

DISCLOSURE
TEAM

Christopher Plain Interview
Head Science Writer for The Debrief
Thursday November 4th
12pm PST/3pm EST/8pm UK

1
00:00:33,350 --> 00:00:31,429

[Music]

2
00:00:35,590 --> 00:00:33,360

how's it going everybody

3
00:00:37,830 --> 00:00:35,600

good to be back here on the disclosure

4
00:00:39,590 --> 00:00:37,840

team youtube channel and before we get

5
00:00:42,229 --> 00:00:39,600

into uh this interview i just want to

6
00:00:44,869 --> 00:00:42,239

give a quick shout out to laura sosa

7
00:00:46,709 --> 00:00:44,879

spaghetti lee and lara sandling bennett

8
00:00:49,110 --> 00:00:46,719

for being members this month on the

9
00:00:51,910 --> 00:00:49,120

channel um so yeah thank you guys so

10
00:00:53,430 --> 00:00:51,920

much um it really does help me do what i

11
00:00:55,670 --> 00:00:53,440

do i don't normally promote all that

12
00:00:57,990 --> 00:00:55,680

kind of stuff but i just just want you

13
00:01:00,229 --> 00:00:58,000

to know it helps so thank you so much

14

00:01:01,910 --> 00:01:00,239

and good to see you all here live

15

00:01:04,789 --> 00:01:01,920

so um yeah thank you let's get straight

16

00:01:06,870 --> 00:01:04,799

into this um i'm really happy to be

17

00:01:08,149 --> 00:01:06,880

speaking to this gentleman today and

18

00:01:10,310 --> 00:01:08,159

hopefully we're going to dig into some

19

00:01:11,510 --> 00:01:10,320

real science and interesting topics so

20

00:01:14,390 --> 00:01:11,520

please

21

00:01:15,990 --> 00:01:14,400

welcome mr christopher plane

22

00:01:17,830 --> 00:01:16,000

christopher how are you doing man great

23

00:01:20,149 --> 00:01:17,840

vinny thank you for having my uh me on

24

00:01:21,510 --> 00:01:20,159

my good man happy to be here hey it's my

25

00:01:23,990 --> 00:01:21,520

pleasure man i'm really looking forward

26
00:01:25,830 --> 00:01:24,000
to this um me too you know i really feel

27
00:01:27,830 --> 00:01:25,840
that science is taking a step forward

28
00:01:29,270 --> 00:01:27,840
when it looks sort of at the uap subject

29
00:01:30,789 --> 00:01:29,280
at the moment so i really want to try

30
00:01:32,550 --> 00:01:30,799
and stay on board and

31
00:01:34,630 --> 00:01:32,560
and hopefully get some valid bits of

32
00:01:36,550 --> 00:01:34,640
information so i think you're the man

33
00:01:39,109 --> 00:01:36,560
you're the man to do it so well i can

34
00:01:42,310 --> 00:01:39,119
tell you i am working over at the debris

35
00:01:45,030 --> 00:01:42,320
if i work with uh as you know mj banayas

36
00:01:47,030 --> 00:01:45,040
tim mcmillan and micah hanks and as well

37
00:01:49,030 --> 00:01:47,040
as uh chrissy newton christina gomez

38
00:01:50,469 --> 00:01:49,040

grand randall some other jazz shop

39

00:01:51,429 --> 00:01:50,479

people and

40

00:01:53,429 --> 00:01:51,439

when

41

00:01:55,190 --> 00:01:53,439

putting out to our pr people that i was

42

00:01:56,709 --> 00:01:55,200

willing to finally go out and do some of

43

00:01:59,429 --> 00:01:56,719

these interviews and sit down and do

44

00:02:01,190 --> 00:01:59,439

some of these uh chrissy kind of touched

45

00:02:03,190 --> 00:02:01,200

with tim and all the other guys at the

46

00:02:04,630 --> 00:02:03,200

team there and said like

47

00:02:06,709 --> 00:02:04,640

what are the top places where are the

48

00:02:09,029 --> 00:02:06,719

places we want to have chris go it was a

49

00:02:11,029 --> 00:02:09,039

very small list and uh your show is

50

00:02:12,070 --> 00:02:11,039

definitely right at the top of that so

51
00:02:13,750 --> 00:02:12,080
man

52
00:02:15,270 --> 00:02:13,760
thank you so much that means a lot to me

53
00:02:16,550 --> 00:02:15,280
i really appreciate it well thank them

54
00:02:20,949 --> 00:02:16,560
they're the ones that recommended you i

55
00:02:24,710 --> 00:02:22,470
well listen before we get into like the

56
00:02:25,910 --> 00:02:24,720
real depth and the meat and potatoes of

57
00:02:27,110 --> 00:02:25,920
what i want to talk about can you just

58
00:02:30,150 --> 00:02:27,120
give us a bit of a background on

59
00:02:32,309 --> 00:02:30,160
yourself and and your career and and and

60
00:02:33,910 --> 00:02:32,319
everything about you thank you sure so i

61
00:02:36,390 --> 00:02:33,920
come from a writing background i did

62
00:02:39,110 --> 00:02:36,400
stand up all through the 1990s starting

63
00:02:41,589 --> 00:02:39,120

in college and right through uh in the

64

00:02:45,190 --> 00:02:41,599

2000s i went into the business world and

65

00:02:46,710 --> 00:02:45,200

shifted my writing into uh

66

00:02:48,790 --> 00:02:46,720

sketch writing

67

00:02:51,910 --> 00:02:48,800

writing for the radio there's some radio

68

00:02:54,710 --> 00:02:51,920

comedy radio shows in la i wrote for uh

69

00:02:57,430 --> 00:02:54,720

writing a couple of screenplays a few tv

70

00:03:01,030 --> 00:02:57,440

shows that got sold but never aired and

71

00:03:04,070 --> 00:03:01,040

uh then in 2000 i started in on my first

72

00:03:06,229 --> 00:03:04,080

novel uh called whispers of fate it's a

73

00:03:08,630 --> 00:03:06,239

epic fantasy novel it's the first in a

74

00:03:10,390 --> 00:03:08,640

seven series book three of those are out

75

00:03:11,190 --> 00:03:10,400

uh fourth one should be coming into next

76

00:03:12,790 --> 00:03:11,200

year

77

00:03:15,830 --> 00:03:12,800

and then uh

78

00:03:17,750 --> 00:03:15,840

2015 the first one came out and uh i had

79

00:03:19,910 --> 00:03:17,760

enough success with those

80

00:03:21,589 --> 00:03:19,920

that uh i started in i have a science

81

00:03:23,190 --> 00:03:21,599

fiction novel coming out next year as

82

00:03:25,589 --> 00:03:23,200

well called titan

83

00:03:27,830 --> 00:03:25,599

and i think like a lot of people ended

84

00:03:29,910 --> 00:03:27,840

up in the pandemic just kind of

85

00:03:32,070 --> 00:03:29,920

twiddling my thumbs playing around on

86

00:03:34,390 --> 00:03:32,080

ufo twitter because it's a subject i've

87

00:03:35,750 --> 00:03:34,400

followed for over 40 years

88

00:03:37,670 --> 00:03:35,760

and uh

89

00:03:39,589 --> 00:03:37,680

next thing i know i was interacting with

90

00:03:41,350 --> 00:03:39,599

tim mcmillan and mj and some of these

91

00:03:42,149 --> 00:03:41,360

guys from the debrief

92

00:03:44,070 --> 00:03:42,159

and

93

00:03:45,350 --> 00:03:44,080

uh like everyone i was waiting on there

94

00:03:48,149 --> 00:03:45,360

like many of us it was waiting on

95

00:03:49,990 --> 00:03:48,159

november 30th for the site to launch

96

00:03:51,910 --> 00:03:50,000

and about five days later i had an

97

00:03:53,270 --> 00:03:51,920

interaction with mj where he said hey

98

00:03:54,229 --> 00:03:53,280

you're a writer we're looking for

99

00:03:56,149 --> 00:03:54,239

writers

100

00:03:58,070 --> 00:03:56,159

uh would you be interested in coming on

101
00:03:59,910 --> 00:03:58,080
board and here i am

102
00:04:02,229 --> 00:03:59,920
almost a year later still writing for

103
00:04:05,190 --> 00:04:02,239
these guys so uh that's the that's the

104
00:04:06,869 --> 00:04:05,200
short chris plain career arc right there

105
00:04:09,830 --> 00:04:06,879
that's amazing man so do you have a

106
00:04:11,190 --> 00:04:09,840
science background at all i do not no i

107
00:04:12,710 --> 00:04:11,200
i uh

108
00:04:14,149 --> 00:04:12,720
it's something i'm curious about

109
00:04:16,069 --> 00:04:14,159
something i'm a fan of but i went to

110
00:04:18,629 --> 00:04:16,079
school for political science at ucla so

111
00:04:21,030 --> 00:04:18,639
that's not really uh not really a heart

112
00:04:22,390 --> 00:04:21,040
uh what we would call hard science uh

113
00:04:25,270 --> 00:04:22,400

but something i'm interested in

114

00:04:26,950 --> 00:04:25,280

something i follow and i try i tell

115

00:04:29,189 --> 00:04:26,960

people all the time i say i'm like neil

116

00:04:31,430 --> 00:04:29,199

degrasse tyson without the uh degrees

117

00:04:34,310 --> 00:04:31,440

right i try and talk about science and

118

00:04:36,310 --> 00:04:34,320

technology be as formed as i can pass

119

00:04:38,310 --> 00:04:36,320

that information on in usable ways to

120

00:04:39,830 --> 00:04:38,320

everyday people and and try and be a

121

00:04:41,110 --> 00:04:39,840

little bit funny sometimes while i'm

122

00:04:43,270 --> 00:04:41,120

doing it so

123

00:04:44,950 --> 00:04:43,280

awesome man i love it i love it so with

124

00:04:46,629 --> 00:04:44,960

regards to science and the way that the

125

00:04:47,749 --> 00:04:46,639

science is now relating to the uap

126

00:04:49,189 --> 00:04:47,759

subject

127

00:04:50,870 --> 00:04:49,199

you know and we've i think we've all

128

00:04:52,310 --> 00:04:50,880

seen it changed but

129

00:04:54,230 --> 00:04:52,320

you know do you

130

00:04:56,550 --> 00:04:54,240

how important is that do you think to

131

00:04:58,710 --> 00:04:56,560

the subject going forward i i think it's

132

00:05:00,870 --> 00:04:58,720

critical you know i i like to bring up

133

00:05:02,710 --> 00:05:00,880

my age from time to time but i'm 52 and

134

00:05:05,510 --> 00:05:02,720

so i started following this in the late

135

00:05:07,350 --> 00:05:05,520

70s as a kid and there wasn't much about

136

00:05:09,990 --> 00:05:07,360

it and i can tell you that other than

137

00:05:12,310 --> 00:05:10,000

stanton friedman there wasn't really the

138

00:05:15,110 --> 00:05:12,320

idea of scientists looking at it it had

139

00:05:17,270 --> 00:05:15,120

happened in the in the 50s and 60s in

140

00:05:21,350 --> 00:05:17,280

the arc of project blue book

141

00:05:23,110 --> 00:05:21,360

but really in the 70s 80s 90s 2000s

142

00:05:27,430 --> 00:05:23,120

2010s

143

00:05:29,270 --> 00:05:27,440

it was very few publicly if any there's

144

00:05:31,110 --> 00:05:29,280

something known as the invisible college

145

00:05:33,749 --> 00:05:31,120

where scientists or researchers would

146

00:05:36,710 --> 00:05:33,759

kind of secretly share this information

147

00:05:39,189 --> 00:05:36,720

and work on it privately with each other

148

00:05:41,270 --> 00:05:39,199

but this environment that we're in i can

149

00:05:43,350 --> 00:05:41,280

tell you for a lot of us uh that have

150

00:05:45,590 --> 00:05:43,360

been following this for a long time this

151
00:05:47,990 --> 00:05:45,600
is what we've been waiting for this is

152
00:05:49,590 --> 00:05:48,000
what we wanted sure

153
00:05:51,670 --> 00:05:49,600
i think a lot of us in the name of your

154
00:05:53,430 --> 00:05:51,680
show is disclosure team right i think a

155
00:05:55,510 --> 00:05:53,440
lot of us would like the military to

156
00:05:56,870 --> 00:05:55,520
fess up and and really give us

157
00:05:59,430 --> 00:05:56,880
everything they have we would like to

158
00:06:01,830 --> 00:05:59,440
see the videos that elizondo says are

159
00:06:04,070 --> 00:06:01,840
there and harry senator harry reid from

160
00:06:05,430 --> 00:06:04,080
the uss are there i mean i can name a

161
00:06:07,510 --> 00:06:05,440
list of people that have told us

162
00:06:09,270 --> 00:06:07,520
unequivocally that there's more videos

163
00:06:11,350 --> 00:06:09,280

and more photos that we're not seeing so

164

00:06:13,830 --> 00:06:11,360

yes i think i would like that

165

00:06:14,790 --> 00:06:13,840

shy of that forthcoming

166

00:06:17,110 --> 00:06:14,800

uh

167

00:06:20,230 --> 00:06:17,120

i think this is the root forward we were

168

00:06:21,430 --> 00:06:20,240

always hoping for was science and not

169

00:06:23,510 --> 00:06:21,440

just

170

00:06:24,870 --> 00:06:23,520

one guy in a garage or a guy with a

171

00:06:27,990 --> 00:06:24,880

telescope

172

00:06:30,710 --> 00:06:28,000

or a woman doing it from home but really

173

00:06:32,309 --> 00:06:30,720

a concerted effort by the top scientific

174

00:06:35,590 --> 00:06:32,319

organizations at least here in the

175

00:06:37,830 --> 00:06:35,600

states that are really tackling this for

176

00:06:39,670 --> 00:06:37,840

the first time in a public

177

00:06:42,550 --> 00:06:39,680

head-on way that

178

00:06:44,390 --> 00:06:42,560

i think is poised to generate results

179

00:06:45,830 --> 00:06:44,400

excellent yeah i agree i mean it was a

180

00:06:47,670 --> 00:06:45,840

long time coming

181

00:06:49,189 --> 00:06:47,680

i think for them to really step up and

182

00:06:51,430 --> 00:06:49,199

we've seen com you know we've seen the

183

00:06:52,870 --> 00:06:51,440

scientific coalition for uap studies

184

00:06:54,230 --> 00:06:52,880

they've been around a little bit longer

185

00:06:57,510 --> 00:06:54,240

maybe than than some of the others you

186

00:06:58,309 --> 00:06:57,520

know we've got uapx with kevin knuth and

187

00:07:00,870 --> 00:06:58,319

um

188

00:07:03,110 --> 00:07:00,880

and gary at the helm now that's great

189

00:07:04,629 --> 00:07:03,120

but the galileo project now

190

00:07:07,189 --> 00:07:04,639

that that's an effort it seems to be an

191

00:07:08,710 --> 00:07:07,199

ever-evolving group because we've seen

192

00:07:11,270 --> 00:07:08,720

this week they've added a number of

193

00:07:14,550 --> 00:07:11,280

research associates um louis elizondo

194

00:07:16,710 --> 00:07:14,560

chris mellon nick pope michael sherman

195

00:07:18,550 --> 00:07:16,720

of all people um do you feel they'll

196

00:07:21,029 --> 00:07:18,560

bring much to the table uh when it

197

00:07:24,230 --> 00:07:21,039

actually comes down to it so i think the

198

00:07:25,749 --> 00:07:24,240

worst they can do is is is nothing right

199

00:07:27,510 --> 00:07:25,759

the worst they could do is bring nothing

200

00:07:29,510 --> 00:07:27,520

because obviously scientists this team

201
00:07:31,189 --> 00:07:29,520
are scientists and they're going to look

202
00:07:33,589 --> 00:07:31,199
at data they're not going to be

203
00:07:35,749 --> 00:07:33,599
necessarily influenced by opinions

204
00:07:37,189 --> 00:07:35,759
anecdotes or story in either direction

205
00:07:38,469 --> 00:07:37,199
with that being said i think the best

206
00:07:42,309 --> 00:07:38,479
thing they can do

207
00:07:43,270 --> 00:07:42,319
is after context and history and i know

208
00:07:47,110 --> 00:07:43,280
when i

209
00:07:48,790 --> 00:07:47,120
covered the aiaa conference the american

210
00:07:51,189 --> 00:07:48,800
institute of uh

211
00:07:53,189 --> 00:07:51,199
aeronautics and astronautics uh they

212
00:07:55,749 --> 00:07:53,199
have their annual convention and they're

213
00:07:58,790 --> 00:07:55,759

an over 30 000 member organization of

214

00:08:01,110 --> 00:07:58,800

engineers and aerospace scientists and

215

00:08:03,350 --> 00:08:01,120

they discussed this at their panel a

216

00:08:05,350 --> 00:08:03,360

panel i sat in on it was about a four

217

00:08:07,270 --> 00:08:05,360

hour panel and a big part of the

218

00:08:09,350 --> 00:08:07,280

discussion was

219

00:08:11,749 --> 00:08:09,360

them recounting the internal discussions

220

00:08:13,029 --> 00:08:11,759

they've had on exactly that thing do we

221

00:08:15,670 --> 00:08:13,039

bring in

222

00:08:18,230 --> 00:08:15,680

the people that have the historical ufo

223

00:08:20,309 --> 00:08:18,240

knowledge but maybe aren't necessarily

224

00:08:23,110 --> 00:08:20,319

scientists

225

00:08:25,909 --> 00:08:23,120

does that hinder our effort because of

226
00:08:27,510 --> 00:08:25,919
public perception or does that help our

227
00:08:29,749 --> 00:08:27,520
effort because of the information they

228
00:08:31,270 --> 00:08:29,759
bring to the table and i think the good

229
00:08:33,190 --> 00:08:31,280
news

230
00:08:35,110 --> 00:08:33,200
however we feel about various people

231
00:08:37,990 --> 00:08:35,120
that are involved in that group

232
00:08:39,990 --> 00:08:38,000
is that avi loeb is taking the approach

233
00:08:42,709 --> 00:08:40,000
that i would want a scientist to take

234
00:08:45,509 --> 00:08:42,719
which is more information not less

235
00:08:47,670 --> 00:08:45,519
information so if his approach is

236
00:08:49,430 --> 00:08:47,680
bring it all in the kitchen sink give me

237
00:08:51,110 --> 00:08:49,440
everything you guys have

238
00:08:53,590 --> 00:08:51,120

give us context

239

00:08:56,230 --> 00:08:53,600

it's still not gonna i would be shocked

240

00:08:58,150 --> 00:08:56,240

to find that negatively influencing his

241

00:09:01,829 --> 00:08:58,160

analysis because of the approach he

242

00:09:04,230 --> 00:09:01,839

takes so i think it's only a good thing

243

00:09:05,030 --> 00:09:04,240

yeah that's cool that does make sense

244

00:09:06,389 --> 00:09:05,040

yeah

245

00:09:08,949 --> 00:09:06,399

i mean i think i was just a little bit

246

00:09:10,870 --> 00:09:08,959

surprised with specifically michael

247

00:09:13,590 --> 00:09:10,880

sherman i didn't see that one coming

248

00:09:16,630 --> 00:09:13,600

yeah so uh uh

249

00:09:19,030 --> 00:09:16,640

i i i do my best to not betray

250

00:09:20,949 --> 00:09:19,040

confidence where i work at the debrief

251

00:09:23,750 --> 00:09:20,959

but we do have a little group chat of

252

00:09:26,230 --> 00:09:23,760

the people that work there and uh that

253

00:09:28,230 --> 00:09:26,240

name raised some digital eyebrows as

254

00:09:30,710 --> 00:09:28,240

well we'll say that so i don't want to

255

00:09:32,790 --> 00:09:30,720

get into details there but yes i think

256

00:09:33,750 --> 00:09:32,800

everybody was a little surprised but

257

00:09:35,750 --> 00:09:33,760

again

258

00:09:37,590 --> 00:09:35,760

uh you know

259

00:09:40,070 --> 00:09:37,600

it's all perspective to you know stephen

260

00:09:42,230 --> 00:09:40,080

greer for all of the negatives and for

261

00:09:43,910 --> 00:09:42,240

the fact that a lot of us like me in

262

00:09:47,430 --> 00:09:43,920

particular will say i'm uncomfortable

263

00:09:49,910 --> 00:09:47,440

with the way he makes a living now um

264

00:09:51,590 --> 00:09:49,920

when he had was running the disclosure

265

00:09:53,509 --> 00:09:51,600

project and when he had the national

266

00:09:55,910 --> 00:09:53,519

press club event 20 years ago in the

267

00:09:58,310 --> 00:09:55,920

years leading up to that the late 90s

268

00:10:00,710 --> 00:09:58,320

when he was working behind the scenes

269

00:10:02,790 --> 00:10:00,720

uh he's one of the most successful

270

00:10:05,990 --> 00:10:02,800

people in moving this ball forward and

271

00:10:08,710 --> 00:10:06,000

getting us to where we are now so

272

00:10:11,350 --> 00:10:08,720

i i try and keep my criticism of

273

00:10:12,949 --> 00:10:11,360

individuals down within the group

274

00:10:15,030 --> 00:10:12,959

sometimes it makes me a little nervous

275

00:10:16,710 --> 00:10:15,040

but yeah i think in this case

276

00:10:18,630 --> 00:10:16,720

obvious taking the right approach which

277

00:10:22,150 --> 00:10:18,640

is which bring everything in i have

278

00:10:22,949 --> 00:10:22,160

access to uh and then sorted out from

279

00:10:25,430 --> 00:10:22,959

there

280

00:10:27,750 --> 00:10:25,440

yeah and as far as the the the processes

281

00:10:29,110 --> 00:10:27,760

that abby's sort of put forward on their

282

00:10:29,829 --> 00:10:29,120

their game plan let's say i think there

283

00:10:31,670 --> 00:10:29,839

was

284

00:10:32,949 --> 00:10:31,680

three main efforts they were going for

285

00:10:34,150 --> 00:10:32,959

do you feel like you'd missed anything

286

00:10:36,949 --> 00:10:34,160

out was there anything you think you

287

00:10:37,670 --> 00:10:36,959

would have liked to have seen them do

288

00:10:38,870 --> 00:10:37,680

so

289

00:10:40,870 --> 00:10:38,880

uh no

290

00:10:42,790 --> 00:10:40,880

me personally no i like the approach

291

00:10:44,870 --> 00:10:42,800

that they're taking i still think

292

00:10:46,949 --> 00:10:44,880

there's a built up feeling within the

293

00:10:48,949 --> 00:10:46,959

community even even somebody like me who

294

00:10:51,509 --> 00:10:48,959

tries to not care so much that there's a

295

00:10:53,670 --> 00:10:51,519

built-up feeling of a need for reckoning

296

00:10:55,990 --> 00:10:53,680

a need for an acknowledgement of the

297

00:10:58,550 --> 00:10:56,000

history and an acknowledgement of a lot

298

00:10:59,590 --> 00:10:58,560

of cases and a lot of historical things

299

00:11:01,590 --> 00:10:59,600

that

300

00:11:03,350 --> 00:11:01,600

okay fine say avi lope jumps out and

301
00:11:04,949 --> 00:11:03,360
says yep we found it we've seen some

302
00:11:07,430 --> 00:11:04,959
things flying around displaying these

303
00:11:09,590 --> 00:11:07,440
characteristics and as far as we can

304
00:11:11,509 --> 00:11:09,600
tell it's a non-human technological

305
00:11:13,670 --> 00:11:11,519
intelligence right he gives us the big

306
00:11:15,430 --> 00:11:13,680
enchilada i still think there's a

307
00:11:17,829 --> 00:11:15,440
feeling of

308
00:11:19,509 --> 00:11:17,839
we want all these old information old

309
00:11:22,550 --> 00:11:19,519
stories i think the good news for

310
00:11:26,470 --> 00:11:22,560
obvious that's just not his purview his

311
00:11:28,630 --> 00:11:26,480
purview is let me start from here let me

312
00:11:30,230 --> 00:11:28,640
start gathering information from here

313
00:11:33,269 --> 00:11:30,240

i'll use these people that have

314

00:11:36,630 --> 00:11:33,279

historical knowledge and context but my

315

00:11:37,910 --> 00:11:36,640

experiment my analysis my project is

316

00:11:40,630 --> 00:11:37,920

going to be

317

00:11:42,310 --> 00:11:40,640

gathering new information and analyzing

318

00:11:43,590 --> 00:11:42,320

new information so i think he's on the

319

00:11:45,350 --> 00:11:43,600

right track

320

00:11:47,110 --> 00:11:45,360

excellent i'm just going to give a quick

321

00:11:48,870 --> 00:11:47,120

shout out and brian thank you so much

322

00:11:51,110 --> 00:11:48,880

for the 20 super sticker that's

323

00:11:53,190 --> 00:11:51,120

absolutely incredible thank you so much

324

00:11:56,470 --> 00:11:53,200

but was that not even a question for 20

325

00:11:57,990 --> 00:11:56,480

bucks no that's just a thing

326

00:11:59,350 --> 00:11:58,000

yeah m if that was a mistake and you

327

00:12:03,509 --> 00:11:59,360

want to ask a question as well stick it

328

00:12:07,350 --> 00:12:05,269

um just sticking with the galileo

329

00:12:08,470 --> 00:12:07,360

project um i've lost my train of thought

330

00:12:10,310 --> 00:12:08,480

now

331

00:12:11,990 --> 00:12:10,320

well i can tell you that the great thing

332

00:12:13,509 --> 00:12:12,000

about that project and the great thing

333

00:12:15,910 --> 00:12:13,519

about what they're doing and their

334

00:12:18,710 --> 00:12:15,920

approach to it is again

335

00:12:21,030 --> 00:12:18,720

we have the dod right we have that

336

00:12:24,150 --> 00:12:21,040

project whatever they're doing under

337

00:12:27,190 --> 00:12:24,160

wraps that we may or may not see results

338

00:12:30,150 --> 00:12:27,200

from we have nasa undertaking their

339

00:12:32,230 --> 00:12:30,160

effort now and because of the position

340

00:12:33,350 --> 00:12:32,240

they have and because of the where they

341

00:12:35,190 --> 00:12:33,360

exist

342

00:12:38,150 --> 00:12:35,200

we don't know if we're going to get

343

00:12:40,629 --> 00:12:38,160

public or private information from them

344

00:12:43,110 --> 00:12:40,639

obviously committed to sharing his

345

00:12:44,710 --> 00:12:43,120

findings publicly so i think that may be

346

00:12:46,790 --> 00:12:44,720

the most important the two most

347

00:12:49,750 --> 00:12:46,800

important things about his project is

348

00:12:51,509 --> 00:12:49,760

that but i just think by virtue of his

349

00:12:54,150 --> 00:12:51,519

position you know vinnie we're talking

350

00:12:56,629 --> 00:12:54,160

about the people he's attracted to the

351

00:12:58,470 --> 00:12:56,639

project chris mellon people like that

352

00:13:00,710 --> 00:12:58,480

not everyone can get everyone on the

353

00:13:04,150 --> 00:13:00,720

phone you know not everyone even the

354

00:13:06,470 --> 00:13:04,160

guys at aaia ted rowe from narcap and

355

00:13:08,230 --> 00:13:06,480

kevin knuth and these sort of people not

356

00:13:09,750 --> 00:13:08,240

all of these people that are established

357

00:13:11,590 --> 00:13:09,760

scientists can just pick up the phone

358

00:13:13,269 --> 00:13:11,600

and get someone they want on the phone

359

00:13:15,030 --> 00:13:13,279

but when you hear

360

00:13:17,269 --> 00:13:15,040

that the head of the astronomy

361

00:13:19,269 --> 00:13:17,279

department at harvard

362

00:13:20,870 --> 00:13:19,279

who's running this high profile project

363

00:13:23,670 --> 00:13:20,880

wants to speak to you

364

00:13:26,389 --> 00:13:23,680

it carries a lot more juice so i think

365

00:13:27,509 --> 00:13:26,399

just by bringing the juice of his

366

00:13:29,350 --> 00:13:27,519

position

367

00:13:30,949 --> 00:13:29,360

bringing these people together and

368

00:13:33,269 --> 00:13:30,959

committing to share his information

369

00:13:34,389 --> 00:13:33,279

publicly i don't think we can ask for a

370

00:13:37,190 --> 00:13:34,399

lot more

371

00:13:38,629 --> 00:13:37,200

from an astronomy professor at a college

372

00:13:40,470 --> 00:13:38,639

yeah the one thing i've just remembered

373

00:13:42,550 --> 00:13:40,480

what i was going to ask is um a lot of

374

00:13:43,350 --> 00:13:42,560

people have been asking and looking for

375

00:13:45,590 --> 00:13:43,360

when

376

00:13:47,670 --> 00:13:45,600

galileo aims to kind of kick start all

377

00:13:49,189 --> 00:13:47,680

of this this work and i've not been able

378

00:13:50,230 --> 00:13:49,199

to see anything so just wondering if

379

00:13:52,389 --> 00:13:50,240

you'd come across any kind of

380

00:13:54,150 --> 00:13:52,399

information regarding that i i haven't

381

00:13:55,910 --> 00:13:54,160

but you and i were talking before the

382

00:13:57,750 --> 00:13:55,920

show vinnie and i know there's an event

383

00:14:00,150 --> 00:13:57,760

that avi's going to be at next week a

384

00:14:02,310 --> 00:14:00,160

press conference on the 10th and the

385

00:14:04,389 --> 00:14:02,320

impression i get from people around it

386

00:14:06,470 --> 00:14:04,399

is that we should start getting some of

387

00:14:09,030 --> 00:14:06,480

that around then if not maybe even the

388

00:14:11,590 --> 00:14:09,040

day before uh to to give us some

389

00:14:13,110 --> 00:14:11,600

outlines for that event but uh yeah i

390

00:14:15,350 --> 00:14:13,120

think he's

391

00:14:17,829 --> 00:14:15,360

he's been putting his people together

392

00:14:19,509 --> 00:14:17,839

there's a large informal team as well

393

00:14:21,670 --> 00:14:19,519

that he hasn't made public but i can

394

00:14:24,629 --> 00:14:21,680

tell you there are a lot of researchers

395

00:14:26,949 --> 00:14:24,639

at other colleges other phds people in

396

00:14:28,870 --> 00:14:26,959

the scientific field private industry

397

00:14:31,110 --> 00:14:28,880

that have reached out to avi connected

398

00:14:32,629 --> 00:14:31,120

with him and he said yeah you know i

399

00:14:35,990 --> 00:14:32,639

think we could use some of your

400

00:14:36,949 --> 00:14:36,000

expertise on this effort so uh i believe

401
00:14:40,470 --> 00:14:36,959
he's

402
00:14:43,030 --> 00:14:40,480
launching that we mean putting the

403
00:14:44,949 --> 00:14:43,040
telescopes out and gathering the data so

404
00:14:47,030 --> 00:14:44,959
i i think he's close to that i'd be

405
00:14:48,790 --> 00:14:47,040
shocked if it's anywhere past january

406
00:14:50,310 --> 00:14:48,800
first

407
00:14:52,310 --> 00:14:50,320
i think we're on the threshold i don't

408
00:14:53,829 --> 00:14:52,320
know i don't have any direct information

409
00:14:55,509 --> 00:14:53,839
but everything i'm hearing is that

410
00:14:57,509 --> 00:14:55,519
that's what's happening tons of people

411
00:14:58,389 --> 00:14:57,519
are connecting with them that team is

412
00:15:00,870 --> 00:14:58,399
growing

413
00:15:03,110 --> 00:15:00,880

they have the money in hand uh they've

414

00:15:04,550 --> 00:15:03,120

been zeroing in on locations to put it

415

00:15:06,550 --> 00:15:04,560

and yeah i think sometimes when you're

416

00:15:08,230 --> 00:15:06,560

making those decisions

417

00:15:10,629 --> 00:15:08,240

and you're adding people at the same

418

00:15:11,750 --> 00:15:10,639

time maybe you put a pause on and say

419

00:15:14,069 --> 00:15:11,760

let's see

420

00:15:16,550 --> 00:15:14,079

who else we add before we commit to

421

00:15:18,230 --> 00:15:16,560

locations for telescopes there i know

422

00:15:19,590 --> 00:15:18,240

there are spots that they want to put

423

00:15:21,750 --> 00:15:19,600

some of them

424

00:15:23,670 --> 00:15:21,760

that are not easy to do places like

425

00:15:25,670 --> 00:15:23,680

catalina island which is off the coast

426

00:15:28,230 --> 00:15:25,680

of southern california here places like

427

00:15:30,790 --> 00:15:28,240

that that are just not easy to do so as

428

00:15:32,710 --> 00:15:30,800

you add members to your team some of

429

00:15:34,629 --> 00:15:32,720

those members know people have clout

430

00:15:36,870 --> 00:15:34,639

with people have connections to people

431

00:15:39,749 --> 00:15:36,880

and maybe open up doors you know if you

432

00:15:41,269 --> 00:15:39,759

see a big movie released you'll see the

433

00:15:42,629 --> 00:15:41,279

producer of the movie but then you'll

434

00:15:44,629 --> 00:15:42,639

see a bunch of people listed as

435

00:15:46,389 --> 00:15:44,639

executive producer those are usually

436

00:15:47,910 --> 00:15:46,399

just rich or influential people that

437

00:15:50,230 --> 00:15:47,920

have contacts that help the movie get

438

00:15:52,069 --> 00:15:50,240

made i got you the building to use i got

439

00:15:55,430 --> 00:15:52,079

you this airplane to use i got you the

440

00:15:57,749 --> 00:15:55,440

yacht whatever so i think obvi's that's

441

00:16:00,230 --> 00:15:57,759

where he's at he's filling out that team

442

00:16:03,110 --> 00:16:00,240

of high quality people that will help

443

00:16:05,269 --> 00:16:03,120

pave the way for a much more successful

444

00:16:06,870 --> 00:16:05,279

galileo project once he starts actually

445

00:16:08,310 --> 00:16:06,880

spending that money

446

00:16:10,790 --> 00:16:08,320

yeah excellent and just for everybody

447

00:16:13,590 --> 00:16:10,800

that's not familiar there is an event on

448

00:16:14,949 --> 00:16:13,600

wednesday the 10th um where avila will

449

00:16:17,590 --> 00:16:14,959

be there with

450

00:16:20,629 --> 00:16:17,600

bill nelson from nasa you can sign up

451

00:16:22,550 --> 00:16:20,639

and watch it live for free i will put

452

00:16:24,230 --> 00:16:22,560

the details in the description after

453

00:16:27,110 --> 00:16:24,240

this this interview so that you can go

454

00:16:30,150 --> 00:16:27,120

and sign up and and join in as well um

455

00:16:31,910 --> 00:16:30,160

yeah thanks for that chris um for sure

456

00:16:33,509 --> 00:16:31,920

so let's touch let's touch upon nasa

457

00:16:34,710 --> 00:16:33,519

while while we're here because we you

458

00:16:36,310 --> 00:16:34,720

know you've mentioned it a couple of

459

00:16:37,990 --> 00:16:36,320

times now we've seen uh the

460

00:16:40,150 --> 00:16:38,000

administrator bill nelson talking

461

00:16:43,189 --> 00:16:40,160

publicly about uap for a few months now

462

00:16:45,269 --> 00:16:43,199

on a few occasions so

463

00:16:48,470 --> 00:16:45,279

do you think he is a genuine proponent

464

00:16:49,670 --> 00:16:48,480

for more transparency oh yeah i would

465

00:16:53,749 --> 00:16:49,680

say

466

00:16:56,230 --> 00:16:53,759

that uh he's an uh an unlikely potential

467

00:16:58,389 --> 00:16:56,240

hero here and the reason being is

468

00:17:00,470 --> 00:16:58,399

because his former position on the

469

00:17:02,710 --> 00:17:00,480

senate he seemed to have been aware of a

470

00:17:06,069 --> 00:17:02,720

lot of these things potentially even

471

00:17:08,150 --> 00:17:06,079

somebody who was briefed on this uh

472

00:17:11,270 --> 00:17:08,160

leading up to this process may have even

473

00:17:12,870 --> 00:17:11,280

seen these uh films and and photos and

474

00:17:15,829 --> 00:17:12,880

other things that we haven't seen the

475

00:17:19,029 --> 00:17:15,839

signal intelligence we haven't seen so i

476

00:17:19,829 --> 00:17:19,039

think it's he could play a critical role

477

00:17:21,669 --> 00:17:19,839

and

478

00:17:23,189 --> 00:17:21,679

something i'm noting that i think is

479

00:17:25,669 --> 00:17:23,199

important is

480

00:17:27,189 --> 00:17:25,679

when he first came out i think it was

481

00:17:28,870 --> 00:17:27,199

june or so

482

00:17:31,430 --> 00:17:28,880

and said you know hey

483

00:17:34,789 --> 00:17:31,440

we've seen the videos and i'm gonna task

484

00:17:37,110 --> 00:17:34,799

my people to look at this right

485

00:17:38,870 --> 00:17:37,120

i i think there was initially i don't

486

00:17:40,549 --> 00:17:38,880

know if you saw that very first press

487

00:17:42,310 --> 00:17:40,559

conference but right on the stage with

488

00:17:44,230 --> 00:17:42,320

him was a couple other like nasa

489

00:17:46,549 --> 00:17:44,240

scientists now keeping keep in mind

490

00:17:48,710 --> 00:17:46,559

bill's a politician and and former

491

00:17:51,350 --> 00:17:48,720

astronaut these are scientists

492

00:17:53,750 --> 00:17:51,360

right and a couple of the looks on their

493

00:17:56,390 --> 00:17:53,760

faces made me think oh boy

494

00:17:58,310 --> 00:17:56,400

like they're they're indulging him to

495

00:17:59,750 --> 00:17:58,320

look into this and talk about this but

496

00:18:01,909 --> 00:17:59,760

as scientists

497

00:18:04,870 --> 00:18:01,919

they gave the most measured answers and

498

00:18:07,430 --> 00:18:04,880

measured tones on well nasa looks for

499

00:18:09,510 --> 00:18:07,440

life it's what we do so yeah i mean

500

00:18:11,830 --> 00:18:09,520

we'll kind of look at it i think there

501
00:18:14,470 --> 00:18:11,840
was a fear at that time

502
00:18:15,669 --> 00:18:14,480
that he may have overplayed his hand

503
00:18:17,510 --> 00:18:15,679
and

504
00:18:19,350 --> 00:18:17,520
it would turn into a big nothing that it

505
00:18:21,590 --> 00:18:19,360
would just uh we've looked at it you

506
00:18:24,310 --> 00:18:21,600
know and dod in it or or you know i

507
00:18:26,310 --> 00:18:24,320
don't have the whatever excuse

508
00:18:27,669 --> 00:18:26,320
what we're seeing is the opposite he

509
00:18:30,789 --> 00:18:27,679
immediately went and did an interview

510
00:18:32,390 --> 00:18:30,799
with cnn after that he's done a couple

511
00:18:34,470 --> 00:18:32,400
of different interviews since then he

512
00:18:36,789 --> 00:18:34,480
was at this event i think it was a

513
00:18:38,950 --> 00:18:36,799

university in virginia the other day

514

00:18:40,789 --> 00:18:38,960

where he brought it up again

515

00:18:42,870 --> 00:18:40,799

and the reason i thought it was so

516

00:18:45,990 --> 00:18:42,880

critical this time

517

00:18:49,430 --> 00:18:46,000

is nobody asked him a question about

518

00:18:51,430 --> 00:18:49,440

uaps or the task force or nasa's role

519

00:18:53,590 --> 00:18:51,440

he was talking about

520

00:18:55,669 --> 00:18:53,600

something else and he said hey you know

521

00:18:59,029 --> 00:18:55,679

none of you guys have asked me

522

00:19:01,830 --> 00:18:59,039

about the search for life

523

00:19:05,110 --> 00:19:01,840

now the reason this is important

524

00:19:07,029 --> 00:19:05,120

is because the search for life at nasa

525

00:19:09,430 --> 00:19:07,039

is a formal

526
00:19:12,549 --> 00:19:09,440
thing right like sending rovers to mars

527
00:19:15,029 --> 00:19:12,559
to look for signs of water sending a

528
00:19:17,909 --> 00:19:15,039
space you know spacecraft to circle

529
00:19:20,470 --> 00:19:17,919
titan and look for signs of life what oh

530
00:19:23,430 --> 00:19:20,480
looking atmospheres for exoplanet

531
00:19:26,070 --> 00:19:23,440
signatures so it's a formal scientific

532
00:19:28,549 --> 00:19:26,080
thing so he kind of transitions into

533
00:19:30,710 --> 00:19:28,559
that and within the middle of that

534
00:19:33,510 --> 00:19:30,720
discussion he says

535
00:19:35,909 --> 00:19:33,520
and of course we've all seen those uap

536
00:19:37,750 --> 00:19:35,919
videos and the fighter pilots that were

537
00:19:40,950 --> 00:19:37,760
on 60 minutes

538
00:19:43,270 --> 00:19:40,960

he's tying those two things together

539

00:19:44,710 --> 00:19:43,280

four months after he first brought up

540

00:19:46,950 --> 00:19:44,720

the three four months that they were

541

00:19:47,990 --> 00:19:46,960

going to look into so

542

00:19:48,870 --> 00:19:48,000

in my

543

00:19:53,669 --> 00:19:48,880

my

544

00:19:54,390 --> 00:19:53,679

not only saying we're going to look at

545

00:19:56,950 --> 00:19:54,400

it

546

00:19:59,110 --> 00:19:56,960

he's taking the mainstream search for

547

00:20:01,909 --> 00:19:59,120

life that is one of nasa's primary

548

00:20:04,230 --> 00:20:01,919

missions from a scientific basis

549

00:20:07,029 --> 00:20:04,240

and combining it with

550

00:20:07,830 --> 00:20:07,039

we're going to look at this uap stuff to

551
00:20:10,390 --> 00:20:07,840
me

552
00:20:12,950 --> 00:20:10,400
you know this is very lou elizondo this

553
00:20:15,350 --> 00:20:12,960
is very i'm talking about what i can't

554
00:20:17,669 --> 00:20:15,360
talk about and then by the way have i

555
00:20:19,830 --> 00:20:17,679
mentioned how many planets there are in

556
00:20:21,190 --> 00:20:19,840
the cosmos and how high a chance there

557
00:20:23,190 --> 00:20:21,200
is for life

558
00:20:25,430 --> 00:20:23,200
they keep sewing these things together

559
00:20:26,390 --> 00:20:25,440
and i think that's critical i think that

560
00:20:28,630 --> 00:20:26,400
shows

561
00:20:30,390 --> 00:20:28,640
you know you don't anyone who's been on

562
00:20:31,669 --> 00:20:30,400
ufo twitter knows you don't want to

563
00:20:33,750 --> 00:20:31,679

tease something that you don't have the

564

00:20:36,710 --> 00:20:33,760

follow-up to right sure

565

00:20:39,430 --> 00:20:36,720

you'll be shut down pretty quick and uh

566

00:20:41,430 --> 00:20:39,440

i think as a an experienced politician

567

00:20:44,230 --> 00:20:41,440

he's smart enough to know

568

00:20:45,830 --> 00:20:44,240

what he's saying and how he's saying it

569

00:20:47,190 --> 00:20:45,840

yeah the thing is that i've had a lot of

570

00:20:49,110 --> 00:20:47,200

people

571

00:20:51,110 --> 00:20:49,120

mainly on instagram saying oh well it's

572

00:20:53,029 --> 00:20:51,120

just nasa they've they've seen things in

573

00:20:54,870 --> 00:20:53,039

the past they've airbrushed photos this

574

00:20:57,029 --> 00:20:54,880

is just all a big game to them they're

575

00:20:58,310 --> 00:20:57,039

just saying what you know they think we

576

00:20:59,909 --> 00:20:58,320

want to hear what would you say to

577

00:21:03,029 --> 00:20:59,919

people like that how would we change

578

00:21:06,070 --> 00:21:03,039

minds so i do know that there i've seen

579

00:21:07,750 --> 00:21:06,080

ufo tv specials where there's uh

580

00:21:09,990 --> 00:21:07,760

allegations of like

581

00:21:12,710 --> 00:21:10,000

ufos showing up in photos that they

582

00:21:14,549 --> 00:21:12,720

airbrush out or every time something

583

00:21:16,149 --> 00:21:14,559

interesting on the on the space station

584

00:21:18,230 --> 00:21:16,159

live feed shows up all of a sudden they

585

00:21:19,909 --> 00:21:18,240

have technical difficulties so i don't

586

00:21:21,669 --> 00:21:19,919

know necessarily what to think about

587

00:21:24,390 --> 00:21:21,679

that i don't know that that's those are

588

00:21:26,950 --> 00:21:24,400

true or untrue things i can tell you

589

00:21:29,750 --> 00:21:26,960

that uh because of the job i have at the

590

00:21:33,350 --> 00:21:29,760

debrief i have the opportunity to speak

591

00:21:35,830 --> 00:21:33,360

at scientists at nasa all the time and

592

00:21:37,110 --> 00:21:35,840

and a lot of them will privately you

593

00:21:39,270 --> 00:21:37,120

know you and i have a little

594

00:21:40,390 --> 00:21:39,280

conversation before the interview and

595

00:21:42,630 --> 00:21:40,400

this will happen when you're

596

00:21:44,390 --> 00:21:42,640

interviewing a subject for an article

597

00:21:46,630 --> 00:21:44,400

we'll have a little private exchange

598

00:21:48,630 --> 00:21:46,640

before i hit the record button and the

599

00:21:50,870 --> 00:21:48,640

ones that know of the debrief which is

600

00:21:53,110 --> 00:21:50,880

surprisingly high amount and know what

601
00:21:54,310 --> 00:21:53,120
we're doing over at the debrief they'll

602
00:21:56,630 --> 00:21:54,320
ask me

603
00:21:59,029 --> 00:21:56,640
hey you guys got any photos or any you

604
00:22:01,029 --> 00:21:59,039
know anything coming is there and and

605
00:22:02,950 --> 00:22:01,039
sometimes i'll tease a little bit of

606
00:22:05,990 --> 00:22:02,960
what we're working on

607
00:22:07,590 --> 00:22:06,000
but what they all universally tell me

608
00:22:09,510 --> 00:22:07,600
and what i do believe from the

609
00:22:11,750 --> 00:22:09,520
scientists i talk to

610
00:22:13,669 --> 00:22:11,760
is that they can't keep a secret they're

611
00:22:15,270 --> 00:22:13,679
intellectually curious they got into

612
00:22:17,750 --> 00:22:15,280
science because they want to know

613
00:22:19,830 --> 00:22:17,760

answers and once they think they know

614

00:22:23,669 --> 00:22:19,840

something they can't wait to share it

615

00:22:26,310 --> 00:22:23,679

it's just in their dna so i don't think

616

00:22:28,149 --> 00:22:26,320

there is a concerted effort across the

617

00:22:30,470 --> 00:22:28,159

length and breadth of the scientific

618

00:22:33,110 --> 00:22:30,480

community that works at nasa to keep

619

00:22:35,669 --> 00:22:33,120

this covered up with that being said is

620

00:22:37,830 --> 00:22:35,679

there a small group of people in the

621

00:22:40,149 --> 00:22:37,840

position of power there

622

00:22:41,990 --> 00:22:40,159

who have edited photos or edited videos

623

00:22:43,510 --> 00:22:42,000

or turned off live cams i just don't

624

00:22:45,190 --> 00:22:43,520

know i don't know how to go about

625

00:22:46,950 --> 00:22:45,200

finding that information

626

00:22:48,630 --> 00:22:46,960

i think again one of the benefits of

627

00:22:51,029 --> 00:22:48,640

having a guy like nelson in there is

628

00:22:53,510 --> 00:22:51,039

he's new right he's just come into the

629

00:22:54,549 --> 00:22:53,520

job he's just taken over

630

00:22:56,630 --> 00:22:54,559

and

631

00:22:58,789 --> 00:22:56,640

he's coming in i mean when i see him

632

00:23:01,190 --> 00:22:58,799

talk about uaps and life on other

633

00:23:04,149 --> 00:23:01,200

planets in the videos his eyes go wider

634

00:23:06,070 --> 00:23:04,159

than mine right like yeah really he gets

635

00:23:08,870 --> 00:23:06,080

excited he and

636

00:23:11,430 --> 00:23:08,880

i i think that

637

00:23:13,430 --> 00:23:11,440

i have confidence that we're gonna get

638

00:23:15,750 --> 00:23:13,440

something from nasa

639

00:23:17,510 --> 00:23:15,760

if there is a big conspiracy and if they

640

00:23:20,630 --> 00:23:17,520

really are part of it that is really

641

00:23:22,549 --> 00:23:20,640

what's going on then you know

642

00:23:23,750 --> 00:23:22,559

then that would tell me that avilobe and

643

00:23:25,270 --> 00:23:23,760

all these other things probably don't

644

00:23:27,270 --> 00:23:25,280

have a chance either because it's all

645

00:23:29,270 --> 00:23:27,280

probably controlled by some you know q

646

00:23:30,870 --> 00:23:29,280

anon or something that's just not how i

647

00:23:32,870 --> 00:23:30,880

operate the world that's not how i think

648

00:23:35,029 --> 00:23:32,880

things happen and it's not what i think

649

00:23:36,950 --> 00:23:35,039

is going on at nasa i just think like i

650

00:23:39,110 --> 00:23:36,960

said there's just too many smart people

651
00:23:41,430 --> 00:23:39,120
involved that tell me all the time we

652
00:23:43,750 --> 00:23:41,440
can't keep our mouths shut we're uh

653
00:23:45,269 --> 00:23:43,760
we're a leaky sieve if we find out

654
00:23:46,950 --> 00:23:45,279
something cool at nasa the whole world's

655
00:23:48,950 --> 00:23:46,960
gonna know within hours

656
00:23:51,029 --> 00:23:48,960
awesome i like that yeah thank you man

657
00:23:52,870 --> 00:23:51,039
um just a quick shout out again laura

658
00:23:55,110 --> 00:23:52,880
sosa thank you thank you so much for the

659
00:23:56,789 --> 00:23:55,120
five dollar super sticker and awesome

660
00:23:59,269 --> 00:23:56,799
bazinga thank you

661
00:24:00,950 --> 00:23:59,279
andy ohan 50 sec thank you cheers with

662
00:24:02,710 --> 00:24:00,960
the the red wine left

663
00:24:05,269 --> 00:24:02,720

i will toast to you later my friend

664

00:24:08,549 --> 00:24:05,279

thank you so much now when you mentioned

665

00:24:10,310 --> 00:24:08,559

the aiaa conference earlier the

666

00:24:12,870 --> 00:24:10,320

let me bring it up american institute of

667

00:24:15,110 --> 00:24:12,880

aeronautics and astronautics now in that

668

00:24:16,470 --> 00:24:15,120

conference there was talk of uap but

669

00:24:19,510 --> 00:24:16,480

there was specifically i think there was

670

00:24:21,029 --> 00:24:19,520

an air safety talk done by ryan graves

671

00:24:24,230 --> 00:24:21,039

and to me that

672

00:24:25,669 --> 00:24:24,240

fits in a bit with the the the

673

00:24:27,909 --> 00:24:25,679

i don't like calling it the threat

674

00:24:29,669 --> 00:24:27,919

narrative but it's these potential

675

00:24:31,510 --> 00:24:29,679

threats now

676

00:24:33,110 --> 00:24:31,520

this hasn't gone down well with a lot of

677

00:24:34,950 --> 00:24:33,120

people this whole threat narrative they

678

00:24:36,950 --> 00:24:34,960

think it's just um

679

00:24:38,230 --> 00:24:36,960

almost a bit of fear mongering can you

680

00:24:40,630 --> 00:24:38,240

talk about

681

00:24:43,510 --> 00:24:40,640

that air safety aspect and why it is a

682

00:24:45,750 --> 00:24:43,520

potential threat well first of all just

683

00:24:47,909 --> 00:24:45,760

say is the general yes i'm happy to as

684

00:24:49,590 --> 00:24:47,919

the general threat narrative

685

00:24:53,269 --> 00:24:49,600

i will say this

686

00:24:54,950 --> 00:24:53,279

uh china and russia are putting

687

00:24:57,110 --> 00:24:54,960

ships in space

688

00:24:59,190 --> 00:24:57,120

space is gonna become a battlefield

689

00:25:01,110 --> 00:24:59,200

weapons will ultimately be up there if

690

00:25:04,070 --> 00:25:01,120

they're not up there already we're

691

00:25:06,789 --> 00:25:04,080

developing weapons the us does

692

00:25:08,870 --> 00:25:06,799

the military industrial complex we like

693

00:25:11,190 --> 00:25:08,880

to call it here does not need a

694

00:25:13,909 --> 00:25:11,200

narrative to raise money they don't need

695

00:25:16,070 --> 00:25:13,919

to say aliens are coming and they're a

696

00:25:19,750 --> 00:25:16,080

threat so give us more money

697

00:25:22,149 --> 00:25:19,760

there is plenty of existential threats

698

00:25:24,310 --> 00:25:22,159

from places like iran north korea plenty

699

00:25:26,149 --> 00:25:24,320

of other countries but in particular

700

00:25:29,110 --> 00:25:26,159

when it comes to high budget

701
00:25:32,230 --> 00:25:29,120
expenditures russia and china

702
00:25:34,549 --> 00:25:32,240
hypersonic weapons hypersonic travel

703
00:25:37,430 --> 00:25:34,559
space battles all the i mean

704
00:25:40,310 --> 00:25:37,440
there is not going to be a shortage of

705
00:25:43,029 --> 00:25:40,320
uh funding for the military

706
00:25:45,029 --> 00:25:43,039
so to me the threat narrative the threat

707
00:25:46,630 --> 00:25:45,039
narrative came out of lou elizando and

708
00:25:48,950 --> 00:25:46,640
these guys trying to get the military to

709
00:25:51,669 --> 00:25:48,960
take it seriously in my opinion and

710
00:25:56,390 --> 00:25:51,679
rightfully so the military's there

711
00:25:58,310 --> 00:25:56,400
to uh deter or address threats

712
00:26:01,110 --> 00:25:58,320
as far as

713
00:26:04,070 --> 00:26:01,120

ryan graves and what he talked about at

714

00:26:07,029 --> 00:26:04,080

the aiaa he was talking about the

715

00:26:09,990 --> 00:26:07,039

potential for mid-air collision the

716

00:26:11,669 --> 00:26:10,000

potential for an accident and what he

717

00:26:13,750 --> 00:26:11,679

said at that conference and what i

718

00:26:16,710 --> 00:26:13,760

quoted in my article was

719

00:26:19,830 --> 00:26:16,720

we are seeing these things so often our

720

00:26:22,549 --> 00:26:19,840

pilots are encountering so often

721

00:26:25,750 --> 00:26:22,559

that i'm quite frankly surprised we

722

00:26:28,950 --> 00:26:25,760

haven't already had a mid-air collision

723

00:26:31,269 --> 00:26:28,960

you know so i think that was a big part

724

00:26:34,549 --> 00:26:31,279

because that was the thrust of that's

725

00:26:36,630 --> 00:26:34,559

that talk at aiaa kevin knuth was there

726
00:26:39,750 --> 00:26:36,640
to talk about maybe the physics behind

727
00:26:42,789 --> 00:26:39,760
the propulsion of these things uh ted

728
00:26:45,510 --> 00:26:42,799
rowe was there from narcap to talk about

729
00:26:48,070 --> 00:26:45,520
over 100 years of histories of ufo cases

730
00:26:49,830 --> 00:26:48,080
they have in their database and how some

731
00:26:51,510 --> 00:26:49,840
of those were similar or different from

732
00:26:53,909 --> 00:26:51,520
what pilots were seeing

733
00:26:57,110 --> 00:26:53,919
uh there was a

734
00:26:59,430 --> 00:26:57,120
scientist from the european space agency

735
00:27:02,710 --> 00:26:59,440
uh philippe alliers i believe is his

736
00:27:04,549 --> 00:27:02,720
name he was talking about an idea to use

737
00:27:06,789 --> 00:27:04,559
archived photos from the mars

738
00:27:09,110 --> 00:27:06,799

reconnaissance orbiter and the moon

739

00:27:11,350 --> 00:27:09,120

lunar reconnaissance orbiter go through

740

00:27:14,310 --> 00:27:11,360

these photos to look for artifacts of

741

00:27:15,909 --> 00:27:14,320

ancient civilizations crash ships other

742

00:27:18,830 --> 00:27:15,919

things of that nature

743

00:27:22,870 --> 00:27:18,840

so it was a broad discussion on uaps to

744

00:27:25,990 --> 00:27:22,880

give context but yeah the thrust of that

745

00:27:28,789 --> 00:27:26,000

discussion was this is becoming a safety

746

00:27:30,789 --> 00:27:28,799

issue pilots are seeing it too often

747

00:27:33,990 --> 00:27:30,799

commercial pilots as well

748

00:27:37,029 --> 00:27:34,000

having near collisions near interactions

749

00:27:39,750 --> 00:27:37,039

and uh and ryan's note was it's only

750

00:27:41,669 --> 00:27:39,760

becoming more frequent not less frequent

751
00:27:43,990 --> 00:27:41,679
this is happening more often this

752
00:27:46,950 --> 00:27:44,000
happens every day

753
00:27:49,269 --> 00:27:46,960
and he's saying since 2019

754
00:27:51,590 --> 00:27:49,279
he come and he said at this conference

755
00:27:54,149 --> 00:27:51,600
he communicates regularly with other

756
00:27:57,190 --> 00:27:54,159
naval aviators he used to work with as

757
00:27:58,710 --> 00:27:57,200
well as air force aviators which is

758
00:28:01,269 --> 00:27:58,720
critical here in the states because

759
00:28:03,110 --> 00:28:01,279
they've been very quiet on this issue

760
00:28:05,669 --> 00:28:03,120
the air force has really not spoken at

761
00:28:08,310 --> 00:28:05,679
all most of this the the movement in the

762
00:28:10,549 --> 00:28:08,320
last few years has been driven by the us

763
00:28:13,510 --> 00:28:10,559

navy so

764

00:28:15,190 --> 00:28:13,520

which has the most aviators you know the

765

00:28:16,870 --> 00:28:15,200

stationed around the world for the us

766

00:28:19,110 --> 00:28:16,880

but the air force that is supposed to be

767

00:28:21,590 --> 00:28:19,120

their domain and they do have the best

768

00:28:23,590 --> 00:28:21,600

satellites and stuff and he's saying air

769

00:28:24,549 --> 00:28:23,600

force aviators are telling him privately

770

00:28:26,470 --> 00:28:24,559

yeah man

771

00:28:29,750 --> 00:28:26,480

that stuff's flying around we're seeing

772

00:28:31,990 --> 00:28:29,760

it and we're having near collisions

773

00:28:33,909 --> 00:28:32,000

that's incredible i mean i mean

774

00:28:35,190 --> 00:28:33,919

i assume which is never necessarily a

775

00:28:37,029 --> 00:28:35,200

good thing but

776

00:28:39,750 --> 00:28:37,039

they must be capturing these on their

777

00:28:41,510 --> 00:28:39,760

sensor systems then if it's so frequent

778

00:28:42,230 --> 00:28:41,520

that's you know one would think right

779

00:28:44,149 --> 00:28:42,240

like

780

00:28:46,870 --> 00:28:44,159

yeah i mean if your eyeballs are seeing

781

00:28:49,190 --> 00:28:46,880

it all the time uh if you got a 1970s

782

00:28:51,029 --> 00:28:49,200

video camera duct tape to the outside of

783

00:28:52,230 --> 00:28:51,039

your fighter jet should be picking it up

784

00:28:55,430 --> 00:28:52,240

right like

785

00:28:57,110 --> 00:28:55,440

so uh yeah i think that might be part of

786

00:28:59,669 --> 00:28:57,120

these videos we hear about that we're

787

00:29:01,909 --> 00:28:59,679

not seeing um our

788

00:29:03,909 --> 00:29:01,919

uh interactions that they're seeing i

789

00:29:05,669 --> 00:29:03,919

you know

790

00:29:08,549 --> 00:29:05,679

i hear there might be video of the tic

791

00:29:11,190 --> 00:29:08,559

tac incident from 2004 and that maybe

792

00:29:13,430 --> 00:29:11,200

the signal equipment on those fighters

793

00:29:14,470 --> 00:29:13,440

was turned on and the cameras was turned

794

00:29:17,269 --> 00:29:14,480

on so

795

00:29:19,590 --> 00:29:17,279

um and i think that may be part of the

796

00:29:21,909 --> 00:29:19,600

reluctance of the two wizards the weapon

797

00:29:23,110 --> 00:29:21,919

systems officers to come out and talk

798

00:29:24,549 --> 00:29:23,120

about that because they're the ones that

799

00:29:26,149 --> 00:29:24,559

monitor that and record that i don't

800

00:29:28,870 --> 00:29:26,159

think they want to answer that question

801
00:29:30,710 --> 00:29:28,880
so that's a purely personal opinion and

802
00:29:32,549 --> 00:29:30,720
yes i do work in a place where i get a

803
00:29:34,950 --> 00:29:32,559
little bit inside information from time

804
00:29:36,470 --> 00:29:34,960
to time but that's just my opinion i i

805
00:29:39,190 --> 00:29:36,480
think that there may be video of those

806
00:29:41,510 --> 00:29:39,200
incidents as well and that may be part

807
00:29:43,830 --> 00:29:41,520
of uh of these longer videos that we're

808
00:29:45,269 --> 00:29:43,840
not seeing yeah no i've heard certainly

809
00:29:47,269 --> 00:29:45,279
heard the rumors in in some back

810
00:29:48,950 --> 00:29:47,279
channels as well yeah it is strange i

811
00:29:50,789 --> 00:29:48,960
think one of the wizards and forgive me

812
00:29:52,630 --> 00:29:50,799
i forget his name i think he did one

813
00:29:53,590 --> 00:29:52,640

talk on a network

814

00:29:55,669 --> 00:29:53,600

okay

815

00:29:58,549 --> 00:29:55,679

one and then after that just disappeared

816

00:30:00,870 --> 00:29:58,559

i think that was 20 2018 i believe and

817

00:30:03,269 --> 00:30:00,880

yeah i found strange i know that

818

00:30:04,470 --> 00:30:03,279

dietrich and flavor are public but i've

819

00:30:05,909 --> 00:30:04,480

always under the impression that the

820

00:30:09,110 --> 00:30:05,919

other two were not

821

00:30:10,789 --> 00:30:09,120

known names so um just one of them

822

00:30:13,510 --> 00:30:10,799

yeah yeah if i find it i'll send you the

823

00:30:15,190 --> 00:30:13,520

clip yeah fantastic yes i'm in the link

824

00:30:16,630 --> 00:30:15,200

so listen just talking about the tic tac

825

00:30:18,950 --> 00:30:16,640

in that what were your initial thoughts

826

00:30:22,789 --> 00:30:18,960

when you first saw whether three navy

827

00:30:24,470 --> 00:30:22,799

videos back in well 2017 early 2018.

828

00:30:25,669 --> 00:30:24,480

so this is something i've been following

829

00:30:28,070 --> 00:30:25,679

well okay

830

00:30:28,950 --> 00:30:28,080

i want to caveat this

831

00:30:31,590 --> 00:30:28,960

sure

832

00:30:34,549 --> 00:30:31,600

i was so far out of the ufo after the

833

00:30:36,950 --> 00:30:34,559

early 2000s and the press club and and

834

00:30:39,269 --> 00:30:36,960

stephen grier and disclosure project and

835

00:30:41,830 --> 00:30:39,279

that slowly kind of ran out of steam in

836

00:30:43,430 --> 00:30:41,840

the early 2000s anybody who's followed

837

00:30:45,590 --> 00:30:43,440

this for a long time will know that you

838

00:30:48,149 --> 00:30:45,600

kind of go through these waves and don't

839

00:30:50,389 --> 00:30:48,159

get me wrong this most recent wave may

840

00:30:53,029 --> 00:30:50,399

be the the cresting wave we may finally

841

00:30:54,789 --> 00:30:53,039

be turning a corner here but

842

00:30:56,710 --> 00:30:54,799

uh i didn't even see the videos at the

843

00:30:58,389 --> 00:30:56,720

end of 2017 or the new york times when

844

00:31:01,110 --> 00:30:58,399

they came out i was off just living my

845

00:31:04,710 --> 00:31:01,120

life so involved i was out of the ufo

846

00:31:07,430 --> 00:31:04,720

loop 2018 i was in bliss and then

847

00:31:09,509 --> 00:31:07,440

they started promoting the unidentified

848

00:31:11,509 --> 00:31:09,519

show for the history channel where lou

849

00:31:13,430 --> 00:31:11,519

elizondo and the guys came on steve

850

00:31:15,909 --> 00:31:13,440

justice all of them and the two of the

851
00:31:16,630 --> 00:31:15,919
stars academy was becoming a thing and

852
00:31:23,750 --> 00:31:16,640
uh

853
00:31:26,549 --> 00:31:23,760
so i i was i didn't know any you know it

854
00:31:28,389 --> 00:31:26,559
i was so out of the ufo loop

855
00:31:30,389 --> 00:31:28,399
and so out of that

856
00:31:32,389 --> 00:31:30,399
world that it really didn't hit me until

857
00:31:34,310 --> 00:31:32,399
the middle of 2019.

858
00:31:36,549 --> 00:31:34,320
i remember the first time i saw the

859
00:31:39,190 --> 00:31:36,559
videos

860
00:31:41,110 --> 00:31:39,200
i i got a little bit of a chill and that

861
00:31:44,070 --> 00:31:41,120
okay

862
00:31:44,830 --> 00:31:44,080
this is new this isn't like videos we've

863
00:31:47,830 --> 00:31:44,840

seen

864

00:31:50,070 --> 00:31:47,840

before um

865

00:31:51,669 --> 00:31:50,080

i do remember calling my brother my

866

00:31:53,509 --> 00:31:51,679

younger brother somebody we followed

867

00:31:55,830 --> 00:31:53,519

this together and watched these specials

868

00:31:57,190 --> 00:31:55,840

and he watched it he said okay so

869

00:31:59,669 --> 00:31:57,200

instead of

870

00:32:01,669 --> 00:31:59,679

blurry black and white civilian videos

871

00:32:04,630 --> 00:32:01,679

we have blurry black and white military

872

00:32:07,029 --> 00:32:04,640

videos so there was uh you know i was

873

00:32:09,269 --> 00:32:07,039

over the moon he was like ah you know so

874

00:32:12,230 --> 00:32:09,279

there was kind of a halfway

875

00:32:14,630 --> 00:32:12,240

i do think

876

00:32:16,310 --> 00:32:14,640

the more i watch these videos i think a

877

00:32:18,389 --> 00:32:16,320

couple of things one

878

00:32:20,549 --> 00:32:18,399

i think that mick west might have a good

879

00:32:23,029 --> 00:32:20,559

case for go fast right i don't think

880

00:32:24,710 --> 00:32:23,039

it's going fast and i think there's an

881

00:32:26,549 --> 00:32:24,720

argument to be made for a balloon

882

00:32:27,430 --> 00:32:26,559

hanging just above the water zipping

883

00:32:28,710 --> 00:32:27,440

along

884

00:32:31,190 --> 00:32:28,720

um

885

00:32:33,269 --> 00:32:31,200

that was discussed by knuth and these

886

00:32:35,029 --> 00:32:33,279

other guys at that conference i was at

887

00:32:36,070 --> 00:32:35,039

and they discussed reasons why they

888

00:32:37,909 --> 00:32:36,080

thought

889

00:32:39,909 --> 00:32:37,919

the temperature of the object wouldn't

890

00:32:43,430 --> 00:32:39,919

be right depending on the material and

891

00:32:45,269 --> 00:32:43,440

the sunlight that it still feels like

892

00:32:47,830 --> 00:32:45,279

maybe it's not a balloon to them so

893

00:32:49,990 --> 00:32:47,840

they're more scientists than i am but

894

00:32:51,269 --> 00:32:50,000

i see where one can kind of look at that

895

00:32:53,110 --> 00:32:51,279

video and to me that was the most

896

00:32:54,470 --> 00:32:53,120

exciting one initially because that was

897

00:32:56,950 --> 00:32:54,480

something zipping along that had no

898

00:32:58,950 --> 00:32:56,960

wings right yeah it didn't look to have

899

00:33:00,789 --> 00:32:58,960

helicopter blades

900

00:33:03,909 --> 00:33:00,799

the flare video

901
00:33:05,509 --> 00:33:03,919
um i think still rests in that weird

902
00:33:08,630 --> 00:33:05,519
argument of

903
00:33:10,950 --> 00:33:08,640
did it zip off to the side or did the

904
00:33:12,149 --> 00:33:10,960
aperture change and whatever

905
00:33:14,230 --> 00:33:12,159
uh i

906
00:33:16,070 --> 00:33:14,240
for me i think the gimbal video is

907
00:33:19,190 --> 00:33:16,080
settled i don't think it's a visual

908
00:33:22,070 --> 00:33:19,200
effect i i think that's a craft flying

909
00:33:24,789 --> 00:33:22,080
against the wind and over 100 knots and

910
00:33:26,870 --> 00:33:24,799
rotating its axis in a bizarre way i

911
00:33:28,389 --> 00:33:26,880
think that surprisingly may turn out to

912
00:33:29,350 --> 00:33:28,399
be the most critical of all three of

913
00:33:32,389 --> 00:33:29,360

those

914

00:33:35,830 --> 00:33:32,399

um i do always think that with the flair

915

00:33:37,830 --> 00:33:35,840

video there's a context point that some

916

00:33:40,310 --> 00:33:37,840

people might you know maybe the more

917

00:33:42,149 --> 00:33:40,320

critical people might miss that i think

918

00:33:44,549 --> 00:33:42,159

matters and this is this is how i would

919

00:33:46,389 --> 00:33:44,559

put that video imagine you're out on a

920

00:33:47,269 --> 00:33:46,399

hunting trip with a bunch of friends

921

00:33:50,070 --> 00:33:47,279

right

922

00:33:52,630 --> 00:33:50,080

and every few days one of the guys comes

923

00:33:53,909 --> 00:33:52,640

back to the camp and says i saw a

924

00:33:56,549 --> 00:33:53,919

unicorn

925

00:33:58,310 --> 00:33:56,559

like i was out hunting for bears and i

926

00:33:59,909 --> 00:33:58,320

saw a unicorn and everybody goes come on

927

00:34:02,070 --> 00:33:59,919

man unicorns don't exist they're not

928

00:34:04,470 --> 00:34:02,080

real you probably saw a horse or you saw

929

00:34:06,630 --> 00:34:04,480

a deer or you saw something else

930

00:34:08,550 --> 00:34:06,640

after a number of days

931

00:34:11,750 --> 00:34:08,560

eric like half of the hunters have come

932

00:34:13,589 --> 00:34:11,760

back and said i've seen a unicorn

933

00:34:14,950 --> 00:34:13,599

the next day a guy comes back with this

934

00:34:16,869 --> 00:34:14,960

camera and goes hey guys i saw the

935

00:34:18,230 --> 00:34:16,879

unicorn too and i got a picture of it

936

00:34:19,349 --> 00:34:18,240

and he shows you a picture and it's

937

00:34:21,589 --> 00:34:19,359

blurry

938

00:34:23,430 --> 00:34:21,599

but it generally looks like the unicorn

939

00:34:26,389 --> 00:34:23,440

all you guys have been seeing

940

00:34:29,030 --> 00:34:26,399

i think that that lends credence to that

941

00:34:30,950 --> 00:34:29,040

picture being an actual unicorn right so

942

00:34:32,869 --> 00:34:30,960

one can argue that video is a little

943

00:34:34,550 --> 00:34:32,879

blurry whatever but i think of the

944

00:34:36,230 --> 00:34:34,560

context of

945

00:34:38,629 --> 00:34:36,240

people are constantly seeing this on the

946

00:34:40,950 --> 00:34:38,639

radar then the pilots physically see the

947

00:34:43,270 --> 00:34:40,960

tic tac and then within hours or a day

948

00:34:45,030 --> 00:34:43,280

whatever the timeline is another pilot

949

00:34:48,310 --> 00:34:45,040

images this

950

00:34:50,550 --> 00:34:48,320

i think that's a good argument for that

951
00:34:52,710 --> 00:34:50,560
video being authentic as well so i think

952
00:34:54,790 --> 00:34:52,720
the most initial visually stunning the

953
00:34:56,950 --> 00:34:54,800
go fast has the easiest one to offer

954
00:34:58,870 --> 00:34:56,960
conventional explanation i think the

955
00:35:01,510 --> 00:34:58,880
flare's in the gray area but has some

956
00:35:03,750 --> 00:35:01,520
context that that makes it feel real and

957
00:35:05,750 --> 00:35:03,760
i think the gimbal's a real video

958
00:35:07,910 --> 00:35:05,760
oh they're all fair fair estimates yeah

959
00:35:09,430 --> 00:35:07,920
i can get on board with that completely

960
00:35:12,630 --> 00:35:09,440
um so let's bring it back up to this

961
00:35:15,349 --> 00:35:12,640
year 2021 we saw the uap etf preliminary

962
00:35:16,950 --> 00:35:15,359
assessment on june 25th again another

963
00:35:19,030 --> 00:35:16,960

thing with completely mixed feelings

964

00:35:21,430 --> 00:35:19,040

throughout everyone that is even you

965

00:35:23,829 --> 00:35:21,440

know interested in in the ufo uap

966

00:35:25,670 --> 00:35:23,839

subject did you take anything away from

967

00:35:27,589 --> 00:35:25,680

it was it a disappointment

968

00:35:29,430 --> 00:35:27,599

how did you thought it was huge i was

969

00:35:31,910 --> 00:35:29,440

super excited you know when i met tim

970

00:35:33,829 --> 00:35:31,920

mcmillan before i started working there

971

00:35:35,589 --> 00:35:33,839

i messaged him on the he was on the

972

00:35:37,670 --> 00:35:35,599

internet saying that he thought this

973

00:35:39,510 --> 00:35:37,680

report would be forthcoming next year

974

00:35:40,550 --> 00:35:39,520

this was late last year

975

00:35:42,069 --> 00:35:40,560

and uh

976

00:35:44,069 --> 00:35:42,079

i told him i said all right here's what

977

00:35:46,870 --> 00:35:44,079

i think that is report's to look like

978

00:35:49,270 --> 00:35:46,880

and i wrote out a one-page mock-up

979

00:35:51,349 --> 00:35:49,280

version of what i thought the military

980

00:35:53,510 --> 00:35:51,359

would say and not say

981

00:35:56,230 --> 00:35:53,520

and i put it on the internet

982

00:35:57,990 --> 00:35:56,240

on youtube and tim and i went back and

983

00:35:59,430 --> 00:35:58,000

forth this is actually the wording of

984

00:36:02,230 --> 00:35:59,440

the way they would word and you know he

985

00:36:05,190 --> 00:36:02,240

kind of helped me craft it a little bit

986

00:36:07,750 --> 00:36:05,200

but i was shocked at how close it turned

987

00:36:09,750 --> 00:36:07,760

out to be and if anything the report was

988

00:36:12,870 --> 00:36:09,760

more than i expected here's the here's

989

00:36:16,470 --> 00:36:12,880

the real takeaway for me

990

00:36:18,230 --> 00:36:16,480

the argument for the vast majority of my

991

00:36:22,230 --> 00:36:18,240

life has been

992

00:36:25,550 --> 00:36:22,240

are uaps ufos a real thing

993

00:36:27,829 --> 00:36:25,560

or all either misidentifications

994

00:36:28,950 --> 00:36:27,839

hallucinations or people making things

995

00:36:30,870 --> 00:36:28,960

up

996

00:36:33,589 --> 00:36:30,880

i think we now have

997

00:36:35,270 --> 00:36:33,599

the top military organization

998

00:36:37,190 --> 00:36:35,280

of let's be honest the biggest

999

00:36:39,190 --> 00:36:37,200

organization on the planet the us

1000

00:36:42,150 --> 00:36:39,200

military in and of itself is the most

1001
00:36:44,230 --> 00:36:42,160
well-funded biggest organization of any

1002
00:36:46,870 --> 00:36:44,240
type on the planet

1003
00:36:49,670 --> 00:36:46,880
that organization is coming out saying

1004
00:36:52,230 --> 00:36:49,680
we have 144 incidents of this and we

1005
00:36:55,589 --> 00:36:52,240
can't answer 143.

1006
00:36:56,950 --> 00:36:55,599
i think that's huge for them to also say

1007
00:36:59,589 --> 00:36:56,960
in that report

1008
00:37:01,510 --> 00:36:59,599
we have over 20 of these instances where

1009
00:37:02,950 --> 00:37:01,520
they essentially display some of the

1010
00:37:05,270 --> 00:37:02,960
observables

1011
00:37:07,510 --> 00:37:05,280
right like yeah that's the critical

1012
00:37:10,150 --> 00:37:07,520
stuff i mean i think we all say we've

1013
00:37:11,670 --> 00:37:10,160

seen videos whatever what we want is a

1014

00:37:13,750 --> 00:37:11,680

video of something

1015

00:37:15,589 --> 00:37:13,760

displaying observables making a hard

1016

00:37:18,390 --> 00:37:15,599

right turn shooting up into the

1017

00:37:21,589 --> 00:37:18,400

atmosphere traveling at mach 50 whatever

1018

00:37:22,390 --> 00:37:21,599

we want to see those things on video

1019

00:37:23,190 --> 00:37:22,400

so

1020

00:37:26,150 --> 00:37:23,200

uh

1021

00:37:28,790 --> 00:37:26,160

i think that the uaptf

1022

00:37:30,790 --> 00:37:28,800

gave as much as they could in a public

1023

00:37:32,470 --> 00:37:30,800

report initially

1024

00:37:34,230 --> 00:37:32,480

and essentially

1025

00:37:37,750 --> 00:37:34,240

answered the question

1026
00:37:39,270 --> 00:37:37,760
ufos for lack of a better term uaps are

1027
00:37:41,589 --> 00:37:39,280
a real thing

1028
00:37:44,230 --> 00:37:41,599
being seen regularly

1029
00:37:45,829 --> 00:37:44,240
some being seen with these extreme

1030
00:37:47,589 --> 00:37:45,839
performance extreme performance

1031
00:37:49,990 --> 00:37:47,599
characteristics

1032
00:37:53,430 --> 00:37:50,000
and being picked up on signal equipment

1033
00:37:55,670 --> 00:37:53,440
being picked up on radar sonar infrared

1034
00:37:58,310 --> 00:37:55,680
uh all these other types of electronic

1035
00:38:00,069 --> 00:37:58,320
emf equipment that they use on these

1036
00:38:02,790 --> 00:38:00,079
military craft tons of things we don't

1037
00:38:05,670 --> 00:38:02,800
even know about i mean we wrote a story

1038
00:38:08,310 --> 00:38:05,680

at the debrief about how you can use 5g

1039

00:38:10,790 --> 00:38:08,320

like a radar to track people's motions

1040

00:38:12,790 --> 00:38:10,800

right so imagine the equipment that's on

1041

00:38:15,910 --> 00:38:12,800

these on these uh

1042

00:38:19,190 --> 00:38:15,920

fighter jets and naval uh craft

1043

00:38:22,310 --> 00:38:19,200

so yeah i think that report

1044

00:38:23,510 --> 00:38:22,320

in many ways ended the rufo's real

1045

00:38:25,750 --> 00:38:23,520

argument

1046

00:38:27,910 --> 00:38:25,760

and said had the biggest organization on

1047

00:38:29,829 --> 00:38:27,920

the planet saying yeah it's real we're

1048

00:38:32,470 --> 00:38:29,839

dealing with it and

1049

00:38:34,310 --> 00:38:32,480

out of 144 we don't know what all but

1050

00:38:35,670 --> 00:38:34,320

one word

1051

00:38:37,750 --> 00:38:35,680

yeah i agree

1052

00:38:39,510 --> 00:38:37,760

i i set my expectations quite low so

1053

00:38:40,630 --> 00:38:39,520

that when we did get something you know

1054

00:38:42,790 --> 00:38:40,640

they weren't

1055

00:38:46,230 --> 00:38:42,800

broken let's say but then recently we've

1056

00:38:48,069 --> 00:38:46,240

seen the ndaa fiscal year 2022 with the

1057

00:38:49,750 --> 00:38:48,079

senate bill and the house bills as well

1058

00:38:51,670 --> 00:38:49,760

with the possibility of getting a

1059

00:38:53,349 --> 00:38:51,680

permanent uap office

1060

00:38:55,430 --> 00:38:53,359

now that to me was great and it sounds

1061

00:38:57,430 --> 00:38:55,440

exciting but i think a lot of people are

1062

00:39:00,310 --> 00:38:57,440

disappointed that we will definitely or

1063

00:39:01,750 --> 00:39:00,320

almost definitely not get any kind of

1064

00:39:04,790 --> 00:39:01,760

public

1065

00:39:07,109 --> 00:39:04,800

um reports in this case

1066

00:39:09,750 --> 00:39:07,119

i mean here's what i will tell you right

1067

00:39:11,510 --> 00:39:09,760

so think about the a-tip and a-swap

1068

00:39:14,310 --> 00:39:11,520

right they were

1069

00:39:15,910 --> 00:39:14,320

programs we didn't know existed publicly

1070

00:39:18,790 --> 00:39:15,920

that were happening behind the scenes

1071

00:39:21,349 --> 00:39:18,800

that were woefully underfunded that had

1072

00:39:23,510 --> 00:39:21,359

a couple of people working on it and

1073

00:39:25,109 --> 00:39:23,520

given enough time we learned about it

1074

00:39:27,190 --> 00:39:25,119

and we learned about everything that

1075

00:39:29,349 --> 00:39:27,200

they did now granted it took one guy

1076

00:39:31,750 --> 00:39:29,359

coming public with it but it really did

1077

00:39:33,670 --> 00:39:31,760

ultimately lead to that so now think of

1078

00:39:34,710 --> 00:39:33,680

a permanent office that we all know

1079

00:39:36,470 --> 00:39:34,720

exists

1080

00:39:38,230 --> 00:39:36,480

that we all know is working and is

1081

00:39:40,550 --> 00:39:38,240

actually funded and has people working

1082

00:39:42,550 --> 00:39:40,560

in it uh

1083

00:39:44,230 --> 00:39:42,560

in this business we have a lot of really

1084

00:39:46,150 --> 00:39:44,240

good investigative reporters that are

1085

00:39:47,910 --> 00:39:46,160

really good at making connections and

1086

00:39:50,230 --> 00:39:47,920

making contacts and reaching out to

1087

00:39:53,030 --> 00:39:50,240

people and i don't want to name drop any

1088

00:39:55,190 --> 00:39:53,040

of my bosses but uh if there are people

1089

00:39:57,109 --> 00:39:55,200

in that field that are going to be

1090

00:39:59,750 --> 00:39:57,119

permanently employed by the u.s

1091

00:40:01,270 --> 00:39:59,760

government to look into uaps in a

1092

00:40:02,710 --> 00:40:01,280

permanent office

1093

00:40:05,349 --> 00:40:02,720

that information is going to work its

1094

00:40:07,670 --> 00:40:05,359

way out to the public i'm i'm confident

1095

00:40:09,270 --> 00:40:07,680

it may not work its way out initially

1096

00:40:11,190 --> 00:40:09,280

but especially if the information

1097

00:40:12,870 --> 00:40:11,200

they're gathering is consistent with

1098

00:40:14,710 --> 00:40:12,880

that report they're finding things they

1099

00:40:16,870 --> 00:40:14,720

can't explain they're finding things

1100

00:40:18,870 --> 00:40:16,880

that are recorded on signal intel and

1101

00:40:21,670 --> 00:40:18,880

they're finding things that are uh

1102

00:40:23,349 --> 00:40:21,680

performing in unusual uh ways that we

1103

00:40:24,390 --> 00:40:23,359

can't easily replicate or can't

1104

00:40:26,390 --> 00:40:24,400

replicate

1105

00:40:29,190 --> 00:40:26,400

uh i think it's great that there will be

1106

00:40:31,430 --> 00:40:29,200

an office there i mean uh i would love

1107

00:40:33,750 --> 00:40:31,440

john greenwald to start getting document

1108

00:40:36,230 --> 00:40:33,760

stacks back from that office that are

1109

00:40:38,710 --> 00:40:36,240

all just completely blacked out because

1110

00:40:40,950 --> 00:40:38,720

that means they're finding stuff right i

1111

00:40:43,030 --> 00:40:40,960

want foyer requests from that office

1112

00:40:44,950 --> 00:40:43,040

every year that are just filled with

1113

00:40:46,870 --> 00:40:44,960

redactions because that means they're

1114

00:40:48,710 --> 00:40:46,880

finding things and that means that

1115

00:40:49,910 --> 00:40:48,720

sooner or later we will get that

1116

00:40:51,270 --> 00:40:49,920

information

1117

00:40:52,390 --> 00:40:51,280

ah that's good to hear i like that

1118

00:40:54,069 --> 00:40:52,400

positivity

1119

00:40:56,710 --> 00:40:54,079

um michael hendington you're right i

1120

00:40:59,670 --> 00:40:56,720

should be careful in in my wording four

1121

00:41:01,349 --> 00:40:59,680

years not permanent yeah thank you for

1122

00:41:02,710 --> 00:41:01,359

that because yeah i did know that i

1123

00:41:04,069 --> 00:41:02,720

shouldn't have said that i think what i

1124

00:41:06,790 --> 00:41:04,079

was trying to say is it's not just a

1125

00:41:08,069 --> 00:41:06,800

couple of people the uap task force with

1126

00:41:09,750 --> 00:41:08,079

very limited

1127

00:41:11,910 --> 00:41:09,760

uh resources it's going to be something

1128

00:41:13,030 --> 00:41:11,920

a little bit more

1129

00:41:16,309 --> 00:41:13,040

yeah

1130

00:41:18,390 --> 00:41:16,319

you know a multi-year undertaking with

1131

00:41:21,670 --> 00:41:18,400

some actual funding and again like i

1132

00:41:22,470 --> 00:41:21,680

said at nasa a project manager a project

1133

00:41:24,790 --> 00:41:22,480

name

1134

00:41:26,950 --> 00:41:24,800

a staff that works under it a budget

1135

00:41:28,630 --> 00:41:26,960

allocation all of those things are how

1136

00:41:31,030 --> 00:41:28,640

organizations like this work and once

1137

00:41:33,430 --> 00:41:31,040

you make something like that a permanent

1138

00:41:35,829 --> 00:41:33,440

uh you know or at least a multi-year

1139

00:41:37,430 --> 00:41:35,839

project as opposed to a task force which

1140

00:41:38,790 --> 00:41:37,440

is what it sounds like it's like we're

1141

00:41:41,990 --> 00:41:38,800

here for a few weeks to look at

1142

00:41:45,109 --> 00:41:42,000

something yeah i i i find it to be a

1143

00:41:46,790 --> 00:41:45,119

step forward the more here's here's the

1144

00:41:49,510 --> 00:41:46,800

question i ask people all the time when

1145

00:41:52,230 --> 00:41:49,520

they express criticisms about nasa or

1146

00:41:53,750 --> 00:41:52,240

galileo or this all legitimate concerns

1147

00:41:55,589 --> 00:41:53,760

by the way we've all been lied to for

1148

00:41:58,150 --> 00:41:55,599

long enough we should be concerned and

1149

00:41:59,670 --> 00:41:58,160

we should be skeptical but my question

1150

00:42:02,710 --> 00:41:59,680

is always do you want more people

1151
00:42:05,349 --> 00:42:02,720
looking at this or less right so

1152
00:42:07,270 --> 00:42:05,359
and do you want more people in positions

1153
00:42:09,589 --> 00:42:07,280
where they can get their hands on things

1154
00:42:12,230 --> 00:42:09,599
lou elizondo's biggest complaint i know

1155
00:42:14,470 --> 00:42:12,240
this even uh you know behind the scenes

1156
00:42:17,030 --> 00:42:14,480
as well from the people i work with

1157
00:42:19,829 --> 00:42:17,040
is being stonewalled by

1158
00:42:21,670 --> 00:42:19,839
two of the 21 intelligence agencies

1159
00:42:22,550 --> 00:42:21,680
within the government that he always

1160
00:42:24,309 --> 00:42:22,560
lists

1161
00:42:26,470 --> 00:42:24,319
lots of them are just like no we didn't

1162
00:42:28,150 --> 00:42:26,480
turn our photos over we didn't turn our

1163
00:42:29,910 --> 00:42:28,160

reports over

1164

00:42:32,470 --> 00:42:29,920

what elizondo we haven't heard of you

1165

00:42:34,630 --> 00:42:32,480

what i just would blow it off when you

1166

00:42:36,790 --> 00:42:34,640

create an office that's entrenched like

1167

00:42:39,910 --> 00:42:36,800

that whose job is specifically to do

1168

00:42:42,230 --> 00:42:39,920

that it will build its own capital over

1169

00:42:44,870 --> 00:42:42,240

a year two years three years to where it

1170

00:42:47,030 --> 00:42:44,880

has authority to make those things

1171

00:42:49,670 --> 00:42:47,040

happen to force that information to a

1172

00:42:52,470 --> 00:42:49,680

place where it can be better analyzed so

1173

00:42:54,710 --> 00:42:52,480

i i'm in favor of all of these man if

1174

00:42:58,710 --> 00:42:54,720

you would have told me in the 1980s that

1175

00:42:59,510 --> 00:42:58,720

the dod the aia harvard nasa

1176

00:43:01,910 --> 00:42:59,520

uh

1177

00:43:04,230 --> 00:43:01,920

the the the us government and a

1178

00:43:05,510 --> 00:43:04,240

permanent uh organization under the

1179

00:43:07,270 --> 00:43:05,520

senate all of these things were

1180

00:43:08,950 --> 00:43:07,280

happening i would have said you're crazy

1181

00:43:10,710 --> 00:43:08,960

there's no way

1182

00:43:12,950 --> 00:43:10,720

that's all gonna happen and all gonna

1183

00:43:14,790 --> 00:43:12,960

happen in like a one-year span right

1184

00:43:18,550 --> 00:43:14,800

like think of the announcement that we

1185

00:43:19,829 --> 00:43:18,560

would get a ua ptf report last fall and

1186

00:43:23,430 --> 00:43:19,839

since then

1187

00:43:26,309 --> 00:43:23,440

galileo nasa all these other huge things

1188

00:43:29,190 --> 00:43:26,319

have happened just in that like the

1189

00:43:31,750 --> 00:43:29,200

videos lit the fuse the guys going out

1190

00:43:35,109 --> 00:43:31,760

public got the attention behind it ufo

1191

00:43:37,750 --> 00:43:35,119

twitter disclosure team the the podcast

1192

00:43:40,150 --> 00:43:37,760

world these things all got behind it and

1193

00:43:43,030 --> 00:43:40,160

we are seeing fruits of that labor i'm

1194

00:43:44,950 --> 00:43:43,040

convinced of it nice um i got a question

1195

00:43:46,870 --> 00:43:44,960

which i was sent earlier from eve clancy

1196

00:43:48,069 --> 00:43:46,880

so thank you eve i've got it on my phone

1197

00:43:50,309 --> 00:43:48,079

here it says

1198

00:43:52,950 --> 00:43:50,319

plain wrote that stigma around uaps

1199

00:43:54,870 --> 00:43:52,960

prevented half a century of their study

1200

00:43:57,190 --> 00:43:54,880

do we need more products like mirage men

1201
00:44:01,430 --> 00:43:57,200
to timeline the dod using a stigma

1202
00:44:05,349 --> 00:44:02,870
say that again like

1203
00:44:07,030 --> 00:44:05,359
read that one more time for me

1204
00:44:08,950 --> 00:44:07,040
yeah i've lost the question on screen so

1205
00:44:10,950 --> 00:44:08,960
i can only read it or let me try it on

1206
00:44:14,309 --> 00:44:10,960
youtube bear with me

1207
00:44:16,390 --> 00:44:14,319
yeah no it's got it's gone too fast

1208
00:44:19,990 --> 00:44:16,400
yeah do we need more products like

1209
00:44:22,550 --> 00:44:20,000
mirage men to timeline the dod using a

1210
00:44:25,510 --> 00:44:22,560
stigma campaign

1211
00:44:27,030 --> 00:44:25,520
like mirage men to timeline the dod i

1212
00:44:29,750 --> 00:44:27,040
don't think i know what that question is

1213
00:44:30,710 --> 00:44:29,760

right here on the screen now here we go

1214

00:44:32,630 --> 00:44:30,720

okay

1215

00:44:34,309 --> 00:44:32,640

plain wrote that stigma around you

1216

00:44:36,630 --> 00:44:34,319

okay first sentence i got do we need

1217

00:44:38,630 --> 00:44:36,640

more products like mirage men

1218

00:44:42,309 --> 00:44:38,640

to timeline the dod using a stigma

1219

00:44:43,670 --> 00:44:42,319

campaign to borrow citizen awareness

1220

00:44:45,589 --> 00:44:43,680

hmm

1221

00:44:47,670 --> 00:44:45,599

yeah i'm not 100 percent clear on what

1222

00:44:50,150 --> 00:44:47,680

that's happening sorry eve did anyone

1223

00:44:51,430 --> 00:44:50,160

rephrase this i completely understand it

1224

00:44:54,390 --> 00:44:51,440

maybe you

1225

00:44:56,950 --> 00:44:54,400

repost it you know yeah i mean mirageman

1226
00:45:00,550 --> 00:44:56,960
was a film about the dod stigma campaign

1227
00:45:03,510 --> 00:45:00,560
about oh richard doty and the kind of

1228
00:45:05,829 --> 00:45:03,520
air force osi and you know

1229
00:45:08,309 --> 00:45:05,839
covering up basically or and things like

1230
00:45:09,990 --> 00:45:08,319
that but it still doesn't really make me

1231
00:45:12,550 --> 00:45:10,000
understand the question to be honest

1232
00:45:15,109 --> 00:45:12,560
yeah i can i can tell you that

1233
00:45:17,510 --> 00:45:15,119
stigma is a word i've heard a lot in

1234
00:45:19,030 --> 00:45:17,520
the year i've been working at the debris

1235
00:45:21,589 --> 00:45:19,040
and i tell people all the time you know

1236
00:45:22,630 --> 00:45:21,599
what's hilarious and ironic for me is

1237
00:45:24,870 --> 00:45:22,640
although i'm

1238
00:45:26,630 --> 00:45:24,880

extremely interested in ufos and ufps

1239

00:45:28,630 --> 00:45:26,640

i've been following it my whole life it

1240

00:45:30,710 --> 00:45:28,640

wasn't what i was brought to the debrief

1241

00:45:33,030 --> 00:45:30,720

to write about right they said we've got

1242

00:45:36,630 --> 00:45:33,040

tim mcmillan we have micah hanks we have

1243

00:45:40,390 --> 00:45:36,640

mj binay we have jazz shaw ryan sprague

1244

00:45:42,230 --> 00:45:40,400

grem randall we have a staff of informed

1245

00:45:44,790 --> 00:45:42,240

experienced writers that can write about

1246

00:45:46,550 --> 00:45:44,800

ufo and uab we want you to come in and

1247

00:45:49,109 --> 00:45:46,560

write about science because that's what

1248

00:45:51,829 --> 00:45:49,119

i enjoy writing about it's what i read

1249

00:45:53,750 --> 00:45:51,839

about on my own time and

1250

00:45:55,510 --> 00:45:53,760

i i wasn't averse to writing about you

1251
00:45:58,550 --> 00:45:55,520
if he just wasn't what i brought in and

1252
00:46:00,710 --> 00:45:58,560
in the 130 or so stories i've written

1253
00:46:03,109 --> 00:46:00,720
since i've joined the debrief less than

1254
00:46:05,030 --> 00:46:03,119
five have been related to uap but

1255
00:46:07,589 --> 00:46:05,040
they've all been relatively recent

1256
00:46:10,470 --> 00:46:07,599
because those two worlds are colliding

1257
00:46:12,950 --> 00:46:10,480
we are coming into a situation where

1258
00:46:15,030 --> 00:46:12,960
science is part of the discussion again

1259
00:46:17,589 --> 00:46:15,040
and for a longest time it wasn't we

1260
00:46:19,190 --> 00:46:17,599
wanted it to be we wanted the overloebbs

1261
00:46:22,230 --> 00:46:19,200
and the nasa's of the world to be

1262
00:46:24,870 --> 00:46:22,240
involved but they weren't so now i find

1263
00:46:27,589 --> 00:46:24,880

myself gleefully so

1264

00:46:30,870 --> 00:46:27,599

writing and talking about science and

1265

00:46:33,109 --> 00:46:30,880

ufos in the exact same article it's it's

1266

00:46:34,630 --> 00:46:33,119

it's been fantastic now that's great and

1267

00:46:36,710 --> 00:46:34,640

eve just followed up by saying chris

1268

00:46:40,069 --> 00:46:36,720

mellon is very concerned the the air

1269

00:46:42,309 --> 00:46:40,079

force is blocking disclosure yeah do you

1270

00:46:44,150 --> 00:46:42,319

i i can i can put some weight behind

1271

00:46:47,030 --> 00:46:44,160

that comment absolutely

1272

00:46:49,349 --> 00:46:47,040

so i i have two opposing thoughts in my

1273

00:46:51,829 --> 00:46:49,359

head that have been there

1274

00:46:54,470 --> 00:46:51,839

like i always say pretty much since 1977

1275

00:46:55,430 --> 00:46:54,480

when i first saw a tv show in the us

1276

00:46:57,910 --> 00:46:55,440

called

1277

00:47:00,230 --> 00:46:57,920

in search of about ufos the first my

1278

00:47:03,510 --> 00:47:00,240

first real exposure to it as a

1279

00:47:05,910 --> 00:47:03,520

phenomenon and um

1280

00:47:09,030 --> 00:47:05,920

my two opposing thoughts are this

1281

00:47:11,829 --> 00:47:09,040

first of all there are very real things

1282

00:47:13,750 --> 00:47:11,839

that people are seeing that are physical

1283

00:47:15,910 --> 00:47:13,760

mechanical things like i don't want to

1284

00:47:17,750 --> 00:47:15,920

you know there there may be supernatural

1285

00:47:19,670 --> 00:47:17,760

there may be other answers for some

1286

00:47:20,950 --> 00:47:19,680

aspects of the phenomena i do think

1287

00:47:23,109 --> 00:47:20,960

there's a good argument that there's

1288

00:47:25,589 --> 00:47:23,119

multiple things going on

1289

00:47:27,750 --> 00:47:25,599

but i do think that that

1290

00:47:29,270 --> 00:47:27,760

uh there's a physical

1291

00:47:30,790 --> 00:47:29,280

real thing

1292

00:47:31,589 --> 00:47:30,800

triangles

1293

00:47:34,549 --> 00:47:31,599

uh

1294

00:47:37,030 --> 00:47:34,559

tic tacs

1295

00:47:38,710 --> 00:47:37,040

possibly disc shape saucer shape type

1296

00:47:41,109 --> 00:47:38,720

craft i do think some of these things

1297

00:47:43,670 --> 00:47:41,119

are real and physical so i think the

1298

00:47:45,190 --> 00:47:43,680

question always comes down to at least

1299

00:47:47,349 --> 00:47:45,200

for the modern

1300

00:47:49,829 --> 00:47:47,359

what we call the modern ufo phenomenon

1301
00:47:51,910 --> 00:47:49,839
so world war ii to present whether you

1302
00:47:53,990 --> 00:47:51,920
you want to start in 1940 like graham

1303
00:47:55,829 --> 00:47:54,000
did when covering the foo fighters in

1304
00:47:58,549 --> 00:47:55,839
his awesome book which i recommend

1305
00:48:00,069 --> 00:47:58,559
everybody read oh it's fantastic

1306
00:48:02,549 --> 00:48:00,079
such a good book and he's such a good

1307
00:48:05,270 --> 00:48:02,559
writer and so smart and you know just a

1308
00:48:07,750 --> 00:48:05,280
gem of a guy but um not that great in

1309
00:48:08,790 --> 00:48:07,760
the sack but no i'm just

1310
00:48:11,829 --> 00:48:08,800
um

1311
00:48:15,750 --> 00:48:11,839
so uh you can edit that out all right

1312
00:48:17,829 --> 00:48:15,760
so you're like no chris we're live uh so

1313
00:48:20,150 --> 00:48:17,839

i i would say my two opposing thoughts

1314

00:48:23,270 --> 00:48:20,160

have always been this in the modern ufo

1315

00:48:24,870 --> 00:48:23,280

phenomenon we still can't completely

1316

00:48:29,510 --> 00:48:24,880

rule out

1317

00:48:31,990 --> 00:48:29,520

secret ufo crap secret man-made craft

1318

00:48:34,710 --> 00:48:32,000

that utilize some sort of anti-gravity

1319

00:48:37,109 --> 00:48:34,720

propulsion right it would definitely

1320

00:48:38,309 --> 00:48:37,119

address a lot of what people have seen

1321

00:48:41,589 --> 00:48:38,319

since then

1322

00:48:44,950 --> 00:48:41,599

so you have these two

1323

00:48:47,510 --> 00:48:44,960

if we're if we're covering up the ufo

1324

00:48:49,510 --> 00:48:47,520

story for real meaning we meaning u.s

1325

00:48:51,510 --> 00:48:49,520

military u.s government men in black

1326

00:48:53,109 --> 00:48:51,520

whatever you want to call it and the uk

1327

00:48:55,430 --> 00:48:53,119

kind of hand in hand because they've had

1328

00:48:58,790 --> 00:48:55,440

a hand in a lot of it so

1329

00:49:01,349 --> 00:48:58,800

either that has been a concerted effort

1330

00:49:03,589 --> 00:49:01,359

to keep the truth of non-human

1331

00:49:05,270 --> 00:49:03,599

technological intelligence from the

1332

00:49:07,349 --> 00:49:05,280

public or

1333

00:49:09,910 --> 00:49:07,359

it has been an effort to keep the truth

1334

00:49:12,950 --> 00:49:09,920

of our own secret anti-gravity craft

1335

00:49:14,710 --> 00:49:12,960

from the public and yeah both still

1336

00:49:17,990 --> 00:49:14,720

could be the answer

1337

00:49:20,150 --> 00:49:18,000

and if the answer is number two

1338

00:49:21,750 --> 00:49:20,160

or at least part of the phenomena part

1339

00:49:24,549 --> 00:49:21,760

of what we're seeing falls under the

1340

00:49:26,950 --> 00:49:24,559

umbrella if you were the air force and

1341

00:49:30,390 --> 00:49:26,960

you were the people in in

1342

00:49:32,390 --> 00:49:30,400

you know uh charge of that technology

1343

00:49:34,630 --> 00:49:32,400

wouldn't you keep your action you'd be

1344

00:49:36,710 --> 00:49:34,640

doing everything you could to not let

1345

00:49:38,870 --> 00:49:36,720

that out and i would see if we have that

1346

00:49:40,950 --> 00:49:38,880

technology whether it was the uk or the

1347

00:49:43,510 --> 00:49:40,960

us that had that technology within our

1348

00:49:46,069 --> 00:49:43,520

military arsenal there's no benefit to

1349

00:49:47,750 --> 00:49:46,079

making it public absolutely not we're

1350

00:49:49,750 --> 00:49:47,760

already the leading superpower in the

1351

00:49:51,430 --> 00:49:49,760

world the only time something like that

1352

00:49:53,829 --> 00:49:51,440

becomes public is when you find yourself

1353

00:49:56,309 --> 00:49:53,839

number two and they're not number two so

1354

00:49:59,030 --> 00:49:56,319

there's no benefit to being public so

1355

00:50:01,270 --> 00:49:59,040

that the air force silence

1356

00:50:03,510 --> 00:50:01,280

some people ascribe it to

1357

00:50:06,150 --> 00:50:03,520

they just got burned with blue book they

1358

00:50:07,750 --> 00:50:06,160

just don't want to be involved and it

1359

00:50:11,109 --> 00:50:07,760

you know we'll let the navy deal with

1360

00:50:13,510 --> 00:50:11,119

this and we we need to stay out of it um

1361

00:50:15,589 --> 00:50:13,520

but yeah them running interference if

1362

00:50:17,270 --> 00:50:15,599

chris mellon you know he was on the

1363

00:50:19,589 --> 00:50:17,280

inside he was trying to find the answers

1364

00:50:21,030 --> 00:50:19,599

if he thinks they're legitimately

1365

00:50:24,230 --> 00:50:21,040

running interference that they're

1366

00:50:25,910 --> 00:50:24,240

legitimately uh stopping things he may

1367

00:50:27,829 --> 00:50:25,920

very well be right the motivation for

1368

00:50:29,829 --> 00:50:27,839

that could be any one of those things

1369

00:50:30,710 --> 00:50:29,839

and something else i'm not thinking of

1370

00:50:31,589 --> 00:50:30,720

but

1371

00:50:33,510 --> 00:50:31,599

uh

1372

00:50:35,349 --> 00:50:33,520

it's a

1373

00:50:37,750 --> 00:50:35,359

i think that's why i'm excited about

1374

00:50:38,710 --> 00:50:37,760

that new office uh the the four-year

1375

00:50:40,870 --> 00:50:38,720

office

1376
00:50:42,390 --> 00:50:40,880
is what i mentioned the ability to maybe

1377
00:50:45,829 --> 00:50:42,400
pierce that

1378
00:50:49,270 --> 00:50:45,839
with uh fbi cia

1379
00:50:50,390 --> 00:50:49,280
uh nsa the various military intelligence

1380
00:50:53,190 --> 00:50:50,400
offices

1381
00:50:55,270 --> 00:50:53,200
pierce that to get to

1382
00:50:58,150 --> 00:50:55,280
at least internally

1383
00:51:01,270 --> 00:50:58,160
because when chris mellon says

1384
00:51:04,870 --> 00:51:01,280
it's not ours i've looked as deep as i

1385
00:51:07,510 --> 00:51:04,880
can look to all the corners i can look i

1386
00:51:09,270 --> 00:51:07,520
believe him that he believes that it

1387
00:51:11,670 --> 00:51:09,280
just doesn't mean that there isn't a

1388
00:51:13,750 --> 00:51:11,680

corner he can't look into yeah or

1389

00:51:14,870 --> 00:51:13,760

doesn't have access to yeah i was going

1390

00:51:16,790 --> 00:51:14,880

to ask you when you were talking about

1391

00:51:19,270 --> 00:51:16,800

man-made craft have you

1392

00:51:21,990 --> 00:51:19,280

ever looked into or heard rumors around

1393

00:51:23,030 --> 00:51:22,000

you know the 8 late 80s through the 90s

1394

00:51:26,790 --> 00:51:23,040

the kind of

1395

00:51:27,990 --> 00:51:26,800

sr-72 sr 90 whatever it was the aurora

1396

00:51:30,630 --> 00:51:28,000

these kind of

1397

00:51:32,630 --> 00:51:30,640

mythological black programs that we just

1398

00:51:33,990 --> 00:51:32,640

don't know if they ever existed or do

1399

00:51:36,950 --> 00:51:34,000

and you know

1400

00:51:39,349 --> 00:51:36,960

so i wrote about the sr-72 and actually

1401
00:51:41,910 --> 00:51:39,359
got somebody at lockheed martin to

1402
00:51:43,670 --> 00:51:41,920
answer me and their answer was

1403
00:51:45,349 --> 00:51:43,680
top-secret projects

1404
00:51:46,870 --> 00:51:45,359
of this nature are the things that

1405
00:51:50,390 --> 00:51:46,880
whether they exist or not we can't

1406
00:51:53,750 --> 00:51:50,400
discuss publicly and blah blah blah um

1407
00:51:56,390 --> 00:51:53,760
so uh i've hear a lot you know td barnes

1408
00:51:57,349 --> 00:51:56,400
who was a veteran of area 51 did an

1409
00:51:59,270 --> 00:51:57,359
interview

1410
00:52:00,870 --> 00:51:59,280
uh with the debrief a couple of months

1411
00:52:02,710 --> 00:52:00,880
back chrissy newton it's up on our

1412
00:52:04,950 --> 00:52:02,720
youtube channel awesome interview i

1413
00:52:06,630 --> 00:52:04,960

wrote an article he had a bunch of great

1414

00:52:09,030 --> 00:52:06,640

thoughts on whether or not we have crash

1415

00:52:11,030 --> 00:52:09,040

craft or all of those sorts of ideas he

1416

00:52:12,710 --> 00:52:11,040

talked about the tic tac and radar

1417

00:52:13,750 --> 00:52:12,720

spoofing and he talked about a lot of

1418

00:52:15,030 --> 00:52:13,760

that stuff

1419

00:52:16,390 --> 00:52:15,040

so um

1420

00:52:18,150 --> 00:52:16,400

what was your question again i'm sorry i

1421

00:52:20,069 --> 00:52:18,160

lost myself it was just do you put any

1422

00:52:21,109 --> 00:52:20,079

weight behind these rumors of you know

1423

00:52:23,750 --> 00:52:21,119

the the

1424

00:52:26,309 --> 00:52:23,760

these projects the aurora the sr oh yeah

1425

00:52:29,109 --> 00:52:26,319

yeah yeah so

1426

00:52:32,870 --> 00:52:29,119

he a point he often makes and a point we

1427

00:52:36,230 --> 00:52:32,880

heard often when the sr-71 was shut down

1428

00:52:38,230 --> 00:52:36,240

was well the u.s military doesn't end a

1429

00:52:40,069 --> 00:52:38,240

program unless they already have a

1430

00:52:42,150 --> 00:52:40,079

replacement in place that's something i

1431

00:52:44,950 --> 00:52:42,160

heard a lot something hurt a lot well

1432

00:52:48,230 --> 00:52:44,960

the truth of the matter is the main

1433

00:52:49,349 --> 00:52:48,240

tasking of the sr-71

1434

00:52:51,750 --> 00:52:49,359

or

1435

00:52:54,870 --> 00:52:51,760

has been accomplished by satellites so

1436

00:52:57,270 --> 00:52:54,880

it could very well just be the case that

1437

00:53:00,549 --> 00:52:57,280

military observation satellites were

1438

00:53:02,549 --> 00:53:00,559

good enough that we went ah fueling this

1439

00:53:04,470 --> 00:53:02,559

thing maintaining this thing shooting it

1440

00:53:06,309 --> 00:53:04,480

up in the sky and having it fly over to

1441

00:53:08,309 --> 00:53:06,319

more or less take pictures which is

1442

00:53:09,829 --> 00:53:08,319

which is what it does oh we have a

1443

00:53:11,990 --> 00:53:09,839

thousand satellites flying over that

1444

00:53:14,069 --> 00:53:12,000

same place every week that can take much

1445

00:53:17,670 --> 00:53:14,079

better pictures and much more reliable

1446

00:53:21,510 --> 00:53:17,680

so i've been wary of the aurora or those

1447

00:53:24,870 --> 00:53:21,520

sort of things with that being said

1448

00:53:27,589 --> 00:53:24,880

there's a lot now to indicate that there

1449

00:53:29,589 --> 00:53:27,599

is an sr-72 being developed that there

1450

00:53:32,309 --> 00:53:29,599

is a hypersonic

1451

00:53:34,309 --> 00:53:32,319

uh you know mach 5 or higher

1452

00:53:35,510 --> 00:53:34,319

traditionally fueled

1453

00:53:36,470 --> 00:53:35,520

uh

1454

00:53:40,309 --> 00:53:36,480

jet

1455

00:53:42,790 --> 00:53:40,319

aircraft being used i think in the

1456

00:53:44,630 --> 00:53:42,800

hypersonics has gotten to a weird place

1457

00:53:46,710 --> 00:53:44,640

right like it's something you hear in

1458

00:53:48,150 --> 00:53:46,720

the news all the time oh russia or china

1459

00:53:51,109 --> 00:53:48,160

is going to have a hypersonic missile

1460

00:53:53,990 --> 00:53:51,119

it'll go mach 6. guess what icbms will

1461

00:53:56,950 --> 00:53:54,000

go mach 20 okay they'll go into air

1462

00:53:59,910 --> 00:53:56,960

orbit you know you have to go 17 500

1463

00:54:01,349 --> 00:53:59,920

miles an hour to get into earth orbit

1464

00:54:03,990 --> 00:54:01,359

and we already have stuff that'll go

1465

00:54:05,829 --> 00:54:04,000

that bad so a hypersonic missile yeah

1466

00:54:07,430 --> 00:54:05,839

that's really exciting but you know we

1467

00:54:09,910 --> 00:54:07,440

can send a rocket that'll go five times

1468

00:54:13,190 --> 00:54:09,920

as fast as a hypersonic missile but

1469

00:54:15,270 --> 00:54:13,200

hypersonic aircraft the ability to put a

1470

00:54:17,030 --> 00:54:15,280

body inside of one of these things or a

1471

00:54:19,270 --> 00:54:17,040

critical person or critical people

1472

00:54:21,349 --> 00:54:19,280

inside one i do think that that's

1473

00:54:23,510 --> 00:54:21,359

something that's regularly being worked

1474

00:54:26,390 --> 00:54:23,520

on and i wouldn't be the least bit

1475

00:54:28,790 --> 00:54:26,400

surprised if it's being tested and uh if

1476
00:54:30,710 --> 00:54:28,800
it is being worked on it is being tested

1477
00:54:32,230 --> 00:54:30,720
then you bet your ass that debris is

1478
00:54:33,190 --> 00:54:32,240
going to report on it the minute we know

1479
00:54:34,870 --> 00:54:33,200
something

1480
00:54:37,190 --> 00:54:34,880
yeah now awesome thank you for touching

1481
00:54:38,630 --> 00:54:37,200
upon that um now recently i spoke with

1482
00:54:40,390 --> 00:54:38,640
luella zondo and he gave a little

1483
00:54:42,870 --> 00:54:40,400
demonstration of this new artificial

1484
00:54:45,349 --> 00:54:42,880
intelligence software that is going to

1485
00:54:48,630 --> 00:54:45,359
be released soon to the public um to

1486
00:54:50,470 --> 00:54:48,640
look at uap videos to assess whether

1487
00:54:52,230 --> 00:54:50,480
they show a genuine unknown and things

1488
00:54:53,910 --> 00:54:52,240

like that do you put much weight behind

1489

00:54:57,750 --> 00:54:53,920

these kind of projects

1490

00:55:00,390 --> 00:54:57,760

so uh this is really exciting so

1491

00:55:02,150 --> 00:55:00,400

i know it's still not completely public

1492

00:55:04,230 --> 00:55:02,160

i know there was a little teasing on

1493

00:55:06,549 --> 00:55:04,240

twitter a few months ago

1494

00:55:09,829 --> 00:55:06,559

but i'm connected and in touch with some

1495

00:55:13,030 --> 00:55:09,839

people at uap at home i don't know if

1496

00:55:16,069 --> 00:55:13,040

you've heard of uap at home no uh it's

1497

00:55:18,549 --> 00:55:16,079

what it sounds like it's using equipment

1498

00:55:21,109 --> 00:55:18,559

at home telescopes and other observation

1499

00:55:24,069 --> 00:55:21,119

equipment and letting that

1500

00:55:27,190 --> 00:55:24,079

information be analyzed at a central

1501

00:55:29,910 --> 00:55:27,200

server and what it really is attempting

1502

00:55:31,910 --> 00:55:29,920

to do is democratize the process i mean

1503

00:55:34,150 --> 00:55:31,920

imagine if just everyone who is

1504

00:55:35,670 --> 00:55:34,160

interested in this have a little camera

1505

00:55:37,910 --> 00:55:35,680

parked in their backyard or on top of

1506

00:55:39,750 --> 00:55:37,920

their apartment or wherever that was

1507

00:55:41,750 --> 00:55:39,760

pointed there was connected to their

1508

00:55:43,750 --> 00:55:41,760

computer and it was just gathering data

1509

00:55:45,030 --> 00:55:43,760

and that data could all be analyzed by

1510

00:55:45,990 --> 00:55:45,040

software

1511

00:55:48,069 --> 00:55:46,000

so

1512

00:55:50,870 --> 00:55:48,079

that's kind of what i believe uapx was

1513

00:55:53,030 --> 00:55:50,880

doing i know that's what uap at home is

1514

00:55:55,430 --> 00:55:53,040

doing i know that uh

1515

00:55:57,030 --> 00:55:55,440

they've been working diligently on that

1516

00:55:59,430 --> 00:55:57,040

there are people that we're connected

1517

00:56:01,109 --> 00:55:59,440

with over the debris so it's something

1518

00:56:04,069 --> 00:56:01,119

when there is a big announcement to come

1519

00:56:05,990 --> 00:56:04,079

out we'll be reporting on it but yeah

1520

00:56:07,750 --> 00:56:06,000

you know i hear regularly oh there's a

1521

00:56:09,589 --> 00:56:07,760

million there's a zillion cell phone

1522

00:56:11,510 --> 00:56:09,599

cameras on the planet if everybody's

1523

00:56:13,510 --> 00:56:11,520

walking around with the camera why don't

1524

00:56:15,349 --> 00:56:13,520

we have great ufo videos well i think

1525

00:56:17,829 --> 00:56:15,359

what we're about to find

1526

00:56:19,670 --> 00:56:17,839

is uh thousands if not hundreds of

1527

00:56:21,750 --> 00:56:19,680

thousands of people on the planet

1528

00:56:24,069 --> 00:56:21,760

pointing telescopes at the skies and

1529

00:56:25,349 --> 00:56:24,079

pointing much more sophisticated cameras

1530

00:56:27,270 --> 00:56:25,359

at this guys

1531

00:56:28,789 --> 00:56:27,280

gathering and sharing that data in a way

1532

00:56:30,950 --> 00:56:28,799

that it can be analyzed like never

1533

00:56:32,549 --> 00:56:30,960

before we're in the computer age we're

1534

00:56:33,910 --> 00:56:32,559

in the information this is just going to

1535

00:56:36,470 --> 00:56:33,920

happen

1536

00:56:37,990 --> 00:56:36,480

yeah absolutely and one final thing that

1537

00:56:39,510 --> 00:56:38,000

you wrote about that i really found

1538

00:56:40,789 --> 00:56:39,520

really interesting was this story which

1539

00:56:44,309 --> 00:56:40,799

i'd not heard a lot about was the

1540

00:56:46,390 --> 00:56:44,319

asteroid biologist abel mendes

1541

00:56:47,510 --> 00:56:46,400

who was calling for the dod to release

1542

00:56:49,589 --> 00:56:47,520

data in that can you give us a little

1543

00:56:52,549 --> 00:56:49,599

bit of a breakdown of that story sure

1544

00:56:56,549 --> 00:56:52,559

abel uh runs a facility uh down in

1545

00:56:58,789 --> 00:56:56,559

arecibo uh puerto rico it's a huge

1546

00:57:00,150 --> 00:56:58,799

telescope facility that recently has had

1547

00:57:01,750 --> 00:57:00,160

some damage

1548

00:57:05,030 --> 00:57:01,760

for people who ever saw the movie

1549

00:57:07,589 --> 00:57:05,040

contact with jody foster that's the the

1550

00:57:09,829 --> 00:57:07,599

big telescope takes a lot of it takes

1551

00:57:13,589 --> 00:57:09,839

place there and

1552

00:57:16,710 --> 00:57:13,599

i was reaching out to him when uh you

1553

00:57:18,710 --> 00:57:16,720

know the dod was talking about analyzing

1554

00:57:21,430 --> 00:57:18,720

this data and nasa and some of these

1555

00:57:23,190 --> 00:57:21,440

other ones and i asked him i said abel

1556

00:57:25,430 --> 00:57:23,200

you know would you

1557

00:57:27,349 --> 00:57:25,440

join in on this effort is this something

1558

00:57:30,230 --> 00:57:27,359

you would be interested in

1559

00:57:33,829 --> 00:57:30,240

and he said chris until we make all this

1560

00:57:35,510 --> 00:57:33,839

data public it's useless if we're gonna

1561

00:57:36,870 --> 00:57:35,520

if we're gonna look at

1562

00:57:39,750 --> 00:57:36,880

if you're asking me to look at the

1563

00:57:42,309 --> 00:57:39,760

gimbal the go fast and the flir video

1564

00:57:44,549 --> 00:57:42,319

and give you a scientist analysis i got

1565

00:57:46,710 --> 00:57:44,559

nothing to give you my analysis is the

1566

00:57:49,549 --> 00:57:46,720

same as everybody else but as a

1567

00:57:52,390 --> 00:57:49,559

scientist and particularly as an

1568

00:57:54,390 --> 00:57:52,400

astrobiologist which is a pretty new job

1569

00:57:57,430 --> 00:57:54,400

but it's the job of looking for and

1570

00:58:00,309 --> 00:57:57,440

analyzing signs of life or evaluating

1571

00:58:03,109 --> 00:58:00,319

potential uh concepts of how life might

1572

00:58:05,670 --> 00:58:03,119

exist on other planets so he's a very

1573

00:58:08,630 --> 00:58:05,680

prominent astrobiologist and somebody

1574

00:58:11,430 --> 00:58:08,640

who's very open to extraterrestrial life

1575

00:58:14,950 --> 00:58:11,440

whose job is designed around looking for

1576

00:58:17,030 --> 00:58:14,960

it and studying it ideally and uh yeah

1577

00:58:19,430 --> 00:58:17,040

he was in that article it's been a few

1578

00:58:22,630 --> 00:58:19,440

months back but yeah in that article

1579

00:58:25,270 --> 00:58:22,640

he was basically saying uh

1580

00:58:27,510 --> 00:58:25,280

give us the data or leave us out of it

1581

00:58:29,510 --> 00:58:27,520

if you want scientists to look at this

1582

00:58:31,589 --> 00:58:29,520

you have to give us the data to look at

1583

00:58:33,829 --> 00:58:31,599

it we can't we can't meet in some

1584

00:58:35,670 --> 00:58:33,839

private room watch some little video

1585

00:58:38,230 --> 00:58:35,680

secretly we can't tell anyone about to

1586

00:58:40,309 --> 00:58:38,240

give you an uh an opinion on it i need

1587

00:58:42,309 --> 00:58:40,319

the data i need the films i need the

1588

00:58:44,309 --> 00:58:42,319

data recordings and i need to be able to

1589

00:58:46,630 --> 00:58:44,319

sit down with my scientists that do this

1590

00:58:49,030 --> 00:58:46,640

for a living and the astronomers who do

1591

00:58:51,589 --> 00:58:49,040

this for a living and try and suss out

1592

00:58:54,950 --> 00:58:51,599

what it is and isn't we're looking at so

1593

00:58:58,270 --> 00:58:54,960

i think people like abel

1594

00:58:59,910 --> 00:58:58,280

again you have a mainstream

1595

00:59:02,549 --> 00:58:59,920

well-positioned

1596

00:59:05,430 --> 00:59:02,559

highly credible scientist at a

1597

00:59:07,510 --> 00:59:05,440

mainstream well-positioned facility that

1598

00:59:10,549 --> 00:59:07,520

he runs that whole facility not just

1599

00:59:13,270 --> 00:59:10,559

telescope that whole arecibo facility

1600

00:59:14,390 --> 00:59:13,280

and he's talking about life on other

1601
00:59:16,309 --> 00:59:14,400
planets

1602
00:59:19,270 --> 00:59:16,319
wanting to look at ufo videos and

1603
00:59:22,390 --> 00:59:19,280
determine what's real and what's not not

1604
00:59:24,069 --> 00:59:22,400
not giving a neil degrasse tyson smirk

1605
00:59:25,990 --> 00:59:24,079
and saying ah

1606
00:59:28,789 --> 00:59:26,000
yeah sure bring me back something from

1607
00:59:30,630 --> 00:59:28,799
the ship if you get abducted but saying

1608
00:59:32,390 --> 00:59:30,640
we need to look at this and this is a

1609
00:59:33,670 --> 00:59:32,400
real thing that scientists need to look

1610
00:59:36,470 --> 00:59:33,680
at that's

1611
00:59:38,390 --> 00:59:36,480
that's the overwhelming

1612
00:59:41,670 --> 00:59:38,400
opinion i get from scientists that i

1613
00:59:44,549 --> 00:59:41,680

1613
speak to at my job is they are curious

1614
00:59:46,230 --> 00:59:44,559
people who are open-minded they're not

1615
00:59:47,589 --> 00:59:46,240
making their minds up ahead of time the

1616
00:59:49,589 --> 00:59:47,599
people that have made their minds up

1617
00:59:51,910 --> 00:59:49,599
ahead of time i hate to say it are

1618
00:59:53,589 --> 00:59:51,920
usually a much older generation who grew

1619
00:59:55,990 --> 00:59:53,599
up in a world where man hadn't really

1620
00:59:58,630 --> 00:59:56,000
walked on the moon exoplanets didn't

1621
01:00:01,109 --> 00:59:58,640
exist and they just haven't rearranged

1622
01:00:04,150 --> 01:00:01,119
their mind to the new information that's

1623
01:00:06,230 --> 01:00:04,160
become available in this period of time

1624
01:00:08,150 --> 01:00:06,240
so yeah now that makes sense thank you

1625
01:00:10,390 --> 01:00:08,160
yeah that's really interesting it just

1626
01:00:12,069 --> 01:00:10,400
goes to show that i guess the stigma and

1627
01:00:13,270 --> 01:00:12,079
taboo has dropped if more scientists are

1628
01:00:15,990 --> 01:00:13,280
willing to talk about it and come

1629
01:00:17,430 --> 01:00:16,000
forward with you know it's going away

1630
01:00:20,549 --> 01:00:17,440
vinnie you know i think we're in the

1631
01:00:22,470 --> 01:00:20,559
world of ancient aliens an unidentified

1632
01:00:25,109 --> 01:00:22,480
discovery channel and history channel

1633
01:00:26,150 --> 01:00:25,119
and all these different things james fox

1634
01:00:28,309 --> 01:00:26,160
movies

1635
01:00:30,470 --> 01:00:28,319
i think we're in a whole new world of

1636
01:00:32,230 --> 01:00:30,480
open well i know we are i've lived

1637
01:00:34,309 --> 01:00:32,240
through it we're in a whole new world of

1638
01:00:36,710 --> 01:00:34,319

open discussion i used to sit around the

1639

01:00:38,309 --> 01:00:36,720

dinner table in the 80s and 90s having

1640

01:00:40,549 --> 01:00:38,319

these discussions with people and

1641

01:00:43,270 --> 01:00:40,559

everyone would roll their eyes on ufos

1642

01:00:45,589 --> 01:00:43,280

aliens whatever those discussions are

1643

01:00:47,430 --> 01:00:45,599

not only not eye rolls anymore those

1644

01:00:48,549 --> 01:00:47,440

people ask me now hey you work at the

1645

01:00:50,549 --> 01:00:48,559

debrief

1646

01:00:52,710 --> 01:00:50,559

what's really going on what do you guys

1647

01:00:54,950 --> 01:00:52,720

know over there and i get asked that

1648

01:00:56,870 --> 01:00:54,960

question by mainstream scientists with

1649

01:00:59,270 --> 01:00:56,880

with seven phds

1650

01:01:01,750 --> 01:00:59,280

attached to their name i mean this is a

1651
01:01:04,470 --> 01:01:01,760
real thing that's being really looked at

1652
01:01:08,230 --> 01:01:04,480
and scientists that have closed minds

1653
01:01:09,589 --> 01:01:08,240
about it are are in my experience uh the

1654
01:01:13,109 --> 01:01:09,599
type people that have their closed minds

1655
01:01:14,470 --> 01:01:13,119
regardless so the vast majority of

1656
01:01:15,990 --> 01:01:14,480
scientists

1657
01:01:17,910 --> 01:01:16,000
are telling me this is something they

1658
01:01:19,589 --> 01:01:17,920
want to understand and are open to

1659
01:01:21,910 --> 01:01:19,599
trying to understand it

1660
01:01:23,990 --> 01:01:21,920
awesome thank you so much well listen

1661
01:01:25,430 --> 01:01:24,000
chris we've hit the hour i i cannot

1662
01:01:27,829 --> 01:01:25,440
thank you enough that was a fascinating

1663
01:01:29,589 --> 01:01:27,839

conversation cool and i'd love to do it

1664

01:01:32,309 --> 01:01:29,599

again next year maybe we've got some

1665

01:01:34,390 --> 01:01:32,319

more more things to talk about um i will

1666

01:01:36,549 --> 01:01:34,400

be keeping my eye on on your work as i

1667

01:01:38,789 --> 01:01:36,559

do with everyone at the debrief and some

1668

01:01:40,549 --> 01:01:38,799

really good people if i can do a little

1669

01:01:43,430 --> 01:01:40,559

plug here vinny since we're live

1670

01:01:46,150 --> 01:01:43,440

tomorrow i have a huge story coming out

1671

01:01:48,710 --> 01:01:46,160

it's not uap related but i did have an

1672

01:01:50,870 --> 01:01:48,720

opportunity to speak to a scientist

1673

01:01:52,470 --> 01:01:50,880

who was a consultant on the tv show

1674

01:01:54,470 --> 01:01:52,480

battle battlestar galactica

1675

01:01:57,109 --> 01:01:54,480

he was a cult consultant on the movie

1676

01:01:59,430 --> 01:01:57,119

gravity and he's written he wrote a book

1677

01:02:01,750 --> 01:01:59,440

called the science of do

1678

01:02:04,309 --> 01:02:01,760

and basically what i did was as i went

1679

01:02:06,309 --> 01:02:04,319

through the movie dune because you know

1680

01:02:08,230 --> 01:02:06,319

what a great job where i have to go

1681

01:02:10,230 --> 01:02:08,240

watch the movie dune

1682

01:02:12,470 --> 01:02:10,240

and i tracked all the different

1683

01:02:14,549 --> 01:02:12,480

technologies used in the movie of course

1684

01:02:16,870 --> 01:02:14,559

i read the books years ago and seen the

1685

01:02:19,589 --> 01:02:16,880

movie in the 80s and the mini series

1686

01:02:21,910 --> 01:02:19,599

even in the 2000s and i went over these

1687

01:02:24,069 --> 01:02:21,920

in an interview with this guy and i took

1688

01:02:27,430 --> 01:02:24,079

five of the key technologies in that

1689

01:02:29,829 --> 01:02:27,440

movie uh from those books and broke down

1690

01:02:31,829 --> 01:02:29,839

how they work in the books and movie and

1691

01:02:33,910 --> 01:02:31,839

then how close we are to bringing those

1692

01:02:36,470 --> 01:02:33,920

technologies to reality i did this with

1693

01:02:38,870 --> 01:02:36,480

the star trek uh technologies a couple

1694

01:02:40,950 --> 01:02:38,880

of months ago that was really popular

1695

01:02:43,589 --> 01:02:40,960

breaking down transporters and warp

1696

01:02:46,870 --> 01:02:43,599

drives and phasers and photon torpedoes

1697

01:02:50,309 --> 01:02:46,880

in this one i break down uh ornithopters

1698

01:02:52,549 --> 01:02:50,319

personal shields the folding of space uh

1699

01:02:54,309 --> 01:02:52,559

drives that they use

1700

01:02:56,470 --> 01:02:54,319

a number of the technologies that are

1701

01:02:58,470 --> 01:02:56,480

covered in in the dunes so that's a big

1702

01:03:00,390 --> 01:02:58,480

story coming out tomorrow and uh until

1703

01:03:02,549 --> 01:03:00,400

everyone look for that yeah well i've

1704

01:03:04,630 --> 01:03:02,559

popped the debrief um

1705

01:03:07,190 --> 01:03:04,640

link in the description below as long as

1706

01:03:08,630 --> 01:03:07,200

as well as your twitter and your website

1707

01:03:11,270 --> 01:03:08,640

where people can go and check out your

1708

01:03:13,109 --> 01:03:11,280

books as well and your blog so yeah

1709

01:03:14,230 --> 01:03:13,119

everyone should go and do that

1710

01:03:15,589 --> 01:03:14,240

so yeah i think that's covered

1711

01:03:17,349 --> 01:03:15,599

everything thank you to everyone that's

1712

01:03:19,270 --> 01:03:17,359

been watching live asking the questions

1713

01:03:20,789 --> 01:03:19,280

the donations that's so kind i

1714

01:03:21,910 --> 01:03:20,799

appreciate every single one of you for

1715

01:03:24,069 --> 01:03:21,920

being here

1716

01:03:26,230 --> 01:03:24,079

yeah so thank you very much chris thank

1717

01:03:28,549 --> 01:03:26,240

you so much man

1718

01:03:30,789 --> 01:03:28,559

awesome yeah take care everyone and
