okay

9  
00:01:11,109 --> 00:01:09,760

um it's just i don't know what's going

10  
00:01:13,750 --> 00:01:11,119

on at the moment but we'll battle

11  
00:01:15,670 --> 00:01:13,760

through it um so you just saw the

12  
00:01:18,230 --> 00:01:15,680

trailer for the upcoming phenomenology

13  
00:01:20,390 --> 00:01:18,240

series that drops may the first you can

14

00:01:22,230 --> 00:01:20,400

go and subscribe to the youtube channel

15

00:01:24,789 --> 00:01:22,240

now in advance

16

00:01:26,550 --> 00:01:24,799

so uh yeah really looking forward to to

17

00:01:27,590 --> 00:01:26,560

releasing that and being able to talk

18

00:01:29,830 --> 00:01:27,600

about it

19

00:01:31,830 --> 00:01:29,840

because we can't really at the moment um

20

00:01:33,910 --> 00:01:31,840

but anyway let's get on with uh why

21

00:01:35,590 --> 00:01:33,920

we're here tonight um please let me

22

00:01:37,350 --> 00:01:35,600

welcome our guest

23

00:01:38,950 --> 00:01:37,360

mr christopher sharp

24

00:01:40,550 --> 00:01:38,960

chris how's it going

25

00:01:42,630 --> 00:01:40,560

yeah not too bad thanks not too bad i've

26

00:01:44,950 --> 00:01:42,640

got a uh nice beer here it's from the

27

00:01:46,389 --> 00:01:44,960

philippines you can only buy

28

00:01:49,190 --> 00:01:46,399

specialist

29

00:01:51,590 --> 00:01:49,200

asian stores in london so it's quite a

30

00:01:53,590 --> 00:01:51,600

rarity to actually have this in my hands

31

00:01:56,069 --> 00:01:53,600

very nice man i'd cheers you with a wine

32

00:01:59,830 --> 00:01:56,079

but i'm just on the water tonight

33

00:02:03,190 --> 00:02:01,910

um so yeah thank you for doing this man

34

00:02:04,469 --> 00:02:03,200

i thought we'd just start off if you

35

00:02:06,870 --> 00:02:04,479

could just give us a bit of background

36

00:02:08,710 --> 00:02:06,880

on yourself anything you want to go into

37

00:02:10,550 --> 00:02:08,720

how you got into ufos that kind of thing

38

00:02:13,190 --> 00:02:10,560

that would be great

39

00:02:15,430 --> 00:02:13,200

yeah sure um well i would say growing up

40

00:02:18,470 --> 00:02:15,440

i was a little bit of a daydreamer let's

41

00:02:19,830 --> 00:02:18,480

say um someone who frequently spoke

42

00:02:22,150 --> 00:02:19,840

school and

43

00:02:23,990 --> 00:02:22,160

watched the discovery channel or history

44

00:02:25,350 --> 00:02:24,000

channel and watch all the ufo

45

00:02:26,710 --> 00:02:25,360

documentaries

46

00:02:29,030 --> 00:02:26,720

uh

47

00:02:31,270 --> 00:02:29,040

so that's how i started off i mean even

48

00:02:33,750 --> 00:02:31,280

when i was younger i suppose

49

00:02:34,869 --> 00:02:33,760

when i was four no i must be six years

50

00:02:37,270 --> 00:02:34,879

old

51  
00:02:39,670 --> 00:02:37,280  
he had to write a story for school and

52  
00:02:41,190 --> 00:02:39,680  
my story was about a ufo or an alien

53  
00:02:42,070 --> 00:02:41,200  
spacecraft that

54  
00:02:44,710 --> 00:02:42,080  
um

55  
00:02:46,869 --> 00:02:44,720  
landed in the local woods

56  
00:02:49,270 --> 00:02:46,879  
and that my friends and i

57  
00:02:52,229 --> 00:02:49,280  
and a dog discovered it and we went on

58  
00:02:55,030 --> 00:02:52,239  
an adventure in the alien spaceship so

59  
00:02:56,949 --> 00:02:55,040  
that's cool that came from but um the

60  
00:03:00,070 --> 00:02:56,959  
inspiration was there for a

61  
00:03:02,630 --> 00:03:00,080  
young age um but yeah i mean i guess

62  
00:03:05,030 --> 00:03:02,640  
when i was older i kind of

63  
00:03:08,070 --> 00:03:05,040

fell out of love with it

64

00:03:09,670 --> 00:03:08,080

as i started being pragmatic and

65

00:03:12,149 --> 00:03:09,680

engaging with

66

00:03:13,270 --> 00:03:12,159

what we know i guess is the real world

67

00:03:15,270 --> 00:03:13,280

um yeah so

68

00:03:17,670 --> 00:03:15,280

university

69

00:03:18,949 --> 00:03:17,680

health struggles through a really rare

70

00:03:21,110 --> 00:03:18,959

form of

71

00:03:21,990 --> 00:03:21,120

epilepsy

72

00:03:23,350 --> 00:03:22,000

and

73

00:03:24,550 --> 00:03:23,360

then eventually when i got that under

74

00:03:26,869 --> 00:03:24,560

control

75

00:03:28,550 --> 00:03:26,879

i entered the career of

76

00:03:30,550 --> 00:03:28,560

public affairs and

77

00:03:33,110 --> 00:03:30,560

public relations

78

00:03:35,190 --> 00:03:33,120

which is um it's a very very

79

00:03:36,149 --> 00:03:35,200

difficult competitive

80

00:03:37,030 --> 00:03:36,159

world

81

00:03:39,270 --> 00:03:37,040

um

82

00:03:40,070 --> 00:03:39,280

so when you go to a big

83

00:03:42,869 --> 00:03:40,080

as

84

00:03:44,869 --> 00:03:42,879

age or communications let's say um

85

00:03:47,750 --> 00:03:44,879

agency in london it's just stacked full

86

00:03:49,030 --> 00:03:47,760

of like oxbridge

87

00:03:50,789 --> 00:03:49,040

graduates

88

00:03:52,229 --> 00:03:50,799

and most of them are looking for a

89

00:03:54,470 --> 00:03:52,239

career in politics they think they're

90

00:03:56,550 --> 00:03:54,480

going to be the next tony blair or

91

00:03:57,350 --> 00:03:56,560

david cameron

92

00:03:59,830 --> 00:03:57,360

so

93

00:04:02,630 --> 00:03:59,840

i i guess when you're working in that

94

00:04:04,070 --> 00:04:02,640

kind of atmosphere people like that

95

00:04:05,030 --> 00:04:04,080

conspiracies

96

00:04:06,470 --> 00:04:05,040

um

97

00:04:08,789 --> 00:04:06,480

and yeah

98

00:04:10,630 --> 00:04:08,799

they're very much kind of um

99

00:04:12,789 --> 00:04:10,640

talking about you know westminster

100

00:04:14,470 --> 00:04:12,799

gossip and stuff like that so

101  
00:04:16,629 --> 00:04:14,480  
i was very very well versed in that

102  
00:04:20,310 --> 00:04:16,639  
world um

103  
00:04:22,069 --> 00:04:20,320  
but i think when the core bell

104  
00:04:25,270 --> 00:04:22,079  
stuff came out

105  
00:04:27,189 --> 00:04:25,280  
on joe rogan and when

106  
00:04:29,749 --> 00:04:27,199  
bob lazar re-emerged

107  
00:04:32,469 --> 00:04:29,759  
i think that's

108  
00:04:34,950 --> 00:04:32,479  
where my interest ignited again

109  
00:04:37,110 --> 00:04:34,960  
and then obviously tom delange as well i

110  
00:04:41,270 --> 00:04:37,120  
i still find this

111  
00:04:43,749 --> 00:04:41,280  
really really difficult to digest

112  
00:04:47,270 --> 00:04:43,759  
i was watching him on joe rogan

113  
00:04:49,990 --> 00:04:48,950

look are you okay

114

00:04:52,150 --> 00:04:50,000

um

115

00:04:54,469 --> 00:04:52,160

but you know every a lot of the things

116

00:04:57,189 --> 00:04:54,479

that he said came true

117

00:05:00,310 --> 00:04:57,199

um so i no longer scoff

118

00:05:01,909 --> 00:05:00,320

at tom delange and i take everything he

119

00:05:03,749 --> 00:05:01,919

says seriously

120

00:05:06,629 --> 00:05:03,759

i'm not someone who

121

00:05:08,070 --> 00:05:06,639

takes one position or another position

122

00:05:09,189 --> 00:05:08,080

most of the time

123

00:05:12,710 --> 00:05:09,199

i just

124

00:05:15,749 --> 00:05:12,720

listen and i take into account

125

00:05:17,430 --> 00:05:15,759

for reference and then if something this

126

00:05:20,310 --> 00:05:17,440

is how this is how i kind of treat my

127

00:05:22,550 --> 00:05:20,320

stories as well and if something emerges

128

00:05:24,870 --> 00:05:22,560

that kind of like connects to what tom

129

00:05:25,749 --> 00:05:24,880

delonge or someone said earlier

130

00:05:28,230 --> 00:05:25,759

then

131

00:05:29,909 --> 00:05:28,240

that's something that i can use you know

132

00:05:31,270 --> 00:05:29,919

so yeah i just find it really

133

00:05:34,629 --> 00:05:31,280

interesting finding the patterns but

134

00:05:36,870 --> 00:05:34,639

sorry i was i digress um but yeah i mean

135

00:05:39,110 --> 00:05:36,880

um i became interested in it again

136

00:05:40,469 --> 00:05:39,120

through that kind of stuff um

137

00:05:41,590 --> 00:05:40,479

covered hits

138

00:05:43,510 --> 00:05:41,600

um

139

00:05:45,670 --> 00:05:43,520

and then i think everyone just went when

140

00:05:46,790 --> 00:05:45,680

clovid hit everyone just

141

00:05:48,629 --> 00:05:46,800

everyone

142

00:05:49,590 --> 00:05:48,639

started reevaluating everything in their

143

00:05:53,350 --> 00:05:49,600

lives

144

00:05:55,909 --> 00:05:53,360

and for me i just thought screw this

145

00:05:57,990 --> 00:05:55,919

i can see louis zondo

146

00:06:00,230 --> 00:05:58,000

and you know sean cahill and people like

147

00:06:02,390 --> 00:06:00,240

that chris bell and mean business

148

00:06:07,029 --> 00:06:02,400

i want to help them as much as possible

149

00:06:10,629 --> 00:06:07,039

um so obviously we did uap media uk um

150

00:06:12,550 --> 00:06:10,639

i did liberation times and you know

151  
00:06:13,990 --> 00:06:12,560  
ever since then you know we

152  
00:06:15,510 --> 00:06:14,000  
you know we've made some really good

153  
00:06:18,870 --> 00:06:15,520  
progress i think

154  
00:06:21,270 --> 00:06:18,880  
um especially in our work

155  
00:06:24,390 --> 00:06:21,280  
in terms of engaging sentences and u.s

156  
00:06:27,350 --> 00:06:24,400  
politicians congressmen um so yeah i

157  
00:06:28,790 --> 00:06:27,360  
mean that's a long unwinding kind of

158  
00:06:30,870 --> 00:06:28,800  
like road to

159  
00:06:32,629 --> 00:06:30,880  
where i got to where i am and liberation

160  
00:06:34,950 --> 00:06:32,639  
times it's just started as some things

161  
00:06:37,110 --> 00:06:34,960  
just kind of like you know i quit my job

162  
00:06:38,870 --> 00:06:37,120  
in the summer and i thought okay let's

163  
00:06:41,510 --> 00:06:38,880

just do a little blog

164

00:06:43,749 --> 00:06:41,520

do a few articles and stuff no pressure

165

00:06:45,990 --> 00:06:43,759

just kind of in my free time and then it

166

00:06:47,510 --> 00:06:46,000

just transformed into something

167

00:06:48,469 --> 00:06:47,520

completely

168

00:06:51,029 --> 00:06:48,479

insane

169

00:06:52,870 --> 00:06:51,039

uh to where i'm averaging like 60 000

170

00:06:53,830 --> 00:06:52,880

views per month and

171

00:06:56,550 --> 00:06:53,840

wow

172

00:06:58,230 --> 00:06:56,560

didn't know where yeah so and then you

173

00:06:59,670 --> 00:06:58,240

know it kind of kind of turns into

174

00:07:02,070 --> 00:06:59,680

something whereby

175

00:07:03,589 --> 00:07:02,080

you know first you're writing an article

176

00:07:04,870 --> 00:07:03,599

it's just fun

177

00:07:06,390 --> 00:07:04,880

let's see how it does the next day

178

00:07:07,350 --> 00:07:06,400

hopefully i don't get too much flak on

179

00:07:09,830 --> 00:07:07,360

reddit

180

00:07:11,430 --> 00:07:09,840

um to something like every article you

181

00:07:13,029 --> 00:07:11,440

know is important

182

00:07:15,189 --> 00:07:13,039

and there's a pressure on that and his

183

00:07:17,749 --> 00:07:15,199

expectations

184

00:07:19,350 --> 00:07:17,759

no it's great and the thing is is

185

00:07:21,029 --> 00:07:19,360

your articles have been retweeted by

186

00:07:22,950 --> 00:07:21,039

some of the most prominent figures in

187

00:07:24,150 --> 00:07:22,960

the community i mean that must show that

188

00:07:25,749 --> 00:07:24,160

you're obviously on the right track or

189

00:07:27,110 --> 00:07:25,759

you're doing something right i mean how

190

00:07:30,390 --> 00:07:27,120

did that feel when you started seeing

191

00:07:32,390 --> 00:07:30,400

that louis zondo leslie kane i mean

192

00:07:33,990 --> 00:07:32,400

most of them to be fair ross coulthard

193

00:07:35,510 --> 00:07:34,000

how does that feel does it just validate

194

00:07:37,029 --> 00:07:35,520

what you're doing

195

00:07:39,430 --> 00:07:37,039

it just gives me a lot of confidence

196

00:07:41,270 --> 00:07:39,440

okay some someone i mean i don't have a

197

00:07:42,870 --> 00:07:41,280

natural sense of confidence i'm always

198

00:07:45,670 --> 00:07:42,880

questioning myself and i guess that's

199

00:07:47,990 --> 00:07:45,680

what kind of makes my articles what they

200

00:07:49,670 --> 00:07:48,000

are as well um but it just feels

201  
00:07:52,950 --> 00:07:49,680  
absolutely brilliant you know george

202  
00:07:55,110 --> 00:07:52,960  
knapp as well as retweeted you know him

203  
00:07:56,790 --> 00:07:55,120  
in addition to um

204  
00:07:59,270 --> 00:07:56,800  
to ross coulthard just kind of like

205  
00:08:01,110 --> 00:07:59,280  
heroes in terms of journalism so

206  
00:08:02,710 --> 00:08:01,120  
the you know leslie keane as well

207  
00:08:04,230 --> 00:08:02,720  
obviously you know just the fact that

208  
00:08:06,629 --> 00:08:04,240  
they're reading my articles and they see

209  
00:08:09,670 --> 00:08:06,639  
some positives in what i'm doing is just

210  
00:08:12,070 --> 00:08:09,680  
really really helped me a lot um so yeah

211  
00:08:14,070 --> 00:08:12,080  
it just felt great and um a lot of the

212  
00:08:16,710 --> 00:08:14,080  
time you know it would be i think paul

213  
00:08:18,309 --> 00:08:16,720

reddington or or um

214

00:08:20,469 --> 00:08:18,319

or scott

215

00:08:22,629 --> 00:08:20,479

on twitter who'll just like send me a

216

00:08:24,230 --> 00:08:22,639

message or something saying look you

217

00:08:25,749 --> 00:08:24,240

look you kind of like mentioned your

218

00:08:27,189 --> 00:08:25,759

article and each time i'm just being

219

00:08:29,189 --> 00:08:27,199

shocked you know

220

00:08:30,629 --> 00:08:29,199

it's yeah it just feels brilliant yeah

221

00:08:32,550 --> 00:08:30,639

it feels really good

222

00:08:34,550 --> 00:08:32,560

no it's good i think it just it does it

223

00:08:35,990 --> 00:08:34,560

shows that you're you're doing the right

224

00:08:37,909 --> 00:08:36,000

thing you're covering the right aspects

225

00:08:39,029 --> 00:08:37,919

of the subject and you're writing it in

226

00:08:42,149 --> 00:08:39,039

a very

227

00:08:44,389 --> 00:08:42,159

constructive and thorough way so

228

00:08:46,310 --> 00:08:44,399

yeah i think it's all deserved

229

00:08:48,310 --> 00:08:46,320

um now what i wanted to do was just take

230

00:08:49,990 --> 00:08:48,320

it back to sort of last summer with the

231

00:08:51,269 --> 00:08:50,000

uh the preliminary assessment that came

232

00:08:52,710 --> 00:08:51,279

out um

233

00:08:54,230 --> 00:08:52,720

what were your thoughts leading up to

234

00:08:56,630 --> 00:08:54,240

that because there was i mean there was

235

00:08:58,790 --> 00:08:56,640

a buzz all around the world in fact when

236

00:09:00,470 --> 00:08:58,800

it when it came to the subject did you

237

00:09:02,310 --> 00:09:00,480

feel that buzz did you

238

00:09:03,590 --> 00:09:02,320

heighten your expectations or keep them

239

00:09:05,030 --> 00:09:03,600

low and then

240

00:09:07,030 --> 00:09:05,040

following the release what what were

241

00:09:09,750 --> 00:09:07,040

your thoughts afterwards

242

00:09:11,110 --> 00:09:09,760

yeah i thought the media and um others

243

00:09:12,630 --> 00:09:11,120

you should know better were just getting

244

00:09:14,230 --> 00:09:12,640

too carried away

245

00:09:16,389 --> 00:09:14,240

um

246

00:09:17,910 --> 00:09:16,399

i think the likes of like brian bender

247

00:09:20,550 --> 00:09:17,920

and some of the people who cover

248

00:09:22,870 --> 00:09:20,560

washington who know

249

00:09:24,790 --> 00:09:22,880

who are used like bureaucratic

250

00:09:27,030 --> 00:09:24,800

curve process and

251  
00:09:28,389 --> 00:09:27,040  
kind of like boring toned down language

252  
00:09:30,949 --> 00:09:28,399  
that they use that they knew what to

253  
00:09:33,829 --> 00:09:30,959  
expect but a lot of the other media

254  
00:09:37,110 --> 00:09:33,839  
didn't really and um

255  
00:09:39,910 --> 00:09:37,120  
i i think that led

256  
00:09:44,070 --> 00:09:42,150  
this kind of sense of

257  
00:09:45,509 --> 00:09:44,080  
it not living up to what they thought it

258  
00:09:46,710 --> 00:09:45,519  
was going to be

259  
00:09:48,829 --> 00:09:46,720  
um

260  
00:09:52,230 --> 00:09:48,839  
but in actual fact when you do look at

261  
00:09:54,710 --> 00:09:52,240  
that that report that primary assessment

262  
00:09:56,070 --> 00:09:54,720  
i mean yes they're using bureaucratic

263  
00:09:58,389 --> 00:09:56,080

language but

264

00:10:01,190 --> 00:09:58,399

it's also astonishing they're basically

265

00:10:02,829 --> 00:10:01,200

saying in some instances there are these

266

00:10:06,069 --> 00:10:02,839

craft that

267

00:10:07,990 --> 00:10:06,079

form just beyond

268

00:10:10,310 --> 00:10:08,000

what we what we know of in terms of

269

00:10:12,550 --> 00:10:10,320

physics and technology and i think it's

270

00:10:13,750 --> 00:10:12,560

safe to say now seeing what's happening

271

00:10:15,269 --> 00:10:13,760

with um

272

00:10:17,750 --> 00:10:15,279

with russia and ukraine which is

273

00:10:20,389 --> 00:10:17,760

obviously everyone's mind at the moment

274

00:10:22,470 --> 00:10:20,399

that russia doesn't have that technology

275

00:10:23,910 --> 00:10:22,480

it doesn't i mean the russian economies

276

00:10:26,150 --> 00:10:23,920

in the state as well if it had that kind

277

00:10:28,230 --> 00:10:26,160

of technology physics don't you think

278

00:10:30,230 --> 00:10:28,240

they would use it for their eco you know

279

00:10:33,110 --> 00:10:30,240

to boost their economy or something of

280

00:10:34,870 --> 00:10:33,120

course they would and in china in term

281

00:10:36,710 --> 00:10:34,880

it kind of copies

282

00:10:38,150 --> 00:10:36,720

um russian technology in terms

283

00:10:39,269 --> 00:10:38,160

especially in terms of the fighter jet

284

00:10:42,150 --> 00:10:39,279

technology

285

00:10:43,590 --> 00:10:42,160

and i mean it's recently been documented

286

00:10:45,590 --> 00:10:43,600

they've actually really struggled with

287

00:10:48,069 --> 00:10:45,600

their jet engines and stuff the next

288

00:10:50,310 --> 00:10:48,079

generation of fighters so

289

00:10:51,750 --> 00:10:50,320

i mean it just seems very very unlikely

290

00:10:54,949 --> 00:10:51,760

that they're

291

00:10:56,389 --> 00:10:54,959

gonna have that type of technology to me

292

00:10:58,870 --> 00:10:56,399

um

293

00:11:00,710 --> 00:10:58,880

but yeah i mean i i wasn't i wasn't

294

00:11:01,670 --> 00:11:00,720

really

295

00:11:03,670 --> 00:11:01,680

i i

296

00:11:05,430 --> 00:11:03,680

i was i didn't really feel let down i

297

00:11:07,750 --> 00:11:05,440

just felt that it had a sense of

298

00:11:09,350 --> 00:11:07,760

momentum to it because there were next

299

00:11:10,230 --> 00:11:09,360

steps that were going to be taken so the

300

00:11:12,069 --> 00:11:10,240

hicks

301  
00:11:13,269 --> 00:11:12,079  
memorandum that was released basically

302  
00:11:15,110 --> 00:11:13,279  
said that there would be follow-on

303  
00:11:17,030 --> 00:11:15,120  
action yeah um

304  
00:11:19,430 --> 00:11:17,040  
obviously we know now that that

305  
00:11:20,790 --> 00:11:19,440  
follow-on action and i think bro melon

306  
00:11:23,509 --> 00:11:20,800  
and people like that knew at the time it

307  
00:11:25,110 --> 00:11:23,519  
wasn't going to go far enough because it

308  
00:11:26,550 --> 00:11:25,120  
was just going to be restricted to us

309  
00:11:29,350 --> 00:11:26,560  
defense ranges

310  
00:11:31,430 --> 00:11:29,360  
for instance um

311  
00:11:33,430 --> 00:11:31,440  
and also it didn't really seem to cover

312  
00:11:35,110 --> 00:11:33,440  
the trans medium aspect of the

313  
00:11:37,350 --> 00:11:35,120

phenomenon either

314

00:11:39,430 --> 00:11:37,360

so it seemed very very restrictive so

315

00:11:41,430 --> 00:11:39,440

i mean looking back it seemed inevitable

316

00:11:43,269 --> 00:11:41,440

that there would be pushback saying that

317

00:11:46,069 --> 00:11:43,279

memorandum

318

00:11:47,750 --> 00:11:46,079

on the forum activity which led to

319

00:11:49,750 --> 00:11:47,760

aoi msg

320

00:11:50,870 --> 00:11:49,760

wasn't going to be enough so

321

00:11:52,389 --> 00:11:50,880

um

322

00:11:55,110 --> 00:11:52,399

yeah i think that was quite interesting

323

00:11:56,710 --> 00:11:55,120

looking back at it and obviously

324

00:11:58,150 --> 00:11:56,720

you know i think it was in september

325

00:12:01,910 --> 00:11:58,160

that we first heard

326

00:12:02,710 --> 00:12:01,920

rumbles from from congress and gallagher

327

00:12:04,949 --> 00:12:02,720

that

328

00:12:07,030 --> 00:12:04,959

there was neat there needed to be new

329

00:12:08,790 --> 00:12:07,040

legislation

330

00:12:10,470 --> 00:12:08,800

with a push from congress to actually

331

00:12:11,430 --> 00:12:10,480

push the ball further

332

00:12:14,389 --> 00:12:11,440

um

333

00:12:17,190 --> 00:12:14,399

into field and obviously you know i

334

00:12:19,750 --> 00:12:17,200

think the big the the big

335

00:12:22,150 --> 00:12:19,760

kind of comparison that you can draw is

336

00:12:23,990 --> 00:12:22,160

the fact that there is nothing within

337

00:12:25,990 --> 00:12:24,000

aomsg

338

00:12:29,030 --> 00:12:26,000

um when it was formed back in december

339

00:12:30,870 --> 00:12:29,040

that had an unclassified component to

340

00:12:33,910 --> 00:12:30,880

releasing a report either

341

00:12:35,670 --> 00:12:33,920

whereas the new uap office does

342

00:12:37,190 --> 00:12:35,680

yeah it would have seemed like aoi msg

343

00:12:38,389 --> 00:12:37,200

would have just kept things in a highly

344

00:12:41,430 --> 00:12:38,399

classified

345

00:12:43,030 --> 00:12:41,440

annex or or area but at least the new

346

00:12:44,949 --> 00:12:43,040

office does seem to

347

00:12:46,150 --> 00:12:44,959

show that it's trying to do a bit more

348

00:12:48,710 --> 00:12:46,160

and push for a little bit of

349

00:12:51,509 --> 00:12:48,720

transparency um but let's go back to

350

00:12:54,150 --> 00:12:51,519

just after the june 25th assessment and

351  
00:12:56,150 --> 00:12:54,160  
and over here in the uk we saw

352  
00:12:57,350 --> 00:12:56,160  
the conversation sparked in the house of

353  
00:12:59,750 --> 00:12:57,360  
lords

354  
00:13:02,790 --> 00:12:59,760  
which i found quite disappointing do you

355  
00:13:05,350 --> 00:13:02,800  
recall that conversation

356  
00:13:08,949 --> 00:13:05,360  
yes yes i do um

357  
00:13:11,269 --> 00:13:08,959  
so it was one of the conservative

358  
00:13:12,710 --> 00:13:11,279  
lords that actually requested

359  
00:13:14,629 --> 00:13:12,720  
the debate

360  
00:13:18,069 --> 00:13:14,639  
um

361  
00:13:22,150 --> 00:13:20,069  
so i mean what you had she had defense

362  
00:13:23,590 --> 00:13:22,160  
minister barnes goldie

363  
00:13:25,910 --> 00:13:23,600

um from the government who was the

364

00:13:28,310 --> 00:13:25,920

government's representative spokesperson

365

00:13:29,910 --> 00:13:28,320

in the lords for that and so yeah it was

366

00:13:30,949 --> 00:13:29,920

lord safarraz who brought up the

367

00:13:31,829 --> 00:13:30,959

question

368

00:13:37,670 --> 00:13:31,839

um

369

00:13:39,990 --> 00:13:37,680

plate response basically from

370

00:13:41,269 --> 00:13:40,000

the the minister of state

371

00:13:42,550 --> 00:13:41,279

um

372

00:13:44,870 --> 00:13:42,560

i mean it's difficult to know what to

373

00:13:46,710 --> 00:13:44,880

read into that to be fair because

374

00:13:51,509 --> 00:13:46,720

it just

375

00:13:53,350 --> 00:13:51,519

i mean she was answering questions about

376

00:13:55,269 --> 00:13:53,360

the pre-primary

377

00:13:58,310 --> 00:13:55,279

assessment

378

00:14:00,310 --> 00:13:58,320

but now there is good reason to know

379

00:14:01,509 --> 00:14:00,320

you know by the questioning of nick pope

380

00:14:04,310 --> 00:14:01,519

that

381

00:14:05,509 --> 00:14:04,320

the ministry of defense hasn't even read

382

00:14:14,150 --> 00:14:05,519

the

383

00:14:15,509 --> 00:14:14,160

security

384

00:14:18,870 --> 00:14:15,519

and it doesn't see

385

00:14:20,069 --> 00:14:18,880

uap is a threat

386

00:14:22,230 --> 00:14:20,079

how come they haven't read the

387

00:14:23,590 --> 00:14:22,240

classified version of the report

388

00:14:24,870 --> 00:14:23,600

how does that true

389

00:14:26,470 --> 00:14:24,880

it doesn't but it was amazing because

390

00:14:28,629 --> 00:14:26,480

today we had that

391

00:14:30,470 --> 00:14:28,639

answer for that question that was asked

392

00:14:32,069 --> 00:14:30,480

in parliament as well and we actually

393

00:14:33,110 --> 00:14:32,079

got a different response for the first

394

00:14:34,550 --> 00:14:33,120

time in

395

00:14:36,550 --> 00:14:34,560

you know in a long time because the same

396

00:14:38,230 --> 00:14:36,560

boilerplate response was used every time

397

00:14:40,790 --> 00:14:38,240

people were sending letters and things

398

00:14:42,470 --> 00:14:40,800

like that but we actually now got

399

00:14:43,829 --> 00:14:42,480

the fact that they will not discuss any

400

00:14:44,790 --> 00:14:43,839

classified information that's been

401  
00:14:47,350 --> 00:14:44,800  
shared with

402  
00:14:49,110 --> 00:14:47,360  
by allies and i thought

403  
00:14:51,030 --> 00:14:49,120  
it's not the best statement but it

404  
00:14:53,590 --> 00:14:51,040  
certainly is nice to see a different

405  
00:14:56,310 --> 00:14:53,600  
answer to something after just the same

406  
00:14:58,069 --> 00:14:56,320  
no national security issues before so i

407  
00:14:59,670 --> 00:14:58,079  
think it's a step in the right direction

408  
00:15:00,710 --> 00:14:59,680  
even though it's so far from what we

409  
00:15:01,670 --> 00:15:00,720  
want

410  
00:15:02,710 --> 00:15:01,680  
you know

411  
00:15:04,150 --> 00:15:02,720  
yeah

412  
00:15:05,590 --> 00:15:04,160  
they they sent me to say i think they

413  
00:15:07,189 --> 00:15:05,600

certainly were the same response i mean

414

00:15:10,629 --> 00:15:07,199

i asked about it too

415

00:15:12,710 --> 00:15:10,639

many md space person

416

00:15:15,110 --> 00:15:12,720

got slightly flustered because i kept

417

00:15:17,189 --> 00:15:15,120

from pushing and me and they had to pass

418

00:15:19,269 --> 00:15:17,199

me through to someone from the raf

419

00:15:20,310 --> 00:15:19,279

oh really

420

00:15:21,910 --> 00:15:20,320

they're very good at that they weren't

421

00:15:24,710 --> 00:15:21,920

they're just passing people around until

422

00:15:25,590 --> 00:15:24,720

they actually come up with something

423

00:15:27,189 --> 00:15:25,600

yeah

424

00:15:28,230 --> 00:15:27,199

it is frustrating

425

00:15:29,110 --> 00:15:28,240

but then

426  
00:15:31,269 --> 00:15:29,120  
you know

427  
00:15:32,470 --> 00:15:31,279  
black

428  
00:15:35,189 --> 00:15:32,480  
that's someone else who didn't

429  
00:15:36,629 --> 00:15:35,199  
participate in the debate in the summer

430  
00:15:38,230 --> 00:15:36,639  
yeah and lord black i mean there's got

431  
00:15:40,470 --> 00:15:38,240  
to be people within the house of lords

432  
00:15:43,030 --> 00:15:40,480  
and parliament as well that are actually

433  
00:15:44,790 --> 00:15:43,040  
probably do want to see more on this

434  
00:15:47,269 --> 00:15:44,800  
subject it's again it's probably the

435  
00:15:48,870 --> 00:15:47,279  
stigma it's still you know rampant over

436  
00:15:50,949 --> 00:15:48,880  
here in the uk so i bet there's just

437  
00:15:53,430 --> 00:15:50,959  
that hesitant hesitance

438  
00:15:54,710 --> 00:15:53,440

to to bring it up or take a stance on it

439

00:15:56,230 --> 00:15:54,720

but

440

00:15:58,790 --> 00:15:56,240

hopefully that will change

441

00:16:00,470 --> 00:15:58,800

lord black is very very important he's a

442

00:16:02,710 --> 00:16:00,480

senior figure i think he's chair of vice

443

00:16:04,629 --> 00:16:02,720

chair of telegraph group

444

00:16:07,990 --> 00:16:04,639

so he's got some influence in the media

445

00:16:10,629 --> 00:16:08,000

for instance um and also i mean

446

00:16:12,230 --> 00:16:10,639

historically he's been the one

447

00:16:14,310 --> 00:16:12,240

most likely to take interest in this

448

00:16:15,829 --> 00:16:14,320

he's spoken out about it before i think

449

00:16:17,749 --> 00:16:15,839

it was i mean you may know this better

450

00:16:19,430 --> 00:16:17,759

than me but the from my understanding

451

00:16:22,150 --> 00:16:19,440

there are a series of incidents in the

452

00:16:23,990 --> 00:16:22,160

1970s is it pembrokehire or some

453

00:16:27,269 --> 00:16:24,000

something like that in wales

454

00:16:28,710 --> 00:16:27,279

that some school kids saw

455

00:16:30,550 --> 00:16:28,720

yeah there was the welsh flap i think

456

00:16:31,749 --> 00:16:30,560

was part of the welsh triangle

457

00:16:33,509 --> 00:16:31,759

um

458

00:16:35,269 --> 00:16:33,519

and a lot of people i just clarified

459

00:16:37,590 --> 00:16:35,279

people hear the welsh triangle it wasn't

460

00:16:39,749 --> 00:16:37,600

a triangle object there's actually three

461

00:16:41,829 --> 00:16:39,759

locations that you know map out a

462

00:16:43,430 --> 00:16:41,839

triangle and it was all within that area

463

00:16:46,310 --> 00:16:43,440

throughout the 70s that there were just

464

00:16:48,150 --> 00:16:46,320

so many waves of ufo sightings so

465

00:16:49,910 --> 00:16:48,160

yeah people always get that like where's

466

00:16:51,910 --> 00:16:49,920

this triangle case it's like it's it's

467

00:16:53,269 --> 00:16:51,920

not a black triangle or anything but

468

00:16:54,470 --> 00:16:53,279

yeah

469

00:16:56,470 --> 00:16:54,480

um

470

00:16:58,790 --> 00:16:56,480

now moving on i think around that time

471

00:17:00,790 --> 00:16:58,800

as well after the june 25th report we

472

00:17:02,069 --> 00:17:00,800

just saw a massive excuse me a massive

473

00:17:04,390 --> 00:17:02,079

slump in

474

00:17:05,990 --> 00:17:04,400

nobody was hearing anything people were

475

00:17:06,949 --> 00:17:06,000

starting to get a bit frustrated but

476  
00:17:09,750 --> 00:17:06,959  
then

477  
00:17:11,429 --> 00:17:09,760  
we had san marino and project titan and

478  
00:17:13,029 --> 00:17:11,439  
you covered that really well as well so

479  
00:17:13,990 --> 00:17:13,039  
what were your thoughts on on hearing

480  
00:17:15,510 --> 00:17:14,000  
that and

481  
00:17:17,669 --> 00:17:15,520  
can you tell us a bit about it and where

482  
00:17:19,750 --> 00:17:17,679  
you think it might be headed

483  
00:17:21,429 --> 00:17:19,760  
yeah no of course i mean i'd firstly say

484  
00:17:23,110 --> 00:17:21,439  
that people shouldn't get too

485  
00:17:24,630 --> 00:17:23,120  
dejected when there's a lack of press

486  
00:17:26,230 --> 00:17:24,640  
coverage and whatnot because

487  
00:17:28,069 --> 00:17:26,240  
conversations are happening behind the

488  
00:17:29,909 --> 00:17:28,079

scenes all the time and

489

00:17:32,310 --> 00:17:29,919

from what i

490

00:17:33,990 --> 00:17:32,320

let's say being told that all the people

491

00:17:36,630 --> 00:17:34,000

who have seen this from within the dod

492

00:17:38,070 --> 00:17:36,640

the intelligence communities um and even

493

00:17:40,630 --> 00:17:38,080

congress or

494

00:17:41,909 --> 00:17:40,640

congressmen

495

00:17:43,750 --> 00:17:41,919

they've been

496

00:17:47,029 --> 00:17:43,760

quite shocked by what they've seen it it

497

00:17:48,230 --> 00:17:47,039

has rattled them so you know despite the

498

00:17:49,430 --> 00:17:48,240

fact that we're not getting a commentary

499

00:17:51,430 --> 00:17:49,440

of it it's not

500

00:17:53,110 --> 00:17:51,440

kind of a big media

501  
00:17:54,710 --> 00:17:53,120  
it's not big in the immediate agenda

502  
00:17:58,710 --> 00:17:54,720  
there is stuff happening

503  
00:18:00,390 --> 00:17:58,720  
um but in regards to san marino yeah

504  
00:18:02,710 --> 00:18:00,400  
it's what's needed because

505  
00:18:03,830 --> 00:18:02,720  
this is an international

506  
00:18:06,470 --> 00:18:03,840  
debate

507  
00:18:08,630 --> 00:18:06,480  
we do need to get around the table and

508  
00:18:11,110 --> 00:18:08,640  
coordinate with

509  
00:18:12,870 --> 00:18:11,120  
allies and partners and maybe even some

510  
00:18:16,230 --> 00:18:12,880  
foes

511  
00:18:18,390 --> 00:18:16,240  
to actually discuss what is going on

512  
00:18:21,430 --> 00:18:18,400  
and i feel that there is a very very

513  
00:18:23,909 --> 00:18:21,440

good chance that project titan

514

00:18:25,830 --> 00:18:23,919

is going to be a success eventually

515

00:18:27,029 --> 00:18:25,840

it may take longer than expected with

516

00:18:30,230 --> 00:18:27,039

what's going on in the world at the

517

00:18:32,789 --> 00:18:30,240

moment and i know the power leg was

518

00:18:35,830 --> 00:18:32,799

quizardi's doing a lot behind the scenes

519

00:18:40,310 --> 00:18:35,840

to keep the momentum going there

520

00:18:40,320 --> 00:18:45,669

when you look at the actual

521

00:18:49,909 --> 00:18:47,830

fundamentals

522

00:18:52,150 --> 00:18:49,919

of project titan

523

00:18:53,669 --> 00:18:52,160

it makes sense because it's it's a win

524

00:18:56,230 --> 00:18:53,679

for san marino

525

00:18:58,310 --> 00:18:56,240

yeah i think they'll get the nudge from

526

00:19:00,150 --> 00:18:58,320

certain people within the u.s

527

00:19:01,190 --> 00:19:00,160

government as well that it's safe to go

528

00:19:03,350 --> 00:19:01,200

ahead

529

00:19:07,029 --> 00:19:03,360

and the us will probably get its allies

530

00:19:09,990 --> 00:19:07,039

to tow the line as well eventually um so

531

00:19:11,430 --> 00:19:10,000

i i think i think it's it's gonna be it

532

00:19:13,270 --> 00:19:11,440

may take longer than expected with

533

00:19:14,870 --> 00:19:13,280

what's going on at the moment but i

534

00:19:17,190 --> 00:19:14,880

think eventually

535

00:19:18,870 --> 00:19:17,200

we'll we'll get there and um

536

00:19:22,470 --> 00:19:18,880

you know maybe

537

00:19:24,870 --> 00:19:22,480

in a few months time or a year or so

538

00:19:27,510 --> 00:19:24,880

certain individuals when the ufo

539

00:19:28,549 --> 00:19:27,520

community will be booking flights to new

540

00:19:30,789 --> 00:19:28,559

york

541

00:19:33,029 --> 00:19:30,799

to see some of the debates

542

00:19:35,190 --> 00:19:33,039

absolutely yeah i mean

543

00:19:36,710 --> 00:19:35,200

it's so needed because if it all goes

544

00:19:38,870 --> 00:19:36,720

through and forward through the un and

545

00:19:41,430 --> 00:19:38,880

stuff it'll open the conversation up in

546

00:19:43,190 --> 00:19:41,440

europe massively and we'll probably

547

00:19:44,630 --> 00:19:43,200

start seeing many countries talking

548

00:19:47,190 --> 00:19:44,640

about it and

549

00:19:49,590 --> 00:19:47,200

you know maybe even some

550

00:19:51,029 --> 00:19:49,600

class declassified files coming out of

551

00:19:53,190 --> 00:19:51,039

some of the european countries that

552

00:19:55,110 --> 00:19:53,200

would be fantastic i think they're all

553

00:19:57,990 --> 00:19:55,120

held back by the stigma still over here

554

00:19:59,350 --> 00:19:58,000

compared to the us um so yeah fingers

555

00:20:00,789 --> 00:19:59,360

crossed i think it's a positive thing

556

00:20:02,710 --> 00:20:00,799

but yeah absolutely right i think

557

00:20:04,710 --> 00:20:02,720

there's going to be delays probably due

558

00:20:06,710 --> 00:20:04,720

to what's happening at the moment with

559

00:20:08,390 --> 00:20:06,720

russia and ukraine and i can totally

560

00:20:10,870 --> 00:20:08,400

understand that you know

561

00:20:12,390 --> 00:20:10,880

there are you know there are there's

562

00:20:14,710 --> 00:20:12,400

things have to be done right and the

563

00:20:17,350 --> 00:20:14,720

focus has to be 100 so

564

00:20:20,549 --> 00:20:17,360

yeah totally understand um

565

00:20:22,950 --> 00:20:20,559

let's move on um

566

00:20:24,710 --> 00:20:22,960

i think it was october we saw robert

567

00:20:26,870 --> 00:20:24,720

salas um

568

00:20:28,630 --> 00:20:26,880

raising funds to

569

00:20:32,070 --> 00:20:28,640

to to organize this press club event

570

00:20:33,990 --> 00:20:32,080

that he did get and he put on um but to

571

00:20:35,830 --> 00:20:34,000

me it felt like it didn't get the

572

00:20:37,190 --> 00:20:35,840

attention that it deserved the media

573

00:20:39,029 --> 00:20:37,200

didn't really pick up on it i think it

574

00:20:40,870 --> 00:20:39,039

was quite a small event

575

00:20:42,149 --> 00:20:40,880

um what are your thoughts because i mean

576

00:20:44,630 --> 00:20:42,159

obviously we know that the nuclear

577

00:20:46,149 --> 00:20:44,640

aspect of the subject is is huge

578

00:20:48,149 --> 00:20:46,159

but for some reason that sort of came

579

00:20:51,350 --> 00:20:48,159

and went do you think it was timing or

580

00:20:54,470 --> 00:20:51,360

do you think it was successful

581

00:20:56,070 --> 00:20:54,480

i think it was successful in terms of

582

00:20:58,149 --> 00:20:56,080

the fact that

583

00:21:01,029 --> 00:20:58,159

u.s politicians and their staffers were

584

00:21:03,190 --> 00:21:01,039

paying attention and so in the dod so i

585

00:21:04,789 --> 00:21:03,200

think from that

586

00:21:07,909 --> 00:21:04,799

perspective it kind of helped the

587

00:21:10,070 --> 00:21:07,919

conversation within a halls of congress

588

00:21:11,270 --> 00:21:10,080

from a media perspective it's never

589

00:21:13,190 --> 00:21:11,280

going to be a big

590

00:21:14,149 --> 00:21:13,200

story now because it happened so long

591

00:21:15,029 --> 00:21:14,159

ago

592

00:21:16,390 --> 00:21:15,039

yeah

593

00:21:18,390 --> 00:21:16,400

if it was you know if you've got

594

00:21:21,430 --> 00:21:18,400

something new coming forward

595

00:21:23,590 --> 00:21:21,440

saying look you know um two years ago

596

00:21:25,270 --> 00:21:23,600

there was this big event that happened

597

00:21:28,710 --> 00:21:25,280

and all the nuclear weapons on the

598

00:21:30,870 --> 00:21:28,720

submarines below the atlantic activated

599

00:21:32,470 --> 00:21:30,880

and i was silenced

600

00:21:34,630 --> 00:21:32,480

that's a very very big story you know

601  
00:21:36,470 --> 00:21:34,640  
that and that was only two years ago and

602  
00:21:39,430 --> 00:21:36,480  
you know it

603  
00:21:42,070 --> 00:21:39,440  
and that's a new story but i think

604  
00:21:43,669 --> 00:21:42,080  
in terms of salas i think it's just a

605  
00:21:45,270 --> 00:21:43,679  
you know although it's still shocking it

606  
00:21:48,149 --> 00:21:45,280  
deserves to be a big story in terms of

607  
00:21:49,590 --> 00:21:48,159  
press values and the way media works

608  
00:21:51,990 --> 00:21:49,600  
i kind of felt that it was never going

609  
00:21:53,270 --> 00:21:52,000  
to be something that was going to be

610  
00:21:55,190 --> 00:21:53,280  
a big deal

611  
00:21:57,110 --> 00:21:55,200  
sadly although it should have been

612  
00:21:58,870 --> 00:21:57,120  
absolutely and i think even robert salas

613  
00:22:00,710 --> 00:21:58,880

himself seemed frustrated in a few of

614

00:22:03,430 --> 00:22:00,720

the interviews that he did around the

615

00:22:04,789 --> 00:22:03,440

time both before and after his event um

616

00:22:06,390 --> 00:22:04,799

you could almost see the frustration

617

00:22:07,990 --> 00:22:06,400

that he was just because he was really

618

00:22:10,230 --> 00:22:08,000

calling for congressional hearings back

619

00:22:12,310 --> 00:22:10,240

in october you know before we'd heard of

620

00:22:14,310 --> 00:22:12,320

aoi msg and it was the early days of the

621

00:22:15,909 --> 00:22:14,320

gillibrand amendment so

622

00:22:17,350 --> 00:22:15,919

yeah i mean what's your thoughts on that

623

00:22:18,630 --> 00:22:17,360

on congressional hearings do you think

624

00:22:20,149 --> 00:22:18,640

that that's something further down the

625

00:22:22,789 --> 00:22:20,159

line that we should seriously consider

626

00:22:24,630 --> 00:22:22,799

or is it is it just wishful thinking

627

00:22:26,870 --> 00:22:24,640

i think it is being considered very very

628

00:22:28,310 --> 00:22:26,880

seriously by

629

00:22:32,630 --> 00:22:28,320

certain

630

00:22:34,710 --> 00:22:32,640

um

631

00:22:37,029 --> 00:22:34,720

i think that

632

00:22:40,070 --> 00:22:37,039

is the secret weapon that you have

633

00:22:42,950 --> 00:22:40,080

if there is frustration and obfuscation

634

00:22:45,510 --> 00:22:42,960

occurring from the government

635

00:22:46,630 --> 00:22:45,520

then the elected branch of government be

636

00:22:48,789 --> 00:22:46,640

like that

637

00:22:50,070 --> 00:22:48,799

we're getting justice you know i like to

638

00:22:51,669 --> 00:22:50,080

feel that

639

00:22:53,430 --> 00:22:51,679

congressman

640

00:22:55,190 --> 00:22:53,440

or politicians to say are getting just

641

00:22:55,650 --> 00:22:55,200

as frustrated as us

642

00:22:58,230 --> 00:22:55,660

um

643

00:23:00,630 --> 00:22:58,240

[Music]

644

00:23:02,230 --> 00:23:00,640

i i i get the feeling they want us to

645

00:23:04,149 --> 00:23:02,240

see some of what they've seen as well

646

00:23:06,230 --> 00:23:04,159

because it helps them

647

00:23:08,549 --> 00:23:06,240

it helps them it vindicates them to

648

00:23:13,190 --> 00:23:08,559

actually see some of those classified

649

00:23:18,470 --> 00:23:15,909

the amount of like secrecy surrounding

650

00:23:20,549 --> 00:23:18,480

surrounding it is just excessive

651  
00:23:23,830 --> 00:23:20,559  
and i think that the frustration will

652  
00:23:25,110 --> 00:23:23,840  
boil over and that this is their trump

653  
00:23:26,549 --> 00:23:25,120  
card

654  
00:23:30,149 --> 00:23:26,559  
called hearings

655  
00:23:32,149 --> 00:23:30,159  
um i i would always i i would always

656  
00:23:34,149 --> 00:23:32,159  
caveat that

657  
00:23:35,510 --> 00:23:34,159  
if hearings are going to take place

658  
00:23:37,270 --> 00:23:35,520  
you're not going to hear anything about

659  
00:23:40,390 --> 00:23:37,280  
it

660  
00:23:42,310 --> 00:23:40,400  
a lot of due diligence needs to occur

661  
00:23:44,470 --> 00:23:42,320  
for the hearings to take place there's a

662  
00:23:46,950 --> 00:23:44,480  
lot of preparation needs to occur

663  
00:23:49,029 --> 00:23:46,960

basically every question asked in

664

00:23:51,029 --> 00:23:49,039

hearings

665

00:23:52,630 --> 00:23:51,039

the committee needs to know the answers

666

00:23:55,190 --> 00:23:52,640

to these questions before they've even

667

00:23:56,549 --> 00:23:55,200

asked the person yeah from you know the

668

00:23:58,870 --> 00:23:56,559

dod

669

00:24:01,350 --> 00:23:58,880

anything short of that

670

00:24:03,590 --> 00:24:01,360

and it just turns into a circus and it

671

00:24:04,870 --> 00:24:03,600

turns into complete failure so

672

00:24:05,990 --> 00:24:04,880

it's got to be

673

00:24:07,510 --> 00:24:06,000

i like to think that we've got one

674

00:24:09,269 --> 00:24:07,520

opportunity

675

00:24:11,430 --> 00:24:09,279

and it's got to be done right

676  
00:24:12,870 --> 00:24:11,440  
it can't be rushed

677  
00:24:14,710 --> 00:24:12,880  
they need to take their time in

678  
00:24:17,110 --> 00:24:14,720  
preparing for public hearings if they

679  
00:24:18,630 --> 00:24:17,120  
are going ahead and that's what caution

680  
00:24:20,870 --> 00:24:18,640  
so when people say oh we want public

681  
00:24:23,750 --> 00:24:20,880  
hearings now i want them now

682  
00:24:25,510 --> 00:24:23,760  
let's give them some time let them think

683  
00:24:27,350 --> 00:24:25,520  
about the questions let them do their

684  
00:24:28,950 --> 00:24:27,360  
research

685  
00:24:31,190 --> 00:24:28,960  
and

686  
00:24:32,470 --> 00:24:31,200  
i think if that occurs

687  
00:24:35,750 --> 00:24:32,480  
then i think we'll see some real

688  
00:24:38,390 --> 00:24:35,760

movement um in terms of hearings i think

689

00:24:40,549 --> 00:24:38,400

if they are going to take place

690

00:24:43,269 --> 00:24:40,559

there are two options if there's a lack

691

00:24:46,230 --> 00:24:43,279

of progress in terms of the uap office

692

00:24:48,710 --> 00:24:46,240

perhaps we could see them

693

00:24:49,909 --> 00:24:48,720

before october when the unclassified

694

00:24:52,549 --> 00:24:49,919

version of

695

00:24:55,110 --> 00:24:52,559

the annualized report is coming out

696

00:24:56,149 --> 00:24:55,120

um but otherwise we may see

697

00:24:57,990 --> 00:24:56,159

hearings because i think they're going

698

00:25:00,390 --> 00:24:58,000

to happen regardless

699

00:25:02,070 --> 00:25:00,400

maybe next year perhaps

700

00:25:03,830 --> 00:25:02,080

do you think they might just sort of go

701  
00:25:05,590 --> 00:25:03,840  
to the the other way and just do closed

702  
00:25:07,110 --> 00:25:05,600  
hearings

703  
00:25:08,870 --> 00:25:07,120  
i think there's already been closed

704  
00:25:10,789 --> 00:25:08,880  
hearings i think um

705  
00:25:13,510 --> 00:25:10,799  
i mean i need to reference that but i

706  
00:25:15,430 --> 00:25:13,520  
think if you have a senator carson

707  
00:25:17,909 --> 00:25:15,440  
he said they've already kind of held

708  
00:25:19,830 --> 00:25:17,919  
close hearings on that um although i

709  
00:25:21,830 --> 00:25:19,840  
think dean johnson may

710  
00:25:24,149 --> 00:25:21,840  
have to correct me in terms of my

711  
00:25:25,590 --> 00:25:24,159  
terminology there but he he did say that

712  
00:25:27,750 --> 00:25:25,600  
there have been

713  
00:25:29,669 --> 00:25:27,760

close hearings and i think it's very

714

00:25:31,750 --> 00:25:29,679

much in

715

00:25:33,029 --> 00:25:31,760

the politicians interest that these are

716

00:25:37,510 --> 00:25:33,039

public hearings

717

00:25:38,710 --> 00:25:37,520

they put their necks on the line now for

718

00:25:40,549 --> 00:25:38,720

an issue which has been widely

719

00:25:46,630 --> 00:25:40,559

squandered for such a long time dear

720

00:25:52,230 --> 00:25:48,310

i mean he's got a shot now getting into

721

00:25:54,310 --> 00:25:52,240

the senate and tim all the all these you

722

00:25:56,470 --> 00:25:54,320

know courageous politicians spoken up

723

00:25:58,470 --> 00:25:56,480

they want to be vindicated

724

00:26:00,549 --> 00:25:58,480

they want to say that look this is why

725

00:26:02,390 --> 00:26:00,559

i've made such a big deal about this now

726

00:26:04,470 --> 00:26:02,400

you can all see it that's what we want

727

00:26:06,070 --> 00:26:04,480

to so i think it's very much an interest

728

00:26:08,070 --> 00:26:06,080

to have public hearings

729

00:26:09,750 --> 00:26:08,080

yeah i think another important aspect is

730

00:26:12,390 --> 00:26:09,760

for them to subpoena the right people as

731

00:26:13,990 --> 00:26:12,400

well so you know like luella zondo for

732

00:26:15,590 --> 00:26:14,000

example i mean imagine that where he

733

00:26:17,510 --> 00:26:15,600

could just

734

00:26:19,430 --> 00:26:17,520

the nda that he has just completely is

735

00:26:22,549 --> 00:26:19,440

irrelevant and he can just spew it all

736

00:26:24,710 --> 00:26:22,559

out to them i mean that's a dream

737

00:26:26,549 --> 00:26:24,720

oh yeah absolutely i would love that i'd

738

00:26:28,310 --> 00:26:26,559

absolutely love it and yeah you said

739

00:26:30,070 --> 00:26:28,320

subpoena the right people what i would

740

00:26:33,029 --> 00:26:30,080

really like to happen

741

00:26:35,029 --> 00:26:33,039

i i would love the dod no the doe

742

00:26:36,710 --> 00:26:35,039

department of energy

743

00:26:38,549 --> 00:26:36,720

to come forward and

744

00:26:39,830 --> 00:26:38,559

tell us what it knows because

745

00:26:42,549 --> 00:26:39,840

not a lot of people are speaking about

746

00:26:44,710 --> 00:26:42,559

that but if you remember on the jurgen

747

00:26:45,990 --> 00:26:44,720

experience chris mellon when asked if he

748

00:26:48,470 --> 00:26:46,000

was president where would he go where

749

00:26:50,149 --> 00:26:48,480

did he look and he said yo and don't

750

00:26:52,789 --> 00:26:50,159

forget like that's where patel was based

751

00:26:55,269 --> 00:26:52,799

as well and if you remember um

752

00:26:56,870 --> 00:26:55,279

you know when in the phenomena

753

00:26:58,630 --> 00:26:56,880

jacques vallee said that document

754

00:27:00,710 --> 00:26:58,640

changed my life forever

755

00:27:02,630 --> 00:27:00,720

and that's the document he was referring

756

00:27:03,750 --> 00:27:02,640

to was a document which showed that

757

00:27:08,470 --> 00:27:03,760

there was a

758

00:27:10,230 --> 00:27:08,480

at that time as well which was much

759

00:27:12,070 --> 00:27:10,240

better funded that seems to be coming

760

00:27:13,350 --> 00:27:12,080

out of patel

761

00:27:15,110 --> 00:27:13,360

so

762

00:27:17,029 --> 00:27:15,120

um i think there's stuff there's

763

00:27:18,710 --> 00:27:17,039

definitely stuff going on with the doe

764

00:27:21,350 --> 00:27:18,720

and i'd love to see some officials from

765

00:27:22,870 --> 00:27:21,360

the d.o.e especially those guys who

766

00:27:25,190 --> 00:27:22,880

can't be in control of protecting

767

00:27:26,870 --> 00:27:25,200

nuclear weapons

768

00:27:28,470 --> 00:27:26,880

guys to come forward

769

00:27:30,950 --> 00:27:28,480

so i always wonder if that's where the

770

00:27:32,310 --> 00:27:30,960

crash retrieval programs are you know

771

00:27:34,870 --> 00:27:32,320

somewhere between

772

00:27:37,669 --> 00:27:34,880

doe in the gray slightly outside of the

773

00:27:38,789 --> 00:27:37,679

black just in really hidden annexes

774

00:27:40,630 --> 00:27:38,799

yeah it's fascinating because there's

775

00:27:42,310 --> 00:27:40,640

zero evidence but you have to think if

776

00:27:44,470 --> 00:27:42,320

they are somewhere and they've been

777

00:27:45,669 --> 00:27:44,480

hinted at for so long by so many people

778

00:27:47,510 --> 00:27:45,679

that

779

00:27:49,110 --> 00:27:47,520

possibly where could they be and yeah i

780

00:27:51,990 --> 00:27:49,120

just find it so interesting but

781

00:27:55,830 --> 00:27:52,000

speculation is a it's a it's a dodgy one

782

00:27:58,789 --> 00:27:57,510

you can connect dots you know you can

783

00:28:01,590 --> 00:27:58,799

kind of like let it build up in the

784

00:28:03,590 --> 00:28:01,600

background if something sparks

785

00:28:05,350 --> 00:28:03,600

you know the legitimacy of your

786

00:28:07,190 --> 00:28:05,360

speculation that's something to kind of

787

00:28:09,830 --> 00:28:07,200

look at i think it was bubbles he

788

00:28:11,590 --> 00:28:09,840

claimed that was he working at

789

00:28:14,230 --> 00:28:11,600

los alamos that he was working at when

790

00:28:19,430 --> 00:28:14,240

he saw it was it apparently we've been

791

00:28:22,870 --> 00:28:20,950

but yeah i mean it's very very

792

00:28:24,789 --> 00:28:22,880

interesting and obviously jack valet as

793

00:28:26,549 --> 00:28:24,799

well said that um

794

00:28:30,549 --> 00:28:26,559

some parts of that

795

00:28:33,830 --> 00:28:30,559

um uap that was shot at over washington

796

00:28:34,710 --> 00:28:33,840

in 1950s the material was taken to patel

797

00:28:36,549 --> 00:28:34,720

right

798

00:28:38,630 --> 00:28:36,559

yeah but i was i'd be very very

799

00:28:40,710 --> 00:28:38,640

interested to see what's going on patel

800

00:28:42,389 --> 00:28:40,720

absolutely um

801  
00:28:43,909 --> 00:28:42,399  
i think uh something that surprised us

802  
00:28:45,669 --> 00:28:43,919  
all as well towards the end of last year

803  
00:28:47,350 --> 00:28:45,679  
was the um

804  
00:28:49,750 --> 00:28:47,360  
the our future in space event at the

805  
00:28:52,950 --> 00:28:49,760  
national washington national cathedral

806  
00:28:55,029 --> 00:28:52,960  
with dna avril haynes and avi loeb jeff

807  
00:28:56,789 --> 00:28:55,039  
bezos and

808  
00:28:59,350 --> 00:28:56,799  
bill nelson as well

809  
00:29:00,710 --> 00:28:59,360  
i mean i was

810  
00:29:02,230 --> 00:29:00,720  
i was so

811  
00:29:03,830 --> 00:29:02,240  
shocked when i saw that advertised it

812  
00:29:05,669 --> 00:29:03,840  
was just that mix of people in that

813  
00:29:07,269 --> 00:29:05,679

location but obviously the one thing

814

00:29:08,950 --> 00:29:07,279

that really stood out for me and i'll

815

00:29:11,029 --> 00:29:08,960

quote it i've got in front of me is the

816

00:29:12,710 --> 00:29:11,039

quote by avril haynes it's just a little

817

00:29:15,110 --> 00:29:12,720

bit that she said

818

00:29:17,669 --> 00:29:15,120

and i'll quote now of course always

819

00:29:19,430 --> 00:29:17,679

there's always the question of is there

820

00:29:20,789 --> 00:29:19,440

something else that we do not understand

821

00:29:23,110 --> 00:29:20,799

which might come

822

00:29:24,830 --> 00:29:23,120

extraterrestrially

823

00:29:27,190 --> 00:29:24,840

i mean that's the first time i've heard

824

00:29:28,470 --> 00:29:27,200

extraterrestrially to be honest but i

825

00:29:30,470 --> 00:29:28,480

mean that was quite a big statement what

826

00:29:33,669 --> 00:29:30,480

did you think

827

00:29:35,269 --> 00:29:33,679

alicia in a jim radcliffe

828

00:29:37,669 --> 00:29:35,279

predecessor

829

00:29:39,590 --> 00:29:37,679

she's seen stuff obviously i think

830

00:29:42,149 --> 00:29:39,600

i think when you look at avrohan she's a

831

00:29:44,549 --> 00:29:42,159

very very calm collected person very

832

00:29:46,310 --> 00:29:44,559

very restrained i mean for her to kind

833

00:29:48,070 --> 00:29:46,320

of use that language and obviously she's

834

00:29:49,029 --> 00:29:48,080

getting a bit stifled and she's saying

835

00:29:51,430 --> 00:29:49,039

as well

836

00:29:53,190 --> 00:29:51,440

i mean i think that speaks volumes

837

00:29:55,269 --> 00:29:53,200

um

838

00:29:56,870 --> 00:29:55,279

yeah i think i think it was just a very

839

00:29:58,789 --> 00:29:56,880

very interesting occasion she didn't

840

00:30:01,110 --> 00:29:58,799

have to turn up the event what i mean

841

00:30:03,350 --> 00:30:01,120

you got avilabe yeah you got jeff bezos

842

00:30:05,029 --> 00:30:03,360

yeah i mean astronomer and a guy he's

843

00:30:08,470 --> 00:30:05,039

running a space program and you've got a

844

00:30:09,430 --> 00:30:08,480

theologist as well discussing alien life

845

00:30:11,510 --> 00:30:09,440

why

846

00:30:13,510 --> 00:30:11,520

do you need the director of national

847

00:30:15,430 --> 00:30:13,520

intelligence there as well like what

848

00:30:17,029 --> 00:30:15,440

does she have to do obviously she didn't

849

00:30:19,029 --> 00:30:17,039

have to accept

850

00:30:20,470 --> 00:30:19,039

um but she did

851

00:30:22,389 --> 00:30:20,480

i think she knows her place in the

852

00:30:23,909 --> 00:30:22,399

history books let's say

853

00:30:25,590 --> 00:30:23,919

yeah absolutely i just want to give a

854

00:30:27,909 --> 00:30:25,600

quick shout out christian thompson thank

855

00:30:29,909 --> 00:30:27,919

you so much and says hi vinnie and chris

856

00:30:31,269 --> 00:30:29,919

keep up the good work thanks christian

857

00:30:33,029 --> 00:30:31,279

you too man

858

00:30:34,830 --> 00:30:33,039

if anybody doesn't go and check out

859

00:30:37,110 --> 00:30:34,840

christian's website

860

00:30:39,909 --> 00:30:37,120

uapdb.com is the go-to place for

861

00:30:42,789 --> 00:30:39,919

everything ufo and uap news articles

862

00:30:44,149 --> 00:30:42,799

podcasts everything you could want so

863

00:30:45,990 --> 00:30:44,159

thank you so much

864

00:30:47,029 --> 00:30:46,000

he collects so much good material that

865

00:30:47,830 --> 00:30:47,039

guy does

866

00:30:50,149 --> 00:30:47,840

i mean

867

00:30:52,310 --> 00:30:50,159

so many good people for you i'd like to

868

00:30:54,870 --> 00:30:52,320

do a shout out as well to edwin trowell

869

00:30:56,149 --> 00:30:54,880

he's really really lovely oh edwin is he

870

00:30:57,509 --> 00:30:56,159

is he here i didn't i've not been

871

00:30:58,470 --> 00:30:57,519

keeping my eye on the chat but yeah

872

00:31:02,549 --> 00:30:58,480

edwin

873

00:31:05,269 --> 00:31:02,559

good to see you my friend

874

00:31:08,470 --> 00:31:05,279

oh that's so sweet edwin's really cool

875

00:31:11,190 --> 00:31:09,830

one thing i am interested in is your

876

00:31:13,350 --> 00:31:11,200

thoughts on the skin walkers at the

877

00:31:14,549 --> 00:31:13,360

pentagon book and how it kind of i was

878

00:31:16,549 --> 00:31:14,559

going to say cleared up some of the

879

00:31:18,870 --> 00:31:16,559

confusion between a tip and awesome but

880

00:31:20,230 --> 00:31:18,880

i don't think it cleared that much up

881

00:31:22,149 --> 00:31:20,240

overall i think there were still some

882

00:31:23,590 --> 00:31:22,159

little points in there but what did you

883

00:31:25,830 --> 00:31:23,600

think i mean because that for me came

884

00:31:27,590 --> 00:31:25,840

out of nowhere that book

885

00:31:30,070 --> 00:31:27,600

yeah yeah um

886

00:31:31,269 --> 00:31:30,080

soviet sea jim lukowski

887

00:31:33,909 --> 00:31:31,279

he

888

00:31:36,630 --> 00:31:33,919

seems like a very very cautious person

889

00:31:38,389 --> 00:31:36,640

and from my understanding he's

890

00:31:39,909 --> 00:31:38,399

you know received threats and stuff like

891

00:31:41,029 --> 00:31:39,919

that perhaps

892

00:31:42,389 --> 00:31:41,039

um

893

00:31:44,310 --> 00:31:42,399

so

894

00:31:45,350 --> 00:31:44,320

it's gone under the radar for quite a

895

00:31:46,950 --> 00:31:45,360

long time

896

00:31:49,269 --> 00:31:46,960

in terms of that book and obviously had

897

00:31:51,830 --> 00:31:49,279

some sign-off procedures as well

898

00:31:53,350 --> 00:31:51,840

um in terms of

899

00:31:56,470 --> 00:31:53,360

the

900

00:31:57,669 --> 00:31:56,480

all-sap a-tip stuff i just find that

901  
00:32:00,389 --> 00:31:57,679

just

902  
00:32:03,029 --> 00:32:00,399

laborious i mean

903  
00:32:05,590 --> 00:32:03,039

that's looking at the trees you know

904  
00:32:07,990 --> 00:32:05,600

um the trains already left the station

905  
00:32:10,070 --> 00:32:08,000

and you're still kind of like

906  
00:32:11,750 --> 00:32:10,080

trying to find

907  
00:32:13,830 --> 00:32:11,760

i don't know you're still staring at the

908  
00:32:15,509 --> 00:32:13,840

ground asking what is this i don't know

909  
00:32:17,190 --> 00:32:15,519

i don't know it's just it's just silly

910  
00:32:18,389 --> 00:32:17,200

it's just silly um

911  
00:32:20,149 --> 00:32:18,399

at the end of the day like the people

912  
00:32:22,549 --> 00:32:20,159

who are questioning like the difference

913  
00:32:24,310 --> 00:32:22,559

between old stuff and native just

914

00:32:25,830 --> 00:32:24,320

i mean

915

00:32:27,269 --> 00:32:25,840

obviously

916

00:32:28,710 --> 00:32:27,279

this is a classified this is a

917

00:32:31,190 --> 00:32:28,720

classified world that we're talking

918

00:32:33,909 --> 00:32:31,200

about we're talking about you know

919

00:32:35,990 --> 00:32:33,919

complex bureaucracy and whatnot and

920

00:32:36,870 --> 00:32:36,000

you know we're talking element of

921

00:32:38,710 --> 00:32:36,880

you know

922

00:32:41,190 --> 00:32:38,720

humanity as well people make mistakes

923

00:32:43,590 --> 00:32:41,200

and stuff like leslie kane i mean like

924

00:32:45,669 --> 00:32:43,600

this a-tip slide everyone's going on

925

00:32:47,669 --> 00:32:45,679

that but she's felt it wrong just silly

926  
00:32:49,029 --> 00:32:47,679  
i mean like why are people focusing on

927  
00:32:50,389 --> 00:32:49,039  
that i mean look at the stuff that's

928  
00:32:51,190 --> 00:32:50,399  
actually being achieved i mean you've

929  
00:32:53,430 --> 00:32:51,200  
got

930  
00:32:56,389 --> 00:32:53,440  
you know an ig assessment that's been

931  
00:32:58,789 --> 00:32:56,399  
launched you've got a new uap office

932  
00:33:00,789 --> 00:32:58,799  
recently had a member of canada's

933  
00:33:02,950 --> 00:33:00,799  
parliament who's now speaking out about

934  
00:33:03,990 --> 00:33:02,960  
it

935  
00:33:05,350 --> 00:33:04,000  
i mean

936  
00:33:07,909 --> 00:33:05,360  
you've got

937  
00:33:10,149 --> 00:33:07,919  
big senators speaking out about it and

938  
00:33:12,310 --> 00:33:10,159

by the way all the these people in terms

939

00:33:14,630 --> 00:33:12,320

of u.s politicians who are saying look i

940

00:33:16,230 --> 00:33:14,640

don't think it's ours or you know this

941

00:33:17,350 --> 00:33:16,240

is crazy what i've seen and what not you

942

00:33:18,870 --> 00:33:17,360

know

943

00:33:20,549 --> 00:33:18,880

they're actually

944

00:33:23,029 --> 00:33:20,559

privy to classified

945

00:33:24,389 --> 00:33:23,039

material unlike

946

00:33:27,430 --> 00:33:24,399

unlike the people who are just kind of

947

00:33:29,350 --> 00:33:27,440

like looking through the haystack um

948

00:33:31,830 --> 00:33:29,360

so i mean it's just it's just really

949

00:33:32,789 --> 00:33:31,840

stupid i just think i think you know why

950

00:33:34,630 --> 00:33:32,799

are you looking at the trees when

951  
00:33:37,110 --> 00:33:34,640  
there's a whole forest you know

952  
00:33:38,149 --> 00:33:37,120  
and things are moving forward

953  
00:33:40,950 --> 00:33:38,159  
i don't know it just seems very very

954  
00:33:42,789 --> 00:33:40,960  
pedantic to me um but yeah i think

955  
00:33:44,310 --> 00:33:42,799  
you're right yeah it is

956  
00:33:45,590 --> 00:33:44,320  
if you want to focus on that yeah knock

957  
00:33:48,070 --> 00:33:45,600  
yourself out you know i'll keep on

958  
00:33:49,750 --> 00:33:48,080  
covering the news that matters the stuff

959  
00:33:51,190 --> 00:33:49,760  
that actually shows progress and stuff

960  
00:33:53,269 --> 00:33:51,200  
because i know that

961  
00:33:55,750 --> 00:33:53,279  
kirsten gillibrad isn't reading these

962  
00:33:57,800 --> 00:33:55,760  
articles thinking oh my gosh he's got a

963  
00:33:59,269 --> 00:33:57,810

point i'll stop an anger

964

00:34:01,029 --> 00:33:59,279

[Music]

965

00:34:02,310 --> 00:34:01,039

if you've seen like a

966

00:34:04,230 --> 00:34:02,320

image of a

967

00:34:06,310 --> 00:34:04,240

you know potential alien craft doing

968

00:34:08,869 --> 00:34:06,320

maneuvers that you've never kind of like

969

00:34:10,869 --> 00:34:08,879

seen before um you're not thinking that

970

00:34:13,430 --> 00:34:10,879

stuff you're thinking look this is a

971

00:34:15,270 --> 00:34:13,440

national security risk these things uh

972

00:34:17,109 --> 00:34:15,280

you know as we as on this claim buzzing

973

00:34:19,190 --> 00:34:17,119

our um

974

00:34:20,710 --> 00:34:19,200

aircraft and our navy ships on a regular

975

00:34:22,389 --> 00:34:20,720

basis we need to sort this out you know

976  
00:34:24,149 --> 00:34:22,399  
they're not thinking about all sap and

977  
00:34:25,750 --> 00:34:24,159  
asic come on like

978  
00:34:28,550 --> 00:34:25,760  
i'm sorry but skin walkers are the

979  
00:34:30,629 --> 00:34:28,560  
pentagon i mean i i spoke to col um

980  
00:34:32,550 --> 00:34:30,639  
recently really really nice guy i wake i

981  
00:34:34,869 --> 00:34:32,560  
worked with him in george knapp and

982  
00:34:36,629 --> 00:34:34,879  
james to tell ski and

983  
00:34:39,180 --> 00:34:36,639  
wrote an article about it i just thought

984  
00:34:40,230 --> 00:34:39,190  
it was really really interesting and um

985  
00:34:42,069 --> 00:34:40,240  
[Music]

986  
00:34:44,310 --> 00:34:42,079  
if you look at the apprentices of books

987  
00:34:45,750 --> 00:34:44,320  
they've kind of laid out structure how

988  
00:34:47,589 --> 00:34:45,760

you could kind of

989

00:34:49,030 --> 00:34:47,599

start a uap office

990

00:34:50,950 --> 00:34:49,040

and you can find some similarities

991

00:34:53,270 --> 00:34:50,960

between what was in there models have

992

00:34:54,550 --> 00:34:53,280

been within their um congressional

993

00:34:56,869 --> 00:34:54,560

legislation which i found quite

994

00:34:58,069 --> 00:34:56,879

interesting um and obviously as well i

995

00:34:59,430 --> 00:34:58,079

mean the thing that i found most

996

00:35:01,190 --> 00:34:59,440

interesting

997

00:35:03,670 --> 00:35:01,200

is the fact that

998

00:35:05,829 --> 00:35:03,680

i mean what was said to

999

00:35:07,430 --> 00:35:05,839

to me by calm is that you know there are

1000

00:35:09,030 --> 00:35:07,440

people with

1001  
00:35:11,510 --> 00:35:09,040  
significant

1002  
00:35:12,870 --> 00:35:11,520  
health impacts in terms of like

1003  
00:35:15,109 --> 00:35:12,880  
psychological

1004  
00:35:17,270 --> 00:35:15,119  
um from the ontological effects and in

1005  
00:35:19,750 --> 00:35:17,280  
terms of physical health as well

1006  
00:35:22,310 --> 00:35:19,760  
um even from the nimitz so there are

1007  
00:35:24,310 --> 00:35:22,320  
people from the nimitz

1008  
00:35:26,390 --> 00:35:24,320  
from understanding

1009  
00:35:28,870 --> 00:35:26,400  
who have not come forward yet

1010  
00:35:31,510 --> 00:35:28,880  
who are suffering or have suffered the

1011  
00:35:32,470 --> 00:35:31,520  
impact in terms of what happened on that

1012  
00:35:34,150 --> 00:35:32,480  
day

1013  
00:35:36,230 --> 00:35:34,160

um which i found really really

1014

00:35:38,470 --> 00:35:36,240

interesting and obviously

1015

00:35:39,990 --> 00:35:38,480

quite terrible as well um

1016

00:35:40,870 --> 00:35:40,000

and it just makes you think you know

1017

00:35:43,030 --> 00:35:40,880

like

1018

00:35:45,430 --> 00:35:43,040

how often is this happening to pilots

1019

00:35:48,870 --> 00:35:45,440

you know who are getting radiation burns

1020

00:35:49,990 --> 00:35:48,880

or microwave damage from these uap

1021

00:35:51,430 --> 00:35:50,000

um

1022

00:35:52,870 --> 00:35:51,440

and that's yeah i just find it really

1023

00:35:55,190 --> 00:35:52,880

really interesting from my understanding

1024

00:35:57,349 --> 00:35:55,200

as well what gary neillin has said that

1025

00:35:58,950 --> 00:35:57,359

intelligence officers are

1026  
00:36:00,150 --> 00:35:58,960  
kind of getting these impacts as well

1027  
00:36:01,910 --> 00:36:00,160  
from uab

1028  
00:36:03,589 --> 00:36:01,920  
and that makes me think because okay it

1029  
00:36:05,829 --> 00:36:03,599  
makes sense that you know you could be

1030  
00:36:08,069 --> 00:36:05,839  
like an f-16 pilot or whatever and you

1031  
00:36:09,589 --> 00:36:08,079  
come into contact with eop and you get

1032  
00:36:11,030 --> 00:36:09,599  
radiation burn stuff like you're going

1033  
00:36:12,790 --> 00:36:11,040  
to come across at uap eventually i

1034  
00:36:15,270 --> 00:36:12,800  
suppose if you're

1035  
00:36:16,710 --> 00:36:15,280  
flying in a hot zone like the east coast

1036  
00:36:18,710 --> 00:36:16,720  
what about intelligence officers how are

1037  
00:36:21,670 --> 00:36:18,720  
they coming into contact with you apa it

1038  
00:36:25,829 --> 00:36:23,990

yes it shows there must be a lot

1039

00:36:27,990 --> 00:36:25,839

an awful lot that's classified and still

1040

00:36:29,109 --> 00:36:28,000

happening that we just have no idea

1041

00:36:31,270 --> 00:36:29,119

about and

1042

00:36:33,270 --> 00:36:31,280

yeah that's crazy to think um now you're

1043

00:36:36,150 --> 00:36:33,280

talking about moving forward and stuff i

1044

00:36:38,870 --> 00:36:36,160

did feel personally felt that when aoi

1045

00:36:40,470 --> 00:36:38,880

msg was announced that it was just like

1046

00:36:42,390 --> 00:36:40,480

something that was thrown out there to

1047

00:36:43,990 --> 00:36:42,400

just derail the gillibrand amendment

1048

00:36:45,829 --> 00:36:44,000

what did you think when that suddenly

1049

00:36:47,589 --> 00:36:45,839

came up

1050

00:36:49,670 --> 00:36:47,599

so i mean

1051

00:36:50,950 --> 00:36:49,680

when when you read the hix

1052

00:36:53,349 --> 00:36:50,960

memo from

1053

00:36:55,109 --> 00:36:53,359

after the primary assessment release

1054

00:36:56,870 --> 00:36:55,119

they kind of promised they would have

1055

00:37:01,190 --> 00:36:56,880

this follow-on

1056

00:37:03,190 --> 00:37:01,200

activity so

1057

00:37:04,630 --> 00:37:03,200

when looking at the hindsight i can see

1058

00:37:06,790 --> 00:37:04,640

where that was coming from and i can see

1059

00:37:08,310 --> 00:37:06,800

why you know lou and melon pushed for

1060

00:37:10,310 --> 00:37:08,320

something much bigger as well because

1061

00:37:12,390 --> 00:37:10,320

they knew what was coming perhaps

1062

00:37:14,150 --> 00:37:12,400

um and obviously we can question the

1063

00:37:15,670 --> 00:37:14,160

timing as well just before thanksgiving

1064

00:37:17,190 --> 00:37:15,680

or when it was released

1065

00:37:19,109 --> 00:37:17,200

um

1066

00:37:21,190 --> 00:37:19,119

and it just say it just seemed to me

1067

00:37:23,670 --> 00:37:21,200

that it was ous

1068

00:37:25,510 --> 00:37:23,680

um a usd

1069

00:37:28,630 --> 00:37:25,520

ins

1070

00:37:31,750 --> 00:37:28,640

um it was there kind of

1071

00:37:32,550 --> 00:37:31,760

swooped to try and claim this yet again

1072

00:37:34,710 --> 00:37:32,560

and

1073

00:37:36,150 --> 00:37:34,720

it just seems to me that

1074

00:37:38,790 --> 00:37:36,160

looking for me on the outside at the

1075

00:37:39,589 --> 00:37:38,800

time looked to me that kathleen hicks

1076

00:37:40,870 --> 00:37:39,599

and

1077

00:37:42,710 --> 00:37:40,880

although i know it's not the case now

1078

00:37:44,069 --> 00:37:42,720

admiral haynes just looking to sidestep

1079

00:37:46,390 --> 00:37:44,079

responsibility

1080

00:37:48,069 --> 00:37:46,400

and just say let's just give it to

1081

00:37:50,950 --> 00:37:48,079

you know the under office of the

1082

00:37:53,270 --> 00:37:50,960

secretary of defense instead um

1083

00:37:55,270 --> 00:37:53,280

and then when you look at the actual uap

1084

00:37:57,750 --> 00:37:55,280

office legislation they're like

1085

00:37:59,589 --> 00:37:57,760

no no no actually it's way too important

1086

00:38:01,750 --> 00:37:59,599

for this this has got to be led by the

1087

00:38:03,510 --> 00:38:01,760

secretary of defense which means that

1088

00:38:05,190 --> 00:38:03,520

you know

1089

00:38:06,550 --> 00:38:05,200

kathleen hicks who's the deputy

1090

00:38:07,510 --> 00:38:06,560

secretary of defense

1091

00:38:09,670 --> 00:38:07,520

you know

1092

00:38:11,270 --> 00:38:09,680

she's like saying oh this is isn't

1093

00:38:12,950 --> 00:38:11,280

important enough for me and like

1094

00:38:15,670 --> 00:38:12,960

congress is like going no no it's too

1095

00:38:17,589 --> 00:38:15,680

important for you yeah quite funny and

1096

00:38:19,349 --> 00:38:17,599

it's gotta be led by um avril haynes as

1097

00:38:21,109 --> 00:38:19,359

well but i think in terms of our hanes

1098

00:38:22,230 --> 00:38:21,119

it should be quite

1099

00:38:25,670 --> 00:38:22,240

i don't

1100

00:38:27,589 --> 00:38:25,680

i think from my understanding the dod is

1101  
00:38:29,910 --> 00:38:27,599  
kind of like if you put this name and

1102  
00:38:31,750 --> 00:38:29,920  
sounds saying look

1103  
00:38:33,030 --> 00:38:31,760  
wink we've got this under control leave

1104  
00:38:34,069 --> 00:38:33,040  
this stuff for us we'll eat this we'll

1105  
00:38:36,069 --> 00:38:34,079  
get everything through we'll do all the

1106  
00:38:36,570 --> 00:38:36,079  
work and stuff and i think they've kind

1107  
00:38:38,470 --> 00:38:36,580  
of um

1108  
00:38:40,710 --> 00:38:38,480  
[Music]

1109  
00:38:42,710 --> 00:38:40,720  
screwed screwed this up and made april

1110  
00:38:45,190 --> 00:38:42,720  
hanes look bad in the process

1111  
00:38:47,589 --> 00:38:45,200  
um and perhaps she's coming for some

1112  
00:38:49,190 --> 00:38:47,599  
flak from the intelligence committee for

1113  
00:38:50,230 --> 00:38:49,200

that so i think

1114

00:38:52,630 --> 00:38:50,240

now

1115

00:38:54,069 --> 00:38:52,640

she may be or her office maybe trying to

1116

00:38:56,310 --> 00:38:54,079

actually

1117

00:38:59,109 --> 00:38:56,320

write some of those wrongs but in the

1118

00:39:03,349 --> 00:38:59,119

long term i think although aomsg was

1119

00:39:03,850 --> 00:39:03,359

within um the uh oh usdi

1120

00:39:05,270 --> 00:39:03,860

um

1121

00:39:07,270 --> 00:39:05,280

[Music]

1122

00:39:09,190 --> 00:39:07,280

in terms of legislation it's passed by

1123

00:39:11,109 --> 00:39:09,200

congress there's no way that it can

1124

00:39:13,190 --> 00:39:11,119

actually take on that responsibility

1125

00:39:15,430 --> 00:39:13,200

it's too much it's too much they can't

1126

00:39:17,510 --> 00:39:15,440

do it they don't have the capability

1127

00:39:19,829 --> 00:39:17,520

they're an oversight office

1128

00:39:21,750 --> 00:39:19,839

they're not they they don't like have

1129

00:39:23,589 --> 00:39:21,760

the ability to contract and things like

1130

00:39:25,109 --> 00:39:23,599

that and they don't have the resources

1131

00:39:27,430 --> 00:39:25,119

to kind of like

1132

00:39:29,030 --> 00:39:27,440

commit to that mission so i mean long

1133

00:39:30,790 --> 00:39:29,040

term there's no way that

1134

00:39:34,150 --> 00:39:30,800

i mean they say that it's with you a

1135

00:39:36,550 --> 00:39:34,160

usdi and s at the moment but long term i

1136

00:39:38,630 --> 00:39:36,560

can't see that working out and i think

1137

00:39:40,470 --> 00:39:38,640

dean johnson rightly said that you know

1138

00:39:42,470 --> 00:39:40,480

just give it time and

1139

00:39:43,910 --> 00:39:42,480

eventually you might see some change in

1140

00:39:46,550 --> 00:39:43,920

terms of

1141

00:39:48,150 --> 00:39:46,560

who the um overseeing

1142

00:39:51,270 --> 00:39:48,160

body or agency

1143

00:39:52,630 --> 00:39:51,280

is in terms of the uap office so yeah

1144

00:39:54,630 --> 00:39:52,640

i mean we come in

1145

00:39:56,230 --> 00:39:54,640

yeah no i completely agree with

1146

00:39:58,069 --> 00:39:56,240

everything you said there and and we're

1147

00:39:59,430 --> 00:39:58,079

coming now into what it's march and i'm

1148

00:40:01,990 --> 00:39:59,440

sure we'll do some

1149

00:40:03,589 --> 00:40:02,000

we're not we let's i'll rephrase that

1150

00:40:05,349 --> 00:40:03,599

the first classified briefing should be

1151

00:40:07,430 --> 00:40:05,359

due at the end of march

1152

00:40:08,710 --> 00:40:07,440

but you know we've not heard anything

1153

00:40:10,470 --> 00:40:08,720

since the

1154

00:40:13,030 --> 00:40:10,480

everything became law towards the end of

1155

00:40:15,510 --> 00:40:13,040

december i mean i even asked lou

1156

00:40:18,630 --> 00:40:15,520

um last week i think about who's running

1157

00:40:20,230 --> 00:40:18,640

it right now is it still you a ptf aoi

1158

00:40:21,510 --> 00:40:20,240

msg or has the new office been

1159

00:40:22,710 --> 00:40:21,520

implemented but

1160

00:40:24,630 --> 00:40:22,720

he wouldn't answer and that's fair

1161

00:40:26,309 --> 00:40:24,640

enough but um

1162

00:40:27,910 --> 00:40:26,319

you've had you you told me something

1163

00:40:29,510 --> 00:40:27,920

earlier let's

1164

00:40:31,430 --> 00:40:29,520

bring that back up about your

1165

00:40:32,950 --> 00:40:31,440

interactions let's say with the dod

1166

00:40:35,109 --> 00:40:32,960

recently

1167

00:40:36,630 --> 00:40:35,119

yeah so i mean in terms of what's

1168

00:40:42,309 --> 00:40:36,640

happening i mean i've been discussing

1169

00:40:47,750 --> 00:40:45,430

she's uh no so basically there is no

1170

00:40:49,670 --> 00:40:47,760

entity officially

1171

00:40:51,750 --> 00:40:49,680

there is no entity called the uap office

1172

00:40:52,790 --> 00:40:51,760

it's

1173

00:40:55,990 --> 00:40:52,800

ao

1174

00:40:57,349 --> 00:40:56,000

imsg that's what it is says basically

1175

00:41:01,510 --> 00:40:57,359

aoms

1176

00:41:02,790 --> 00:41:01,520

as they see it ao misg has this

1177

00:41:07,349 --> 00:41:02,800

new

1178

00:41:09,829 --> 00:41:07,359

set up by congress

1179

00:41:12,230 --> 00:41:09,839

and it needs to basically

1180

00:41:14,230 --> 00:41:12,240

work to implement

1181

00:41:16,710 --> 00:41:14,240

the and reflect

1182

00:41:18,390 --> 00:41:16,720

the will of congress

1183

00:41:20,470 --> 00:41:18,400

so that's what it's been doing for the

1184

00:41:22,150 --> 00:41:20,480

last few months basically

1185

00:41:24,069 --> 00:41:22,160

looking how it's

1186

00:41:25,829 --> 00:41:24,079

can implement

1187

00:41:27,670 --> 00:41:25,839

the guidance as they put it although

1188

00:41:31,030 --> 00:41:27,680

it's not guidance it's legislation it's

1189

00:41:33,829 --> 00:41:31,040

the law i would say um so

1190

00:41:35,109 --> 00:41:33,839

currently the status is officially the

1191

00:41:35,910 --> 00:41:35,119

status is

1192

00:41:38,470 --> 00:41:35,920

that

1193

00:41:40,309 --> 00:41:38,480

this is a quote from susan goff

1194

00:41:42,069 --> 00:41:40,319

we are currently coordinating

1195

00:41:44,710 --> 00:41:42,079

implementing guidance across the

1196

00:41:48,230 --> 00:41:44,720

department and with interagency partners

1197

00:41:51,589 --> 00:41:48,240

to ensure that the aoi msg meets

1198

00:41:53,510 --> 00:41:51,599

congressional intent um she added we're

1199

00:41:57,510 --> 00:41:53,520

transitioning the mission

1200

00:41:58,790 --> 00:41:57,520

of the former uap task force to the aoi

1201  
00:42:00,950 --> 00:41:58,800  
msg

1202  
00:42:02,390 --> 00:42:00,960  
while under a continued continuing

1203  
00:42:04,710 --> 00:42:02,400  
resolution

1204  
00:42:07,270 --> 00:42:04,720  
the examination and analysis of uap

1205  
00:42:11,670 --> 00:42:07,280  
incursions into special use airspace

1206  
00:42:13,829 --> 00:42:11,680  
continues at fiscal year 2021 levels so

1207  
00:42:15,670 --> 00:42:13,839  
i mean sure guys that means that nothing

1208  
00:42:17,829 --> 00:42:15,680  
has changed

1209  
00:42:18,870 --> 00:42:17,839  
despite this kind of being signed off by

1210  
00:42:21,270 --> 00:42:18,880  
biden

1211  
00:42:23,030 --> 00:42:21,280  
in december and despite the first

1212  
00:42:24,390 --> 00:42:23,040  
classified briefing to committees coming

1213  
00:42:28,150 --> 00:42:24,400

up this month

1214

00:42:30,470 --> 00:42:28,160

they still at 2021 levels so basically

1215

00:42:31,750 --> 00:42:30,480

they have not implemented

1216

00:42:37,030 --> 00:42:31,760

the

1217

00:42:38,790 --> 00:42:37,040

in terms of what congress

1218

00:42:41,990 --> 00:42:38,800

has asked for so

1219

00:42:43,270 --> 00:42:42,000

i expect in the next classified briefing

1220

00:42:45,589 --> 00:42:43,280

this month that there's going to be a

1221

00:42:47,109 --> 00:42:45,599

lot of politicians who are going to be

1222

00:42:49,349 --> 00:42:47,119

very very annoyed

1223

00:42:51,430 --> 00:42:49,359

um and i feel that might break the

1224

00:42:52,710 --> 00:42:51,440

camel's back let's see well there's also

1225

00:42:54,630 --> 00:42:52,720

we've got the inspector general's

1226

00:42:56,150 --> 00:42:54,640

investigation still going on looking at

1227

00:42:58,710 --> 00:42:56,160

how they were looking into the uap

1228

00:43:00,870 --> 00:42:58,720

subjects back in 2021

1229

00:43:02,550 --> 00:43:00,880

now if they keep doing that then the ig

1230

00:43:04,069 --> 00:43:02,560

is going to be on their back surely

1231

00:43:05,430 --> 00:43:04,079

before long you know come on what's

1232

00:43:08,150 --> 00:43:05,440

going on we've got this new law and

1233

00:43:09,670 --> 00:43:08,160

you're not even implementing it to as it

1234

00:43:11,829 --> 00:43:09,680

should be i mean that's

1235

00:43:14,790 --> 00:43:11,839

mind-boggling yes that's what i wrote

1236

00:43:16,309 --> 00:43:14,800

about the other day about um

1237

00:43:19,270 --> 00:43:16,319

why

1238

00:43:22,069 --> 00:43:19,280

senator gillibrand seemed so perplexed

1239

00:43:23,430 --> 00:43:22,079

um in her tone and so annoyed when she

1240

00:43:24,230 --> 00:43:23,440

was questioning

1241

00:43:25,510 --> 00:43:24,240

the

1242

00:43:28,309 --> 00:43:25,520

nominee

1243

00:43:30,470 --> 00:43:28,319

for the new dod ig

1244

00:43:33,670 --> 00:43:30,480

um i think that

1245

00:43:34,790 --> 00:43:33,680

that was why she wants to put pressure

1246

00:43:37,349 --> 00:43:34,800

on

1247

00:43:38,309 --> 00:43:37,359

a us usdi

1248

00:43:40,309 --> 00:43:38,319

and s

1249

00:43:41,750 --> 00:43:40,319

she wants to put pressure on her office

1250

00:43:42,710 --> 00:43:41,760

basically to say look get your app

1251

00:43:44,230 --> 00:43:42,720

together

1252

00:43:46,069 --> 00:43:44,240

because

1253

00:43:47,670 --> 00:43:46,079

once this new ig comes into office

1254

00:43:49,270 --> 00:43:47,680

you're gonna have a whole lot of trouble

1255

00:43:50,390 --> 00:43:49,280

not only you're gonna struggle actually

1256

00:43:53,109 --> 00:43:50,400

implementing

1257

00:43:54,630 --> 00:43:53,119

and meeting the congressional intent

1258

00:43:56,550 --> 00:43:54,640

you're actually going to have these guys

1259

00:43:58,710 --> 00:43:56,560

looking looking at you as well and it's

1260

00:44:01,430 --> 00:43:58,720

going to come from very very top guy so

1261

00:44:03,589 --> 00:44:01,440

i think they're maximizing pressure out

1262

00:44:05,270 --> 00:44:03,599

of annoyance basically

1263

00:44:07,990 --> 00:44:05,280

of what's happening at the moment and

1264

00:44:09,349 --> 00:44:08,000

the pace of things if you're having you

1265

00:44:11,750 --> 00:44:09,359

have to imagine you know if you're a

1266

00:44:13,430 --> 00:44:11,760

senator you know you your

1267

00:44:15,589 --> 00:44:13,440

portfolio or your what you're

1268

00:44:17,190 --> 00:44:15,599

scrutinizing is defense and you're

1269

00:44:20,870 --> 00:44:17,200

seeing that this stuff is happening on a

1270

00:44:24,309 --> 00:44:20,880

regular basis in terms of um

1271

00:44:26,069 --> 00:44:24,319

uap buzzing naples ships and whatnot

1272

00:44:27,349 --> 00:44:26,079

this is really serious you know and like

1273

00:44:28,870 --> 00:44:27,359

this is quite urgent to get to the

1274

00:44:30,150 --> 00:44:28,880

bottom of this especially i mean we

1275

00:44:31,910 --> 00:44:30,160

don't know if it's russian let's just

1276

00:44:35,109 --> 00:44:31,920

play devil's africa russia has just

1277

00:44:37,510 --> 00:44:35,119

invaded ukraine obviously putin seems

1278

00:44:39,270 --> 00:44:37,520

unhinged let's say some of these are

1279

00:44:41,270 --> 00:44:39,280

russian drones let's say let's play

1280

00:44:43,270 --> 00:44:41,280

devil's advocate then is it even more

1281

00:44:45,510 --> 00:44:43,280

alarming that this stuff is happening

1282

00:44:48,790 --> 00:44:45,520

and despite this there just doesn't seem

1283

00:44:50,390 --> 00:44:48,800

to be any urgency on the part of a usdi

1284

00:44:51,430 --> 00:44:50,400

and s to actually get to the bottom of

1285

00:44:54,950 --> 00:44:51,440

it so

1286

00:44:57,109 --> 00:44:54,960

yeah if i'm in if i'm in the shoes of um

1287

00:44:59,750 --> 00:44:57,119

of politicians i'm getting really

1288

00:45:01,750 --> 00:44:59,760

annoyed maybe if i'm them

1289

00:45:03,030 --> 00:45:01,760

yeah that's that's the thing yeah and i

1290

00:45:04,630 --> 00:45:03,040

think as well we've just got to play the

1291

00:45:06,390 --> 00:45:04,640

long game haven't we it's like louis

1292

00:45:08,710 --> 00:45:06,400

always said it's a marathon or not a

1293

00:45:11,109 --> 00:45:08,720

sprint and there's always going to be

1294

00:45:12,630 --> 00:45:11,119

you know infighting between congress and

1295

00:45:14,230 --> 00:45:12,640

and the pentagon and stuff so i think

1296

00:45:16,470 --> 00:45:14,240

it's just a case of

1297

00:45:17,670 --> 00:45:16,480

we've just got to hope that the people

1298

00:45:19,349 --> 00:45:17,680

are doing the right thing behind the

1299

00:45:20,870 --> 00:45:19,359

scenes i'm confident that they are from

1300

00:45:21,990 --> 00:45:20,880

some people that i've spoken to i just

1301

00:45:23,109 --> 00:45:22,000

think it's

1302

00:45:24,870 --> 00:45:23,119

we've just got to have these little

1303

00:45:26,870 --> 00:45:24,880

battles let them play out and then we

1304

00:45:28,470 --> 00:45:26,880

might start seeing some results towards

1305

00:45:29,829 --> 00:45:28,480

maybe october when we get the first

1306

00:45:31,910 --> 00:45:29,839

declassified

1307

00:45:32,950 --> 00:45:31,920

report or unclassified report should i

1308

00:45:34,069 --> 00:45:32,960

say so

1309

00:45:36,069 --> 00:45:34,079

yeah

1310

00:45:37,349 --> 00:45:36,079

fingers crossed um now you mentioned it

1311

00:45:38,470 --> 00:45:37,359

earlier but the canadian government have

1312

00:45:40,470 --> 00:45:38,480

recently sort of entered the

1313

00:45:42,069 --> 00:45:40,480

conversation let's say last week i think

1314

00:45:44,230 --> 00:45:42,079

was the deputy minister of the

1315

00:45:45,910 --> 00:45:44,240

department of natural resources it's

1316

00:45:48,390 --> 00:45:45,920

been about getting a report prepared

1317

00:45:49,670 --> 00:45:48,400

based on uap incidents and so that's

1318

00:45:50,870 --> 00:45:49,680

really good and i mean i don't

1319

00:45:53,510 --> 00:45:50,880

necessarily want to touch upon it in

1320

00:45:55,270 --> 00:45:53,520

detail but it makes us think like

1321

00:45:57,109 --> 00:45:55,280

we really need to get our butts into

1322

00:45:59,510 --> 00:45:57,119

gear over here in the uk where do you

1323

00:46:01,270 --> 00:45:59,520

see the conversation going in the uk and

1324

00:46:02,390 --> 00:46:01,280

if you don't see it going anywhere what

1325

00:46:04,390 --> 00:46:02,400

can we do

1326

00:46:06,069 --> 00:46:04,400

to kind of help

1327

00:46:08,309 --> 00:46:06,079

i think the conversation is going to go

1328

00:46:09,510 --> 00:46:08,319

somewhere sooner or later i mean if you

1329

00:46:11,829 --> 00:46:09,520

look at the

1330

00:46:13,030 --> 00:46:11,839

language of the uap

1331

00:46:15,430 --> 00:46:13,040

office

1332

00:46:18,069 --> 00:46:15,440

um there is language there to actually

1333

00:46:19,190 --> 00:46:18,079

coordinate with allies and partners

1334

00:46:22,069 --> 00:46:19,200

um

1335

00:46:23,829 --> 00:46:22,079

from other nations so it will happen i

1336

00:46:25,910 --> 00:46:23,839

believe that there's a very i mean this

1337

00:46:28,470 --> 00:46:25,920

is the closest intelligence relationship

1338

00:46:32,069 --> 00:46:28,480

there it could possibly be in terms of

1339

00:46:34,870 --> 00:46:32,079

u.s intelligence and uk intelligence um

1340

00:46:36,470 --> 00:46:34,880

and despite the mod saying they've not

1341

00:46:38,390 --> 00:46:36,480

read the classified version before which

1342

00:46:40,390 --> 00:46:38,400

i found very hard to believe i suspect

1343

00:46:41,430 --> 00:46:40,400

that many within the uk

1344

00:46:43,990 --> 00:46:41,440

the

1345

00:46:46,230 --> 00:46:44,000

intelligence community have um perhaps

1346

00:46:47,750 --> 00:46:46,240

there's a few people within um defense

1347

00:46:49,829 --> 00:46:47,760

intelligence for example that have

1348

00:46:52,150 --> 00:46:49,839

actually read it so i think that it's

1349

00:46:53,430 --> 00:46:52,160

going to go somewhere sooner or later um

1350

00:46:56,069 --> 00:46:53,440

and i'll just caveat that by saying

1351

00:46:57,349 --> 00:46:56,079

watches space that i think i think

1352

00:46:59,589 --> 00:46:57,359

there's gonna be a big push soon in

1353

00:47:03,670 --> 00:46:59,599

terms of what's happening in the uk

1354

00:47:05,030 --> 00:47:03,680

um as in other countries as well

1355

00:47:06,309 --> 00:47:05,040

yeah i agree i mean i've had

1356

00:47:07,670 --> 00:47:06,319

conversations with people in the last

1357

00:47:09,829 --> 00:47:07,680

few months saying that

1358

00:47:12,630 --> 00:47:09,839

they believe that the uf ufo office here

1359

00:47:14,069 --> 00:47:12,640

in the uk didn't end in 2009 that these

1360

00:47:15,510 --> 00:47:14,079

people think that it's still happening

1361

00:47:17,829 --> 00:47:15,520

and they even think they know where it's

1362

00:47:19,109 --> 00:47:17,839

based location-wise and that i mean

1363

00:47:20,630 --> 00:47:19,119

obviously to me that's just pure

1364

00:47:22,790 --> 00:47:20,640

speculation but

1365

00:47:24,309 --> 00:47:22,800

it kind of makes sense that something

1366

00:47:26,549 --> 00:47:24,319

would suddenly you know why would it

1367

00:47:28,230 --> 00:47:26,559

suddenly stop in 09 when they were

1368

00:47:29,510 --> 00:47:28,240

really on top of the subject back then

1369

00:47:31,990 --> 00:47:29,520

you know the amount of documents that

1370

00:47:33,430 --> 00:47:32,000

came out up until about 2013 was

1371

00:47:35,829 --> 00:47:33,440

incredible and then

1372

00:47:37,750 --> 00:47:35,839

nothing i i just find that so hard to

1373

00:47:39,670 --> 00:47:37,760

wrap my head around but like i said i

1374

00:47:40,630 --> 00:47:39,680

guess we'll have to wait and see

1375

00:47:42,549 --> 00:47:40,640

um

1376

00:47:43,270 --> 00:47:42,559

finally i got to ask what is next for

1377

00:47:45,910 --> 00:47:43,280

you

1378

00:47:48,470 --> 00:47:45,920

and the liberation times

1379

00:47:50,230 --> 00:47:48,480

absolutely no um so

1380

00:47:51,910 --> 00:47:50,240

we're working on some big stories i

1381

00:47:53,990 --> 00:47:51,920

think when we first start out liberation

1382

00:47:55,990 --> 00:47:54,000

times

1383

00:47:56,870 --> 00:47:56,000

we put out quite a lot of stories

1384

00:47:58,549 --> 00:47:56,880

um

1385

00:47:59,910 --> 00:47:58,559

stories that needed to be covered to be

1386

00:48:02,309 --> 00:47:59,920

to be honest at the catholic church and

1387

00:48:04,630 --> 00:48:02,319

stuff like that my opinion and covered

1388

00:48:08,470 --> 00:48:04,640

opinion pieces

1389

00:48:09,910 --> 00:48:08,480

alongside breaking news and new insights

1390

00:48:11,670 --> 00:48:09,920

uh

1391

00:48:14,069 --> 00:48:11,680

now what we're going for is we're going

1392

00:48:18,069 --> 00:48:14,079

for kind of like big the big fish in

1393

00:48:19,589 --> 00:48:18,079

terms of big stories um so i mean there

1394

00:48:21,510 --> 00:48:19,599

are free

1395

00:48:23,430 --> 00:48:21,520

free spanners in the works i mean when

1396

00:48:24,790 --> 00:48:23,440

you're working on a story you never know

1397

00:48:26,230 --> 00:48:24,800

which one's going to come to fruition or

1398

00:48:27,829 --> 00:48:26,240

not right

1399

00:48:29,990 --> 00:48:27,839

but i would just say like watch your

1400

00:48:31,670 --> 00:48:30,000

space i mean i think in

1401

00:48:35,030 --> 00:48:31,680

coming months and years ahead you're

1402

00:48:36,069 --> 00:48:35,040

going to hear a lot more from those

1403

00:48:38,230 --> 00:48:36,079

let's say

1404

00:48:39,349 --> 00:48:38,240

um

1405

00:48:41,589 --> 00:48:39,359

veterans

1406

00:48:43,430 --> 00:48:41,599

who have been a victim of

1407

00:48:44,549 --> 00:48:43,440

persecution from the department of

1408

00:48:48,230 --> 00:48:44,559

defense

1409

00:48:49,510 --> 00:48:48,240

in terms of uap i think you can hear

1410

00:48:51,589 --> 00:48:49,520

people come out

1411

00:48:54,470 --> 00:48:51,599

and and they can see openly speak about

1412

00:48:57,030 --> 00:48:54,480

that now um so hopefully that we can be

1413

00:48:58,710 --> 00:48:57,040

on on top of that let's say uh

1414

00:49:01,270 --> 00:48:58,720

i'll give you a little break from there

1415

00:49:03,589 --> 00:49:01,280

um so yeah i think um

1416

00:49:05,430 --> 00:49:03,599

you know and all i'm worried about is

1417

00:49:06,150 --> 00:49:05,440

just providing value to the community

1418

00:49:07,589 --> 00:49:06,160

just

1419

00:49:09,670 --> 00:49:07,599

um

1420

00:49:12,710 --> 00:49:09,680

you know helping people's understanding

1421

00:49:15,430 --> 00:49:12,720

how complex issues work and kind of like

1422

00:49:17,349 --> 00:49:15,440

making that into digestible form so

1423

00:49:19,670 --> 00:49:17,359

people can easily understand it

1424

00:49:21,670 --> 00:49:19,680

um so yeah i mean

1425

00:49:23,510 --> 00:49:21,680

yeah what's your space

1426

00:49:25,030 --> 00:49:23,520

as i've said before but i think there's

1427

00:49:27,030 --> 00:49:25,040

gonna be some really really cool things

1428

00:49:28,470 --> 00:49:27,040

to come from liberation times and of

1429

00:49:31,030 --> 00:49:28,480

course as well i think the main thing is

1430

00:49:32,630 --> 00:49:31,040

i mean liberation times yeah you know

1431

00:49:33,589 --> 00:49:32,640

we're doing really well

1432

00:49:35,510 --> 00:49:33,599

um

1433

00:49:37,270 --> 00:49:35,520

getting more views like 60 000 views per

1434

00:49:39,670 --> 00:49:37,280

month which is great but we're never

1435

00:49:41,190 --> 00:49:39,680

going to be like a big publication so i

1436

00:49:42,870 --> 00:49:41,200

want to ensure that when we're working

1437

00:49:44,390 --> 00:49:42,880

on the big stories that we're doing so

1438

00:49:47,349 --> 00:49:44,400

in tandem with

1439

00:49:48,950 --> 00:49:47,359

kind of like international press as well

1440

00:49:51,190 --> 00:49:48,960

so yeah

1441

00:49:52,950 --> 00:49:51,200

nice i appreciate it now for anybody

1442

00:49:55,030 --> 00:49:52,960

that might be listening to this on audio

1443

00:49:57,190 --> 00:49:55,040

only can because the links are below for

1444

00:49:58,870 --> 00:49:57,200

all of your your social medias and that

1445

00:50:00,549 --> 00:49:58,880

if people aren't on youtube then and

1446

00:50:01,910 --> 00:50:00,559

they are listening where can people find

1447

00:50:07,910 --> 00:50:01,920

you

1448

00:50:09,109 --> 00:50:07,920

so um that's pro platform that i use

1449

00:50:10,870 --> 00:50:09,119

most often

1450

00:50:16,470 --> 00:50:10,880

um so

1451  
00:50:19,270 --> 00:50:16,480  
my handle is at real c sharp so r e a l

1452  
00:50:20,150 --> 00:50:19,280  
c s h a r p

1453  
00:50:22,150 --> 00:50:20,160  
um

1454  
00:50:24,710 --> 00:50:22,160  
and then

1455  
00:50:29,030 --> 00:50:24,720  
liberation times as well so liberation

1456  
00:50:33,190 --> 00:50:31,349  
and then the

1457  
00:50:34,150 --> 00:50:33,200  
twitter hand was basically liberation

1458  
00:50:36,390 --> 00:50:34,160  
times

1459  
00:50:37,270 --> 00:50:36,400  
um so yeah that's how you can find me

1460  
00:50:38,710 --> 00:50:37,280  
um

1461  
00:50:40,710 --> 00:50:38,720  
there's lots of stories on there that

1462  
00:50:42,069 --> 00:50:40,720  
you can read

1463  
00:50:44,390 --> 00:50:42,079

i would

1464

00:50:47,430 --> 00:50:44,400

suggest that you read the story about
