doing well i've been living vicariously

24

00:01:27,910 --> 00:01:26,000

through you and your your photos from

25

00:01:29,990 --> 00:01:27,920

your amazing weekend this uh last couple

26

00:01:31,510 --> 00:01:30,000

days but uh

27

00:01:34,630 --> 00:01:31,520

i'm doing well

28

00:01:36,230 --> 00:01:34,640

good man yeah yeah it was a blast um but

29

00:01:38,230 --> 00:01:36,240

listen man we're here we're here to talk

30

00:01:39,910 --> 00:01:38,240

and talk to you man i've been wanting to

31

00:01:41,510 --> 00:01:39,920

speak to you for quite some time we've

32

00:01:44,069 --> 00:01:41,520

we've crossed paths a couple of times

33

00:01:46,310 --> 00:01:44,079

you know on sean's channel and that but

34

00:01:49,510 --> 00:01:46,320

yeah i'm really interested to get into

35

00:01:51,270 --> 00:01:49,520

into all about you tonight so um

36

00:01:53,990 --> 00:01:51,280

let's kick it off quite quite simply

37

00:01:55,270 --> 00:01:54,000

with what got you interested in in ufos

38

00:01:57,670 --> 00:01:55,280

man

39

00:01:58,389 --> 00:01:57,680

yeah i mean i was interested in ufos i

40

00:01:59,910 --> 00:01:58,399

mean

41

00:02:01,190 --> 00:01:59,920

kind of as long as i can remember right

42

00:02:03,670 --> 00:02:01,200

i've always been fascinated in the

43

00:02:05,830 --> 00:02:03,680

sci-fi and the weird uh it's been mostly

44

00:02:07,429 --> 00:02:05,840

kind of uh i treated it as entertainment

45

00:02:09,749 --> 00:02:07,439

mostly for most of my life you know i've

46

00:02:11,430 --> 00:02:09,759

watched x-files all the fun movies and

47

00:02:14,390 --> 00:02:11,440

stuff about the paranormal you know it

48

00:02:16,229 --> 00:02:14,400

really wasn't until 2017 with uh i think

49

00:02:18,309 --> 00:02:16,239

a similar story to a lot of people where

50

00:02:19,350 --> 00:02:18,319

i saw that new york times article and

51
00:02:20,390 --> 00:02:19,360
suddenly

52
00:02:22,470 --> 00:02:20,400
the

53
00:02:24,790 --> 00:02:22,480
entertaining weirdness became

54
00:02:26,309 --> 00:02:24,800
real and i've been you know digging in

55
00:02:27,830 --> 00:02:26,319
into you know the stuff that i might

56
00:02:29,830 --> 00:02:27,840
have considered a little bit too out

57
00:02:31,830 --> 00:02:29,840
there before and

58
00:02:33,990 --> 00:02:31,840
realizing that some of it

59
00:02:35,670 --> 00:02:34,000
might be true all of it might be true so

60
00:02:36,869 --> 00:02:35,680
you know i've been digging in more and

61
00:02:39,990 --> 00:02:36,879
more and

62
00:02:41,589 --> 00:02:40,000
uh you know about a year and a half ago

63
00:02:43,030 --> 00:02:41,599

now you know during the whole quarantine

64

00:02:45,110 --> 00:02:43,040

time i

65

00:02:47,350 --> 00:02:45,120

you know i i found a lot of stuff that i

66

00:02:49,030 --> 00:02:47,360

didn't get a lot of traction in the you

67

00:02:50,949 --> 00:02:49,040

know channels and the stuff that i was

68

00:02:52,470 --> 00:02:50,959

following so i

69

00:02:55,270 --> 00:02:52,480

kind of felt the need to you know put

70

00:02:57,110 --> 00:02:55,280

those ideas out there myself and uh see

71

00:02:58,630 --> 00:02:57,120

see where they fell

72

00:03:00,470 --> 00:02:58,640

that's incredible and you're right i

73

00:03:02,550 --> 00:03:00,480

think a lot of people really did

74

00:03:05,110 --> 00:03:02,560

it changed their view on the subject

75

00:03:07,910 --> 00:03:05,120

when when the thing when december 2017

76

00:03:09,270 --> 00:03:07,920

came along um

77

00:03:10,710 --> 00:03:09,280

so what were your first initial thoughts

78

00:03:12,949 --> 00:03:10,720

when you saw things like the tic tac

79

00:03:14,790 --> 00:03:12,959

video and go fasting gimbal was it was

80

00:03:16,630 --> 00:03:14,800

it i mean as good for you as it was for

81

00:03:21,350 --> 00:03:16,640

me

82

00:03:24,229 --> 00:03:21,360

i was more amazed by like the the actual

83

00:03:25,750 --> 00:03:24,239

written stuff in the story right like um

84

00:03:27,589 --> 00:03:25,760

those videos you know you look at them

85

00:03:28,869 --> 00:03:27,599

alone and you

86

00:03:30,390 --> 00:03:28,879

it's hard to know what's going on there

87

00:03:32,869 --> 00:03:30,400

right but then when you read the

88

00:03:35,190 --> 00:03:32,879

associated stuff with them and you read

89

00:03:37,509 --> 00:03:35,200

that they're talking about you know

90

00:03:39,990 --> 00:03:37,519

storing captured craft and stuff like

91

00:03:41,670 --> 00:03:40,000

that in the new york times and it's

92

00:03:43,270 --> 00:03:41,680

you know you you it's almost

93

00:03:45,430 --> 00:03:43,280

unbelievable right but then you see that

94

00:03:47,990 --> 00:03:45,440

it's coming from reputable you know

95

00:03:50,390 --> 00:03:48,000

pulitzer prize-winning journalists and

96

00:03:52,070 --> 00:03:50,400

yeah yeah yeah so now it was as big as i

97

00:03:53,509 --> 00:03:52,080

think it was probably as big for me as

98

00:03:54,949 --> 00:03:53,519

it was for you it was

99

00:03:57,110 --> 00:03:54,959

pretty groundbreaking

100

00:03:58,869 --> 00:03:57,120

awesome awesome now i'm just checking

101
00:04:00,949 --> 00:03:58,879
the chat out and i think that seems to

102
00:04:02,229 --> 00:04:00,959
be a big question that everyone wants to

103
00:04:05,429 --> 00:04:02,239
really know

104
00:04:06,710 --> 00:04:05,439
is where did the name come from

105
00:04:09,270 --> 00:04:06,720
it's a

106
00:04:11,030 --> 00:04:09,280
honest statement about what i usually

107
00:04:12,470 --> 00:04:11,040
feel because i i would rather be

108
00:04:15,270 --> 00:04:12,480
quitting a lot of the time squidding is

109
00:04:17,830 --> 00:04:15,280
a phenomenally fun activity you go down

110
00:04:19,990 --> 00:04:17,840
to the uh the docks of the uh the puget

111
00:04:21,990 --> 00:04:20,000
sound here which is a nice kind of quiet

112
00:04:24,550 --> 00:04:22,000
body of water attached to the ocean and

113
00:04:28,150 --> 00:04:24,560

you go at night and people shine giant

114

00:04:30,870 --> 00:04:28,160

lights into the ocean and so you can see

115

00:04:33,510 --> 00:04:30,880

sometimes you'll see squid and uh

116

00:04:35,189 --> 00:04:33,520

octopuses and you know sea lions and

117

00:04:36,710 --> 00:04:35,199

stuff like that illuminated in the the

118

00:04:38,390 --> 00:04:36,720

darkness below and

119

00:04:39,830 --> 00:04:38,400

you know you're waiting for the schools

120

00:04:42,150 --> 00:04:39,840

of squid to come and then you just kind

121

00:04:44,070 --> 00:04:42,160

of pluck them out of the water and fry

122

00:04:47,110 --> 00:04:44,080

them up the next day for calamari and uh

123

00:04:49,990 --> 00:04:47,120

yeah so it's a great fun activity

124

00:04:52,070 --> 00:04:50,000

that sounds amazing man like every

125

00:04:53,590 --> 00:04:52,080

aspect of it from being out on the water

126
00:04:54,469 --> 00:04:53,600
seeing everything under the water to

127
00:04:55,749 --> 00:04:54,479
then

128
00:04:58,310 --> 00:04:55,759
the end of the day when you're cooking

129
00:04:59,749 --> 00:04:58,320
it up man that sounds incredible i know

130
00:05:01,510 --> 00:04:59,759
it's win-win

131
00:05:03,590 --> 00:05:01,520
definitely man that's that's that's

132
00:05:05,430 --> 00:05:03,600
awesome so thank you for clarifying that

133
00:05:07,510 --> 00:05:05,440
i hope everyone is content with the

134
00:05:09,909 --> 00:05:07,520
answer

135
00:05:11,670 --> 00:05:09,919
so listen have you ever had a sighting

136
00:05:12,790 --> 00:05:11,680
or anything anomalous you know in the

137
00:05:15,990 --> 00:05:12,800
sky that you haven't been able to

138
00:05:19,749 --> 00:05:17,110

nothing

139

00:05:21,990 --> 00:05:19,759

no unfortunately not i maybe fortunately

140

00:05:23,990 --> 00:05:22,000

not actually

141

00:05:26,790 --> 00:05:24,000

no it's the same as me man i'm in the

142

00:05:28,629 --> 00:05:26,800

same boat so um

143

00:05:30,150 --> 00:05:28,639

yeah it's one of them um let's talk

144

00:05:32,629 --> 00:05:30,160

about ucr because obviously you're a

145

00:05:34,950 --> 00:05:32,639

regular co-host on uci it's a big show

146

00:05:37,350 --> 00:05:34,960

now it's followed by a lot of people how

147

00:05:38,790 --> 00:05:37,360

did your involvement come about

148

00:05:41,110 --> 00:05:38,800

yeah i i

149

00:05:43,350 --> 00:05:41,120

learned about ucr from the the big phone

150

00:05:44,950 --> 00:05:43,360

home the first event they threw and uh

151
00:05:46,870 --> 00:05:44,960
you know that really kind of introduced

152
00:05:49,270 --> 00:05:46,880
me to a lot of ufo twitter and a lot of

153
00:05:51,189 --> 00:05:49,280
youtube channels and uh

154
00:05:54,629 --> 00:05:51,199
and you know after that i you know tuned

155
00:05:56,309 --> 00:05:54,639
into lou's show uh and yeah

156
00:05:59,029 --> 00:05:56,319
i actually i kind of i heard them bound

157
00:06:01,270 --> 00:05:59,039
mouthing uh mick west i called it a

158
00:06:03,110 --> 00:06:01,280
couple times to uh defend my man vick's

159
00:06:05,510 --> 00:06:03,120
honor which like gets some mixed

160
00:06:06,870 --> 00:06:05,520
reactions to the chat but uh

161
00:06:08,390 --> 00:06:06,880
called it a couple times and you know i

162
00:06:09,909 --> 00:06:08,400
kind of you know jived pretty well with

163
00:06:11,909 --> 00:06:09,919

them and uh they

164

00:06:13,350 --> 00:06:11,919

asked me to come on and be a little bit

165

00:06:16,070 --> 00:06:13,360

more involved and it kind of snowballed

166

00:06:19,749 --> 00:06:16,080

from there now i find myself there

167

00:06:21,110 --> 00:06:19,759

uh three times a week at least and

168

00:06:22,870 --> 00:06:21,120

join the wonderful conversations that

169

00:06:25,110 --> 00:06:22,880

happened there i think it's a real real

170

00:06:26,710 --> 00:06:25,120

fun thing to be a part of

171

00:06:29,590 --> 00:06:26,720

yeah excellent and you mentioned mick

172

00:06:31,830 --> 00:06:29,600

west now i'm a firm believer in we

173

00:06:34,070 --> 00:06:31,840

skeptics are accepted in this community

174

00:06:35,909 --> 00:06:34,080

and i know mick west gets he gets a bad

175

00:06:37,670 --> 00:06:35,919

rap by obviously from a lot of people

176

00:06:40,070 --> 00:06:37,680

i've spoken to mick on this channel you

177

00:06:42,309 --> 00:06:40,080

know i like to hear every angle i don't

178

00:06:44,550 --> 00:06:42,319

want to just sit in a narrow a narrow

179

00:06:47,270 --> 00:06:44,560

chamber an echo chamber or

180

00:06:48,550 --> 00:06:47,280

and not get every aspect of it so

181

00:06:49,909 --> 00:06:48,560

how do you feel about him do you feel

182

00:06:51,909 --> 00:06:49,919

like he is

183

00:06:53,749 --> 00:06:51,919

um acceptable do you think he goes too

184

00:06:56,629 --> 00:06:53,759

far sometimes or do you think he asks

185

00:06:58,790 --> 00:06:56,639

the right questions yeah i think he's a

186

00:07:01,029 --> 00:06:58,800

integral part of you know whatever this

187

00:07:03,110 --> 00:07:01,039

community is because you know i don't

188

00:07:04,309 --> 00:07:03,120

necessarily agree with him on everything

189

00:07:05,270 --> 00:07:04,319

but

190

00:07:53,670 --> 00:07:05,280

i

191

00:07:55,350 --> 00:07:53,680

so

192

00:07:56,869 --> 00:07:55,360

yeah yeah you migrate could be correct

193

00:07:59,029 --> 00:07:56,879

about everything and he could still be

194

00:08:00,629 --> 00:07:59,039

wrong about there being aliens and ufos

195

00:08:01,430 --> 00:08:00,639

in our atmosphere

196

00:08:04,230 --> 00:08:01,440

yeah

197

00:08:06,070 --> 00:08:04,240

no no i appreciate that that answer and

198

00:08:08,390 --> 00:08:06,080

yeah i think we do need skeptics i think

199

00:08:11,670 --> 00:08:08,400

it makes the other side of the coin

200

00:08:13,990 --> 00:08:11,680

people work harder you know it brings a

201
00:08:16,469 --> 00:08:14,000
balance to the subject and i do believe

202
00:08:18,869 --> 00:08:16,479
sometimes personally that mick

203
00:08:20,390 --> 00:08:18,879
does kind of tend to go too far over the

204
00:08:21,990 --> 00:08:20,400
edge but you know

205
00:08:23,589 --> 00:08:22,000
it is what it is

206
00:08:32,310 --> 00:08:23,599
um

207
00:08:34,230 --> 00:08:32,320
one thing i wanted to ask you is

208
00:08:35,990 --> 00:08:34,240
when you when it com came to starting

209
00:08:37,670 --> 00:08:36,000
your own channel

210
00:08:41,029 --> 00:08:37,680
did you have a kind of direction that

211
00:08:42,870 --> 00:08:41,039
you wanted to go in was it trying to be

212
00:08:44,630 --> 00:08:42,880
a different type of channel to all the

213
00:08:46,949 --> 00:08:44,640

other ones out there because you do

214

00:08:47,910 --> 00:08:46,959

focus a lot very scientifically based i

215

00:08:49,350 --> 00:08:47,920

mean that's

216

00:08:51,350 --> 00:08:49,360

that's one thing i absolutely love about

217

00:08:53,750 --> 00:08:51,360

your channel and is that a background

218

00:08:56,070 --> 00:08:53,760

you have or is that just pure research

219

00:08:57,030 --> 00:08:56,080

yeah no i i appreciate that um you know

220

00:08:58,550 --> 00:08:57,040

i kind of

221

00:09:01,750 --> 00:08:58,560

fell into that kind of

222

00:09:03,430 --> 00:09:01,760

science uh niche there uh you know the

223

00:09:05,350 --> 00:09:03,440

science aspect really interests me and

224

00:09:06,389 --> 00:09:05,360

you know it's really interested me as i

225

00:09:08,310 --> 00:09:06,399

you know

226

00:09:10,389 --> 00:09:08,320

look on reddit and the on science

227

00:09:12,790 --> 00:09:10,399

reddits and the recent developments and

228

00:09:14,870 --> 00:09:12,800

there's a lot of developments that

229

00:09:16,870 --> 00:09:14,880

seem like they could very well relate to

230

00:09:19,110 --> 00:09:16,880

the ufo issue but people aren't really

231

00:09:19,829 --> 00:09:19,120

connecting those dots so you know i've

232

00:09:20,630 --> 00:09:19,839

i

233

00:09:22,150 --> 00:09:20,640

as

234

00:09:23,670 --> 00:09:22,160

one of the most you know i really find

235

00:09:26,310 --> 00:09:23,680

it interesting and engaging to kind of

236

00:09:27,829 --> 00:09:26,320

do those try to connect those dots uh

237

00:09:29,350 --> 00:09:27,839

you know when i first started my channel

238

00:09:31,030 --> 00:09:29,360

i was just trying to kind of raise

239

00:09:33,990 --> 00:09:31,040

awareness to the whole

240

00:09:35,430 --> 00:09:34,000

issue of uaps and everything like

241

00:09:37,670 --> 00:09:35,440

it was

242

00:09:40,150 --> 00:09:37,680

you know middle of quarantine about you

243

00:09:42,630 --> 00:09:40,160

know summer of 2020 and

244

00:09:44,790 --> 00:09:42,640

i mean even now i feel this way which is

245

00:09:47,670 --> 00:09:44,800

this is groundbreaking news by the new

246

00:09:49,829 --> 00:09:47,680

york times in 2017 and throughout and

247

00:09:51,750 --> 00:09:49,839

still you know i go and talk to my

248

00:09:54,630 --> 00:09:51,760

friends in real life and

249

00:09:55,829 --> 00:09:54,640

no one is aware of it at all right so

250

00:09:57,829 --> 00:09:55,839

yeah you know i was just trying to you

251
00:09:59,110 --> 00:09:57,839
know cover the new york times topics and

252
00:10:01,110 --> 00:09:59,120
some of those you know the videos and

253
00:10:03,509 --> 00:10:01,120
stuff in the beginning and offer my

254
00:10:05,430 --> 00:10:03,519
perspective on that uh and then it kind

255
00:10:07,110 --> 00:10:05,440
of you know sort of

256
00:10:08,389 --> 00:10:07,120
there's not a lot to go on there right

257
00:10:09,670 --> 00:10:08,399
because you know the information kind of

258
00:10:11,350 --> 00:10:09,680
stopped so i was trying to figure out

259
00:10:13,269 --> 00:10:11,360
you know what else could i

260
00:10:15,430 --> 00:10:13,279
add to the conversation and the other

261
00:10:17,190 --> 00:10:15,440
kind of science niches

262
00:10:18,310 --> 00:10:17,200
something i kind of fell into

263
00:10:19,430 --> 00:10:18,320

sure and i went back i've been back

264

00:10:21,590 --> 00:10:19,440

through your channel the last couple of

265

00:10:22,949 --> 00:10:21,600

days just looking into it and it's great

266

00:10:24,790 --> 00:10:22,959

how do you break down all the

267

00:10:25,509 --> 00:10:24,800

different new york times bits and pieces

268

00:10:27,430 --> 00:10:25,519

over

269

00:10:29,190 --> 00:10:27,440

a period of time but then within those

270

00:10:30,949 --> 00:10:29,200

you you really delve deep into other

271

00:10:32,389 --> 00:10:30,959

aspects and i've got a little list and

272

00:10:34,790 --> 00:10:32,399

i'd like to talk about each one

273

00:10:36,470 --> 00:10:34,800

specifically first of all i think one of

274

00:10:39,590 --> 00:10:36,480

your early videos was based around meta

275

00:10:41,430 --> 00:10:39,600

materials and i think alien alloys

276

00:10:42,949 --> 00:10:41,440

so how did how did

277

00:10:45,269 --> 00:10:42,959

what did you find

278

00:10:46,790 --> 00:10:45,279

how how did you come away from looking

279

00:10:48,949 --> 00:10:46,800

into that part of the subject after

280

00:10:50,870 --> 00:10:48,959

you've done a bit of digging

281

00:10:52,949 --> 00:10:50,880

yeah so that was you know the original

282

00:10:55,269 --> 00:10:52,959

2017 article

283

00:10:57,110 --> 00:10:55,279

they mentioned these recovered materials

284

00:10:58,069 --> 00:10:57,120

and meta materials and then they just

285

00:11:00,150 --> 00:10:58,079

kind of

286

00:11:00,949 --> 00:11:00,160

dropped that there was no follow-up at

287

00:11:03,110 --> 00:11:00,959

all

288

00:11:06,710 --> 00:11:03,120

um but you know if you did kind of dig

289

00:11:08,870 --> 00:11:06,720

into the background of that you found

290

00:11:11,110 --> 00:11:08,880

these kind of the history of the to the

291

00:11:13,990 --> 00:11:11,120

stars academy finding these

292

00:11:15,829 --> 00:11:14,000

pieces that were presumably connected to

293

00:11:17,750 --> 00:11:15,839

roswell i think it was there's some

294

00:11:20,550 --> 00:11:17,760

connection through linda mountain howe i

295

00:11:22,069 --> 00:11:20,560

believe yeah and and um and all that but

296

00:11:23,350 --> 00:11:22,079

they

297

00:11:24,870 --> 00:11:23,360

yeah if you looked in the background of

298

00:11:27,910 --> 00:11:24,880

it you found that they do have this

299

00:11:29,509 --> 00:11:27,920

piece of metal that has a weird layered

300

00:11:31,670 --> 00:11:29,519

structure to it so you know layered with

301

00:11:33,509 --> 00:11:31,680

bismuth and then magnesium

302

00:11:37,990 --> 00:11:33,519

and

303

00:11:39,990 --> 00:11:38,000

know there's been people who have

304

00:11:42,470 --> 00:11:40,000

claimed that oh this looks like metallic

305

00:11:44,710 --> 00:11:42,480

slag from an industrial process but then

306

00:11:46,389 --> 00:11:44,720

you have a paper from hal put off

307

00:11:48,870 --> 00:11:46,399

which actually it might not be from hal

308

00:11:50,629 --> 00:11:48,880

put off but he uh found a paper or you

309

00:11:51,590 --> 00:11:50,639

know he cited this paper where it talks

310

00:11:53,750 --> 00:11:51,600

about

311

00:11:55,509 --> 00:11:53,760

hey if you had a material that had these

312

00:11:57,110 --> 00:11:55,519

layers of specifically bismuth and

313

00:11:59,670 --> 00:11:57,120

magnesium

314

00:12:01,350 --> 00:11:59,680

it would potentially act as a meta

315

00:12:03,509 --> 00:12:01,360

material which would

316

00:12:05,430 --> 00:12:03,519

act like a wave guide to

317

00:12:07,190 --> 00:12:05,440

terahertz waves

318

00:12:08,470 --> 00:12:07,200

which is essentially kind of saying that

319

00:12:10,550 --> 00:12:08,480

you know there's

320

00:12:12,069 --> 00:12:10,560

this is a little bit above my head too

321

00:12:13,110 --> 00:12:12,079

but it's uh

322

00:12:14,710 --> 00:12:13,120

essentially saying that you know you

323

00:12:16,870 --> 00:12:14,720

could you know

324

00:12:19,430 --> 00:12:16,880

manipulate and you know guide these

325

00:12:21,430 --> 00:12:19,440

terahertz waves with a material like

326

00:12:22,629 --> 00:12:21,440

they found here

327

00:12:24,069 --> 00:12:22,639

and so you know that's that's just kind

328

00:12:25,430 --> 00:12:24,079

of blew my mind right is that we have

329

00:12:27,430 --> 00:12:25,440

this hunk of metal that looks kind of

330

00:12:30,069 --> 00:12:27,440

crazy and someone has this you know

331

00:12:31,829 --> 00:12:30,079

vague connection to roswell which seems

332

00:12:32,790 --> 00:12:31,839

all very dubious to me but then when you

333

00:12:34,550 --> 00:12:32,800

add

334

00:12:37,430 --> 00:12:34,560

hey there is something kind of special

335

00:12:39,269 --> 00:12:37,440

and strange about this material it

336

00:12:41,670 --> 00:12:39,279

yeah the questions come leaping out

337

00:12:42,870 --> 00:12:41,680

right like what's what is going on there

338

00:12:43,910 --> 00:12:42,880

is that

339

00:12:45,750 --> 00:12:43,920

is this

340

00:12:48,389 --> 00:12:45,760

material from a craft

341

00:12:50,069 --> 00:12:48,399

absolutely it may be yeah and that that

342

00:12:52,310 --> 00:12:50,079

conversation is still ongoing you know

343

00:12:53,990 --> 00:12:52,320

we're still waiting to hear about some

344

00:12:56,069 --> 00:12:54,000

of the information that was initially

345

00:12:57,590 --> 00:12:56,079

teased to us a few years ago so yeah i

346

00:12:59,670 --> 00:12:57,600

think it's still

347

00:13:01,269 --> 00:12:59,680

you know the jury's out on on what

348

00:13:02,310 --> 00:13:01,279

they've got um

349

00:13:04,310 --> 00:13:02,320

whether it be in the hands of the

350

00:13:06,550 --> 00:13:04,320

government the military private

351

00:13:08,949 --> 00:13:06,560

aerospace you know corporations or

352

00:13:10,710 --> 00:13:08,959

whatever do you think

353

00:13:13,750 --> 00:13:10,720

based on what you've seen heard and who

354

00:13:15,030 --> 00:13:13,760

you've spoken to through ucr

355

00:13:17,750 --> 00:13:15,040

what are your thoughts on crash

356

00:13:19,750 --> 00:13:17,760

retrievals as far as what's in the hands

357

00:13:22,150 --> 00:13:19,760

of say the government military or

358

00:13:24,069 --> 00:13:22,160

private aerospace

359

00:13:26,230 --> 00:13:24,079

yeah so

360

00:13:27,990 --> 00:13:26,240

i'm i'm on mixed minds here you know i

361

00:13:30,150 --> 00:13:28,000

am like you know you mentioned that the

362

00:13:32,550 --> 00:13:30,160

the meta material hunk there yeah i'm

363

00:13:33,509 --> 00:13:32,560

i'm not totally convinced that that is

364

00:13:35,350 --> 00:13:33,519

better

365

00:13:37,030 --> 00:13:35,360

um i think that's very interesting and

366

00:13:38,790 --> 00:13:37,040

like a

367

00:13:40,230 --> 00:13:38,800

you know that that link to the you know

368

00:13:42,310 --> 00:13:40,240

science paper about bismuth and

369

00:13:43,430 --> 00:13:42,320

magnesium is very interesting but i

370

00:13:47,750 --> 00:13:43,440

still

371

00:13:49,670 --> 00:13:47,760

would get a crashed ufo and get like a

372

00:13:51,990 --> 00:13:49,680

hunk of metal like that

373

00:13:54,230 --> 00:13:52,000

kind of detached from a larger craft and

374

00:13:56,790 --> 00:13:54,240

then when you talk about you know actual

375

00:13:58,949 --> 00:13:56,800

whole craft and stuff like that

376

00:14:00,470 --> 00:13:58,959

you know it brings to mind you that's a

377

00:14:01,590 --> 00:14:00,480

question that everyone has is you know

378

00:14:03,829 --> 00:14:01,600

if they are

379

00:14:06,870 --> 00:14:03,839

able to get here from wherever they were

380

00:14:09,189 --> 00:14:06,880

started from are they really going to

381

00:14:11,430 --> 00:14:09,199

crash here on earth like is that that

382

00:14:13,670 --> 00:14:11,440

doesn't make a lot of sense to me

383

00:14:15,030 --> 00:14:13,680

but i would i would love to be proven

384

00:14:16,470 --> 00:14:15,040

wrong

385

00:14:17,670 --> 00:14:16,480

you know kind of kind of my own pet

386

00:14:19,670 --> 00:14:17,680

theory is

387

00:14:20,710 --> 00:14:19,680

uh you know you speak talk about you

388

00:14:23,030 --> 00:14:20,720

know the meta material that was

389

00:14:25,350 --> 00:14:23,040

recovered and there's other other pieces

390

00:14:27,910 --> 00:14:25,360

of artifacts that were recovered by ufos

391

00:14:30,230 --> 00:14:27,920

and it seems to me that you have uh the

392

00:14:31,110 --> 00:14:30,240

skeptics who look at these materials and

393

00:14:33,189 --> 00:14:31,120

say

394

00:14:35,269 --> 00:14:33,199

hey this just looks like a piece of

395

00:14:37,430 --> 00:14:35,279

molten metal you know some like

396

00:14:40,069 --> 00:14:37,440

industrial slag that could be created in

397

00:14:41,829 --> 00:14:40,079

a metal foundry and then you have the

398

00:14:43,350 --> 00:14:41,839

believers who say hey no no this is

399

00:14:45,350 --> 00:14:43,360

actually a meta material look at the

400

00:14:47,350 --> 00:14:45,360

layering or they'll you know look at

401
00:14:49,110 --> 00:14:47,360
other objects and say well we just have

402
00:14:50,550 --> 00:14:49,120
to study it and find out you know what

403
00:14:52,069 --> 00:14:50,560
is really going on there there's got to

404
00:14:55,269 --> 00:14:52,079
be some nano

405
00:14:59,430 --> 00:14:55,279
technology going in on these inner works

406
00:15:02,069 --> 00:14:59,440
my hunch is that it might be something

407
00:15:03,990 --> 00:15:02,079
they might both be wrong right

408
00:15:06,790 --> 00:15:04,000
my hypothesis is

409
00:15:08,150 --> 00:15:06,800
alien poop that's you know these these

410
00:15:11,189 --> 00:15:08,160
things are

411
00:15:13,110 --> 00:15:11,199
up in the air they're

412
00:15:15,189 --> 00:15:13,120
not really engaging with us but they're

413
00:15:16,069 --> 00:15:15,199

monitoring what's going on on earth and

414

00:15:17,829 --> 00:15:16,079

they're

415

00:15:19,509 --> 00:15:17,839

potentially replicating right the the

416

00:15:22,069 --> 00:15:19,519

von neumann probe theory where you have

417

00:15:24,470 --> 00:15:22,079

a self-replicating space robot that goes

418

00:15:26,150 --> 00:15:24,480

to one planet and monitors it while

419

00:15:27,430 --> 00:15:26,160

making copies of itself and sending it

420

00:15:29,670 --> 00:15:27,440

to other places

421

00:15:31,749 --> 00:15:29,680

fascinating wow

422

00:15:33,509 --> 00:15:31,759

yeah so the von neumann probe so if you

423

00:15:35,110 --> 00:15:33,519

had something like this and you

424

00:15:37,590 --> 00:15:35,120

were able to make these self-replicating

425

00:15:38,389 --> 00:15:37,600

space probes go at 20 of the speed of

426
00:15:40,550 --> 00:15:38,399
light

427
00:15:42,230 --> 00:15:40,560
you could populate the entire galaxy in

428
00:15:44,550 --> 00:15:42,240
you know a couple millions of years

429
00:15:47,030 --> 00:15:44,560
which is a blink of the eye in

430
00:15:48,790 --> 00:15:47,040
astronomical time frames sure

431
00:15:50,310 --> 00:15:48,800
so that's possible they're

432
00:15:52,310 --> 00:15:50,320
probably here

433
00:15:54,470 --> 00:15:52,320
and if they're here i think that what

434
00:15:56,710 --> 00:15:54,480
they're probably doing is you know

435
00:15:59,110 --> 00:15:56,720
monitoring us and collecting resources

436
00:16:00,629 --> 00:15:59,120
around earth and

437
00:16:02,069 --> 00:16:00,639
if they're making copies of themselves

438
00:16:04,310 --> 00:16:02,079

they'd have to be refining those

439

00:16:06,710 --> 00:16:04,320
resources somehow and

440

00:16:09,430 --> 00:16:06,720
i think they're probably pooping out the

441

00:16:10,790 --> 00:16:09,440
the liquid metal waste as as liquid

442

00:16:11,910 --> 00:16:10,800
metal and that's what that's what people

443

00:16:14,389 --> 00:16:11,920
see that's probably what i think

444

00:16:16,069 --> 00:16:14,399
happened at roswell is that maybe they

445

00:16:17,990 --> 00:16:16,079
found some things on the radar and

446

00:16:19,350 --> 00:16:18,000
they're you know what what is that and

447

00:16:20,949 --> 00:16:19,360
then they see

448

00:16:22,790 --> 00:16:20,959
oh there's a bunch of droplets coming

449

00:16:24,949 --> 00:16:22,800
from it it must have crashed let's go

450

00:16:27,189 --> 00:16:24,959
see what what happened and they find a

451
00:16:30,069 --> 00:16:27,199
bunch of metal weird droplets on the

452
00:16:32,389 --> 00:16:30,079
ground they pick them up and they

453
00:16:34,389 --> 00:16:32,399
go off to top secret science research

454
00:16:36,310 --> 00:16:34,399
facilities and they've been

455
00:16:38,230 --> 00:16:36,320
studying alien poop for the last 70

456
00:16:39,990 --> 00:16:38,240
years in secret

457
00:16:41,509 --> 00:16:40,000
i love it i mean

458
00:16:44,230 --> 00:16:41,519
the way even the way you explain it it

459
00:16:46,629 --> 00:16:44,240
makes sense and that's why i really

460
00:16:48,470 --> 00:16:46,639
find your work and your videos so

461
00:16:51,430 --> 00:16:48,480
fascinating because you you lay it out

462
00:16:53,269 --> 00:16:51,440
in a way that is it it has that

463
00:16:55,990 --> 00:16:53,279

scientific sort of analysis of it but it

464

00:16:58,470 --> 00:16:56,000

also makes sense to people like me who

465

00:16:59,829 --> 00:16:58,480

aren't really science based um i'm just

466

00:17:02,230 --> 00:16:59,839

gonna bring up a couple of comments here

467

00:17:04,230 --> 00:17:02,240

aaron desario does anyone else notice

468

00:17:06,150 --> 00:17:04,240

the coincidence that bismuth is the same

469

00:17:07,990 --> 00:17:06,160

column on the periodic table as element

470

00:17:09,829 --> 00:17:08,000

115.

471

00:17:11,909 --> 00:17:09,839

i mean that's certainly interesting and

472

00:17:13,590 --> 00:17:11,919

i didn't know that so yeah i i didn't

473

00:17:15,029 --> 00:17:13,600

make that connection either but that

474

00:17:17,029 --> 00:17:15,039

that is very interesting you know yeah

475

00:17:19,029 --> 00:17:17,039

the columns on the periodic table all

476

00:17:20,069 --> 00:17:19,039

have similar you know

477

00:17:22,789 --> 00:17:20,079

properties

478

00:17:25,669 --> 00:17:22,799

yeah that is that is interesting good to

479

00:17:28,870 --> 00:17:25,679

see aaron here as well um greg says

480

00:17:30,150 --> 00:17:28,880

rather be squidding thoughts on lazar s4

481

00:17:32,070 --> 00:17:30,160

well we've already touched upon crash

482

00:17:34,630 --> 00:17:32,080

retrievals so yeah give us your thoughts

483

00:17:36,870 --> 00:17:34,640

on bob lazar and s4 and that whole uh

484

00:17:39,990 --> 00:17:36,880

story yeah you know

485

00:17:41,909 --> 00:17:40,000

a lot of these stories like lazars i

486

00:17:44,710 --> 00:17:41,919

my kind of default position is that

487

00:17:46,950 --> 00:17:44,720

there's probably some kernel of truth

488

00:17:48,070 --> 00:17:46,960

but there's probably a lot of mistruths

489

00:17:49,510 --> 00:17:48,080

as well

490

00:17:52,150 --> 00:17:49,520

um so you know i think that there's a

491

00:17:54,870 --> 00:17:52,160

lot of problems with lazar's story you

492

00:17:56,789 --> 00:17:54,880

know we talk about his education

493

00:17:58,150 --> 00:17:56,799

and you know

494

00:18:00,870 --> 00:17:58,160

there's a lot of holes in his stories

495

00:18:03,190 --> 00:18:00,880

right but there's yeah undeniably

496

00:18:05,430 --> 00:18:03,200

he kind of got some things right right

497

00:18:08,070 --> 00:18:05,440

like he had was able to take his friends

498

00:18:10,630 --> 00:18:08,080

out to see stuff in the sky who knows

499

00:18:12,710 --> 00:18:10,640

what that is and

500

00:18:15,029 --> 00:18:12,720

he you know he there's some things that

501
00:18:16,950 --> 00:18:15,039
are you know hard to explain by just

502
00:18:18,070 --> 00:18:16,960
coincidentally being true

503
00:18:20,070 --> 00:18:18,080
you know my

504
00:18:22,950 --> 00:18:20,080
own kind of hunch is that you know maybe

505
00:18:24,950 --> 00:18:22,960
he was working as a

506
00:18:26,630 --> 00:18:24,960
contractor at los alamos or you know

507
00:18:28,310 --> 00:18:26,640
something i think there's some theories

508
00:18:30,789 --> 00:18:28,320
they found in a phone book and they can

509
00:18:32,630 --> 00:18:30,799
tie into like a contracting job yeah my

510
00:18:34,950 --> 00:18:32,640
guess is that maybe he was you know in

511
00:18:36,870 --> 00:18:34,960
that vicinity of people and maybe there

512
00:18:39,750 --> 00:18:36,880
was a real whistleblower that fed

513
00:18:40,789 --> 00:18:39,760

bizarre information and then lazar kind

514

00:18:42,789 --> 00:18:40,799

of

515

00:18:45,590 --> 00:18:42,799

you know took that to be his own story

516

00:18:47,110 --> 00:18:45,600

and then embellished it but

517

00:18:48,950 --> 00:18:47,120

that i mean i i don't really know what

518

00:18:50,390 --> 00:18:48,960

happened but that kind of makes the most

519

00:18:51,590 --> 00:18:50,400

sense to me

520

00:18:53,350 --> 00:18:51,600

yeah no but that's the thing i think it

521

00:18:54,549 --> 00:18:53,360

gets to that point in the lazar story

522

00:18:56,789 --> 00:18:54,559

where

523

00:18:59,830 --> 00:18:56,799

we have to speculate and we may never

524

00:19:01,590 --> 00:18:59,840

know the answers you know i think if you

525

00:19:03,029 --> 00:19:01,600

look at it from a positive perspective

526

00:19:05,029 --> 00:19:03,039

bob lazar

527

00:19:07,110 --> 00:19:05,039

story brought the ufo subject to a

528

00:19:09,270 --> 00:19:07,120

broader audience back in the 90s in the

529

00:19:11,590 --> 00:19:09,280

early 90s so that's a good thing in my

530

00:19:14,150 --> 00:19:11,600

my book but i think we could argue this

531

00:19:16,150 --> 00:19:14,160

till we're all you know

532

00:19:17,669 --> 00:19:16,160

in nursing homes at the end of our end

533

00:19:20,070 --> 00:19:17,679

of our lives you know it could be one of

534

00:19:22,390 --> 00:19:20,080

them but uh yeah thank you do you think

535

00:19:25,750 --> 00:19:22,400

lazar will give a deathbed confession uh

536

00:19:27,190 --> 00:19:25,760

either way oh now that is a

537

00:19:30,230 --> 00:19:27,200

yeah hopefully that's a long ways off

538

00:19:32,070 --> 00:19:30,240

but uh hopefully and hopefully it's

539

00:19:33,669 --> 00:19:32,080

confirming that it's all true still and

540

00:19:36,470 --> 00:19:33,679

not that he does a turn around and says

541

00:19:38,310 --> 00:19:36,480

yeah i was just playing you all

542

00:19:39,750 --> 00:19:38,320

that would be awful man that would cause

543

00:19:41,990 --> 00:19:39,760

some heartbreak

544

00:19:45,029 --> 00:19:42,000

yeah big time man

545

00:19:46,310 --> 00:19:45,039

uh now another video that i really

546

00:19:47,990 --> 00:19:46,320

enjoyed but

547

00:19:51,510 --> 00:19:48,000

i'm not gonna lie it went a bit over my

548

00:19:54,390 --> 00:19:51,520

head was quasi crystals

549

00:19:57,110 --> 00:19:54,400

yeah can you break it down for the the

550

00:19:59,350 --> 00:19:57,120

average joe like myself because

551
00:20:01,830 --> 00:19:59,360
it all looked good sounded good make

552
00:20:03,430 --> 00:20:01,840
made the connections and stuff but it

553
00:20:05,029 --> 00:20:03,440
was still like

554
00:20:07,590 --> 00:20:05,039
what what did i just watch in here

555
00:20:09,430 --> 00:20:07,600
because that was you know wow

556
00:20:11,830 --> 00:20:09,440
yeah yeah no that that was that was uh

557
00:20:12,789 --> 00:20:11,840
one of my one of my first couple videos

558
00:20:15,270 --> 00:20:12,799
uh

559
00:20:17,029 --> 00:20:15,280
so so i kind of i was alluded to or

560
00:20:20,310 --> 00:20:17,039
found out about quasi-like crystals from

561
00:20:21,430 --> 00:20:20,320
uh jeremy riss's channel alien scientist

562
00:20:22,789 --> 00:20:21,440
right and he

563
00:20:24,149 --> 00:20:22,799

he was um

564

00:20:25,350 --> 00:20:24,159

you know friends with this guy ed

565

00:20:27,430 --> 00:20:25,360

foucher

566

00:20:28,390 --> 00:20:27,440

uh yeah back in the like 90s or

567

00:20:30,470 --> 00:20:28,400

something he was kind of like a bob

568

00:20:32,830 --> 00:20:30,480

lazar type figure you know had claimed

569

00:20:34,870 --> 00:20:32,840

to work at these secret facilities

570

00:20:36,950 --> 00:20:34,880

and you know he

571

00:20:37,990 --> 00:20:36,960

you know just ed foucher in his talks is

572

00:20:39,590 --> 00:20:38,000

what kind of

573

00:20:41,590 --> 00:20:39,600

clued me into

574

00:20:43,430 --> 00:20:41,600

first what meta materials actually are

575

00:20:45,510 --> 00:20:43,440

that they're not just some weird name

576
00:20:47,270 --> 00:20:45,520
that the new york times made up and then

577
00:20:48,870 --> 00:20:47,280
you know he mentioned quasi crystal that

578
00:20:52,390 --> 00:20:48,880
you know there was these quasi-crystals

579
00:20:53,990 --> 00:20:52,400
technology in these uh in these crafts

580
00:20:58,789 --> 00:20:54,000
and

581
00:21:00,549 --> 00:20:58,799
tried to wrap my head around it again a

582
00:21:02,549 --> 00:21:00,559
lot of these topics like i gotta read a

583
00:21:04,390 --> 00:21:02,559
bunch of stuff and it will make sense to

584
00:21:06,390 --> 00:21:04,400
me for about 30 minutes so that i need

585
00:21:07,990 --> 00:21:06,400
to reread stuff to actually have it

586
00:21:10,310 --> 00:21:08,000
aligned in my brain again but it's

587
00:21:12,630 --> 00:21:10,320
essentially some way of like having a

588
00:21:13,669 --> 00:21:12,640

crystalline structure that isn't

589

00:21:15,990 --> 00:21:13,679

actually

590

00:21:17,669 --> 00:21:16,000

repeating so like most crystalline

591

00:21:19,110 --> 00:21:17,679

structure is like here's a crystal

592

00:21:21,430 --> 00:21:19,120

here's a crystal kitchen crystal they're

593

00:21:24,149 --> 00:21:21,440

all in a nice solid grid

594

00:21:25,430 --> 00:21:24,159

a crossy quasi crystal is a way to kind

595

00:21:27,830 --> 00:21:25,440

of

596

00:21:28,830 --> 00:21:27,840

it's repeating but it's not

597

00:21:31,909 --> 00:21:28,840

in any

598

00:21:33,110 --> 00:21:31,919

defined pattern necessarily so there's

599

00:21:37,990 --> 00:21:33,120

like a

600

00:21:40,470 --> 00:21:38,000

it's common in like uh

601
00:21:42,310 --> 00:21:40,480
a lot of different motifs of uh like

602
00:21:44,870 --> 00:21:42,320
building and stuff like that

603
00:21:46,070 --> 00:21:44,880
where it's these cool patterns that

604
00:21:49,590 --> 00:21:46,080
aren't

605
00:21:50,549 --> 00:21:49,600
really patterns but they kind of are

606
00:21:52,950 --> 00:21:50,559
and

607
00:21:54,710 --> 00:21:52,960
that's a bad explanation for me but wait

608
00:21:57,909 --> 00:21:54,720
do you say penrose is that like roger

609
00:21:58,950 --> 00:21:57,919
roger penrose is it yeah yeah yeah roger

610
00:22:01,430 --> 00:21:58,960
penrose uh

611
00:22:04,070 --> 00:22:01,440
it's like a weird mathematical kind of

612
00:22:05,669 --> 00:22:04,080
uh conundrum for like having

613
00:22:07,190 --> 00:22:05,679

symmetry

614

00:22:08,950 --> 00:22:07,200

between things that shouldn't have

615

00:22:11,110 --> 00:22:08,960

symmetry so like there's a

616

00:22:12,630 --> 00:22:11,120

normally you can't have like a pentagram

617

00:22:16,870 --> 00:22:12,640

pentagram

618

00:22:19,909 --> 00:22:16,880

because there's only some

619

00:22:22,870 --> 00:22:19,919

shape that you can tile yeah but you can

620

00:22:25,190 --> 00:22:22,880

tile a pentagon pentagon in this

621

00:22:28,070 --> 00:22:25,200

quasi-crystal type fashion

622

00:22:30,149 --> 00:22:28,080

so it still has five-fold symmetry but

623

00:22:31,510 --> 00:22:30,159

it's not just the same object repeating

624

00:22:34,549 --> 00:22:31,520

it's like you got to kind of splice in

625

00:22:35,350 --> 00:22:34,559

these other little filler kind of things

626

00:22:37,350 --> 00:22:35,360

but

627

00:22:40,230 --> 00:22:37,360

if you do this in a 3d crystalline

628

00:22:43,110 --> 00:22:40,240

structure then what you end up with is

629

00:22:45,990 --> 00:22:43,120

something that's incredibly strong and

630

00:22:47,430 --> 00:22:46,000

like resistant to it has properties that

631

00:22:49,750 --> 00:22:47,440

just a normal crystal wouldn't have that

632

00:22:52,230 --> 00:22:49,760

would be very useful for you know things

633

00:22:54,710 --> 00:22:52,240

like spacecraft and you know

634

00:22:56,310 --> 00:22:54,720

temperature resistant things and kind of

635

00:22:58,549 --> 00:22:56,320

the angle that i found somewhat

636

00:23:00,710 --> 00:22:58,559

interesting is that

637

00:23:02,549 --> 00:23:00,720

it's kind of like pie these quasi

638

00:23:05,909 --> 00:23:02,559

crystals and where it's like a

639

00:23:10,710 --> 00:23:09,110

structure right so like my kind of out

640

00:23:12,710 --> 00:23:10,720

there hypothesis i like to kind of you

641

00:23:14,950 --> 00:23:12,720

know take these ideas of that draw one

642

00:23:16,630 --> 00:23:14,960

one layer beyond that might be a little

643

00:23:18,310 --> 00:23:16,640

bit a little bit out there but you kind

644

00:23:20,789 --> 00:23:18,320

of the out there idea here is that if

645

00:23:23,590 --> 00:23:20,799

you have this non-repeating crystalline

646

00:23:26,230 --> 00:23:23,600

structure you could potentially encode

647

00:23:28,230 --> 00:23:26,240

information into it you could you know

648

00:23:30,390 --> 00:23:28,240

structure it in such a way that you're

649

00:23:34,630 --> 00:23:30,400

kind of like the digits of pi you're

650

00:23:39,990 --> 00:23:37,110

information inside of those gaps of the

651
00:23:42,230 --> 00:23:40,000
five-fold symmetry and wow if you did

652
00:23:44,390 --> 00:23:42,240
that by the nature of quasi crystals you

653
00:23:45,909 --> 00:23:44,400
know it would be a incredibly tough

654
00:23:47,830 --> 00:23:45,919
crystalline structure it would you know

655
00:23:49,750 --> 00:23:47,840
last for a long time you could

656
00:23:51,350 --> 00:23:49,760
potentially encode some information into

657
00:23:53,190 --> 00:23:51,360
a quasi crystal and

658
00:23:55,029 --> 00:23:53,200
shoot it across the galaxy in homes that

659
00:23:57,269 --> 00:23:55,039
it would eventually

660
00:23:58,870 --> 00:23:57,279
hit down on some place like earth

661
00:24:00,870 --> 00:23:58,880
and that and that's where we found them

662
00:24:02,630 --> 00:24:00,880
that's the only natural quasi crystals

663
00:24:04,710 --> 00:24:02,640

we found on earth were

664

00:24:06,310 --> 00:24:04,720

from meteorite fragments

665

00:24:08,230 --> 00:24:06,320

and there's a there's a whole history of

666

00:24:10,149 --> 00:24:08,240

like the search for these quasi crystals

667

00:24:11,909 --> 00:24:10,159

and there's a a really interesting book

668

00:24:14,070 --> 00:24:11,919

i can't remember off the top of my mind

669

00:24:17,190 --> 00:24:14,080

but it documents the the quest for these

670

00:24:19,269 --> 00:24:17,200

natural quasi crystals but it's uh

671

00:24:21,350 --> 00:24:19,279

it's it's exciting it's a

672

00:24:22,789 --> 00:24:21,360

cool thing that's that's exactly what i

673

00:24:25,350 --> 00:24:22,799

wanted to hear from you man you broke it

674

00:24:27,990 --> 00:24:25,360

down to a point where it was interesting

675

00:24:29,750 --> 00:24:28,000

but also really exciting um

676
00:24:32,710 --> 00:24:29,760
daniel shaw miller here rather needs a

677
00:24:35,029 --> 00:24:32,720
science show on netflix i would i would

678
00:24:36,070 --> 00:24:35,039
watch that man absolutely

679
00:24:38,549 --> 00:24:36,080
netflix

680
00:24:41,110 --> 00:24:38,559
couldn't agree more man um now the next

681
00:24:42,630 --> 00:24:41,120
one that's something that i've

682
00:24:44,390 --> 00:24:42,640
been thinking about for some time over

683
00:24:46,390 --> 00:24:44,400
the past few years is gravity waves you

684
00:24:49,029 --> 00:24:46,400
know something that's quite new as far

685
00:24:51,029 --> 00:24:49,039
as the discovery but the potential of

686
00:24:52,870 --> 00:24:51,039
what could be done with it as far as

687
00:24:55,750 --> 00:24:52,880
relating it to uap whether it be

688
00:24:57,269 --> 00:24:55,760

tracking or or things like that now what

689

00:24:58,789 --> 00:24:57,279

is your take on that when you looked

690

00:25:01,110 --> 00:24:58,799

into it

691

00:25:03,590 --> 00:25:01,120

yeah so that is incredibly interesting i

692

00:25:04,470 --> 00:25:03,600

i think you know gravity waves are

693

00:25:06,310 --> 00:25:04,480

you know

694

00:25:08,310 --> 00:25:06,320

in the last 10 years we've been able to

695

00:25:09,830 --> 00:25:08,320

detect them and

696

00:25:12,230 --> 00:25:09,840

it's essentially like you know you look

697

00:25:14,710 --> 00:25:12,240

out into the the sky and you know we're

698

00:25:16,549 --> 00:25:14,720

currently using our eyes our telescopes

699

00:25:19,430 --> 00:25:16,559

to see the visual information like the

700

00:25:21,909 --> 00:25:19,440

stars and visually see what's out there

701
00:25:24,789 --> 00:25:21,919
gravity waves looking at gravity waves

702
00:25:27,590 --> 00:25:24,799
they're very analogous to sound waves

703
00:25:29,269 --> 00:25:27,600
they're like compressional waves that

704
00:25:31,909 --> 00:25:29,279
move through space and they go through

705
00:25:33,669 --> 00:25:31,919
everything so now that we can start

706
00:25:35,269 --> 00:25:33,679
essentially hearing what's going on in

707
00:25:37,350 --> 00:25:35,279
space it's like a

708
00:25:38,950 --> 00:25:37,360
completely new sense that we can explore

709
00:25:41,510 --> 00:25:38,960
our universe with

710
00:25:44,070 --> 00:25:41,520
and currently our years are pretty

711
00:25:46,870 --> 00:25:44,080
limited our gravity ears like all we can

712
00:25:48,310 --> 00:25:46,880
hear are the very loudest sounds out

713
00:25:50,470 --> 00:25:48,320

there in the cosmos and that's you know

714

00:25:52,470 --> 00:25:50,480

when the black holes circle around each

715

00:25:55,590 --> 00:25:52,480

other and merge you know that creates

716

00:25:57,990 --> 00:25:55,600

these giant gravity ripples that are

717

00:25:59,750 --> 00:25:58,000

you know we can detect them millions and

718

00:26:01,510 --> 00:25:59,760

millions of light years away

719

00:26:03,590 --> 00:26:01,520

um that's what we're currently detecting

720

00:26:06,549 --> 00:26:03,600

that's alone is really cool because

721

00:26:08,070 --> 00:26:06,559

we're making a kind of an audio map of

722

00:26:09,269 --> 00:26:08,080

these events that are going around in

723

00:26:11,430 --> 00:26:09,279

our universe

724

00:26:14,549 --> 00:26:11,440

but uh you know the as it pertains to

725

00:26:15,830 --> 00:26:14,559

uap and aliens um you know first of all

726
00:26:17,510 --> 00:26:15,840
there's the thought that you might be

727
00:26:19,430 --> 00:26:17,520
able to detect

728
00:26:20,950 --> 00:26:19,440
how cubia drives with this right like

729
00:26:22,789 --> 00:26:20,960
things that are manipulating gravity

730
00:26:24,710 --> 00:26:22,799
here on earth

731
00:26:27,190 --> 00:26:24,720
and that might be possible i don't think

732
00:26:29,110 --> 00:26:27,200
that we currently have the technology to

733
00:26:31,029 --> 00:26:29,120
detect something like that

734
00:26:32,870 --> 00:26:31,039
right um because those would happen you

735
00:26:34,710 --> 00:26:32,880
know like it would be turning on

736
00:26:36,390 --> 00:26:34,720
on and off at

737
00:26:37,350 --> 00:26:36,400
it it would look just like random noise

738
00:26:38,390 --> 00:26:37,360

to us

739

00:26:40,390 --> 00:26:38,400

okay which

740

00:26:41,830 --> 00:26:40,400

there is a lot of random noise that goes

741

00:26:44,070 --> 00:26:41,840

on in these

742

00:26:46,390 --> 00:26:44,080

uh you know ligo and lisa these

743

00:26:48,630 --> 00:26:46,400

detectors of gravity waves so maybe we

744

00:26:50,549 --> 00:26:48,640

are seeing those but we just don't

745

00:26:53,430 --> 00:26:50,559

can't totally know for sure

746

00:26:55,990 --> 00:26:53,440

but what we might start to detect maybe

747

00:26:57,990 --> 00:26:56,000

relatively soon even is

748

00:27:00,630 --> 00:26:58,000

messages from other

749

00:27:02,870 --> 00:27:00,640

civilizations far far away from us

750

00:27:04,710 --> 00:27:02,880

there's a lot of people who think that

751
00:27:07,510 --> 00:27:04,720
gravity wave communication would be a

752
00:27:10,310 --> 00:27:07,520
lot better than communicating via radio

753
00:27:12,310 --> 00:27:10,320
or any electromagnetic signals because

754
00:27:14,230 --> 00:27:12,320
electromagnetic signals get

755
00:27:15,269 --> 00:27:14,240
warped and lost in dust and you know

756
00:27:17,269 --> 00:27:15,279
they can be

757
00:27:19,029 --> 00:27:17,279
obfuscated by a planet or something in

758
00:27:21,269 --> 00:27:19,039
front of it gravity waves are just going

759
00:27:24,950 --> 00:27:21,279
to go right right on through and they

760
00:27:26,389 --> 00:27:24,960
also go further than than lights um yeah

761
00:27:27,190 --> 00:27:26,399
something about this

762
00:27:28,310 --> 00:27:27,200
yeah

763
00:27:29,669 --> 00:27:28,320

so i was just gonna say sorry maybe

764

00:27:31,590 --> 00:27:29,679

because it's such a new thing that we've

765

00:27:33,430 --> 00:27:31,600

discovered like what five years pretty

766

00:27:35,029 --> 00:27:33,440

much maybe

767

00:27:36,870 --> 00:27:35,039

they're working on the technology that

768

00:27:38,950 --> 00:27:36,880

they think that yeah we've tried the

769

00:27:40,870 --> 00:27:38,960

radio wave thing you know with seti and

770

00:27:42,470 --> 00:27:40,880

that for so many years

771

00:27:44,630 --> 00:27:42,480

maybe they are working on that bringing

772

00:27:46,870 --> 00:27:44,640

that technology sort of to the forefront

773

00:27:49,909 --> 00:27:46,880

of looking out there to find these

774

00:27:51,110 --> 00:27:49,919

these waves yeah yeah and the next

775

00:27:53,510 --> 00:27:51,120

advancement for this is going to be

776

00:27:55,110 --> 00:27:53,520

really cool they're launching satellites

777

00:27:57,430 --> 00:27:55,120

into space

778

00:27:59,909 --> 00:27:57,440

that will be like connected via laser

779

00:28:01,830 --> 00:27:59,919

beams so like currently our ligo

780

00:28:03,430 --> 00:28:01,840

connectors are like you know they're i

781

00:28:05,590 --> 00:28:03,440

don't know how long they're on the order

782

00:28:07,990 --> 00:28:05,600

of miles long you know if you put it

783

00:28:09,590 --> 00:28:08,000

into space they're going to be hundreds

784

00:28:11,350 --> 00:28:09,600

of miles long i i don't know the scales

785

00:28:13,830 --> 00:28:11,360

it might even be longer than that but

786

00:28:16,149 --> 00:28:13,840

and the longer you have you know the

787

00:28:18,230 --> 00:28:16,159

longer the system is where the bigger it

788

00:28:19,830 --> 00:28:18,240

is the further out and the more things

789

00:28:21,110 --> 00:28:19,840

you can detect so

790

00:28:22,710 --> 00:28:21,120

yeah i think it's a

791

00:28:23,669 --> 00:28:22,720

an area to watch in the next couple

792

00:28:26,070 --> 00:28:23,679

years

793

00:28:28,310 --> 00:28:26,080

definitely man definitely fascinating

794

00:28:31,909 --> 00:28:28,320

just going to give a shout out to

795

00:28:33,110 --> 00:28:31,919

mr ryan sprague right ryan

796

00:28:34,789 --> 00:28:33,120

ryan it was a pleasure to meet you the

797

00:28:37,510 --> 00:28:34,799

other night congratulations again on

798

00:28:39,909 --> 00:28:37,520

your uh engagement and and i think you

799

00:28:41,269 --> 00:28:39,919

met lou elizondo today as well so it's

800

00:28:43,029 --> 00:28:41,279

all happening for

801
00:28:45,029 --> 00:28:43,039
for this guy right now i love ryan to

802
00:28:46,710 --> 00:28:45,039
bits um but don't be good with your

803
00:28:48,789 --> 00:28:46,720
family don't come in

804
00:28:50,389 --> 00:28:48,799
this and neglect your family and enjoy

805
00:28:51,590 --> 00:28:50,399
your vacation if you're still out there

806
00:28:53,830 --> 00:28:51,600
brother

807
00:28:55,510 --> 00:28:53,840
yeah was that was his fiancee just alone

808
00:28:57,190 --> 00:28:55,520
at the bar with uh when he was there at

809
00:28:59,430 --> 00:28:57,200
the group chats with you

810
00:29:02,230 --> 00:28:59,440
no to be fair we met ryan at his hotel

811
00:29:04,710 --> 00:29:02,240
and they were having like um

812
00:29:06,630 --> 00:29:04,720
a nice little um maybe some kind of

813
00:29:08,870 --> 00:29:06,640

afternoon tea there were scones and

814

00:29:11,350 --> 00:29:08,880

little cakes and things it was

815

00:29:13,510 --> 00:29:11,360

very sophisticated it was ryan his

816

00:29:15,669 --> 00:29:13,520

fiancee and family i hope you don't mind

817

00:29:21,110 --> 00:29:15,679

me telling this story ryan um and then

818

00:29:24,470 --> 00:29:22,070

and uh

819

00:29:26,870 --> 00:29:24,480

kind of abducted him almost to take him

820

00:29:29,510 --> 00:29:26,880

to the pub for guinness and scotch

821

00:29:30,950 --> 00:29:29,520

whiskey so no it was fantastic man the

822

00:29:33,029 --> 00:29:30,960

guy is a legend

823

00:29:36,230 --> 00:29:33,039

i'm jealous of that uh congratulations

824

00:29:38,470 --> 00:29:36,240

ryan uh could it be happier for you

825

00:29:39,350 --> 00:29:38,480

yeah look everyone's loving it oh it was

826

00:29:40,789 --> 00:29:39,360

great

827

00:29:42,870 --> 00:29:40,799

um

828

00:29:44,389 --> 00:29:42,880

now another one i'm going to keep

829

00:29:45,990 --> 00:29:44,399

bringing these up

830

00:29:47,909 --> 00:29:46,000

rather because they really were so

831

00:29:50,070 --> 00:29:47,919

fascinating but just

832

00:29:51,669 --> 00:29:50,080

slightly over my head was the time

833

00:29:53,269 --> 00:29:51,679

travel video that you did but then you

834

00:29:54,470 --> 00:29:53,279

brought in this thing called laplace's

835

00:29:55,669 --> 00:29:54,480

demon

836

00:29:57,029 --> 00:29:55,679

which

837

00:29:58,789 --> 00:29:57,039

stood out because it was something i'd

838

00:30:00,310 --> 00:29:58,799

not heard of before so again would you

839

00:30:01,029 --> 00:30:00,320

mind like talking us through it a little

840

00:30:02,310 --> 00:30:01,039

bit

841

00:30:05,190 --> 00:30:02,320

yeah um

842

00:30:05,990 --> 00:30:05,200

so so laplace's demon uh

843

00:30:08,230 --> 00:30:06,000

is

844

00:30:10,870 --> 00:30:08,240

a concept like a philosophical concept

845

00:30:12,710 --> 00:30:10,880

by this guy called laplace which was

846

00:30:14,870 --> 00:30:12,720

essentially if you

847

00:30:16,789 --> 00:30:14,880

had a

848

00:30:19,909 --> 00:30:16,799

you know if you knew all the laws of

849

00:30:22,389 --> 00:30:19,919

nature and you knew where everything was

850

00:30:24,389 --> 00:30:22,399

you could essentially replay the past

851

00:30:26,149 --> 00:30:24,399

and the present right like if everything

852

00:30:28,070 --> 00:30:26,159

is deterministic and you know the

853

00:30:29,909 --> 00:30:28,080

rules and you know where things are you

854

00:30:31,110 --> 00:30:29,919

would literally know the future

855

00:30:33,350 --> 00:30:31,120

right and

856

00:30:35,110 --> 00:30:33,360

it's possible that especially when you

857

00:30:38,070 --> 00:30:35,120

talk about like interdimensional beings

858

00:30:40,470 --> 00:30:38,080

right if there is something that can

859

00:30:42,389 --> 00:30:40,480

transcend our three dimensions in time

860

00:30:44,710 --> 00:30:42,399

space that can

861

00:30:47,430 --> 00:30:44,720

you know there's another dimension and

862

00:30:49,590 --> 00:30:47,440

they view our reality like we view like

863

00:30:51,669 --> 00:30:49,600

books on a page where they can flip

864

00:30:53,269 --> 00:30:51,679

through it and they could tell what's

865

00:30:54,950 --> 00:30:53,279

happened and then flip back to the

866

00:30:56,549 --> 00:30:54,960

previous page

867

00:30:58,149 --> 00:30:56,559

that that essentially is what an

868

00:31:00,230 --> 00:30:58,159

interdimensional

869

00:31:02,630 --> 00:31:00,240

being would view our reality as it kind

870

00:31:04,630 --> 00:31:02,640

of be like a 3d choose your own

871

00:31:07,350 --> 00:31:04,640

adventure book for them

872

00:31:09,509 --> 00:31:07,360

uh and so if you had an entity like that

873

00:31:10,549 --> 00:31:09,519

the laplace demon

874

00:31:12,950 --> 00:31:10,559

they could

875

00:31:14,630 --> 00:31:12,960

interact with us and it would seem like

876

00:31:15,430 --> 00:31:14,640

i mean it seemed like a god or it seemed

877

00:31:16,870 --> 00:31:15,440

like

878

00:31:21,029 --> 00:31:16,880

you know

879

00:31:23,430 --> 00:31:21,039

they could literally if you had that

880

00:31:26,070 --> 00:31:23,440

ability they could only interact with us

881

00:31:28,630 --> 00:31:26,080

humans when they knew for sure that

882

00:31:30,710 --> 00:31:28,640

there was no chance for that to actually

883

00:31:33,029 --> 00:31:30,720

be provable right so when you talk about

884

00:31:35,350 --> 00:31:33,039

like a trickster type entity you know i

885

00:31:38,310 --> 00:31:35,360

mean you could see them you know looking

886

00:31:39,990 --> 00:31:38,320

through the pages of all the possible

887

00:31:42,149 --> 00:31:40,000

outcomes of their interactions and when

888

00:31:44,950 --> 00:31:42,159

they find oh right now no one's else is

889

00:31:47,029 --> 00:31:44,960

looking i can go scare this guy and he's

890

00:31:48,549 --> 00:31:47,039

everyone's gonna think he's crazy but it

891

00:31:51,509 --> 00:31:48,559

might have some other ripple effects

892

00:31:52,870 --> 00:31:51,519

that that they want you know they they

893

00:31:53,909 --> 00:31:52,880

they could do that

894

00:31:55,669 --> 00:31:53,919

uh wow

895

00:31:57,669 --> 00:31:55,679

yeah on one hand i love that theory

896

00:32:00,230 --> 00:31:57,679

right because yeah

897

00:32:02,149 --> 00:32:00,240

explain could explain everything but on

898

00:32:03,590 --> 00:32:02,159

the other hand i kind of hate the theory

899

00:32:04,870 --> 00:32:03,600

because it's

900

00:32:07,190 --> 00:32:04,880

kind of throwing your hands up and

901
00:32:09,190 --> 00:32:07,200
saying you know

902
00:32:11,110 --> 00:32:09,200
we'll never know you know that we're

903
00:32:13,269 --> 00:32:11,120
subject to an interdimensional being

904
00:32:15,750 --> 00:32:13,279
that is just toying with us and there's

905
00:32:17,590 --> 00:32:15,760
no way to ever prove it which

906
00:32:19,110 --> 00:32:17,600
kind of sucks if that's true

907
00:32:21,110 --> 00:32:19,120
it does but you know what this is just

908
00:32:22,950 --> 00:32:21,120
another example you know you looked into

909
00:32:24,710 --> 00:32:22,960
the time travel theory you're now

910
00:32:26,230 --> 00:32:24,720
looking at interdimensional and and

911
00:32:27,909 --> 00:32:26,240
you're asking the questions

912
00:32:31,029 --> 00:32:27,919
it's good that you're not afraid to go

913
00:32:32,710 --> 00:32:31,039

there which i think it really shows

914

00:32:34,389 --> 00:32:32,720

um but it shows that your knowledge of

915

00:32:36,470 --> 00:32:34,399

it you definitely do the research or you

916

00:32:38,710 --> 00:32:36,480

or you have a knack for it because you

917

00:32:40,789 --> 00:32:38,720

know it goes way above my head but but i

918

00:32:43,029 --> 00:32:40,799

love you yeah and watching

919

00:32:44,710 --> 00:32:43,039

i love staying up till 2-3 a.m just

920

00:32:47,110 --> 00:32:44,720

digging down those reddit rabbit holes

921

00:32:48,870 --> 00:32:47,120

and find all these weird links and

922

00:32:50,789 --> 00:32:48,880

yeah no i think that the that's where

923

00:32:53,110 --> 00:32:50,799

the fun is in the whole ufo community is

924

00:32:55,590 --> 00:32:53,120

digging down to these theories and

925

00:32:57,750 --> 00:32:55,600

seeing how they might make some sense

926
00:33:00,710 --> 00:32:57,760
yeah absolutely so how do time crystals

927
00:33:02,149 --> 00:33:00,720
fit in with time travel or is the is it

928
00:33:03,909 --> 00:33:02,159
a separate thing

929
00:33:06,870 --> 00:33:03,919
yeah so those are

930
00:33:09,909 --> 00:33:06,880
separate concepts actually so uh the

931
00:33:12,470 --> 00:33:09,919
time crystals has a very uh misleading

932
00:33:14,870 --> 00:33:12,480
name uh because i do kind of apply time

933
00:33:15,990 --> 00:33:14,880
travel but really what a time crystal is

934
00:33:18,389 --> 00:33:16,000
is just

935
00:33:20,870 --> 00:33:18,399
something that repeats

936
00:33:23,029 --> 00:33:20,880
in time so like we talked about quasi

937
00:33:24,789 --> 00:33:23,039
crystals and how crystals repeat in

938
00:33:26,630 --> 00:33:24,799

space because they have like a

939

00:33:27,430 --> 00:33:26,640

repeatable structure

940

00:33:28,310 --> 00:33:27,440

um

941

00:33:48,389 --> 00:33:28,320

a

942

00:33:50,389 --> 00:33:48,399

could

943

00:33:52,310 --> 00:33:50,399

it kind of implies like if you saw

944

00:33:54,470 --> 00:33:52,320

something like that it kind of implies

945

00:33:57,350 --> 00:33:54,480

perpetual motion right because it is

946

00:33:59,430 --> 00:33:57,360

something that is moving forever yeah

947

00:34:00,950 --> 00:33:59,440

constantly in motion and that you know

948

00:34:03,110 --> 00:34:00,960

you think of it physically and we're

949

00:34:05,350 --> 00:34:03,120

always told that that can't happen

950

00:34:07,110 --> 00:34:05,360

there's air resistance there's friction

951
00:34:08,869 --> 00:34:07,120
there's something that's going to

952
00:34:10,230 --> 00:34:08,879
cause that motion to eventually slow

953
00:34:12,230 --> 00:34:10,240
down and stop

954
00:34:13,909 --> 00:34:12,240
right they found in the last you know

955
00:34:15,510 --> 00:34:13,919
couple of years they've been able to

956
00:34:17,430 --> 00:34:15,520
demonstrate

957
00:34:18,710 --> 00:34:17,440
something at the very lowest energy

958
00:34:21,669 --> 00:34:18,720
state so it's just you know like a

959
00:34:24,310 --> 00:34:21,679
collection of molecules and they kind of

960
00:34:26,310 --> 00:34:24,320
jostle it and then it starts

961
00:34:28,710 --> 00:34:26,320
the the quantum spin on it starts to

962
00:34:30,550 --> 00:34:28,720
spin one way and then alternate to spin

963
00:34:32,710 --> 00:34:30,560

the other way so you have these

964

00:34:36,470 --> 00:34:32,720

molecules that are

965

00:34:38,069 --> 00:34:36,480

altering on a quantum level periodically

966

00:34:39,349 --> 00:34:38,079

and they'll just keep on doing this this

967

00:34:40,790 --> 00:34:39,359

forever

968

00:34:43,109 --> 00:34:40,800

and it's a

969

00:34:44,629 --> 00:34:43,119

a really weird phenomenon they're kind

970

00:34:46,310 --> 00:34:44,639

of

971

00:34:48,149 --> 00:34:46,320

haven't really found any practical

972

00:34:49,669 --> 00:34:48,159

applications for it yet and it's kind of

973

00:34:51,909 --> 00:34:49,679

unclear exactly what the practical

974

00:34:53,190 --> 00:34:51,919

applications are but it

975

00:34:55,109 --> 00:34:53,200

it's

976

00:34:57,430 --> 00:34:55,119

most of the research is around

977

00:34:59,589 --> 00:34:57,440

using these for like quantum computing

978

00:35:02,150 --> 00:34:59,599

and kind of trying to isolate these

979

00:35:04,950 --> 00:35:02,160

quantum effects and being able to uh you

980

00:35:06,390 --> 00:35:04,960

know make kind of coherent quantum

981

00:35:08,710 --> 00:35:06,400

structures

982

00:35:10,150 --> 00:35:08,720

so yeah i yeah i don't really know where

983

00:35:16,470 --> 00:35:10,160

the time crystals are going but i think

984

00:35:20,390 --> 00:35:19,109

because time travel is kind of a

985

00:35:23,430 --> 00:35:20,400

inherent

986

00:35:24,950 --> 00:35:23,440

side effect of faster than light travel

987

00:35:27,990 --> 00:35:24,960

so when you talk about being able to

988

00:35:29,589 --> 00:35:28,000

warp space or make any possible faster

989

00:35:30,390 --> 00:35:29,599

than light drive

990

00:35:33,349 --> 00:35:30,400

that

991

00:35:34,390 --> 00:35:33,359

travel

992

00:35:37,510 --> 00:35:34,400

and

993

00:35:39,510 --> 00:35:37,520

this is one of those things that i

994

00:35:41,990 --> 00:35:39,520

definitely have to keep straight in my

995

00:35:43,990 --> 00:35:42,000

mind before i attempt to explain it

996

00:35:46,390 --> 00:35:44,000

coherently but there's these things

997

00:35:47,510 --> 00:35:46,400

called space-time diagrams

998

00:35:49,270 --> 00:35:47,520

and

999

00:35:52,550 --> 00:35:49,280

kind of like a cool concept is that

1000

00:35:53,990 --> 00:35:52,560

we're always going the speed of light in

1001
00:35:55,589 --> 00:35:54,000
either the

1002
00:35:57,589 --> 00:35:55,599
time axis

1003
00:35:59,430 --> 00:35:57,599
or the space axis

1004
00:36:01,750 --> 00:35:59,440
so like the

1005
00:36:03,910 --> 00:36:01,760
so so if you're going really fast

1006
00:36:04,950 --> 00:36:03,920
in space you're going really slow in

1007
00:36:07,270 --> 00:36:04,960
time

1008
00:36:10,870 --> 00:36:07,280
okay and if you're and if you're going

1009
00:36:12,470 --> 00:36:10,880
faster and so your time and your space

1010
00:36:13,670 --> 00:36:12,480
always have to add up to the speed of

1011
00:36:15,430 --> 00:36:13,680
light

1012
00:36:17,430 --> 00:36:15,440
right and so this is where it gets weird

1013
00:36:19,190 --> 00:36:17,440

if you're going faster than the speed of

1014

00:36:21,270 --> 00:36:19,200

light

1015

00:36:23,190 --> 00:36:21,280

that mathematically means that your time

1016

00:36:25,510 --> 00:36:23,200

is negative because they have to add up

1017

00:36:28,870 --> 00:36:25,520

to the speed of light

1018

00:36:30,950 --> 00:36:28,880

and so that that that just yeah it's

1019

00:36:34,150 --> 00:36:30,960

it it's an argument for you know faster

1020

00:36:35,670 --> 00:36:34,160

than like travel may be being impossible

1021

00:36:38,230 --> 00:36:35,680

right but then you have you have people

1022

00:36:40,870 --> 00:36:38,240

like stephen hawkins and other

1023

00:36:42,870 --> 00:36:40,880

like you know top level theoretical

1024

00:36:44,550 --> 00:36:42,880

physicists who

1025

00:36:46,870 --> 00:36:44,560

are doing papers about this stuff who

1026

00:36:49,270 --> 00:36:46,880

talk about you know being able to go

1027

00:36:51,910 --> 00:36:49,280

back in time at the quantum level and

1028

00:36:53,589 --> 00:36:51,920

they you know they have these

1029

00:36:55,430 --> 00:36:53,599

principles that talk about you know how

1030

00:36:57,190 --> 00:36:55,440

you know might you might

1031

00:36:58,710 --> 00:36:57,200

be able to go back in time but maybe you

1032

00:37:01,190 --> 00:36:58,720

wouldn't be able to change anything

1033

00:37:03,510 --> 00:37:01,200

because that would create a

1034

00:37:06,150 --> 00:37:03,520

piling on a that would create like a

1035

00:37:07,750 --> 00:37:06,160

spiral space-time bubble that would

1036

00:37:09,750 --> 00:37:07,760

blow up the universe or something like

1037

00:37:11,349 --> 00:37:09,760

that so there's these cool like uh

1038

00:37:12,470 --> 00:37:11,359

there's the uh

1039

00:37:15,030 --> 00:37:12,480

uh

1040

00:37:17,030 --> 00:37:15,040

novakov self-consistency principle i

1041

00:37:18,470 --> 00:37:17,040

think that is but there's these these

1042

00:37:20,470 --> 00:37:18,480

principles that these theoretical

1043

00:37:22,870 --> 00:37:20,480

scientists have made about the the

1044

00:37:24,150 --> 00:37:22,880

nature of time travel so they're not

1045

00:37:26,790 --> 00:37:24,160

ruling it out but they're kind of

1046

00:37:27,990 --> 00:37:26,800

putting some parameters on it so yeah

1047

00:37:32,230 --> 00:37:28,000

it's

1048

00:37:35,109 --> 00:37:32,240

fascinating man and i love the way that

1049

00:37:36,790 --> 00:37:35,119

you explain it because it does it it i

1050

00:37:38,230 --> 00:37:36,800

can see it in my head like the way

1051
00:37:39,829 --> 00:37:38,240
you're talking about it it breaks it

1052
00:37:42,069 --> 00:37:39,839
down to a level where

1053
00:37:44,390 --> 00:37:42,079
i can kind of not necessarily understand

1054
00:37:45,829 --> 00:37:44,400
it but i can picture it and yeah i don't

1055
00:37:47,030 --> 00:37:45,839
think anyone could actually understand

1056
00:37:48,870 --> 00:37:47,040
this

1057
00:37:51,030 --> 00:37:48,880
pretty wild

1058
00:37:52,150 --> 00:37:51,040
now the one i think my favorite video

1059
00:37:55,109 --> 00:37:52,160
that you did

1060
00:37:56,230 --> 00:37:55,119
was the one about ball lightning

1061
00:37:58,150 --> 00:37:56,240
um

1062
00:38:00,870 --> 00:37:58,160
that blew me away it's not something

1063
00:38:02,150 --> 00:38:00,880

i've really looked into but i've started

1064

00:38:04,230 --> 00:38:02,160

recently looking into things like the

1065

00:38:06,230 --> 00:38:04,240

hairstyle and lights and things like

1066

00:38:07,270 --> 00:38:06,240

that so

1067

00:38:09,829 --> 00:38:07,280

yeah i don't know where you want to

1068

00:38:12,230 --> 00:38:09,839

start with ball lightning um but yeah

1069

00:38:14,630 --> 00:38:12,240

break it down for us if you can

1070

00:38:17,109 --> 00:38:14,640

yeah so you know the uh there's the

1071

00:38:20,069 --> 00:38:17,119

condon report in the the usa in like the

1072

00:38:21,430 --> 00:38:20,079

60s i kind of ended project blue book

1073

00:38:24,150 --> 00:38:21,440

and kind of you know had the thing

1074

00:38:25,670 --> 00:38:24,160

saying you know this is all atmospheric

1075

00:38:27,109 --> 00:38:25,680

stuff and you know there's no real

1076

00:38:29,190 --> 00:38:27,119

aliens here

1077

00:38:31,270 --> 00:38:29,200

but you know in that report they did say

1078

00:38:33,829 --> 00:38:31,280

that there are these atmospheric

1079

00:38:34,710 --> 00:38:33,839

phenomenon that deserve to be further

1080

00:38:36,310 --> 00:38:34,720

studied

1081

00:38:38,150 --> 00:38:36,320

and they call this you know ball

1082

00:38:40,150 --> 00:38:38,160

lightning and you know even before that

1083

00:38:42,870 --> 00:38:40,160

and i think in the 50s they did

1084

00:38:44,310 --> 00:38:42,880

a preliminary report on ball lightning

1085

00:38:46,390 --> 00:38:44,320

which i wish i dug up which i thought

1086

00:38:47,910 --> 00:38:46,400

was a kind of an interesting day when we

1087

00:38:50,150 --> 00:38:47,920

have the the current fully married

1088

00:38:51,030 --> 00:38:50,160

proton of uap

1089

00:38:52,790 --> 00:38:51,040

but that

1090

00:38:54,470 --> 00:38:52,800

that report you know is you know from

1091

00:38:56,470 --> 00:38:54,480

the 50s it did a

1092

00:38:58,470 --> 00:38:56,480

surveying of people at a nuclear

1093

00:39:00,550 --> 00:38:58,480

facility and like

1094

00:39:03,190 --> 00:39:00,560

something like three to five percent had

1095

00:39:04,310 --> 00:39:03,200

witnessed this ball lightning phenomenon

1096

00:39:05,910 --> 00:39:04,320

and

1097

00:39:07,750 --> 00:39:05,920

it's it's very

1098

00:39:09,349 --> 00:39:07,760

strange right there's

1099

00:39:10,630 --> 00:39:09,359

and and when i say ball lightning i

1100

00:39:12,470 --> 00:39:10,640

really don't even know what i mean like

1101

00:39:15,270 --> 00:39:12,480

a lot of people hear that and they

1102

00:39:18,230 --> 00:39:15,280

assume that you're talking about

1103

00:39:20,950 --> 00:39:18,240

natural atmospheric phenomenon something

1104

00:39:23,829 --> 00:39:20,960

like lightning but it's just you know

1105

00:39:26,470 --> 00:39:23,839

a ball and lasts for a couple seconds

1106

00:39:28,710 --> 00:39:26,480

um but if you if you look at this uh you

1107

00:39:30,630 --> 00:39:28,720

know preliminary report you know they're

1108

00:39:33,910 --> 00:39:30,640

suggesting that there might be

1109

00:39:36,230 --> 00:39:33,920

fusion reactions going on in these ball

1110

00:39:38,310 --> 00:39:36,240

lightning things which still could be a

1111

00:39:40,630 --> 00:39:38,320

natural phenomenon but

1112

00:39:43,510 --> 00:39:40,640

you know by my angle of it where i see

1113

00:39:45,589 --> 00:39:43,520

this going is that maybe these are

1114

00:39:47,349 --> 00:39:45,599

that's how the uap how you know

1115

00:39:49,589 --> 00:39:47,359

extraterrestrial craft work is that

1116

00:39:51,030 --> 00:39:49,599

they're causing this ball you know

1117

00:39:53,430 --> 00:39:51,040

causing a fusion reaction that's how

1118

00:39:55,670 --> 00:39:53,440

they get their energy and it looks like

1119

00:39:57,589 --> 00:39:55,680

ball lightning to us but

1120

00:40:02,069 --> 00:39:57,599

you know there's there's papers on you

1121

00:40:04,630 --> 00:40:02,079

know self-organizing plasma dust and

1122

00:40:06,230 --> 00:40:04,640

they could even be their own life forms

1123

00:40:07,750 --> 00:40:06,240

right there could be plasma life that

1124

00:40:10,550 --> 00:40:07,760

exists in the atmosphere maybe it is an

1125

00:40:13,510 --> 00:40:10,560

e.t but there's just you know so many

1126

00:40:15,190 --> 00:40:13,520

different possibilities and it's

1127

00:40:16,630 --> 00:40:15,200

yeah i i think it's very very

1128

00:40:18,470 --> 00:40:16,640

interesting you talk about heslin as

1129

00:40:21,349 --> 00:40:18,480

well you know yeah there's clear

1130

00:40:23,030 --> 00:40:21,359

examples of it going on but it's still

1131

00:40:24,790 --> 00:40:23,040

it seems like we should know more about

1132

00:40:27,190 --> 00:40:24,800

these fall lightnings in the hesseland

1133

00:40:29,349 --> 00:40:27,200

areas and stuff but definitely but we

1134

00:40:30,790 --> 00:40:29,359

don't but i find that interesting yeah

1135

00:40:32,630 --> 00:40:30,800

and like i said it's something i've only

1136

00:40:34,230 --> 00:40:32,640

really recently touched upon i think i'm

1137

00:40:35,990 --> 00:40:34,240

going to be speaking to erling strand in

1138

00:40:38,069 --> 00:40:36,000

a few weeks because

1139

00:40:38,950 --> 00:40:38,079

i want to learn i want to learn more man

1140

00:40:40,790 --> 00:40:38,960

um

1141

00:40:43,109 --> 00:40:40,800

but yeah dan the signal thank you

1142

00:40:45,430 --> 00:40:43,119

brother for being here um i miss you man

1143

00:40:47,910 --> 00:40:45,440

we we spent a few good days together but

1144

00:40:50,390 --> 00:40:47,920

he says ball lightning is fascinating we

1145

00:40:53,190 --> 00:40:50,400

understand so little about it and it has

1146

00:40:55,190 --> 00:40:53,200

oh so many similar qualities

1147

00:40:57,109 --> 00:40:55,200

but then goes on

1148

00:40:59,990 --> 00:40:57,119

where was it i missed it

1149

00:41:01,510 --> 00:41:00,000

i imagine they use the mechanism the uap

1150

00:41:03,510 --> 00:41:01,520

do i mean

1151

00:41:04,470 --> 00:41:03,520

wow

1152

00:41:06,230 --> 00:41:04,480

yeah

1153

00:41:08,710 --> 00:41:06,240

he mentioned via the martin fisherman

1154

00:41:10,550 --> 00:41:08,720

memorial project which is a a really

1155

00:41:13,270 --> 00:41:10,560

cool uh you know project that's doing a

1156

00:41:16,230 --> 00:41:13,280

lot of research in these areas of

1157

00:41:19,030 --> 00:41:16,240

fusion reactions and ball lightning and

1158

00:41:20,390 --> 00:41:19,040

a concept like code fusion uh so i'd

1159

00:41:22,630 --> 00:41:20,400

recommend everyone checking that out if

1160

00:41:25,190 --> 00:41:22,640

they're interested in this topic

1161

00:41:27,990 --> 00:41:25,200

i will certainly be popping that

1162

00:41:30,790 --> 00:41:28,000

into uh my browser later thank you

1163

00:41:32,230 --> 00:41:30,800

signal thank you rather um so listen

1164

00:41:33,589 --> 00:41:32,240

that that's kind of covered all your

1165

00:41:34,950 --> 00:41:33,599

videos now what i will say is to

1166

00:41:37,109 --> 00:41:34,960

everybody

1167

00:41:39,430 --> 00:41:37,119

in the chat right now listening to this

1168

00:41:41,349 --> 00:41:39,440

on youtube later or or on apple podcast

1169

00:41:43,030 --> 00:41:41,359

or spotify you've got to go and check

1170

00:41:45,349 --> 00:41:43,040

out rather's channel because it is

1171

00:41:47,589 --> 00:41:45,359

incredible because it breaks down these

1172

00:41:50,309 --> 00:41:47,599

scientific principles or conversations

1173

00:41:52,550 --> 00:41:50,319

to a point where it's not as

1174

00:41:54,470 --> 00:41:52,560

mind-numbing as he might think sometimes

1175

00:41:56,630 --> 00:41:54,480

rather does a great job

1176

00:41:58,390 --> 00:41:56,640

um now let's say let's jump back let's

1177

00:42:00,630 --> 00:41:58,400

jump back to a bit more of what's been

1178

00:42:03,430 --> 00:42:00,640

happening recently i think your latest

1179

00:42:06,230 --> 00:42:03,440

video which i watched earlier is

1180

00:42:07,750 --> 00:42:06,240

regarding skin walkers at the pentagon

1181

00:42:11,030 --> 00:42:07,760

yeah that's a

1182

00:42:12,710 --> 00:42:11,040

wild story huh it is i mean it gives us

1183

00:42:15,270 --> 00:42:12,720

some details about the relationship

1184

00:42:17,109 --> 00:42:15,280

between orsap and atip

1185

00:42:18,790 --> 00:42:17,119

still a little bit of things unclear for

1186

00:42:20,790 --> 00:42:18,800

me personally

1187

00:42:22,710 --> 00:42:20,800

then there's obviously some controversy

1188

00:42:24,710 --> 00:42:22,720

with kind of

1189

00:42:25,829 --> 00:42:24,720

high strangeness let's say

1190

00:42:28,069 --> 00:42:25,839

um

1191

00:42:30,550 --> 00:42:28,079

what's your breakdown or take on it from

1192

00:42:32,069 --> 00:42:30,560

from from your perspective

1193

00:42:33,910 --> 00:42:32,079

yeah i mean it's uh

1194

00:42:36,069 --> 00:42:33,920

i i found it really fascinating you know

1195

00:42:37,270 --> 00:42:36,079

the whole a tip versus awesome i think

1196

00:42:38,790 --> 00:42:37,280

that that

1197

00:42:40,790 --> 00:42:38,800

shed some light on there which i you

1198

00:42:41,670 --> 00:42:40,800

know i thought was very very interesting

1199

00:42:43,190 --> 00:42:41,680

uh

1200

00:42:45,030 --> 00:42:43,200

you know when you get to the specifics

1201
00:42:46,710 --> 00:42:45,040
of the stories there

1202
00:42:49,430 --> 00:42:46,720
it's like you know wow right you know

1203
00:42:51,349 --> 00:42:49,440
after after i read the or saw the 2017

1204
00:42:52,790 --> 00:42:51,359
new york times story one of the first

1205
00:42:54,230 --> 00:42:52,800
things that i

1206
00:42:57,030 --> 00:42:54,240
went into was

1207
00:42:58,550 --> 00:42:57,040
it's george knapp skinwalker ranch book

1208
00:43:00,230 --> 00:42:58,560
and you have the stuff that went on

1209
00:43:02,230 --> 00:43:00,240
there and you at the time i was like you

1210
00:43:04,390 --> 00:43:02,240
know wow this is

1211
00:43:06,230 --> 00:43:04,400
unbelievable right like

1212
00:43:08,150 --> 00:43:06,240
and and now you know we have this new

1213
00:43:12,069 --> 00:43:08,160

book that kind of doubles down on all

1214

00:43:15,030 --> 00:43:12,079

those really crazy tales about cryptids

1215

00:43:16,550 --> 00:43:15,040

and you know irrational fear circles and

1216

00:43:18,150 --> 00:43:16,560

and stuff like that

1217

00:43:19,510 --> 00:43:18,160

and it

1218

00:43:20,870 --> 00:43:19,520

on one hand you know you kind of want to

1219

00:43:22,870 --> 00:43:20,880

read that and just say you know this

1220

00:43:24,630 --> 00:43:22,880

can't be right this is

1221

00:43:27,349 --> 00:43:24,640

this is like you know

1222

00:43:30,150 --> 00:43:27,359

it's a step above et visiting us because

1223

00:43:32,390 --> 00:43:30,160

like i can have a scientific basis for

1224

00:43:34,230 --> 00:43:32,400

and i almost scientist i believe that we

1225

00:43:36,790 --> 00:43:34,240

should be seeing et's based on if you

1226

00:43:38,150 --> 00:43:36,800

think that if space travel is possible

1227

00:43:40,069 --> 00:43:38,160

and we're not alone

1228

00:43:41,990 --> 00:43:40,079

yeah but something like you know that

1229

00:43:43,190 --> 00:43:42,000

you know interdimensional sasquatches

1230

00:43:45,270 --> 00:43:43,200

you know

1231

00:43:47,430 --> 00:43:45,280

coming around i i don't really have any

1232

00:43:49,109 --> 00:43:47,440

scientific framework that can

1233

00:43:50,630 --> 00:43:49,119

build that into it

1234

00:43:52,069 --> 00:43:50,640

but but then you know when i was reading

1235

00:43:54,550 --> 00:43:52,079

this book

1236

00:43:57,270 --> 00:43:54,560

you hear about them talking about

1237

00:43:59,829 --> 00:43:57,280

the people who have these experiences

1238

00:44:01,190 --> 00:43:59,839

have immune system responses like they

1239

00:44:03,430 --> 00:44:01,200

take their blood and it looks like

1240

00:44:05,190 --> 00:44:03,440

they've you know our their immune system

1241

00:44:07,349 --> 00:44:05,200

is fighting something

1242

00:44:09,750 --> 00:44:07,359

and then you also pair that with the

1243

00:44:11,510 --> 00:44:09,760

hitchhiker effect which they kind of

1244

00:44:13,349 --> 00:44:11,520

double down on this book as well you

1245

00:44:14,950 --> 00:44:13,359

know people go to the ranch and then

1246

00:44:17,349 --> 00:44:14,960

they go home and their family members

1247

00:44:18,710 --> 00:44:17,359

start experiencing these this weirdness

1248

00:44:20,710 --> 00:44:18,720

yeah

1249

00:44:22,950 --> 00:44:20,720

and they even talk about in the book

1250

00:44:25,910 --> 00:44:22,960

treating or you know modeling the

1251
00:44:27,109 --> 00:44:25,920
behavior on the ranch as an infectious

1252
00:44:28,630 --> 00:44:27,119
agent

1253
00:44:30,150 --> 00:44:28,640
and they they say you know there's a lot

1254
00:44:31,589 --> 00:44:30,160
of parallels between the hitchhiker

1255
00:44:32,870 --> 00:44:31,599
effect and how a virus might be

1256
00:44:33,670 --> 00:44:32,880
transmitted

1257
00:44:34,870 --> 00:44:33,680
um

1258
00:44:37,109 --> 00:44:34,880
and so then you know when i'm you know

1259
00:44:39,430 --> 00:44:37,119
racking my brain and trying to find a

1260
00:44:42,150 --> 00:44:39,440
scientific potential explanation for all

1261
00:44:43,910 --> 00:44:42,160
this weirdness that goes on there

1262
00:44:45,990 --> 00:44:43,920
you know i think that jumps right out at

1263
00:44:48,790 --> 00:44:46,000

me is that hey maybe this maybe this is

1264

00:44:51,670 --> 00:44:48,800

a literal infectious agent that is

1265

00:44:53,190 --> 00:44:51,680

you know it may be in the in the dirt in

1266

00:44:54,710 --> 00:44:53,200

the soil somewhere in the in the food

1267

00:44:57,430 --> 00:44:54,720

supply that

1268

00:44:59,349 --> 00:44:57,440

people are inhaling and

1269

00:45:01,430 --> 00:44:59,359

maybe hallucinating maybe getting some

1270

00:45:03,430 --> 00:45:01,440

you know fear and

1271

00:45:05,670 --> 00:45:03,440

when they come home they they spread

1272

00:45:06,870 --> 00:45:05,680

that virus that's causing that strange

1273

00:45:08,390 --> 00:45:06,880

effects to

1274

00:45:09,670 --> 00:45:08,400

other people

1275

00:45:11,030 --> 00:45:09,680

uh yeah

1276

00:45:12,630 --> 00:45:11,040

interesting

1277

00:45:13,990 --> 00:45:12,640

that's like the only way i could really

1278

00:45:16,230 --> 00:45:14,000

make sense of it i don't i don't know if

1279

00:45:17,750 --> 00:45:16,240

it's true but it is hard to make sense

1280

00:45:19,510 --> 00:45:17,760

of it that's the thing when you get onto

1281

00:45:21,430 --> 00:45:19,520

that aspect of the high strangeness in

1282

00:45:24,150 --> 00:45:21,440

the book it's all good talking about

1283

00:45:25,349 --> 00:45:24,160

government compartments and agencies and

1284

00:45:27,349 --> 00:45:25,359

groups

1285

00:45:29,190 --> 00:45:27,359

but then when you get into the ranch and

1286

00:45:31,270 --> 00:45:29,200

and the deep stuff yeah

1287

00:45:33,270 --> 00:45:31,280

um

1288

00:45:35,109 --> 00:45:33,280

we're talking immune systems

1289

00:45:38,870 --> 00:45:35,119

can you ask rather what he thinks about

1290

00:45:41,190 --> 00:45:38,880

nolan's work with a caudate puterman

1291

00:45:43,030 --> 00:45:41,200

i assume he means gary nolan

1292

00:45:47,109 --> 00:45:43,040

correct me if i'm wrong dan

1293

00:45:49,670 --> 00:45:47,119

um i see rather noting away yeah

1294

00:45:51,109 --> 00:45:49,680

i am not familiar with uh with that at

1295

00:45:53,190 --> 00:45:51,119

all but uh

1296

00:45:55,270 --> 00:45:53,200

dan has awesome information so i'm

1297

00:45:58,069 --> 00:45:55,280

definitely taking a note to uh research

1298

00:46:00,309 --> 00:45:58,079

that later thank you we will get back to

1299

00:46:01,829 --> 00:46:00,319

you on that dan no problem at all

1300

00:46:03,910 --> 00:46:01,839

michael hunterton that's a good point

1301

00:46:06,870 --> 00:46:03,920

hitchhiker effect will remain voodoo

1302

00:46:09,750 --> 00:46:06,880

until a mechanism is ascribed

1303

00:46:11,109 --> 00:46:09,760

fantastic point it is

1304

00:46:13,510 --> 00:46:11,119

i mean that's a strange thing too

1305

00:46:15,589 --> 00:46:13,520

because you know voodoo

1306

00:46:17,349 --> 00:46:15,599

has real physical effects on people

1307

00:46:19,270 --> 00:46:17,359

right you have you talk about the

1308

00:46:21,750 --> 00:46:19,280

placebo effect and

1309

00:46:23,190 --> 00:46:21,760

how strange that is and yeah maybe

1310

00:46:24,309 --> 00:46:23,200

that's what's going on there it seems

1311

00:46:26,710 --> 00:46:24,319

like

1312

00:46:28,150 --> 00:46:26,720

a very very powerful placebo effect

1313

00:46:30,230 --> 00:46:28,160

that's what's happening at the skywalker

1314

00:46:31,430 --> 00:46:30,240

ranch but

1315

00:46:32,550 --> 00:46:31,440

there might be an aspect of that going

1316

00:46:34,230 --> 00:46:32,560

on too

1317

00:46:35,750 --> 00:46:34,240

i think a little bit of this frustrating

1318

00:46:36,790 --> 00:46:35,760

is i think it seems that there's a lot

1319

00:46:39,109 --> 00:46:36,800

of

1320

00:46:41,430 --> 00:46:39,119

the research that was done on the ranch

1321

00:46:44,150 --> 00:46:41,440

previously through uh through bass is

1322

00:46:46,710 --> 00:46:44,160

still hidden away within bass somewhere

1323

00:46:49,270 --> 00:46:46,720

you know it's it's outside of

1324

00:46:51,990 --> 00:46:49,280

the realms of foyer and things like that

1325

00:46:54,069 --> 00:46:52,000

and yet we we don't get to see it and it

1326

00:46:56,150 --> 00:46:54,079

sounds like bigelow's sitting on

1327

00:46:59,030 --> 00:46:56,160

a hell of a lot of data and information

1328

00:47:01,270 --> 00:46:59,040

possibly you know yeah i know it is it

1329

00:47:02,710 --> 00:47:01,280

is frustrating right especially when

1330

00:47:04,309 --> 00:47:02,720

our government paid for that research

1331

00:47:06,309 --> 00:47:04,319

you know we should

1332

00:47:08,470 --> 00:47:06,319

be able to flip through it

1333

00:47:11,030 --> 00:47:08,480

yeah exactly like get as many scientists

1334

00:47:12,870 --> 00:47:11,040

as we can looking at it because

1335

00:47:15,510 --> 00:47:12,880

yeah it baffles me here you go signal

1336

00:47:18,309 --> 00:47:15,520

again bigelow should give it to us for

1337

00:47:20,390 --> 00:47:18,319

christmas there you go man

1338

00:47:21,990 --> 00:47:20,400

it does seem like all this ufo dudes

1339

00:47:24,069 --> 00:47:22,000

does seem to come out in december like

1340

00:47:26,630 --> 00:47:24,079

the 2017 came out in december i think

1341

00:47:28,470 --> 00:47:26,640

there's a couple other drops there i

1342

00:47:30,230 --> 00:47:28,480

here's hoping

1343

00:47:32,710 --> 00:47:30,240

hey man i'll take that i'll take it

1344

00:47:35,109 --> 00:47:32,720

every year something to look forward to

1345

00:47:36,230 --> 00:47:35,119

um so finally like a couple of or one of

1346

00:47:38,230 --> 00:47:36,240

the last things i'd like to talk to you

1347

00:47:40,950 --> 00:47:38,240

about is we've seen recently about the

1348

00:47:42,950 --> 00:47:40,960

possibility of a uap permanent office

1349

00:47:45,829 --> 00:47:42,960

being set up well at least for the next

1350

00:47:47,270 --> 00:47:45,839

four years maybe um do you have much

1351

00:47:52,950 --> 00:47:47,280

confidence in what you've seen when

1352

00:47:55,589 --> 00:47:52,960

looking at you know hr 4350 and 2610

1353

00:47:57,750 --> 00:47:55,599

yeah i i'm excited about that i think

1354

00:47:59,589 --> 00:47:57,760

that you know i wish that

1355

00:48:01,510 --> 00:47:59,599

those bills would have specified a

1356

00:48:03,829 --> 00:48:01,520

public report versus just you know kind

1357

00:48:05,349 --> 00:48:03,839

of the the confidential reports

1358

00:48:07,349 --> 00:48:05,359

but you know

1359

00:48:08,870 --> 00:48:07,359

you look back into the the weird history

1360

00:48:11,109 --> 00:48:08,880

of this issue and you know the

1361

00:48:13,030 --> 00:48:11,119

skinwalker ranch stuff and the awes app

1362

00:48:15,030 --> 00:48:13,040

and i think you know kind of regardless

1363

00:48:17,510 --> 00:48:15,040

of whether you think that that was a you

1364

00:48:20,549 --> 00:48:17,520

know a wild goose chase or had some

1365

00:48:22,230 --> 00:48:20,559

merit to it i think that undeniably

1366

00:48:24,630 --> 00:48:22,240

there's a lot of good that came out of

1367

00:48:27,109 --> 00:48:24,640

it which was the uap task force which

1368

00:48:29,270 --> 00:48:27,119

gave us that report and now this uap

1369

00:48:31,349 --> 00:48:29,280

office which seemed

1370

00:48:33,270 --> 00:48:31,359

yeah it seems you know from all

1371

00:48:34,390 --> 00:48:33,280

available information that these are

1372

00:48:35,670 --> 00:48:34,400

real

1373

00:48:38,630 --> 00:48:35,680

valid

1374

00:48:40,630 --> 00:48:38,640

takes and people looking into these uaps

1375

00:48:41,910 --> 00:48:40,640

that are going into their skies

1376

00:48:44,150 --> 00:48:41,920

so you know i i

1377

00:48:46,230 --> 00:48:44,160

applaud those efforts and i think it's a

1378

00:48:47,430 --> 00:48:46,240

i mean it's the most movement in the

1379

00:48:49,430 --> 00:48:47,440

government for

1380

00:48:52,630 --> 00:48:49,440

you know since blue book right for

1381

00:48:55,589 --> 00:48:52,640

50 60 years i think it's amazing

1382

00:48:57,990 --> 00:48:55,599

certainly in the public eye yeah i mean

1383

00:48:59,190 --> 00:48:58,000

for sure i i'm i'm with you on that

1384

00:49:01,190 --> 00:48:59,200

absolutely

1385

00:49:03,430 --> 00:49:01,200

um so

1386

00:49:05,109 --> 00:49:03,440

what you know we we know you from ucr

1387

00:49:07,190 --> 00:49:05,119

and singularity lab in that but have you

1388

00:49:09,349 --> 00:49:07,200

got anything else planned for the near

1389

00:49:12,230 --> 00:49:09,359

future or going forward any research

1390

00:49:14,150 --> 00:49:12,240

that you're digging into right now

1391

00:49:16,710 --> 00:49:14,160

um nothing

1392

00:49:17,910 --> 00:49:16,720

really uh burning on my plate i've uh i

1393

00:49:19,670 --> 00:49:17,920

think i'm gonna try to make a little

1394

00:49:21,430 --> 00:49:19,680

video explaining some of those concepts

1395

00:49:24,470 --> 00:49:21,440

of the the faucet demon a little bit

1396

00:49:26,150 --> 00:49:24,480

more and maybe uh maybe relate it to uh

1397

00:49:28,829 --> 00:49:26,160

santa claus because i think that he

1398

00:49:30,309 --> 00:49:28,839

might be a interdimensional

1399

00:49:32,069 --> 00:49:30,319

entity so wow

1400

00:49:34,309 --> 00:49:32,079

it's a good time of year

1401

00:49:35,829 --> 00:49:34,319

we'll see see if i can get that out in

1402

00:49:38,390 --> 00:49:35,839

time for christmas

1403

00:49:40,150 --> 00:49:38,400

that is awesome man well listen rather

1404

00:49:41,990 --> 00:49:40,160

1412

00:49:59,030 --> 00:49:57,119

videos again because

1413

00:50:01,829 --> 00:49:59,040

they are that good i cannot stress

1414

00:50:04,150 --> 00:50:01,839

enough to everybody out there the rather

1415

00:50:05,990 --> 00:50:04,160

comes from such a great angle

1416

00:50:07,829 --> 00:50:06,000

that it's going to make you want more

1417

00:50:10,309 --> 00:50:07,839

it's going to make you dig more as well

1418

00:50:12,309 --> 00:50:10,319

so yeah

1419

00:50:14,069 --> 00:50:12,319

go and subscribe to rather follow me on

1420

00:50:16,230 --> 00:50:14,079

twitter and all that but rather again

1421

00:50:18,470 --> 00:50:16,240

thank you so much my friend enjoy the

1422

00:50:20,790 --> 00:50:18,480

1423

00:50:21,829 --> 00:50:20,800

you back on ucr in a couple of days

1424

00:50:23,910 --> 00:50:21,839

thanks

1425

00:50:26,630 --> 00:50:23,920

see you later take care bye-bye now you

1426

00:50:28,950 --> 00:50:26,640

do

1427

00:50:30,150 --> 00:50:28,960

thank you everybody for joining us

1428

00:50:32,069 --> 00:50:30,160

tonight i

1429

00:50:33,430 --> 00:50:32,079

had such i knew that was going to be a

1430

00:50:34,549 --> 00:50:33,440

great discussion

1431

00:50:36,710 --> 00:50:34,559

uh i

1432

00:50:38,549 --> 00:50:36,720

literally have so much time for for the

1433

00:50:40,549 --> 00:50:38,559

things that rather talks about

1434

00:50:42,390 --> 00:50:40,559

um whether it be on ucr in the

1435

00:50:44,230 --> 00:50:42,400

singularity lab but

1436

00:50:46,549 --> 00:50:44,240

you know again i'm going to stress one

1437

00:50:48,309 --> 00:50:46,559

final time that his channel is

1438

00:50:49,829 --> 00:50:48,319

phenomenal it's really good and

1439

00:50:52,069 --> 00:50:49,839

interesting stuff and it will lead you

1440

00:50:54,150 --> 00:50:52,079

down some new rabbit holes that you

1441

00:50:55,750 --> 00:50:54,160

might not have kind of you know thought

1442

00:50:57,750 --> 00:50:55,760

about before so

1443

00:50:59,030 --> 00:50:57,760

yep guys let's just let's just go

1444

00:51:00,870 --> 00:50:59,040

through the chat before i go because

1445

00:51:01,990 --> 00:51:00,880

i've been away for a while and it's been

1446

00:51:03,670 --> 00:51:02,000

good to see

1447

00:51:06,150 --> 00:51:03,680

so many people i hope you've all had a

1448

00:51:10,309 --> 00:51:06,160

good few days since i was last on

1449

00:51:13,030 --> 00:51:10,319

1453

00:51:23,030 --> 00:51:21,119

always good to see all of my friends the

1454

00:51:25,750 --> 00:51:23,040

mr sean rash byron good to see you man

1456

00:51:30,710 --> 00:51:28,880

lord ludacris surf psych

1457

00:51:33,589 --> 00:51:30,720

daniel miller

1458

00:51:35,990 --> 00:51:33,599

millisecond falcon knight gazer you guys

1459

00:51:40,309 --> 00:51:36,000

rock every single one of you greg good

1460

00:51:45,270 --> 00:51:42,630

how the f was the weekend man the

1461

00:51:47,510 --> 00:51:45,280

weekend was incredible like i guess i'll

1462

00:51:49,510 --> 00:51:47,520

address one one

1463

00:51:51,670 --> 00:51:49,520

the weekend was good we

1464

00:51:53,270 --> 00:51:51,680

got so much done we talked about so much

1465

00:51:55,109 --> 00:51:53,280

we

1466

00:51:56,870 --> 00:51:55,119

discussed possibilities for the future

1467

00:51:58,069 --> 00:51:56,880

you know so if anything comes of it you

1468

00:52:00,150 --> 00:51:58,079

you'll see it in the future and i think

1469

00:52:02,630 --> 00:52:00,160

that's all that i can really say about

1470

00:52:05,190 --> 00:52:02,640

that you know

1471

00:52:06,390 --> 00:52:05,200

plans take time

1472

00:52:09,349 --> 00:52:06,400

ideas

1473

00:52:11,109 --> 00:52:09,359

may come to fruition they may not

1474

00:52:12,950 --> 00:52:11,119

um

1475

00:52:15,510 --> 00:52:12,960

friendships that were already formed

1476
00:52:17,670 --> 00:52:15,520
were just solidified and bonded you know

1477
00:52:19,270 --> 00:52:17,680
dan i'm sure the zigna will speak to

1478
00:52:21,510 --> 00:52:19,280
that it was

1479
00:52:23,190 --> 00:52:21,520
incredible how well we got on

1480
00:52:25,990 --> 00:52:23,200
how much fun we had in each other's

1481
00:52:27,910 --> 00:52:26,000
presence the conversations that flowed

1482
00:52:30,150 --> 00:52:27,920
um it showed us that whatever we do

1483
00:52:32,230 --> 00:52:30,160
going forward as a group is going to be

1484
00:52:33,270 --> 00:52:32,240
great with so many good minds working

1485
00:52:36,230 --> 00:52:33,280
together

1486
00:52:39,190 --> 00:52:36,240
um we're a very positive thinking group

1487
00:52:42,710 --> 00:52:39,200

00:53:39,430 --> 00:53:37,359

subject from many more aspects

1512

00:53:41,270 --> 00:53:39,440

science like we spoke with rather than

1513

00:53:43,589 --> 00:53:41,280

about that kind of thing so it's it's

1514

00:53:45,589 --> 00:53:43,599

it's all a learning curve

1515

00:53:47,349 --> 00:53:45,599

every single day look at it in a

1516

00:53:49,430 --> 00:53:47,359

positive light so

1517

00:53:50,950 --> 00:53:49,440
