keep it nice that'll be a highly

20

00:01:07,250 --> 00:01:05,159

appreciated

21

00:01:09,770 --> 00:01:07,260

so yeah without further ado I'd like to

22

00:01:11,570 --> 00:01:09,780

introduce my guest tonight so this is

23

00:01:14,330 --> 00:01:11,580

somebody I've wanted to speak to for

24

00:01:16,670 --> 00:01:14,340

some time we recently connected uh

25

00:01:18,109 --> 00:01:16,680

privately and yeah I'm really excited

26
00:01:21,109 --> 00:01:18,119
for this conversation so I hope you guys

27
00:01:23,270 --> 00:01:21,119
enjoy it too so Frank Milburn is a

28
00:01:25,730 --> 00:01:23,280
former UK defense intelligence officer

29
00:01:27,770 --> 00:01:25,740
and army paratrooper with over 23 years

30
00:01:29,690 --> 00:01:27,780
of experience producing threat and risk

31
00:01:31,730 --> 00:01:29,700
assessments for clients operating in

32
00:01:33,770 --> 00:01:31,740
hostile environments his experience

00:01:35,929 --> 00:01:33,780
includes providing strategic and

34
00:01:37,969 --> 00:01:35,939
operational assessments of prevailing

35
00:01:39,950 --> 00:01:37,979
business environments for extractive

36
00:01:42,530 --> 00:01:39,960
Industries as well as a variety of

37
00:01:45,170 --> 00:01:42,540
Fortune 500 Aerospace and government

38
00:01:47,210 --> 00:01:45,180

clients Frank is an alumnus of the royal

written peer-reviewed papers for a

42

00:01:54,350 --> 00:01:52,380

number of globally ranked think tanks

43

00:01:56,749 --> 00:01:54,360

including the Middle East economic

44

00:01:58,490 --> 00:01:56,759

National Security studies at Tel Aviv

47

00:02:04,550 --> 00:02:02,939

University is an Affiliated researcher

48

00:02:06,709 --> 00:02:04,560

with a begging Sadat Center for

49

00:02:09,410 --> 00:02:06,719

strategic study is and is a member of

50

00:02:12,350 --> 00:02:09,420

the scientific Coalition for UAP studies

51
00:02:14,330 --> 00:02:12,360
so please welcome Frank Milburn Frank

52
00:02:16,910 --> 00:02:14,340
how are you thank you very much brother

53
00:02:20,330 --> 00:02:16,920
and it's a real honor to be on thank you

54
00:02:21,890 --> 00:02:20,340
that's my pleasure absolute pleasure

55
00:02:23,750 --> 00:02:21,900
um I'm going to do something which I

56
00:02:25,850 --> 00:02:23,760
don't normally do at the start of a show

57
00:02:28,369 --> 00:02:25,860
and I'm going to jump straight to a

58
00:02:30,589 --> 00:02:28,379
couple of questions that have come in

59
00:02:32,210 --> 00:02:30,599
and this one isn't even this one isn't

60
00:02:34,729 --> 00:02:32,220
even UFO related but I just thought I'd

61
00:02:37,250 --> 00:02:34,739
jump in with it so it says Frank is a

62
00:02:39,350 --> 00:02:37,260
military man please ask him why when a

63
00:02:41,750 --> 00:02:39,360

clearly insane leader is single-handedly

64

00:02:44,330 --> 00:02:41,760

holding the whole world to Ransom this

65

00:02:46,910 --> 00:02:44,340

monster has not been assassinated

66

00:02:48,830 --> 00:02:46,920

okay so I I assume that we're um we're

67

00:02:51,949 --> 00:02:48,840

we're referring to Putin here right to

68

00:02:54,050 --> 00:02:51,959

Vladimir I would have thought so yeah uh

69

00:02:55,970 --> 00:02:54,060

I'd say I don't consider him I don't

70

00:02:59,030 --> 00:02:55,980

consider him perf um personally to be

71

00:03:02,690 --> 00:02:59,040

insane uh certainly a megalomaniac and

72

00:03:04,250 --> 00:03:02,700

certainly has uh you know uh you know um

73

00:03:08,869 --> 00:03:04,260

has a

74

00:03:11,210 --> 00:03:08,879

is not Russian

75

00:03:13,610 --> 00:03:11,220

um but I think uh it's a question of you

76

00:03:17,930 --> 00:03:13,620

know he was a former colonel in the KGB

77

00:03:19,850 --> 00:03:17,940

so if you rise to power uh as a former

78

00:03:22,550 --> 00:03:19,860

colonel in the KGB you're going to have

79

00:03:25,190 --> 00:03:22,560

people around you who will protect you

80

00:03:27,649 --> 00:03:25,200

um because uh you know it's the kind of

81

00:03:29,089 --> 00:03:27,659

job that you do right so uh he's pretty

82

00:03:30,830 --> 00:03:29,099

switched on that way I think he's not

83

00:03:32,809 --> 00:03:30,840

very switched on the tour in the way

84

00:03:34,670 --> 00:03:32,819

that he invaded Ukraine because that's a

85

00:03:36,949 --> 00:03:34,680

whole nother question but uh he

86

00:03:39,110 --> 00:03:36,959

completely uh overestimated the

87

00:03:40,910 --> 00:03:39,120

abilities of of the Russian military and

88

00:03:42,890 --> 00:03:40,920

completely underestimated

89

00:03:45,289 --> 00:03:42,900

um you know the will of ukrainians to

90

00:03:47,390 --> 00:03:45,299

resist and also of uh the Western

91

00:03:50,030 --> 00:03:47,400

military Powers you know in the EU and

92

00:03:51,890 --> 00:03:50,040

NATO uh you know to support uh the

93

00:03:54,229 --> 00:03:51,900

ukrainians

94

00:03:55,430 --> 00:03:54,239

yeah are you surprised at all that there

95

00:03:58,490 --> 00:03:55,440

haven't been any assassination

96

00:03:59,809 --> 00:03:58,500

assassination attempts at all

97

00:04:00,770 --> 00:03:59,819

well there have been a Fascination

98

00:04:02,509 --> 00:04:00,780

attempt

99

00:04:03,589 --> 00:04:02,519

um if you look at uh you know opponents

100

00:04:06,949 --> 00:04:03,599

are Putin there have been plenty of

101
00:04:09,470 --> 00:04:06,959
assassination attempts uh but um you

102
00:04:12,050 --> 00:04:09,480
know he is a former KGB Lieutenant

103
00:04:13,250 --> 00:04:12,060
Colonel so um you know he's going to

104
00:04:15,289 --> 00:04:13,260
have people around him he's going to be

105
00:04:17,810 --> 00:04:15,299
very aware of his own security you know

106
00:04:20,030 --> 00:04:17,820
I mean if you're like me I I'm uh you

107
00:04:22,430 --> 00:04:20,040
know I used to work with um

108
00:04:24,830 --> 00:04:22,440
you know state department and with the

109
00:04:27,890 --> 00:04:24,840
usdod and special forces in Iraq right

110
00:04:30,290 --> 00:04:27,900
and you know I'm a I'm a trained uh well

111
00:04:34,070 --> 00:04:30,300
counter-intelligence professionals and

112
00:04:36,050 --> 00:04:34,080
also a close protection professional so

113
00:04:37,430 --> 00:04:36,060

um it would become like the same for me

114

00:04:39,530 --> 00:04:37,440

if I were looking to somebody to protect

115

00:04:41,510 --> 00:04:39,540

myself and my family I'm a professional

116

00:04:43,010 --> 00:04:41,520

so I would know the kind of people that

117

00:04:44,270 --> 00:04:43,020

I would want to surround myself with to

118

00:04:46,249 --> 00:04:44,280

protect myself

119

00:04:48,650 --> 00:04:46,259

yeah that makes sense and I appreciate

120

00:04:50,810 --> 00:04:48,660

that so let's start now where I probably

121

00:04:52,850 --> 00:04:50,820

would normally start so I'd like to know

122

00:04:55,550 --> 00:04:52,860

when you first got interested in the

123

00:04:58,010 --> 00:04:55,560

whole UFO subjects in general

124

00:05:00,350 --> 00:04:58,020

uh when I was a very young child

125

00:05:04,790 --> 00:05:00,360

um I was brought up with uh UAP

126

00:05:06,909 --> 00:05:04,800

phenomena my mother my grandmother and

127

00:05:09,290 --> 00:05:06,919

my grandfather are what you would call

128

00:05:12,890 --> 00:05:09,300

experiences or in those days they used

129

00:05:13,610 --> 00:05:12,900

to call Sidekicks or mediums

130

00:05:16,310 --> 00:05:13,620

um

131

00:05:19,430 --> 00:05:16,320

I had uh I'm an experienced uh I had

132

00:05:21,230 --> 00:05:19,440

Visions as a you know as a teenager

133

00:05:23,090 --> 00:05:21,240

um when I told my grandmother about this

134

00:05:25,670 --> 00:05:23,100

uh she told me it's no surprise

135

00:05:27,590 --> 00:05:25,680

whatsoever my

136

00:05:30,170 --> 00:05:27,600

my house in London where I used to live

137

00:05:32,689 --> 00:05:30,180

was always full of uh mediums coming

138

00:05:35,570 --> 00:05:32,699

from Israel the United States uh people

139

00:05:37,610 --> 00:05:35,580

like uh you know Phyllis Schlemmer like

140

00:05:38,810 --> 00:05:37,620

uh you know famous uh you know a famous

141

00:05:43,550 --> 00:05:38,820

uh

142

00:05:45,230 --> 00:05:43,560

kind of like my upbringing

143

00:05:47,930 --> 00:05:45,240

um and

144

00:05:49,790 --> 00:05:47,940

as far as UAP goes I was always

145

00:05:51,890 --> 00:05:49,800

open-minded to it

146

00:05:53,930 --> 00:05:51,900

um I was sent to

147

00:05:56,210 --> 00:05:53,940

when I was at University when I was 20

148

00:05:59,870 --> 00:05:56,220

uh I'd already uh

149

00:06:00,710 --> 00:05:59,880

I'd already uh been a paratrooper I had

150

00:06:21,710 --> 00:06:00,720

a

151
00:06:23,090 --> 00:06:21,720
definitely put me in touch with me kind

152
00:06:25,430 --> 00:06:23,100
of like you know what you call that like

153
00:06:27,710 --> 00:06:25,440
the psychic side and then when I was in

154
00:06:30,409 --> 00:06:27,720
the military shortly after that uh there

155
00:06:34,610 --> 00:06:30,419
was no doubt in my mind that UAP exists

156
00:06:38,689 --> 00:06:34,620
that UAP were penetrating uh the UK air

157
00:06:40,249 --> 00:06:38,699
defense region and since that time I

158
00:06:42,830 --> 00:06:40,259
left the military

159
00:06:46,490 --> 00:06:42,840
uh kind of like late late 90s I read

160
00:06:47,150 --> 00:06:46,500
books uh like you know Timothy good

161
00:06:54,770 --> 00:06:47,160
um

162
00:06:57,950 --> 00:06:54,780
then I got uh more interested in kind of

163
00:07:00,409 --> 00:06:57,960

like 2016. I got her in touch with uh

164

00:07:03,950 --> 00:07:00,419

Richard Dolan and then I got on his

165

00:07:05,510 --> 00:07:03,960

website and from there it kind of like

166

00:07:07,370 --> 00:07:05,520

all snowballed and then I started

167

00:07:10,010 --> 00:07:07,380

gathering information and then

168

00:07:11,330 --> 00:07:10,020

you know by what's that 2020 in November

169

00:07:13,790 --> 00:07:11,340

I'd already written my first paper

170

00:07:16,550 --> 00:07:13,800

because I decided like um you know why

171

00:07:18,290 --> 00:07:16,560

am I why am I being on the sidelines

172

00:07:20,930 --> 00:07:18,300

um I'm obviously interested in this and

173

00:07:21,770 --> 00:07:20,940

I obviously have like some kind of um

174

00:07:24,529 --> 00:07:21,780

um

175

00:07:27,170 --> 00:07:24,539

I have some kind of uh

176

00:07:28,610 --> 00:07:27,180

I have something to contribute which

177

00:07:31,010 --> 00:07:28,620

comes from an intelligence background

178

00:07:33,170 --> 00:07:31,020

and that's why I got involved excellent

179

00:07:34,610 --> 00:07:33,180

thank you I appreciate that that kind of

180

00:07:37,010 --> 00:07:34,620

leads me into this question from Ryan

181

00:07:39,469 --> 00:07:37,020

Sprague he says did Frank ever come

182

00:07:41,330 --> 00:07:39,479

across UAP related issues or the topic

183

00:07:44,809 --> 00:07:41,340

in general during his intelligence

184

00:07:46,790 --> 00:07:44,819

career or his Contracting work after

185

00:07:48,950 --> 00:07:46,800

uh yes I did in my in my Military

186

00:07:52,670 --> 00:07:48,960

Intelligence career

187

00:07:53,270 --> 00:07:52,680

um I came in contact with pilots who had

188

00:07:54,770 --> 00:07:53,280

um

189

00:07:59,570 --> 00:07:54,780

uh

190

00:08:05,930 --> 00:08:02,629

are you able to expand on that at all

191

00:08:07,730 --> 00:08:05,940

uh yes uh there was a there was a

192

00:08:10,010 --> 00:08:07,740

kinetic effort to shoot down the UAP

193

00:08:12,350 --> 00:08:10,020

because they were over sensitive areas

194

00:08:16,610 --> 00:08:12,360

and UK air defense region

195

00:08:22,189 --> 00:08:18,290

the RAF weren't able to shoot them down

196

00:08:23,990 --> 00:08:22,199

they tried with um uh and she they tried

197

00:08:26,029 --> 00:08:24,000

with home in missiles right with uh with

198

00:08:28,369 --> 00:08:26,039

with a you know radar holding missiles

199

00:08:31,969 --> 00:08:28,379

they tried with uh infrared seeking

200

00:08:33,889 --> 00:08:31,979

missiles and then they closed uh to uh

201
00:08:35,389 --> 00:08:33,899
within three kilometers and they tried

202
00:08:37,490 --> 00:08:35,399
you know with uh you know the internal

203
00:08:39,409 --> 00:08:37,500
Cannon the aircraft had and they were

204
00:08:42,050 --> 00:08:39,419
not able to shoot down the UAP but the

205
00:08:44,449 --> 00:08:42,060
UAP would consider a threat

206
00:08:45,949 --> 00:08:44,459
do you think that the the reason why

207
00:08:48,350 --> 00:08:45,959
they weren't able to shoot them down was

208
00:08:50,329 --> 00:08:48,360
it weapons malfunctioned caused by the

209
00:08:52,310 --> 00:08:50,339
UAP or was it something to do with the

210
00:08:56,389 --> 00:08:52,320
materials and the like almost the field

211
00:09:00,769 --> 00:08:58,790
uh from

212
00:09:03,230 --> 00:09:00,779
uh the information I got from the pilots

213
00:09:05,750 --> 00:09:03,240

I believe that it was um there was some

214

00:09:08,269 --> 00:09:05,760

kind of uh field around the UAP

215

00:09:10,550 --> 00:09:08,279

that basically

216

00:09:13,310 --> 00:09:10,560

um it uh you know the the radar homing

217

00:09:15,110 --> 00:09:13,320

missiles had uh no lock-on effect

218

00:09:16,430 --> 00:09:15,120

initially they had a lock on effect but

219

00:09:18,650 --> 00:09:16,440

when they left the aircraft they had no

220

00:09:20,930 --> 00:09:18,660

lock on effect uh then the the infrared

221

00:09:23,509 --> 00:09:20,940

missiles they left the aircraft and then

222

00:09:25,730 --> 00:09:23,519

they had no lock-on effect and then when

223

00:09:28,430 --> 00:09:25,740

they closed within three less than three

224

00:09:30,350 --> 00:09:28,440

kilometers uh the uh you know the

225

00:09:31,250 --> 00:09:30,360

Cannons that the aircraft had had no

226

00:09:33,829 --> 00:09:31,260

effect

227

00:09:35,389 --> 00:09:33,839

uh so I can only put that down to uh you

228

00:09:37,730 --> 00:09:35,399

know uh Superior advanced technology

229

00:09:38,930 --> 00:09:37,740

that the UAP had as an intelligence

230

00:09:41,150 --> 00:09:38,940

officer

231

00:09:43,009 --> 00:09:41,160

and have it has this specific case is it

232

00:09:45,410 --> 00:09:43,019

is it noted anywhere in the National

233

00:09:46,910 --> 00:09:45,420

Archives files that have come out or is

234

00:09:48,710 --> 00:09:46,920

this one

235

00:09:53,150 --> 00:09:48,720

and you know if it was investigated by

236

00:09:57,650 --> 00:09:55,370

I know it's investigated by me

237

00:09:59,810 --> 00:09:57,660

oh right okay

238

00:10:01,730 --> 00:09:59,820

that's intriguing that's very intriguing

239

00:10:04,190 --> 00:10:01,740

I mean it

240

00:10:05,990 --> 00:10:04,200

it almost reminds me of a case that I

241

00:10:07,550 --> 00:10:06,000

wanted to talk to you about which we

242

00:10:11,090 --> 00:10:07,560

might as well jump into as well which is

243

00:10:13,250 --> 00:10:11,100

the the 1976 Tehran incident

244

00:10:15,050 --> 00:10:13,260

um a case that I'm definitely fascinated

245

00:10:16,910 --> 00:10:15,060

with I know I saw obviously Ryan

246

00:10:19,009 --> 00:10:16,920

Sprague's question there for us and I

247

00:10:21,889 --> 00:10:19,019

know Ryan has written recently about the

248

00:10:22,970 --> 00:10:21,899

case a fantastic article so if you don't

249

00:10:24,889 --> 00:10:22,980

mind Frank would you be able to just

250

00:10:26,269 --> 00:10:24,899

give us a quick overview of the case and

251

00:10:29,269 --> 00:10:26,279

what it involved because I believe it

252

00:10:30,530 --> 00:10:29,279

involved two specific incidents within

253

00:10:34,430 --> 00:10:30,540

that one

254

00:10:37,550 --> 00:10:34,440

yeah sure it was uh 1976 uh it was um

255

00:10:39,530 --> 00:10:37,560

basically north of um of Tehran which is

256

00:10:41,570 --> 00:10:39,540

the capital of Tehran uh people have to

257

00:10:42,710 --> 00:10:41,580

say I understand that um you know in

258

00:10:44,389 --> 00:10:42,720

that time

259

00:10:47,630 --> 00:10:44,399

um we're talking about the uh Imperial

260

00:10:49,730 --> 00:10:47,640

Iranian Air Force and that Iran was a

261

00:10:52,910 --> 00:10:49,740

major Ally of the United States and NATO

262

00:10:55,130 --> 00:10:52,920

okay and it was a major major recipient

263

00:10:57,829 --> 00:10:55,140

of uh you know the latest American

264

00:11:00,290 --> 00:10:57,839

Technology uh and there were two

265

00:11:02,930 --> 00:11:00,300

interceptors which were launched uh in

266

00:11:04,970 --> 00:11:02,940

relation to this UAP both of them were

267

00:11:06,470 --> 00:11:04,980

F4 Phantoms uh they were the latest

268

00:11:08,210 --> 00:11:06,480

therefore Phantoms that the Americans

269

00:11:10,430 --> 00:11:08,220

had which they're given to the Iranians

270

00:11:13,670 --> 00:11:10,440

and they had the latest uh Sidewinder

271

00:11:16,370 --> 00:11:13,680

missiles the the first

272

00:11:18,889 --> 00:11:16,380

um the first encounter uh the pilot took

273

00:11:20,210 --> 00:11:18,899

off he saw the object

274

00:11:21,650 --> 00:11:20,220

um but he returned to base because

275

00:11:23,810 --> 00:11:21,660

basically

276

00:11:25,850 --> 00:11:23,820

um his uh his Communications were shut

277

00:11:28,610 --> 00:11:25,860

down and his navigation systems were

278

00:11:30,530 --> 00:11:28,620

shut down uh the second pilot uh took

279

00:11:33,050 --> 00:11:30,540

off with his backseater and it was

280

00:11:35,269 --> 00:11:33,060

absolutely terrifying for them uh they

281

00:11:36,970 --> 00:11:35,279

confronted the object

282

00:11:40,970 --> 00:11:36,980

um the pilot

283

00:11:43,670 --> 00:11:40,980

saw a bright orb detached from the major

284

00:11:44,990 --> 00:11:43,680

object and fly towards them he thought

285

00:11:47,569 --> 00:11:45,000

that it was

286

00:11:50,210 --> 00:11:47,579

um a an air-to-air missile

287

00:11:52,430 --> 00:11:50,220

um and he went to his own weapons and he

288

00:11:55,250 --> 00:11:52,440

tried to select a missile to Fire and

289

00:11:57,590 --> 00:11:55,260

his weapons panel went off and also his

290

00:11:59,810 --> 00:11:57,600

uh his intercom went off so he had to

291

00:12:02,090 --> 00:11:59,820

scream at his back seater and also his

292

00:12:05,389 --> 00:12:02,100

UHF Communications back to base went off

293

00:12:07,370 --> 00:12:05,399

so then he turned uh very sharply away

294

00:12:08,690 --> 00:12:07,380

from this object that was streaking

295

00:12:11,810 --> 00:12:08,700

towards him because he thought it was a

296

00:12:14,569 --> 00:12:11,820

missile and then he returned to base

297

00:12:17,090 --> 00:12:14,579

and then uh when he was on the ground

298

00:12:19,069 --> 00:12:17,100

um he was subjected to uh major tests

299

00:12:21,110 --> 00:12:19,079

and the shore of Iran actually

300

00:12:23,509 --> 00:12:21,120

approached him and said uh what do you

301

00:12:24,829 --> 00:12:23,519

think um is the you know who is the

302

00:12:27,470 --> 00:12:24,839

intelligence or what is the technology

303

00:12:30,230 --> 00:12:27,480

behind uh you know uh you know this kind

304

00:12:32,150 --> 00:12:30,240

of craft and uh Jafari who was a pilot

305

00:12:34,250 --> 00:12:32,160

he said well I think it's something from

306

00:12:35,650 --> 00:12:34,260

Beyond this world because if anybody on

307

00:12:38,449 --> 00:12:35,660

this Earth had that kind of Technology

308

00:12:40,009 --> 00:12:38,459

uh then uh you know they would rule they

309

00:12:42,530 --> 00:12:40,019

would rule the Earth

310

00:12:44,269 --> 00:12:42,540

yeah it's an absolutely fascinating case

311

00:12:45,590 --> 00:12:44,279

and yeah I'm just gonna I'm just going

312

00:12:47,269 --> 00:12:45,600

to add as well also there was a there

313

00:12:49,610 --> 00:12:47,279

was an American team uh because there

314

00:12:52,129 --> 00:12:49,620

was an American uh uh team that was

315

00:12:53,930 --> 00:12:52,139

training the the Iranians and there was

316

00:12:55,970 --> 00:12:53,940

a colonel on the ground and he actually

317

00:12:57,530 --> 00:12:55,980

said to Jafari he goes oh actually it's

318

00:12:58,910 --> 00:12:57,540

very good that you didn't far upon them

319

00:13:02,449 --> 00:12:58,920

because it could have been a lot worse

320

00:13:05,210 --> 00:13:02,459

and then that same Colonel uh sent a uh

321

00:13:07,730 --> 00:13:05,220

uh sent a signal uh via defense

322

00:13:10,610 --> 00:13:07,740

intelligence agency which reached uh all

323

00:13:14,389 --> 00:13:10,620

of the Joint Chiefs of Staff and also um

324

00:13:17,210 --> 00:13:14,399

uh the uh uh the White House and uh then

325

00:13:19,069 --> 00:13:17,220

there was a follow-up by another an Air

326

00:13:22,310 --> 00:13:19,079

Force intelligence officer who said this

327

00:13:24,230 --> 00:13:22,320

is the best example of of a UAP

328

00:13:25,850 --> 00:13:24,240

wow that's amazing and you mentioned

329

00:13:27,949 --> 00:13:25,860

that the Shah of Iran and we know that

330

00:13:30,470 --> 00:13:27,959

he has had an interest in UFOs and

331

00:13:32,509 --> 00:13:30,480

actually came out as an experience to

332

00:13:34,250 --> 00:13:32,519

himself which I believe is I mean you

333

00:13:35,449 --> 00:13:34,260

you posted something on Twitter the

334

00:13:37,129 --> 00:13:35,459

other day and that's the first I'd heard

335

00:13:38,210 --> 00:13:37,139

of that so can you tell us a little bit

336

00:13:40,670 --> 00:13:38,220

about that

337

00:13:43,370 --> 00:13:40,680

yeah well sure I was um I was looking

338

00:13:45,650 --> 00:13:43,380

for um I was looking for Biden's UH 60

339

00:13:47,389 --> 00:13:45,660

Minutes talk on uh and I wanted to hear

340

00:13:52,009 --> 00:13:47,399

about him talking about um you know

341

00:13:53,690 --> 00:13:52,019

Ukraine and uh and um and Taiwan and so

342

00:13:55,670 --> 00:13:53,700

I watched that and then it had like uh

343

00:13:58,129 --> 00:13:55,680

then on on YouTube it showed me like you

344

00:14:02,329 --> 00:13:58,139

know old uh 60 Minutes talks and one of

345

00:14:06,410 --> 00:14:02,339

them was about the 1973 uh uh you know

346

00:14:08,690 --> 00:14:06,420

um oil crisis so I clicked on that and

347

00:14:10,550 --> 00:14:08,700

the Shah of Iran came up talking in 1973

348

00:14:13,430 --> 00:14:10,560

and then he's talking about being an

349

00:14:15,650 --> 00:14:13,440

experencer and the actual the the

350

00:14:16,910 --> 00:14:15,660

interviewer actually says to him oh but

351
00:14:18,889 --> 00:14:16,920
you know um you know you're the shiver

352
00:14:20,569 --> 00:14:18,899
on but you've had like experiences and

353
00:14:22,790 --> 00:14:20,579
then and then the show everyone starts

354
00:14:24,710 --> 00:14:22,800
talking about you know he had dreams and

355
00:14:27,050 --> 00:14:24,720
then he started having visions

356
00:14:28,370 --> 00:14:27,060
about his future and then that made me

357
00:14:31,129 --> 00:14:28,380
think well actually this is actually

358
00:14:34,069 --> 00:14:31,139
really incredible and that's why he

359
00:14:36,050 --> 00:14:34,079
actually had a lifelong interest in UAP

360
00:14:38,389 --> 00:14:36,060
that's incredible that's absolutely

361
00:14:40,550 --> 00:14:38,399
amazing do you think I mean there seems

362
00:14:42,889 --> 00:14:40,560
to be a lot of obviously cases involving

363
00:14:45,230 --> 00:14:42,899

aircraft and military aircraft in

364

00:14:46,790 --> 00:14:45,240

particular going back decades do you

365

00:14:49,670 --> 00:14:46,800

ever see any kind of pattern in any of

366

00:14:51,290 --> 00:14:49,680

those cases at all

367

00:14:52,850 --> 00:14:51,300

in terms of what

368

00:14:55,250 --> 00:14:52,860

well I mean like there's weapons

369

00:14:57,410 --> 00:14:55,260

shutdowns was the inability to to fire

370

00:14:59,990 --> 00:14:57,420

up on these things do they always see

371

00:15:04,310 --> 00:15:00,000

them as a threat and is it generally are

372

00:15:06,470 --> 00:15:04,320

they seen over sensitive airspace

373

00:15:08,449 --> 00:15:06,480

well I'd say um

374

00:15:12,230 --> 00:15:08,459

the

375

00:15:14,629 --> 00:15:12,240

studies

376

00:15:17,629 --> 00:15:14,639

um for those who didn't go to their

377

00:15:19,310 --> 00:15:17,639

uh their Summit in June

378

00:15:21,230 --> 00:15:19,320

um there's some very incredible work

379

00:15:26,530 --> 00:15:21,240

that's being done

380

00:15:30,949 --> 00:15:26,540

um on exactly on uh UAP and nukes from

381

00:15:34,370 --> 00:15:30,959

1994 from 1945 onwards

382

00:15:36,470 --> 00:15:34,380

um in terms of the interest of UAP and

383

00:15:40,730 --> 00:15:36,480

I've actually correlated it uh

384

00:15:43,129 --> 00:15:40,740

statistically in terms of interest in um

385

00:15:46,189 --> 00:15:43,139

uh in uh

386

00:15:50,689 --> 00:15:46,199

in nuclear bases

387

00:15:52,310 --> 00:15:50,699

in terms of uh nuclear missile silos and

388

00:15:54,590 --> 00:15:52,320

also in terms of

389

00:15:56,990 --> 00:15:54,600

um you know initially where you know the

390

00:15:59,689 --> 00:15:57,000

nukes are being produced

391

00:16:01,129 --> 00:15:59,699

and it's very it's very very intelligent

392

00:16:03,769 --> 00:16:01,139

there's no doubt in my mind that there's

393

00:16:05,870 --> 00:16:03,779

a high interest by by UAP in every

394

00:16:09,290 --> 00:16:05,880

aspect in every

395

00:16:12,949 --> 00:16:09,300

every level of uh you know the the the

396

00:16:15,230 --> 00:16:12,959

human nuclear phase from uh you know uh

397

00:16:16,610 --> 00:16:15,240

designing of a nuclear weapon to

398

00:16:18,769 --> 00:16:16,620

production of a nuclear weapon to

399

00:16:21,050 --> 00:16:18,779

deployment of a nuclear weapon

400

00:16:22,730 --> 00:16:21,060

and so that includes also about uh

401
00:16:25,009 --> 00:16:22,740
warships and anything with sort of new

402
00:16:27,230 --> 00:16:25,019
nuclear capabilities then and

403
00:16:28,550 --> 00:16:27,240
the nuclear reactor yes

404
00:16:31,189 --> 00:16:28,560
that leads me and I've got a question

405
00:16:32,210 --> 00:16:31,199
here about the nuclear aspects from Dave

406
00:16:33,889 --> 00:16:32,220
Mills

407
00:16:37,069 --> 00:16:33,899
with their long-standing interest in

408
00:16:40,009 --> 00:16:37,079
nuclear do you think they would allow a

409
00:16:45,650 --> 00:16:43,129
uh well they did in 1945 uh you know the

410
00:16:47,629 --> 00:16:45,660
the Japanese got wiped out so

411
00:16:48,829 --> 00:16:47,639
um a lot of people asked me this and a

412
00:16:50,810 --> 00:16:48,839
lot of people say oh you know like

413
00:16:52,430 --> 00:16:50,820

they're here to help us well they've

414

00:16:55,129 --> 00:16:52,440

been something like um

415

00:17:00,110 --> 00:16:55,139

I think it's like uh

416

00:17:02,210 --> 00:17:00,120

well hundreds of nuclear tests uh above

417

00:17:05,750 --> 00:17:02,220

ground or atmospheric above ground

418

00:17:08,689 --> 00:17:05,760

underground and on the sea since 1945 so

419

00:17:11,270 --> 00:17:08,699

if they were here to help us then you

420

00:17:13,069 --> 00:17:11,280

know why haven't they done it by now

421

00:17:14,270 --> 00:17:13,079

it's a good point that's absolutely a

422

00:17:16,730 --> 00:17:14,280

good point

423

00:17:18,289 --> 00:17:16,740

now obviously I mean I just brought up

424

00:17:20,090 --> 00:17:18,299

there like the warships and things

425

00:17:22,069 --> 00:17:20,100

nuclear powered which leaves me just I

426

00:17:24,169 --> 00:17:22,079

just I can't not speak about the Tic Tac

427

00:17:26,270 --> 00:17:24,179

with you because it just seems that that

428

00:17:28,069 --> 00:17:26,280

area whether it be military or or

429

00:17:30,590 --> 00:17:28,079

anything in General off of Catalina

430

00:17:33,110 --> 00:17:30,600

Island in the channel as he always seems

431

00:17:35,570 --> 00:17:33,120

to have been a hotbed and you know

432

00:17:37,250 --> 00:17:35,580

nuclear or not there's you know magnetic

433

00:17:39,409 --> 00:17:37,260

anomalies in there so do you think what

434

00:17:41,029 --> 00:17:39,419

what is it do you think that attracts

435

00:17:42,950 --> 00:17:41,039

these things to that area and have done

436

00:17:44,630 --> 00:17:42,960

for so long

437

00:17:46,430 --> 00:17:44,640

well I talked to Kevin Day about this

438

00:17:49,130 --> 00:17:46,440

and um

439

00:17:51,710 --> 00:17:49,140

I did a presentation that people can

440

00:17:53,930 --> 00:17:51,720

look at it's uh under Apec uh Frank

441

00:17:57,230 --> 00:17:53,940

Milburn Catalina sightings

442

00:17:59,090 --> 00:17:57,240

and I talked to Kevin Day about this uh

443

00:18:02,570 --> 00:17:59,100

Kevin Day being one of the the witnesses

444

00:18:05,690 --> 00:18:02,580

to uh to the Nimitz and and

445

00:18:08,150 --> 00:18:05,700

and basically a circus to air expert

446

00:18:10,190 --> 00:18:08,160

uh there's nothing uh that that bloke

447

00:18:14,630 --> 00:18:10,200

doesn't know about uh you know uh

448

00:18:16,789 --> 00:18:14,640

surface-to-air uh combat right and but

449

00:18:18,770 --> 00:18:16,799

he also told me he said uh that whole

450

00:18:20,810 --> 00:18:18,780

area and I asked him I said well how

451
00:18:24,710 --> 00:18:20,820
easy would be to sneak a submarine in

452
00:18:27,909 --> 00:18:24,720
and he said uh he said the U.S Navy owns

453
00:18:30,890 --> 00:18:27,919
that whole Coast like air

454
00:18:34,610 --> 00:18:30,900
surface and subsurface

455
00:18:36,289 --> 00:18:34,620
so I think there are definitely uh you

456
00:18:38,210 --> 00:18:36,299
know anomalies in that area I mean the

457
00:18:41,570 --> 00:18:38,220
area is so deep

458
00:18:42,230 --> 00:18:41,580
but I also think um that

459
00:18:45,230 --> 00:18:42,240
um

460
00:18:47,330 --> 00:18:45,240
it's absolutely real what the US Navy

461
00:18:49,190 --> 00:18:47,340
have been have been seeing

462
00:18:51,169 --> 00:18:49,200
and I don't think there's any kind of

463
00:18:53,270 --> 00:18:51,179

doubt about that

464

00:18:55,310 --> 00:18:53,280

yeah so I mean what are your thoughts

465

00:18:58,310 --> 00:18:55,320

then if we move forward to the 2019

466

00:19:00,289 --> 00:18:58,320

sightings you know the Swarms off of the

467

00:19:02,750 --> 00:19:00,299

coast you know with multiple Navy

468

00:19:04,730 --> 00:19:02,760

warships you know and it's been

469

00:19:06,590 --> 00:19:04,740

the Drone thing has been thrown in there

470

00:19:08,570 --> 00:19:06,600

so many times now and we've seen these

471

00:19:10,070 --> 00:19:08,580

clips from Jeremy Corbell we've we've

472

00:19:11,750 --> 00:19:10,080

seen the recent footage that's come out

473

00:19:13,730 --> 00:19:11,760

I think the war zone might have brought

474

00:19:15,169 --> 00:19:13,740

something out so I mean personally I'm

475

00:19:17,029 --> 00:19:15,179

quite a loss with it I don't know which

476

00:19:18,230 --> 00:19:17,039

way to look which way to think so I'd

477

00:19:19,310 --> 00:19:18,240

love to know what you think of that

478

00:19:21,230 --> 00:19:19,320

currently

479

00:19:23,090 --> 00:19:21,240

well I'll tell you um I'll tell you

480

00:19:25,010 --> 00:19:23,100

Vinnie like I wasn't there I didn't see

481

00:19:27,590 --> 00:19:25,020

them with my own eyes and I haven't

482

00:19:29,990 --> 00:19:27,600

actually had access access to you know

483

00:19:31,730 --> 00:19:30,000

the classified intelligence right so you

484

00:19:34,730 --> 00:19:31,740

know all I can do is speculate

485

00:19:34,740 --> 00:19:37,669

um sorry

486

00:19:42,710 --> 00:19:40,549

what are your thoughts on sort of radar

487

00:19:43,970 --> 00:19:42,720

spoofing Technologies Holograms and that

488

00:19:46,669 --> 00:19:43,980

kind of thing do you think that that

489

00:19:49,750 --> 00:19:46,679

could possibly a serious Contender or

490

00:19:52,610 --> 00:19:49,760

possibility for for these incidents

491

00:19:55,190 --> 00:19:52,620

uh no I don't because again I spoke to

492

00:19:56,390 --> 00:19:55,200

Kevin day and also don't forget uh you

493

00:19:58,310 --> 00:19:56,400

know when I was in Military Intelligence

494

00:20:01,250 --> 00:19:58,320

I work with the Royal Air Force I used

495

00:20:03,710 --> 00:20:01,260

to fly on a wax okay so I was privy to

496

00:20:05,750 --> 00:20:03,720

uh you know be on top secret uh

497

00:20:07,490 --> 00:20:05,760

intelligence and I knew what kind of

498

00:20:10,669 --> 00:20:07,500

spoofing technology we had okay that was

499

00:20:12,770 --> 00:20:10,679

like you know the mid 90s uh but um I

500

00:20:14,270 --> 00:20:12,780

know for a fact that uh you know when

501
00:20:16,250 --> 00:20:14,280
you're engaging in like you know a large

502
00:20:19,250 --> 00:20:16,260
NATO exercise or you know a national

503
00:20:23,090 --> 00:20:19,260
exercise you do not

504
00:20:26,270 --> 00:20:23,100
um you do not inject something else from

505
00:20:29,150 --> 00:20:26,280
from outside that exercise into the

506
00:20:31,010 --> 00:20:29,160
exercise because uh especially when you

507
00:20:33,770 --> 00:20:31,020
know in the case of the Nimitz in 2004

508
00:20:36,230 --> 00:20:33,780
uh when they're preparing for war uh you

509
00:20:38,390 --> 00:20:36,240
do not do that because it would cause uh

510
00:20:40,010 --> 00:20:38,400
it would cause basically well that

511
00:20:41,090 --> 00:20:40,020
that's when I spoke to Kevin day and he

512
00:20:43,850 --> 00:20:41,100
said well

513
00:20:45,710 --> 00:20:43,860

um the reason why uh you know the

514

00:20:48,830 --> 00:20:45,720

officer on the deck listen to me is

515

00:20:51,169 --> 00:20:48,840

because he said I said that this was uh

516

00:20:53,330 --> 00:20:51,179

you know an anti-air threat that there

517

00:20:55,610 --> 00:20:53,340

was a threat of you know these objects

518

00:20:57,710 --> 00:20:55,620

in the air that could cause you know a

519

00:21:00,169 --> 00:20:57,720

problem from our for our aircraft and

520

00:21:02,090 --> 00:21:00,179

that's precisely why uh you wouldn't do

521

00:21:04,610 --> 00:21:02,100

you wouldn't use spoofing or you

522

00:21:06,289 --> 00:21:04,620

wouldn't use you know some kind of a uh

523

00:21:07,970 --> 00:21:06,299

you know uh you know exotic technology

524

00:21:08,990 --> 00:21:07,980

you would not inject that into an

525

00:21:11,630 --> 00:21:09,000

exercise

526

00:21:13,130 --> 00:21:11,640

no absolutely I mean these these cases

527

00:21:14,630 --> 00:21:13,140

specifically the Nimitz you know is

528

00:21:16,970 --> 00:21:14,640

really thrown

529

00:21:18,350 --> 00:21:16,980

this subject into you know the eyes of

530

00:21:20,029 --> 00:21:18,360

the Congress and people like that and

531

00:21:22,130 --> 00:21:20,039

then you know last year we got the

532

00:21:26,630 --> 00:21:22,140

preliminary assessment you know which

533

00:21:29,210 --> 00:21:26,640

saw the uapf uh then morph into newer

534

00:21:30,409 --> 00:21:29,220

offices with new acronyms and that so

535

00:21:32,570 --> 00:21:30,419

I'd love to know your thoughts on where

536

00:21:34,610 --> 00:21:32,580

we stand right now with with the current

537

00:21:37,850 --> 00:21:34,620

play because you know we've got this new

538

00:21:39,770 --> 00:21:37,860

Arrow office but we've heard even today

539

00:21:40,430 --> 00:21:39,780

that

540

00:21:42,409 --> 00:21:40,440

um

541

00:21:44,390 --> 00:21:42,419

John Greenwald of The Black Vault put in

542

00:21:46,850 --> 00:21:44,400

a foia request for more information on

543

00:21:49,549 --> 00:21:46,860

the last iteration of aoi MSG and

544

00:21:51,049 --> 00:21:49,559

they're just not releasing anything at

545

00:21:52,669 --> 00:21:51,059

all so it almost feels like we're taking

546

00:21:54,230 --> 00:21:52,679

a step back again but I'd love to know

547

00:21:56,870 --> 00:21:54,240

what you think

548

00:21:59,450 --> 00:21:56,880

well I mean now it's the um now it's the

549

00:22:02,870 --> 00:21:59,460

unidentified Aerospace on the sea

550

00:22:05,409 --> 00:22:02,880

phenomena uh task force group right I

551
00:22:08,090 --> 00:22:05,419
believe so you know it's changed again

552
00:22:09,529 --> 00:22:08,100
and you know for the best because that

553
00:22:11,090 --> 00:22:09,539
means that uh you know Congress has

554
00:22:13,610 --> 00:22:11,100
taken charge

555
00:22:15,590 --> 00:22:13,620
um but I don't think um that we in the

556
00:22:17,390 --> 00:22:15,600
public are going to see uh you know

557
00:22:19,610 --> 00:22:17,400
anything like fantastic

558
00:22:22,010 --> 00:22:19,620
because you know all this is designed

559
00:22:25,730 --> 00:22:22,020
basically to bring to the attention of

560
00:22:28,970 --> 00:22:25,740
Congress uh classified uh you know

561
00:22:30,230 --> 00:22:28,980
classified uh incidents which are

562
00:22:32,090 --> 00:22:30,240
happening and which they can never

563
00:22:34,010 --> 00:22:32,100

release the public

564

00:22:35,330 --> 00:22:34,020

but I mean we've heard recently about

565

00:22:36,950 --> 00:22:35,340

the Navy as saying that they're not

566

00:22:38,029 --> 00:22:36,960

going to release any more videos and

567

00:22:39,350 --> 00:22:38,039

then

568

00:22:41,390 --> 00:22:39,360

people are saying that it's over

569

00:22:43,549 --> 00:22:41,400

classification and if they wanted to

570

00:22:46,490 --> 00:22:43,559

they could sanitize any images and

571

00:22:48,230 --> 00:22:46,500

videos to not give away you know data on

572

00:22:49,669 --> 00:22:48,240

the sensor systems themselves do you

573

00:22:51,529 --> 00:22:49,679

agree with that

574

00:22:52,370 --> 00:22:51,539

well I spoke I asked Chris Mellon about

575

00:22:55,850 --> 00:22:52,380

this

576

00:22:58,010 --> 00:22:55,860

uh last week and um and I said to him

577

00:23:00,350 --> 00:22:58,020

well you know one person told me I said

578

00:23:02,630 --> 00:23:00,360

I said look Chris one person told me

579

00:23:04,549 --> 00:23:02,640

um the U.S Navy don't want to release

580

00:23:07,250 --> 00:23:04,559

this information because

581

00:23:09,890 --> 00:23:07,260

um the videos are like so game changing

582

00:23:11,810 --> 00:23:09,900

and so indisputably like you know alien

583

00:23:14,210 --> 00:23:11,820

that it would be like game over for

584

00:23:15,649 --> 00:23:14,220

anybody uh you know in in the kind of

585

00:23:18,110 --> 00:23:15,659

background who's trying to like keep the

586

00:23:19,430 --> 00:23:18,120

copper on EOP secrecy and Chris melon

587

00:23:21,230 --> 00:23:19,440

came back and he said to me and and

588

00:23:23,090 --> 00:23:21,240

don't forget he's like an advocate for

589

00:23:25,070 --> 00:23:23,100

you know for transparency at least for

590

00:23:26,870 --> 00:23:25,080

Congress and he came back and he said no

591

00:23:28,070 --> 00:23:26,880

that's not the case at all he said I

592

00:23:29,450 --> 00:23:28,080

know the person who did the

593

00:23:30,649 --> 00:23:29,460

classification and he said that's not

594

00:23:33,409 --> 00:23:30,659

the reason at all he goes it's for

595

00:23:35,350 --> 00:23:33,419

National national security reasons

596

00:23:38,450 --> 00:23:35,360

wow okay

597

00:23:41,149 --> 00:23:38,460

interesting that's very and I trust them

598

00:23:43,549 --> 00:23:41,159

I mean you know the guys never bushes me

599

00:23:45,830 --> 00:23:43,559

all right I asked him questions I asked

600

00:23:49,190 --> 00:23:45,840

him questions uh sometimes he just

601
00:23:51,350 --> 00:23:49,200
blanks me he doesn't answer and I just

602
00:23:53,090 --> 00:23:51,360
take that well okay that means is it yes

603
00:23:54,830 --> 00:23:53,100
or no I just don't read anything into it

604
00:23:56,750 --> 00:23:54,840
but he either answered me in the yes or

605
00:23:58,669 --> 00:23:56,760
he answered me in the no and and that's

606
00:24:00,830 --> 00:23:58,679
what that's what I say and I always ask

607
00:24:02,690 --> 00:24:00,840
him you know can I can I quote you or

608
00:24:05,149 --> 00:24:02,700
can I not quote you

609
00:24:07,610 --> 00:24:05,159
that's fair enough appreciate the answer

610
00:24:08,930 --> 00:24:07,620
thank you so I guess you know it would

611
00:24:10,970 --> 00:24:08,940
be good for people to temper their

612
00:24:13,430 --> 00:24:10,980
expectations going forward with relation

613
00:24:15,350 --> 00:24:13,440

to any new information coming out from

614

00:24:17,510 --> 00:24:15,360

the government side of things for now

615

00:24:20,270 --> 00:24:17,520

anyway so obviously we've got a lot of

616

00:24:22,029 --> 00:24:20,280

other entities the Galileo project uapx

617

00:24:25,070 --> 00:24:22,039

so many companies

618

00:24:27,409 --> 00:24:25,080

entities coming into this subject do you

619

00:24:28,850 --> 00:24:27,419

think we'll see much from them do you

620

00:24:30,529 --> 00:24:28,860

hold much weight in the in the work

621

00:24:32,690 --> 00:24:30,539

they're doing

622

00:24:35,750 --> 00:24:32,700

uh yeah I do very much from the Galileo

623

00:24:38,450 --> 00:24:35,760

project uh but as a former British

624

00:24:40,490 --> 00:24:38,460

Military Intelligence officer uh I would

625

00:24:43,490 --> 00:24:40,500

be looking much more to

626

00:24:46,850 --> 00:24:43,500

um you know uh the uh the possibility

627

00:24:50,570 --> 00:24:46,860

that uh the UK has affected crash

628

00:24:51,950 --> 00:24:50,580

retrievals at least one crash retrieval

629

00:24:53,630 --> 00:24:51,960

the UK

630

00:24:56,330 --> 00:24:53,640

yeah

631

00:24:58,909 --> 00:24:56,340

okay that's new to me I mean I've heard

632

00:25:02,149 --> 00:24:58,919

things in the past about it but are you

633

00:25:07,490 --> 00:25:02,159

able to tell us anymore

634

00:25:11,510 --> 00:25:10,130

a bloke that I trust very much

635

00:25:14,090 --> 00:25:11,520

um

636

00:25:16,549 --> 00:25:14,100

and when I left the military

637

00:25:18,649 --> 00:25:16,559

um we used to hang out a lot together

638

00:25:22,909 --> 00:25:18,659

and um

639

00:25:25,190 --> 00:25:22,919

that he was a head of a very

640

00:25:31,850 --> 00:25:28,490

a very secretive UK unit okay that uh

641

00:25:33,350 --> 00:25:31,860

conducted the kind of missions that

642

00:25:35,450 --> 00:25:33,360

um

643

00:25:37,549 --> 00:25:35,460

you need to have done overseas but you

644

00:25:38,690 --> 00:25:37,559

don't want to have acknowledged overseas

645

00:25:42,230 --> 00:25:38,700

okay

646

00:25:46,490 --> 00:25:42,240

and he told me that um he had been head

647

00:25:47,649 --> 00:25:46,500

of a Christ retrieval dream uh that uh

648

00:25:53,630 --> 00:25:47,659

um

649

00:25:56,810 --> 00:25:53,640

secured a site in uh in Northern UK

650

00:26:00,230 --> 00:25:56,820

and when they arrive at the site uh his

651
00:26:01,250 --> 00:26:00,240
team they discovered evidence that there

652
00:26:02,470 --> 00:26:01,260
were

653
00:26:05,630 --> 00:26:02,480
um you know

654
00:26:09,289 --> 00:26:05,640
biological entities that were occupants

655
00:26:11,649 --> 00:26:09,299
of The Craft and that they had basically

656
00:26:14,029 --> 00:26:11,659
um uh you know

657
00:26:17,269 --> 00:26:14,039
effectively done you know escape and

658
00:26:20,450 --> 00:26:17,279
evasion and then he said to me then it

659
00:26:22,730 --> 00:26:20,460
became a hunt uh uh to find those

660
00:26:25,730 --> 00:26:22,740
biological entities

661
00:26:29,330 --> 00:26:25,740
wow okay that's thrown me completely

662
00:26:31,190 --> 00:26:29,340
sideways and yeah I appreciate that a

663
00:26:32,450 --> 00:26:31,200

lot

664

00:26:34,909 --> 00:26:32,460

that's making me think for a second

665

00:26:36,710 --> 00:26:34,919

sorry everyone it's making me think have

666

00:26:38,210 --> 00:26:36,720

I got enough information to go and do

667

00:26:41,269 --> 00:26:38,220

some digging or asking some questions

668

00:26:43,310 --> 00:26:41,279

because I'm just intrigued by that a lot

669

00:26:45,490 --> 00:26:43,320

I was going to ask you questions about

670

00:26:48,529 --> 00:26:45,500

you okay

671

00:26:50,570 --> 00:26:48,539

I genuinely appreciate it and that's I I

672

00:26:53,269 --> 00:26:50,580

didn't expect to get that that kind of

673

00:26:55,310 --> 00:26:53,279

answer from you so a little bit uh mind

674

00:26:57,110 --> 00:26:55,320

blown right now so so

675

00:27:00,590 --> 00:26:57,120

um yeah I'm not going to divulge um you

676
00:27:01,310 --> 00:27:00,600
know who when or where or why uh of

677
00:27:03,529 --> 00:27:01,320
course

678
00:27:06,169 --> 00:27:03,539
um no it's not just about um

679
00:27:07,490 --> 00:27:06,179
I've got to be very careful about uh you

680
00:27:09,110 --> 00:27:07,500
know the

681
00:27:10,190 --> 00:27:09,120
you know I signed the official Secrets

682
00:27:12,350 --> 00:27:10,200
act right so I've got to be very very

683
00:27:14,029 --> 00:27:12,360
careful but also it's much more about uh

684
00:27:16,370 --> 00:27:14,039
you know I'm not going to throw you know

685
00:27:18,529 --> 00:27:16,380
a mate of mine on the bus of course okay

686
00:27:20,149 --> 00:27:18,539
because uh you know uh when you're in

687
00:27:22,610 --> 00:27:20,159
the military when you're a paratrooper

688
00:27:26,149 --> 00:27:22,620

you know I work I was a paratrooper I

689

00:27:27,769 --> 00:27:26,159

work with SAS I work with SBS okay uh I

690

00:27:28,789 --> 00:27:27,779

work with you know Special Forces and it

691

00:27:30,710 --> 00:27:28,799

doesn't matter who you're working with

692

00:27:32,210 --> 00:27:30,720

it's like you don't throw uh your

693

00:27:34,190 --> 00:27:32,220

comrades under the bus

694

00:27:36,049 --> 00:27:34,200

yeah absolutely it's one thing I've

695

00:27:39,350 --> 00:27:36,059

learned in a very short time is that you

696

00:27:42,470 --> 00:27:39,360

protect your sources to the you know

697

00:27:44,210 --> 00:27:42,480

massively that's something I I do and so

698

00:27:45,529 --> 00:27:44,220

I I honestly I respect that so much well

699

00:27:47,570 --> 00:27:45,539

we've seen that I did that I mean with

700

00:27:49,010 --> 00:27:47,580

uh for example with Amy escorts right I

701
00:27:50,570 --> 00:27:49,020
mean um you know loads of people were

702
00:27:52,250 --> 00:27:50,580
pinging me where I got where I was

703
00:27:54,890 --> 00:27:52,260
getting my information from but it

704
00:27:56,870 --> 00:27:54,900
wasn't until uh you know her demise that

705
00:27:59,210 --> 00:27:56,880
uh you know I revealed that she was one

706
00:28:02,390 --> 00:27:59,220
of my sources uh Ross Cole thought even

707
00:28:04,430 --> 00:28:02,400
he didn't know he kind of suspected

708
00:28:06,289 --> 00:28:04,440
um but it wasn't until she died that he

709
00:28:07,789 --> 00:28:06,299
realized and I said to him yeah but

710
00:28:09,710 --> 00:28:07,799
because uh you know I'm a Former

711
00:28:13,070 --> 00:28:09,720
Intelligence officer okay I've I was

712
00:28:15,470 --> 00:28:13,080
trained to identify people who who have

713
00:28:19,130 --> 00:28:15,480

access to specific information and I was

714

00:28:20,510 --> 00:28:19,140

trained uh how to uh you know persuade

715

00:28:23,029 --> 00:28:20,520

them to give me access to that

716

00:28:24,649 --> 00:28:23,039

information and then how to manage that

717

00:28:26,870 --> 00:28:24,659

relationship right that's what you do

718

00:28:29,570 --> 00:28:26,880

it's called Agent handling

719

00:28:32,149 --> 00:28:29,580

yeah yeah absolutely and and a big part

720

00:28:34,190 --> 00:28:32,159

is you never never ever shaft your

721

00:28:35,810 --> 00:28:34,200

source

722

00:28:37,490 --> 00:28:35,820

well I mean it's I'll be you know if you

723

00:28:38,750 --> 00:28:37,500

burn one you might as well burn the rest

724

00:28:40,810 --> 00:28:38,760

because people aren't going to trust you

725

00:28:43,070 --> 00:28:40,820

ever again

726

00:28:44,149 --> 00:28:43,080

exactly and that's why you know for

727

00:28:45,470 --> 00:28:44,159

example you know I was in Northern

728

00:28:47,510 --> 00:28:45,480

Ireland that's for example why you know

729

00:28:49,850 --> 00:28:47,520

the British Northern Ireland were so

730

00:28:51,409 --> 00:28:49,860

successful because uh they offered for

731

00:28:52,970 --> 00:28:51,419

example uh you know members of the IRA

732

00:28:55,070 --> 00:28:52,980

who were dissatisfied they said okay

733

00:28:58,190 --> 00:28:55,080

will you grasp up other members of the

734

00:29:00,289 --> 00:28:58,200

IRA and you know we'll send you to uh

735

00:29:02,210 --> 00:29:00,299

Belgium or Germany and you'll have like

736

00:29:04,669 --> 00:29:02,220

a new life and you'll have like money to

737

00:29:07,909 --> 00:29:04,679

set yourself up and like a new job uh

738

00:29:10,070 --> 00:29:07,919

and and we won't grasp you up because if

739

00:29:11,269 --> 00:29:10,080

you [h__h] your sources nobody will come

740

00:29:14,810 --> 00:29:11,279

back to you

741

00:29:17,029 --> 00:29:14,820

exactly that's it so now I really do I I

742

00:29:18,409 --> 00:29:17,039

appreciate that a lot

743

00:29:20,529 --> 00:29:18,419

um and one thing I did want to talk to

744

00:29:23,750 --> 00:29:20,539

you about with regards to the UK is that

745

00:29:25,610 --> 00:29:23,760

after sort of project condyn you know we

746

00:29:27,710 --> 00:29:25,620

didn't really hear much from the UK we

747

00:29:29,510 --> 00:29:27,720

had the the National Archives releases

748

00:29:32,810 --> 00:29:29,520

over you know three years towards the

749

00:29:34,970 --> 00:29:32,820

the sort of 200789 kind of period but

750

00:29:37,430 --> 00:29:34,980

seems to have gone completely dark and

751
00:29:38,649 --> 00:29:37,440
I've spoken to people who have been

752
00:29:41,090 --> 00:29:38,659
previous

753
00:29:43,909 --> 00:29:41,100
members of The Mod

754
00:29:46,010 --> 00:29:43,919
Etc who aren't so sure that they've

755
00:29:47,810 --> 00:29:46,020
stopped looking into this they've

756
00:29:50,330 --> 00:29:47,820
probably just buried it deeper in some

757
00:29:51,769 --> 00:29:50,340
obscure Annex what do you think about

758
00:29:53,990 --> 00:29:51,779
that

759
00:29:55,909 --> 00:29:54,000
I don't know because um you know I left

760
00:29:57,950 --> 00:29:55,919
the military in 1998 right so I can't

761
00:30:00,950 --> 00:29:57,960
say for sure but um

762
00:30:02,930 --> 00:30:00,960
you'd be absolutely stupid and uh based

763
00:30:06,049 --> 00:30:02,940

on my knowledge of um of working with

764

00:30:08,930 --> 00:30:06,059

the RAF on you know High redness units

765

00:30:11,510 --> 00:30:08,940

you know flying in a-wax and seeing uh

766

00:30:13,310 --> 00:30:11,520

you know being in an a-wax and seeing

767

00:30:15,649 --> 00:30:13,320

you know like a Russian Bear aircraft

768

00:30:18,110 --> 00:30:15,659

you know approaching the UK air defense

769

00:30:20,690 --> 00:30:18,120

identification Zone and then seeing uh

770

00:30:22,730 --> 00:30:20,700

you know uh tornadoes

771

00:30:25,669 --> 00:30:22,740

um you know being uh you know sent to

772

00:30:29,450 --> 00:30:25,679

intercept them I would say uh

773

00:30:31,430 --> 00:30:29,460

of course uh you know UAP happenings are

774

00:30:32,750 --> 00:30:31,440

still you know are still going on and

775

00:30:35,630 --> 00:30:32,760

it's interesting if you look at uh

776

00:30:37,850 --> 00:30:35,640

project condyn it says that uh you know

777

00:30:40,250 --> 00:30:37,860

UAP would never be considered what would

778

00:30:44,149 --> 00:30:40,260

only be considered to be a threat to the

779

00:30:48,230 --> 00:30:44,159

UK if they were entering uh the UK air

780

00:30:51,730 --> 00:30:48,240

defense region with impunity uh in time

781

00:30:55,430 --> 00:30:51,740

of Crisis or War uh if they were

782

00:30:59,570 --> 00:30:55,440

entering the UK defense region and uh

783

00:31:01,850 --> 00:30:59,580

ground-based Radars and uh and uh and

784

00:31:04,250 --> 00:31:01,860

you know um you know fighters in the air

785

00:31:07,370 --> 00:31:04,260

one are unable to intercept them and

786

00:31:09,889 --> 00:31:07,380

then thirdly uh if UAP were able to

787

00:31:12,110 --> 00:31:09,899

enter the UK air defense region and uh

788

00:31:14,149 --> 00:31:12,120

and to scour Elin you know electronic

789

00:31:16,789 --> 00:31:14,159

intelligence signals signals

790

00:31:18,529 --> 00:31:16,799

intelligence yeah yep

791

00:31:20,330 --> 00:31:18,539

thing is

792

00:31:21,950 --> 00:31:20,340

wouldn't they be considered a Potential

793

00:31:24,889 --> 00:31:21,960

Threat even if they just entered into

794

00:31:27,830 --> 00:31:24,899

our airspace and we couldn't a identify

795

00:31:29,510 --> 00:31:27,840

them you know that's what doesn't make

796

00:31:31,789 --> 00:31:29,520

sense to me why does there have to be a

797

00:31:33,649 --> 00:31:31,799

specific time surely it's all the time

798

00:31:36,049 --> 00:31:33,659

you know if an unidentified aircraft

799

00:31:37,549 --> 00:31:36,059

comes into British airspace surely it's

800

00:31:38,690 --> 00:31:37,559

setting off alarm Bells left right and

801
00:31:40,130 --> 00:31:38,700
Center

802
00:31:41,750 --> 00:31:40,140
well that's the whole thing it does I

803
00:31:43,310 --> 00:31:41,760
mean if it's like an airliner and don't

804
00:31:45,409 --> 00:31:43,320
forget since um

805
00:31:48,470 --> 00:31:45,419
uh you know since

806
00:31:50,210 --> 00:31:48,480
um you know uh 911 especially you've got

807
00:31:52,930 --> 00:31:50,220
like uh you know you've got tornadoes

808
00:31:58,549 --> 00:31:52,940
you've got fighter aircraft in every

809
00:32:00,950 --> 00:31:58,559
NATO uh country uh on standby uh in case

810
00:32:03,470 --> 00:32:00,960
there is an airliner which has been

811
00:32:05,029 --> 00:32:03,480
taken over you know by Islamic crazies

812
00:32:06,529 --> 00:32:05,039
and they will shoot they will shoot it

813
00:32:10,610 --> 00:32:06,539

out the sky

814

00:32:11,810 --> 00:32:10,620

yeah absolutely right uh I'd love to

815

00:32:13,730 --> 00:32:11,820

move on to this question here which I

816

00:32:16,310 --> 00:32:13,740

thought was great from Linda Thompson uh

817

00:32:20,269 --> 00:32:16,320

hello Linda uh do you think King Charles

818

00:32:23,690 --> 00:32:20,279

now will be more open about UAP

819

00:32:26,570 --> 00:32:23,700

hi Linda and that's a beautiful question

820

00:32:29,450 --> 00:32:26,580

um I think that King Charles will be

821

00:32:32,210 --> 00:32:29,460

um I think that he has uh an intrinsic

822

00:32:34,130 --> 00:32:32,220

interest in that and be up and beyond

823

00:32:36,230 --> 00:32:34,140

that I think he'll be a fantastic King

824

00:32:39,409 --> 00:32:36,240

because he cares about the environment

825

00:32:41,930 --> 00:32:39,419

and he also cares deeply about uh you

826

00:32:44,389 --> 00:32:41,940

know disadvantaged people

827

00:32:45,950 --> 00:32:44,399

excellent that's really good to hear I

828

00:32:47,510 --> 00:32:45,960

think I agree I think you'll be a really

829

00:32:49,850 --> 00:32:47,520

good king

830

00:32:51,350 --> 00:32:49,860

um yeah well he's a paratrooper I was a

831

00:32:53,510 --> 00:32:51,360

paratrooper

832

00:32:54,710 --> 00:32:53,520

I swear loyal and the thing is for

833

00:32:56,149 --> 00:32:54,720

people don't understand right is that

834

00:32:58,389 --> 00:32:56,159

like people like me right I swore

835

00:33:02,690 --> 00:32:58,399

allegiance to the queen like twice yeah

836

00:33:05,049 --> 00:33:02,700

and uh my allegiance uh I'm not serving

837

00:33:07,909 --> 00:33:05,059

anymore but my allegiance transfers

838

00:33:11,330 --> 00:33:07,919

automatically to uh the king because it

839

00:33:13,730 --> 00:33:11,340

says I promise to uh I promise to serve

840

00:33:16,330 --> 00:33:13,740

her majesty the Queen Elizabeth and her

841

00:33:20,269 --> 00:33:16,340

heirs and successors so if she dies

842

00:33:22,909 --> 00:33:20,279

automatically in the military you're uh

843

00:33:25,009 --> 00:33:22,919

its transference of your allegiance to

844

00:33:27,230 --> 00:33:25,019

uh the air and successor in this case

845

00:33:30,110 --> 00:33:27,240

Prince Charles or King Charles

846

00:33:32,029 --> 00:33:30,120

wow okay I didn't know that that's

847

00:33:34,789 --> 00:33:32,039

really cool well Prince Charles's

848

00:33:35,870 --> 00:33:34,799

airborne and I will serve him I'm to

849

00:33:37,669 --> 00:33:35,880

death

850

00:33:40,370 --> 00:33:37,679

there we go

851

00:33:42,289 --> 00:33:40,380

I appreciate that man I appreciate all

852

00:33:44,029 --> 00:33:42,299

military people uh who have served in

853

00:33:46,009 --> 00:33:44,039

this country and anywhere in the world I

854

00:33:48,049 --> 00:33:46,019

think it's a to do like your duty for

855

00:33:49,850 --> 00:33:48,059

your country is uh you know something to

856

00:33:52,250 --> 00:33:49,860

be respected so

857

00:33:53,090 --> 00:33:52,260

I I just say on that it's like you're

858

00:33:54,289 --> 00:33:53,100

not just doing it for your country

859

00:33:57,289 --> 00:33:54,299

you're doing it for like you know your

860

00:34:00,590 --> 00:33:57,299

family I mean for example my family uh

861

00:34:02,210 --> 00:34:00,600

my dad was uh my dad was was raw Scott's

862

00:34:05,630 --> 00:34:02,220

Graves then he was Airborne then it was

863

00:34:10,430 --> 00:34:05,640

SAS uh my stepdad was uh raw Scott's

864

00:34:12,649 --> 00:34:10,440

Grace then paratrooper then SAS uh my

865

00:34:15,470 --> 00:34:12,659

godfather was coasting guards and then

866

00:34:17,810 --> 00:34:15,480

paratrooper and my other Godfather was

867

00:34:18,710 --> 00:34:17,820

you know sir Peter the billier right who

868

00:34:24,109 --> 00:34:18,720

um

869

00:34:27,470 --> 00:34:24,119

in the first Gulf War so you know I come

870

00:34:29,930 --> 00:34:27,480

from a long line of military soldiers

871

00:34:32,570 --> 00:34:29,940

and you know it's it's something that's

872

00:34:35,510 --> 00:34:32,580

imbued to you uh that is you know

873

00:34:39,790 --> 00:34:35,520

loyalty to uh the diff the difference

874

00:34:44,089 --> 00:34:39,800

between family regiment country

875

00:34:46,730 --> 00:34:44,099

an army it is very very small yeah well

876

00:34:48,710 --> 00:34:46,740

I can imagine definitely I I mean I have

877

00:34:50,389 --> 00:34:48,720

a my grandfather was in the Navy but we

878

00:34:52,669 --> 00:34:50,399

don't come from a like a line or a

879

00:34:55,070 --> 00:34:52,679

family of military three men but like I

880

00:34:56,990 --> 00:34:55,080

said I do respect it heavily so yeah I

881

00:34:58,190 --> 00:34:57,000

appreciate that

882

00:35:00,230 --> 00:34:58,200

um actually let's stick with the

883

00:35:01,970 --> 00:35:00,240

military theme because one gentleman who

884

00:35:03,770 --> 00:35:01,980

I know you're friends with who I have

885

00:35:05,690 --> 00:35:03,780

had the pleasure of interviewing and

886

00:35:08,570 --> 00:35:05,700

we'd love to talk about is uh retired

887

00:35:10,250 --> 00:35:08,580

Colonel John Alexander uh so I'd love to

888

00:35:12,829 --> 00:35:10,260

know how how that sort of relationship

889

00:35:14,630 --> 00:35:12,839

came about how you met John and and

890

00:35:16,010 --> 00:35:14,640

anything from there really

891

00:35:18,650 --> 00:35:16,020

yeah

892

00:35:22,010 --> 00:35:18,660

um I met um well

893

00:35:25,849 --> 00:35:22,020

I basically I saw him on the

894

00:35:26,930 --> 00:35:25,859

Jack sarfati email list and then um I

895

00:35:28,910 --> 00:35:26,940

thought right I'm going to be cunning

896

00:35:30,770 --> 00:35:28,920

I'm going to be coming here

897

00:35:35,329 --> 00:35:30,780

and then I approached I approached the

898

00:35:37,010 --> 00:35:35,339

colonel and I said um oh do you know um

899

00:35:41,390 --> 00:35:37,020

uh

900

00:35:45,109 --> 00:35:41,400

Force right

901
00:35:48,050 --> 00:35:45,119
and um he's like yes I do he said uh we

902
00:35:50,630 --> 00:35:48,060
start we served together in 1958

903
00:35:54,349 --> 00:35:50,640
we were both on the com on the uh

904
00:35:56,030 --> 00:35:54,359
on the range of course okay and uh and I

905
00:35:58,250 --> 00:35:56,040
said oh well uh you know that gentleman

906
00:35:59,329 --> 00:35:58,260
uh my old man knows him from from

907
00:36:02,650 --> 00:35:59,339
Hereford

908
00:36:05,450 --> 00:36:02,660
uh because uh

909
00:36:07,670 --> 00:36:05,460
that gentleman was at Hereford and

910
00:36:10,069 --> 00:36:07,680
basically served with SAS for two years

911
00:36:12,109 --> 00:36:10,079
uh before going back to America and then

912
00:36:14,150 --> 00:36:12,119
forming Delta Force so that was my end

913
00:36:16,069 --> 00:36:14,160

to Colonel John Alexander uh basically

914

00:36:18,109 --> 00:36:16,079

that we were both airborne and that I

915

00:36:20,329 --> 00:36:18,119

don't have a special forces background

916

00:36:23,329 --> 00:36:20,339

I was never back to Special Forces I was

917

00:36:26,390 --> 00:36:23,339

never badged SAS or SBS

918

00:36:28,910 --> 00:36:26,400

um I was badged a paratrooper and then

919

00:36:30,770 --> 00:36:28,920

um and when uh intelligence Corps I was

920

00:36:33,109 --> 00:36:30,780

never bad Special Forces but I've been

921

00:36:35,329 --> 00:36:33,119

around Special Forces all my life

922

00:36:38,510 --> 00:36:35,339

yeah I mean I enjoyed my conversation

923

00:36:41,810 --> 00:36:38,520

with John you know he gets a lot of

924

00:36:44,750 --> 00:36:41,820

stick from people I think

925

00:36:48,050 --> 00:36:44,760

it's hard it's hard to kind of

926

00:36:51,290 --> 00:36:48,060

see why sometimes I wanted to speak to

927

00:36:53,630 --> 00:36:51,300

him I did I found him very engaging

928

00:36:55,010 --> 00:36:53,640

um I think he's a great bloke so you

929

00:36:58,370 --> 00:36:55,020

know

930

00:37:06,650 --> 00:36:58,380

knew

931

00:37:08,510 --> 00:37:06,660

up uh you know Delta Force okay and my

932

00:37:11,810 --> 00:37:08,520

dad knew Charles Beckwith so when I said

933

00:37:13,550 --> 00:37:11,820

to Colonel Alexander uh my dad knows uh

934

00:37:15,589 --> 00:37:13,560

you know my dad knew Charles beckworth

935

00:37:17,750 --> 00:37:15,599

right now deceased then that gave me

936

00:37:20,089 --> 00:37:17,760

into Colonel John Alexander and Colonel

937

00:37:21,589 --> 00:37:20,099

John Alexander he said to me okay um you

938

00:37:23,630 --> 00:37:21,599

know you sent me some papers that you

939

00:37:25,790 --> 00:37:23,640

wrote for you know um you know very

940

00:37:27,650 --> 00:37:25,800

various papers you sent he goes okay I

941

00:37:29,329 --> 00:37:27,660

don't think that those are so stupid uh

942

00:37:30,710 --> 00:37:29,339

he goes I will talk to you talk to you

943

00:37:33,109 --> 00:37:30,720

about UAP

944

00:37:35,750 --> 00:37:33,119

wow he's very no-nonsense he's very No

945

00:37:38,390 --> 00:37:35,760

Nonsense yeah but um I have to say um

946

00:37:40,730 --> 00:37:38,400

he's become a mentor to me he's become a

947

00:37:43,069 --> 00:37:40,740

mentor to me and um I always call him

948

00:37:45,230 --> 00:37:43,079

Colonel he always calls me Frank and he

949

00:37:47,510 --> 00:37:45,240

signs off as John but I always call him

950

00:37:49,970 --> 00:37:47,520

Colonel it's a mark of respect yeah

951
00:37:53,450 --> 00:37:49,980
absolutely a military Mark of respect

952
00:37:55,550 --> 00:37:53,460
yeah no I'm sure he appreciates it but

953
00:37:57,290 --> 00:37:55,560
um have you had conversations with him

954
00:38:01,810 --> 00:37:57,300
about the early days at Skinwalker Ranch

955
00:38:07,730 --> 00:38:05,150
you're talking somebody who was um

956
00:38:11,990 --> 00:38:07,740
and this isn't like uh you know um

957
00:38:13,670 --> 00:38:12,000
anything uh you know covert uh

958
00:38:16,730 --> 00:38:13,680
he was a member of The Phoenix Program

959
00:38:19,730 --> 00:38:16,740
in in in in Vietnam right

960
00:38:21,230 --> 00:38:19,740
uh which was basically to assassinate uh

961
00:38:23,750 --> 00:38:21,240
you know members of you know the Viet

962
00:38:25,910 --> 00:38:23,760
Cong and the North Vietnamese

963
00:38:29,210 --> 00:38:25,920

and as a special off Special Forces

964

00:38:31,130 --> 00:38:29,220

officer he was involved in that so he's

965

00:38:34,430 --> 00:38:31,140

a highly trained military officer and

966

00:38:36,589 --> 00:38:34,440

also an assassin okay as you know all

967

00:38:39,470 --> 00:38:36,599

Special Forces Personnel are were

968

00:38:46,490 --> 00:38:43,010

um and when he told me that um that he

969

00:38:49,910 --> 00:38:46,500

got recruited by that you know three

970

00:38:52,490 --> 00:38:49,920

knits and uh and he said that he went to

971

00:38:54,230 --> 00:38:52,500

uh basically the ranch ain't like

972

00:38:56,569 --> 00:38:54,240

pre-nips and he said that he was sitting

973

00:38:58,670 --> 00:38:56,579

out there night after night and I was

974

00:39:00,890 --> 00:38:58,680

just thinking like man it's like a you

975

00:39:02,410 --> 00:39:00,900

know only a badass American army green

976
00:39:06,349 --> 00:39:02,420
beret

977
00:39:08,870 --> 00:39:06,359
just like uh I'd be [h__h] myself

978
00:39:10,670 --> 00:39:08,880
I agree I would too I like to think that

979
00:39:12,290 --> 00:39:10,680
if invited I would say yes and I would

980
00:39:14,329 --> 00:39:12,300
go but you know I have heard some

981
00:39:18,250 --> 00:39:14,339
stories Vinnie I think I'm a badass

982
00:39:23,569 --> 00:39:21,170
that would make me [h__h] myself

983
00:39:25,730 --> 00:39:23,579
yeah but it kind of for me yeah of

984
00:39:26,930 --> 00:39:25,740
course you would but I mean of course I

985
00:39:30,109 --> 00:39:26,940
would but

986
00:39:32,270 --> 00:39:30,119
surely it's like an opportunity to be

987
00:39:35,270 --> 00:39:32,280
up close and personal potentially with

988
00:39:40,250 --> 00:39:38,390

mate I give you my honest truth I'd

989

00:39:41,990 --> 00:39:40,260

rather be um

990

00:39:44,690 --> 00:39:42,000

I'd rather be shooting out with

991

00:39:46,849 --> 00:39:44,700

insurgents in Iraq as I used to do after

992

00:39:49,730 --> 00:39:46,859

a complicated Ambush then I would like

993

00:39:53,510 --> 00:39:49,740

to be on uh on Skinwalker Ranch

994

00:39:55,310 --> 00:39:53,520

wow okay maybe you've heard some things

995

00:39:57,770 --> 00:39:55,320

that maybe I haven't then let's maybe

996

00:40:00,170 --> 00:39:57,780

maybe that's the thing uh no it's just

997

00:40:01,310 --> 00:40:00,180

um I can't control the Paranormal but uh

998

00:40:03,770 --> 00:40:01,320

you know if somebody's trying to shoot

999

00:40:05,810 --> 00:40:03,780

at me and killing and kill me then I can

1000

00:40:07,130 --> 00:40:05,820

control that and I can control them but

1001
00:40:09,349 --> 00:40:07,140
if there's something paranormal then I

1002
00:40:11,870 --> 00:40:09,359
can't control them so you know as a

1003
00:40:13,970 --> 00:40:11,880
former professional military officer

1004
00:40:17,690 --> 00:40:13,980
um I am more comfortable with being in

1005
00:40:20,450 --> 00:40:17,700
war against humans uh than I would be on

1006
00:40:22,609 --> 00:40:20,460
some remote Ranch uh dealing with you

1007
00:40:24,349 --> 00:40:22,619
know some disembodied entity that I have

1008
00:40:27,290 --> 00:40:24,359
no control over and that you know even

1009
00:40:28,670 --> 00:40:27,300
if I had uh you know weapons on me I I

1010
00:40:31,310 --> 00:40:28,680
couldn't kill

1011
00:40:33,410 --> 00:40:31,320
no that makes sense yeah I appreciate

1012
00:40:34,849 --> 00:40:33,420
that I do I do I mean just sticking with

1013
00:40:37,750 --> 00:40:34,859

Skinwalker Ranch I mean obviously

1014

00:40:41,150 --> 00:40:37,760

there's it gets a lot of

1015

00:40:42,770 --> 00:40:41,160

negative uh fingers pointed at it

1016

00:40:44,150 --> 00:40:42,780

especially Brandon and his team on

1017

00:40:46,130 --> 00:40:44,160

Twitter you know people saying that

1018

00:40:48,470 --> 00:40:46,140

they're doing it just for TV and all

1019

00:40:49,910 --> 00:40:48,480

these purposes personally I you know

1020

00:40:51,349 --> 00:40:49,920

I've spoken to some of the guys on the

1021

00:40:53,450 --> 00:40:51,359

ranch I believe there's something

1022

00:40:54,829 --> 00:40:53,460

genuine going on

1023

00:40:56,210 --> 00:40:54,839

um so I'd just like to know what your

1024

00:40:58,670 --> 00:40:56,220

views are I mean if you've had any

1025

00:41:00,109 --> 00:40:58,680

conversations about any specific aspects

1026

00:41:02,329 --> 00:41:00,119

of it because it seems like it's

1027

00:41:04,130 --> 00:41:02,339

multiple phenomena that could be working

1028

00:41:05,210 --> 00:41:04,140

there so yeah I'd love to know what you

1029

00:41:07,790 --> 00:41:05,220

think about that

1030

00:41:10,010 --> 00:41:07,800

all I can say is um

1031

00:41:11,329 --> 00:41:10,020

John Alexander is a mentor to me and

1032

00:41:13,550 --> 00:41:11,339

he's talked to me about uh you know

1033

00:41:15,230 --> 00:41:13,560

Skinwalker rights from the earliest days

1034

00:41:17,930 --> 00:41:15,240

and um

1035

00:41:21,170 --> 00:41:17,940

you know I've been on uh on various um

1036

00:41:23,450 --> 00:41:21,180

you know email threads including with uh

1037

00:41:25,550 --> 00:41:23,460

you know Dr Travis trailer Taylor right

1038

00:41:26,990 --> 00:41:25,560

uh there's no doubt in my mind that

1039

00:41:29,930 --> 00:41:27,000

there is uh you know some you know

1040

00:41:31,609 --> 00:41:29,940

highly crazy anomalous activity going on

1041

00:41:35,329 --> 00:41:31,619

Skinwalker Ranch

1042

00:41:37,970 --> 00:41:35,339

okay and uh you know for me as you know

1043

00:41:40,550 --> 00:41:37,980

if I put my head on as if I put my hat

1044

00:41:42,230 --> 00:41:40,560

on as a former counterintelligence

1045

00:41:43,849 --> 00:41:42,240

investigator

1046

00:41:46,550 --> 00:41:43,859

uh there's

1047

00:41:49,430 --> 00:41:46,560

there's so much that meets the eye that

1048

00:41:52,609 --> 00:41:49,440

I cannot explain and therefore uh for me

1049

00:41:55,190 --> 00:41:52,619

it's anomalous and I

1050

00:41:57,290 --> 00:41:55,200

I have to believe in the anomalous

1051
00:41:59,569 --> 00:41:57,300
right

1052
00:42:01,250 --> 00:41:59,579
does that make sense it does yeah yeah

1053
00:42:02,750 --> 00:42:01,260
it does

1054
00:42:04,130 --> 00:42:02,760
I mean you mentioned in there a few

1055
00:42:06,170 --> 00:42:04,140
times and this is something that I I

1056
00:42:07,370 --> 00:42:06,180
guess I wanted to to ask but I didn't

1057
00:42:08,530 --> 00:42:07,380
know the right time so I'm just going to

1058
00:42:10,670 --> 00:42:08,540
ask is

1059
00:42:12,770 --> 00:42:10,680
counterintelligence gets

1060
00:42:14,510 --> 00:42:12,780
again something is something that people

1061
00:42:16,790 --> 00:42:14,520
see or hear about and they go oh it's

1062
00:42:18,290 --> 00:42:16,800
negative they can't be trusted it's you

1063
00:42:20,450 --> 00:42:18,300

know their job was counter Intel for

1064

00:42:22,790 --> 00:42:20,460

goodness sake so

1065

00:42:25,010 --> 00:42:22,800

how how could how do people how should

1066

00:42:27,410 --> 00:42:25,020

people understand the the true meaning

1067

00:42:29,690 --> 00:42:27,420

of counter-intel and why it isn't a bad

1068

00:42:31,670 --> 00:42:29,700

thing you know it frustrates me when I

1069

00:42:33,829 --> 00:42:31,680

see well you can't trust uh Lou

1070

00:42:35,390 --> 00:42:33,839

Alexander gets it the most you know as

1071

00:42:37,069 --> 00:42:35,400

I'm sure you might have seen but you

1072

00:42:39,170 --> 00:42:37,079

know if you could just kind of clear

1073

00:42:41,210 --> 00:42:39,180

that up for me or and for people I'd

1074

00:42:42,770 --> 00:42:41,220

really appreciate that yeah sure I mean

1075

00:42:44,089 --> 00:42:42,780

I've had it a lot as well like uh you

1076

00:42:46,069 --> 00:42:44,099

know you're kind of like a you know a

1077

00:42:48,109 --> 00:42:46,079

deep set agent and you know some kind of

1078

00:42:49,670 --> 00:42:48,119

other [h__h] it's like well um sorry

1079

00:42:50,870 --> 00:42:49,680

but you know while you're sleeping in

1080

00:42:54,530 --> 00:42:50,880

your bed

1081

00:42:56,750 --> 00:42:54,540

um you know people like me uh we are uh

1082

00:43:00,170 --> 00:42:56,760

doing uh two different kind of jobs uh

1083

00:43:02,569 --> 00:43:00,180

one uh we are investigating uh you know

1084

00:43:06,050 --> 00:43:02,579

the penetration of uh you know Russian

1085

00:43:08,210 --> 00:43:06,060

and Chinese and uh you know foreign

1086

00:43:11,150 --> 00:43:08,220

hostile intelligence uh you know

1087

00:43:13,430 --> 00:43:11,160

activities and how they are how they are

1088

00:43:16,790 --> 00:43:13,440

trying to um you know uh basically

1089

00:43:20,510 --> 00:43:16,800

penetrate uh you know our security and

1090

00:43:23,150 --> 00:43:20,520

how they are trying to uh you know um

1091

00:43:25,010 --> 00:43:23,160

basically recruit our people okay that's

1092

00:43:27,050 --> 00:43:25,020

called security intelligence

1093

00:43:28,849 --> 00:43:27,060

and then uh the other side of

1094

00:43:31,609 --> 00:43:28,859

counterintelligence is physical security

1095

00:43:34,010 --> 00:43:31,619

which is the the physical measures that

1096

00:43:37,609 --> 00:43:34,020

you take uh to protect you know uh you

1097

00:43:41,030 --> 00:43:37,619

know people uh locations operations uh

1098

00:43:42,829 --> 00:43:41,040

you know bases uh information uh you

1099

00:43:44,150 --> 00:43:42,839

know information technology right that's

1100

00:43:45,829 --> 00:43:44,160

the other side of counterintelligence

1101
00:43:47,870 --> 00:43:45,839
but there is a there is a dark side of

1102
00:43:51,170 --> 00:43:47,880
counterintelligence which is uh you know

1103
00:43:53,210 --> 00:43:51,180
you do investigations uh into you know

1104
00:43:55,790 --> 00:43:53,220
who is uh you know trying to penetrate

1105
00:43:58,010 --> 00:43:55,800
your networks right so uh you know that

1106
00:44:00,290 --> 00:43:58,020
that's when it gets kind of tasty but um

1107
00:44:02,809 --> 00:44:00,300
it's uh you know nobody that you should

1108
00:44:05,390 --> 00:44:02,819
not trust because basically we are here

1109
00:44:06,770 --> 00:44:05,400
and we are protecting you or trying to

1110
00:44:09,170 --> 00:44:06,780
protect you from things like you know

1111
00:44:11,690 --> 00:44:09,180
the novichoka you know nerve agent

1112
00:44:14,750 --> 00:44:11,700
attack the Russians perpetrated in 2018

1113
00:44:17,990 --> 00:44:14,760

in the UK okay we didn't succeed then

1114

00:44:20,150 --> 00:44:18,000

but uh you have to understand that uh in

1115

00:44:23,870 --> 00:44:20,160

America the UK and you know Allied

1116

00:44:27,109 --> 00:44:23,880

Forces uh you only see a very small

1117

00:44:29,329 --> 00:44:27,119

percentage of of of the successes that

1118

00:44:30,890 --> 00:44:29,339

we have you will never see the vast

1119

00:44:33,170 --> 00:44:30,900

majority of the successes that we have

1120

00:44:35,750 --> 00:44:33,180

because that has to be you know highly

1121

00:44:38,750 --> 00:44:35,760

uh you know highly protected

1122

00:44:41,990 --> 00:44:38,760

I guess I'm yeah I mean I understand the

1123

00:44:44,089 --> 00:44:42,000

people can be dubious sometimes but it

1124

00:44:46,069 --> 00:44:44,099

doesn't take much to kind of have a few

1125

00:44:47,809 --> 00:44:46,079

conversations do a bit of research and

1126

00:44:50,930 --> 00:44:47,819

and I think it becomes a bit clearer as

1127

00:44:52,730 --> 00:44:50,940

to the real kind of direction of and the

1128

00:44:54,290 --> 00:44:52,740

meaning of what people are doing

1129

00:44:57,829 --> 00:44:54,300

especially if they have counter Intel

1130

00:44:59,690 --> 00:44:57,839

backgrounds so yeah who doubts my

1131

00:45:01,490 --> 00:44:59,700

loyalty it's like well uh you know I

1132

00:45:03,650 --> 00:45:01,500

I've been to war I've been to two

1133

00:45:06,530 --> 00:45:03,660

different Wars and you know I've served

1134

00:45:08,630 --> 00:45:06,540

my country so uh you know how am I uh

1135

00:45:10,250 --> 00:45:08,640

being a deep dark sake at a state after

1136

00:45:12,109 --> 00:45:10,260

you know I've been protecting my country

1137

00:45:14,030 --> 00:45:12,119

from like the word go since I was 17

1138

00:45:17,510 --> 00:45:14,040

years old since I joined up as a

1139

00:45:19,970 --> 00:45:17,520

paratrooper yeah no absolutely

1140

00:45:22,550 --> 00:45:19,980

now I can't do this interview without

1141

00:45:25,430 --> 00:45:22,560

asking you about it specifically the two

1142

00:45:28,190 --> 00:45:25,440

papers you wrote for uh for beta the

1143

00:45:30,109 --> 00:45:28,200

biggest Center so basically I'd first

1144

00:45:32,150 --> 00:45:30,119

like to know how you got involved with

1145

00:45:34,550 --> 00:45:32,160

them and it and come to write the papers

1146

00:45:37,010 --> 00:45:34,560

I will just bring them up on screen and

1147

00:45:39,650 --> 00:45:37,020

they are linked in the description of

1148

00:45:41,569 --> 00:45:39,660

this video so we've got the first wait

1149

00:45:43,550 --> 00:45:41,579

was this the first one that you wrote

1150

00:45:45,050 --> 00:45:43,560

that's the first one yeah yeah and then

1151

00:45:47,510 --> 00:45:45,060

you went on so this is the about the

1152

00:45:49,069 --> 00:45:47,520

pentagon's UAP task force and then you

1153

00:45:51,589 --> 00:45:49,079

wrote this one American development of

1154

00:45:53,270 --> 00:45:51,599

UAP technology of theta comp play so

1155

00:45:55,550 --> 00:45:53,280

yeah how did they come about you know

1156

00:45:58,609 --> 00:45:55,560

I've read I've I was aware of these

1157

00:46:00,230 --> 00:45:58,619

almost before I was aware of you and

1158

00:46:01,609 --> 00:46:00,240

I've read them multiple times and I've

1159

00:46:02,870 --> 00:46:01,619

reverted back to them on multiple

1160

00:46:04,849 --> 00:46:02,880

occasions I think they're fantastic

1161

00:46:06,109 --> 00:46:04,859

pieces of work so yeah I'd like to know

1162

00:46:08,329 --> 00:46:06,119

how that came about thank you brother my

1163

00:46:10,569 --> 00:46:08,339

pleasure

1164

00:46:13,730 --> 00:46:10,579

yeah how did they come about

1165

00:46:15,710 --> 00:46:13,740

uh yeah I basically I wanted to write

1166

00:46:17,870 --> 00:46:15,720

about UAP but I didn't just want to

1167

00:46:20,690 --> 00:46:17,880

write on a blog or some kind of like you

1168

00:46:22,730 --> 00:46:20,700

know UAP blog uh I was very determined

1169

00:46:24,109 --> 00:46:22,740

that um you know given my uh you know

1170

00:46:26,030 --> 00:46:24,119

London School of Economics background

1171

00:46:28,130 --> 00:46:26,040

and my Military Intelligence background

1172

00:46:31,010 --> 00:46:28,140

I wanted to have you know some kind of

1173

00:46:32,809 --> 00:46:31,020

like you know finite um kind of like you

1174

00:46:33,829 --> 00:46:32,819

know Granite wall behind what I was

1175

00:46:37,069 --> 00:46:33,839

writing

1176

00:46:39,890 --> 00:46:37,079

and so then I persuaded uh big into that

1177

00:46:41,990 --> 00:46:39,900

Center to you know to let me write these

1178

00:46:45,829 --> 00:46:42,000

uh these these two papers

1179

00:46:47,809 --> 00:46:45,839

because my my key objective was

1180

00:46:49,550 --> 00:46:47,819

um to inject

1181

00:46:52,550 --> 00:46:49,560

UAP

1182

00:46:55,609 --> 00:46:52,560

uh not the woo-woo stuff but inject uh

1183

00:46:59,690 --> 00:46:55,619

UAP and the National Security aspects

1184

00:47:03,410 --> 00:46:59,700

into uh the mainstream of uh War studies

1185

00:47:06,349 --> 00:47:03,420

National Security studies yeah

1186

00:47:08,390 --> 00:47:06,359

and uh and that's what I did

1187

00:47:11,510 --> 00:47:08,400

it's amazing it's fantastic it's such a

1188

00:47:15,170 --> 00:47:11,520

my concept was to was to penetrate uh

1189

00:47:16,790 --> 00:47:15,180

the wall of uh basically ridicule and to

1190

00:47:20,210 --> 00:47:16,800

force Academia

1191

00:47:23,030 --> 00:47:20,220

uh by having two papers published by a

1192

00:47:24,770 --> 00:47:23,040

major uh University Think Tank a

1193

00:47:26,930 --> 00:47:24,780

globally ranked think tank so that

1194

00:47:28,609 --> 00:47:26,940

nobody could ignore what I was saying

1195

00:47:30,410 --> 00:47:28,619

really you did just that that's the

1196

00:47:32,750 --> 00:47:30,420

thing is obviously you know when when I

1197

00:47:34,609 --> 00:47:32,760

saw these I I was blown away I didn't

1198

00:47:37,550 --> 00:47:34,619

know anything like that existed at the

1199

00:47:39,829 --> 00:47:37,560

time uh you know so yeah my hat my hat's

1200

00:47:41,329 --> 00:47:39,839

off to you completely because yeah like

1201

00:47:43,069 --> 00:47:41,339

I said I've reverted back to them in my

1202

00:47:45,530 --> 00:47:43,079

research many times

1203

00:47:48,410 --> 00:47:45,540

uh so yeah thank you

1204

00:47:50,510 --> 00:47:48,420

because I I was actually at the time I

1205

00:47:53,750 --> 00:47:50,520

was thinking about doing um you know a

1206

00:47:55,550 --> 00:47:53,760

master's degree with um uh with uh you

1207

00:47:57,410 --> 00:47:55,560

know King's College London right in

1208

00:47:58,849 --> 00:47:57,420

National Security studies and then I

1209

00:48:00,170 --> 00:47:58,859

started thinking well I got into UAP

1210

00:48:02,270 --> 00:48:00,180

stuff and I was going but hang on

1211

00:48:03,829 --> 00:48:02,280

they're not into UAP stuff but actually

1212

00:48:05,750 --> 00:48:03,839

if you look at um

1213

00:48:07,970 --> 00:48:05,760

you know what the Russians want the

1214

00:48:10,730 --> 00:48:07,980

Chinese want and potentially you know

1215

00:48:13,849 --> 00:48:10,740

the threat posed by UAP this is the most

1216

00:48:16,550 --> 00:48:13,859

important uh you know strategic studies

1217

00:48:18,829 --> 00:48:16,560

uh subject that is not being taught in

1218

00:48:22,250 --> 00:48:18,839

universities and then I just thought why

1219

00:48:24,710 --> 00:48:22,260

the [h__\h] would I do a masters because uh

1220

00:48:28,069 --> 00:48:24,720

it basically doesn't it's basically

1221

00:48:30,170 --> 00:48:28,079

completely in in Spanish you say uh it's

1222

00:48:31,690 --> 00:48:30,180

blind

1223

00:48:34,370 --> 00:48:31,700

wow

1224

00:48:36,770 --> 00:48:34,380

that's a that's amazing answer I

1225

00:48:38,089 --> 00:48:36,780

appreciate that I'm sorry I've just seen

1226

00:48:39,890 --> 00:48:38,099

this question here which I think because

1227

00:48:41,630 --> 00:48:39,900

you mentioned there you know you kind of

1228

00:48:43,250 --> 00:48:41,640

focus in a bit on the nuts and bolts as

1229

00:48:45,890 --> 00:48:43,260

I suppose you could call it in in that

1230

00:48:47,510 --> 00:48:45,900

work but I know that you're open to the

1231

00:48:49,790 --> 00:48:47,520

sort of the woo and the Consciousness as

1232

00:48:52,130 --> 00:48:49,800

well so totally yeah so this question

1233

00:48:53,870 --> 00:48:52,140

from Dave Smith is shout out Dave uh

1234

00:48:56,210 --> 00:48:53,880

does Frank think there is credibility to

1235

00:48:57,950 --> 00:48:56,220

the ultra-terrestrial explanation I'll

1236

00:49:00,770 --> 00:48:57,960

put off recently put forward

1237

00:49:02,930 --> 00:49:00,780

uh I.E terrestrial based and complex

1238

00:49:05,329 --> 00:49:02,940

paranormal interactions as well as nuts

1239

00:49:07,250 --> 00:49:05,339

and bolts stuff uh yeah big shout out to

1240

00:49:09,230 --> 00:49:07,260

you Smathers

1241

00:49:11,870 --> 00:49:09,240

um thank you very much for that question

1242

00:49:15,290 --> 00:49:11,880

uh yeah I absolutely agree with you but

1243

00:49:17,809 --> 00:49:15,300

as always I say you know I'm not a guru

1244

00:49:22,190 --> 00:49:17,819

um I don't know I mean not even uh you

1245

00:49:25,609 --> 00:49:23,750

but this is speculation and this is the

1246

00:49:27,710 --> 00:49:25,619

thing I think sometimes I know in the

1247

00:49:30,410 --> 00:49:27,720

past I've been really

1248

00:49:31,190 --> 00:49:30,420

um nervous to speculate on things but I

1249

00:49:34,130 --> 00:49:31,200

think

1250

00:49:35,690 --> 00:49:34,140

it's not it's not wrong to speculate as

1251
00:49:37,250 --> 00:49:35,700
long as you're careful and coordinated

1252
00:49:39,589 --> 00:49:37,260
and you don't put it across like it's

1253
00:49:41,930 --> 00:49:39,599
you know a really solid belief so I mean

1254
00:49:44,870 --> 00:49:41,940
I and I do I think people want to know

1255
00:49:46,609 --> 00:49:44,880
what how you think so if you were to

1256
00:49:49,010 --> 00:49:46,619
speculate it kind of gives a good

1257
00:49:50,450 --> 00:49:49,020
picture of that so yeah if any of the

1258
00:49:52,250 --> 00:49:50,460
way I think is uh I think like a

1259
00:49:53,569 --> 00:49:52,260
military intelligence officer okay and

1260
00:49:56,690 --> 00:49:53,579
even though that was like you know years

1261
00:49:58,190 --> 00:49:56,700
ago it's like being grained yeah once

1262
00:50:01,490 --> 00:49:58,200
you've been part of the system right you

1263
00:50:03,829 --> 00:50:01,500

know you never Escape uh but it teaches

1264

00:50:05,510 --> 00:50:03,839

you to think in a very very logical uh

1265

00:50:08,450 --> 00:50:05,520

in a very very logical way

1266

00:50:11,450 --> 00:50:08,460

and you know not in a in a way that um

1267

00:50:18,170 --> 00:50:13,849

negates uh you know kind of like you

1268

00:50:19,490 --> 00:50:18,180

know outbound uh hypotheses and I think

1269

00:50:21,890 --> 00:50:19,500

I like to think that I carry that

1270

00:50:25,130 --> 00:50:21,900

forward I mean obviously

1271

00:50:26,750 --> 00:50:25,140

uh you know I'm a Believer so I say

1272

00:50:29,510 --> 00:50:26,760

believe I'm sorry I'm not a believer I'm

1273

00:50:31,670 --> 00:50:29,520

an experiencer right sure uh believer

1274

00:50:34,010 --> 00:50:31,680

it's the wrong word I'm an experiencer

1275

00:50:35,690 --> 00:50:34,020

uh I believe they're a phenomena that uh

1276

00:50:37,270 --> 00:50:35,700

we cannot as yet

1277

00:50:40,670 --> 00:50:37,280

um you know um

1278

00:50:43,329 --> 00:50:40,680

assess through scientific means because

1279

00:50:46,010 --> 00:50:43,339

we do not have the physics to understand

1280

00:50:48,410 --> 00:50:46,020

uh you know what is going on

1281

00:50:50,510 --> 00:50:48,420

but at the same time I'm a very I'm a

1282

00:50:52,370 --> 00:50:50,520

very logical human being I'm a former

1283

00:50:54,410 --> 00:50:52,380

military intelligence officer from a

1284

00:50:56,510 --> 00:50:54,420

very logical human being and I will I

1285

00:51:00,410 --> 00:50:56,520

will always try and find the most

1286

00:51:03,650 --> 00:51:00,420

prosaic uh you know the most prosaic uh

1287

00:51:05,569 --> 00:51:03,660

you know reason or conclusion uh towards

1288

00:51:06,950 --> 00:51:05,579

what I'm thinking about so you know like

1289

00:51:08,510 --> 00:51:06,960

we were talking about earlier tonight uh

1290

00:51:10,250 --> 00:51:08,520

before the show

1291

00:51:11,990 --> 00:51:10,260

uh we were talking about you know Calvin

1292

00:51:14,210 --> 00:51:12,000

case and I gave you like I think four or

1293

00:51:16,910 --> 00:51:14,220

five different reasons why I thought

1294

00:51:19,490 --> 00:51:16,920

that uh you know the coal Vine UAP uh

1295

00:51:21,530 --> 00:51:19,500

was not uh you know um you know exotic

1296

00:51:23,329 --> 00:51:21,540

American Technology because I'm always

1297

00:51:25,130 --> 00:51:23,339

trying to look for the most prosaic

1298

00:51:27,049 --> 00:51:25,140

reason possible

1299

00:51:28,490 --> 00:51:27,059

okay and that makes me happy because I

1300

00:51:29,809 --> 00:51:28,500

look for the most prosaic reason and

1301

00:51:31,370 --> 00:51:29,819

then there's some other reason that I

1302

00:51:33,710 --> 00:51:31,380

can't figure out then I'm like uh okay

1303

00:51:35,690 --> 00:51:33,720

yeah then then it's something Beyond uh

1304

00:51:37,490 --> 00:51:35,700

beyond what I understand

1305

00:51:39,349 --> 00:51:37,500

I think that's a great rule of thumb as

1306

00:51:41,510 --> 00:51:39,359

well I tried to do the same absolutely

1307

00:51:43,849 --> 00:51:41,520

put everything before you know in that

1308

00:51:46,190 --> 00:51:43,859

scale of taking everything off first

1309

00:51:47,990 --> 00:51:46,200

before you get to the you know the

1310

00:51:53,690 --> 00:51:48,000

sorry that's why

1311

00:51:57,589 --> 00:51:56,329

sorry excuse my language no don't worry

1312

00:51:59,690 --> 00:51:57,599

yeah

1313

00:52:01,430 --> 00:51:59,700

um whereas I'm like in the middle and

1314

00:52:03,530 --> 00:52:01,440

I'm like um okay if you're gonna talk

1315

00:52:06,829 --> 00:52:03,540

woo-woo then like you know show me some

1316

00:52:09,109 --> 00:52:06,839

proof okay uh but at the same time I'm

1317

00:52:10,970 --> 00:52:09,119

open-minded I'm open-minded the fact

1318

00:52:13,250 --> 00:52:10,980

there's that that there are things that

1319

00:52:14,270 --> 00:52:13,260

I've experienced uh there's things that

1320

00:52:16,490 --> 00:52:14,280

I know about from my Military

1321

00:52:17,930 --> 00:52:16,500

Intelligence background and there are

1322

00:52:21,890 --> 00:52:17,940

things that I know from you know for

1323

00:52:24,890 --> 00:52:21,900

example um you know skin walker and uh

1324

00:52:26,990 --> 00:52:24,900

you know uh Nimitz and other cases that

1325

00:52:29,990 --> 00:52:27,000

are you know uh they're not explainable

1326
00:52:32,930 --> 00:52:30,000
they are not uh you cannot rationalize

1327
00:52:34,849 --> 00:52:32,940
them in terms of normal physics or in

1328
00:52:36,109 --> 00:52:34,859
terms of uh you know terrestrial

1329
00:52:38,329 --> 00:52:36,119
platforms

1330
00:52:41,809 --> 00:52:38,339
no absolutely and I think that's you

1331
00:52:44,150 --> 00:52:41,819
know I don't I don't tend to to

1332
00:52:46,490 --> 00:52:44,160
mention the debunkers or the aspects of

1333
00:52:48,230 --> 00:52:46,500
things I tend to just stay away

1334
00:52:50,270 --> 00:52:48,240
purely because I don't have time I'm

1335
00:52:51,589 --> 00:52:50,280
busy um but you know one thing is I

1336
00:52:53,329 --> 00:52:51,599
think that they

1337
00:52:55,370 --> 00:52:53,339
they think that there's a problem that

1338
00:52:57,049 --> 00:52:55,380

we shouldn't have an open mind or or

1339

00:52:59,450 --> 00:52:57,059

that we're having an open mind

1340

00:53:01,490 --> 00:52:59,460

automatically means that you jump to

1341

00:53:03,230 --> 00:53:01,500

that higher belief and you're just like

1342

00:53:05,270 --> 00:53:03,240

oh we'll we'll forget about all the

1343

00:53:08,270 --> 00:53:05,280

possible Prozac explanations that's

1344

00:53:09,290 --> 00:53:08,280

simply not the case and so I'll tell you

1345

00:53:10,970 --> 00:53:09,300

what it is mate it's like they're

1346

00:53:13,309 --> 00:53:10,980

terrified of the reality

1347

00:53:15,290 --> 00:53:13,319

that terrified of Duality that uh you

1348

00:53:18,049 --> 00:53:15,300

know there could be uh you know beings

1349

00:53:20,270 --> 00:53:18,059

from extracial beings or Ultra

1350

00:53:22,549 --> 00:53:20,280

terrestrial beings they are terrified of

1351

00:53:24,950 --> 00:53:22,559

the reality that uh you know there are

1352

00:53:27,589 --> 00:53:24,960

you know invisible entities that can uh

1353

00:53:30,290 --> 00:53:27,599

you know exsanguinate cows uh within

1354

00:53:33,109 --> 00:53:30,300

sight of uh you know a Rancher 400

1355

00:53:35,750 --> 00:53:33,119

meters away uh they are terrified of the

1356

00:53:38,569 --> 00:53:35,760

reality that uh you know these invisible

1357

00:53:41,390 --> 00:53:38,579

beings may be able to interact interact

1358

00:53:44,030 --> 00:53:41,400

amongst us and you know we have no

1359

00:53:46,069 --> 00:53:44,040

ability to uh you know no control over

1360

00:53:49,250 --> 00:53:46,079

that that is what they are afraid of

1361

00:53:50,450 --> 00:53:49,260

because uh you know they look I'm afraid

1362

00:53:51,650 --> 00:53:50,460

when I think about these things right

1363

00:53:52,670 --> 00:53:51,660

and like you know I'm a former Army

1364

00:53:54,670 --> 00:53:52,680

paratrooper right there's not many

1365

00:53:57,410 --> 00:53:54,680

things that make me afraid okay

1366

00:53:59,510 --> 00:53:57,420

when I start thinking about you know um

1367

00:54:00,950 --> 00:53:59,520

you know the possibility of uh for

1368

00:54:01,849 --> 00:54:00,960

example in

1369

00:54:04,609 --> 00:54:01,859

um

1370

00:54:06,349 --> 00:54:04,619

in uh you know the coast Protection Team

1371

00:54:07,910 --> 00:54:06,359

for the American president

1372

00:54:13,069 --> 00:54:07,920

are there

1373

00:54:15,530 --> 00:54:13,079

intervene and you know uh cause a launch

1374

00:54:17,750 --> 00:54:15,540

of a nuclear missile

1375

00:54:20,390 --> 00:54:17,760

how secure is uh you know the United

1376

00:54:23,150 --> 00:54:20,400

States President how secure is uh you

1377

00:54:26,990 --> 00:54:24,770

that's a good point you see where I'm

1378

00:54:29,390 --> 00:54:27,000

going with this I can absolutely the

1379

00:54:33,049 --> 00:54:29,400

valid points absolutely and you know

1380

00:54:36,770 --> 00:54:33,059

I've dive deeply into uh into uh you

1381

00:54:39,109 --> 00:54:36,780

know uh you know Dr Jacobs right uh you

1382

00:54:41,569 --> 00:54:39,119

know uh walking amongst us you know uh

1383

00:54:43,730 --> 00:54:41,579

the threat and all that kind of stuff uh

1384

00:54:46,190 --> 00:54:43,740

Eric Davis told me

1385

00:54:47,990 --> 00:54:46,200

um that he was a great academic but then

1386

00:54:50,210 --> 00:54:48,000

he started to kind of like lose it

1387

00:54:52,849 --> 00:54:50,220

towards the end of his life but also if

1388

00:54:55,970 --> 00:54:52,859

you look at like Timothy Goods uh you

1389

00:54:59,990 --> 00:54:55,980

know um uh you know books he's talking

1390

00:55:01,849 --> 00:55:00,000

about uh you know beings uh in Italy uh

1391

00:55:03,650 --> 00:55:01,859

that are benign and that live amongst us

1392

00:55:07,130 --> 00:55:03,660

so

1393

00:55:08,990 --> 00:55:07,140

if you accept that then maybe you could

1394

00:55:11,809 --> 00:55:09,000

accept the fact that there are malign

1395

00:55:13,250 --> 00:55:11,819

beings living amongst us and uh you know

1396

00:55:17,030 --> 00:55:13,260

being a former counterintelligence

1397

00:55:19,670 --> 00:55:17,040

officer uh I am highly suspicious

1398

00:55:22,130 --> 00:55:19,680

well absolutely I make perfect sense but

1399

00:55:24,589 --> 00:55:22,140

this is the thing you get so many angles

1400

00:55:26,030 --> 00:55:24,599

and points of view of these beings them

1401

00:55:29,329 --> 00:55:26,040

beings and they're Here There and

1402

00:55:31,490 --> 00:55:29,339

Everywhere and I mean it does kind of

1403

00:55:33,770 --> 00:55:31,500

there's no data to say which is right

1404

00:55:35,450 --> 00:55:33,780

and which is wrong so I believe that we

1405

00:55:37,970 --> 00:55:35,460

have to keep an open mind

1406

00:55:39,770 --> 00:55:37,980

I think that's number one and yet you

1407

00:55:42,829 --> 00:55:39,780

know we seem to get vilified for that in

1408

00:55:44,930 --> 00:55:42,839

you know on I'm I don't know about this

1409

00:55:47,329 --> 00:55:44,940

our side of the community I don't like

1410

00:55:49,130 --> 00:55:47,339

talking sides but it seems that it it

1411

00:55:51,410 --> 00:55:49,140

feels like that at the moment you know

1412

00:55:52,970 --> 00:55:51,420

that people are just getting shot down

1413

00:55:55,549 --> 00:55:52,980

for having a certain way of thinking and

1414

00:55:58,130 --> 00:55:55,559

that and and I just it baffles my mind

1415

00:55:59,750 --> 00:55:58,140

and I don't give any time to it so

1416

00:56:01,910 --> 00:55:59,760

that's all I gotta say about it very

1417

00:56:04,190 --> 00:56:01,920

simple way of thinking it's like um you

1418

00:56:05,750 --> 00:56:04,200

know if I can identify something it is

1419

00:56:07,670 --> 00:56:05,760

um it's either a threat or it's not a

1420

00:56:09,410 --> 00:56:07,680

threat you're either on my side or

1421

00:56:11,750 --> 00:56:09,420

you're not on my side if you're not on

1422

00:56:12,650 --> 00:56:11,760

my side then uh you know prepare to be

1423

00:56:14,930 --> 00:56:12,660

killed

1424

00:56:17,150 --> 00:56:14,940

okay yeah there you go I like that I'll

1425

00:56:18,710 --> 00:56:17,160

take that on board absolutely well

1426

00:56:20,750 --> 00:56:18,720

listen Frank before we finish off I'd

1427

00:56:22,609 --> 00:56:20,760

just like to know what you've got going

1428

00:56:24,290 --> 00:56:22,619

on now or moving forward and what we're

1429

00:56:25,670 --> 00:56:24,300

likely to sort of see from you in the

1430

00:56:27,589 --> 00:56:25,680

future

1431

00:56:29,510 --> 00:56:27,599

uh that's a very good question

1432

00:56:32,690 --> 00:56:29,520

um I'm engaging in some private research

1433

00:56:34,309 --> 00:56:32,700

on UAP uh which I won't be divulging to

1434

00:56:36,589 --> 00:56:34,319

the public

1435

00:56:37,790 --> 00:56:36,599

um and that's what I will be doing going

1436

00:56:39,829 --> 00:56:37,800

forward

1437

00:56:41,329 --> 00:56:39,839

that's fair enough I can't argue with

1438

00:56:43,010 --> 00:56:41,339

that well listen Frank thank you so much

1439

00:56:45,349 --> 00:56:43,020

it's been an absolute honor to speak to

1440

00:56:47,870 --> 00:56:45,359

you uh it's an open invitation you're

1441

00:56:49,370 --> 00:56:47,880

welcome back here absolutely anytime one

1442

00:56:51,890 --> 00:56:49,380

thing I have started doing is a lot more

1443

00:56:53,450 --> 00:56:51,900

panel discussions so I think you'd be

1444

00:56:55,370 --> 00:56:53,460

great on a panel discussion with maybe

1445

00:56:57,049 --> 00:56:55,380

some other Intel or foreign military

1446

00:56:58,970 --> 00:56:57,059

officers that could be something that

1447

00:57:00,890 --> 00:56:58,980

would Vinnie I'd always be happy to be

1448

00:57:02,990 --> 00:57:00,900

back on and always happy to talk with

1449

00:57:05,750 --> 00:57:03,000

anybody you want me to talk to very very

1450

00:57:07,430 --> 00:57:05,760

happy thank you brother Ah that's

1451

00:57:09,950 --> 00:57:07,440

fantastic if you hang around we'll have

1452

00:57:12,049 --> 00:57:09,960

a chat after the stream finishes uh but

1453

00:57:13,430 --> 00:57:12,059

yeah thank you again uh and thank you to

1454

00:57:15,109 --> 00:57:13,440

the chat thank you for the great
