

THOMAS WINTERTON

1
00:00:32,950 --> 00:00:30,470

[Music]

2
00:00:35,990 --> 00:00:32,960

hey guys how's it going welcome back to

3
00:00:38,150 --> 00:00:36,000

the channel it is uh thursday i hope

4
00:00:40,229 --> 00:00:38,160

everyone's having a great day wherever

5
00:00:43,910 --> 00:00:40,239

you are in the world um i've had a

6
00:00:45,750 --> 00:00:43,920

fantastic day it is 8 p.m here in the uk

7
00:00:47,350 --> 00:00:45,760

before we bring on my guest a couple of

8
00:00:50,310 --> 00:00:47,360

things i just want to say thank you to

9
00:00:51,910 --> 00:00:50,320

everybody that's here live on youtube

10
00:00:53,750 --> 00:00:51,920

and thank you to everybody on youtube

11
00:00:55,590 --> 00:00:53,760

that may watch this after the fact i

12
00:00:57,910 --> 00:00:55,600

appreciate that not everyone can be here

13
00:00:59,349 --> 00:00:57,920

as it goes out live and to everybody

14

00:01:01,910 --> 00:00:59,359

listening to this on the anomalous

15

00:01:03,910 --> 00:01:01,920

podcast network thank you so much for

16

00:01:06,230 --> 00:01:03,920

listening i really appreciate all the

17

00:01:08,469 --> 00:01:06,240

support um for anybody that wants to

18

00:01:10,710 --> 00:01:08,479

support the channel we have memberships

19

00:01:12,710 --> 00:01:10,720

super chats and super stickers but don't

20

00:01:14,310 --> 00:01:12,720

worry if if you can't help out if you do

21

00:01:16,390 --> 00:01:14,320

or have any questions that you want to

22

00:01:18,390 --> 00:01:16,400

ask our guests please pop them in the

23

00:01:20,310 --> 00:01:18,400

comments in the live chat

24

00:01:23,270 --> 00:01:20,320

and pop them in capital letters

25

00:01:26,149 --> 00:01:23,280

um one final thing um the documentary

26

00:01:28,950 --> 00:01:26,159

series that myself and dan and ash

27

00:01:31,590 --> 00:01:28,960

recently filmed in colombia the trailer

28

00:01:33,429 --> 00:01:31,600

is going to be released tomorrow at 2

29

00:01:35,109 --> 00:01:33,439

p.m gmt

30

00:01:36,630 --> 00:01:35,119

um you'll have to work that out wherever

31

00:01:38,870 --> 00:01:36,640

you are else in the world i'm sorry but

32

00:01:40,390 --> 00:01:38,880

look out for it on my instagram on my

33

00:01:42,630 --> 00:01:40,400

twitter and everywhere else

34

00:01:43,830 --> 00:01:42,640

i cannot wait to share this with you

35

00:01:45,670 --> 00:01:43,840

guys

36

00:01:47,990 --> 00:01:45,680

but that is all

37

00:01:50,149 --> 00:01:48,000

irrelevant right now i would like to

38

00:01:53,109 --> 00:01:50,159

bring on our guest i'm a big fan of this

39

00:01:56,069 --> 00:01:53,119

show and of this gentleman as well so

40

00:01:58,950 --> 00:01:56,079

please welcome mr thomas winterton

41

00:02:00,709 --> 00:01:58,960

thomas how are you i'm great how are you

42

00:02:02,709 --> 00:02:00,719

i'm really good thank you so much for

43

00:02:04,709 --> 00:02:02,719

doing this it really means a lot

44

00:02:06,789 --> 00:02:04,719

i'm excited to visit with you especially

45

00:02:08,630 --> 00:02:06,799

when i found out that you're uh across

46

00:02:10,630 --> 00:02:08,640

the pond

47

00:02:12,869 --> 00:02:10,640

yep yep it spreads everywhere man the

48

00:02:15,670 --> 00:02:12,879

ranch uh is global

49

00:02:17,260 --> 00:02:15,680

so uh yeah really exciting stuff that's

50

00:02:19,830 --> 00:02:17,270

crazy um

51
00:02:21,270 --> 00:02:19,840
[Laughter]

52
00:02:23,910 --> 00:02:21,280
have you done much

53
00:02:25,990 --> 00:02:23,920
global interviews and things like that

54
00:02:28,390 --> 00:02:26,000
so i did a uh

55
00:02:30,070 --> 00:02:28,400
a podcast with a gentleman in scotland i

56
00:02:33,190 --> 00:02:30,080
believe oh no

57
00:02:35,110 --> 00:02:33,200
excuse me i'm just getting over a

58
00:02:36,869 --> 00:02:35,120
head cold and some pneumonia so if i

59
00:02:38,630 --> 00:02:36,879
have to clear my throat i apologize but

60
00:02:41,110 --> 00:02:38,640
um

61
00:02:45,110 --> 00:02:41,120
uh i did one over there with him and

62
00:02:46,869 --> 00:02:45,120
then i did a interview in poland which

63
00:02:48,630 --> 00:02:46,879

was an interesting experience because it

64

00:02:50,790 --> 00:02:48,640

wasn't a live interview what we did was

65

00:02:53,430 --> 00:02:50,800

uh like they submitted the questions we

66

00:02:55,910 --> 00:02:53,440

had to translate then i submit

67

00:02:57,990 --> 00:02:55,920

translation we had to make sure and and

68

00:02:59,750 --> 00:02:58,000

i don't i don't read polish so hopefully

69

00:03:01,670 --> 00:02:59,760

it came across the way that it was

70

00:03:03,830 --> 00:03:01,680

supposed to but other than that

71

00:03:04,869 --> 00:03:03,840

everything else has been stateside

72

00:03:06,949 --> 00:03:04,879

awesome

73

00:03:08,869 --> 00:03:06,959

i'm glad that we can

74

00:03:10,229 --> 00:03:08,879

share this with with people over this

75

00:03:12,470 --> 00:03:10,239

side of the pond

76

00:03:14,149 --> 00:03:12,480

um i guess to start off i'd just like to

77

00:03:16,869 --> 00:03:14,159

ask a simple question which is have you

78

00:03:21,509 --> 00:03:16,879

been on the ranch today

79

00:03:24,550 --> 00:03:21,519

actually will be on the ranch later

80

00:03:26,309 --> 00:03:24,560

today i was on the ranch yesterday until

81

00:03:27,910 --> 00:03:26,319

uh well i was there until yesterday

82

00:03:29,990 --> 00:03:27,920

evening so

83

00:03:32,149 --> 00:03:30,000

excellent excellent and

84

00:03:33,589 --> 00:03:32,159

i know that from some of the the things

85

00:03:35,910 --> 00:03:33,599

we've seen on the show and stuff there

86

00:03:37,830 --> 00:03:35,920

are kind of quiet periods on the ranch

87

00:03:39,910 --> 00:03:37,840

and then there are times when things

88

00:03:41,670 --> 00:03:39,920

kind of ramp up a little bit so

89

00:03:43,190 --> 00:03:41,680

if you were to say at the moment what's

90

00:03:45,430 --> 00:03:43,200

happening on the ranch is it a quiet

91

00:03:48,149 --> 00:03:45,440

period or is there still sort of strange

92

00:03:48,949 --> 00:03:48,159

occurrences happening

93

00:03:50,949 --> 00:03:48,959

um

94

00:03:53,509 --> 00:03:50,959

actually i would say that the last

95

00:03:55,830 --> 00:03:53,519

little while um

96

00:03:57,110 --> 00:03:55,840

has been active

97

00:03:58,869 --> 00:03:57,120

uh

98

00:04:00,550 --> 00:03:58,879

but i i see that you know the thing

99

00:04:02,390 --> 00:04:00,560

about the ranch i tell people

100

00:04:03,990 --> 00:04:02,400

nine out of ten days you go on you know

101
00:04:06,949 --> 00:04:04,000
you roll on the ranch nine out of ten

102
00:04:08,949 --> 00:04:06,959
times it's it's calm it's peaceful

103
00:04:11,350 --> 00:04:08,959
you know the gate shuts behind you i

104
00:04:12,630 --> 00:04:11,360
feel like i'm kind of locked away in my

105
00:04:14,710 --> 00:04:12,640
own world

106
00:04:16,949 --> 00:04:14,720
i don't get good cells phone reception

107
00:04:18,550 --> 00:04:16,959
out there at all so for the most part

108
00:04:21,270 --> 00:04:18,560
when i enter the ranch it's like

109
00:04:23,909 --> 00:04:21,280
entering this whole private little realm

110
00:04:25,749 --> 00:04:23,919
and uh and i love it and then there's

111
00:04:27,909 --> 00:04:25,759
that one out of ten

112
00:04:31,110 --> 00:04:27,919
where you roll on and there's been times

113
00:04:33,110 --> 00:04:31,120

where just roll up to the gate and and

114

00:04:35,830 --> 00:04:33,120

whether it's the hair raising up you

115

00:04:39,030 --> 00:04:35,840

know on your body or just

116

00:04:41,030 --> 00:04:39,040

you i've learned

117

00:04:42,469 --> 00:04:41,040

it's like being married you know you're

118

00:04:44,150 --> 00:04:42,479

married long enough you can start to

119

00:04:46,469 --> 00:04:44,160

tell the moods without having to ask the

120

00:04:48,230 --> 00:04:46,479

questions you roll up the gate and it's

121

00:04:50,390 --> 00:04:48,240

like ah man

122

00:04:53,510 --> 00:04:50,400

she's not in a good mood today i i don't

123

00:04:54,950 --> 00:04:53,520

know if i should be going on and uh and

124

00:04:57,350 --> 00:04:54,960

so

125

00:04:58,870 --> 00:04:57,360

they'll be once in a while you roll up

126
00:05:01,749 --> 00:04:58,880
and it's like no it's not happening

127
00:05:04,070 --> 00:05:01,759
today and i'll turn around and leave

128
00:05:07,909 --> 00:05:04,080
wow so it can really go from just being

129
00:05:09,590 --> 00:05:07,919
in a beautiful place an everyday kind of

130
00:05:10,710 --> 00:05:09,600
pleasant experience to something that

131
00:05:12,629 --> 00:05:10,720
really just

132
00:05:14,390 --> 00:05:12,639
is the opposite that's that's so

133
00:05:16,310 --> 00:05:14,400
fascinating

134
00:05:17,909 --> 00:05:16,320
yeah and you know i can't count the

135
00:05:18,950 --> 00:05:17,919
number of times where i've been there

136
00:05:22,950 --> 00:05:18,960
working

137
00:05:25,189 --> 00:05:22,960
everything's great and then

138
00:05:26,469 --> 00:05:25,199

it's like something shifts something

139

00:05:29,749 --> 00:05:26,479

changes

140

00:05:31,990 --> 00:05:29,759

and and really rapidly you you know i

141

00:05:34,150 --> 00:05:32,000

just i've learned to listen because when

142

00:05:37,270 --> 00:05:34,160

you don't listen that's when it seems

143

00:05:39,189 --> 00:05:37,280

problems happen

144

00:05:41,749 --> 00:05:39,199

especially if i'm out there

145

00:05:44,070 --> 00:05:41,759

you know working on something by myself

146

00:05:46,870 --> 00:05:44,080

and i don't have somebody close by

147

00:05:49,110 --> 00:05:46,880

that can uh can help me out we've seen

148

00:05:50,070 --> 00:05:49,120

people go in catatonic states we've seen

149

00:05:51,990 --> 00:05:50,080

people

150

00:05:54,710 --> 00:05:52,000

have some pretty severe physical

151

00:05:56,150 --> 00:05:54,720

reactions and so uh

152

00:05:59,350 --> 00:05:56,160

i i've

153

00:06:01,270 --> 00:05:59,360

i've learned i'm not gonna tempt fate so

154

00:06:03,510 --> 00:06:01,280

if i start feeling that way i usually

155

00:06:05,909 --> 00:06:03,520

heed the warning signs now if i'm with

156

00:06:08,070 --> 00:06:05,919

somebody you know if we've got the group

157

00:06:09,990 --> 00:06:08,080

of us and we're doing something that's

158

00:06:11,990 --> 00:06:10,000

different because we've got a lot of

159

00:06:13,990 --> 00:06:12,000

instrumentation that's when we really

160

00:06:15,590 --> 00:06:14,000

want to dig in and see if we can try to

161

00:06:17,909 --> 00:06:15,600

you know capture the fingerprint of

162

00:06:19,510 --> 00:06:17,919

something that's going on but if it's if

163

00:06:22,550 --> 00:06:19,520

it's just me working out there during

164

00:06:24,390 --> 00:06:22,560

the day you know on something i i'll

165

00:06:26,790 --> 00:06:24,400

i'll usually heat those warnings and get

166

00:06:28,390 --> 00:06:26,800

off but it can happen rapidly

167

00:06:30,550 --> 00:06:28,400

yeah absolutely and i mean i think for

168

00:06:32,150 --> 00:06:30,560

anyone familiar with the show knows that

169

00:06:34,150 --> 00:06:32,160

you've had some pretty serious injuries

170

00:06:36,550 --> 00:06:34,160

in the past so to hear that you like

171

00:06:39,029 --> 00:06:36,560

work you are working on your own in some

172

00:06:40,390 --> 00:06:39,039

instances do you have um

173

00:06:42,230 --> 00:06:40,400

you know

174

00:06:44,390 --> 00:06:42,240

how would you go about contacting

175

00:06:46,150 --> 00:06:44,400

someone you mentioned you have bad cell

176

00:06:47,749 --> 00:06:46,160

service and stuff like

177

00:06:49,909 --> 00:06:47,759

are there still risks involved with

178

00:06:52,230 --> 00:06:49,919

being on your own on the ranch

179

00:06:53,749 --> 00:06:52,240

well and i need to i need to qualify

180

00:06:58,550 --> 00:06:53,759

that statement

181

00:07:01,189 --> 00:07:00,150

with all of our monitoring and

182

00:07:03,990 --> 00:07:01,199

everything

183

00:07:06,469 --> 00:07:04,000

uh so whenever i'm on the ranch

184

00:07:09,270 --> 00:07:06,479

uh one security knows

185

00:07:12,230 --> 00:07:09,280

and then we've got our scientists uh

186

00:07:13,189 --> 00:07:12,240

eric bart and i let him know right and

187

00:07:17,029 --> 00:07:13,199

he

188

00:07:18,790 --> 00:07:17,039

keeping tabs on me and making sure that

189

00:07:19,670 --> 00:07:18,800

if i'm out irrigating

190

00:07:22,550 --> 00:07:19,680

um

191

00:07:24,710 --> 00:07:22,560

we we generally don't let people go out

192

00:07:25,990 --> 00:07:24,720

by themselves it's not a good idea but

193

00:07:27,749 --> 00:07:26,000

frankly at the end of the day there's

194

00:07:30,309 --> 00:07:27,759

just some tasks that have to get done

195

00:07:31,830 --> 00:07:30,319

and and if i had to wait all right we

196

00:07:33,589 --> 00:07:31,840

only get water

197

00:07:34,870 --> 00:07:33,599

you know we to irrigate the land to

198

00:07:36,469 --> 00:07:34,880

water the land

199

00:07:38,629 --> 00:07:36,479

we don't get to choose those times that

200

00:07:40,629 --> 00:07:38,639

we get the water we they just tell us

201
00:07:42,150 --> 00:07:40,639
this is your turn and you can either

202
00:07:44,710 --> 00:07:42,160
take the water you can let it run down

203
00:07:47,110 --> 00:07:44,720
the ditch and here in utah second dry

204
00:07:49,749 --> 00:07:47,120
estate in the united states every drop

205
00:07:52,710 --> 00:07:49,759
of water is precious so that means that

206
00:07:55,990 --> 00:07:52,720
i'm out there on the ranch at

207
00:07:58,550 --> 00:07:56,000
usual a good portion of our turn to take

208
00:07:59,589 --> 00:07:58,560
the water happens at night and so if i'm

209
00:08:01,189 --> 00:07:59,599
if i'm sitting there trying to

210
00:08:03,749 --> 00:08:01,199
coordinate with other team members it

211
00:08:06,230 --> 00:08:03,759
just becomes impractical so

212
00:08:08,150 --> 00:08:06,240
i've kind of there are times that i just

213
00:08:10,950 --> 00:08:08,160

i go do my own thing but i'm always

214

00:08:12,790 --> 00:08:10,960

careful like i check in with eric right

215

00:08:14,790 --> 00:08:12,800

and and security knows that i'm out

216

00:08:16,950 --> 00:08:14,800

there and then we've got our caretakers

217

00:08:19,990 --> 00:08:16,960

that are there most of the time and so

218

00:08:21,029 --> 00:08:20,000

uh help's never far away

219

00:08:22,629 --> 00:08:21,039

uh

220

00:08:24,869 --> 00:08:22,639

but if something bad's happening

221

00:08:27,110 --> 00:08:24,879

sometimes ten minutes can be the

222

00:08:28,230 --> 00:08:27,120

difference between something really bad

223

00:08:29,350 --> 00:08:28,240

and and

224

00:08:31,110 --> 00:08:29,360

and uh

225

00:08:32,790 --> 00:08:31,120

we've had individuals going to catatonic

226

00:08:34,469 --> 00:08:32,800

state in which case i would be at the

227

00:08:37,029 --> 00:08:34,479

total mercy of

228

00:08:38,790 --> 00:08:37,039

eric checking in or you know dragon or

229

00:08:40,550 --> 00:08:38,800

caleb checking in and saying okay where

230

00:08:41,670 --> 00:08:40,560

is he at is he okay

231

00:08:42,949 --> 00:08:41,680

and uh

232

00:08:45,190 --> 00:08:42,959

so

233

00:08:46,710 --> 00:08:45,200

there's look i know when i go on that

234

00:08:50,389 --> 00:08:46,720

ranch there's risks involved it's

235

00:08:52,470 --> 00:08:50,399

something that i've accepted and uh

236

00:08:54,630 --> 00:08:52,480

you have to look at the risk rewards and

237

00:08:56,630 --> 00:08:54,640

say the opportunity to be part of this

238

00:08:59,190 --> 00:08:56,640

team the opportunity to be involved in

239

00:09:00,870 --> 00:08:59,200

this investigation carries risks and

240

00:09:02,630 --> 00:09:00,880

and uh

241

00:09:04,230 --> 00:09:02,640

i i either accept him or i find

242

00:09:05,910 --> 00:09:04,240

something else to do

243

00:09:07,269 --> 00:09:05,920

no that's fair enough and i suppose

244

00:09:09,269 --> 00:09:07,279

you've been working together as a team

245

00:09:11,829 --> 00:09:09,279

for a few years now so i suppose you

246

00:09:13,670 --> 00:09:11,839

form that bond that cohesion where you

247

00:09:15,509 --> 00:09:13,680

naturally look out for one another and

248

00:09:17,350 --> 00:09:15,519

you're kind of almost hyper aware of

249

00:09:18,389 --> 00:09:17,360

what everyone's doing am i right in

250

00:09:21,590 --> 00:09:18,399

saying that

251
00:09:24,230 --> 00:09:21,600
absolutely yeah we we have a very we we

252
00:09:27,590 --> 00:09:24,240
call it ranch family uh we

253
00:09:28,710 --> 00:09:27,600
you know we're very close and you do get

254
00:09:31,030 --> 00:09:28,720
a sense

255
00:09:33,110 --> 00:09:31,040
uh i mean we've been together now going

256
00:09:36,790 --> 00:09:33,120
on what six years

257
00:09:39,590 --> 00:09:36,800
and you get a sense of the movement and

258
00:09:42,310 --> 00:09:39,600
just over time we've we've developed uh

259
00:09:44,870 --> 00:09:42,320
policies and procedures and just habits

260
00:09:47,269 --> 00:09:44,880
that we follow so we keep a close eye on

261
00:09:48,710 --> 00:09:47,279
each other and that is part of it that

262
00:09:50,949 --> 00:09:48,720
helps mitigate the risk because i know

263
00:09:51,990 --> 00:09:50,959

those guys got my back

264

00:09:53,030 --> 00:09:52,000

excellent

265

00:09:54,550 --> 00:09:53,040

and and

266

00:09:56,870 --> 00:09:54,560

you know you've got your core team and

267

00:09:58,870 --> 00:09:56,880

obviously brandon we see in the tv

268

00:10:01,350 --> 00:09:58,880

series is he seems to play an active

269

00:10:03,269 --> 00:10:01,360

role but is that the same in reality is

270

00:10:05,670 --> 00:10:03,279

he constantly in touch with you guys or

271

00:10:07,110 --> 00:10:05,680

visiting the ranch on a regular basis

272

00:10:09,190 --> 00:10:07,120

absolutely

273

00:10:10,790 --> 00:10:09,200

brandon's very hands-on

274

00:10:14,790 --> 00:10:10,800

the thing i love about brandon is he

275

00:10:18,790 --> 00:10:16,470

excuse me

276

00:10:21,110 --> 00:10:18,800

uh you know he's very successful he's

277

00:10:23,829 --> 00:10:21,120

very busy uh

278

00:10:26,389 --> 00:10:23,839

businessman and the the great thing

279

00:10:29,110 --> 00:10:26,399

about brandon is he he assigns everybody

280

00:10:31,030 --> 00:10:29,120

their roles and then he just trusts you

281

00:10:32,790 --> 00:10:31,040

that you're gonna take care of that and

282

00:10:35,590 --> 00:10:32,800

he doesn't micromanage

283

00:10:38,310 --> 00:10:35,600

uh but we all are you know we all check

284

00:10:40,470 --> 00:10:38,320

in with him on a regular basis um eric's

285

00:10:42,949 --> 00:10:40,480

in touch with him on a daily basis so

286

00:10:44,389 --> 00:10:42,959

he's very hands-on anytime something

287

00:10:45,509 --> 00:10:44,399

happens

288

00:10:47,269 --> 00:10:45,519

there's not

289

00:10:48,790 --> 00:10:47,279

i don't think that there's much that

290

00:10:50,389 --> 00:10:48,800

happens on that ranch that brandon is

291

00:10:52,069 --> 00:10:50,399

not aware of

292

00:10:53,670 --> 00:10:52,079

excellent excellent now if you don't

293

00:10:55,269 --> 00:10:53,680

mind i'd like to go into a few sort of

294

00:10:56,550 --> 00:10:55,279

more technical questions about things

295

00:10:58,630 --> 00:10:56,560

that we have seen

296

00:11:00,790 --> 00:10:58,640

through the tv show and maybe things

297

00:11:03,110 --> 00:11:00,800

that we've heard on social media

298

00:11:04,630 --> 00:11:03,120

and it's kind of to do with different um

299

00:11:06,550 --> 00:11:04,640

experiments i suppose that you've done

300

00:11:08,230 --> 00:11:06,560

on the ranch that have kind of for me

301
00:11:10,790 --> 00:11:08,240
personally i've just wanted to ask more

302
00:11:13,829 --> 00:11:10,800
questions about them um now one thing

303
00:11:15,430 --> 00:11:13,839
that i mean i'm a ufo uap guy and yes

304
00:11:17,509 --> 00:11:15,440
i'm interested in the kind of paranormal

305
00:11:20,069 --> 00:11:17,519
aspect as well but with regards to the

306
00:11:21,670 --> 00:11:20,079
um uap side of the investigations one

307
00:11:23,509 --> 00:11:21,680
thing you have done is utilize weather

308
00:11:24,949 --> 00:11:23,519
balloons but you've not had a lot of

309
00:11:26,790 --> 00:11:24,959
luck with them because you know

310
00:11:27,670 --> 00:11:26,800
sometimes they seem to have popped or

311
00:11:29,670 --> 00:11:27,680
not

312
00:11:31,509 --> 00:11:29,680
gone up to where you want them to do you

313
00:11:33,910 --> 00:11:31,519

put that down to bad luck or do you

314

00:11:37,190 --> 00:11:33,920

genuinely genuinely believe that the

315

00:11:39,590 --> 00:11:37,200

there is something affecting them

316

00:11:41,990 --> 00:11:39,600

well let me ask you

317

00:11:44,550 --> 00:11:42,000

how many times do you

318

00:11:46,870 --> 00:11:44,560

how many failures do you finally switch

319

00:11:49,269 --> 00:11:46,880

from bad luck to something's going on

320

00:11:50,550 --> 00:11:49,279

what's that number

321

00:11:52,150 --> 00:11:50,560

man that's a

322

00:11:53,350 --> 00:11:52,160

i'm on the spot now that's a great

323

00:11:54,949 --> 00:11:53,360

question

324

00:11:56,710 --> 00:11:54,959

i guess i don't really have an answer

325

00:11:58,069 --> 00:11:56,720

because i've not physically done it but

326

00:12:00,550 --> 00:11:58,079

then

327

00:12:02,389 --> 00:12:00,560

now i guess i'll rephrase the question

328

00:12:04,150 --> 00:12:02,399

have you got past that period yourself

329

00:12:07,910 --> 00:12:04,160

where it becomes

330

00:12:08,870 --> 00:12:07,920

a bit too convenient that it's just luck

331

00:12:11,750 --> 00:12:08,880

so

332

00:12:13,509 --> 00:12:11,760

uh i came on the ranch as a as a very

333

00:12:14,470 --> 00:12:13,519

healthy skeptic

334

00:12:17,829 --> 00:12:14,480

right

335

00:12:19,509 --> 00:12:17,839

my brain is wired more for skeptic

336

00:12:22,310 --> 00:12:19,519

although i will say the ranch is a

337

00:12:23,269 --> 00:12:22,320

fantastic job of helping me rewire some

338

00:12:26,069 --> 00:12:23,279

of that

339

00:12:29,990 --> 00:12:28,710

and at the beginning you know oh it's a

340

00:12:31,509 --> 00:12:30,000

coincidence

341

00:12:34,150 --> 00:12:31,519

or bad luck

342

00:12:36,949 --> 00:12:34,160

right oh yeah you know and and then two

343

00:12:38,629 --> 00:12:36,959

happens and then three happens

344

00:12:41,350 --> 00:12:38,639

and then four and you're like man this

345

00:12:43,190 --> 00:12:41,360

is this is a huge coincidence that all

346

00:12:45,509 --> 00:12:43,200

these things are taking place

347

00:12:48,069 --> 00:12:45,519

and then at some point it

348

00:12:49,990 --> 00:12:48,079

you start looking stupid is what happens

349

00:12:52,069 --> 00:12:50,000

and and we talk about this at the ranch

350

00:12:54,949 --> 00:12:52,079

a lot like

351
00:12:58,310 --> 00:12:54,959
sometimes trying to reach for the

352
00:12:59,509 --> 00:12:58,320
explain the mundane right

353
00:13:01,829 --> 00:12:59,519
for example

354
00:13:03,910 --> 00:13:01,839
we'll talk you a piece for a second you

355
00:13:05,350 --> 00:13:03,920
see a uap this guy you're like oh it's

356
00:13:07,829 --> 00:13:05,360
just a plane

357
00:13:10,230 --> 00:13:07,839
and then it it moves sideways and you're

358
00:13:11,829 --> 00:13:10,240
like oh well it's a helicopter then it

359
00:13:13,670 --> 00:13:11,839
drops down you're like oh well that's a

360
00:13:16,230 --> 00:13:13,680
drone and then all of a sudden it

361
00:13:17,350 --> 00:13:16,240
appears from here to there so fast

362
00:13:19,670 --> 00:13:17,360
you're like

363
00:13:21,350 --> 00:13:19,680

we're not aware of any drone

364

00:13:24,629 --> 00:13:21,360

that can move that fast

365

00:13:26,150 --> 00:13:24,639

at some point you run out of things that

366

00:13:28,550 --> 00:13:26,160

can logically explain what you're

367

00:13:31,110 --> 00:13:28,560

witnessing and you actually become

368

00:13:33,030 --> 00:13:31,120

you actually look more foolish trying to

369

00:13:34,710 --> 00:13:33,040

fit it into the known than you would if

370

00:13:35,670 --> 00:13:34,720

you just said

371

00:13:38,069 --> 00:13:35,680

you know

372

00:13:39,030 --> 00:13:38,079

okay that's a uap right

373

00:13:43,269 --> 00:13:39,040

um

374

00:13:45,430 --> 00:13:43,279

we we launched that weather blue in

375

00:13:46,710 --> 00:13:45,440

season one and what you have to do is

376

00:13:49,910 --> 00:13:46,720

just

377

00:13:51,430 --> 00:13:49,920

uh eric's been really good for our team

378

00:13:54,389 --> 00:13:51,440

and the fact that

379

00:13:56,870 --> 00:13:54,399

um i'm getting less and less to say oh

380

00:13:59,430 --> 00:13:56,880

it's got to be this or got to be that

381

00:14:00,629 --> 00:13:59,440

it's here's the facts you tell me what

382

00:14:02,389 --> 00:14:00,639

you think

383

00:14:04,710 --> 00:14:02,399

um because

384

00:14:06,310 --> 00:14:04,720

i'm tired of looking like a fool if i'm

385

00:14:08,230 --> 00:14:06,320

trying to put it in a box that it

386

00:14:11,110 --> 00:14:08,240

doesn't belong in that that weather

387

00:14:13,910 --> 00:14:11,120

balloon was instrumented out with two

388

00:14:16,629 --> 00:14:13,920

separate gps tracking devices

389

00:14:18,310 --> 00:14:16,639

and we had um

390

00:14:19,910 --> 00:14:18,320

matt come out he's he's an acquaintance

391

00:14:21,750 --> 00:14:19,920

of travis taylors

392

00:14:24,150 --> 00:14:21,760

and he's launched

393

00:14:26,550 --> 00:14:24,160

uh hundreds of weather balloons so he's

394

00:14:28,790 --> 00:14:26,560

very very experienced in this it's why

395

00:14:31,509 --> 00:14:28,800

we bring experts out is if we mess it up

396

00:14:33,670 --> 00:14:31,519

and it's our first one

397

00:14:36,230 --> 00:14:33,680

it probably user error

398

00:14:37,910 --> 00:14:36,240

we we're trying to eliminate as many of

399

00:14:40,470 --> 00:14:37,920

the possibilities as we can so we bring

400

00:14:42,150 --> 00:14:40,480

this expert on who has launched hundreds

401
00:14:44,949 --> 00:14:42,160
of weather balloons with this same type

402
00:14:47,110 --> 00:14:44,959
of equipment package and interestingly

403
00:14:48,790 --> 00:14:47,120
enough this is this was part of the

404
00:14:49,590 --> 00:14:48,800
fascination for me

405
00:14:51,430 --> 00:14:49,600
was

406
00:14:52,470 --> 00:14:51,440
that specific launch that we lost the

407
00:14:53,430 --> 00:14:52,480
balloon

408
00:14:55,990 --> 00:14:53,440
uh

409
00:14:58,470 --> 00:14:56,000
we're running into the later part of the

410
00:14:59,670 --> 00:14:58,480
day and the winds are picking up and

411
00:15:01,509 --> 00:14:59,680
while we were sitting there trying to

412
00:15:03,350 --> 00:15:01,519
get this thing ready the winds were

413
00:15:05,430 --> 00:15:03,360

blowing i mean it was a pretty stiff

414

00:15:07,110 --> 00:15:05,440

breeze and as we were sitting to prepare

415

00:15:08,310 --> 00:15:07,120

and i was joking with guys we were all

416

00:15:11,110 --> 00:15:08,320

joking we're like this thing's going to

417

00:15:13,430 --> 00:15:11,120

be colorado before it even gets to that

418

00:15:15,590 --> 00:15:13,440

bookmark because the wind was blowing

419

00:15:16,949 --> 00:15:15,600

from the west towards the east

420

00:15:18,870 --> 00:15:16,959

and uh

421

00:15:22,389 --> 00:15:18,880

and just to give reference

422

00:15:25,430 --> 00:15:24,069

i don't know we are several hundred feet

423

00:15:27,990 --> 00:15:25,440

to the south

424

00:15:29,749 --> 00:15:28,000

of the triangle there and just a little

425

00:15:32,470 --> 00:15:29,759

bit east right

426

00:15:34,710 --> 00:15:32,480

so just a just a tad to the east and to

427

00:15:36,629 --> 00:15:34,720

the south of the triangle and we've got

428

00:15:39,269 --> 00:15:36,639

winds that are blowing straight out east

429

00:15:41,269 --> 00:15:39,279

and we had smaller balloons just your

430

00:15:43,350 --> 00:15:41,279

regular birthday balloons that we would

431

00:15:44,790 --> 00:15:43,360

fill up and we'd release them so we

432

00:15:46,870 --> 00:15:44,800

could get an idea of what the winds

433

00:15:48,790 --> 00:15:46,880

aloft were were doing

434

00:15:50,550 --> 00:15:48,800

right so

435

00:15:52,550 --> 00:15:50,560

before we'd launched the big one we'd

436

00:15:55,030 --> 00:15:52,560

let these little ones go and we'd see

437

00:15:57,189 --> 00:15:55,040

what was happening with it so we could

438

00:15:59,030 --> 00:15:57,199

have an expectation of what to expect

439

00:16:01,110 --> 00:15:59,040

well these these little ones are

440

00:16:02,629 --> 00:16:01,120

launching and they're just taking off

441

00:16:03,910 --> 00:16:02,639

towards the east

442

00:16:05,910 --> 00:16:03,920

and so

443

00:16:07,749 --> 00:16:05,920

you know but that's part of the that's

444

00:16:09,110 --> 00:16:07,759

the part that's one of the issues with

445

00:16:10,069 --> 00:16:09,120

filming is

446

00:16:13,269 --> 00:16:10,079

uh

447

00:16:14,949 --> 00:16:13,279

to try to come back tomorrow and do it

448

00:16:16,870 --> 00:16:14,959

it may not even work maybe tomorrow's

449

00:16:19,030 --> 00:16:16,880

raining or we've got something else

450

00:16:20,150 --> 00:16:19,040

scheduled for the next day so it's now

451
00:16:22,389 --> 00:16:20,160
or never

452
00:16:25,269 --> 00:16:22,399
so we let this balloon go

453
00:16:28,069 --> 00:16:25,279
and sure enough it takes off to the east

454
00:16:30,150 --> 00:16:28,079
but as it's quickly rising and all of a

455
00:16:34,150 --> 00:16:30,160
sudden it's like it

456
00:16:37,509 --> 00:16:34,160
almost makes a u-turn as it gets up

457
00:16:40,790 --> 00:16:37,519
into the winds aloft and then it gets it

458
00:16:42,710 --> 00:16:40,800
goes right up through the center of that

459
00:16:44,470 --> 00:16:42,720
triangle i mean so it kind of

460
00:16:45,990 --> 00:16:44,480
backtracked to the west a little bit and

461
00:16:47,749 --> 00:16:46,000
went north

462
00:16:50,949 --> 00:16:47,759
which wasn't at all what the little

463
00:16:52,629 --> 00:16:50,959

balloons were doing right and now look

464

00:16:53,670 --> 00:16:52,639

the winds can shift i'm not saying they

465

00:16:56,870 --> 00:16:53,680

can't

466

00:16:59,590 --> 00:16:56,880

but we let this balloon go and it goes

467

00:17:02,470 --> 00:16:59,600

right dead center where it was that we

468

00:17:04,949 --> 00:17:02,480

wanted it to go and so we're now

469

00:17:06,949 --> 00:17:04,959

tracking it on our electronic devices

470

00:17:07,990 --> 00:17:06,959

we've got these gps that are

471

00:17:10,069 --> 00:17:08,000

and i

472

00:17:12,710 --> 00:17:10,079

i can't remember if i i don't remember

473

00:17:15,350 --> 00:17:12,720

what the um response rate was if it was

474

00:17:17,029 --> 00:17:15,360

once a second or once every minute it

475

00:17:18,789 --> 00:17:17,039

almost seems like every 60 seconds it

476
00:17:19,829 --> 00:17:18,799
was transmitting

477
00:17:21,590 --> 00:17:19,839
sure

478
00:17:23,189 --> 00:17:21,600
and matt's

479
00:17:25,110 --> 00:17:23,199
never had a problem with these matter of

480
00:17:27,350 --> 00:17:25,120
fact he was telling us about one that

481
00:17:29,190 --> 00:17:27,360
that hit the ground and got ran over and

482
00:17:31,190 --> 00:17:29,200
the thing still worked he's like these

483
00:17:34,230 --> 00:17:31,200
things are almost indestructible we're

484
00:17:37,029 --> 00:17:34,240
talking about the gps units right yeah

485
00:17:40,230 --> 00:17:37,039
well it's reporting fine it's reporting

486
00:17:42,230 --> 00:17:40,240
fine we're getting good data data and

487
00:17:44,870 --> 00:17:42,240
right when it gets up to the 5000 foot

488
00:17:46,870 --> 00:17:44,880

mark where we triangulated that this

489

00:17:48,789 --> 00:17:46,880

energy energy's coming from

490

00:17:51,029 --> 00:17:48,799

it quits transmitting

491

00:17:54,230 --> 00:17:51,039

and uh

492

00:17:56,549 --> 00:17:54,240

it it it never transmits another

493

00:17:59,110 --> 00:17:56,559

now that's the hardened one

494

00:18:01,510 --> 00:17:59,120

uh the the second one continue to

495

00:18:04,549 --> 00:18:01,520

transmit for just a couple just a little

496

00:18:05,909 --> 00:18:04,559

bit longer and then it went out and and

497

00:18:09,350 --> 00:18:05,919

to this day

498

00:18:11,110 --> 00:18:09,360

uh we never found that balloon we had

499

00:18:12,950 --> 00:18:11,120

we went out search for it for a while

500

00:18:14,710 --> 00:18:12,960

and then there was a couple members of

501
00:18:16,390 --> 00:18:14,720
our production crew that searched i

502
00:18:18,470 --> 00:18:16,400
think for up to two weeks looking for

503
00:18:20,549 --> 00:18:18,480
that weather balloon and we and they

504
00:18:22,789 --> 00:18:20,559
when i say searched i mean

505
00:18:24,549 --> 00:18:22,799
we they were putting drones up we were

506
00:18:25,990 --> 00:18:24,559
we were using some

507
00:18:27,830 --> 00:18:26,000
you know we were using drones to see if

508
00:18:30,789 --> 00:18:27,840
we could spot it on the ground where it

509
00:18:32,549 --> 00:18:30,799
crashed we had done some triangulations

510
00:18:34,390 --> 00:18:32,559
and tried to figure out

511
00:18:36,549 --> 00:18:34,400
possible locations where it could be and

512
00:18:37,830 --> 00:18:36,559
try to narrow it down and and they

513
00:18:40,470 --> 00:18:37,840

searched all the way over to the

514

00:18:43,590 --> 00:18:40,480

colorado even into colorado a little bit

515

00:18:47,029 --> 00:18:43,600

looking wow so we they searched a huge

516

00:18:50,150 --> 00:18:47,039

swath of ground and uh we never found it

517

00:18:51,350 --> 00:18:50,160

that's so strange yeah so bizarre and we

518

00:18:52,789 --> 00:18:51,360

know that like you said there is

519

00:18:55,110 --> 00:18:52,799

anomalies when it kind of hits that

520

00:18:56,710 --> 00:18:55,120

altitude around 5000 feet but

521

00:18:59,029 --> 00:18:56,720

also when you talk about the triangle

522

00:19:02,230 --> 00:18:59,039

area we know that there seems to be

523

00:19:04,390 --> 00:19:02,240

anomalies under the ground um

524

00:19:06,870 --> 00:19:04,400

so let's stick with equipment going

525

00:19:08,150 --> 00:19:06,880

wrong shall i say um let's talk about

526
00:19:09,909 --> 00:19:08,160
the cell phones because we've seen in

527
00:19:10,950 --> 00:19:09,919
the show caleb's phone for example

528
00:19:14,230 --> 00:19:10,960
really

529
00:19:16,230 --> 00:19:14,240
almost doesn't seem possible because

530
00:19:17,909 --> 00:19:16,240
it's breaking through his passcodes and

531
00:19:19,350 --> 00:19:17,919
stuff like that but are there other

532
00:19:21,350 --> 00:19:19,360
examples that we may not have seen in

533
00:19:23,430 --> 00:19:21,360
the tv show of equipment

534
00:19:25,270 --> 00:19:23,440
going wrong without any kind of logical

535
00:19:26,950 --> 00:19:25,280
explanation

536
00:19:32,710 --> 00:19:26,960
all the time

537
00:19:36,470 --> 00:19:34,870
our electronics malfunctioning is

538
00:19:38,950 --> 00:19:36,480

probably one of the most common

539

00:19:41,590 --> 00:19:38,960

occurrences most common anomalies that

540

00:19:43,590 --> 00:19:41,600

we witness on the ranch

541

00:19:45,750 --> 00:19:43,600

we seem to witness a lot of

542

00:19:47,669 --> 00:19:45,760

electromagnetic interference with the

543

00:19:51,190 --> 00:19:47,679

inks whether it's drones that are

544

00:19:53,110 --> 00:19:51,200

malfunctioning falling out of the sky

545

00:19:55,270 --> 00:19:53,120

thinking they're places that they're

546

00:19:57,909 --> 00:19:55,280

they're not uh whether it's our cell

547

00:20:00,549 --> 00:19:57,919

phones my cell phone is personally uh

548

00:20:05,430 --> 00:20:03,510

i could give you one example i was up on

549

00:20:07,430 --> 00:20:05,440

top of the mesa working on a set of

550

00:20:08,870 --> 00:20:07,440

cameras one day this was this is a

551
00:20:09,909 --> 00:20:08,880
couple years ago

552
00:20:11,909 --> 00:20:09,919
um

553
00:20:13,270 --> 00:20:11,919
and uh

554
00:20:15,830 --> 00:20:13,280
had a

555
00:20:17,669 --> 00:20:15,840
another individual there that was uh

556
00:20:19,750 --> 00:20:17,679
just out kind of looking through the

557
00:20:21,510 --> 00:20:19,760
rocks below me

558
00:20:23,110 --> 00:20:21,520
you know we're always looking for signs

559
00:20:25,830 --> 00:20:23,120
and stuff

560
00:20:26,950 --> 00:20:25,840
and this is later in the afternoon

561
00:20:29,350 --> 00:20:26,960
and

562
00:20:32,710 --> 00:20:29,360
uh this individual had a head lamp a

563
00:20:34,549 --> 00:20:32,720

flashlight headlamp and it had gone dead

564

00:20:36,950 --> 00:20:34,559

and so rather than packing the bag and

565

00:20:38,950 --> 00:20:36,960

everything up the up the hill just left

566

00:20:40,390 --> 00:20:38,960

it at the bottom of the hill well i'm up

567

00:20:41,990 --> 00:20:40,400

there and i'm trying to troubleshoot

568

00:20:44,870 --> 00:20:42,000

these cameras that are having issues

569

00:20:47,350 --> 00:20:44,880

with eric and i'm up on a ladder

570

00:20:48,950 --> 00:20:47,360

and and i've got my cell phone up there

571

00:20:51,750 --> 00:20:48,960

i'm leaning against ladder and i'm up

572

00:20:54,789 --> 00:20:51,760

there and our ranch dog our black

573

00:20:56,710 --> 00:20:54,799

labrador ranch uh dog william

574

00:20:59,110 --> 00:20:56,720

he's up there at the base of my ladder

575

00:21:01,510 --> 00:20:59,120

right and so i'm up on this extension

576
00:21:02,710 --> 00:21:01,520
ladder and i'm texting back and forth

577
00:21:03,990 --> 00:21:02,720
with eric

578
00:21:05,750 --> 00:21:04,000
and he's

579
00:21:06,630 --> 00:21:05,760
we're trying to troubleshoot between

580
00:21:10,390 --> 00:21:06,640
he's

581
00:21:13,029 --> 00:21:10,400
he at this point he was actually running

582
00:21:14,070 --> 00:21:13,039
things that particular day he was in his

583
00:21:16,549 --> 00:21:14,080
uh

584
00:21:17,750 --> 00:21:16,559
home office out on the wasatch front and

585
00:21:21,990 --> 00:21:17,760
so

586
00:21:23,110 --> 00:21:22,000
with him and he's telling me try this

587
00:21:24,390 --> 00:21:23,120
try that

588
00:21:25,669 --> 00:21:24,400

and i'm up there trying to do this and

589

00:21:26,789 --> 00:21:25,679

all of a sudden the dog starts

590

00:21:29,510 --> 00:21:26,799

whimpering

591

00:21:32,470 --> 00:21:29,520

william is like he's so mild-mannered

592

00:21:33,990 --> 00:21:32,480

and it's so out of character for him and

593

00:21:35,350 --> 00:21:34,000

he's and i look down at him i'm like

594

00:21:36,870 --> 00:21:35,360

what's wrong william

595

00:21:38,549 --> 00:21:36,880

and he starts just

596

00:21:39,590 --> 00:21:38,559

really really whimpering i'm like what

597

00:21:41,590 --> 00:21:39,600

the heck

598

00:21:43,510 --> 00:21:41,600

well at that same time

599

00:21:45,590 --> 00:21:43,520

i lose control of my phone and what i

600

00:21:47,029 --> 00:21:45,600

mean by that is i had my message app

601
00:21:48,310 --> 00:21:47,039
because i was sitting there messaging

602
00:21:50,470 --> 00:21:48,320
eric

603
00:21:53,909 --> 00:21:50,480
the messaging app closes and it starts

604
00:21:55,669 --> 00:21:53,919
opening up other apps and it's doing it

605
00:21:56,390 --> 00:21:55,679
it's doing it you know it's opening it

606
00:21:58,390 --> 00:21:56,400
up

607
00:22:00,710 --> 00:21:58,400
and i go to close and click it and it'll

608
00:22:02,870 --> 00:22:00,720
do something else and i lost all control

609
00:22:05,029 --> 00:22:02,880
of the phone and so i kept opening up

610
00:22:06,310 --> 00:22:05,039
the message app i get into eric and it

611
00:22:08,470 --> 00:22:06,320
would close it

612
00:22:10,470 --> 00:22:08,480
and i'm like what the heck

613
00:22:12,470 --> 00:22:10,480

so i finally i'm like i can't

614

00:22:13,909 --> 00:22:12,480

communicate with eric the dog's down

615

00:22:16,390 --> 00:22:13,919

there whimpering

616

00:22:18,870 --> 00:22:16,400

and i'm thinking okay this isn't working

617

00:22:20,390 --> 00:22:18,880

so i climbed down the ladder

618

00:22:21,750 --> 00:22:20,400

and i yelled down to the other person

619

00:22:24,149 --> 00:22:21,760

i'm like hey when you go down command

620

00:22:26,870 --> 00:22:24,159

center i can't communicate with eric

621

00:22:28,070 --> 00:22:26,880

i need to go in there and call him

622

00:22:29,750 --> 00:22:28,080

and uh

623

00:22:33,029 --> 00:22:29,760

walk down to the bottom of the hill well

624

00:22:36,230 --> 00:22:33,039

here's this bag just glowing it's like

625

00:22:38,070 --> 00:22:36,240

it's pulsating like what the heck what's

626
00:22:41,190 --> 00:22:38,080
what's going on with that bag open it up

627
00:22:44,470 --> 00:22:41,200
well there's that led headlamp

628
00:22:46,630 --> 00:22:44,480
which is was dead yeah and the light is

629
00:22:48,310 --> 00:22:46,640
so bright i mean it's it's it's

630
00:22:49,830 --> 00:22:48,320
pulsating brighter than if you put a

631
00:22:51,029 --> 00:22:49,840
fresh battery in there right i mean this

632
00:22:52,870 --> 00:22:51,039
thing's just and it's sitting there

633
00:22:54,870 --> 00:22:52,880
pulsating like

634
00:22:55,909 --> 00:22:54,880
i'm like what the heck

635
00:22:58,789 --> 00:22:55,919
and so

636
00:23:01,190 --> 00:22:58,799
that's an incident of a time when my

637
00:23:03,430 --> 00:23:01,200
cell phone started misbehaving the dog

638
00:23:06,070 --> 00:23:03,440

started whining and then we've got this

639

00:23:08,470 --> 00:23:06,080

dead battery led headlamp that just goes

640

00:23:11,270 --> 00:23:08,480

from dead to suddenly

641

00:23:13,029 --> 00:23:11,280

pulsing very very bright

642

00:23:15,190 --> 00:23:13,039

though that that's a good example of

643

00:23:16,470 --> 00:23:15,200

electronics everything from i've pulled

644

00:23:20,390 --> 00:23:16,480

up to the gate

645

00:23:22,789 --> 00:23:21,830

i was taking my family to dinner over to

646

00:23:25,110 --> 00:23:22,799

vernal

647

00:23:26,549 --> 00:23:25,120

and i had i think i'd left my wallet in

648

00:23:28,230 --> 00:23:26,559

the command center

649

00:23:30,470 --> 00:23:28,240

and so i was like oh just stop real

650

00:23:32,470 --> 00:23:30,480

quick i gotta grab my wallet we pull up

651
00:23:33,830 --> 00:23:32,480
to the gate i got my wife and kids in

652
00:23:35,430 --> 00:23:33,840
the car with me

653
00:23:36,390 --> 00:23:35,440
and as a rule

654
00:23:39,510 --> 00:23:36,400
my kids

655
00:23:41,350 --> 00:23:39,520
aren't allowed out there right right we

656
00:23:43,350 --> 00:23:41,360
just we don't let people go out there

657
00:23:45,029 --> 00:23:43,360
but i'm like i just got to grab my

658
00:23:46,630 --> 00:23:45,039
wallet it's going to be a quick one and

659
00:23:49,029 --> 00:23:46,640
one minute in and out

660
00:23:52,710 --> 00:23:49,039
pull up to the gate i'm in my we have a

661
00:23:54,390 --> 00:23:52,720
2002 or i mean a 2012 yukon denali

662
00:23:56,310 --> 00:23:54,400
and

663
00:23:57,909 --> 00:23:56,320

i'm waiting for the i punch the button

664

00:24:00,230 --> 00:23:57,919

i'm waiting for the gate to open and

665

00:24:01,590 --> 00:24:00,240

while i'm waiting the radio turns itself

666

00:24:06,390 --> 00:24:01,600

on

667

00:24:09,029 --> 00:24:06,400

singing

668

00:24:11,350 --> 00:24:09,039

and the exact lyrics is as i pulled up

669

00:24:15,350 --> 00:24:11,360

to the gate in my gmc

670

00:24:18,390 --> 00:24:15,360

and my kids are like no way dad and

671

00:24:19,990 --> 00:24:18,400

and i'm like oh you got to be kidding me

672

00:24:21,750 --> 00:24:20,000

and so

673

00:24:23,990 --> 00:24:21,760

i mean everybody saw nobody touched the

674

00:24:25,909 --> 00:24:24,000

radio we didn't turn it on

675

00:24:27,590 --> 00:24:25,919

i run and grab my wallet and we spent

676

00:24:29,750 --> 00:24:27,600

the rest of the night my kids are like

677

00:24:32,070 --> 00:24:29,760

doing lyric searches trying to find a

678

00:24:34,070 --> 00:24:32,080

song that matches those we never found

679

00:24:35,269 --> 00:24:34,080

it if anybody else out there your

680

00:24:37,269 --> 00:24:35,279

listeners

681

00:24:39,510 --> 00:24:37,279

knows of a country song with a lady

682

00:24:41,750 --> 00:24:39,520

singing i pulled up to the gate in my

683

00:24:44,230 --> 00:24:41,760

gmc i would love to know what song that

684

00:24:46,789 --> 00:24:44,240

is but wow strange stuff like that

685

00:24:48,789 --> 00:24:46,799

happens constantly

686

00:24:50,789 --> 00:24:48,799

so like for example when things do

687

00:24:52,390 --> 00:24:50,799

malfunction like that do you then

688

00:24:54,710 --> 00:24:52,400

go back to the command center and look

689

00:24:56,470 --> 00:24:54,720

for energy spikes or or any kind of

690

00:24:58,549 --> 00:24:56,480

activity that may have been captured on

691

00:25:02,710 --> 00:24:58,559

the on the equipment you have in the con

692

00:25:04,710 --> 00:25:02,720

control center everything

693

00:25:07,269 --> 00:25:04,720

to the best of our ability we try to

694

00:25:09,909 --> 00:25:07,279

report everything to eric

695

00:25:11,590 --> 00:25:09,919

uh regardless of how inconsequential it

696

00:25:13,750 --> 00:25:11,600

may seem to us

697

00:25:15,590 --> 00:25:13,760

you know i'm not the scientist there

698

00:25:18,070 --> 00:25:15,600

it's not up to me to determine what's

699

00:25:20,230 --> 00:25:18,080

important what's not important anytime

700

00:25:21,190 --> 00:25:20,240

anything out of the ordinary appears to

701
00:25:22,470 --> 00:25:21,200
happen

702
00:25:24,789 --> 00:25:22,480
uh we

703
00:25:28,630 --> 00:25:24,799
we're all instructed to let eric know

704
00:25:32,630 --> 00:25:28,640
eric is meticulous and very detailed um

705
00:25:34,870 --> 00:25:32,640
he'll collect the data and then um

706
00:25:37,669 --> 00:25:34,880
you know maybe maybe it helps out maybe

707
00:25:39,029 --> 00:25:37,679
it doesn't but it also allows him

708
00:25:40,870 --> 00:25:39,039
and and now

709
00:25:43,190 --> 00:25:40,880
i have to say you know we were all

710
00:25:44,390 --> 00:25:43,200
skeptical when we started this and this

711
00:25:46,470 --> 00:25:44,400
has been a

712
00:25:48,310 --> 00:25:46,480
it's been a journey for all of us we're

713
00:25:50,710 --> 00:25:48,320

not professional paranormal

714

00:25:53,510 --> 00:25:50,720

investigators we i didn't go to college

715

00:25:55,110 --> 00:25:53,520

for that neither did anybody else right

716

00:25:57,669 --> 00:25:55,120

and so

717

00:26:00,549 --> 00:25:57,679

there's been a learning curve here

718

00:26:03,029 --> 00:26:00,559

of oh something's happening i need to

719

00:26:04,549 --> 00:26:03,039

have presence of mind to get a timestamp

720

00:26:07,430 --> 00:26:04,559

right that's

721

00:26:08,870 --> 00:26:07,440

so critical but and it sounds simple and

722

00:26:12,390 --> 00:26:08,880

yet

723

00:26:15,029 --> 00:26:12,400

i have to admit like i'm well into the

724

00:26:16,789 --> 00:26:15,039

well into my time at the ranch before i

725

00:26:19,190 --> 00:26:16,799

finally have gotten to the point where

726

00:26:21,510 --> 00:26:19,200

something happens i'm like timestamp

727

00:26:23,669 --> 00:26:21,520

you know and sometimes it requires notes

728

00:26:26,230 --> 00:26:23,679

so that i can tell eric go back and look

729

00:26:28,870 --> 00:26:26,240

at the equipment did we see

730

00:26:30,710 --> 00:26:28,880

an rf spike did we see gamma rays did we

731

00:26:32,870 --> 00:26:30,720

see something on the cameras

732

00:26:34,710 --> 00:26:32,880

and so yeah you're right like we always

733

00:26:36,549 --> 00:26:34,720

report that and then eric that gives

734

00:26:38,230 --> 00:26:36,559

eric the ability to go back and say did

735

00:26:39,750 --> 00:26:38,240

we see anything happening across the

736

00:26:41,990 --> 00:26:39,760

ranch did

737

00:26:44,870 --> 00:26:42,000

was there an rf spike can we explain

738

00:26:47,669 --> 00:26:44,880

this phone going crazy with maybe a high

739

00:26:49,350 --> 00:26:47,679

spike the problem with the rf though

740

00:26:51,110 --> 00:26:49,360

i mean we've we've got tri-filled meters

741

00:26:53,350 --> 00:26:51,120

that do the rf but when we're talking

742

00:26:56,870 --> 00:26:53,360

about spectrum analyzers

743

00:26:58,310 --> 00:26:56,880

the spectrum is so massive

744

00:27:00,950 --> 00:26:58,320

that

745

00:27:02,710 --> 00:27:00,960

to to try to watch the entire spectrum

746

00:27:06,630 --> 00:27:02,720

is yes

747

00:27:08,070 --> 00:27:06,640

the data that it requires it's it's it's

748

00:27:09,990 --> 00:27:08,080

it's like looking for a needle in a

749

00:27:11,190 --> 00:27:10,000

haystack is what it's like

750

00:27:13,029 --> 00:27:11,200

yeah sure

751
00:27:14,789 --> 00:27:13,039
i just want to take a second to thank mr

752
00:27:17,350 --> 00:27:14,799
gary voorhees junior thank you for the

753
00:27:19,510 --> 00:27:17,360
20 gary gary says i will forever be

754
00:27:20,389 --> 00:27:19,520
grateful to thomas and dragon for saving

755
00:27:21,510 --> 00:27:20,399
jason

756
00:27:24,310 --> 00:27:21,520
now

757
00:27:26,470 --> 00:27:24,320
it's no secret that the guys at uapx

758
00:27:29,029 --> 00:27:26,480
have visited the ranch in the past year

759
00:27:30,789 --> 00:27:29,039
whether you can talk that much about it

760
00:27:32,310 --> 00:27:30,799
maybe maybe not but can you talk about

761
00:27:34,389 --> 00:27:32,320
what it was like meeting those guys and

762
00:27:36,389 --> 00:27:34,399
working with them in the general

763
00:27:39,269 --> 00:27:36,399

on general terms

764

00:27:41,269 --> 00:27:39,279

well i could just say being

765

00:27:43,669 --> 00:27:41,279

be in my position i can neither confirm

766

00:27:45,510 --> 00:27:43,679

nor deny

767

00:27:47,190 --> 00:27:45,520

their visit but i can't confirm i have

768

00:27:48,870 --> 00:27:47,200

met them and i'll tell you

769

00:27:51,350 --> 00:27:48,880

uh

770

00:27:53,750 --> 00:27:51,360

i very impressed i mean we're talking

771

00:27:56,230 --> 00:27:53,760

about no-nonsense individuals

772

00:28:02,230 --> 00:27:58,310

look i i like getting around people that

773

00:28:03,510 --> 00:28:02,240

i feel are grounded that aren't seeing

774

00:28:06,950 --> 00:28:03,520

i don't like it when i get around people

775

00:28:08,630 --> 00:28:06,960

i feel preconceived agendas like sure

776

00:28:11,029 --> 00:28:08,640

if you have an agenda to prove it's true

777

00:28:13,190 --> 00:28:11,039

or an agenda prove it's not true

778

00:28:15,029 --> 00:28:13,200

uh i'm a skeptical of both ends of the

779

00:28:18,230 --> 00:28:15,039

spectrum right

780

00:28:20,149 --> 00:28:18,240

i like people that are grounded and that

781

00:28:22,149 --> 00:28:20,159

just says you know we'll go wherever the

782

00:28:24,149 --> 00:28:22,159

data takes us and and in meeting those

783

00:28:25,110 --> 00:28:24,159

individuals that's really the way i felt

784

00:28:28,950 --> 00:28:25,120

was

785

00:28:30,470 --> 00:28:28,960

like-minded individuals it's like we're

786

00:28:31,990 --> 00:28:30,480

just going to follow the data

787

00:28:34,789 --> 00:28:32,000

and uh

788

00:28:36,710 --> 00:28:34,799

you know see where it takes us and

789

00:28:40,870 --> 00:28:36,720

to meet them to hear of their own

790

00:28:42,549 --> 00:28:40,880

personal experiences uh i i'm a big fan

791

00:28:43,750 --> 00:28:42,559

i'll i'll say that

792

00:28:45,590 --> 00:28:43,760

that's great to hear and then we

793

00:28:47,430 --> 00:28:45,600

obviously they've got some great work

794

00:28:48,950 --> 00:28:47,440

due to drop soon i think so i think

795

00:28:51,110 --> 00:28:48,960

everybody's looking forward to that so

796

00:28:53,830 --> 00:28:51,120

gary thank you so much brother i really

797

00:28:55,830 --> 00:28:53,840

appreciate it um moving on to one thing

798

00:28:58,789 --> 00:28:55,840

that really really stood out to me and i

799

00:29:00,630 --> 00:28:58,799

think this was in season two was the the

800

00:29:03,269 --> 00:29:00,640

time when the rabbi was brought out to

801
00:29:05,669 --> 00:29:03,279
perform the the ancient ritual um just

802
00:29:07,269 --> 00:29:05,679
out away from homestead 2.

803
00:29:08,389 --> 00:29:07,279
and what we saw on the show was

804
00:29:09,590 --> 00:29:08,399
obviously

805
00:29:11,590 --> 00:29:09,600
this

806
00:29:13,510 --> 00:29:11,600
thing forming uh you know i think it was

807
00:29:16,070 --> 00:29:13,520
above a doorway that i guess i'm just

808
00:29:17,430 --> 00:29:16,080
gonna say it looks looked like a portal

809
00:29:19,510 --> 00:29:17,440
which we know has been reported on the

810
00:29:20,789 --> 00:29:19,520
ranch before temperature drops

811
00:29:22,710 --> 00:29:20,799
drastically

812
00:29:24,789 --> 00:29:22,720
i mean

813
00:29:26,549 --> 00:29:24,799

i have so many questions i i can't

814

00:29:28,230 --> 00:29:26,559

pinpoint one but what

815

00:29:30,310 --> 00:29:28,240

was it was anything ever

816

00:29:32,310 --> 00:29:30,320

did that investigation go on for a lot

817

00:29:34,549 --> 00:29:32,320

longer than we saw were there any

818

00:29:35,990 --> 00:29:34,559

conclusions formed like where are you

819

00:29:38,389 --> 00:29:36,000

with that kind of

820

00:29:43,669 --> 00:29:38,399

strange activity

821

00:29:48,630 --> 00:29:45,510

it seems for every

822

00:29:50,389 --> 00:29:48,640

one answer we get we create a hundred

823

00:29:53,750 --> 00:29:50,399

more questions

824

00:29:57,269 --> 00:29:55,830

you know i so to answer your question

825

00:30:00,389 --> 00:29:57,279

yes

826

00:30:01,350 --> 00:30:00,399

that exercise has caught our attention

827

00:30:03,990 --> 00:30:01,360

um

828

00:30:05,830 --> 00:30:04,000

a lot and

829

00:30:07,990 --> 00:30:05,840

again what we've been dealing with out

830

00:30:10,149 --> 00:30:08,000

there a lot is electromagnetic

831

00:30:13,190 --> 00:30:10,159

interference

832

00:30:16,070 --> 00:30:13,200

frequency right and so

833

00:30:19,190 --> 00:30:16,080

when rabbi ariel is talking about how

834

00:30:22,630 --> 00:30:19,200

his culture the jewish culture has tonal

835

00:30:24,630 --> 00:30:22,640

technologies that can open portals

836

00:30:25,909 --> 00:30:24,640

it gets our attention

837

00:30:27,590 --> 00:30:25,919

and uh

838

00:30:29,190 --> 00:30:27,600

and again like

839

00:30:31,830 --> 00:30:29,200

i'm sorry but

840

00:30:34,870 --> 00:30:31,840

i'm skeptical when we go out there you

841

00:30:37,190 --> 00:30:34,880

know you hear him start doing his chant

842

00:30:39,110 --> 00:30:37,200

and we're all sitting there watching

843

00:30:41,590 --> 00:30:39,120

and uh yeah

844

00:30:44,389 --> 00:30:41,600

you gotta realize

845

00:30:45,909 --> 00:30:44,399

what what you're seeing on tv

846

00:30:47,269 --> 00:30:45,919

you know we film

847

00:30:49,029 --> 00:30:47,279

for months

848

00:30:50,950 --> 00:30:49,039

yeah and

849

00:30:54,070 --> 00:30:50,960

and it's taken down let's see that was

850

00:30:55,750 --> 00:30:54,080

season two so we had ten episodes okay

851
00:30:57,590 --> 00:30:55,760
and and i want the listeners to

852
00:31:00,070 --> 00:30:57,600
understand

853
00:31:01,750 --> 00:31:00,080
so we we film for months and when i say

854
00:31:03,029 --> 00:31:01,760
we film i mean

855
00:31:05,509 --> 00:31:03,039
we're filming

856
00:31:07,350 --> 00:31:05,519
minimum five days a week

857
00:31:09,750 --> 00:31:07,360
and we're on that ranch

858
00:31:12,470 --> 00:31:09,760
there's been times where we film like 16

859
00:31:13,430 --> 00:31:12,480
hours through like our filming days are

860
00:31:14,870 --> 00:31:13,440
long

861
00:31:17,029 --> 00:31:14,880
and when we're not filming we're getting

862
00:31:18,630 --> 00:31:17,039
ready for the next experiment there

863
00:31:20,630 --> 00:31:18,640

there are so many

864

00:31:22,630 --> 00:31:20,640

there were so many times

865

00:31:25,190 --> 00:31:22,640

during filming

866

00:31:25,990 --> 00:31:25,200

uh during our filming interval

867

00:31:29,110 --> 00:31:26,000

where

868

00:31:30,710 --> 00:31:29,120

we would put in long long hours filming

869

00:31:32,870 --> 00:31:30,720

we would finish

870

00:31:35,269 --> 00:31:32,880

then our teams get tired but we've got

871

00:31:37,430 --> 00:31:35,279

an experiment planned you know we're

872

00:31:39,110 --> 00:31:37,440

bringing so and so in from across the

873

00:31:41,590 --> 00:31:39,120

united states

874

00:31:43,190 --> 00:31:41,600

and they're going to be here 8 a.m and

875

00:31:44,389 --> 00:31:43,200

we need to be ready to execute this

876

00:31:47,110 --> 00:31:44,399

experiment

877

00:31:49,430 --> 00:31:47,120

yeah and so what happens we get done

878

00:31:51,269 --> 00:31:49,440

filming and then we literally will spend

879

00:31:52,870 --> 00:31:51,279

the rest of the night preparing for the

880

00:31:54,710 --> 00:31:52,880

experiment

881

00:31:56,389 --> 00:31:54,720

right and um

882

00:31:57,909 --> 00:31:56,399

and then like it's like oh the sun's

883

00:31:59,590 --> 00:31:57,919

back up i need to run home and shower

884

00:32:00,549 --> 00:31:59,600

and get ready so we could start filming

885

00:32:01,990 --> 00:32:00,559

again

886

00:32:04,070 --> 00:32:02,000

and so

887

00:32:07,029 --> 00:32:04,080

the the whole point of this is

888

00:32:09,269 --> 00:32:07,039

is we're talking about months of

889

00:32:10,549 --> 00:32:09,279

experiments and and

890

00:32:11,590 --> 00:32:10,559

and uh

891

00:32:13,590 --> 00:32:11,600

film

892

00:32:15,029 --> 00:32:13,600

and then we have to condense it down to

893

00:32:16,710 --> 00:32:15,039

10

894

00:32:19,430 --> 00:32:16,720

episodes and i ca i don't know what the

895

00:32:21,590 --> 00:32:19,440

exact minute count is somewhere 43 or 47

896

00:32:23,029 --> 00:32:21,600

minutes somebody can yeah somebody can

897

00:32:25,110 --> 00:32:23,039

check that next time when they're

898

00:32:27,029 --> 00:32:25,120

they're looking but

899

00:32:28,870 --> 00:32:27,039

430 minutes

900

00:32:31,190 --> 00:32:28,880

and when you look at the amount of time

901
00:32:33,669 --> 00:32:31,200
and the amount of film that we did

902
00:32:35,430 --> 00:32:33,679
we're talking about one percent so what

903
00:32:37,029 --> 00:32:35,440
you're seeing on tv

904
00:32:39,430 --> 00:32:37,039
is like the exciting parts the

905
00:32:41,430 --> 00:32:39,440
highlights the the the parts that are

906
00:32:43,830 --> 00:32:41,440
gonna captivate the audience what you

907
00:32:45,350 --> 00:32:43,840
don't see is the hours and hours of prep

908
00:32:47,430 --> 00:32:45,360
leading up to it

909
00:32:49,509 --> 00:32:47,440
and sometimes during the experiment the

910
00:32:52,389 --> 00:32:49,519
hours that we did during it in case of

911
00:32:54,230 --> 00:32:52,399
point that the rabbi yeah we we spent a

912
00:32:56,389 --> 00:32:54,240
lot of time there right

913
00:32:57,350 --> 00:32:56,399

um and then of course

914

00:33:02,950 --> 00:32:57,360

the

915

00:33:04,870 --> 00:33:02,960

spends months after we finish filming i

916

00:33:06,870 --> 00:33:04,880

mean months

917

00:33:09,029 --> 00:33:06,880

and and travis too you know but

918

00:33:13,110 --> 00:33:09,039

mainly eric analyzing and sifting

919

00:33:14,710 --> 00:33:13,120

through the mountains of data and so uh

920

00:33:17,029 --> 00:33:14,720

as far as a rabbi

921

00:33:19,590 --> 00:33:17,039

we repeated that twice

922

00:33:21,990 --> 00:33:19,600

the first time we did it

923

00:33:24,789 --> 00:33:22,000

we was live with the rabbi

924

00:33:27,590 --> 00:33:24,799

yeah and it was a warmer night

925

00:33:29,269 --> 00:33:27,600

and what ended up happening is we saw

926

00:33:31,350 --> 00:33:29,279

this this

927

00:33:33,909 --> 00:33:31,360

vortex of cold air

928

00:33:35,750 --> 00:33:33,919

that just kind of like

929

00:33:37,750 --> 00:33:35,760

i mean it's not like it floated in and

930

00:33:39,509 --> 00:33:37,760

floated out

931

00:33:41,029 --> 00:33:39,519

we're watching this thermographic camera

932

00:33:42,149 --> 00:33:41,039

and the flare and all of a sudden you

933

00:33:43,750 --> 00:33:42,159

just start seeing this start

934

00:33:45,830 --> 00:33:43,760

materializing

935

00:33:48,630 --> 00:33:45,840

and it creates this big black hole well

936

00:33:50,870 --> 00:33:48,640

the black hole we ran down there and i

937

00:33:54,389 --> 00:33:50,880

tell you as an individual running into

938

00:33:56,549 --> 00:33:54,399

that i grew up my family

939

00:33:58,310 --> 00:33:56,559

my family has a grocery business

940

00:33:59,269 --> 00:33:58,320

and i grew up walking into the deep

941

00:34:00,710 --> 00:33:59,279

freeze

942

00:34:02,630 --> 00:34:00,720

from

943

00:34:05,190 --> 00:34:02,640

i know what that's like going straight

944

00:34:06,470 --> 00:34:05,200

into the 10 below zero

945

00:34:09,030 --> 00:34:06,480

this was different

946

00:34:11,430 --> 00:34:09,040

this cold like goes through you

947

00:34:12,790 --> 00:34:11,440

it's it's like humid cold it penetrated

948

00:34:15,270 --> 00:34:12,800

and it was like

949

00:34:17,030 --> 00:34:15,280

it was bone chilling and it was so it

950

00:34:18,470 --> 00:34:17,040

was just like a wall

951
00:34:19,829 --> 00:34:18,480
um

952
00:34:21,109 --> 00:34:19,839
obviously we couldn't see anything with

953
00:34:22,470 --> 00:34:21,119
our naked eye

954
00:34:24,310 --> 00:34:22,480
all this is being picked up on the

955
00:34:26,069 --> 00:34:24,320
camera but you know i stopped and

956
00:34:27,349 --> 00:34:26,079
thought about i'm like we hear about

957
00:34:28,710 --> 00:34:27,359
portals

958
00:34:30,790 --> 00:34:28,720
but i don't even know what a portal

959
00:34:33,109 --> 00:34:30,800
looks like

960
00:34:35,510 --> 00:34:33,119
would i know a portal if i saw one and

961
00:34:38,950 --> 00:34:35,520
so you see the thermographic camera you

962
00:34:40,310 --> 00:34:38,960
see this this black vortex well then we

963
00:34:44,790 --> 00:34:40,320

repeated it

964

00:34:47,349 --> 00:34:44,800

and

965

00:34:49,669 --> 00:34:47,359

that the second time we did it it was

966

00:34:52,629 --> 00:34:49,679

cooler outside like i believe the

967

00:34:53,909 --> 00:34:52,639

thermometer was 43 or 47 degrees so it's

968

00:34:55,829 --> 00:34:53,919

cold

969

00:34:58,390 --> 00:34:55,839

and the opposite thing happened we had a

970

00:35:00,310 --> 00:34:58,400

vortex of warm air that materialized

971

00:35:01,109 --> 00:35:00,320

same spot right

972

00:35:03,270 --> 00:35:01,119

so

973

00:35:04,710 --> 00:35:03,280

part of the scientific method or yeah

974

00:35:05,990 --> 00:35:04,720

the scientific method is being able to

975

00:35:08,390 --> 00:35:06,000

repeat your

976

00:35:10,550 --> 00:35:08,400

results so

977

00:35:13,030 --> 00:35:10,560

uh without going in and giving away

978

00:35:14,829 --> 00:35:13,040

anything else just know like any time

979

00:35:17,349 --> 00:35:14,839

that we can produce a

980

00:35:19,109 --> 00:35:17,359

repeatable back now twice is not enough

981

00:35:21,670 --> 00:35:19,119

to say it could have been a coincidence

982

00:35:23,109 --> 00:35:21,680

right yeah and and then the other thing

983

00:35:25,030 --> 00:35:23,119

that happens is that means we need to

984

00:35:27,270 --> 00:35:25,040

create a baseline

985

00:35:29,910 --> 00:35:27,280

do would we see that normally if nothing

986

00:35:32,150 --> 00:35:29,920

if we didn't play a chant is it does it

987

00:35:35,990 --> 00:35:32,160

happen to be something about that

988

00:35:37,750 --> 00:35:36,000

particular geographic location or or the

989

00:35:40,390 --> 00:35:37,760

trees or you know something in the

990

00:35:42,710 --> 00:35:40,400

physical makeup so what it does is it

991

00:35:44,470 --> 00:35:42,720

creates a lot of work groundwork for us

992

00:35:46,310 --> 00:35:44,480

we gotta go get a really good solid

993

00:35:47,430 --> 00:35:46,320

baseline what how does it behave

994

00:35:49,349 --> 00:35:47,440

normally

995

00:35:51,589 --> 00:35:49,359

and and then repeat the experiment more

996

00:35:53,750 --> 00:35:51,599

because again twice could be a

997

00:35:55,990 --> 00:35:53,760

coincidence maybe

998

00:35:57,270 --> 00:35:56,000

but it is it is fascinating that we did

999

00:35:59,109 --> 00:35:57,280

it twice

1000

00:36:01,829 --> 00:35:59,119

and we got the inverse reaction but it

1001

00:36:03,430 --> 00:36:01,839

was the same basic thing

1002

00:36:05,349 --> 00:36:03,440

excellent excellent thank you for that

1003

00:36:07,349 --> 00:36:05,359

and i just want to reiterate for

1004

00:36:09,190 --> 00:36:07,359

everybody watching this live if you do

1005

00:36:11,030 --> 00:36:09,200

have questions please pop them in

1006

00:36:13,829 --> 00:36:11,040

capital letters because i'm switching

1007

00:36:15,910 --> 00:36:13,839

between talking with thomas checking my

1008

00:36:17,349 --> 00:36:15,920

notes and checking the live chat it's

1009

00:36:19,589 --> 00:36:17,359

quite difficult to catch every question

1010

00:36:21,190 --> 00:36:19,599

but capital letters will give you the

1011

00:36:22,790 --> 00:36:21,200

best chance to get them and i will note

1012

00:36:25,589 --> 00:36:22,800

them and ask them towards the end of the

1013

00:36:27,990 --> 00:36:25,599

interview so thank you um

1014

00:36:31,270 --> 00:36:28,000

thomas another thing um you used alpacas

1015

00:36:33,190 --> 00:36:31,280

at one at one point to to bring in now i

1016

00:36:34,790 --> 00:36:33,200

don't know whether that was

1017

00:36:38,230 --> 00:36:34,800

or what the reason was but one thing

1018

00:36:40,870 --> 00:36:38,240

that was uh shown in the series was that

1019

00:36:42,230 --> 00:36:40,880

there was a time where you discovered

1020

00:36:44,470 --> 00:36:42,240

they'd been attacked and there were bite

1021

00:36:46,230 --> 00:36:44,480

marks did anything ever get

1022

00:36:48,550 --> 00:36:46,240

you know did that get sorted did you

1023

00:36:49,270 --> 00:36:48,560

find out what had done the the bites was

1024

00:36:54,950 --> 00:36:49,280

it

1025

00:36:57,829 --> 00:36:54,960

anomalous

1026

00:37:03,109 --> 00:37:00,230

i'm going to have to be very politically

1027

00:37:07,270 --> 00:37:04,630

here's the thing we always want to be

1028

00:37:09,109 --> 00:37:07,280

completely transparent and that was

1029

00:37:10,950 --> 00:37:09,119

uh i

1030

00:37:13,190 --> 00:37:10,960

i love the professionals that we work

1031

00:37:15,349 --> 00:37:13,200

with with the production team the entire

1032

00:37:17,510 --> 00:37:15,359

group from the top down you know at

1033

00:37:20,470 --> 00:37:17,520

first it was kevin burns and then

1034

00:37:24,150 --> 00:37:20,480

you know kevin passed away and and now

1035

00:37:25,030 --> 00:37:24,160

we um we have joe lassard and his and

1036

00:37:26,710 --> 00:37:25,040

kim

1037

00:37:28,950 --> 00:37:26,720

they're all professionals from the top

1038

00:37:29,910 --> 00:37:28,960

down and i have nothing but admiration

1039

00:37:32,790 --> 00:37:29,920

and

1040

00:37:34,710 --> 00:37:32,800

i mean this group of people is

1041

00:37:37,030 --> 00:37:34,720

we couldn't ask for any better right

1042

00:37:39,030 --> 00:37:37,040

sure and one of the agreements when we

1043

00:37:42,150 --> 00:37:39,040

went into this was that we were never to

1044

00:37:43,670 --> 00:37:42,160

fabricate we brandon was crystal clear

1045

00:37:45,430 --> 00:37:43,680

like if you're going to come in and

1046

00:37:46,470 --> 00:37:45,440

document our investigation then you're

1047

00:37:47,910 --> 00:37:46,480

going to document it we're not

1048

00:37:49,510 --> 00:37:47,920

fabricating anything we're not going to

1049

00:37:50,710 --> 00:37:49,520

embellish anything

1050

00:37:53,990 --> 00:37:50,720

you know

1051
00:37:56,630 --> 00:37:54,000
uh are we willing to re uh reenact

1052
00:37:58,150 --> 00:37:56,640
something that maybe wasn't a camera

1053
00:38:01,349 --> 00:37:58,160
as long as it's

1054
00:38:05,270 --> 00:38:01,359
what really happened right we're not

1055
00:38:06,710 --> 00:38:05,280
gonna recreate and embellish

1056
00:38:08,710 --> 00:38:06,720
our scientists

1057
00:38:10,390 --> 00:38:08,720
eric and travis are like we got too much

1058
00:38:11,670 --> 00:38:10,400
on the line credibility wise to be

1059
00:38:13,109 --> 00:38:11,680
fabricating

1060
00:38:15,589 --> 00:38:13,119
that being said

1061
00:38:17,430 --> 00:38:15,599
uh you also have to allow a little bit

1062
00:38:18,630 --> 00:38:17,440
of uh

1063
00:38:20,630 --> 00:38:18,640

if you were to watch just the pure

1064

00:38:23,030 --> 00:38:20,640

science on tv our ratings would probably

1065

00:38:24,790 --> 00:38:23,040

be you know the 100 people out there in

1066

00:38:26,870 --> 00:38:24,800

the world that that did that kind of

1067

00:38:28,230 --> 00:38:26,880

thing but your average person coming

1068

00:38:29,910 --> 00:38:28,240

home from work that just wants to turn

1069

00:38:31,190 --> 00:38:29,920

the tv on and be entertained is not

1070

00:38:33,430 --> 00:38:31,200

going to like that

1071

00:38:35,910 --> 00:38:33,440

so there has to be a give and take you

1072

00:38:37,829 --> 00:38:35,920

know they add in their music

1073

00:38:39,910 --> 00:38:37,839

uh sometimes we laugh because you get

1074

00:38:42,230 --> 00:38:39,920

the looks you know like oh yeah and

1075

00:38:44,230 --> 00:38:42,240

you're like wait a second here right we

1076

00:38:46,710 --> 00:38:44,240

gotta we gotta add the drama in the

1077

00:38:47,910 --> 00:38:46,720

alpaca episode is one

1078

00:38:49,589 --> 00:38:47,920

um

1079

00:38:51,030 --> 00:38:49,599

and and it's been a learning experience

1080

00:38:53,270 --> 00:38:51,040

for all of us but that's one where we

1081

00:38:55,430 --> 00:38:53,280

got a little bit upset

1082

00:38:56,710 --> 00:38:55,440

did they lie no

1083

00:38:59,030 --> 00:38:56,720

they didn't

1084

00:39:02,150 --> 00:38:59,040

because you can look you can edit me to

1085

00:39:04,069 --> 00:39:02,160

make me look say and do almost anything

1086

00:39:04,950 --> 00:39:04,079

they have a camera on me 16 hours of the

1087

00:39:05,910 --> 00:39:04,960

day

1088

00:39:08,069 --> 00:39:05,920

yeah

1089

00:39:10,310 --> 00:39:08,079

they have enough probably to sink me

1090

00:39:12,310 --> 00:39:10,320

forever

1091

00:39:14,310 --> 00:39:12,320

right

1092

00:39:16,069 --> 00:39:14,320

so with the alpacas

1093

00:39:19,030 --> 00:39:16,079

here here's the facts that we have at

1094

00:39:21,430 --> 00:39:19,040

the alpacas did the camera

1095

00:39:23,670 --> 00:39:21,440

facing that direction work no it didn't

1096

00:39:25,829 --> 00:39:23,680

do we know why no we don't

1097

00:39:27,829 --> 00:39:25,839

is that strange yes it is

1098

00:39:30,950 --> 00:39:27,839

was that the only camera on skinwalker

1099

00:39:31,910 --> 00:39:30,960

ranch during that no it wasn't

1100

00:39:34,150 --> 00:39:31,920

uh

1101

00:39:36,870 --> 00:39:34,160

so were we able to get other camera

1102

00:39:37,670 --> 00:39:36,880

angles not of the corel per se right

1103

00:39:39,589 --> 00:39:37,680

right

1104

00:39:41,109 --> 00:39:39,599

but do we have other angles of coming

1105

00:39:42,950 --> 00:39:41,119

and going off the ranch that maybe

1106

00:39:43,829 --> 00:39:42,960

allowed us to see what that was yes we

1107

00:39:45,589 --> 00:39:43,839

did

1108

00:39:49,270 --> 00:39:45,599

and

1109

00:39:51,030 --> 00:39:49,280

it was played off as if we weren't sure

1110

00:39:53,990 --> 00:39:51,040

what it was and yet

1111

00:39:56,230 --> 00:39:54,000

you know it was a pack of of uh tribal

1112

00:39:57,430 --> 00:39:56,240

dogs

1113

00:39:59,349 --> 00:39:57,440

right

1114

00:40:00,230 --> 00:39:59,359

that attack the alpacas

1115

00:40:02,150 --> 00:40:00,240

now

1116

00:40:05,109 --> 00:40:02,160

there's nothing strange about tribal

1117

00:40:06,870 --> 00:40:05,119

dogs attacking alpacas except for

1118

00:40:09,190 --> 00:40:06,880

and this is this is where we're telling

1119

00:40:11,510 --> 00:40:09,200

them like guys in the future like let's

1120

00:40:13,190 --> 00:40:11,520

frame this a little bit different and

1121

00:40:15,190 --> 00:40:13,200

rather than the way it was framed which

1122

00:40:17,670 --> 00:40:15,200

we i have to say our team was a little

1123

00:40:19,589 --> 00:40:17,680

upset about the way that that once and

1124

00:40:21,670 --> 00:40:19,599

it and i'll tell you it's only been that

1125

00:40:23,109 --> 00:40:21,680

one episode we've been fine with pretty

1126

00:40:25,030 --> 00:40:23,119

much everything else

1127

00:40:27,910 --> 00:40:25,040

that one episode

1128

00:40:29,270 --> 00:40:27,920

here's the things is we've had animals

1129

00:40:31,109 --> 00:40:29,280

up to that point we've had animals on

1130

00:40:32,790 --> 00:40:31,119

that ranch for a couple of years and

1131

00:40:35,030 --> 00:40:32,800

nothing's touched them

1132

00:40:35,990 --> 00:40:35,040

we had calves there

1133

00:40:37,910 --> 00:40:36,000

you know

1134

00:40:39,829 --> 00:40:37,920

we've had other animals on the ranch and

1135

00:40:42,150 --> 00:40:39,839

those dogs have i see those dogs every

1136

00:40:43,990 --> 00:40:42,160

day when i come in and out they've

1137

00:40:45,349 --> 00:40:44,000

they've stayed put they haven't attacked

1138

00:40:47,589 --> 00:40:45,359

anything

1139

00:40:48,710 --> 00:40:47,599

we bring alpacas on and literally we

1140

00:40:49,990 --> 00:40:48,720

have them in the corral right by the

1141

00:40:51,349 --> 00:40:50,000

command center

1142

00:40:53,349 --> 00:40:51,359

and within

1143

00:40:54,470 --> 00:40:53,359

less than 12 hours of them arriving at

1144

00:40:58,309 --> 00:40:54,480

the ranch

1145

00:41:01,829 --> 00:40:58,319

here's comes his pack and attacks them

1146

00:41:03,910 --> 00:41:01,839

that i find kind of strange like

1147

00:41:06,309 --> 00:41:03,920

did something affect those dogs that

1148

00:41:07,430 --> 00:41:06,319

made them were the alpacas carrying a

1149

00:41:09,510 --> 00:41:07,440

scent that

1150

00:41:12,470 --> 00:41:09,520

i don't know what it was and why did

1151
00:41:14,230 --> 00:41:12,480
that camera quit working right so there

1152
00:41:16,230 --> 00:41:14,240
there are definitely strange things

1153
00:41:17,430 --> 00:41:16,240
surrounding that whole incident we don't

1154
00:41:19,670 --> 00:41:17,440
know

1155
00:41:22,470 --> 00:41:19,680
why we can go a couple years and never

1156
00:41:25,510 --> 00:41:22,480
have so much as a hiccup and then bam we

1157
00:41:27,750 --> 00:41:25,520
bring on alpacas this exotic meat this

1158
00:41:29,349 --> 00:41:27,760
weed joke you know uh these exotic

1159
00:41:30,309 --> 00:41:29,359
animals and and look

1160
00:41:32,710 --> 00:41:30,319
uh

1161
00:41:34,870 --> 00:41:32,720
we're all of us on there are animal

1162
00:41:37,030 --> 00:41:34,880
lovers and this was the other thing is

1163
00:41:39,030 --> 00:41:37,040

like we would never intentionally try to

1164

00:41:40,230 --> 00:41:39,040

put an animal in harm's way

1165

00:41:41,829 --> 00:41:40,240

uh

1166

00:41:43,589 --> 00:41:41,839

do we have the animals on there for

1167

00:41:45,990 --> 00:41:43,599

biosensors have there been cattle

1168

00:41:48,390 --> 00:41:46,000

mutilations there yes

1169

00:41:50,230 --> 00:41:48,400

are we curious about that absolutely but

1170

00:41:52,230 --> 00:41:50,240

are we out there like intentionally

1171

00:41:54,150 --> 00:41:52,240

trying to put animals in harm's way so

1172

00:41:56,470 --> 00:41:54,160

we can advance science absolutely not

1173

00:41:58,710 --> 00:41:56,480

and we actually had the alpacas closest

1174

00:42:00,069 --> 00:41:58,720

to the command center literally like

1175

00:42:01,829 --> 00:42:00,079

we're talking

1176
00:42:04,550 --> 00:42:01,839
less than 50 feet away from the command

1177
00:42:06,870 --> 00:42:04,560
center here's the alpacas for the night

1178
00:42:09,670 --> 00:42:06,880
they get attacked we don't know why the

1179
00:42:12,790 --> 00:42:09,680
camera misbehaved and i definitely don't

1180
00:42:15,430 --> 00:42:12,800
understand why those dogs which

1181
00:42:16,950 --> 00:42:15,440
came on and attacked

1182
00:42:18,950 --> 00:42:16,960
why did they choose

1183
00:42:20,630 --> 00:42:18,960
what made him do it right it wasn't a

1184
00:42:22,790 --> 00:42:20,640
characteristic with the other three

1185
00:42:23,990 --> 00:42:22,800
years of baseline that we had

1186
00:42:25,990 --> 00:42:24,000
yeah absolutely that's a long

1187
00:42:27,589 --> 00:42:26,000
explanation but i don't want to say

1188
00:42:30,390 --> 00:42:27,599

i have to

1189

00:42:31,829 --> 00:42:30,400

it wasn't fabricated but the way that

1190

00:42:34,710 --> 00:42:31,839

things can be

1191

00:42:37,430 --> 00:42:34,720

perceived is

1192

00:42:39,750 --> 00:42:37,440

is amazing through editing right no

1193

00:42:41,109 --> 00:42:39,760

absolutely i'm with you i i really do it

1194

00:42:42,790 --> 00:42:41,119

i appreciate you

1195

00:42:45,190 --> 00:42:42,800

going into that kind of depth of detail

1196

00:42:46,710 --> 00:42:45,200

so so thank you um now i'm just going to

1197

00:42:47,910 --> 00:42:46,720

ask you this question but i'm afraid i'm

1198

00:42:49,670 --> 00:42:47,920

going to have to check on my daughter so

1199

00:42:51,190 --> 00:42:49,680

i will hear the answer through these but

1200

00:42:53,510 --> 00:42:51,200

i'm going to ask you my good friend

1201

00:42:55,349 --> 00:42:53,520

benji asks thomas how has your

1202

00:42:58,390 --> 00:42:55,359

experiences at the ranch changed your

1203

00:43:01,990 --> 00:42:58,400

personal outlook on life the world

1204

00:43:03,510 --> 00:43:02,000

and your relationship with others

1205

00:43:04,470 --> 00:43:03,520

that's a great question

1206

00:43:07,910 --> 00:43:04,480

um

1207

00:43:07,920 --> 00:43:11,270

it's completely changed

1208

00:43:19,349 --> 00:43:12,790

the world

1209

00:43:22,710 --> 00:43:19,359

wake up before the ranch

1210

00:43:24,470 --> 00:43:22,720

and uh i do get asked this quite a bit

1211

00:43:26,309 --> 00:43:24,480

and

1212

00:43:32,309 --> 00:43:26,319

whoops

1213

00:43:32,319 --> 00:43:36,630

are you still there

1214

00:43:41,109 --> 00:43:38,069

yeah just had to check on my daughter

1215

00:43:42,630 --> 00:43:41,119

sorry she's okay you okay

1216

00:43:45,910 --> 00:43:42,640

something happened as long as you can

1217

00:43:47,270 --> 00:43:45,920

see me my computer just went blank

1218

00:43:50,069 --> 00:43:47,280

you can hear me

1219

00:43:51,750 --> 00:43:50,079

i can hear you fine can you see me

1220

00:43:55,270 --> 00:43:51,760

i can't see you yeah

1221

00:43:56,950 --> 00:43:55,280

okay well i can't see you anymore but

1222

00:44:00,230 --> 00:43:56,960

i'm staring at you

1223

00:44:04,069 --> 00:44:01,990

as long as your head's good we're good

1224

00:44:07,270 --> 00:44:04,079

i'm i'm staring at a

1225

00:44:09,190 --> 00:44:07,280

at a it's it's it's blurry it's like a

1226

00:44:12,710 --> 00:44:09,200

blank blurry screen but anyways it

1227

00:44:14,309 --> 00:44:12,720

doesn't matter um back to your question

1228

00:44:15,910 --> 00:44:14,319

i've witnessed too many things on the

1229

00:44:19,030 --> 00:44:15,920

ranch that i

1230

00:44:20,230 --> 00:44:19,040

i can't explain um

1231

00:44:23,030 --> 00:44:20,240

probably the most traumatic thing that

1232

00:44:24,870 --> 00:44:23,040

happened to me was my head injury which

1233

00:44:26,069 --> 00:44:24,880

um you know they talk a little bit about

1234

00:44:27,670 --> 00:44:26,079

on the show

1235

00:44:29,030 --> 00:44:27,680

um

1236

00:44:30,950 --> 00:44:29,040

there is

1237

00:44:32,790 --> 00:44:30,960

there's so much to my head injury that

1238

00:44:35,030 --> 00:44:32,800

took place

1239

00:44:36,790 --> 00:44:35,040

there's the physical aspects there's the

1240

00:44:38,470 --> 00:44:36,800

psychological things that took place

1241

00:44:40,390 --> 00:44:38,480

during that there's been the

1242

00:44:41,829 --> 00:44:40,400

investigation on it that's happened

1243

00:44:44,470 --> 00:44:41,839

since

1244

00:44:48,150 --> 00:44:44,480

and uh it's hard to say

1245

00:44:50,390 --> 00:44:48,160

which aspect has been most disturbing

1246

00:44:52,069 --> 00:44:50,400

i'd say the physical part which was

1247

00:44:53,670 --> 00:44:52,079

absolutely the most

1248

00:44:55,270 --> 00:44:53,680

horrendous thing i've experienced

1249

00:44:57,430 --> 00:44:55,280

physically in my life

1250

00:44:58,950 --> 00:44:57,440

uh the pain was

1251
00:45:01,829 --> 00:44:58,960
indescribable

1252
00:45:03,990 --> 00:45:01,839
um you know they show on tv they show

1253
00:45:07,750 --> 00:45:04,000
the bump on the back of my head well

1254
00:45:09,109 --> 00:45:07,760
yeah yeah that that specific brain scan

1255
00:45:12,790 --> 00:45:09,119
that i think

1256
00:45:14,870 --> 00:45:12,800
that's why they chose that one or maybe

1257
00:45:16,550 --> 00:45:14,880
that's the only one i gave them i'm not

1258
00:45:19,510 --> 00:45:16,560
quite sure to be honest because they

1259
00:45:21,589 --> 00:45:19,520
they asked for them um

1260
00:45:23,910 --> 00:45:21,599
and i shared some with them but

1261
00:45:26,390 --> 00:45:23,920
that particular scan happens to be after

1262
00:45:28,870 --> 00:45:26,400
i was operated on so

1263
00:45:30,790 --> 00:45:28,880

my head complete i had fluid that came

1264

00:45:33,270 --> 00:45:30,800

in and completely separated the fatty

1265

00:45:35,750 --> 00:45:33,280

tissue for my skull

1266

00:45:37,430 --> 00:45:35,760

and to where like by the end of the the

1267

00:45:39,910 --> 00:45:37,440

second or third day i could grab my hair

1268

00:45:42,150 --> 00:45:39,920

and walk my my head around you know it

1269

00:45:44,630 --> 00:45:42,160

wasn't attached so i could grab it and

1270

00:45:46,950 --> 00:45:44,640

move it around it was it was completely

1271

00:45:48,950 --> 00:45:46,960

and and they came in and did an incision

1272

00:45:49,829 --> 00:45:48,960

on the back and so that it could drain

1273

00:45:51,670 --> 00:45:49,839

out

1274

00:45:54,390 --> 00:45:51,680

and so everything like the fluid and

1275

00:45:56,790 --> 00:45:54,400

everything pulled back to that spot and

1276

00:45:59,109 --> 00:45:56,800

i get a lot of uh questions on this

1277

00:46:00,710 --> 00:45:59,119

online they're like oh you say that the

1278

00:46:02,470 --> 00:46:00,720

injury happened on the backs the

1279

00:46:04,790 --> 00:46:02,480

injuries was back here on the back of my

1280

00:46:06,230 --> 00:46:04,800

head and yet the cat scan shows it up on

1281

00:46:07,829 --> 00:46:06,240

the top and they're like you know you're

1282

00:46:09,270 --> 00:46:07,839

not even pointing to the same place well

1283

00:46:10,069 --> 00:46:09,280

that's because

1284

00:46:12,390 --> 00:46:10,079

uh

1285

00:46:14,790 --> 00:46:12,400

that is actually where they put the

1286

00:46:17,109 --> 00:46:14,800

little wick in that and so all that

1287

00:46:19,750 --> 00:46:17,119

fluid and everything was was coming back

1288

00:46:22,309 --> 00:46:19,760

to that spot and that particular

1289

00:46:23,109 --> 00:46:22,319

brain scan shows that pulled up right

1290

00:46:25,910 --> 00:46:23,119

there

1291

00:46:28,950 --> 00:46:25,920

but it happened all over my head and it

1292

00:46:30,950 --> 00:46:28,960

it was very traumatic um

1293

00:46:33,589 --> 00:46:30,960

you know i i'm not to the point yet that

1294

00:46:36,230 --> 00:46:33,599

i i feel comfortable talking about it

1295

00:46:39,430 --> 00:46:36,240

much in public sure um maybe that'll

1296

00:46:41,030 --> 00:46:39,440

change in the future i don't know uh

1297

00:46:42,550 --> 00:46:41,040

but

1298

00:46:48,710 --> 00:46:42,560

that

1299

00:46:50,470 --> 00:46:48,720

almost everything for me so

1300

00:46:52,710 --> 00:46:50,480

um

1301
00:46:55,510 --> 00:46:52,720
i i witnessed and experienced too much

1302
00:46:56,950 --> 00:46:55,520
to be the same person as i was before

1303
00:46:58,950 --> 00:46:56,960
and uh

1304
00:47:00,550 --> 00:46:58,960
and so i've come to the conclusion that

1305
00:47:02,230 --> 00:47:00,560
there's a lot in this world we don't

1306
00:47:04,390 --> 00:47:02,240
understand that's that's how i

1307
00:47:05,910 --> 00:47:04,400
compartmentalize it

1308
00:47:07,990 --> 00:47:05,920
that's a great answer and thank you so

1309
00:47:09,349 --> 00:47:08,000
much for sharing that with us it must be

1310
00:47:11,510 --> 00:47:09,359
difficult to

1311
00:47:12,630 --> 00:47:11,520
to relive and and go through those those

1312
00:47:15,030 --> 00:47:12,640
kind of things so it is really

1313
00:47:16,630 --> 00:47:15,040

appreciated now that small technical

1314

00:47:18,309 --> 00:47:16,640

issue that we just had right there just

1315

00:47:20,470 --> 00:47:18,319

automatically pinged in my head to

1316

00:47:21,990 --> 00:47:20,480

something like hitchhiker effect or

1317

00:47:23,270 --> 00:47:22,000

something like that

1318

00:47:24,870 --> 00:47:23,280

is that something that you have

1319

00:47:26,630 --> 00:47:24,880

experienced personally where you've gone

1320

00:47:27,910 --> 00:47:26,640

home and you've had strange things

1321

00:47:30,230 --> 00:47:27,920

happen like you've

1322

00:47:32,309 --> 00:47:30,240

you've taken it home with you

1323

00:47:37,109 --> 00:47:32,319

that's been the worst part of being

1324

00:47:39,030 --> 00:47:37,119

associated with the ranch is wow um yes

1325

00:47:40,390 --> 00:47:39,040

we've had many many traumatic things

1326

00:47:43,349 --> 00:47:40,400

happen at home

1327

00:47:44,870 --> 00:47:43,359

um unfortunately my wife and kids have

1328

00:47:46,309 --> 00:47:44,880

been affected

1329

00:47:48,950 --> 00:47:46,319

um

1330

00:47:50,870 --> 00:47:48,960

and you know i can handle if stuff

1331

00:47:53,109 --> 00:47:50,880

happens to me that's fine it was my

1332

00:47:54,710 --> 00:47:53,119

personal choice to be involved now did i

1333

00:47:56,950 --> 00:47:54,720

know what i was getting into i i

1334

00:47:58,549 --> 00:47:56,960

absolutely didn't

1335

00:48:00,150 --> 00:47:58,559

there's part of me sometimes that wishes

1336

00:48:01,190 --> 00:48:00,160

i would have taken it more serious when

1337

00:48:03,510 --> 00:48:01,200

i went on

1338

00:48:05,430 --> 00:48:03,520

uh but yeah hindsight's 20 20. i don't

1339

00:48:07,510 --> 00:48:05,440

believe in looking back and saying what

1340

00:48:09,990 --> 00:48:07,520

if um

1341

00:48:11,990 --> 00:48:10,000

it is what it is the unfortunate thing

1342

00:48:14,470 --> 00:48:12,000

is is that by the time i realized it was

1343

00:48:15,750 --> 00:48:14,480

real it was too late and

1344

00:48:17,030 --> 00:48:15,760

yes

1345

00:48:19,910 --> 00:48:17,040

we've had

1346

00:48:24,230 --> 00:48:19,920

more traumatic things happen at my house

1347

00:48:27,349 --> 00:48:24,240

in the privacy of my home then then uh

1348

00:48:29,349 --> 00:48:27,359

unfortunately it it's the part that in

1349

00:48:32,309 --> 00:48:29,359

some ways breaks my heart

1350

00:48:34,870 --> 00:48:32,319

uh i had my son pull me aside

1351
00:48:36,870 --> 00:48:34,880
before we started filming season two

1352
00:48:38,150 --> 00:48:36,880
and uh he pulled me aside and he's like

1353
00:48:41,030 --> 00:48:38,160
dad

1354
00:48:43,109 --> 00:48:41,040
like are you sure it's all worth it

1355
00:48:45,270 --> 00:48:43,119
and uh

1356
00:48:46,790 --> 00:48:45,280
and and i i had to really pause and

1357
00:48:48,710 --> 00:48:46,800
think about that

1358
00:48:50,390 --> 00:48:48,720
and the the the issue with the

1359
00:48:52,309 --> 00:48:50,400
hitchhiker effect is

1360
00:48:54,710 --> 00:48:52,319
if i thought that i could leave that

1361
00:48:56,470 --> 00:48:54,720
ranch and it wouldn't and it would leave

1362
00:48:58,870 --> 00:48:56,480
me alone if i could leave the ranch and

1363
00:48:59,750 --> 00:48:58,880

the ranch would leave me

1364

00:49:11,589 --> 00:48:59,760

i

1365

00:49:14,230 --> 00:49:11,599

been on that ranch

1366

00:49:17,030 --> 00:49:14,240

who took the hitchhiker effect home

1367

00:49:18,870 --> 00:49:17,040

and long after they disassociated with

1368

00:49:20,470 --> 00:49:18,880

the ranch and when i say disassociated

1369

00:49:23,030 --> 00:49:20,480

some of these individuals have gone to

1370

00:49:25,910 --> 00:49:23,040

pretty far extremes

1371

00:49:27,190 --> 00:49:25,920

you know burning clothes and stuff i i

1372

00:49:28,710 --> 00:49:27,200

don't know if they've literally burned

1373

00:49:31,190 --> 00:49:28,720

clothes but i'm just saying they've gone

1374

00:49:33,030 --> 00:49:31,200

to extremes anything associated with the

1375

00:49:33,829 --> 00:49:33,040

ranch they have

1376

00:49:35,990 --> 00:49:33,839

they've

1377

00:49:37,510 --> 00:49:36,000

ridded themselves of and and you know

1378

00:49:39,910 --> 00:49:37,520

smudged themselves

1379

00:49:43,270 --> 00:49:39,920

trying to put distance between them the

1380

00:49:45,349 --> 00:49:43,280

ranch and uh to no avail

1381

00:49:47,270 --> 00:49:45,359

so i look at that and i say well i see a

1382

00:49:48,950 --> 00:49:47,280

lot of examples here of individuals that

1383

00:49:50,710 --> 00:49:48,960

tried to leave the ranch but the ranch

1384

00:49:53,270 --> 00:49:50,720

never left them alone

1385

00:49:55,030 --> 00:49:53,280

and so if i can't be guaranteed that me

1386

00:49:56,390 --> 00:49:55,040

exiting the ranch

1387

00:49:57,910 --> 00:49:56,400

is going to

1388

00:49:59,030 --> 00:49:57,920

guarantee that my family's going to be

1389

00:50:00,630 --> 00:49:59,040

left alone

1390

00:50:02,549 --> 00:50:00,640

then if we're going to continue to be

1391

00:50:04,870 --> 00:50:02,559

terrorized i might as well be in the

1392

00:50:06,950 --> 00:50:04,880

middle of it and trying to find answers

1393

00:50:08,950 --> 00:50:06,960

and and trying to figure out what it is

1394

00:50:10,950 --> 00:50:08,960

that's affecting us

1395

00:50:12,870 --> 00:50:10,960

i actually think it'd be worse if i

1396

00:50:14,630 --> 00:50:12,880

leave the ranch and then i my family

1397

00:50:15,589 --> 00:50:14,640

continues to suffer the effects of the

1398

00:50:17,190 --> 00:50:15,599

ranch

1399

00:50:18,950 --> 00:50:17,200

but i have no

1400

00:50:20,549 --> 00:50:18,960

connection you know no communication

1401

00:50:22,549 --> 00:50:20,559

with a scientist i don't have a team

1402

00:50:24,390 --> 00:50:22,559

behind me that i can lean on

1403

00:50:26,390 --> 00:50:24,400

that there sometimes things happen at my

1404

00:50:27,270 --> 00:50:26,400

house and they make us feel like we're

1405

00:50:29,109 --> 00:50:27,280

going

1406

00:50:31,270 --> 00:50:29,119

crazy like we're losing touch with

1407

00:50:32,790 --> 00:50:31,280

reality and there are some days the only

1408

00:50:35,109 --> 00:50:32,800

comforting thing is is to be able to

1409

00:50:38,230 --> 00:50:35,119

reach out to team members say hey hey

1410

00:50:40,470 --> 00:50:38,240

dragon hey eric caleb hey travis or

1411

00:50:43,190 --> 00:50:40,480

whoever it is and have them say oh my

1412

00:50:45,430 --> 00:50:43,200

gosh we had the same thing happen here

1413

00:50:47,109 --> 00:50:45,440

we're we're experiencing this and to be

1414

00:50:48,950 --> 00:50:47,119

able to to lean on each other and

1415

00:50:50,710 --> 00:50:48,960

realize we're not going crazy you know

1416

00:50:51,589 --> 00:50:50,720

we're all experiencing the same thing

1417

00:50:53,109 --> 00:50:51,599

it's

1418

00:50:54,549 --> 00:50:53,119

we tell people the ranch isn't something

1419

00:50:56,470 --> 00:50:54,559

that can be explained it has to be

1420

00:50:58,710 --> 00:50:56,480

something that's experienced and it's

1421

00:50:59,910 --> 00:50:58,720

kind of a small fraternity of

1422

00:51:02,950 --> 00:50:59,920

people that

1423

00:51:04,710 --> 00:51:02,960

that have been there and so uh

1424

00:51:06,710 --> 00:51:04,720

that's one of the things that keeps me

1425

00:51:07,589 --> 00:51:06,720

going back because i'm like

1426

00:51:10,390 --> 00:51:07,599

it's

1427

00:51:11,910 --> 00:51:10,400

kind of i tell people when i when i went

1428

00:51:15,510 --> 00:51:11,920

on the ranch i didn't realize it's like

1429

00:51:17,750 --> 00:51:15,520

the mob there's only one way out and

1430

00:51:19,270 --> 00:51:17,760

so

1431

00:51:21,030 --> 00:51:19,280

it is what it is

1432

00:51:23,109 --> 00:51:21,040

now i really appreciate you saying that

1433

00:51:25,910 --> 00:51:23,119

and it really resonates with me being a

1434

00:51:27,990 --> 00:51:25,920

father i can only begin to imagine what

1435

00:51:30,230 --> 00:51:28,000

you've been through so again i have to

1436

00:51:32,230 --> 00:51:30,240

thank you for sharing that with with us

1437

00:51:35,829 --> 00:51:32,240

it really means a lot so thank you

1438

00:51:37,589 --> 00:51:35,839

um julie bowen asks have you used music

1439

00:51:45,109 --> 00:51:37,599

to try and communicate or cause

1440

00:51:48,829 --> 00:51:47,910

well um

1441

00:51:51,349 --> 00:51:48,839

i'll just

1442

00:51:53,750 --> 00:51:51,359

say there's the official science

1443

00:51:55,589 --> 00:51:53,760

investigation uh that the scientists are

1444

00:51:57,190 --> 00:51:55,599

looking at and of course everything you

1445

00:51:59,589 --> 00:51:57,200

know everything happens there goes in

1446

00:52:00,870 --> 00:51:59,599

the database right you can't separate

1447

00:52:03,430 --> 00:52:00,880

we tell people once you come on the

1448

00:52:05,270 --> 00:52:03,440

ranch you are part of it because yeah

1449

00:52:07,430 --> 00:52:05,280

right so there i wa you know i'm not

1450

00:52:09,829 --> 00:52:07,440

trying to separate it out but i will say

1451
00:52:12,069 --> 00:52:09,839
my wife is extremely gifted with music

1452
00:52:12,950 --> 00:52:12,079
and frequency um

1453
00:52:17,910 --> 00:52:12,960
she

1454
00:52:18,950 --> 00:52:17,920
about it on other podcasts before

1455
00:52:21,750 --> 00:52:18,960
so

1456
00:52:25,190 --> 00:52:21,760
we we have a company

1457
00:52:28,390 --> 00:52:25,200
surrounding it uh resonance meditations

1458
00:52:31,349 --> 00:52:28,400
so music and frequency plays a huge part

1459
00:52:33,430 --> 00:52:31,359
in my life personally uh

1460
00:52:34,390 --> 00:52:33,440
with with my wife being gifted like she

1461
00:52:36,630 --> 00:52:34,400
is

1462
00:52:39,589 --> 00:52:36,640
um where

1463
00:52:41,270 --> 00:52:39,599

it's amazing what frequency can do

1464

00:52:43,670 --> 00:52:41,280

and and because of our research in

1465

00:52:45,750 --> 00:52:43,680

regards to her company and what's being

1466

00:52:48,790 --> 00:52:45,760

done with sound

1467

00:52:50,390 --> 00:52:48,800

in terms of healing in terms of

1468

00:52:52,549 --> 00:52:50,400

you know interacting with the world

1469

00:52:54,870 --> 00:52:52,559

around us everything's frequency albert

1470

00:52:56,630 --> 00:52:54,880

einstein proved that mathematically

1471

00:52:59,270 --> 00:52:56,640

and as such

1472

00:53:02,230 --> 00:52:59,280

uh it it only makes sense that

1473

00:53:04,390 --> 00:53:02,240

music and that can have an effect so

1474

00:53:06,549 --> 00:53:04,400

that being said a kind of long answer to

1475

00:53:07,910 --> 00:53:06,559

question is um

1476
00:53:09,589 --> 00:53:07,920
because of that connection i have

1477
00:53:12,309 --> 00:53:09,599
personally that's something that's

1478
00:53:14,549 --> 00:53:12,319
always on my mind and i'll say that it's

1479
00:53:16,069 --> 00:53:14,559
something that's discussed often among

1480
00:53:19,829 --> 00:53:16,079
us at the ranch

1481
00:53:24,549 --> 00:53:21,990
and i have uh

1482
00:53:27,349 --> 00:53:24,559
yes i'm trying to be careful here i this

1483
00:53:29,030 --> 00:53:27,359
is one of those areas i just need to

1484
00:53:31,109 --> 00:53:29,040
no problem at all with the upcoming

1485
00:53:33,270 --> 00:53:31,119
season you know we'll see yeah

1486
00:53:36,390 --> 00:53:33,280
no that's good good thank you i really

1487
00:53:37,670 --> 00:53:36,400
do appreciate that um jay allen asks

1488
00:53:39,750 --> 00:53:37,680

would you mind asking if they have

1489

00:53:40,790 --> 00:53:39,760

installed any new sensor systems

1490

00:53:43,589 --> 00:53:40,800

recently

1491

00:53:45,829 --> 00:53:43,599

any new telemetry data

1492

00:53:47,670 --> 00:53:45,839

if we've installed any new stuff

1493

00:53:48,549 --> 00:53:47,680

any new sensor systems then i guess the

1494

00:53:50,710 --> 00:53:48,559

second

1495

00:53:52,150 --> 00:53:50,720

question is is there any new telemetry

1496

00:53:54,390 --> 00:53:52,160

data

1497

00:53:56,309 --> 00:53:54,400

uh so we are always

1498

00:53:59,190 --> 00:53:56,319

um upgrading as a matter of fact as soon

1499

00:54:01,990 --> 00:53:59,200

as we got done filming season three

1500

00:54:03,349 --> 00:54:02,000

eric and i uh personally underwent a

1501
00:54:06,150 --> 00:54:03,359
huge

1502
00:54:08,950 --> 00:54:06,160
i'm not going to call it renovation but

1503
00:54:11,349 --> 00:54:08,960
every every year we find

1504
00:54:13,670 --> 00:54:11,359
ways that we can improve our systems

1505
00:54:15,990 --> 00:54:13,680
maybe holes that we had

1506
00:54:17,910 --> 00:54:16,000
because of data that we get we find oh

1507
00:54:21,589 --> 00:54:17,920
we need to be watching this area or we

1508
00:54:27,109 --> 00:54:23,829
the challenges with the ranch is it's

1509
00:54:29,829 --> 00:54:27,119
remote first of all

1510
00:54:31,190 --> 00:54:29,839
and we're trying to have minimal impact

1511
00:54:33,190 --> 00:54:31,200
on the lands

1512
00:54:35,910 --> 00:54:33,200
and then and then you add in the fact

1513
00:54:38,630 --> 00:54:35,920

that even though brandon has done very

1514

00:54:41,910 --> 00:54:38,640

well and is is a very wealthy individual

1515

00:54:42,870 --> 00:54:41,920

we we still operate on a budget right so

1516

00:54:45,109 --> 00:54:42,880

uh

1517

00:54:46,390 --> 00:54:45,119

we still have to be frugal with our

1518

00:54:49,190 --> 00:54:46,400

funds

1519

00:54:51,109 --> 00:54:49,200

and so all those things combined lend to

1520

00:54:52,630 --> 00:54:51,119

an interesting dynamic in the fact that

1521

00:54:55,030 --> 00:54:52,640

when we want to upgrade our systems

1522

00:54:56,870 --> 00:54:55,040

which we're always doing

1523

00:54:59,270 --> 00:54:56,880

we have to figure out a way to get power

1524

00:55:01,030 --> 00:54:59,280

network out in the middle of nowhere

1525

00:55:02,950 --> 00:55:01,040

to run these things

1526

00:55:07,430 --> 00:55:02,960

eric

1527

00:55:08,309 --> 00:55:07,440

we tried to set up a wi-fi mesh at one

1528

00:55:10,630 --> 00:55:08,319

point

1529

00:55:11,750 --> 00:55:10,640

early on it was recommend you know we

1530

00:55:14,230 --> 00:55:11,760

thought well maybe that would be a good

1531

00:55:16,230 --> 00:55:14,240

way to do it but unfortunately because

1532

00:55:18,390 --> 00:55:16,240

of the electronic interference that we

1533

00:55:21,109 --> 00:55:18,400

deal with out there we could never keep

1534

00:55:23,349 --> 00:55:21,119

it up uh the the we couldn't keep the

1535

00:55:25,910 --> 00:55:23,359

wi-fi mesh up it we

1536

00:55:27,510 --> 00:55:25,920

it was so unreliable and and it

1537

00:55:29,190 --> 00:55:27,520

to be honest i don't think that we got

1538

00:55:30,230 --> 00:55:29,200

anything out of it so we've kind of

1539

00:55:32,390 --> 00:55:30,240

learned

1540

00:55:33,430 --> 00:55:32,400

we have to hardwire everything that we

1541

00:55:34,470 --> 00:55:33,440

have

1542

00:55:37,109 --> 00:55:34,480

and so

1543

00:55:39,190 --> 00:55:37,119

uh yes we are always upgrading and as

1544

00:55:41,670 --> 00:55:39,200

soon as we got done filming eric and i

1545

00:55:43,030 --> 00:55:41,680

actually underwent a pretty

1546

00:55:43,990 --> 00:55:43,040

extensive

1547

00:55:48,549 --> 00:55:44,000

uh

1548

00:55:49,589 --> 00:55:48,559

in the middle of upgrading a lot of

1549

00:55:51,510 --> 00:55:49,599

things

1550

00:55:52,870 --> 00:55:51,520

new sensors

1551
00:55:54,950 --> 00:55:52,880
new equipment

1552
00:55:57,510 --> 00:55:54,960
new areas of the ranch

1553
00:55:59,109 --> 00:55:57,520
that we hadn't previously been able to

1554
00:56:00,950 --> 00:55:59,119
get to

1555
00:56:02,870 --> 00:56:00,960
and and that's still in the works even

1556
00:56:05,750 --> 00:56:02,880
today so we're always adding we're

1557
00:56:07,829 --> 00:56:05,760
always improving uh brandon's been very

1558
00:56:09,750 --> 00:56:07,839
supportive you know

1559
00:56:11,430 --> 00:56:09,760
that this is this is an endeavor that's

1560
00:56:13,750 --> 00:56:11,440
not publicly financed

1561
00:56:16,150 --> 00:56:13,760
so when we buy new cameras when we put

1562
00:56:18,630 --> 00:56:16,160
in systems well it that came from

1563
00:56:20,950 --> 00:56:18,640

brandon's hard-earned money that's not

1564

00:56:22,950 --> 00:56:20,960

that's not uh

1565

00:56:24,309 --> 00:56:22,960

that's private money there so we're

1566

00:56:26,069 --> 00:56:24,319

always careful with it but brandon's

1567

00:56:28,150 --> 00:56:26,079

been very very good and very supportive

1568

00:56:30,309 --> 00:56:28,160

and trying to help us make sure that we

1569

00:56:32,309 --> 00:56:30,319

have what we need

1570

00:56:33,109 --> 00:56:32,319

excellent excuse me

1571

00:56:34,789 --> 00:56:33,119

um

1572

00:56:36,069 --> 00:56:34,799

a couple more questions before i let you

1573

00:56:38,069 --> 00:56:36,079

go i really like i said i really

1574

00:56:40,309 --> 00:56:38,079

appreciate your time um

1575

00:56:42,870 --> 00:56:40,319

tina mclaren asks is there any one

1576
00:56:46,150 --> 00:56:42,880
specific type of activity that makes you

1577
00:56:49,829 --> 00:56:46,160
more uncomfortable than the rest

1578
00:56:51,750 --> 00:56:49,839
a specific activity type

1579
00:56:54,390 --> 00:56:51,760
or a specific aspect of the phenomena

1580
00:56:56,069 --> 00:56:54,400
that's more worrying than

1581
00:56:57,270 --> 00:56:56,079
you know yes

1582
00:56:59,990 --> 00:56:57,280
there is

1583
00:57:02,789 --> 00:57:00,000
um and and i'll be honest i just

1584
00:57:04,549 --> 00:57:02,799
discovered it this last summer

1585
00:57:07,109 --> 00:57:04,559
um

1586
00:57:08,230 --> 00:57:07,119
i didn't know it existed

1587
00:57:09,990 --> 00:57:08,240
um

1588
00:57:12,390 --> 00:57:10,000

that's all i could say about it and i'll

1589

00:57:13,990 --> 00:57:12,400

just say stay tuned for the upcoming

1590

00:57:15,190 --> 00:57:14,000

season to air

1591

00:57:17,430 --> 00:57:15,200

because

1592

00:57:18,230 --> 00:57:17,440

i would imagine that

1593

00:57:21,829 --> 00:57:18,240

that

1594

00:57:24,230 --> 00:57:21,839

you're going to see what it is and

1595

00:57:27,430 --> 00:57:24,240

it i i'll just say i

1596

00:57:28,309 --> 00:57:27,440

i didn't sleep for several nights

1597

00:57:29,349 --> 00:57:28,319

uh

1598

00:57:31,109 --> 00:57:29,359

after

1599

00:57:32,710 --> 00:57:31,119

discovering this

1600

00:57:36,950 --> 00:57:32,720

wow

1601
00:57:42,150 --> 00:57:36,960
leads into my final question is which

1602
00:57:47,349 --> 00:57:44,470
season three was intense

1603
00:57:49,829 --> 00:57:48,230
uh

1604
00:57:51,670 --> 00:57:49,839
and i'll be honest

1605
00:57:55,190 --> 00:57:51,680
uh again going back to what i explained

1606
00:57:57,349 --> 00:57:55,200
before we filmed so much uh

1607
00:58:01,190 --> 00:57:57,359
i'm going to be just as surprised as the

1608
00:58:04,950 --> 00:58:03,349
we're watching these episodes there

1609
00:58:06,470 --> 00:58:04,960
i i

1610
00:58:08,710 --> 00:58:06,480
i don't know what's going to make it

1611
00:58:11,510 --> 00:58:08,720
what one percent are they gonna show i'm

1612
00:58:14,549 --> 00:58:11,520
glad i don't have their job because uh

1613
00:58:17,349 --> 00:58:14,559

season three gave us so much material

1614

00:58:20,630 --> 00:58:17,359

that uh you know i'm not i can't say for

1615

00:58:23,030 --> 00:58:20,640

sure what will make it and uh what won't

1616

00:58:24,549 --> 00:58:23,040

but um

1617

00:58:25,990 --> 00:58:24,559

it's gonna season three's gonna be

1618

00:58:27,750 --> 00:58:26,000

intense i'm

1619

00:58:31,270 --> 00:58:27,760

i i've been excited the other two

1620

00:58:34,950 --> 00:58:33,270

and if you'd asked me a couple years ago

1621

00:58:37,030 --> 00:58:34,960

or if you told me a few years ago i was

1622

00:58:39,190 --> 00:58:37,040

going to be on tv i would have laughed

1623

00:58:42,150 --> 00:58:39,200

in your face you know i'm just

1624

00:58:42,950 --> 00:58:42,160

i'm just a small rural boy here in utah

1625

00:58:44,870 --> 00:58:42,960

uh

1626
00:58:45,910 --> 00:58:44,880
never even thought about

1627
00:58:47,990 --> 00:58:45,920
doing

1628
00:58:51,030 --> 00:58:48,000
hollywood tv

1629
00:58:51,829 --> 00:58:51,040
any of this this was so far removed

1630
00:58:56,710 --> 00:58:51,839
so

1631
00:58:59,670 --> 00:58:56,720
gotta see myself on on tv that was kind

1632
00:59:01,510 --> 00:58:59,680
of cool uh but it the excitement for

1633
00:59:03,670 --> 00:59:01,520
season one and two doesn't even begin to

1634
00:59:06,230 --> 00:59:03,680
compare to how excited i am for season

1635
00:59:08,870 --> 00:59:06,240
three uh season three takes a cake by

1636
00:59:11,109 --> 00:59:08,880
far i i cannot wait to see

1637
00:59:13,270 --> 00:59:11,119
what is unveiled because the thing is to

1638
00:59:16,069 --> 00:59:13,280

see after season three airs and we know

1639

00:59:17,670 --> 00:59:16,079

what did and didn't show we're free that

1640

00:59:19,670 --> 00:59:17,680

then we're free to it's kind of like

1641

00:59:21,430 --> 00:59:19,680

talking about those alpacas now right

1642

00:59:23,670 --> 00:59:21,440

like could have never talked about that

1643

00:59:25,990 --> 00:59:23,680

before it aired but now that it's aired

1644

00:59:27,510 --> 00:59:26,000

it gives us a lot of liberty to to go

1645

00:59:29,430 --> 00:59:27,520

beyond what

1646

00:59:31,109 --> 00:59:29,440

was or wasn't shown

1647

00:59:33,510 --> 00:59:31,119

excellent and do we have a release date

1648

00:59:35,109 --> 00:59:33,520

for season three or premiere date

1649

00:59:37,910 --> 00:59:35,119

you know to my knowledge i don't think

1650

00:59:38,789 --> 00:59:37,920

that they've released one yet um

1651

00:59:41,430 --> 00:59:38,799

and

1652

00:59:43,589 --> 00:59:41,440

i i'm not privy to that

1653

00:59:46,390 --> 00:59:43,599

so i'm guessing just like everybody else

1654

00:59:47,349 --> 00:59:46,400

but i know like season one and two

1655

00:59:49,349 --> 00:59:47,359

uh

1656

00:59:51,430 --> 00:59:49,359

if i if my memory serves me right i

1657

00:59:53,190 --> 00:59:51,440

think season one started airing like the

1658

00:59:55,510 --> 00:59:53,200

end of march

1659

00:59:58,230 --> 00:59:55,520

uh and then season two

1660

01:00:01,910 --> 00:59:58,240

was the beginning of may

1661

01:00:03,910 --> 01:00:01,920

so in my mind uh i'm thinking that

1662

01:00:04,950 --> 01:00:03,920

you know it should drop here within the

1663

01:00:06,150 --> 01:00:04,960

next

1664

01:00:07,190 --> 01:00:06,160

couple months

1665

01:00:11,270 --> 01:00:07,200

so

1666

01:00:13,190 --> 01:00:11,280

let's hope that's the case well listen

1667

01:00:15,270 --> 01:00:13,200

thomas thank you so much for doing this

1668

01:00:17,990 --> 01:00:15,280

i really really do appreciate it it's

1669

01:00:19,670 --> 01:00:18,000

been fascinating um

1670

01:00:21,349 --> 01:00:19,680

i hope you'll come back when season

1671

01:00:23,349 --> 01:00:21,359

three maybe midway through or towards

1672

01:00:25,270 --> 01:00:23,359

the end we'll do this again and you may

1673

01:00:28,230 --> 01:00:25,280

be able to you know talk us through some

1674

01:00:30,069 --> 01:00:28,240

of the new findings that happened um i

1675

01:00:32,470 --> 01:00:30,079

know you've got a limited time so i'll

1676

01:00:35,109 --> 01:00:32,480

let you go and then i'll i'll say

1677

01:00:36,630 --> 01:00:35,119

goodbye to my chat here but um is there

1678

01:00:38,230 --> 01:00:36,640

anything you want to say before you go i

1679

01:00:39,030 --> 01:00:38,240

hope you've had a good time

1680

01:00:42,950 --> 01:00:39,040

oh

1681

01:00:45,589 --> 01:00:42,960

it's been great i i have to say um

1682

01:00:46,870 --> 01:00:45,599

i did one other podcast with with an

1683

01:00:49,270 --> 01:00:46,880

individual where i think they were in

1684

01:00:51,109 --> 01:00:49,280

scotland and uh

1685

01:00:53,349 --> 01:00:51,119

the thing is i didn't really realize it

1686

01:00:56,069 --> 01:00:53,359

until it until it took place

1687

01:00:57,910 --> 01:00:56,079

and the thought that this show is global

1688

01:01:01,109 --> 01:00:57,920

you know is is

1689

01:01:03,430 --> 01:01:01,119

kind of um for me it's inspiring to

1690

01:01:05,910 --> 01:01:03,440

think that this is not just a

1691

01:01:09,510 --> 01:01:05,920

show that's regional but that it's

1692

01:01:12,549 --> 01:01:09,520

international and so i appreciate you uh

1693

01:01:13,670 --> 01:01:12,559

reaching out and making contact

1694

01:01:15,589 --> 01:01:13,680

and uh

1695

01:01:17,349 --> 01:01:15,599

you know i'm always happy

1696

01:01:18,950 --> 01:01:17,359

i'll be happy to come on again sometime

1697

01:01:21,349 --> 01:01:18,960

in the future if you'd like

1698

01:01:22,630 --> 01:01:21,359

thank you oh 100

1699

01:01:23,829 --> 01:01:22,640

we wouldn't

1700

01:01:26,549 --> 01:01:23,839

look the investigation is going to

1701

01:01:28,630 --> 01:01:26,559

continue whether the whether the tv show

1702

01:01:30,390 --> 01:01:28,640

continues or not that's not going to

1703

01:01:32,390 --> 01:01:30,400

have any effect on our investigation

1704

01:01:34,390 --> 01:01:32,400

we're yeah the investigation moves

1705

01:01:36,309 --> 01:01:34,400

forward it was happening before the show

1706

01:01:37,589 --> 01:01:36,319

it'll happen after the show

1707

01:01:39,910 --> 01:01:37,599

um but

1708

01:01:41,829 --> 01:01:39,920

it is a lot of fun to be able to show

1709

01:01:43,910 --> 01:01:41,839

people the highlights of some of the

1710

01:01:45,190 --> 01:01:43,920

things that we're witnessing out there

1711

01:01:48,870 --> 01:01:45,200

and

1712

01:01:50,150 --> 01:01:48,880

awareness to the arena

1713

01:01:51,829 --> 01:01:50,160

my goal is

1714

01:01:54,549 --> 01:01:51,839

or my hope is

1715

01:01:56,309 --> 01:01:54,559

that hopefully by applying science to

1716

01:01:59,349 --> 01:01:56,319

this arena

1717

01:02:01,670 --> 01:01:59,359

we can start to bring it mainstream and

1718

01:02:04,150 --> 01:02:01,680

make it so it's less stigmatized bring a

1719

01:02:06,230 --> 01:02:04,160

little more credibility to the area

1720

01:02:07,430 --> 01:02:06,240

maybe start divining some parameters

1721

01:02:09,349 --> 01:02:07,440

upon which

1722

01:02:11,510 --> 01:02:09,359

things are based upon and bring some

1723

01:02:12,470 --> 01:02:11,520

structure to it right and and because

1724

01:02:15,029 --> 01:02:12,480

really it's the only way we're going to

1725

01:02:16,549 --> 01:02:15,039

figure it out and when when i first

1726

01:02:18,630 --> 01:02:16,559

i was never in the paranormal space

1727

01:02:20,630 --> 01:02:18,640

before the ranch

1728

01:02:22,390 --> 01:02:20,640

and as i started to come into it i'm

1729

01:02:23,190 --> 01:02:22,400

like wow

1730

01:02:28,870 --> 01:02:23,200

like

1731

01:02:30,390 --> 01:02:28,880

which you can claim anything

1732

01:02:33,430 --> 01:02:30,400

prove nothing

1733

01:02:35,910 --> 01:02:33,440

and the entire audience follow you it

1734

01:02:37,430 --> 01:02:35,920

just was mind-boggling to me

1735

01:02:40,470 --> 01:02:37,440

and uh

1736

01:02:43,510 --> 01:02:40,480

and so my hope is like we we really want

1737

01:02:45,190 --> 01:02:43,520

to apply the science into this

1738

01:02:46,950 --> 01:02:45,200

we live in an amazing world there's a

1739

01:02:49,990 --> 01:02:46,960

lot happening that we

1740

01:02:51,750 --> 01:02:50,000

we're actually a very primitive species

1741

01:02:54,230 --> 01:02:51,760

and it's arrogant for us to think that

1742

01:02:55,670 --> 01:02:54,240

we've got it all figured out and so

1743

01:02:58,630 --> 01:02:55,680

or or that we're even alone in the

1744

01:03:01,109 --> 01:02:58,640

universe so hopefully we can use our

1745

01:03:03,430 --> 01:03:01,119

primitive scientific methods

1746

01:03:04,950 --> 01:03:03,440

and the hope is is maybe we can make

1747

01:03:06,630 --> 01:03:04,960

some advancements if we can start to

1748

01:03:08,230 --> 01:03:06,640

figure out what's going on at skinwalker

1749

01:03:09,430 --> 01:03:08,240

ranch and at some of these other places

1750

01:03:11,750 --> 01:03:09,440

around the world

1751

01:03:13,270 --> 01:03:11,760

then maybe it enables us to advance our

1752

01:03:15,670 --> 01:03:13,280

science

1753

01:03:18,069 --> 01:03:15,680

and uh and it and then that and

1754

01:03:19,750 --> 01:03:18,079

obviously helps us better our quality of

1755

01:03:23,270 --> 01:03:19,760

life and and

1756

01:03:25,430 --> 01:03:23,280

and so i appreciate our fans uh i get

1757

01:03:27,270 --> 01:03:25,440

really long-winded i'm sorry i really

1758

01:03:30,069 --> 01:03:27,280

appreciate our friends i love it i love

1759

01:03:31,829 --> 01:03:30,079

it um

1760

01:03:34,309 --> 01:03:31,839

without the fans and without the people

1761

01:03:36,230 --> 01:03:34,319

watching the show there's no show and

1762

01:03:38,710 --> 01:03:36,240

and then it just sets back our ability

1763

01:03:40,390 --> 01:03:38,720

to try to again bring awareness

1764

01:03:43,190 --> 01:03:40,400

bring credibility you know these are

1765

01:03:45,750 --> 01:03:43,200

really our goals so i appreciate each

1766

01:03:47,589 --> 01:03:45,760

person that tunes in and watches we we

1767

01:03:49,349 --> 01:03:47,599

appreciate you a lot and anything we can

1768

01:03:52,309 --> 01:03:49,359

do to engage our fans i'll tell you

1769

01:03:54,470 --> 01:03:52,319

brandon brandon is very

1770

01:03:57,829 --> 01:03:54,480

interactive on social media yeah you

1771

01:04:02,069 --> 01:03:57,839

jump on twitter uh he's constantly uh

1772

01:04:06,870 --> 01:04:05,029

facebook and instagram i social media

1773

01:04:09,029 --> 01:04:06,880

has been something i've had to learn

1774

01:04:11,190 --> 01:04:09,039

it's an acquired pace for me i'm getting

1775

01:04:13,750 --> 01:04:11,200

better at it but i

1776

01:04:14,710 --> 01:04:13,760

i tend to go hot and cold on it but uh

1777

01:04:16,549 --> 01:04:14,720

sure

1778

01:04:18,710 --> 01:04:16,559

any interaction we can have with people

1779

01:04:21,029 --> 01:04:18,720

in the space we're happy to have so we

1780

01:04:23,430 --> 01:04:21,039

appreciate we appreciate all of you

1781

01:04:24,710 --> 01:04:23,440

fantastic i'll say thank you once again

1782

01:04:26,470 --> 01:04:24,720

and thank you to everybody that's

1783

01:04:28,150 --> 01:04:26,480

watched this live and commented and

1784

01:04:29,510 --> 01:04:28,160

asked questions and thank you to

1785

01:04:31,510 --> 01:04:29,520

everybody watching after the fact

1786

01:04:33,670 --> 01:04:31,520

whether it be on youtube or listening

1787

01:04:35,430 --> 01:04:33,680

through the anomalous podcast network i

1788

01:04:37,589 --> 01:04:35,440

really appreciate you all and finally

1789

01:04:38,950 --> 01:04:37,599

before we go i'd just like to reiterate

1790

01:04:40,549 --> 01:04:38,960

that the trailer for our upcoming

1791

01:04:42,630 --> 01:04:40,559

documentary series

1792

01:04:44,789 --> 01:04:42,640

phenomenology um

1793

01:04:46,390 --> 01:04:44,799

is going to be released tomorrow the the

1794

01:04:48,630 --> 01:04:46,400

trailer you can find the link in the

1795

01:04:50,630 --> 01:04:48,640

description below here on youtube for

1796

01:04:52,069 --> 01:04:50,640

now guys thank you so much i will see

1797

01:04:54,309 --> 01:04:52,079

you in a few days time for another

1798

01:04:56,309 --> 01:04:54,319

interview but thank you to thomas and

1799

01:04:58,230 --> 01:04:56,319

and everyone i really appreciate all the

1800

01:05:01,029 --> 01:04:58,240

support and hope you have a good rest of
