COULTHART

1
00:00:00,680 --> 00:00:31,029

00:00:45,350 --> 00:00:43,440

thank you to everybody watching live

8
00:00:47,029 --> 00:00:45,360

watching on youtube after the fact and

9
00:00:48,229 --> 00:00:47,039

thank you to everybody that's listening

10
00:00:51,189 --> 00:00:48,239

to this

11
00:00:52,470 --> 00:00:51,199

on the anomalous podcast network uh i

12
00:00:53,510 --> 00:00:52,480

appreciate all the support from

13
00:00:57,270 --> 00:00:53,520

everybody

14

00:00:59,189 --> 00:00:57,280

so yeah um saturday night here 10 p.m

15

00:01:01,830 --> 00:00:59,199

but i guess it's actually sunday morning

16

00:01:03,110 --> 00:01:01,840

so you know i'm really grateful to ross

17

00:01:05,270 --> 00:01:03,120

for being here

18

00:01:08,710 --> 00:01:05,280

so let's not waste any time and bring in

19

00:01:11,270 --> 00:01:08,720

mr ross coulthard hello ross

20

00:01:13,030 --> 00:01:11,280

g'day vinnie how are you sir i'm doing

21

00:01:15,030 --> 00:01:13,040

well thank you so much for doing this i

22

00:01:17,830 --> 00:01:15,040

appreciate it's morning for you so i

23

00:01:20,630 --> 00:01:17,840

hope you've had your coffee

24

00:01:22,950 --> 00:01:20,640

i have it right here with me very nice

25

00:01:24,710 --> 00:01:22,960

excellent excellent well ross i know

26

00:01:26,950 --> 00:01:24,720

that my time is fairly limited i know

27

00:01:29,429 --> 00:01:26,960

you're a busy man so if it's okay with

28

00:01:31,030 --> 00:01:29,439

you we'll just jump straight into it

29

00:01:32,310 --> 00:01:31,040

far away vinny

30

00:01:33,910 --> 00:01:32,320

excellent now the first thing i wanted

31

00:01:35,749 --> 00:01:33,920

to touch on and we don't really have to

32

00:01:37,670 --> 00:01:35,759

go into massive detail

33

00:01:39,429 --> 00:01:37,680

is a lot of the things you talk about

34

00:01:41,190 --> 00:01:39,439

have come from sources

35

00:01:43,350 --> 00:01:41,200

and and i've seen

36

00:01:45,670 --> 00:01:43,360

people talk about the frustration at

37

00:01:47,590 --> 00:01:45,680

hearing about sources but one thing i

38

00:01:50,469 --> 00:01:47,600

think we need to just keep reiterating

39

00:01:52,630 --> 00:01:50,479

is the value on source protection

40

00:01:54,710 --> 00:01:52,640

um so

41

00:01:56,630 --> 00:01:54,720

one question around that is though do

42

00:01:58,230 --> 00:01:56,640

you find that these sources

43

00:02:00,389 --> 00:01:58,240

one day hope that the information they

44

00:02:02,630 --> 00:02:00,399

give you will be able to come out either

45

00:02:04,310 --> 00:02:02,640

through you or through them

46

00:02:06,789 --> 00:02:04,320

a lot of them have told me that if and

47

00:02:08,790 --> 00:02:06,799

when the congress does something to

48

00:02:10,790 --> 00:02:08,800

allow public hearings they're very happy

49

00:02:13,190 --> 00:02:10,800

to testify uh

50

00:02:16,550 --> 00:02:13,200

i mean i literally only this morning had

51
00:02:18,309 --> 00:02:16,560
a conversation earlier today with a um

52
00:02:20,229 --> 00:02:18,319
uh one of the people who's flying

53
00:02:22,470 --> 00:02:20,239
fighter jets off the east coast of

54
00:02:25,190 --> 00:02:22,480
virginia and

55
00:02:27,830 --> 00:02:25,200
they were telling me that these objects

56
00:02:29,750 --> 00:02:27,840
have been seen by his squadron

57
00:02:31,430 --> 00:02:29,760
this year

58
00:02:32,949 --> 00:02:31,440
so whatever they are

59
00:02:35,430 --> 00:02:32,959
these anomalous objects are still

60
00:02:38,869 --> 00:02:35,440
manifesting so manifesting themselves to

61
00:02:40,470 --> 00:02:38,879
the u.s navy and uh

62
00:02:41,750 --> 00:02:40,480
they were saying that

63
00:02:43,509 --> 00:02:41,760

you know there's a there's a fairly

64

00:02:46,309 --> 00:02:43,519

broad consensus among the group of

65

00:02:47,910 --> 00:02:46,319

pilots that they work with that it's a

66

00:02:48,790 --> 00:02:47,920

really good thing that the congress is

67

00:02:50,630 --> 00:02:48,800

now

68

00:02:53,190 --> 00:02:50,640

pushing for hearings and and i think

69

00:02:55,830 --> 00:02:53,200

also there's a change happening where

70

00:02:57,830 --> 00:02:55,840

whereas before you had people

71

00:03:00,229 --> 00:02:57,840

frightened of speaking out because they

72

00:03:02,790 --> 00:03:00,239

were worried about being ridiculed or

73

00:03:05,030 --> 00:03:02,800

vilified or stigmatized there's now a

74

00:03:06,309 --> 00:03:05,040

growing recognition that that there is a

75

00:03:08,790 --> 00:03:06,319

willingness

76
00:03:10,790 --> 00:03:08,800
led by the congress for this material to

77
00:03:12,790 --> 00:03:10,800
come forward and that can only be a good

78
00:03:14,710 --> 00:03:12,800
thing and it's actually just so you know

79
00:03:16,149 --> 00:03:14,720
it's having follow-on effects here in

80
00:03:19,670 --> 00:03:16,159
australia because

81
00:03:21,589 --> 00:03:19,680
i did a story uh back in november uh

82
00:03:23,110 --> 00:03:21,599
with the tv network i work with here in

83
00:03:25,750 --> 00:03:23,120
australia where we did a follow-up on

84
00:03:27,190 --> 00:03:25,760
our original documentary from

85
00:03:28,149 --> 00:03:27,200
june this year

86
00:03:31,030 --> 00:03:28,159
and

87
00:03:33,509 --> 00:03:31,040
we had interviews with

88
00:03:35,990 --> 00:03:33,519

people who'd been in the military

89

00:03:38,070 --> 00:03:36,000

services who'd seen anomalous objects

90

00:03:40,789 --> 00:03:38,080

while on service with the

91

00:03:42,710 --> 00:03:40,799

australian navy and

92

00:03:44,550 --> 00:03:42,720

it's great because what's happening is

93

00:03:46,869 --> 00:03:44,560

i'm now getting people

94

00:03:48,550 --> 00:03:46,879

who've either worked historically in

95

00:03:50,149 --> 00:03:48,560

different sections of the australian

96

00:03:52,149 --> 00:03:50,159

military or indeed the new zealand

97

00:03:54,949 --> 00:03:52,159

military who are telling me that they've

98

00:03:56,630 --> 00:03:54,959

seen anomalous objects and they'd always

99

00:03:57,910 --> 00:03:56,640

kept quiet about it now they're wanting

100

00:03:59,350 --> 00:03:57,920

to talk about it and they're wanting to

101
00:04:01,509 --> 00:03:59,360
know who they should go ahead with it

102
00:04:05,030 --> 00:04:01,519
and there was one guy i was talking to

103
00:04:07,589 --> 00:04:05,040
yesterday who said to me that um

104
00:04:09,910 --> 00:04:07,599
he didn't feel comfortable going public

105
00:04:12,309 --> 00:04:09,920
or naming himself with me

106
00:04:14,229 --> 00:04:12,319
and so i said to him i said just write a

107
00:04:15,910 --> 00:04:14,239
write a report to your co how would you

108
00:04:17,509 --> 00:04:15,920
feel about that you know write a report

109
00:04:18,949 --> 00:04:17,519
to your commanding officer

110
00:04:19,990 --> 00:04:18,959
have you got any problems with that and

111
00:04:22,310 --> 00:04:20,000
they went

112
00:04:25,110 --> 00:04:22,320
no i don't really and i said well it's

113
00:04:26,310 --> 00:04:25,120

it's anomalous objects in australian

114

00:04:28,710 --> 00:04:26,320

airspace

115

00:04:31,350 --> 00:04:28,720

over a defense training area

116

00:04:32,469 --> 00:04:31,360

this is williamtown just north of um

117

00:04:34,710 --> 00:04:32,479

sydney

118

00:04:36,230 --> 00:04:34,720

and uh i said you know

119

00:04:38,310 --> 00:04:36,240

i would have thought that

120

00:04:39,990 --> 00:04:38,320

the air vice marshal of australia's air

121

00:04:41,350 --> 00:04:40,000

force would want to know about that kind

122

00:04:43,270 --> 00:04:41,360

of stuff they don't want you holding

123

00:04:44,790 --> 00:04:43,280

back on it so it's having a positive

124

00:04:47,430 --> 00:04:44,800

effect that's my point vinnie is that

125

00:04:49,350 --> 00:04:47,440

there is a there is a change happening

126

00:04:51,270 --> 00:04:49,360

and i interviewed people in your air

127

00:04:53,670 --> 00:04:51,280

force in the british royal air force

128

00:04:54,790 --> 00:04:53,680

back in 2009

129

00:04:56,629 --> 00:04:54,800

about the

130

00:04:59,030 --> 00:04:56,639

black triangle episodes that were

131

00:05:00,629 --> 00:04:59,040

happening over the uk and the 1980s and

132

00:05:01,430 --> 00:05:00,639

the 1990s

133

00:05:11,510 --> 00:05:01,440

and

134

00:05:13,590 --> 00:05:11,520

think there's a

135

00:05:15,990 --> 00:05:13,600

there's a slow change happening despite

136

00:05:18,469 --> 00:05:16,000

the debunkers and the skeptics it's um

137

00:05:20,629 --> 00:05:18,479

it's it's starting to happen

138

00:05:22,230 --> 00:05:20,639

yeah i can feel it i think we all can

139

00:05:23,670 --> 00:05:22,240

but i think sometimes it does bring up

140

00:05:25,749 --> 00:05:23,680

more questions and this is just when

141

00:05:28,070 --> 00:05:25,759

people get excited with

142

00:05:30,070 --> 00:05:28,080

feeling like we're getting closer to

143

00:05:31,830 --> 00:05:30,080

answers possibly now you mentioned there

144

00:05:34,310 --> 00:05:31,840

quite a few things i'd like to touch

145

00:05:36,629 --> 00:05:34,320

upon firstly the the fighter pilots off

146

00:05:38,950 --> 00:05:36,639

of virginia now you said this year so

147

00:05:39,749 --> 00:05:38,960

we're only 15 days in so that says a lot

148

00:05:41,430 --> 00:05:39,759

yeah

149

00:05:43,430 --> 00:05:41,440

did they say anything

150

00:05:45,430 --> 00:05:43,440

about are they still capturing these

151
00:05:47,590 --> 00:05:45,440
things on all the sensor systems

152
00:05:49,670 --> 00:05:47,600
possibly photographs as well

153
00:05:51,749 --> 00:05:49,680
i look i know they were last year i

154
00:05:52,870 --> 00:05:51,759
stupidly i mean i'm a bad journalist

155
00:05:54,710 --> 00:05:52,880
because i didn't actually ask that

156
00:05:57,029 --> 00:05:54,720
question i was so excited that they told

157
00:05:58,550 --> 00:05:57,039
me that it had sightings um it was

158
00:06:00,390 --> 00:05:58,560
stupid of me it was a very brief

159
00:06:02,230 --> 00:06:00,400
fleeting conversation i just didn't ask

160
00:06:03,590 --> 00:06:02,240
i'm sorry no no no no it's fair enough

161
00:06:05,270 --> 00:06:03,600
i'm sure you will get the opportunity

162
00:06:07,270 --> 00:06:05,280
again in the future

163
00:06:09,510 --> 00:06:07,280

and also you mentioned there the

164

00:06:12,629 --> 00:06:09,520

the british military have you spoken to

165

00:06:14,710 --> 00:06:12,639

anyone recently from this country be it

166

00:06:16,550 --> 00:06:14,720

from the political side of things or the

167

00:06:20,629 --> 00:06:16,560

military aspects

168

00:06:23,189 --> 00:06:20,639

um uh not this not this year and um

169

00:06:26,390 --> 00:06:23,199

not in the second half of last year but

170

00:06:27,990 --> 00:06:26,400

yes i i spoke to people for um

171

00:06:29,670 --> 00:06:28,000

researching both my book and my

172

00:06:31,110 --> 00:06:29,680

documentary in

173

00:06:35,029 --> 00:06:31,120

uh

174

00:06:36,710 --> 00:06:35,039

both former and serving british military

175

00:06:38,950 --> 00:06:36,720

and also one of the things i really

176

00:06:40,469 --> 00:06:38,960

commend actually i i didn't realize the

177

00:06:43,430 --> 00:06:40,479

significance of it

178

00:06:46,390 --> 00:06:43,440

um was the incredible detail in the

179

00:06:48,469 --> 00:06:46,400

condyne report c-o-n-d-i-g-n

180

00:06:50,870 --> 00:06:48,479

it's it's an amazing document because it

181

00:06:51,749 --> 00:06:50,880

was written what nearly what 25 30 years

182

00:06:53,189 --> 00:06:51,759

ago

183

00:06:55,830 --> 00:06:53,199

yeah and um

184

00:06:57,510 --> 00:06:55,840

yeah is it is it dr david clarke or

185

00:06:59,189 --> 00:06:57,520

professor david clark

186

00:07:00,950 --> 00:06:59,199

david clark he's actually coming down

187

00:07:03,110 --> 00:07:00,960

here on thursday to speak to me again

188

00:07:04,950 --> 00:07:03,120

well i i'd doff me hat to him you know

189

00:07:06,550 --> 00:07:04,960

it was a fantastic bit of work on his

190

00:07:08,710 --> 00:07:06,560

part getting hold of that and i loved

191

00:07:10,790 --> 00:07:08,720

the story of how he procured it and

192

00:07:13,029 --> 00:07:10,800

i looked at it with nick pope in the

193

00:07:13,990 --> 00:07:13,039

british national archives after it was

194

00:07:16,390 --> 00:07:14,000

soon

195

00:07:17,589 --> 00:07:16,400

declassified and i never really had an

196

00:07:19,430 --> 00:07:17,599

opportunity to look at it then and i

197

00:07:21,350 --> 00:07:19,440

think david's now procured it and been

198

00:07:23,430 --> 00:07:21,360

able to scan it and digitize it which is

199

00:07:25,110 --> 00:07:23,440

why it's now available online

200

00:07:27,990 --> 00:07:25,120

and there's an episode in there that i

201
00:07:30,230 --> 00:07:28,000
keep on coming back to where

202
00:07:31,909 --> 00:07:30,240
in the immediate aftermath of the cold

203
00:07:33,830 --> 00:07:31,919
war

204
00:07:37,670 --> 00:07:33,840
former soviet

205
00:07:39,670 --> 00:07:37,680
commanders in the ussr admitted to the

206
00:07:40,950 --> 00:07:39,680
british condyne investigators for their

207
00:07:41,909 --> 00:07:40,960
report

208
00:07:44,790 --> 00:07:41,919
that

209
00:07:46,070 --> 00:07:44,800
soviet fighter jets had attempted to

210
00:07:47,510 --> 00:07:46,080
engage

211
00:07:49,270 --> 00:07:47,520
uaps

212
00:07:52,150 --> 00:07:49,280
and that they were lost in the process

213
00:07:55,749 --> 00:07:53,430

and did you pick up the other and the

214

00:07:58,070 --> 00:07:55,759

other one the other one that um i really

215

00:08:00,309 --> 00:07:58,080

want to flag people's attention to is

216

00:08:02,309 --> 00:08:00,319

because i've got huge respect for frank

217

00:08:05,029 --> 00:08:02,319

milburn who's a former

218

00:08:07,110 --> 00:08:05,039

british military intelligence officer

219

00:08:09,670 --> 00:08:07,120

and frank uh gave an interview the other

220

00:08:13,510 --> 00:08:09,680

day uh where he

221

00:08:16,790 --> 00:08:13,520

he basically asserted that he was told

222

00:08:19,990 --> 00:08:16,800

that there were a number of fighter jets

223

00:08:22,469 --> 00:08:20,000

from both sides of the border around

224

00:08:25,189 --> 00:08:22,479

east germany during the cold war

225

00:08:29,350 --> 00:08:25,199

lost attempting to engage

226

00:08:30,950 --> 00:08:29,360

an object or objects i think it was

227

00:08:33,190 --> 00:08:30,960

nine eight or nine jets or something it

228

00:08:34,709 --> 00:08:33,200

was an amazing figure it was a high five

229

00:08:36,469 --> 00:08:34,719

chasing it and

230

00:08:39,909 --> 00:08:36,479

up the middle of the country

231

00:08:41,589 --> 00:08:39,919

yeah and i i find it incredible because

232

00:08:43,430 --> 00:08:41,599

you know the idea of that many people

233

00:08:45,190 --> 00:08:43,440

being lost in one engagement and then

234

00:08:47,110 --> 00:08:45,200

the families having to be told and the

235

00:08:49,590 --> 00:08:47,120

whole thing being kept secret

236

00:08:51,509 --> 00:08:49,600

uh is mind-boggling but uh if that's

237

00:08:53,269 --> 00:08:51,519

true you know let's let's investigate it

238

00:08:55,670 --> 00:08:53,279

i mean the thing that i'm saying is that

239

00:08:58,310 --> 00:08:55,680

there are no fruitful

240

00:09:00,550 --> 00:08:58,320

loads for investigation that are now

241

00:09:01,350 --> 00:09:00,560

slowly coming to light

242

00:09:03,190 --> 00:09:01,360

and

243

00:09:05,590 --> 00:09:03,200

the thing that really annoys me is that

244

00:09:07,829 --> 00:09:05,600

for much of the last 30 years since the

245

00:09:09,269 --> 00:09:07,839

end of the cold war

246

00:09:11,910 --> 00:09:09,279

the subject matter has been so

247

00:09:14,230 --> 00:09:11,920

stigmatized and so treated with taboo

248

00:09:15,670 --> 00:09:14,240

that mainstream media has completely

249

00:09:18,630 --> 00:09:15,680

failed to do its job properly and

250

00:09:20,949 --> 00:09:18,640

actually investigate it and yet

251

00:09:23,350 --> 00:09:20,959

as i've found and when you actually

252

00:09:24,630 --> 00:09:23,360

start digging there are people there who

253

00:09:26,550 --> 00:09:24,640

want to talk about it and who are

254

00:09:28,150 --> 00:09:26,560

actually quite happy to talk about it

255

00:09:29,509 --> 00:09:28,160

and that's what's happening to me now

256

00:09:30,630 --> 00:09:29,519

you know

257

00:09:33,350 --> 00:09:30,640

i'm

258

00:09:35,670 --> 00:09:33,360

overwhelmed with good people contacting

259

00:09:37,350 --> 00:09:35,680

me and please be patient everyone

260

00:09:39,430 --> 00:09:37,360

because i just don't have time to

261

00:09:41,590 --> 00:09:39,440

process the volume of emails that are

262

00:09:43,590 --> 00:09:41,600

coming in i've got so many people

263

00:09:45,910 --> 00:09:43,600

contacting me wanting me to talk to them

264

00:09:48,310 --> 00:09:45,920

about either their service experience or

265

00:09:49,990 --> 00:09:48,320

the sighting that they had or you know

266

00:09:52,150 --> 00:09:50,000

issues that they know about from the

267

00:09:53,829 --> 00:09:52,160

work that they're involved in and it's

268

00:09:54,550 --> 00:09:53,839

very very difficult to keep track of it

269

00:09:56,710 --> 00:09:54,560

all

270

00:09:58,470 --> 00:09:56,720

yeah i can i can only begin to imagine

271

00:10:00,870 --> 00:09:58,480

but uh you're doing a great job so far

272

00:10:03,590 --> 00:10:00,880

and i'm sure you will continue to do so

273

00:10:06,069 --> 00:10:03,600

so thank you kudos kudos um let's switch

274

00:10:09,269 --> 00:10:06,079

it to your home country to australia

275

00:10:11,509 --> 00:10:09,279

where you reside um we recently saw

276

00:10:13,509 --> 00:10:11,519

senator peter wish wilson

277

00:10:15,990 --> 00:10:13,519

talking openly and asking serious

278

00:10:18,790 --> 00:10:16,000

questions about the subject um

279

00:10:20,550 --> 00:10:18,800

has anybody else are there whispers of

280

00:10:22,949 --> 00:10:20,560

other politicians again and military

281

00:10:24,550 --> 00:10:22,959

personnel talking since that

282

00:10:26,870 --> 00:10:24,560

that chat

283

00:10:30,069 --> 00:10:26,880

not on the record i've had phone calls

284

00:10:33,110 --> 00:10:30,079

from two staffers for one's a government

285

00:10:34,550 --> 00:10:33,120

minister and the other was an opposition

286

00:10:37,190 --> 00:10:34,560

shadow minister

287

00:10:39,350 --> 00:10:37,200

uh just wanting a briefing and and it

288

00:10:40,870 --> 00:10:39,360

was very much along the lines of

289

00:10:43,110 --> 00:10:40,880

oh roscoe

290

00:10:45,030 --> 00:10:43,120

i see you've written a book on ufos and

291

00:10:47,590 --> 00:10:45,040

you know the level of ignorance is

292

00:10:49,670 --> 00:10:47,600

breathtaking but but basically this is

293

00:10:51,829 --> 00:10:49,680

not something that's on their radar and

294

00:10:53,990 --> 00:10:51,839

uh i don't think there's a cover-up i

295

00:10:56,310 --> 00:10:54,000

really don't i mean we have a saying in

296

00:10:58,310 --> 00:10:56,320

my line of work which is never

297

00:11:01,190 --> 00:10:58,320

never ever assume a conspiracy always

298

00:11:02,310 --> 00:11:01,200

assume a screw up before a cover-up yeah

299

00:11:05,430 --> 00:11:02,320

and uh

300

00:11:07,590 --> 00:11:05,440

and i i i think what's been happening is

301
00:11:09,829 --> 00:11:07,600
there has been five eyes intelligence

302
00:11:11,110 --> 00:11:09,839
coming through and i'm told this by

303
00:11:12,870 --> 00:11:11,120
people who know

304
00:11:14,470 --> 00:11:12,880
there's been repeated intelligence

305
00:11:17,190 --> 00:11:14,480
that's being shared amongst the five

306
00:11:20,150 --> 00:11:17,200
eyes countries your country britain

307
00:11:22,389 --> 00:11:20,160
australia new zealand the us canada

308
00:11:24,389 --> 00:11:22,399
where we've been sharing intelligence on

309
00:11:26,550 --> 00:11:24,399
the phenomenon but

310
00:11:28,949 --> 00:11:26,560
when peter wish wilson who's a greens

311
00:11:31,190 --> 00:11:28,959
senator in australia and a former

312
00:11:33,110 --> 00:11:31,200
serviceman he went through duntroon

313
00:11:35,030 --> 00:11:33,120

which is our main kind of equivalent of

314

00:11:36,470 --> 00:11:35,040

sandhurst if you like so he's got some

315

00:11:38,150 --> 00:11:36,480

very good connections who are still

316

00:11:40,069 --> 00:11:38,160

under service

317

00:11:41,910 --> 00:11:40,079

when he asked a question of mel hubfeld

318

00:11:44,230 --> 00:11:41,920

who's the chief of air staff the head of

319

00:11:45,910 --> 00:11:44,240

our air force in parliament not long ago

320

00:11:47,990 --> 00:11:45,920

in a parliamentary oversight committee

321

00:11:49,910 --> 00:11:48,000

the senate estimates committee

322

00:11:51,829 --> 00:11:49,920

you know what did he know about uap

323

00:11:53,590 --> 00:11:51,839

monitoring was there any monitoring of

324

00:11:55,430 --> 00:11:53,600

uaps

325

00:11:58,470 --> 00:11:55,440

mel dealt with it

326

00:11:59,990 --> 00:11:58,480

as a pilot who's you know seen a lot of

327

00:12:01,990 --> 00:12:00,000

combat service probably would with a

328

00:12:03,670 --> 00:12:02,000

degree of irony and and was fairly

329

00:12:05,670 --> 00:12:03,680

dismissive about it

330

00:12:07,750 --> 00:12:05,680

and it's not i'm not saying mel's been

331

00:12:09,910 --> 00:12:07,760

misled i don't think he was i just don't

332

00:12:11,829 --> 00:12:09,920

think he knew the full extent to which

333

00:12:13,110 --> 00:12:11,839

there is information sharing among the

334

00:12:14,069 --> 00:12:13,120

five eyes

335

00:12:15,430 --> 00:12:14,079

but what's going to be really

336

00:12:18,069 --> 00:12:15,440

interesting is

337

00:12:19,829 --> 00:12:18,079

i'm already talking to people

338

00:12:23,190 --> 00:12:19,839

uh i've spoken to people from the

339

00:12:25,750 --> 00:12:23,200

congress who are pushing really hard for

340

00:12:28,470 --> 00:12:25,760

whatever comes out later this year

341

00:12:29,829 --> 00:12:28,480

in terms of reports to the congress to

342

00:12:32,389 --> 00:12:29,839

include

343

00:12:36,310 --> 00:12:32,399

what's known by five eyes partners

344

00:12:38,629 --> 00:12:36,320

including australia and new zealand and

345

00:12:39,990 --> 00:12:38,639

they've told me that there will be

346

00:12:40,870 --> 00:12:40,000

engagement

347

00:12:43,509 --> 00:12:40,880

with

348

00:12:45,030 --> 00:12:43,519

the australian air force in particular

349

00:12:46,150 --> 00:12:45,040

and uh

350

00:12:47,990 --> 00:12:46,160

it's funny because you know the

351

00:12:50,710 --> 00:12:48,000

australian air force is still locked

352

00:12:52,470 --> 00:12:50,720

very much in the paradigm of the 1970s

353

00:12:54,150 --> 00:12:52,480

where essentially all you say is there's

354

00:12:55,829 --> 00:12:54,160

no threat to national security and it's

355

00:12:57,670 --> 00:12:55,839

not a flight safety risk

356

00:12:58,870 --> 00:12:57,680

and that's been their parroted line for

357

00:13:01,910 --> 00:12:58,880

so long

358

00:13:03,829 --> 00:13:01,920

and the irony is i'm talking all the

359

00:13:06,150 --> 00:13:03,839

time now to people

360

00:13:09,190 --> 00:13:06,160

in the defence hierarchy

361

00:13:11,269 --> 00:13:09,200

some of them are pilots some of them are

362

00:13:13,829 --> 00:13:11,279

people working in a technical area like

363

00:13:14,790 --> 00:13:13,839

radar operations or satellite telemetry

364

00:13:16,629 --> 00:13:14,800

receipt

365

00:13:18,790 --> 00:13:16,639

and they're telling me that there are

366

00:13:19,750 --> 00:13:18,800

anomalous objects being seen all the

367

00:13:21,670 --> 00:13:19,760

time

368

00:13:23,350 --> 00:13:21,680

and in fact contrary to what mel

369

00:13:24,550 --> 00:13:23,360

hubfield told the senate estimates

370

00:13:27,030 --> 00:13:24,560

committee

371

00:13:30,629 --> 00:13:27,040

i'm told that mel hubfield has been

372

00:13:35,430 --> 00:13:30,639

orally briefed about unauthorized

373

00:13:37,829 --> 00:13:35,440

aircraft movements u a m's and that the

374

00:13:39,990 --> 00:13:37,839

issue might very well be one of

375

00:13:42,069 --> 00:13:40,000

titles you know labels you know when he

376

00:13:43,910 --> 00:13:42,079

was asked about uaps

377

00:13:46,389 --> 00:13:43,920

maybe the answer was no there were no

378

00:13:47,990 --> 00:13:46,399

uaps being reported but maybe they're

379

00:13:49,509 --> 00:13:48,000

uams

380

00:13:51,350 --> 00:13:49,519

and there's a body of evidence there's a

381

00:13:53,670 --> 00:13:51,360

friend of mine paul dean who does some

382

00:13:54,949 --> 00:13:53,680

excellent foi research here in australia

383

00:13:57,189 --> 00:13:54,959

and he's

384

00:13:59,350 --> 00:13:57,199

he's at least verified the existence of

385

00:14:00,470 --> 00:13:59,360

databases in the defence department

386

00:14:04,629 --> 00:14:00,480

called

387

00:14:07,269 --> 00:14:04,639

uams un identified or un unauthorized

388

00:14:09,350 --> 00:14:07,279

aircraft movements and um we're still

389

00:14:10,870 --> 00:14:09,360

trying to procure those files at the

390

00:14:13,189 --> 00:14:10,880

moment but

391

00:14:14,949 --> 00:14:13,199

you know it's it's a tough road

392

00:14:16,790 --> 00:14:14,959

basically it'll like most things in

393

00:14:18,230 --> 00:14:16,800

australia it'll be lit by the united

394

00:14:19,750 --> 00:14:18,240

states and then all of a sudden it'll

395

00:14:22,069 --> 00:14:19,760

become a priority

396

00:14:24,230 --> 00:14:22,079

yeah absolutely and i mean

397

00:14:26,710 --> 00:14:24,240

you mentioned there with um the air

398

00:14:28,710 --> 00:14:26,720

force the australian air force sharing

399

00:14:30,710 --> 00:14:28,720

information and data

400

00:14:32,069 --> 00:14:30,720

in you know in the government there but

401
00:14:33,990 --> 00:14:32,079
do you see them collecting the

402
00:14:35,750 --> 00:14:34,000
intelligence data from pine gap you know

403
00:14:37,350 --> 00:14:35,760
the dsp satellite

404
00:14:39,189 --> 00:14:37,360
information that we've we've spoken

405
00:14:40,470 --> 00:14:39,199
about before and heard a bit about do

406
00:14:42,069 --> 00:14:40,480
you think that all goes through to the

407
00:14:43,670 --> 00:14:42,079
same people

408
00:14:44,949 --> 00:14:43,680
oh i know it does and in fact it's

409
00:14:46,949 --> 00:14:44,959
really interesting because i've i've

410
00:14:49,750 --> 00:14:46,959
been talking to people who

411
00:14:51,829 --> 00:14:49,760
have worked for the ginderly over the

412
00:14:53,030 --> 00:14:51,839
horizon radar network

413
00:14:55,110 --> 00:14:53,040

and it's really interesting because

414

00:14:55,829 --> 00:14:55,120

jindalee was originally i did a job on

415

00:14:58,870 --> 00:14:55,839

it

416

00:15:00,629 --> 00:14:58,880

for a tv show another tv show

417

00:15:02,629 --> 00:15:00,639

nearly 20 years ago

418

00:15:05,030 --> 00:15:02,639

it was a very very expensive

419

00:15:07,110 --> 00:15:05,040

over-the-horizon radar system very

420

00:15:09,829 --> 00:15:07,120

similar to the cobra mist one that's

421

00:15:11,110 --> 00:15:09,839

near the um the old ref bentwaters base

422

00:15:13,189 --> 00:15:11,120

in your country

423

00:15:15,189 --> 00:15:13,199

and uh the americans have tried

424

00:15:20,629 --> 00:15:15,199

different versions of over the horizon

425

00:15:22,550 --> 00:15:20,639

radar in both the usa and also up on the

426

00:15:24,150 --> 00:15:22,560

the far reaches of the alaska border

427

00:15:25,269 --> 00:15:24,160

with russia it's never really worked

428

00:15:27,110 --> 00:15:25,279

that well

429

00:15:30,069 --> 00:15:27,120

but i'm still getting to the bottom of

430

00:15:31,189 --> 00:15:30,079

it i'm told that the data source from

431

00:15:34,150 --> 00:15:31,199

john

432

00:15:35,350 --> 00:15:34,160

goes directly now to space command in

433

00:15:37,350 --> 00:15:35,360

the us

434

00:15:39,829 --> 00:15:37,360

and this is a data stream that's fed

435

00:15:41,590 --> 00:15:39,839

live back to the us and it's seen as

436

00:15:43,430 --> 00:15:41,600

highly useful because

437

00:15:45,829 --> 00:15:43,440

while frankly they discovered that

438

00:15:48,310 --> 00:15:45,839

jindal is a bit of a dog for working as

439

00:15:50,870 --> 00:15:48,320

a good radar system conventional radar

440

00:15:52,829 --> 00:15:50,880

system for a whole variety of reasons

441

00:15:55,350 --> 00:15:52,839

mainly that the

442

00:15:59,430 --> 00:15:55,360

ionosphere uh gets interruption at

443

00:16:01,509 --> 00:15:59,440

sunset and sunrise and you get clutter

444

00:16:04,150 --> 00:16:01,519

it's fantastic apparently for monitoring

445

00:16:05,269 --> 00:16:04,160

objects in low earth orbit

446

00:16:11,910 --> 00:16:05,279

and

447

00:16:14,389 --> 00:16:11,920

spoken to australians who have rotated

448

00:16:15,910 --> 00:16:14,399

in and out of space command in the

449

00:16:18,710 --> 00:16:15,920

united states

450

00:16:20,710 --> 00:16:18,720

who've been involved in monitoring the

451
00:16:23,269 --> 00:16:20,720
receipt of john data

452
00:16:24,870 --> 00:16:23,279
in space command in the us and as well

453
00:16:26,790 --> 00:16:24,880
as that there's a space

454
00:16:28,710 --> 00:16:26,800
telescope that the united states

455
00:16:30,790 --> 00:16:28,720
recently built on

456
00:16:31,670 --> 00:16:30,800
oddly enough north west cape the same

457
00:16:33,829 --> 00:16:31,680
place

458
00:16:36,710 --> 00:16:33,839
where the mysterious harold e holt naval

459
00:16:40,069 --> 00:16:36,720
communications stations based and this

460
00:16:41,749 --> 00:16:40,079
space telescope is a top of the you know

461
00:16:44,230 --> 00:16:41,759
absolutely top of the art

462
00:16:45,509 --> 00:16:44,240
brand new american space debris

463
00:16:47,910 --> 00:16:45,519

monitoring

464

00:16:49,430 --> 00:16:47,920

site and

465

00:16:52,310 --> 00:16:49,440

there's photographs of it i could send

466

00:16:55,189 --> 00:16:52,320

you images of it taken by it

467

00:16:57,110 --> 00:16:55,199

yeah but but it's it's shrouded in

468

00:16:59,110 --> 00:16:57,120

secrecy and um

469

00:17:01,990 --> 00:16:59,120

i'm still probing and trying to get to

470

00:17:04,230 --> 00:17:02,000

the bottom of that one but um uh it is

471

00:17:06,069 --> 00:17:04,240

interesting that we as well as pine gap

472

00:17:07,829 --> 00:17:06,079

which is the most well-known one which

473

00:17:09,990 --> 00:17:07,839

is the joint facility

474

00:17:12,870 --> 00:17:10,000

we operate with the united states in the

475

00:17:15,270 --> 00:17:12,880

middle of australia near alice springs

476

00:17:17,510 --> 00:17:15,280

and that's mainly satellite telemetry

477

00:17:19,510 --> 00:17:17,520

the dsps now are pretty old there's some

478

00:17:21,189 --> 00:17:19,520

brand new satellites that do even great

479

00:17:23,669 --> 00:17:21,199

greater things that are

480

00:17:26,309 --> 00:17:23,679

now feeding back as well data streams

481

00:17:28,230 --> 00:17:26,319

back to the united states in real time

482

00:17:32,470 --> 00:17:28,240

so yeah i mean australia is very very

483

00:17:34,950 --> 00:17:32,480

plugged into um space force and uh

484

00:17:37,110 --> 00:17:34,960

uh for the aussies that work in our

485

00:17:37,990 --> 00:17:37,120

defence forces it's kind of a plum gig

486

00:17:39,110 --> 00:17:38,000

because

487

00:17:40,950 --> 00:17:39,120

you know

488

00:17:43,750 --> 00:17:40,960

to to work in that area and then get a

489

00:17:45,669 --> 00:17:43,760

trip across to colorado or wherever it

490

00:17:47,270 --> 00:17:45,679

whether it's based huntsville

491

00:17:48,950 --> 00:17:47,280

you get an opportunity to see the

492

00:17:50,549 --> 00:17:48,960

americans up close and that's quite

493

00:17:52,310 --> 00:17:50,559

thrilling for them and so i've had a

494

00:17:54,710 --> 00:17:52,320

i've had a number of calls from people

495

00:17:58,070 --> 00:17:54,720

who've told me that that's going on

496

00:18:00,549 --> 00:17:58,080

and and that it does include anomalous

497

00:18:01,830 --> 00:18:00,559

objects and this is the weird thing is

498

00:18:03,750 --> 00:18:01,840

that i don't know if there's willful

499

00:18:05,430 --> 00:18:03,760

ignorance on the part of our military

500

00:18:07,830 --> 00:18:05,440

leaders but um

501
00:18:09,669 --> 00:18:07,840
they need to ask for briefings because

502
00:18:12,710 --> 00:18:09,679
they're going to look like idiots the

503
00:18:13,669 --> 00:18:12,720
moment the united states starts asking

504
00:18:17,909 --> 00:18:13,679
for

505
00:18:19,830 --> 00:18:17,919
congressional orders that have been made

506
00:18:21,510 --> 00:18:19,840
in the legislation

507
00:18:23,190 --> 00:18:21,520
the only way they're going to find out

508
00:18:25,270 --> 00:18:23,200
properly what's going on is if they

509
00:18:27,510 --> 00:18:25,280
actually ask their own people

510
00:18:29,350 --> 00:18:27,520
and i've had people reaching out to me

511
00:18:31,029 --> 00:18:29,360
saying hey it's really good that you're

512
00:18:32,390 --> 00:18:31,039
asking this because

513
00:18:33,669 --> 00:18:32,400

in all seriousness you know the

514

00:18:35,190 --> 00:18:33,679

australians i'm talking to they're not

515

00:18:36,950 --> 00:18:35,200

breaching national security they're

516

00:18:38,950 --> 00:18:36,960

patriots they're people who are

517

00:18:41,430 --> 00:18:38,960

genuinely concerned that they are

518

00:18:44,549 --> 00:18:41,440

they're picking up anomalous objects on

519

00:18:46,549 --> 00:18:44,559

radar systems and

520

00:18:48,950 --> 00:18:46,559

space telescope systems that are and

521

00:18:50,549 --> 00:18:48,960

satellite systems that shouldn't be

522

00:18:52,630 --> 00:18:50,559

there that are doing things that can't

523

00:18:53,909 --> 00:18:52,640

be explained and i

524

00:18:56,150 --> 00:18:53,919

you know this is

525

00:18:57,190 --> 00:18:56,160

elizondo's point mellon's point that

526

00:18:59,830 --> 00:18:57,200

that

527

00:19:01,750 --> 00:18:59,840

why isn't this a national security issue

528

00:19:03,270 --> 00:19:01,760

nobody's saying it's an immediate threat

529

00:19:05,590 --> 00:19:03,280

nobody's saying little green men are

530

00:19:08,150 --> 00:19:05,600

going to come and invade or take us over

531

00:19:10,150 --> 00:19:08,160

but by definition anything that has the

532

00:19:12,710 --> 00:19:10,160

scientific capacity the technological

533

00:19:14,789 --> 00:19:12,720

superiority to be able to penetrate our

534

00:19:17,510 --> 00:19:14,799

airspace with impunity

535

00:19:18,710 --> 00:19:17,520

hover over known defence installations

536

00:19:21,909 --> 00:19:18,720

and

537

00:19:24,950 --> 00:19:21,919

access secure sites is by definition a

538

00:19:27,029 --> 00:19:24,960

threat and and that's something that our

539

00:19:29,029 --> 00:19:27,039

government in australia and

540

00:19:30,470 --> 00:19:29,039

your government in the uk and the us

541

00:19:31,830 --> 00:19:30,480

should be looking at

542

00:19:34,070 --> 00:19:31,840

and i really think that's that's all

543

00:19:35,750 --> 00:19:34,080

this legislation's about you know and if

544

00:19:37,909 --> 00:19:35,760

it does turn out that it's russian

545

00:19:39,990 --> 00:19:37,919

drones or chinese drones or some new

546

00:19:41,590 --> 00:19:40,000

technology that we don't know then at

547

00:19:42,710 --> 00:19:41,600

least we've become aware of it that's

548

00:19:45,990 --> 00:19:42,720

fantastic

549

00:19:48,630 --> 00:19:46,000

what i don't understand is the willful

550

00:19:49,830 --> 00:19:48,640

ignorance the kind of the default to

551

00:19:53,750 --> 00:19:49,840

ridicule

552

00:19:55,590 --> 00:19:53,760

that is utterly absurd and illogical

553

00:19:57,110 --> 00:19:55,600

yeah absolutely it feels like here in

554

00:19:58,630 --> 00:19:57,120

the uk as well though

555

00:20:00,070 --> 00:19:58,640

our government and military and

556

00:20:02,149 --> 00:20:00,080

intelligence

557

00:20:03,430 --> 00:20:02,159

publicly their heads buried in the sand

558

00:20:06,149 --> 00:20:03,440

because they're not talking openly

559

00:20:08,630 --> 00:20:06,159

whatsoever which is worrying well look i

560

00:20:10,950 --> 00:20:08,640

think the uk knows a lot more

561

00:20:14,789 --> 00:20:10,960

of all the five is countries i think the

562

00:20:16,390 --> 00:20:14,799

uk was read into a lot of what the us

563

00:20:18,310 --> 00:20:16,400

knows a lot earlier than all the other

564

00:20:20,390 --> 00:20:18,320

countries

565

00:20:21,510 --> 00:20:20,400

you know it's obvious even from the way

566

00:20:26,950 --> 00:20:21,520

they

567

00:20:28,950 --> 00:20:26,960

no

568

00:20:30,070 --> 00:20:28,960

inquisitiveness at all into the fact

569

00:20:32,230 --> 00:20:30,080

that um

570

00:20:35,110 --> 00:20:32,240

the raph woodridge raf bentwaters

571

00:20:37,110 --> 00:20:35,120

episode happened on their soil

572

00:20:39,430 --> 00:20:37,120

and uh you know

573

00:20:41,430 --> 00:20:39,440

they literally stood aside while the us

574

00:20:42,710 --> 00:20:41,440

air force came in and investigated what

575

00:20:44,950 --> 00:20:42,720

was clearly

576
00:20:47,750 --> 00:20:44,960
some kind of incursion by some kind of

577
00:20:49,669 --> 00:20:47,760
anomalous object on british soil

578
00:20:51,430 --> 00:20:49,679
yeah absolutely

579
00:20:52,870 --> 00:20:51,440
you don't you don't buy willful

580
00:20:54,950 --> 00:20:52,880
ignorance like that unless you're given

581
00:20:57,830 --> 00:20:54,960
a bit of a briefing you know i said yeah

582
00:21:00,149 --> 00:20:57,840
what's going on here you know

583
00:21:01,669 --> 00:21:00,159
absolutely i completely agree yeah i

584
00:21:03,590 --> 00:21:01,679
mean

585
00:21:06,230 --> 00:21:03,600
the uk government and what we've seen

586
00:21:08,789 --> 00:21:06,240
from the released files in the past 20

587
00:21:10,470 --> 00:21:08,799
odd years there was some serious work

588
00:21:12,310 --> 00:21:10,480

being done on the subject and then it

589

00:21:15,029 --> 00:21:12,320

goes dark all of a sudden in the past

590

00:21:16,710 --> 00:21:15,039

decade i don't buy that one little bit

591

00:21:19,190 --> 00:21:16,720

well never do i and in fact neither did

592

00:21:20,470 --> 00:21:19,200

harry turner who was the australian

593

00:21:21,830 --> 00:21:20,480

one of the chief scientists in

594

00:21:23,990 --> 00:21:21,840

australia's joint

595

00:21:26,710 --> 00:21:24,000

intelligence organization in our defence

596

00:21:29,590 --> 00:21:26,720

department and uh i've put out on the

597

00:21:30,870 --> 00:21:29,600

internet the document that um one of my

598

00:21:33,029 --> 00:21:30,880

colleagues bill chalker here in

599

00:21:35,029 --> 00:21:33,039

australia was instrumental in procuring

600

00:21:37,669 --> 00:21:35,039

from our defense department

601
00:21:40,230 --> 00:21:37,679
and he befriended harry and way back in

602
00:21:41,909 --> 00:21:40,240
the 1970s harry was utterly convinced

603
00:21:44,070 --> 00:21:41,919
that there was a cover-up going on that

604
00:21:46,710 --> 00:21:44,080
the americans knew far more than they

605
00:21:48,149 --> 00:21:46,720
were letting on about the phenomenon

606
00:21:50,149 --> 00:21:48,159
and uh

607
00:21:52,310 --> 00:21:50,159
you know sadly the poor man went to his

608
00:21:54,470 --> 00:21:52,320
grave never really getting the answer

609
00:21:57,110 --> 00:21:54,480
but he was in touch with american

610
00:21:58,789 --> 00:21:57,120
defense scientists he collaborated on

611
00:22:01,350 --> 00:21:58,799
different things like the nuclear

612
00:22:03,510 --> 00:22:01,360
weapons tests uh at maralinga with your

613
00:22:05,270 --> 00:22:03,520

british government yeah and he saw he

614

00:22:07,510 --> 00:22:05,280

saw anomalous objects and he saw enough

615

00:22:08,789 --> 00:22:07,520

to convince himself that the phenomenon

616

00:22:10,630 --> 00:22:08,799

was real

617

00:22:12,070 --> 00:22:10,640

yeah you mentioned marilinga that's

618

00:22:13,750 --> 00:22:12,080

actually on my list of things i'd like

619

00:22:15,029 --> 00:22:13,760

to discuss so we might as well jump onto

620

00:22:16,390 --> 00:22:15,039

it now now

621

00:22:19,110 --> 00:22:16,400

it's because we hear about all these

622

00:22:20,789 --> 00:22:19,120

cases around nuclear test facilities and

623

00:22:22,710 --> 00:22:20,799

and things like that but marilinga i

624

00:22:24,470 --> 00:22:22,720

don't think a lot of people are familiar

625

00:22:26,149 --> 00:22:24,480

with what happened and i think a lot of

626
00:22:28,710 --> 00:22:26,159
the sightings were as back as the early

627
00:22:30,310 --> 00:22:28,720
as the 1950s um

628
00:22:32,070 --> 00:22:30,320
so were you able to just give us a brief

629
00:22:34,310 --> 00:22:32,080
overview of what happened back then and

630
00:22:36,310 --> 00:22:34,320
if anything is repeated around that area

631
00:22:38,549 --> 00:22:36,320
in more more recent times

632
00:22:41,430 --> 00:22:38,559
well the majesty's government the

633
00:22:43,590 --> 00:22:41,440
british military in their great wisdom

634
00:22:46,310 --> 00:22:43,600
decided that letting off nuclear bombs

635
00:22:48,390 --> 00:22:46,320
to test the building of the british

636
00:22:49,990 --> 00:22:48,400
nuclear deterrence in the end of

637
00:22:52,149 --> 00:22:50,000
in the aftermath of world war ii they

638
00:22:54,310 --> 00:22:52,159

wanted their own nuclear bomb

639

00:22:56,470 --> 00:22:54,320

and they decided in their wisdom that to

640

00:22:58,950 --> 00:22:56,480

test their weaponry they needed a remote

641

00:23:01,350 --> 00:22:58,960

and empty part of the world and they set

642

00:23:03,190 --> 00:23:01,360

upon australia god bless them

643

00:23:05,029 --> 00:23:03,200

and of course it wasn't empty there were

644

00:23:07,669 --> 00:23:05,039

a large number of aboriginal people who

645

00:23:09,190 --> 00:23:07,679

were still nomadic moving in the areas

646

00:23:11,110 --> 00:23:09,200

of the south australian desert where

647

00:23:13,110 --> 00:23:11,120

these tests were located and a lot of

648

00:23:15,350 --> 00:23:13,120

them have suffered terribly since from

649

00:23:17,110 --> 00:23:15,360

the exposures to radiation

650

00:23:18,230 --> 00:23:17,120

a lot of them were forcibly kicked off

651
00:23:20,549 --> 00:23:18,240
their land

652
00:23:22,549 --> 00:23:20,559
but there were hundreds of thousands of

653
00:23:24,549 --> 00:23:22,559
square kilometers of territory that were

654
00:23:27,270 --> 00:23:24,559
essentially locked off by the british

655
00:23:29,029 --> 00:23:27,280
and australian military in the 1950s

656
00:23:30,549 --> 00:23:29,039
and right through the 1950s and the

657
00:23:31,990 --> 00:23:30,559
1960s

658
00:23:34,230 --> 00:23:32,000
firstly at maralingo where they

659
00:23:36,470 --> 00:23:34,240
developed the actual bomb and did

660
00:23:38,390 --> 00:23:36,480
repeated nuclear testing

661
00:23:40,710 --> 00:23:38,400
and then later at a place called warmer

662
00:23:43,510 --> 00:23:40,720
in the same area of desert they tested

663
00:23:45,830 --> 00:23:43,520

the icbm technology the intercontinental

664

00:23:48,549 --> 00:23:45,840

ballistic missile technology

665

00:23:50,310 --> 00:23:48,559

and then also in islands far off the

666

00:23:53,350 --> 00:23:50,320

west australian coast i think the

667

00:23:55,269 --> 00:23:53,360

montebello islands they also did

668

00:23:58,230 --> 00:23:55,279

air burst

669

00:24:00,070 --> 00:23:58,240

sea launches of nuclear weapons

670

00:24:02,230 --> 00:24:00,080

but the most interesting things that are

671

00:24:04,710 --> 00:24:02,240

in the australian national archives

672

00:24:07,750 --> 00:24:04,720

declassified archives are documents that

673

00:24:09,750 --> 00:24:07,760

show that right through this marylingo

674

00:24:12,390 --> 00:24:09,760

nuclear testing just as has happened at

675

00:24:13,830 --> 00:24:12,400

the nevada test range with the american

676
00:24:15,510 --> 00:24:13,840
nuclear testing

677
00:24:17,590 --> 00:24:15,520
as soon as they started this testing

678
00:24:20,230 --> 00:24:17,600
anomalous objects were being detected

679
00:24:22,549 --> 00:24:20,240
over the test sites including objects

680
00:24:24,230 --> 00:24:22,559
that to the observers most of them were

681
00:24:25,750 --> 00:24:24,240
military observers

682
00:24:30,390 --> 00:24:25,760
looked like

683
00:24:32,630 --> 00:24:30,400
lenticular metallic disc shaped craft

684
00:24:34,230 --> 00:24:32,640
quite often these objects were seen

685
00:24:36,230 --> 00:24:34,240
in some of the sightings that i've read

686
00:24:38,470 --> 00:24:36,240
coming up out of the sea out of the

687
00:24:39,590 --> 00:24:38,480
ocean on the south coast of south

688
00:24:41,990 --> 00:24:39,600

australia

689

00:24:43,669 --> 00:24:42,000

and there's literally a sequence of

690

00:24:45,830 --> 00:24:43,679

sightings reports where two little old

691

00:24:46,950 --> 00:24:45,840

ladies see this object coming up out of

692

00:24:49,909 --> 00:24:46,960

the ocean

693

00:24:52,630 --> 00:24:49,919

uh over adelaide which is south of this

694

00:24:54,549 --> 00:24:52,640

range and then later on either the same

695

00:24:57,029 --> 00:24:54,559

day or a day afterwards you've got

696

00:24:59,269 --> 00:24:57,039

people on the range seeing these objects

697

00:25:01,590 --> 00:24:59,279

shortly after or just before a nuclear

698

00:25:04,470 --> 00:25:01,600

weapon is due to be exploded

699

00:25:06,950 --> 00:25:04,480

and interestingly enough the guy who

700

00:25:07,990 --> 00:25:06,960

wrote the jio report

701
00:25:10,710 --> 00:25:08,000
i think

702
00:25:11,390 --> 00:25:10,720
harry turner

703
00:25:14,710 --> 00:25:11,400
in

704
00:25:16,870 --> 00:25:14,720
1973 he um he was one of the young

705
00:25:19,190 --> 00:25:16,880
physicists who was involved in working

706
00:25:21,269 --> 00:25:19,200
with the british on the range

707
00:25:23,750 --> 00:25:21,279
and he was involved

708
00:25:24,950 --> 00:25:23,760
assigned to investigate some of these

709
00:25:25,909 --> 00:25:24,960
sightings

710
00:25:27,110 --> 00:25:25,919
and

711
00:25:29,430 --> 00:25:27,120
it's quite amazing actually because

712
00:25:31,110 --> 00:25:29,440
while i was researching the north west

713
00:25:33,750 --> 00:25:31,120

cape story

714

00:25:36,390 --> 00:25:33,760

i got put on to people who

715

00:25:38,390 --> 00:25:36,400

worked at the mythological

716

00:25:40,549 --> 00:25:38,400

northwest cape facility the harold e

717

00:25:43,510 --> 00:25:40,559

holt facility and one of them was a

718

00:25:46,310 --> 00:25:43,520

physicist who'd also worked in the uh

719

00:25:49,190 --> 00:25:46,320

the test range in the 1960s

720

00:25:51,430 --> 00:25:49,200

and uh he told me that

721

00:25:53,590 --> 00:25:51,440

he was ordered by his superiors to go

722

00:25:56,630 --> 00:25:53,600

and investigate a sighting by a civilian

723

00:25:58,950 --> 00:25:56,640

woman who'd been walking her dog and she

724

00:26:01,669 --> 00:25:58,960

claimed to have seen a

725

00:26:05,430 --> 00:26:01,679

lenticular disc shaped craft

726

00:26:07,029 --> 00:26:05,440

landing in scrub bush near her home

727

00:26:09,190 --> 00:26:07,039

and he went and investigated and he

728

00:26:12,070 --> 00:26:09,200

found three

729

00:26:13,590 --> 00:26:12,080

um triangular shaped indentations in the

730

00:26:15,909 --> 00:26:13,600

soil of course there was no craft there

731

00:26:17,430 --> 00:26:15,919

anymore but he said to me he said he'd

732

00:26:19,029 --> 00:26:17,440

never spoken to anybody about it and he

733

00:26:20,950 --> 00:26:19,039

never actually gave the report to his

734

00:26:23,190 --> 00:26:20,960

superiors because he was worried again

735

00:26:25,190 --> 00:26:23,200

about this ridicule factor yeah you know

736

00:26:26,710 --> 00:26:25,200

he i think he gave an oral report to his

737

00:26:28,070 --> 00:26:26,720

commanding officer but he never wrote

738

00:26:30,710 --> 00:26:28,080

the thing down

739

00:26:33,750 --> 00:26:30,720

but what fascinates me is that

740

00:26:36,149 --> 00:26:33,760

despite the taboo and despite the stigma

741

00:26:37,669 --> 00:26:36,159

there's a long history from that testing

742

00:26:40,549 --> 00:26:37,679

at maralinga

743

00:26:41,590 --> 00:26:40,559

of really strange anomalous objects that

744

00:26:42,950 --> 00:26:41,600

were seen

745

00:26:45,909 --> 00:26:42,960

all through

746

00:26:47,590 --> 00:26:45,919

those nuclear test

747

00:26:49,669 --> 00:26:47,600

experiments that were being done by the

748

00:26:50,950 --> 00:26:49,679

british at maralinga

749

00:26:53,190 --> 00:26:50,960

and

750

00:26:54,710 --> 00:26:53,200

i uh i've been involved in doing stories

751
00:26:56,870 --> 00:26:54,720
since

752
00:26:58,470 --> 00:26:56,880
where the full extent frankly and this

753
00:27:00,149 --> 00:26:58,480
needs to be acknowledged that i mean the

754
00:27:01,830 --> 00:27:00,159
british government is still making it

755
00:27:04,230 --> 00:27:01,840
very difficult for service men who were

756
00:27:06,870 --> 00:27:04,240
exposed to the radiation

757
00:27:08,789 --> 00:27:06,880
uh to get compensation it's almost

758
00:27:10,310 --> 00:27:08,799
impossible for them to prove the levels

759
00:27:12,230 --> 00:27:10,320
of exposure and a

760
00:27:13,269 --> 00:27:12,240
shocking number of these men have died

761
00:27:14,310 --> 00:27:13,279
from

762
00:27:15,269 --> 00:27:14,320
terrible

763
00:27:18,389 --> 00:27:15,279

uh

764

00:27:22,310 --> 00:27:18,399

radiation cancer caused illnesses

765

00:27:25,430 --> 00:27:22,320

yeah and um but when i was working for

766

00:27:27,430 --> 00:27:25,440

another tv show many years ago um we

767

00:27:29,269 --> 00:27:27,440

were involved in going out to marilinga

768

00:27:30,870 --> 00:27:29,279

and we showed how

769

00:27:34,630 --> 00:27:30,880

there were still

770

00:27:36,710 --> 00:27:34,640

areas where the british had strewn

771

00:27:39,430 --> 00:27:36,720

plutonium for no good reason they'd

772

00:27:41,909 --> 00:27:39,440

literally just strewn plutonium

773

00:27:43,990 --> 00:27:41,919

over the outback and a lot of this was

774

00:27:45,430 --> 00:27:44,000

still there in fact we were warned not

775

00:27:48,630 --> 00:27:45,440

to stay there for too long because it

776

00:27:51,190 --> 00:27:48,640

was still hot yeah and uh you know this

777

00:27:52,950 --> 00:27:51,200

vast swathe of australian desert is

778

00:27:54,870 --> 00:27:52,960

still dangerous

779

00:27:56,549 --> 00:27:54,880

to the people and the traditional

780

00:27:58,549 --> 00:27:56,559

residents of that land the aboriginal

781

00:28:00,630 --> 00:27:58,559

people who lived there

782

00:28:01,750 --> 00:28:00,640

and uh it's a huge scandal really i mean

783

00:28:09,830 --> 00:28:01,760

i

784

00:28:12,789 --> 00:28:09,840

matter

785

00:28:14,710 --> 00:28:12,799

but the the full extent to which this is

786

00:28:16,310 --> 00:28:14,720

all being sat on is never really

787

00:28:18,710 --> 00:28:16,320

properly going to be revealed in that

788

00:28:21,430 --> 00:28:18,720

inimitable british way

789

00:28:23,110 --> 00:28:21,440

absolutely so while you were there um

790

00:28:25,110 --> 00:28:23,120

on the site did you get to speak to any

791

00:28:26,870 --> 00:28:25,120

locals at the time and did you hear

792

00:28:28,549 --> 00:28:26,880

anything about more recent sightings in

793

00:28:30,630 --> 00:28:28,559

that area

794

00:28:31,669 --> 00:28:30,640

they've been sightings constantly i mean

795

00:28:33,830 --> 00:28:31,679

i'd uh

796

00:28:35,269 --> 00:28:33,840

less so in the maralinger area because

797

00:28:37,750 --> 00:28:35,279

there's not really been a lot of

798

00:28:39,750 --> 00:28:37,760

activity there until um

799

00:28:41,990 --> 00:28:39,760

i think i suspect the americans were

800

00:28:45,269 --> 00:28:42,000

testing hypersonic missile technology in

801
00:28:47,430 --> 00:28:45,279
warbura fairly recently but

802
00:28:49,190 --> 00:28:47,440
uh i spoke to the the aboriginal people

803
00:28:50,549 --> 00:28:49,200
the traditional custodians of the land

804
00:28:52,789 --> 00:28:50,559
there and uh

805
00:28:55,830 --> 00:28:52,799
they're still mightily upset that they

806
00:28:57,990 --> 00:28:55,840
lost vast swathes of their country

807
00:28:59,830 --> 00:28:58,000
to a decision made by robert menzies the

808
00:29:02,870 --> 00:28:59,840
australian prime minister

809
00:29:04,630 --> 00:29:02,880
uh to sort of cravenly allow the

810
00:29:08,710 --> 00:29:04,640
the brits to come in and essentially

811
00:29:10,389 --> 00:29:08,720
despoil this massive part of australia

812
00:29:11,909 --> 00:29:10,399
but no the the bulk of the more

813
00:29:13,909 --> 00:29:11,919

interesting sightings that have occurred

814

00:29:16,630 --> 00:29:13,919

have been over more

815

00:29:19,190 --> 00:29:16,640

new military bases like

816

00:29:20,549 --> 00:29:19,200

pine gap which is much further to the

817

00:29:22,230 --> 00:29:20,559

north east

818

00:29:24,310 --> 00:29:22,240

and

819

00:29:27,830 --> 00:29:24,320

north west cape

820

00:29:29,350 --> 00:29:27,840

and there's been sightings as well over

821

00:29:31,350 --> 00:29:29,360

a lot of the more conventional

822

00:29:33,990 --> 00:29:31,360

australian air force bases like william

823

00:29:34,950 --> 00:29:34,000

town newcastle north sydney

824

00:29:37,750 --> 00:29:34,960

um

825

00:29:39,110 --> 00:29:37,760

and places way up the queensland coast

826

00:29:41,350 --> 00:29:39,120

i mean there's been i mean there's a

827

00:29:44,470 --> 00:29:41,360

long history here in australia of

828

00:29:46,950 --> 00:29:44,480

anomalous objects being cited but um

829

00:29:49,590 --> 00:29:46,960

one of the things that fascinates me is

830

00:29:53,190 --> 00:29:49,600

since i did the last story in december

831

00:29:55,430 --> 00:29:53,200

with peter wish wilson the senator

832

00:29:58,149 --> 00:29:55,440

all of a sudden the the floodgates have

833

00:30:00,149 --> 00:29:58,159

started opening and um barely a day goes

834

00:30:03,110 --> 00:30:00,159

by now where i don't get

835

00:30:05,110 --> 00:30:03,120

quite a few emails from people in the um

836

00:30:07,029 --> 00:30:05,120

australian military or former australian

837

00:30:08,470 --> 00:30:07,039

military telling me their story of the

838

00:30:09,830 --> 00:30:08,480

sighting that they had while they were

839

00:30:12,389 --> 00:30:09,840

in the service

840

00:30:13,830 --> 00:30:12,399

and uh it's weird because

841

00:30:16,310 --> 00:30:13,840

it's not like i mean i can tell you i

842

00:30:18,070 --> 00:30:16,320

mean i've spoken to senior people in the

843

00:30:19,029 --> 00:30:18,080

air force who've told me that they would

844

00:30:23,029 --> 00:30:19,039

welcome

845

00:30:24,230 --> 00:30:23,039

people reporting these incursions

846

00:30:25,830 --> 00:30:24,240

but

847

00:30:28,870 --> 00:30:25,840

there's kind of like this fear of

848

00:30:31,190 --> 00:30:28,880

ridicule it's such a powerful taboo

849

00:30:32,789 --> 00:30:31,200

and in fact there was one guy i'm still

850

00:30:35,510 --> 00:30:32,799

trying to get back to him he contacted

851

00:30:38,630 --> 00:30:35,520

me about uh a citing

852

00:30:40,149 --> 00:30:38,640

that took place over william town

853

00:30:43,190 --> 00:30:40,159

air force base

854

00:30:45,110 --> 00:30:43,200

in the 1980s uh 1990s

855

00:30:46,870 --> 00:30:45,120

and um

856

00:30:49,029 --> 00:30:46,880

it's weird it's kind of like i'm talking

857

00:30:51,269 --> 00:30:49,039

to him about the biggest national secret

858

00:30:52,870 --> 00:30:51,279

ever and he's terrified about speaking

859

00:30:54,710 --> 00:30:52,880

about it because the official government

860

00:30:57,269 --> 00:30:54,720

position is that the radars were all

861

00:30:59,350 --> 00:30:57,279

faulty the only trouble there were about

862

00:31:01,909 --> 00:30:59,360

six different radar systems that picked

863

00:31:03,909 --> 00:31:01,919

these objects up and uh i've also now

864

00:31:06,310 --> 00:31:03,919

spoken to pilots who saw the similar

865

00:31:08,950 --> 00:31:06,320

thing but there really is this residual

866

00:31:10,389 --> 00:31:08,960

taboo this stigma and as hard as i find

867

00:31:12,470 --> 00:31:10,399

it to accept

868

00:31:13,669 --> 00:31:12,480

one of the things in australia that is

869

00:31:15,909 --> 00:31:13,679

stooped

870

00:31:18,789 --> 00:31:15,919

acculturated into the officer class in

871

00:31:21,110 --> 00:31:18,799

the australian military is a deep and

872

00:31:23,830 --> 00:31:21,120

abiding hatred and distrust of news

873

00:31:26,149 --> 00:31:23,840

media and it works really it works it

874

00:31:28,230 --> 00:31:26,159

works really well and uh

875

00:31:32,149 --> 00:31:28,240

you know the officer class are just

876

00:31:34,149 --> 00:31:32,159

stooped in distrust of media in fact

877

00:31:35,990 --> 00:31:34,159

i'll tell you a story

878

00:31:37,909 --> 00:31:36,000

when um when the australians in their

879

00:31:40,389 --> 00:31:37,919

great wisdom decided to protect the

880

00:31:41,990 --> 00:31:40,399

people of east timor from

881

00:31:44,310 --> 00:31:42,000

indonesia's

882

00:31:45,750 --> 00:31:44,320

appalling human rights abuses by special

883

00:31:47,830 --> 00:31:45,760

forces troops

884

00:31:50,149 --> 00:31:47,840

when indonesia occupied

885

00:31:52,470 --> 00:31:50,159

and controlled east timor and john

886

00:31:55,350 --> 00:31:52,480

howard our prime minister somewhat

887

00:31:57,909 --> 00:31:55,360

bravely uh decided to honor the

888

00:32:00,870 --> 00:31:57,919

elections and a right and fair election

889

00:32:02,310 --> 00:32:00,880

and essentially guaranteed

890

00:32:04,230 --> 00:32:02,320

the opportunity for his team or to

891

00:32:07,029 --> 00:32:04,240

become independent

892

00:32:08,950 --> 00:32:07,039

i remember we all went in uh with the

893

00:32:11,750 --> 00:32:08,960

australian military

894

00:32:13,029 --> 00:32:11,760

following them in from the dilly airport

895

00:32:15,269 --> 00:32:13,039

and the australian military didn't want

896

00:32:17,269 --> 00:32:15,279

to have a bar of us bloody media being

897

00:32:18,950 --> 00:32:17,279

there you know we were just in nuisance

898

00:32:20,870 --> 00:32:18,960

but the great thing was that i will i

899

00:32:22,870 --> 00:32:20,880

will be forever i will be forever

900

00:32:25,110 --> 00:32:22,880

grateful because the british royal

901
00:32:26,389 --> 00:32:25,120
marines came along and gee they were

902
00:32:28,389 --> 00:32:26,399
good blacks

903
00:32:30,950 --> 00:32:28,399
and uh the royal marines came in and

904
00:32:33,990 --> 00:32:30,960
they were just the most top fellas and

905
00:32:36,310 --> 00:32:34,000
they had gurkhas with them and um

906
00:32:38,310 --> 00:32:36,320
and uh what was happening was we had

907
00:32:39,830 --> 00:32:38,320
like hundreds of thousands of dollars of

908
00:32:41,350 --> 00:32:39,840
camera equipment we were literally

909
00:32:43,110 --> 00:32:41,360
camping on the ground i remember we

910
00:32:45,750 --> 00:32:43,120
occupied a convent

911
00:32:48,070 --> 00:32:45,760
and we had all our gear in this convent

912
00:32:49,669 --> 00:32:48,080
and the uh the locals were so desperate

913
00:32:52,149 --> 00:32:49,679

they were coming and trying to steal our

914

00:32:53,830 --> 00:32:52,159

gear and so was the um

915

00:32:55,269 --> 00:32:53,840

remaining sections of the indonesian

916

00:32:57,509 --> 00:32:55,279

military who were still there they were

917

00:32:58,789 --> 00:32:57,519

just trying to cause interference for us

918

00:33:00,549 --> 00:32:58,799

and we went and asked the australian

919

00:33:02,230 --> 00:33:00,559

military for help and they went yeah no

920

00:33:03,750 --> 00:33:02,240

you guys are on your own you know bugger

921

00:33:05,750 --> 00:33:03,760

off leaves alone

922

00:33:07,990 --> 00:33:05,760

and i remember i i still remember with

923

00:33:10,549 --> 00:33:08,000

some sadness marie colvin she was

924

00:33:11,669 --> 00:33:10,559

subsequently murdered by the syrians in

925

00:33:13,750 --> 00:33:11,679

um

926
00:33:15,509 --> 00:33:13,760
in syria they targeted her mobile phone

927
00:33:17,110 --> 00:33:15,519
and dropped a bomb on her

928
00:33:18,950 --> 00:33:17,120
but she was a brave woman she was the

929
00:33:21,190 --> 00:33:18,960
woman who had the eye patch right for

930
00:33:22,470 --> 00:33:21,200
the london london sunday times god she

931
00:33:24,630 --> 00:33:22,480
was ballsy

932
00:33:26,789 --> 00:33:24,640
and she went up to the commander of the

933
00:33:28,149 --> 00:33:26,799
royal marines detachment and said uh you

934
00:33:31,190 --> 00:33:28,159
know is there any chance of us getting

935
00:33:33,350 --> 00:33:31,200
some security and the royal marines boss

936
00:33:35,190 --> 00:33:33,360
ever mindful i think for the opportunity

937
00:33:36,230 --> 00:33:35,200
for a bit of publicity went oh yes of

938
00:33:40,310 --> 00:33:36,240

course

939

00:33:41,990 --> 00:33:40,320

these two gurkhas with these massive

940

00:33:43,590 --> 00:33:42,000

machine guns standing at either side

941

00:33:45,430 --> 00:33:43,600

either end of our convent keeping all

942

00:33:47,029 --> 00:33:45,440

the bad guys away and the australians

943

00:33:48,789 --> 00:33:47,039

realized they'd missed

944

00:33:50,870 --> 00:33:48,799

a prime opportunity to generate some

945

00:33:52,549 --> 00:33:50,880

good will with the british media and

946

00:33:54,630 --> 00:33:52,559

from that point on i don't think the

947

00:33:56,149 --> 00:33:54,640

royal marines ever got such good press

948

00:33:58,070 --> 00:33:56,159

in their lives

949

00:33:59,430 --> 00:33:58,080

no yeah you're right i think

950

00:34:01,350 --> 00:33:59,440

absolutely

951
00:34:03,430 --> 00:34:01,360
that's great great i'm just going to

952
00:34:04,710 --> 00:34:03,440
take this moment just to remind everyone

953
00:34:06,149 --> 00:34:04,720
i did pin it

954
00:34:07,830 --> 00:34:06,159
a message at the top to say all

955
00:34:09,589 --> 00:34:07,840
questions will leave

956
00:34:11,430 --> 00:34:09,599
you guys questions till the end of the

957
00:34:12,470 --> 00:34:11,440
interview so i will get to them don't

958
00:34:14,149 --> 00:34:12,480
worry

959
00:34:15,669 --> 00:34:14,159
ross one thing i really wanted to make

960
00:34:16,950 --> 00:34:15,679
sure that i spoke to you about well two

961
00:34:18,389 --> 00:34:16,960
things but

962
00:34:20,389 --> 00:34:18,399
one of them is the department of energy

963
00:34:22,230 --> 00:34:20,399

and the other one is noah so i'll start

964

00:34:23,669 --> 00:34:22,240

with the department of energy

965

00:34:25,510 --> 00:34:23,679

because you said in a recent interview

966

00:34:27,190 --> 00:34:25,520

that you've actually spoken with people

967

00:34:30,389 --> 00:34:27,200

at the doe

968

00:34:32,550 --> 00:34:30,399

who have talked about the retrieval of

969

00:34:34,310 --> 00:34:32,560

non-human materials which of course

970

00:34:36,230 --> 00:34:34,320

whenever we hear that kind of thing

971

00:34:38,149 --> 00:34:36,240

people get quite excited about it

972

00:34:39,750 --> 00:34:38,159

especially i think yeah and i think a

973

00:34:42,389 --> 00:34:39,760

lot of it got lost somewhere in those

974

00:34:44,389 --> 00:34:42,399

gray areas of the aerospace community

975

00:34:46,869 --> 00:34:44,399

but i'm just wondering if you have any

976
00:34:51,349 --> 00:34:46,879
inclination or any words about

977
00:34:53,510 --> 00:34:51,359
when where and whether multiple of these

978
00:34:56,310 --> 00:34:53,520
potential uh retrievals

979
00:34:58,710 --> 00:34:56,320
okay well i i'm told and i'm only ever

980
00:35:00,630 --> 00:34:58,720
as good as my sources okay

981
00:35:03,109 --> 00:35:00,640
for obvious reasons i can't identify my

982
00:35:06,150 --> 00:35:03,119
sources of course but but i'm told that

983
00:35:07,990 --> 00:35:06,160
there were multiple

984
00:35:12,950 --> 00:35:08,000
objects

985
00:35:17,589 --> 00:35:12,960
um

986
00:35:19,349 --> 00:35:17,599
uh i'm told that it began in the 1940s

987
00:35:20,470 --> 00:35:19,359
and i asked specifically about the

988
00:35:22,069 --> 00:35:20,480

roswell

989

00:35:27,430 --> 00:35:22,079

and

990

00:35:31,030 --> 00:35:28,950

other than that there's not a lot more i

991

00:35:32,390 --> 00:35:31,040

can say because um

992

00:35:35,109 --> 00:35:32,400

i'm being

993

00:35:36,790 --> 00:35:35,119

very very careful here what i what i i

994

00:35:39,349 --> 00:35:36,800

mean it's funny because i i know it's

995

00:35:41,829 --> 00:35:39,359

been an apocryphal or you know it's been

996

00:35:44,310 --> 00:35:41,839

a mythical uh story for some time that

997

00:35:46,390 --> 00:35:44,320

the doe is a place to look yeah i've

998

00:35:49,589 --> 00:35:46,400

been told i've been told that's where

999

00:35:51,349 --> 00:35:49,599

you should look and i'm told that's why

1000

00:35:55,270 --> 00:35:51,359

a lot of the

1001
00:35:57,670 --> 00:35:55,280
attempts to elicit information on foia

1002
00:35:59,430 --> 00:35:57,680
inside the u.s military aren't going to

1003
00:36:00,470 --> 00:35:59,440
be that much successful because it's all

1004
00:36:02,230 --> 00:36:00,480
been

1005
00:36:04,950 --> 00:36:02,240
very well kept

1006
00:36:05,990 --> 00:36:04,960
inside compartmentalized

1007
00:36:08,470 --> 00:36:06,000
files

1008
00:36:10,150 --> 00:36:08,480
under acute clearance inside the doe so

1009
00:36:11,190 --> 00:36:10,160
completely different classification

1010
00:36:13,510 --> 00:36:11,200
system

1011
00:36:15,510 --> 00:36:13,520
um completely different facilities and i

1012
00:36:18,150 --> 00:36:15,520
guess if you think about it if it's if

1013
00:36:21,510 --> 00:36:18,160

it's true as we've all read

1014

00:36:22,870 --> 00:36:21,520

that people from the uh

1015

00:36:24,710 --> 00:36:22,880

former

1016

00:36:26,950 --> 00:36:24,720

nazi government who were working at los

1017

00:36:29,829 --> 00:36:26,960

almos were brought in to look at

1018

00:36:35,750 --> 00:36:33,750

after certain incidents in the 1940s

1019

00:36:38,069 --> 00:36:35,760

it makes sense that it would be the doe

1020

00:36:38,950 --> 00:36:38,079

that would take charge and as well as

1021

00:36:40,790 --> 00:36:38,960

that

1022

00:36:42,710 --> 00:36:40,800

you know frankly if i was the u.s i'd do

1023

00:36:45,109 --> 00:36:42,720

the same thing i'd make sure that this

1024

00:36:48,069 --> 00:36:45,119

is as compartmentalized as possible i

1025

00:36:50,630 --> 00:36:48,079

i've i think we all have to

1026
00:36:52,470 --> 00:36:50,640
we all have to exercise a fair degree of

1027
00:36:54,390 --> 00:36:52,480
um

1028
00:36:56,310 --> 00:36:54,400
restraint here to some degree because

1029
00:36:58,150 --> 00:36:56,320
the more i get into this the more i'm

1030
00:36:59,030 --> 00:36:58,160
starting to understand

1031
00:37:00,390 --> 00:36:59,040
if

1032
00:37:01,670 --> 00:37:00,400
this is true

1033
00:37:04,790 --> 00:37:01,680
yeah and you're only ever as good as

1034
00:37:06,310 --> 00:37:04,800
your sources but if this is true

1035
00:37:10,230 --> 00:37:06,320
i can understand

1036
00:37:12,870 --> 00:37:10,240
why they are desperate to keep it secret

1037
00:37:14,790 --> 00:37:12,880
i would you know i hate to i hate to say

1038
00:37:17,430 --> 00:37:14,800

this you know i'd i'd i'd love to say

1039

00:37:19,510 --> 00:37:17,440

that a british prime minister or an an

1040

00:37:21,109 --> 00:37:19,520

australian or american

1041

00:37:23,349 --> 00:37:21,119

leader would basically come out and say

1042

00:37:25,829 --> 00:37:23,359

yes we want you all to know this

1043

00:37:27,030 --> 00:37:25,839

but there is a lot of good reason

1044

00:37:29,510 --> 00:37:27,040

for why

1045

00:37:31,030 --> 00:37:29,520

the technology that this represents if

1046

00:37:33,349 --> 00:37:31,040

it exists

1047

00:37:35,270 --> 00:37:33,359

might be better kept in the black and

1048

00:37:37,670 --> 00:37:35,280

being worked on in the black and i can

1049

00:37:40,150 --> 00:37:37,680

understand that and rationalize that

1050

00:37:41,829 --> 00:37:40,160

what i don't understand is why congress

1051
00:37:44,470 --> 00:37:41,839
has been lied to

1052
00:37:46,470 --> 00:37:44,480
and why presidents have been lied to and

1053
00:37:47,430 --> 00:37:46,480
why oversight committees have been lied

1054
00:37:52,310 --> 00:37:47,440
to

1055
00:37:54,069 --> 00:37:52,320
yeah there's been very little oversight

1056
00:37:56,310 --> 00:37:54,079
when it comes to the doe in comparison

1057
00:37:58,150 --> 00:37:56,320
to the dod the oversight has been

1058
00:38:00,150 --> 00:37:58,160
completely different they've not had to

1059
00:38:01,750 --> 00:38:00,160
answer as as much

1060
00:38:03,829 --> 00:38:01,760
to the oversight committees from what

1061
00:38:05,990 --> 00:38:03,839
i've been told in the past but i think

1062
00:38:07,750 --> 00:38:06,000
that there is word of that changing that

1063
00:38:09,510 --> 00:38:07,760

they're going to have to give up the

1064

00:38:11,670 --> 00:38:09,520

goods a bit more doesn't mean we're

1065

00:38:13,430 --> 00:38:11,680

going to get anything uap related but

1066

00:38:16,870 --> 00:38:13,440

well that's that's why this legislation

1067

00:38:18,470 --> 00:38:16,880

is so important though because

1068

00:38:21,510 --> 00:38:18,480

it really depends

1069

00:38:23,030 --> 00:38:21,520

on the whims of congress and i think we

1070

00:38:26,069 --> 00:38:23,040

we all need to be looking to the

1071

00:38:28,069 --> 00:38:26,079

implications of the mid-terms because

1072

00:38:29,750 --> 00:38:28,079

frankly if there is a dramatic change in

1073

00:38:31,510 --> 00:38:29,760

the balance of power in the congress

1074

00:38:33,990 --> 00:38:31,520

that could radically affect just how

1075

00:38:36,150 --> 00:38:34,000

much information is made public

1076

00:38:38,950 --> 00:38:36,160

as to what the pentagon

1077

00:38:40,670 --> 00:38:38,960

has revealed to the congress you know i

1078

00:38:42,710 --> 00:38:40,680

suspect if we have a

1079

00:38:45,510 --> 00:38:42,720

republican-controlled house after the

1080

00:38:46,630 --> 00:38:45,520

midterms which i suspect we will

1081

00:38:49,270 --> 00:38:46,640

um

1082

00:38:51,990 --> 00:38:49,280

we may very well end up with

1083

00:38:53,589 --> 00:38:52,000

less information being made public but

1084

00:38:55,910 --> 00:38:53,599

you know these oversight committees are

1085

00:38:57,750 --> 00:38:55,920

a good start you know

1086

00:39:00,710 --> 00:38:57,760

i mean if they realize that they've been

1087

00:39:02,550 --> 00:39:00,720

lied to for 70 plus years then

1088

00:39:04,470 --> 00:39:02,560

they may want the american public to

1089

00:39:05,670 --> 00:39:04,480

know that and that would be a positive

1090

00:39:07,990 --> 00:39:05,680

beginning

1091

00:39:12,870 --> 00:39:08,000

a hundred percent oh my gosh yeah

1092

00:39:15,510 --> 00:39:12,880

completely um let's move on to noah now

1093

00:39:17,190 --> 00:39:15,520

i mean it's quite obvious why noah may

1094

00:39:19,030 --> 00:39:17,200

be a good place to look because of the

1095

00:39:21,270 --> 00:39:19,040

work they do with regards to the oceans

1096

00:39:24,390 --> 00:39:21,280

so have you spoken to people within noah

1097

00:39:27,030 --> 00:39:24,400

have they given you any hints leads or

1098

00:39:28,870 --> 00:39:27,040

information that you're able to decide i

1099

00:39:31,270 --> 00:39:28,880

can't say who i've spoken to or where

1100

00:39:33,030 --> 00:39:31,280

they are but i've been told that i've

1101

00:39:37,510 --> 00:39:33,040

been told the

1102

00:39:40,630 --> 00:39:37,520

noah is a very good place for data

1103

00:39:43,030 --> 00:39:40,640

and that if you were looking for a part

1104

00:39:44,630 --> 00:39:43,040

of the us government that would have the

1105

00:39:46,710 --> 00:39:44,640

best data

1106

00:39:48,150 --> 00:39:46,720

on the phenomenon

1107

00:39:50,470 --> 00:39:48,160

they're it

1108

00:39:52,950 --> 00:39:50,480

and if you think about it

1109

00:39:55,030 --> 00:39:52,960

you know there are

1110

00:39:57,750 --> 00:39:55,040

technologies that i'm aware of that i

1111

00:40:00,310 --> 00:39:57,760

have no desire as a journalist to breach

1112

00:40:02,310 --> 00:40:00,320

the security of them because they are

1113

00:40:05,030 --> 00:40:02,320

very very important for the strategic

1114

00:40:06,230 --> 00:40:05,040

nuclear deterrence of the u.s

1115

00:40:07,750 --> 00:40:06,240

and

1116

00:40:09,349 --> 00:40:07,760

i don't want to go into the detail about

1117

00:40:11,270 --> 00:40:09,359

them but they're a phenomenal

1118

00:40:13,829 --> 00:40:11,280

technologies that would allow the

1119

00:40:15,109 --> 00:40:13,839

detection of large metallic objects

1120

00:40:17,190 --> 00:40:15,119

underwater

1121

00:40:18,230 --> 00:40:17,200

um that have been in use for quite some

1122

00:40:21,910 --> 00:40:18,240

time

1123

00:40:24,390 --> 00:40:21,920

and they're not just acoustic and

1124

00:40:28,470 --> 00:40:24,400

i learned about them at first from

1125

00:40:32,790 --> 00:40:30,710

i've made inquiries more subsequently

1126
00:40:35,190 --> 00:40:32,800
about where that kind of data would be

1127
00:40:36,790 --> 00:40:35,200
stored and obviously a lot of that would

1128
00:40:39,589 --> 00:40:36,800
be in the defense department but i'm

1129
00:40:42,230 --> 00:40:39,599
told also that noa

1130
00:40:43,670 --> 00:40:42,240
is a really good place to look and i

1131
00:40:48,630 --> 00:40:43,680
thought it was really telling did you

1132
00:40:50,150 --> 00:40:48,640
notice that a former director of the um

1133
00:40:53,510 --> 00:40:50,160
the noa

1134
00:40:56,069 --> 00:40:53,520
a former vice admiral yeah rear admiral

1135
00:40:57,349 --> 00:40:56,079
um wrote co-wrote an article with avi

1136
00:40:59,750 --> 00:40:57,359
lobe

1137
00:41:01,510 --> 00:40:59,760
just recently from the hill

1138
00:41:02,950 --> 00:41:01,520

where they openly canvassed the

1139

00:41:05,589 --> 00:41:02,960

possibility that what we're talking

1140

00:41:08,150 --> 00:41:05,599

about here is extraterrestrial life

1141

00:41:10,470 --> 00:41:08,160

and i mean there's a lot of big golden

1142

00:41:12,550 --> 00:41:10,480

nuggets being dropped and

1143

00:41:15,190 --> 00:41:12,560

despite the debunkers along the way i

1144

00:41:17,750 --> 00:41:15,200

mean i'm really fascinated by the way

1145

00:41:18,870 --> 00:41:17,760

that there is this slow drip

1146

00:41:24,470 --> 00:41:18,880

of

1147

00:41:26,470 --> 00:41:24,480

cia directors former presidents

1148

00:41:28,390 --> 00:41:26,480

former principals of

1149

00:41:30,870 --> 00:41:28,400

relevant government departments now

1150

00:41:32,950 --> 00:41:30,880

dropping big clanger hints

1151

00:41:34,710 --> 00:41:32,960

talking quite openly hinting quite

1152

00:41:36,470 --> 00:41:34,720

openly about the possibility that what

1153

00:41:40,230 --> 00:41:36,480

we're talking about here is some kind of

1154

00:41:42,950 --> 00:41:40,240

non-human intelligent life

1155

00:41:44,630 --> 00:41:42,960

and uh you know before the

1156

00:41:46,150 --> 00:41:44,640

you know the debunkers and the skeptics

1157

00:41:47,990 --> 00:41:46,160

start jumping on my back basically

1158

00:41:50,069 --> 00:41:48,000

saying i'm openly talking about depos

1159

00:41:51,910 --> 00:41:50,079

you know about aliens i'm not i'm just

1160

00:41:53,430 --> 00:41:51,920

saying that they are

1161

00:41:55,349 --> 00:41:53,440

they're saying it you know they're the

1162

00:41:57,030 --> 00:41:55,359

ones talking about an intelligence that

1163

00:41:58,309 --> 00:41:57,040

may not be human

1164

00:42:00,230 --> 00:41:58,319

and and

1165

00:42:02,710 --> 00:42:00,240

you know we're in a completely new

1166

00:42:03,829 --> 00:42:02,720

paradigm here where it's time to grow up

1167

00:42:05,829 --> 00:42:03,839

and start

1168

00:42:07,190 --> 00:42:05,839

engaging and thinking about this subject

1169

00:42:09,829 --> 00:42:07,200

matter in a way that we haven't done

1170

00:42:12,309 --> 00:42:09,839

before i'm really excited i mean i'm

1171

00:42:14,630 --> 00:42:12,319

hoping that 2021

1172

00:42:16,790 --> 00:42:14,640

as well as sorry 2022 as well as putting

1173

00:42:19,109 --> 00:42:16,800

covert behind us i'm hoping that we

1174

00:42:20,230 --> 00:42:19,119

might actually get some breakthroughs in

1175

00:42:21,109 --> 00:42:20,240

terms of

1176

00:42:22,790 --> 00:42:21,119

um

1177

00:42:25,349 --> 00:42:22,800

an official willingness

1178

00:42:27,349 --> 00:42:25,359

to at least go further in admitting the

1179

00:42:29,430 --> 00:42:27,359

reality of the phenomenon i don't think

1180

00:42:31,750 --> 00:42:29,440

we're going to see a lot about

1181

00:42:33,430 --> 00:42:31,760

retrieved technology even though people

1182

00:42:35,589 --> 00:42:33,440

like louis lozando and others have

1183

00:42:37,430 --> 00:42:35,599

spoken quite openly about it

1184

00:42:40,150 --> 00:42:37,440

i think that'll take a while longer but

1185

00:42:41,510 --> 00:42:40,160

i think we are going to see an increased

1186

00:42:43,430 --> 00:42:41,520

candor

1187

00:42:45,270 --> 00:42:43,440

about the fact that there is a genuine

1188

00:42:48,630 --> 00:42:45,280

mystery there that requires

1189

00:42:50,870 --> 00:42:48,640

investigation and that in and of itself

1190

00:42:51,829 --> 00:42:50,880

is a massive breakthrough that's that's

1191

00:42:53,829 --> 00:42:51,839

huge

1192

00:42:57,030 --> 00:42:53,839

you know to have militaries now

1193

00:42:58,550 --> 00:42:57,040

acknowledging yeah this is real

1194

00:43:01,030 --> 00:42:58,560

you know we've gone we've gone we've

1195

00:43:03,349 --> 00:43:01,040

gone through 50 years of denial and

1196

00:43:06,470 --> 00:43:03,359

evasion on the subject matter when it's

1197

00:43:08,710 --> 00:43:06,480

been quite clear to a a large section of

1198

00:43:11,190 --> 00:43:08,720

the ufo twitter righty that that there

1199

00:43:13,510 --> 00:43:11,200

is something going on and that there are

1200

00:43:15,829 --> 00:43:13,520

uh you know ongoing investigations being

1201

00:43:17,829 --> 00:43:15,839

done by the us the french the british

1202

00:43:19,510 --> 00:43:17,839

australians and other governments but

1203

00:43:21,270 --> 00:43:19,520

they've all had their heads in the sand

1204

00:43:23,109 --> 00:43:21,280

and pretended that it's not an issue and

1205

00:43:25,030 --> 00:43:23,119

that it's not a national it's that weird

1206

00:43:27,109 --> 00:43:25,040

answer that we've kept on getting you

1207

00:43:29,030 --> 00:43:27,119

know when you say are you investigating

1208

00:43:30,470 --> 00:43:29,040

ufos and they go nothing that we're

1209

00:43:32,470 --> 00:43:30,480

investigating represents a threat to

1210

00:43:34,550 --> 00:43:32,480

national security or flight safety and

1211

00:43:35,589 --> 00:43:34,560

they can't say that anymore which is so

1212

00:43:37,510 --> 00:43:35,599

exciting

1213

00:43:40,069 --> 00:43:37,520

because the u.s congress has been

1214

00:43:41,670 --> 00:43:40,079

advised by the pentagon that yes this is

1215

00:43:43,270 --> 00:43:41,680

a threat to flight safety and it may

1216

00:43:44,390 --> 00:43:43,280

very well also be a threat to national

1217

00:43:46,230 --> 00:43:44,400

security

1218

00:43:48,630 --> 00:43:46,240

now i think personally the threat to

1219

00:43:50,870 --> 00:43:48,640

national security is just a bit of a a

1220

00:43:53,589 --> 00:43:50,880

line to to get all the congressmen on

1221

00:43:55,589 --> 00:43:53,599

board because i don't really think they

1222

00:43:56,630 --> 00:43:55,599

think there's a genuine threat there

1223

00:43:58,550 --> 00:43:56,640

because

1224

00:44:00,630 --> 00:43:58,560

if technologies like this that are

1225

00:44:02,230 --> 00:44:00,640

represented by these objects are real

1226

00:44:03,990 --> 00:44:02,240

and they appear to be

1227

00:44:07,270 --> 00:44:04,000

it means something's been operating with

1228

00:44:09,430 --> 00:44:07,280

impunity in our in our skies our oceans

1229

00:44:12,230 --> 00:44:09,440

and indeed in orbit for

1230

00:44:13,910 --> 00:44:12,240

well decades if not hundreds of years

1231

00:44:15,750 --> 00:44:13,920

and um

1232

00:44:17,190 --> 00:44:15,760

you know a technology like that is so

1233

00:44:20,390 --> 00:44:17,200

advanced

1234

00:44:22,550 --> 00:44:20,400

clearly intelligently controlled

1235

00:44:24,790 --> 00:44:22,560

it could have wiped us out years ago if

1236

00:44:26,309 --> 00:44:24,800

it had wanted to but it clearly hasn't

1237

00:44:28,069 --> 00:44:26,319

yeah absolutely

1238

00:44:29,190 --> 00:44:28,079

uh i'm going to jump on to some of the

1239

00:44:30,790 --> 00:44:29,200

the questions that were asked in the

1240

00:44:32,309 --> 00:44:30,800

chat here just i'm quite conscious of

1241

00:44:34,069 --> 00:44:32,319

time i've got a few more this side as

1242

00:44:36,790 --> 00:44:34,079

well on my list but we'll get to them

1243

00:44:39,430 --> 00:44:36,800

possibly um first question from electron

1244

00:44:42,630 --> 00:44:39,440

gap if ross could get a truthful answer

1245

00:44:44,150 --> 00:44:42,640

what would he ask and who to

1246

00:44:45,109 --> 00:44:44,160

so if you knew the answer was gonna be

1247

00:44:47,430 --> 00:44:45,119

true

1248

00:44:49,109 --> 00:44:47,440

you know you know my dream my dream is

1249

00:44:50,790 --> 00:44:49,119

to walk up to hillary clinton and i'm

1250

00:44:52,710 --> 00:44:50,800

going to do this i'm going to stalk her

1251

00:44:54,630 --> 00:44:52,720

the next time i go to the u.s

1252

00:44:56,950 --> 00:44:54,640

to walk up to hillary clinton and say

1253

00:44:59,430 --> 00:44:56,960

hilary what were you and john podesta up

1254

00:45:01,750 --> 00:44:59,440

to you know why was john podesta having

1255

00:45:03,430 --> 00:45:01,760

conversations revealed by the wikileaks

1256

00:45:07,750 --> 00:45:03,440

emails why were they having

1257

00:45:09,670 --> 00:45:07,760

conversations with robert weiss of um

1258

00:45:11,589 --> 00:45:09,680

lockheed martin i apologize to robert if

1259

00:45:12,710 --> 00:45:11,599

i spoke i said his name wrong

1260

00:45:15,270 --> 00:45:12,720

um

1261

00:45:17,510 --> 00:45:15,280

and two former immediate past former

1262

00:45:19,510 --> 00:45:17,520

very senior generals in the u.s air

1263

00:45:21,829 --> 00:45:19,520

force now what was going on why were

1264

00:45:23,750 --> 00:45:21,839

they talking about disclosure

1265

00:45:25,030 --> 00:45:23,760

because clearly the clintons were

1266

00:45:27,670 --> 00:45:25,040

planning something

1267

00:45:30,150 --> 00:45:27,680

john podesta a keen advocate for ufo

1268

00:45:33,430 --> 00:45:30,160

transparency so she's one of the ones i

1269

00:45:35,190 --> 00:45:33,440

would love to see cornet and asked the

1270

00:45:36,069 --> 00:45:35,200

hard question you know what was going on

1271

00:45:38,950 --> 00:45:36,079

here

1272

00:45:39,750 --> 00:45:38,960

i'd also like to see john podesta asked

1273

00:45:45,349 --> 00:45:39,760

you know

1274

00:45:47,190 --> 00:45:45,359

adviser to clinton i think you're a

1275

00:45:48,870 --> 00:45:47,200

chief of staff to barack obama and then

1276

00:45:50,150 --> 00:45:48,880

you ended up helping run hillary's

1277

00:45:52,390 --> 00:45:50,160

clampane

1278

00:45:54,470 --> 00:45:52,400

there was clearly a contemplation here

1279

00:45:57,109 --> 00:45:54,480

that there was going to be a level of

1280

00:45:59,910 --> 00:45:57,119

disclosure and it was all being worked

1281

00:46:03,030 --> 00:45:59,920

together with unbelievably tom delong of

1282

00:46:05,750 --> 00:46:03,040

ttsa to the stars academy what was going

1283

00:46:08,470 --> 00:46:05,760

on here you know and and clearly it all

1284

00:46:11,190 --> 00:46:08,480

died when donald trump won the election

1285

00:46:12,630 --> 00:46:11,200

uh that's crazy isn't it no i mean

1286

00:46:14,870 --> 00:46:12,640

to me it's just one of the great

1287

00:46:16,910 --> 00:46:14,880

cognitive dissonances that

1288

00:46:18,790 --> 00:46:16,920

you've got you've got this

1289

00:46:21,190 --> 00:46:18,800

incontrovertible evidence it's the sort

1290

00:46:23,030 --> 00:46:21,200

of thing i go to as a journal you know

1291

00:46:25,670 --> 00:46:23,040

when somebody leaks a document and the

1292

00:46:27,349 --> 00:46:25,680

doc documents provenance is not in doubt

1293

00:46:29,030 --> 00:46:27,359

you know these emails the provenance of

1294

00:46:30,710 --> 00:46:29,040

these emails even though

1295

00:46:35,109 --> 00:46:30,720

you know a lot of people say it wasn't

1296

00:46:37,109 --> 00:46:35,119

the russian gru that leaked them it was

1297

00:46:39,349 --> 00:46:37,119

appallingly damaging and untrue

1298

00:46:41,109 --> 00:46:39,359

conspiracy about seth rich

1299

00:46:43,670 --> 00:46:41,119

it doesn't matter where they came from

1300

00:46:46,069 --> 00:46:43,680

they're real they their providence is

1301
00:46:48,230 --> 00:46:46,079
real there's a chain of custody for them

1302
00:46:50,710 --> 00:46:48,240
and they show incontrovertibly that the

1303
00:46:53,430 --> 00:46:50,720
presidential candidate hillary clinton

1304
00:46:55,270 --> 00:46:53,440
was contemplating disclosure of some

1305
00:46:57,670 --> 00:46:55,280
kind with the help of people like

1306
00:47:00,230 --> 00:46:57,680
general neil mccasland general michael

1307
00:47:02,710 --> 00:47:00,240
carey lockheed martin's robert weiss

1308
00:47:04,470 --> 00:47:02,720
what the hell was going on

1309
00:47:05,589 --> 00:47:04,480
so that's that's one of my first ones

1310
00:47:07,270 --> 00:47:05,599
i'd ask

1311
00:47:10,470 --> 00:47:07,280
the the next one would be trump because

1312
00:47:12,470 --> 00:47:10,480
he can't keep his mouth shut i i

1313
00:47:15,109 --> 00:47:12,480

i'd go down to florida and i'd just wait

1314

00:47:17,270 --> 00:47:15,119

outside um what's this house called dan

1315

00:47:19,190 --> 00:47:17,280

and panda down in mar-a-lago

1316

00:47:21,270 --> 00:47:19,200

yeah yeah mar-a-lago and i just

1317

00:47:22,309 --> 00:47:21,280

basically stalk him until he agreed to

1318

00:47:23,990 --> 00:47:22,319

tell me

1319

00:47:25,829 --> 00:47:24,000

what it was that he was hinting about

1320

00:47:27,589 --> 00:47:25,839

with his son donald trump in that

1321

00:47:30,710 --> 00:47:27,599

interview he did a few months before the

1322

00:47:33,030 --> 00:47:30,720

election yeah where he he basically said

1323

00:47:35,030 --> 00:47:33,040

roswell that's very interesting you know

1324

00:47:37,750 --> 00:47:35,040

that really stupid question that donald

1325

00:47:39,190 --> 00:47:37,760

trump jr asked his dad now dad you know

1326

00:47:41,349 --> 00:47:39,200

dad there you know there's all these

1327

00:47:43,510 --> 00:47:41,359

talk about ufos and roswell you know

1328

00:47:45,030 --> 00:47:43,520

what can you tell us about that

1329

00:47:46,950 --> 00:47:45,040

and then trump said something like well

1330

00:47:48,630 --> 00:47:46,960

that's very interesting and it was clear

1331

00:47:50,390 --> 00:47:48,640

he knew the question was coming and

1332

00:47:51,510 --> 00:47:50,400

donald told him that he was going to ask

1333

00:47:53,750 --> 00:47:51,520

the question

1334

00:47:55,190 --> 00:47:53,760

but trump hinted very strongly that he

1335

00:47:57,990 --> 00:47:55,200

knew a lot more

1336

00:47:59,910 --> 00:47:58,000

so what has been said to these

1337

00:48:02,470 --> 00:47:59,920

presidential

1338

00:48:04,549 --> 00:48:02,480

candidates and indeed a former president

1339

00:48:07,430 --> 00:48:04,559

that makes them aware that there's an

1340

00:48:10,630 --> 00:48:07,440

issue there and even obama you know

1341

00:48:12,790 --> 00:48:10,640

obama hinted very strongly very recently

1342

00:48:15,589 --> 00:48:12,800

that that yes we do need to take this

1343

00:48:17,829 --> 00:48:15,599

phenomenon very seriously that there are

1344

00:48:19,670 --> 00:48:17,839

these anomalous objects operating in us

1345

00:48:22,630 --> 00:48:19,680

operating in our skies displaying

1346

00:48:23,589 --> 00:48:22,640

technologies far beyond ours

1347

00:48:25,750 --> 00:48:23,599

which is

1348

00:48:28,150 --> 00:48:25,760

just mind-boggling that the rest of the

1349

00:48:29,829 --> 00:48:28,160

mainstream media doesn't immediately

1350

00:48:31,270 --> 00:48:29,839

jump on that i mean i was

1351

00:48:32,630 --> 00:48:31,280

forgive me i'll just have a minor little

1352

00:48:34,870 --> 00:48:32,640

ranted here for a moment because i was

1353

00:48:36,870 --> 00:48:34,880

reading something this morning where

1354

00:48:38,470 --> 00:48:36,880

i read that the only reason

1355

00:48:42,309 --> 00:48:38,480

or it was claimed that the only reason

1356

00:48:45,589 --> 00:48:42,319

the new york times did the 2017 story

1357

00:48:48,390 --> 00:48:45,599

wasn't because of its revelations about

1358

00:48:49,829 --> 00:48:48,400

uaps or a secret ufo program

1359

00:48:51,430 --> 00:48:49,839

it's because

1360

00:48:53,670 --> 00:48:51,440

they were able to get on the record

1361

00:48:56,150 --> 00:48:53,680

confirmation that congress had allocated

1362

00:48:57,349 --> 00:48:56,160

22 million dollars to investigate the

1363

00:48:59,190 --> 00:48:57,359

phenomenon

1364

00:49:00,790 --> 00:48:59,200

and that was the only basis upon which

1365

00:49:03,910 --> 00:49:00,800

they thought it was worthwhile doing it

1366

00:49:07,030 --> 00:49:03,920

as a story so there's still i think a

1367

00:49:09,349 --> 00:49:07,040

high degree of close-mindedness in the

1368

00:49:11,030 --> 00:49:09,359

u.s mainstream media and

1369

00:49:13,109 --> 00:49:11,040

i think we're all holding our breath

1370

00:49:15,270 --> 00:49:13,119

waiting to see whether bill whittaker on

1371

00:49:17,829 --> 00:49:15,280

cbs 60 minutes will have another go on

1372

00:49:19,510 --> 00:49:17,839

the us 60 minutes program

1373

00:49:21,109 --> 00:49:19,520

i think we're all waiting to see whether

1374

00:49:22,950 --> 00:49:21,119

the mainstream media is going to get

1375

00:49:24,790 --> 00:49:22,960

back in the saddle and keep on asking

1376

00:49:27,270 --> 00:49:24,800

hard questions but

1377

00:49:29,349 --> 00:49:27,280

there's really no excuse anymore because

1378

00:49:31,589 --> 00:49:29,359

uh that's my beef you know that that

1379

00:49:32,630 --> 00:49:31,599

yeah if journalists in the us were doing

1380

00:49:34,630 --> 00:49:32,640

their job

1381

00:49:36,470 --> 00:49:34,640

they would understand that the the

1382

00:49:37,349 --> 00:49:36,480

acknowledgments that the pentagon has

1383

00:49:39,349 --> 00:49:37,359

made

1384

00:49:41,829 --> 00:49:39,359

mean that it's now no longer possible

1385

00:49:44,230 --> 00:49:41,839

just to dismissively assert that this is

1386

00:49:46,630 --> 00:49:44,240

there's nothing to it and that uh

1387

00:49:49,190 --> 00:49:46,640

you know this uh this ufo stuff's just

1388

00:49:51,190 --> 00:49:49,200

ridicule and taboo and just ignore it

1389

00:49:54,230 --> 00:49:51,200

yeah absolutely great answers there

1390

00:49:56,150 --> 00:49:54,240

loved it um orangefreak asks hi vinnie

1391

00:49:58,630 --> 00:49:56,160

could you ask ross if he is aware of any

1392

00:50:00,710 --> 00:49:58,640

recent uap incidents or reports from

1393

00:50:03,109 --> 00:50:00,720

australia's neighbor in the region south

1394

00:50:06,950 --> 00:50:03,119

east asia

1395

00:50:11,349 --> 00:50:09,349

you able to extrapolate a little bit

1396

00:50:13,510 --> 00:50:11,359

no no

1397

00:50:16,390 --> 00:50:13,520

fair enough fair enough i i suspect i

1398

00:50:17,829 --> 00:50:16,400

know who they are and uh yeah

1399

00:50:21,430 --> 00:50:17,839

i'm coming

1400

00:50:23,109 --> 00:50:21,440

oh okay cool i like it um nick gold asks

1401
00:50:24,870 --> 00:50:23,119
the recent u.s national defense

1402
00:50:26,870 --> 00:50:24,880
authorization act language included

1403
00:50:29,510 --> 00:50:26,880
provisions to capture

1404
00:50:31,990 --> 00:50:29,520
exploit uap any thoughts on whether this

1405
00:50:34,549 --> 00:50:32,000
might have been included to legalize

1406
00:50:36,069 --> 00:50:34,559
existing programs

1407
00:50:38,870 --> 00:50:36,079
oh look i don't

1408
00:50:40,870 --> 00:50:38,880
i mean it's interesting because um yeah

1409
00:50:43,109 --> 00:50:40,880
i mean the fact that the legislation

1410
00:50:44,870 --> 00:50:43,119
actually talks about essentially getting

1411
00:50:46,069 --> 00:50:44,880
hold of this technology trying to

1412
00:50:48,790 --> 00:50:46,079
capture it

1413
00:50:51,510 --> 00:50:48,800

i i was told by sources

1414

00:50:52,390 --> 00:50:51,520

when i was in the states in june last

1415

00:50:54,470 --> 00:50:52,400

year

1416

00:50:55,589 --> 00:50:54,480

that there was an active effort being

1417

00:50:57,430 --> 00:50:55,599

made

1418

00:50:59,670 --> 00:50:57,440

to

1419

00:51:01,910 --> 00:50:59,680

track

1420

00:51:05,750 --> 00:51:01,920

locate and

1421

00:51:09,030 --> 00:51:05,760

attract and then capture bring down

1422

00:51:13,990 --> 00:51:10,950

and the person who told me about it

1423

00:51:15,030 --> 00:51:14,000

expressed a lot of concern about that

1424

00:51:17,190 --> 00:51:15,040

because

1425

00:51:19,109 --> 00:51:17,200

they cited the condyne report and i

1426

00:51:20,630 --> 00:51:19,119

wasn't aware of what the condyne report

1427

00:51:23,349 --> 00:51:20,640

said about this but basically the

1428

00:51:26,230 --> 00:51:23,359

soviets admitted that they'd lost craft

1429

00:51:27,430 --> 00:51:26,240

uh attempting to engage in an offensive

1430

00:51:29,190 --> 00:51:27,440

way with

1431

00:51:30,390 --> 00:51:29,200

these anomalous objects

1432

00:51:32,710 --> 00:51:30,400

so yeah i mean i hope they know what

1433

00:51:34,950 --> 00:51:32,720

they're doing uh i mean tracking has

1434

00:51:37,270 --> 00:51:34,960

been around for decades it's been around

1435

00:51:38,309 --> 00:51:37,280

since the 1950s they've known that there

1436

00:51:40,630 --> 00:51:38,319

are

1437

00:51:43,030 --> 00:51:40,640

particular electromagnetic magnetic

1438

00:51:44,549 --> 00:51:43,040

signatures that that these objects can

1439

00:51:47,190 --> 00:51:44,559

be detected by

1440

00:51:49,030 --> 00:51:47,200

and one of my sources in my book who i

1441

00:51:51,109 --> 00:51:49,040

name bob fish

1442

00:51:54,150 --> 00:51:51,119

admitted to me that as far away as 30

1443

00:51:55,270 --> 00:51:54,160

years ago he um

1444

00:51:57,829 --> 00:51:55,280

he was

1445

00:52:00,069 --> 00:51:57,839

told about efforts to

1446

00:52:01,510 --> 00:52:00,079

track and locate objects that were seen

1447

00:52:03,030 --> 00:52:01,520

going in and

1448

00:52:05,829 --> 00:52:03,040

out of the water

1449

00:52:08,390 --> 00:52:05,839

south of florida in the caribbean

1450

00:52:11,030 --> 00:52:08,400

so i'm told that's been going on for

1451
00:52:13,750 --> 00:52:11,040
some time and it's still happening

1452
00:52:15,589 --> 00:52:13,760
yeah absolutely um walkerdale thank you

1453
00:52:16,710 --> 00:52:15,599
for the five dollar donation with your

1454
00:52:18,470 --> 00:52:16,720
question here

1455
00:52:20,710 --> 00:52:18,480
um i'm wondering what what ross thinks

1456
00:52:23,829 --> 00:52:20,720
of lou's comments on our dna possibly

1457
00:52:25,910 --> 00:52:23,839
being manipulated 70 000 years ago are

1458
00:52:27,430 --> 00:52:25,920
we a science project by some creator

1459
00:52:28,790 --> 00:52:27,440
species

1460
00:52:31,430 --> 00:52:28,800
look

1461
00:52:34,710 --> 00:52:31,440
i'm as fascinated by that as clearly

1462
00:52:36,870 --> 00:52:34,720
lures and a lot of people are um

1463
00:52:38,549 --> 00:52:36,880

1464

00:52:40,710 --> 00:52:38,559

i'll tell you what i'm i'm hooked on i'm

1465

00:52:43,190 --> 00:52:40,720

hooked on a guy an aussie guy who now

1466

00:52:46,390 --> 00:52:43,200

based in the us who has a youtube

1467

00:52:48,230 --> 00:52:46,400

channel called uncharted x

1468

00:52:51,030 --> 00:52:48,240

and there's another one an american guy

1469

00:52:54,309 --> 00:52:51,040

called bright insight and we both like

1470

00:52:55,190 --> 00:52:54,319

that right and both of them do amazing

1471

00:52:58,790 --> 00:52:55,200

work

1472

00:53:01,349 --> 00:52:58,800

investigating the archaeological record

1473

00:53:04,230 --> 00:53:01,359

and in quite a scientific way

1474

00:53:07,349 --> 00:53:04,240

they're very thorough looking at reasons

1475

00:53:09,750 --> 00:53:07,359

why there is good cause to doubt

1476

00:53:11,750 --> 00:53:09,760

the accepted narrative about

1477

00:53:13,750 --> 00:53:11,760

human evolution and the possibility of

1478

00:53:15,589 --> 00:53:13,760

prior civilizations

1479

00:53:17,829 --> 00:53:15,599

the idea being that a lot of the

1480

00:53:20,230 --> 00:53:17,839

megalithic ruins a lot of the ruins that

1481

00:53:21,829 --> 00:53:20,240

have been around for possibly tens of

1482

00:53:25,910 --> 00:53:21,839

thousands of years

1483

00:53:28,630 --> 00:53:25,920

could not plausibly have been made by

1484

00:53:31,030 --> 00:53:28,640

our current civilizations

1485

00:53:33,030 --> 00:53:31,040

and uh yeah i mean

1486

00:53:35,750 --> 00:53:33,040

i'm with liu on that i mean i if there

1487

00:53:38,309 --> 00:53:35,760

is i'm not a dna scientist and

1488

00:53:39,670 --> 00:53:38,319

it's an area that i would love to get

1489

00:53:41,829 --> 00:53:39,680

into if there's anybody that can

1490

00:53:43,190 --> 00:53:41,839

approach me and give me some insights

1491

00:53:45,829 --> 00:53:43,200

into why

1492

00:53:48,790 --> 00:53:45,839

there is a credible basis to that but

1493

00:53:50,950 --> 00:53:48,800

um did you notice just on that did you

1494

00:53:53,510 --> 00:53:50,960

notice that gary nolan professor gary

1495

00:53:56,870 --> 00:53:53,520

nolan of stanford university a highly

1496

00:53:58,470 --> 00:53:56,880

reputable uh genetics scientist

1497

00:54:01,270 --> 00:53:58,480

who's obviously been involved on the

1498

00:54:04,390 --> 00:54:01,280

periphery with tsa

1499

00:54:06,549 --> 00:54:04,400

gary talked publicly a few weeks ago

1500

00:54:08,150 --> 00:54:06,559

about the fact that the dna research

1501
00:54:10,470 --> 00:54:08,160
that he was doing

1502
00:54:12,549 --> 00:54:10,480
and his client at least at one stage was

1503
00:54:15,109 --> 00:54:12,559
the cia

1504
00:54:17,589 --> 00:54:15,119
asked him to look at

1505
00:54:20,470 --> 00:54:17,599
people who'd had

1506
00:54:21,990 --> 00:54:20,480
encounters with the phenomena

1507
00:54:25,109 --> 00:54:22,000
and were suffering

1508
00:54:28,390 --> 00:54:25,119
physical symptoms he actually said that

1509
00:54:31,589 --> 00:54:28,400
a quarter of these people died

1510
00:54:32,790 --> 00:54:31,599
as a result of their exposure

1511
00:54:33,670 --> 00:54:32,800
now

1512
00:54:35,270 --> 00:54:33,680
again

1513
00:54:37,030 --> 00:54:35,280

i mean i just keep on dropping these

1514

00:54:38,870 --> 00:54:37,040

clangers so people know where to look if

1515

00:54:42,069 --> 00:54:38,880

they ever decide in the mainstream media

1516

00:54:44,549 --> 00:54:42,079

to wake up from their stupa if i was the

1517

00:54:47,829 --> 00:54:44,559

la times or the new york times or the

1518

00:54:49,829 --> 00:54:47,839

washington post and i saw a reputable

1519

00:54:52,789 --> 00:54:49,839

highly regarded probably a nobel

1520

00:54:54,710 --> 00:54:52,799

prize-winning professor one day

1521

00:54:56,870 --> 00:54:54,720

saying things like that saying that a

1522

00:54:59,030 --> 00:54:56,880

quarter of the people exposed to this

1523

00:55:00,390 --> 00:54:59,040

phenomenon have died as a result of that

1524

00:55:02,630 --> 00:55:00,400

exposure

1525

00:55:04,390 --> 00:55:02,640

might be getting on a bus and going out

1526
00:55:06,230 --> 00:55:04,400
to stanford and knocking on his door and

1527
00:55:08,150 --> 00:55:06,240
saying excuse me sir what's this all

1528
00:55:09,750 --> 00:55:08,160
about can you explain this research to

1529
00:55:14,870 --> 00:55:09,760
me

1530
00:55:17,109 --> 00:55:14,880
says it and it just gets ignored i for

1531
00:55:18,870 --> 00:55:17,119
the life of me do not know why

1532
00:55:21,190 --> 00:55:18,880
it's the weirdest thing

1533
00:55:23,670 --> 00:55:21,200
yeah i'm keeping a very close eye on

1534
00:55:26,230 --> 00:55:23,680
everything gary nolan does um

1535
00:55:27,910 --> 00:55:26,240
yeah if anybody does want to see any of

1536
00:55:29,750 --> 00:55:27,920
the stuff that you talked about recently

1537
00:55:31,589 --> 00:55:29,760
you can see it all on my instagram page

1538
00:55:34,069 --> 00:55:31,599

um i even put a clip out yesterday that

1539

00:55:35,829 --> 00:55:34,079

i found a new interview he did um i've

1540

00:55:39,829 --> 00:55:35,839

got to bring this one up gary voorhees

1541

00:55:41,109 --> 00:55:39,839

junior says chickens are raptors

1542

00:55:43,990 --> 00:55:41,119

gotta love it

1543

00:55:46,150 --> 00:55:44,000

he's right he's right

1544

00:55:48,630 --> 00:55:46,160

absolutely as part of the evolutionary

1545

00:55:51,030 --> 00:55:48,640

uh trail then um

1546

00:55:51,750 --> 00:55:51,040

good day to gary yeah he's a nice bloke

1547

00:55:53,349 --> 00:55:51,760

yeah

1548

00:55:55,030 --> 00:55:53,359

absolutely we had a great chat last

1549

00:55:57,670 --> 00:55:55,040

night i know he's in his hotel room

1550

00:56:01,430 --> 00:55:57,680

eating takeaway food and six pack of

1551

00:56:03,270 --> 00:56:01,440

beer so shout out mr voorhees um

1552

00:56:05,670 --> 00:56:03,280

another question here ross of all the

1553

00:56:08,390 --> 00:56:05,680

uap events you have investigated which

1554

00:56:09,589 --> 00:56:08,400

is the best evidence that it was alien

1555

00:56:11,430 --> 00:56:09,599

and why

1556

00:56:15,430 --> 00:56:11,440

that's from john hunsley

1557

00:56:20,549 --> 00:56:15,440

oh that's a goodie um

1558

00:56:22,950 --> 00:56:20,559

okay um i uh i can't narrow down to one

1559

00:56:26,390 --> 00:56:22,960

i'm really excited i just wish this ruar

1560

00:56:28,230 --> 00:56:26,400

zimbabwe film would come out

1561

00:56:29,750 --> 00:56:28,240

i'm so bloody frustrated it's been

1562

00:56:32,150 --> 00:56:29,760

coming and coming and coming for about

1563

00:56:34,230 --> 00:56:32,160

three or four years but i love the rua

1564

00:56:35,270 --> 00:56:34,240

zimbabwe story

1565

00:56:38,069 --> 00:56:35,280

and

1566

00:56:39,990 --> 00:56:38,079

i watched james fox's recent film with

1567

00:56:42,069 --> 00:56:40,000

great excitement because

1568

00:56:44,710 --> 00:56:42,079

he used a lot of the original bbc

1569

00:56:46,630 --> 00:56:44,720

footage that was shot by a journalist

1570

00:56:47,750 --> 00:56:46,640

who i spoke to at one stage as well in

1571

00:56:49,670 --> 00:56:47,760

my research

1572

00:56:52,150 --> 00:56:49,680

and there's no doubt in my mind that the

1573

00:56:55,750 --> 00:56:52,160

the kids and indeed i think at least one

1574

00:56:56,950 --> 00:56:55,760

teacher at rura zimbabwe saw

1575

00:56:59,750 --> 00:56:56,960

a craft

1576
00:57:02,390 --> 00:56:59,760
and the kids claim to have engaged in a

1577
00:57:05,510 --> 00:57:02,400
telepathic way with some kind of

1578
00:57:07,750 --> 00:57:05,520
non-human entity

1579
00:57:09,190 --> 00:57:07,760
that's a goodie because of the volume of

1580
00:57:11,190 --> 00:57:09,200
sightings and the number of witness

1581
00:57:13,349 --> 00:57:11,200
reports and the contemporaneous pictures

1582
00:57:15,910 --> 00:57:13,359
that were drawn by the children that

1583
00:57:17,829 --> 00:57:15,920
that showed a clear and uh accurate

1584
00:57:20,630 --> 00:57:17,839
record the other one that i like is in

1585
00:57:23,430 --> 00:57:20,640
my country which is the westall 1966

1586
00:57:26,390 --> 00:57:23,440
school sighting and i've spoken to so

1587
00:57:27,589 --> 00:57:26,400
many of those witnesses and

1588
00:57:29,349 --> 00:57:27,599

i think i might have told you on a

1589

00:57:33,510 --> 00:57:29,359

previous chat that

1590

00:57:37,990 --> 00:57:35,670

the father of one of my

1591

00:57:39,750 --> 00:57:38,000

long-time good sources in federal

1592

00:57:41,349 --> 00:57:39,760

government australia

1593

00:57:43,990 --> 00:57:41,359

was the bloke who actually wrote the

1594

00:57:45,589 --> 00:57:44,000

secret report for a now defunct

1595

00:57:47,750 --> 00:57:45,599

government department here in australia

1596

00:57:50,230 --> 00:57:47,760

called the department of supply

1597

00:57:52,309 --> 00:57:50,240

and that report has disappeared but i'm

1598

00:57:54,470 --> 00:57:52,319

no no doubt at all that it existed and

1599

00:57:57,750 --> 00:57:54,480

probably still exists

1600

00:57:59,270 --> 00:57:57,760

basically uh somebody is hiding a report

1601
00:58:00,309 --> 00:57:59,280
that was written into the west oil

1602
00:58:02,789 --> 00:58:00,319
incident

1603
00:58:03,750 --> 00:58:02,799
and you know hundreds hundreds of people

1604
00:58:06,950 --> 00:58:03,760
saw

1605
00:58:09,430 --> 00:58:06,960
the lenticular craft that day hovering

1606
00:58:12,150 --> 00:58:09,440
over the school operating intelligently

1607
00:58:13,750 --> 00:58:12,160
nobody saw an alien but

1608
00:58:16,150 --> 00:58:13,760
something was controlling it they might

1609
00:58:17,270 --> 00:58:16,160
have been drones i don't know

1610
00:58:18,549 --> 00:58:17,280
other ones

1611
00:58:20,390 --> 00:58:18,559
um

1612
00:58:22,069 --> 00:58:20,400
does it have to be with aliens on board

1613
00:58:23,990 --> 00:58:22,079

i mean i don't know about aliens to be

1614

00:58:26,870 --> 00:58:24,000

honest i still think i'm the same

1615

00:58:29,510 --> 00:58:26,880

i i i i'm not convinced i've ever heard

1616

00:58:32,309 --> 00:58:29,520

a really good case where i'm absolutely

1617

00:58:35,670 --> 00:58:32,319

rolled gold sure that these aren't just

1618

00:58:38,150 --> 00:58:35,680

autonomous ai drones because a bit like

1619

00:58:41,030 --> 00:58:38,160

us with mars you know why would you send

1620

00:58:42,630 --> 00:58:41,040

living humanoid entities to mars to

1621

00:58:44,950 --> 00:58:42,640

explore the surface of the planet when

1622

00:58:47,030 --> 00:58:44,960

you can do it just as well with a drone

1623

00:58:48,789 --> 00:58:47,040

and vice versa if you're an alien

1624

00:58:51,670 --> 00:58:48,799

intelligence that's basically wanting to

1625

00:58:55,349 --> 00:58:51,680

keep tabs on humans on earth wasn't the

1626
00:58:56,789 --> 00:58:55,359
best thing to do b to send ai drones

1627
00:58:59,109 --> 00:58:56,799
so i'm still not convinced that what

1628
00:59:00,870 --> 00:58:59,119
these aren't some kind of artificial

1629
00:59:02,710 --> 00:59:00,880
intelligence but frankly i'd just be

1630
00:59:04,630 --> 00:59:02,720
speculating i don't know

1631
00:59:05,510 --> 00:59:04,640
and that's the exciting thing about this

1632
00:59:08,630 --> 00:59:05,520
is that

1633
00:59:11,510 --> 00:59:08,640
there is so much now to be investigated

1634
00:59:13,670 --> 00:59:11,520
so much more to be understood

1635
00:59:15,589 --> 00:59:13,680
but i'm not dispelling the possibility

1636
00:59:17,829 --> 00:59:15,599
that there are

1637
00:59:20,390 --> 00:59:17,839
living non-human intelligences that are

1638
00:59:22,549 --> 00:59:20,400

visiting this planet i just don't know

1639

00:59:24,309 --> 00:59:22,559

i know absolutely

1640

00:59:26,309 --> 00:59:24,319

uh darren plain asks we need a

1641

00:59:29,510 --> 00:59:26,319

high-profile advocate to keep pushing

1642

00:59:30,789 --> 00:59:29,520

congress for answers like elon musk does

1643

00:59:32,470 --> 00:59:30,799

ross think there may be other

1644

00:59:35,270 --> 00:59:32,480

high-profile people that would be

1645

00:59:38,069 --> 00:59:35,280

effective at pushing congress

1646

00:59:39,270 --> 00:59:38,079

well g'day darren he's an aussie um

1647

00:59:40,789 --> 00:59:39,280

uh

1648

00:59:42,390 --> 00:59:40,799

yeah and i think when he asked about

1649

00:59:44,390 --> 00:59:42,400

elon i think he was hoping it might be

1650

00:59:46,789 --> 00:59:44,400

elon and i don't think it will be

1651
00:59:49,109 --> 00:59:46,799
because i think elon has to sign secrecy

1652
00:59:51,670 --> 00:59:49,119
agreements as part of his relationship

1653
00:59:54,710 --> 00:59:51,680
with the u.s defense department which is

1654
00:59:57,349 --> 00:59:54,720
the contract that has saved his spacex

1655
00:59:59,349 --> 00:59:57,359
rocket company and what a brilliant

1656
01:00:01,109 --> 00:59:59,359
achievement spacex is you know there's

1657
01:00:02,710 --> 01:00:01,119
an entrepreneur who's been able to do

1658
01:00:04,870 --> 01:00:02,720
something that nasa

1659
01:00:07,190 --> 01:00:04,880
wasn't able to do he's been able to

1660
01:00:09,750 --> 01:00:07,200
develop a reusable

1661
01:00:13,109 --> 01:00:09,760
cheaper alternative rocket technology to

1662
01:00:15,349 --> 01:00:13,119
develop to to deliver nasa payloads

1663
01:00:16,069 --> 01:00:15,359

but i don't think it's going to be elon

1664

01:00:18,549 --> 01:00:16,079

but

1665

01:00:19,589 --> 01:00:18,559

there are

1666

01:00:22,230 --> 01:00:19,599

i know

1667

01:00:23,829 --> 01:00:22,240

people of great net worth in the united

1668

01:00:26,230 --> 01:00:23,839

states the new

1669

01:00:29,030 --> 01:00:26,240

lawrence rockefellers if you like

1670

01:00:32,069 --> 01:00:29,040

who are intrigued by the phenomenon

1671

01:00:35,510 --> 01:00:32,079

and they are willing to

1672

01:00:38,309 --> 01:00:35,520

indulge their curiosity by investing and

1673

01:00:40,390 --> 01:00:38,319

funding collaborative research and you

1674

01:00:41,190 --> 01:00:40,400

know watch this space i i think that'll

1675

01:00:43,750 --> 01:00:41,200

happen

1676

01:00:46,230 --> 01:00:43,760

i don't think anybody expects the us

1677

01:00:48,150 --> 01:00:46,240

government to willingly pry loose the

1678

01:00:50,309 --> 01:00:48,160

dark secrets that it's probably

1679

01:00:53,030 --> 01:00:50,319

illegally been sitting on for much of

1680

01:00:54,870 --> 01:00:53,040

the last 70 years there's absolutely no

1681

01:00:56,950 --> 01:00:54,880

doubt in my mind that there's been some

1682

01:00:59,030 --> 01:00:56,960

kind of a government cover-up

1683

01:01:00,630 --> 01:00:59,040

i just don't know yet for sure what it

1684

01:01:03,270 --> 01:01:00,640

is that they've been covering up but

1685

01:01:04,230 --> 01:01:03,280

they're certainly shy about revealing it

1686

01:01:06,789 --> 01:01:04,240

um

1687

01:01:10,309 --> 01:01:06,799

but uh yeah i mean i who who would it be

1688

01:01:11,349 --> 01:01:10,319

who would i like to see taking a lead

1689

01:01:15,109 --> 01:01:11,359

hmm

1690

01:01:19,030 --> 01:01:15,990

um

1691

01:01:21,109 --> 01:01:19,040

finally uh sharda rawat asks hi ross in

1692

01:01:23,670 --> 01:01:21,119

your research has there been any overlap

1693

01:01:25,670 --> 01:01:23,680

between uap activity and remote viewing

1694

01:01:27,430 --> 01:01:25,680

any efforts to remote view these things

1695

01:01:29,670 --> 01:01:27,440

etc

1696

01:01:30,789 --> 01:01:29,680

oh god i'll tell you a story i spend a

1697

01:01:34,470 --> 01:01:30,799

lot of time

1698

01:01:36,470 --> 01:01:34,480

investigating a claim that appears in

1699

01:01:39,510 --> 01:01:36,480

the

1700

01:01:42,390 --> 01:01:39,520

cia's files on remote viewing it was

1701

01:01:44,230 --> 01:01:42,400

claims that were made that ingo swann

1702

01:01:45,829 --> 01:01:44,240

one of the rvs

1703

01:01:48,069 --> 01:01:45,839

found a

1704

01:01:49,349 --> 01:01:48,079

secret base in

1705

01:01:51,430 --> 01:01:49,359

a hillside

1706

01:01:53,589 --> 01:01:51,440

in australia and a mountainside in the

1707

01:01:54,630 --> 01:01:53,599

remote outback of australia

1708

01:01:57,430 --> 01:01:54,640

and

1709

01:01:59,829 --> 01:01:57,440

i spent ages going through defence

1710

01:02:03,029 --> 01:01:59,839

department files

1711

01:02:07,190 --> 01:02:04,950

i still haven't been able to get out

1712

01:02:09,029 --> 01:02:07,200

there and go and knock on doors because

1713

01:02:10,630 --> 01:02:09,039

the only way the only way to investigate

1714

01:02:12,870 --> 01:02:10,640

some of the stuff is to get on a plane

1715

01:02:15,349 --> 01:02:12,880

and you know

1716

01:02:18,150 --> 01:02:15,359

the travels involved in going across the

1717

01:02:20,230 --> 01:02:18,160

outback are just immense you know it

1718

01:02:21,910 --> 01:02:20,240

takes a good takes a good day to get to

1719

01:02:23,750 --> 01:02:21,920

central australia and then you've got to

1720

01:02:26,150 --> 01:02:23,760

hire a four-wheel drive it gets very

1721

01:02:28,710 --> 01:02:26,160

expensive but yeah there's there's stuff

1722

01:02:30,950 --> 01:02:28,720

that's been alleged in

1723

01:02:33,510 --> 01:02:30,960

remote viewing documents from the

1724

01:02:35,750 --> 01:02:33,520

stargate program that the cia ran that

1725

01:02:37,829 --> 01:02:35,760

alleged that there were supposedly

1726

01:02:39,750 --> 01:02:37,839

secret bases in um

1727

01:02:42,069 --> 01:02:39,760

in australia and if i had the resources

1728

01:02:44,069 --> 01:02:42,079

i would hop on a plane and hire a

1729

01:02:45,750 --> 01:02:44,079

four-wheel drive and

1730

01:02:47,670 --> 01:02:45,760

take a couple of ex-military mates with

1731

01:02:49,270 --> 01:02:47,680

me who know how to look after yourself

1732

01:02:50,630 --> 01:02:49,280

in the outback and go and have a bloody

1733

01:02:51,910 --> 01:02:50,640

good look but

1734

01:02:55,349 --> 01:02:51,920

frankly

1735

01:02:59,190 --> 01:02:55,359

if this technology is capable of doing

1736

01:03:01,750 --> 01:02:59,200

what it's alleged it's capable of doing

1737

01:03:04,710 --> 01:03:01,760

by definition if it can warp space-time

1738

01:03:06,870 --> 01:03:04,720

if it can literally move through

1739

01:03:08,549 --> 01:03:06,880

solid mediums like water there is a

1740

01:03:09,990 --> 01:03:08,559

question mark in my mind does that mean

1741

01:03:11,750 --> 01:03:10,000

that it's capable of moving through

1742

01:03:14,549 --> 01:03:11,760

physical objects like mountains or

1743

01:03:17,589 --> 01:03:14,559

volcanoes you know if we are talking you

1744

01:03:19,349 --> 01:03:17,599

know even hypothetically if you indulge

1745

01:03:21,270 --> 01:03:19,359

the whim of taking seriously for a

1746

01:03:24,390 --> 01:03:21,280

moment the fact that somebody has

1747

01:03:25,990 --> 01:03:24,400

allegedly remote viewed a a site

1748

01:03:27,910 --> 01:03:26,000

you know what evidence would there be

1749

01:03:31,430 --> 01:03:27,920

how can you even begin to investigate

1750

01:03:32,789 --> 01:03:31,440

that i i don't know how one can uh

1751

01:03:35,029 --> 01:03:32,799

and um

1752

01:03:37,910 --> 01:03:35,039

that's the dilemma here is that you know

1753

01:03:40,870 --> 01:03:37,920

for example if these objects are

1754

01:03:43,510 --> 01:03:40,880

hidden in noa files you know detected

1755

01:03:45,109 --> 01:03:43,520

30 000 feet under the ocean how the hell

1756

01:03:47,750 --> 01:03:45,119

would we ever prove that i mean we can't

1757

01:03:51,029 --> 01:03:47,760

even find mh370 four kilometers down in

1758

01:03:52,710 --> 01:03:51,039

the indian ocean yeah very true

1759

01:03:54,870 --> 01:03:52,720

yeah great point well listen ross we've

1760

01:03:56,069 --> 01:03:54,880

just hit the hour mark so i won't keep

1761

01:03:57,990 --> 01:03:56,079

you too long if you could hang about

1762

01:04:00,950 --> 01:03:58,000

just to have a little debrief after we

1763

01:04:02,549 --> 01:04:00,960

we ended live um so one last thing is

1764

01:04:04,549 --> 01:04:02,559

what can we expect to see from ross

1765

01:04:05,990 --> 01:04:04,559

coulthart in 2022

1766

01:04:08,230 --> 01:04:06,000

new book um

1767

01:04:10,470 --> 01:04:08,240

i don't oh god no that would be my worst

1768

01:04:12,470 --> 01:04:10,480

nightmare i mean it's funny even though

1769

01:04:13,829 --> 01:04:12,480

uh one debunker took a swipe at me the

1770

01:04:16,390 --> 01:04:13,839

other day for saying i've had this

1771

01:04:18,710 --> 01:04:16,400

incredible volume of response i i have

1772

01:04:21,109 --> 01:04:18,720

had i have never in my journalistic

1773

01:04:24,230 --> 01:04:21,119

career have had the level of response

1774

01:04:25,510 --> 01:04:24,240

that i've had to this issue um

1775

01:04:26,870 --> 01:04:25,520

and i i

1776

01:04:28,950 --> 01:04:26,880

frankly i kind of there's part of me

1777

01:04:30,870 --> 01:04:28,960

that wishes the mainstream media don't

1778

01:04:33,430 --> 01:04:30,880

start engaging with the subject matter

1779

01:04:35,750 --> 01:04:33,440

because at the moment it's it's a really

1780

01:04:38,309 --> 01:04:35,760

good gig it's a fascinating area to get

1781

01:04:39,750 --> 01:04:38,319

into and i'm very very grateful

1782

01:04:41,430 --> 01:04:39,760

to all the people who are getting in

1783

01:04:43,430 --> 01:04:41,440

touch with me and who have got in touch

1784

01:04:44,549 --> 01:04:43,440

with me uh

1785

01:04:46,309 --> 01:04:44,559

because there's just the most

1786

01:04:47,349 --> 01:04:46,319

extraordinary information coming in the

1787

01:04:50,150 --> 01:04:47,359

door

1788

01:04:52,150 --> 01:04:50,160

but in recognition of the importance in

1789

01:04:54,309 --> 01:04:52,160

many cases of protecting the anonymity

1790

01:04:56,630 --> 01:04:54,319

of those sources and and in terms of

1791

01:04:58,150 --> 01:04:56,640

verifying and corroborating and checking

1792

01:05:01,589 --> 01:04:58,160

out what they're telling me

1793

01:05:02,470 --> 01:05:01,599

it's going to take a while and i i need

1794

01:05:03,829 --> 01:05:02,480

help

1795

01:05:04,789 --> 01:05:03,839

and

1796

01:05:05,990 --> 01:05:04,799

i'm

1797

01:05:07,910 --> 01:05:06,000

thinking of

1798

01:05:09,829 --> 01:05:07,920

doing some collaborative work with some

1799

01:05:12,390 --> 01:05:09,839

people at the moment where i'd be able

1800

01:05:15,270 --> 01:05:12,400

to work more efficiently

1801

01:05:16,870 --> 01:05:15,280

um i'll probably be making more

1802

01:05:19,349 --> 01:05:16,880

documentaries

1803

01:05:20,789 --> 01:05:19,359

i'll certainly i'll certainly be writing

1804

01:05:24,390 --> 01:05:20,799

and

1805

01:05:26,549 --> 01:05:24,400

flag this now is i'm going to be

1806

01:05:28,470 --> 01:05:26,559

stepping back a little bit from

1807

01:05:32,150 --> 01:05:28,480

speaking so much on

1808

01:05:34,950 --> 01:05:32,160

line i just don't have time uh i mean

1809

01:05:37,029 --> 01:05:34,960

it's it's so busy i mean i woke up this

1810

01:05:39,430 --> 01:05:37,039

morning and there were i kid you not i

1811

01:05:42,150 --> 01:05:39,440

think it was

1812

01:05:44,710 --> 01:05:42,160

it would be over 250 new emails in my

1813

01:05:46,870 --> 01:05:44,720

inbox since seven o'clock last night

1814

01:05:49,510 --> 01:05:46,880

wow and and then when i go on ufo

1815

01:05:51,910 --> 01:05:49,520

twitter there's probably the same

1816

01:05:53,829 --> 01:05:51,920

quantity again and messages on my on my

1817

01:05:55,430 --> 01:05:53,839

twitter handle and a lot of them are

1818

01:05:58,309 --> 01:05:55,440

people wanting to get in touch they're

1819

01:06:01,109 --> 01:05:58,319

offering information i just get so many

1820

01:06:03,270 --> 01:06:01,119

sightings videos like maybe 30 or 40

1821

01:06:05,829 --> 01:06:03,280

sightings videos a day and

1822

01:06:07,190 --> 01:06:05,839

i'm not being dismissive but

1823

01:06:08,789 --> 01:06:07,200

what do you mean to do with those you

1824

01:06:10,470 --> 01:06:08,799

know if somebody sends you a blurry

1825

01:06:12,710 --> 01:06:10,480

image of something that's five miles

1826

01:06:16,470 --> 01:06:12,720

away in the sky

1827

01:06:18,470 --> 01:06:16,480

it's just not very helpful uh i i don't

1828

01:06:21,670 --> 01:06:18,480

know what to do with it and

1829

01:06:23,829 --> 01:06:21,680

you know what i'm really hoping is

1830

01:06:26,069 --> 01:06:23,839

what i'm now finding i'm starting to get

1831

01:06:28,549 --> 01:06:26,079

that i can get into

1832

01:06:30,630 --> 01:06:28,559

really good data analysis like one of

1833

01:06:32,710 --> 01:06:30,640

the things that i did very early on in

1834

01:06:34,150 --> 01:06:32,720

my research was i solicited i actually

1835

01:06:36,549 --> 01:06:34,160

hired people

1836

01:06:38,309 --> 01:06:36,559

to help me compile

1837

01:06:39,670 --> 01:06:38,319

the best

1838

01:06:42,230 --> 01:06:39,680

videos

1839

01:06:43,270 --> 01:06:42,240

from all of the major countries in the

1840

01:06:44,870 --> 01:06:43,280

world

1841

01:06:47,750 --> 01:06:44,880

and i do i've got a

1842

01:06:51,029 --> 01:06:47,760

i've got a computer dropbox full of

1843

01:06:53,349 --> 01:06:51,039

literally thousands of um

1844

01:06:56,309 --> 01:06:53,359

videos from all over the world of

1845

01:06:58,870 --> 01:06:56,319

sightings and i've i've been thinking

1846

01:07:00,710 --> 01:06:58,880

there has to be a way of

1847

01:07:02,150 --> 01:07:00,720

sorting out the wheat from the chef you

1848

01:07:04,230 --> 01:07:02,160

know there has to be a way of

1849

01:07:05,990 --> 01:07:04,240

scientifically analyzing those and

1850

01:07:09,190 --> 01:07:06,000

seeing if there's any modalities or

1851
01:07:11,430 --> 01:07:09,200
commonalities that can be can be used

1852
01:07:14,470 --> 01:07:11,440
you know i i guess i'm what i'm saying

1853
01:07:16,950 --> 01:07:14,480
is i want 2022 to be more scientific

1854
01:07:20,630 --> 01:07:16,960
i've spent much of 2021 just dealing

1855
01:07:22,789 --> 01:07:20,640
with the overwhelming volume of response

1856
01:07:23,910 --> 01:07:22,799
i mean it's really heartening i love it

1857
01:07:26,390 --> 01:07:23,920
because

1858
01:07:28,549 --> 01:07:26,400
um again i got a bollocking from some

1859
01:07:30,950 --> 01:07:28,559
twerk on um

1860
01:07:33,109 --> 01:07:30,960
social media yesterday because i said

1861
01:07:34,230 --> 01:07:33,119
you know it's crack cocaine for people

1862
01:07:36,230 --> 01:07:34,240
it is

1863
01:07:37,510 --> 01:07:36,240

you know and i don't i make no apologies

1864

01:07:39,510 --> 01:07:37,520

for that because

1865

01:07:41,349 --> 01:07:39,520

you know i'm proud of the fact that my

1866

01:07:43,750 --> 01:07:41,359

stories are being watched by people that

1867

01:07:45,270 --> 01:07:43,760

they're being engaged with by people i

1868

01:07:47,190 --> 01:07:45,280

love the fact that people are really

1869

01:07:48,789 --> 01:07:47,200

interested in this subject matter and i

1870

01:07:50,470 --> 01:07:48,799

can tell you i'm not making money from

1871

01:07:52,470 --> 01:07:50,480

it it's it's not a

1872

01:07:55,109 --> 01:07:52,480

it's not a remunerative enterprise at

1873

01:07:56,950 --> 01:07:55,119

least not at the moment

1874

01:07:58,950 --> 01:07:56,960

uh basically i could make a lot more

1875

01:08:01,109 --> 01:07:58,960

just being a full-time mainstream media

1876

01:08:03,829 --> 01:08:01,119

reporter but it's fun and it's

1877

01:08:05,109 --> 01:08:03,839

interesting and and i find it intensely

1878

01:08:06,470 --> 01:08:05,119

rewarding

1879

01:08:07,910 --> 01:08:06,480

to be

1880

01:08:10,630 --> 01:08:07,920

on top of

1881

01:08:11,589 --> 01:08:10,640

what i think is the biggest story of the

1882

01:08:14,309 --> 01:08:11,599

moment

1883

01:08:16,229 --> 01:08:14,319

and it might take a year it might take

1884

01:08:17,910 --> 01:08:16,239

five years but at some stage the rest of

1885

01:08:20,870 --> 01:08:17,920

the mainstream media is going to catch

1886

01:08:22,070 --> 01:08:20,880

up but in the meantime

1887

01:08:22,870 --> 01:08:22,080

loving it

1888

01:08:27,430 --> 01:08:22,880

good

1889

01:08:29,430 --> 01:08:27,440

end the interview right now thank you to

1890

01:08:31,430 --> 01:08:29,440
