1
00:00:01,350 --> 00:00:31,669

[Music]

2
00:00:36,150 --> 00:00:35,270
hello hello hello uh welcome back

3
00:00:39,190 --> 00:00:36,160
to

4
00:00:41,750 --> 00:00:39,200
the disclosure team youtube page um

5
00:00:43,910 --> 00:00:41,760
we're five days into the new year uh

6
00:00:45,990 --> 00:00:43,920
happy new year i guess i can still say

7
00:00:47,670 --> 00:00:46,000
that to everybody thank you to everybody

8
00:00:48,630 --> 00:00:47,680
that's here right now it's good to see

9
00:00:50,470 --> 00:00:48,640
you all

10
00:00:51,830 --> 00:00:50,480
um yeah it's really good to be back it

11
00:00:53,270 --> 00:00:51,840
feels a little bit strange i feel like

12
00:00:54,790 --> 00:00:53,280
i've been away for a long time even

13
00:00:56,069 --> 00:00:54,800

though it's probably only been a couple

14

00:00:58,470 --> 00:00:56,079

of weeks

15

00:01:00,790 --> 00:00:58,480

but i'm really good um i had a great

16

00:01:01,830 --> 00:01:00,800

holiday excuse me i hope you guys did

17

00:01:03,349 --> 00:01:01,840

too

18

00:01:06,230 --> 00:01:03,359

um

19

00:01:09,350 --> 00:01:06,240

for anybody that wants to listen to this

20

00:01:11,670 --> 00:01:09,360

on podcast audio only i these will now

21

00:01:14,550 --> 00:01:11,680

be going out for the month of january

22

00:01:16,630 --> 00:01:14,560

through that ufo podcast so if you

23

00:01:19,429 --> 00:01:16,640

wherever you listen to your podcasts

24

00:01:21,109 --> 00:01:19,439

apple podcasts or spotify for the month

25

00:01:24,070 --> 00:01:21,119

of january these will be available a

26

00:01:26,230 --> 00:01:24,080

couple of days after the youtube live

27

00:01:28,310 --> 00:01:26,240

through that ufo podcast then in

28

00:01:29,670 --> 00:01:28,320

february we were going

29

00:01:32,789 --> 00:01:29,680

we're going to be put out on the

30

00:01:35,109 --> 00:01:32,799

anomalous podcast network which is a new

31

00:01:38,390 --> 00:01:35,119

network being started by andy at that

32

00:01:39,990 --> 00:01:38,400

ufo podcast so look out for that um so

33

00:01:42,069 --> 00:01:40,000

yeah

34

00:01:44,469 --> 00:01:42,079

let's not waste any more time guys let's

35

00:01:46,789 --> 00:01:44,479

introduce our guest for today

36

00:01:48,550 --> 00:01:46,799

um i think you all know who he is he's

37

00:01:50,149 --> 00:01:48,560

got a great youtube channel i've spoken

38

00:01:53,429 --> 00:01:50,159

to him before

39

00:01:55,590 --> 00:01:53,439

here he is none other than chris leto

40

00:01:56,870 --> 00:01:55,600

chris how are you man yeah great thanks

41

00:01:59,350 --> 00:01:56,880

for having me vinnie thanks for having

42

00:02:01,190 --> 00:01:59,360

me on pleasure man i i i wanted you back

43

00:02:03,030 --> 00:02:01,200

for some time and i thought

44

00:02:05,429 --> 00:02:03,040

i wanted a really good conversation to

45

00:02:06,789 --> 00:02:05,439

start the the new year off and so you're

46

00:02:08,790 --> 00:02:06,799

the perfect choice

47

00:02:10,389 --> 00:02:08,800

awesome we'll see how that goes yeah

48

00:02:11,910 --> 00:02:10,399

thanks

49

00:02:13,910 --> 00:02:11,920

just to let everybody as well know in

50

00:02:16,790 --> 00:02:13,920

the live chat i can now highlight your

51
00:02:17,750 --> 00:02:16,800
questions and store them so it may be

52
00:02:19,430 --> 00:02:17,760
just to help the flow of the

53
00:02:21,270 --> 00:02:19,440
conversation that we store a lot of your

54
00:02:23,670 --> 00:02:21,280
questions till the end

55
00:02:25,990 --> 00:02:23,680
and that way we don't just keep like

56
00:02:27,430 --> 00:02:26,000
interrupting this this conversation

57
00:02:29,350 --> 00:02:27,440
we'll see how it goes you know this is

58
00:02:31,589 --> 00:02:29,360
the first time that option's been

59
00:02:32,949 --> 00:02:31,599
available so we'll just freestyle it and

60
00:02:34,550 --> 00:02:32,959
have a good time

61
00:02:37,030 --> 00:02:34,560
so chris

62
00:02:39,190 --> 00:02:37,040
did you have a good holiday i did man

63
00:02:41,190 --> 00:02:39,200

it's been awesome uh like we were saying

64

00:02:42,070 --> 00:02:41,200

just before as i i had to take a break

65

00:02:44,550 --> 00:02:42,080

uh

66

00:02:47,270 --> 00:02:44,560

i i didn't think of really uap stuff for

67

00:02:48,869 --> 00:02:47,280

literally two weeks like i just had to

68

00:02:50,869 --> 00:02:48,879

just literally take a mental break you

69

00:02:52,949 --> 00:02:50,879

know i've been working working on other

70

00:02:55,350 --> 00:02:52,959

projects but yeah it was it was great we

71

00:02:57,430 --> 00:02:55,360

had fan we had family friends in town

72

00:02:58,869 --> 00:02:57,440

uh traveled all around and uh yeah it

73

00:02:59,990 --> 00:02:58,879

was it was awesome

74

00:03:01,030 --> 00:03:00,000

yeah because you're in public school

75

00:03:05,589 --> 00:03:01,040

right

76

00:03:06,390 --> 00:03:05,599

lagos just how they pronounce it

77

00:03:08,149 --> 00:03:06,400

uh

78

00:03:10,229 --> 00:03:08,159

yeah we never like

79

00:03:12,790 --> 00:03:10,239

it was it was rainy for a while you know

80

00:03:14,949 --> 00:03:12,800

you get a kind of this rainy about uh

81

00:03:17,589 --> 00:03:14,959

what would you call it 16 degrees

82

00:03:19,910 --> 00:03:17,599

celsius what is it that's good

83

00:03:20,710 --> 00:03:19,920

yeah for december is it yeah it's pretty

84

00:03:22,790 --> 00:03:20,720

good

85

00:03:24,309 --> 00:03:22,800

so yeah but then it's been nice this

86

00:03:26,309 --> 00:03:24,319

past week yeah i was at i was surfing

87

00:03:28,630 --> 00:03:26,319

the day at the beach beautiful beach day

88

00:03:30,149 --> 00:03:28,640

yeah i hate to say it you know no i love

89

00:03:32,070 --> 00:03:30,159

it i love it

90

00:03:34,470 --> 00:03:32,080

i love it that you surf as well i love

91

00:03:36,710 --> 00:03:34,480

that whole thing i mean my you know my

92

00:03:38,949 --> 00:03:36,720

background is board sports as well so oh

93

00:03:41,110 --> 00:03:38,959

awesome totally dig it so yeah i'm not

94

00:03:43,670 --> 00:03:41,120

very good but i'm learning you know like

95

00:03:45,670 --> 00:03:43,680

first i couldn't i had a long board uh

96

00:03:47,990 --> 00:03:45,680

and then i bought a short board this is

97

00:03:49,030 --> 00:03:48,000

like dec uh ten years ago in california

98

00:03:51,350 --> 00:03:49,040

i was learning when i was learning

99

00:03:53,670 --> 00:03:51,360

turkish i just surfed for one year

100

00:03:55,110 --> 00:03:53,680

uh and then i got a shorter board and i

101
00:03:57,750 --> 00:03:55,120
haven't been able to ride it you know

102
00:03:59,429 --> 00:03:57,760
because i just wasn't good enough uh 16.

103
00:04:01,030 --> 00:03:59,439
you know a 6 8 you know it's still six

104
00:04:02,869 --> 00:04:01,040
eight i'm not taught yeah i'm only five

105
00:04:04,630 --> 00:04:02,879
six actually i'm a short dude so six

106
00:04:06,390 --> 00:04:04,640
eight actually it's kind of it's a big

107
00:04:08,550 --> 00:04:06,400
board for me uh but i was able to ride

108
00:04:11,350 --> 00:04:08,560
it you know it's it's a short board but

109
00:04:12,309 --> 00:04:11,360
yeah shorter i'm with yeah

110
00:04:14,789 --> 00:04:12,319
i love it

111
00:04:16,949 --> 00:04:14,799
love it love it love it um well listen

112
00:04:18,310 --> 00:04:16,959
you know we've spoken before on your

113
00:04:19,990 --> 00:04:18,320

channel my channel and that but we've

114

00:04:21,749 --> 00:04:20,000

not had a one-on-one before so i thought

115

00:04:23,909 --> 00:04:21,759

if it's okay with you we could just jump

116

00:04:24,790 --> 00:04:23,919

back a little bit into your background

117

00:04:26,150 --> 00:04:24,800

um

118

00:04:28,070 --> 00:04:26,160

could you just talk us through your kind

119

00:04:29,510 --> 00:04:28,080

of military

120

00:04:31,670 --> 00:04:29,520

career a little bit

121

00:04:33,590 --> 00:04:31,680

and we can then jump on from there if

122

00:04:36,150 --> 00:04:33,600

that's okay excellent yeah i graduated

123

00:04:38,230 --> 00:04:36,160

air force academy in 2000

124

00:04:40,070 --> 00:04:38,240

i had a material science degree so it's

125

00:04:41,430 --> 00:04:40,080

a branch of chemistry there was only i

126

00:04:42,629 --> 00:04:41,440

think there was only six material

127

00:04:44,790 --> 00:04:42,639

scientists

128

00:04:45,749 --> 00:04:44,800

uh actually graduated that year in the

129

00:04:47,510 --> 00:04:45,759

u.s

130

00:04:49,110 --> 00:04:47,520

um so it was a new degree i think

131

00:04:50,629 --> 00:04:49,120

there's much more now

132

00:04:53,510 --> 00:04:50,639

um and then

133

00:04:55,749 --> 00:04:53,520

based on uh i had uh my physical was

134

00:04:57,430 --> 00:04:55,759

good enough so i went to pilot training

135

00:04:59,030 --> 00:04:57,440

that's probably the biggest benefit of

136

00:05:00,629 --> 00:04:59,040

going to air force academy at least you

137

00:05:02,870 --> 00:05:00,639

know once you graduate biggest benefit

138

00:05:04,710 --> 00:05:02,880

is uh you get first [h__h] uh first shot

139

00:05:06,550 --> 00:05:04,720

at the pilot slots

140

00:05:08,710 --> 00:05:06,560

so i i wanted to do something kind of

141

00:05:11,670 --> 00:05:08,720

different all the air force bases are in

142

00:05:13,590 --> 00:05:11,680

terrible locations uh and so i i went to

143

00:05:14,870 --> 00:05:13,600

the navy so i went navy training in

144

00:05:16,790 --> 00:05:14,880

pensacola

145

00:05:18,310 --> 00:05:16,800

uh did that um

146

00:05:19,909 --> 00:05:18,320

that took about a year and then you get

147

00:05:22,870 --> 00:05:19,919

selected in training you know depends

148

00:05:24,710 --> 00:05:22,880

how you do if they select uh the top

149

00:05:26,310 --> 00:05:24,720

whatever four or five how many slots

150

00:05:28,390 --> 00:05:26,320

they have for the fighters

151
00:05:30,310 --> 00:05:28,400
um fighter bomber track is what it is so

152
00:05:32,150 --> 00:05:30,320
then i went to uh

153
00:05:33,510 --> 00:05:32,160
vance that's in oklahoma

154
00:05:35,110 --> 00:05:33,520
back into the air force it was a

155
00:05:36,070 --> 00:05:35,120
different experience right it's much

156
00:05:40,950 --> 00:05:36,080
more

157
00:05:43,430 --> 00:05:40,960
cetera i graduated that and and then

158
00:05:45,110 --> 00:05:43,440
went to uh f-16s and phoenix did the

159
00:05:47,430 --> 00:05:45,120
training there i met my wife

160
00:05:49,270 --> 00:05:47,440
uh and then from there we picked out of

161
00:05:50,550 --> 00:05:49,280
a hat actually and i picked number one

162
00:05:52,469 --> 00:05:50,560
so i chose

163
00:05:53,909 --> 00:05:52,479

uh you could choose the assignments um

164

00:05:55,670 --> 00:05:53,919

well they give you a list and then we

165

00:05:57,670 --> 00:05:55,680

had to decide as a class whereas there

166

00:06:00,230 --> 00:05:57,680

was kind of some controversy

167

00:06:01,749 --> 00:06:00,240

but anyway i i got to select first and

168

00:06:04,870 --> 00:06:01,759

then i picked uh

169

00:06:06,950 --> 00:06:04,880

south korea with a follow-on to italy

170

00:06:08,950 --> 00:06:06,960

so i did a year actually in in south

171

00:06:11,350 --> 00:06:08,960

korea that was i cut my teeth is what

172

00:06:13,350 --> 00:06:11,360

they say in south korea so you show up

173

00:06:15,350 --> 00:06:13,360

um you're learning you have to learn how

174

00:06:17,590 --> 00:06:15,360

to be a wingman that's kind of the

175

00:06:20,390 --> 00:06:17,600

initial a combat ready wingman

176
00:06:22,469 --> 00:06:20,400
okay um and korea is just crazy place uh

177
00:06:24,150 --> 00:06:22,479
you know for f-16 guys everybody goes

178
00:06:27,350 --> 00:06:24,160
through pretty much everybody goes

179
00:06:29,430 --> 00:06:27,360
through korea at some point it's like um

180
00:06:30,309 --> 00:06:29,440
it's yeah it's the rite of passage uh if

181
00:06:32,309 --> 00:06:30,319
you will

182
00:06:34,950 --> 00:06:32,319
so crazy stories there man yeah i could

183
00:06:37,110 --> 00:06:34,960
definitely write a book about

184
00:06:39,670 --> 00:06:37,120
the stupid things we did there and yeah

185
00:06:41,350 --> 00:06:39,680
but also great flying and camaraderie

186
00:06:43,909 --> 00:06:41,360
and yeah just crazy place so from there

187
00:06:46,150 --> 00:06:43,919
went to italy uh went

188
00:06:48,870 --> 00:06:46,160

on my only combat deployment actually

189

00:06:50,629 --> 00:06:48,880

was from there to iraq

190

00:06:53,670 --> 00:06:50,639

uh i was with the triple nickel that's a

191

00:06:55,029 --> 00:06:53,680

famous fighter squadron 5 55th out of

192

00:06:57,670 --> 00:06:55,039

aviano

193

00:06:59,029 --> 00:06:57,680

uh and yeah love the triple nickel i

194

00:07:00,390 --> 00:06:59,039

ended up flying with them in my last

195

00:07:02,710 --> 00:07:00,400

assignment um

196

00:07:04,950 --> 00:07:02,720

off and on so after italy went to uh

197

00:07:06,790 --> 00:07:04,960

alaska and from there i primarily went

198

00:07:08,230 --> 00:07:06,800

training um

199

00:07:09,270 --> 00:07:08,240

you know i wasn't a huge proponent of

200

00:07:11,510 --> 00:07:09,280

all the war you know i went and fought

201
00:07:13,749 --> 00:07:11,520
in iraq was we were very motivated

202
00:07:15,430 --> 00:07:13,759
to succeed we did want to i remember

203
00:07:18,469 --> 00:07:15,440
just really wanting to help all those

204
00:07:20,629 --> 00:07:18,479
people there to win you know to to

205
00:07:21,909 --> 00:07:20,639
basically stop the violence but you know

206
00:07:23,110 --> 00:07:21,919
if you're using violence to stop

207
00:07:24,390 --> 00:07:23,120
violence

208
00:07:26,070 --> 00:07:24,400
i think we've shown it doesn't usually

209
00:07:28,230 --> 00:07:26,080
work right i mean

210
00:07:30,309 --> 00:07:28,240
um so for me after that i went mainly

211
00:07:32,230 --> 00:07:30,319
training so

212
00:07:34,230 --> 00:07:32,240
i went to red flag and stood up red flag

213
00:07:35,990 --> 00:07:34,240

up in alaska so red flag's a very large

214

00:07:37,430 --> 00:07:36,000

international exercise

215

00:07:40,309 --> 00:07:37,440

where nations come

216

00:07:42,469 --> 00:07:40,319

they do a very intensive everyone

217

00:07:44,629 --> 00:07:42,479

together two week

218

00:07:46,469 --> 00:07:44,639

exercise where you practice

219

00:07:47,670 --> 00:07:46,479

you know practice like you would fight

220

00:07:49,749 --> 00:07:47,680

um

221

00:07:51,110 --> 00:07:49,759

so i was the you basically have the

222

00:07:52,710 --> 00:07:51,120

professional

223

00:07:54,390 --> 00:07:52,720

uh bad guys so the guys that you fight

224

00:07:55,670 --> 00:07:54,400

against when you go there is are called

225

00:07:57,270 --> 00:07:55,680

aggressors

226

00:07:59,029 --> 00:07:57,280

and that's really kind of the role i

227

00:08:01,270 --> 00:07:59,039

really feel the most

228

00:08:03,670 --> 00:08:01,280

comfortable with in the in the air force

229

00:08:06,469 --> 00:08:03,680

was as an aggressor so i loved the role

230

00:08:08,070 --> 00:08:06,479

it was so it was so nerdy uh you go we

231

00:08:09,990 --> 00:08:08,080

you know we get access to all these

232

00:08:11,110 --> 00:08:10,000

intelligence materials and you can just

233

00:08:14,869 --> 00:08:11,120

go

234

00:08:15,749 --> 00:08:14,879

as deep as you as you as you want or can

235

00:08:17,990 --> 00:08:15,759

um

236

00:08:19,990 --> 00:08:18,000

into all that world essentially trying

237

00:08:21,510 --> 00:08:20,000

to find out what the bad guys do what

238

00:08:23,670 --> 00:08:21,520

our adversaries do

239

00:08:26,150 --> 00:08:23,680

and then to train our

240

00:08:27,510 --> 00:08:26,160

good or train our team against that

241

00:08:29,350 --> 00:08:27,520

right so we pretend you find out

242

00:08:30,950 --> 00:08:29,360

everything you can and then pretend to

243

00:08:32,630 --> 00:08:30,960

do that flying in alaska was just

244

00:08:34,310 --> 00:08:32,640

amazing flying it was it was so awesome

245

00:08:36,870 --> 00:08:34,320

we would fly clean jets you know with no

246

00:08:39,269 --> 00:08:36,880

tanks normally you have wing tanks that

247

00:08:40,709 --> 00:08:39,279

are under the jet so that um you can fly

248

00:08:41,909 --> 00:08:40,719

longer distances before you need to

249

00:08:43,670 --> 00:08:41,919

refuel

250

00:08:45,590 --> 00:08:43,680

well it impacts you right you can tell

251
00:08:47,269 --> 00:08:45,600
immediately if you're carrying wing

252
00:08:49,590 --> 00:08:47,279
tanks um

253
00:08:51,590 --> 00:08:49,600
it's much heavier jets super slow

254
00:08:53,670 --> 00:08:51,600
uh et cetera so we would we would be

255
00:08:54,790 --> 00:08:53,680
able to fly clean which nothing on the

256
00:08:56,470 --> 00:08:54,800
plane

257
00:08:59,269 --> 00:08:56,480
uh because we had an air we had a

258
00:09:01,269 --> 00:08:59,279
refilling tanker right so we're

259
00:09:03,110 --> 00:09:01,279
there's only 12 of us there's like

260
00:09:04,870 --> 00:09:03,120
40 good guys right there's only 12 bad

261
00:09:08,310 --> 00:09:04,880
guys because when we die we just go back

262
00:09:10,310 --> 00:09:08,320
and touch a base you know

263
00:09:11,990 --> 00:09:10,320

we fly down like you know and then be

264

00:09:12,710 --> 00:09:12,000

like okay you're alive and then fly back

265

00:09:13,829 --> 00:09:12,720

up

266

00:09:15,190 --> 00:09:13,839

um

267

00:09:16,470 --> 00:09:15,200

so there's only 12 of us so we could

268

00:09:18,470 --> 00:09:16,480

refuel

269

00:09:21,990 --> 00:09:18,480

and then i just had you know just had

270

00:09:23,829 --> 00:09:22,000

great um i just remember a great

271

00:09:25,910 --> 00:09:23,839

engagements off the tanker where i have

272

00:09:28,070 --> 00:09:25,920

a full tank of gas and a clean viper you

273

00:09:29,829 --> 00:09:28,080

know and i just go supersonic

274

00:09:31,350 --> 00:09:29,839

as fast as it can go

275

00:09:32,550 --> 00:09:31,360

and then just run these guys down you

276

00:09:34,790 --> 00:09:32,560

know because

277

00:09:36,310 --> 00:09:34,800

normally you're limited by a supersonic

278

00:09:38,310 --> 00:09:36,320

you know because the sonic booms are

279

00:09:39,110 --> 00:09:38,320

just so loud you know you can't we can't

280

00:09:40,870 --> 00:09:39,120

just

281

00:09:42,870 --> 00:09:40,880

if you sonic boom over a city it's a

282

00:09:44,070 --> 00:09:42,880

it's a report right you you get in

283

00:09:45,829 --> 00:09:44,080

trouble

284

00:09:48,470 --> 00:09:45,839

yeah so so a lot of these guys aren't

285

00:09:51,030 --> 00:09:48,480

used to going mach 2 or close to it you

286

00:09:52,550 --> 00:09:51,040

know so we would get up to mach one five

287

00:09:54,949 --> 00:09:52,560

you know one seven

288

00:09:57,269 --> 00:09:54,959

the festive one was 1.83 that was off

289

00:09:58,790 --> 00:09:57,279

one of those tanker runs you know and so

290

00:10:01,910 --> 00:09:58,800

they think they're safe you know they

291

00:10:03,829 --> 00:10:01,920

bomb target they're running away uh and

292

00:10:04,870 --> 00:10:03,839

then you're coming twice as fast as them

293

00:10:06,870 --> 00:10:04,880

you know

294

00:10:08,470 --> 00:10:06,880

because they're going almost supersonic

295

00:10:10,550 --> 00:10:08,480

so they think they're safe right and you

296

00:10:11,670 --> 00:10:10,560

can just catch up on them and yeah it

297

00:10:13,670 --> 00:10:11,680

was cool so

298

00:10:15,430 --> 00:10:13,680

really enjoyed that yeah so when when

299

00:10:17,350 --> 00:10:15,440

you're in combat are you do you have are

300

00:10:19,750 --> 00:10:17,360

you clean or do you have fuel tanks then

301
00:10:21,269 --> 00:10:19,760
or does the ordinance balance the weight

302
00:10:23,750 --> 00:10:21,279
distribution out like what's the

303
00:10:25,990 --> 00:10:23,760
difference that you would have in combat

304
00:10:27,750 --> 00:10:26,000
yeah it's all well combat is all you

305
00:10:31,030 --> 00:10:27,760
know weapons so be like what's your

306
00:10:33,190 --> 00:10:31,040
weapon loadout going to be and

307
00:10:35,190 --> 00:10:33,200
yeah there's only certain configurations

308
00:10:38,069 --> 00:10:35,200
that can fit on the airplanes

309
00:10:39,509 --> 00:10:38,079
um and then your fuel is

310
00:10:40,949 --> 00:10:39,519
we kind of have a standard configuration

311
00:10:43,910 --> 00:10:40,959
we have an air-to-air configuration and

312
00:10:45,430 --> 00:10:43,920
an air-to-ground configuration right um

313
00:10:47,670 --> 00:10:45,440

because if you actually merge with

314

00:10:49,750 --> 00:10:47,680

someone in combat there is a button it's

315

00:10:50,550 --> 00:10:49,760

a emergency stores button

316

00:10:52,470 --> 00:10:50,560

okay

317

00:10:54,310 --> 00:10:52,480

and if you get into a position where

318

00:10:55,829 --> 00:10:54,320

you're not easily going to win right or

319

00:10:56,710 --> 00:10:55,839

you think there's a chance you could get

320

00:10:58,310 --> 00:10:56,720

shot

321

00:11:01,190 --> 00:10:58,320

then you push this emergency stores

322

00:11:02,389 --> 00:11:01,200

button and it drops your bombs and your

323

00:11:04,470 --> 00:11:02,399

fuel tanks

324

00:11:06,790 --> 00:11:04,480

wow right just some more nimble

325

00:11:08,470 --> 00:11:06,800

maneuverability yeah so you go right to

326

00:11:09,829 --> 00:11:08,480

that clean jet i was talking about you

327

00:11:12,310 --> 00:11:09,839

know maybe you have the missiles on on

328

00:11:13,750 --> 00:11:12,320

the tips um the tips of the wings

329

00:11:15,350 --> 00:11:13,760

but you're very maneuverable but you

330

00:11:17,030 --> 00:11:15,360

lost all your payload right your your

331

00:11:19,110 --> 00:11:17,040

bombs and if you're a bomb dropper your

332

00:11:19,910 --> 00:11:19,120

goal is to deliver the bombs

333

00:11:22,310 --> 00:11:19,920

um

334

00:11:23,670 --> 00:11:22,320

you know on the target so

335

00:11:25,509 --> 00:11:23,680

you don't want to drop them so those

336

00:11:26,949 --> 00:11:25,519

guys you know in an exercise you would

337

00:11:28,630 --> 00:11:26,959

push those guys away from from the

338

00:11:29,829 --> 00:11:28,640

air-to-air fighters because they are

339

00:11:31,590 --> 00:11:29,839

aired air fighters they're not going to

340

00:11:33,110 --> 00:11:31,600

carry bombs they're going to prioritize

341

00:11:35,269 --> 00:11:33,120

just air-to-air weapons because they're

342

00:11:37,190 --> 00:11:35,279

much lighter faster um

343

00:11:39,430 --> 00:11:37,200

et cetera yeah so it's just without

344

00:11:40,949 --> 00:11:39,440

sounding too stupid is an f-16 a

345

00:11:44,069 --> 00:11:40,959

single-seater you don't have a wizard or

346

00:11:46,069 --> 00:11:44,079

anything do you yeah uh it's single seat

347

00:11:48,470 --> 00:11:46,079

primarily they i think the israelis they

348

00:11:50,790 --> 00:11:48,480

put in a back seat and put in a whizzo

349

00:11:52,629 --> 00:11:50,800

oh okay um so there's some

350

00:11:54,310 --> 00:11:52,639

they modified it

351

00:11:55,990 --> 00:11:54,320

cool the reason why i'm really

352

00:11:57,910 --> 00:11:56,000

interested in all of this kind of talk

353

00:12:01,110 --> 00:11:57,920

as well is because a lot of times we

354

00:12:02,710 --> 00:12:01,120

hear the phrase trained observer

355

00:12:04,629 --> 00:12:02,720

now

356

00:12:06,310 --> 00:12:04,639

i there's always that debate about

357

00:12:07,990 --> 00:12:06,320

commander fraver and alex dietrich with

358

00:12:10,230 --> 00:12:08,000

the nimitz case about

359

00:12:11,590 --> 00:12:10,240

you know even pilots can make mistakes

360

00:12:13,190 --> 00:12:11,600

when they're witnessing things can you

361

00:12:15,269 --> 00:12:13,200

talk to the

362

00:12:16,910 --> 00:12:15,279

or about the kind of

363

00:12:19,590 --> 00:12:16,920

you know what are the chances of

364

00:12:22,470 --> 00:12:19,600

misconceiving you know a strange object

365

00:12:25,269 --> 00:12:22,480

for another jet for example how much

366

00:12:27,430 --> 00:12:25,279

could you detect another f-16

367

00:12:29,030 --> 00:12:27,440

through flair or anything compared to an

368

00:12:30,230 --> 00:12:29,040

anomalous object

369

00:12:32,550 --> 00:12:30,240

do you know what you know you know where

370

00:12:34,389 --> 00:12:32,560

i'm coming from

371

00:12:35,750 --> 00:12:34,399

yeah i mean

372

00:12:37,829 --> 00:12:35,760

i would say for sure you know i've heard

373

00:12:40,470 --> 00:12:37,839

that a lot too about the professional

374

00:12:43,350 --> 00:12:40,480

observers um you heard that in defense

375

00:12:46,470 --> 00:12:43,360

of fravor and and those guys and

376

00:12:48,310 --> 00:12:46,480

actually i do i have to agree with it um

377

00:12:51,110 --> 00:12:48,320

you know most all the training that that

378

00:12:52,790 --> 00:12:51,120

we get is is sight picture based

379

00:12:53,829 --> 00:12:52,800

so it's basically what do you see and

380

00:12:56,150 --> 00:12:53,839

what do you do

381

00:12:57,990 --> 00:12:56,160

especially when you get into the um

382

00:12:59,430 --> 00:12:58,000

within visual range dog fighting when i

383

00:13:00,949 --> 00:12:59,440

talked about you know if you go to punch

384

00:13:03,829 --> 00:13:00,959

tanks

385

00:13:05,430 --> 00:13:03,839

then really that's what all of your

386

00:13:07,590 --> 00:13:05,440

systems are designed so that you can

387

00:13:08,629 --> 00:13:07,600

look outside you know the hotas

388

00:13:11,350 --> 00:13:08,639

the the

389

00:13:13,910 --> 00:13:11,360

on the helmet mounted site um you know

390

00:13:15,829 --> 00:13:13,920

it's all cued so you can look at the

391

00:13:19,190 --> 00:13:15,839

at the adversary right because it's a

392

00:13:21,829 --> 00:13:19,200

famous axiom lose sight lose the fight

393

00:13:23,590 --> 00:13:21,839

uh and i have yeah it's true like yeah

394

00:13:25,110 --> 00:13:23,600

if you lose sight of them yeah it's

395

00:13:26,710 --> 00:13:25,120

embarrassing it's very uncomfortable and

396

00:13:28,870 --> 00:13:26,720

you will lose you know in about 20

397

00:13:29,990 --> 00:13:28,880

seconds um

398

00:13:31,750 --> 00:13:30,000

and so

399

00:13:33,190 --> 00:13:31,760

just from that perspective we're very

400

00:13:35,509 --> 00:13:33,200

used to

401
00:13:38,069 --> 00:13:35,519
to seeing those

402
00:13:39,750 --> 00:13:38,079
objects at crazy distances right so you

403
00:13:41,750 --> 00:13:39,760
know at five nautical miles i know you

404
00:13:43,110 --> 00:13:41,760
can you can barely pick up but a plane

405
00:13:45,030 --> 00:13:43,120
looks like a dot

406
00:13:46,150 --> 00:13:45,040
um and that happened to my friend

407
00:13:47,509 --> 00:13:46,160
actually he was in one of those

408
00:13:49,750 --> 00:13:47,519
engagements i was talking about off the

409
00:13:51,829 --> 00:13:49,760
tanker he was going mach 1.8 or

410
00:13:53,189 --> 00:13:51,839
something ridic he was he's crazy he was

411
00:13:55,430 --> 00:13:53,199
going very fast

412
00:13:57,509 --> 00:13:55,440
and there was an f-22 he was getting

413
00:14:00,550 --> 00:13:57,519

vectored onto right and everybody wants

414

00:14:04,389 --> 00:14:00,560

to shoot the f-22s right

415

00:14:06,069 --> 00:14:04,399

what he said was he saw it as a dot um

416

00:14:07,590 --> 00:14:06,079

he saw a dot

417

00:14:09,590 --> 00:14:07,600

and then he

418

00:14:11,590 --> 00:14:09,600

went in to try and shoot it and and

419

00:14:14,069 --> 00:14:11,600

literally 10 seconds later i think they

420

00:14:16,949 --> 00:14:14,079

they they passed like very you know not

421

00:14:19,430 --> 00:14:16,959

close but close enough yeah um so you're

422

00:14:21,030 --> 00:14:19,440

just not used to that um you know people

423

00:14:22,470 --> 00:14:21,040

aren't used to you've never looked for

424

00:14:24,550 --> 00:14:22,480

something that's five miles away and

425

00:14:26,230 --> 00:14:24,560

then gate you know watched

426
00:14:27,430 --> 00:14:26,240
seen it come close to you in that amount

427
00:14:31,269 --> 00:14:27,440
of time

428
00:14:32,550 --> 00:14:31,279
sure um just in the air environment um

429
00:14:34,949 --> 00:14:32,560
and then especially i was thinking about

430
00:14:36,389 --> 00:14:34,959
fravor especially because um

431
00:14:38,230 --> 00:14:36,399
you know i've flown with those guys i

432
00:14:41,189 --> 00:14:38,240
mentioned flavor before you know i'm not

433
00:14:42,829 --> 00:14:41,199
like fravor's caliber i think of weapon

434
00:14:46,629 --> 00:14:42,839
school you know

435
00:14:47,670 --> 00:14:46,639
um in the books detail-oriented how to

436
00:14:51,269 --> 00:14:47,680
is

437
00:14:54,150 --> 00:14:51,279
single little

438
00:14:56,310 --> 00:14:54,160

uh key point in the book

439

00:14:58,710 --> 00:14:56,320

uh all the tactical manuals you know

440

00:15:00,629 --> 00:14:58,720

that level you know uh i think for me

441

00:15:02,710 --> 00:15:00,639

would be more like breaking in case of

442

00:15:05,430 --> 00:15:02,720

glass you know like we need we're losing

443

00:15:06,949 --> 00:15:05,440

the war you know like what do we need

444

00:15:08,629 --> 00:15:06,959

and then

445

00:15:10,629 --> 00:15:08,639

you know that or

446

00:15:13,269 --> 00:15:10,639

i don't know that would be my at least

447

00:15:15,269 --> 00:15:13,279

i hope anyway um but so for fraver i

448

00:15:17,590 --> 00:15:15,279

think they're especially him where he

449

00:15:19,750 --> 00:15:17,600

was at in his position in his career

450

00:15:20,550 --> 00:15:19,760

where he went to weapon school

451

00:15:22,550 --> 00:15:20,560

um

452

00:15:23,750 --> 00:15:22,560

they get so much training just on visual

453

00:15:25,430 --> 00:15:23,760

ids

454

00:15:26,949 --> 00:15:25,440

how to id different aircraft like every

455

00:15:28,710 --> 00:15:26,959

bathroom and every bathroom in a fighter

456

00:15:30,150 --> 00:15:28,720

squadron you know

457

00:15:33,670 --> 00:15:30,160

sit on the toilet and there's going to

458

00:15:36,389 --> 00:15:33,680

be a list you know little pixels or

459

00:15:37,829 --> 00:15:36,399

pictures sorry of different planes right

460

00:15:39,509 --> 00:15:37,839

different aspects

461

00:15:43,430 --> 00:15:39,519

ranges you know it'll be like a little

462

00:15:46,470 --> 00:15:43,440

dot like this you know or a few pixels

463

00:15:49,189 --> 00:15:46,480

um so it's just common to do that that

464

00:15:51,269 --> 00:15:49,199

that that is what we do um

465

00:15:54,069 --> 00:15:51,279

that being said yeah of course mistakes

466

00:15:56,870 --> 00:15:54,079

happen right you had the um

467

00:15:57,990 --> 00:15:56,880

uh the f-15 right shot down the uh

468

00:16:00,870 --> 00:15:58,000

blackhawk

469

00:16:03,189 --> 00:16:00,880

you know he id'd it uh he id'd it as

470

00:16:05,590 --> 00:16:03,199

hostile as a hind

471

00:16:06,470 --> 00:16:05,600

but it was obviously a blackhawk um

472

00:16:08,150 --> 00:16:06,480

so

473

00:16:09,030 --> 00:16:08,160

and they never let that down of course

474

00:16:10,389 --> 00:16:09,040

um

475

00:16:12,389 --> 00:16:10,399

yeah cause in the hind a lot bigger than

476

00:16:14,710 --> 00:16:12,399

a blackhawk

477

00:16:16,069 --> 00:16:14,720

uh it's i don't think it's much bigger

478

00:16:18,230 --> 00:16:16,079

um but it's definitely the shape is

479

00:16:20,389 --> 00:16:18,240

definitely different um yeah

480

00:16:25,670 --> 00:16:20,399

yeah so

481

00:16:28,069 --> 00:16:25,680

they are trained observers he's

482

00:16:29,990 --> 00:16:28,079

definitely especially in his career what

483

00:16:33,269 --> 00:16:30,000

he's seen and how much instruction he's

484

00:16:35,030 --> 00:16:33,279

given um basic instruction

485

00:16:36,790 --> 00:16:35,040

yeah i'd say i'd say

486

00:16:38,310 --> 00:16:36,800

that's that's in his interview is really

487

00:16:39,189 --> 00:16:38,320

the one that that changed me you know

488

00:16:40,710 --> 00:16:39,199

that

489

00:16:42,150 --> 00:16:40,720

changed my viewpoint on the whole thing

490

00:16:43,110 --> 00:16:42,160

you know when i heard that i was like

491

00:16:44,069 --> 00:16:43,120

okay

492

00:16:46,310 --> 00:16:44,079

yeah

493

00:16:48,069 --> 00:16:46,320

so what's your take on the the flare one

494

00:16:49,590 --> 00:16:48,079

the tic tac video out of the out of the

495

00:16:52,230 --> 00:16:49,600

three navy videos let's focus on that

496

00:16:53,829 --> 00:16:52,240

one you know do you

497

00:16:55,350 --> 00:16:53,839

do you think it's

498

00:16:58,710 --> 00:16:55,360

something anomalous could it be

499

00:17:03,110 --> 00:17:00,550

i mean yeah the biggest thing for me on

500

00:17:05,270 --> 00:17:03,120

that video right because

501
00:17:06,870 --> 00:17:05,280
the scu they they did a big

502
00:17:10,230 --> 00:17:06,880
investigation in it and i kind of

503
00:17:14,549 --> 00:17:13,029
uh because i think the video

504
00:17:16,230 --> 00:17:14,559
itself

505
00:17:17,909 --> 00:17:16,240
probably the actually looking back like

506
00:17:19,909 --> 00:17:17,919
the biggest anomalous part of it is kind

507
00:17:23,350 --> 00:17:19,919
of the first half of that video

508
00:17:24,470 --> 00:17:23,360
where you just see like this circle

509
00:17:25,750 --> 00:17:24,480
ball

510
00:17:27,990 --> 00:17:25,760
yeah um

511
00:17:30,950 --> 00:17:28,000
and and you know i've been in i've been

512
00:17:32,950 --> 00:17:30,960
investigating this week um about balls

513
00:17:34,230 --> 00:17:32,960

et cetera you know basically these orbs

514

00:17:35,270 --> 00:17:34,240

you know because we saw like the a-10

515

00:17:37,510 --> 00:17:35,280

video

516

00:17:40,230 --> 00:17:37,520

right i mean that thing clearly just an

517

00:17:43,270 --> 00:17:40,240

orb you had dave falch's video

518

00:17:45,750 --> 00:17:43,280

um he did say i could uh basically

519

00:17:47,590 --> 00:17:45,760

uh uh or re-list the video that we had

520

00:17:48,789 --> 00:17:47,600

before

521

00:17:51,029 --> 00:17:48,799

so um

522

00:17:52,789 --> 00:17:51,039

yes you have his orb right and then i've

523

00:17:54,390 --> 00:17:52,799

been you look at all these other kind of

524

00:17:56,230 --> 00:17:54,400

orb videos so

525

00:17:58,070 --> 00:17:56,240

looking at flear it does kind of look

526

00:17:58,870 --> 00:17:58,080

like that you know at the beginning

527

00:18:01,029 --> 00:17:58,880

sure

528

00:18:02,630 --> 00:18:01,039

yeah so that that's probably the best

529

00:18:04,230 --> 00:18:02,640

anomalous part of it and then the other

530

00:18:06,070 --> 00:18:04,240

part of it is

531

00:18:07,510 --> 00:18:06,080

when they don't find anything you know

532

00:18:09,830 --> 00:18:07,520

because you know like so many things are

533

00:18:11,110 --> 00:18:09,840

out there

534

00:18:12,070 --> 00:18:11,120

the fact that they couldn't find

535

00:18:13,750 --> 00:18:12,080

anything

536

00:18:15,669 --> 00:18:13,760

and he's flying with a fighter there and

537

00:18:17,430 --> 00:18:15,679

he had a vector um towards that

538

00:18:19,830 --> 00:18:17,440

direction

539

00:18:21,350 --> 00:18:19,840

it's very strange to me you know

540

00:18:23,990 --> 00:18:21,360

uh because that's what that's what you

541

00:18:25,669 --> 00:18:24,000

do as a as a fighter if you're doing

542

00:18:27,909 --> 00:18:25,679

air-to-air combat it's basically you

543

00:18:29,990 --> 00:18:27,919

know how can we fly in a formation not

544

00:18:32,070 --> 00:18:30,000

hit each other and then target and shoot

545

00:18:34,230 --> 00:18:32,080

another aircraft you know right yeah and

546

00:18:36,070 --> 00:18:34,240

that's all the practice is and

547

00:18:38,310 --> 00:18:36,080

especially if if all those assets were

548

00:18:39,110 --> 00:18:38,320

out there for this air defense exercise

549

00:18:40,390 --> 00:18:39,120

so

550

00:18:42,070 --> 00:18:40,400

what they're going to be practicing is

551
00:18:44,070 --> 00:18:42,080
just vectoring people onto each other

552
00:18:45,750 --> 00:18:44,080
you know yeah

553
00:18:47,830 --> 00:18:45,760
they're practicing as well so the the

554
00:18:49,350 --> 00:18:47,840
controllers on the princeton they're i'm

555
00:18:51,270 --> 00:18:49,360
sorry on well maybe the princeton as

556
00:18:53,110 --> 00:18:51,280
well is going to be vectoring them

557
00:18:54,950 --> 00:18:53,120
but the final controllers is probably

558
00:18:56,390 --> 00:18:54,960
the hawkeye you know they're up

559
00:18:58,310 --> 00:18:56,400
those are the controllers they have the

560
00:19:00,710 --> 00:18:58,320
look down

561
00:19:01,909 --> 00:19:00,720
they're closer yeah um

562
00:19:03,909 --> 00:19:01,919
i don't know you know i've only worked

563
00:19:06,150 --> 00:19:03,919

with the navy a few times um but i'm

564

00:19:07,669 --> 00:19:06,160

pretty sure the hawkeye was doing the

565

00:19:10,630 --> 00:19:07,679

vectoring and the control

566

00:19:12,390 --> 00:19:10,640

yeah i think they have very good radars

567

00:19:14,070 --> 00:19:12,400

interesting man so let's just stick with

568

00:19:16,950 --> 00:19:14,080

the navy videos and jump on just to get

569

00:19:18,950 --> 00:19:16,960

your views briefly on go fast and gimbal

570

00:19:21,110 --> 00:19:18,960

does anything stand out about them that

571

00:19:24,870 --> 00:19:21,120

tells you that it it's not interesting

572

00:19:26,870 --> 00:19:24,880

or that it is particularly interesting

573

00:19:29,750 --> 00:19:26,880

well yeah i was just looking at gimbal

574

00:19:31,909 --> 00:19:29,760

um again this week because

575

00:19:33,590 --> 00:19:31,919

so i basically you know one of the mick

576

00:19:35,909 --> 00:19:33,600

west supporters i'm assuming since i see

577

00:19:37,029 --> 00:19:35,919

him on a few of my through my videos he

578

00:19:38,950 --> 00:19:37,039

was saying yeah if you cover up the

579

00:19:40,789 --> 00:19:38,960

gimbal and then you mark down when when

580

00:19:42,950 --> 00:19:40,799

it when it feels to you like the camera

581

00:19:45,270 --> 00:19:42,960

is rotating then look underneath and

582

00:19:46,870 --> 00:19:45,280

you'll see the object rotating

583

00:19:49,110 --> 00:19:46,880

uh and that's been the first time i've

584

00:19:50,710 --> 00:19:49,120

actually understood even seen their

585

00:19:52,470 --> 00:19:50,720

argument that it that it's actually

586

00:19:53,909 --> 00:19:52,480

rotating have you have you seen that

587

00:19:55,669 --> 00:19:53,919

have you tried it or

588

00:19:56,630 --> 00:19:55,679

i don't know i've not tried it i do keep

589

00:19:58,870 --> 00:19:56,640

up with

590

00:20:00,630 --> 00:19:58,880

both sides of this back and forth

591

00:20:02,789 --> 00:20:00,640

absolutely

592

00:20:04,230 --> 00:20:02,799

yeah and you know it and i did it and i

593

00:20:06,470 --> 00:20:04,240

and i was like yeah actually it does

594

00:20:07,909 --> 00:20:06,480

seem like it kind of lines up you know

595

00:20:09,590 --> 00:20:07,919

like it actually is related to the

596

00:20:11,590 --> 00:20:09,600

rotational mechanism

597

00:20:13,270 --> 00:20:11,600

um but when we when we talked to the app

598

00:20:15,430 --> 00:20:13,280

flare experts

599

00:20:17,750 --> 00:20:15,440

and another mechanical engineer that did

600

00:20:19,590 --> 00:20:17,760

this investigation into it

601
00:20:20,310 --> 00:20:19,600
basically that's not possible right they

602
00:20:22,149 --> 00:20:20,320
didn't

603
00:20:24,710 --> 00:20:22,159
that it can't rotate

604
00:20:26,630 --> 00:20:24,720
um so i'm i'm almost leaning where it's

605
00:20:29,270 --> 00:20:26,640
somewhere in between

606
00:20:31,190 --> 00:20:29,280
where actually what we're seeing is

607
00:20:33,510 --> 00:20:31,200
you're seeing a glare that an app flare

608
00:20:34,630 --> 00:20:33,520
expert basically the guy who put these

609
00:20:37,029 --> 00:20:34,640
systems

610
00:20:39,350 --> 00:20:37,039
together doesn't think it's possible

611
00:20:41,750 --> 00:20:39,360
right um and i think maybe that is

612
00:20:43,669 --> 00:20:41,760
actually rotating um

613
00:20:45,909 --> 00:20:43,679

or could be

614

00:20:47,590 --> 00:20:45,919

still to be said though is that what i

615

00:20:50,470 --> 00:20:47,600

think is you're seeing this we're seeing

616

00:20:53,350 --> 00:20:50,480

an orb um if that's what it is one of

617

00:20:54,390 --> 00:20:53,360

these weird orbs is is what i'm thinking

618

00:20:55,510 --> 00:20:54,400

it is

619

00:20:58,230 --> 00:20:55,520

um

620

00:21:00,710 --> 00:20:58,240

instead of a full shaped you know saucer

621

00:21:03,270 --> 00:21:00,720

flying saucer yeah it could be again i

622

00:21:05,270 --> 00:21:03,280

just i did it just for a few minutes um

623

00:21:08,230 --> 00:21:05,280

uh yesterday so

624

00:21:10,390 --> 00:21:08,240

uh yeah but what i what i i think the

625

00:21:12,710 --> 00:21:10,400

gimbal for sure showed that it's it's

626

00:21:14,149 --> 00:21:12,720

inside of 10 nautical miles you know

627

00:21:16,390 --> 00:21:14,159

based on the geometry because they're

628

00:21:18,549 --> 00:21:16,400

turning i'm able to prove hey they're

629

00:21:21,430 --> 00:21:18,559

inside this thing's things inside of 10

630

00:21:23,669 --> 00:21:21,440

nautical miles or it's going like mach 2

631

00:21:24,950 --> 00:21:23,679

or mach 5 far away or something so yeah

632

00:21:26,230 --> 00:21:24,960

because they've talked about 20 miles

633

00:21:27,430 --> 00:21:26,240

and things like that as well haven't

634

00:21:29,830 --> 00:21:27,440

they um

635

00:21:31,990 --> 00:21:29,840

so it's good to know

636

00:21:33,909 --> 00:21:32,000

interesting yeah if it's outside of 10

637

00:21:35,830 --> 00:21:33,919

nautical miles you know it's same thing

638

00:21:36,950 --> 00:21:35,840

like if your track if you're

639

00:21:39,350 --> 00:21:36,960

you know

640

00:21:40,230 --> 00:21:39,360

shooting something with a shotgun or

641

00:21:41,590 --> 00:21:40,240

whatever

642

00:21:44,070 --> 00:21:41,600

um

643

00:21:45,830 --> 00:21:44,080

you know if it's if it's 100 feet away

644

00:21:47,110 --> 00:21:45,840

you got to move this fast but if it's

645

00:21:48,789 --> 00:21:47,120

you know a mile away you're not even

646

00:21:51,190 --> 00:21:48,799

going to move or if it's closer you're

647

00:21:53,270 --> 00:21:51,200

going to move faster right sure so same

648

00:21:55,430 --> 00:21:53,280

thing same thing with that so luckily

649

00:21:57,510 --> 00:21:55,440

that one was turning

650

00:21:59,590 --> 00:21:57,520

because if it wasn't turning

651
00:22:01,350 --> 00:21:59,600
then you know it'd be more difficult to

652
00:22:03,110 --> 00:22:01,360
prove that it's actually

653
00:22:04,310 --> 00:22:03,120
you know within that range because

654
00:22:05,909 --> 00:22:04,320
that's really what you're trying to

655
00:22:07,750 --> 00:22:05,919
that's the issue right and that's how

656
00:22:09,830 --> 00:22:07,760
you shoot stuff you need you need how

657
00:22:10,630 --> 00:22:09,840
far away it is and you need the angle to

658
00:22:11,830 --> 00:22:10,640
it

659
00:22:14,390 --> 00:22:11,840
right and

660
00:22:15,830 --> 00:22:14,400
yeah if it's if it's stationary yeah

661
00:22:18,710 --> 00:22:15,840
the christian race is a good point here

662
00:22:21,510 --> 00:22:18,720
saying the pilot's saying it's rotating

663
00:22:22,230 --> 00:22:21,520

now is he seeing just the outflav view

664

00:22:23,669 --> 00:22:22,240

or

665

00:22:25,270 --> 00:22:23,679

i mean that's what i've

666

00:22:26,549 --> 00:22:25,280

i still haven't been able to track that

667

00:22:28,390 --> 00:22:26,559

down

668

00:22:30,230 --> 00:22:28,400

because that's interesting isn't it

669

00:22:30,950 --> 00:22:30,240

i think he's looking at it when he said

670

00:22:32,310 --> 00:22:30,960

it

671

00:22:34,070 --> 00:22:32,320

i think he's looking at the i'm sorry

672

00:22:36,470 --> 00:22:34,080

the uh the video i think he's watching

673

00:22:37,510 --> 00:22:36,480

the video right saying it's rotating

674

00:22:40,350 --> 00:22:37,520

because

675

00:22:43,830 --> 00:22:40,360

so i did the math i did it went to

676

00:22:45,590 --> 00:22:43,840

6.7 6.8 nautical miles let's call it 6.9

677

00:22:48,310 --> 00:22:45,600

nautical miles right

678

00:22:50,070 --> 00:22:48,320

and so you're at that range

679

00:22:52,549 --> 00:22:50,080

like i mentioned before you know that

680

00:22:54,870 --> 00:22:52,559

fighter that my buddy merged with

681

00:22:55,830 --> 00:22:54,880

yeah it was just a dot at five nautical

682

00:22:57,750 --> 00:22:55,840

miles

683

00:22:59,430 --> 00:22:57,760

wow um so if this thing's at six point

684

00:23:01,350 --> 00:22:59,440

nine

685

00:23:02,870 --> 00:23:01,360

it depends if

686

00:23:04,149 --> 00:23:02,880

it's gonna be difficult to see right and

687

00:23:07,270 --> 00:23:04,159

i um he's probably not gonna be able to

688

00:23:09,190 --> 00:23:07,280

see rotation for sure it's my guess

689

00:23:11,190 --> 00:23:09,200

that's really interesting man yeah and

690

00:23:12,710 --> 00:23:11,200

it's those small fine points that really

691

00:23:14,549 --> 00:23:12,720

could sway this

692

00:23:17,029 --> 00:23:14,559

whole conversation this whole back and

693

00:23:18,870 --> 00:23:17,039

forth you know it's tough well more data

694

00:23:22,240 --> 00:23:18,880

would definitely help like that's what i

695

00:23:26,230 --> 00:23:24,710

[Music]

696

00:23:28,070 --> 00:23:26,240

when i start when i start the plane i

697

00:23:30,630 --> 00:23:28,080

turn the tapes on and then when i shut

698

00:23:32,549 --> 00:23:30,640

down i sometimes i forget or i turn them

699

00:23:34,070 --> 00:23:32,559

you know usually i turn them off but

700

00:23:35,510 --> 00:23:34,080

yeah we leave them running

701
00:23:38,310 --> 00:23:35,520
so you're more likely to get too much

702
00:23:39,110 --> 00:23:38,320
footage than not enough yes yeah yeah

703
00:23:40,870 --> 00:23:39,120
and

704
00:23:43,110 --> 00:23:40,880
i think they cut it

705
00:23:45,510 --> 00:23:43,120
to make it too short and then it got

706
00:23:47,990 --> 00:23:45,520
passed over so i don't know

707
00:23:50,630 --> 00:23:48,000
from 2004 i doubt there's more video you

708
00:23:53,350 --> 00:23:50,640
know back then they had real tapes um so

709
00:23:55,350 --> 00:23:53,360
it was harder but 2015 like gimbal go

710
00:23:57,830 --> 00:23:55,360
fast for sure they have

711
00:23:59,830 --> 00:23:57,840
somewhere is the full video

712
00:24:01,830 --> 00:23:59,840
um so there's some big digital files

713
00:24:03,190 --> 00:24:01,840

stored somewhere

714

00:24:04,549 --> 00:24:03,200

and which is curious too because what

715

00:24:06,870 --> 00:24:04,559

happened after that right because that

716

00:24:08,789 --> 00:24:06,880

thing was only going around 250 knots so

717

00:24:10,070 --> 00:24:08,799

from the math i did it was around

718

00:24:11,430 --> 00:24:10,080

seven miles away and it was going like

719

00:24:13,669 --> 00:24:11,440

250 knots

720

00:24:15,430 --> 00:24:13,679

the same speed as the fighters

721

00:24:17,110 --> 00:24:15,440

um and they're on an intercept they were

722

00:24:18,950 --> 00:24:17,120

intercepting it so

723

00:24:21,110 --> 00:24:18,960

i'm curious what happened right so did

724

00:24:23,590 --> 00:24:21,120

they intercept it or did it fly away

725

00:24:24,870 --> 00:24:23,600

faster than them or disappear you know

726

00:24:26,310 --> 00:24:24,880

that's where it's like the same with

727

00:24:27,990 --> 00:24:26,320

flear

728

00:24:29,190 --> 00:24:28,000

um you know

729

00:24:30,870 --> 00:24:29,200

where did it go

730

00:24:32,310 --> 00:24:30,880

that's that's the question

731

00:24:34,149 --> 00:24:32,320

where did it go i suppose the thing with

732

00:24:36,470 --> 00:24:34,159

gimbal as well is that there was a whole

733

00:24:37,830 --> 00:24:36,480

fleet of them on on

734

00:24:40,070 --> 00:24:37,840

on the sa

735

00:24:41,110 --> 00:24:40,080

that's right yes yeah

736

00:24:41,909 --> 00:24:41,120

yeah

737

00:24:44,710 --> 00:24:41,919

so

738

00:24:47,029 --> 00:24:44,720

in that case um

739

00:24:48,710 --> 00:24:47,039

you know and actually i

740

00:24:51,190 --> 00:24:48,720

at the beginning i

741

00:24:52,549 --> 00:24:51,200

i was mick west you know i i don't know

742

00:24:54,149 --> 00:24:52,559

if there's anger towards them or

743

00:24:55,750 --> 00:24:54,159

anything but um

744

00:24:56,789 --> 00:24:55,760

it's hard hearing all debunking stuff

745

00:24:58,870 --> 00:24:56,799

you know it changes your view you're

746

00:25:01,110 --> 00:24:58,880

like so sure about something

747

00:25:02,789 --> 00:25:01,120

and then you hear something and it it

748

00:25:05,269 --> 00:25:02,799

hurts you know you're like yeah that

749

00:25:06,710 --> 00:25:05,279

hurt you know i watched that

750

00:25:09,029 --> 00:25:06,720

you know i've made several videos saying

751

00:25:10,870 --> 00:25:09,039

hey it definitely rotates you know

752

00:25:13,190 --> 00:25:10,880

um but when you see something like that

753

00:25:14,710 --> 00:25:13,200

i'm like oh man dang that you know

754

00:25:16,230 --> 00:25:14,720

that's right that's finally right and he

755

00:25:17,430 --> 00:25:16,240

was

756

00:25:19,590 --> 00:25:17,440

no one else explained it like that

757

00:25:21,590 --> 00:25:19,600

before and i didn't just randomly try it

758

00:25:23,350 --> 00:25:21,600

uh but i will you know in the next one

759

00:25:24,950 --> 00:25:23,360

um of course man you've got to try every

760

00:25:27,909 --> 00:25:24,960

opportunity and every little

761

00:25:29,830 --> 00:25:27,919

change in hypotheses and i i guess you

762

00:25:31,590 --> 00:25:29,840

know i think that's why

763

00:25:33,830 --> 00:25:31,600

yeah well i think that's why we as the

764

00:25:36,070 --> 00:25:33,840

outsiders have seen this back and forth

765

00:25:37,750 --> 00:25:36,080

let's say for quite some time now

766

00:25:38,630 --> 00:25:37,760

but it's good it's a good thing and i

767

00:25:40,830 --> 00:25:38,640

like

768

00:25:42,630 --> 00:25:40,840

that i mean i've spoken to mick

769

00:25:44,230 --> 00:25:42,640

um

770

00:25:46,630 --> 00:25:44,240

yeah i mean i'm not mathematically

771

00:25:48,310 --> 00:25:46,640

inclined to be able to say yes or no i i

772

00:25:49,750 --> 00:25:48,320

don't agree with you but i think it

773

00:25:51,590 --> 00:25:49,760

sounds like he's

774

00:25:53,269 --> 00:25:51,600

clinging on to things with

775

00:25:55,029 --> 00:25:53,279

but ignoring other things that's the

776

00:25:57,430 --> 00:25:55,039

kind of impression that i've i've gotten

777

00:25:58,789 --> 00:25:57,440

i know a lot of other people have but

778

00:26:00,390 --> 00:25:58,799

yeah i don't know

779

00:26:02,789 --> 00:26:00,400

yeah but i think i think it comes down

780

00:26:04,789 --> 00:26:02,799

to the lack of data as well

781

00:26:06,390 --> 00:26:04,799

yeah i i mean i appreciate if they when

782

00:26:08,630 --> 00:26:06,400

they point things out that are correct

783

00:26:10,470 --> 00:26:08,640

i'm i'm grateful for them you know like

784

00:26:13,190 --> 00:26:10,480

it doesn't waste my time like the he

785

00:26:15,269 --> 00:26:13,200

made an excellent video about the um

786

00:26:17,190 --> 00:26:15,279

the the three row

787

00:26:19,590 --> 00:26:17,200

have you seen you know the three row uh

788

00:26:20,630 --> 00:26:19,600

those red orbs that are coming out in a

789

00:26:22,630 --> 00:26:20,640

in a row

790

00:26:25,029 --> 00:26:22,640

is that the south china sea one from

791

00:26:27,510 --> 00:26:25,039

recently yeah without trying to see one

792

00:26:28,549 --> 00:26:27,520

um he made a video

793

00:26:30,230 --> 00:26:28,559

uh

794

00:26:32,070 --> 00:26:30,240

like two days after the day after that

795

00:26:33,590 --> 00:26:32,080

came out and i thought it was spot on

796

00:26:36,390 --> 00:26:33,600

you know to me it looks just like flares

797

00:26:38,470 --> 00:26:36,400

like exactly like aircraft flares

798

00:26:39,669 --> 00:26:38,480

um so i i can't

799

00:26:41,269 --> 00:26:39,679

i don't i'm not going to spend a bunch

800

00:26:43,669 --> 00:26:41,279

of time i could be using for other

801
00:26:45,430 --> 00:26:43,679
projects or using further things yeah so

802
00:26:47,830 --> 00:26:45,440
i i appreciate that like i could just

803
00:26:49,669 --> 00:26:47,840
watch his video you know i liked it you

804
00:26:51,510 --> 00:26:49,679
know i wrote great content

805
00:26:53,350 --> 00:26:51,520
uh and it is you know that's good that i

806
00:26:55,350 --> 00:26:53,360
think that helps everybody right i mean

807
00:26:57,830 --> 00:26:55,360
absolutely yeah the debunkers make us

808
00:27:00,390 --> 00:26:57,840
work harder

809
00:27:01,990 --> 00:27:00,400
and it hurts when you get jab but

810
00:27:03,909 --> 00:27:02,000
whatever

811
00:27:05,350 --> 00:27:03,919
yeah and that's why and the fighter part

812
00:27:07,190 --> 00:27:05,360
you know that's what it feels like i'm

813
00:27:08,710 --> 00:27:07,200

sure you you would just fit in fine you

814

00:27:10,310 --> 00:27:08,720

know you're used to getting you're used

815

00:27:11,990 --> 00:27:10,320

to getting dad

816

00:27:13,750 --> 00:27:12,000

that's good yeah i'm used to the digs

817

00:27:15,269 --> 00:27:13,760

don't worry man um

818

00:27:16,950 --> 00:27:15,279

but listen thanks for all that but what

819

00:27:18,549 --> 00:27:16,960

i want to just bring it back to you in

820

00:27:20,389 --> 00:27:18,559

particular now and

821

00:27:21,350 --> 00:27:20,399

through those years of flying and

822

00:27:23,750 --> 00:27:21,360

everything

823

00:27:25,269 --> 00:27:23,760

what was the conversation like with with

824

00:27:27,830 --> 00:27:25,279

fellow pilots and that was there ever

825

00:27:29,990 --> 00:27:27,840

any talk of ufos in uap even

826

00:27:31,510 --> 00:27:30,000

not that you saw anything but just

827

00:27:33,590 --> 00:27:31,520

does it ever come up

828

00:27:37,029 --> 00:27:33,600

is it taboo was the stigma there that it

829

00:27:41,350 --> 00:27:39,029

i mean we literally never talked about

830

00:27:42,549 --> 00:27:41,360

it right i don't remember one single

831

00:27:44,389 --> 00:27:42,559

conversation

832

00:27:45,909 --> 00:27:44,399

yeah i'm not surprised i've heard that

833

00:27:47,029 --> 00:27:45,919

from a lot of military people i've spoke

834

00:27:49,269 --> 00:27:47,039

to

835

00:27:50,710 --> 00:27:49,279

i was surprised looking back how much

836

00:27:52,870 --> 00:27:50,720

the air force

837

00:27:55,430 --> 00:27:52,880

has investigated how much they were

838

00:27:56,470 --> 00:27:55,440

involved the u.s air force

839

00:27:58,310 --> 00:27:56,480

um

840

00:28:00,310 --> 00:27:58,320

yeah i mean just never looked at it you

841

00:28:01,830 --> 00:28:00,320

know if you just think it's crazy and

842

00:28:02,870 --> 00:28:01,840

couldn't possibly be true then you just

843

00:28:03,750 --> 00:28:02,880

avoid it

844

00:28:05,669 --> 00:28:03,760

yeah

845

00:28:07,269 --> 00:28:05,679

or i did anyway especially i mean

846

00:28:09,029 --> 00:28:07,279

especially when you're flying and if you

847

00:28:10,870 --> 00:28:09,039

know now i have more time

848

00:28:12,389 --> 00:28:10,880

that i'm using up quickly but

849

00:28:13,990 --> 00:28:12,399

uh in a fighter squadron you just don't

850

00:28:17,190 --> 00:28:14,000

have any time man there's i mean i guess

851

00:28:19,269 --> 00:28:17,200

you are bs in a lot

852

00:28:21,909 --> 00:28:19,279

it never came up man never came up

853

00:28:23,990 --> 00:28:21,919

that's cool man i can believe it totally

854

00:28:25,750 --> 00:28:24,000

um so where did your interest come from

855

00:28:27,430 --> 00:28:25,760

then you know

856

00:28:31,830 --> 00:28:27,440

in the in the whole ufo subject because

857

00:28:34,470 --> 00:28:31,840

you're deep in it now man um

858

00:28:36,630 --> 00:28:34,480

it came from luella uh louis lozando

859

00:28:38,389 --> 00:28:36,640

yeah i mean uh

860

00:28:40,389 --> 00:28:38,399

that video with

861

00:28:41,590 --> 00:28:40,399

fravor and lex friedman so that got me

862

00:28:42,789 --> 00:28:41,600

into it but why did i start making

863

00:28:45,990 --> 00:28:42,799

videos about it

864

00:28:49,669 --> 00:28:46,000

i mean mick west got me in there

865

00:28:53,029 --> 00:28:51,669

gotta i gotta get that into this

866

00:28:54,470 --> 00:28:53,039

uh somehow it's gotta be a joke

867

00:28:55,909 --> 00:28:54,480

somewhere um

868

00:28:58,870 --> 00:28:55,919

yeah so

869

00:29:02,070 --> 00:28:58,880

yeah mick was on tv saying this stuff is

870

00:29:04,470 --> 00:29:02,080

is not real it's obviously you know fake

871

00:29:06,070 --> 00:29:04,480

and that got that got me involved um but

872

00:29:08,630 --> 00:29:06,080

i have always

873

00:29:11,190 --> 00:29:08,640

no i i've never been religious um and

874

00:29:13,110 --> 00:29:11,200

i've always been interested in

875

00:29:14,950 --> 00:29:13,120

knowing you know what the hell is going

876

00:29:18,470 --> 00:29:14,960

on with life

877

00:29:19,990 --> 00:29:18,480

why we're here what is it like i still

878

00:29:22,389 --> 00:29:20,000

every day i'm just like man what am i

879

00:29:23,669 --> 00:29:22,399

looking at um

880

00:29:25,190 --> 00:29:23,679

and that's why i went into science

881

00:29:26,710 --> 00:29:25,200

that's why i got a chemistry degree i

882

00:29:28,789 --> 00:29:26,720

think i've just always been very

883

00:29:29,830 --> 00:29:28,799

interested in the nature of reality you

884

00:29:31,350 --> 00:29:29,840

know i've read

885

00:29:33,190 --> 00:29:31,360

i've tried to read all

886

00:29:35,430 --> 00:29:33,200

you know as many novels as i can by

887

00:29:37,510 --> 00:29:35,440

stephen hawking and

888

00:29:40,710 --> 00:29:37,520

i read the old school aristotle so i've

889

00:29:42,630 --> 00:29:40,720

always been very interested in um being

890

00:29:44,470 --> 00:29:42,640

human and what that means how it's

891

00:29:46,470 --> 00:29:44,480

defined

892

00:29:47,269 --> 00:29:46,480

and i also

893

00:29:50,310 --> 00:29:47,279

love

894

00:29:54,470 --> 00:29:52,549

that

895

00:29:56,310 --> 00:29:54,480

people are being surprised stereotypes

896

00:29:57,830 --> 00:29:56,320

are being broken basically i grew up and

897

00:29:59,669 --> 00:29:57,840

i look around i'm like man i feel like

898

00:30:01,110 --> 00:29:59,679

i'm i don't know kind of surrounded by

899

00:30:02,870 --> 00:30:01,120

idiots and

900

00:30:05,350 --> 00:30:02,880

that

901
00:30:07,590 --> 00:30:05,360
crazy stuff right

902
00:30:09,750 --> 00:30:07,600
and then this comes out the ufo comes

903
00:30:11,510 --> 00:30:09,760
out the ufo stuff and i was like this

904
00:30:12,950 --> 00:30:11,520
could actually be true i mean is that

905
00:30:14,870 --> 00:30:12,960
even a possibility because that that

906
00:30:17,430 --> 00:30:14,880
just changes the whole game

907
00:30:20,230 --> 00:30:17,440
um and we could possibly find out like

908
00:30:22,870 --> 00:30:20,240
we could possibly find out that just

909
00:30:25,510 --> 00:30:22,880
so mind-blowing to me um

910
00:30:27,669 --> 00:30:25,520
so from there it was like

911
00:30:29,430 --> 00:30:27,679
why would i spend you know my time on

912
00:30:30,710 --> 00:30:29,440
anything else what what else are you

913
00:30:32,149 --> 00:30:30,720

gonna

914

00:30:34,070 --> 00:30:32,159

try and find out about the world you

915

00:30:36,070 --> 00:30:34,080

know i've already done

916

00:30:38,070 --> 00:30:36,080

i'm very happy with how i ended you know

917

00:30:40,710 --> 00:30:38,080

i luckily survived through you know

918

00:30:41,669 --> 00:30:40,720

dangerous very dangerous career and

919

00:30:43,350 --> 00:30:41,679

um

920

00:30:44,630 --> 00:30:43,360

been in a position where i feel actually

921

00:30:46,470 --> 00:30:44,640

very

922

00:30:48,789 --> 00:30:46,480

i hate to say blessed right but in a

923

00:30:50,389 --> 00:30:48,799

sense i feel very appreciative of my

924

00:30:51,909 --> 00:30:50,399

position um

925

00:30:52,870 --> 00:30:51,919

yeah and i've had tons of you know i've

926
00:30:53,830 --> 00:30:52,880
traveled all the way around the world

927
00:30:57,590 --> 00:30:53,840
i've

928
00:30:59,590 --> 00:30:57,600
everything i wanted to do

929
00:31:01,029 --> 00:30:59,600
um so

930
00:31:02,549 --> 00:31:01,039
why would i do anything else you know

931
00:31:04,710 --> 00:31:02,559
what i don't know

932
00:31:06,230 --> 00:31:04,720
i like that attitude i really do i think

933
00:31:07,190 --> 00:31:06,240
a lot of people feel the same man i

934
00:31:09,190 --> 00:31:07,200
think you're

935
00:31:11,029 --> 00:31:09,200
a really important voice

936
00:31:12,789 --> 00:31:11,039
or how did you get in

937
00:31:14,950 --> 00:31:12,799
i guess my story is

938
00:31:18,470 --> 00:31:14,960

the same as a lot of people you know

939

00:31:20,470 --> 00:31:18,480

sci-fi i was a child of the 80s some of

940

00:31:23,430 --> 00:31:20,480

the best sci-fi movies ever came from

941

00:31:26,070 --> 00:31:23,440

that era yes and then i suppose i

942

00:31:27,830 --> 00:31:26,080

discovered ufo documentaries but

943

00:31:29,590 --> 00:31:27,840

you know you never get any answers from

944

00:31:32,070 --> 00:31:29,600

those so that kind of made me then want

945

00:31:33,110 --> 00:31:32,080

to go and dig into even more and realize

946

00:31:35,509 --> 00:31:33,120

there were

947

00:31:37,430 --> 00:31:35,519

declassified documents that i guess

948

00:31:39,110 --> 00:31:37,440

still didn't give us answers but it just

949

00:31:42,230 --> 00:31:39,120

kept me

950

00:31:44,070 --> 00:31:42,240

needing more always always needing more

951
00:31:46,710 --> 00:31:44,080
and yet here i am to this day just still

952
00:31:48,310 --> 00:31:46,720
looking for more answers

953
00:31:49,750 --> 00:31:48,320
i guess it's an obsession i guess it's

954
00:31:51,990 --> 00:31:49,760
i'm that i've got that kind of addictive

955
00:31:55,029 --> 00:31:52,000
personality where if i do something i'm

956
00:31:56,230 --> 00:31:55,039
going to go like full force 110

957
00:32:01,350 --> 00:31:56,240
until

958
00:32:02,789 --> 00:32:01,360
if you know what i mean

959
00:32:04,149 --> 00:32:02,799
so uh yeah

960
00:32:06,149 --> 00:32:04,159
it's just uh

961
00:32:08,470 --> 00:32:06,159
i ain't stopping

962
00:32:10,310 --> 00:32:08,480
uh but listen um

963
00:32:12,310 --> 00:32:10,320

let's talk about last year because i

964

00:32:14,230 --> 00:32:12,320

feel last year really i mean we could

965

00:32:16,870 --> 00:32:14,240

talk about 2017 and that kind of

966

00:32:19,430 --> 00:32:16,880

switched it up up a gear but last year

967

00:32:20,789 --> 00:32:19,440

2021 i felt like was the best year we've

968

00:32:22,310 --> 00:32:20,799

had in a while

969

00:32:27,350 --> 00:32:22,320

um

970

00:32:29,509 --> 00:32:27,360

signed in where we knew we were going to

971

00:32:31,430 --> 00:32:29,519

get 180 days for

972

00:32:33,190 --> 00:32:31,440

a report let's say

973

00:32:34,070 --> 00:32:33,200

what were your expectations leading up

974

00:32:35,190 --> 00:32:34,080

to that

975

00:32:37,029 --> 00:32:35,200

and then

976
00:32:39,029 --> 00:32:37,039
leading into what were your thoughts

977
00:32:41,750 --> 00:32:39,039
when we got the preliminary

978
00:32:45,830 --> 00:32:44,230
yeah i mean i i guess i'm very happy

979
00:32:48,470 --> 00:32:45,840
with what came out

980
00:32:50,470 --> 00:32:48,480
good you know yeah i'm very happy i was

981
00:32:52,549 --> 00:32:50,480
just reviewing again

982
00:32:54,549 --> 00:32:52,559
yeah i mean it's excellent what they

983
00:32:58,950 --> 00:32:54,559
at least uh i still need to track down

984
00:33:01,110 --> 00:32:58,960
the final final ndaa that was signed um

985
00:33:03,110 --> 00:33:01,120
but the most recent copy i saw was was

986
00:33:05,269 --> 00:33:03,120
very good uh it had everything we asked

987
00:33:07,750 --> 00:33:05,279
for you know there's unclassified

988
00:33:10,149 --> 00:33:07,760

i'm talking about ndaa for 2021 not

989

00:33:11,590 --> 00:33:10,159

talking 2021. i wasn't even on i didn't

990

00:33:12,789 --> 00:33:11,600

even know what that was you know i knew

991

00:33:13,990 --> 00:33:12,799

what it was

992

00:33:15,350 --> 00:33:14,000

um

993

00:33:17,430 --> 00:33:15,360

but you were here when we got the june

994

00:33:19,269 --> 00:33:17,440

25th preliminary assessment okay sorry

995

00:33:21,110 --> 00:33:19,279

about it yeah no that's all good i'm in

996

00:33:22,950 --> 00:33:21,120

the build up to that and then where we

997

00:33:25,269 --> 00:33:22,960

got that nine page

998

00:33:27,190 --> 00:33:25,279

premier league preliminary assessment

999

00:33:28,710 --> 00:33:27,200

yeah i didn't have any big expectations

1000

00:33:30,630 --> 00:33:28,720

for that report so i guess that's why i

1001
00:33:32,470 --> 00:33:30,640
wasn't let down as much it seemed like

1002
00:33:33,830 --> 00:33:32,480
the community kind of overall was let

1003
00:33:35,669 --> 00:33:33,840
down

1004
00:33:36,830 --> 00:33:35,679
um you know they were expecting me more

1005
00:33:39,350 --> 00:33:36,840
more evidence

1006
00:33:40,950 --> 00:33:39,360
or but i was happy to just see those

1007
00:33:41,990 --> 00:33:40,960
numbers i was happy to see the numbers

1008
00:33:43,509 --> 00:33:42,000
they put in

1009
00:33:46,549 --> 00:33:43,519
yeah

1010
00:33:47,750 --> 00:33:46,559
it said some many

1011
00:33:49,110 --> 00:33:47,760
it could have been

1012
00:33:50,630 --> 00:33:49,120
could have been a whole load or nothing

1013
00:33:51,509 --> 00:33:50,640

you know i think even leading up to that

1014

00:33:53,990 --> 00:33:51,519

day

1015

00:33:54,789 --> 00:33:54,000

you know i was sat with all the websites

1016

00:33:56,710 --> 00:33:54,799

for

1017

00:33:57,990 --> 00:33:56,720

where it came out waiting and i was like

1018

00:33:59,350 --> 00:33:58,000

we still don't even know if it's going

1019

00:34:00,230 --> 00:33:59,360

to drop

1020

00:34:01,909 --> 00:34:00,240

so

1021

00:34:03,430 --> 00:34:01,919

yeah i think

1022

00:34:05,509 --> 00:34:03,440

a lot of people got the hopes up for

1023

00:34:07,110 --> 00:34:05,519

some sort of disclosure of some big

1024

00:34:08,950 --> 00:34:07,120

information but

1025

00:34:10,710 --> 00:34:08,960

you know i think the acknowledgement of

1026
00:34:13,109 --> 00:34:10,720
the subject being taken seriously within

1027
00:34:16,069 --> 00:34:13,119
dod and the pentagon is just as

1028
00:34:19,829 --> 00:34:16,079
important as as anything else so

1029
00:34:21,349 --> 00:34:19,839
but i mean i think it'll take a

1030
00:34:22,790 --> 00:34:21,359
i mean it's going to take everyone to

1031
00:34:25,510 --> 00:34:22,800
kind of bust through obviously it hasn't

1032
00:34:26,629 --> 00:34:25,520
happened in the past 70 years

1033
00:34:28,550 --> 00:34:26,639
of course

1034
00:34:30,069 --> 00:34:28,560
but i think

1035
00:34:32,629 --> 00:34:30,079
that was a

1036
00:34:34,710 --> 00:34:32,639
it at least validated it

1037
00:34:36,230 --> 00:34:34,720
so now scientists or at least people in

1038
00:34:38,230 --> 00:34:36,240

the military you know at least pilots

1039

00:34:40,389 --> 00:34:38,240

now or whoever's in the government

1040

00:34:41,990 --> 00:34:40,399

they can have those conversations

1041

00:34:43,190 --> 00:34:42,000

you know absolutely it's never had i

1042

00:34:45,030 --> 00:34:43,200

mean it's kind of

1043

00:34:47,669 --> 00:34:45,040

i don't remember a single conversation

1044

00:34:50,310 --> 00:34:47,679

about uh you know ufos or seeing any

1045

00:34:52,149 --> 00:34:50,320

anomalous objects or anything like

1046

00:34:53,589 --> 00:34:52,159

that's kind of weird right especially

1047

00:34:55,349 --> 00:34:53,599

and it was only

1048

00:34:58,069 --> 00:34:55,359

it was only made weirder when i went

1049

00:34:59,829 --> 00:34:58,079

back and saw that the air force had like

1050

00:35:01,750 --> 00:34:59,839

you know decades of

1051
00:35:02,710 --> 00:35:01,760
of experience with these things and you

1052
00:35:04,069 --> 00:35:02,720
know

1053
00:35:06,150 --> 00:35:04,079
so they were the worst they were the

1054
00:35:08,230 --> 00:35:06,160
worst at keeping the secrets man yeah

1055
00:35:09,910 --> 00:35:08,240
that's almost weird yeah it almost just

1056
00:35:10,950 --> 00:35:09,920
makes them look guiltier you know that

1057
00:35:13,030 --> 00:35:10,960
now

1058
00:35:16,230 --> 00:35:13,040
yeah so i was i was very happy to see

1059
00:35:18,550 --> 00:35:16,240
that so yeah you put it in writing uh

1060
00:35:20,950 --> 00:35:18,560
they put numbers in and so they they

1061
00:35:23,670 --> 00:35:20,960
validated it and they have delivered on

1062
00:35:26,550 --> 00:35:23,680
on pretty much everything i can see

1063
00:35:27,910 --> 00:35:26,560

um it's just taking a while but

1064

00:35:30,390 --> 00:35:27,920

like little i was gonna say right it

1065

00:35:33,030 --> 00:35:30,400

takes a while yeah exactly so let's jump

1066

00:35:36,230 --> 00:35:33,040

forward now to the same thing ndaa but

1067

00:35:39,349 --> 00:35:36,240

this for the 2022. so like we were just

1068

00:35:40,470 --> 00:35:39,359

saying and even before we jumped on that

1069

00:35:42,550 --> 00:35:40,480

yeah

1070

00:35:44,390 --> 00:35:42,560

it's different it's only one year on but

1071

00:35:46,470 --> 00:35:44,400

it seems like we've made some pretty big

1072

00:35:48,550 --> 00:35:46,480

steps so what are your thoughts on like

1073

00:35:49,670 --> 00:35:48,560

the the first announcement of of the

1074

00:35:52,150 --> 00:35:49,680

amendments

1075

00:35:54,950 --> 00:35:52,160

um the ndaa i think it was

1076

00:35:56,390 --> 00:35:54,960

september october october

1077

00:35:57,670 --> 00:35:56,400

and then leading up to now with the

1078

00:35:58,710 --> 00:35:57,680

amount of changes

1079

00:36:02,150 --> 00:35:58,720

does that

1080

00:36:03,910 --> 00:36:02,160

feel different to last year for you

1081

00:36:06,710 --> 00:36:03,920

i mean for me it's like a dif i live in

1082

00:36:08,310 --> 00:36:06,720

a different world to be honest um

1083

00:36:10,310 --> 00:36:08,320

yeah completely

1084

00:36:12,870 --> 00:36:10,320

good you know i mean different universe

1085

00:36:15,109 --> 00:36:12,880

i guess i mean it really changed my

1086

00:36:18,310 --> 00:36:15,119

it changed my paradigm

1087

00:36:20,390 --> 00:36:18,320

because before that i kind of thought um

1088

00:36:22,550 --> 00:36:20,400

you know standard you kind of think you

1089

00:36:23,750 --> 00:36:22,560

know what's going on you know

1090

00:36:25,589 --> 00:36:23,760

like

1091

00:36:28,470 --> 00:36:25,599

same thing i thought science was correct

1092

00:36:30,950 --> 00:36:28,480

like but it it just cannot possibly be

1093

00:36:32,390 --> 00:36:30,960

true that science knows knows everything

1094

00:36:35,910 --> 00:36:32,400

right they we that's the point of

1095

00:36:38,150 --> 00:36:35,920

science is we're always progressing

1096

00:36:39,589 --> 00:36:38,160

so to think that i you know i was

1097

00:36:41,349 --> 00:36:39,599

certain that nothing would go faster

1098

00:36:42,790 --> 00:36:41,359

than the speed of light you know as of

1099

00:36:44,710 --> 00:36:42,800

last year i was like well you know or

1100

00:36:47,270 --> 00:36:44,720

it'll be a long time uh there's no

1101

00:36:49,990 --> 00:36:47,280

possibility that alien life could be

1102

00:36:51,190 --> 00:36:50,000

here on earth you know i thought i was

1103

00:36:52,390 --> 00:36:51,200

pretty certain of that you know i would

1104

00:36:54,390 --> 00:36:52,400

have bet

1105

00:36:57,349 --> 00:36:54,400

you know i'm not probably not my life

1106

00:36:58,550 --> 00:36:57,359

but maybe i mean i was pretty certain

1107

00:37:00,950 --> 00:36:58,560

now i'm like

1108

00:37:02,790 --> 00:37:00,960

i don't know i mean it's definitely not

1109

00:37:04,950 --> 00:37:02,800

it is definitely possible in my brain

1110

00:37:06,790 --> 00:37:04,960

now that it that that it's

1111

00:37:09,270 --> 00:37:06,800

you know it could be there could be

1112

00:37:10,790 --> 00:37:09,280

aliens here which makes sense right i

1113

00:37:11,670 --> 00:37:10,800

mean if you think about it

1114

00:37:14,150 --> 00:37:11,680

because

1115

00:37:15,990 --> 00:37:14,160

we can say we don't even know how many

1116

00:37:18,550 --> 00:37:16,000

you know galaxies are in the universe

1117

00:37:20,230 --> 00:37:18,560

like we literally can't we don't know

1118

00:37:22,550 --> 00:37:20,240

you know our numbers go from like

1119

00:37:24,150 --> 00:37:22,560

hundreds of billions into the trillions

1120

00:37:25,930 --> 00:37:24,160

dude there's more grains of sand than on

1121

00:37:29,190 --> 00:37:25,940

them beautiful beaches in portugal

1122

00:37:31,990 --> 00:37:29,200

[Laughter]

1123

00:37:35,990 --> 00:37:32,000

and everywhere else and everywhere else

1124

00:37:38,390 --> 00:37:36,000

yeah that's the crazy thing the numbers

1125

00:37:40,150 --> 00:37:38,400

and yet none of them could possibly have

1126

00:37:41,589 --> 00:37:40,160

figured out a way to

1127

00:37:43,430 --> 00:37:41,599

you know

1128

00:37:45,349 --> 00:37:43,440

travel to where we are or know that

1129

00:37:46,790 --> 00:37:45,359

we're alive i mean it just seems

1130

00:37:48,069 --> 00:37:46,800

now that i've changed you know now

1131

00:37:50,230 --> 00:37:48,079

looking back i kind of feel like i've

1132

00:37:53,030 --> 00:37:50,240

gone through a door you know and now i'm

1133

00:37:54,470 --> 00:37:53,040

looking back and i'm like man it's

1134

00:37:56,069 --> 00:37:54,480

naive you know

1135

00:37:57,829 --> 00:37:56,079

that's cool but that's the evolution of

1136

00:37:59,589 --> 00:37:57,839

you as a person and

1137

00:38:01,990 --> 00:37:59,599

the longer that you're in this subject

1138

00:38:08,550 --> 00:38:02,000

the crazier things again yeah

1139

00:38:12,710 --> 00:38:10,470

you know it's difficult

1140

00:38:14,390 --> 00:38:12,720

yeah but i think as well like that's all

1141

00:38:16,550 --> 00:38:14,400

good but they seem to like

1142

00:38:18,230 --> 00:38:16,560

and i'm not throwing shade on anyone but

1143

00:38:20,630 --> 00:38:18,240

it almost felt like for a long time that

1144

00:38:22,550 --> 00:38:20,640

they were talking about the same thing

1145

00:38:24,550 --> 00:38:22,560

year after year after year

1146

00:38:26,470 --> 00:38:24,560

i know they weren't getting the kind of

1147

00:38:27,990 --> 00:38:26,480

the change behind the scenes that we're

1148

00:38:29,349 --> 00:38:28,000

getting right now

1149

00:38:31,270 --> 00:38:29,359

but

1150

00:38:33,510 --> 00:38:31,280

things do change and here we are

1151

00:38:35,510 --> 00:38:33,520

changing rapidly

1152

00:38:37,430 --> 00:38:35,520

yeah and all this like robert solis 25

1153

00:38:38,870 --> 00:38:37,440

years man we just

1154

00:38:40,630 --> 00:38:38,880

yeah i feel so

1155

00:38:42,790 --> 00:38:40,640

you know grateful to those guys

1156

00:38:45,109 --> 00:38:42,800

100 man and i'm so glad that he got to

1157

00:38:47,589 --> 00:38:45,119

do that conference back in october you

1158

00:38:49,510 --> 00:38:47,599

know yes it felt like it needed more

1159

00:38:51,670 --> 00:38:49,520

coverage media coverage especially yeah

1160

00:38:53,829 --> 00:38:51,680

i didn't see it anywhere man that's yeah

1161

00:38:55,589 --> 00:38:53,839

it was a shame i know a few outlets

1162

00:38:56,790 --> 00:38:55,599

picked it up as a story but they should

1163

00:38:59,109 --> 00:38:56,800

have been there

1164

00:39:00,470 --> 00:38:59,119

like they were there with in 2001 for

1165

00:39:01,829 --> 00:39:00,480

the disclosure project with stephen

1166

00:39:04,150 --> 00:39:01,839

greer they should have been in the

1167

00:39:05,190 --> 00:39:04,160

building

1168

00:39:07,270 --> 00:39:05,200

so yeah i felt a little bit of

1169

00:39:11,109 --> 00:39:07,280

disappointment there but

1170

00:39:15,510 --> 00:39:13,270

listen one thing i really wanted to talk

1171

00:39:17,829 --> 00:39:15,520

to you about is something that actually

1172

00:39:20,550 --> 00:39:17,839

opened my eyes massively recently and

1173

00:39:22,150 --> 00:39:20,560

that was your review and analysis

1174

00:39:25,910 --> 00:39:22,160

of the turkey

1175

00:39:28,069 --> 00:39:25,920

ufo for the turkey for sweet oh man i we

1176

00:39:29,829 --> 00:39:28,079

got to get into this because number one

1177

00:39:31,589 --> 00:39:29,839

like all i ever heard and what i looked

1178

00:39:34,710 --> 00:39:31,599

at was this turkey footage this this

1179

00:39:35,430 --> 00:39:34,720

video but it's not just one video

1180

00:39:37,270 --> 00:39:35,440

no

1181

00:39:39,430 --> 00:39:37,280

you taught me you showed me through your

1182

00:39:42,069 --> 00:39:39,440

video that there's hours and hours of

1183

00:39:43,990 --> 00:39:42,079

video so yeah i mean i i'm going to

1184

00:39:45,510 --> 00:39:44,000

leave it up to you where we start with

1185

00:39:47,430 --> 00:39:45,520

this discussion

1186

00:39:50,630 --> 00:39:47,440

um

1187

00:39:54,550 --> 00:39:50,640

off to the side because my daughter's

1188

00:39:55,990 --> 00:39:54,560

calling me but i'm going to mute myself

1189

00:39:57,910 --> 00:39:56,000

he started talking right now i'm going

1190

00:40:01,910 --> 00:39:57,920

to run outside

1191

00:40:03,510 --> 00:40:01,920

i'll do 10 backflips chug five beers

1192

00:40:04,950 --> 00:40:03,520

uh okay i'll start with the first

1193

00:40:07,190 --> 00:40:04,960

question is

1194

00:40:08,950 --> 00:40:07,200

uh when will this question for chris

1195

00:40:10,630 --> 00:40:08,960

from moon when will he go to turkey to

1196

00:40:12,309 --> 00:40:10,640

figure out the details on the ufo

1197

00:40:15,430 --> 00:40:12,319

sightings that were filmed there

1198

00:40:17,829 --> 00:40:15,440

um that's a good question i

1199

00:40:20,230 --> 00:40:17,839

so if i can get a hold of anyone there

1200

00:40:22,230 --> 00:40:20,240

so i wrote the

1201
00:40:23,510 --> 00:40:22,240
turkey ufo incident an email basically

1202
00:40:24,870 --> 00:40:23,520
just i need to get a hold of someone

1203
00:40:27,109 --> 00:40:24,880
there that i can

1204
00:40:29,190 --> 00:40:27,119
actually go and talk to

1205
00:40:30,790 --> 00:40:29,200
the other option is i just go there i

1206
00:40:32,950 --> 00:40:30,800
start wandering around the place and

1207
00:40:35,589 --> 00:40:32,960
turks are super friendly and i speak you

1208
00:40:37,750 --> 00:40:35,599
know turkish i'll have to brush up on it

1209
00:40:40,150 --> 00:40:37,760
hopefully i can i can track them down

1210
00:40:41,910 --> 00:40:40,160
yoman

1211
00:40:44,069 --> 00:40:41,920
so that that's all i'm waiting for is

1212
00:40:45,990 --> 00:40:44,079
some sort of

1213
00:40:47,829 --> 00:40:46,000

uh reply back from those guys so if

1214

00:40:49,910 --> 00:40:47,839

anybody knows

1215

00:40:51,670 --> 00:40:49,920

anyone in turkey that can help with that

1216

00:40:53,030 --> 00:40:51,680

all right

1217

00:40:54,630 --> 00:40:53,040

question to chris i have your fitness

1218

00:40:58,390 --> 00:40:54,640

book but i'm still a fat bastard my

1219

00:41:02,150 --> 00:40:58,400

question wtaf i don't what the

1220

00:41:06,390 --> 00:41:04,550

yes that's the that's your problem there

1221

00:41:07,910 --> 00:41:06,400

gerald no no

1222

00:41:09,750 --> 00:41:07,920

thanks thanks for getting the book man

1223

00:41:11,430 --> 00:41:09,760

that's awesome um

1224

00:41:12,870 --> 00:41:11,440

yeah anyway

1225

00:41:14,870 --> 00:41:12,880

that was me tap dancing until you came

1226

00:41:16,870 --> 00:41:14,880

back that's awesome man thank you

1227

00:41:18,470 --> 00:41:16,880

apologies for that my daughters

1228

00:41:19,829 --> 00:41:18,480

she's not me feeling you want to go to

1229

00:41:21,750 --> 00:41:19,839

turkey i heard you you're going to

1230

00:41:23,270 --> 00:41:21,760

colombia you want to do a challenge with

1231

00:41:25,270 --> 00:41:23,280

me istanbul

1232

00:41:26,710 --> 00:41:25,280

dude i'll fly out to portugal first

1233

00:41:28,550 --> 00:41:26,720

we'll do a little surfing have a little

1234

00:41:30,790 --> 00:41:28,560

week out there 100

1235

00:41:32,950 --> 00:41:30,800

and then when you then you you know then

1236

00:41:35,109 --> 00:41:32,960

we can let's go to turkey man you speak

1237

00:41:36,790 --> 00:41:35,119

the language yes

1238

00:41:37,589 --> 00:41:36,800

you served out there am i right been a

1239

00:41:38,550 --> 00:41:37,599

while

1240

00:41:42,150 --> 00:41:38,560

yeah

1241

00:41:44,230 --> 00:41:42,160

there's good waves actually everyone

1242

00:41:45,829 --> 00:41:44,240

says there's no waves and ever a few

1243

00:41:48,150 --> 00:41:45,839

times i went there

1244

00:41:49,670 --> 00:41:48,160

dude i'm down i'm dead yeah so istanbul

1245

00:41:51,829 --> 00:41:49,680

so yeah they were asking i just need to

1246

00:41:54,069 --> 00:41:51,839

get a contact uh and then the holidays

1247

00:41:56,230 --> 00:41:54,079

hit and yeah so

1248

00:41:57,910 --> 00:41:56,240

basically that's

1249

00:42:00,230 --> 00:41:57,920

i think it'd be awesome actually

1250

00:42:01,670 --> 00:42:00,240

i totally agree man yeah there's a ton

1251
00:42:04,150 --> 00:42:01,680
of there was so much footage on that it

1252
00:42:07,109 --> 00:42:04,160
was difficult to just make a video

1253
00:42:09,270 --> 00:42:07,119
um because they're just so

1254
00:42:13,349 --> 00:42:09,280
there's hours of footage essentially

1255
00:42:14,550 --> 00:42:13,359
um the 2008 so it's 2007 2008 2009

1256
00:42:17,109 --> 00:42:14,560
there's different videos from each of

1257
00:42:18,710 --> 00:42:17,119
those years i think 2008 seems to have

1258
00:42:21,190 --> 00:42:18,720
like if you're just going to

1259
00:42:23,270 --> 00:42:21,200
watch one video because the full

1260
00:42:25,109 --> 00:42:23,280
footage just from 2008 i think is you

1261
00:42:26,870 --> 00:42:25,119
know 40 minutes or something

1262
00:42:29,510 --> 00:42:26,880
so it takes a while to go through it but

1263
00:42:30,790 --> 00:42:29,520

there's some really telling

1264

00:42:32,710 --> 00:42:30,800

yeah sorry i was just going to say like

1265

00:42:34,950 --> 00:42:32,720

all i was i mean i was aware of the case

1266

00:42:38,230 --> 00:42:34,960

and i i've always seen that classic

1267

00:42:39,910 --> 00:42:38,240

image of the shape of of the ufo that

1268

00:42:42,550 --> 00:42:39,920

people then claim to be

1269

00:42:45,190 --> 00:42:42,560

part of a cruise ship which

1270

00:42:47,030 --> 00:42:45,200

i was never 100 convinced but then

1271

00:42:49,589 --> 00:42:47,040

obviously you know seeing your your

1272

00:42:51,910 --> 00:42:49,599

video when it came out it was like

1273

00:42:53,990 --> 00:42:51,920

over multiple years

1274

00:42:56,390 --> 00:42:54,000

at heights that could never have been

1275

00:42:59,510 --> 00:42:56,400

like a you know 75 foot

1276

00:43:01,349 --> 00:42:59,520

cabin of a cruise ship blew my mind man

1277

00:43:04,790 --> 00:43:01,359

and i think it's been quite

1278

00:43:06,309 --> 00:43:04,800

ignored in part here here and there so i

1279

00:43:08,470 --> 00:43:06,319

i mean i was just blown away and i

1280

00:43:10,230 --> 00:43:08,480

rewatched it today as well just to

1281

00:43:12,710 --> 00:43:10,240

you know brush up on it and

1282

00:43:14,710 --> 00:43:12,720

it's super compelling man so what where

1283

00:43:16,470 --> 00:43:14,720

are you at with that case you know is it

1284

00:43:17,910 --> 00:43:16,480

something you're gonna i mean obviously

1285

00:43:19,510 --> 00:43:17,920

you say you'd like to get contacts out

1286

00:43:21,589 --> 00:43:19,520

there but have you tried contacting the

1287

00:43:24,390 --> 00:43:21,599

guy that filmed it

1288

00:43:26,550 --> 00:43:24,400

i tried to get his contact no so

1289

00:43:30,470 --> 00:43:26,560

basically i kind of i sent out a few

1290

00:43:31,910 --> 00:43:30,480

emails uh and then on messenger facebook

1291

00:43:33,109 --> 00:43:31,920

and then that's it but i haven't tried

1292

00:43:35,990 --> 00:43:33,119

that hard

1293

00:43:37,589 --> 00:43:36,000

uh we had our own travel plans um but

1294

00:43:41,750 --> 00:43:37,599

like in february

1295

00:43:42,870 --> 00:43:41,760

or march uh i could go um

1296

00:43:43,750 --> 00:43:42,880

yeah

1297

00:43:45,270 --> 00:43:43,760

so

1298

00:43:47,030 --> 00:43:45,280

i'd like to go yeah i want to talk to

1299

00:43:49,510 --> 00:43:47,040

you i want to talk to him there's also

1300

00:43:50,790 --> 00:43:49,520

in that uh documentary there was a

1301
00:43:52,790 --> 00:43:50,800
there's a

1302
00:43:54,390 --> 00:43:52,800
i guess one of the famous turkey

1303
00:43:56,069 --> 00:43:54,400
ufologists

1304
00:43:57,750 --> 00:43:56,079
that he actually did the investigation

1305
00:43:59,430 --> 00:43:57,760
so i need to get into contact with him

1306
00:44:00,309 --> 00:43:59,440
basically i just need to get to work and

1307
00:44:02,710 --> 00:44:00,319
do it

1308
00:44:04,550 --> 00:44:02,720
okay that's cool i'm sure you will man

1309
00:44:05,750 --> 00:44:04,560
everybody thanks for bringing up hey no

1310
00:44:08,230 --> 00:44:05,760
no because i want to say everybody

1311
00:44:09,589 --> 00:44:08,240
that's watching this now or or listening

1312
00:44:12,069 --> 00:44:09,599
after the fact

1313
00:44:13,349 --> 00:44:12,079

go over and number one subscribe to

1314

00:44:15,750 --> 00:44:13,359

chris's youtube channel because it's

1315

00:44:17,270 --> 00:44:15,760

awesome but check out the turkey video

1316

00:44:19,190 --> 00:44:17,280

and then if you look in the description

1317

00:44:21,750 --> 00:44:19,200

below chris has given you all of the

1318

00:44:24,550 --> 00:44:21,760

links to all of the data and information

1319

00:44:26,470 --> 00:44:24,560

and research that was done on the case

1320

00:44:29,109 --> 00:44:26,480

you know in turkey and stuff it's it's

1321

00:44:29,829 --> 00:44:29,119

kind of everything you need and it

1322

00:44:32,309 --> 00:44:29,839

yeah

1323

00:44:34,309 --> 00:44:32,319

it's mind-blowing because it's not

1324

00:44:36,630 --> 00:44:34,319

not as simple as i thought it was i'm

1325

00:44:38,670 --> 00:44:36,640

guilty to you know enough to think

1326

00:44:40,790 --> 00:44:38,680

that it's a simple case of

1327

00:44:43,270 --> 00:44:40,800

misidentification of lights from the

1328

00:44:45,670 --> 00:44:43,280

cabin of a cruise ship

1329

00:44:47,750 --> 00:44:45,680

yeah it's funny how these memes go out

1330

00:44:49,510 --> 00:44:47,760

yeah well you know it's that one photo

1331

00:44:52,069 --> 00:44:49,520

where it showed the cruise ship and then

1332

00:44:54,470 --> 00:44:52,079

it superimposed the ufo across the front

1333

00:44:55,990 --> 00:44:54,480

yeah somebody did that yeah

1334

00:44:57,589 --> 00:44:56,000

and everyone's like it's exactly the

1335

00:44:59,190 --> 00:44:57,599

same so i was looking at that it's yeah

1336

00:45:01,109 --> 00:44:59,200

it's just funny how it works i was

1337

00:45:03,270 --> 00:45:01,119

looking at that that photo and if you

1338

00:45:05,349 --> 00:45:03,280

actually look like at it i mean it

1339

00:45:07,270 --> 00:45:05,359

i don't know it doesn't look

1340

00:45:08,630 --> 00:45:07,280

exactly like it i think people could

1341

00:45:10,230 --> 00:45:08,640

make it fit

1342

00:45:11,829 --> 00:45:10,240

yeah

1343

00:45:13,430 --> 00:45:11,839

but then like again one thing that

1344

00:45:14,870 --> 00:45:13,440

really stood out for me in your analysis

1345

00:45:16,950 --> 00:45:14,880

video like

1346

00:45:19,430 --> 00:45:16,960

the guy zooms in on the moon and then

1347

00:45:21,510 --> 00:45:19,440

the object and then you do the math

1348

00:45:23,510 --> 00:45:21,520

and the math about the the heights and

1349

00:45:25,109 --> 00:45:23,520

the distances and the the curvature of

1350

00:45:27,589 --> 00:45:25,119

the earth i mean it's

1351

00:45:29,589 --> 00:45:27,599

you going deep man on that on the on the

1352

00:45:31,190 --> 00:45:29,599

science and the mathematics of it which

1353

00:45:33,030 --> 00:45:31,200

that one they'd already done it though

1354

00:45:34,470 --> 00:45:33,040

you know and that's interesting too like

1355

00:45:35,670 --> 00:45:34,480

you like you just mentioned there's tons

1356

00:45:37,589 --> 00:45:35,680

of stuff in there

1357

00:45:41,109 --> 00:45:37,599

um what i found was hours and hours of

1358

00:45:43,190 --> 00:45:41,119

footage you know but also a ton of um

1359

00:45:44,950 --> 00:45:43,200

like you just mentioned analysis on it

1360

00:45:46,870 --> 00:45:44,960

yeah so

1361

00:45:48,150 --> 00:45:46,880

uh it was nice because i i did my own

1362

00:45:49,829 --> 00:45:48,160

analysis

1363

00:45:51,589 --> 00:45:49,839

of that you know how high the moon is

1364

00:45:54,069 --> 00:45:51,599

above the horizon right because in the

1365

00:45:54,950 --> 00:45:54,079

same shot he basically zooms in on the

1366

00:45:57,829 --> 00:45:54,960

moon

1367

00:45:59,670 --> 00:45:57,839

uh and then he and he pans over and you

1368

00:46:00,630 --> 00:45:59,680

have the the uap

1369

00:46:02,069 --> 00:46:00,640

so

1370

00:46:03,990 --> 00:46:02,079

that felt like the strongest like

1371

00:46:06,390 --> 00:46:04,000

evidence uh

1372

00:46:08,470 --> 00:46:06,400

point so what i did i went through i go

1373

00:46:10,710 --> 00:46:08,480

to moon calc you know calm and then you

1374

00:46:12,630 --> 00:46:10,720

can see how high the the moon should be

1375

00:46:14,470 --> 00:46:12,640

at that date and time

1376

00:46:16,390 --> 00:46:14,480

uh well they already did that you know

1377

00:46:17,990 --> 00:46:16,400

so it was nice i i did so i got my own

1378

00:46:19,990 --> 00:46:18,000

estimate and then i was able to pair it

1379

00:46:21,270 --> 00:46:20,000

off of of what they had

1380

00:46:23,430 --> 00:46:21,280

uh and so

1381

00:46:24,870 --> 00:46:23,440

yeah it was it's very compelling that

1382

00:46:26,390 --> 00:46:24,880

argument um

1383

00:46:28,950 --> 00:46:26,400

you know it could it could still be a

1384

00:46:30,950 --> 00:46:28,960

hoax right that's what's so hard like

1385

00:46:32,870 --> 00:46:30,960

they could still hoax it but it'd have

1386

00:46:36,630 --> 00:46:32,880

to be over so many

1387

00:46:38,470 --> 00:46:36,640

years and it was already investigated

1388

00:46:39,829 --> 00:46:38,480

so yeah i mean and then whoever did it

1389

00:46:42,790 --> 00:46:39,839

came up with the

1390

00:46:45,910 --> 00:46:42,800

orangey red lights as well from my other

1391

00:46:47,670 --> 00:46:45,920

video where then you superimpose

1392

00:46:50,230 --> 00:46:47,680

so for everyone watching there's another

1393

00:46:52,150 --> 00:46:50,240

video from one of the same you know from

1394

00:46:55,030 --> 00:46:52,160

one of the three years where

1395

00:46:56,950 --> 00:46:55,040

you see four ready orangey lights and

1396

00:46:58,550 --> 00:46:56,960

then chris has superimposed those lights

1397

00:47:01,349 --> 00:46:58,560

over the other video of the craft and

1398

00:47:04,150 --> 00:47:01,359

they fit and it's just like

1399

00:47:06,790 --> 00:47:04,160

jesus man that's like if that's a hoax

1400

00:47:09,430 --> 00:47:06,800

that's elaborate it's in depth and it

1401
00:47:11,190 --> 00:47:09,440
spans years

1402
00:47:12,150 --> 00:47:11,200
for what game

1403
00:47:15,990 --> 00:47:12,160
i

1404
00:47:18,069 --> 00:47:16,000
monetary or

1405
00:47:19,510 --> 00:47:18,079
maybe i don't know i guess but well

1406
00:47:22,549 --> 00:47:19,520
what's also interesting is there was a

1407
00:47:24,470 --> 00:47:22,559
lot of other um actual witness sightings

1408
00:47:26,950 --> 00:47:24,480
all over istanbul

1409
00:47:29,670 --> 00:47:26,960
so it was also in the news uh that there

1410
00:47:31,270 --> 00:47:29,680
were it wasn't just these videos that

1411
00:47:33,510 --> 00:47:31,280
that prompted it it was actually

1412
00:47:35,109 --> 00:47:33,520
supposedly people saying they saw these

1413
00:47:37,030 --> 00:47:35,119

you know these balls of light moving

1414

00:47:38,390 --> 00:47:37,040

around or they saw these flying saucers

1415

00:47:40,710 --> 00:47:38,400

whatever

1416

00:47:42,150 --> 00:47:40,720

um yeah it's a huge so i i do want to go

1417

00:47:43,349 --> 00:47:42,160

i do want to go and so it's good i'm

1418

00:47:44,549 --> 00:47:43,359

glad i'm here and you guys are asking

1419

00:47:46,790 --> 00:47:44,559

about it because i'm trying to figure

1420

00:47:48,630 --> 00:47:46,800

out what to focus on uh going into the

1421

00:47:50,790 --> 00:47:48,640

new year so well in that case one thing

1422

00:47:52,309 --> 00:47:50,800

i really wanted to bring up is

1423

00:47:55,430 --> 00:47:52,319

one thing i did read is that the us

1424

00:47:56,710 --> 00:47:55,440

actually store nuclear weapons in turkey

1425

00:47:58,230 --> 00:47:56,720

and i wanted to know if you'd looked

1426
00:48:01,109 --> 00:47:58,240
into that aspect are there any was there

1427
00:48:03,349 --> 00:48:01,119
any storage facilities bases or anything

1428
00:48:05,510 --> 00:48:03,359
within that region where it could be

1429
00:48:08,870 --> 00:48:05,520
associated

1430
00:48:11,270 --> 00:48:08,880
i mean the only bases are down i i don't

1431
00:48:13,349 --> 00:48:11,280
they wouldn't have it in istanbul

1432
00:48:14,870 --> 00:48:13,359
right yeah so

1433
00:48:16,790 --> 00:48:14,880
yeah nothing there

1434
00:48:18,470 --> 00:48:16,800
i had to ask because

1435
00:48:19,670 --> 00:48:18,480
after re-watching the video today i was

1436
00:48:22,069 --> 00:48:19,680
like

1437
00:48:24,069 --> 00:48:22,079
you know it's natural associations you

1438
00:48:26,150 --> 00:48:24,079

know you just it makes you think

1439

00:48:27,670 --> 00:48:26,160

it's got to be something

1440

00:48:28,950 --> 00:48:27,680

interesting submarine i mean we have

1441

00:48:30,870 --> 00:48:28,960

nuclear subs

1442

00:48:34,230 --> 00:48:30,880

yeah yeah and you look at the bot the

1443

00:48:36,390 --> 00:48:34,240

boss versus is that's a very important

1444

00:48:37,910 --> 00:48:36,400

strategic straights

1445

00:48:39,670 --> 00:48:37,920

so it's yeah because of what you've got

1446

00:48:41,589 --> 00:48:39,680

above it with crimea and russia and

1447

00:48:42,790 --> 00:48:41,599

everything like that to the north and

1448

00:48:45,510 --> 00:48:42,800

yep

1449

00:48:47,030 --> 00:48:45,520

hmm yeah because the black sea

1450

00:48:49,510 --> 00:48:47,040

it uh

1451

00:48:50,710 --> 00:48:49,520

it doesn't ice over in the winter

1452

00:48:52,549 --> 00:48:50,720

so

1453

00:48:55,270 --> 00:48:52,559

that's russia's only

1454

00:48:57,349 --> 00:48:55,280

non-iced overport so only winter port is

1455

00:48:59,190 --> 00:48:57,359

in that black sea region that's i i

1456

00:49:00,870 --> 00:48:59,200

think that's the argument they when took

1457

00:49:02,710 --> 00:49:00,880

over crimea

1458

00:49:04,710 --> 00:49:02,720

so that's good movement for nuclear sub

1459

00:49:06,230 --> 00:49:04,720

or any subs in general well it's a very

1460

00:49:08,390 --> 00:49:06,240

strategic

1461

00:49:10,470 --> 00:49:08,400

location yeah bosphorus straits they're

1462

00:49:11,910 --> 00:49:10,480

famously strategic um but really for

1463

00:49:12,710 --> 00:49:11,920

russia as well

1464

00:49:14,870 --> 00:49:12,720

so

1465

00:49:16,630 --> 00:49:14,880

because again that's their only warm

1466

00:49:18,390 --> 00:49:16,640

water poor in the west coast

1467

00:49:19,589 --> 00:49:18,400

so they i think they treat that pretty

1468

00:49:21,430 --> 00:49:19,599

seriously

1469

00:49:23,750 --> 00:49:21,440

so you could have nuke subs under there

1470

00:49:24,549 --> 00:49:23,760

maybe under the water or something like

1471

00:49:28,870 --> 00:49:24,559

that

1472

00:49:30,630 --> 00:49:28,880

thing

1473

00:49:33,109 --> 00:49:30,640

for that one photo i saw that i almost

1474

00:49:35,430 --> 00:49:33,119

brushed aside the entire case

1475

00:49:37,190 --> 00:49:35,440

to then now discussing that video as

1476
00:49:37,990 --> 00:49:37,200
being something that really still could

1477
00:49:39,270 --> 00:49:38,000
be

1478
00:49:41,030 --> 00:49:39,280
incredible

1479
00:49:42,309 --> 00:49:41,040
hey i kept asking where's this cruise

1480
00:49:44,549 --> 00:49:42,319
ship you know where's the cruise ship

1481
00:49:46,150 --> 00:49:44,559
video and it i couldn't find it uh i'm

1482
00:49:47,910 --> 00:49:46,160
sorry cruise ship photo

1483
00:49:49,750 --> 00:49:47,920
because that's what everybody said well

1484
00:49:52,470 --> 00:49:49,760
that's just a cruise ship and i was like

1485
00:49:53,990 --> 00:49:52,480
uh okay where's the photo you know and

1486
00:49:56,549 --> 00:49:54,000
then i finally tracked it down on the

1487
00:49:58,549 --> 00:49:56,559
metabunk website and so

1488
00:50:00,230 --> 00:49:58,559

i found it on there uh and i was like

1489

00:50:01,910 --> 00:50:00,240

this is the photo this is it you know

1490

00:50:04,870 --> 00:50:01,920

they they discounted the whole case

1491

00:50:07,030 --> 00:50:04,880

because of this like crappy photoshopped

1492

00:50:08,870 --> 00:50:07,040

you know cruise ship

1493

00:50:10,069 --> 00:50:08,880

so yeah i don't think it i don't think

1494

00:50:12,150 --> 00:50:10,079

it should be thrown away definitely

1495

00:50:13,270 --> 00:50:12,160

because of that um yeah there's a lot of

1496

00:50:15,510 --> 00:50:13,280

reasons why

1497

00:50:17,750 --> 00:50:15,520

it's not or was shown not to be a cruise

1498

00:50:19,750 --> 00:50:17,760

ship or plus probably not a cruise ship

1499

00:50:21,190 --> 00:50:19,760

there was no cruise ships in the area uh

1500

00:50:22,549 --> 00:50:21,200

and probably the strongest evidence like

1501

00:50:24,790 --> 00:50:22,559

you mentioned was just the height above

1502

00:50:26,549 --> 00:50:24,800

the horizon based on that moon position

1503

00:50:28,870 --> 00:50:26,559

that blew me away

1504

00:50:31,349 --> 00:50:28,880

yeah i love it um on metabunk they said

1505

00:50:32,790 --> 00:50:31,359

that it actually isn't that high right

1506

00:50:34,150 --> 00:50:32,800

and uh

1507

00:50:40,390 --> 00:50:34,160

but

1508

00:50:42,230 --> 00:50:40,400

meters for what the cruise ship cabin

1509

00:50:43,670 --> 00:50:42,240

would be to your

1510

00:50:45,750 --> 00:50:43,680

mathematical estimation without

1511

00:50:49,190 --> 00:50:45,760

estimations it's like probably yeah it

1512

00:50:50,630 --> 00:50:49,200

would have to be wrong so the the

1513

00:50:52,549 --> 00:50:50,640

it would either have to be hoax that

1514

00:50:54,309 --> 00:50:52,559

they put it on a different day it would

1515

00:50:56,069 --> 00:50:54,319

have to be a hoax essentially that they

1516

00:50:58,950 --> 00:50:56,079

put it on they changed the time they

1517

00:51:01,910 --> 00:50:58,960

changed the camera on the camera

1518

00:51:04,710 --> 00:51:01,920

um or or they they put a

1519

00:51:06,630 --> 00:51:04,720

fake ufo somehow hanging

1520

00:51:08,150 --> 00:51:06,640

and that they're able to zoom in on but

1521

00:51:10,069 --> 00:51:08,160

that's the point right they zoom in on

1522

00:51:12,150 --> 00:51:10,079

it that that's super strong too because

1523

00:51:13,990 --> 00:51:12,160

you know because

1524

00:51:15,349 --> 00:51:14,000

yeah yeah and then he zooms in on the

1525

00:51:17,109 --> 00:51:15,359

ufo so

1526

00:51:18,390 --> 00:51:17,119

that also rules kind of about the the

1527

00:51:20,549 --> 00:51:18,400

hoax

1528

00:51:22,950 --> 00:51:20,559

yeah so i guess the only thing would be

1529

00:51:24,710 --> 00:51:22,960

if it's actually not

1530

00:51:26,870 --> 00:51:24,720

uh up here it's it's actually here and

1531

00:51:28,710 --> 00:51:26,880

we're just seeing it wrong you know

1532

00:51:30,549 --> 00:51:28,720

like that was that was mick west's

1533

00:51:32,950 --> 00:51:30,559

argument that there's a light there's a

1534

00:51:35,750 --> 00:51:32,960

light down here but it's it's a

1535

00:51:37,910 --> 00:51:35,760

it's like a a ship mass light that was

1536

00:51:39,430 --> 00:51:37,920

what he was what he was arguing so

1537

00:51:43,349 --> 00:51:39,440

i don't know it's very strong i want to

1538

00:51:44,790 --> 00:51:43,359

go so i'll definitely go yeah awesome

1539

00:51:46,790 --> 00:51:44,800

we look forward to follow-ups i've had a

1540

00:51:48,230 --> 00:51:46,800

lot of people asking me today uh over

1541

00:51:49,910 --> 00:51:48,240

the last couple of days when they knew i

1542

00:51:53,030 --> 00:51:49,920

was speaking to you about about that

1543

00:51:55,670 --> 00:51:53,040

footage so awesome i appreciate that

1544

00:51:56,630 --> 00:51:55,680

let's move on and talk about sky 360

1545

00:51:58,790 --> 00:51:56,640

which we

1546

00:52:00,069 --> 00:51:58,800

touched upon before we came on live um

1547

00:52:02,309 --> 00:52:00,079

for everyone out there that doesn't know

1548

00:52:04,390 --> 00:52:02,319

skyhub was a system that you could

1549

00:52:07,670 --> 00:52:04,400

install and build yourself at home and

1550

00:52:09,829 --> 00:52:07,680

it built a network globally to track

1551
00:52:12,150 --> 00:52:09,839
objects uap and things

1552
00:52:14,790 --> 00:52:12,160
and sky 360 is kind of the replacement

1553
00:52:16,790 --> 00:52:14,800
can you uh fill us in on

1554
00:52:19,430 --> 00:52:16,800
kind of what's going on with that yeah

1555
00:52:20,309 --> 00:52:19,440
yeah so skyhub was a

1556
00:52:22,630 --> 00:52:20,319
so

1557
00:52:24,309 --> 00:52:22,640
american led movement you know

1558
00:52:26,630 --> 00:52:24,319
grassroots

1559
00:52:28,549 --> 00:52:26,640
basically guys just in their free time

1560
00:52:31,190 --> 00:52:28,559
putting this project together

1561
00:52:32,950 --> 00:52:31,200
uh and it fell apart essentially um you

1562
00:52:35,349 --> 00:52:32,960
know it's it's a very difficult project

1563
00:52:37,190 --> 00:52:35,359

the problem uh we're finding is you know

1564

00:52:38,870 --> 00:52:37,200

it's difficult because you have to do

1565

00:52:42,150 --> 00:52:38,880

real-time

1566

00:52:44,630 --> 00:52:42,160

uh information um so uh last month i

1567

00:52:47,589 --> 00:52:44,640

went and looked at the it's the american

1568

00:52:50,790 --> 00:52:47,599

meteor society has a has a system

1569

00:52:53,030 --> 00:52:50,800

or actually all sky 7 has a system where

1570

00:52:55,030 --> 00:52:53,040

it sees seven little cameras in this and

1571

00:52:57,109 --> 00:52:55,040

it looks like a flying saucer right

1572

00:52:59,030 --> 00:52:57,119

uh and you you put this up on your roof

1573

00:53:00,870 --> 00:52:59,040

on scaffolding

1574

00:53:03,270 --> 00:53:00,880

and it has a little

1575

00:53:06,150 --> 00:53:03,280

uh jetson computer

1576

00:53:08,230 --> 00:53:06,160

uh made basically for image processing

1577

00:53:10,630 --> 00:53:08,240

and those two things now it will just

1578

00:53:11,829 --> 00:53:10,640

monitor the sky for meteors right

1579

00:53:15,190 --> 00:53:11,839

because

1580

00:53:16,950 --> 00:53:15,200

you get big money if you can find a

1581

00:53:18,950 --> 00:53:16,960

meteor because you can sell it to you

1582

00:53:20,470 --> 00:53:18,960

even if you sell it for good right for

1583

00:53:22,309 --> 00:53:20,480

science you can sell it for a lot of

1584

00:53:24,069 --> 00:53:22,319

money i think it's a thousand dollars a

1585

00:53:26,150 --> 00:53:24,079

gram is what they're going for and some

1586

00:53:29,430 --> 00:53:26,160

of these if you find an actual meteorite

1587

00:53:31,430 --> 00:53:29,440

it's like kilograms you know 20 could be

1588

00:53:34,150 --> 00:53:31,440

10 20 kilograms

1589

00:53:35,430 --> 00:53:34,160
so these are big bucks right and

1590

00:53:37,030 --> 00:53:35,440
if you get enough systems linked

1591

00:53:38,870 --> 00:53:37,040
together

1592

00:53:40,390 --> 00:53:38,880
you can

1593

00:53:41,829 --> 00:53:40,400
there's an ellipse right there's only

1594

00:53:43,910 --> 00:53:41,839
two right now in portugal two of those

1595

00:53:45,589 --> 00:53:43,920
systems and so it's a 20 kilometer

1596

00:53:47,030 --> 00:53:45,599
ellipse right so it's that's gonna be

1597

00:53:47,750 --> 00:53:47,040
pretty hard to actually find it yeah

1598

00:53:50,790 --> 00:53:47,760
yeah

1599

00:53:52,870 --> 00:53:50,800
a meteorite but what also you get is

1600

00:53:54,950 --> 00:53:52,880
uh you get where it came from right so

1601
00:53:57,030 --> 00:53:54,960
they can if they can accurately guess

1602
00:53:58,790 --> 00:53:57,040
the trajectory or not gas but get the

1603
00:54:00,549 --> 00:53:58,800
trajectory

1604
00:54:02,470 --> 00:54:00,559
then they can tell exactly where it

1605
00:54:03,349 --> 00:54:02,480
formed where it came from in the solar

1606
00:54:07,910 --> 00:54:03,359
system

1607
00:54:10,309 --> 00:54:07,920
things have hit mars

1608
00:54:12,150 --> 00:54:10,319
i guess there's been pieces of mars

1609
00:54:13,589 --> 00:54:12,160
pieces of the moon

1610
00:54:15,270 --> 00:54:13,599
that have landed on earth so there's

1611
00:54:16,950 --> 00:54:15,280
tons of science to get about the solar

1612
00:54:19,270 --> 00:54:16,960
system

1613
00:54:21,430 --> 00:54:19,280

as well but it's hard right and and for

1614

00:54:23,910 --> 00:54:21,440

them they don't need real time they can

1615

00:54:25,030 --> 00:54:23,920

just do it after the fact uh you know

1616

00:54:29,030 --> 00:54:25,040

they can

1617

00:54:31,990 --> 00:54:29,040

then post process

1618

00:54:33,349 --> 00:54:32,000

right yeah so with skyhub basically when

1619

00:54:34,630 --> 00:54:33,359

it died

1620

00:54:36,549 --> 00:54:34,640

um

1621

00:54:39,349 --> 00:54:36,559

the europeans essentially picked it up

1622

00:54:40,950 --> 00:54:39,359

you know go europe richard hoff

1623

00:54:43,270 --> 00:54:40,960

basically took over

1624

00:54:45,349 --> 00:54:43,280

took over everything they had and now

1625

00:54:47,030 --> 00:54:45,359

rebuilding their own own system called

1626

00:54:48,549 --> 00:54:47,040

sky 360.

1627

00:54:49,990 --> 00:54:48,559

now it's a european lead initiative

1628

00:54:52,470 --> 00:54:50,000

right so we'll see

1629

00:54:54,630 --> 00:54:52,480

see if europe can make it happen

1630

00:54:57,030 --> 00:54:54,640

um so that thing

1631

00:54:58,390 --> 00:54:57,040

is being developed now so what we found

1632

00:55:01,190 --> 00:54:58,400

is that

1633

00:55:02,470 --> 00:55:01,200

so the meteor system right they can they

1634

00:55:03,910 --> 00:55:02,480

don't have to worry about processing

1635

00:55:05,670 --> 00:55:03,920

real time because they don't need a

1636

00:55:07,270 --> 00:55:05,680

really good image

1637

00:55:08,870 --> 00:55:07,280

and that's where skyhub i think was kind

1638

00:55:10,309 --> 00:55:08,880

of falling short because with those

1639

00:55:12,630 --> 00:55:10,319

little camera like your little camera on

1640

00:55:15,750 --> 00:55:12,640

your phone is is is jack right that

1641

00:55:17,589 --> 00:55:15,760

little sensor sure is is not good enough

1642

00:55:19,750 --> 00:55:17,599

and and that's really why we don't i

1643

00:55:22,069 --> 00:55:19,760

think why we don't have any good

1644

00:55:23,829 --> 00:55:22,079

videos or pictures of

1645

00:55:25,190 --> 00:55:23,839

uaps right

1646

00:55:27,589 --> 00:55:25,200

for a lot of reasons it seems like they

1647

00:55:30,069 --> 00:55:27,599

affect digital equipment if if if all

1648

00:55:31,829 --> 00:55:30,079

this is real right which sure

1649

00:55:33,349 --> 00:55:31,839

we're trying to find but let's say they

1650

00:55:36,309 --> 00:55:33,359

do affect they're real and they do

1651
00:55:37,910 --> 00:55:36,319
affect uh digital electronic equipment

1652
00:55:39,670 --> 00:55:37,920
if you're close enough

1653
00:55:41,030 --> 00:55:39,680
with your phone to take a good picture

1654
00:55:42,470 --> 00:55:41,040
chances are it's not going to work or

1655
00:55:44,150 --> 00:55:42,480
there's going to have some issues if you

1656
00:55:45,510 --> 00:55:44,160
even remember right i mean if you're

1657
00:55:46,870 --> 00:55:45,520
right there standing with an alien or

1658
00:55:48,150 --> 00:55:46,880
something you know you're really going

1659
00:55:49,990 --> 00:55:48,160
to be like pull out your phone and take

1660
00:55:52,150 --> 00:55:50,000
a picture um

1661
00:55:55,589 --> 00:55:52,160
i i mean i hope you do right and a video

1662
00:55:56,549 --> 00:55:55,599
and selfie with you in it

1663
00:56:00,230 --> 00:55:56,559

but

1664

00:56:01,910 --> 00:56:00,240

probably not gonna work

1665

00:56:05,190 --> 00:56:01,920

further away now you just have this

1666

00:56:06,390 --> 00:56:05,200

little tiny crappy sensor right um and

1667

00:56:09,349 --> 00:56:06,400

yeah and when you get into space

1668

00:56:11,670 --> 00:56:09,359

applications uh the first thing

1669

00:56:12,950 --> 00:56:11,680

um they get they ask you is what's

1670

00:56:15,030 --> 00:56:12,960

what's the range that you need to be

1671

00:56:16,549 --> 00:56:15,040

able to see things and in space it's

1672

00:56:19,430 --> 00:56:16,559

hundreds of kilometers

1673

00:56:20,470 --> 00:56:19,440

so now you need a you need a big sensor

1674

00:56:22,630 --> 00:56:20,480

uh because you're not gonna be able to

1675

00:56:24,710 --> 00:56:22,640

see anything and and that's what you

1676
00:56:25,670 --> 00:56:24,720
need a one meters you really need a one

1677
00:56:27,030 --> 00:56:25,680
meter

1678
00:56:28,309 --> 00:56:27,040
um

1679
00:56:30,630 --> 00:56:28,319
telescope

1680
00:56:32,309 --> 00:56:30,640
in space to be able to see anything with

1681
00:56:33,829 --> 00:56:32,319
any sort of good

1682
00:56:36,390 --> 00:56:33,839
um

1683
00:56:37,829 --> 00:56:36,400
resolution on earth

1684
00:56:39,349 --> 00:56:37,839
so that's expensive those are like 10

1685
00:56:41,750 --> 00:56:39,359
million dollars i guess

1686
00:56:44,150 --> 00:56:41,760
so wow so how do you see the development

1687
00:56:47,430 --> 00:56:44,160
over the coming years because

1688
00:56:49,030 --> 00:56:47,440

originally skyhub was a a public

1689

00:56:50,630 --> 00:56:49,040

led initiative but it was something the

1690

00:56:52,549 --> 00:56:50,640

public could buy into

1691

00:56:54,789 --> 00:56:52,559

with their own systems for like between

1692

00:56:56,309 --> 00:56:54,799

you know under a thousand dollars to

1693

00:56:58,230 --> 00:56:56,319

a couple of thousand dollars for a more

1694

00:57:01,510 --> 00:56:58,240

advanced system do you see that still

1695

00:57:02,630 --> 00:57:01,520

coming into play with sky 360 in a year

1696

00:57:04,549 --> 00:57:02,640

or so

1697

00:57:08,069 --> 00:57:04,559

that's the whole plan yeah so by quarter

1698

00:57:09,750 --> 00:57:08,079

four should be a you know solid

1699

00:57:10,950 --> 00:57:09,760

working system that we can start

1700

00:57:13,190 --> 00:57:10,960

deploying

1701

00:57:14,549 --> 00:57:13,200

uh is basically right now it's yeah

1702

00:57:16,470 --> 00:57:14,559

there's there's different teams so it's

1703

00:57:18,870 --> 00:57:16,480

divided out so i meet you know i just

1704

00:57:20,630 --> 00:57:18,880

went to my first meeting last week

1705

00:57:22,309 --> 00:57:20,640

but anyone can join if you're interested

1706

00:57:23,670 --> 00:57:22,319

you know we have technical knowledge

1707

00:57:25,349 --> 00:57:23,680

you're interested in building one of

1708

00:57:27,190 --> 00:57:25,359

these systems or just helping right

1709

00:57:30,630 --> 00:57:27,200

right now we need we need some we need

1710

00:57:32,630 --> 00:57:30,640

some good ai or software developers

1711

00:57:34,630 --> 00:57:32,640

you know who have kind of deep code

1712

00:57:36,390 --> 00:57:34,640

ability um i don't think it's needed

1713

00:57:37,910 --> 00:57:36,400

deep code ability but knowledge of deep

1714

00:57:39,670 --> 00:57:37,920

code so that they know how to make it

1715

00:57:41,030 --> 00:57:39,680

simpler

1716

00:57:42,309 --> 00:57:41,040

but there's yeah there's people right

1717

00:57:45,109 --> 00:57:42,319

now involved and they're asking for

1718

00:57:47,270 --> 00:57:45,119

people to join so it's sky 360 on

1719

00:57:48,789 --> 00:57:47,280

discord so you go to their discord say

1720

00:57:51,270 --> 00:57:48,799

i'm here to you know these are my skills

1721

00:57:53,829 --> 00:57:51,280

i'm here to help or just get information

1722

00:57:56,309 --> 00:57:53,839

and they direct you in different ways so

1723

00:57:58,870 --> 00:57:56,319

that is the idea is

1724

00:58:01,109 --> 00:57:58,880

citizens right or people interested

1725

00:58:02,789 --> 00:58:01,119

groups could be uap groups i think a uap

1726

00:58:04,950 --> 00:58:02,799

group would be a perfect idea right

1727

00:58:07,430 --> 00:58:04,960

actually motivated uap groups

1728

00:58:09,349 --> 00:58:07,440

um you know with he's i think he said

1729

00:58:12,150 --> 00:58:09,359

with five systems you can cover all of

1730

00:58:14,230 --> 00:58:12,160

los angeles um and like you mentioned

1731

00:58:15,910 --> 00:58:14,240

these systems you can get

1732

00:58:17,829 --> 00:58:15,920

uh looks like the low end is gonna be

1733

00:58:19,430 --> 00:58:17,839

difficult uh you know they have three

1734

00:58:20,950 --> 00:58:19,440

tiers right now one thousand three

1735

00:58:23,750 --> 00:58:20,960

thousand and five thousand dollars is

1736

00:58:25,190 --> 00:58:23,760

what they're aiming for okay um i've

1737

00:58:27,030 --> 00:58:25,200

i've done a little manufacturing in the

1738

00:58:28,630 --> 00:58:27,040

past and you know i'm like you know just

1739

00:58:30,710 --> 00:58:28,640

go with one

1740

00:58:32,390 --> 00:58:30,720

uh like three thousand you know or pick

1741

00:58:33,510 --> 00:58:32,400

one at five thousand dollars whatever it

1742

00:58:34,950 --> 00:58:33,520

is

1743

00:58:37,270 --> 00:58:34,960

and then get that get that system

1744

00:58:39,589 --> 00:58:37,280

working so grassroots people or groups

1745

00:58:41,510 --> 00:58:39,599

of people would would buy the systems

1746

00:58:42,950 --> 00:58:41,520

from amazon global right so it's all

1747

00:58:49,349 --> 00:58:42,960

sourced wherever you live is you could

1748

00:59:00,470 --> 00:58:52,950

oh we've lost you there briefly you've

1749

00:59:03,750 --> 00:59:02,309

right we've lost chris guys can anybody

1750

00:59:05,910 --> 00:59:03,760

in the chat let me know if you've lost

1751
00:59:08,630 --> 00:59:05,920
me or chris

1752
00:59:14,870 --> 00:59:10,549
we'll get him back don't worry

1753
00:59:18,390 --> 00:59:16,309
or am i am i

1754
00:59:20,150 --> 00:59:18,400
dipping out as well

1755
00:59:21,910 --> 00:59:20,160
i'm here right okay

1756
00:59:25,270 --> 00:59:21,920
let's drop chris out

1757
00:59:27,030 --> 00:59:25,280
and we'll wait for him to jump back in

1758
00:59:28,150 --> 00:59:27,040
these things happen

1759
00:59:29,349 --> 00:59:28,160
um

1760
00:59:31,190 --> 00:59:29,359
i'm just going to give a quick shout

1761
00:59:33,430 --> 00:59:31,200
patrick noble thank you so much for the

1762
00:59:35,430 --> 00:59:33,440
the 999 donation

1763
00:59:37,430 --> 00:59:35,440

and brian for the 20 super sticker thank

1764

00:59:39,670 --> 00:59:37,440

you so much

1765

00:59:40,789 --> 00:59:39,680

i appreciate all the support here guys i

1766

00:59:42,630 --> 00:59:40,799

really do

1767

00:59:43,910 --> 00:59:42,640

if i've missed anyone i'm sorry the the

1768

00:59:45,190 --> 00:59:43,920

chat's been moving quick and i've

1769

00:59:47,270 --> 00:59:45,200

obviously been quite involved in this

1770

00:59:49,270 --> 00:59:47,280

conversation

1771

00:59:51,030 --> 00:59:49,280

i've lost chris completely he's he's

1772

00:59:53,829 --> 00:59:51,040

been dumped out of the green room not by

1773

00:59:55,670 --> 00:59:53,839

me um hopefully he'll jump back in we've

1774

00:59:57,990 --> 00:59:55,680

got some more questions to ask him so

1775

00:59:59,430 --> 00:59:58,000

guys hang around if you're here if

1776

01:00:01,750 --> 00:59:59,440

anybody wants to chime in with any

1777

01:00:03,589 --> 01:00:01,760

questions i can now save them pop them

1778

01:00:06,309 --> 01:00:03,599

in a separate little box to ask him at

1779

01:00:08,950 --> 01:00:06,319

the end of the interview

1780

01:00:11,430 --> 01:00:08,960

if he pops back in

1781

01:00:13,510 --> 01:00:11,440

i'll keep my messages and emails open in

1782

01:00:18,069 --> 01:00:13,520

case

1783

01:00:19,670 --> 01:00:18,079

or major issue or the cia got him i see

1784

01:00:22,069 --> 01:00:19,680

a few of you commenting

1785

01:00:23,829 --> 01:00:22,079

and i think we're good chris are you

1786

01:00:26,630 --> 01:00:23,839

there am i here

1787

01:00:28,549 --> 01:00:26,640

i can hear you i can't see you all right

1788

01:00:30,390 --> 01:00:28,559

my computer just reset man i'm sorry let

1789

01:00:35,829 --> 01:00:30,400

me let me come

1790

01:00:39,190 --> 01:00:37,430

all good man these things happen on

1791

01:00:40,630 --> 01:00:39,200

these live streams you know it's all

1792

01:00:42,630 --> 01:00:40,640

good if i was recording this i could

1793

01:00:44,230 --> 01:00:42,640

just edit that out but hey

1794

01:00:45,829 --> 01:00:44,240

i prefer to do these things live have

1795

01:00:47,349 --> 01:00:45,839

you guys here in the chat

1796

01:00:49,190 --> 01:00:47,359

it's been an absolutely fascinating

1797

01:00:51,190 --> 01:00:49,200

conversation so far so i'm really glad

1798

01:00:54,870 --> 01:00:51,200

that we've done this one for the

1799

01:00:56,390 --> 01:00:54,880

the first show of 2022 um let's just go

1800

01:00:57,589 --> 01:00:56,400

through some some chat here it seems

1801
01:00:59,829 --> 01:00:57,599
like you guys have an awesome

1802
01:01:04,549 --> 01:00:59,839
conversation anyway

1803
01:01:09,829 --> 01:01:07,910
i got a couple of questions

1804
01:01:11,109 --> 01:01:09,839
strafe ah good to see straight wilson

1805
01:01:12,950 --> 01:01:11,119
here strafe i'm gonna ask him your

1806
01:01:14,950 --> 01:01:12,960
question about the uh

1807
01:01:16,309 --> 01:01:14,960
the navy drone swarms

1808
01:01:17,910 --> 01:01:16,319
2019

1809
01:01:19,430 --> 01:01:17,920
that's a really good one we literally

1810
01:01:21,430 --> 01:01:19,440
only a couple of questions on my list

1811
01:01:22,870 --> 01:01:21,440
left so

1812
01:01:25,030 --> 01:01:22,880
yeah

1813
01:01:26,950 --> 01:01:25,040

not too much longer i appreciate it guys

1814

01:01:28,470 --> 01:01:26,960

we've got 96 people watching right now

1815

01:01:30,630 --> 01:01:28,480

that's incredible

1816

01:01:32,390 --> 01:01:30,640

thank you so much to everyone for being

1817

01:01:34,789 --> 01:01:32,400

here i really appreciate it

1818

01:01:36,710 --> 01:01:34,799

um if you want to ask any questions feel

1819

01:01:37,990 --> 01:01:36,720

free i'm still taking questions for

1820

01:01:39,829 --> 01:01:38,000

chris if there's anything that we've

1821

01:01:42,870 --> 01:01:39,839

talked about that

1822

01:01:44,549 --> 01:01:42,880

that you want to uh to know about

1823

01:01:45,750 --> 01:01:44,559

it's absolutely fascinating but i

1824

01:01:47,109 --> 01:01:45,760

recommend everybody go and check out

1825

01:01:49,750 --> 01:01:47,119

chris's channel

1826

01:01:53,190 --> 01:01:49,760

subscribe but also check out that turkey

1827

01:01:56,390 --> 01:01:53,200

ufo stuff that he researched covered did

1828

01:01:58,950 --> 01:01:56,400

all the the maths and and science

1829

01:02:01,190 --> 01:01:58,960

discovering on all the angles of

1830

01:02:03,190 --> 01:02:01,200

man it's mind-blowing absolutely

1831

01:02:04,549 --> 01:02:03,200

mind-blowing right he's just jumped back

1832

01:02:05,830 --> 01:02:04,559

in

1833

01:02:10,069 --> 01:02:05,840

there he is man

1834

01:02:12,470 --> 01:02:10,079

[Laughter]

1835

01:02:14,069 --> 01:02:12,480

here we go

1836

01:02:15,349 --> 01:02:14,079

we get to see the green screen behind

1837

01:02:18,230 --> 01:02:15,359

the scenes

1838

01:02:20,789 --> 01:02:18,240

[Laughter]

1839

01:02:21,910 --> 01:02:20,799

all right that's terrible man

1840

01:02:23,670 --> 01:02:21,920

sorry about that

1841

01:02:25,109 --> 01:02:23,680

hey man these things happen i was just

1842

01:02:26,710 --> 01:02:25,119

saying to the chat these things happen

1843

01:02:27,829 --> 01:02:26,720

on the live streams man so don't don't

1844

01:02:29,510 --> 01:02:27,839

worry about it

1845

01:02:31,750 --> 01:02:29,520

are you on your own forever and then

1846

01:02:33,349 --> 01:02:31,760

live stream it goes okay you're on your

1847

01:02:35,510 --> 01:02:33,359

cell phone now

1848

01:02:37,990 --> 01:02:35,520

yep this is my cell phone let's see oh

1849

01:02:39,190 --> 01:02:38,000

man that's all good it looks fine i'm

1850

01:02:40,870 --> 01:02:39,200

literally we're only a few questions

1851

01:02:42,549 --> 01:02:40,880

away from what i had left said you know

1852

01:02:43,829 --> 01:02:42,559

we've gone over the hours so don't worry

1853

01:02:45,190 --> 01:02:43,839

about it man

1854

01:02:47,910 --> 01:02:45,200

um

1855

01:02:49,829 --> 01:02:47,920

that we had from strafe wilson in the

1856

01:02:52,309 --> 01:02:49,839

chat are you following the story

1857

01:02:56,789 --> 01:02:52,319

regarding the ufos the channel islands

1858

01:03:00,390 --> 01:02:56,799

and the navy drone swarms from 2019

1859

01:03:03,349 --> 01:03:00,400

from 2019 i did just read one i think

1860

01:03:04,710 --> 01:03:03,359

yes someone on youtube sent me a link

1861

01:03:06,150 --> 01:03:04,720

but that's all i read yeah i haven't

1862

01:03:07,670 --> 01:03:06,160

heard anything else about it actually

1863

01:03:09,430 --> 01:03:07,680

has

1864

01:03:10,950 --> 01:03:09,440

are they seeing drum swarms i mean is

1865

01:03:12,390 --> 01:03:10,960

that a common occurrence

1866

01:03:14,230 --> 01:03:12,400

well i think this story in particular

1867

01:03:16,549 --> 01:03:14,240

leads into some of the stuff that jeremy

1868

01:03:18,950 --> 01:03:16,559

corbell released last year as well

1869

01:03:19,990 --> 01:03:18,960

these anomalous things off of the west

1870

01:03:21,829 --> 01:03:20,000

coast

1871

01:03:24,630 --> 01:03:21,839

um i just wasn't sure if it was

1872

01:03:26,630 --> 01:03:24,640

something you'd looked into or not uh

1873

01:03:27,750 --> 01:03:26,640

no i i saw it

1874

01:03:29,270 --> 01:03:27,760

but that's it

1875

01:03:31,349 --> 01:03:29,280

no no it's all good man i've been

1876

01:03:32,870 --> 01:03:31,359

following the story but we've i think

1877

01:03:34,710 --> 01:03:32,880

it's another one of those where we have

1878

01:03:36,630 --> 01:03:34,720

a sort of lack of data

1879

01:03:40,069 --> 01:03:36,640

where we can't quite go any further with

1880

01:03:42,789 --> 01:03:40,950

so

1881

01:03:44,309 --> 01:03:42,799

yeah i mean i'll if you have any more

1882

01:03:46,710 --> 01:03:44,319

data on i'd look into it all i saw was

1883

01:03:49,670 --> 01:03:46,720

that one article yeah i didn't see

1884

01:03:51,109 --> 01:03:49,680

anything else no worries man um i guess

1885

01:03:52,630 --> 01:03:51,119

my final question was i just wanted to

1886

01:03:54,230 --> 01:03:52,640

see your thoughts on things like the

1887

01:03:56,950 --> 01:03:54,240

galileo project

1888

01:03:59,190 --> 01:03:56,960

uapx the james webb telescope all these

1889

01:04:00,230 --> 01:03:59,200

kind of other scientific things that are

1890

01:04:01,670 --> 01:04:00,240

kind of

1891

01:04:04,069 --> 01:04:01,680

i guess related

1892

01:04:06,470 --> 01:04:04,079

to disclosure and we know we don't have

1893

01:04:07,990 --> 01:04:06,480

to just rely on the government and this

1894

01:04:11,270 --> 01:04:08,000

uap office

1895

01:04:13,910 --> 01:04:11,280

do you see any uh value in all of that

1896

01:04:15,829 --> 01:04:13,920

yeah 100 um

1897

01:04:17,990 --> 01:04:15,839

yeah i mean i'm just here i i don't have

1898

01:04:21,109 --> 01:04:18,000

any personal agenda i'm just here to

1899

01:04:23,029 --> 01:04:21,119

help you know any way i can um

1900

01:04:24,870 --> 01:04:23,039

but what i've seen the jame webb space

1901

01:04:27,430 --> 01:04:24,880

teleco i'm so pumped on that thing so

1902

01:04:29,190 --> 01:04:27,440

yeah every day not every day but i did

1903

01:04:31,589 --> 01:04:29,200

check it today i saw that they deployed

1904

01:04:32,470 --> 01:04:31,599

the sunshade did you see that yeah yeah

1905

01:04:35,430 --> 01:04:32,480

yeah

1906

01:04:37,190 --> 01:04:35,440

that's that seemed like the most

1907

01:04:38,470 --> 01:04:37,200

complicated part at least it's protected

1908

01:04:39,349 --> 01:04:38,480

right because if the sun shade's not

1909

01:04:42,069 --> 01:04:39,359

there

1910

01:04:44,630 --> 01:04:42,079

it's probably gonna burn up you know

1911

01:04:47,430 --> 01:04:44,640

so at least like the sun shades there

1912

01:04:49,589 --> 01:04:47,440

i also saw i also heard that half of the

1913

01:04:50,950 --> 01:04:49,599

half of the systems are working so it

1914

01:04:53,270 --> 01:04:50,960

sounds like you'll at least get half of

1915

01:04:55,029 --> 01:04:53,280

it working even if even if none of the

1916

01:04:55,990 --> 01:04:55,039

rest works from now on

1917

01:04:57,270 --> 01:04:56,000

100

1918

01:04:59,589 --> 01:04:57,280

yeah yes

1919

01:05:01,190 --> 01:04:59,599

yeah it's huge james space telescope

1920

01:05:03,349 --> 01:05:01,200

everybody keeps talking about you know

1921

01:05:05,349 --> 01:05:03,359

when they look back towards the big bang

1922

01:05:08,309 --> 01:05:05,359

um but i'm really excited when they turn

1923

01:05:10,710 --> 01:05:08,319

it towards the center of our galaxy

1924

01:05:12,150 --> 01:05:10,720

i'm super pumped um because

1925

01:05:15,109 --> 01:05:12,160

we we've never seen to the center of our

1926

01:05:18,230 --> 01:05:15,119

galaxy at least um clearly because of

1927

01:05:20,309 --> 01:05:18,240

the dust you know the space dust sure

1928

01:05:22,789 --> 01:05:20,319

so ir i guess can see right through that

1929

01:05:25,349 --> 01:05:22,799

stuff in infrared so we we should be

1930

01:05:26,870 --> 01:05:25,359

able to get like some high def images of

1931

01:05:28,069 --> 01:05:26,880

the center of our galaxy that's super

1932

01:05:30,870 --> 01:05:28,079

exciting

1933

01:05:32,950 --> 01:05:30,880

um or what be even more mind-blowing to

1934

01:05:34,150 --> 01:05:32,960

me is if we just pointed at jupiter or

1935

01:05:35,990 --> 01:05:34,160

something

1936

01:05:36,789 --> 01:05:36,000

yeah because i think you can now you can

1937

01:05:39,829 --> 01:05:36,799

look

1938

01:05:41,270 --> 01:05:39,839

through the through a lot of the clouds

1939

01:05:42,870 --> 01:05:41,280

uh i i don't know

1940

01:05:43,670 --> 01:05:42,880

not sure but i think it could give us

1941

01:05:46,789 --> 01:05:43,680

some

1942

01:05:48,309 --> 01:05:46,799

good insight into in our in our uh solar

1943

01:05:49,349 --> 01:05:48,319

system

1944

01:05:50,950 --> 01:05:49,359

um

1945

01:05:53,349 --> 01:05:50,960

i think it's great yeah ir man that's

1946

01:05:55,349 --> 01:05:53,359

what works so well it seems like the big

1947

01:05:57,349 --> 01:05:55,359

asa right uh actively electronically

1948

01:06:00,230 --> 01:05:57,359

scanned array radars kind of have given

1949

01:06:01,750 --> 01:06:00,240

us point outs to these uaps and then ir

1950

01:06:03,109 --> 01:06:01,760

has really kind of gotten us our best

1951

01:06:06,230 --> 01:06:03,119

views of them

1952

01:06:08,870 --> 01:06:06,240

yeah so yeah basically james webb is a

1953

01:06:11,109 --> 01:06:08,880

giant super giant ir detector

1954

01:06:13,109 --> 01:06:11,119

in space you know so

1955

01:06:15,750 --> 01:06:13,119

yeah i'm very excited about it um

1956

01:06:17,670 --> 01:06:15,760

uapx super excited they just it sounds

1957

01:06:19,750 --> 01:06:17,680

like they had an nda that they that

1958

01:06:20,950 --> 01:06:19,760

they're waiting to end

1959

01:06:22,150 --> 01:06:20,960

yep um

1960

01:06:25,829 --> 01:06:22,160

so

1961

01:06:28,950 --> 01:06:25,839

march or april

1962

01:06:30,870 --> 01:06:28,960

april yeah and yeah

1963

01:06:32,549 --> 01:06:30,880

and kevin knew he's confirmed that

1964

01:06:35,109 --> 01:06:32,559

they're gonna

1965

01:06:37,029 --> 01:06:35,119

gonna release all the information

1966

01:06:38,789 --> 01:06:37,039

and i know he's still on i i invited him

1967

01:06:40,870 --> 01:06:38,799

onto my show actually i wanted to talk

1968

01:06:42,470 --> 01:06:40,880

to him um haven't heard back yet uh

1969

01:06:43,829 --> 01:06:42,480

hopefully he comes on

1970

01:06:45,270 --> 01:06:43,839

they will man

1971

01:06:47,510 --> 01:06:45,280

he's out there working

1972

01:06:49,029 --> 01:06:47,520

yeah yeah dude honestly just send him

1973

01:06:51,109 --> 01:06:49,039

another just a little give me a little

1974

01:06:53,109 --> 01:06:51,119

nudge

1975

01:06:56,069 --> 01:06:53,119

if i can get him you could get him man

1976

01:06:57,270 --> 01:06:56,079

has he been okay cool yeah

1977

01:06:59,029 --> 01:06:57,280

yeah so

1978

01:07:00,230 --> 01:06:59,039

yeah i really want to talk to him yeah

1979

01:07:01,589 --> 01:07:00,240

uapx

1980

01:07:03,670 --> 01:07:01,599

they seem awesome as well you know i've

1981

01:07:05,589 --> 01:07:03,680

talked to gary voorhees a little bit uh

1982

01:07:07,430 --> 01:07:05,599

but that's it and so i really want to

1983

01:07:08,309 --> 01:07:07,440

talk to kevin knuth

1984

01:07:10,069 --> 01:07:08,319

and

1985

01:07:11,589 --> 01:07:10,079

i know they've done out in the in that

1986

01:07:15,750 --> 01:07:11,599

area you're talking about i think down

1987

01:07:17,270 --> 01:07:15,760

in the southwest or south california

1988

01:07:18,309 --> 01:07:17,280

definitely

1989

01:07:20,150 --> 01:07:18,319

yeah so i

1990

01:07:22,549 --> 01:07:20,160

yeah i'm very happy for them congrats to

1991

01:07:24,470 --> 01:07:22,559

them on on their success so far and i

1992

01:07:27,589 --> 01:07:24,480

yeah i'm excited and then what was the

1993

01:07:33,510 --> 01:07:30,630

the uepx project uh galileo project yeah

1994

01:07:34,789 --> 01:07:33,520

i know if a few people um were working

1995

01:07:36,069 --> 01:07:34,799

on it

1996

01:07:38,390 --> 01:07:36,079

uh

1997

01:07:39,589 --> 01:07:38,400

kind of weird building weird antennas

1998

01:07:41,990 --> 01:07:39,599

and

1999

01:07:43,670 --> 01:07:42,000

transmitters you know in kind of secret

2000

01:07:45,910 --> 01:07:43,680

i know about that

2001

01:07:47,910 --> 01:07:45,920

um so i know there it seems like they're

2002

01:07:49,510 --> 01:07:47,920

being open-minded you know and people

2003

01:07:50,870 --> 01:07:49,520

are volunteering

2004

01:07:53,270 --> 01:07:50,880

they are using some of these people that

2005

01:07:55,510 --> 01:07:53,280

volunteer

2006

01:07:56,710 --> 01:07:55,520

but um yeah i'm curious what's their

2007

01:07:59,349 --> 01:07:56,720

time i want to beat them you know you

2008

01:08:00,870 --> 01:07:59,359

mentioned the sky 360. my goal

2009

01:08:02,549 --> 01:08:00,880

i hope they can't get its stuff out in

2010

01:08:03,349 --> 01:08:02,559

less than a year you know because that's

2011

01:08:05,430 --> 01:08:03,359

sure

2012

01:08:07,270 --> 01:08:05,440

kind of our timeline um

2013

01:08:09,190 --> 01:08:07,280

and just the final the final thought on

2014

01:08:10,789 --> 01:08:09,200

that is that the point to zoom so the

2015

01:08:13,430 --> 01:08:10,799

way we're gonna get around that or wait

2016

01:08:16,470 --> 01:08:13,440

sky 360 i didn't think of this sky 360

2017

01:08:18,470 --> 01:08:16,480

they have that initial fisheye camera

2018

01:08:21,110 --> 01:08:18,480

like like all sky has to find the

2019

01:08:23,669 --> 01:08:21,120

meteors but then real time

2020

01:08:25,269 --> 01:08:23,679

you have a zoom camera that can really

2021

01:08:26,630 --> 01:08:25,279

zoom in and so this thing will be on a

2022

01:08:28,149 --> 01:08:26,640

swivel

2023

01:08:30,229 --> 01:08:28,159

and you'll have the fisheye will point

2024

01:08:31,590 --> 01:08:30,239

out something weird like hey what is

2025

01:08:35,269 --> 01:08:31,600

that over there and then the point to

2026

01:08:37,349 --> 01:08:35,279

zoom real time points and zooms in

2027

01:08:39,030 --> 01:08:37,359

um so it's that that real time

2028

01:08:40,070 --> 01:08:39,040

processing you know like teslas have to

2029

01:08:41,669 --> 01:08:40,080

do that right because they're driving

2030

01:08:42,950 --> 01:08:41,679

down the road they have to immediately

2031

01:08:44,870 --> 01:08:42,960

label something

2032

01:08:46,709 --> 01:08:44,880

of course yeah so hopefully hopefully we

2033

01:08:48,630 --> 01:08:46,719

get that and

2034

01:08:50,390 --> 01:08:48,640

and i'm wondering what they're i i

2035

01:08:51,910 --> 01:08:50,400

believe that they're not working on that

2036

01:08:54,229 --> 01:08:51,920

level of stuff they're not they're

2037

01:08:55,990 --> 01:08:54,239

they're on larger systems

2038

01:08:58,709 --> 01:08:56,000

yeah um and so i'm aiming for the

2039

01:09:01,829 --> 01:08:58,719

grassroots kind of ied you know like

2040

01:09:04,229 --> 01:09:01,839

afghanistan iraq we couldn't beat the uh

2041

01:09:06,470 --> 01:09:04,239

improvised explosive devices right

2042

01:09:08,789 --> 01:09:06,480

they're just they're so simple they're

2043

01:09:11,430 --> 01:09:08,799

so effective and there's like

2044

01:09:13,349 --> 01:09:11,440

thousands of them you know you just even

2045

01:09:14,709 --> 01:09:13,359

if you have a technological advantage

2046

01:09:16,309 --> 01:09:14,719

like which we did we had a huge

2047

01:09:18,390 --> 01:09:16,319

technological advantage

2048

01:09:19,749 --> 01:09:18,400

sure billion of billions of dollars

2049

01:09:22,390 --> 01:09:19,759

advantage you know

2050

01:09:24,550 --> 01:09:22,400

over how many 20 years uh and we still

2051
01:09:25,349 --> 01:09:24,560
didn't solve the ied problem you know

2052
01:09:26,630 --> 01:09:25,359
yeah

2053
01:09:28,870 --> 01:09:26,640
and why because

2054
01:09:31,349 --> 01:09:28,880
they're everywhere uh they're very hard

2055
01:09:33,030 --> 01:09:31,359
to identify they're passive right so

2056
01:09:34,950 --> 01:09:33,040
they're not emitting anything it's hard

2057
01:09:36,309 --> 01:09:34,960
to so that's what i want to make is just

2058
01:09:38,229 --> 01:09:36,319
a passive

2059
01:09:40,950 --> 01:09:38,239
all the military you know the air force

2060
01:09:43,189 --> 01:09:40,960
people are like oh my god no i want to

2061
01:09:44,709 --> 01:09:43,199
make a passive system that

2062
01:09:47,349 --> 01:09:44,719
is cheap to build

2063
01:09:49,590 --> 01:09:47,359

and goes everywhere

2064

01:09:51,430 --> 01:09:49,600

and push whatever

2065

01:09:52,309 --> 01:09:51,440

if there's technological entities that

2066

01:09:53,829 --> 01:09:52,319

aren't

2067

01:09:56,470 --> 01:09:53,839

allowing us to see them or whatever

2068

01:09:58,870 --> 01:09:56,480

which is one thesis then okay let's push

2069

01:09:59,830 --> 01:09:58,880

the test right push the test like how

2070

01:10:00,630 --> 01:09:59,840

good is that

2071

01:10:02,550 --> 01:10:00,640

right

2072

01:10:04,390 --> 01:10:02,560

it's probably really good but there's

2073

01:10:06,070 --> 01:10:04,400

always there's always holes man there's

2074

01:10:07,350 --> 01:10:06,080

always holes like

2075

01:10:09,110 --> 01:10:07,360

unfortunately

2076

01:10:10,950 --> 01:10:09,120

yeah yeah i mean we learned this

2077

01:10:12,470 --> 01:10:10,960

firsthand with ieds i mean there's

2078

01:10:14,790 --> 01:10:12,480

always a way through and simple tech

2079

01:10:16,229 --> 01:10:14,800

works you know bullets still work you

2080

01:10:17,669 --> 01:10:16,239

know we're in the age of missiles and

2081

01:10:20,070 --> 01:10:17,679

all these things but man a bullet is

2082

01:10:22,070 --> 01:10:20,080

still very effective can't jam it

2083

01:10:23,750 --> 01:10:22,080

um yeah so

2084

01:10:26,950 --> 01:10:23,760

yeah that's the hope is to is really to

2085

01:10:29,270 --> 01:10:26,960

beat the galileo project so i i i it's i

2086

01:10:30,550 --> 01:10:29,280

think it's awesome that there's like um

2087

01:10:31,669 --> 01:10:30,560

a race you know i think of it like a

2088

01:10:35,270 --> 01:10:31,679

race

2089

01:10:36,149 --> 01:10:35,280

i i want to work with those guys you

2090

01:10:38,149 --> 01:10:36,159

know

2091

01:10:39,750 --> 01:10:38,159

of course but from a different angle i i

2092

01:10:42,149 --> 01:10:39,760

like the european angle you know i like

2093

01:10:45,430 --> 01:10:42,159

having maybe

2094

01:10:47,189 --> 01:10:45,440

i'm gonna you know disclosure europe

2095

01:10:48,550 --> 01:10:47,199

and and bringing out the points here

2096

01:10:49,830 --> 01:10:48,560

like

2097

01:10:52,709 --> 01:10:49,840

turkey

2098

01:10:53,830 --> 01:10:52,719

ufo um there's also been another

2099

01:10:55,270 --> 01:10:53,840

their big

2100

01:10:58,070 --> 01:10:55,280

fat

2101
01:10:59,510 --> 01:10:58,080
you've heard of that in um in portugal

2102
01:11:14,149 --> 01:10:59,520
yeah

2103
01:11:15,590 --> 01:11:14,159
what do you think what do you think is

2104
01:11:16,870 --> 01:11:15,600
going to come out are we going to get

2105
01:11:18,149 --> 01:11:16,880
dude

2106
01:11:20,630 --> 01:11:18,159
no i

2107
01:11:22,310 --> 01:11:20,640
i'm taking it one step at a time

2108
01:11:24,630 --> 01:11:22,320
um

2109
01:11:27,030 --> 01:11:24,640
yeah i have no expectations i'm keeping

2110
01:11:27,830 --> 01:11:27,040
them low if anything comes great but i'm

2111
01:11:30,470 --> 01:11:27,840
just going to keep having the

2112
01:11:32,709 --> 01:11:30,480
conversation talking to the right people

2113
01:11:34,790 --> 01:11:32,719

trying to bring as much as we can out as

2114

01:11:36,709 --> 01:11:34,800

it comes out and that's kind of how i

2115

01:11:38,149 --> 01:11:36,719

feel my job is obviously i'm going to go

2116

01:11:40,229 --> 01:11:38,159

and do some boots on the ground work

2117

01:11:42,470 --> 01:11:40,239

myself in colombia that's going to be

2118

01:11:46,390 --> 01:11:42,480

great yes what is this

2119

01:11:50,149 --> 01:11:48,390

no i haven't man no this is my first

2120

01:11:54,070 --> 01:11:50,159

opportunity to actually

2121

01:11:56,229 --> 01:11:54,080

work with a full crew with ex-cia

2122

01:11:58,870 --> 01:11:56,239

technological technology guys with

2123

01:12:01,270 --> 01:11:58,880

drones and lidar radar and all that kind

2124

01:12:03,110 --> 01:12:01,280

of crazy technology and

2125

01:12:05,110 --> 01:12:03,120

literally just run through experiments

2126
01:12:06,870 --> 01:12:05,120
to kind of try and find out some

2127
01:12:10,149 --> 01:12:06,880
explanations of this particular

2128
01:12:11,030 --> 01:12:10,159
phenomena in this small spot in colombia

2129
01:12:13,270 --> 01:12:11,040
so

2130
01:12:15,110 --> 01:12:13,280
i guess we'll see

2131
01:12:17,350 --> 01:12:15,120
that's awesome man yeah it's

2132
01:12:19,350 --> 01:12:17,360
that's exciting um

2133
01:12:21,430 --> 01:12:19,360
yeah that's great it's tough to do

2134
01:12:23,350 --> 01:12:21,440
multiple things though you find you know

2135
01:12:24,790 --> 01:12:23,360
because you're talking about it

2136
01:12:27,590 --> 01:12:24,800
it takes a lot of time to do all the

2137
01:12:29,669 --> 01:12:27,600
videos and everything and then and then

2138
01:12:30,870 --> 01:12:29,679

trying to do other investigations yeah i

2139

01:12:32,070 --> 01:12:30,880

find getting pulled in different

2140

01:12:33,830 --> 01:12:32,080

directions so

2141

01:12:35,430 --> 01:12:33,840

it's kind of good it's good i'm gonna

2142

01:12:37,270 --> 01:12:35,440

have this and then know to focus on

2143

01:12:39,030 --> 01:12:37,280

turkey ufo etc

2144

01:12:40,709 --> 01:12:39,040

nah that's good man so what about you

2145

01:12:42,709 --> 01:12:40,719

man before we finish up and say goodbye

2146

01:12:45,830 --> 01:12:42,719

what have you got coming up for

2147

01:12:47,990 --> 01:12:45,840

the foreseeable future if anything

2148

01:12:49,669 --> 01:12:48,000

um so friday i'm interviewing leslie

2149

01:12:50,550 --> 01:12:49,679

keane

2150

01:12:53,270 --> 01:12:50,560

author

2151

01:12:55,189 --> 01:12:53,280

yeah she wrote ufos generals

2152

01:12:57,030 --> 01:12:55,199

and government officials go on the

2153

01:12:58,630 --> 01:12:57,040

record ufo generals pilots and

2154

01:13:00,149 --> 01:12:58,640

government officials go on the record

2155

01:13:02,149 --> 01:13:00,159

yeah great book

2156

01:13:03,910 --> 01:13:02,159

i have it right next to me

2157

01:13:05,430 --> 01:13:03,920

do you really yeah i do yeah yeah i've

2158

01:13:06,470 --> 01:13:05,440

got a massive pile of books that i need

2159

01:13:08,390 --> 01:13:06,480

to get through

2160

01:13:10,070 --> 01:13:08,400

do you want me to ask her anything oh

2161

01:13:12,470 --> 01:13:10,080

you haven't read it yet

2162

01:13:14,110 --> 01:13:12,480

no i haven't i haven't read it yet

2163

01:13:15,350 --> 01:13:14,120

just ask her to email me

2164

01:13:17,430 --> 01:13:15,360

[Laughter]

2165

01:13:19,270 --> 01:13:17,440

email you a summary of the book it's

2166

01:13:21,110 --> 01:13:19,280

excellent man no email me to tell her i

2167

01:13:21,990 --> 01:13:21,120

want to speak to her i want to interview

2168

01:13:23,510 --> 01:13:22,000

her um

2169

01:13:25,110 --> 01:13:23,520

i'm still kind of new but i've been

2170

01:13:26,470 --> 01:13:25,120

trying to get through them as much as i

2171

01:13:28,229 --> 01:13:26,480

can and that

2172

01:13:29,750 --> 01:13:28,239

well especially from a pilot perspective

2173

01:13:31,750 --> 01:13:29,760

there's just a ton of pilot stories in

2174

01:13:33,750 --> 01:13:31,760

there there's some good ones from the uk

2175

01:13:36,390 --> 01:13:33,760

the guernsey ones in there

2176

01:13:38,229 --> 01:13:36,400

wow great story yeah every every

2177

01:13:40,550 --> 01:13:38,239

case yeah every chapter is pretty good

2178

01:13:41,830 --> 01:13:40,560

um so yeah i'm talking to her talking to

2179

01:13:43,590 --> 01:13:41,840

her on

2180

01:13:45,350 --> 01:13:43,600

uh friday and then so that should be out

2181

01:13:46,950 --> 01:13:45,360

next week uh writing for the portugal

2182

01:13:49,990 --> 01:13:46,960

news as well

2183

01:13:51,910 --> 01:13:50,000

wow so yeah i think in five months i'll

2184

01:13:53,270 --> 01:13:51,920

get a press pass

2185

01:13:55,270 --> 01:13:53,280

you know so uh

2186

01:13:57,189 --> 01:13:55,280

in turkey maybe get through cut through

2187

01:13:59,590 --> 01:13:57,199

some lines

2188

01:14:01,830 --> 01:13:59,600

dude that's awesome man

2189

01:14:03,430 --> 01:14:01,840

yep exactly and then

2190

01:14:05,189 --> 01:14:03,440

yes turkey ufo

2191

01:14:07,110 --> 01:14:05,199

and then really i'm spending a lot of my

2192

01:14:08,390 --> 01:14:07,120

time on on this i'm working on nft

2193

01:14:14,709 --> 01:14:08,400

project

2194

01:14:17,510 --> 01:14:14,719

that can fund the sky 360 uh initiative

2195

01:14:19,430 --> 01:14:17,520

the avenger initiative you know

2196

01:14:22,149 --> 01:14:19,440

that's what i've been spending a lot of

2197

01:14:24,390 --> 01:14:22,159

you know if i'm not um investigating um

2198

01:14:26,950 --> 01:14:24,400

then i'm working on the nft project

2199

01:14:28,550 --> 01:14:26,960

to try and fund it

2200

01:14:29,990 --> 01:14:28,560

awesome man

2201

01:14:32,229 --> 01:14:30,000

yeah

2202

01:14:33,669 --> 01:14:32,239

i love it absolutely and i i'll put all

2203

01:14:35,030 --> 01:14:33,679

your links in the description of the

2204

01:14:37,430 --> 01:14:35,040

video so everyone can come and follow

2205

01:14:39,510 --> 01:14:37,440

you check out your work subscribe follow

2206

01:14:41,510 --> 01:14:39,520

and and everything but i have to just

2207

01:14:43,189 --> 01:14:41,520

thank you so much for joining me um i've

2208

01:14:45,830 --> 01:14:43,199

had a great conversation a great start

2209

01:14:48,310 --> 01:14:45,840

to 2022. so thank you so much excellent

2210

01:14:50,149 --> 01:14:48,320

man sorry about my technical

2211

01:14:51,590 --> 01:14:50,159

technical issues but always great to

2212

01:14:54,870 --> 01:14:51,600

have you man thanks thanks for inviting

2213

01:14:57,669 --> 01:14:54,880

me on and uh good luck in colombia

2214

01:15:01,189 --> 01:14:59,669

we'll speak behind the scenes man

2215

01:15:03,030 --> 01:15:01,199

awesome

2216

01:15:05,430 --> 01:15:03,040

all right chris for now take care my

2217

01:15:07,110 --> 01:15:05,440

friend and uh we'll speak soon

2218

01:15:10,790 --> 01:15:07,120

all right and thanks everybody watching

2219

01:15:11,910 --> 01:15:10,800

uh take care see ya

2220

01:15:14,070 --> 01:15:11,920

awesome

2221

01:15:16,149 --> 01:15:14,080

oh man that was great

2222

01:15:17,830 --> 01:15:16,159

we had these things happen these

2223

01:15:20,470 --> 01:15:17,840

technical issues but we got through the

2224

01:15:22,630 --> 01:15:20,480

majority of that conversation um

2225

01:15:24,630 --> 01:15:22,640

absolutely fantastic

2226

01:15:26,790 --> 01:15:24,640

um i had a blast it's a great first

2227

01:15:29,030 --> 01:15:26,800

showback for 2022.

2228

01:15:30,950 --> 01:15:29,040

i'm really hyped for what we got coming

2229

01:15:33,110 --> 01:15:30,960

up so um

2230

01:15:35,910 --> 01:15:33,120

yeah guys thank you so much for everyone

2231

01:15:37,910 --> 01:15:35,920

in the live chat and i guess everyone

2232

01:15:39,510 --> 01:15:37,920

that will listen to this afterwards this

2233

01:15:40,630 --> 01:15:39,520

will be going out through that ufo

2234

01:15:44,870 --> 01:15:40,640

podcast

2235

01:15:46,870 --> 01:15:44,880

in the next few days

2236

01:15:48,950 --> 01:15:46,880

so yeah excited for that that

2237

01:15:51,669 --> 01:15:48,960

collaboration that will become the

2238

01:15:53,910 --> 01:15:51,679

anomalous podcast network in february

2239

01:15:56,229 --> 01:15:53,920

i'm so happy to be a part of that uh

2240

01:15:57,990 --> 01:15:56,239

such great dudes andy dan and and all

2241

01:16:00,229 --> 01:15:58,000

the other shows that are going to be on

2242

01:16:02,149 --> 01:16:00,239

the network graeme rendell and dave

2243

01:16:04,390 --> 01:16:02,159

partridge's new show

2244

01:16:06,630 --> 01:16:04,400

dan zetterstrom the signal's got his own

2245

01:16:09,350 --> 01:16:06,640

podcast coming out and then

2246

01:16:11,669 --> 01:16:09,360

priscilla quantum witch cafe is a part

2247

01:16:13,990 --> 01:16:11,679

of the network as well so so much stuff

2248

01:16:16,470 --> 01:16:14,000

for you guys to dig into

2249

01:16:18,550 --> 01:16:16,480

um as far as this youtube channel on

2250

01:16:20,229 --> 01:16:18,560

saturday i'm going to be premiering

2251
01:16:23,750 --> 01:16:20,239
premiering an interview with adam

2252
01:16:26,870 --> 01:16:23,760
goldsack from uap media uk

2253
01:16:29,830 --> 01:16:26,880
um a huge advocate for

2254
01:16:31,590 --> 01:16:29,840
the uop subject through twitter and

2255
01:16:33,750 --> 01:16:31,600
and things like that you probably or you

2256
01:16:35,750 --> 01:16:33,760
might know him as andreas freeman's

2257
01:16:37,990 --> 01:16:35,760
style on twitter if you're a part of the

2258
01:16:39,350 --> 01:16:38,000
ufo twitter community so that i'm

2259
01:16:40,790 --> 01:16:39,360
recording that interview tomorrow but

2260
01:16:41,910 --> 01:16:40,800
we're going to drop it as a premiere on

2261
01:16:44,390 --> 01:16:41,920
saturday

2262
01:16:46,070 --> 01:16:44,400
um next week

2263
01:16:48,310 --> 01:16:46,080

i think it's next week i'll put the

2264

01:16:50,709 --> 01:16:48,320

dates out on my social medias um i'm

2265

01:16:52,709 --> 01:16:50,719

interviewing gunter hofer gunther i had

2266

01:16:56,229 --> 01:16:52,719

on the channel last year to discuss the

2267

01:16:58,070 --> 01:16:56,239

ariel school case in zimbabwe from 1994.

2268

01:16:59,990 --> 01:16:58,080

he was a part of the research team that

2269

01:17:03,669 --> 01:17:00,000

were on site a couple of days after that

2270

01:17:05,830 --> 01:17:03,679

case with john mack um cynthia hind

2271

01:17:07,990 --> 01:17:05,840

so gunther's coming back on next week to

2272

01:17:10,310 --> 01:17:08,000

discuss other cases in africa over the

2273

01:17:11,990 --> 01:17:10,320

decades so a lot of cases that we've not

2274

01:17:14,070 --> 01:17:12,000

heard about before so i'm certainly

2275

01:17:16,630 --> 01:17:14,080

going to learn a lot from that

2276

01:17:18,950 --> 01:17:16,640

that same week i'm gonna have a round

2277

01:17:20,470 --> 01:17:18,960

table with the guys from uapx that we

2278

01:17:22,870 --> 01:17:20,480

chatted about tonight so i'm gonna have

2279

01:17:24,790 --> 01:17:22,880

gary voorhees i'm gonna have jason

2280

01:17:27,669 --> 01:17:24,800

turner um and some of the other guys

2281

01:17:29,669 --> 01:17:27,679

hopefully join us for a panel discussion

2282

01:17:31,510 --> 01:17:29,679

uh on what you apx have been up to in

2283

01:17:33,350 --> 01:17:31,520

2021 what we've got to look forward to

2284

01:17:36,149 --> 01:17:33,360

in 2022

2285

01:17:38,950 --> 01:17:36,159

then on the 17th i am going to be live

2286

01:17:41,430 --> 01:17:38,960

with a colonel john alexander

2287

01:17:43,030 --> 01:17:41,440

from ned's skinwalker ranch remote

2288

01:17:45,110 --> 01:17:43,040

viewing the guy's a legend in this

2289

01:17:47,270 --> 01:17:45,120

subject we don't get to hear from him

2290

01:17:48,950 --> 01:17:47,280

that often so i'm really blessed to be

2291

01:17:50,709 --> 01:17:48,960

able to speak to him we just haven't

2292

01:17:52,149 --> 01:17:50,719

decided if it's going to be live here on

2293

01:17:54,229 --> 01:17:52,159

youtube or if we're going to put it out

2294

01:17:55,590 --> 01:17:54,239

a little bit later as a premiere as well

2295

01:17:56,870 --> 01:17:55,600

but you guys if you follow me on my

2296

01:17:59,030 --> 01:17:56,880

social medias you'll get all that

2297

01:18:01,270 --> 01:17:59,040

information and i guess that's it i just

2298

01:18:03,030 --> 01:18:01,280

want to say thank you this has been my

2299

01:18:04,870 --> 01:18:03,040

first video back from the new year so it

2300

01:18:05,990 --> 01:18:04,880

feels a little bit new again

2301

01:18:08,070 --> 01:18:06,000

thank you to everyone that's watched

2302

01:18:08,950 --> 01:18:08,080

tonight live and for everyone that hears

2303

01:18:12,310 --> 01:18:08,960

this

2304

01:18:14,229 --> 01:18:12,320

going out on the podcast audio only

2305

01:18:15,270 --> 01:18:14,239

thank you for tuning in and i look

2306

01:18:17,350 --> 01:18:15,280

forward to

2307

01:18:20,229 --> 01:18:17,360

you guys being with me for my journey
