[Music]

2  
00:00:14,240 --> 00:00:18,050  
thank you

3  
00:00:31,660 --> 00:00:30,290  
[Music]

4  
00:00:35,750 --> 00:00:31,670  
foreign

5  
00:00:40,610 --> 00:00:38,150  
Hello everybody welcome back to the

6  
00:00:42,350 --> 00:00:40,620  
disclosure team YouTube channel

7  
00:00:43,970 --> 00:00:42,360  
um I am really looking forward to this

8  
00:00:45,110 --> 00:00:43,980  
conversation

9  
00:00:46,910 --> 00:00:45,120  
um we're going to be discussing the

10  
00:00:49,310 --> 00:00:46,920  
condyn report now I have been

11  
00:00:50,750 --> 00:00:49,320  
advertising this as a deep dive which I

12  
00:00:52,549 --> 00:00:50,760  
realized today that maybe I shouldn't

13  
00:00:54,590 --> 00:00:52,559

have done because it is a very very long

14

00:00:56,209 --> 00:00:54,600

and extensive document we're not going

15

00:00:57,290 --> 00:00:56,219

to be going through it page for page but

16

00:00:59,510 --> 00:00:57,300

we're going to be talking about the

17

00:01:01,790 --> 00:00:59,520

background leading up to when the report

18

00:01:05,810 --> 00:01:01,800

was written so a lot of stuff focusing

19

00:01:08,149 --> 00:01:05,820

on the 1990s secas di55 and all the

20

00:01:10,370 --> 00:01:08,159

intricacies about that how it was

21

00:01:13,789 --> 00:01:10,380

discovered and then we will be talking

22

00:01:15,410 --> 00:01:13,799

about certain aspects of it and

23

00:01:17,270 --> 00:01:15,420

yeah I think you're going to enjoy this

24

00:01:19,910 --> 00:01:17,280

one we've David's done a lot of prep

25

00:01:21,289 --> 00:01:19,920

work he knows it inside and out so yeah

26

00:01:23,570 --> 00:01:21,299

if anybody does have any questions

27

00:01:25,370 --> 00:01:23,580

please pop them in capital letters and

28

00:01:27,710 --> 00:01:25,380

we'll try and get to them as and when we

29

00:01:29,510 --> 00:01:27,720

can if it's relevant to that particular

30

00:01:31,429 --> 00:01:29,520

moment in the conversation then I'll try

31

00:01:33,050 --> 00:01:31,439

and get it in if not I'll save them sort

32

00:01:35,390 --> 00:01:33,060

of to a bit later on

33

00:01:38,390 --> 00:01:35,400

so yeah keep it nice and polite in the

34

00:01:39,109 --> 00:01:38,400

chat and let's enjoy this one so excuse

35

00:01:42,530 --> 00:01:39,119

me

36

00:01:45,530 --> 00:01:42,540

let's bring in uh my guest a monthly

37

00:01:47,090 --> 00:01:45,540

appearance now on the channel uh my good

38

00:01:49,910 --> 00:01:47,100

friend and colleague Dr David Clark

39

00:01:53,030 --> 00:01:49,920

David hi oh I'm fine thank you looking

40

00:01:55,130 --> 00:01:53,040

forward to this yes absolutely we met

41

00:01:57,170 --> 00:01:55,140

the other night didn't we and uh I think

42

00:02:00,289 --> 00:01:57,180

it's worth mentioning that you

43

00:02:04,670 --> 00:02:00,299

handed me the what the only surviving

44

00:02:06,469 --> 00:02:04,680

original copy is that right yeah

45

00:02:08,330 --> 00:02:06,479

um uh colleague Amano I was working with

46

00:02:10,910 --> 00:02:08,340

at the time when we got this release

47

00:02:11,930 --> 00:02:10,920

called Gary Anthony has a second copy

48

00:02:13,729 --> 00:02:11,940

but I've not I don't know what's

49

00:02:16,130 --> 00:02:13,739

happened together I haven't been in

50

00:02:18,229 --> 00:02:16,140

touch with him for years so if I got run

51  
00:02:20,449 --> 00:02:18,239  
over by a bus or someone that the Men in

52  
00:02:21,830 --> 00:02:20,459  
Black came and stole my copy there is

53  
00:02:25,070 --> 00:02:21,840  
still another one out there as well

54  
00:02:27,350 --> 00:02:25,080  
somewhere I should say this is these are

55  
00:02:29,690 --> 00:02:27,360  
redacted copies you know it's the the

56  
00:02:31,910 --> 00:02:29,700  
original unredacted one is a different

57  
00:02:34,070 --> 00:02:31,920  
story altogether that we'll touch upon

58  
00:02:35,830 --> 00:02:34,080  
we will definitely get into that because

59  
00:02:39,710 --> 00:02:35,840  
that is an ongoing

60  
00:02:42,729 --> 00:02:39,720  
palava let's say but yes I do have the

61  
00:02:45,350 --> 00:02:42,739  
original here and it's an absolutely

62  
00:02:47,809 --> 00:02:45,360  
incredible story about how it came about

63  
00:02:50,449 --> 00:02:47,819

and we'll get into that as well so I

64

00:02:52,790 --> 00:02:50,459

suppose the first point would be let's

65

00:02:55,190 --> 00:02:52,800

touch upon the kind of early to mid 90s

66

00:02:56,390 --> 00:02:55,200

because we know we know from Nick Pope

67

00:02:58,250 --> 00:02:56,400

that you know

68

00:03:00,770 --> 00:02:58,260

well we know from Nick Pope and other

69

00:03:02,509 --> 00:03:00,780

areas that the UFO subject was kind of

70

00:03:05,270 --> 00:03:02,519

worked upon in sort of two different

71

00:03:08,809 --> 00:03:05,280

departments we had secas taking reports

72

00:03:10,390 --> 00:03:08,819

and we had di55 doing the legwork let's

73

00:03:13,190 --> 00:03:10,400

say so

74

00:03:14,690 --> 00:03:13,200

well there's actually three okay yeah

75

00:03:16,430 --> 00:03:14,700

let's take it from there there was a

76

00:03:18,430 --> 00:03:16,440

right there's an RAF

77

00:03:21,170 --> 00:03:18,440

um Branch as well um called

78

00:03:23,990 --> 00:03:21,180

rafge which is ground environment and

79

00:03:26,089 --> 00:03:24,000

they were the section of the RAF that

80

00:03:28,190 --> 00:03:26,099

receive all the data from the various

81

00:03:30,110 --> 00:03:28,200

radar stations

82

00:03:32,330 --> 00:03:30,120

um and also from the a-wax you know from

83

00:03:35,330 --> 00:03:32,340

the Airborne radar so they were the

84

00:03:37,070 --> 00:03:35,340

people who um secas and the I-55 would

85

00:03:39,050 --> 00:03:37,080

immediately say if something was seen

86

00:03:41,149 --> 00:03:39,060

particularly if I from aircrew or

87

00:03:42,830 --> 00:03:41,159

something they would go to that branch

88

00:03:43,610 --> 00:03:42,840

and say

89

00:03:45,470 --> 00:03:43,620

um

90

00:03:47,570 --> 00:03:45,480

did you see anything was there anything

91

00:03:49,430 --> 00:03:47,580

seen on radar at the time and and that

92

00:03:51,949 --> 00:03:49,440

was really the sort of deal breaker for

93

00:03:54,050 --> 00:03:51,959

a lot of the of of the stuff that they

94

00:03:55,670 --> 00:03:54,060

looked into it they'd a lot of the

95

00:03:57,289 --> 00:03:55,680

reports from the public if there was

96

00:03:59,630 --> 00:03:57,299

nothing seen on radar then it was just

97

00:04:02,030 --> 00:03:59,640

right Waste Paper been not interested

98

00:04:03,649 --> 00:04:02,040

what was it like for the pilots in that

99

00:04:05,509 --> 00:04:03,659

throughout the decades for reporting

100

00:04:07,250 --> 00:04:05,519

sightings then because you know we know

101  
00:04:09,410 --> 00:04:07,260  
that in the US it was kind of frowned

102  
00:04:11,869 --> 00:04:09,420  
upon for fear of reprisal and

103  
00:04:13,670 --> 00:04:11,879  
all sorts of repercussions because it

104  
00:04:16,670 --> 00:04:13,680  
seemed was it was it that bad here in

105  
00:04:19,189 --> 00:04:16,680  
the UK definitely and he does actually

106  
00:04:22,490 --> 00:04:19,199  
mention this interestingly in the

107  
00:04:25,370 --> 00:04:22,500  
section on air Miss incidents because he

108  
00:04:27,890 --> 00:04:25,380  
he looks at part of the report that I

109  
00:04:29,570 --> 00:04:27,900  
think in volume three he puts together a

110  
00:04:32,590 --> 00:04:29,580  
list of all the because he was looking

111  
00:04:35,870 --> 00:04:32,600  
for the database that he did 1987 to

112  
00:04:38,810 --> 00:04:35,880  
1997 10-year period and he did actually

113  
00:04:41,450 --> 00:04:38,820

look at all the reports filed by Civil

114

00:04:43,310 --> 00:04:41,460

Air crew of near misses at that time and

115

00:04:45,050 --> 00:04:43,320

there was a very famous one you most

116

00:04:46,930 --> 00:04:45,060

people um listening to this will

117

00:04:50,870 --> 00:04:46,940

remember the one at Manchester Airport

118

00:04:53,210 --> 00:04:50,880

in 1997 whether I think there was a I

119

00:04:55,129 --> 00:04:53,220

think it was a 747 coming into land from

120

00:04:56,689 --> 00:04:55,139

full of holiday makers coming in from

121

00:04:58,790 --> 00:04:56,699

Italy and they're coming in low to

122

00:05:00,350 --> 00:04:58,800

Manchester and the the pilot and the

123

00:05:02,990 --> 00:05:00,360

co-pilot both saw this thing coming

124

00:05:05,510 --> 00:05:03,000

towards them like a Christmas tree all

125

00:05:08,510 --> 00:05:05,520

lit up zooming past well that was one of

126

00:05:10,550 --> 00:05:08,520

the um one of the air near Miss cases

127

00:05:12,710 --> 00:05:10,560

that he looked at and interestingly he

128

00:05:15,290 --> 00:05:12,720

also sort of had access to

129

00:05:16,850 --> 00:05:15,300

um the RAS records of fatal accidents

130

00:05:18,890 --> 00:05:16,860

involving

131

00:05:20,930 --> 00:05:18,900

um RAF aircraft and yeah I think you put

132

00:05:22,550 --> 00:05:20,940

I think he put together a collection of

133

00:05:24,409 --> 00:05:22,560

those from this same period and see if

134

00:05:26,629 --> 00:05:24,419

he could there was any

135

00:05:29,629 --> 00:05:26,639

um anything that he could they could

136

00:05:32,210 --> 00:05:29,639

link it with where an aircraft had had

137

00:05:34,969 --> 00:05:32,220

crashed in unexplained circumstances

138

00:05:37,010 --> 00:05:34,979

where the pilot presumably had taken

139

00:05:39,590 --> 00:05:37,020

evasive action to avoid something seen

140

00:05:42,290 --> 00:05:39,600

coming directly towards them but he

141

00:05:44,150 --> 00:05:42,300

didn't find any correlations that he

142

00:05:47,210 --> 00:05:44,160

could sort of say were indicative of

143

00:05:49,550 --> 00:05:47,220

being a UAP involved but the fact that

144

00:05:50,689 --> 00:05:49,560

he looked at that was interesting but

145

00:05:54,290 --> 00:05:50,699

then there were a lot of them that were

146

00:05:55,670 --> 00:05:54,300

unexplained or unresolved yeah a lot but

147

00:05:58,310 --> 00:05:55,680

we'll get into that maybe a little bit

148

00:06:00,230 --> 00:05:58,320

further down the line and he does say he

149

00:06:02,090 --> 00:06:00,240

does say it's underreported that

150

00:06:03,950 --> 00:06:02,100

basically aircrew aren't reporting it

151

00:06:05,870 --> 00:06:03,960

because of the media

152

00:06:07,310 --> 00:06:05,880

um sensationalism about the subject

153

00:06:08,749 --> 00:06:07,320

which is interesting because this is

154

00:06:10,730 --> 00:06:08,759

exactly the same thing is being

155

00:06:13,129 --> 00:06:10,740

discussed in the Congressional hearings

156

00:06:15,650 --> 00:06:13,139

in the U.S just this last few months

157

00:06:17,450 --> 00:06:15,660

yeah yeah so I guess that the first

158

00:06:20,210 --> 00:06:17,460

thing to do is let's talk about the

159

00:06:22,070 --> 00:06:20,220

study itself when it was I say when it

160

00:06:24,830 --> 00:06:22,080

was discovered but leading up to it we

161

00:06:26,870 --> 00:06:24,840

know that uh well and this is not going

162

00:06:28,249 --> 00:06:26,880

going to be a Nick Poe bashing episode I

163

00:06:29,870 --> 00:06:28,259

just want to say that his name's going

164

00:06:31,670 --> 00:06:29,880

to come up a little bit because one

165

00:06:34,010 --> 00:06:31,680

thing that Nick Pope has stated publicly

166

00:06:37,550 --> 00:06:34,020

and probably more than once is that he

167

00:06:40,189 --> 00:06:37,560

had he kind of kick-started the initial

168

00:06:41,990 --> 00:06:40,199

um discussions about formulating this

169

00:06:43,850 --> 00:06:42,000

report the condiment report but we know

170

00:06:46,070 --> 00:06:43,860

that that's not true because there were

171

00:06:48,050 --> 00:06:46,080

at least two other times that it was uh

172

00:06:49,969 --> 00:06:48,060

talked about but it didn't go through

173

00:06:51,469 --> 00:06:49,979

for lack of funding so do you want to

174

00:06:53,990 --> 00:06:51,479

start there and then we can work our way

175

00:06:55,730 --> 00:06:54,000

through the timeline well I mean there's

176

00:06:57,590 --> 00:06:55,740

so many there's literally hundreds of

177

00:06:59,390 --> 00:06:57,600

background documents that have emerged

178

00:07:01,249 --> 00:06:59,400

quite separate from the report itself

179

00:07:03,590 --> 00:07:01,259

and if you just look at the um the

180

00:07:06,710 --> 00:07:03,600

touring and throw in what Nick says just

181

00:07:08,770 --> 00:07:06,720

doesn't stand up because he was told by

182

00:07:13,189 --> 00:07:08,780

his opposite number

183

00:07:16,070 --> 00:07:13,199

di55c who was the di55 UFO officer who

184

00:07:16,689 --> 00:07:16,080

I've actually spoken to I know who he is

185

00:07:23,809 --> 00:07:16,699

um

186

00:07:27,770 --> 00:07:23,819

study a computerized study of data info

187

00:07:30,589 --> 00:07:27,780

data that they'd been copied by secas

188

00:07:32,210 --> 00:07:30,599

ever since the 1970s so that their files

189

00:07:34,430 --> 00:07:32,220

had built up and up and up and they were

190

00:07:36,589 --> 00:07:34,440

saying well we've never had time to look

191

00:07:38,629 --> 00:07:36,599

at this stuff or do a proper analysis if

192

00:07:40,249 --> 00:07:38,639

any if anybody ever asks us a serious

193

00:07:41,990 --> 00:07:40,259

question about it in Parliament how are

194

00:07:42,950 --> 00:07:42,000

we going to answer it we need and this

195

00:07:44,390 --> 00:07:42,960

is when

196

00:07:45,950 --> 00:07:44,400

some of the folks who are listening

197

00:07:47,990 --> 00:07:45,960

might remember like the very first

198

00:07:50,450 --> 00:07:48,000

computers in the 1980s you know the

199

00:07:52,670 --> 00:07:50,460

amstrads and all that business the mod

200

00:07:55,070 --> 00:07:52,680

were using those sorts of computers and

201  
00:07:56,749 --> 00:07:55,080  
and some bright spark said why don't we

202  
00:07:59,510 --> 00:07:56,759  
start inputting some of these UFO

203  
00:08:01,610 --> 00:07:59,520  
reports into you know a Excel database

204  
00:08:03,770 --> 00:08:01,620  
and and see if we can come up with any

205  
00:08:05,930 --> 00:08:03,780  
information that might help us to

206  
00:08:08,510 --> 00:08:05,940  
explain cases and answer parliamentary

207  
00:08:11,210 --> 00:08:08,520  
questions so they initially tried to get

208  
00:08:14,629 --> 00:08:11,220  
this database going as far back as 1988

209  
00:08:18,290 --> 00:08:14,639  
and it was secas who was saying do not

210  
00:08:19,850 --> 00:08:18,300  
do that under any circumstances and two

211  
00:08:23,749 --> 00:08:19,860  
or three attempts to actually set up

212  
00:08:25,610 --> 00:08:23,759  
this database were were um kiboshed by

213  
00:08:28,610 --> 00:08:25,620

um Nick Pope's predecessors

214

00:08:30,650 --> 00:08:28,620

the head of Zacchaeus just said if you

215

00:08:32,149 --> 00:08:30,660

do this we're saying publicly that we

216

00:08:34,070 --> 00:08:32,159

don't investigate this subject we don't

217

00:08:36,110 --> 00:08:34,080

spend any money on it if it then emerges

218

00:08:37,550 --> 00:08:36,120

that you've been doing this study we're

219

00:08:40,810 --> 00:08:37,560

going to look as if we've been laying

220

00:08:43,490 --> 00:08:40,820

which we have been yeah so don't do it

221

00:08:46,970 --> 00:08:43,500

so second s didn't do anything other

222

00:08:49,790 --> 00:08:46,980

than act as a Clearinghouse for people

223

00:08:52,610 --> 00:08:49,800

reporting publicly and they were copying

224

00:08:54,410 --> 00:08:52,620

everything to di55 and it was di55 who

225

00:08:55,910 --> 00:08:54,420

were pushing for funds to do an actual

226

00:08:58,910 --> 00:08:55,920

study because they took the subject

227

00:09:01,430 --> 00:08:58,920

seriously so all that happened in 1993

228

00:09:03,949 --> 00:09:01,440

when Nick Pope was um the desk officer

229

00:09:05,870 --> 00:09:03,959

was his opposite number in di55 said

230

00:09:09,290 --> 00:09:05,880

right we finally got some money to do a

231

00:09:11,329 --> 00:09:09,300

study and I'm telling you off the Record

232

00:09:14,329 --> 00:09:11,339

um that's what's um we're planning to do

233

00:09:15,829 --> 00:09:14,339

but that study came to nothing yeah as

234

00:09:19,070 --> 00:09:15,839

you as you know Vinnie from looking at

235

00:09:20,930 --> 00:09:19,080

there was even Nick left that post in

236

00:09:23,090 --> 00:09:20,940

1994

237

00:09:26,090 --> 00:09:23,100

um and there was at least two possibly

238

00:09:27,949 --> 00:09:26,100

three other attempts by di55 to get get

239

00:09:31,250 --> 00:09:27,959

the foot the study funded and off the

240

00:09:33,530 --> 00:09:31,260

ground that failed and and the original

241

00:09:35,810 --> 00:09:33,540

study that Nick was told about wasn't

242

00:09:38,150 --> 00:09:35,820

anything like what um eventually Ron

243

00:09:39,829 --> 00:09:38,160

hadu got got to actually do they'd

244

00:09:41,930 --> 00:09:39,839

scaled it down massively they weren't

245

00:09:44,690 --> 00:09:41,940

even going to look at any incidents

246

00:09:46,670 --> 00:09:44,700

specific incidents like red Wilson which

247

00:09:48,769 --> 00:09:46,680

was in the original terms of reference

248

00:09:51,170 --> 00:09:48,779

that got kicked out

249

00:09:53,570 --> 00:09:51,180

um so um by the time it eventually got

250

00:09:56,150 --> 00:09:53,580

commissioned in 1996 which is long after

251

00:09:58,730 --> 00:09:56,160

Nick Pope had moved on it was a

252

00:10:01,070 --> 00:09:58,740

completely different study that was um

253

00:10:03,290 --> 00:10:01,080

that was done yeah and even then

254

00:10:06,410 --> 00:10:03,300

anything that di55 were doing with

255

00:10:08,990 --> 00:10:06,420

relations to UAP and UFOs secas would

256

00:10:11,810 --> 00:10:09,000

not know about it no and for no one

257

00:10:13,190 --> 00:10:11,820

didn't go back it only went up and as a

258

00:10:14,990 --> 00:10:13,200

result of Nick Pope's activities

259

00:10:18,050 --> 00:10:15,000

publishing books and coming out on the

260

00:10:20,870 --> 00:10:18,060

subject it made that um that Schism

261

00:10:23,210 --> 00:10:20,880

between the two departments even wider

262

00:10:25,610 --> 00:10:23,220

because the I-55 was saying don't tell

263

00:10:27,710 --> 00:10:25,620

secas anything because they're leaky

264

00:10:29,210 --> 00:10:27,720

they leak stuff you know look what Nick

265

00:10:32,150 --> 00:10:29,220

Pope's been doing you know with his

266

00:10:34,070 --> 00:10:32,160

media campaign and and so when the

267

00:10:37,070 --> 00:10:34,080

report was completed and delivered in

268

00:10:39,170 --> 00:10:37,080

2000 they didn't even tell

269

00:10:41,030 --> 00:10:39,180

um the UFO desk about it this is the UFO

270

00:10:42,710 --> 00:10:41,040

desk that we have been told is the

271

00:10:45,110 --> 00:10:42,720

central Clearinghouse for all Ministry

272

00:10:46,730 --> 00:10:45,120

of Defense uh statements on the subject

273

00:10:49,250 --> 00:10:46,740

well they weren't even told that this

274

00:10:51,050 --> 00:10:49,260

report had been completed so when I put

275

00:10:55,130 --> 00:10:51,060

in a Freedom of Information Act request

276

00:10:57,590 --> 00:10:55,140

in 2005 to see it the desk officer then

277

00:10:59,150 --> 00:10:57,600

Linda Unwin who I knew really well she

278

00:11:01,370 --> 00:10:59,160

she was doing that job for about five

279

00:11:03,290 --> 00:11:01,380

years she had to go looking for it

280

00:11:06,470 --> 00:11:03,300

because she'd never seen it herself

281

00:11:08,269 --> 00:11:06,480

and she went back to the files from 2000

282

00:11:10,610 --> 00:11:08,279

when they should have received it

283

00:11:12,470 --> 00:11:10,620

there's nothing in the file so I said

284

00:11:14,630 --> 00:11:12,480

well how do you know it was even done

285

00:11:17,810 --> 00:11:14,640

well she said we don't maybe they told

286

00:11:20,210 --> 00:11:17,820

us by telephone so this is the this is

287

00:11:21,650 --> 00:11:20,220

the the UFO desk and there's nothing

288

00:11:24,590 --> 00:11:21,660

about it

289

00:11:26,030 --> 00:11:24,600

that's amazing so how did you first hear

290

00:11:27,410 --> 00:11:26,040

about it because you were doing a lot of

291

00:11:29,930 --> 00:11:27,420

work with the National Archives at the

292

00:11:31,850 --> 00:11:29,940

time so you were fully embedded in the

293

00:11:34,430 --> 00:11:31,860

UFO kind of world when it came to

294

00:11:36,710 --> 00:11:34,440

documents and that and yeah you know so

295

00:11:38,810 --> 00:11:36,720

when did this combine report first come

296

00:11:40,190 --> 00:11:38,820

off your radar well this is interesting

297

00:11:43,130 --> 00:11:40,200

because this makes me feel like a

298

00:11:45,470 --> 00:11:43,140

dinosaur because it's so long ago now

299

00:11:47,150 --> 00:11:45,480

um but you know like I'm a member of UAP

300

00:11:53,389 --> 00:11:47,160

media

301  
00:11:55,670 --> 00:11:53,399  
years ago I was like you Vinnie and

302  
00:11:57,650 --> 00:11:55,680  
Graham and Dan and all the rest of it I

303  
00:11:59,329 --> 00:11:57,660  
was I was in in another little sort of

304  
00:12:01,790 --> 00:11:59,339  
group of individuals then we didn't call

305  
00:12:04,069 --> 00:12:01,800  
ourselves anything but it was basically

306  
00:12:06,410 --> 00:12:04,079  
me Gary Anthony who I've mentioned

307  
00:12:08,150 --> 00:12:06,420  
already who was a really active

308  
00:12:10,910 --> 00:12:08,160  
researcher he was putting in lots and

309  
00:12:13,130 --> 00:12:10,920  
lots of Freedom of Information requests

310  
00:12:16,190 --> 00:12:13,140  
um Joe McGonagall who is still on the

311  
00:12:18,110 --> 00:12:16,200  
scene he Joe's XR British Army he's got

312  
00:12:20,449 --> 00:12:18,120  
a lot of knowledge about the military he

313  
00:12:23,329 --> 00:12:20,459

was really pushing the foi thing as well

314

00:12:24,710 --> 00:12:23,339

Andy Robertson was one of my writing

315

00:12:27,050 --> 00:12:24,720

Partners at the time so the four

316

00:12:30,110 --> 00:12:27,060

revolves we were going to the national

317

00:12:31,850 --> 00:12:30,120

archives in queue and constantly every

318

00:12:33,350 --> 00:12:31,860

every January when they released the

319

00:12:35,990 --> 00:12:33,360

files

320

00:12:38,389 --> 00:12:36,000

um 30th Anniversary um 30 years which we

321

00:12:40,310 --> 00:12:38,399

then had the 30-year rule so we knew we

322

00:12:42,170 --> 00:12:40,320

knew that we knew the the and we were

323

00:12:43,850 --> 00:12:42,180

also tracing some of the people who were

324

00:12:47,449 --> 00:12:43,860

in who were mentioned whose names are in

325

00:12:48,230 --> 00:12:47,459

those files and and interviewing them

326

00:12:54,590 --> 00:12:48,240

um

327

00:12:56,629 --> 00:12:54,600

the info desk officer at Whitehall we

328

00:12:58,250 --> 00:12:56,639

got I mean she was great she was

329

00:12:59,509 --> 00:12:58,260

brilliant and this was when Freedom of

330

00:13:01,190 --> 00:12:59,519

Information was actually working

331

00:13:03,650 --> 00:13:01,200

properly when you could ask for things

332

00:13:05,990 --> 00:13:03,660

and if they got them they would go and

333

00:13:07,370 --> 00:13:06,000

find them for you and say yes you can

334

00:13:09,550 --> 00:13:07,380

have it we may have to take something

335

00:13:11,690 --> 00:13:09,560

out it's National Security but

336

00:13:14,090 --> 00:13:11,700

completely different to how it is today

337

00:13:16,670 --> 00:13:14,100

and you know I was on such friendly

338

00:13:18,290 --> 00:13:16,680

terms with them they invited me down to

339

00:13:21,949 --> 00:13:18,300

White art to the Minister of Defense

340

00:13:24,650 --> 00:13:21,959

main building two occasions I went there

341

00:13:26,990 --> 00:13:24,660

um and one occasion with Joe

342

00:13:29,509 --> 00:13:27,000

um we had a whole set of questions

343

00:13:32,509 --> 00:13:29,519

um three or four pages of questions you

344

00:13:35,810 --> 00:13:32,519

know what about specific cases and about

345

00:13:38,389 --> 00:13:35,820

how they investigated UFO incidents and

346

00:13:40,550 --> 00:13:38,399

they invited us in we actually went sat

347

00:13:42,470 --> 00:13:40,560

on the UFO desk which looked exactly

348

00:13:44,509 --> 00:13:42,480

like the desk I'm sat at now there was

349

00:13:46,910 --> 00:13:44,519

nothing special about it

350

00:13:49,550 --> 00:13:46,920

um and we're able to sort of do a q a

351  
00:13:51,949 --> 00:13:49,560  
with Linda and her boss Rob Lincoln at

352  
00:13:53,509 --> 00:13:51,959  
the time who was the head of secas they

353  
00:13:56,269 --> 00:13:53,519  
wouldn't allow us to record the

354  
00:13:59,170 --> 00:13:56,279  
conversation but they did send us like a

355  
00:14:02,509 --> 00:13:59,180  
list of answers to our written questions

356  
00:14:04,370 --> 00:14:02,519  
and the second time I went down was um I

357  
00:14:08,269 --> 00:14:04,380  
think it must have been April or May

358  
00:14:11,870 --> 00:14:08,279  
2006 so this I requested a copy of the

359  
00:14:13,670 --> 00:14:11,880  
condyn report on the 1st of January 2005

360  
00:14:15,889 --> 00:14:13,680  
which is when the Freedom of Information

361  
00:14:18,829 --> 00:14:15,899  
Act it was implemented and I already

362  
00:14:20,509 --> 00:14:18,839  
knew the report existed because I'd

363  
00:14:21,889 --> 00:14:20,519

found out from talking to Linda and

364

00:14:24,350 --> 00:14:21,899

going back through some of these old

365

00:14:27,889 --> 00:14:24,360

documents I knew they'd commissioned it

366

00:14:30,530 --> 00:14:27,899

and knew that di55 in the year 2000 had

367

00:14:32,569 --> 00:14:30,540

pulled out of the subject altogether and

368

00:14:35,629 --> 00:14:32,579

had told secas don't send us any more

369

00:14:38,269 --> 00:14:35,639

food don't send us any more reports so I

370

00:14:40,490 --> 00:14:38,279

asked Linda why why did they pull out of

371

00:14:42,050 --> 00:14:40,500

it and and she she sort of went and

372

00:14:44,269 --> 00:14:42,060

looked and said well

373

00:14:46,670 --> 00:14:44,279

uh they they pulled out of it because

374

00:14:48,530 --> 00:14:46,680

they did some kind of study

375

00:14:50,689 --> 00:14:48,540

um that concluded they no longer needed

376

00:14:53,569 --> 00:14:50,699

to receive reports and that as soon as I

377

00:14:55,490 --> 00:14:53,579

heard that I thought study right there

378

00:14:58,490 --> 00:14:55,500

must be a report then so let's see it

379

00:15:00,650 --> 00:14:58,500

and so I put in the foi request for the

380

00:15:02,509 --> 00:15:00,660

report in first of January and it took

381

00:15:03,470 --> 00:15:02,519

him a year I think it took him until

382

00:15:05,870 --> 00:15:03,480

like

383

00:15:08,449 --> 00:15:05,880

May 2006.

384

00:15:10,490 --> 00:15:08,459

to go through it line by line to see

385

00:15:11,930 --> 00:15:10,500

what had to come out and then Linda rang

386

00:15:13,910 --> 00:15:11,940

me up and said would you like to come

387

00:15:17,810 --> 00:15:13,920

down to London we've got a copy for you

388

00:15:19,310 --> 00:15:17,820

such a hopped on a train went into the

389

00:15:20,930 --> 00:15:19,320

ministry of Defense main building

390

00:15:23,110 --> 00:15:20,940

through the big bubble thing where the

391

00:15:25,430 --> 00:15:23,120

body scan you with the

392

00:15:27,290 --> 00:15:25,440

guys standing around with submachine

393

00:15:28,850 --> 00:15:27,300

guns and what have you and and she just

394

00:15:31,129 --> 00:15:28,860

she was just waiting with a big brown

395

00:15:32,689 --> 00:15:31,139

envelope here it is handed it over I

396

00:15:34,430 --> 00:15:32,699

couldn't I couldn't believe it I just

397

00:15:36,110 --> 00:15:34,440

could not believe it

398

00:15:38,210 --> 00:15:36,120

um so I walked out of mod main building

399

00:15:41,030 --> 00:15:38,220

sat in a coffee shop in Trafalgar Square

400

00:15:43,370 --> 00:15:41,040

and took this thing out and sort of here

401  
00:15:46,069 --> 00:15:43,380  
it is sort of I can't believe this is

402  
00:15:48,230 --> 00:15:46,079  
the top secret report on uaps that

403  
00:15:50,810 --> 00:15:48,240  
they've done in secrecy

404  
00:15:53,810 --> 00:15:50,820  
and kept under wraps for how long about

405  
00:15:56,210 --> 00:15:53,820  
it five or six years yeah it was yeah

406  
00:15:59,329 --> 00:15:56,220  
and so at that time when you were around

407  
00:16:02,810 --> 00:15:59,339  
that time early 2000s did you have any

408  
00:16:05,210 --> 00:16:02,820  
connections or sources in di55 or was

409  
00:16:12,889 --> 00:16:05,220  
that just they just definitely were just

410  
00:16:16,370 --> 00:16:14,870  
um well from this from the materials of

411  
00:16:19,250 --> 00:16:16,380  
the National Archives because this was

412  
00:16:21,650 --> 00:16:19,260  
before they started redacting names from

413  
00:16:24,889 --> 00:16:21,660

the documents this is before gdpr this

414

00:16:26,389 --> 00:16:24,899

is before data protection so everything

415

00:16:28,610 --> 00:16:26,399

up to

416

00:16:30,410 --> 00:16:28,620

um 1984

417

00:16:32,629 --> 00:16:30,420

had been released

418

00:16:34,009 --> 00:16:32,639

with no redactions you can go there now

419

00:16:36,050 --> 00:16:34,019

and you can order it up in the reading

420

00:16:37,970 --> 00:16:36,060

room you've done this video yeah with

421

00:16:39,050 --> 00:16:37,980

you with Dan and and the others in

422

00:16:41,569 --> 00:16:39,060

Graham

423

00:16:45,230 --> 00:16:41,579

the names are in there so the people who

424

00:16:49,009 --> 00:16:45,240

were in di55 in the 1960s and the 1970s

425

00:16:50,749 --> 00:16:49,019

their names are there right so and so

426

00:16:52,970 --> 00:16:50,759

I'd track some of them down the ones who

427

00:16:54,650 --> 00:16:52,980

were still alive and talk to them and

428

00:16:56,150 --> 00:16:54,660

they were quite most of them were quite

429

00:16:57,410 --> 00:16:56,160

happy to talk

430

00:17:00,410 --> 00:16:57,420

I mean they'd probably not be around

431

00:17:04,370 --> 00:17:00,420

anymore but I I spoke to some of the

432

00:17:06,650 --> 00:17:04,380

um they are all men who were um they

433

00:17:09,230 --> 00:17:06,660

were defense scientists they're not

434

00:17:11,270 --> 00:17:09,240

military people they are the people with

435

00:17:13,789 --> 00:17:11,280

technical intelligence especially and

436

00:17:15,590 --> 00:17:13,799

this is where the author of The condone

437

00:17:18,010 --> 00:17:15,600

report maybe one wants to show a picture

438

00:17:21,350 --> 00:17:18,020

of him I'll bring him up yes

439

00:17:23,689 --> 00:17:21,360

we found we didn't know this immediately

440

00:17:25,970 --> 00:17:23,699

it took some digging digging around and

441

00:17:28,370 --> 00:17:25,980

talking to people but um

442

00:17:29,450 --> 00:17:28,380

yeah let's talk about that because that

443

00:17:31,610 --> 00:17:29,460

was Secret

444

00:17:33,350 --> 00:17:31,620

for a long yes they would they would not

445

00:17:35,630 --> 00:17:33,360

tell me Linda underwing would not tell

446

00:17:36,590 --> 00:17:35,640

me who who the author is who the author

447

00:17:40,370 --> 00:17:36,600

was

448

00:17:41,990 --> 00:17:40,380

and this is Ron haddo and if anyone

449

00:17:45,890 --> 00:17:42,000

could be described as the ministry of

450

00:17:47,810 --> 00:17:45,900

Defense as a UFO expert it is wrong

451

00:17:49,370 --> 00:17:47,820

um and the reason they brought him in to

452

00:17:51,710 --> 00:17:49,380

write this was they didn't think anyone

453

00:17:54,890 --> 00:17:51,720

else was qualified to do it

454

00:17:57,710 --> 00:17:54,900

um he um had worked for him for di55 for

455

00:17:59,510 --> 00:17:57,720

many years he'd had his own UFO sighting

456

00:18:00,529 --> 00:17:59,520

in the 1950s when he was flying a

457

00:18:03,590 --> 00:18:00,539

Canberra

458

00:18:05,750 --> 00:18:03,600

secret Intruder operation presumably

459

00:18:09,470 --> 00:18:05,760

over the Soviet Union he actually filled

460

00:18:11,510 --> 00:18:09,480

in one of the UFO report forms he says

461

00:18:13,250 --> 00:18:11,520

this in his in his letter that's in the

462

00:18:16,610 --> 00:18:13,260

files you know about the setting up of

463

00:18:18,970 --> 00:18:16,620

the study yeah and um he worked for gec

464

00:18:22,250 --> 00:18:18,980

Marconi which is like one of the Premier

465

00:18:25,070 --> 00:18:22,260

electronic companies in the UK I think

466

00:18:28,010 --> 00:18:25,080

it's now um part of kinetic

467

00:18:30,650 --> 00:18:28,020

um he'd flown in the RAF from the 1950s

468

00:18:33,590 --> 00:18:30,660

he'd been involved in intrude emissions

469

00:18:37,250 --> 00:18:33,600

as I say over the Soviet Union

470

00:18:39,529 --> 00:18:37,260

um his expertise is radar and that's the

471

00:18:43,490 --> 00:18:39,539

that's probably why he was qualified and

472

00:18:46,010 --> 00:18:43,500

he is Professor Ron hadu and I did a bit

473

00:18:49,730 --> 00:18:46,020

of digging and I thought well what was

474

00:18:51,950 --> 00:18:49,740

his PhD in and I found his PhD at the

475

00:18:54,950 --> 00:18:51,960

University of Loughborough guess what

476

00:18:57,650 --> 00:18:54,960

the PHD is about now I've got a the

477

00:19:00,230 --> 00:18:57,660

title page here it's the probability of

478

00:19:04,250 --> 00:19:00,240

detecting and tracking radar Targets in

479

00:19:07,970 --> 00:19:04,260

clutter at low grazing uh angles which

480

00:19:13,789 --> 00:19:10,669

what his PhD was about is how you can

481

00:19:16,850 --> 00:19:13,799

use radar to track and identify flying

482

00:19:20,029 --> 00:19:16,860

objects at low altitude

483

00:19:22,970 --> 00:19:20,039

so trying under the kind of Radar Radar

484

00:19:25,909 --> 00:19:22,980

cover isn't that what UFOs do exactly

485

00:19:27,710 --> 00:19:25,919

that yeah or uaps as we now call them

486

00:19:29,270 --> 00:19:27,720

well they say you now call them they

487

00:19:31,549 --> 00:19:29,280

call them now for this study didn't they

488

00:19:33,230 --> 00:19:31,559

well they did yeah they preferred uaps

489

00:19:36,350 --> 00:19:33,240

and this is this is obviously they use

490

00:19:37,730 --> 00:19:36,360

the the UAP thing and this is like if

491

00:19:39,409 --> 00:19:37,740

you look in those documents when they

492

00:19:41,810 --> 00:19:39,419

were commissioning the

493

00:19:46,669 --> 00:19:41,820

the report in the late 90s and there was

494

00:19:48,169 --> 00:19:46,679

this to and fro between them and secas

495

00:19:51,289 --> 00:19:48,179

um they would they were using the phrase

496

00:19:53,510 --> 00:19:51,299

UAP and second yes we're using UFOs and

497

00:19:55,190 --> 00:19:53,520

and the head of secas was saying why are

498

00:19:57,669 --> 00:19:55,200

you using new APS

499

00:20:00,230 --> 00:19:57,679

what's that all about

500

00:20:01,430 --> 00:20:00,240

uh just a quick mention to the live chat

501  
00:20:03,650 --> 00:20:01,440  
I've got yeah I've seen your question

502  
00:20:05,210 --> 00:20:03,660  
Jonathan I've got yours in fact I'll ask

503  
00:20:08,510 --> 00:20:05,220  
Jonathan's now because that is a really

504  
00:20:10,549 --> 00:20:08,520  
good question uh did di55 really close

505  
00:20:12,710 --> 00:20:10,559  
or was it a change of name was it taken

506  
00:20:14,690 --> 00:20:12,720  
into the private sector to avoid foia

507  
00:20:18,830 --> 00:20:14,700  
and government scrutiny

508  
00:20:21,770 --> 00:20:18,840  
great question that Jonathan and uh they

509  
00:20:23,690 --> 00:20:21,780  
say it's it no longer exists and I'm

510  
00:20:26,029 --> 00:20:23,700  
sure they're right because like with all

511  
00:20:28,130 --> 00:20:26,039  
these um you know like if we if we go

512  
00:20:31,610 --> 00:20:28,140  
back to the UFO desk

513  
00:20:34,610 --> 00:20:31,620

it was called um S6 air back in the

514

00:20:37,549 --> 00:20:34,620

1950s then it became S4 Air then it

515

00:20:41,090 --> 00:20:37,559

became ds8 then it becomes secas then it

516

00:20:43,490 --> 00:20:41,100

becomes Das the these departments are

517

00:20:45,890 --> 00:20:43,500

moving around changing the names merging

518

00:20:48,770 --> 00:20:45,900

with each other so I'm pretty sure the

519

00:20:51,230 --> 00:20:48,780

di55 no longer exists but there will be

520

00:20:52,730 --> 00:20:51,240

another Branch or agency of the defense

521

00:20:56,150 --> 00:20:52,740

intelligence staff that are doing

522

00:20:57,350 --> 00:20:56,160

exactly what the I-55 were doing under a

523

00:20:59,750 --> 00:20:57,360

different name and I think you've hit

524

00:21:02,090 --> 00:20:59,760

the nail right on the head when you say

525

00:21:02,870 --> 00:21:02,100

it's been moved outside

526  
00:21:05,510 --> 00:21:02,880  
um

527  
00:21:07,370 --> 00:21:05,520  
into the private sector they've got some

528  
00:21:09,950 --> 00:21:07,380  
kind of um

529  
00:21:12,590 --> 00:21:09,960  
um private sort of

530  
00:21:14,210 --> 00:21:12,600  
um contractor a bit like Ron haddo

531  
00:21:17,570 --> 00:21:14,220  
because what had happened with ROM was

532  
00:21:19,370 --> 00:21:17,580  
he'd been in di55 he retired about the

533  
00:21:21,230 --> 00:21:19,380  
time that they commissioned this study

534  
00:21:23,870 --> 00:21:21,240  
and they thought well we'll get him back

535  
00:21:25,909 --> 00:21:23,880  
one final job you know get him to write

536  
00:21:28,070 --> 00:21:25,919  
the the report and so he was brought

537  
00:21:30,169 --> 00:21:28,080  
back from retirement he wrapped it up

538  
00:21:31,669 --> 00:21:30,179

within another defense contract so that

539

00:21:34,909 --> 00:21:31,679

he didn't have to say it was very

540

00:21:37,130 --> 00:21:34,919

specifically about uaps and that's how

541

00:21:38,810 --> 00:21:37,140

they hid it from the public for the

542

00:21:40,730 --> 00:21:38,820

length of time they did but

543

00:21:42,710 --> 00:21:40,740

they didn't hide it very well because we

544

00:21:44,990 --> 00:21:42,720

we've got we've got it

545

00:21:47,450 --> 00:21:45,000

um but I think that as a result of all

546

00:21:50,390 --> 00:21:47,460

the publicity and all the um the upset

547

00:21:52,190 --> 00:21:50,400

that we've caused I think they they've

548

00:21:54,110 --> 00:21:52,200

they've obviously got into a huddle and

549

00:21:56,330 --> 00:21:54,120

said how can we avoid all this stuff

550

00:21:59,270 --> 00:21:56,340

coming out again and they'll come up

551  
00:22:02,450 --> 00:21:59,280  
with some dastardly plan to hide whoever

552  
00:22:05,090 --> 00:22:02,460  
it is who's now responsible for um uaps

553  
00:22:06,710 --> 00:22:05,100  
and to make sure that nosy Parker's

554  
00:22:08,990 --> 00:22:06,720  
making um Freedom of Information

555  
00:22:10,970 --> 00:22:09,000  
requests they can just say we don't have

556  
00:22:12,890 --> 00:22:10,980  
anything on this subject yeah we don't

557  
00:22:14,990 --> 00:22:12,900  
have any records and strictly speaking

558  
00:22:18,049 --> 00:22:15,000  
it's true because

559  
00:22:20,510 --> 00:22:18,059  
they can only they only have to admit to

560  
00:22:23,930 --> 00:22:20,520  
records that are held in a by a public

561  
00:22:26,630 --> 00:22:23,940  
body that's what the foi covers so if

562  
00:22:28,610 --> 00:22:26,640  
they've paid a private com contractor to

563  
00:22:30,950 --> 00:22:28,620

look after their paperwork and look

564

00:22:32,870 --> 00:22:30,960

after any investigations they're doing

565

00:22:35,149 --> 00:22:32,880

they can just move all the paperwork to

566

00:22:37,610 --> 00:22:35,159

the private contractor and they don't

567

00:22:39,649 --> 00:22:37,620

then have to respond to any Freedom of

568

00:22:41,630 --> 00:22:39,659

Information requests yeah I think that's

569

00:22:43,789 --> 00:22:41,640

what's happened absolutely and it's very

570

00:22:46,669 --> 00:22:43,799

clear you mentioned there there's a lot

571

00:22:49,549 --> 00:22:46,679

of documents that were flying around at

572

00:22:51,590 --> 00:22:49,559

the time as well from di55 that are

573

00:22:53,570 --> 00:22:51,600

available you know some of them are

574

00:22:56,690 --> 00:22:53,580

redacted I've got copies of all of those

575

00:22:58,490 --> 00:22:56,700

and it's very clear that they were

576  
00:23:00,409 --> 00:22:58,500  
concerned about the UFO community and

577  
00:23:02,810 --> 00:23:00,419  
the researchers they they knew they were

578  
00:23:04,730 --> 00:23:02,820  
going to get questions so they were very

579  
00:23:06,110 --> 00:23:04,740  
much Towing the line trying to do what

580  
00:23:08,750 --> 00:23:06,120  
they can to keep the information away

581  
00:23:11,270 --> 00:23:08,760  
from from the researchers and what I'm

582  
00:23:13,070 --> 00:23:11,280  
going to do maybe later after this video

583  
00:23:14,390 --> 00:23:13,080  
I am going to create a folder with all

584  
00:23:16,750 --> 00:23:14,400  
these documents for anybody that wants

585  
00:23:18,950 --> 00:23:16,760  
to go in to do

586  
00:23:21,169 --> 00:23:18,960  
because this is separate from the actual

587  
00:23:23,990 --> 00:23:21,179  
report and it's all about the study and

588  
00:23:25,850 --> 00:23:24,000

how it's created and why and it's really

589

00:23:27,110 --> 00:23:25,860

interesting so I will create that and

590

00:23:28,909 --> 00:23:27,120

put a link in the description below

591

00:23:31,310 --> 00:23:28,919

after the fact

592

00:23:32,930 --> 00:23:31,320

um I suppose the next point to make in

593

00:23:35,630 --> 00:23:32,940

fact do we have any of the documents

594

00:23:37,430 --> 00:23:35,640

that we want to show just yet

595

00:23:38,990 --> 00:23:37,440

um

596

00:23:40,490 --> 00:23:39,000

doesn't matter if we don't I'm just

597

00:23:41,690 --> 00:23:40,500

looking we've got lots of documents open

598

00:23:42,890 --> 00:23:41,700

that we want to share throughout the

599

00:23:45,890 --> 00:23:42,900

video so I just want to make sure we

600

00:23:47,810 --> 00:23:45,900

don't miss the timing of them

601  
00:23:50,570 --> 00:23:47,820  
um do you want to show that one where

602  
00:23:52,490 --> 00:23:50,580  
Ron is is basically saying what he's

603  
00:23:55,010 --> 00:23:52,500  
gonna what his report is gonna find

604  
00:23:58,370 --> 00:23:55,020  
before he's written it that's conclusion

605  
00:24:00,230 --> 00:23:58,380  
isn't it yeah that's a shocking document

606  
00:24:02,330 --> 00:24:00,240  
yeah which

607  
00:24:04,490 --> 00:24:02,340  
explain that again that he actually

608  
00:24:05,870 --> 00:24:04,500  
basically the whole point that I have to

609  
00:24:07,610 --> 00:24:05,880  
explain this to students all the time

610  
00:24:09,529 --> 00:24:07,620  
who are doing dissertations the purpose

611  
00:24:12,529 --> 00:24:09,539  
of research is not to prove something

612  
00:24:14,750 --> 00:24:12,539  
that you already think is the is the

613  
00:24:17,029 --> 00:24:14,760

case it's like it's like saying you know

614

00:24:19,909 --> 00:24:17,039

I think the sky is blue therefore I'm

615

00:24:22,490 --> 00:24:19,919

gonna go and prove it's blue you know

616

00:24:25,430 --> 00:24:22,500

you do research to in a totally

617

00:24:27,950 --> 00:24:25,440

objective open-minded way

618

00:24:30,770 --> 00:24:27,960

um to explore questions that you think

619

00:24:33,169 --> 00:24:30,780

haven't been answered so if you're if

620

00:24:36,470 --> 00:24:33,179

you set out with a with a preconceived

621

00:24:38,630 --> 00:24:36,480

idea of what you're going to find and

622

00:24:40,250 --> 00:24:38,640

you set out specifically to prove that

623

00:24:42,830 --> 00:24:40,260

of course you're going to find evidence

624

00:24:49,210 --> 00:24:42,840

to support your contention that's

625

00:24:53,510 --> 00:24:51,590

the whole subject really yeah yeah yeah

626  
00:24:55,669 --> 00:24:53,520  
and yeah

627  
00:24:57,289 --> 00:24:55,679  
um I mean we haven't even got on to the

628  
00:25:00,230 --> 00:24:57,299  
methodology I mean how he went about

629  
00:25:01,730 --> 00:25:00,240  
actually doing the the study fatally

630  
00:25:03,770 --> 00:25:01,740  
flawed

631  
00:25:05,510 --> 00:25:03,780  
yeah so here you see um I'm just gonna

632  
00:25:08,090 --> 00:25:05,520  
close my window I'll be back in one

633  
00:25:09,770 --> 00:25:08,100  
second I'll let you go through this this

634  
00:25:11,930 --> 00:25:09,780  
is brilliant if this was a student

635  
00:25:13,610 --> 00:25:11,940  
submitting a dissertation proposal it'd

636  
00:25:15,710 --> 00:25:13,620  
be failed straight away

637  
00:25:17,330 --> 00:25:15,720  
so he's basically saying the second

638  
00:25:19,010 --> 00:25:17,340

sentence could cause considerable

639

00:25:21,350 --> 00:25:19,020

embarrassment if it was discovered in

640

00:25:23,990 --> 00:25:21,360

the future that di55 have done some

641

00:25:27,769 --> 00:25:24,000

research I am particularly looking ahead

642

00:25:30,110 --> 00:25:27,779

to my expected recommendation that di55

643

00:25:33,049 --> 00:25:30,120

should no longer be involved in UAP

644

00:25:35,450 --> 00:25:33,059

monitoring so think about it folks this

645

00:25:37,310 --> 00:25:35,460

is um he's been told to go off and look

646

00:25:39,890 --> 00:25:37,320

at what they've got on this subject and

647

00:25:43,250 --> 00:25:39,900

decide whether there's any evidence in

648

00:25:45,230 --> 00:25:43,260

the data that suggests that UA uaps or

649

00:25:46,970 --> 00:25:45,240

UFOs or whatever they are wherever they

650

00:25:49,250 --> 00:25:46,980

come from wherever they are are they a

651  
00:25:51,110 --> 00:25:49,260  
threat to the UK

652  
00:25:52,970 --> 00:25:51,120  
so what he's saying here is before he's

653  
00:25:54,950 --> 00:25:52,980  
actually done the research

654  
00:25:57,529 --> 00:25:54,960  
he's already decided what the conclusion

655  
00:25:59,870 --> 00:25:57,539  
is and that is that they don't pose a

656  
00:26:02,029 --> 00:25:59,880  
threat to the UK

657  
00:26:04,490 --> 00:26:02,039  
um re air defense reason and that

658  
00:26:07,490 --> 00:26:04,500  
basically means that his former employer

659  
00:26:09,950 --> 00:26:07,500  
the mod and di55 don't need to be

660  
00:26:11,750 --> 00:26:09,960  
monitoring the subject anymore so that

661  
00:26:14,330 --> 00:26:11,760  
to me that that what you're looking at

662  
00:26:17,210 --> 00:26:14,340  
there says it says what was really going

663  
00:26:18,649 --> 00:26:17,220

on they were saying to him ROM is 50 000

664

00:26:20,630 --> 00:26:18,659

pounds we know you're interested in this

665

00:26:22,669 --> 00:26:20,640

subject off you go

666

00:26:24,110 --> 00:26:22,679

um do a bit of research on it you can

667

00:26:25,730 --> 00:26:24,120

see what you like but as long as you

668

00:26:27,110 --> 00:26:25,740

come out with the recommendation that we

669

00:26:30,350 --> 00:26:27,120

should no longer be involved in it

670

00:26:32,269 --> 00:26:30,360

that's all we want to hear that isn't

671

00:26:35,630 --> 00:26:32,279

the way folks to do research is it

672

00:26:37,310 --> 00:26:35,640

really so he's saying there someone will

673

00:26:39,710 --> 00:26:37,320

have to explain

674

00:26:41,630 --> 00:26:39,720

why this is so assuming the

675

00:26:43,190 --> 00:26:41,640

recommendation is accepted so he hasn't

676

00:26:44,930 --> 00:26:43,200

even done the research to reach the

677

00:26:46,730 --> 00:26:44,940

recommendation but he already knows what

678

00:26:49,610 --> 00:26:46,740

the recommendation is going to be so

679

00:26:52,250 --> 00:26:49,620

he's saying when and if the ufologist

680

00:26:54,409 --> 00:26:52,260

Discover this they will inevitably ask

681

00:26:56,690 --> 00:26:54,419

is there no further intelligence

682

00:26:59,390 --> 00:26:56,700

interest because mod now know for

683

00:27:00,950 --> 00:26:59,400

certain what these phenomena are how

684

00:27:02,750 --> 00:27:00,960

could this conclusion have been reached

685

00:27:05,210 --> 00:27:02,760

without doing research or having some

686

00:27:07,970 --> 00:27:05,220

sort of intelligence confirmation

687

00:27:09,169 --> 00:27:07,980

if there was nothing to worry about why

688

00:27:12,049 --> 00:27:09,179

couldn't this conclusion have been

689

00:27:15,230 --> 00:27:12,059

reached earlier and were and this is a

690

00:27:17,990 --> 00:27:15,240

key one I think were mod aware that

691

00:27:19,610 --> 00:27:18,000

black covert aircraft in the UK air

692

00:27:22,190 --> 00:27:19,620

defense region

693

00:27:24,049 --> 00:27:22,200

have visited the UK air defense I think

694

00:27:26,870 --> 00:27:24,059

that's a specific reference to Calvin

695

00:27:28,669 --> 00:27:26,880

yeah because of the safety aspects and

696

00:27:30,409 --> 00:27:28,679

if so why would the public not reassured

697

00:27:32,750 --> 00:27:30,419

and he's also saying there that the name

698

00:27:36,409 --> 00:27:32,760

blacked out I'm absolutely sure is Nick

699

00:27:38,330 --> 00:27:36,419

Pope and he's saying he realizes that

700

00:27:39,710 --> 00:27:38,340

there's a lot of public attention now on

701

00:27:41,390 --> 00:27:39,720

this subject because of the fact that

702

00:27:42,710 --> 00:27:41,400

Nick Pope's written a book one of our

703

00:27:44,570 --> 00:27:42,720

former

704

00:27:47,090 --> 00:27:44,580

um uh people who used to work for us or

705

00:27:48,710 --> 00:27:47,100

did still did at that time and he also

706

00:27:50,450 --> 00:27:48,720

mentions Nick Redford as well because he

707

00:27:52,130 --> 00:27:50,460

was another one who was writing but

708

00:27:54,470 --> 00:27:52,140

obviously a member of the public who was

709

00:27:57,470 --> 00:27:54,480

causing them a lot of trouble

710

00:27:59,450 --> 00:27:57,480

um around this period late 1990s and

711

00:28:00,890 --> 00:27:59,460

we'll just say the reason why you say

712

00:28:02,930 --> 00:28:00,900

that it's Nick Pope in that blacked out

713

00:28:05,029 --> 00:28:02,940

box you have been told that from someone

714

00:28:06,230 --> 00:28:05,039

it's not I mean it'd be great if it's an

715

00:28:07,789 --> 00:28:06,240

educated guess but you have actually

716

00:28:09,289 --> 00:28:07,799

been told that from someone yeah and

717

00:28:12,110 --> 00:28:09,299

there are other documents where he's

718

00:28:14,870 --> 00:28:12,120

mentioned by name specifically that um

719

00:28:17,210 --> 00:28:14,880

that's the reason why the I don't trust

720

00:28:18,950 --> 00:28:17,220

secas anymore because of the fact that

721

00:28:20,269 --> 00:28:18,960

um his activities have been that they

722

00:28:23,390 --> 00:28:20,279

don't trust them

723

00:28:26,269 --> 00:28:23,400

with information so that's shocking so

724

00:28:29,570 --> 00:28:26,279

already before the report's done we know

725

00:28:32,090 --> 00:28:29,580

that they are going to be honing in on a

726

00:28:35,649 --> 00:28:32,100

conclusion that's pre-specified let's

727

00:28:40,130 --> 00:28:38,510

he clearly thought that there was

728

00:28:42,409 --> 00:28:40,140

something in the UFO I mean because I

729

00:28:44,029 --> 00:28:42,419

just read you a a paragraph which I

730

00:28:46,010 --> 00:28:44,039

think is key

731

00:28:48,289 --> 00:28:46,020

um in the if you go to vol 1 I think

732

00:28:51,470 --> 00:28:48,299

it's paid the first page of vol 1 he

733

00:28:55,430 --> 00:28:51,480

says he just introduces the subject and

734

00:28:58,130 --> 00:28:55,440

he says that UFOs or uaps exist is

735

00:29:02,330 --> 00:28:58,140

indisputable credited with the ability

736

00:29:04,730 --> 00:29:02,340

to hover land take off accelerate to um

737

00:29:06,890 --> 00:29:04,740

exceptional velocities or vanish they

738

00:29:09,409 --> 00:29:06,900

can reportedly alter their direction of

739

00:29:11,630 --> 00:29:09,419

flight suddenly and clearly can exhibit

740

00:29:13,549 --> 00:29:11,640

aerodynamic characteristics well beyond

741

00:29:16,130 --> 00:29:13,559

those of any known aircraft or missile

742

00:29:18,289 --> 00:29:16,140

whether Mando or unmanned

743

00:29:21,049 --> 00:29:18,299

he says that you know in his first page

744

00:29:22,850 --> 00:29:21,059

that's the line that most people pull

745

00:29:24,409 --> 00:29:22,860

out of that entire report and go look

746

00:29:26,690 --> 00:29:24,419

the UK thought there was definitely

747

00:29:27,889 --> 00:29:26,700

something to it yeah you know when you

748

00:29:29,810 --> 00:29:27,899

look at the big picture of the whole

749

00:29:31,250 --> 00:29:29,820

report that's exactly the opposite of

750

00:29:32,570 --> 00:29:31,260

what they were saying so and this is

751  
00:29:34,789 --> 00:29:32,580  
something I mentioned to you the other

752  
00:29:36,470 --> 00:29:34,799  
night when we met up is that do you

753  
00:29:40,909 --> 00:29:36,480  
think there's many contradictions in the

754  
00:29:43,010 --> 00:29:40,919  
report and you said what yeah I mean he

755  
00:29:44,870 --> 00:29:43,020  
he said he took he talks about it as if

756  
00:29:46,970 --> 00:29:44,880  
it's this is a scientific report and

757  
00:29:49,430 --> 00:29:46,980  
he's using scientific data and he's not

758  
00:29:52,130 --> 00:29:49,440  
getting involved in the the UFO topic

759  
00:29:53,149 --> 00:29:52,140  
and yeah he if you look at Vol 2 where

760  
00:29:55,970 --> 00:29:53,159  
he's got all these different working

761  
00:29:58,310 --> 00:29:55,980  
papers he actually uses Paul devere's

762  
00:30:00,769 --> 00:29:58,320  
earthlight's book and a book by Jenny

763  
00:30:02,990 --> 00:30:00,779

Randalls calls how you feels and how to

764

00:30:04,970 --> 00:30:03,000

see them so he says he's tried to keep

765

00:30:07,510 --> 00:30:04,980

out of that and yet he clearly has red

766

00:30:09,289 --> 00:30:07,520

bits of the UFO literature

767

00:30:11,210 --> 00:30:09,299

contradicting himself all the way

768

00:30:12,830 --> 00:30:11,220

through it so they're trying to stay

769

00:30:14,570 --> 00:30:12,840

away from the UFO Community but at the

770

00:30:17,690 --> 00:30:14,580

same time utilizing the UFO Community

771

00:30:19,070 --> 00:30:17,700

yeah and also I mean I mean I'm not as

772

00:30:21,529 --> 00:30:19,080

you know I'm not a believer in the

773

00:30:24,649 --> 00:30:21,539

Extraterrestrial hypothesis

774

00:30:26,269 --> 00:30:24,659

um but he he at one he says that he's

775

00:30:28,669 --> 00:30:26,279

trying to be open-minded and objective

776

00:30:30,769 --> 00:30:28,679

and he hasn't reached any um prejudicial

777

00:30:33,590 --> 00:30:30,779

conclusions and then within 10 pages he

778

00:30:37,130 --> 00:30:33,600

said forget E.T there's no evidence of

779

00:30:39,710 --> 00:30:37,140

it and you just think okay but where's

780

00:30:41,810 --> 00:30:39,720

your evidence on the basis of what if

781

00:30:43,310 --> 00:30:41,820

you've been open-minded because if

782

00:30:45,710 --> 00:30:43,320

you've been truly open-minded you

783

00:30:46,570 --> 00:30:45,720

wouldn't reject that as a possibility I

784

00:30:49,190 --> 00:30:46,580

don't know

785

00:30:51,769 --> 00:30:49,200

when I was gonna say not not that early

786

00:30:53,029 --> 00:30:51,779

but not that early not in fact not at

787

00:30:55,010 --> 00:30:53,039

all unless you've got conclusive

788

00:30:56,870 --> 00:30:55,020

evidence to show that it's definitely

789

00:30:59,810 --> 00:30:56,880

not that so yeah

790

00:31:02,750 --> 00:30:59,820

yeah so I guess

791

00:31:04,190 --> 00:31:02,760

going through the whole report

792

00:31:05,570 --> 00:31:04,200

he obviously you know we talked about

793

00:31:07,669 --> 00:31:05,580

that he was gonna he had this

794

00:31:10,190 --> 00:31:07,679

preconceived conclusion and I guess

795

00:31:13,850 --> 00:31:10,200

that's that's what he came to he was

796

00:31:16,310 --> 00:31:13,860

being paid to reach that conclusion yeah

797

00:31:18,010 --> 00:31:16,320

so you're doing it just as a job but you

798

00:31:20,510 --> 00:31:18,020

obviously had um personal interest

799

00:31:22,490 --> 00:31:20,520

because if he didn't have personal

800

00:31:25,789 --> 00:31:22,500

interest he wouldn't have actually put

801  
00:31:27,409 --> 00:31:25,799  
together a 465 page four volume study he

802  
00:31:29,090 --> 00:31:27,419  
could have done it in six pages like the

803  
00:31:32,210 --> 00:31:29,100  
digital Winston Churchill you know the

804  
00:31:33,769 --> 00:31:32,220  
the one from the 1950s absolutely

805  
00:31:36,110 --> 00:31:33,779  
so let's go into some of the sections of

806  
00:31:37,730 --> 00:31:36,120  
what he did look at because it's not

807  
00:31:39,590 --> 00:31:37,740  
like he didn't put some work in because

808  
00:31:42,889 --> 00:31:39,600  
he certainly did a lot worse and there

809  
00:31:44,510 --> 00:31:42,899  
were some very important uh aspects uh

810  
00:31:47,090 --> 00:31:44,520  
you know sections you know you mentioned

811  
00:31:48,769 --> 00:31:47,100  
plasma and black projects and that so

812  
00:31:50,330 --> 00:31:48,779  
I'll leave it up to you which area we

813  
00:31:51,950 --> 00:31:50,340

look at first but it'd be interesting to

814

00:31:53,870 --> 00:31:51,960

see your take on those well the thing on

815

00:31:56,870 --> 00:31:53,880

the work I mean a lot of people sort of

816

00:31:58,850 --> 00:31:56,880

asked why is it called comdine why did

817

00:32:00,649 --> 00:31:58,860

they use that code name and I did ask

818

00:32:02,690 --> 00:32:00,659

Linda Unwin about that and she said well

819

00:32:05,450 --> 00:32:02,700

whenever we do a project we just have a

820

00:32:06,350 --> 00:32:05,460

random computer thing that churns out a

821

00:32:08,090 --> 00:32:06,360

word

822

00:32:10,190 --> 00:32:08,100

so she said there's nothing significant

823

00:32:12,590 --> 00:32:10,200

about condyn it's just a word that was

824

00:32:14,510 --> 00:32:12,600

churned out but for the project because

825

00:32:16,130 --> 00:32:14,520

I mean lots of people said well is it

826

00:32:18,649 --> 00:32:16,140

something to do with Condon you know the

827

00:32:20,930 --> 00:32:18,659

American condom yeah

828

00:32:21,889 --> 00:32:20,940

um and if you look up as I did

829

00:32:27,830 --> 00:32:21,899

um

830

00:32:30,850 --> 00:32:27,840

Dictionary it actually means a severe

831

00:32:34,430 --> 00:32:30,860

and well-deserved beating

832

00:32:35,870 --> 00:32:34,440

oh my goodness which is a bit of a

833

00:32:37,610 --> 00:32:35,880

coincidence isn't it because the the

834

00:32:39,830 --> 00:32:37,620

Minister of Defense constantly refer to

835

00:32:41,810 --> 00:32:39,840

the subject as a problem that they need

836

00:32:43,610 --> 00:32:41,820

to deal with you know these irritating

837

00:32:45,830 --> 00:32:43,620

ufologists and the fact that we even

838

00:32:47,409 --> 00:32:45,840

have to waste any of our valuable time

839

00:32:49,789 --> 00:32:47,419

answering their Troublesome questions

840

00:32:52,669 --> 00:32:49,799

it's odd that they decided to call this

841

00:32:55,130 --> 00:32:52,679

the combine project I.E a severe beating

842

00:32:56,930 --> 00:32:55,140

wow so that and they've been given a

843

00:32:58,730 --> 00:32:56,940

severe beating as a result of all this

844

00:33:03,710 --> 00:32:58,740

coming out haven't they so it's all very

845

00:33:04,850 --> 00:33:03,720

amusing yeah so the points um Vinnie

846

00:33:06,049 --> 00:33:04,860

that you're talking about that I think

847

00:33:09,110 --> 00:33:06,059

are important

848

00:33:10,370 --> 00:33:09,120

um is although he reaches that

849

00:33:12,710 --> 00:33:10,380

conclusion and this is where you might

850

00:33:14,930 --> 00:33:12,720

want to bring up that um document you

851

00:33:18,230 --> 00:33:14,940

know the the two-page one this is this

852

00:33:20,990 --> 00:33:18,240

is a document that was written in 2000

853

00:33:22,970 --> 00:33:21,000

this is the reap the report form or oh

854

00:33:24,110 --> 00:33:22,980

no is this the right the unredacted

855

00:33:26,630 --> 00:33:24,120

version of

856

00:33:28,610 --> 00:33:26,640

yeah yeah if you bring that up it's

857

00:33:31,430 --> 00:33:28,620

actually it summarizes what's in the

858

00:33:32,630 --> 00:33:31,440

report and this is what like can you

859

00:33:34,850 --> 00:33:32,640

imagine like all the different

860

00:33:37,190 --> 00:33:34,860

Departments of the mod was sent a copy

861

00:33:39,470 --> 00:33:37,200

of this huge study

862

00:33:41,330 --> 00:33:39,480

and like any anyone working in the civil

863

00:33:43,430 --> 00:33:41,340

service if you get send something that's

864

00:33:44,870 --> 00:33:43,440

four volumes thick you're gonna think

865

00:33:46,909 --> 00:33:44,880

Buddy oh what am I gonna have time to

866

00:33:48,110 --> 00:33:46,919

read this so this this is the covering

867

00:33:49,970 --> 00:33:48,120

node

868

00:33:52,970 --> 00:33:49,980

that summarizes

869

00:33:55,070 --> 00:33:52,980

what the study is about and as you can

870

00:33:57,529 --> 00:33:55,080

see it says the dis

871

00:33:59,810 --> 00:33:57,539

have been receiving copies of citing

872

00:34:02,029 --> 00:33:59,820

reports from secas for about 30 years

873

00:34:04,370 --> 00:34:02,039

and we've not never really looked at

874

00:34:06,710 --> 00:34:04,380

them in any great detail

875

00:34:08,450 --> 00:34:06,720

um but it was obvious I mean don't

876  
00:34:11,329 --> 00:34:08,460  
forget when this study was commissioned

877  
00:34:14,030 --> 00:34:11,339  
1996 massive interest in the subject it

878  
00:34:16,250 --> 00:34:14,040  
was the 40th anniversary of Roswell 40th

879  
00:34:18,470 --> 00:34:16,260  
anniversary of the Kenneth Arnold site

880  
00:34:19,849 --> 00:34:18,480  
team the media was constantly running I

881  
00:34:21,230 --> 00:34:19,859  
mean I was writing a lot of the stories

882  
00:34:23,389 --> 00:34:21,240  
at the time

883  
00:34:25,070 --> 00:34:23,399  
and it was you've got to see the fact

884  
00:34:27,889 --> 00:34:25,080  
that they commissioned this because of

885  
00:34:30,710 --> 00:34:27,899  
their public interest in the subject so

886  
00:34:32,510 --> 00:34:30,720  
after putting this off and knocking on

887  
00:34:36,290 --> 00:34:32,520  
my head all these earlier attempts to

888  
00:34:38,690 --> 00:34:36,300

get some funding finally they found 50

889

00:34:40,369 --> 00:34:38,700

000 pounds which is compared to what the

890

00:34:42,589 --> 00:34:40,379

American government is spending on this

891

00:34:44,990 --> 00:34:42,599

a drop in the ocean

892

00:34:47,450 --> 00:34:45,000

and they basically paid for ROM to have

893

00:34:49,430 --> 00:34:47,460

a computer and a personal assistant who

894

00:34:52,250 --> 00:34:49,440

didn't put all these citing reports so

895

00:34:53,750 --> 00:34:52,260

this is what they did did a sample of

896

00:34:56,210 --> 00:34:53,760

the reports and we'll have a look at the

897

00:34:58,190 --> 00:34:56,220

report in a minute

898

00:35:01,190 --> 00:34:58,200

um so he spent two years and as you can

899

00:35:04,070 --> 00:35:01,200

see under low priority tasking

900

00:35:05,630 --> 00:35:04,080

compile the database so he chose a

901  
00:35:08,870 --> 00:35:05,640  
10-year period and the interesting

902  
00:35:11,030 --> 00:35:08,880  
period thing here is he chose 1987 to

903  
00:35:13,010 --> 00:35:11,040  
1997 because he said that that was

904  
00:35:14,210 --> 00:35:13,020  
neatly on either side of the end of the

905  
00:35:18,470 --> 00:35:14,220  
Cold War

906  
00:35:20,510 --> 00:35:18,480  
the Berlin Wall coming down so he had a

907  
00:35:23,030 --> 00:35:20,520  
sample of reports from before and the

908  
00:35:25,609 --> 00:35:23,040  
sample reports from afterwards carried

909  
00:35:26,630 --> 00:35:25,619  
out a computer analysis here's the

910  
00:35:28,430 --> 00:35:26,640  
report

911  
00:35:29,630 --> 00:35:28,440  
and you can see who it was copied to

912  
00:35:30,310 --> 00:35:29,640  
above

913  
00:35:32,569 --> 00:35:30,320

um

914

00:35:33,770 --> 00:35:32,579

should we go through that now or in a

915

00:35:36,349 --> 00:35:33,780

bit because we're going to come back to

916

00:35:39,470 --> 00:35:36,359

that um let's come back to that yeah so

917

00:35:40,970 --> 00:35:39,480

if we can you see the the section two

918

00:35:44,089 --> 00:35:40,980

and section three

919

00:35:46,370 --> 00:35:44,099

so the main conclusion is the study

920

00:35:49,430 --> 00:35:46,380

provides nothing of value

921

00:35:51,829 --> 00:35:49,440

to the defense intelligence staff in our

922

00:35:53,089 --> 00:35:51,839

assessment of threat weapon systems so

923

00:35:55,310 --> 00:35:53,099

that all they're interested in is

924

00:35:57,170 --> 00:35:55,320

whatever these things are we don't

925

00:36:00,470 --> 00:35:57,180

really care what they are but are they a

926  
00:36:02,690 --> 00:36:00,480  
threat are they Soviet are they Russian

927  
00:36:04,670 --> 00:36:02,700  
and the conclusion is no they're not

928  
00:36:06,410 --> 00:36:04,680  
Chinese they're not Russian they're not

929  
00:36:08,150 --> 00:36:06,420  
um Earthly of any kind

930  
00:36:09,770 --> 00:36:08,160  
taken together with other evidence we

931  
00:36:11,810 --> 00:36:09,780  
believe that many of the sightings can

932  
00:36:14,270 --> 00:36:11,820  
be explained as misreporting of man-made

933  
00:36:17,650 --> 00:36:14,280  
Vehicles aircraft bike project in some

934  
00:36:20,870 --> 00:36:17,660  
cases natural But Not Unusual phenomena

935  
00:36:23,030 --> 00:36:20,880  
and relatively rare and not completely

936  
00:36:25,849 --> 00:36:23,040  
understood phenomenal and this is where

937  
00:36:28,730 --> 00:36:25,859  
he goes deep dive into all this bizarre

938  
00:36:30,890 --> 00:36:28,740

stuff about atmospheric plasmas Dusty

939

00:36:33,230 --> 00:36:30,900

plasmas Earth lights

940

00:36:35,750 --> 00:36:33,240

this is what he really buys into all

941

00:36:38,450 --> 00:36:35,760

that to ex try and explain the residue

942

00:36:41,569 --> 00:36:38,460

of sightings that can't be easily

943

00:36:43,130 --> 00:36:41,579

explained and he basically says um we

944

00:36:46,310 --> 00:36:43,140

don't know what these things are but we

945

00:36:48,050 --> 00:36:46,320

he thinks personally that the mod should

946

00:36:49,609 --> 00:36:48,060

do a lot more research on the plasma

947

00:36:52,609 --> 00:36:49,619

side and this is the bit that they

948

00:36:53,810 --> 00:36:52,619

initially redacted now Vinnie we were

949

00:36:55,069 --> 00:36:53,820

looking at a version of an earlier

950

00:36:56,810 --> 00:36:55,079

version of this where they wouldn't let

951  
00:36:58,310 --> 00:36:56,820  
me see

952  
00:36:59,690 --> 00:36:58,320  
um what was

953  
00:37:00,770 --> 00:36:59,700  
um under paragraph

954  
00:37:03,170 --> 00:37:00,780  
um

955  
00:37:05,270 --> 00:37:03,180  
three that's right I managed to get this

956  
00:37:07,490 --> 00:37:05,280  
reduction removed

957  
00:37:09,530 --> 00:37:07,500  
and as you can see he says in addition

958  
00:37:11,210 --> 00:37:09,540  
to the miss the major conclusion which

959  
00:37:13,910 --> 00:37:11,220  
is we don't need to be concerned with it

960  
00:37:16,250 --> 00:37:13,920  
anymore we can stop receiving reports he

961  
00:37:19,190 --> 00:37:16,260  
says there was some subsidiary findings

962  
00:37:21,230 --> 00:37:19,200  
uh the potential explanations of UAP

963  
00:37:22,849 --> 00:37:21,240

sightings the characteristics of natural

964

00:37:24,710 --> 00:37:22,859

atmospheric phenomena and the

965

00:37:27,170 --> 00:37:24,720

consequences of sightings from aircraft

966

00:37:29,750 --> 00:37:27,180

will be of interest to those responsible

967

00:37:32,329 --> 00:37:29,760

for flight safety and again this has now

968

00:37:34,730 --> 00:37:32,339

come up again with all the American

969

00:37:36,170 --> 00:37:34,740

um yeah tasks for Stuff the near misses

970

00:37:38,510 --> 00:37:36,180

the air misses with these things that

971

00:37:40,250 --> 00:37:38,520

they can't explain

972

00:37:41,810 --> 00:37:40,260

um what are they

973

00:37:43,130 --> 00:37:41,820

um the characteristics of some of the

974

00:37:45,410 --> 00:37:43,140

Phenomenon with respect to their

975

00:37:46,910 --> 00:37:45,420

detection by radar systems will be of

976

00:37:48,890 --> 00:37:46,920

interest to air defense ground

977

00:37:50,930 --> 00:37:48,900

environment which if you remember is the

978

00:37:54,530 --> 00:37:50,940

other branch that we mentioned along

979

00:37:56,450 --> 00:37:54,540

with the RAF one yep the RAF one and

980

00:37:59,210 --> 00:37:56,460

flight safety

981

00:38:00,770 --> 00:37:59,220

um finally director general research um

982

00:38:03,170 --> 00:38:00,780

research and Technology will be

983

00:38:05,990 --> 00:38:03,180

interested in those phenomena associated

984

00:38:08,630 --> 00:38:06,000

with plasma formations which have

985

00:38:12,050 --> 00:38:08,640

potential applications to novel weapon

986

00:38:15,230 --> 00:38:12,060

technology so he he's basically saying

987

00:38:18,349 --> 00:38:15,240

if these things are some kind of natural

988

00:38:21,589 --> 00:38:18,359

atmospheric phenomena plasmas in the

989

00:38:23,329 --> 00:38:21,599

atmosphere that move around possibly

990

00:38:25,190 --> 00:38:23,339

they could be harnessed and used as

991

00:38:26,950 --> 00:38:25,200

Battlefield weapons and we should be

992

00:38:30,530 --> 00:38:26,960

looking at how we could use those things

993

00:38:32,390 --> 00:38:30,540

against a potential enemy like Russia

994

00:38:34,069 --> 00:38:32,400

you know so that's why he was

995

00:38:37,370 --> 00:38:34,079

recommending did they do anything with

996

00:38:40,370 --> 00:38:37,380

that I get that but surely within those

997

00:38:42,589 --> 00:38:40,380

potential rare phenomena surely that's

998

00:38:44,390 --> 00:38:42,599

where UAP would fit as well but he

999

00:38:46,910 --> 00:38:44,400

doesn't seem to want to go there he

1000

00:38:50,030 --> 00:38:46,920

doesn't want to go there no

1001  
00:38:52,010 --> 00:38:50,040  
and he then says um although we intend

1002  
00:38:54,349 --> 00:38:52,020  
to carry out no further work on this

1003  
00:38:56,089 --> 00:38:54,359  
subject we would value any comments that

1004  
00:38:58,550 --> 00:38:56,099  
the people copied in would like to make

1005  
00:39:00,530 --> 00:38:58,560  
and then the the thing I loved at the

1006  
00:39:02,750 --> 00:39:00,540  
end that runs into page two he says

1007  
00:39:06,290 --> 00:39:02,760  
While most of the report is classified

1008  
00:39:09,109 --> 00:39:06,300  
as only restricted UK Eyes Only we

1009  
00:39:11,270 --> 00:39:09,119  
hardly need to remind addresses that's

1010  
00:39:14,030 --> 00:39:11,280  
people who've received a copy of it of

1011  
00:39:16,490 --> 00:39:14,040  
the media interest in this subject and

1012  
00:39:19,310 --> 00:39:16,500  
consequently this the sensitivity of

1013  
00:39:21,650 --> 00:39:19,320

this report please protect the subject

1014

00:39:24,170 --> 00:39:21,660

accordingly and discuss the report only

1015

00:39:26,750 --> 00:39:24,180

with those who have a need to know

1016

00:39:29,630 --> 00:39:26,760

that very very significant

1017

00:39:33,710 --> 00:39:29,640

so that they really need that kept you

1018

00:39:35,750 --> 00:39:33,720

know secret yeah yeah wow I mean

1019

00:39:38,329 --> 00:39:35,760

this is the thing like we we're

1020

00:39:42,470 --> 00:39:38,339

literally showing so many flaws in this

1021

00:39:44,690 --> 00:39:42,480

report oh that it's almost pointless it

1022

00:39:47,210 --> 00:39:44,700

doesn't work let's have a look at what

1023

00:39:50,870 --> 00:39:47,220

the report the conclusions were based on

1024

00:39:53,349 --> 00:39:50,880

bring up the um you you UFO report for

1025

00:39:56,150 --> 00:39:53,359

yeah

1026

00:39:57,530 --> 00:39:56,160

and if you look in the files

1027

00:39:59,569 --> 00:39:57,540

um that have been released you can get

1028

00:40:03,170 --> 00:39:59,579

from the National Archives website this

1029

00:40:05,329 --> 00:40:03,180

is what he was using as his raw data so

1030

00:40:07,069 --> 00:40:05,339

this is a standard Report Form he says

1031

00:40:09,950 --> 00:40:07,079

that he filled one in himself in the

1032

00:40:11,690 --> 00:40:09,960

1950s when he had this sighting when he

1033

00:40:15,109 --> 00:40:11,700

was flying with the RAF

1034

00:40:17,569 --> 00:40:15,119

so this this was a form that the air

1035

00:40:19,190 --> 00:40:17,579

Ministry actually stole from the U.S Air

1036

00:40:21,530 --> 00:40:19,200

Force because it's based upon the U.S

1037

00:40:23,569 --> 00:40:21,540

Air Force um Pro former that they were

1038

00:40:25,430 --> 00:40:23,579

using with project sign or Grudge or

1039

00:40:27,470 --> 00:40:25,440

something at the time yeah and as you

1040

00:40:29,329 --> 00:40:27,480

can see it's basically split into a list

1041

00:40:31,069 --> 00:40:29,339

of numbers

1042

00:40:34,190 --> 00:40:31,079

um date and time description of object

1043

00:40:36,109 --> 00:40:34,200

location how observed and what would

1044

00:40:38,210 --> 00:40:36,119

happen is a member of the public who'd

1045

00:40:40,730 --> 00:40:38,220

seen something would phone either their

1046

00:40:43,130 --> 00:40:40,740

local RAF base or the mod in London

1047

00:40:45,290 --> 00:40:43,140

usually out of hours because people tend

1048

00:40:46,670 --> 00:40:45,300

to see UFOs late at night so all you

1049

00:40:48,170 --> 00:40:46,680

civil servants will have trooped off

1050

00:40:49,790 --> 00:40:48,180

home with the bowler hats and their

1051

00:40:52,190 --> 00:40:49,800

umbrellas at five o'clock in the

1052

00:40:53,990 --> 00:40:52,200

afternoon and come back at nine o'clock

1053

00:40:57,290 --> 00:40:54,000

in the morning so they'd come back the

1054

00:40:59,150 --> 00:40:57,300

game di55 and the guy or woman who was

1055

00:41:02,450 --> 00:40:59,160

who was doing the secas

1056

00:41:04,609 --> 00:41:02,460

um desk job and every morning there'd be

1057

00:41:07,069 --> 00:41:04,619

a whole stack of these reports left and

1058

00:41:08,930 --> 00:41:07,079

left on the desk and the guy from di55

1059

00:41:10,130 --> 00:41:08,940

was moaning about this and saying bloody

1060

00:41:12,050 --> 00:41:10,140

hell every morning I used to get into

1061

00:41:15,230 --> 00:41:12,060

work before I could do anything there's

1062

00:41:17,870 --> 00:41:15,240

a huge pile of the UFO films waiting for

1063

00:41:19,430 --> 00:41:17,880

the waiting for me I I had dozen and

1064

00:41:21,050 --> 00:41:19,440

another I had loads and loads of other

1065

00:41:22,790 --> 00:41:21,060

tasks far more important than this one

1066

00:41:25,670 --> 00:41:22,800

so I just sort of glanced at them over

1067

00:41:27,530 --> 00:41:25,680

the latest set of reports

1068

00:41:28,970 --> 00:41:27,540

put them in a file with filing cabinet

1069

00:41:30,170 --> 00:41:28,980

and forget about them basically because

1070

00:41:33,470 --> 00:41:30,180

there's no time

1071

00:41:36,589 --> 00:41:33,480

and and this is this is the quality

1072

00:41:37,250 --> 00:41:36,599

of the sighting reports I mean look at

1073

00:41:39,410 --> 00:41:37,260

it

1074

00:41:41,450 --> 00:41:39,420

description of object like a puff of

1075

00:41:43,569 --> 00:41:41,460

cloud then circular very light with a

1076

00:41:48,290 --> 00:41:43,579

red light flashing

1077

00:41:49,550 --> 00:41:48,300

excess it's very basic isn't it yeah

1078

00:41:50,870 --> 00:41:49,560

so

1079

00:41:54,530 --> 00:41:50,880

um when he was doing this study he was

1080

00:41:56,329 --> 00:41:54,540

importing several thousand of these

1081

00:41:59,030 --> 00:41:56,339

citing report forms and despite what

1082

00:42:00,589 --> 00:41:59,040

Nick Pope says as you can see it wasn't

1083

00:42:04,430 --> 00:42:00,599

investigated

1084

00:42:07,550 --> 00:42:04,440

very very few of them got anything went

1085

00:42:10,730 --> 00:42:07,560

any further than that form so someone

1086

00:42:12,589 --> 00:42:10,740

on the um man in the 24-hour desk at

1087

00:42:14,870 --> 00:42:12,599

Whitehall some water Ringle and they'd

1088

00:42:17,510 --> 00:42:14,880

fill in the form send it off to secas

1089

00:42:19,609 --> 00:42:17,520

and they looked at it and think

1090

00:42:21,050 --> 00:42:19,619

all right what can we do with this no

1091

00:42:23,690 --> 00:42:21,060

put it in the fire with all the others

1092

00:42:26,750 --> 00:42:23,700

so that's the raw data that was sent to

1093

00:42:30,589 --> 00:42:26,760

di55 that's what Ron Hado used to to

1094

00:42:33,710 --> 00:42:30,599

create his database anyone

1095

00:42:35,690 --> 00:42:33,720

um doing that kind of database needs

1096

00:42:37,670 --> 00:42:35,700

reliable information

1097

00:42:40,069 --> 00:42:37,680

um if he'd done it properly he would

1098

00:42:41,870 --> 00:42:40,079

have taken a sample of citing reports

1099

00:42:43,550 --> 00:42:41,880

and he would have actually gone out and

1100

00:42:45,410 --> 00:42:43,560

interviewed the people who made those

1101  
00:42:46,730 --> 00:42:45,420  
reports and said right what was it where

1102  
00:42:49,609 --> 00:42:46,740  
were you standing where were you looking

1103  
00:42:51,290 --> 00:42:49,619  
check it with an astronomy program were

1104  
00:42:53,450 --> 00:42:51,300  
there any balloons in the area of the

1105  
00:42:55,069 --> 00:42:53,460  
time oh there was we can eliminate that

1106  
00:42:57,349 --> 00:42:55,079  
one then and he would have boiled it

1107  
00:42:58,849 --> 00:42:57,359  
down to a group of sightings maybe

1108  
00:43:01,390 --> 00:42:58,859  
rendelson you know some of the

1109  
00:43:04,609 --> 00:43:01,400  
Unexplained ones that yeah would

1110  
00:43:07,190 --> 00:43:04,619  
evidential but he didn't do that

1111  
00:43:08,750 --> 00:43:07,200  
so if you think about it most ufologists

1112  
00:43:11,750 --> 00:43:08,760  
whether you believe in aliens or not

1113  
00:43:15,770 --> 00:43:11,760

will accept that from raw data raw

1114

00:43:19,190 --> 00:43:15,780

sightings 90 of them are not UFOs they

1115

00:43:20,510 --> 00:43:19,200

are ifos potential ifos I don't think

1116

00:43:23,150 --> 00:43:20,520

anyone would disagree with that would

1117

00:43:26,450 --> 00:43:23,160

they uh that's that's bang on absolutely

1118

00:43:29,690 --> 00:43:26,460

bang on so what Ron haddo was doing he

1119

00:43:34,250 --> 00:43:29,700

was inputting all this raw data into his

1120

00:43:35,630 --> 00:43:34,260

database 90 of which was rubbish yeah so

1121

00:43:38,510 --> 00:43:35,640

you but you will have heard the phrase

1122

00:43:42,290 --> 00:43:38,520

garbage in garbage out so the so the

1123

00:43:44,089 --> 00:43:42,300

analysis he then ran on the database is

1124

00:43:46,609 --> 00:43:44,099

worthless because it's totally

1125

00:43:49,250 --> 00:43:46,619

contaminated with balloons aircraft

1126  
00:43:51,349 --> 00:43:49,260  
ordinary things yeah you know to do a

1127  
00:43:53,030 --> 00:43:51,359  
proper study you've got to eliminate all

1128  
00:43:55,609 --> 00:43:53,040  
those and you've got to look at the the

1129  
00:43:58,069 --> 00:43:55,619  
the percentage two percent three percent

1130  
00:44:02,089 --> 00:43:58,079  
four percent that are genuinely

1131  
00:44:06,829 --> 00:44:03,890  
yeah so this is what his conclusions

1132  
00:44:09,050 --> 00:44:06,839  
were based on faulty data and it was

1133  
00:44:12,109 --> 00:44:09,060  
because he was operating in a top secret

1134  
00:44:14,150 --> 00:44:12,119  
environment he wasn't the the the

1135  
00:44:15,770 --> 00:44:14,160  
contract for the study was was never

1136  
00:44:18,230 --> 00:44:15,780  
advertised because they didn't want the

1137  
00:44:19,670 --> 00:44:18,240  
media to find out about it

1138  
00:44:21,650 --> 00:44:19,680

um he wasn't allowed to talk to

1139

00:44:23,450 --> 00:44:21,660

scientists if he had done scientists

1140

00:44:24,950 --> 00:44:23,460

would have said ROM don't do it like

1141

00:44:27,410 --> 00:44:24,960

you're planning to do it because the

1142

00:44:31,130 --> 00:44:27,420

conclusions are worthless

1143

00:44:35,030 --> 00:44:31,140

um and all he had was those 22 files

1144

00:44:36,770 --> 00:44:35,040

that he had top security access to that

1145

00:44:39,950 --> 00:44:36,780

um weren't even top secret because he'd

1146

00:44:41,990 --> 00:44:39,960

been copied him by secas yeah

1147

00:44:43,430 --> 00:44:42,000

I suppose one other aspect I think one

1148

00:44:45,710 --> 00:44:43,440

section that I found really interesting

1149

00:44:47,450 --> 00:44:45,720

was obviously a couple will get to the

1150

00:44:48,710 --> 00:44:47,460

black projects one in a bit I want to

1151  
00:44:50,569 --> 00:44:48,720  
talk about these near misses because

1152  
00:44:52,790 --> 00:44:50,579  
that was quite there was quite a lot of

1153  
00:44:54,290 --> 00:44:52,800  
detail in that to a degree he had access

1154  
00:44:56,750 --> 00:44:54,300  
to a lot of stuff and a lot of those

1155  
00:44:58,069 --> 00:44:56,760  
were kind of inconclusive

1156  
00:44:59,270 --> 00:44:58,079  
um so if you just if you can mention

1157  
00:45:01,190 --> 00:44:59,280  
that for a couple of minutes I'm just

1158  
00:45:04,550 --> 00:45:01,200  
going to take a bathroom break bear with

1159  
00:45:08,690 --> 00:45:04,560  
me yeah the near myth stuff yeah um I

1160  
00:45:11,450 --> 00:45:08,700  
think that's in volume three and he um

1161  
00:45:13,370 --> 00:45:11,460  
he had access to I mean you can you can

1162  
00:45:14,990 --> 00:45:13,380  
access this material yourself it's the

1163  
00:45:17,630 --> 00:45:15,000

civil aviation

1164

00:45:20,390 --> 00:45:17,640

Authority have published they used to

1165

00:45:22,910 --> 00:45:20,400

publish a list of all the um sightings

1166

00:45:24,890 --> 00:45:22,920

that had been made by aircrew Civil Air

1167

00:45:27,410 --> 00:45:24,900

crew they stopped doing that again

1168

00:45:29,690 --> 00:45:27,420

because they say it's it's again data

1169

00:45:30,890 --> 00:45:29,700

protection gdpr

1170

00:45:33,230 --> 00:45:30,900

um but

1171

00:45:34,609 --> 00:45:33,240

um the actual incidents where Crews

1172

00:45:37,430 --> 00:45:34,619

report

1173

00:45:39,230 --> 00:45:37,440

um a cycling of something that they that

1174

00:45:41,569 --> 00:45:39,240

that's come within close proximity to

1175

00:45:43,970 --> 00:45:41,579

the aircraft they are all published and

1176

00:45:47,329 --> 00:45:43,980

they go on the um they go on the caa's

1177

00:45:48,770 --> 00:45:47,339

website and the the sample that he

1178

00:45:50,930 --> 00:45:48,780

looked at there was what there was a

1179

00:45:53,030 --> 00:45:50,940

sighting from Gap week airport which is

1180

00:45:54,349 --> 00:45:53,040

interesting given the fact that there

1181

00:45:57,109 --> 00:45:54,359

was the incident

1182

00:45:59,390 --> 00:45:57,119

only a few years ago where Gatwick

1183

00:46:00,829 --> 00:45:59,400

um was effective with clues for 48 hours

1184

00:46:03,290 --> 00:46:00,839

when

1185

00:46:05,750 --> 00:46:03,300

um you remember the Drone case where

1186

00:46:08,870 --> 00:46:05,760

supposedly two low-level drones were

1187

00:46:10,730 --> 00:46:08,880

seen over Gatwick so Gatwick is an

1188

00:46:13,309 --> 00:46:10,740

interesting place where there's been

1189

00:46:14,390 --> 00:46:13,319

lots of of these sightings over the

1190

00:46:16,309 --> 00:46:14,400

years

1191

00:46:17,990 --> 00:46:16,319

um so that's they did look at two

1192

00:46:20,089 --> 00:46:18,000

sightings at Gatwick that were reported

1193

00:46:23,329 --> 00:46:20,099

as near misses and the Manchester case

1194

00:46:25,910 --> 00:46:23,339

as well that we mentioned earlier

1195

00:46:28,069 --> 00:46:25,920

so yeah it's definitely a

1196

00:46:29,930 --> 00:46:28,079

we need more from the report that's what

1197

00:46:31,490 --> 00:46:29,940

I mean I think they could have

1198

00:46:32,870 --> 00:46:31,500

investigated them more I mean I guess

1199

00:46:35,990 --> 00:46:32,880

they

1200

00:46:38,089 --> 00:46:36,000

time was a thing and lack of

1201  
00:46:39,829 --> 00:46:38,099  
being asked about it basically yeah well

1202  
00:46:42,349 --> 00:46:39,839  
yeah I mean the original terms of

1203  
00:46:44,990 --> 00:46:42,359  
reference was to look at some specific

1204  
00:46:47,630 --> 00:46:45,000  
incidents you know like rendersham sure

1205  
00:46:49,910 --> 00:46:47,640  
anything I mean he only talks about one

1206  
00:46:52,730 --> 00:46:49,920  
particular case the radar case

1207  
00:46:54,109 --> 00:46:52,740  
in the entire radar section and we were

1208  
00:46:55,609 --> 00:46:54,119  
talking about this earlier Vinnie

1209  
00:46:57,890 --> 00:46:55,619  
weren't we if you look at the section on

1210  
00:47:01,309 --> 00:46:57,900  
radar he basically says

1211  
00:47:03,829 --> 00:47:01,319  
um whatever uaps are they're not seen on

1212  
00:47:06,650 --> 00:47:03,839  
air defense Radars and to him that

1213  
00:47:09,290 --> 00:47:06,660

proved his contention that there weren't

1214

00:47:11,089 --> 00:47:09,300

solid objects clearly there's something

1215

00:47:12,950 --> 00:47:11,099

but he's saying the fact that they're

1216

00:47:15,050 --> 00:47:12,960

not being detected by radar suggests

1217

00:47:17,089 --> 00:47:15,060

that the natural atmospheric phenomena

1218

00:47:19,790 --> 00:47:17,099

are not craft

1219

00:47:21,650 --> 00:47:19,800

like like um you'd expect an intruder

1220

00:47:23,270 --> 00:47:21,660

aircraft to be picked up these clearly

1221

00:47:26,270 --> 00:47:23,280

aren't craft that's why there isn't any

1222

00:47:29,030 --> 00:47:26,280

good radar data on them

1223

00:47:31,250 --> 00:47:29,040

um but again

1224

00:47:33,530 --> 00:47:31,260

that that's that's not a conclusion

1225

00:47:36,530 --> 00:47:33,540

based upon proper scientific evidence

1226

00:47:38,470 --> 00:47:36,540

and and the the the the the radar

1227

00:47:41,390 --> 00:47:38,480

section is the one that's got the most

1228

00:47:43,430 --> 00:47:41,400

redactions and again if you want to look

1229

00:47:44,690 --> 00:47:43,440

at this in a conspiracy sort of way you

1230

00:47:45,650 --> 00:47:44,700

might think oh what they're trying to

1231

00:47:48,050 --> 00:47:45,660

hide

1232

00:47:50,390 --> 00:47:48,060

but what what the reason why they've

1233

00:47:54,290 --> 00:47:50,400

taken so much material out is because it

1234

00:47:56,089 --> 00:47:54,300

reveals the weakness of our radar

1235

00:47:58,790 --> 00:47:56,099

um in the the cover is not very

1236

00:48:00,890 --> 00:47:58,800

effective it's the switch The Radars off

1237

00:48:03,710 --> 00:48:00,900

at certain times of day I mean the

1238

00:48:05,510 --> 00:48:03,720

rental incident for instance some of the

1239

00:48:07,790 --> 00:48:05,520

documents about that

1240

00:48:10,990 --> 00:48:07,800

um reveal that the radar was switched

1241

00:48:15,710 --> 00:48:13,550

I mean maybe they didn't want it um

1242

00:48:16,809 --> 00:48:15,720

interfered with by Santa Claus and the

1243

00:48:19,809 --> 00:48:16,819

reindeer

1244

00:48:22,069 --> 00:48:19,819

North Pole or sort of thing but

1245

00:48:26,089 --> 00:48:22,079

embarrassing things like that you don't

1246

00:48:29,150 --> 00:48:26,099

want your enemy the Russians yeah to

1247

00:48:31,370 --> 00:48:29,160

know the the capabilities of our radar

1248

00:48:32,930 --> 00:48:31,380

to detect their Intruder aircraft and

1249

00:48:35,329 --> 00:48:32,940

that's why those sections of the report

1250

00:48:37,670 --> 00:48:35,339

have been redacted and you can't really

1251  
00:48:39,410 --> 00:48:37,680  
argue about that can you because it's

1252  
00:48:41,809 --> 00:48:39,420  
not it's like you don't reveal the

1253  
00:48:45,050 --> 00:48:41,819  
identity of our spies because they'll

1254  
00:48:47,030 --> 00:48:45,060  
get assassinated if we do so foi can

1255  
00:48:49,309 --> 00:48:47,040  
only go so far

1256  
00:48:51,829 --> 00:48:49,319  
no absolutely I just want to highlight

1257  
00:48:53,690 --> 00:48:51,839  
that a complete Schoolboy error is that

1258  
00:48:56,630 --> 00:48:53,700  
I forgot to link the condiment report in

1259  
00:48:58,490 --> 00:48:56,640  
the description and I will after this

1260  
00:49:00,349 --> 00:48:58,500  
finishes I will link it below so

1261  
00:49:01,970 --> 00:49:00,359  
everyone can have a look funnily enough

1262  
00:49:03,710 --> 00:49:01,980  
it isn't the easiest thing to find

1263  
00:49:06,710 --> 00:49:03,720

because I was actually I've got another

1264

00:49:08,510 --> 00:49:06,720

computer which I use mobile a laptop and

1265

00:49:11,390 --> 00:49:08,520

I was trying to look through stuff today

1266

00:49:13,010 --> 00:49:11,400

and it it throws you around some weird

1267

00:49:16,190 --> 00:49:13,020

links to actually get to the download

1268

00:49:18,050 --> 00:49:16,200

for the full report you get like parts

1269

00:49:19,910 --> 00:49:18,060

of it so Jonathan thank you for bringing

1270

00:49:22,609 --> 00:49:19,920

that up I just saw your comment I will

1271

00:49:24,530 --> 00:49:22,619

link that uh after the the videos ended

1272

00:49:26,450 --> 00:49:24,540

uh my apologies this is a key Point

1273

00:49:27,829 --> 00:49:26,460

Vinnie isn't it because what happened

1274

00:49:28,490 --> 00:49:27,839

was

1275

00:49:30,890 --> 00:49:28,500

um

1276

00:49:34,309 --> 00:49:30,900

there were so many foi requests for the

1277

00:49:35,630 --> 00:49:34,319

report after we got it released

1278

00:49:37,609 --> 00:49:35,640

um they couldn't release it in paper

1279

00:49:40,010 --> 00:49:37,619

format because it's such a huge document

1280

00:49:42,710 --> 00:49:40,020

so what they got what happened was and

1281

00:49:44,930 --> 00:49:42,720

the National Archives scanned it

1282

00:49:47,089 --> 00:49:44,940

the redacted version of it so there is a

1283

00:49:48,829 --> 00:49:47,099

big long URL where you can just click on

1284

00:49:51,290 --> 00:49:48,839

it and you can get a download and it's

1285

00:49:54,849 --> 00:49:51,300

from the National Archives yeah

1286

00:49:58,430 --> 00:49:54,859

um so that that's what happened but

1287

00:50:00,710 --> 00:49:58,440

this shall we now move on to what we've

1288

00:50:02,329 --> 00:50:00,720

discovered well just before you do one

1289

00:50:03,890 --> 00:50:02,339

thing I will say about that is when you

1290

00:50:06,170 --> 00:50:03,900

find it on the National Archives it

1291

00:50:07,849 --> 00:50:06,180

gives you the executive summary volumes

1292

00:50:10,069 --> 00:50:07,859

one two and three but when you click

1293

00:50:12,349 --> 00:50:10,079

into volume one it then breaks it down

1294

00:50:15,829 --> 00:50:12,359

again into about another eight sections

1295

00:50:17,690 --> 00:50:15,839

so it's it's really complicated and all

1296

00:50:20,390 --> 00:50:17,700

like you have to piece it together

1297

00:50:23,710 --> 00:50:20,400

yourself almost it's it's very bizarre

1298

00:50:26,210 --> 00:50:23,720

so but I will link that

1299

00:50:28,190 --> 00:50:26,220

the original version I've got has got

1300

00:50:29,569 --> 00:50:28,200

pull out maps and all sorts so yeah I

1301

00:50:32,510 --> 00:50:29,579

don't know how you would get them in a

1302

00:50:34,309 --> 00:50:32,520

in a scanned version of it what you do

1303

00:50:35,809 --> 00:50:34,319

if you Google the condo report there are

1304

00:50:37,670 --> 00:50:35,819

National Archive links that will go

1305

00:50:39,410 --> 00:50:37,680

straight to a PDF but you'll find that

1306

00:50:40,790 --> 00:50:39,420

it's there's eight pages and then

1307

00:50:43,069 --> 00:50:40,800

another one will be nine pages you're

1308

00:50:45,109 --> 00:50:43,079

like wait a minute this is a a really

1309

00:50:46,190 --> 00:50:45,119

long document and so yeah you've got to

1310

00:50:48,109 --> 00:50:46,200

be careful because you might miss

1311

00:50:50,569 --> 00:50:48,119

something if you don't know what you're

1312

00:50:52,910 --> 00:50:50,579

looking for so

1313

00:50:56,450 --> 00:50:54,290

I mean what are the other little

1314

00:50:57,950 --> 00:50:56,460

interesting little points that that's

1315

00:51:00,770 --> 00:50:57,960

often not mentioned you know there is

1316

00:51:03,170 --> 00:51:00,780

this idea that's been promoted by Robert

1317

00:51:05,210 --> 00:51:03,180

Hastings in America that there's a

1318

00:51:07,370 --> 00:51:05,220

connection between nuclear bases and

1319

00:51:11,329 --> 00:51:07,380

sensitive nuclear storage facilities in

1320

00:51:13,370 --> 00:51:11,339

UF uaps well Hado actually there's a

1321

00:51:15,290 --> 00:51:13,380

there's there's part of I think it's vol

1322

00:51:16,670 --> 00:51:15,300

3 where he spends a lot of time and

1323

00:51:18,829 --> 00:51:16,680

attention on this

1324

00:51:21,049 --> 00:51:18,839

and he looks at all this data that he's

1325

00:51:22,849 --> 00:51:21,059

put together about in the UK and he says

1326

00:51:25,370 --> 00:51:22,859

is there any evidence that these things

1327

00:51:28,130 --> 00:51:25,380

are seen around aldermasten for instance

1328

00:51:30,650 --> 00:51:28,140

and around some of the sensitive um RAF

1329

00:51:33,349 --> 00:51:30,660

right um Royal Navy facilities where

1330

00:51:35,390 --> 00:51:33,359

there's nuclear weapons not found and

1331

00:51:38,150 --> 00:51:35,400

basically he says there's no evidence at

1332

00:51:40,730 --> 00:51:38,160

all from the UK data and he says there's

1333

00:51:42,710 --> 00:51:40,740

a few examples where there are more site

1334

00:51:44,390 --> 00:51:42,720

there's a cluster of sightings I think

1335

00:51:46,549 --> 00:51:44,400

around one of these sensitive facilities

1336

00:51:48,890 --> 00:51:46,559

and he says the simple answer to that is

1337

00:51:51,349 --> 00:51:48,900

is that they are guarded 24 hours a day

1338

00:51:54,589 --> 00:51:51,359

by people who are on the lookout for

1339

00:51:57,049 --> 00:51:54,599

anything unusual therefore if

1340

00:51:59,030 --> 00:51:57,059

there will be occasions in which

1341

00:52:02,089 --> 00:51:59,040

um security guards and Ministry defense

1342

00:52:03,890 --> 00:52:02,099

police see and Report odd things in the

1343

00:52:06,109 --> 00:52:03,900

sky but that's simply because of the

1344

00:52:07,069 --> 00:52:06,119

fact that that's what they're employing

1345

00:52:08,109 --> 00:52:07,079

to do

1346

00:52:09,829 --> 00:52:08,119

yeah

1347

00:52:11,450 --> 00:52:09,839

there's going to be a lot of them that

1348

00:52:13,130 --> 00:52:11,460

just simply won't say anything because I

1349

00:52:15,470 --> 00:52:13,140

feel like what we discussed earlier fear

1350

00:52:17,510 --> 00:52:15,480

of ridicule and and all that yeah but we

1351  
00:52:19,069 --> 00:52:17,520  
were talking about air crew there so um

1352  
00:52:21,230 --> 00:52:19,079  
security guards

1353  
00:52:24,530 --> 00:52:21,240  
um memory police are going to be much

1354  
00:52:28,490 --> 00:52:24,540  
more uh inclined to report odd things in

1355  
00:52:29,870 --> 00:52:28,500  
the sky that could be you know threats

1356  
00:52:31,430 --> 00:52:29,880  
but then you look at the cases like

1357  
00:52:32,750 --> 00:52:31,440  
renderson when we know that that was a

1358  
00:52:35,030 --> 00:52:32,760  
nuclear

1359  
00:52:36,710 --> 00:52:35,040  
storage wasn't it so you know oh well

1360  
00:52:38,870 --> 00:52:36,720  
they can't deny and they can't confirm

1361  
00:52:40,549 --> 00:52:38,880  
that the nuclear bombs were still well

1362  
00:52:42,109 --> 00:52:40,559  
maybe that's the case along a lot of

1363  
00:52:44,049 --> 00:52:42,119

these places you know maybe it's it's

1364

00:52:47,150 --> 00:52:44,059

like well we can't say anything because

1365

00:52:50,089 --> 00:52:47,160

I don't know it's sensitive isn't it um

1366

00:52:51,950 --> 00:52:50,099

yeah and speculative to a degree so we

1367

00:52:53,690 --> 00:52:51,960

have to be careful where

1368

00:52:55,130 --> 00:52:53,700

um do you want to move on to the Black

1369

00:52:56,930 --> 00:52:55,140

Project section

1370

00:52:59,510 --> 00:52:56,940

yes I mean this is the bit that

1371

00:53:02,150 --> 00:52:59,520

intrigues me yeah um I mean we're back

1372

00:53:04,370 --> 00:53:02,160

to Calvin here I'm I'm absolutely

1373

00:53:05,870 --> 00:53:04,380

convinced that

1374

00:53:08,030 --> 00:53:05,880

um there's a section on Black Project

1375

00:53:10,430 --> 00:53:08,040

aircraft where basically he talks about

1376

00:53:13,970 --> 00:53:10,440

the ones we know about

1377

00:53:16,609 --> 00:53:13,980

um so he talks about the um the the uh

1378

00:53:19,849 --> 00:53:16,619

obviously called the SR-71 yeah section

1379

00:53:21,290 --> 00:53:19,859

one yeah the Blackbird yeah so he talks

1380

00:53:24,049 --> 00:53:21,300

about that and there's there's an image

1381

00:53:25,730 --> 00:53:24,059

of that it talks about the B2 bomber and

1382

00:53:28,069 --> 00:53:25,740

the f117

1383

00:53:29,569 --> 00:53:28,079

um all of which are in the public domain

1384

00:53:31,549 --> 00:53:29,579

and were used in the Gulf War but he

1385

00:53:33,650 --> 00:53:31,559

talks about two other

1386

00:53:36,950 --> 00:53:33,660

secret programs

1387

00:53:39,710 --> 00:53:36,960

and he specifies them program one or is

1388

00:53:42,109 --> 00:53:39,720

it program two and program three and all

1389

00:53:44,089 --> 00:53:42,119

those sections are redacted and under

1390

00:53:47,089 --> 00:53:44,099

Section 27 of the Freedom of Information

1391

00:53:49,730 --> 00:53:47,099

Act which is international relations so

1392

00:53:53,329 --> 00:53:49,740

what that is it's secret information

1393

00:53:56,030 --> 00:53:53,339

about blight project aircraft prototype

1394

00:53:59,329 --> 00:53:56,040

aircraft that have been flown by the US

1395

00:54:02,210 --> 00:53:59,339

Air Force or the CIA that have any

1396

00:54:04,730 --> 00:54:02,220

effectively says they are visited

1397

00:54:07,790 --> 00:54:04,740

um the uks and have been seen and

1398

00:54:08,990 --> 00:54:07,800

reported as UFOs and there is one I

1399

00:54:11,270 --> 00:54:09,000

don't know whether you can find the page

1400

00:54:13,430 --> 00:54:11,280

but there's one section that looks as if

1401  
00:54:18,049 --> 00:54:13,440  
you could almost like Drop The Calvin

1402  
00:54:20,750 --> 00:54:18,059  
photo into it yeah one of these um

1403  
00:54:21,589 --> 00:54:20,760  
uh this is me speculating but I I just

1404  
00:54:23,870 --> 00:54:21,599  
think

1405  
00:54:25,730 --> 00:54:23,880  
um well you say that if you speculating

1406  
00:54:28,370 --> 00:54:25,740  
but if you piece that together with what

1407  
00:54:30,890 --> 00:54:28,380  
you a discussion you've had with di55c

1408  
00:54:33,470 --> 00:54:30,900  
yeah we won't won't go into detail on

1409  
00:54:36,470 --> 00:54:33,480  
that that fits exactly with it as well

1410  
00:54:38,450 --> 00:54:36,480  
so it's not just we want it to be Calvin

1411  
00:54:40,670 --> 00:54:38,460  
it's well it makes sense that it's

1412  
00:54:42,049 --> 00:54:40,680  
Calvin it points to a few things that

1413  
00:54:45,890 --> 00:54:42,059

we've

1414

00:54:48,589 --> 00:54:45,900

leave it like that you know the people

1415

00:54:50,270 --> 00:54:48,599

that said to me you know how can you

1416

00:54:52,910 --> 00:54:50,280

make out that this thing in the Calvin

1417

00:54:55,250 --> 00:54:52,920

photograph is is is is sort of secret

1418

00:54:57,770 --> 00:54:55,260

technology it can't possibly be you know

1419

00:55:00,530 --> 00:54:57,780

we don't you'd know about it so

1420

00:55:02,630 --> 00:55:00,540

why then are these two programs redacted

1421

00:55:06,170 --> 00:55:02,640

from a report that was released in 2006

1422

00:55:08,450 --> 00:55:06,180

if we if it can't possibly exist

1423

00:55:10,730 --> 00:55:08,460

it doesn't make any sense at any level

1424

00:55:12,230 --> 00:55:10,740

exactly because even if Calvin is one of

1425

00:55:15,170 --> 00:55:12,240

them there's still another one as well

1426

00:55:16,430 --> 00:55:15,180

yeah and then the B2 bomber and the f117

1427

00:55:19,309 --> 00:55:16,440

didn't just suddenly spring into

1428

00:55:21,109 --> 00:55:19,319

existence like that you know the the all

1429

00:55:23,750 --> 00:55:21,119

sorts of different prototype versions of

1430

00:55:24,829 --> 00:55:23,760

of these aircraft some of which probably

1431

00:55:27,470 --> 00:55:24,839

didn't

1432

00:55:28,549 --> 00:55:27,480

um perform very well so they just tried

1433

00:55:30,770 --> 00:55:28,559

it out

1434

00:55:32,270 --> 00:55:30,780

you know tested it somewhere it crashed

1435

00:55:33,829 --> 00:55:32,280

into the sea or something and then they

1436

00:55:36,109 --> 00:55:33,839

buried it in the desert and forgot about

1437

00:55:39,829 --> 00:55:36,119

it exactly prototypes that didn't work

1438

00:55:43,549 --> 00:55:39,839

quite simple it must happen uh you know

1439

00:55:45,890 --> 00:55:43,559

so yeah and also this we're talking here

1440

00:55:47,390 --> 00:55:45,900

about Hypersonic aircraft I don't think

1441

00:55:48,710 --> 00:55:47,400

for one minute that the object in the

1442

00:55:50,690 --> 00:55:48,720

Calvin

1443

00:55:52,730 --> 00:55:50,700

um photograph is a Hypersonic aircraft I

1444

00:55:56,990 --> 00:55:52,740

mean the whole Aurora thing is just a a

1445

00:55:59,930 --> 00:55:57,000

word like UFO the exact wholesale I mean

1446

00:56:02,390 --> 00:55:59,940

it could be an unmanned aerial vehicle a

1447

00:56:04,549 --> 00:56:02,400

UAV you know a drone of some kind of

1448

00:56:06,470 --> 00:56:04,559

prototype drone you know that they were

1449

00:56:08,870 --> 00:56:06,480

testing out and someone has suggested

1450

00:56:10,510 --> 00:56:08,880

that it could be an Airborne radar

1451  
00:56:14,210 --> 00:56:10,520  
platform

1452  
00:56:16,430 --> 00:56:14,220  
yeah like a like a um a blimp that was

1453  
00:56:18,770 --> 00:56:16,440  
being used as an aerial platform for

1454  
00:56:20,750 --> 00:56:18,780  
radar for some kind of exercise

1455  
00:56:23,150 --> 00:56:20,760  
there's all kinds of explanations for it

1456  
00:56:24,890 --> 00:56:23,160  
it doesn't have to be some super duper

1457  
00:56:28,010 --> 00:56:24,900  
technology that was able to sort of Zoom

1458  
00:56:29,530 --> 00:56:28,020  
away at some fantastic speed you know we

1459  
00:56:32,450 --> 00:56:29,540  
don't know that that's what's happened

1460  
00:56:34,250 --> 00:56:32,460  
well that's the thing you know that's a

1461  
00:56:36,290 --> 00:56:34,260  
whole nother conversation which we'll

1462  
00:56:38,569 --> 00:56:36,300  
probably cover again maybe at the end of

1463  
00:56:40,010 --> 00:56:38,579

the year or early next year when uh

1464

00:56:41,870 --> 00:56:40,020

investigation

1465

00:56:44,030 --> 00:56:41,880

when we have more to report on because

1466

00:56:46,309 --> 00:56:44,040

yeah it is

1467

00:56:48,170 --> 00:56:46,319

I mentioned this earlier on a on a chat

1468

00:56:50,870 --> 00:56:48,180

I had to someone that there are many

1469

00:56:53,210 --> 00:56:50,880

lines of or many avenues that we have to

1470

00:56:55,430 --> 00:56:53,220

look on with the investigation and it's

1471

00:56:57,410 --> 00:56:55,440

time consuming we do what we do we ask

1472

00:56:58,849 --> 00:56:57,420

the questions but we wait for people to

1473

00:57:00,770 --> 00:56:58,859

come back to us we wait for this and

1474

00:57:02,930 --> 00:57:00,780

that and it's it's massively time

1475

00:57:05,690 --> 00:57:02,940

consuming oh yeah and people want

1476  
00:57:08,210 --> 00:57:05,700  
answers like immediately it took us 13

1477  
00:57:09,650 --> 00:57:08,220  
years to to actually get

1478  
00:57:11,450 --> 00:57:09,660  
um the image

1479  
00:57:13,370 --> 00:57:11,460  
you know I'm sorry folks but you might

1480  
00:57:15,890 --> 00:57:13,380  
have to wait another 13 years before you

1481  
00:57:18,109 --> 00:57:15,900  
get anywhere

1482  
00:57:19,490 --> 00:57:18,119  
yeah so you know I've been getting this

1483  
00:57:20,690 --> 00:57:19,500  
a lot recently people like looking at

1484  
00:57:22,309 --> 00:57:20,700  
the watches obviously going hey it's

1485  
00:57:24,530 --> 00:57:22,319  
been a couple of months let's uh what

1486  
00:57:27,410 --> 00:57:24,540  
what's going on with Calvin it's like ah

1487  
00:57:28,910 --> 00:57:27,420  
yeah well I I hear your frustrations But

1488  
00:57:30,829 --> 00:57:28,920

please understand that the

1489

00:57:32,390 --> 00:57:30,839

investigations are

1490

00:57:35,030 --> 00:57:32,400

you know we're dealing with something so

1491

00:57:38,329 --> 00:57:35,040

old with very few people that were

1492

00:57:40,130 --> 00:57:38,339

either there or know anything so

1493

00:57:42,049 --> 00:57:40,140

please anybody that's listening or

1494

00:57:44,630 --> 00:57:42,059

watching just bear with us because we're

1495

00:57:47,329 --> 00:57:44,640

doing the best we can and a lot of the a

1496

00:57:49,130 --> 00:57:47,339

lot of the key people who um would have

1497

00:57:51,470 --> 00:57:49,140

been able to tell us something are dead

1498

00:57:54,250 --> 00:57:51,480

absolutely and we keep coming across

1499

00:57:56,510 --> 00:57:54,260

that a bit too often unfortunately

1500

00:57:59,390 --> 00:57:56,520

we feel like we've got

1501  
00:58:00,950 --> 00:57:59,400  
a few steps down a line or an Avenue of

1502  
00:58:03,049 --> 00:58:00,960  
investigation and

1503  
00:58:04,609 --> 00:58:03,059  
person's debt we have to then go down

1504  
00:58:07,490 --> 00:58:04,619  
another one and and these are taking

1505  
00:58:10,069 --> 00:58:07,500  
weeks at a time so it's just it's

1506  
00:58:11,809 --> 00:58:10,079  
gutting and it's very very disheartening

1507  
00:58:14,210 --> 00:58:11,819  
to a degree but I mean we're still going

1508  
00:58:16,190 --> 00:58:14,220  
to keep going but please bear with us um

1509  
00:58:18,530 --> 00:58:16,200  
so yeah we'll get to that another day

1510  
00:58:20,450 --> 00:58:18,540  
let's so the Black Project thing I think

1511  
00:58:22,370 --> 00:58:20,460  
is is fascinating when it comes to

1512  
00:58:23,530 --> 00:58:22,380  
condyn

1513  
00:58:25,730 --> 00:58:23,540

um

1514

00:58:27,650 --> 00:58:25,740

rendlesham let's we keep mentioning

1515

00:58:29,450 --> 00:58:27,660

Randall Sherman obviously it's like it's

1516

00:58:32,510 --> 00:58:29,460

you know it's the biggest case in the UK

1517

00:58:35,230 --> 00:58:32,520

but it wasn't touched upon enough let's

1518

00:58:37,490 --> 00:58:35,240

say in the report

1519

00:58:39,530 --> 00:58:37,500

yeah it throws up so many questions

1520

00:58:40,549 --> 00:58:39,540

really to me and I think to a lot of

1521

00:58:43,609 --> 00:58:40,559

people

1522

00:58:45,470 --> 00:58:43,619

he mentions it once in passing in the

1523

00:58:47,329 --> 00:58:45,480

volume two which is the one with the

1524

00:58:49,609 --> 00:58:47,339

working papers and I think it's in the

1525

00:58:52,549 --> 00:58:49,619

section under electromagnetic field

1526

00:58:53,750 --> 00:58:52,559

effects on human beings so there's a

1527

00:58:56,030 --> 00:58:53,760

whole section in there about what

1528

00:58:58,010 --> 00:58:56,040

happens it he's talking from the plasma

1529

00:58:59,589 --> 00:58:58,020

point of view so he's saying like if

1530

00:59:02,690 --> 00:58:59,599

these plasmas exist and don't forget

1531

00:59:06,710 --> 00:59:02,700

this the plasma Theory

1532

00:59:08,510 --> 00:59:06,720

is as unprovable as eating visitations

1533

00:59:11,510 --> 00:59:08,520

yep it's just he doesn't want to talk

1534

00:59:13,609 --> 00:59:11,520

about E.T so he prefers plasma

1535

00:59:15,950 --> 00:59:13,619

um he basically says if these plasmas

1536

00:59:17,690 --> 00:59:15,960

exist and his theory is that meteors are

1537

00:59:20,450 --> 00:59:17,700

impacting on the um

1538

00:59:23,450 --> 00:59:20,460

the planet and scientists know that

1539

00:59:25,789 --> 00:59:23,460

meteor impacts create Plasma in the

1540

00:59:27,109 --> 00:59:25,799

upper atmosphere this is proven you know

1541

00:59:28,370 --> 00:59:27,119

I mean there's all these photographs

1542

00:59:30,410 --> 00:59:28,380

that have been taken now from the

1543

00:59:32,450 --> 00:59:30,420

International Space Station of these

1544

00:59:35,030 --> 00:59:32,460

amazing plasmas above thunderstorms

1545

00:59:37,309 --> 00:59:35,040

they're called blue jets and Sprites and

1546

00:59:39,230 --> 00:59:37,319

they are amazing they look like UFOs you

1547

00:59:40,609 --> 00:59:39,240

know they're just sort of we don't

1548

00:59:42,589 --> 00:59:40,619

understand what they are and they're up

1549

00:59:44,809 --> 00:59:42,599

in the atmosphere and these kinds of

1550

00:59:48,589 --> 00:59:44,819

plasmas we know exist

1551  
00:59:50,750 --> 00:59:48,599  
or for them to explain UFO reports he's

1552  
00:59:52,970 --> 00:59:50,760  
talking about plasmas in the ionosphere

1553  
00:59:54,230 --> 00:59:52,980  
and the mesosphere what how do you

1554  
00:59:57,049 --> 00:59:54,240  
explain the things that are seen at

1555  
00:59:59,270 --> 00:59:57,059  
ground level exactly yeah and if you

1556  
01:00:01,490 --> 00:59:59,280  
came close to something like that it you

1557  
01:00:03,530 --> 01:00:01,500  
would literally be fried you know you're

1558  
01:00:05,210 --> 01:00:03,540  
talking about vast amounts of energy you

1559  
01:00:07,309 --> 01:00:05,220  
know so where are these things why has

1560  
01:00:09,710 --> 01:00:07,319  
no one ever measured them or at cap or

1561  
01:00:11,329 --> 01:00:09,720  
or reported them maybe they have I don't

1562  
01:00:12,789 --> 01:00:11,339  
know and they've not lived to tell the

1563  
01:00:14,870 --> 01:00:12,799

tale but

1564

01:00:16,430 --> 01:00:14,880

these things you know this is similar to

1565

01:00:17,990 --> 01:00:16,440

what we experience in Colombia and the

1566

01:00:20,210 --> 01:00:18,000

investigation we did there this there's

1567

01:00:21,829 --> 01:00:20,220

so little known about it around the

1568

01:00:24,170 --> 01:00:21,839

world you know you look at project hair

1569

01:00:26,210 --> 01:00:24,180

style and in Norway with uh you know the

1570

01:00:28,190 --> 01:00:26,220

work gone out there since the early 80s

1571

01:00:29,870 --> 01:00:28,200

and there's still no no really any

1572

01:00:32,089 --> 01:00:29,880

further to forming any kind of concise

1573

01:00:34,250 --> 01:00:32,099

conclusion well you you mentioned

1574

01:00:37,490 --> 01:00:34,260

hesterlin but in hestyle and one of the

1575

01:00:39,710 --> 01:00:37,500

theories is the same as um Ron haddo's

1576

01:00:41,450 --> 01:00:39,720

Theory you know Dusty plasmas which are

1577

01:00:44,390 --> 01:00:41,460

these sort of

1578

01:00:46,789 --> 01:00:44,400

um like Coal Energy that sort of sucks

1579

01:00:48,530 --> 01:00:46,799

into it dust from the atmosphere and

1580

01:00:50,990 --> 01:00:48,540

then it's somehow sort of sustains

1581

01:00:53,390 --> 01:00:51,000

itself so this this is I mean if you

1582

01:00:56,150 --> 01:00:53,400

look up if you're interested just Google

1583

01:00:57,829 --> 01:00:56,160

Dusty plasma it's something that plasma

1584

01:00:59,809 --> 01:00:57,839

physicists are talking about is the

1585

01:01:02,630 --> 01:00:59,819

theoretical concept they do exist but

1586

01:01:05,089 --> 01:01:02,640

whether they could explain things like

1587

01:01:07,730 --> 01:01:05,099

the hair style and lies is something

1588

01:01:08,650 --> 01:01:07,740

that needs lots and lots of scientific

1589

01:01:11,569 --> 01:01:08,660

um

1590

01:01:13,190 --> 01:01:11,579

investment to actually say whether it

1591

01:01:15,289 --> 01:01:13,200

could be something entirely different

1592

01:01:17,210 --> 01:01:15,299

that's creating those lights that you

1593

01:01:19,609 --> 01:01:17,220

saw in Colombia and that have been

1594

01:01:21,650 --> 01:01:19,619

reported in Norway and other places

1595

01:01:23,530 --> 01:01:21,660

yeah I mean the whole Earth-like thing

1596

01:01:25,490 --> 01:01:23,540

you know lights created by

1597

01:01:26,870 --> 01:01:25,500

piezoelectricity you know from rocks

1598

01:01:29,390 --> 01:01:26,880

crushing against each other in

1599

01:01:31,670 --> 01:01:29,400

geological faults which is another thing

1600

01:01:36,410 --> 01:01:31,680

that another thing he talks about in the

1601

01:01:38,930 --> 01:01:36,420

report yeah so this is the thing if

1602

01:01:41,390 --> 01:01:38,940

it's crazy that is

1603

01:01:43,849 --> 01:01:41,400

just doesn't want to say UAP or UFO it

1604

01:01:46,670 --> 01:01:43,859

just always points to something else and

1605

01:01:49,609 --> 01:01:46,680

it's quite blase about it you know this

1606

01:01:52,010 --> 01:01:49,619

is such a flawed report

1607

01:01:53,870 --> 01:01:52,020

before I read about it

1608

01:01:57,589 --> 01:01:53,880

is flawed but it's an important

1609

01:01:59,569 --> 01:01:57,599

historical document absolutely 100 yeah

1610

01:02:03,890 --> 01:01:59,579

the fact that the British government

1611

01:02:06,890 --> 01:02:03,900

used 50 000 pounds of public money uh to

1612

01:02:09,049 --> 01:02:06,900

do a study of UFOs or uaps at a time

1613

01:02:10,609 --> 01:02:09,059

when they were saying in Parliament in

1614

01:02:12,230 --> 01:02:10,619

response if you wrote to a letter to

1615

01:02:13,670 --> 01:02:12,240

them at that time and said what are you

1616

01:02:15,589 --> 01:02:13,680

doing on this subject they'd say nothing

1617

01:02:18,589 --> 01:02:15,599

we haven't spent any time and energy on

1618

01:02:20,569 --> 01:02:18,599

it which is untrue so the document

1619

01:02:23,030 --> 01:02:20,579

itself is

1620

01:02:24,410 --> 01:02:23,040

in whatever you think of the conclusions

1621

01:02:27,049 --> 01:02:24,420

and whatever you think of the

1622

01:02:29,770 --> 01:02:27,059

methodology and they put and the what it

1623

01:02:32,870 --> 01:02:29,780

was for the fact that that document

1624

01:02:36,170 --> 01:02:32,880

exists or existed

1625

01:02:38,030 --> 01:02:36,180

um is it surely in historical terms you

1626  
01:02:40,789 --> 01:02:38,040  
know like the condom report in America

1627  
01:02:44,030 --> 01:02:40,799  
or the the report Project Blue Book it's

1628  
01:02:45,829 --> 01:02:44,040  
it's it's part of the history of the

1629  
01:02:46,789 --> 01:02:45,839  
subject regardless of what you think

1630  
01:02:49,730 --> 01:02:46,799  
about

1631  
01:02:51,530 --> 01:02:49,740  
um how useful it is in the same way that

1632  
01:02:54,109 --> 01:02:51,540  
you know it was if you think about it

1633  
01:02:55,730 --> 01:02:54,119  
going back it's it's probably the last

1634  
01:02:57,710 --> 01:02:55,740  
time that the British government will

1635  
01:02:59,329 --> 01:02:57,720  
ever spend any time and attention to

1636  
01:03:03,170 --> 01:02:59,339  
this subject however much we want them

1637  
01:03:04,789 --> 01:03:03,180  
to publicly yeah publicly yeah I mean

1638  
01:03:06,950 --> 01:03:04,799

the only other one is the the one that

1639

01:03:09,470 --> 01:03:06,960

they did in 1951 you know the flying

1640

01:03:11,690 --> 01:03:09,480

source of working party yeah so there's

1641

01:03:13,849 --> 01:03:11,700

50 years separating those two which I

1642

01:03:15,890 --> 01:03:13,859

find fascinating exactly because there's

1643

01:03:18,349 --> 01:03:15,900

so many interesting cases between those

1644

01:03:20,450 --> 01:03:18,359

two yeah so many

1645

01:03:22,130 --> 01:03:20,460

and that's what I thought that's why I

1646

01:03:25,549 --> 01:03:22,140

mentioned to you before about the radar

1647

01:03:27,710 --> 01:03:25,559

cases and uh uh why they weren't really

1648

01:03:31,670 --> 01:03:27,720

featured and they weren't that important

1649

01:03:34,609 --> 01:03:31,680

in condyn but I guess times change and

1650

01:03:36,770 --> 01:03:34,619

radar changes yeah and the thing is when

1651  
01:03:38,750 --> 01:03:36,780  
he did this study he was given access to

1652  
01:03:41,270 --> 01:03:38,760  
the top what was then the documents that

1653  
01:03:44,089 --> 01:03:41,280  
were in the top secret archives and the

1654  
01:03:46,309 --> 01:03:44,099  
earliest di55 file that he could find

1655  
01:03:49,150 --> 01:03:46,319  
was from 1974.

1656  
01:03:52,130 --> 01:03:49,160  
so they destroyed a lot more previously

1657  
01:03:53,270 --> 01:03:52,140  
all the good stuff had been destroyed I

1658  
01:03:54,829 --> 01:03:53,280  
mean we've talked about this Vinnie

1659  
01:03:58,030 --> 01:03:54,839  
aren't we on the earlier programs you

1660  
01:04:04,670 --> 01:04:01,609  
all the files on those on those cases no

1661  
01:04:08,329 --> 01:04:04,680  
longer existed when he um started doing

1662  
01:04:11,089 --> 01:04:08,339  
the study in fact he didn't even see the

1663  
01:04:13,910 --> 01:04:11,099

## Flying Saucer working party report

1664

01:04:16,250 --> 01:04:13,920

because it was missing at the time

1665

01:04:18,049 --> 01:04:16,260

so he if you read the report he says he

1666

01:04:19,309 --> 01:04:18,059

found the references to the fact that a

1667

01:04:21,190 --> 01:04:19,319

report had been done for Winston

1668

01:04:24,190 --> 01:04:21,200

Churchill but they never got the report

1669

01:04:26,510 --> 01:04:24,200

I I found it

1670

01:04:28,190 --> 01:04:26,520

because they'd lost it they'd put it

1671

01:04:30,049 --> 01:04:28,200

inside another file

1672

01:04:32,329 --> 01:04:30,059

so where you found it physically in the

1673

01:04:34,730 --> 01:04:32,339

National Archives well I found a

1674

01:04:36,289 --> 01:04:34,740

reference to it and I I contacted them

1675

01:04:38,630 --> 01:04:36,299

and said look where's where's this

1676

01:04:40,430 --> 01:04:38,640

report that I know was produced in 1951

1677

01:04:41,750 --> 01:04:40,440

and they said oh well we've looked for

1678

01:04:43,609 --> 01:04:41,760

it several times and haven't been able

1679

01:04:47,150 --> 01:04:43,619

to find it and I said well go look again

1680

01:04:49,670 --> 01:04:47,160

and eventually after going through a

1681

01:04:51,650 --> 01:04:49,680

various files I think it was a

1682

01:04:53,510 --> 01:04:51,660

scientific intelligence file it was

1683

01:04:55,970 --> 01:04:53,520

inside another file and he was like oh

1684

01:04:58,730 --> 01:04:55,980

we found it would you like to see it

1685

01:05:01,430 --> 01:04:58,740

but this was after the report this was

1686

01:05:04,490 --> 01:05:01,440

after Ron hadu had completed the condyn

1687

01:05:07,130 --> 01:05:04,500

report so he never saw that himself

1688

01:05:09,049 --> 01:05:07,140

because he'd already completed his study

1689

01:05:11,210 --> 01:05:09,059

by then I don't know whether it would

1690

01:05:13,490 --> 01:05:11,220

have changed anything but well that's

1691

01:05:15,950 --> 01:05:13,500

the thing you know we look at these sort

1692

01:05:17,690 --> 01:05:15,960

of the minutiae and the details in

1693

01:05:19,849 --> 01:05:17,700

certain aspects but even if they were

1694

01:05:22,130 --> 01:05:19,859

focused on more that nothing would have

1695

01:05:24,650 --> 01:05:22,140

come of it and it's a Pity that he's

1696

01:05:26,450 --> 01:05:24,660

never spoken himself I mean I I've tried

1697

01:05:29,150 --> 01:05:26,460

to get him to talk to me I've written to

1698

01:05:30,589 --> 01:05:29,160

him politely I even went to his where he

1699

01:05:31,789 --> 01:05:30,599

lives on one occasion knocked on his

1700

01:05:34,250 --> 01:05:31,799

door and pushed a letter through his

1701

01:05:35,270 --> 01:05:34,260

letterbox but he's he's obviously been

1702

01:05:36,470 --> 01:05:35,280

told

1703

01:05:38,930 --> 01:05:36,480

um

1704

01:05:40,970 --> 01:05:38,940

don't speak to David Clark under any

1705

01:05:42,890 --> 01:05:40,980

circumstances you know but

1706

01:05:45,349 --> 01:05:42,900

yeah there's that but there's also the

1707

01:05:47,390 --> 01:05:45,359

way his whole life changed and his

1708

01:05:49,010 --> 01:05:47,400

belief systems and I mean maybe we

1709

01:05:51,770 --> 01:05:49,020

should speak about that the book he

1710

01:05:53,630 --> 01:05:51,780

wrote and yeah he went quite off onto

1711

01:05:55,730 --> 01:05:53,640

the side of religion and stuff like that

1712

01:05:56,569 --> 01:05:55,740

didn't he he did yeah he wrote a book a

1713

01:05:59,870 --> 01:05:56,579

novel

1714

01:06:02,030 --> 01:05:59,880

um about the uh the Third World War he

1715

01:06:04,430 --> 01:06:02,040

believes uh he's a he's a member of a

1716

01:06:06,289 --> 01:06:04,440

particular Christian sect

1717

01:06:07,609 --> 01:06:06,299

um he wrote a novel called No Weapon

1718

01:06:09,410 --> 01:06:07,619

forged

1719

01:06:11,210 --> 01:06:09,420

um and the interesting thing is is a

1720

01:06:13,010 --> 01:06:11,220

two-page biography of him in there that

1721

01:06:16,010 --> 01:06:13,020

effectively

1722

01:06:18,170 --> 01:06:16,020

people says he doesn't say that he

1723

01:06:20,329 --> 01:06:18,180

worked on UFOs but he if you read his

1724

01:06:22,010 --> 01:06:20,339

biography it's very clear that he is the

1725

01:06:24,109 --> 01:06:22,020

person who wrote the condyn report

1726

01:06:27,289 --> 01:06:24,119

because his description of his job

1727

01:06:29,589 --> 01:06:27,299

it almost fits the template precisely

1728

01:06:33,049 --> 01:06:29,599

you know that he worked for this gec

1729

01:06:35,870 --> 01:06:33,059

Marconi uh he's interested in radar he

1730

01:06:38,150 --> 01:06:35,880

flew major in the second in the in the

1731

01:06:41,630 --> 01:06:38,160

Cold War et cetera Etc the book doesn't

1732

01:06:43,849 --> 01:06:41,640

mention UFOs at all disappointingly but

1733

01:06:46,549 --> 01:06:43,859

the interesting thing is this is one of

1734

01:06:49,730 --> 01:06:46,559

the things that I managed that one of

1735

01:06:51,109 --> 01:06:49,740

the little clues that identified him I

1736

01:06:53,690 --> 01:06:51,119

found the reference and I don't think

1737

01:06:56,210 --> 01:06:53,700

it's online anymore on a on a News Group

1738

01:06:59,809 --> 01:06:56,220

discussion and it was about a meeting

1739

01:07:02,809 --> 01:06:59,819

that had been held in Israel in I think

1740

01:07:05,029 --> 01:07:02,819

2000 shortly after he'd completed the

1741

01:07:06,890 --> 01:07:05,039

report and it was a conference um called

1742

01:07:09,650 --> 01:07:06,900

the um the conference of the Tabernacles

1743

01:07:12,950 --> 01:07:09,660

okay and and it was someone who had

1744

01:07:15,170 --> 01:07:12,960

attended this um this this meeting who

1745

01:07:17,690 --> 01:07:15,180

said we had a really strange report

1746

01:07:19,130 --> 01:07:17,700

um Talk by someone

1747

01:07:21,529 --> 01:07:19,140

um who was a former British government

1748

01:07:25,309 --> 01:07:21,539

scientist who

1749

01:07:27,710 --> 01:07:25,319

um his talk was on um UFOs and uaps and

1750

01:07:29,809 --> 01:07:27,720

about Dusty plasmas and how these things

1751

01:07:31,250 --> 01:07:29,819

in the atmosphere were causing Pilots to

1752

01:07:33,650 --> 01:07:31,260

see UFOs

1753

01:07:35,750 --> 01:07:33,660

and this guy who I think he was a

1754

01:07:37,549 --> 01:07:35,760

Canadian and bloke and he was talking

1755

01:07:39,650 --> 01:07:37,559

about that he'd attended this meeting

1756

01:07:43,010 --> 01:07:39,660

where this British government scientist

1757

01:07:45,950 --> 01:07:43,020

was talking about UFOs in 2000 and in

1758

01:07:47,630 --> 01:07:45,960

Ron haddo's book he says he was at that

1759

01:07:50,829 --> 01:07:47,640

conference

1760

01:07:54,230 --> 01:07:50,839

now uh I don't don't call me Hercules

1761

01:07:57,349 --> 01:07:54,240

but I thought I put two and two together

1762

01:07:59,569 --> 01:07:57,359

it's clearly Ron had her and after

1763

01:08:02,870 --> 01:07:59,579

delivering the report he attended this

1764

01:08:05,089 --> 01:08:02,880

religious conference in in Israel and

1765

01:08:06,829 --> 01:08:05,099

for some reason they must have been

1766

01:08:09,529 --> 01:08:06,839

asked to talk about whatever they'd done

1767

01:08:12,349 --> 01:08:09,539

in their career and he decided to talk

1768

01:08:13,069 --> 01:08:12,359

about new APS

1769

01:08:14,870 --> 01:08:13,079

foreign

1770

01:08:16,490 --> 01:08:14,880

so I mean all the stuff about you

1771

01:08:18,709 --> 01:08:16,500

shouldn't be revealing people's identity

1772

01:08:21,289 --> 01:08:18,719

and privacy and that he he actually was

1773

01:08:24,229 --> 01:08:21,299

speaking in public so he's effectively

1774

01:08:25,910 --> 01:08:24,239

outed himself as far as I'm concerned

1775

01:08:27,470 --> 01:08:25,920

um and he wrote this novel as well in

1776

01:08:29,630 --> 01:08:27,480

which he published a biography of

1777

01:08:31,970 --> 01:08:29,640

himself so a number of different things

1778

01:08:33,050 --> 01:08:31,980

came together to identify him as the

1779

01:08:34,550 --> 01:08:33,060

author

1780

01:08:35,689 --> 01:08:34,560

and you mentioned it I think briefly

1781

01:08:37,550 --> 01:08:35,699

earlier that you have tried and get in

1782

01:08:39,950 --> 01:08:37,560

contact with him over the years but to

1783

01:08:42,289 --> 01:08:39,960

no avail I mean was that because he

1784

01:08:45,349 --> 01:08:42,299

didn't want to speak or it was just we

1785

01:08:48,590 --> 01:08:45,359

don't know but I do know because there

1786

01:08:50,570 --> 01:08:48,600

are several um documents in the files

1787

01:08:52,669 --> 01:08:50,580

that have been released other defense

1788

01:08:54,289 --> 01:08:52,679

Intelligence Officers who I have

1789

01:08:56,090 --> 01:08:54,299

approached

1790

01:08:58,070 --> 01:08:56,100

um to ask them about UFOs they've

1791

01:08:59,930 --> 01:08:58,080

there's actually their letters to the

1792

01:09:02,090 --> 01:08:59,940

mod saying this guy from Sheffield

1793

01:09:05,030 --> 01:09:02,100

university has contacted us what should

1794

01:09:06,709 --> 01:09:05,040

we do speak to them and there is one

1795

01:09:09,769 --> 01:09:06,719

where they say to this guy and this was

1796

01:09:12,229 --> 01:09:09,779

a guy who'd worked on UFOs in the 1950s

1797

01:09:14,570 --> 01:09:12,239

for defense intelligence and I remember

1798

01:09:16,189 --> 01:09:14,580

contacting him and he lived in

1799

01:09:17,990 --> 01:09:16,199

Lincolnshire

1800

01:09:19,669 --> 01:09:18,000

um and he was like oh yeah yeah I'd love

1801

01:09:21,229 --> 01:09:19,679

to talk to you about it um you know

1802

01:09:23,090 --> 01:09:21,239

let's fix up a day and then I got back

1803

01:09:23,990 --> 01:09:23,100

to him and he suddenly clammed up and it

1804

01:09:25,490 --> 01:09:24,000

was like

1805

01:09:27,769 --> 01:09:25,500

um I've decided I don't want to talk to

1806

01:09:30,110 --> 01:09:27,779

you and then in the files there's his

1807

01:09:31,789 --> 01:09:30,120

letter to mod saying should I speak to

1808

01:09:34,430 --> 01:09:31,799

David Clark and this and they sort of

1809

01:09:36,890 --> 01:09:34,440

say no don't because you might reveal

1810

01:09:38,630 --> 01:09:36,900

something that's um secret you know and

1811

01:09:40,610 --> 01:09:38,640

don't forget uh you've signed the

1812

01:09:44,809 --> 01:09:40,620

official Secrets act so it

1813

01:09:47,150 --> 01:09:44,819

and 100 certain that Ron haddo will have

1814

01:09:49,430 --> 01:09:47,160

gone to the mod and said this guy who's

1815

01:09:51,470 --> 01:09:49,440

discovered I'm the author has contacted

1816

01:09:53,269 --> 01:09:51,480

me he wants to talk to me

1817

01:09:54,830 --> 01:09:53,279

um should I speak should I should I talk

1818

01:09:57,950 --> 01:09:54,840

to him about it and they'll have said no

1819

01:10:01,610 --> 01:09:57,960

I'd be a breach of official Secrets Act

1820

01:10:03,890 --> 01:10:01,620

so Ron haddo is now 86 years old

1821

01:10:05,930 --> 01:10:03,900

he's not going to be around for a much

1822

01:10:08,270 --> 01:10:05,940

longer is he really and when it's no

1823

01:10:10,790 --> 01:10:08,280

longer around his knowledge of this

1824

01:10:13,189 --> 01:10:10,800

subject is going to be gone forever yeah

1825

01:10:14,930 --> 01:10:13,199

and he's never going to speak about it

1826

01:10:18,530 --> 01:10:14,940

in public is he and I think that's a

1827

01:10:20,750 --> 01:10:18,540

tragedy and I mean Ian Cobain wrote a

1828

01:10:23,090 --> 01:10:20,760

book called the history thieves which is

1829

01:10:24,590 --> 01:10:23,100

all about how the ministry of defense

1830

01:10:25,850 --> 01:10:24,600

and the National Archives and some of

1831

01:10:28,610 --> 01:10:25,860

these other government departments

1832

01:10:31,070 --> 01:10:28,620

conspire to hide

1833

01:10:33,770 --> 01:10:31,080

um material from the public and not only

1834

01:10:36,229 --> 01:10:33,780

by redacting names from documents back

1835

01:10:38,450 --> 01:10:36,239

to Calvin again then just ensure that

1836

01:10:40,310 --> 01:10:38,460

people who might say something about

1837

01:10:41,990 --> 01:10:40,320

subjects that they don't want the public

1838

01:10:44,209 --> 01:10:42,000

to know about are never going to be able

1839

01:10:46,790 --> 01:10:44,219

to do that and that's effectively

1840

01:10:48,410 --> 01:10:46,800

stealing our history and the history of

1841

01:10:50,209 --> 01:10:48,420

this subject as far as I'm concerned I

1842

01:10:51,709 --> 01:10:50,219

think it's inexcusable

1843

01:10:53,390 --> 01:10:51,719

yeah I mean there's two ways of looking

1844

01:10:55,070 --> 01:10:53,400

at it isn't it like they're doing their

1845

01:10:56,930 --> 01:10:55,080

job they've signed the official Secrets

1846

01:10:58,250 --> 01:10:56,940

act yeah but surely so there should be

1847

01:10:59,689 --> 01:10:58,260

some kind of time scale on that like

1848

01:11:01,610 --> 01:10:59,699

there is with the or there was with the

1849

01:11:04,070 --> 01:11:01,620

release of documents you know 20 year

1850

01:11:05,810 --> 01:11:04,080

old 30-year rule yeah it should be a

1851

01:11:07,850 --> 01:11:05,820

something similar along those lines I

1852

01:11:09,590 --> 01:11:07,860

think but also it's contradictory

1853

01:11:11,450 --> 01:11:09,600

because they're saying and they've said

1854

01:11:14,810 --> 01:11:11,460

on the record numerous times that the

1855

01:11:16,189 --> 01:11:14,820

subject of UFOs itself is not subject to

1856

01:11:17,750 --> 01:11:16,199

the official Secrets act that they're

1857

01:11:21,350 --> 01:11:17,760

not trying to hide anything there's

1858

01:11:23,810 --> 01:11:21,360

nothing to hide therefore why can't

1859

01:11:25,490 --> 01:11:23,820

these people speak about what they did

1860

01:11:26,870 --> 01:11:25,500

when they were studying the subject and

1861

01:11:28,850 --> 01:11:26,880

what they found

1862

01:11:30,830 --> 01:11:28,860

the only the only reason is is that

1863

01:11:32,270 --> 01:11:30,840

these people were some were subjected

1864

01:11:34,729 --> 01:11:32,280

they'd sign the official Secrets act

1865

01:11:37,010 --> 01:11:34,739

they were involved in all kinds of other

1866

01:11:38,750 --> 01:11:37,020

um activities to do with Espionage to do

1867

01:11:41,450 --> 01:11:38,760

with cold war

1868

01:11:43,250 --> 01:11:41,460

um you know Russian

1869

01:11:44,630 --> 01:11:43,260

um technology that kind of thing and

1870

01:11:46,669 --> 01:11:44,640

they don't want their identities

1871

01:11:49,070 --> 01:11:46,679

published and their identities by

1872

01:11:51,350 --> 01:11:49,080

talking about UFOs would then make them

1873

01:11:53,930 --> 01:11:51,360

the target for enemy

1874

01:11:56,030 --> 01:11:53,940

um agents that's I can I can understand

1875

01:11:58,370 --> 01:11:56,040

that but I think there are ways of

1876

01:12:00,290 --> 01:11:58,380

allowing their

1877

01:12:02,149 --> 01:12:00,300

um what they know about the subject to

1878

01:12:04,010 --> 01:12:02,159

emerging public without

1879

01:12:06,290 --> 01:12:04,020

um putting them in a in a vulnerable

1880

01:12:08,630 --> 01:12:06,300

position yeah I agree

1881

01:12:10,550 --> 01:12:08,640

but I guess they take the easy way out

1882

01:12:12,590 --> 01:12:10,560

of that yeah best just not to talk about

1883

01:12:15,229 --> 01:12:12,600

it at all than what what trouble can we

1884

01:12:17,090 --> 01:12:15,239

get into and I suppose here is we ought

1885

01:12:20,270 --> 01:12:17,100

to say what the latest developments on

1886

01:12:23,649 --> 01:12:20,280

this um I guess that's a great place to

1887

01:12:25,729 --> 01:12:23,659

finish it off with wow yeah absolutely

1888

01:12:27,290 --> 01:12:25,739

right well

1889

01:12:29,090 --> 01:12:27,300

um

1890

01:12:30,890 --> 01:12:29,100

as with all

1891

01:12:32,930 --> 01:12:30,900

um documents

1892

01:12:34,610 --> 01:12:32,940

um public documents like this I mean and

1893

01:12:36,169 --> 01:12:34,620

this is a hefty document as we've seen

1894

01:12:36,910 --> 01:12:36,179

it's four volumes

1895

01:12:44,030 --> 01:12:36,920

um

1896

01:12:46,250 --> 01:12:44,040

been withheld and have been redacted as

1897

01:12:48,410 --> 01:12:46,260

with all public documents this should

1898

01:12:50,810 --> 01:12:48,420

eventually be sent to the National

1899

01:12:52,550 --> 01:12:50,820

Archives to go into the National

1900

01:12:54,649 --> 01:12:52,560

Archives so that you can order it up

1901

01:12:56,570 --> 01:12:54,659

when you go to queue and see the

1902

01:12:57,770 --> 01:12:56,580

document even if bits of it have to be

1903

01:12:59,149 --> 01:12:57,780

retained

1904

01:13:01,370 --> 01:12:59,159

so

1905

01:13:03,590 --> 01:13:01,380

um because it's quite recent that's not

1906

01:13:05,390 --> 01:13:03,600

going to happen for a long time so in my

1907

01:13:07,130 --> 01:13:05,400

correspondence with the mod I've sort of

1908

01:13:10,430 --> 01:13:07,140

over the years said right well when is

1909

01:13:13,370 --> 01:13:10,440

this the original copy of the report

1910

01:13:15,410 --> 01:13:13,380

going to be transferred or reviewed for

1911

01:13:18,050 --> 01:13:15,420

transfer to the National Archives and

1912

01:13:19,430 --> 01:13:18,060

they'd already said that UFO documents

1913

01:13:20,810 --> 01:13:19,440

because of the in the hands public

1914

01:13:23,390 --> 01:13:20,820

interest in them and the number of

1915

01:13:27,229 --> 01:13:23,400

people they're asking to see stuff and

1916

01:13:28,790 --> 01:13:27,239

now one of the areas topics that if

1917

01:13:30,649 --> 01:13:28,800

they've got something on the subject it

1918

01:13:33,410 --> 01:13:30,659

mustn't be destroyed it's alongside like

1919

01:13:35,330 --> 01:13:33,420

the royal family now in their their list

1920

01:13:36,590 --> 01:13:35,340

of priority documents yeah that

1921

01:13:38,270 --> 01:13:36,600

shouldn't be destroyed that should be

1922

01:13:40,790 --> 01:13:38,280

transferred to the National Archive so I

1923

01:13:43,729 --> 01:13:40,800

I sort of waited and I think it was in

1924

01:13:45,890 --> 01:13:43,739

2018 I um I contacted them and said now

1925

01:13:47,270 --> 01:13:45,900

then calm down report when are you going

1926

01:13:50,030 --> 01:13:47,280

to review it for release at the National

1927

01:13:52,250 --> 01:13:50,040

Archives and I got a very unequivocal

1928

01:13:53,510 --> 01:13:52,260

reply um it's coming up for review in

1929

01:13:55,610 --> 01:13:53,520

2020.

1930

01:13:57,649 --> 01:13:55,620

and this is the full unredacted version

1931

01:13:59,090 --> 01:13:57,659

yeah coming up for review and that's

1932

01:14:00,169 --> 01:13:59,100

when we'll look at it and see when it

1933

01:14:02,450 --> 01:14:00,179

can be transferred it's a public

1934

01:14:04,130 --> 01:14:02,460

document under the public records act so

1935

01:14:06,290 --> 01:14:04,140

I just thought yeah great okay I'll

1936

01:14:07,970 --> 01:14:06,300

leave it and then of course kovid came

1937

01:14:09,770 --> 01:14:07,980

along and Calvin and all these other

1938

01:14:11,149 --> 01:14:09,780

things and distracted me now

1939

01:14:12,709 --> 01:14:11,159

um I'd forgotten about him but Matthew

1940

01:14:15,470 --> 01:14:12,719

ilesley

1941

01:14:17,390 --> 01:14:15,480

who's part of our little team

1942

01:14:20,149 --> 01:14:17,400

um looking at the Calvin

1943

01:14:21,229 --> 01:14:20,159

um photograph he'd he he was interested

1944

01:14:24,169 --> 01:14:21,239

in them

1945

01:14:26,270 --> 01:14:24,179

the report so he wrote to the emods and

1946

01:14:28,550 --> 01:14:26,280

asked the same question not knowing that

1947

01:14:32,030 --> 01:14:28,560

they told me it was coming up for review

1948

01:14:34,250 --> 01:14:32,040

and it was a public document and well

1949

01:14:36,709 --> 01:14:34,260

Vinnie what did they tell Matthew

1950

01:14:40,010 --> 01:14:36,719

but there was no trace of it there was

1951

01:14:42,470 --> 01:14:40,020

it they couldn't find it anywhere it no

1952

01:14:46,130 --> 01:14:42,480

longer existed yeah it didn't exist

1953

01:14:49,850 --> 01:14:48,590

and they told him basically that when

1954

01:14:51,410 --> 01:14:49,860

they'd scanned it you know we were

1955

01:14:53,990 --> 01:14:51,420

talking about the the version you can

1956

01:14:56,630 --> 01:14:54,000

click on and download that's so annoying

1957

01:14:58,790 --> 01:14:56,640

that whoever had scammed it had

1958

01:15:00,530 --> 01:14:58,800

accidentally destroyed it

1959

01:15:01,729 --> 01:15:00,540

when he was scanning it or she was

1960

01:15:03,350 --> 01:15:01,739

scanning it

1961

01:15:05,830 --> 01:15:03,360

unbelievable

1962

01:15:08,330 --> 01:15:05,840

and quite naturally Matthew was like

1963

01:15:10,189 --> 01:15:08,340

stunned to hear this because the

1964

01:15:12,890 --> 01:15:10,199

document itself if you actually look at

1965

01:15:15,050 --> 01:15:12,900

the cover it says this is a this is a

1966

01:15:17,149 --> 01:15:15,060

secret document under the you know the

1967

01:15:19,130 --> 01:15:17,159

official Secrets act under no

1968

01:15:20,870 --> 01:15:19,140

circumstances should it be destroyed and

1969

01:15:23,689 --> 01:15:20,880

anyone trying to destroy it will be

1970

01:15:26,030 --> 01:15:23,699

prosecuted and yet somehow they'd manage

1971

01:15:28,750 --> 01:15:26,040

to lose it and completely destroy the

1972

01:15:34,669 --> 01:15:32,450

so um when Matthew told me this

1973

01:15:38,030 --> 01:15:34,679

because they're trying to fold him off

1974

01:15:42,350 --> 01:15:38,040

I sent him what they told me in 2018.

1975

01:15:44,390 --> 01:15:42,360

that it it did exist in 2018

1976

01:15:46,310 --> 01:15:44,400

um that it it was a public document

1977

01:15:48,590 --> 01:15:46,320

therefore it's illegal for it to be

1978

01:15:50,450 --> 01:15:48,600

destroyed and so I immediately went back

1979

01:15:52,550 --> 01:15:50,460

to them and said hold on a minute you

1980

01:15:55,790 --> 01:15:52,560

know how can you have destroyed it this

1981

01:15:57,770 --> 01:15:55,800

is this is a a criminal offense for it

1982

01:16:00,110 --> 01:15:57,780

to have been destroyed anyway this has

1983

01:16:03,169 --> 01:16:00,120

obviously caused Mayhem because we've

1984

01:16:05,689 --> 01:16:03,179

we've we've now been told

1985

01:16:08,930 --> 01:16:05,699

um that there's a an investigation going

1986

01:16:11,810 --> 01:16:08,940

on in the mod by the um departmental

1987

01:16:13,070 --> 01:16:11,820

record officer into how this could

1988

01:16:13,910 --> 01:16:13,080

possibly have happened and they've

1989

01:16:15,770 --> 01:16:13,920

written to all these different

1990

01:16:17,570 --> 01:16:15,780

organizations that we've just seen on

1991

01:16:18,590 --> 01:16:17,580

that list I've got them now if you want

1992

01:16:21,890 --> 01:16:18,600

to have a look at them and go through

1993

01:16:27,290 --> 01:16:24,530

there are many like so these are all

1994

01:16:29,090 --> 01:16:27,300

people that had the original unredacted

1995

01:16:31,070 --> 01:16:29,100

version so if you could break them down

1996

01:16:35,270 --> 01:16:31,080

for us because I don't know the acronyms

1997

01:16:37,790 --> 01:16:35,280

and I'm hoping okay Deputy bcdi is the

1998

01:16:40,550 --> 01:16:37,800

Deputy Chief of Defense intelligence so

1999

01:16:43,729 --> 01:16:40,560

he's he or she is

2000

01:16:45,649 --> 01:16:43,739

um the person who is second down in the

2001  
01:16:47,510 --> 01:16:45,659  
pecking order from the head of Defense

2002  
01:16:50,270 --> 01:16:47,520  
intelligence which is a very senior

2003  
01:16:53,570 --> 01:16:50,280  
military role so that person is a

2004  
01:16:54,950 --> 01:16:53,580  
civilian a civil servant the the head of

2005  
01:17:00,709 --> 01:16:54,960  
Defense intelligence is a military

2006  
01:17:02,390 --> 01:17:00,719  
officer either an RAF Royal Navy or Army

2007  
01:17:04,970 --> 01:17:02,400  
um but the the one who would I don't

2008  
01:17:06,950 --> 01:17:04,980  
know who that was in 2000 but it was the

2009  
01:17:09,950 --> 01:17:06,960  
deputy who would be a civil servant and

2010  
01:17:10,970 --> 01:17:09,960  
so Deputy Chief of Defense intelligence

2011  
01:17:12,530 --> 01:17:10,980  
um

2012  
01:17:14,330 --> 01:17:12,540  
I'm not sure what the other one is but

2013  
01:17:16,430 --> 01:17:14,340

it's something to do with research and

2014

01:17:18,110 --> 01:17:16,440

research and Technology research and

2015

01:17:19,610 --> 01:17:18,120

technology so whoever he was he was

2016

01:17:22,250 --> 01:17:19,620

involved in sort of Cutting Edge

2017

01:17:24,050 --> 01:17:22,260

technology yeah black projects and uavs

2018

01:17:27,290 --> 01:17:24,060

that kind of thing

2019

01:17:30,169 --> 01:17:27,300

um adg is that Branch you know the one

2020

01:17:33,169 --> 01:17:30,179

where we said there was secasdi 55 and

2021

01:17:35,750 --> 01:17:33,179

so air defense air defense under RAF

2022

01:17:38,570 --> 01:17:35,760

air defense ground environment so they

2023

01:17:40,490 --> 01:17:38,580

are the the the part of the RAF that

2024

01:17:42,470 --> 01:17:40,500

runs RAF filing deals for instance you

2025

01:17:45,470 --> 01:17:42,480

know the yeah so ground Radars and stuff

2026

01:17:46,910 --> 01:17:45,480

like that earwax as well yeah

2027

01:17:50,090 --> 01:17:46,920

um ifs

2028

01:17:52,010 --> 01:17:50,100

um RAF is um I think they're based at

2029

01:17:54,410 --> 01:17:52,020

Bentley Priory so they are the part of

2030

01:17:57,770 --> 01:17:54,420

the RAF that investigate air crashes you

2031

01:17:59,330 --> 01:17:57,780

know RAF air crash investigators and

2032

01:18:02,390 --> 01:17:59,340

that they're copied in because of the

2033

01:18:04,790 --> 01:18:02,400

thing about the near-miss yeah incident

2034

01:18:07,310 --> 01:18:04,800

um HQ meter that's military air traffic

2035

01:18:09,470 --> 01:18:07,320

organization that no longer exists that

2036

01:18:12,590 --> 01:18:09,480

was based at Uxbridge I believe in 2000

2037

01:18:14,570 --> 01:18:12,600

and it was like a intermediary agency

2038

01:18:16,250 --> 01:18:14,580

that that was sort of like a halfway

2039

01:18:18,410 --> 01:18:16,260

house between the military and the

2040

01:18:20,930 --> 01:18:18,420

severe civil aviation Authority so they

2041

01:18:22,130 --> 01:18:20,940

make sense radar they no longer exist

2042

01:18:27,890 --> 01:18:22,140

right

2043

01:18:30,890 --> 01:18:27,900

um ADI 55 di51 is um di55 was the space

2044

01:18:33,470 --> 01:18:30,900

weapons branch and di51 was the

2045

01:18:35,450 --> 01:18:33,480

electronic surveillance Branch so so

2046

01:18:37,189 --> 01:18:35,460

they were involved in all kinds of

2047

01:18:39,110 --> 01:18:37,199

spooky activities as well you know

2048

01:18:42,290 --> 01:18:39,120

remote viewing they did a remote viewing

2049

01:18:45,050 --> 01:18:42,300

study it di51 and they were interested

2050

01:18:47,090 --> 01:18:45,060

in the UFOs as well so they were all

2051

01:18:49,430 --> 01:18:47,100

copied they all got a copy of the full

2052

01:18:51,649 --> 01:18:49,440

report and they've all some of those

2053

01:18:52,970 --> 01:18:51,659

organizations no longer exist or you

2054

01:18:54,709 --> 01:18:52,980

know like they're constantly changing

2055

01:18:56,510 --> 01:18:54,719

the names and the acronyms are changing

2056

01:18:58,970 --> 01:18:56,520

so they've they've Tracked Down who are

2057

01:19:01,189 --> 01:18:58,980

the successor organizations and they

2058

01:19:02,870 --> 01:19:01,199

said have you got a copy of this

2059

01:19:05,870 --> 01:19:02,880

and apparently they've all come back and

2060

01:19:10,130 --> 01:19:07,850

so I I said to them in my last letter

2061

01:19:12,530 --> 01:19:10,140

why don't you go and ask Ron haddo he

2062

01:19:14,270 --> 01:19:12,540

wrote it maybe he's kept a copy of it

2063

01:19:16,010 --> 01:19:14,280

and of course they don't even want to

2064

01:19:18,050 --> 01:19:16,020

talk about Ron had her because you know

2065

01:19:19,610 --> 01:19:18,060

it's age protection you know

2066

01:19:21,290 --> 01:19:19,620

you know but he would be the obvious

2067

01:19:23,450 --> 01:19:21,300

person to go and ask

2068

01:19:25,370 --> 01:19:23,460

absolutely

2069

01:19:28,189 --> 01:19:25,380

I mean so um

2070

01:19:30,110 --> 01:19:28,199

so it was kind of a dead end again

2071

01:19:32,870 --> 01:19:30,120

they promised me a copy of their

2072

01:19:36,310 --> 01:19:32,880

investigation report but I just think

2073

01:19:38,630 --> 01:19:36,320

it's embarrassing and it

2074

01:19:40,070 --> 01:19:38,640

if you if you want to see this as a

2075

01:19:42,229 --> 01:19:40,080

conspiracy

2076

01:19:44,330 --> 01:19:42,239

please be my guest because it does look

2077

01:19:46,130 --> 01:19:44,340

suspicious well how have they destroyed

2078

01:19:48,950 --> 01:19:46,140

this thing

2079

01:19:51,830 --> 01:19:48,960

um but just knowing what um what chaos

2080

01:19:54,050 --> 01:19:51,840

civil service departments are alike no

2081

01:19:55,790 --> 01:19:54,060

one keeps paper records anymore I mean

2082

01:19:57,530 --> 01:19:55,800

you go and ask any Department of

2083

01:19:58,729 --> 01:19:57,540

government have you got any paper

2084

01:20:00,590 --> 01:19:58,739

records

2085

01:20:03,229 --> 01:20:00,600

and they'll say no we got rid of them

2086

01:20:06,050 --> 01:20:03,239

all years ago so we've only at our

2087

01:20:08,870 --> 01:20:06,060

corporate memory only goes back two

2088

01:20:11,810 --> 01:20:08,880

years everything else has been destroyed

2089

01:20:14,930 --> 01:20:11,820

and I think it's this is an example of

2090

01:20:18,410 --> 01:20:14,940

pure and utter incompetence

2091

01:20:21,350 --> 01:20:18,420

yeah you know and but why someone would

2092

01:20:23,330 --> 01:20:21,360

destroy a a document like this which is

2093

01:20:26,390 --> 01:20:23,340

clearly of historical importance which

2094

01:20:27,890 --> 01:20:26,400

they themselves have said because they

2095

01:20:30,290 --> 01:20:27,900

said in 2011

2096

01:20:32,630 --> 01:20:30,300

the subject of UFOs now because of the

2097

01:20:34,910 --> 01:20:32,640

number of foi requests we get and the

2098

01:20:37,490 --> 01:20:34,920

general interest in the subject means

2099

01:20:39,290 --> 01:20:37,500

that they've listed UFOs alongside the

2100

01:20:40,790 --> 01:20:39,300

royal family this family or they're all

2101

01:20:43,430 --> 01:20:40,800

these different topics

2102

01:20:45,830 --> 01:20:43,440

under no circumstances should documents

2103

01:20:48,169 --> 01:20:45,840

that refer to this subject be destroyed

2104

01:20:52,070 --> 01:20:48,179

and yet someone apparently destroyed it

2105

01:20:54,709 --> 01:20:52,080

and even knowing how um the mod Works a

2106

01:20:56,750 --> 01:20:54,719

top secret document to destroy it you've

2107

01:20:59,390 --> 01:20:56,760

got to get it's you've got to get the

2108

01:21:01,790 --> 01:20:59,400

decision to destroy it signed off by a

2109

01:21:03,770 --> 01:21:01,800

senior Ministry of Defense official so

2110

01:21:06,590 --> 01:21:03,780

they have a destruction certificate yeah

2111

01:21:08,630 --> 01:21:06,600

that someone has to sign before that

2112

01:21:11,270 --> 01:21:08,640

document goes into an incinerator that

2113

01:21:13,310 --> 01:21:11,280

says right you know calm down report

2114

01:21:15,530 --> 01:21:13,320

um yeah fair enough we no longer need to

2115

01:21:17,450 --> 01:21:15,540

keep a copy of this destroy it and it's

2116

01:21:19,669 --> 01:21:17,460

signed by someone and that destruction

2117

01:21:21,709 --> 01:21:19,679

certificate has to be kept for a minimum

2118

01:21:24,830 --> 01:21:21,719

of five years so if it was destroyed in

2119

01:21:26,149 --> 01:21:24,840

2018 that destruction certificate should

2120

01:21:27,830 --> 01:21:26,159

still exist

2121

01:21:29,810 --> 01:21:27,840

this is one of the questions I've asked

2122

01:21:31,729 --> 01:21:29,820

them where's the destruction but that's

2123

01:21:32,870 --> 01:21:31,739

the thing I think this this I mean

2124

01:21:34,490 --> 01:21:32,880

you've been back and forth with them a

2125

01:21:36,530 --> 01:21:34,500

couple of times in the past six months I

2126

01:21:38,149 --> 01:21:36,540

know that but it is ongoing still we're

2127

01:21:39,910 --> 01:21:38,159

still yeah

2128

01:21:42,470 --> 01:21:39,920

we're still waiting for him

2129

01:21:44,810 --> 01:21:42,480

we promise to keep me updated on the

2130

01:21:47,270 --> 01:21:44,820

subject yeah they'll drag that out as

2131

01:21:48,649 --> 01:21:47,280

best they can I'm sure yeah so they may

2132

01:21:50,090 --> 01:21:48,659

they might actually come and say can we

2133

01:21:52,930 --> 01:21:50,100

have your copy back because we've lost

2134

01:21:58,250 --> 01:21:55,390

no

2135

01:22:00,410 --> 01:21:58,260

well I think we covered everything there

2136

01:22:02,149 --> 01:22:00,420

uh looking at my notes and that like I

2137

01:22:03,229 --> 01:22:02,159

said to everyone earlier I've got a load

2138

01:22:05,450 --> 01:22:03,239

of these kind of back and forth

2139

01:22:07,189 --> 01:22:05,460

documents from di55 and the letters that

2140

01:22:09,110 --> 01:22:07,199

are not part of the report I'll pop them

2141

01:22:11,570 --> 01:22:09,120

into a drive and make them accessible to

2142

01:22:13,490 --> 01:22:11,580

everybody along with the full 400 page

2143

01:22:17,209 --> 01:22:13,500

report but um

2144

01:22:18,669 --> 01:22:17,219

yeah fascinating stuff it just skim the

2145

01:22:21,290 --> 01:22:18,679

surface here

2146

01:22:22,850 --> 01:22:21,300

you know so but we'll keep I mean with

2147

01:22:23,930 --> 01:22:22,860

this investigation this appeal that

2148

01:22:27,229 --> 01:22:23,940

we've got going on we'll keep people

2149

01:22:28,970 --> 01:22:27,239

updated same with Calvin you know as and

2150

01:22:31,610 --> 01:22:28,980

when if we get any groundbreaking news

2151

01:22:32,990 --> 01:22:31,620

we will of course you know do a show on

2152

01:22:34,610 --> 01:22:33,000

it um

2153

01:22:36,890 --> 01:22:34,620

but yeah I think that that's pretty much

2154

01:22:38,450 --> 01:22:36,900

it for this evening I mean uh I dare say

2155

01:22:40,010 --> 01:22:38,460

David will be back next month to talk

2156

01:22:41,930 --> 01:22:40,020

about another case that he's covered or

2157

01:22:43,910 --> 01:22:41,940

something in in the past because you

2158

01:22:46,250 --> 01:22:43,920

know he's full of the information so

2159

01:22:48,169 --> 01:22:46,260

we've covered most of it now really oh

2160

01:22:50,890 --> 01:22:48,179

we can always find it we could always

2161

01:22:53,570 --> 01:22:50,900

find something new

2162

01:22:56,450 --> 01:22:53,580

uh you know people do appreciate it I

2163

01:22:58,330 --> 01:22:56,460

appreciate it so so yeah

2164

01:23:00,950 --> 01:22:58,340

um I think we covered all the questions

2165

01:23:03,110 --> 01:23:00,960

a quick shout Davey Johnson thank you

2166

01:23:04,550 --> 01:23:03,120

for the 10 pound donation Lara glad to

2167

01:23:06,410 --> 01:23:04,560

see you rejoining the channel really

2168

01:23:07,970 --> 01:23:06,420

appreciate it all the support goes a

2169

01:23:09,950 --> 01:23:07,980

long way

2170

01:23:11,510 --> 01:23:09,960

um and yeah I've just seen in the chat

2171

01:23:14,209 --> 01:23:11,520

somebody's asking is there a critical

2172

01:23:16,790 --> 01:23:14,219

analysis of the report dizzy Vision

2173

01:23:17,990 --> 01:23:16,800

um yes there is I wrote one for the um

2174

01:23:20,570 --> 01:23:18,000

oh

2175

01:23:23,090 --> 01:23:20,580

this magazine um is that the one I've

2176

01:23:26,090 --> 01:23:23,100

got as well yeah International UFO

2177

01:23:27,709 --> 01:23:26,100

reporter which is the public or was the

2178

01:23:30,110 --> 01:23:27,719

publication of the center for UFO

2179

01:23:34,610 --> 01:23:30,120

studies you know alaninex organization

2180

01:23:38,030 --> 01:23:34,620

yeah I did us I did it um a critical

2181

01:23:41,990 --> 01:23:38,040

stood um paper on this with Gary Anthony

2182

01:23:43,669 --> 01:23:42,000

back in when was it roll 30 number four

2183

01:23:45,590 --> 01:23:43,679

there it is

2184

01:23:47,810 --> 01:23:45,600

I'm sure you'll be able to download that

2185

01:23:49,550 --> 01:23:47,820

I'll pop that I'll pop a link to that as

2186

01:23:51,770 --> 01:23:49,560

well in the description

2187

01:23:53,030 --> 01:23:51,780

um I will put everything we've spoken

2188

01:23:54,610 --> 01:23:53,040

about that's not already in the

2189

01:23:59,570 --> 01:23:54,620

description I will add it for everybody

2190

01:24:01,669 --> 01:23:59,580

so uh yeah there we go everyone well

2191

01:24:03,590 --> 01:24:01,679

I guess that's it David yeah thank you

2192

01:24:05,750 --> 01:24:03,600

as always thank you so much really

2193

01:24:07,070 --> 01:24:05,760

appreciate it thank you to everybody in

2194

01:24:08,810 --> 01:24:07,080

the chat

2195

01:24:11,209 --> 01:24:08,820

um yeah I appreciate you all being here

2196

01:24:13,490 --> 01:24:11,219

all the great questions and keeping it

2197

01:24:15,350 --> 01:24:13,500

nice and cordial I'm going to be back

2198

01:24:16,669 --> 01:24:15,360

next week go follow me on all my social

2199

01:24:18,709 --> 01:24:16,679

media things you can find out what's
