[Music]

2
00:00:13,200 --> 00:00:17,630

oh

3
00:00:17,640 --> 00:00:40,229

[Music]

4
00:00:44,790 --> 00:00:42,709
how's it going everybody welcome back to

5
00:00:46,389 --> 00:00:44,800
the channel it's good to uh it's good to

6
00:00:48,709 --> 00:00:46,399
be here um i've been looking forward to

7
00:00:49,990 --> 00:00:48,719
this one so as some of you may be aware

8
00:00:52,150 --> 00:00:50,000
gary nolan was

9
00:00:54,950 --> 00:00:52,160
originally due to join me for my science

10
00:00:57,110 --> 00:00:54,960
panel that i hosted um

11
00:00:58,470 --> 00:00:57,120
last week sometime which which was great

12
00:01:01,189 --> 00:00:58,480
but you know these things don't always

13
00:01:03,670 --> 00:01:01,199

pan out so gary graciously agreed to

14

00:01:05,429 --> 00:01:03,680

give me a one-on-one interview

15

00:01:07,990 --> 00:01:05,439

and here we are so let's jump straight

16

00:01:09,190 --> 00:01:08,000

into it guys let's bring in my guest for

17

00:01:11,030 --> 00:01:09,200

the day

18

00:01:12,390 --> 00:01:11,040

gary nolan gary thank you so much for

19

00:01:14,710 --> 00:01:12,400

being here

20

00:01:17,749 --> 00:01:14,720

hello everybody

21

00:01:19,030 --> 00:01:17,759

yeah um i thought i'd love to kickstart

22

00:01:20,469 --> 00:01:19,040

this off just to get your initial

23

00:01:21,510 --> 00:01:20,479

thoughts on the recent congressional

24

00:01:23,910 --> 00:01:21,520

hearings

25

00:01:26,310 --> 00:01:23,920

and what you thought of them

26

00:01:28,950 --> 00:01:26,320

well i thought they were remarkable

27

00:01:31,510 --> 00:01:28,960

despite the fact that um

28

00:01:34,390 --> 00:01:31,520

you know uh an alien didn't materialize

29

00:01:35,830 --> 00:01:34,400

on the congressional floor for everybody

30

00:01:36,870 --> 00:01:35,840

um

31

00:01:38,390 --> 00:01:36,880

you know

32

00:01:39,590 --> 00:01:38,400

the fact that

33

00:01:42,469 --> 00:01:39,600

people were

34

00:01:44,389 --> 00:01:42,479

asking these questions in a public forum

35

00:01:47,830 --> 00:01:44,399

at that level of government

36

00:01:49,510 --> 00:01:47,840

i mean it really is a first time i mean

37

00:01:51,670 --> 00:01:49,520

people will tell me it happened 40 years

38

00:01:55,270 --> 00:01:51,680

ago et cetera but at least in

39

00:01:56,789 --> 00:01:55,280

in uh living memory uh it is a first

40

00:01:59,990 --> 00:01:56,799

time where you saw

41

00:02:01,590 --> 00:02:00,000

such incredibly well thought out

42

00:02:05,109 --> 00:02:01,600

questions

43

00:02:06,950 --> 00:02:05,119

for the people uh the two dod uh

44

00:02:08,550 --> 00:02:06,960

representatives

45

00:02:09,749 --> 00:02:08,560

um first of all

46

00:02:10,710 --> 00:02:09,759

and

47

00:02:12,630 --> 00:02:10,720

second

48

00:02:16,710 --> 00:02:12,640

there was a because there was the social

49

00:02:18,470 --> 00:02:16,720

media aspect of it there was very quick

50

00:02:19,510 --> 00:02:18,480

reaction to the things that were being

51

00:02:21,750 --> 00:02:19,520

said

52

00:02:24,150 --> 00:02:21,760

and as well you could just see it on the

53

00:02:25,510 --> 00:02:24,160

faces of the of the congress people they

54

00:02:27,030 --> 00:02:25,520

were you could just see it you could

55

00:02:28,869 --> 00:02:27,040

read their minds they were saying you're

56

00:02:31,509 --> 00:02:28,879

lying to us

57

00:02:32,869 --> 00:02:31,519

we can we can see you dancing around the

58

00:02:35,830 --> 00:02:32,879

questions

59

00:02:38,550 --> 00:02:35,840

and the reaction that several of them

60

00:02:40,869 --> 00:02:38,560

had afterwards in response to uh

61

00:02:42,229 --> 00:02:40,879

reporters and things was exactly what

62

00:02:44,710 --> 00:02:42,239

you would want

63

00:02:46,229 --> 00:02:44,720

basically was we're calling [h__\h]

64

00:02:48,390 --> 00:02:46,239

yeah we're not gonna let you get away

65

00:02:49,830 --> 00:02:48,400

with this and if you think is this is

66

00:02:50,949 --> 00:02:49,840

the last time we're going to be asking

67

00:02:51,990 --> 00:02:50,959

questions you've got another thing

68

00:02:53,830 --> 00:02:52,000

coming

69

00:02:56,390 --> 00:02:53,840

and you know i already know that there

70

00:02:57,830 --> 00:02:56,400

are additional hearings coming you know

71

00:02:59,670 --> 00:02:57,840

when they will happen

72

00:03:01,350 --> 00:02:59,680

uh not quite sure but probably within

73

00:03:03,910 --> 00:03:01,360

the next few months

74

00:03:06,790 --> 00:03:03,920

um on the senate side and as well

75

00:03:08,949 --> 00:03:06,800

probably a follow-up congressional one

76

00:03:10,390 --> 00:03:08,959

so to me that's exciting and it's a it's

77

00:03:11,830 --> 00:03:10,400

a sea change

78

00:03:14,229 --> 00:03:11,840

you know i think a lot of people who

79

00:03:15,910 --> 00:03:14,239

live in the let's say the so-called

80

00:03:18,470 --> 00:03:15,920

disclosure world

81

00:03:19,509 --> 00:03:18,480

um are wondering why

82

00:03:21,270 --> 00:03:19,519

uh

83

00:03:23,670 --> 00:03:21,280

you know the whole world isn't on fire

84

00:03:26,149 --> 00:03:23,680

about these announcements

85

00:03:27,990 --> 00:03:26,159

and i think the answer is twofold one

86

00:03:29,910 --> 00:03:28,000

there has been enough of a slow drip

87

00:03:32,550 --> 00:03:29,920

over the years that people are

88

00:03:34,309 --> 00:03:32,560

accommodating themselves to you know the

89

00:03:36,550 --> 00:03:34,319

fact you know you ask a lot of people

90

00:03:37,990 --> 00:03:36,560

they go well of course

91

00:03:38,710 --> 00:03:38,000

it's here

92

00:03:41,990 --> 00:03:38,720

so

93

00:03:44,229 --> 00:03:42,000

been pointing out is if it if it doesn't

94

00:03:46,309 --> 00:03:44,239

change your life

95

00:03:49,350 --> 00:03:46,319

uh in a moment-to-moment basis it

96

00:03:50,869 --> 00:03:49,360

doesn't affect the cost of fuel and the

97

00:03:51,990 --> 00:03:50,879

you know what you're putting on your

98

00:03:53,110 --> 00:03:52,000

table and who's going to pick up the

99

00:03:54,229 --> 00:03:53,120

kids

100

00:03:55,990 --> 00:03:54,239

um

101
00:03:57,910 --> 00:03:56,000
you know it's just another fact of life

102
00:03:59,589 --> 00:03:57,920
now yeah um

103
00:04:00,470 --> 00:03:59,599
you know and so it really will only

104
00:04:02,229 --> 00:04:00,480
affect

105
00:04:03,830 --> 00:04:02,239
us

106
00:04:05,670 --> 00:04:03,840
when there is some sort of let's say

107
00:04:08,390 --> 00:04:05,680
communication i would argue that what

108
00:04:09,509 --> 00:04:08,400
we're seeing is communication right now

109
00:04:11,270 --> 00:04:09,519
um

110
00:04:15,350 --> 00:04:11,280
and uh

111
00:04:17,110 --> 00:04:15,360
that if some sort of technology uh

112
00:04:19,349 --> 00:04:17,120
inference comes from understanding how

113
00:04:21,030 --> 00:04:19,359

these things are operating right or if

114

00:04:23,350 --> 00:04:21,040

frankly we get a hold of some of the

115

00:04:25,030 --> 00:04:23,360

actual pieces of the technology and

116

00:04:26,629 --> 00:04:25,040

can either one prove that it is

117

00:04:28,870 --> 00:04:26,639

indisputably

118

00:04:30,390 --> 00:04:28,880

not of human origin

119

00:04:33,350 --> 00:04:30,400

uh

120

00:04:35,270 --> 00:04:33,360

or we figure out a function of

121

00:04:36,310 --> 00:04:35,280

one of these objects that we can

122

00:04:37,590 --> 00:04:36,320

replicate

123

00:04:40,070 --> 00:04:37,600

that allows us to do something we

124

00:04:40,950 --> 00:04:40,080

couldn't do before

125

00:04:43,510 --> 00:04:40,960

um

126

00:04:44,950 --> 00:04:43,520

that's my take on it that's great no i

127

00:04:46,629 --> 00:04:44,960

like the fact because a lot of people

128

00:04:49,510 --> 00:04:46,639

really were disappointed and they felt

129

00:04:51,909 --> 00:04:49,520

like moultrie and bray i think it was

130

00:04:53,830 --> 00:04:51,919

we're just either lying or holding back

131

00:04:55,909 --> 00:04:53,840

or just really sort of gatekeeping the

132

00:04:57,350 --> 00:04:55,919

information further but i saw a lot of

133

00:04:58,390 --> 00:04:57,360

positives from it

134

00:05:00,469 --> 00:04:58,400

well i mean i don't even think that they

135

00:05:01,990 --> 00:05:00,479

were gatekeeping or necessarily lying i

136

00:05:04,790 --> 00:05:02,000

think that what it proved was that they

137

00:05:07,029 --> 00:05:04,800

were completely not read in to the facts

138

00:05:08,710 --> 00:05:07,039

you know one of the best ways to hide

139

00:05:10,710 --> 00:05:08,720

something is to put people out in front

140

00:05:12,230 --> 00:05:10,720

who know nothing

141

00:05:15,110 --> 00:05:12,240

if they know nothing you can tell

142

00:05:18,150 --> 00:05:16,629

that's a good point and one thing that a

143

00:05:20,310 --> 00:05:18,160

lot of people have been discussing is

144

00:05:23,270 --> 00:05:20,320

this word amnesty which i know that you

145

00:05:24,790 --> 00:05:23,280

were more happy using the term immunity

146

00:05:26,870 --> 00:05:24,800

so do you feel like that is something

147

00:05:28,390 --> 00:05:26,880

that will be coming do you know if it's

148

00:05:31,270 --> 00:05:28,400

happening or not well i know it's

149

00:05:33,350 --> 00:05:31,280

happening for sure um it's 100 happening

150

00:05:35,510 --> 00:05:33,360

it's it's i'm speaking to some people

151

00:05:37,830 --> 00:05:35,520

about it on the inside and the the

152

00:05:41,749 --> 00:05:37,840

wording is you know in the 80

153

00:05:44,710 --> 00:05:41,759

90 done point you know i mean i

154

00:05:47,270 --> 00:05:44,720

i only i was only picking on the words

155

00:05:49,189 --> 00:05:47,280

immunity versus amnesty because from a

156

00:05:51,590 --> 00:05:49,199

legal standpoint it does have a

157

00:05:52,870 --> 00:05:51,600

difference at least

158

00:05:55,590 --> 00:05:52,880

um you know

159

00:05:56,790 --> 00:05:55,600

amnesty actually has a is a broader term

160

00:06:00,070 --> 00:05:56,800

and can

161

00:06:02,629 --> 00:06:00,080

in some special cases include

162

00:06:05,510 --> 00:06:02,639

you know pre-facto

163

00:06:07,270 --> 00:06:05,520

forms of immunity um but from a legal

164

00:06:09,110 --> 00:06:07,280

perspective

165

00:06:10,309 --> 00:06:09,120

you do want to use the word immunity

166

00:06:11,430 --> 00:06:10,319

because let's say that you're an

167

00:06:14,710 --> 00:06:11,440

individual

168

00:06:16,469 --> 00:06:14,720

who uh is thinking about all right well

169

00:06:18,469 --> 00:06:16,479

maybe i should come forward

170

00:06:20,790 --> 00:06:18,479

and then i talk to my lawyer

171

00:06:23,110 --> 00:06:20,800

right or i'm i'm the person and i talk

172

00:06:24,950 --> 00:06:23,120

to my lawyer and my and i say well

173

00:06:27,270 --> 00:06:24,960

they're offering amnesty and my lawyer

174

00:06:28,390 --> 00:06:27,280

will if they're worth the money i'm

175

00:06:30,870 --> 00:06:28,400

paying them

176

00:06:33,029 --> 00:06:30,880

uh tell me that well you don't want

177

00:06:36,390 --> 00:06:33,039

amnesty you want immunity because you

178

00:06:39,990 --> 00:06:36,400

want you know you want predestined

179

00:06:41,189 --> 00:06:40,000

lack of liability sure um so i mean

180

00:06:43,590 --> 00:06:41,199

that's the only reason for using the

181

00:06:46,550 --> 00:06:43,600

word because if you use the word amnesty

182

00:06:48,469 --> 00:06:46,560

and people who aren't let's say legally

183

00:06:50,070 --> 00:06:48,479

uh aware

184

00:06:51,189 --> 00:06:50,080

um then they go to their lawyer and

185

00:06:52,950 --> 00:06:51,199

their lawyer tells them well you don't

186

00:06:55,189 --> 00:06:52,960

you know amnesty won't do you any good

187

00:06:57,110 --> 00:06:55,199

then they might go back in the closet

188

00:06:58,309 --> 00:06:57,120

so you you just want to

189

00:06:59,430 --> 00:06:58,319

prime

190

00:07:04,390 --> 00:06:59,440

the

191

00:07:06,230 --> 00:07:04,400

accelerates and you don't get through a

192

00:07:09,029 --> 00:07:06,240

lot of back and forth that's unnecessary

193

00:07:10,710 --> 00:07:09,039

frankly yeah absolutely

194

00:07:12,390 --> 00:07:10,720

um now i'd like to just take it back a

195

00:07:13,909 --> 00:07:12,400

few years and i i

196

00:07:15,830 --> 00:07:13,919

i can't remember clearly if i heard you

197

00:07:18,309 --> 00:07:15,840

say this or not but what was your

198

00:07:20,469 --> 00:07:18,319

relationship to the atip programme and i

199

00:07:22,550 --> 00:07:20,479

mean atip under the pentagon with louis

200

00:07:25,270 --> 00:07:22,560

zondo were you associated with them at

201

00:07:27,430 --> 00:07:25,280

all over the years i mean i was so lou

202

00:07:30,390 --> 00:07:27,440

probably knew about me long before i

203

00:07:32,469 --> 00:07:30,400

knew about lou right um you know because

204

00:07:34,469 --> 00:07:32,479

lou was deeply involved all the way

205

00:07:36,550 --> 00:07:34,479

across and i'm not going to get into the

206

00:07:38,710 --> 00:07:36,560

details of

207

00:07:41,350 --> 00:07:38,720

of that because there's people picking

208

00:07:45,110 --> 00:07:41,360

apart the words in ways that

209

00:07:46,309 --> 00:07:45,120

you know are just frankly stupid um

210

00:07:47,110 --> 00:07:46,319

and uh

211

00:07:49,029 --> 00:07:47,120

so

212

00:07:51,670 --> 00:07:49,039

um

213

00:07:53,670 --> 00:07:51,680

i was involved with the efforts that lou

214

00:07:56,390 --> 00:07:53,680

was behind the scenes

215

00:07:58,309 --> 00:07:56,400

let's say funding or enabling or even

216

00:08:02,150 --> 00:07:58,319

though i didn't know that lou was there

217

00:08:04,790 --> 00:08:02,160

right um now i knew of jay stratton

218

00:08:07,749 --> 00:08:04,800

um and i knew of the stuff that he was

219

00:08:13,110 --> 00:08:07,759

doing but he was sort of the in-between

220

00:08:15,350 --> 00:08:13,120

of uh lou and um me uh you know it was

221

00:08:16,869 --> 00:08:15,360

jay and a few and a few others

222

00:08:18,869 --> 00:08:16,879

so uh

223

00:08:21,270 --> 00:08:18,879

you know the the reason why people

224

00:08:23,270 --> 00:08:21,280

showed up at my door that day

225

00:08:25,110 --> 00:08:23,280

uh was probably and i don't know what

226

00:08:28,309 --> 00:08:25,120

the specifics of it at least in part

227

00:08:31,430 --> 00:08:28,319

instigated by uh by liu

228

00:08:33,350 --> 00:08:31,440

right okay um now with atib i i mean i'm

229

00:08:35,750 --> 00:08:33,360

sure you're aware of eight of the atip

230

00:08:37,670 --> 00:08:35,760

slides and in particular a tip slide

231

00:08:39,670 --> 00:08:37,680

nine and there are a few points on there

232

00:08:41,509 --> 00:08:39,680

and i wondered if you had any knowledge

233

00:08:43,829 --> 00:08:41,519

on these specifically

234

00:08:46,470 --> 00:08:43,839

you have like a tips like i don't know

235

00:08:48,710 --> 00:08:46,480

what's on it i i do i could bring it up

236

00:08:50,790 --> 00:08:48,720

if you just yeah yeah at the moment

237

00:08:53,030 --> 00:08:50,800

again

238

00:08:55,430 --> 00:08:53,040

i'm a scientist i need facts

239

00:08:57,750 --> 00:08:55,440

yeah yeah no of course um let me find a

240

00:08:59,910 --> 00:08:57,760

high-res copy

241

00:09:01,430 --> 00:08:59,920

i'll announce a video bear with me sorry

242

00:09:04,389 --> 00:09:01,440

i should have been prepared i wrote them

243

00:09:06,230 --> 00:09:04,399

down but i guess it's always good to uh

244

00:09:09,110 --> 00:09:06,240

see the file

245

00:09:11,190 --> 00:09:09,120

see the image

246

00:09:13,750 --> 00:09:11,200

i can't find it i'll i'll keep looking

247

00:09:16,070 --> 00:09:13,760

but i'll say the first one

248

00:09:19,110 --> 00:09:16,080

yeah well the first one was cognitive

249

00:09:20,470 --> 00:09:19,120

cognitive human interface

250

00:09:22,630 --> 00:09:20,480

and i wondered if that was something

251
00:09:23,220 --> 00:09:22,640
that you came across at all

252
00:09:24,389 --> 00:09:23,230
um

253
00:09:27,430 --> 00:09:24,399
[Music]

254
00:09:28,710 --> 00:09:27,440
i mean i have spoken about it with kit a

255
00:09:30,070 --> 00:09:28,720
few times

256
00:09:32,070 --> 00:09:30,080
um

257
00:09:35,269 --> 00:09:32,080
you know but i i don't know really what

258
00:09:36,630 --> 00:09:35,279
that is about i mean if it if it's meant

259
00:09:39,350 --> 00:09:36,640
to imply

260
00:09:41,670 --> 00:09:39,360
that these objects appear to be

261
00:09:43,750 --> 00:09:41,680
consciously moved then that might be it

262
00:09:46,949 --> 00:09:43,760
but other than that i don't know

263
00:09:48,829 --> 00:09:46,959

okay oops i just had it this is it here

264

00:09:52,550 --> 00:09:48,839

okay zoom

265

00:09:54,070 --> 00:09:52,560

ah bear with me

266

00:09:55,670 --> 00:09:54,080

the next one i wanted to mention is

267

00:09:58,310 --> 00:09:55,680

something as well that you may have come

268

00:10:00,710 --> 00:09:58,320

across is i'm gonna stop sharing for a

269

00:10:03,269 --> 00:10:00,720

minute bear with me sorry

270

00:10:05,110 --> 00:10:03,279

i wasn't prepared for that

271

00:10:07,590 --> 00:10:05,120

the alteration and manipulation of

272

00:10:10,310 --> 00:10:07,600

biological organisms in with i guess

273

00:10:12,550 --> 00:10:10,320

that's relating to uap but have you come

274

00:10:14,790 --> 00:10:12,560

across any manipulation or alterations

275

00:10:17,190 --> 00:10:14,800

maybe before and after a sighting or an

276

00:10:19,030 --> 00:10:17,200

interaction

277

00:10:21,430 --> 00:10:19,040

um

278

00:10:23,269 --> 00:10:21,440

alteration or manipulation does that are

279

00:10:25,110 --> 00:10:23,279

you talking about hitchhiker effect or

280

00:10:26,949 --> 00:10:25,120

you're talking about

281

00:10:28,630 --> 00:10:26,959

people i guess it's such a broad term it

282

00:10:31,110 --> 00:10:28,640

could be anything like

283

00:10:33,430 --> 00:10:31,120

i i mean no i mean

284

00:10:36,310 --> 00:10:33,440

i you know i

285

00:10:39,670 --> 00:10:36,320

when i've been involved in let's say

286

00:10:41,190 --> 00:10:39,680

post facto analysis of a of an event

287

00:10:43,910 --> 00:10:41,200

of some kind

288

00:10:46,150 --> 00:10:43,920

um you know we bring in trained

289

00:10:47,269 --> 00:10:46,160

observers we brought in a trained

290

00:10:48,630 --> 00:10:47,279

observer

291

00:10:50,870 --> 00:10:48,640

and sometimes even a trained

292

00:10:51,910 --> 00:10:50,880

psychiatrist psychologist

293

00:10:54,389 --> 00:10:51,920

um

294

00:10:56,310 --> 00:10:54,399

to listen to the

295

00:10:57,590 --> 00:10:56,320

you know the let's say the experience or

296

00:10:58,710 --> 00:10:57,600

the witness

297

00:11:00,630 --> 00:10:58,720

um

298

00:11:02,790 --> 00:11:00,640

for basically

299

00:11:05,350 --> 00:11:02,800

you know looking for those emotional

300

00:11:07,750 --> 00:11:05,360

body cues that are either one telling

301
00:11:10,389 --> 00:11:07,760
you that they're hoaxing it sure um

302
00:11:11,750 --> 00:11:10,399
that's usually your first concern

303
00:11:15,670 --> 00:11:11,760
or two

304
00:11:17,590 --> 00:11:15,680
uh you know picking up on their anxiety

305
00:11:18,790 --> 00:11:17,600
you know their anxiety ticks that you

306
00:11:23,509 --> 00:11:18,800
can see

307
00:11:25,269 --> 00:11:23,519
which can be indicative of of a truth

308
00:11:27,269 --> 00:11:25,279
right um obviously we don't have these

309
00:11:29,269 --> 00:11:27,279
people hooked up to lie detectors

310
00:11:31,269 --> 00:11:29,279
uh anything like that

311
00:11:32,630 --> 00:11:31,279
um but uh

312
00:11:33,910 --> 00:11:32,640
it's um

313
00:11:36,069 --> 00:11:33,920

you know it's it's important that you

314

00:11:37,430 --> 00:11:36,079

don't just take people and what they say

315

00:11:38,470 --> 00:11:37,440

at their word

316

00:11:39,910 --> 00:11:38,480

um

317

00:11:42,630 --> 00:11:39,920

especially if you're talking about

318

00:11:44,630 --> 00:11:42,640

something that is uh

319

00:11:47,509 --> 00:11:44,640

is you know maybe

320

00:11:50,470 --> 00:11:47,519

more an interpretation of an observation

321

00:11:53,030 --> 00:11:50,480

than the observation itself

322

00:11:54,710 --> 00:11:53,040

this is my caa handler here

323

00:11:59,430 --> 00:11:54,720

i think it's become quite the famous dog

324

00:12:03,509 --> 00:12:01,350

um one thing i did want to mention as

325

00:12:05,430 --> 00:12:03,519

well is in these uh studies that you've

326
00:12:07,430 --> 00:12:05,440
done of people and maybe yourself and

327
00:12:09,910 --> 00:12:07,440
your colleagues where

328
00:12:12,310 --> 00:12:09,920
delta theta and alpha brainwaves ever

329
00:12:15,750 --> 00:12:12,320
factored in to what they look like maybe

330
00:12:17,590 --> 00:12:15,760
before or or further down the line

331
00:12:19,750 --> 00:12:17,600
no that's never been that's never been

332
00:12:23,030 --> 00:12:19,760
done that requires very specific

333
00:12:24,870 --> 00:12:23,040
equipment to measure correctly you know

334
00:12:26,949 --> 00:12:24,880
i'm not going to just buy something off

335
00:12:27,910 --> 00:12:26,959
of amazon to do that kind of

336
00:12:31,030 --> 00:12:27,920
stuff

337
00:12:34,069 --> 00:12:31,040
um you know because

338
00:12:36,550 --> 00:12:34,079

the devil's in the details and you want

339

00:12:39,590 --> 00:12:36,560

the kind of equipment that will give you

340

00:12:41,430 --> 00:12:39,600

uh detailed analysis and you know i i

341

00:12:43,030 --> 00:12:41,440

mean how unless everybody's running

342

00:12:44,150 --> 00:12:43,040

around with those things on their heads

343

00:12:45,750 --> 00:12:44,160

how are you going to know when the

344

00:12:48,150 --> 00:12:45,760

stuff's going to show up

345

00:12:50,949 --> 00:12:48,160

and of course the the biggest problem

346

00:12:51,829 --> 00:12:50,959

with the let's say the so-called science

347

00:12:54,550 --> 00:12:51,839

of

348

00:12:56,389 --> 00:12:54,560

this stuff is that it is

349

00:12:58,949 --> 00:12:56,399

although it's reproducible it's not

350

00:13:01,509 --> 00:12:58,959

reproducible on demand yeah

351
00:13:04,310 --> 00:13:01,519
and so you can't necessarily have all of

352
00:13:07,030 --> 00:13:04,320
the materials uh

353
00:13:09,990 --> 00:13:07,040
at the ready for this

354
00:13:12,470 --> 00:13:10,000
um you certainly don't have it before

355
00:13:14,790 --> 00:13:12,480
you don't have it aft during

356
00:13:17,509 --> 00:13:14,800
and you're lucky if you can get it after

357
00:13:20,710 --> 00:13:17,519
um and after is

358
00:13:23,350 --> 00:13:20,720
you know within a time frame that

359
00:13:24,230 --> 00:13:23,360
you know whatever happened is still

360
00:13:25,750 --> 00:13:24,240
you know

361
00:13:27,590 --> 00:13:25,760
it there

362
00:13:30,310 --> 00:13:27,600
yeah it was the same problem that i had

363
00:13:32,790 --> 00:13:30,320

when they asked me to study the blood

364

00:13:35,030 --> 00:13:32,800

of these people

365

00:13:36,150 --> 00:13:35,040

with the the instrument that my lab had

366

00:13:37,190 --> 00:13:36,160

developed

367

00:13:39,350 --> 00:13:37,200

um

368

00:13:41,269 --> 00:13:39,360

that uh you know in some cases it was

369

00:13:43,269 --> 00:13:41,279

years after the event

370

00:13:44,389 --> 00:13:43,279

and so there's just you know it just

371

00:13:45,590 --> 00:13:44,399

there just wasn't going to be a

372

00:13:47,430 --> 00:13:45,600

signature

373

00:13:49,350 --> 00:13:47,440

yeah you know unless it was like totally

374

00:13:51,509 --> 00:13:49,360

drastic and and we

375

00:13:52,790 --> 00:13:51,519

and of the analysis we did we never saw

376

00:13:54,550 --> 00:13:52,800

anything like that

377

00:13:57,430 --> 00:13:54,560

right that couldn't be explained by just

378

00:13:59,750 --> 00:13:57,440

the normal noise of human variation

379

00:14:01,110 --> 00:13:59,760

i see right yeah what about the immune

380

00:14:02,389 --> 00:14:01,120

system because obviously that plays such

381

00:14:04,790 --> 00:14:02,399

an important part and it's almost

382

00:14:06,470 --> 00:14:04,800

separate or i've heard it suggested that

383

00:14:08,069 --> 00:14:06,480

it's kind of separate from the brain it

384

00:14:09,990 --> 00:14:08,079

has its own

385

00:14:11,590 --> 00:14:10,000

brain it remembers everything the body's

386

00:14:12,470 --> 00:14:11,600

dealt with throughout its life is that

387

00:14:14,310 --> 00:14:12,480

um

388

00:14:15,670 --> 00:14:14,320

come into the research at all well that

389

00:14:17,509 --> 00:14:15,680

was really what i was saying is that

390

00:14:19,350 --> 00:14:17,519

what we were looking for was some sort

391

00:14:21,030 --> 00:14:19,360

of uh um

392

00:14:23,350 --> 00:14:21,040

of a change

393

00:14:25,990 --> 00:14:23,360

that you would expect from normal you

394

00:14:27,750 --> 00:14:26,000

know i mean what is normal is a huge

395

00:14:28,790 --> 00:14:27,760

problem in and of itself you know

396

00:14:31,350 --> 00:14:28,800

because

397

00:14:33,269 --> 00:14:31,360

much of your immune system frankly can

398

00:14:34,710 --> 00:14:33,279

depend on everything from what you last

399

00:14:35,590 --> 00:14:34,720

got infected with

400

00:14:37,430 --> 00:14:35,600

to

401
00:14:39,590 --> 00:14:37,440
you know what you ate this morning you

402
00:14:41,030 --> 00:14:39,600
know and is it allergy season or not i

403
00:14:44,550 --> 00:14:41,040
mean the

404
00:14:47,670 --> 00:14:44,560
the the subtle the subtle memory that is

405
00:14:48,790 --> 00:14:47,680
probably the best indicator of long-term

406
00:14:51,350 --> 00:14:48,800
effects

407
00:14:52,870 --> 00:14:51,360
are the b cells in the t cells

408
00:14:55,590 --> 00:14:52,880
okay um

409
00:14:59,269 --> 00:14:55,600
and uh you know they encode

410
00:15:00,470 --> 00:14:59,279
into proteins literally the memory of

411
00:15:11,030 --> 00:15:00,480
the

412
00:15:13,509 --> 00:15:11,040
covid vaccine is about it's giving

413
00:15:15,910 --> 00:15:13,519

people a shape that looks like

414

00:15:17,509 --> 00:15:15,920

what covet is and therefore you remember

415

00:15:18,470 --> 00:15:17,519

it um

416

00:15:20,870 --> 00:15:18,480

but

417

00:15:24,470 --> 00:15:20,880

what my lab is known for

418

00:15:25,590 --> 00:15:24,480

is what's called systems immunology

419

00:15:29,110 --> 00:15:25,600

that

420

00:15:31,110 --> 00:15:29,120

the memory of an event is not just those

421

00:15:35,350 --> 00:15:31,120

specific things

422

00:15:37,430 --> 00:15:35,360

but the network of interactions of cells

423

00:15:39,829 --> 00:15:37,440

and the correlations across the numbers

424

00:15:41,110 --> 00:15:39,839

of cells and their activation states

425

00:15:42,389 --> 00:15:41,120

that are actually

426
00:15:45,990 --> 00:15:42,399
sort of a

427
00:15:48,069 --> 00:15:46,000
a a broader memory system

428
00:15:49,910 --> 00:15:48,079
uh it's uh

429
00:15:53,189 --> 00:15:49,920
sort of the shape of the web

430
00:15:56,150 --> 00:15:53,199
uh is the memory that i was looking

431
00:15:58,230 --> 00:15:56,160
for but uh we could see no signature

432
00:15:59,829 --> 00:15:58,240
that um

433
00:16:02,150 --> 00:15:59,839
that tel that told us anything

434
00:16:05,990 --> 00:16:02,160
worthwhile i you know you really need

435
00:16:08,470 --> 00:16:06,000
something almost immediately after

436
00:16:10,629 --> 00:16:08,480
um you know but then of course

437
00:16:11,509 --> 00:16:10,639
you need before

438
00:16:13,030 --> 00:16:11,519

and

439

00:16:15,110 --> 00:16:13,040

the only thing that you can really do

440

00:16:17,430 --> 00:16:15,120

with somebody's before

441

00:16:20,389 --> 00:16:17,440

is rely upon

442

00:16:22,230 --> 00:16:20,399

you know 300 normals and say well this

443

00:16:23,509 --> 00:16:22,240

is most likely what the before looked

444

00:16:26,150 --> 00:16:23,519

like

445

00:16:27,990 --> 00:16:26,160

and now they are significantly deviated

446

00:16:30,150 --> 00:16:28,000

from

447

00:16:31,030 --> 00:16:30,160

the before of most normals

448

00:16:32,230 --> 00:16:31,040

yeah

449

00:16:34,069 --> 00:16:32,240

that makes sense

450

00:16:35,910 --> 00:16:34,079

it does absolutely and i guess sometimes

451
00:16:38,310 --> 00:16:35,920
when you're limited on on that you have

452
00:16:40,550 --> 00:16:38,320
to draw conclusions like you say from

453
00:16:43,430 --> 00:16:40,560
possibilities and that and what would

454
00:16:45,590 --> 00:16:43,440
you say is the most standout results or

455
00:16:49,030 --> 00:16:45,600
even strange result you've come across

456
00:16:53,430 --> 00:16:49,040
during your studies when it comes to uap

457
00:16:57,749 --> 00:16:55,189
it's you know it's it's more an

458
00:16:59,990 --> 00:16:57,759
inference than a than a result per se

459
00:17:01,189 --> 00:17:00,000
and this is the cognate petainment thing

460
00:17:03,829 --> 00:17:01,199
right

461
00:17:07,350 --> 00:17:03,839
i'll i'll try again to make sure people

462
00:17:08,549 --> 00:17:07,360
don't misunderstand what i'm saying

463
00:17:10,549 --> 00:17:08,559

um

464

00:17:12,630 --> 00:17:10,559

it was

465

00:17:15,750 --> 00:17:12,640

a side observation

466

00:17:19,189 --> 00:17:15,760

that amongst the people who were damaged

467

00:17:21,350 --> 00:17:19,199

that cohort of individuals had this

468

00:17:22,309 --> 00:17:21,360

caudate pataman

469

00:17:24,949 --> 00:17:22,319

um

470

00:17:26,470 --> 00:17:24,959

phenomenon of the increased density of

471

00:17:30,150 --> 00:17:26,480

neural connections

472

00:17:33,750 --> 00:17:30,160

and it's it was not saying that the

473

00:17:35,990 --> 00:17:33,760

observations or the experience caused it

474

00:17:38,950 --> 00:17:36,000

it was really saying that

475

00:17:41,430 --> 00:17:38,960

the people who came forward

476

00:17:42,950 --> 00:17:41,440

were more likely to have it

477

00:17:45,350 --> 00:17:42,960

than not

478

00:17:48,230 --> 00:17:45,360

um well above background levels of

479

00:17:49,909 --> 00:17:48,240

people who have it one in 200 now

480

00:17:53,110 --> 00:17:49,919

whether that is

481

00:17:55,669 --> 00:17:53,120

what you would call cohort bias meaning

482

00:17:58,630 --> 00:17:55,679

it's just people who go into this these

483

00:18:02,390 --> 00:17:58,640

areas of let's say high functioning

484

00:18:05,110 --> 00:18:02,400

um areas are more likely to have it

485

00:18:06,230 --> 00:18:05,120

or whether they are more likely to see

486

00:18:07,190 --> 00:18:06,240

something

487

00:18:09,669 --> 00:18:07,200

because

488

00:18:11,830 --> 00:18:09,679

they can recognize something for what it

489

00:18:13,110 --> 00:18:11,840

is and not just think it's part of the

490

00:18:15,750 --> 00:18:13,120

background

491

00:18:18,470 --> 00:18:15,760

you know uh i don't know but

492

00:18:20,630 --> 00:18:18,480

i use the example of the um you know in

493

00:18:22,390 --> 00:18:20,640

psychology class

494

00:18:24,070 --> 00:18:22,400

you know people you're showing a video

495

00:18:25,510 --> 00:18:24,080

and told to watch the person playing the

496

00:18:27,350 --> 00:18:25,520

bass playing with the basketball and

497

00:18:30,070 --> 00:18:27,360

count how many times it goes and then

498

00:18:32,710 --> 00:18:30,080

the gorilla walks across

499

00:18:34,310 --> 00:18:32,720

don't see it and you know i failed that

500

00:18:37,669 --> 00:18:34,320

test as i say

501
00:18:39,909 --> 00:18:37,679
um i was completely disbelieving that

502
00:18:41,750 --> 00:18:39,919
they had i thought they were fibbing but

503
00:18:43,510 --> 00:18:41,760
um

504
00:18:45,029 --> 00:18:43,520
it's uh

505
00:18:46,870 --> 00:18:45,039
you know i think it's an element of that

506
00:18:49,110 --> 00:18:46,880
that people

507
00:18:52,870 --> 00:18:49,120
won't necessarily see it because it

508
00:18:53,909 --> 00:18:52,880
somehow doesn't stand out as obvious

509
00:18:55,750 --> 00:18:53,919
uh

510
00:18:58,310 --> 00:18:55,760
you know maybe it's kind of like you

511
00:19:00,870 --> 00:18:58,320
know you're you're

512
00:19:03,669 --> 00:19:00,880
it's called the mirror test for animals

513
00:19:06,470 --> 00:19:03,679

right can the animal recognize that it's

514

00:19:08,310 --> 00:19:06,480

itself in the mirror right

515

00:19:09,590 --> 00:19:08,320

or that it's actually seeing anything in

516

00:19:11,669 --> 00:19:09,600

the mirror

517

00:19:13,029 --> 00:19:11,679

um or not and there's a sort of a level

518

00:19:15,990 --> 00:19:13,039

of intelligence and i'm sorry i'm just

519

00:19:16,950 --> 00:19:16,000

gonna i'm gonna make the hypothesis that

520

00:19:18,150 --> 00:19:16,960

people

521

00:19:19,110 --> 00:19:18,160

with this

522

00:19:21,830 --> 00:19:19,120

feature

523

00:19:23,350 --> 00:19:21,840

are just seem to be more likely to be

524

00:19:26,789 --> 00:19:23,360

intelligent

525

00:19:29,669 --> 00:19:26,799

right or at least a kind of intelligence

526

00:19:31,590 --> 00:19:29,679

you know it's a form of intelligence

527

00:19:33,190 --> 00:19:31,600

now when it comes to like different

528

00:19:34,789 --> 00:19:33,200

theories of consciousness some people

529

00:19:36,870 --> 00:19:34,799

think that it's emergent others think

530

00:19:39,909 --> 00:19:36,880

that it's like just fundamental which

531

00:19:42,150 --> 00:19:39,919

way would you lean more towards

532

00:19:43,909 --> 00:19:42,160

well i i i sorry if i sound like i'm

533

00:19:45,190 --> 00:19:43,919

straddling the fence i think it's both i

534

00:19:47,270 --> 00:19:45,200

mean i think

535

00:19:48,310 --> 00:19:47,280

consciousness is fundamental

536

00:19:51,590 --> 00:19:48,320

but that

537

00:19:53,110 --> 00:19:51,600

um consciousness needs to be organized

538

00:19:58,150 --> 00:19:53,120

and so

539

00:20:00,070 --> 00:19:58,160

it is emergent because the brain

540

00:20:03,110 --> 00:20:00,080

puts together matter

541

00:20:04,789 --> 00:20:03,120

in a way that organizes the fundamental

542

00:20:06,789 --> 00:20:04,799

units of consciousness into something

543

00:20:07,990 --> 00:20:06,799

which is self-aware

544

00:20:09,350 --> 00:20:08,000

is how i would

545

00:20:11,590 --> 00:20:09,360

position it

546

00:20:13,750 --> 00:20:11,600

um

547

00:20:16,710 --> 00:20:13,760

there's a

548

00:20:18,149 --> 00:20:16,720

physicist i've spoken about before

549

00:20:19,669 --> 00:20:18,159

um

550

00:20:21,270 --> 00:20:19,679

where is his

551
00:20:22,230 --> 00:20:21,280
document i think his name is burkhart

552
00:20:25,270 --> 00:20:22,240
heim

553
00:20:29,029 --> 00:20:25,280
um german physicist and uh you know he

554
00:20:30,070 --> 00:20:29,039
basically has a let's say a theory of

555
00:20:31,830 --> 00:20:30,080
uh

556
00:20:33,270 --> 00:20:31,840
of

557
00:20:34,630 --> 00:20:33,280
space-time

558
00:20:36,070 --> 00:20:34,640
uh

559
00:20:37,750 --> 00:20:36,080
sort of a a

560
00:20:39,110 --> 00:20:37,760
unifying uh

561
00:20:41,110 --> 00:20:39,120
set of equations

562
00:20:42,549 --> 00:20:41,120
that basically says you know one of the

563
00:20:44,310 --> 00:20:42,559

outcomes of

564

00:20:47,510 --> 00:20:44,320

his way that he thinks the universe is

565

00:20:51,029 --> 00:20:47,520

organized could at a certain level of

566

00:20:54,549 --> 00:20:52,149

the brain

567

00:20:57,669 --> 00:20:54,559

certain shape etc by virtue of that

568

00:20:59,510 --> 00:20:57,679

shape and electrical impulses etc that

569

00:21:01,430 --> 00:20:59,520

instantiates

570

00:21:04,549 --> 00:21:01,440

an object

571

00:21:06,230 --> 00:21:04,559

which he basically says is

572

00:21:08,390 --> 00:21:06,240

both self-aware

573

00:21:12,070 --> 00:21:08,400

and independent of the underlying thing

574

00:21:16,950 --> 00:21:14,710

it's kind of like some you know

575

00:21:22,630 --> 00:21:16,960

uh

576

00:21:24,390 --> 00:21:22,640

make in the laboratory

577

00:21:26,870 --> 00:21:24,400

and you know

578

00:21:28,950 --> 00:21:26,880

the technical help says no don't do it

579

00:21:31,669 --> 00:21:28,960

don't do it he pulls a switch and you

580

00:21:34,230 --> 00:21:31,679

know

581

00:21:36,789 --> 00:21:34,240

because they've created something that

582

00:21:38,470 --> 00:21:36,799

is you know runs amok

583

00:21:39,750 --> 00:21:38,480

you know so i think frankly that that's

584

00:21:40,950 --> 00:21:39,760

a little bit of what's going on with

585

00:21:42,789 --> 00:21:40,960

consciousness

586

00:21:44,630 --> 00:21:42,799

i i don't

587

00:21:47,190 --> 00:21:44,640

think personally

588

00:21:50,549 --> 00:21:47,200

that you can explain it by just

589

00:21:53,990 --> 00:21:50,559

consciousness by just the

590

00:21:56,710 --> 00:21:54,000

the neurons firing in the brain it's not

591

00:21:58,710 --> 00:21:56,720

all here there's something that is it's

592

00:21:59,510 --> 00:21:58,720

organizing something behind the scenes i

593

00:22:01,830 --> 00:21:59,520

think

594

00:22:03,669 --> 00:22:01,840

do i have any proof of that no

595

00:22:05,990 --> 00:22:03,679

it's just a hypothesis and it's much

596

00:22:10,710 --> 00:22:06,000

more fun

597

00:22:13,270 --> 00:22:10,720

think that the world is a bigger thing

598

00:22:16,470 --> 00:22:13,280

than what's currently

599

00:22:18,549 --> 00:22:16,480

explained and because

600

00:22:20,789 --> 00:22:18,559

the material side of things does not

601
00:22:23,270 --> 00:22:20,799
appear to explain it

602
00:22:25,350 --> 00:22:23,280
you have to consider

603
00:22:26,950 --> 00:22:25,360
alternative

604
00:22:28,390 --> 00:22:26,960
explanations

605
00:22:29,909 --> 00:22:28,400
it doesn't mean you have to go all the

606
00:22:33,190 --> 00:22:29,919
way to the woo

607
00:22:34,870 --> 00:22:33,200
to explain it but it needs to be part of

608
00:22:36,230 --> 00:22:34,880
the solution set

609
00:22:37,350 --> 00:22:36,240
because you don't want to take something

610
00:22:39,270 --> 00:22:37,360
off the table that might be the

611
00:22:41,590 --> 00:22:39,280
explanation because you could be staring

612
00:22:43,590 --> 00:22:41,600
at the answer right in your face

613
00:22:46,230 --> 00:22:43,600

and you're you're busy trying to prove

614

00:22:48,470 --> 00:22:46,240

everything else except the truth

615

00:22:49,830 --> 00:22:48,480

yeah absolutely i completely agree now

616

00:22:52,149 --> 00:22:49,840

when it comes to consciousness as well

617

00:22:54,149 --> 00:22:52,159

people often talk about things like ce5

618

00:22:56,470 --> 00:22:54,159

and that they can actually contact these

619

00:22:58,870 --> 00:22:56,480

beings or craft to come in and and show

620

00:23:01,029 --> 00:22:58,880

themselves but could it be possible that

621

00:23:03,110 --> 00:23:01,039

uap and whatever it represents is just

622

00:23:04,710 --> 00:23:03,120

omnipresent it's always around us and

623

00:23:07,029 --> 00:23:04,720

just every now and again it blinks in

624

00:23:10,070 --> 00:23:07,039

and it it's maybe right place at the

625

00:23:11,510 --> 00:23:10,080

right time more than oh i did that

626

00:23:12,630 --> 00:23:11,520

well i think it is i mean and it

627

00:23:15,190 --> 00:23:12,640

obviously if you're looking for

628

00:23:17,110 --> 00:23:15,200

something you know then

629

00:23:18,950 --> 00:23:17,120

it's more likely to be observed because

630

00:23:20,549 --> 00:23:18,960

you're looking for it i mean

631

00:23:22,230 --> 00:23:20,559

i i walk through the forest and i don't

632

00:23:24,710 --> 00:23:22,240

see a lot of birds but if i was a bird

633

00:23:26,630 --> 00:23:24,720

watcher i might notice you know i might

634

00:23:28,789 --> 00:23:26,640

be able to tick things off in my list of

635

00:23:30,149 --> 00:23:28,799

birds i want to have seen

636

00:23:32,470 --> 00:23:30,159

you know if i'm looking for it if i'm

637

00:23:33,750 --> 00:23:32,480

looking for it it might be there

638

00:23:36,390 --> 00:23:33,760

you know

639

00:23:39,110 --> 00:23:36,400

if i'm calling for it

640

00:23:40,789 --> 00:23:39,120

maybe that's something that

641

00:23:42,310 --> 00:23:40,799

shows up as well

642

00:23:44,070 --> 00:23:42,320

more likely

643

00:23:47,269 --> 00:23:44,080

yeah it's a good way of looking at it i

644

00:23:49,590 --> 00:23:47,279

i you know i'm i i've never done a ce5 i

645

00:23:50,710 --> 00:23:49,600

have lots of friends who claim that it

646

00:23:51,750 --> 00:23:50,720

works

647

00:23:55,830 --> 00:23:51,760

um

648

00:23:57,110 --> 00:23:55,840

up into the santa cruz mountains once

649

00:23:59,669 --> 00:23:57,120

with a friend of a friend actually a

650

00:24:01,110 --> 00:23:59,679

friend of jacques vales um

651
00:24:03,669 --> 00:24:01,120
and um

652
00:24:05,590 --> 00:24:03,679
he was a had been actually a doctor at

653
00:24:08,070 --> 00:24:05,600
stanford for a while

654
00:24:09,830 --> 00:24:08,080
um and he lives up in a cabin up in the

655
00:24:11,430 --> 00:24:09,840
santa cruz mountains deep into the

656
00:24:13,029 --> 00:24:11,440
forest up there i didn't even know it

657
00:24:14,789 --> 00:24:13,039
was it was

658
00:24:15,750 --> 00:24:14,799
in the amazon rainforest

659
00:24:18,549 --> 00:24:15,760
you know

660
00:24:20,549 --> 00:24:18,559
um and we did basically sit out one

661
00:24:24,149 --> 00:24:20,559
night um

662
00:24:25,430 --> 00:24:24,159
with uh base with uh binoculars and

663
00:24:27,990 --> 00:24:25,440

and whatnot

664

00:24:31,190 --> 00:24:28,000

and there were some strange

665

00:24:32,710 --> 00:24:31,200

objects moving around um

666

00:24:35,190 --> 00:24:32,720

that i

667

00:24:36,870 --> 00:24:35,200

was like that's odd you know it but it

668

00:24:47,190 --> 00:24:36,880

was

669

00:24:48,710 --> 00:24:47,200

to make some things happen

670

00:24:50,390 --> 00:24:48,720

that's interesting and that's the one

671

00:24:52,390 --> 00:24:50,400

thing that i really

672

00:24:53,990 --> 00:24:52,400

i struggle with when it comes to ce5 is

673

00:24:55,909 --> 00:24:54,000

that these things if they appear for

674

00:24:58,310 --> 00:24:55,919

people they only seem to appear at a

675

00:25:00,549 --> 00:24:58,320

distance and

676

00:25:02,470 --> 00:25:00,559

i find that why can't we just have one

677

00:25:03,990 --> 00:25:02,480

where oh it came right up to me maybe it

678

00:25:06,390 --> 00:25:04,000

has and yeah

679

00:25:08,390 --> 00:25:06,400

i just maybe need a rule right maybe

680

00:25:10,310 --> 00:25:08,400

they have protocols on their side that

681

00:25:11,269 --> 00:25:10,320

say you know

682

00:25:13,269 --> 00:25:11,279

you know the

683

00:25:14,390 --> 00:25:13,279

i mean let's say that the the protocol

684

00:25:15,669 --> 00:25:14,400

is

685

00:25:17,669 --> 00:25:15,679

um

686

00:25:19,830 --> 00:25:17,679

don't give them the evidence that they

687

00:25:21,669 --> 00:25:19,840

can use to show to others

688

00:25:24,390 --> 00:25:21,679

only give them the evidence that can

689

00:25:25,909 --> 00:25:24,400

that can convince them

690

00:25:28,830 --> 00:25:25,919

yeah the observer

691

00:25:31,430 --> 00:25:28,840

and maybe it's all about

692

00:25:32,789 --> 00:25:31,440

self-realization and not

693

00:25:34,789 --> 00:25:32,799

something you can put on the front page

694

00:25:36,470 --> 00:25:34,799

of the new york times

695

00:25:38,149 --> 00:25:36,480

you know but i also

696

00:25:41,350 --> 00:25:38,159

you know i think people are looking for

697

00:25:43,029 --> 00:25:41,360

a one-size-fits-all answer as if it's

698

00:25:45,110 --> 00:25:43,039

just one thing

699

00:25:48,710 --> 00:25:45,120

i i you know it's

700

00:25:51,350 --> 00:25:48,720

it might be that this is many things

701
00:25:52,710 --> 00:25:51,360
yeah and that what the navy pilots are

702
00:25:54,870 --> 00:25:52,720
seeing

703
00:25:56,470 --> 00:25:54,880
is very different than the other things

704
00:25:57,990 --> 00:25:56,480
that people see

705
00:25:59,990 --> 00:25:58,000
and i've been going back and forth with

706
00:26:02,230 --> 00:26:00,000
someone here in california

707
00:26:03,669 --> 00:26:02,240
uh trying to get

708
00:26:05,590 --> 00:26:03,679
um

709
00:26:06,789 --> 00:26:05,600
down to where

710
00:26:08,830 --> 00:26:06,799
he lives

711
00:26:11,269 --> 00:26:08,840
uh because he has one of

712
00:26:12,310 --> 00:26:11,279
these situations where they see

713
00:26:14,710 --> 00:26:12,320

something

714

00:26:16,149 --> 00:26:14,720

multiple times

715

00:26:18,390 --> 00:26:16,159

and it's one of these things that has

716

00:26:21,909 --> 00:26:18,400

that drops material

717

00:26:24,390 --> 00:26:21,919

and he sees

718

00:26:26,789 --> 00:26:24,400

certain movement patterns that occur

719

00:26:28,870 --> 00:26:26,799

right before it drops material in this

720

00:26:29,750 --> 00:26:28,880

case the material is a metal

721

00:26:32,310 --> 00:26:29,760

come on

722

00:26:34,950 --> 00:26:32,320

and i'm actually trying to get jacques

723

00:26:36,310 --> 00:26:34,960

uh i i want to bring jacques

724

00:26:37,750 --> 00:26:36,320

to the

725

00:26:40,630 --> 00:26:37,760

situation

726

00:26:43,029 --> 00:26:40,640

because he has

727

00:26:45,350 --> 00:26:43,039

i quote sort of a sherlock holmes

728

00:26:46,470 --> 00:26:45,360

approach to seeing things and asking

729

00:26:49,669 --> 00:26:46,480

questions

730

00:26:52,710 --> 00:26:49,679

that but it needs to be on site you know

731

00:26:54,390 --> 00:26:52,720

to grok and gestalt the

732

00:26:56,710 --> 00:26:54,400

the you know

733

00:26:57,990 --> 00:26:56,720

the witness and the situation i mean

734

00:27:00,230 --> 00:26:58,000

that's sorry to interrupt that sounds

735

00:27:02,549 --> 00:27:00,240

much like the council bluffs iowa case

736

00:27:05,190 --> 00:27:02,559

it is no and that's what i i've you know

737

00:27:07,430 --> 00:27:05,200

i've said a couple of times that

738

00:27:09,190 --> 00:27:07,440

there's several of these and i've you

739

00:27:11,830 --> 00:27:09,200

know i mean there are several historical

740

00:27:13,430 --> 00:27:11,840

ones and then there's one that is still

741

00:27:14,390 --> 00:27:13,440

ongoing

742

00:27:16,149 --> 00:27:14,400

and

743

00:27:18,710 --> 00:27:16,159

um

744

00:27:21,190 --> 00:27:18,720

that's about as reproducible

745

00:27:23,430 --> 00:27:21,200

a situation as i could ever hope for and

746

00:27:25,669 --> 00:27:23,440

it's right in my backyard

747

00:27:28,710 --> 00:27:25,679

um and that's the recent case

748

00:27:29,590 --> 00:27:28,720

yeah yeah it's still it's still ongoing

749

00:27:31,430 --> 00:27:29,600

um

750

00:27:32,870 --> 00:27:31,440

and so uh

751
00:27:35,029 --> 00:27:32,880
you know if it

752
00:27:37,830 --> 00:27:35,039
i'll go spend the weekend

753
00:27:39,909 --> 00:27:37,840
uh looking into it

754
00:27:41,269 --> 00:27:39,919
um you know it's kind it'll be a fun a

755
00:27:43,510 --> 00:27:41,279
fun trip

756
00:27:45,190 --> 00:27:43,520
yeah absolutely that's fascinating that

757
00:27:47,029 --> 00:27:45,200
there's a recent one that's almost

758
00:27:49,269 --> 00:27:47,039
similar and with regards to the council

759
00:27:51,029 --> 00:27:49,279
bluffs is that still being analyzed the

760
00:27:52,549 --> 00:27:51,039
materials from that one because i know

761
00:27:54,630 --> 00:27:52,559
jacques looked at it or has that kind of

762
00:27:56,710 --> 00:27:54,640
been done now i mean it's done i mean

763
00:28:00,630 --> 00:27:56,720

it's done to at least my satisfaction

764

00:28:03,510 --> 00:28:01,750

well it's

765

00:28:05,510 --> 00:28:03,520

it's done in

766

00:28:07,669 --> 00:28:05,520

there was there was a singular point

767

00:28:09,430 --> 00:28:07,679

about publishing that paper

768

00:28:11,269 --> 00:28:09,440

and that was showing people that you

769

00:28:13,590 --> 00:28:11,279

could put stuff through a real peer

770

00:28:14,630 --> 00:28:13,600

review

771

00:28:17,590 --> 00:28:14,640

and

772

00:28:19,669 --> 00:28:17,600

as much as i appreciate that there are

773

00:28:22,149 --> 00:28:19,679

journals out there that

774

00:28:23,909 --> 00:28:22,159

deal with the you know the let's say the

775

00:28:24,950 --> 00:28:23,919

paranormal or

776

00:28:30,389 --> 00:28:24,960

the

777

00:28:31,830 --> 00:28:30,399

research and

778

00:28:33,669 --> 00:28:31,840

and hopefully that will get the kind of

779

00:28:34,630 --> 00:28:33,679

respect i think it deserves

780

00:28:37,830 --> 00:28:34,640

but

781

00:28:41,350 --> 00:28:39,510

that occurs before they get the kind of

782

00:28:42,470 --> 00:28:41,360

respect that they deserve

783

00:28:44,070 --> 00:28:42,480

um

784

00:28:46,310 --> 00:28:44,080

the fact that you can publish something

785

00:28:47,830 --> 00:28:46,320

in a mainstream journal

786

00:28:49,430 --> 00:28:47,840

uh

787

00:28:50,310 --> 00:28:49,440

was important

788

00:28:52,950 --> 00:28:50,320

uh

789

00:28:55,590 --> 00:28:52,960

and it wasn't just an opinion piece

790

00:28:57,909 --> 00:28:55,600

it was a a study because you can report

791

00:28:58,710 --> 00:28:57,919

you can get an opinion piecing anywhere

792

00:28:59,909 --> 00:28:58,720

um

793

00:29:01,350 --> 00:28:59,919

and so

794

00:29:03,909 --> 00:29:01,360

it was really to show people that it can

795

00:29:05,510 --> 00:29:03,919

be done and here was kind of a a a

796

00:29:08,149 --> 00:29:05,520

pipeline or a

797

00:29:10,710 --> 00:29:08,159

template of how to do it now i do think

798

00:29:12,789 --> 00:29:10,720

that there's more that can be done on it

799

00:29:13,669 --> 00:29:12,799

um you know deeper analysis i mean we

800

00:29:15,190 --> 00:29:13,679

did

801
00:29:17,669 --> 00:29:15,200
i mean

802
00:29:18,630 --> 00:29:17,679
frankly we did an embarrassingly

803
00:29:19,750 --> 00:29:18,640
uh

804
00:29:23,190 --> 00:29:19,760
you know

805
00:29:25,830 --> 00:29:23,200
low level analysis of the materials

806
00:29:27,990 --> 00:29:25,840
um and i'll underscore the fact that

807
00:29:30,950 --> 00:29:28,000
this stuff is it's expensive to do

808
00:29:33,909 --> 00:29:30,960
you know unless you have a materials

809
00:29:35,190 --> 00:29:33,919
analysis laboratory

810
00:29:37,110 --> 00:29:35,200
getting somebody to help you do the

811
00:29:39,269 --> 00:29:37,120
study you know

812
00:29:41,350 --> 00:29:39,279
renting the equipment time

813
00:29:42,870 --> 00:29:41,360

doing the analysis afterwards it's

814

00:29:45,029 --> 00:29:42,880

somebody's time

815

00:29:47,430 --> 00:29:45,039

right it's my time frankly

816

00:29:50,070 --> 00:29:47,440

you know and um

817

00:29:52,710 --> 00:29:50,080

it's uh you know so far so

818

00:29:54,710 --> 00:29:52,720

you know you're you're talking

819

00:29:56,549 --> 00:29:54,720

you're talking a laboratory

820

00:29:58,630 --> 00:29:56,559

with about probably five to ten million

821

00:30:00,789 --> 00:29:58,640

dollars worth of equipment

822

00:30:02,710 --> 00:30:00,799

and so because you need like ten

823

00:30:04,230 --> 00:30:02,720

different kinds of instruments now there

824

00:30:06,470 --> 00:30:04,240

are laboratories like that exit that

825

00:30:08,789 --> 00:30:06,480

exist and you can rent time on them

826

00:30:10,230 --> 00:30:08,799

uh but you're you know for a full and

827

00:30:11,350 --> 00:30:10,240

detailed analysis you're probably going

828

00:30:13,830 --> 00:30:11,360

to spend about a hundred thousand

829

00:30:14,549 --> 00:30:13,840

dollars per

830

00:30:16,710 --> 00:30:14,559

per

831

00:30:19,510 --> 00:30:16,720

detail to to give

832

00:30:21,750 --> 00:30:19,520

a metallurgist or materials analysis

833

00:30:24,070 --> 00:30:21,760

person the kind of data that will

834

00:30:25,750 --> 00:30:24,080

satisfy them yeah

835

00:30:27,350 --> 00:30:25,760

that's right yeah i mean that makes a

836

00:30:28,149 --> 00:30:27,360

lot of sense why it's not just thrown

837

00:30:30,389 --> 00:30:28,159

around

838

00:30:31,909 --> 00:30:30,399

here and everywhere so yeah uh now i

839

00:30:34,630 --> 00:30:31,919

know initially we said 30 minutes i've

840

00:30:36,630 --> 00:30:34,640

just got a few uh follower questions

841

00:30:37,590 --> 00:30:36,640

from the chat as well if you don't mind

842

00:30:39,430 --> 00:30:37,600

um

843

00:30:42,070 --> 00:30:39,440

first one from dolan's bar

844

00:30:44,230 --> 00:30:42,080

and do we know if more uap are

845

00:30:47,750 --> 00:30:44,240

originating from the oceans or the outer

846

00:30:53,029 --> 00:30:51,110

gosh i don't know that there's been a um

847

00:30:54,470 --> 00:30:53,039

enough of a statistical analysis i mean

848

00:30:56,310 --> 00:30:54,480

who's going to collect that kind of

849

00:30:59,669 --> 00:30:56,320

information except

850

00:31:02,070 --> 00:30:59,679

people on the ocean um you know and the

851
00:31:03,669 --> 00:31:02,080
people most likely to see it

852
00:31:04,389 --> 00:31:03,679
are the navy

853
00:31:11,029 --> 00:31:04,399
and

854
00:31:12,630 --> 00:31:11,039
the the usos let's say um

855
00:31:14,149 --> 00:31:12,640
you know observation of something moving

856
00:31:16,870 --> 00:31:14,159
underwater

857
00:31:19,830 --> 00:31:16,880
is as as what i found it appears to be a

858
00:31:21,269 --> 00:31:19,840
little bit more classified

859
00:31:23,830 --> 00:31:21,279
in terms of it's harder to get

860
00:31:24,870 --> 00:31:23,840
information out from people

861
00:31:26,870 --> 00:31:24,880
um

862
00:31:28,389 --> 00:31:26,880
because you know i think we just don't

863
00:31:29,269 --> 00:31:28,399

want people to know where our submarines

864

00:31:31,350 --> 00:31:29,279

are

865

00:31:34,310 --> 00:31:31,360

or what they're capable of that makes

866

00:31:35,830 --> 00:31:34,320

sense absolutely um you know but i mean

867

00:31:36,950 --> 00:31:35,840

just look at the announcement today from

868

00:31:39,350 --> 00:31:36,960

nasa

869

00:31:40,149 --> 00:31:39,360

yeah saying that

870

00:31:43,509 --> 00:31:40,159

they're

871

00:31:45,430 --> 00:31:43,519

entering the fray in a positive sense

872

00:31:47,110 --> 00:31:45,440

so you know you put that kind of data

873

00:31:48,870 --> 00:31:47,120

together with

874

00:31:50,149 --> 00:31:48,880

what um

875

00:31:52,630 --> 00:31:50,159

avi loeb

876

00:31:54,630 --> 00:31:52,640

is doing and his you know he's got quite

877

00:31:57,590 --> 00:31:54,640

a network of individuals

878

00:32:00,630 --> 00:31:57,600

who are on the ready once data becomes

879

00:32:02,950 --> 00:32:00,640

available to help analyze it um

880

00:32:04,789 --> 00:32:02,960

so you know i i

881

00:32:06,230 --> 00:32:04,799

i think it's exciting times to be living

882

00:32:08,070 --> 00:32:06,240

in uh

883

00:32:09,509 --> 00:32:08,080

is it moving as fast as we would want or

884

00:32:10,710 --> 00:32:09,519

is it gonna snap your fingers and

885

00:32:12,950 --> 00:32:10,720

everything

886

00:32:15,909 --> 00:32:12,960

happens no but

887

00:32:16,710 --> 00:32:15,919

you know more than i ever dreamed of

888

00:32:18,070 --> 00:32:16,720

yeah

889

00:32:19,590 --> 00:32:18,080

absolutely

890

00:32:22,070 --> 00:32:19,600

um moving on to a question here from

891

00:32:23,509 --> 00:32:22,080

lara she says uh has mr nolan's study

892

00:32:26,149 --> 00:32:23,519

looked at the changes in the pineal

893

00:32:27,750 --> 00:32:26,159

gland of experiences and if so what has

894

00:32:28,389 --> 00:32:27,760

he found

895

00:32:33,110 --> 00:32:28,399

no

896

00:32:35,430 --> 00:32:33,120

what would you measure

897

00:32:37,509 --> 00:32:35,440

uh the pineal gland releases hormones so

898

00:32:38,630 --> 00:32:37,519

you'd have to have a hormone test you

899

00:32:41,350 --> 00:32:38,640

know for

900

00:32:43,590 --> 00:32:41,360

for that there's no um

901
00:32:46,070 --> 00:32:43,600
size changes that we've

902
00:32:48,789 --> 00:32:46,080
looked at but the pineal gland is

903
00:32:50,630 --> 00:32:48,799
upstream of functions

904
00:32:52,549 --> 00:32:50,640
involved with what the

905
00:32:55,669 --> 00:32:52,559
caudate putamen does so it does release

906
00:32:56,870 --> 00:32:55,679
hormones that change the function of the

907
00:32:58,470 --> 00:32:56,880
of that

908
00:33:01,430 --> 00:32:58,480
you know what what we've primarily been

909
00:33:03,909 --> 00:33:01,440
looking at now and this is a sort of a

910
00:33:06,070 --> 00:33:03,919
follow-on study with a group at harvard

911
00:33:07,669 --> 00:33:06,080
and you can find the the paper that

912
00:33:11,190 --> 00:33:07,679
we've already published on it

913
00:33:13,190 --> 00:33:11,200

um is that we've been collecting the

914

00:33:15,990 --> 00:33:13,200

you know look the size variation of

915

00:33:18,549 --> 00:33:16,000

individuals and correlating it to either

916

00:33:20,950 --> 00:33:18,559

psychological or pathological or

917

00:33:23,509 --> 00:33:20,960

physiological states and we're finding

918

00:33:25,350 --> 00:33:23,519

remarkable correlations between the

919

00:33:26,070 --> 00:33:25,360

presence or absence of certain features

920

00:33:28,789 --> 00:33:26,080

or

921

00:33:31,430 --> 00:33:28,799

it's called

922

00:33:32,710 --> 00:33:31,440

network correlations in the brain

923

00:33:34,470 --> 00:33:32,720

much like i talked about network

924

00:33:37,190 --> 00:33:34,480

correlations in the immune system is the

925

00:33:39,350 --> 00:33:37,200

network does the does the thinking not

926
00:33:40,549 --> 00:33:39,360
the individual pieces

927
00:33:42,710 --> 00:33:40,559
um

928
00:33:43,590 --> 00:33:42,720
that relate to function

929
00:33:46,070 --> 00:33:43,600
what

930
00:33:49,590 --> 00:33:46,080
that individual i think is really asking

931
00:33:52,310 --> 00:33:49,600
for is what's called a functional mri

932
00:33:55,110 --> 00:33:52,320
or where you would do functional mri

933
00:33:56,630 --> 00:33:55,120
along with brainwave alpha beta gamma

934
00:33:58,149 --> 00:33:56,640
etc

935
00:34:00,470 --> 00:33:58,159
uh

936
00:34:02,950 --> 00:34:00,480
and um

937
00:34:05,430 --> 00:34:02,960
you know that

938
00:34:06,710 --> 00:34:05,440

that would tell you something about

939

00:34:07,830 --> 00:34:06,720

you know and then you then you of course

940

00:34:09,909 --> 00:34:07,840

you'd want to be looking at hormone

941

00:34:10,790 --> 00:34:09,919

levels and stuff like that so you know

942

00:34:12,069 --> 00:34:10,800

taking

943

00:34:14,790 --> 00:34:12,079

blood

944

00:34:16,230 --> 00:34:14,800

uh tests uh

945

00:34:18,149 --> 00:34:16,240

that would be what would be necessary

946

00:34:19,829 --> 00:34:18,159

but i would do that with somebody who is

947

00:34:22,389 --> 00:34:19,839

let's say uh

948

00:34:24,869 --> 00:34:22,399

let's call them an on-call experiencer

949

00:34:26,950 --> 00:34:24,879

um a medium of some sort

950

00:34:28,230 --> 00:34:26,960

right oh you mentioned mediums there and

951
00:34:29,669 --> 00:34:28,240
i know that there was a conversation you

952
00:34:31,990 --> 00:34:29,679
were talking about the

953
00:34:33,510 --> 00:34:32,000
celebrity medium tyler henry

954
00:34:35,109 --> 00:34:33,520
on twitter is that something you would

955
00:34:36,149 --> 00:34:35,119
actually like to analyze and look into

956
00:34:38,710 --> 00:34:36,159
further

957
00:34:39,750 --> 00:34:38,720
yeah i mean i i think he's an ex he's an

958
00:34:44,069 --> 00:34:39,760
extreme

959
00:34:46,230 --> 00:34:44,079
case of uh of somebody with

960
00:34:48,950 --> 00:34:46,240
something i don't know what it is and

961
00:34:51,510 --> 00:34:48,960
i'm just being careful i i

962
00:34:53,349 --> 00:34:51,520
i i don't doubt anything about how

963
00:34:55,109 --> 00:34:53,359

people are interpreting it but he

964

00:34:58,150 --> 00:34:55,119

definitely has

965

00:35:00,069 --> 00:34:58,160

some capability to pick up information

966

00:35:02,550 --> 00:35:00,079

from the ether however you want to

967

00:35:03,910 --> 00:35:02,560

define that either in the real or in the

968

00:35:05,190 --> 00:35:03,920

extra real

969

00:35:06,069 --> 00:35:05,200

um

970

00:35:08,550 --> 00:35:06,079

that

971

00:35:09,990 --> 00:35:08,560

is worth understanding i mean how could

972

00:35:11,510 --> 00:35:10,000

you not i mean

973

00:35:14,069 --> 00:35:11,520

it's just

974

00:35:15,430 --> 00:35:14,079

i i just find it fascinating yeah no

975

00:35:17,589 --> 00:35:15,440

agreed i think a lot of people were

976

00:35:19,510 --> 00:35:17,599

quite happy to see that conversation

977

00:35:22,150 --> 00:35:19,520

happen so i think a lot of people feel

978

00:35:25,109 --> 00:35:22,160

that it it's worth looking into uh one

979

00:35:26,630 --> 00:35:25,119

more question by my mainstream friends

980

00:35:29,190 --> 00:35:26,640

oh my god you're talking about mediums

981

00:35:31,270 --> 00:35:29,200

and hello gary's off the rails oh who

982

00:35:33,829 --> 00:35:31,280

cares shut up

983

00:35:35,670 --> 00:35:33,839

i really don't i don't understand why

984

00:35:37,430 --> 00:35:35,680

people feel that they need to

985

00:35:40,230 --> 00:35:37,440

corral

986

00:35:42,470 --> 00:35:40,240

your thought process uh and what you can

987

00:35:44,950 --> 00:35:42,480

i mean half of them you know go to

988

00:35:47,190 --> 00:35:44,960

church every sunday and

989

00:35:49,349 --> 00:35:47,200

praise some you know some old guy in the

990

00:35:52,310 --> 00:35:49,359

sky sitting on a throne and and then

991

00:35:54,069 --> 00:35:52,320

they're yelling at me

992

00:35:56,550 --> 00:35:54,079

you know i'm sorry

993

00:35:58,230 --> 00:35:56,560

yeah i'm with you 100

994

00:36:00,630 --> 00:35:58,240

um so yeah just one more question if you

995

00:36:02,870 --> 00:36:00,640

don't mind before before we finish um

996

00:36:04,470 --> 00:36:02,880

johnny asks what what did gary mean by

997

00:36:06,230 --> 00:36:04,480

being open when talking about the

998

00:36:08,230 --> 00:36:06,240

hitchhiker effect what are the

999

00:36:10,470 --> 00:36:08,240

foundations of that idea

1000

00:36:12,950 --> 00:36:10,480

and can that be detected in the brain if

1001
00:36:14,550 --> 00:36:12,960
someone is more open

1002
00:36:15,589 --> 00:36:14,560
well

1003
00:36:17,109 --> 00:36:15,599
you know i

1004
00:36:19,510 --> 00:36:17,119
i think

1005
00:36:21,829 --> 00:36:19,520
well the hitchhiker effect is something

1006
00:36:24,630 --> 00:36:21,839
that you know happened to a few people

1007
00:36:29,670 --> 00:36:27,990
when the phenomenon seems to occur to

1008
00:36:32,470 --> 00:36:29,680
certain people

1009
00:36:34,230 --> 00:36:32,480
um and then they you know they they

1010
00:36:36,069 --> 00:36:34,240
experienced it at the ranch and then

1011
00:36:37,190 --> 00:36:36,079
they go home

1012
00:36:38,710 --> 00:36:37,200
um

1013
00:36:42,470 --> 00:36:38,720

and then they start experiencing it at

1014

00:36:44,630 --> 00:36:42,480

home and other people at home see it

1015

00:36:46,550 --> 00:36:44,640

i just find that interesting and i i

1016

00:36:48,310 --> 00:36:46,560

happen to know the family that this

1017

00:36:51,190 --> 00:36:48,320

happened to and i visited their house

1018

00:36:53,270 --> 00:36:51,200

and i you know i've seen the stuff that

1019

00:36:55,190 --> 00:36:53,280

they that they drew

1020

00:36:57,990 --> 00:36:55,200

of what it is that they saw i mean i

1021

00:37:00,230 --> 00:36:58,000

haven't seen this what they saw

1022

00:37:02,470 --> 00:37:00,240

you know and it's very credible and it

1023

00:37:03,510 --> 00:37:02,480

scared the bejesus out of them

1024

00:37:07,109 --> 00:37:03,520

so

1025

00:37:08,470 --> 00:37:07,119

you know it's it's an experience

1026
00:37:10,310 --> 00:37:08,480
do i necessarily

1027
00:37:11,990 --> 00:37:10,320
believe

1028
00:37:14,310 --> 00:37:12,000
what they saw

1029
00:37:16,470 --> 00:37:14,320
was real no but i believe that they

1030
00:37:18,150 --> 00:37:16,480
experienced it that's an important

1031
00:37:19,670 --> 00:37:18,160
distinction

1032
00:37:21,109 --> 00:37:19,680
right you know

1033
00:37:22,470 --> 00:37:21,119
i call him you know

1034
00:37:25,109 --> 00:37:22,480
jason

1035
00:37:25,910 --> 00:37:25,119
carl velveeta or whatever his name is

1036
00:37:27,829 --> 00:37:25,920
uh

1037
00:37:30,230 --> 00:37:27,839
you know um

1038
00:37:33,030 --> 00:37:30,240

you know he tries to pick up people like

1039

00:37:35,670 --> 00:37:33,040

him try to pick up on these things

1040

00:37:37,589 --> 00:37:35,680

um and you know

1041

00:37:40,470 --> 00:37:37,599

say that i believe this or he believes

1042

00:37:42,390 --> 00:37:40,480

that or you know it's like

1043

00:37:44,470 --> 00:37:42,400

no

1044

00:37:46,630 --> 00:37:44,480

relating the experience that other

1045

00:37:47,510 --> 00:37:46,640

people have had

1046

00:37:50,550 --> 00:37:47,520

um

1047

00:37:52,630 --> 00:37:50,560

i'm not going to demean another person's

1048

00:37:55,589 --> 00:37:52,640

experience

1049

00:37:58,230 --> 00:37:55,599

i'm going to pull it out

1050

00:38:00,550 --> 00:37:58,240

uh and try to understand it and try to

1051
00:38:02,310 --> 00:38:00,560
context it in you know the other things

1052
00:38:04,630 --> 00:38:02,320
that i think are going on

1053
00:38:06,550 --> 00:38:04,640
to try to come up with some

1054
00:38:08,390 --> 00:38:06,560
explanation that explains the

1055
00:38:10,069 --> 00:38:08,400
underpinnings of it

1056
00:38:11,750 --> 00:38:10,079
um

1057
00:38:12,950 --> 00:38:11,760
you know it's

1058
00:38:15,190 --> 00:38:12,960
i mean and

1059
00:38:17,670 --> 00:38:15,200
and why not if

1060
00:38:19,670 --> 00:38:17,680
i am attracted and people like me i

1061
00:38:21,670 --> 00:38:19,680
think are attracted to questions that

1062
00:38:23,270 --> 00:38:21,680
are unanswerable

1063
00:38:24,550 --> 00:38:23,280

i'm not interested in stuff that people

1064

00:38:26,069 --> 00:38:24,560

already know

1065

00:38:29,109 --> 00:38:26,079

it's in a book

1066

00:38:31,670 --> 00:38:29,119

i can find it on wikipedia

1067

00:38:34,069 --> 00:38:31,680

you know i'm interested in things that

1068

00:38:37,030 --> 00:38:34,079

have not been answered

1069

00:38:39,589 --> 00:38:37,040

and so why not

1070

00:38:41,190 --> 00:38:39,599

why not do it why not go after it

1071

00:38:45,030 --> 00:38:41,200

because

1072

00:38:48,870 --> 00:38:45,040

i i get my jollies out of that moment of

1073

00:38:50,790 --> 00:38:48,880

aha of having seen uh various things and

1074

00:38:52,710 --> 00:38:50,800

putting it together and going wow okay

1075

00:38:53,990 --> 00:38:52,720

that's it

1076

00:38:55,109 --> 00:38:54,000

that's all right

1077

00:38:56,550 --> 00:38:55,119

that's great and i think that's what a

1078

00:38:58,390 --> 00:38:56,560

lot of people like about you that you

1079

00:39:00,470 --> 00:38:58,400

you're doing the work you you're putting

1080

00:39:02,310 --> 00:39:00,480

in the time and uh and it's really

1081

00:39:03,910 --> 00:39:02,320

appreciated um so we're just about to

1082

00:39:06,069 --> 00:39:03,920

hit 40 minutes thank you for letting me

1083

00:39:08,630 --> 00:39:06,079

go over slightly i really do appreciate

1084

00:39:11,190 --> 00:39:08,640

sorry if i didn't get around to asking

1091

00:39:28,790 --> 00:39:27,200

all the questions we were very pushed

1092

00:39:31,109 --> 00:39:28,800

for time and but i really appreciate

1093

00:39:32,710 --> 00:39:31,119

gary being here and talking i'm going to

1094

00:39:34,630 --> 00:39:32,720

speaking with uh

1096

00:39:38,950 --> 00:39:36,720

researcher david marla

1097

00:39:41,109 --> 00:39:38,960

the stuff that came out on the debrief

1104

00:39:53,670 --> 00:39:51,359

today if you haven't seen it go and

1105

00:39:55,589 --> 00:39:53,680

check it out and uh yeah enjoy the rest
