honesty on these issues uh could really

600

00:21:11,590 --> 00:21:10,559

could uh bridge bridge that gap so i

601
00:21:14,149 --> 00:21:11,600
think there's a lot of work to be done

602
00:21:17,510 --> 00:21:14,159
but so that's a long way of saying like

603
00:21:18,710 --> 00:21:17,520
i i'm still agnostic i i'm true i i

604
00:21:20,950 --> 00:21:18,720
totally believe

605
00:21:22,870 --> 00:21:20,960
that marcel family and and jesse

606
00:21:24,950 --> 00:21:22,880
marcel's experience but i need that

607
00:21:28,149 --> 00:21:24,960
evidence and i don't have it yet but

608
00:21:31,430 --> 00:21:28,159
there are some clues indicating that uh

609
00:21:32,390 --> 00:21:31,440
and more and more more information to be

610
00:21:34,230 --> 00:21:32,400
found

611
00:21:35,190 --> 00:21:34,240
that could validate what the witnesses

612
00:21:36,870 --> 00:21:35,200
are saying

613
00:21:38,630 --> 00:21:36,880

coming into this i thought well this is

614

00:21:39,909 --> 00:21:38,640

going to be a two-week investigation

615

00:21:41,669 --> 00:21:39,919

because it's gonna i'm gonna sit down

616

00:21:44,310 --> 00:21:41,679

with the interviewer with the look at

617

00:21:45,990 --> 00:21:44,320

this not the suspect or the uh it's

618

00:21:47,190 --> 00:21:46,000

gonna sit down with the uh

619

00:21:48,870 --> 00:21:47,200

the uh

620

00:21:50,870 --> 00:21:48,880

interviewee

621

00:21:52,870 --> 00:21:50,880

and the subject and i'm gonna say it's

622

00:21:55,029 --> 00:21:52,880

gonna take me about 10 15 minutes to get

623

00:21:56,870 --> 00:21:55,039

an emotional feel for this person

624

00:21:59,190 --> 00:21:56,880

20 10 15 minutes to hear the length of

625

00:22:01,190 --> 00:21:59,200

the story maybe three or four hours or

626

00:22:02,310 --> 00:22:01,200

days to sort of cross-examine with

627

00:22:03,510 --> 00:22:02,320

different kinds of questions from

628

00:22:05,510 --> 00:22:03,520

different angles to see about

629

00:22:07,270 --> 00:22:05,520

consistency and whether there are gaps

630

00:22:10,230 --> 00:22:07,280

in the story or whether things where i'm

631

00:22:11,430 --> 00:22:10,240

getting signals of a deception i thought

632

00:22:14,310 --> 00:22:11,440

that i would do that a couple times and

633

00:22:16,630 --> 00:22:14,320

i'd see oh okay well this is um

634

00:22:17,909 --> 00:22:16,640

there's not really much here except that

635

00:22:19,590 --> 00:22:17,919

every time i did this it raised new

636

00:22:21,510 --> 00:22:19,600

questions that we could chase and then

637

00:22:23,669 --> 00:22:21,520

it it ended up turning up new witnesses

638

00:22:26,310 --> 00:22:23,679

or new new information um and things

639

00:22:27,750 --> 00:22:26,320

that had not been pursued before

640

00:22:28,950 --> 00:22:27,760

so i was totally confused you know by

641

00:22:30,310 --> 00:22:28,960

the end i'm like

642

00:22:32,149 --> 00:22:30,320

i'm supposed to have an answer people

643

00:22:33,350 --> 00:22:32,159

want answers and i don't

644

00:22:35,190 --> 00:22:33,360

but i think

645

00:22:37,830 --> 00:22:35,200

i think it's exciting and i think we're

646

00:22:40,390 --> 00:22:37,840

on the right we're on the right path

647

00:22:42,710 --> 00:22:40,400

excellent that's so fantastic and i

648

00:22:45,430 --> 00:22:42,720

cannot wait to to see the show over here

649

00:22:46,870 --> 00:22:45,440
