

**UAPXX**

**PANEL**

1  
00:00:00,520 --> 00:00:30,710

[Music]

2  
00:00:35,590 --> 00:00:33,030

how's it going everybody

3  
00:00:38,950 --> 00:00:35,600

it is friday it's friday night here in

4  
00:00:43,590 --> 00:00:38,960

the uk so i put a shirt on

5  
00:00:47,270 --> 00:00:45,029

how is everyone today i hope you're all

6  
00:00:48,869 --> 00:00:47,280

doing good good to see so many many of

7  
00:00:50,310 --> 00:00:48,879

you in the live chat there i really

8  
00:00:52,549 --> 00:00:50,320

appreciate it

9  
00:00:54,069 --> 00:00:52,559

um

10  
00:00:56,470 --> 00:00:54,079

uh yeah i'm just checking all my

11  
00:00:59,270 --> 00:00:56,480

settings everything's looking good

12  
00:01:00,869 --> 00:00:59,280

so before we uh bring some guests on i

13  
00:01:04,149 --> 00:01:00,879

just wanted to say i'm looking forward

14

00:01:06,230 --> 00:01:04,159

to speaking to these guys tonight uapx

15

00:01:08,870 --> 00:01:06,240

is an organization that i've um

16

00:01:10,630 --> 00:01:08,880

supported from from the start really i

17

00:01:12,550 --> 00:01:10,640

think we need more people like this

18

00:01:13,670 --> 00:01:12,560

doing the work

19

00:01:14,710 --> 00:01:13,680

and they've certainly been putting the

20

00:01:15,910 --> 00:01:14,720

work in

21

00:01:17,109 --> 00:01:15,920

now this is going to be a bit of a

22

00:01:18,950 --> 00:01:17,119

mixture of a conversation we're going to

23

00:01:20,310 --> 00:01:18,960

be talking about serious stuff but also

24

00:01:23,109 --> 00:01:20,320

just want to have

25

00:01:24,310 --> 00:01:23,119

an organic conversation you know

26

00:01:26,550 --> 00:01:24,320

so um

27

00:01:28,390 --> 00:01:26,560

please keep it cool and calm and

28

00:01:30,310 --> 00:01:28,400

collected in the chat

29

00:01:31,910 --> 00:01:30,320

um and we'll get through this without

30

00:01:35,510 --> 00:01:31,920

any hiccups so

31

00:01:38,310 --> 00:01:35,520

yeah thank you guys so let's uh

32

00:01:40,469 --> 00:01:38,320

let's bring in some some chaps first of

33

00:01:43,350 --> 00:01:40,479

all i'd like to introduce mr jeremy

34

00:01:45,990 --> 00:01:43,360

mcgowan jeremy how are you i am doing

35

00:01:47,590 --> 00:01:46,000

great vinnie how are you doing i'm not

36

00:01:50,469 --> 00:01:47,600

bad at all my friend thank you so much

37

00:01:51,910 --> 00:01:50,479

for for joining me tonight um

38

00:01:55,429 --> 00:01:51,920

let's bring in

39

00:01:57,190 --> 00:01:55,439

mr jason turner how's it going man how

40

00:02:00,630 --> 00:01:57,200

are you doing

41

00:02:02,800 --> 00:02:00,640

uh let's bring in mr garyvoor he's oh

42

00:02:05,429 --> 00:02:02,810

we can't because he is fashionably late

43

00:02:06,550 --> 00:02:05,439

[Laughter]

44

00:02:08,710 --> 00:02:06,560

of course

45

00:02:10,469 --> 00:02:08,720

as always as always

46

00:02:13,750 --> 00:02:10,479

i'm pretty sure this happened last time

47

00:02:15,350 --> 00:02:13,760

as well but gary we you know

48

00:02:17,750 --> 00:02:15,360

i can give that to him it's cool he's

49

00:02:19,910 --> 00:02:17,760

allowed he's the he's the president el

50

00:02:22,869 --> 00:02:19,920

presidente

51  
00:02:24,070 --> 00:02:22,879  
he's mr mom

52  
00:02:25,430 --> 00:02:24,080  
i'll tell you what

53  
00:02:27,510 --> 00:02:25,440  
just for you brother i'll send him a

54  
00:02:29,110 --> 00:02:27,520  
text message and yell at him

55  
00:02:30,949 --> 00:02:29,120  
do it man do it actually i should have

56  
00:02:33,990 --> 00:02:30,959  
checked her

57  
00:02:35,990 --> 00:02:34,000  
yeah that's all good so um

58  
00:02:37,430 --> 00:02:36,000  
yeah i like i spoke to you guys just

59  
00:02:38,630 --> 00:02:37,440  
just before now and i said i wanted this

60  
00:02:40,309 --> 00:02:38,640  
to be a bit more of an organic

61  
00:02:41,910 --> 00:02:40,319  
conversation because

62  
00:02:43,990 --> 00:02:41,920  
we can talk about certain things with

63  
00:02:46,390 --> 00:02:44,000

regards to the

64

00:02:48,790 --> 00:02:46,400

uapx but we know that

65

00:02:50,630 --> 00:02:48,800

currently you're under an nda

66

00:02:52,710 --> 00:02:50,640

so maybe we should just remind people

67

00:02:54,710 --> 00:02:52,720

about that if either one of you wants to

68

00:02:57,190 --> 00:02:54,720

just just remind

69

00:02:59,750 --> 00:02:57,200

how that started and where we're at and

70

00:03:01,830 --> 00:02:59,760

how long's left just a brief kind of

71

00:03:04,229 --> 00:03:01,840

overview let's say

72

00:03:06,869 --> 00:03:04,239

yeah so basically uh we're going to have

73

00:03:08,869 --> 00:03:06,879

to be very

74

00:03:10,309 --> 00:03:08,879

choosy in our descriptions right now

75

00:03:12,949 --> 00:03:10,319

we've gotten

76

00:03:15,830 --> 00:03:12,959

a secondary directive to not really

77

00:03:17,910 --> 00:03:15,840

discuss anything about

78

00:03:20,949 --> 00:03:17,920

the reason that we're under an nda the

79

00:03:21,990 --> 00:03:20,959

information is out there previously

80

00:03:24,070 --> 00:03:22,000

but

81

00:03:26,470 --> 00:03:24,080

suffice it to say that our primary

82

00:03:28,229 --> 00:03:26,480

expedition that we've completed was

83

00:03:31,430 --> 00:03:28,239

privately funded

84

00:03:33,589 --> 00:03:31,440

and because we received private funding

85

00:03:36,229 --> 00:03:33,599

for that expedition

86

00:03:37,990 --> 00:03:36,239

the individual or group who gave us the

87

00:03:40,470 --> 00:03:38,000

money to do that

88

00:03:41,270 --> 00:03:40,480

required a very specific mba

89

00:03:43,589 --> 00:03:41,280

for

90

00:03:46,390 --> 00:03:43,599

a while let me see if i can adjust the

91

00:03:49,670 --> 00:03:46,400

gain on my mic

92

00:03:51,110 --> 00:03:49,680

is that any better testing one two

93

00:03:52,869 --> 00:03:51,120

so

94

00:03:55,990 --> 00:03:52,879

vinnie you're you're muted as well i'm

95

00:03:58,830 --> 00:03:56,000

on mute as well how amateurish uh

96

00:04:01,830 --> 00:03:58,840

sorry gary gary you're on mute by the

97

00:04:03,990 --> 00:04:01,840

way i think he's on his phone

98

00:04:06,309 --> 00:04:04,000

and i think he's frozen

99

00:04:08,710 --> 00:04:06,319

oh no he's not frozen

100

00:04:13,350 --> 00:04:08,720

oh the joys are the joys of stream yard

101  
00:04:17,189 --> 00:04:15,190  
yeah so what i was saying is is

102  
00:04:19,349 --> 00:04:17,199  
basically due to

103  
00:04:21,830 --> 00:04:19,359  
the individual and group who privately

104  
00:04:24,790 --> 00:04:21,840  
funded us they had a requirement uh that

105  
00:04:27,670 --> 00:04:24,800  
we we sit on any announcements or

106  
00:04:30,629 --> 00:04:27,680  
publications until a very specific date

107  
00:04:33,670 --> 00:04:30,639  
so we can't uh really discuss it or or

108  
00:04:36,550 --> 00:04:33,680  
or talk about it our goal in the future

109  
00:04:38,870 --> 00:04:36,560  
is to raise enough money

110  
00:04:41,510 --> 00:04:38,880  
to be able to conduct these expeditions

111  
00:04:42,950 --> 00:04:41,520  
without having to be encumbered by these

112  
00:04:44,230 --> 00:04:42,960  
ndas

113  
00:04:45,909 --> 00:04:44,240

yeah that makes sense and i mean it's

114

00:04:48,629 --> 00:04:45,919

fully understandable you're an

115

00:04:50,469 --> 00:04:48,639

organization that

116

00:04:51,909 --> 00:04:50,479

needed help i suppose

117

00:04:53,909 --> 00:04:51,919

i mean i don't know how else to put it

118

00:04:56,469 --> 00:04:53,919

with with no funds coming in from

119

00:04:58,469 --> 00:04:56,479

anywhere the opportunity to be able to

120

00:05:00,710 --> 00:04:58,479

be funded to go and do an expedition or

121

00:05:01,909 --> 00:05:00,720

research or anything like that

122

00:05:04,230 --> 00:05:01,919

i guess you have to take those

123

00:05:07,110 --> 00:05:04,240

opportunities so for me personally i

124

00:05:10,710 --> 00:05:09,029

i am having some microphone problems so

125

00:05:11,430 --> 00:05:10,720

you guys take it over until i can fix

126  
00:05:13,830 --> 00:05:11,440  
this

127  
00:05:15,110 --> 00:05:13,840  
yep cool no worries um

128  
00:05:15,640 --> 00:05:15,120  
jason

129  
00:05:19,189 --> 00:05:15,650  
yeah yeah

130  
00:05:20,710 --> 00:05:19,199  
[Laughter]

131  
00:05:23,749 --> 00:05:20,720  
how you doing man

132  
00:05:25,350 --> 00:05:23,759  
i'm alive a little colder

133  
00:05:27,110 --> 00:05:25,360  
it's cold yeah yeah we're supposed to

134  
00:05:28,469 --> 00:05:27,120  
get slammed this weekend with some snow

135  
00:05:30,469 --> 00:05:28,479  
but

136  
00:05:32,550 --> 00:05:30,479  
the joy's living in the mountains

137  
00:05:34,150 --> 00:05:32,560  
nice man

138  
00:05:40,550 --> 00:05:34,160

gary can you hear us give us a thumbs up

139

00:05:44,950 --> 00:05:42,150

you caught me like

140

00:05:45,830 --> 00:05:44,960

right as i'm about to travel

141

00:05:48,390 --> 00:05:45,840

so

142

00:05:56,870 --> 00:05:48,400

i've got kids running around i've got

143

00:06:02,309 --> 00:05:59,110

that was that was jeremy

144

00:06:03,270 --> 00:06:02,319

did i fix it no yeah

145

00:06:05,590 --> 00:06:03,280

no

146

00:06:07,670 --> 00:06:05,600

wait yeah you did i think testing

147

00:06:09,029 --> 00:06:07,680

testing one yeah that's a lot better a

148

00:06:10,390 --> 00:06:09,039

lot better okay

149

00:06:12,070 --> 00:06:10,400

sorry gary

150

00:06:14,790 --> 00:06:12,080

hold on

151  
00:06:16,710 --> 00:06:14,800  
i think gary's muting himself there yeah

152  
00:06:22,230 --> 00:06:16,720  
sorry guys my yeah i'm about to have the

153  
00:06:26,950 --> 00:06:23,749  
you know this is the joys of live

154  
00:06:28,950 --> 00:06:26,960  
streaming so it's all good

155  
00:06:30,469 --> 00:06:28,960  
gary um we were just

156  
00:06:33,029 --> 00:06:30,479  
the first thing we just jeremy just

157  
00:06:35,749 --> 00:06:33,039  
spoke about was um well i sort of

158  
00:06:37,110 --> 00:06:35,759  
started by saying that i was fully aware

159  
00:06:39,590 --> 00:06:37,120  
and i think a lot of people are that

160  
00:06:40,870 --> 00:06:39,600  
you're currently under an nda so i

161  
00:06:42,710 --> 00:06:40,880  
didn't expect you guys to be able to

162  
00:06:44,629 --> 00:06:42,720  
come on here and give us any huge

163  
00:06:45,909 --> 00:06:44,639

revelations or talk about anything you

164

00:06:48,309 --> 00:06:45,919

did with your expeditions that were

165

00:06:50,070 --> 00:06:48,319

funded

166

00:06:52,150 --> 00:06:50,080

and then jeremy just gave us a brief

167

00:06:53,110 --> 00:06:52,160

reminder of how that sort of came about

168

00:06:55,189 --> 00:06:53,120

i don't know if there's anything you

169

00:06:56,790 --> 00:06:55,199

want to add to that you know as you were

170

00:06:59,189 --> 00:06:56,800

funded to go out and do

171

00:07:00,870 --> 00:06:59,199

an expedition as it were

172

00:07:03,189 --> 00:07:00,880

totally understand

173

00:07:05,430 --> 00:07:03,199

yeah yeah we can't really talk about the

174

00:07:07,749 --> 00:07:05,440

uh the apparently we can't talk about

175

00:07:10,230 --> 00:07:07,759

what it is either anymore according to

176

00:07:12,469 --> 00:07:10,240

the person that uh

177

00:07:14,710 --> 00:07:12,479

either way we may or may not have done

178

00:07:18,309 --> 00:07:14,720

something that was paid for by somebody

179

00:07:19,909 --> 00:07:18,319

at one time with our equipment

180

00:07:21,749 --> 00:07:19,919

nice and clean do you think that'll

181

00:07:23,589 --> 00:07:21,759

cover the nba guys

182

00:07:24,710 --> 00:07:23,599

yeah that's that was the short version

183

00:07:25,990 --> 00:07:24,720

of what i said

184

00:07:27,830 --> 00:07:26,000

yeah of course people couldn't hear me

185

00:07:30,469 --> 00:07:27,840

when i said it so

186

00:07:32,629 --> 00:07:30,479

but uh basically in a nutshell uh be on

187

00:07:35,189 --> 00:07:32,639

the lookout for something from us around

188

00:07:36,870 --> 00:07:35,199

uh april may time frame

189

00:07:39,990 --> 00:07:36,880

um

190

00:07:41,830 --> 00:07:40,000

once once that drops then

191

00:07:43,430 --> 00:07:41,840

uh we're gonna be able to be a lot more

192

00:07:44,629 --> 00:07:43,440

candid about

193

00:07:46,790 --> 00:07:44,639

what we have

194

00:07:47,990 --> 00:07:46,800

and uh the only thing i wanted yeah

195

00:07:50,790 --> 00:07:48,000

there's a rumor out there that we have

196

00:07:52,550 --> 00:07:50,800

like 600 hours of like raw footage of

197

00:07:55,749 --> 00:07:52,560

just ufos

198

00:07:57,189 --> 00:07:55,759

uh or uap uh that's uh that's a bit

199

00:08:02,869 --> 00:07:57,199

exaggerated

200

00:08:06,390 --> 00:08:04,550

data but

201  
00:08:08,309 --> 00:08:06,400  
it has not been

202  
00:08:10,230 --> 00:08:08,319  
analyzed and we don't know exactly

203  
00:08:11,749 --> 00:08:10,240  
what's on everything yet

204  
00:08:13,110 --> 00:08:11,759  
yeah i saw a couple of clickbait

205  
00:08:15,990 --> 00:08:13,120  
headlines like

206  
00:08:17,510 --> 00:08:16,000  
scientific group has 600 hours of ufo

207  
00:08:20,150 --> 00:08:17,520  
for i mean i saw them when they dropped

208  
00:08:21,670 --> 00:08:20,160  
and i was like oh no this is gonna

209  
00:08:23,350 --> 00:08:21,680  
this is gonna look bad people are gonna

210  
00:08:25,510 --> 00:08:23,360  
start getting the wrong impression and

211  
00:08:27,029 --> 00:08:25,520  
you know how things spread and yeah i

212  
00:08:30,390 --> 00:08:27,039  
know it was funny too because when we

213  
00:08:32,949 --> 00:08:30,400

crafted that press release it was

214

00:08:34,790 --> 00:08:32,959

everybody on the entire uapx team read

215

00:08:36,709 --> 00:08:34,800

the press release gave their edits we

216

00:08:39,110 --> 00:08:36,719

had our physicists look at it

217

00:08:41,990 --> 00:08:39,120

we all approved of the wording that was

218

00:08:44,389 --> 00:08:42,000

in the press release and then within

219

00:08:47,910 --> 00:08:44,399

minutes of that thing dropping people

220

00:08:49,829 --> 00:08:47,920

had taken uh the the tag lines and

221

00:08:52,550 --> 00:08:49,839

changed them to make it sound like

222

00:08:53,670 --> 00:08:52,560

something that it was totally not yeah

223

00:08:55,350 --> 00:08:53,680

yeah

224

00:08:57,030 --> 00:08:55,360

didn't take him long at all i mean i saw

225

00:08:58,150 --> 00:08:57,040

it that morning i mean it was morning

226  
00:09:00,310 --> 00:08:58,160  
for me

227  
00:09:03,430 --> 00:09:00,320  
woke up saw the press release posted it

228  
00:09:05,910 --> 00:09:03,440  
and even i was seeing things within

229  
00:09:09,350 --> 00:09:05,920  
30 to 60 minutes like

230  
00:09:12,710 --> 00:09:09,360  
no this is not what it says like come on

231  
00:09:16,389 --> 00:09:14,070  
just to get to

232  
00:09:17,829 --> 00:09:16,399  
to to the point of disclosure that they

233  
00:09:20,870 --> 00:09:17,839  
you know that

234  
00:09:22,630 --> 00:09:20,880  
i don't know and it's also to

235  
00:09:25,509 --> 00:09:22,640  
generate you know traffic to their

236  
00:09:27,750 --> 00:09:25,519  
websites of course so yeah a lot of

237  
00:09:29,750 --> 00:09:27,760  
times you gotta you've really gotta just

238  
00:09:32,230 --> 00:09:29,760

use your discernment

239

00:09:33,269 --> 00:09:32,240

yeah and you know to be to be clear

240

00:09:35,269 --> 00:09:33,279

we

241

00:09:37,430 --> 00:09:35,279

during

242

00:09:39,030 --> 00:09:37,440

at least two expeditions that we've gone

243

00:09:42,230 --> 00:09:39,040

on we have collected

244

00:09:45,509 --> 00:09:42,240

hundreds of hours of video

245

00:09:48,230 --> 00:09:45,519

yeah it's almost impossible for anybody

246

00:09:49,509 --> 00:09:48,240

any group anywhere to analyze things in

247

00:09:51,750 --> 00:09:49,519

real time

248

00:09:53,750 --> 00:09:51,760

so when we go on an expedition we have

249

00:09:56,070 --> 00:09:53,760

all of our equipment you know pointed at

250

00:09:58,150 --> 00:09:56,080

the sky our cameras are rolling and

251  
00:09:59,590 --> 00:09:58,160  
they're rolling for 24 hours a day seven

252  
00:10:01,990 --> 00:09:59,600  
days a week or as long as we're out

253  
00:10:05,269 --> 00:10:02,000  
there so obviously we're going to have

254  
00:10:08,710 --> 00:10:05,279  
hundreds upon hundreds of hours of video

255  
00:10:11,750 --> 00:10:08,720  
now it's the onus is up on us

256  
00:10:13,670 --> 00:10:11,760  
to sift through the video use the custom

257  
00:10:16,829 --> 00:10:13,680  
code that our physicists are developing

258  
00:10:20,069 --> 00:10:16,839  
and attempt to find

259  
00:10:21,910 --> 00:10:20,079  
anomalous objects in in the video um

260  
00:10:23,430 --> 00:10:21,920  
when we do that then we go through you

261  
00:10:25,269 --> 00:10:23,440  
know standard procedures to try to

262  
00:10:26,870 --> 00:10:25,279  
explain all of those

263  
00:10:29,590 --> 00:10:26,880

what we're left with

264

00:10:32,470 --> 00:10:29,600

is it remains to be you know known until

265

00:10:34,550 --> 00:10:32,480

we've finished the analysis so while

266

00:10:37,110 --> 00:10:34,560

everybody is saying we have 600 and some

267

00:10:39,590 --> 00:10:37,120

hours of ufo video that's not true we

268

00:10:44,470 --> 00:10:39,600

have hundreds of hours of video from

269

00:10:45,509 --> 00:10:44,480

multiple locations of which we may have

270

00:10:48,150 --> 00:10:45,519

uap

271

00:10:49,990 --> 00:10:48,160

in there after our analysis

272

00:10:52,389 --> 00:10:50,000

yeah totally and these are not just

273

00:10:55,350 --> 00:10:52,399

videos are they isn't it multiple sensor

274

00:10:57,030 --> 00:10:55,360

systems too yes to some degree are you

275

00:10:57,990 --> 00:10:57,040

able to talk us through the kind of

276

00:11:00,389 --> 00:10:58,000

different

277

00:11:03,269 --> 00:11:00,399

systems and sensors that you have

278

00:11:04,230 --> 00:11:03,279

utilized not necessarily for

279

00:11:07,190 --> 00:11:04,240

the

280

00:11:09,750 --> 00:11:07,200

nda mission or expedition but in general

281

00:11:12,230 --> 00:11:09,760

what you've got or had access to in the

282

00:11:14,710 --> 00:11:12,240

last 12 months

283

00:11:16,870 --> 00:11:14,720

yeah we we've had a really good working

284

00:11:20,550 --> 00:11:16,880

relationship uh with a university who

285

00:11:22,630 --> 00:11:20,560

has uh kindly loaned us some equipment

286

00:11:26,150 --> 00:11:22,640

uh we've acquired equipment that was

287

00:11:29,590 --> 00:11:26,160

designed by uh some folks at mit

288

00:11:32,230 --> 00:11:29,600

which is a piece of tech that detects

289

00:11:32,870 --> 00:11:32,240

cosmic rays but more specifically muons

290

00:11:38,230 --> 00:11:32,880

and

291

00:11:40,870 --> 00:11:38,240

uh we utilize uh custom built quantum

292

00:11:42,550 --> 00:11:40,880

random number generators which are in

293

00:11:45,190 --> 00:11:42,560

place so that

294

00:11:46,630 --> 00:11:45,200

the idea to be clear we don't expect

295

00:11:48,710 --> 00:11:46,640

anything to show up on the quantum

296

00:11:51,030 --> 00:11:48,720

random number generator we just don't

297

00:11:53,269 --> 00:11:51,040

expect it but what it is is it's up and

298

00:11:57,350 --> 00:11:53,279

running and it's creating basically a

299

00:12:01,750 --> 00:11:57,360

stream of ones and zeros and

300

00:12:04,310 --> 00:12:01,760

the idea is that if a uap appears

301

00:12:07,269 --> 00:12:04,320

perhaps their propulsion system or

302

00:12:10,069 --> 00:12:07,279

something about it would cause some sort

303

00:12:12,310 --> 00:12:10,079

of quantum flux that affects the output

304

00:12:14,550 --> 00:12:12,320

of the quantum random number generator

305

00:12:17,670 --> 00:12:14,560

so when this is time stamped and synced

306

00:12:19,110 --> 00:12:17,680

with the uh the flair systems and

307

00:12:21,829 --> 00:12:19,120

the survey meters and everything else

308

00:12:24,310 --> 00:12:21,839

that we're using it just lends to be

309

00:12:27,030 --> 00:12:24,320

corroborating data but to be honest we

310

00:12:28,550 --> 00:12:27,040

don't expect it to show anything

311

00:12:29,829 --> 00:12:28,560

so you've got flare systems you just

312

00:12:31,990 --> 00:12:29,839

mentioned i assume you've just got

313

00:12:34,470 --> 00:12:32,000

standard video are there any other

314

00:12:36,470 --> 00:12:34,480

spectrums of vision i mean i'm not very

315

00:12:38,389 --> 00:12:36,480

technical so forgive me but are there

316

00:12:39,269 --> 00:12:38,399

any other you know things like that that

317

00:12:40,949 --> 00:12:39,279

are

318

00:12:43,670 --> 00:12:40,959

pointed upwards as well

319

00:12:45,829 --> 00:12:43,680

oh yeah unfortunately we can't quite go

320

00:12:47,910 --> 00:12:45,839

into a lot of that just because it's

321

00:12:49,750 --> 00:12:47,920

kind of content for the

322

00:12:52,230 --> 00:12:49,760

unsaid project that we're not allowed to

323

00:12:55,430 --> 00:12:52,240

talk about

324

00:12:58,230 --> 00:12:55,440

i understand completely and

325

00:13:00,069 --> 00:12:58,240

yeah i won't ask anymore no i was fully

326

00:13:02,389 --> 00:13:00,079

aware that these things might crop up

327

00:13:03,910 --> 00:13:02,399

and this is kind of again i think it's a

328

00:13:07,430 --> 00:13:03,920

good thing in a way because it gives

329

00:13:09,509 --> 00:13:07,440

people an idea of where you're at

330

00:13:11,110 --> 00:13:09,519

where you've been and what you can and

331

00:13:13,030 --> 00:13:11,120

can't say because you're tight you're

332

00:13:14,389 --> 00:13:13,040

tied into something and the frustration

333

00:13:15,509 --> 00:13:14,399

that we're under

334

00:13:17,110 --> 00:13:15,519

right

335

00:13:19,110 --> 00:13:17,120

and as much as p as much as we're

336

00:13:21,030 --> 00:13:19,120

frustrated we realize that everybody

337

00:13:22,629 --> 00:13:21,040

else out there is frustrated as well

338

00:13:24,389 --> 00:13:22,639

because we did release the end of your

339

00:13:26,550 --> 00:13:24,399

statement people got the idea that we

340

00:13:28,470 --> 00:13:26,560

have data and we do have data we just

341

00:13:29,190 --> 00:13:28,480

don't know what it says yet right

342

00:13:30,550 --> 00:13:29,200

so

343

00:13:32,710 --> 00:13:30,560

one of the things that we're looking

344

00:13:34,470 --> 00:13:32,720

forward to in the future is really being

345

00:13:38,230 --> 00:13:34,480

able to nail down

346

00:13:41,030 --> 00:13:38,240

a cohesive strategy for fundraising

347

00:13:43,110 --> 00:13:41,040

that way we never have to suffer through

348

00:13:45,189 --> 00:13:43,120

the ndas ever again

349

00:13:46,389 --> 00:13:45,199

and we're going to look towards the

350

00:13:49,189 --> 00:13:46,399

community we're going to look towards

351  
00:13:52,550 --> 00:13:49,199  
the general population and hopefully

352  
00:13:53,350 --> 00:13:52,560  
they vent their frustration with this

353  
00:13:55,990 --> 00:13:53,360  
through

354  
00:13:57,509 --> 00:13:56,000  
their donations to uapx because the more

355  
00:13:59,670 --> 00:13:57,519  
that they contribute

356  
00:14:02,069 --> 00:13:59,680  
the less we have to deal with with

357  
00:14:05,030 --> 00:14:02,079  
direct third-party funding and the more

358  
00:14:06,629 --> 00:14:05,040  
open access and real-time events we can

359  
00:14:08,230 --> 00:14:06,639  
pass on to the public

360  
00:14:09,590 --> 00:14:08,240  
yeah that makes complete sense and one

361  
00:14:10,389 --> 00:14:09,600  
thing i will say is that i can imagine

362  
00:14:15,350 --> 00:14:10,399  
that

363  
00:14:17,030 --> 00:14:15,360

there looking in may feel

364

00:14:19,750 --> 00:14:17,040

the only thing that i can say is if you

365

00:14:21,430 --> 00:14:19,760

hadn't have accepted the funding to be

366

00:14:23,350 --> 00:14:21,440

under the nda then

367

00:14:25,910 --> 00:14:23,360

you wouldn't have gone out and got any

368

00:14:27,189 --> 00:14:25,920

hundreds of hours of data or anything so

369

00:14:28,710 --> 00:14:27,199

you know the fact that people have to

370

00:14:31,350 --> 00:14:28,720

wait and they're like well we want it

371

00:14:32,629 --> 00:14:31,360

now like well just think about that if

372

00:14:34,470 --> 00:14:32,639

they hadn't got this funding and we're

373

00:14:36,470 --> 00:14:34,480

under this nda and we had to wait till

374

00:14:38,069 --> 00:14:36,480

april or may we wouldn't be getting

375

00:14:39,430 --> 00:14:38,079

anything in april or may no matter how

376

00:14:41,269 --> 00:14:39,440

big or small i don't know what you've

377

00:14:43,189 --> 00:14:41,279

got but you know i think you understand

378

00:14:45,189 --> 00:14:43,199

the point where i'm coming from and

379

00:14:46,790 --> 00:14:45,199

you know

380

00:14:48,310 --> 00:14:46,800

there's no two ways about it you kind of

381

00:14:50,550 --> 00:14:48,320

have to take these things and i

382

00:14:51,590 --> 00:14:50,560

completely

383

00:14:52,949 --> 00:14:51,600

i get it

384

00:14:55,509 --> 00:14:52,959

and one thing that i want to make sure

385

00:14:58,470 --> 00:14:55,519

everybody understands is that

386

00:15:02,069 --> 00:14:58,480

regardless of the source of funding it

387

00:15:05,990 --> 00:15:02,079

does not affect our results

388

00:15:09,030 --> 00:15:06,000

we we don't bend towards a narrative and

389

00:15:11,910 --> 00:15:09,040

we don't change the data to reflect the

390

00:15:12,790 --> 00:15:11,920

wishes of whoever it is that donated the

391

00:15:14,710 --> 00:15:12,800

money

392

00:15:17,269 --> 00:15:14,720

yeah no absolutely

393

00:15:20,230 --> 00:15:17,279

so i hope that for anybody out there

394

00:15:22,790 --> 00:15:20,240

that was unsure or frustrated about that

395

00:15:24,629 --> 00:15:22,800

i mean i hope that lays it out a bit

396

00:15:27,670 --> 00:15:24,639

more understandably for you

397

00:15:29,430 --> 00:15:27,680

so we won't dwell on that too much one

398

00:15:31,910 --> 00:15:29,440

thing i wanted to kind of just

399

00:15:33,910 --> 00:15:31,920

get or is going back a little bit is to

400

00:15:34,870 --> 00:15:33,920

probably the early days of uepx and it

401  
00:15:35,670 --> 00:15:34,880  
was

402  
00:15:38,230 --> 00:15:35,680  
you know

403  
00:15:39,670 --> 00:15:38,240  
it was kevin day i think that was

404  
00:15:41,350 --> 00:15:39,680  
the one that kind of i don't know if he

405  
00:15:42,949 --> 00:15:41,360  
set it up or was

406  
00:15:45,350 --> 00:15:42,959  
you know the lead

407  
00:15:47,670 --> 00:15:45,360  
guy let's say but i'd be very interested

408  
00:15:50,629 --> 00:15:47,680  
to know how things started and then

409  
00:15:52,870 --> 00:15:50,639  
changed over the past year or two from

410  
00:15:54,790 --> 00:15:52,880  
you know with yourself gary becoming the

411  
00:15:56,389 --> 00:15:54,800  
president and that are you able to just

412  
00:16:02,470 --> 00:15:56,399  
give us a little bit of how that that

413  
00:16:02,480 --> 00:16:06,310

no worries no worries

414

00:16:08,870 --> 00:16:07,829

jason you want to take over for gary for

415

00:16:12,069 --> 00:16:08,880

a moment

416

00:16:14,310 --> 00:16:12,079

yeah so well here's what uh kevin

417

00:16:17,910 --> 00:16:14,320

originally came to us with the idea of

418

00:16:19,670 --> 00:16:17,920

creating uapx kevin day did yeah and of

419

00:16:22,949 --> 00:16:19,680

course you know a lot of us were like oh

420

00:16:24,870 --> 00:16:22,959

heck yeah you know and then uh we

421

00:16:27,269 --> 00:16:24,880

were kind of loosely affiliated with

422

00:16:29,990 --> 00:16:27,279

everything and it was just kind of

423

00:16:31,749 --> 00:16:30,000

everybody to each you know their own man

424

00:16:35,590 --> 00:16:31,759

for here and here and here and here and

425

00:16:37,829 --> 00:16:35,600

here and it was just really disorganized

426

00:16:39,749 --> 00:16:37,839

not to the fault of kevin you know and

427

00:16:40,710 --> 00:16:39,759

not to the fault of anyone it's just the

428

00:16:43,269 --> 00:16:40,720

way that

429

00:16:44,949 --> 00:16:43,279

that the cards fell uh when you know

430

00:16:47,910 --> 00:16:44,959

when we all came in here together gary

431

00:16:51,110 --> 00:16:47,920

you're kind of sideways

432

00:16:52,790 --> 00:16:51,120

fix yourself

433

00:16:55,670 --> 00:16:52,800

there we go

434

00:16:57,509 --> 00:16:55,680

okay and there he goes so then uh you

435

00:16:58,870 --> 00:16:57,519

know it it got to the point where we

436

00:17:05,350 --> 00:16:58,880

were

437

00:17:07,350 --> 00:17:05,360

gary and i had talked to kevin and and

438

00:17:09,669 --> 00:17:07,360

kevin kind of you know he did the he did

439

00:17:11,750 --> 00:17:09,679

the the one thing that it's hard for

440

00:17:13,750 --> 00:17:11,760

anybody who creates something to do and

441

00:17:17,270 --> 00:17:13,760

that was to kind of give the reins over

442

00:17:19,669 --> 00:17:17,280

to gary and let him run it and um

443

00:17:21,990 --> 00:17:19,679

you know it we needed some organization

444

00:17:23,669 --> 00:17:22,000

and that's what we started doing and um

445

00:17:25,510 --> 00:17:23,679

you know

446

00:17:26,789 --> 00:17:25,520

some people kind of got up

447

00:17:28,390 --> 00:17:26,799

and that's okay

448

00:17:29,830 --> 00:17:28,400

you know you know

449

00:17:31,270 --> 00:17:29,840

it is what it is

450

00:17:34,789 --> 00:17:31,280

and um

451

00:17:37,510 --> 00:17:34,799

i i took over as vp there for a while of

452

00:17:39,110 --> 00:17:37,520

the organization and then um i went to

453

00:17:41,350 --> 00:17:39,120

gary and uh

454

00:17:43,750 --> 00:17:41,360

and i had an idea and that was to

455

00:17:46,549 --> 00:17:43,760

separate the science from the

456

00:17:49,270 --> 00:17:46,559

administration part of the organization

457

00:17:50,870 --> 00:17:49,280

in general and that's you

458

00:17:52,150 --> 00:17:50,880

and that's when i decided to kind of

459

00:17:53,510 --> 00:17:52,160

step aside

460

00:17:55,909 --> 00:17:53,520

and let uh

461

00:17:59,750 --> 00:17:55,919

kevin knuth

462

00:18:02,950 --> 00:17:59,760

take over as vp for me it's just

463

00:18:04,390 --> 00:18:02,960

it made sense to have someone of

464

00:18:06,870 --> 00:18:04,400

his caliber

465

00:18:09,909 --> 00:18:06,880

uh running on the the vice president's

466

00:18:12,150 --> 00:18:09,919

side and also over all the scientific uh

467

00:18:13,270 --> 00:18:12,160

stuff while we grunt workers are just

468

00:18:15,669 --> 00:18:13,280

over here

469

00:18:17,669 --> 00:18:15,679

doing what we do and um

470

00:18:19,350 --> 00:18:17,679

you know it's it's kind of taken a bit

471

00:18:21,510 --> 00:18:19,360

to get used to and everybody just kind

472

00:18:23,990 --> 00:18:21,520

of getting used to their roles and but

473

00:18:26,230 --> 00:18:24,000

but i feel like as of now things are

474

00:18:29,669 --> 00:18:26,240

really starting to um

475

00:18:32,150 --> 00:18:29,679

to fall into place and uh you know

476

00:18:34,230 --> 00:18:32,160

we've taken some hits and that's okay

477

00:18:35,909 --> 00:18:34,240

of course you know and that's that's

478

00:18:38,310 --> 00:18:35,919

that's the one thing i want to really

479

00:18:39,029 --> 00:18:38,320

kind of reiterate to people that you

480

00:18:42,630 --> 00:18:39,039

know

481

00:18:44,870 --> 00:18:42,640

as long as i'm still in the company

482

00:18:46,390 --> 00:18:44,880

and i'll just keep rebuilding i don't

483

00:18:47,909 --> 00:18:46,400

really care

484

00:18:49,270 --> 00:18:47,919

you know people are going to come and go

485

00:18:51,029 --> 00:18:49,280

some people will leave on their own

486

00:18:53,350 --> 00:18:51,039

accord some people

487

00:18:56,630 --> 00:18:53,360

get removed from the company for this

488

00:18:58,950 --> 00:18:56,640

reason or that reason but i think that

489

00:19:01,510 --> 00:18:58,960

at this point we're

490

00:19:03,590 --> 00:19:01,520

all a lot of people that could be

491

00:19:06,390 --> 00:19:03,600

removed

492

00:19:08,870 --> 00:19:06,400

if that makes any sense because

493

00:19:10,870 --> 00:19:08,880

you know when you inherit something you

494

00:19:12,470 --> 00:19:10,880

kind of inherit the whole package and

495

00:19:13,590 --> 00:19:12,480

then kind of have to sort through

496

00:19:15,029 --> 00:19:13,600

everything

497

00:19:16,870 --> 00:19:15,039

now you know there's a lot of

498

00:19:18,950 --> 00:19:16,880

personality differences with a lot of

499

00:19:23,029 --> 00:19:18,960

the people that have left the company

500

00:19:24,470 --> 00:19:23,039

and me and and generally

501  
00:19:26,310 --> 00:19:24,480  
you know i don't agree with a lot of

502  
00:19:28,549 --> 00:19:26,320  
these guys half the time

503  
00:19:30,150 --> 00:19:28,559  
but that's the point you know i mean me

504  
00:19:32,230 --> 00:19:30,160  
and jeremy go back and forth me and

505  
00:19:33,909 --> 00:19:32,240  
jason go back and forth but the people

506  
00:19:35,029 --> 00:19:33,919  
that are left

507  
00:19:37,430 --> 00:19:35,039  
you know these are some of the most

508  
00:19:39,510 --> 00:19:37,440  
intelligent creative

509  
00:19:41,430 --> 00:19:39,520  
talented people i've ever worked with

510  
00:19:43,510 --> 00:19:41,440  
you know so

511  
00:19:45,750 --> 00:19:43,520  
you know as long as i've got

512  
00:19:47,350 --> 00:19:45,760  
such a diversity of people

513  
00:19:50,150 --> 00:19:47,360

we're going to continue to

514

00:19:52,150 --> 00:19:50,160

you know grow and you know even right

515

00:19:54,390 --> 00:19:52,160

now now that we've split the split the

516

00:19:56,870 --> 00:19:54,400

company into two halves where you know

517

00:19:59,029 --> 00:19:56,880

me jeremy and jason are basically

518

00:20:01,350 --> 00:19:59,039

dealing with uh you know

519

00:20:04,230 --> 00:20:01,360

developing the company's administration

520

00:20:06,470 --> 00:20:04,240

side developing the you know uh you know

521

00:20:08,870 --> 00:20:06,480

revenue for the company developing you

522

00:20:09,909 --> 00:20:08,880

know all of the support mechanisms to

523

00:20:12,549 --> 00:20:09,919

allow

524

00:20:14,950 --> 00:20:12,559

kevin and his science team

525

00:20:18,310 --> 00:20:14,960

to do the research you know and then

526

00:20:20,149 --> 00:20:18,320

then when we go do a

527

00:20:22,549 --> 00:20:20,159

one of these expeditions then it's all

528

00:20:25,669 --> 00:20:22,559

hands on deck you know then then that's

529

00:20:27,990 --> 00:20:25,679

when you know the grunts like us can you

530

00:20:29,190 --> 00:20:28,000

know kind of sit in and you know set

531

00:20:32,710 --> 00:20:29,200

cameras uh

532

00:20:34,470 --> 00:20:32,720

record data you do data sets so that

533

00:20:36,549 --> 00:20:34,480

when we do go back that we have this

534

00:20:38,950 --> 00:20:36,559

very very specific data to go through

535

00:20:39,990 --> 00:20:38,960

where we can correlate all of this data

536

00:20:42,710 --> 00:20:40,000

together

537

00:20:44,149 --> 00:20:42,720

to create these event situations that

538

00:20:47,510 --> 00:20:44,159

can't be

539

00:20:51,190 --> 00:20:49,590

well they're not easily disproved once

540

00:20:54,710 --> 00:20:51,200

you get all the correlative data

541

00:20:56,950 --> 00:20:54,720

together and yeah it doesn't prove

542

00:20:58,870 --> 00:20:56,960

anything other than

543

00:21:01,190 --> 00:20:58,880

either something happened or there was

544

00:21:03,830 --> 00:21:01,200

something going on at that time you know

545

00:21:05,830 --> 00:21:03,840

so that's that's the other thing that

546

00:21:08,470 --> 00:21:05,840

people need to realize is that we are

547

00:21:09,669 --> 00:21:08,480

coming from uh we're not doing

548

00:21:11,750 --> 00:21:09,679

well

549

00:21:13,590 --> 00:21:11,760

we're not really sitting in a circle

550

00:21:14,789 --> 00:21:13,600

hoping that something comes down and

551  
00:21:15,669 --> 00:21:14,799  
talks to us

552  
00:21:17,430 --> 00:21:15,679  
um

553  
00:21:19,029 --> 00:21:17,440  
or anything like that i'm not trying to

554  
00:21:19,990 --> 00:21:19,039  
discourage anybody from doing that i

555  
00:21:23,190 --> 00:21:20,000  
actually

556  
00:21:25,110 --> 00:21:23,200  
have been going to one of these groups

557  
00:21:27,909 --> 00:21:25,120  
pretty locally

558  
00:21:30,870 --> 00:21:27,919  
to me uh jeremy uh you really need to

559  
00:21:32,950 --> 00:21:30,880  
fix that sound board

560  
00:21:35,029 --> 00:21:32,960  
my home alarm system the dog just went

561  
00:21:37,750 --> 00:21:35,039  
out back

562  
00:21:39,590 --> 00:21:37,760  
well uh you know so we can uh

563  
00:21:44,230 --> 00:21:39,600

it's just so that we can

564

00:21:46,950 --> 00:21:44,240

maximize our efforts and

565

00:21:49,110 --> 00:21:46,960

maximize every dollar that we do have

566

00:21:51,510 --> 00:21:49,120

you know so we we don't have you know

567

00:21:53,909 --> 00:21:51,520

we're we're self-funded and

568

00:21:55,909 --> 00:21:53,919

by by donation only

569

00:21:57,830 --> 00:21:55,919

we don't we're not we don't

570

00:21:59,669 --> 00:21:57,840

the one time we ventured into having

571

00:22:01,830 --> 00:21:59,679

somebody pay for things

572

00:22:02,630 --> 00:22:01,840

you know the great opportunity that we

573

00:22:04,710 --> 00:22:02,640

had

574

00:22:07,270 --> 00:22:04,720

you know it's still so restrictive you

575

00:22:07,990 --> 00:22:07,280

know uh i don't like the restrictions

576

00:22:10,070 --> 00:22:08,000

but

577

00:22:13,590 --> 00:22:10,080

you know the opportunity was so good we

578

00:22:15,430 --> 00:22:13,600

took it you know so

579

00:22:17,110 --> 00:22:15,440

but uh you know it's still

580

00:22:18,950 --> 00:22:17,120

you know but then the company and data

581

00:22:22,149 --> 00:22:18,960

still remained with us which is the only

582

00:22:23,990 --> 00:22:22,159

reason why we accepted it so it's

583

00:22:26,950 --> 00:22:24,000

it's a long haul and it's gonna be a

584

00:22:28,789 --> 00:22:26,960

long it's gonna be a longer haul for us

585

00:22:30,789 --> 00:22:28,799

all to get to where we really want to be

586

00:22:33,190 --> 00:22:30,799

but

587

00:22:34,789 --> 00:22:33,200

i think once our ball is rolling then

588

00:22:37,430 --> 00:22:34,799

it's going to

589

00:22:39,669 --> 00:22:37,440

be pretty exponential at that point

590

00:22:41,669 --> 00:22:39,679

yeah i completely agree to be honest and

591

00:22:43,270 --> 00:22:41,679

one thing you just said there is you you

592

00:22:44,630 --> 00:22:43,280

called yourself grunts and you even put

593

00:22:47,029 --> 00:22:44,640

yourself in with that gary and that

594

00:22:48,470 --> 00:22:47,039

shows a good structure that as president

595

00:22:50,390 --> 00:22:48,480

you still put yourself on that same

596

00:22:51,990 --> 00:22:50,400

level as the rest of the team so the

597

00:22:53,590 --> 00:22:52,000

structure's right the friendships are

598

00:22:55,990 --> 00:22:53,600

right and that comes across to me

599

00:22:58,230 --> 00:22:56,000

personally that well everybody in the

600

00:23:00,230 --> 00:22:58,240

company i i consider family you know i

601  
00:23:02,070 --> 00:23:00,240  
mean these guys these guys you know i

602  
00:23:04,070 --> 00:23:02,080  
care about their them their families you

603  
00:23:06,870 --> 00:23:04,080  
know somebody pops on the signal it's

604  
00:23:08,710 --> 00:23:06,880  
like hey uh you know i got i got this

605  
00:23:10,230 --> 00:23:08,720  
with my daughter or i got this with my

606  
00:23:12,470 --> 00:23:10,240  
parents or i'm going to be out of town

607  
00:23:14,310 --> 00:23:12,480  
with some family it's just like okay

608  
00:23:16,390 --> 00:23:14,320  
you know just whatever is expected from

609  
00:23:17,430 --> 00:23:16,400  
there and there's stops and it's done

610  
00:23:19,590 --> 00:23:17,440  
you know it's

611  
00:23:21,510 --> 00:23:19,600  
you know i mean plus you know a lot a

612  
00:23:23,669 --> 00:23:21,520  
lot of uh you know

613  
00:23:25,110 --> 00:23:23,679

we're lucky where you know i i got lucky

614

00:23:27,510 --> 00:23:25,120

where i was able to have a situation

615

00:23:28,950 --> 00:23:27,520

where i could do this full-time

616

00:23:31,430 --> 00:23:28,960

you know jason

617

00:23:32,630 --> 00:23:31,440

has commitments a lot of commitments but

618

00:23:33,909 --> 00:23:32,640

he definitely

619

00:23:36,870 --> 00:23:33,919

you know is

620

00:23:38,789 --> 00:23:36,880

basically almost full-time uh jeremy you

621

00:23:39,750 --> 00:23:38,799

know while he's in his uh you know job

622

00:23:42,149 --> 00:23:39,760

hunt

623

00:23:43,430 --> 00:23:42,159

is basically working full-time too you

624

00:23:45,269 --> 00:23:43,440

know so

625

00:23:46,870 --> 00:23:45,279

we've got a lot of work that we're

626  
00:23:49,029 --> 00:23:46,880  
trying to get done now while we have the

627  
00:23:50,549 --> 00:23:49,039  
opportunity to do it so that

628  
00:23:52,870 --> 00:23:50,559  
you know hopefully we may be able to

629  
00:23:55,110 --> 00:23:52,880  
hire people to eventually

630  
00:23:56,710 --> 00:23:55,120  
do some of this full-time administrative

631  
00:23:58,630 --> 00:23:56,720  
work later on

632  
00:24:00,870 --> 00:23:58,640  
you know that's that's the ultimate goal

633  
00:24:02,870 --> 00:24:00,880  
is to start having employees start you

634  
00:24:04,470 --> 00:24:02,880  
know being able to

635  
00:24:05,830 --> 00:24:04,480  
uh you know have people that really know

636  
00:24:07,269 --> 00:24:05,840  
what they're doing

637  
00:24:08,950 --> 00:24:07,279  
start cool

638  
00:24:10,789 --> 00:24:08,960

at least with administration you know i

639

00:24:12,470 --> 00:24:10,799

mean that just that stuff just gets

640

00:24:14,070 --> 00:24:12,480

sticky i mean i've had

641

00:24:15,990 --> 00:24:14,080

you know filling out that that

642

00:24:18,870 --> 00:24:16,000

non-profit paperwork you know i had to

643

00:24:20,870 --> 00:24:18,880

do it line by line uh look at look up

644

00:24:22,390 --> 00:24:20,880

about a billion definitions because just

645

00:24:24,149 --> 00:24:22,400

because you think that you know what

646

00:24:26,870 --> 00:24:24,159

something means it doesn't mean that the

647

00:24:28,230 --> 00:24:26,880

irs defined it that way

648

00:24:29,510 --> 00:24:28,240

so

649

00:24:30,950 --> 00:24:29,520

and of course you know that that

650

00:24:32,870 --> 00:24:30,960

definition could be different so you got

651  
00:24:34,470 --> 00:24:32,880  
to be double checked because uh there's

652  
00:24:36,230 --> 00:24:34,480  
a couple of things i checked and

653  
00:24:38,230 --> 00:24:36,240  
apparently i grabbed the i checked it

654  
00:24:41,110 --> 00:24:38,240  
from the wrong year's version of the

655  
00:24:46,870 --> 00:24:43,510  
so you basically kind of have to learn a

656  
00:24:50,630 --> 00:24:46,880  
basic cpa skill set just to get it done

657  
00:24:53,350 --> 00:24:50,640  
and uh it was it took me a while uh but

658  
00:24:55,830 --> 00:24:53,360  
it got done and it's it's now just in a

659  
00:24:58,470 --> 00:24:55,840  
review process right now so that i know

660  
00:25:00,470 --> 00:24:58,480  
that i didn't completely jack it up

661  
00:25:01,110 --> 00:25:00,480  
and then then we're going to submit that

662  
00:25:02,630 --> 00:25:01,120  
probably

663  
00:25:04,549 --> 00:25:02,640

[Music]

664

00:25:06,230 --> 00:25:04,559

i get back in like two weeks it'll

665

00:25:08,950 --> 00:25:06,240

probably be submitted right when i first

666

00:25:09,990 --> 00:25:08,960

get back uh in two weeks

667

00:25:11,190 --> 00:25:10,000

all right

668

00:25:13,590 --> 00:25:11,200

yeah and then it's all dependent on the

669

00:25:14,549 --> 00:25:13,600

federal government to approve it or tell

670

00:25:16,630 --> 00:25:14,559

them

671

00:25:17,669 --> 00:25:16,640

the paperwork and send it back to us for

672

00:25:19,110 --> 00:25:17,679

an edit

673

00:25:20,470 --> 00:25:19,120

yeah but this is the thing as well i

674

00:25:22,230 --> 00:25:20,480

think it's important to show people that

675

00:25:24,630 --> 00:25:22,240

you're just regular guys like everybody

676  
00:25:26,070 --> 00:25:24,640  
that could be me or everyone in the chat

677  
00:25:28,310 --> 00:25:26,080  
here who are just

678  
00:25:30,870 --> 00:25:28,320  
taking upon themselves to do something

679  
00:25:31,830 --> 00:25:30,880  
within this field and you're not

680  
00:25:33,590 --> 00:25:31,840  
different

681  
00:25:35,830 --> 00:25:33,600  
than than the average joe and that and i

682  
00:25:38,149 --> 00:25:35,840  
don't mean that in a negative way or a

683  
00:25:39,750 --> 00:25:38,159  
derogatory way i'm sitting in my truck

684  
00:25:41,029 --> 00:25:39,760  
doing this interview with you because

685  
00:25:43,029 --> 00:25:41,039  
i've got

686  
00:25:45,029 --> 00:25:43,039  
four boys and my daughter sitting in the

687  
00:25:46,870 --> 00:25:45,039  
house because uh my

688  
00:25:48,710 --> 00:25:46,880

life happens my brother's kids got

689

00:25:50,230 --> 00:25:48,720

kicked out of their daycare and now

690

00:25:52,470 --> 00:25:50,240

guess whose house they get to go to

691

00:25:54,230 --> 00:25:52,480

after school every day you know so that

692

00:25:55,750 --> 00:25:54,240

was something that just happened so it's

693

00:25:57,590 --> 00:25:55,760

like

694

00:25:59,430 --> 00:25:57,600

that's life you know and luckily my

695

00:26:00,630 --> 00:25:59,440

sister-in-law is gonna hang out here for

696

00:26:02,149 --> 00:26:00,640

a little bit to make sure they don't

697

00:26:03,990 --> 00:26:02,159

kill each other while i'm sitting out

698

00:26:05,510 --> 00:26:04,000

here with you guys but uh you know

699

00:26:08,070 --> 00:26:05,520

probably at the top of the hour i'll

700

00:26:09,190 --> 00:26:08,080

probably have to head out but

701  
00:26:10,230 --> 00:26:09,200  
um

702  
00:26:12,630 --> 00:26:10,240  
you know uh

703  
00:26:15,029 --> 00:26:12,640  
kristen thompson asked a a question

704  
00:26:17,269 --> 00:26:15,039  
where where is uapx in five years which

705  
00:26:18,149 --> 00:26:17,279  
i thought was was a great question

706  
00:26:26,230 --> 00:26:18,159  
and

707  
00:26:28,710 --> 00:26:26,240  
do our job right

708  
00:26:29,540 --> 00:26:28,720  
we don't have to be here in five years

709  
00:26:31,029 --> 00:26:29,550  
nice

710  
00:26:32,710 --> 00:26:31,039  
[Laughter]

711  
00:26:35,350 --> 00:26:32,720  
well if we do our job right we'll be

712  
00:26:37,029 --> 00:26:35,360  
developing new technology in five years

713  
00:26:38,230 --> 00:26:37,039

yeah our mission statement will change

714

00:26:39,750 --> 00:26:38,240

our mission statement will have to

715

00:26:42,310 --> 00:26:39,760

change a little bit from

716

00:26:44,470 --> 00:26:42,320

trying to figure out what uaps are to

717

00:26:47,029 --> 00:26:44,480

uh studying the technology and

718

00:26:48,149 --> 00:26:47,039

developing new technology from uaps you

719

00:26:50,230 --> 00:26:48,159

know so

720

00:26:52,470 --> 00:26:50,240

and i mean even if we because like our

721

00:26:54,549 --> 00:26:52,480

first goal is basically

722

00:26:56,549 --> 00:26:54,559

almost done to be honest because with

723

00:26:58,149 --> 00:26:56,559

the federal government basically saying

724

00:26:59,669 --> 00:26:58,159

that these things are real

725

00:27:01,750 --> 00:26:59,679

you know that's like half the battle

726  
00:27:03,350 --> 00:27:01,760  
right there i mean yeah everybody wants

727  
00:27:05,029 --> 00:27:03,360  
to hear you know hear all the nitty

728  
00:27:07,269 --> 00:27:05,039  
gritty stories that everybody's been

729  
00:27:08,870 --> 00:27:07,279  
told in the back channel since you know

730  
00:27:09,669 --> 00:27:08,880  
the 30s

731  
00:27:11,190 --> 00:27:09,679  
but

732  
00:27:13,029 --> 00:27:11,200  
we kind of have to grow up with that

733  
00:27:14,470 --> 00:27:13,039  
that's not going to happen

734  
00:27:16,390 --> 00:27:14,480  
you're lucky to get what you got from

735  
00:27:17,909 --> 00:27:16,400  
2003 on

736  
00:27:19,269 --> 00:27:17,919  
and that's all that that's where it's

737  
00:27:21,350 --> 00:27:19,279  
going to stay they're never going to

738  
00:27:24,070 --> 00:27:21,360

admit anything back past that

739

00:27:25,590 --> 00:27:24,080

it's too too much liability too many

740

00:27:28,070 --> 00:27:25,600

you know too many careers that ended

741

00:27:30,710 --> 00:27:28,080

over over stigmas uh too many too much

742

00:27:32,310 --> 00:27:30,720

uh too much lost revenue over over

743

00:27:33,830 --> 00:27:32,320

issues you know

744

00:27:36,470 --> 00:27:33,840

you know god forbid you get into the

745

00:27:37,990 --> 00:27:36,480

really dark and nasty stuff yeah i think

746

00:27:40,070 --> 00:27:38,000

i think that's what that's what kind of

747

00:27:41,830 --> 00:27:40,080

puts us you know differently here is

748

00:27:42,950 --> 00:27:41,840

because like

749

00:27:44,870 --> 00:27:42,960

when you

750

00:27:46,549 --> 00:27:44,880

say taking funds and grants and stuff

751  
00:27:48,389 --> 00:27:46,559  
from the federal government they once

752  
00:27:50,630 --> 00:27:48,399  
they get their hands in

753  
00:27:53,029 --> 00:27:50,640  
to an organization uh they don't take

754  
00:27:54,870 --> 00:27:53,039  
their hands out and that's a problem

755  
00:27:56,710 --> 00:27:54,880  
that becomes a huge problem within the

756  
00:27:58,549 --> 00:27:56,720  
community and um that's something we're

757  
00:27:59,590 --> 00:27:58,559  
going to try to avoid like the plague

758  
00:28:02,389 --> 00:27:59,600  
because

759  
00:28:04,630 --> 00:28:02,399  
you know once now once you give over

760  
00:28:06,230 --> 00:28:04,640  
the reins of your organization

761  
00:28:07,669 --> 00:28:06,240  
to meet the demands of the federal

762  
00:28:10,470 --> 00:28:07,679  
government

763  
00:28:12,710 --> 00:28:10,480

now you you have to you know

764

00:28:13,909 --> 00:28:12,720

not now you're silenced and no thank you

765

00:28:18,950 --> 00:28:13,919

nothing

766

00:28:22,870 --> 00:28:20,230

or with

767

00:28:24,789 --> 00:28:22,880

this or any other government we haven't

768

00:28:27,590 --> 00:28:24,799

taken federal funding

769

00:28:30,230 --> 00:28:27,600

we get no grant money we haven't gotten

770

00:28:32,950 --> 00:28:30,240

any government contracts and we don't

771

00:28:34,470 --> 00:28:32,960

directly supply any of our data to any

772

00:28:36,549 --> 00:28:34,480

of the intelligence communities once

773

00:28:38,950 --> 00:28:36,559

it's out there we can't stop them from

774

00:28:40,310 --> 00:28:38,960

looking at it or using it but we don't

775

00:28:42,310 --> 00:28:40,320

give it to them

776

00:28:44,870 --> 00:28:42,320

and a lot of folks out there think that

777

00:28:46,950 --> 00:28:44,880

uapx when we say that we're collecting

778

00:28:49,190 --> 00:28:46,960

data they think that we're collecting

779

00:28:51,590 --> 00:28:49,200

historical data from past cases or from

780

00:28:55,269 --> 00:28:51,600

the cia reading room or something that's

781

00:28:57,430 --> 00:28:55,279

not it we have a full team with a a

782

00:28:58,549 --> 00:28:57,440

plethora of equipment out there boots on

783

00:29:00,710 --> 00:28:58,559

the ground

784

00:29:01,669 --> 00:29:00,720

getting the data in real time

785

00:29:05,029 --> 00:29:01,679

we're not

786

00:29:07,110 --> 00:29:05,039

you know if if we record something we

787

00:29:08,789 --> 00:29:07,120

record it if we don't we don't

788

00:29:13,190 --> 00:29:08,799

that's right so this is data that you go

789

00:29:17,590 --> 00:29:15,029

we're not interested in seeing anybody's

790

00:29:20,230 --> 00:29:17,600

cool footage i mean i i'm not trying to

791

00:29:22,230 --> 00:29:20,240

invite the i get a landslide of this

792

00:29:24,149 --> 00:29:22,240

stuff you know constantly you know hey

793

00:29:26,789 --> 00:29:24,159

you guys look at this and you know tell

794

00:29:28,470 --> 00:29:26,799

me about it well

795

00:29:30,789 --> 00:29:28,480

people have to remember though for a

796

00:29:32,549 --> 00:29:30,799

scientific analysis of their footage you

797

00:29:34,389 --> 00:29:32,559

know there's only so much we could do

798

00:29:38,070 --> 00:29:34,399

even if we did

799

00:29:40,710 --> 00:29:38,080

do an analysis on it a we weren't there

800

00:29:42,549 --> 00:29:40,720

b we have no way of knowing you mean we

801  
00:29:45,110 --> 00:29:42,559  
don't know what what device they filmed

802  
00:29:47,190 --> 00:29:45,120  
it on we don't know where they were

803  
00:29:49,430 --> 00:29:47,200  
their gps location the azimuth of the

804  
00:29:52,630 --> 00:29:49,440  
camera we don't know you know there's so

805  
00:29:55,110 --> 00:29:52,640  
much we don't know about that film

806  
00:29:57,990 --> 00:29:55,120  
that as far as i'm concerned every

807  
00:29:59,430 --> 00:29:58,000  
single thing i get is a really good fake

808  
00:30:01,029 --> 00:29:59,440  
yeah right

809  
00:30:03,269 --> 00:30:01,039  
you know i got you yeah we've even

810  
00:30:05,029 --> 00:30:03,279  
thrown away some of our own stuff

811  
00:30:07,110 --> 00:30:05,039  
because we forgot to set the azimuth on

812  
00:30:10,389 --> 00:30:07,120  
the camera wow you couldn't go back and

813  
00:30:11,110 --> 00:30:10,399

say well we think it was at 263 degrees

814

00:30:13,190 --> 00:30:11,120

sure

815

00:30:14,789 --> 00:30:13,200

because we don't know so we have to

816

00:30:16,230 --> 00:30:14,799

discount whatever it was that that

817

00:30:18,470 --> 00:30:16,240

camera captured because we were the

818

00:30:20,630 --> 00:30:18,480

dumbasses that that

819

00:30:22,789 --> 00:30:20,640

the azimuth or we got to go back and

820

00:30:24,870 --> 00:30:22,799

basically verify the azimuth from other

821

00:30:26,549 --> 00:30:24,880

cameras you know because you know if

822

00:30:29,029 --> 00:30:26,559

there was another camera that caught the

823

00:30:30,789 --> 00:30:29,039

same same event then we can

824

00:30:32,630 --> 00:30:30,799

then we can kind of you know

825

00:30:35,190 --> 00:30:32,640

we can figure it out but

826

00:30:36,950 --> 00:30:35,200

yeah so like he said we've had

827

00:30:38,710 --> 00:30:36,960

you know and unfortunately during

828

00:30:40,630 --> 00:30:38,720

certain circumstances that we'll be able

829

00:30:42,230 --> 00:30:40,640

to talk about further later you know

830

00:30:46,230 --> 00:30:42,240

that that may have happened a couple of

831

00:30:50,230 --> 00:30:48,549

to kind of really hit it home

832

00:30:52,870 --> 00:30:50,240

there was one incident

833

00:30:54,789 --> 00:30:52,880

no dates times and locations but we

834

00:30:56,389 --> 00:30:54,799

thought we had caught something that was

835

00:30:58,710 --> 00:30:56,399

really really important

836

00:31:00,470 --> 00:30:58,720

but we couldn't use it because like i

837

00:31:04,149 --> 00:31:00,480

said we had no idea where the camera was

838

00:31:07,110 --> 00:31:04,159

pointing luckily we had other cameras

839

00:31:08,950 --> 00:31:07,120

that were around that had taken pictures

840

00:31:11,669 --> 00:31:08,960

of where that camera was

841

00:31:13,990 --> 00:31:11,679

so we had to go back into google maps

842

00:31:17,590 --> 00:31:14,000

get satellite imagery of where we were

843

00:31:19,750 --> 00:31:17,600

posted up and use trigonometry to figure

844

00:31:21,509 --> 00:31:19,760

out how the camera was pointed what the

845

00:31:24,230 --> 00:31:21,519

elevation of it was what the direction

846

00:31:25,909 --> 00:31:24,240

of it was and then figure out you know

847

00:31:27,350 --> 00:31:25,919

kind of kind of go back into the data

848

00:31:29,430 --> 00:31:27,360

and plug in

849

00:31:31,430 --> 00:31:29,440

the uh the directionality of the camera

850

00:31:33,830 --> 00:31:31,440

to be able to use that data

851  
00:31:35,509 --> 00:31:33,840  
wow that's amazing

852  
00:31:37,269 --> 00:31:35,519  
um i've just noticed this coming here

853  
00:31:38,070 --> 00:31:37,279  
from my friend lara paranormal pixie

854  
00:31:39,990 --> 00:31:38,080  
saying

855  
00:31:42,149 --> 00:31:40,000  
could you give an example of a typical

856  
00:31:44,630 --> 00:31:42,159  
typical investigation day

857  
00:31:46,549 --> 00:31:44,640  
yes the boring details too and i'll just

858  
00:31:47,909 --> 00:31:46,559  
follow up with saying so if you get to a

859  
00:31:49,669 --> 00:31:47,919  
location and let's say you've got the

860  
00:31:51,669 --> 00:31:49,679  
osiris and and

861  
00:31:54,789 --> 00:31:51,679  
any other extra equipment is there a

862  
00:31:57,190 --> 00:31:54,799  
base level of what you want set up

863  
00:31:58,950 --> 00:31:57,200

immediately to start the day

864

00:32:01,190 --> 00:31:58,960

and as you start that i'm just going to

865

00:32:02,950 --> 00:32:01,200

check on my daughter i've had a shout

866

00:32:04,710 --> 00:32:02,960

all right uh well

867

00:32:06,870 --> 00:32:04,720

for me uh i'm gonna go ahead and take

868

00:32:08,710 --> 00:32:06,880

that one because of uh we can't really

869

00:32:10,470 --> 00:32:08,720

talk about

870

00:32:12,149 --> 00:32:10,480

it all starts with coffee

871

00:32:15,269 --> 00:32:12,159

no yeah yeah

872

00:32:17,029 --> 00:32:15,279

coffee and breakfast um a lot of coffee

873

00:32:20,389 --> 00:32:17,039

but

874

00:32:22,310 --> 00:32:20,399

what and how we did the

875

00:32:24,070 --> 00:32:22,320

the our current first expedition we

876

00:32:26,149 --> 00:32:24,080

can't really talk about but i can't talk

877

00:32:29,190 --> 00:32:26,159

about how we plan on setting things up

878

00:32:30,710 --> 00:32:29,200

in the future um so

879

00:32:31,990 --> 00:32:30,720

if you can picture

880

00:32:37,990 --> 00:32:32,000

uh

881

00:32:42,630 --> 00:32:38,000

a second vehicle that's very similar

882

00:32:44,070 --> 00:32:42,640

uh towing two military style trailers um

883

00:32:46,470 --> 00:32:44,080

that are

884

00:32:47,350 --> 00:32:46,480

what size of those trailers oh six by

885

00:32:50,310 --> 00:32:47,360

eights

886

00:32:53,110 --> 00:32:50,320

they're 6x8 military trailers with

887

00:32:56,470 --> 00:32:53,120

antennas sticking out of them

888

00:32:58,230 --> 00:32:56,480

and then an rv pulls up behind that you

889

00:33:01,350 --> 00:32:58,240

know that's that's going to be our basic

890

00:33:03,350 --> 00:33:01,360

setup for you know remote locations

891

00:33:05,350 --> 00:33:03,360

um then

892

00:33:08,070 --> 00:33:05,360

we'll set all of our gear up we'll have

893

00:33:10,549 --> 00:33:08,080

standalone stuff that's set up and

894

00:33:11,509 --> 00:33:10,559

dialed in by azimuth and direction and

895

00:33:14,310 --> 00:33:11,519

everything

896

00:33:15,830 --> 00:33:14,320

and then we'll also have these two pull

897

00:33:17,269 --> 00:33:15,840

behinds that we're going to have in our

898

00:33:18,630 --> 00:33:17,279

truck that we're going to be able to go

899

00:33:21,830 --> 00:33:18,640

drop off

900

00:33:23,350 --> 00:33:21,840

to basically triangulate data with

901  
00:33:24,470 --> 00:33:23,360  
and then of course we'll be able to use

902  
00:33:26,950 --> 00:33:24,480  
our trucks

903  
00:33:29,350 --> 00:33:26,960  
as mobile command centers but the

904  
00:33:31,909 --> 00:33:29,360  
the actual you know the camper or the

905  
00:33:34,470 --> 00:33:31,919  
mobile home or the the yeah the camper

906  
00:33:36,870 --> 00:33:34,480  
will actually be set up for

907  
00:33:38,870 --> 00:33:36,880  
you know that'll have basically a a

908  
00:33:41,669 --> 00:33:38,880  
nerve center in it and plus provide us a

909  
00:33:44,310 --> 00:33:41,679  
nice little comfy spot to sleep

910  
00:33:46,789 --> 00:33:44,320  
i'm not you know offense but uh i'm 41

911  
00:33:49,029 --> 00:33:46,799  
years old so glamping is uh all the rage

912  
00:33:51,190 --> 00:33:49,039  
for me i'm not looking at the pigeon

913  
00:33:53,190 --> 00:33:51,200

tent in the middle of sedona so

914

00:33:55,590 --> 00:33:53,200

and as far as equipment's concerned you

915

00:33:57,590 --> 00:33:55,600

know we we have to spend a lot of time

916

00:33:58,389 --> 00:33:57,600

just getting the baseline measurements

917

00:34:01,830 --> 00:33:58,399

because

918

00:34:04,389 --> 00:34:01,840

if if we throw a survey meter or one of

919

00:34:07,990 --> 00:34:04,399

our muon detectors out there

920

00:34:09,349 --> 00:34:08,000

and and record readings it makes

921

00:34:11,510 --> 00:34:09,359

no sense

922

00:34:14,149 --> 00:34:11,520

to do that without understanding what

923

00:34:17,270 --> 00:34:14,159

the natural background is

924

00:34:19,190 --> 00:34:17,280

so right now we even have uh

925

00:34:22,149 --> 00:34:19,200

matthew chidagas our one of our

926  
00:34:23,589 --> 00:34:22,159  
physicists who is using this equipment

927  
00:34:26,550 --> 00:34:23,599  
on commutes

928  
00:34:28,950 --> 00:34:26,560  
and in aircraft and he is taking

929  
00:34:30,950 --> 00:34:28,960  
basically coast to coast background

930  
00:34:33,669 --> 00:34:30,960  
readings with this thing so that we can

931  
00:34:34,950 --> 00:34:33,679  
use it as comparative measurements

932  
00:34:36,389 --> 00:34:34,960  
yeah and this is one thing that i wanted

933  
00:34:38,869 --> 00:34:36,399  
to reiterate to people as well is that

934  
00:34:40,869 --> 00:34:38,879  
you guys are quite separated like

935  
00:34:42,790 --> 00:34:40,879  
location-wise where you live and things

936  
00:34:44,629 --> 00:34:42,800  
like that it's not like you guys just

937  
00:34:46,069 --> 00:34:44,639  
get together every saturday and go out

938  
00:34:48,550 --> 00:34:46,079

and

939

00:34:50,629 --> 00:34:48,560

do this yeah nowhere we're quite quite a

940

00:34:52,470 --> 00:34:50,639

basil ways away i'm in florida uh

941

00:34:54,069 --> 00:34:52,480

jeremy's in las vegas

942

00:34:59,750 --> 00:34:54,079

uh

943

00:35:01,829 --> 00:34:59,760

georgia right yeah georgia and we got

944

00:35:04,230 --> 00:35:01,839

michael hall he's out in california and

945

00:35:06,390 --> 00:35:04,240

then we got uh matthew and

946

00:35:07,990 --> 00:35:06,400

and kevin are up in new york

947

00:35:09,430 --> 00:35:08,000

um

948

00:35:12,870 --> 00:35:09,440

and then we've got chris hoffman he's

949

00:35:18,790 --> 00:35:16,950

yeah so we're pretty spread out um

950

00:35:21,030 --> 00:35:18,800

you know uh

951  
00:35:23,990 --> 00:35:21,040  
maybe someday you know if we ever get

952  
00:35:26,230 --> 00:35:24,000  
those big numbers like mufon uh

953  
00:35:28,069 --> 00:35:26,240  
not not not comparing our comp our

954  
00:35:30,230 --> 00:35:28,079  
company with mufon but

955  
00:35:32,150 --> 00:35:30,240  
if we ever get that kind of operational

956  
00:35:33,829 --> 00:35:32,160  
you know funding you know we might have

957  
00:35:34,550 --> 00:35:33,839  
a brick and mortar building where we all

958  
00:35:36,390 --> 00:35:34,560  
can

959  
00:35:39,349 --> 00:35:36,400  
be you know

960  
00:35:40,870 --> 00:35:39,359  
it's good to have goals man

961  
00:35:43,190 --> 00:35:40,880  
i don't really see a too much of a

962  
00:35:44,630 --> 00:35:43,200  
necessity for the brick and mortar stuff

963  
00:35:48,150 --> 00:35:44,640

um yeah

964

00:35:49,829 --> 00:35:48,160

yeah we work great remotely already um

965

00:35:51,750 --> 00:35:49,839

plus we all have families we love the

966

00:35:53,349 --> 00:35:51,760

areas we live i know i think me and

967

00:35:54,710 --> 00:35:53,359

jason are about the only people that are

968

00:35:55,589 --> 00:35:54,720

really kind of looking forward to

969

00:35:59,349 --> 00:35:55,599

getting

970

00:36:02,550 --> 00:35:59,359

hell out of dodge from where we're at um

971

00:36:04,310 --> 00:36:02,560

i can't i can't i can't uh

972

00:36:06,150 --> 00:36:04,320

i honestly

973

00:36:07,829 --> 00:36:06,160

love the laws in florida but i hate the

974

00:36:08,950 --> 00:36:07,839

weather

975

00:36:10,550 --> 00:36:08,960

really

976

00:36:13,430 --> 00:36:10,560

yeah i absolutely think this weather

977

00:36:15,990 --> 00:36:13,440

here is atrocious uh anything over 65

978

00:36:19,589 --> 00:36:16,000

degrees with a breeze and zero and zero

979

00:36:22,150 --> 00:36:19,599

humidity is horrible weather to me

980

00:36:23,430 --> 00:36:22,160

that's funny man i live in i live in the

981

00:36:25,349 --> 00:36:23,440

north of england and you know the

982

00:36:28,150 --> 00:36:25,359

reputation of england i'm like i'll take

983

00:36:29,670 --> 00:36:28,160

your over class you're overclouded

984

00:36:31,030 --> 00:36:29,680

you're overcast

985

00:36:34,069 --> 00:36:31,040

cloudy

986

00:36:35,910 --> 00:36:34,079

dreary bone chilling that yeah i

987

00:36:38,390 --> 00:36:35,920

understand that chill in your bone that

988

00:36:41,030 --> 00:36:38,400

you get in those in that weather and you

989

00:36:42,230 --> 00:36:41,040

know what i can live off of that stuff

990

00:36:44,069 --> 00:36:42,240

wow

991

00:36:46,470 --> 00:36:44,079

here in vegas it's like

992

00:36:48,550 --> 00:36:46,480

baking cookies in your oven opening up

993

00:36:51,910 --> 00:36:48,560

the door to the oven sticking your face

994

00:36:53,589 --> 00:36:51,920

in it and uh there's no cookies

995

00:36:57,109 --> 00:36:53,599

yeah that was just you opening your

996

00:36:59,349 --> 00:36:58,390

it's like you open your front door and

997

00:37:00,870 --> 00:36:59,359

you have to

998

00:37:02,710 --> 00:37:00,880

you literally got to go get a freaking

999

00:37:04,150 --> 00:37:02,720

uh scuba mess to breathe in florida

1000

00:37:04,950 --> 00:37:04,160

because it's so humid

1001  
00:37:07,270 --> 00:37:04,960

yeah

1002  
00:37:09,349 --> 00:37:07,280

oh damn it's crazy isn't it you get used

1003  
00:37:13,349 --> 00:37:09,359

to where you live and then you kind of

1004  
00:37:16,870 --> 00:37:15,190

i don't i don't want to be where jeremy

1005  
00:37:20,550 --> 00:37:16,880

is i've been out that way

1006  
00:37:22,950 --> 00:37:20,560

i've been to vegas a number of times so

1007  
00:37:24,950 --> 00:37:22,960

it's nice and like uh if you go over

1008  
00:37:28,790 --> 00:37:24,960

where we were at uh

1009  
00:37:32,310 --> 00:37:28,800

uh ufo megacon over in uh

1010  
00:37:37,109 --> 00:37:34,150

yeah during right what was that during

1011  
00:37:38,870 --> 00:37:37,119

the winter we were there

1012  
00:37:41,270 --> 00:37:38,880

it was fall

1013  
00:37:43,109 --> 00:37:41,280

that's nevada right yeah so if you go

1014

00:37:44,550 --> 00:37:43,119

you go out there during the during the

1015

00:37:46,790 --> 00:37:44,560

cold months

1016

00:37:47,750 --> 00:37:46,800

it's it's beautiful

1017

00:37:49,910 --> 00:37:47,760

but

1018

00:37:52,150 --> 00:37:49,920

during the summer it's it's an absolute

1019

00:37:54,390 --> 00:37:52,160

nightmare yeah i mean it's it's a desert

1020

00:37:57,750 --> 00:37:54,400

so i mean

1021

00:38:03,829 --> 00:37:58,950

yeah

1022

00:38:06,390 --> 00:38:03,839

in the chat um about somebody was asking

1023

00:38:07,990 --> 00:38:06,400

about like like doing investigations and

1024

00:38:10,230 --> 00:38:08,000

stuff and i'd mention you know like kind

1025

00:38:12,790 --> 00:38:10,240

of the cost of how how much it costs to

1026

00:38:13,990 --> 00:38:12,800

do it and right uh

1027

00:38:16,870 --> 00:38:14,000

you know for like a week-long

1028

00:38:18,390 --> 00:38:16,880

investigation it costs a lot of money uh

1029

00:38:20,630 --> 00:38:18,400

people don't realize just how much it

1030

00:38:22,550 --> 00:38:20,640

cost to get you know to

1031

00:38:24,310 --> 00:38:22,560

well for one

1032

00:38:26,069 --> 00:38:24,320

you know just the location we were at

1033

00:38:27,349 --> 00:38:26,079

was a thousand dollars an hour to rent

1034

00:38:30,710 --> 00:38:27,359

the location

1035

00:38:33,030 --> 00:38:30,720

yeah thousand dollars an hour

1036

00:38:34,950 --> 00:38:33,040

five days yeah

1037

00:38:37,510 --> 00:38:34,960

we're there for five days but it but

1038

00:38:39,030 --> 00:38:37,520

your typical your typical five-day i

1039

00:38:40,630 --> 00:38:39,040

mean you're you you got to remember

1040

00:38:42,310 --> 00:38:40,640

you've got a you got to have house or

1041

00:38:44,470 --> 00:38:42,320

lodging you've got to have

1042

00:38:45,990 --> 00:38:44,480

transportation you got to get there so

1043

00:38:47,349 --> 00:38:46,000

you got people coming in from all over

1044

00:38:49,109 --> 00:38:47,359

the place then you got to move your

1045

00:38:51,030 --> 00:38:49,119

equipment so it

1046

00:38:52,790 --> 00:38:51,040

it adds up luckily luckily for us for

1047

00:38:54,790 --> 00:38:52,800

our first expedition we had somebody

1048

00:38:57,430 --> 00:38:54,800

that was lending us a lot of really you

1049

00:38:59,670 --> 00:38:57,440

know great equipment you know but uh you

1050

00:39:01,670 --> 00:38:59,680

know now we're kind of looking at uh

1051  
00:39:03,910 --> 00:39:01,680  
improving that situation and you know

1052  
00:39:05,109 --> 00:39:03,920  
basically not being able to not you know

1053  
00:39:07,990 --> 00:39:05,119  
we kind of learned a lesson about

1054  
00:39:09,109 --> 00:39:08,000  
relying on any one person owning

1055  
00:39:11,349 --> 00:39:09,119  
equipment

1056  
00:39:13,270 --> 00:39:11,359  
um because how it kind of goes now where

1057  
00:39:15,349 --> 00:39:13,280  
we all kind of have

1058  
00:39:16,870 --> 00:39:15,359  
this and that and everybody maintains

1059  
00:39:19,030 --> 00:39:16,880  
their own equipment

1060  
00:39:20,390 --> 00:39:19,040  
the company itself doesn't own any

1061  
00:39:23,829 --> 00:39:20,400  
equipment so

1062  
00:39:26,150 --> 00:39:23,839  
um we're hoping within the next

1063  
00:39:28,710 --> 00:39:26,160

uh year or so you know

1064

00:39:30,870 --> 00:39:28,720

that we'll have a full complement of

1065

00:39:32,950 --> 00:39:30,880

company owned equipment plus

1066

00:39:35,030 --> 00:39:32,960

also you know our own personal equipment

1067

00:39:37,109 --> 00:39:35,040

to grow too so especially with the

1068

00:39:38,950 --> 00:39:37,119

primary members you know the people you

1069

00:39:40,150 --> 00:39:38,960

know that aren't peeling anywhere going

1070

00:39:42,310 --> 00:39:40,160

anywhere

1071

00:39:44,710 --> 00:39:42,320

yeah yeah entirely and we we've built a

1072

00:39:47,670 --> 00:39:44,720

lot of our own stuff as well i mean

1073

00:39:50,150 --> 00:39:47,680

my garage looks like a 1980s radio shack

1074

00:39:52,470 --> 00:39:50,160

exploded right now i've seen your garage

1075

00:39:54,230 --> 00:39:52,480

bro when you came on that uh instagram

1076

00:39:55,430 --> 00:39:54,240

live man like

1077

00:39:58,230 --> 00:39:55,440

that was impressive but the fact that

1078

00:40:00,950 --> 00:39:58,240

you we were working on some crazy piece

1079

00:40:03,190 --> 00:40:00,960

of equipment as we spoke just proved and

1080

00:40:04,390 --> 00:40:03,200

showed that you know it is kind of do it

1081

00:40:05,990 --> 00:40:04,400

yourself

1082

00:40:08,309 --> 00:40:06,000

yeah if you do it you make it happen you

1083

00:40:10,309 --> 00:40:08,319

know that was my uh my

1084

00:40:12,710 --> 00:40:10,319

it's basically an audio encoder that

1085

00:40:14,790 --> 00:40:12,720

takes any type of digital audio and

1086

00:40:17,349 --> 00:40:14,800

encodes it into a laser beam

1087

00:40:19,030 --> 00:40:17,359

so you know the fcc

1088

00:40:21,109 --> 00:40:19,040

highly regulates any types of

1089

00:40:22,470 --> 00:40:21,119

transmissions you can't have a broadcast

1090

00:40:25,829 --> 00:40:22,480

station or anything like that without an

1091

00:40:28,390 --> 00:40:25,839

fcc license but they do not regulate the

1092

00:40:32,550 --> 00:40:28,400

ability to shine a flashlight or shoot a

1093

00:40:35,589 --> 00:40:32,560

laser so what i do is i take uh digital

1094

00:40:38,710 --> 00:40:35,599

audio through like an ipod or an iphone

1095

00:40:41,430 --> 00:40:38,720

and i run it through a system that

1096

00:40:43,190 --> 00:40:41,440

encodes or it modulates the voltage of

1097

00:40:44,470 --> 00:40:43,200

the laser to match with the the

1098

00:40:46,790 --> 00:40:44,480

frequencies and the wavelengths of the

1099

00:40:48,870 --> 00:40:46,800

sound so i can take any sound whether

1100

00:40:51,030 --> 00:40:48,880

it's you know imagine dragons or a

1101

00:40:54,790 --> 00:40:51,040

recording of you know digital pi

1102

00:40:56,150 --> 00:40:54,800

and if we see an anomalous object and

1103

00:40:57,990 --> 00:40:56,160

after we

1104

00:41:00,470 --> 00:40:58,000

verify that it's not a domestic

1105

00:41:03,430 --> 00:41:00,480

that sends out information we can shoot

1106

00:41:05,910 --> 00:41:03,440

a shoot a laser beam at it with an audio

1107

00:41:07,190 --> 00:41:05,920

recording and hopefully uh get our

1108

00:41:09,510 --> 00:41:07,200

response back

1109

00:41:10,710 --> 00:41:09,520

yeah so basically it's it's a lot of a

1110

00:41:13,109 --> 00:41:10,720

lot of

1111

00:41:14,630 --> 00:41:13,119

information for saying that we're able

1112

00:41:16,470 --> 00:41:14,640

to

1113

00:41:18,390 --> 00:41:16,480

uh utilize

1114

00:41:21,270 --> 00:41:18,400

just about any frequency of light in a

1115

00:41:22,710 --> 00:41:21,280

laser beam ultraviolet infrared and send

1116

00:41:25,589 --> 00:41:22,720

out information

1117

00:41:27,589 --> 00:41:25,599

and receive information that way great

1118

00:41:29,190 --> 00:41:27,599

jeremy didn't didn't you um didn't you

1119

00:41:30,710 --> 00:41:29,200

post some of that on

1120

00:41:32,230 --> 00:41:30,720

the osiris

1121

00:41:35,670 --> 00:41:32,240

yeah instagram

1122

00:41:39,190 --> 00:41:37,270

yeah all the links all the links for you

1123

00:41:40,630 --> 00:41:39,200

guys are in the description below well

1124

00:41:42,069 --> 00:41:40,640

let's jump on to the osiris because i

1125

00:41:43,750 --> 00:41:42,079

know that you've had teething problems

1126

00:41:45,990 --> 00:41:43,760

over the last year or that so are you

1127

00:41:49,349 --> 00:41:46,000

able to give us an update are things

1128

00:41:52,950 --> 00:41:49,359

progressing at all yeah yeah so the

1129

00:41:54,950 --> 00:41:52,960

osiris is going through a refit um when

1130

00:41:56,870 --> 00:41:54,960

when it goes out on expeditions

1131

00:41:59,030 --> 00:41:56,880

i have a learning curve

1132

00:42:00,550 --> 00:41:59,040

because honestly nobody's really ever

1133

00:42:03,109 --> 00:42:00,560

done this before

1134

00:42:04,870 --> 00:42:03,119

so you you outfit it with equipment you

1135

00:42:06,390 --> 00:42:04,880

take it on an expedition you use the

1136

00:42:07,910 --> 00:42:06,400

equipment you find out what works you

1137

00:42:10,230 --> 00:42:07,920

find out what doesn't work what could be

1138

00:42:13,030 --> 00:42:10,240

improved and then when you're home

1139

00:42:15,589 --> 00:42:13,040

you've got it you cut all the wires and

1140

00:42:17,589 --> 00:42:15,599

you make it more ergonomical you replace

1141

00:42:20,069 --> 00:42:17,599

uh you know one camera with one that

1142

00:42:22,470 --> 00:42:20,079

that works better you find out that your

1143

00:42:24,630 --> 00:42:22,480

your wi-fi absolutely sucks and you

1144

00:42:27,910 --> 00:42:24,640

replace your modems and it just it gets

1145

00:42:31,030 --> 00:42:27,920

rebuilt after every event because you

1146

00:42:32,309 --> 00:42:31,040

learn what works and what doesn't

1147

00:42:34,550 --> 00:42:32,319

right now

1148

00:42:36,630 --> 00:42:34,560

i just told you guys today as a matter

1149

00:42:39,349 --> 00:42:36,640

of fact i'm starting to collect the

1150

00:42:42,710 --> 00:42:39,359

pieces and parts required to build what

1151

00:42:44,550 --> 00:42:42,720

is called a passive radar

1152

00:42:46,230 --> 00:42:44,560

again the fcc doesn't allow you to

1153

00:42:48,390 --> 00:42:46,240

transmit uh

1154

00:42:50,309 --> 00:42:48,400

the wavelengths that a radar system uses

1155

00:42:53,670 --> 00:42:50,319

without an appropriate license

1156

00:42:56,630 --> 00:42:53,680

but what a passive radar does is our

1157

00:42:59,030 --> 00:42:56,640

skies are inundated with tv signals and

1158

00:43:01,109 --> 00:42:59,040

radio signals and everything you know

1159

00:43:03,910 --> 00:43:01,119

that's being broadcast already

1160

00:43:06,390 --> 00:43:03,920

and aircraft and hopefully uap

1161

00:43:08,870 --> 00:43:06,400

already reflect all those signals so

1162

00:43:11,109 --> 00:43:08,880

what you do is you build a device

1163

00:43:13,270 --> 00:43:11,119

that takes the reflectivity from all the

1164

00:43:14,790 --> 00:43:13,280

signals that are already out there

1165

00:43:17,510 --> 00:43:14,800

and it measures them and then it

1166

00:43:19,430 --> 00:43:17,520

displays the track of that object based

1167

00:43:21,589 --> 00:43:19,440

on all the other radio signals that it

1168

00:43:23,270 --> 00:43:21,599

that it's uh that's reflecting

1169

00:43:25,030 --> 00:43:23,280

so that is going to be incorporated into

1170

00:43:27,910 --> 00:43:25,040

the osiris as well as soon as i'm done

1171

00:43:28,710 --> 00:43:27,920

with it and i think gary i think i've

1172

00:43:30,870 --> 00:43:28,720

heard

1173

00:43:32,790 --> 00:43:30,880

i can't remember where that you plan on

1174

00:43:33,990 --> 00:43:32,800

adding another vehicle to the fleet

1175

00:43:36,230 --> 00:43:34,000

let's say

1176

00:43:38,150 --> 00:43:36,240

oh yeah uh jeremy's been a big

1177

00:43:39,990 --> 00:43:38,160

inspiration and you know

1178

00:43:41,829 --> 00:43:40,000

i get a i've gotten i've got a little

1179

00:43:43,990 --> 00:43:41,839

bit of criticism for having him on my

1180

00:43:45,910 --> 00:43:44,000

team because of how critical he can be

1181

00:43:48,150 --> 00:43:45,920

when he's attacked online

1182

00:43:51,109 --> 00:43:48,160

um i don't care

1183

00:43:54,790 --> 00:43:51,119

like praying frankly i don't

1184

00:43:56,150 --> 00:43:54,800

care because this man has spent endless

1185

00:43:58,630 --> 00:43:56,160

hours

1186

00:44:01,030 --> 00:43:58,640

writing up articles writing up doing

1187

00:44:03,270 --> 00:44:01,040

tech you know dealing with you know

1188

00:44:05,349 --> 00:44:03,280

problem after problem with you know his

1189

00:44:08,069 --> 00:44:05,359

truck and you know providing his truck

1190

00:44:10,550 --> 00:44:08,079

to us when we were you know we went out

1191

00:44:11,750 --> 00:44:10,560

skinwalker providing his truck anytime

1192

00:44:13,829 --> 00:44:11,760

we need it

1193

00:44:16,630 --> 00:44:13,839

you know and basically

1194

00:44:17,750 --> 00:44:16,640

you know he himself you know

1195

00:44:20,150 --> 00:44:17,760

uh

1196

00:44:21,510 --> 00:44:20,160

not to just bloat not just to this horn

1197

00:44:22,630 --> 00:44:21,520

i got to deflate him a little bit you

1198

00:44:25,910 --> 00:44:22,640

know he said

1199

00:44:27,030 --> 00:44:25,920

he had to learn how to be a team again

1200

00:44:29,030 --> 00:44:27,040

you know because i mean he's been out of

1201

00:44:30,870 --> 00:44:29,040

the service a long time like you know me

1202

00:44:32,950 --> 00:44:30,880

and him and jason when we're working

1203

00:44:34,470 --> 00:44:32,960

together physically together we just

1204

00:44:37,109 --> 00:44:34,480

right into lockstep because we're all

1205

00:44:38,790 --> 00:44:37,119

military yeah but you know once we're

1206

00:44:40,950 --> 00:44:38,800

separated and you're in your own home

1207

00:44:42,390 --> 00:44:40,960

and stuff like that you know we we kind

1208

00:44:44,630 --> 00:44:42,400

of all have to learn

1209

00:44:46,870 --> 00:44:44,640

to be that team again you know we're not

1210

00:44:49,510 --> 00:44:46,880

you're not he's not lone wolfing it you

1211

00:44:51,589 --> 00:44:49,520

know and he had spent so many hours and

1212

00:44:53,109 --> 00:44:51,599

you know you should have seen the things

1213

00:44:55,430 --> 00:44:53,119

this guy did to make sure that that

1214

00:44:57,829 --> 00:44:55,440

truck was was ready to go and when it

1215

00:44:59,829 --> 00:44:57,839

when it did break down was able to keep

1216

00:45:01,910 --> 00:44:59,839

giving good getting and keeping it going

1217

00:45:04,790 --> 00:45:01,920

you know literally pulling he went to

1218

00:45:07,510 --> 00:45:04,800

walmart this guy all right so his his

1219

00:45:08,470 --> 00:45:07,520

his throttle cable broke in his truck

1220

00:45:11,030 --> 00:45:08,480

all right

1221

00:45:14,230 --> 00:45:11,040

location yeah on location while we were

1222

00:45:15,910 --> 00:45:14,240

in california and he decides

1223

00:45:17,990 --> 00:45:15,920

all right i got a great idea i'm gonna

1224

00:45:20,390 --> 00:45:18,000

go to walmart and get a wire a picture

1225

00:45:22,950 --> 00:45:20,400

hanging kit use the wire from that and

1226

00:45:24,390 --> 00:45:22,960

bungee cords and he literally drove his

1227

00:45:26,950 --> 00:45:24,400

truck home

1228

00:45:31,670 --> 00:45:29,030

i had a bungee cord going from the motor

1229

00:45:33,990 --> 00:45:31,680

on my throttle cable over my hood around

1230

00:45:35,589 --> 00:45:34,000

the passenger door and i was using my

1231

00:45:38,470 --> 00:45:35,599

hand to control

1232

00:45:41,109 --> 00:45:38,480

the glass pedal so

1233

00:45:43,510 --> 00:45:41,119

yeah yeah i mean the guys the guy's a

1234

00:45:46,309 --> 00:45:43,520

real-life macgyver and you know

1235

00:45:48,550 --> 00:45:46,319

his his personality quirks aside you

1236

00:45:50,550 --> 00:45:48,560

know i've had no problems with him

1237

00:45:51,589 --> 00:45:50,560

you know um

1238

00:45:54,390 --> 00:45:51,599

he uh

1239

00:45:57,510 --> 00:45:54,400

he's been a great addition to the team

1240

00:46:01,349 --> 00:45:57,520

um maintains his position he's done

1241

00:46:03,030 --> 00:46:01,359

great work um he's a pain in my ass but

1242

00:46:05,589 --> 00:46:03,040

you know

1243

00:46:07,910 --> 00:46:05,599

so to everybody else

1244

00:46:09,589 --> 00:46:07,920

yes so but he uh

1245

00:46:11,510 --> 00:46:09,599

that's that's why i decided to start

1246

00:46:13,589 --> 00:46:11,520

that you know the save the osiris fund

1247

00:46:16,069 --> 00:46:13,599

because he was he was in a pretty dark

1248

00:46:17,750 --> 00:46:16,079

place he had had some personal issues

1249

00:46:20,150 --> 00:46:17,760

happen that were out of his control that

1250

00:46:22,230 --> 00:46:20,160

were just a rough situation his truck

1251  
00:46:24,630 --> 00:46:22,240  
was broke down the registration was

1252  
00:46:26,790 --> 00:46:24,640  
coming due the you know you know he was

1253  
00:46:29,589 --> 00:46:26,800  
looking at you know pretty grim times

1254  
00:46:31,430 --> 00:46:29,599  
and you know i i thought to myself this

1255  
00:46:33,430 --> 00:46:31,440  
is the least i can do for this guy you

1256  
00:46:35,430 --> 00:46:33,440  
know just start start talking to people

1257  
00:46:37,270 --> 00:46:35,440  
about you know because we need we need

1258  
00:46:39,750 --> 00:46:37,280  
to get this truck up and running you

1259  
00:46:41,910 --> 00:46:39,760  
need to get it operational properly to

1260  
00:46:43,750 --> 00:46:41,920  
where this he's not having to jury rig

1261  
00:46:45,349 --> 00:46:43,760  
this thing every time we bring it on the

1262  
00:46:48,230 --> 00:46:45,359  
road you know because i mean it's a

1263  
00:46:50,150 --> 00:46:48,240

capable vehicle but it's an old vehicle

1264

00:46:50,950 --> 00:46:50,160

which means that things are going to go

1265

00:46:53,670 --> 00:46:50,960

wrong

1266

00:46:56,069 --> 00:46:53,680

it needs you know and so

1267

00:46:57,990 --> 00:46:56,079

the first the first uh portion of this

1268

00:46:59,990 --> 00:46:58,000

is you know basically to get it get it

1269

00:47:01,589 --> 00:47:00,000

up and running get it upgraded get

1270

00:47:03,910 --> 00:47:01,599

everything working properly and then

1271

00:47:05,510 --> 00:47:03,920

once we get it to where we want it

1272

00:47:07,990 --> 00:47:05,520

you know then i'm gonna change that fund

1273

00:47:10,150 --> 00:47:08,000

to the osiris maintenance fund you know

1274

00:47:12,710 --> 00:47:10,160

and i'm still gonna keep telling people

1275

00:47:14,309 --> 00:47:12,720

you know donate to the osiris because

1276

00:47:17,430 --> 00:47:14,319

you know this this guy puts his heart

1277

00:47:19,990 --> 00:47:17,440

and soul into this thing and uh you know

1278

00:47:22,390 --> 00:47:20,000

without those donations that truck just

1279

00:47:24,230 --> 00:47:22,400

rots you know i mean he's putting his

1280

00:47:27,349 --> 00:47:24,240

own money well i mean when it comes down

1281

00:47:28,630 --> 00:47:27,359

to it any time his family has a problem

1282

00:47:30,390 --> 00:47:28,640

it's going to end up being put in the

1283

00:47:32,710 --> 00:47:30,400

back burner because the money's just not

1284

00:47:34,470 --> 00:47:32,720

going to be there's no extra money no

1285

00:47:37,430 --> 00:47:34,480

i'm not you know

1286

00:47:40,150 --> 00:47:37,440

so priorities isn't it family first you

1287

00:47:41,829 --> 00:47:40,160

know we're exactly volunteers in uapx

1288

00:47:44,470 --> 00:47:41,839

none of us get paid

1289

00:47:47,109 --> 00:47:44,480

we all either have jobs or are looking

1290

00:47:49,670 --> 00:47:47,119

for jobs plus we all have families

1291

00:47:52,549 --> 00:47:49,680

and uapx is more

1292

00:47:54,390 --> 00:47:52,559

requirement than a normal 40 hour a week

1293

00:47:56,069 --> 00:47:54,400

job so we're balancing everything that

1294

00:47:57,589 --> 00:47:56,079

we do with uapx

1295

00:47:59,510 --> 00:47:57,599

with our nine to fives and with our

1296

00:48:01,030 --> 00:47:59,520

families and trying to maintain sanity

1297

00:48:03,190 --> 00:48:01,040

at the same time of course

1298

00:48:04,309 --> 00:48:03,200

understandable i think people just see a

1299

00:48:05,349 --> 00:48:04,319

little bit of

1300

00:48:07,270 --> 00:48:05,359

us

1301  
00:48:09,670 --> 00:48:07,280  
and i don't mean necessarily me as much

1302  
00:48:11,750 --> 00:48:09,680  
but a little bit as they see us on

1303  
00:48:13,430 --> 00:48:11,760  
twitter and social media talking about

1304  
00:48:14,710 --> 00:48:13,440  
uap and that and

1305  
00:48:16,710 --> 00:48:14,720  
i mean

1306  
00:48:18,470 --> 00:48:16,720  
they don't see the family and the

1307  
00:48:20,230 --> 00:48:18,480  
day-to-day life you have to go through

1308  
00:48:22,309 --> 00:48:20,240  
and then the spare minute you get to do

1309  
00:48:23,109 --> 00:48:22,319  
a little bit of something you do it and

1310  
00:48:25,030 --> 00:48:23,119  
it's

1311  
00:48:27,670 --> 00:48:25,040  
none of us have golden clad toilets in

1312  
00:48:31,510 --> 00:48:29,750  
you don't

1313  
00:48:36,620 --> 00:48:31,520

i thought

1314

00:48:41,430 --> 00:48:39,750

[Laughter]

1315

00:48:42,950 --> 00:48:41,440

that ufo money you're lucky if you get a

1316

00:48:45,750 --> 00:48:42,960

hole in the ground

1317

00:48:48,069 --> 00:48:45,760

right yeah no it's uh

1318

00:48:49,349 --> 00:48:48,079

it's it's a labor of of i'm not even

1319

00:48:51,829 --> 00:48:49,359

going to say it's a labor of love but

1320

00:48:53,190 --> 00:48:51,839

it's a labor of of passion because they

1321

00:48:55,030 --> 00:48:53,200

have dedication

1322

00:48:56,630 --> 00:48:55,040

you have to be

1323

00:48:59,109 --> 00:48:56,640

dedicated to

1324

00:49:01,030 --> 00:48:59,119

wanting the final answer

1325

00:49:03,430 --> 00:49:01,040

yeah and and you know all of us have

1326

00:49:05,750 --> 00:49:03,440

been touched in one way or another by

1327

00:49:08,150 --> 00:49:05,760

our own individual experiences regarding

1328

00:49:10,549 --> 00:49:08,160

the phenomenon and we're all here for

1329

00:49:12,309 --> 00:49:10,559

one unified goal of finding out what the

1330

00:49:14,790 --> 00:49:12,319

hell that was

1331

00:49:16,870 --> 00:49:14,800

i mean you say that my my my experience

1332

00:49:18,710 --> 00:49:16,880

with the phenomena is is not a personal

1333

00:49:20,950 --> 00:49:18,720

thing i've never seen anything but it's

1334

00:49:23,510 --> 00:49:20,960

because of people like you guys who

1335

00:49:25,670 --> 00:49:23,520

you know only a few years ago when i was

1336

00:49:28,470 --> 00:49:25,680

sat in the background in my in probably

1337

00:49:31,109 --> 00:49:28,480

in this room in front of this computer

1338

00:49:33,430 --> 00:49:31,119

you know on my own for many nights

1339

00:49:34,710 --> 00:49:33,440

watching stuff digging deep into

1340

00:49:37,750 --> 00:49:34,720

documents and

1341

00:49:39,589 --> 00:49:37,760

hearing your guys stories that kept

1342

00:49:40,950 --> 00:49:39,599

pushing my passion higher and higher to

1343

00:49:45,750 --> 00:49:40,960

the point where i had to become involved

1344

00:49:47,430 --> 00:49:45,760

in the subject so you know it does

1345

00:49:49,589 --> 00:49:47,440

i may be different from you guys in that

1346

00:49:50,710 --> 00:49:49,599

respect but at the same time we are in

1347

00:49:53,829 --> 00:49:50,720

that

1348

00:49:55,990 --> 00:49:53,839

answers and

1349

00:49:57,589 --> 00:49:56,000

doing our own part where we can and you

1350

00:49:59,589 --> 00:49:57,599

know i'm dedicated to it to the point

1351  
00:50:00,870 --> 00:49:59,599  
where i could be out

1352  
00:50:03,349 --> 00:50:00,880  
earning

1353  
00:50:05,109 --> 00:50:03,359  
a really really good wage doing my old

1354  
00:50:07,190 --> 00:50:05,119  
it work and stuff but i don't i

1355  
00:50:08,870 --> 00:50:07,200  
dedicated to this and

1356  
00:50:10,390 --> 00:50:08,880  
you know i'm not looking for a sob story

1357  
00:50:12,710 --> 00:50:10,400  
or or even i'm not looking for thanks

1358  
00:50:14,790 --> 00:50:12,720  
but i'm just being realistic and letting

1359  
00:50:16,549 --> 00:50:14,800  
people know that it ain't just a simple

1360  
00:50:17,910 --> 00:50:16,559  
case of yeah we do this for the crack

1361  
00:50:21,670 --> 00:50:17,920  
and

1362  
00:50:23,829 --> 00:50:21,680  
you have to take a break you have to

1363  
00:50:26,549 --> 00:50:23,839

step back from this because this is such

1364

00:50:28,549 --> 00:50:26,559

an enigma it's such a mystery wow speak

1365

00:50:30,710 --> 00:50:28,559

for yourself so many well there's so

1366

00:50:33,510 --> 00:50:30,720

many rabbit holes that you can go down

1367

00:50:36,150 --> 00:50:33,520

yeah and i think to be honest with you i

1368

00:50:37,829 --> 00:50:36,160

think that we here at uapx

1369

00:50:38,829 --> 00:50:37,839

we actually have it easier than a lot of

1370

00:50:41,430 --> 00:50:38,839

other people

1371

00:50:42,870 --> 00:50:41,440

because everybody else that's out there

1372

00:50:44,069 --> 00:50:42,880

is you know they're doing what you did

1373

00:50:46,230 --> 00:50:44,079

vinnie they're going through historical

1374

00:50:47,829 --> 00:50:46,240

documents they're looking at cases and

1375

00:50:49,190 --> 00:50:47,839

we know that there are a lot of things

1376

00:50:51,430 --> 00:50:49,200

that are fabricated there's a lot of

1377

00:50:53,670 --> 00:50:51,440

lies out there there's disinformation

1378

00:50:55,430 --> 00:50:53,680

and some of it is so damn convincing

1379

00:50:57,829 --> 00:50:55,440

that you don't know what you're reading

1380

00:50:58,549 --> 00:50:57,839

is the truth or not we don't deal in

1381

00:51:00,150 --> 00:50:58,559

that

1382

00:51:02,470 --> 00:51:00,160

we deal in

1383

00:51:04,630 --> 00:51:02,480

scientific facts that we may not have

1384

00:51:07,750 --> 00:51:04,640

the flashy uh you know we're gonna drop

1385

00:51:09,750 --> 00:51:07,760

this video at new high noon on friday uh

1386

00:51:11,589 --> 00:51:09,760

[h\_\_\h] but uh you know

1387

00:51:14,390 --> 00:51:11,599

you can guarantee what you do get from

1388

00:51:16,710 --> 00:51:14,400

us is going to be the real deal yeah but

1389

00:51:17,510 --> 00:51:16,720

it may not you know it may not be up to

1390

00:51:21,510 --> 00:51:17,520

your

1391

00:51:23,109 --> 00:51:21,520

we're going to keep at it until we do

1392

00:51:24,870 --> 00:51:23,119

give you something that is up to your

1393

00:51:26,069 --> 00:51:24,880

hopes and desires and hopefully what we

1394

00:51:30,150 --> 00:51:26,079

do have

1395

00:51:31,670 --> 00:51:30,160

will blow everybody away you know um

1396

00:51:33,349 --> 00:51:31,680

there's a question is there any way that

1397

00:51:34,710 --> 00:51:33,359

you can help us uh well there's three

1398

00:51:36,549 --> 00:51:34,720

there's three ways that you could help

1399

00:51:38,230 --> 00:51:36,559

uapx either uh

1400

00:51:39,829 --> 00:51:38,240

you can donate to the

1401

00:51:42,630 --> 00:51:39,839

save uh

1402

00:51:43,829 --> 00:51:42,640

the osiris fund to help with upgrades

1403

00:51:48,150 --> 00:51:43,839

and

1404

00:51:50,309 --> 00:51:48,160

if you go to our website

1405

00:51:51,990 --> 00:51:50,319

you can you can donate one of two ways

1406

00:51:53,349 --> 00:51:52,000

there's a tiny little link in the middle

1407

00:51:56,069 --> 00:51:53,359

that's a uh

1408

00:51:58,150 --> 00:51:56,079

that's a paypal donation place where you

1409

00:52:00,150 --> 00:51:58,160

can actually donate once or you know a

1410

00:52:02,829 --> 00:52:00,160

one-time donation or we actually have a

1411

00:52:05,990 --> 00:52:02,839

patreon set up right through our website

1412

00:52:08,309 --> 00:52:06,000

um we also have some crypto payments uh

1413

00:52:10,549 --> 00:52:08,319

on on that as well there's the qr codes

1414

00:52:12,390 --> 00:52:10,559

if if anybody is crypto savvy and wants

1415

00:52:15,190 --> 00:52:12,400

to do donations in crypto we can accept

1416

00:52:16,470 --> 00:52:15,200

those as well yeah yeah so

1417

00:52:18,870 --> 00:52:16,480

there's you know there's a lot of ways

1418

00:52:20,470 --> 00:52:18,880

you can help so i mean it's you know we

1419

00:52:23,990 --> 00:52:20,480

need the crypto for our black market

1420

00:52:28,790 --> 00:52:26,870

but uh those are for the most vouchers

1421

00:52:32,309 --> 00:52:28,800

yeah yeah that's that's that's for when

1422

00:52:34,069 --> 00:52:32,319

we start working with raytheon

1423

00:52:38,470 --> 00:52:34,079

don't even joke because people will take

1424

00:52:38,480 --> 00:52:41,829

take that snippet

1425

00:52:47,270 --> 00:52:43,829

if you go to the raytheon website they

1426

00:52:49,270 --> 00:52:47,280

actually promote the 2004 event

1427

00:52:51,589 --> 00:52:49,280

uh the nimitz encounter basically saying

1428

00:52:53,750 --> 00:52:51,599

that they tracked on on you know you are

1429

00:52:54,950 --> 00:52:53,760

focused with their systems

1430

00:52:56,710 --> 00:52:54,960

so

1431

00:52:58,790 --> 00:52:56,720

i thought that was pretty uh pretty

1432

00:53:01,030 --> 00:52:58,800

pretty badass

1433

00:53:02,790 --> 00:53:01,040

what that's crazy

1434

00:53:04,470 --> 00:53:02,800

yeah there's there's some there's some

1435

00:53:06,390 --> 00:53:04,480

wild stuff out there

1436

00:53:08,630 --> 00:53:06,400

you know sitting back and and kind of

1437

00:53:10,150 --> 00:53:08,640

scouring over social media and reading

1438

00:53:13,030 --> 00:53:10,160

about ourselves

1439

00:53:16,230 --> 00:53:13,040

it's amazing to see the rumors

1440

00:53:18,630 --> 00:53:16,240

that have been ascribed to us

1441

00:53:21,670 --> 00:53:18,640

you know there's a rumor that the united

1442

00:53:23,750 --> 00:53:21,680

states government passed on our offer of

1443

00:53:25,990 --> 00:53:23,760

giving them data

1444

00:53:29,349 --> 00:53:26,000

first off we haven't finished analyzing

1445

00:53:32,549 --> 00:53:29,359

our data second we're not we and i'll

1446

00:53:35,990 --> 00:53:32,559

say it again we will not provide the u.s

1447

00:53:37,270 --> 00:53:36,000

government early access or direct access

1448

00:53:39,030 --> 00:53:37,280

outside of

1449

00:53:40,790 --> 00:53:39,040

the way that the public gets it

1450

00:53:42,630 --> 00:53:40,800

hold on i'm gonna call you at that they

1451

00:53:45,750 --> 00:53:42,640

show up armed at my house they can have

1452

00:53:48,309 --> 00:53:47,030

i'm not going to go on these i'm not

1453

00:53:49,589 --> 00:53:48,319

going to get in there

1454

00:53:51,349 --> 00:53:49,599

right now

1455

00:53:53,109 --> 00:53:51,359

no oh dog

1456

00:53:54,950 --> 00:53:53,119

cold did my no no my family's in the

1457

00:53:56,950 --> 00:53:54,960

house dude these dudes show up here you

1458

00:53:58,870 --> 00:53:56,960

go yeah but you know when it comes down

1459

00:54:00,630 --> 00:53:58,880

to it as an organization we are not

1460

00:54:02,790 --> 00:54:00,640

providing the data to anybody at the

1461

00:54:04,790 --> 00:54:02,800

moment at all nobody not even just

1462

00:54:06,390 --> 00:54:04,800

ourselves that's our scientists nobody's

1463

00:54:08,309 --> 00:54:06,400

passing on it nobody's even had a chance

1464

00:54:11,430 --> 00:54:08,319

to evaluate it and say it's good or it

1465

00:54:13,750 --> 00:54:11,440

sucks i mean yeah that has not happened

1466

00:54:16,549 --> 00:54:13,760

uh there was another one that uh i saw

1467

00:54:19,349 --> 00:54:16,559

on reddit somebody said that uapx was

1468

00:54:22,470 --> 00:54:19,359

projecting whale song into the ocean to

1469

00:54:25,430 --> 00:54:22,480

attract you underwater uaps no

1470

00:54:27,030 --> 00:54:25,440

no we don't project anything into the

1471

00:54:29,270 --> 00:54:27,040

ocean and we certainly don't broadcast

1472

00:54:31,510 --> 00:54:29,280

whale songs up into the air either

1473

00:54:33,750 --> 00:54:31,520

i think that i think that probably is

1474

00:54:35,670 --> 00:54:33,760

strapulated from our you know like our

1475

00:54:38,870 --> 00:54:35,680

origins though because like when we

1476

00:54:42,230 --> 00:54:38,880

first started uh kevin day had this

1477

00:54:43,990 --> 00:54:42,240

uh idea that you know these uaps might

1478

00:54:46,230 --> 00:54:44,000

be tracking you know whale pod

1479

00:54:47,510 --> 00:54:46,240

migrations through that area

1480

00:54:51,270 --> 00:54:47,520

yeah

1481

00:54:53,190 --> 00:54:51,280

that may have been like where that kind

1482

00:54:54,549 --> 00:54:53,200

of evolved from

1483

00:54:56,950 --> 00:54:54,559

so i mean you know how you know how

1484

00:54:59,990 --> 00:54:56,960

these things evolve on twitter and on

1485

00:55:02,230 --> 00:55:00,000

4chan and you know and all these other

1486

00:55:03,750 --> 00:55:02,240

you know friggin and reddit i mean

1487

00:55:05,670 --> 00:55:03,760

reddit i mean

1488

00:55:06,950 --> 00:55:05,680

right it's almost as bad as twitter at

1489

00:55:10,309 --> 00:55:06,960

this point

1490

00:55:15,030 --> 00:55:12,630

well we started our own discord channel

1491

00:55:17,510 --> 00:55:15,040

and and the discord channel in less than

1492

00:55:19,829 --> 00:55:17,520

a month has gone from like five people

1493

00:55:22,950 --> 00:55:19,839

to almost uh i think we're we're

1494

00:55:24,309 --> 00:55:22,960

approaching the 500 person mark now whoa

1495

00:55:26,150 --> 00:55:24,319

now i'm going to go ahead and give all

1496

00:55:27,829 --> 00:55:26,160

the credit to jeremy for this because i

1497

00:55:29,030 --> 00:55:27,839

actually created this discord channel

1498

00:55:31,190 --> 00:55:29,040

like

1499

00:55:33,270 --> 00:55:31,200

months and months and months and months

1500

00:55:34,950 --> 00:55:33,280

ago it's just like okay i'm just going

1501  
00:55:36,710 --> 00:55:34,960  
to set it up just wait no you know just

1502  
00:55:39,109 --> 00:55:36,720  
you know just to have that place marker

1503  
00:55:42,309 --> 00:55:39,119  
for uapx on there you know yeah

1504  
00:55:43,589 --> 00:55:42,319  
so no nobody else can like take the uapx

1505  
00:55:45,510 --> 00:55:43,599  
name you know

1506  
00:55:47,270 --> 00:55:45,520  
and uh then jeremy's like oh we got a

1507  
00:55:49,670 --> 00:55:47,280  
server oh like yeah here we go invite

1508  
00:55:51,829 --> 00:55:49,680  
boom next thing you know we got like

1509  
00:55:53,270 --> 00:55:51,839  
you know three you know 100 followers

1510  
00:55:54,870 --> 00:55:53,280  
and i can't even keep up with the chat

1511  
00:55:56,230 --> 00:55:54,880  
anymore you know because it used to be i

1512  
00:55:58,309 --> 00:55:56,240  
could be able to pop on there and i had

1513  
00:56:00,630 --> 00:55:58,319

my three faithful guys that were always

1514

00:56:03,030 --> 00:56:00,640

in there asking questions and you know

1515

00:56:04,870 --> 00:56:03,040

and then uh i hop back up now i get on

1516

00:56:06,470 --> 00:56:04,880

there and i'm like i don't even bother

1517

00:56:07,910 --> 00:56:06,480

to try to read all the [h\_\_h] i just go

1518

00:56:10,230 --> 00:56:07,920

right to the bottom and i say hey guys

1519

00:56:12,950 --> 00:56:10,240

i'm here what's going on

1520

00:56:13,910 --> 00:56:12,960

it's amazing because it's the antithesis

1521

00:56:15,910 --> 00:56:13,920

of twitter

1522

00:56:17,910 --> 00:56:15,920

twitter is restricted in character

1523

00:56:19,670 --> 00:56:17,920

limitations you're you're forced to be

1524

00:56:20,630 --> 00:56:19,680

very curt and very direct with your

1525

00:56:23,109 --> 00:56:20,640

comments

1526

00:56:25,670 --> 00:56:23,119

on our discord channel it's it's not a

1527

00:56:26,870 --> 00:56:25,680

hate fest it's a community of people who

1528

00:56:29,510 --> 00:56:26,880

are actually

1529

00:56:31,829 --> 00:56:29,520

you know using their words to ask

1530

00:56:34,710 --> 00:56:31,839

questions and provide opinions and you

1531

00:56:37,030 --> 00:56:34,720

know i haven't had to ban anybody

1532

00:56:38,390 --> 00:56:37,040

from there it's it's self-policing and

1533

00:56:41,349 --> 00:56:38,400

it's a really cool place to kind of

1534

00:56:42,870 --> 00:56:41,359

chill out and honestly i mean

1535

00:56:45,109 --> 00:56:42,880

unless you want to come onto our server

1536

00:56:46,789 --> 00:56:45,119

and just be a straight dick

1537

00:56:49,190 --> 00:56:46,799

you're not going to get banned if you

1538

00:56:51,270 --> 00:56:49,200

have a contrary opinion i i'm a big

1539

00:56:53,109 --> 00:56:51,280

proponent as you can tell you know mick

1540

00:56:54,390 --> 00:56:53,119

west he's my boy

1541

00:56:56,549 --> 00:56:54,400

uh you know

1542

00:56:58,150 --> 00:56:56,559

i i don't have a problem with anybody

1543

00:57:00,230 --> 00:56:58,160

that's cynical i don't have a problem

1544

00:57:01,990 --> 00:57:00,240

with anybody with like

1545

00:57:03,349 --> 00:57:02,000

a you know i don't care if you come on

1546

00:57:05,270 --> 00:57:03,359

the server and say you guys are all full

1547

00:57:07,510 --> 00:57:05,280

of [h\_\_\h] and what you saw was government

1548

00:57:09,270 --> 00:57:07,520

crafts okay it might be i don't i don't

1549

00:57:11,349 --> 00:57:09,280

know

1550

00:57:13,270 --> 00:57:11,359

yeah your theory could be right but it's

1551

00:57:15,030 --> 00:57:13,280

just unless you got proof it's just as

1552

00:57:16,870 --> 00:57:15,040

whacked out as ours you know

1553

00:57:18,630 --> 00:57:16,880

absolutely somebody just asked where to

1554

00:57:20,990 --> 00:57:18,640

find the discord server if you guys go

1555

00:57:23,430 --> 00:57:21,000

to our website uh

1556

00:57:26,390 --> 00:57:23,440

uapexpeditions.org on the bottom of

1557

00:57:28,870 --> 00:57:26,400

every page is an icon that will take you

1558

00:57:30,630 --> 00:57:28,880

to an invite for the discord server

1559

00:57:32,390 --> 00:57:30,640

for everybody watching this that's not

1560

00:57:34,789 --> 00:57:32,400

live and after the fact i will add this

1561

00:57:36,230 --> 00:57:34,799

as soon as this finishes i'll pop it in

1562

00:57:36,950 --> 00:57:36,240

the description with all the other links

1563

00:57:38,069 --> 00:57:36,960

so

1564

00:57:40,950 --> 00:57:38,079

don't worry

1565

00:57:42,950 --> 00:57:40,960

yeah and uh in the future uh i'm working

1566

00:57:44,390 --> 00:57:42,960

on a podcast of my own

1567

00:57:46,870 --> 00:57:44,400

um

1568

00:57:48,630 --> 00:57:46,880

uh so it's uh you know it's gonna be you

1569

00:57:50,230 --> 00:57:48,640

know it's gonna be something individual

1570

00:57:52,870 --> 00:57:50,240

something for me to have on my own

1571

00:57:55,349 --> 00:57:52,880

platform to kind of you know

1572

00:57:56,710 --> 00:57:55,359

feel good about myself

1573

00:57:58,309 --> 00:57:56,720

is that is this the youtube channel that

1574

00:58:00,309 --> 00:57:58,319

you've currently got set up already or

1575

00:58:01,670 --> 00:58:00,319

is that a new thing uh no uh i'm

1576

00:58:02,630 --> 00:58:01,680

probably gonna end up rebranding that

1577

00:58:03,910 --> 00:58:02,640

channel

1578

00:58:06,309 --> 00:58:03,920

um

1579

00:58:09,589 --> 00:58:06,319

it's it'll still be me but i you know

1580

00:58:11,349 --> 00:58:09,599

i'm i'm uh i'm paying for the fancy

1581

00:58:13,750 --> 00:58:11,359

stuff to be you know

1582

00:58:15,190 --> 00:58:13,760

developed for me you know the name and

1583

00:58:17,990 --> 00:58:15,200

everything like that

1584

00:58:19,430 --> 00:58:18,000

um and when before anybody says oh he's

1585

00:58:21,829 --> 00:58:19,440

paying for his you know

1586

00:58:23,109 --> 00:58:21,839

i'm not paying for subscribers i'm just

1587

00:58:25,589 --> 00:58:23,119

paying for

1588

00:58:27,109 --> 00:58:25,599

cool overlays and and to look a little

1589

00:58:29,190 --> 00:58:27,119

bit more professional because if you go

1590

00:58:33,829 --> 00:58:29,200

up to my site now and you see lunch with

1591

00:58:37,829 --> 00:58:35,349

so yeah

1592

00:58:41,990 --> 00:58:37,839

that brings up another thing our website

1593

00:58:43,190 --> 00:58:42,000

um we've redesigned it and it's not

1594

00:58:44,069 --> 00:58:43,200

great

1595

00:58:46,470 --> 00:58:44,079

um

1596

00:58:48,309 --> 00:58:46,480

we are again all volunteers none of us

1597

00:58:51,750 --> 00:58:48,319

are paid and i don't think there's

1598

00:58:54,309 --> 00:58:51,760

anybody on staff with uapx that has

1599

00:58:56,870 --> 00:58:54,319

any experience in uh marketing or

1600

00:58:59,270 --> 00:58:56,880

graphic design or anything like that so

1601  
00:59:01,990 --> 00:58:59,280  
what we've put out there is the product

1602  
00:59:04,390 --> 00:59:02,000  
of our own effort we didn't have anybody

1603  
00:59:07,270 --> 00:59:04,400  
come in and put it together so

1604  
00:59:08,710 --> 00:59:07,280  
so forward if you think it's shite just

1605  
00:59:10,549 --> 00:59:08,720  
remember

1606  
00:59:12,230 --> 00:59:10,559  
we we didn't go to school for that we

1607  
00:59:14,390 --> 00:59:12,240  
just were like that looks cool yeah it

1608  
00:59:16,390 --> 00:59:14,400  
looks cool all right let's do it

1609  
00:59:18,710 --> 00:59:16,400  
yeah so um i only got a couple more

1610  
00:59:21,109 --> 00:59:18,720  
minutes to give you guys uh

1611  
00:59:23,109 --> 00:59:21,119  
if uh if there's any other questions

1612  
00:59:25,270 --> 00:59:23,119  
that you have any or if there's like

1613  
00:59:28,390 --> 00:59:25,280

something specific to me that you want

1614

00:59:30,230 --> 00:59:28,400

to talk about now's the time because uh

1615

00:59:32,470 --> 00:59:30,240

i can't keep my sister in there with

1616

00:59:34,870 --> 00:59:32,480

that that horde of children for too much

1617

00:59:36,390 --> 00:59:34,880

longer hey brother i appreciate that so

1618

00:59:38,069 --> 00:59:36,400

much man and no i don't this was

1619

00:59:39,829 --> 00:59:38,079

literally what i said to you guys or the

1620

00:59:41,430 --> 00:59:39,839

other guys before is that i wanted this

1621

00:59:43,430 --> 00:59:41,440

to be an organic conversation i didn't

1622

00:59:45,829 --> 00:59:43,440

want to throw massive questions at you

1623

00:59:47,030 --> 00:59:45,839

guys because i know

1624

00:59:48,390 --> 00:59:47,040

there probably wouldn't be massive

1625

00:59:50,069 --> 00:59:48,400

answers because we're still in that kind

1626  
00:59:52,230 --> 00:59:50,079  
of period where we're waiting and you're

1627  
00:59:54,230 --> 00:59:52,240  
under your nda for the for the what

1628  
00:59:56,630 --> 00:59:54,240  
everybody really wants to know so this

1629  
00:59:58,710 --> 00:59:56,640  
was just a touch base speak to you guys

1630  
01:00:00,549 --> 00:59:58,720  
let us know what's going on and we can

1631  
01:00:01,829 --> 01:00:00,559  
speak again later in the year maybe in

1632  
01:00:03,750 --> 01:00:01,839  
the summer when

1633  
01:00:05,910 --> 01:00:03,760  
you're a lot freer and now yeah we're

1634  
01:00:08,950 --> 01:00:05,920  
gonna we're gonna be going home yeah

1635  
01:00:10,950 --> 01:00:08,960  
yeah what's what's once the unsaid

1636  
01:00:12,069 --> 01:00:10,960  
project that we can't talk about that we

1637  
01:00:15,349 --> 01:00:12,079  
might have

1638  
01:00:16,390 --> 01:00:15,359

done uh does uh debut

1639

01:00:18,549 --> 01:00:16,400

um

1640

01:00:21,349 --> 01:00:18,559

we'll be free to talk about a lot more

1641

01:00:22,710 --> 01:00:21,359

but also remember that yeah we still

1642

01:00:24,870 --> 01:00:22,720

have scientists that are working on

1643

01:00:26,309 --> 01:00:24,880

stuff and they'll have just to submit i

1644

01:00:28,390 --> 01:00:26,319

mean they're all they're working on

1645

01:00:29,829 --> 01:00:28,400

their whitepapers right now which means

1646

01:00:32,069 --> 01:00:29,839

that they're going to be submitting them

1647

01:00:34,470 --> 01:00:32,079

around march time frame which means that

1648

01:00:36,470 --> 01:00:34,480

they may not even be published yet

1649

01:00:38,069 --> 01:00:36,480

but as soon as they say that they're

1650

01:00:39,990 --> 01:00:38,079

comfortable with us starting to share

1651  
01:00:43,030 --> 01:00:40,000  
this data that's that the data is going

1652  
01:00:44,230 --> 01:00:43,040  
to start going out but it's you know

1653  
01:00:45,109 --> 01:00:44,240  
it's

1654  
01:00:46,789 --> 01:00:45,119  
still

1655  
01:00:48,309 --> 01:00:46,799  
you know

1656  
01:00:50,789 --> 01:00:48,319  
we're still going to be going through

1657  
01:00:52,710 --> 01:00:50,799  
them the the you know kevin and matthew

1658  
01:00:54,870 --> 01:00:52,720  
to make sure what they want i feel

1659  
01:00:56,710 --> 01:00:54,880  
comfortable with us talking about

1660  
01:00:57,990 --> 01:00:56,720  
and since we're not the scientists we

1661  
01:01:00,390 --> 01:00:58,000  
want to make sure that we're talking

1662  
01:01:02,630 --> 01:01:00,400  
about them correctly and that we're not

1663  
01:01:04,710 --> 01:01:02,640

you know we're not misrepresenting

1664

01:01:06,870 --> 01:01:04,720

anything so it's we can talk about the

1665

01:01:08,710 --> 01:01:06,880

process of how the papers get published

1666

01:01:11,270 --> 01:01:08,720

but we can't talk about the science in

1667

01:01:13,109 --> 01:01:11,280

there because honestly there's equations

1668

01:01:16,630 --> 01:01:13,119

inside of there that make my brain melt

1669

01:01:20,630 --> 01:01:18,150

yeah they send that across to me and i'm

1670

01:01:22,309 --> 01:01:20,640

like i'm a knuckle dragger you know like

1671

01:01:25,190 --> 01:01:22,319

eight like i

1672

01:01:26,470 --> 01:01:25,200

i'm a bit the opposite i i try to

1673

01:01:28,789 --> 01:01:26,480

replicate it and then realize that

1674

01:01:30,230 --> 01:01:28,799

they're using programs

1675

01:01:31,750 --> 01:01:30,240

oh you should you should have seen that

1676

01:01:33,349 --> 01:01:31,760

realization in my head you know so

1677

01:01:35,109 --> 01:01:33,359

they're sending out this stuff for us

1678

01:01:37,030 --> 01:01:35,119

and you know i'm over there with pen and

1679

01:01:38,470 --> 01:01:37,040

paper and i'm like oh geez

1680

01:01:40,630 --> 01:01:38,480

freaking out of christ how little how

1681

01:01:42,710 --> 01:01:40,640

they do this so fast you know i'm i'm

1682

01:01:43,910 --> 01:01:42,720

literally doing this all out by hand and

1683

01:01:45,510 --> 01:01:43,920

you know and i'm like i don't even

1684

01:01:47,910 --> 01:01:45,520

understand how they do all this stuff by

1685

01:01:50,390 --> 01:01:47,920

in matthews like oh yeah we use computer

1686

01:01:52,630 --> 01:01:50,400

programs they just it does we pump and

1687

01:01:56,069 --> 01:01:52,640

we punch in the numbers and do this and

1688

01:01:57,270 --> 01:01:56,079

it just pops up to the dance i'm like oh

1689

01:01:59,510 --> 01:01:57,280

supposed to shoot a glimpse thanks for

1690

01:02:00,870 --> 01:01:59,520

sharing all that yeah well

1691

01:02:02,309 --> 01:02:00,880

if you if you went to college and you

1692

01:02:04,069 --> 01:02:02,319

worked in the field i mean it's just

1693

01:02:05,990 --> 01:02:04,079

like with any job you know it's like

1694

01:02:07,349 --> 01:02:06,000

when i was a cable guy you know i mean

1695

01:02:09,510 --> 01:02:07,359

how many of you guys know how to run a

1696

01:02:12,230 --> 01:02:09,520

dsam meter that run that can

1697

01:02:14,150 --> 01:02:12,240

you you know that can check your cable

1698

01:02:18,470 --> 01:02:14,160

you know

1699

01:02:21,029 --> 01:02:18,480

you don't know the shortcuts until you

1700

01:02:23,029 --> 01:02:21,039

you're in the field so yeah absolutely

1701

01:02:25,029 --> 01:02:23,039

man but listen gary man

1702

01:02:26,549 --> 01:02:25,039

i appreciate your time man we were i

1703

01:02:28,390 --> 01:02:26,559

don't we won't keep you any longer

1704

01:02:31,270 --> 01:02:28,400

brother i really do appreciate your time

1705

01:02:33,510 --> 01:02:31,280

so much man you've been supportive of me

1706

01:02:36,950 --> 01:02:33,520

personally and i appreciate that so much

1707

01:02:39,430 --> 01:02:36,960

man so yeah jeremy

1708

01:02:42,789 --> 01:02:39,440

i try i try man but like i said to these

1709

01:02:44,870 --> 01:02:42,799

guys earlier i support these um

1710

01:02:46,230 --> 01:02:44,880

i say these there aren't any others like

1711

01:02:48,390 --> 01:02:46,240

you and i supported you guys from the

1712

01:02:50,390 --> 01:02:48,400

start and i'll continue to do whatever i

1713

01:02:52,470 --> 01:02:50,400

can for you guys to to push your message

1714

01:02:54,230 --> 01:02:52,480

your work anything you're doing out

1715

01:02:57,990 --> 01:02:54,240

there i am a hundred percent on your

1716

01:03:00,309 --> 01:02:58,000

side so just know that no no any time

1717

01:03:02,150 --> 01:03:00,319

man so gary you can jump off whenever

1718

01:03:04,069 --> 01:03:02,160

you want i'll keep jeremy and jason

1719

01:03:06,309 --> 01:03:04,079

because if anybody in the chat really

1720

01:03:08,630 --> 01:03:06,319

does have any burning questions fire

1721

01:03:10,230 --> 01:03:08,640

away yeah

1722

01:03:11,910 --> 01:03:10,240

jason's been doing good he's been in

1723

01:03:14,549 --> 01:03:11,920

that chat now

1724

01:03:18,230 --> 01:03:14,559

yeah normally i have three monitors so i

1725

01:03:21,910 --> 01:03:20,150

when you get a little bit later of a

1726  
01:03:24,200 --> 01:03:21,920  
podcast it's a lot easier for me because

1727  
01:03:25,430 --> 01:03:24,210  
i know the kids are down

1728  
01:03:27,349 --> 01:03:25,440  
[Music]

1729  
01:03:29,190 --> 01:03:27,359  
jeremy jason if there's any pressing

1730  
01:03:32,150 --> 01:03:29,200  
matters i can still be reached by text

1731  
01:03:34,069 --> 01:03:32,160  
message to answer any specific questions

1732  
01:03:35,430 --> 01:03:34,079  
and stuff like that so thank you for not

1733  
01:03:37,670 --> 01:03:35,440  
turning on your turn signal while you're

1734  
01:03:39,670 --> 01:03:37,680  
in your car yeah

1735  
01:03:41,430 --> 01:03:39,680  
bro there you go the blinkers the

1736  
01:03:43,589 --> 01:03:41,440  
blinkers

1737  
01:03:44,950 --> 01:03:43,599  
is it really that loud it sounds like

1738  
01:03:47,990 --> 01:03:44,960

one of the wind-up monkeys that's

1739

01:03:51,589 --> 01:03:49,750

we'll just say i might have to we we

1740

01:03:54,230 --> 01:03:51,599

have a weekly meeting and sometimes i'm

1741

01:03:56,309 --> 01:03:54,240

on the road

1742

01:03:57,910 --> 01:03:56,319

so i hit my i'm sitting there waiting at

1743

01:04:01,029 --> 01:03:57,920

the light and jason's over there losing

1744

01:04:04,309 --> 01:04:02,710

he came up in the private chat earlier

1745

01:04:06,630 --> 01:04:04,319

and i was like okay

1746

01:04:08,630 --> 01:04:06,640

i i hear you i guess i gotta hit i gotta

1747

01:04:10,549 --> 01:04:08,640

hear it for myself one day hey guys

1748

01:04:12,630 --> 01:04:10,559

record it for me one time

1749

01:04:14,309 --> 01:04:12,640

yeah

1750

01:04:15,670 --> 01:04:14,319

all right take it easy guys thank you

1751

01:04:17,270 --> 01:04:15,680

for having us

1752

01:04:18,950 --> 01:04:17,280

it's an honor and a pleasure

1753

01:04:21,670 --> 01:04:18,960

thank you my friend appreciate it yeah i

1754

01:04:23,750 --> 01:04:21,680

just i just saw a uh a question in here

1755

01:04:25,589 --> 01:04:23,760

has the data you collected changed your

1756

01:04:27,750 --> 01:04:25,599

uh you changed any of your minds and and

1757

01:04:28,870 --> 01:04:27,760

i'm going to tell you right now

1758

01:04:33,270 --> 01:04:28,880

yeah

1759

01:04:35,910 --> 01:04:33,280

i'm the skeptic i'm a skeptic when it

1760

01:04:37,349 --> 01:04:35,920

comes to all this so like

1761

01:04:39,829 --> 01:04:37,359

yeah

1762

01:04:41,510 --> 01:04:39,839

damn that's about as far as i can go

1763

01:04:43,109 --> 01:04:41,520

that's cool man i'm gonna give a quick

1764

01:04:44,390 --> 01:04:43,119

shout out to walker dale i know i've had

1765

01:04:46,230 --> 01:04:44,400

you on the screen for a while thank you

1766

01:04:49,109 --> 01:04:46,240

so much for the five dollars love your

1767

01:04:51,510 --> 01:04:49,119

work gentlemen echo one rules

1768

01:04:53,670 --> 01:04:51,520

thank you so much man i appreciate that

1769

01:04:56,230 --> 01:04:53,680

damn jason that's a statement and i like

1770

01:04:58,069 --> 01:04:56,240

it so that gives me hope that gives me

1771

01:04:59,990 --> 01:04:58,079

hope for the future

1772

01:05:01,910 --> 01:05:00,000

you know i i think i think the best way

1773

01:05:03,829 --> 01:05:01,920

to describe the way that i come into

1774

01:05:04,870 --> 01:05:03,839

this is is always

1775

01:05:07,430 --> 01:05:04,880

you know

1776

01:05:09,910 --> 01:05:07,440

to me anything that i see is

1777

01:05:12,390 --> 01:05:09,920

provable until it's unprovable and then

1778

01:05:14,150 --> 01:05:12,400

it's um it's man-made until it's not

1779

01:05:15,029 --> 01:05:14,160

man-made

1780

01:05:17,670 --> 01:05:15,039

right

1781

01:05:19,589 --> 01:05:17,680

i like that yeah totally yeah

1782

01:05:21,349 --> 01:05:19,599

we don't care what

1783

01:05:23,750 --> 01:05:21,359

i'm not gonna say we don't care

1784

01:05:25,349 --> 01:05:23,760

we don't have a vested interest in the

1785

01:05:27,190 --> 01:05:25,359

ultimate answer

1786

01:05:31,910 --> 01:05:27,200

if it turns out

1787

01:05:33,270 --> 01:05:31,920

everything is domestic and has a prosaic

1788

01:05:34,630 --> 01:05:33,280

explanation

1789

01:05:36,470 --> 01:05:34,640

that's the answer

1790

01:05:39,589 --> 01:05:36,480

if it turns out that a portion of it is

1791

01:05:41,829 --> 01:05:39,599

and the rest of it is is off world

1792

01:05:45,349 --> 01:05:41,839

that's the answer but

1793

01:05:46,710 --> 01:05:45,359

we are approaching this in a way to find

1794

01:05:50,950 --> 01:05:46,720

the answer

1795

01:05:53,510 --> 01:05:50,960

not to create data that conforms to an

1796

01:05:54,950 --> 01:05:53,520

answer right sure

1797

01:05:57,190 --> 01:05:54,960

makes sense yeah

1798

01:05:59,750 --> 01:05:57,200

yeah i mean it is what it is and i'm not

1799

01:06:02,470 --> 01:05:59,760

i i hate it when people

1800

01:06:03,589 --> 01:06:02,480

sensationalize things i absolutely hate

1801

01:06:04,549 --> 01:06:03,599

it

1802

01:06:08,870 --> 01:06:04,559

yeah

1803

01:06:10,309 --> 01:06:08,880

we can because in this subject that

1804

01:06:12,549 --> 01:06:10,319

ain't easy

1805

01:06:15,750 --> 01:06:12,559

yeah we got we got taken to task for

1806

01:06:17,430 --> 01:06:15,760

that press release and it was like

1807

01:06:19,190 --> 01:06:17,440

people were saying that we were hyping

1808

01:06:21,589 --> 01:06:19,200

discoveries and that you know this is

1809

01:06:23,109 --> 01:06:21,599

another incident of somebody saying that

1810

01:06:24,950 --> 01:06:23,119

they have all this miraculous stuff but

1811

01:06:27,829 --> 01:06:24,960

we can't tell you right now

1812

01:06:30,950 --> 01:06:27,839

and it was literally nothing more than

1813

01:06:33,990 --> 01:06:30,960

an end-of-year statement to recap

1814

01:06:36,710 --> 01:06:34,000

what we've done what we're working on

1815

01:06:39,990 --> 01:06:36,720

and when people can expect to see our

1816

01:06:41,670 --> 01:06:40,000

results we don't even have our final

1817

01:06:43,430 --> 01:06:41,680

results yet right

1818

01:06:46,470 --> 01:06:43,440

so we weren't hyping anything we were

1819

01:06:48,150 --> 01:06:46,480

just keeping people informed of progress

1820

01:06:49,829 --> 01:06:48,160

yeah no absolutely when i saw that i was

1821

01:06:51,670 --> 01:06:49,839

like god you guys hired someone good to

1822

01:06:54,789 --> 01:06:51,680

write that

1823

01:06:56,120 --> 01:06:54,799

yeah i'm kidding i'm kidding hey

1824

01:06:58,230 --> 01:06:56,130

cat on the back johnny

1825

01:07:01,829 --> 01:06:58,240

[Laughter]

1826

01:07:06,150 --> 01:07:04,470

so one of the things that i do and

1827

01:07:07,910 --> 01:07:06,160

one of the reasons that i've i've caught

1828

01:07:09,109 --> 01:07:07,920

so much crap on twitter

1829

01:07:10,950 --> 01:07:09,119

is because

1830

01:07:12,950 --> 01:07:10,960

my previous occupation i was a tech

1831

01:07:15,670 --> 01:07:12,960

writer for the us defense industry

1832

01:07:17,109 --> 01:07:15,680

specifically with drones i worked for a

1833

01:07:19,589 --> 01:07:17,119

company that

1834

01:07:23,829 --> 01:07:19,599

maintained built flu

1835

01:07:25,190 --> 01:07:23,839

design payloads for a wide variety of

1836

01:07:27,029 --> 01:07:25,200

military

1837

01:07:28,789 --> 01:07:27,039

unmanned aerial vehicles

1838

01:07:29,829 --> 01:07:28,799

so and i carry a clearance i still have

1839

01:07:30,789 --> 01:07:29,839

a clearance

1840

01:07:32,710 --> 01:07:30,799

but

1841

01:07:35,109 --> 01:07:32,720

my job was to go out

1842

01:07:37,510 --> 01:07:35,119

interview subject matter experts

1843

01:07:40,069 --> 01:07:37,520

find out what our capabilities are

1844

01:07:42,069 --> 01:07:40,079

and then write proposals and submit them

1845

01:07:44,230 --> 01:07:42,079

to the us government on behalf of this

1846

01:07:46,870 --> 01:07:44,240

company so if the government was saying

1847

01:07:48,630 --> 01:07:46,880

hey we need a unmanned aerial vehicle

1848

01:07:51,990 --> 01:07:48,640

that's capable of sixty thousand foot

1849

01:07:53,670 --> 01:07:52,000

flight 22 000 kilometer uh um of

1850

01:07:55,589 --> 01:07:53,680

coverage area and with this sensor

1851

01:07:57,990 --> 01:07:55,599

payload i would have to write the

1852

01:08:00,230 --> 01:07:58,000

capability statement of what we have how

1853

01:08:03,270 --> 01:08:00,240

it can do its job and everything so i'm

1854

01:08:05,190 --> 01:08:03,280

i'm very keyed in to the world of drones

1855

01:08:07,510 --> 01:08:05,200

and one of the reasons i got so much

1856

01:08:09,430 --> 01:08:07,520

crap on twitter is because when people

1857

01:08:10,950 --> 01:08:09,440

would post videos

1858

01:08:13,270 --> 01:08:10,960

i would look at them and i'd be like oh

1859

01:08:15,349 --> 01:08:13,280

that's an rq9 oh that's you know an

1860

01:08:17,910 --> 01:08:15,359

mq-185

1861

01:08:19,669 --> 01:08:17,920

i knew what it was because i was privy

1862

01:08:22,070 --> 01:08:19,679

to that world

1863

01:08:24,550 --> 01:08:22,080

and i've even had discussions with with

1864

01:08:27,749 --> 01:08:24,560

our physicists because the science that

1865

01:08:31,669 --> 01:08:27,759

they're using to analyze the data

1866

01:08:33,669 --> 01:08:31,679

is based on what is available to them

1867

01:08:36,309 --> 01:08:33,679

if they don't have a clearance if they

1868

01:08:38,709 --> 01:08:36,319

don't know that something exists they

1869

01:08:41,030 --> 01:08:38,719

have to base their analysis on things

1870

01:08:43,269 --> 01:08:41,040

that that they're aware of

1871

01:08:45,269 --> 01:08:43,279

so i've had to educate these guys a

1872

01:08:47,030 --> 01:08:45,279

little bit every now and then as to you

1873

01:08:49,990 --> 01:08:47,040

know there's some really wild stuff in

1874

01:08:52,229 --> 01:08:50,000

our skies that nobody has any idea about

1875

01:08:53,910 --> 01:08:52,239

totally um i'm just going to check on my

1876

01:08:55,669 --> 01:08:53,920

daughter again sorry guys but i'm going

1877

01:08:56,709 --> 01:08:55,679

to throw this question up

1878

01:08:58,870 --> 01:08:56,719

um

1879

01:09:00,470 --> 01:08:58,880

how do you avoid biases in the analysis

1880

01:09:02,070 --> 01:09:00,480

of the date

1881

01:09:05,130 --> 01:09:02,080

or the data retrieved i think they've

1882

01:09:07,510 --> 01:09:05,140

been i'll listen in

1883

01:09:10,950 --> 01:09:07,520

[Applause]

1884

01:09:12,630 --> 01:09:10,960

i think i'll start that is um

1885

01:09:14,550 --> 01:09:12,640

when you when you when you start the

1886

01:09:16,390 --> 01:09:14,560

analysis of the

1887

01:09:19,269 --> 01:09:16,400

the information that we've already

1888

01:09:20,950 --> 01:09:19,279

retrieved the bias in which direction

1889

01:09:23,269 --> 01:09:20,960

that you're wanting it to be

1890

01:09:26,550 --> 01:09:23,279

could definitely show up

1891

01:09:28,789 --> 01:09:26,560

but when you've got other people within

1892

01:09:31,349 --> 01:09:28,799

your group who are looking at this from

1893

01:09:33,430 --> 01:09:31,359

a completely different perspective

1894

01:09:35,430 --> 01:09:33,440

and you take all the collective

1895

01:09:37,110 --> 01:09:35,440

information and put it together because

1896

01:09:39,430 --> 01:09:37,120

you've got somebody like me who's the

1897

01:09:41,349 --> 01:09:39,440

who's a skeptic who's like you know this

1898

01:09:43,189 --> 01:09:41,359

can be explained and what we do is we

1899

01:09:44,950 --> 01:09:43,199

try to prove ourselves wrong we'll say

1900

01:09:47,189 --> 01:09:44,960

you know okay this is what we think it

1901

01:09:50,229 --> 01:09:47,199

is let's prove ourself

1902

01:09:52,470 --> 01:09:50,239

wrong and prove that this is

1903

01:09:54,709 --> 01:09:52,480

you know whatever so

1904

01:09:55,750 --> 01:09:54,719

when you when you can prove yourself

1905

01:09:58,310 --> 01:09:55,760

wrong

1906

01:09:59,830 --> 01:09:58,320

and let somebody else do that and then

1907

01:10:01,669 --> 01:09:59,840

prove you wrong

1908

01:10:02,550 --> 01:10:01,679

uh and then you go back and forth and

1909

01:10:04,070 --> 01:10:02,560

and

1910

01:10:05,830 --> 01:10:04,080

jeremy i don't know if you can add some

1911

01:10:08,790 --> 01:10:05,840

more well the other thing that people

1912

01:10:12,070 --> 01:10:08,800

have to remember is we have one phd

1913

01:10:13,910 --> 01:10:12,080

candidate and two doctoral phds with

1914

01:10:16,390 --> 01:10:13,920

uapx that are physicists these are

1915

01:10:18,390 --> 01:10:16,400

academics tenured professors that are on

1916

01:10:20,790 --> 01:10:18,400

staff at universities

1917

01:10:24,149 --> 01:10:20,800

and the uapx phenomenon

1918

01:10:27,270 --> 01:10:24,159

is a career ending death move

1919

01:10:29,669 --> 01:10:27,280

for most academics it's changed a little

1920

01:10:32,229 --> 01:10:29,679

bit recently but it's still not taken

1921

01:10:34,550 --> 01:10:32,239

that seriously in in in the academic

1922

01:10:37,669 --> 01:10:34,560

community so if a

1923

01:10:40,950 --> 01:10:37,679

if a report comes out from uapx authored

1924

01:10:43,030 --> 01:10:40,960

by our physicists that is slanted

1925

01:10:45,030 --> 01:10:43,040

towards something being off-world

1926

01:10:47,750 --> 01:10:45,040

technology or they come out and make a

1927

01:10:50,070 --> 01:10:47,760

definitive claim that something is alien

1928

01:10:52,550 --> 01:10:50,080

that could be career ending for them so

1929

01:10:53,350 --> 01:10:52,560

we have to look at things not only

1930

01:10:54,790 --> 01:10:53,360

through

1931

01:10:56,709 --> 01:10:54,800

science

1932

01:10:59,030 --> 01:10:56,719

but really

1933

01:11:00,870 --> 01:10:59,040

definitively get down into the minutia

1934

01:11:03,189 --> 01:11:00,880

of things to make sure

1935

01:11:07,110 --> 01:11:03,199

that the papers that are published don't

1936

01:11:09,030 --> 01:11:07,120

affect the careers of our physicists so

1937

01:11:10,550 --> 01:11:09,040

we have to be very cautious in how we

1938

01:11:13,669 --> 01:11:10,560

approach it and it's not saying that

1939

01:11:14,709 --> 01:11:13,679

we're out to disprove everything but we

1940

01:11:19,510 --> 01:11:14,719

are

1941

01:11:22,630 --> 01:11:19,520

if if we say something is anomalous

1942

01:11:25,270 --> 01:11:22,640

we have to have you know 350 000 pages

1943

01:11:26,390 --> 01:11:25,280

of data to back it up that it is in fact

1944

01:11:27,669 --> 01:11:26,400

anomalous

1945

01:11:29,990 --> 01:11:27,679

right

1946

01:11:31,510 --> 01:11:30,000

totally um moving on to this i mean

1947

01:11:32,390 --> 01:11:31,520

thank you for that that was awesome both

1948

01:11:33,270 --> 01:11:32,400

of you

1949

01:11:35,270 --> 01:11:33,280

um

1950

01:11:37,990 --> 01:11:35,280

alienworld aquatics says how come there

1951

01:11:39,910 --> 01:11:38,000

isn't much talk about underwater drones

1952

01:11:41,830 --> 01:11:39,920

jeremy mcgowan i think i think we know

1953

01:11:43,669 --> 01:11:41,840

more about the surface of mars than we

1954

01:11:45,910 --> 01:11:43,679

do about you know the the floor of our

1955

01:11:49,350 --> 01:11:45,920

own ocean yeah this this is a human

1956

01:11:51,430 --> 01:11:49,360

condition we have not studied our own uh

1957

01:11:53,430 --> 01:11:51,440

ecosystem we don't know what's under the

1958

01:11:55,830 --> 01:11:53,440

water we're finding species every single

1959

01:11:57,830 --> 01:11:55,840

day and it's

1960

01:11:59,830 --> 01:11:57,840

it's a hostile environment it's easier

1961

01:12:02,790 --> 01:11:59,840

to go to space than it is to go to the

1962

01:12:04,950 --> 01:12:02,800

bottom of the mariana trench

1963

01:12:06,870 --> 01:12:04,960

makes sense i think that's quite common

1964

01:12:08,950 --> 01:12:06,880

knowledge really that we've explored

1965

01:12:10,870 --> 01:12:08,960

very very little of those

1966

01:12:13,750 --> 01:12:10,880

depths across the pacific and the

1967

01:12:15,110 --> 01:12:13,760

atlantic and those those trenches so

1968

01:12:16,709 --> 01:12:15,120

yeah i mean

1969

01:12:19,350 --> 01:12:16,719

people stand on the surface of the

1970

01:12:21,430 --> 01:12:19,360

planet and we look up and we see strange

1971

01:12:22,790 --> 01:12:21,440

things in the sky there's not a lot of

1972

01:12:24,709 --> 01:12:22,800

scuba divers out there that are

1973

01:12:27,110 --> 01:12:24,719

reporting strange things and able to

1974

01:12:28,229 --> 01:12:27,120

pull their iphones out and photograph it

1975

01:12:30,550 --> 01:12:28,239

good point

1976

01:12:32,790 --> 01:12:30,560

that makes complete sense

1977

01:12:34,149 --> 01:12:32,800

well listen gentlemen thank you so much

1978

01:12:35,990 --> 01:12:34,159

um

1979

01:12:37,750 --> 01:12:36,000

oh i get

1980

01:12:39,750 --> 01:12:37,760

we'll give it up a question just popped

1981

01:12:41,750 --> 01:12:39,760

up so i'll i'll bring it up it says does

1982

01:12:44,390 --> 01:12:41,760

jeremy know or think a trans medium

1983

01:12:46,390 --> 01:12:44,400

drone is in full operation right now oh

1984

01:12:50,310 --> 01:12:46,400

yeah just look at the bat

1985

01:12:52,870 --> 01:12:50,320

we we've had uh the bat uh it's a small

1986

01:12:53,830 --> 01:12:52,880

drone it's uh probably about half of my

1987

01:12:55,350 --> 01:12:53,840

size

1988

01:12:57,510 --> 01:12:55,360

and it's actually launched from a

1989

01:12:59,590 --> 01:12:57,520

torpedo tube of a submarine

1990

01:13:02,390 --> 01:12:59,600

it can go fly around for a while and

1991

01:13:04,790 --> 01:13:02,400

then it can come back under water and be

1992

01:13:06,709 --> 01:13:04,800

submarine retrieved now we've we've had

1993

01:13:08,630 --> 01:13:06,719

these in operation for quite some time

1994

01:13:10,149 --> 01:13:08,640

there you go and that's not the only one

1995

01:13:12,070 --> 01:13:10,159

throughout this one last question from a

1996

01:13:14,550 --> 01:13:12,080

good friend you on a question for both

1997

01:13:18,550 --> 01:13:14,560

has your view on this topic changed

1998

01:13:23,110 --> 01:13:20,470

there you go and i wouldn't expect you

1999

01:13:25,830 --> 01:13:23,120

to go into detail

2000

01:13:27,830 --> 01:13:25,840

um guys thank you so much for the

2001

01:13:29,430 --> 01:13:27,840

questions we could probably keep going

2002

01:13:31,510 --> 01:13:29,440

but i'm going to let these guys get on

2003

01:13:33,270 --> 01:13:31,520

with their their day-to-day lives

2004

01:13:34,550 --> 01:13:33,280

because i really do appreciate the time

2005

01:13:36,470 --> 01:13:34,560

they've given us we're nearly on the

2006

01:13:38,470 --> 01:13:36,480

hour and a quarter mark so

2007

01:13:39,669 --> 01:13:38,480

gentlemen thank you so much um for

2008

01:13:41,430 --> 01:13:39,679

everyone watching if you do want to

2009

01:13:43,189 --> 01:13:41,440

carry on the conversation i may jump

2010

01:13:45,030 --> 01:13:43,199

over to instagram live in a bit if you

2011

01:13:47,510 --> 01:13:45,040

want to come and hang out there i'll be

2012

01:13:49,270 --> 01:13:47,520

there but um this was a conversation

2013

01:13:51,430 --> 01:13:49,280

that i wanted to have and i knew they

2014

01:13:52,630 --> 01:13:51,440

were in the middle of an nda so i knew

2015

01:13:54,229 --> 01:13:52,640

this wasn't going to be a massive

2016

01:13:56,229 --> 01:13:54,239

revelation conversation but i just

2017

01:13:57,990 --> 01:13:56,239

wanted to reiterate to people that you

2018

01:13:59,990 --> 01:13:58,000

apx have been doing great work they

2019

01:14:01,910 --> 01:14:00,000

continue to do great work but at the

2020

01:14:05,030 --> 01:14:01,920

same time they're just regular people

2021

01:14:07,510 --> 01:14:05,040

like me and you who are putting their

2022

01:14:09,990 --> 01:14:07,520

families to one side their

2023

01:14:12,310 --> 01:14:10,000

day-to-day careers to one side

2024

01:14:13,750 --> 01:14:12,320

to you know in pursuit of the same thing

2025

01:14:15,830 --> 01:14:13,760

that we're all looking for which is the

2026

01:14:17,189 --> 01:14:15,840

truth and getting to the bottom of this

2027

01:14:19,270 --> 01:14:17,199

phenomena so

2028

01:14:21,669 --> 01:14:19,280

i just wanted to do that for this time

2029

01:14:23,510 --> 01:14:21,679

of year and and to say that we

2030

01:14:25,590 --> 01:14:23,520

appreciate the work they do

2031

01:14:27,189 --> 01:14:25,600

i will be supporting them fully forwards

2032

01:14:28,870 --> 01:14:27,199

and continuing the conversation with

2033

01:14:29,750 --> 01:14:28,880

them um

2034

01:14:31,990 --> 01:14:29,760

any

2035

01:14:33,430 --> 01:14:32,000

funding that they require i will put our

2036

01:14:36,630 --> 01:14:33,440

information on that you can go to the

2037

01:14:38,870 --> 01:14:36,640

uapx website it's all linked below

2038

01:14:40,870 --> 01:14:38,880

you know this is real people doing real

2039

01:14:43,030 --> 01:14:40,880

work this is not government related in

2040

01:14:43,990 --> 01:14:43,040

any way shape or form

2041

01:14:45,669 --> 01:14:44,000

so

2042

01:14:46,950 --> 01:14:45,679

i have to reiterate that and thank you

2043

01:14:48,390 --> 01:14:46,960

gentlemen for joining me tonight i

2044

01:14:50,470 --> 01:14:48,400

really do appreciate it yeah thanks

2045

01:14:51,910 --> 01:14:50,480

vinnie you know like and something else

2046

01:14:53,910 --> 01:14:51,920

i want to say is you got you got a trip

2047

01:14:55,990 --> 01:14:53,920

coming up too that uh i think it's going

2048

01:14:57,750 --> 01:14:56,000

to be really interesting so i'm looking

2049

01:14:59,750 --> 01:14:57,760

forward to following you on that that's

2050

01:15:02,390 --> 01:14:59,760

going to be it's going to be fun man

2051

01:15:03,990 --> 01:15:02,400

thank you man you know i i talk the talk

2052

01:15:06,390 --> 01:15:04,000

i do

2053

01:15:07,910 --> 01:15:06,400

the posts and put things out there but

2054

01:15:09,430 --> 01:15:07,920

you know it's good for me to get an

2055

01:15:11,270 --> 01:15:09,440

opportunity to do boots on the ground

2056

01:15:12,950 --> 01:15:11,280

work you know

2057

01:15:14,550 --> 01:15:12,960

it would it would just certainly add to

2058

01:15:16,149 --> 01:15:14,560

my

2059

01:15:18,310 --> 01:15:16,159

i don't know what the word is but who am

2060

01:15:19,910 --> 01:15:18,320

i to deny that opportunity to actually

2061

01:15:21,350 --> 01:15:19,920

say hey look i care about it this much

2062

01:15:23,430 --> 01:15:21,360

that i'm gonna do it

2063

01:15:25,270 --> 01:15:23,440

yeah it happens to be a nice place i'm

2064

01:15:28,070 --> 01:15:25,280

getting flown out to colombia to do it

2065

01:15:30,149 --> 01:15:28,080

but it's not a holiday in any way

2066

01:15:32,790 --> 01:15:30,159

shape or form like i just you know just

2067

01:15:35,030 --> 01:15:32,800

to reiterate that phrase it's every day

2068

01:15:39,110 --> 01:15:35,040

early mornings late nights

2069

01:15:41,830 --> 01:15:39,120

experiments hiking trekking through

2070

01:15:43,110 --> 01:15:41,840

beautiful terrain now i'm kidding that

2071

01:15:44,310 --> 01:15:43,120

it's going to be tough but yeah i'm

2072

01:15:47,110 --> 01:15:44,320

going to bring everybody along for the

2073

01:15:48,630 --> 01:15:47,120

ride we're filming a documentary there's

2074

01:15:50,790 --> 01:15:48,640

you know it's just going to be a chance

2075

01:15:52,470 --> 01:15:50,800

for me to prove my proof to myself as

2076

01:15:53,910 --> 01:15:52,480

much as everybody else that i'm in this

2077

01:15:56,550 --> 01:15:53,920

for the long haul

2078

01:15:57,510 --> 01:15:56,560

i'm in this for the right reasons and um

2079

01:15:58,790 --> 01:15:57,520

yeah

2080

01:16:01,990 --> 01:15:58,800

stay humble

2081

01:16:04,070 --> 01:16:02,000

this is

2082

01:16:05,750 --> 01:16:04,080

well yeah that's a really good point

2083

01:16:07,110 --> 01:16:05,760

that hits home because you know i met

2084

01:16:08,950 --> 01:16:07,120

you jason

2085

01:16:10,470 --> 01:16:08,960

go on what do you hope to get out of

2086

01:16:12,229 --> 01:16:10,480

columbia

2087

01:16:13,590 --> 01:16:12,239

do you know what an explanation

2088

01:16:15,270 --> 01:16:13,600

and at the moment

2089

01:16:17,750 --> 01:16:15,280

the way i look at the phenomena that

2090

01:16:20,070 --> 01:16:17,760

we're going to be exploring my lien is

2091

01:16:21,510 --> 01:16:20,080

way towards prosaic but you know what

2092

01:16:23,030 --> 01:16:21,520

what what that one will mean to me is

2093

01:16:25,270 --> 01:16:23,040

that we'll be one thing ticked off the

2094

01:16:28,070 --> 01:16:25,280

list and i can move on to the next

2095

01:16:30,390 --> 01:16:28,080

you know i'm not expecting ufos and uap

2096

01:16:31,910 --> 01:16:30,400

and i'd love it to be obviously but

2097

01:16:33,910 --> 01:16:31,920

it's like it's an opportunity to go

2098

01:16:35,750 --> 01:16:33,920

boots on the ground do some work some

2099

01:16:36,950 --> 01:16:35,760

work put some graft in

2100

01:16:39,030 --> 01:16:36,960

you know and not just sit behind a

2101  
01:16:41,110 --> 01:16:39,040  
computer or a phone and put posts out

2102  
01:16:43,110 --> 01:16:41,120  
there and research and

2103  
01:16:46,070 --> 01:16:43,120  
spend hours behind screens it's a chance

2104  
01:16:50,550 --> 01:16:46,080  
to actually put my mouth where

2105  
01:16:56,630 --> 01:16:52,470  
mouth too

2106  
01:17:00,950 --> 01:16:57,910  
well i tell you what when you come back

2107  
01:17:02,870 --> 01:17:00,960  
from colombia man uh get with us

2108  
01:17:04,870 --> 01:17:02,880  
because you know one of the things that

2109  
01:17:06,870 --> 01:17:04,880  
we would love to do is we would love to

2110  
01:17:08,550 --> 01:17:06,880  
take a look at that data we would love

2111  
01:17:10,550 --> 01:17:08,560  
to be able to

2112  
01:17:12,390 --> 01:17:10,560  
even even work with you prior to the

2113  
01:17:15,189 --> 01:17:12,400

trip to help you set up a standard

2114

01:17:18,390 --> 01:17:15,199

operating procedure that would allow our

2115

01:17:20,149 --> 01:17:18,400

physicists to be able to review the data

2116

01:17:22,630 --> 01:17:20,159

knowing the provenance knowing how the

2117

01:17:23,750 --> 01:17:22,640

equipment was set up and you know the

2118

01:17:25,350 --> 01:17:23,760

things right down to the the

2119

01:17:27,590 --> 01:17:25,360

directionality of the cameras and

2120

01:17:29,669 --> 01:17:27,600

everything like that and we'd love a

2121

01:17:31,590 --> 01:17:29,679

chance to be able to take a look at that

2122

01:17:33,270 --> 01:17:31,600

that's really really

2123

01:17:35,189 --> 01:17:33,280

wow that's really nice of you to say so

2124

01:17:38,070 --> 01:17:35,199

i mean we have a guy who's

2125

01:17:39,910 --> 01:17:38,080

ex-military xcia with all the some

2126  
01:17:40,870 --> 01:17:39,920  
serious equipment that's coming out with

2127  
01:17:42,790 --> 01:17:40,880  
us so

2128  
01:17:44,630 --> 01:17:42,800  
i'll put that to the to the boss who's

2129  
01:17:46,950 --> 01:17:44,640  
behind it all um and we'll have

2130  
01:17:48,630 --> 01:17:46,960  
conversations so it's good to know that

2131  
01:17:50,790 --> 01:17:48,640  
we have that support as well though so i

2132  
01:17:53,350 --> 01:17:50,800  
really do appreciate it yeah we don't

2133  
01:17:55,110 --> 01:17:53,360  
compete with anybody we we're we're all

2134  
01:17:55,990 --> 01:17:55,120  
humans we're all trying to find the same

2135  
01:17:58,149 --> 01:17:56,000  
answer

2136  
01:17:59,669 --> 01:17:58,159  
um you know we're we're not doing this

2137  
01:18:00,870 --> 01:17:59,679  
for fame god knows we're not doing it

2138  
01:18:02,790 --> 01:18:00,880

for fortune

2139

01:18:04,709 --> 01:18:02,800

we're doing it for the final answer and

2140

01:18:06,229 --> 01:18:04,719

whoever gets that final answer i just

2141

01:18:07,030 --> 01:18:06,239

hope to god they share it with everybody

2142

01:18:08,870 --> 01:18:07,040

else

2143

01:18:10,229 --> 01:18:08,880

yeah absolutely well like absolutely i

2144

01:18:11,510 --> 01:18:10,239

mean i'm in that

2145

01:18:13,510 --> 01:18:11,520

i'm in this

2146

01:18:15,830 --> 01:18:13,520

for that exact reason i'm honored to be

2147

01:18:19,189 --> 01:18:15,840

able to be associated with

2148

01:18:21,750 --> 01:18:19,199

um such organizations as uapx so to to

2149

01:18:24,070 --> 01:18:21,760

me to be able to work alongside

2150

01:18:26,709 --> 01:18:24,080

it's a no-brainer absolute no-brainer it

2151

01:18:30,070 --> 01:18:26,719

means it means so much so i really do

2152

01:18:32,310 --> 01:18:30,080

appreciate it appreciate your view

2153

01:18:33,990 --> 01:18:32,320

thank you so much guys so guys thank you

2154

01:18:35,189 --> 01:18:34,000

so much i'll let you crack on to

2155

01:18:36,870 --> 01:18:35,199

everyone that's watched this live i

2156

01:18:38,550 --> 01:18:36,880

really do appreciate you do everyone

2157

01:18:40,390 --> 01:18:38,560

that watches this after the fact on

2158

01:18:42,229 --> 01:18:40,400

youtube thank you so much

2159

01:18:44,390 --> 01:18:42,239

and this will also be going out on the

2160

01:18:46,870 --> 01:18:44,400

anomalous podcast network in association

2161

01:18:48,470 --> 01:18:46,880

with the that ufo podcast

2162

01:18:50,790 --> 01:18:48,480

so thank you everybody i really

2163

01:18:51,830 --> 01:18:50,800

appreciate your your support it's been

2164

01:18:54,310 --> 01:18:51,840

humbling

2165

01:18:56,470 --> 01:18:54,320

for the last year and i will continue to

2166

01:18:59,510 --> 01:18:56,480

do it so thank you so much and we'll see

2167

01:19:01,830 --> 01:18:59,520

you tomorrow where ross coulthart joins

2168

01:19:04,229 --> 01:19:01,840

me and you can head over to my social

2169

01:19:05,270 --> 01:19:04,239

media pages for all the details but for

2170

01:19:06,709 --> 01:19:05,280

now
