

the chat will be asked towards the end of the interview, time permitting.

1
00:00:04,710 --> 00:00:01,270
um

2
00:00:06,150 --> 00:00:04,720
i i purposely up and up until recently

3
00:00:08,549 --> 00:00:06,160
haven't talked too much about any

4
00:00:10,390 --> 00:00:08,559
sightings that i've had um i don't feel

5
00:00:11,910 --> 00:00:10,400
that as an individual my sightings are

6
00:00:14,310 --> 00:00:11,920
compelling enough that they provide

7
00:00:16,070 --> 00:00:14,320
evidence they're just anecdotal so it's

8
00:00:17,830 --> 00:00:16,080
something that i add to the to the pile

9
00:00:20,070 --> 00:00:17,840
of other other people's stories and look

10
00:00:22,150 --> 00:00:20,080
for for connections

11
00:00:23,990 --> 00:00:22,160
but um i'll give you a more detailed

12
00:00:25,830 --> 00:00:24,000
explanation um

13
00:00:28,070 --> 00:00:25,840

it was probably around

14

00:00:30,390 --> 00:00:28,080

11 30 it was near midnight i think

15

00:00:31,830 --> 00:00:30,400

between the hours of 11 and midnight my

16

00:00:33,910 --> 00:00:31,840

family was asleep

17

00:00:35,750 --> 00:00:33,920

um it had been a long day i was for some

18

00:00:37,110 --> 00:00:35,760

reason i was still in my uniform i was

19

00:00:39,270 --> 00:00:37,120

still in khakis

20

00:00:40,950 --> 00:00:39,280

and um i was sitting outside chain

21

00:00:42,310 --> 00:00:40,960

smoking and playing a video game called

22

00:00:43,190 --> 00:00:42,320

e-republic

23

00:00:45,110 --> 00:00:43,200

um

24

00:00:47,910 --> 00:00:45,120

and i've been hyper focused you know

25

00:00:49,190 --> 00:00:47,920

very tunnel visioned um on the screen

26

00:00:51,189 --> 00:00:49,200

you know to the point that i didn't even

27

00:00:52,709 --> 00:00:51,199

see the whole world around me because

28

00:00:53,990 --> 00:00:52,719

you know how it is you can when you're i

29

00:00:56,150 --> 00:00:54,000

was outside in the dark at a little

30

00:00:57,510 --> 00:00:56,160

bistro table in my yard

31

00:00:59,510 --> 00:00:57,520

um

32

00:01:01,189 --> 00:00:59,520

and looking back i wasn't a meditator at

33

00:01:04,070 --> 00:01:01,199

the time but looking back that was that

34

00:01:06,469 --> 00:01:04,080

was flow state i was i was in flow i was

35

00:01:08,070 --> 00:01:06,479

writing and and playing the

36

00:01:09,670 --> 00:01:08,080

the game and

37

00:01:12,310 --> 00:01:09,680

very focused

38

00:01:13,910 --> 00:01:12,320

and when i finally decided just to just

39

00:01:15,190 --> 00:01:13,920

to reach up and close the computer

40

00:01:17,270 --> 00:01:15,200

because i knew it was getting too late i

41

00:01:19,270 --> 00:01:17,280

had to be up early and everything else

42

00:01:21,270 --> 00:01:19,280

i closed the computer

43

00:01:24,310 --> 00:01:21,280

and i stood up and i was standing just

44

00:01:25,749 --> 00:01:24,320

outside my front door facing due east

45

00:01:28,550 --> 00:01:25,759

smoking a cigarette

46

00:01:29,910 --> 00:01:28,560

and i was looking out at a clear totally

47

00:01:31,749 --> 00:01:29,920

clear night sky

48

00:01:33,590 --> 00:01:31,759

and i was looking at the stars that were

49

00:01:35,510 --> 00:01:33,600

above the horizon

50

00:01:36,550 --> 00:01:35,520

and they were blinking they were going

51
00:01:38,390 --> 00:01:36,560
away

52
00:01:40,310 --> 00:01:38,400
um the stars were

53
00:01:41,749 --> 00:01:40,320
were basically you know being occluded

54
00:01:43,910 --> 00:01:41,759
by something

55
00:01:47,030 --> 00:01:43,920
and i could tell that this thing was

56
00:01:48,630 --> 00:01:47,040
moving from the horizon slowly

57
00:01:50,230 --> 00:01:48,640
because of the way that stars were

58
00:01:51,830 --> 00:01:50,240
disappearing but i couldn't figure out

59
00:01:53,590 --> 00:01:51,840
if i was looking at a

60
00:01:54,550 --> 00:01:53,600
large rain cloud

61
00:01:55,749 --> 00:01:54,560
but

62
00:01:58,069 --> 00:01:55,759
i mean all these things were happening

63
00:02:00,230 --> 00:01:58,079

at once and a lot of it the recall is is

64

00:02:02,550 --> 00:02:00,240

weird to try to do but i knew the wind

65

00:02:04,230 --> 00:02:02,560

was blowing in the opposite direction a

66

00:02:06,630 --> 00:02:04,240

lot of things didn't make sense and i'm

67

00:02:08,869 --> 00:02:06,640

squinting and really getting interested

68

00:02:11,110 --> 00:02:08,879

in what this thing is and as it starts

69

00:02:14,070 --> 00:02:11,120

to actually the apex of it starts to

70

00:02:16,070 --> 00:02:14,080

actually go over the top of my house

71

00:02:17,990 --> 00:02:16,080

and if people are going to ask me the

72

00:02:19,990 --> 00:02:18,000

the altitude it's really hard to gauge

73

00:02:21,110 --> 00:02:20,000

because the size of the thing

74

00:02:22,949 --> 00:02:21,120

was

75

00:02:25,830 --> 00:02:22,959

ridiculous

76

00:02:28,309 --> 00:02:25,840

um so it was at least it seemed to be at

77

00:02:30,869 --> 00:02:28,319

least a couple football fields wide

78

00:02:32,470 --> 00:02:30,879

meaning a couple of hundred yards from

79

00:02:34,070 --> 00:02:32,480

tip to tip

80

00:02:36,710 --> 00:02:34,080

um i guess that would mean you know

81

00:02:40,070 --> 00:02:36,720

equilateral because it was equilateral

82

00:02:41,110 --> 00:02:40,080

um it had no lights that i could see

83

00:02:42,710 --> 00:02:41,120

um

84

00:02:44,470 --> 00:02:42,720

it was reflecting now that i think about

85

00:02:45,830 --> 00:02:44,480

it was reflecting a small amount of moon

86

00:02:48,390 --> 00:02:45,840

light

87

00:02:50,390 --> 00:02:48,400

and i heard the wind going over

88

00:02:52,309 --> 00:02:50,400

it seemed i heard the wind as it was

89

00:02:53,910 --> 00:02:52,319

moving you know i heard the wind over

90

00:02:55,589 --> 00:02:53,920

the outside of the craft as if you were

91

00:02:58,229 --> 00:02:55,599

moving something large through the air

92

00:03:01,110 --> 00:02:58,239

but there's no engine sound

93

00:03:02,070 --> 00:03:01,120

as it passed overhead i was kind of

94

00:03:06,390 --> 00:03:02,080

going

95

00:03:11,110 --> 00:03:08,390

the tic tac had been

96

00:03:13,509 --> 00:03:11,120

five or six months before

97

00:03:15,110 --> 00:03:13,519

and there was a 48 hour period on board

98

00:03:17,910 --> 00:03:15,120

the ship where i knew we had had a

99

00:03:19,670 --> 00:03:17,920

roswell type event that should go down

100

00:03:22,149 --> 00:03:19,680

in history

101

00:03:24,149 --> 00:03:22,159

um and we didn't seem to care about it

102

00:03:25,830 --> 00:03:24,159

and i i think i kind of

103

00:03:27,270 --> 00:03:25,840

compartmentalized that you know i went a

104

00:03:28,869 --> 00:03:27,280

lot of different directions with it i

105

00:03:30,390 --> 00:03:28,879

just assumed that it's probably us that

106

00:03:31,750 --> 00:03:30,400

was a really safe feeling to have

107

00:03:32,789 --> 00:03:31,760

knowing i didn't want to be floating out

108

00:03:35,509 --> 00:03:32,799

for the next

109

00:03:37,589 --> 00:03:35,519

12 years knowing that there was

110

00:03:39,190 --> 00:03:37,599

crazy tech surrounding us um so who

111

00:03:41,830 --> 00:03:39,200

knows what i did psychologically but

112

00:03:43,190 --> 00:03:41,840

five five or so months later

113

00:03:44,830 --> 00:03:43,200

i just wasn't ready to turn around and

114

00:03:48,390 --> 00:03:44,840

see that

115

00:03:50,710 --> 00:03:48,400

um and i as it went over the top as it

116

00:03:51,990 --> 00:03:50,720

went overhead it sped up

117

00:03:54,149 --> 00:03:52,000

and we used to have these two really

118

00:03:56,229 --> 00:03:54,159

large palm trees for reference that i

119

00:03:58,309 --> 00:03:56,239

turned around and i watched it go over

120

00:04:00,229 --> 00:03:58,319

the top of the palm tree and i was going

121

00:04:01,910 --> 00:04:00,239

to lose sight of it right behind the

122

00:04:04,869 --> 00:04:01,920

palm tree

123

00:04:06,630 --> 00:04:04,879

and i ran to the the west end of my yard

124

00:04:07,990 --> 00:04:06,640

and jumped up on this rickety table we

125

00:04:09,750 --> 00:04:08,000

had built

126

00:04:12,789 --> 00:04:09,760

and i remembered the next morning

127

00:04:15,030 --> 00:04:12,799

because i busted off the um the bistro

128

00:04:16,069 --> 00:04:15,040

umbrella it's wooden it had this little

129

00:04:17,430 --> 00:04:16,079

brass thing in the middle and just

130

00:04:19,509 --> 00:04:17,440

cracked it right in half jumping up on

131

00:04:22,150 --> 00:04:19,519

the table to catch one last glimpse of

132

00:04:24,790 --> 00:04:22,160

this thing as it tipped over on its port

133

00:04:26,950 --> 00:04:24,800

wing edge and just we have this term in

134

00:04:29,430 --> 00:04:26,960

the navy called we say zorched it's just

135

00:04:31,830 --> 00:04:29,440

zorched it just it was

136

00:04:34,710 --> 00:04:31,840

and i say it got smaller or it went away

137

00:04:37,030 --> 00:04:34,720

because without sound and light

138

00:04:38,790 --> 00:04:37,040

reference and no effect

139

00:04:40,870 --> 00:04:38,800

you know given that we're talking about

140

00:04:43,430 --> 00:04:40,880

the phenomenon we assume

141

00:04:46,469 --> 00:04:43,440

um i can't say exactly what it did it

142

00:04:48,230 --> 00:04:46,479

just receded it went away from my vision

143

00:04:50,390 --> 00:04:48,240

and perception

144

00:04:53,590 --> 00:04:50,400

and i stood on top of that table for

145

00:04:58,790 --> 00:04:53,600

probably five minutes just jaw a gate

146

00:05:03,830 --> 00:05:01,029

i just went to bed

147

00:05:04,950 --> 00:05:03,840

i never told anybody about that i mean i

148

00:05:09,029 --> 00:05:04,960

drew it

149

00:05:10,629 --> 00:05:09,039

i wrote down what happened

150

00:05:13,510 --> 00:05:10,639

but i wasn't somebody who was like holy

151

00:05:15,909 --> 00:05:13,520

crap i just saw a giant ufo

152

00:05:18,230 --> 00:05:15,919

no i i told friends and family about the

153

00:05:19,909 --> 00:05:18,240

tic tac incident like i said there was

154

00:05:21,830 --> 00:05:19,919

i wasn't asked to sign an nda there was

155

00:05:24,150 --> 00:05:21,840

no classification around it

156

00:05:25,670 --> 00:05:24,160

um and so when it came out in the news

157

00:05:27,029 --> 00:05:25,680

it was they knew exactly what they were

158

00:05:28,870 --> 00:05:27,039

looking at friends and family they were

159

00:05:30,870 --> 00:05:28,880

the ones that were telling me about the

160

00:05:34,390 --> 00:05:30,880

times article

161

00:05:37,350 --> 00:05:35,670

people asked me what did you think it

162

00:05:39,029 --> 00:05:37,360

was where do you think it's from i don't

163

00:05:40,870 --> 00:05:39,039

have any of those answers it was a big

164

00:05:43,029 --> 00:05:40,880

black triangle it didn't make any noise

165

00:05:44,310 --> 00:05:43,039

it was going super slow and it was way

166

00:05:47,510 --> 00:05:44,320

too big

167

00:05:49,350 --> 00:05:47,520

yeah and at this point in my career my

168

00:05:51,749 --> 00:05:49,360

second career of what we all do with

169

00:05:53,670 --> 00:05:51,759

this subject i don't believe that was

170

00:05:55,270 --> 00:05:53,680

tech made by

171

00:05:57,830 --> 00:05:55,280

you and i or anybody with an email

172

00:06:00,070 --> 00:05:57,840

address or that pays taxes or

173

00:06:02,550 --> 00:06:00,080

or lives in the world that we operate in

174

00:06:05,189 --> 00:06:02,560

i don't i can't find a way to make that

175

00:06:09,189 --> 00:06:07,510

but i know i saw what i saw and when i

176

00:06:10,550 --> 00:06:09,199

got up got back up in the morning i went
