1
00:00:08,109 --> 00:00:03,370
foreign

2
00:00:11,950 --> 00:00:08,119
hey guys one sec let me play the intro

3
00:00:14,330 --> 00:00:11,960
[Music]

4
00:00:22,689 --> 00:00:14,340
one realizes very quickly we've been

5
00:00:22,699 --> 00:00:31,110
I had access to to all those programs

6
00:00:49,130 --> 00:00:44,889
[Music]

7
00:00:51,229 --> 00:00:49,140
40 feet long no windows no no real wings

8
00:00:53,510 --> 00:00:51,239
or control surfaces no obvious signs of

9
00:00:55,189 --> 00:00:53,520
propulsion and yet this object is

10
00:00:57,770 --> 00:00:55,199
witnessed Now by four separate

11
00:00:59,360 --> 00:00:57,780
individuals in two separate aircraft

12
00:01:07,310 --> 00:00:59,370
foreign

13
00:01:11,810 --> 00:01:07,320

[Music]

14

00:01:13,250 --> 00:01:11,820

hey guys how's it going my apologies for

15

00:01:15,410 --> 00:01:13,260

the delay

16

00:01:17,810 --> 00:01:15,420

now unfortunately Nicole is still not

17

00:01:20,810 --> 00:01:17,820

with us but I'm going live and I might

18

00:01:22,850 --> 00:01:20,820

have another guest jumping on so

19

00:01:24,830 --> 00:01:22,860

these things happen you know these

20

00:01:26,270 --> 00:01:24,840

things happen when you're doing live

21

00:01:28,670 --> 00:01:26,280

streams you know if this was just a

22

00:01:31,190 --> 00:01:28,680

simple recording then I could just wait

23

00:01:33,050 --> 00:01:31,200

for Nicole to turn up or we could record

24

00:01:34,850 --> 00:01:33,060

um I just hope that she's okay that's

25

00:01:36,770 --> 00:01:34,860

all that matters I spoke to Nicole

26
00:01:38,749 --> 00:01:36,780
yesterday or the day before and we were

27
00:01:41,270 --> 00:01:38,759
like had a back and forth she you know

28
00:01:43,850 --> 00:01:41,280
she had the link and the times but

29
00:01:46,190 --> 00:01:43,860
life gets in the way of these things so

30
00:01:48,590 --> 00:01:46,200
whatever happens I just hope that Nicole

31
00:01:51,109 --> 00:01:48,600
is okay so let's chat to you guys while

32
00:01:52,190 --> 00:01:51,119
I wait for my uh other guest

33
00:01:56,149 --> 00:01:52,200
um let's have a look in the chat here

34
00:01:58,850 --> 00:01:56,159
I've got Jason Benji Lara Andre Dave

35
00:02:01,069 --> 00:01:58,860
y Alex

36
00:02:03,289 --> 00:02:01,079
fusy electron

37
00:02:05,510 --> 00:02:03,299
blue eyes

38
00:02:07,730 --> 00:02:05,520

Michael Crawford

39

00:02:09,529 --> 00:02:07,740

you guys are awesome I really appreciate

40

00:02:11,510 --> 00:02:09,539

you guys hanging around

41

00:02:13,490 --> 00:02:11,520

um and and that night gazer good to see

42

00:02:15,890 --> 00:02:13,500

you

43

00:02:18,770 --> 00:02:15,900

um so yeah like I said these things

44

00:02:20,690 --> 00:02:18,780

happen it's okay I'm sure we can get

45

00:02:23,150 --> 00:02:20,700

Nicole on another time she may still

46

00:02:24,890 --> 00:02:23,160

turn up my other guest

47

00:02:26,930 --> 00:02:24,900

um and a huge thank you to this

48

00:02:29,210 --> 00:02:26,940

gentleman because I know he's had a busy

49

00:02:31,369 --> 00:02:29,220

week but I'm gonna bring him on right

50

00:02:33,710 --> 00:02:31,379

now the man of the moment the man who

51
00:02:36,530 --> 00:02:33,720
put together crash retriever week please

52
00:02:38,229 --> 00:02:36,540
welcome James iandoli

53
00:02:40,190 --> 00:02:38,239
hey

54
00:02:42,290 --> 00:02:40,200
how you doing

55
00:02:44,750 --> 00:02:42,300
I'm good man well this is a turn up for

56
00:02:47,030 --> 00:02:44,760
the books yeah you know what it just

57
00:02:48,290 --> 00:02:47,040
happened to be perfect timing uh like

58
00:02:50,570 --> 00:02:48,300
literally

59
00:02:53,509 --> 00:02:50,580
just boom right

60
00:02:54,770 --> 00:02:53,519
I appreciate it so much man you know

61
00:02:56,630 --> 00:02:54,780
we've I've been wanting to speak to you

62
00:02:59,270 --> 00:02:56,640
again for some time but dude you've been

63
00:03:01,369 --> 00:02:59,280

so busy and I completely get that so

64

00:03:03,410 --> 00:03:01,379

thank you so much for jumping on and if

65

00:03:04,850 --> 00:03:03,420

Nicole jumps on still that's great uh

66

00:03:06,770 --> 00:03:04,860

you know we can still have that

67

00:03:09,410 --> 00:03:06,780

conversation that was planned but but

68

00:03:12,530 --> 00:03:09,420

James man what a week for you man you've

69

00:03:14,509 --> 00:03:12,540

had two huge panel discussions so let's

70

00:03:15,890 --> 00:03:14,519

talk about that and maybe you can sort

71

00:03:18,350 --> 00:03:15,900

of talk about some of the highlights

72

00:03:20,449 --> 00:03:18,360

from those conversations uh starting

73

00:03:22,910 --> 00:03:20,459

with I think it was Ross Coulter Ryan

74

00:03:26,089 --> 00:03:22,920

Robbins Christopher sharp so yeah dude

75

00:03:29,930 --> 00:03:26,099

incredible man yeah so I mean again the

76

00:03:33,050 --> 00:03:29,940

the talk with Ross and and Christopher

77

00:03:36,290 --> 00:03:33,060

sharpen and uh Ryan Robbins AKA UFO

78

00:03:38,869 --> 00:03:36,300

Jesus uh it was a great talk but it was

79

00:03:41,149 --> 00:03:38,879

a little uh a little somber right if

80

00:03:43,550 --> 00:03:41,159

we're gonna use that that word because

81

00:03:46,190 --> 00:03:43,560

you know Ross Ross was a little

82

00:03:48,350 --> 00:03:46,200

pessimistic and I get it because he has

83

00:03:51,050 --> 00:03:48,360

inside sources tell and I mean we all do

84

00:03:53,990 --> 00:03:51,060

have telling us different things and

85

00:03:55,729 --> 00:03:54,000

and I think that's Ross's inclination as

86

00:03:58,070 --> 00:03:55,739

well like I'm not going to speak for him

87

00:04:01,309 --> 00:03:58,080

but I I've noticed you know he tends

88

00:04:03,410 --> 00:04:01,319

to to be that way but again he I know he

89

00:04:04,910 --> 00:04:03,420
wants people to to use that as a

90

00:04:07,670 --> 00:04:04,920
determination to say like this is

91

00:04:10,789 --> 00:04:07,680
[h__h] uh I don't know if I can curse

92

00:04:15,170 --> 00:04:10,799
on here but yes she can my friend his

93

00:04:17,030 --> 00:04:15,180
good old phrase [h__h] him right like he I

94

00:04:18,590 --> 00:04:17,040
love when he you know he brings that

95

00:04:20,870 --> 00:04:18,600
attitude and spirit to it because it

96

00:04:22,370 --> 00:04:20,880
really is nonsense

97

00:04:24,710 --> 00:04:22,380
um some of the things that are going on

98

00:04:26,150 --> 00:04:24,720
you know especially with all the

99

00:04:29,570 --> 00:04:26,160
progress we've made right it's like

100

00:04:32,689 --> 00:04:29,580
still we like we're still doing this and

101
00:04:34,850 --> 00:04:32,699
and I get it right because if there are

102
00:04:36,950 --> 00:04:34,860
different factions right like there's a

103
00:04:40,790 --> 00:04:36,960
faction that's trying to get this out

104
00:04:43,550 --> 00:04:40,800
within DOD within intelligence

105
00:04:46,909 --> 00:04:43,560
um and and and different sectors that

106
00:04:48,830 --> 00:04:46,919
are for transparency and then there's a

107
00:04:51,290 --> 00:04:48,840
group of individuals in in those same

108
00:04:53,689 --> 00:04:51,300
organizations and and institutions that

109
00:04:55,070 --> 00:04:53,699
are not for transparency you know we're

110
00:04:57,290 --> 00:04:55,080
that's what we're seeing we're seeing

111
00:04:58,969 --> 00:04:57,300
the kind of rollout I mean there's

112
00:05:01,490 --> 00:04:58,979
different names for some of the groups

113
00:05:04,010 --> 00:05:01,500

like of course we we know about the uh

114

00:05:05,990 --> 00:05:04,020

Gary Reed thing and you know we've heard

115

00:05:07,370 --> 00:05:06,000

the the terminology and name Collins

116

00:05:09,530 --> 00:05:07,380

Elite

117

00:05:12,350 --> 00:05:09,540

um we know the air force uh U.S Air

118

00:05:13,850 --> 00:05:12,360

Force hasn't been that Cooperative

119

00:05:16,189 --> 00:05:13,860

um they've been trying to undermine the

120

00:05:18,409 --> 00:05:16,199

effort as you know as far as an

121

00:05:21,170 --> 00:05:18,419

organization goes right as far as we can

122

00:05:23,510 --> 00:05:21,180

tell that's all we've heard

123

00:05:25,249 --> 00:05:23,520

um you know I haven't spoken to anybody

124

00:05:27,890 --> 00:05:25,259

from the Air Force so except for one

125

00:05:29,090 --> 00:05:27,900

person but you know they're not tapped

126

00:05:32,330 --> 00:05:29,100

in on that level

127

00:05:35,090 --> 00:05:32,340

yeah so yeah yeah so I mean you know

128

00:05:37,010 --> 00:05:35,100

this is what we're seeing roll out and I

129

00:05:38,810 --> 00:05:37,020

I really appreciate

130

00:05:40,730 --> 00:05:38,820

um Georgia Knapp's perspective because

131

00:05:42,529 --> 00:05:40,740

you know he's he's an OG he's a legend

132

00:05:44,990 --> 00:05:42,539

he's been in this so so long and he said

133

00:05:46,670 --> 00:05:45,000

listen you know the closer we get we get

134

00:05:48,909 --> 00:05:46,680

to this right to the core the core

135

00:05:51,189 --> 00:05:48,919

Secrets or you know the the the

136

00:05:54,710 --> 00:05:51,199

fundamental basis of this the

137

00:05:56,330 --> 00:05:54,720

gatekeeping and the secrecy around UFOs

138

00:05:57,950 --> 00:05:56,340

um which crash retrievals and you know

139

00:06:00,010 --> 00:05:57,960

part of why I did crash retrieve a week

140

00:06:02,870 --> 00:06:00,020

is because it's dude it's the Holy Grail

141

00:06:05,090 --> 00:06:02,880

there's you know you can say oh you know

142

00:06:08,210 --> 00:06:05,100

we have an unidentified object in the

143

00:06:11,510 --> 00:06:08,220

sky or underwater and or in space and

144

00:06:14,629 --> 00:06:11,520

it's trans medium but if you have actual

145

00:06:17,330 --> 00:06:14,639

material you know that's it's that's

146

00:06:19,610 --> 00:06:17,340

beyond evidence that's proof

147

00:06:21,770 --> 00:06:19,620

of um

148

00:06:23,629 --> 00:06:21,780

you know Humanity being engaged with a

149

00:06:27,050 --> 00:06:23,639

non-human intelligence

150

00:06:28,490 --> 00:06:27,060

and that's that's it I mean once you

151
00:06:31,309 --> 00:06:28,500
cross that and again when I was talking

152
00:06:32,510 --> 00:06:31,319
with Richard Dolan uh last night on one

153
00:06:35,689 --> 00:06:32,520
of the panels he said that's the red

154
00:06:38,990 --> 00:06:35,699
line once you cross that line I mean

155
00:06:41,689 --> 00:06:39,000
that like well I think on a consensus

156
00:06:43,270 --> 00:06:41,699
level we've already kind of crossed the

157
00:06:47,029 --> 00:06:43,280
point of no return

158
00:06:49,490 --> 00:06:47,039
but once you cross that line that's

159
00:06:53,270 --> 00:06:49,500
that's it man I mean that's when

160
00:06:56,210 --> 00:06:53,280
um like again the general public has

161
00:06:58,010 --> 00:06:56,220
like the entertainment of the idea of it

162
00:07:01,189 --> 00:06:58,020
being serious has been introduced the

163
00:07:04,330 --> 00:07:01,199

stigma has been reduced it's not fully

164

00:07:07,430 --> 00:07:04,340

gone but once once you cross that line

165

00:07:10,790 --> 00:07:07,440

that's when when things are really gonna

166

00:07:13,969 --> 00:07:10,800

hit people like holy [\h__\h] this is real

167

00:07:15,830 --> 00:07:13,979

you know that's that's the moment of of

168

00:07:19,610 --> 00:07:15,840

contact right if we're going to use the

169

00:07:21,950 --> 00:07:19,620

name for James Fox's excellent movie

170

00:07:24,890 --> 00:07:21,960

um that's that's the point in which you

171

00:07:27,230 --> 00:07:24,900

know there truly is no going back and

172

00:07:29,150 --> 00:07:27,240

that's that's when everybody on this

173

00:07:30,290 --> 00:07:29,160

planet has to face the reality Point

174

00:07:32,689 --> 00:07:30,300

Blank

175

00:07:34,010 --> 00:07:32,699

yeah absolutely man and this is you know

176

00:07:36,469 --> 00:07:34,020

stuff I was going to talk to Nicole

177

00:07:38,330 --> 00:07:36,479

about tonight and in particular I

178

00:07:40,550 --> 00:07:38,340

really wanted to bring up the work

179

00:07:43,010 --> 00:07:40,560

um from 1985 at the advanced theoretical

180

00:07:44,390 --> 00:07:43,020

physics conference involving the

181

00:07:46,730 --> 00:07:44,400

advanced theoretical physics working

182

00:07:48,230 --> 00:07:46,740

group and because you know we've had the

183

00:07:50,390 --> 00:07:48,240

Wilson Davis

184

00:07:52,909 --> 00:07:50,400

um talked about for some time now but

185

00:07:54,529 --> 00:07:52,919

now the ATP group has come in I think

186

00:07:55,969 --> 00:07:54,539

that adds more to the conversation so

187

00:07:57,529 --> 00:07:55,979

what are your thoughts on the importance

188

00:08:01,490 --> 00:07:57,539

of what happened back in the 80s with

189

00:08:03,589 --> 00:08:01,500

John Alexander's group yeah so I mean uh

190

00:08:06,710 --> 00:08:03,599

you know first shout out to Omega point

191

00:08:09,350 --> 00:08:06,720

and the Hermetic penetrator oh yeah for

192

00:08:10,969 --> 00:08:09,360

putting together loose threads

193

00:08:13,550 --> 00:08:10,979

um you know and a number of US helped

194

00:08:15,409 --> 00:08:13,560

them as as much as we can on the side

195

00:08:17,390 --> 00:08:15,419

while they really did the the big work

196

00:08:19,850 --> 00:08:17,400

you know they did the Long Haul they did

197

00:08:22,070 --> 00:08:19,860

the heavy lifting and some of us were

198

00:08:24,469 --> 00:08:22,080

just like pushing supporting you know

199

00:08:27,110 --> 00:08:24,479

throwing in what we can and you know

200

00:08:32,089 --> 00:08:27,120

what they did is is absolutely brilliant

201
00:08:34,130 --> 00:08:32,099
and um I mean as as far I'm concerned as

202
00:08:35,750 --> 00:08:34,140
as a like a researcher and I you know

203
00:08:37,730 --> 00:08:35,760
I've been around for a while now

204
00:08:40,790 --> 00:08:37,740
actually even though I've only been more

205
00:08:44,810 --> 00:08:40,800
public in the last few years but to me

206
00:08:46,790 --> 00:08:44,820
that is like you know true UFO research

207
00:08:49,009 --> 00:08:46,800
that's what it's about so what they did

208
00:08:51,110 --> 00:08:49,019
is like to me it's like

209
00:08:54,050 --> 00:08:51,120
it makes me proud right as a UFO

210
00:08:56,389 --> 00:08:54,060
researcher that that they were able to

211
00:08:58,370 --> 00:08:56,399
make that accomplishment I'm like wow

212
00:09:00,070 --> 00:08:58,380
you know I'm amongst like some really

213
00:09:02,449 --> 00:09:00,080

skillful

214

00:09:06,410 --> 00:09:02,459

individuals right

215

00:09:09,230 --> 00:09:06,420

and um so the loose threads uh paper

216

00:09:10,190 --> 00:09:09,240

right I which I I hope gets turned into

217

00:09:16,430 --> 00:09:10,200

a book

218

00:09:19,070 --> 00:09:16,440

yeah it's you know 250 pages I mean

219

00:09:20,269 --> 00:09:19,080

there's a very large appendix so

220

00:09:23,090 --> 00:09:20,279

um

221

00:09:25,730 --> 00:09:23,100

it's kind of overviewing the advanced

222

00:09:28,070 --> 00:09:25,740

theoretical physics working group that

223

00:09:30,350 --> 00:09:28,080

was put together by John Alexander

224

00:09:32,389 --> 00:09:30,360

and um I'm forgetting his first name but

225

00:09:34,190 --> 00:09:32,399

Blackburn the guy from Lockheed

226

00:09:35,389 --> 00:09:34,200

and um

227

00:09:41,509 --> 00:09:35,399

you know

228

00:09:43,310 --> 00:09:41,519

obviously the kind of Journey that these

229

00:09:47,090 --> 00:09:43,320

individuals that we are all familiar

230

00:09:48,889 --> 00:09:47,100

with now from OSAP atip the invisible

231

00:09:50,810 --> 00:09:48,899

College

232

00:09:53,030 --> 00:09:50,820

um which again back in that time they

233

00:09:55,310 --> 00:09:53,040

had this secret group with people with

234

00:09:57,829 --> 00:09:55,320

security clearances called the advanced

235

00:09:59,870 --> 00:09:57,839

theoretical uh physics working group

236

00:10:02,930 --> 00:09:59,880

you know and they use that name to hide

237

00:10:05,150 --> 00:10:02,940

the UFO idea right they didn't want to

238

00:10:07,850 --> 00:10:05,160

be looked at as a UFO group or be able

239

00:10:09,470 --> 00:10:07,860

to be foyed and and oh we found the

240

00:10:11,150 --> 00:10:09,480

secret UFO group so they were very

241

00:10:13,670 --> 00:10:11,160

clever about it

242

00:10:15,889 --> 00:10:13,680

you know and

243

00:10:17,690 --> 00:10:15,899

the interesting thing is it's all it's

244

00:10:19,550 --> 00:10:17,700

all the same people right you know I

245

00:10:22,250 --> 00:10:19,560

mean there's some other people that were

246

00:10:25,850 --> 00:10:22,260

you know again like Blackburn was there

247

00:10:27,230 --> 00:10:25,860

um uh Roger Wood and and other people

248

00:10:29,750 --> 00:10:27,240

like that

249

00:10:31,430 --> 00:10:29,760

that aren't in the conversation as much

250

00:10:33,470 --> 00:10:31,440

today

251
00:10:34,970 --> 00:10:33,480
um and I I think some people have passed

252
00:10:37,370 --> 00:10:34,980
away as well

253
00:10:40,430 --> 00:10:37,380
um oh yeah Robert Wood you know he's big

254
00:10:42,590 --> 00:10:40,440
on the MJ 12 documents so and and had a

255
00:10:44,870 --> 00:10:42,600
background in Aerospace so all those

256
00:10:46,850 --> 00:10:44,880
people did um you know they were trying

257
00:10:49,250 --> 00:10:46,860
to figure this out back then right and

258
00:10:51,470 --> 00:10:49,260
but these were people that were kind of

259
00:10:53,210 --> 00:10:51,480
like heavyweights they had you know high

260
00:10:55,670 --> 00:10:53,220
level security clearances they had

261
00:10:57,829 --> 00:10:55,680
connections in the intelligence world in

262
00:11:01,009 --> 00:10:57,839
the Aerospace you know corporate

263
00:11:02,150 --> 00:11:01,019

military industrial complex world

264

00:11:04,610 --> 00:11:02,160

um so

265

00:11:06,829 --> 00:11:04,620

you know back then

266

00:11:08,630 --> 00:11:06,839

you know we have the stuff that we have

267

00:11:11,030 --> 00:11:08,640

now because these people were doing all

268

00:11:13,009 --> 00:11:11,040

this crazy work back then

269

00:11:15,949 --> 00:11:13,019

um you know not just with UFOs but also

270

00:11:16,730 --> 00:11:15,959

remote viewing You Know Jack Houck

271

00:11:19,370 --> 00:11:16,740

um

272

00:11:20,269 --> 00:11:19,380

had done incredible work with you know

273

00:11:22,370 --> 00:11:20,279

again

274

00:11:23,870 --> 00:11:22,380

you know remote viewing but also like

275

00:11:25,850 --> 00:11:23,880

the spoon bending which you know John

276

00:11:29,210 --> 00:11:25,860

Alexander and and then we're throwing

277

00:11:31,190 --> 00:11:29,220

spoon bending cardies back then

278

00:11:32,630 --> 00:11:31,200

um which which is a is a fascinating

279

00:11:34,310 --> 00:11:32,640

phenomena

280

00:11:37,550 --> 00:11:34,320

um to begin with

281

00:11:38,930 --> 00:11:37,560

but the so the loose threads is kind of

282

00:11:41,870 --> 00:11:38,940

like

283

00:11:44,569 --> 00:11:41,880

showing their entire Journey from you

284

00:11:46,310 --> 00:11:44,579

know almost pre-1985 up to modern day

285

00:11:48,350 --> 00:11:46,320

and they kind of argue that you know we

286

00:11:51,829 --> 00:11:48,360

probably wouldn't have

287

00:11:54,829 --> 00:11:51,839

um atip and Os app if those efforts

288

00:11:57,410 --> 00:11:54,839

weren't um put forward and you know they

289

00:12:00,290 --> 00:11:57,420

again they were able to dig up a lot of

290

00:12:01,730 --> 00:12:00,300

things and there's a I mean you got to

291

00:12:03,949 --> 00:12:01,740

read the paper lose threads because

292

00:12:06,949 --> 00:12:03,959

there's just there's just so many things

293

00:12:08,449 --> 00:12:06,959

in there to go over

294

00:12:09,470 --> 00:12:08,459

um you know they talk about Bobby Ray

295

00:12:11,990 --> 00:12:09,480

Inman

296

00:12:15,530 --> 00:12:12,000

and you know how

297

00:12:17,750 --> 00:12:15,540

he was he was very very involved in this

298

00:12:20,750 --> 00:12:17,760

and if you look up you look the man up

299

00:12:23,030 --> 00:12:20,760

it's like holy [h__h] uh this this is like

300

00:12:26,150 --> 00:12:23,040

you know this guy's on the committee

301
00:12:27,889 --> 00:12:26,160
right mj-12 kind of figure like wow you

302
00:12:29,810 --> 00:12:27,899
know the director of the NSA and all

303
00:12:31,790 --> 00:12:29,820
these other

304
00:12:34,130 --> 00:12:31,800
um roles that he played

305
00:12:37,670 --> 00:12:34,140
and you know I'm really glad they

306
00:12:39,769 --> 00:12:37,680
included Bob exler yeah because he you

307
00:12:42,050 --> 00:12:39,779
know he was a NASA engineer and he was I

308
00:12:43,850 --> 00:12:42,060
mean again he was just a badass man he

309
00:12:45,170 --> 00:12:43,860
was doing incredible work

310
00:12:49,850 --> 00:12:45,180
and

311
00:12:51,889 --> 00:12:49,860
you know he asked him at a conference

312
00:12:54,590 --> 00:12:51,899
hey I want to talk to you on MJ 12 and

313
00:12:56,690 --> 00:12:54,600

you know Bobby Raymond kind of like

314

00:12:59,629 --> 00:12:56,700

gives him a nod and a smile and then

315

00:13:03,590 --> 00:12:59,639

they end up getting in touch afterwards

316

00:13:08,269 --> 00:13:03,600

so and and there's a recorded phone call

317

00:13:10,490 --> 00:13:08,279

so you know uh Bob exler has has

318

00:13:12,710 --> 00:13:10,500

um Bobby Ray Inman on a recorded phone

319

00:13:14,750 --> 00:13:12,720

call and it's obvious that that Bobby

320

00:13:16,190 --> 00:13:14,760

Ray Inman had no idea that this call was

321

00:13:18,829 --> 00:13:16,200

being recorded

322

00:13:20,389 --> 00:13:18,839

and you know he's talking about crash

323

00:13:24,050 --> 00:13:20,399

retrievals and reverse engineering

324

00:13:25,550 --> 00:13:24,060

programs and how you know Bob as a NASA

325

00:13:28,850 --> 00:13:25,560

engineer would be able to offer his

326

00:13:31,550 --> 00:13:28,860

expertise and if that you know it would

327

00:13:33,530 --> 00:13:31,560

ever be made puff you know public

328

00:13:35,509 --> 00:13:33,540

um that other scientists can work on it

329

00:13:37,730 --> 00:13:35,519

and and you know Bobby Raymond saying no

330

00:13:40,329 --> 00:13:37,740

uh you know 10 years ago I'd say

331

00:13:42,350 --> 00:13:40,339

definitely not he said maybe

332

00:13:44,870 --> 00:13:42,360

nowadays things are different and then

333

00:13:47,810 --> 00:13:44,880

be more open so I mean just and again

334

00:13:50,210 --> 00:13:47,820

these are all kind of loose threads yeah

335

00:13:52,310 --> 00:13:50,220

that that Omega point and the Hermetic

336

00:13:54,170 --> 00:13:52,320

penetrator are putting together to kind

337

00:13:57,710 --> 00:13:54,180

of put together a tapestry

338

00:14:00,470 --> 00:13:57,720

and again fantastic work and

339

00:14:03,590 --> 00:14:00,480

it's again it goes up to even up to

340

00:14:05,990 --> 00:14:03,600

modern day with everything so I I can't

341

00:14:07,670 --> 00:14:06,000

say enough about it yeah absolutely for

342

00:14:09,829 --> 00:14:07,680

anybody that's interested in the paper

343

00:14:12,590 --> 00:14:09,839

it is in the description below along

344

00:14:14,810 --> 00:14:12,600

with James's channel uh where you can go

345

00:14:16,490 --> 00:14:14,820

and see the two incredible panels that

346

00:14:18,710 --> 00:14:16,500

happened this week for crash retrieval

347

00:14:21,110 --> 00:14:18,720

week but also just historically James's

348

00:14:23,569 --> 00:14:21,120

work and his interviews are well well

349

00:14:25,490 --> 00:14:23,579

worth checking out

350

00:14:26,870 --> 00:14:25,500

um and you mentioned there about all

351
00:14:29,030 --> 00:14:26,880
these connections that were made between

352
00:14:31,009 --> 00:14:29,040
different people and it was really

353
00:14:33,050 --> 00:14:31,019
impressive to see what happened the

354
00:14:35,090 --> 00:14:33,060
moment that Jay from Project Unity

355
00:14:37,550 --> 00:14:35,100
interviewed out Shannon there was that

356
00:14:39,410 --> 00:14:37,560
Snowball Effect where Grant piped up and

357
00:14:41,449 --> 00:14:39,420
he's like well I've got Oaks notes and

358
00:14:43,189 --> 00:14:41,459
then Melinda Leslie popped up with Jack

359
00:14:44,870 --> 00:14:43,199
Hulk's notes and you see this is what

360
00:14:47,150 --> 00:14:44,880
can happen when people work together in

361
00:14:49,129 --> 00:14:47,160
this subject we see a snowball effect of

362
00:14:50,990 --> 00:14:49,139
data and information that we've been

363
00:14:52,490 --> 00:14:51,000

crying out for you know what are your

364

00:14:54,290 --> 00:14:52,500

thoughts on that yeah and it's

365

00:14:57,290 --> 00:14:54,300

incredible I mean it's absolutely

366

00:15:00,829 --> 00:14:57,300

incredible because these notes are from

367

00:15:03,730 --> 00:15:00,839

you know the 1980s and the 1990s and in

368

00:15:06,889 --> 00:15:03,740

in the notes it's it's it's

369

00:15:10,129 --> 00:15:06,899

referring to things that are in the

370

00:15:13,610 --> 00:15:10,139

Wilson Davison memo right the notes the

371

00:15:15,970 --> 00:15:13,620

meeting when Dr Davis met with vice

372

00:15:19,069 --> 00:15:15,980

admiral Tom Wilson then retired in 2002

373

00:15:21,230 --> 00:15:19,079

uh to talk about Crash retrieval and

374

00:15:24,769 --> 00:15:21,240

reverse engineering programs

375

00:15:27,410 --> 00:15:24,779

and you know again Tom you know vice

376

00:15:28,670 --> 00:15:27,420

admiral Tom Wilson with all due respect

377

00:15:32,210 --> 00:15:28,680

to the man

378

00:15:33,889 --> 00:15:32,220

um you know he he was like I don't know

379

00:15:35,750 --> 00:15:33,899

who Eric is you know it says in the

380

00:15:38,329 --> 00:15:35,760

notes that if if

381

00:15:40,069 --> 00:15:38,339

the notes ever came out or you know if

382

00:15:42,230 --> 00:15:40,079

if this conversation ever got out he

383

00:15:44,389 --> 00:15:42,240

would deny knowing Eric and that's

384

00:15:46,970 --> 00:15:44,399

exactly what he did

385

00:15:48,170 --> 00:15:46,980

um but you know he said oh okay I might

386

00:15:49,910 --> 00:15:48,180

I might know him and he said something

387

00:15:53,569 --> 00:15:49,920

like that to journalist Billy Cox when

388

00:15:54,889 --> 00:15:53,579

when Billy Cox inquired and you know

389

00:15:57,650 --> 00:15:54,899

again we have

390

00:15:59,990 --> 00:15:57,660

Oak who was You Know instrumental and

391

00:16:02,990 --> 00:16:00,000

kind of setting up this meeting

392

00:16:05,329 --> 00:16:03,000

yeah and Oak is like yeah I was on the

393

00:16:07,250 --> 00:16:05,339

phone with Wilson for two hours

394

00:16:09,650 --> 00:16:07,260

talking about you know not just Eric

395

00:16:10,670 --> 00:16:09,660

Davis but how put off and probably kick

396

00:16:13,970 --> 00:16:10,680

green

397

00:16:17,509 --> 00:16:13,980

and you know if they're trustworthy

398

00:16:20,569 --> 00:16:17,519

and the the stuff that that Oak was

399

00:16:22,430 --> 00:16:20,579

talking about with Tom Wilson is reflect

400

00:16:24,290 --> 00:16:22,440

it's all reflected in the notes so I

401
00:16:27,410 --> 00:16:24,300
mean you couldn't have made that up

402
00:16:30,110 --> 00:16:27,420
they had that conversation in 1999 the

403
00:16:31,850 --> 00:16:30,120
notes are from 2002 because Wilson was

404
00:16:34,009 --> 00:16:31,860
retired then

405
00:16:36,290 --> 00:16:34,019
um at least from his Dia director Dia

406
00:16:38,930 --> 00:16:36,300
position and was able to have this kind

407
00:16:41,689 --> 00:16:38,940
of meeting and all you know again it's

408
00:16:44,269 --> 00:16:41,699
talking about the the eight it says in

409
00:16:47,449 --> 00:16:44,279
in I believe the Wilson notes it says AP

410
00:16:49,910 --> 00:16:47,459
10. yes because because he was on the

411
00:16:52,970 --> 00:16:49,920
phone with with Oak so he that's

412
00:16:57,650 --> 00:16:52,980
probably his abbreviated version of ATP

413
00:17:00,889 --> 00:16:57,660

10 which were in Oak's notes you know so

414

00:17:03,350 --> 00:17:00,899

I mean that's just it can't get any

415

00:17:05,150 --> 00:17:03,360

clearer than that right that these all

416

00:17:07,909 --> 00:17:05,160

these individuals were talking with each

417

00:17:10,130 --> 00:17:07,919

other in that time frame and

418

00:17:12,110 --> 00:17:10,140

communicating and coordinating which led

419

00:17:14,150 --> 00:17:12,120

to this meeting happening with Dr Eric

420

00:17:15,710 --> 00:17:14,160

Davis and Tom Wilson

421

00:17:17,169 --> 00:17:15,720

and you know again there's still the

422

00:17:21,949 --> 00:17:17,179

question of

423

00:17:24,770 --> 00:17:21,959

was you know was what Wilson was told by

424

00:17:27,409 --> 00:17:24,780

the security officer the project manager

425

00:17:30,950 --> 00:17:27,419

and the corporate lawyer accurate

426

00:17:34,250 --> 00:17:30,960

um so if and and the thing about that is

427

00:17:36,289 --> 00:17:34,260

if you had these three individuals right

428

00:17:38,510 --> 00:17:36,299

that we're trying to block Wilson out

429

00:17:40,010 --> 00:17:38,520

but they they want to appease him a

430

00:17:41,690 --> 00:17:40,020

little maybe so he would back off maybe

431

00:17:43,310 --> 00:17:41,700

they did feel sorry for him and respect

432

00:17:46,490 --> 00:17:43,320

him a little because he was the deputy

433

00:17:47,210 --> 00:17:46,500

director of the DIA at that point in J2

434

00:17:50,990 --> 00:17:47,220

um

435

00:17:52,610 --> 00:17:51,000

so if anything you know Wilson was ex

436

00:17:54,710 --> 00:17:52,620

and it says in the notes Wilson was

437

00:17:56,630 --> 00:17:54,720

expecting to find out that this is some

438

00:17:58,610 --> 00:17:56,640

kind of like Soviet technology that they

439

00:18:00,169 --> 00:17:58,620

found and they're trying to

440

00:18:02,510 --> 00:18:00,179

exploit

441

00:18:04,669 --> 00:18:02,520

and you know to his surprise they said

442

00:18:07,730 --> 00:18:04,679

no that's not what this is these this

443

00:18:10,730 --> 00:18:07,740

stuff was not made by human hands and we

444

00:18:14,270 --> 00:18:10,740

can't make we can't make sense of it

445

00:18:16,610 --> 00:18:14,280

um it's it's just so Advanced that we

446

00:18:19,310 --> 00:18:16,620

can't we can't make progress on it but

447

00:18:21,049 --> 00:18:19,320

every few years we revisit it and with

448

00:18:22,730 --> 00:18:21,059

the advancements in science and Material

449

00:18:24,770 --> 00:18:22,740

Science and Technology we see if we can

450

00:18:27,409 --> 00:18:24,780

make sense of it every few years

451
00:18:30,169 --> 00:18:27,419
and you know ended in 89 and all this

452
00:18:32,150 --> 00:18:30,179
yep so the significance of that if you

453
00:18:34,010 --> 00:18:32,160
go back and listen to the old Eric Davis

454
00:18:35,930 --> 00:18:34,020
interviews from just one or two years

455
00:18:38,750 --> 00:18:35,940
before the notes came out he's saying

456
00:18:40,730 --> 00:18:38,760
the same things you know so I was like

457
00:18:43,210 --> 00:18:40,740
come on really

458
00:18:45,770 --> 00:18:43,220
um so there's just just there's so much

459
00:18:46,669 --> 00:18:45,780
cooperation there

460
00:18:49,789 --> 00:18:46,679
um

461
00:18:51,830 --> 00:18:49,799
that it's silly to to think that the

462
00:18:53,990 --> 00:18:51,840
meeting between Eric Davis and Tom

463
00:18:57,230 --> 00:18:54,000

Wilson didn't happen at this point

464

00:19:00,590 --> 00:18:57,240

yeah absolutely yeah I mean and then

465

00:19:04,370 --> 00:19:00,600

there's also another argument of well

466

00:19:06,950 --> 00:19:04,380

you know this is just disinformation and

467

00:19:10,549 --> 00:19:06,960

I you know I don't know but if it is

468

00:19:11,870 --> 00:19:10,559

disinformation I don't know why well I

469

00:19:14,049 --> 00:19:11,880

mean I guess I could still see why I was

470

00:19:16,250 --> 00:19:14,059

gonna say why you know Eric Davis

471

00:19:17,690 --> 00:19:16,260

allegedly I don't want to say allegedly

472

00:19:21,230 --> 00:19:17,700

because the New York Times reported on

473

00:19:24,529 --> 00:19:21,240

it and Christopher Millen uh cooperated

474

00:19:26,529 --> 00:19:24,539

that Eric Davis was at a classified

475

00:19:29,870 --> 00:19:26,539

briefing where he was

476
00:19:32,570 --> 00:19:29,880
telling people with clearances who have

477
00:19:34,130 --> 00:19:32,580
need to know I guess that you know where

478
00:19:35,270 --> 00:19:34,140
some of these programs are and how they

479
00:19:37,010 --> 00:19:35,280
operate

480
00:19:39,710 --> 00:19:37,020
you know and in the New York Times

481
00:19:42,529 --> 00:19:39,720
printed that you know uh Eric Davis's

482
00:19:44,510 --> 00:19:42,539
quote about off-world vehicles

483
00:19:46,250 --> 00:19:44,520
and that's kind of the last thing we

484
00:19:48,650 --> 00:19:46,260
ever heard from Eric Davis publicly

485
00:19:50,029 --> 00:19:48,660
because you know that's he he took it

486
00:19:52,909 --> 00:19:50,039
you know he

487
00:19:54,710 --> 00:19:52,919
he took a a step a little far you know

488
00:19:56,390 --> 00:19:54,720

he he bends the rules I guess where he

489

00:19:57,710 --> 00:19:56,400

can and that was probably the last big

490

00:19:59,210 --> 00:19:57,720

one

491

00:20:00,650 --> 00:19:59,220

absolutely and these some of these

492

00:20:01,730 --> 00:20:00,660

interviews you mentioned with Eric Davis

493

00:20:04,430 --> 00:20:01,740

are

494

00:20:06,350 --> 00:20:04,440

incredible to go back on now in this

495

00:20:08,510 --> 00:20:06,360

time they're really poignant so he did

496

00:20:10,490 --> 00:20:08,520

one in mind Willis I think there's a

497

00:20:12,169 --> 00:20:10,500

couple of others flowing about there but

498

00:20:14,390 --> 00:20:12,179

I recommend anybody just take an evening

499

00:20:15,830 --> 00:20:14,400

and just go and listen to the old Eric

500

00:20:17,510 --> 00:20:15,840

Davis interviews and they're not that

501
00:20:19,390 --> 00:20:17,520
old they're only a few years old but the

502
00:20:23,450 --> 00:20:19,400
thing I mean yeah we're talking 2018

503
00:20:25,370 --> 00:20:23,460
2019 yeah the notes came out in 2019.

504
00:20:27,049 --> 00:20:25,380
um you know some of us had them early on

505
00:20:29,690 --> 00:20:27,059
and you know again I was talking with

506
00:20:31,789 --> 00:20:29,700
Erica at that time and I was not gonna

507
00:20:33,289 --> 00:20:31,799
just dump them out there because I had

508
00:20:35,570 --> 00:20:33,299
respect for him but I said hey Eric just

509
00:20:36,770 --> 00:20:35,580
so you know these are out there uh do

510
00:20:38,570 --> 00:20:36,780
you want to give a comment he said no

511
00:20:40,909 --> 00:20:38,580
comment which I didn't I didn't publish

512
00:20:42,049 --> 00:20:40,919
that for a while but

513
00:20:44,630 --> 00:20:42,059

um

514

00:20:46,909 --> 00:20:44,640

you know heads up this if I have this

515

00:20:49,370 --> 00:20:46,919

it's eventually gonna it's gonna get out

516

00:20:51,650 --> 00:20:49,380

there and I you probably know from Joe

517

00:20:53,450 --> 00:20:51,660

merger and Danny Sullivan everybody like

518

00:20:54,890 --> 00:20:53,460

we had those notes for quite a while

519

00:20:56,990 --> 00:20:54,900

before

520

00:20:58,789 --> 00:20:57,000

you know we were every day we were like

521

00:20:59,930 --> 00:20:58,799

going on Twitter waiting for somebody to

522

00:21:02,450 --> 00:20:59,940

have post them and then they they

523

00:21:04,010 --> 00:21:02,460

finally made it out like after like I

524

00:21:05,450 --> 00:21:04,020

don't know how many months it was months

525

00:21:07,909 --> 00:21:05,460

so

526

00:21:09,289 --> 00:21:07,919

um but at the same time you know we were

527

00:21:11,690 --> 00:21:09,299

able to

528

00:21:14,029 --> 00:21:11,700

do a lot of research and digging in that

529

00:21:16,909 --> 00:21:14,039

time period so that when they actually

530

00:21:19,310 --> 00:21:16,919

did get out there and went viral we

531

00:21:22,490 --> 00:21:19,320

already had a body of research ready you

532

00:21:26,390 --> 00:21:22,500

know and you know huge huge shout out to

533

00:21:29,750 --> 00:21:26,400

Joanna Marinkovic uh UFO Google I mean

534

00:21:31,789 --> 00:21:29,760

the man has is a legend in my eyes has

535

00:21:34,909 --> 00:21:31,799

done incredible work and it's you know

536

00:21:37,130 --> 00:21:34,919

totally people have no idea how involved

537

00:21:38,630 --> 00:21:37,140

and such great work that he does

538

00:21:39,950 --> 00:21:38,640

um because he's very low-key and he

539

00:21:41,090 --> 00:21:39,960

doesn't want to take credit and all that

540

00:21:43,549 --> 00:21:41,100

stuff but he's he's really done

541

00:21:45,250 --> 00:21:43,559

tremendous work and you know they don't

542

00:21:47,450 --> 00:21:45,260

call them UFO Google for nothing

543

00:21:49,130 --> 00:21:47,460

absolutely but and this is the funny

544

00:21:50,870 --> 00:21:49,140

thing about UFO Twitter that I always

545

00:21:52,430 --> 00:21:50,880

take a step back and realize is that

546

00:21:55,310 --> 00:21:52,440

everybody thinks it's just the place

547

00:21:57,470 --> 00:21:55,320

where drama occurs and it's just a a

548

00:22:00,169 --> 00:21:57,480

place for negative conversations but

549

00:22:01,909 --> 00:22:00,179

there are some silent characters and

550

00:22:04,070 --> 00:22:01,919

some public ones such as yourself James

551
00:22:06,770 --> 00:22:04,080
who do incredible work but some of these

552
00:22:08,090 --> 00:22:06,780
Silent People if people knew that the

553
00:22:10,730 --> 00:22:08,100
the things they've been doing for the

554
00:22:12,470 --> 00:22:10,740
past two years quietly they would be

555
00:22:15,590 --> 00:22:12,480
mind blown and they would rethink how

556
00:22:17,810 --> 00:22:15,600
they view the subjects in my opinion

557
00:22:21,049 --> 00:22:17,820
yeah yeah I mean there's definitely a

558
00:22:22,730 --> 00:22:21,059
number of people who I talk to that

559
00:22:24,890 --> 00:22:22,740
you know they're they're not even again

560
00:22:26,930 --> 00:22:24,900
I mean like look at the Hermetic

561
00:22:28,909 --> 00:22:26,940
penetrator right he has he's using that

562
00:22:30,770 --> 00:22:28,919
name for his own

563
00:22:33,110 --> 00:22:30,780

protection I guess you if we can say

564

00:22:34,549 --> 00:22:33,120

that and the guy is doing such

565

00:22:36,350 --> 00:22:34,559

incredible work and he's so forward

566

00:22:37,190 --> 00:22:36,360

thinking

567

00:22:39,169 --> 00:22:37,200

um

568

00:22:41,510 --> 00:22:39,179

and you know

569

00:22:43,549 --> 00:22:41,520

maybe nobody will ever know you know

570

00:22:45,350 --> 00:22:43,559

I've encouraged him to come out a little

571

00:22:47,570 --> 00:22:45,360

and he was going to come on my channel

572

00:22:51,110 --> 00:22:47,580

before the loose threats thing but after

573

00:22:53,450 --> 00:22:51,120

loose threads came out because you know

574

00:22:56,029 --> 00:22:53,460

I I don't he's he's protective of his

575

00:22:57,409 --> 00:22:56,039

identity and stuff and I get it

576

00:22:59,330 --> 00:22:57,419

um

577

00:23:02,870 --> 00:22:59,340

Omega Point uh

578

00:23:04,850 --> 00:23:02,880

uh I suspect will will be coming out a

579

00:23:07,789 --> 00:23:04,860

little more so people are gonna know him

580

00:23:08,690 --> 00:23:07,799

personally at least you know

581

00:23:10,669 --> 00:23:08,700

um

582

00:23:13,130 --> 00:23:10,679

but I hope they do follow-up work yeah

583

00:23:16,549 --> 00:23:13,140

for sure that would be great yeah but

584

00:23:19,190 --> 00:23:16,559

again yeah people like Giuliano and and

585

00:23:20,570 --> 00:23:19,200

Omega and and hermetic pen Trader I I

586

00:23:22,610 --> 00:23:20,580

mean there's countless others there's

587

00:23:24,590 --> 00:23:22,620

and and there's definitely people that I

588

00:23:26,390 --> 00:23:24,600

don't need I'm not even aware of are

589

00:23:28,490 --> 00:23:26,400

doing the work that they're doing

590

00:23:29,930 --> 00:23:28,500

because I only have my network so to

591

00:23:32,510 --> 00:23:29,940

speak so

592

00:23:34,130 --> 00:23:32,520

yeah absolutely this is an interesting

593

00:23:36,169 --> 00:23:34,140

point I'd like you to tackle as well

594

00:23:37,970 --> 00:23:36,179

James um

595

00:23:39,409 --> 00:23:37,980

weren't these notes available about 15

596

00:23:41,090 --> 00:23:39,419

years ago though I seem to remember

597

00:23:43,370 --> 00:23:41,100

reading them quite a while ago and they

598

00:23:45,890 --> 00:23:43,380

just weren't verified but plausible that

599

00:23:48,110 --> 00:23:45,900

I think the earliest thing we saw all we

600

00:23:50,330 --> 00:23:48,120

heard about was two pages that Richard

601
00:23:52,610 --> 00:23:50,340
Dolan got in in the early days but we

602
00:23:55,610 --> 00:23:52,620
didn't even have access to them did we

603
00:23:56,930 --> 00:23:55,620
no we didn't really put them out no and

604
00:24:00,950 --> 00:23:56,940
that was the funny Richard didn't have

605
00:24:02,450 --> 00:24:00,960
them so this is the crazy thing and I I

606
00:24:04,789 --> 00:24:02,460
recently got a number of people on the

607
00:24:07,370 --> 00:24:04,799
record recently to kind of

608
00:24:10,669 --> 00:24:07,380
paint this picture you know Richard was

609
00:24:14,330 --> 00:24:10,679
shown the notes in 2006 he was at a

610
00:24:17,149 --> 00:24:14,340
conference and somebody from Ned's AKA

611
00:24:19,430 --> 00:24:17,159
somebody from this group showed him two

612
00:24:21,470 --> 00:24:19,440
pages or three pages of the notes yeah

613
00:24:23,450 --> 00:24:21,480

they did not allow him to take a picture

614

00:24:25,190 --> 00:24:23,460

or whatever he was just allowed to read

615

00:24:28,490 --> 00:24:25,200

them

616

00:24:30,830 --> 00:24:28,500

and on a few occasions he talked about

617

00:24:33,649 --> 00:24:30,840

it and I remember this back in like 2007

618

00:24:36,529 --> 00:24:33,659

2008 2009 him talking about the Wilson

619

00:24:38,990 --> 00:24:36,539

Davis meeting and that he had cooperated

620

00:24:40,549 --> 00:24:39,000

it through a number of sources and I at

621

00:24:42,110 --> 00:24:40,559

that time I had no idea that he had seen

622

00:24:44,149 --> 00:24:42,120

it because I didn't know at the at that

623

00:24:46,250 --> 00:24:44,159

time the notes existed because nobody

624

00:24:48,590 --> 00:24:46,260

did the only people who knew at that

625

00:24:49,970 --> 00:24:48,600

time were Richard because Richard saw

626

00:24:52,610 --> 00:24:49,980

the notes

627

00:24:55,970 --> 00:24:52,620

um the nibs group everybody in that

628

00:24:58,669 --> 00:24:55,980

group I assume that all the players we

629

00:24:59,930 --> 00:24:58,679

would assume have and again I had valet

630

00:25:01,610 --> 00:24:59,940

on the other week and I said you know

631

00:25:03,890 --> 00:25:01,620

Jacques when's the first time you saw

632

00:25:05,690 --> 00:25:03,900

the notes and it was it's clear again he

633

00:25:08,270 --> 00:25:05,700

saw the notes back when

634

00:25:12,529 --> 00:25:08,280

the nibs team got them right I mean

635

00:25:15,110 --> 00:25:12,539

again Eric left mids early 2002. but by

636

00:25:16,430 --> 00:25:15,120

all means they were all still connected

637

00:25:19,669 --> 00:25:16,440

um you know

638

00:25:22,970 --> 00:25:19,679

and we know that and then Leslie Kane

639

00:25:24,590 --> 00:25:22,980

was shown the notes in 2007 or 2008

640

00:25:27,110 --> 00:25:24,600

which we she talked about on my channel

641

00:25:28,310 --> 00:25:27,120

for the first time but she saw the full

642

00:25:32,390 --> 00:25:28,320

notes

643

00:25:36,289 --> 00:25:32,400

and yeah she saw the the full she was at

644

00:25:38,149 --> 00:25:36,299

a conference in 2007 or 2008. and she

645

00:25:40,610 --> 00:25:38,159

was taken to a car she was not allowed

646

00:25:43,010 --> 00:25:40,620

to take pictures or notes or whatever

647

00:25:45,350 --> 00:25:43,020

but she was allowed to see the full

648

00:25:48,289 --> 00:25:45,360

notes and

649

00:25:49,789 --> 00:25:48,299

and again you know she and the the thing

650

00:25:51,289 --> 00:25:49,799

was too is like

651
00:25:53,690 --> 00:25:51,299
I don't know if too many people know

652
00:25:55,669 --> 00:25:53,700
that but one of one of Leslie Kane's

653
00:25:57,169 --> 00:25:55,679
major sources and I don't think this is

654
00:25:58,070 --> 00:25:57,179
the person who showed her the notes to

655
00:26:00,230 --> 00:25:58,080
be clear

656
00:26:01,909 --> 00:26:00,240
but one of her major sources back then

657
00:26:03,769 --> 00:26:01,919
or in the early days was commander will

658
00:26:05,990 --> 00:26:03,779
Miller

659
00:26:08,149 --> 00:26:06,000
you know she's like okay she cites him

660
00:26:11,149 --> 00:26:08,159
in the Boston Globe and even in her

661
00:26:13,370 --> 00:26:11,159
books uh UFOs you know generals and

662
00:26:15,230 --> 00:26:13,380
Pilots uh and officials go on the record

663
00:26:18,169 --> 00:26:15,240

there's a few quotes in there from

664

00:26:19,789 --> 00:26:18,179

Miller and Miller again he he was he's

665

00:26:22,669 --> 00:26:19,799

one of the people he set up the meeting

666

00:26:25,730 --> 00:26:22,679

basically between

667

00:26:29,450 --> 00:26:25,740

um Wilson and and Greer and Ed Mitchell

668

00:26:31,549 --> 00:26:29,460

because Miller was a Navy guy and and so

669

00:26:34,310 --> 00:26:31,559

was Wilson they knew each other and I I

670

00:26:37,250 --> 00:26:34,320

had found a document

671

00:26:38,450 --> 00:26:37,260

um you know during in in Stephen Greer's

672

00:26:39,769 --> 00:26:38,460

work actually

673

00:26:43,250 --> 00:26:39,779

that

674

00:26:46,490 --> 00:26:43,260

had Miller and and Wilson communicating

675

00:26:49,130 --> 00:26:46,500

into and in 1995

676
00:26:51,529 --> 00:26:49,140
and the issue was brought up so in 1995

677
00:26:53,649 --> 00:26:51,539
Miller and Wilson are talking about UFOs

678
00:26:56,450 --> 00:26:53,659
and and their interest in it and and

679
00:27:00,470 --> 00:26:56,460
possibly putting together a meeting

680
00:27:04,130 --> 00:27:00,480
and then you know lo and behold in 1997

681
00:27:07,070 --> 00:27:04,140
the meaning happens with with Dr Greer

682
00:27:09,529 --> 00:27:07,080
um will Miller Commander will Miller you

683
00:27:11,510 --> 00:27:09,539
know who I've spoken to uh and Joe Mercy

684
00:27:13,850 --> 00:27:11,520
is friends with as well yeah

685
00:27:15,169 --> 00:27:13,860
um Dr Edgar Mitchell and then and then

686
00:27:17,149 --> 00:27:15,179
two people from the disclosure project

687
00:27:19,669 --> 00:27:17,159
were also there Sherry adamack who was

688
00:27:22,190 --> 00:27:19,679

Stephen Greer's right hand and um right

689

00:27:24,289 --> 00:27:22,200

hand woman who was very instrumental in

690

00:27:26,750 --> 00:27:24,299

the ccity work

691

00:27:30,049 --> 00:27:26,760

um who passed away in 97 all right not

692

00:27:31,789 --> 00:27:30,059

98 maybe 97 98

693

00:27:33,529 --> 00:27:31,799

um and uh Stephen lovekin who was

694

00:27:35,029 --> 00:27:33,539

another disclosure project witness is

695

00:27:37,250 --> 00:27:35,039

his testimony is on the disclosure

696

00:27:39,950 --> 00:27:37,260

project witness testimony

697

00:27:43,549 --> 00:27:39,960

um YouTube stuff so they were all there

698

00:27:46,490 --> 00:27:43,559

for you know this meeting with Tom

699

00:27:47,330 --> 00:27:46,500

Wilson vice admiral Tom Wilson J2 at the

700

00:27:50,390 --> 00:27:47,340

time

701
00:27:52,010 --> 00:27:50,400
and you know

702
00:27:54,769 --> 00:27:52,020
there's a lot of there's still

703
00:27:55,549 --> 00:27:54,779
controversy about this document

704
00:27:58,250 --> 00:27:55,559
um

705
00:28:01,070 --> 00:27:58,260
that that Stephen Greer had that he

706
00:28:03,230 --> 00:28:01,080
allegedly was given the document by an

707
00:28:06,169 --> 00:28:03,240
NSA Source that's what he claims I don't

708
00:28:07,850 --> 00:28:06,179
know but the document was an nro

709
00:28:09,350 --> 00:28:07,860
document

710
00:28:15,169 --> 00:28:09,360
and

711
00:28:17,330 --> 00:28:15,179
different programs

712
00:28:20,269 --> 00:28:17,340
and allegedly

713
00:28:23,810 --> 00:28:20,279

Greer sent this out to Wilson's people

714

00:28:26,029 --> 00:28:23,820

uh you know a a bit a little bit in

715

00:28:28,970 --> 00:28:26,039

advance of the meeting and in that time

716

00:28:32,029 --> 00:28:28,980

Wilson and his assistant were able they

717

00:28:34,549 --> 00:28:32,039

identified a program somewhere in that

718

00:28:39,649 --> 00:28:37,010

um and again this controversy if the

719

00:28:42,169 --> 00:28:39,659

document's real or not but

720

00:28:45,230 --> 00:28:42,179

I don't

721

00:28:47,570 --> 00:28:45,240

I think that it's probably genuine or I

722

00:28:49,730 --> 00:28:47,580

because the story goes that you know

723

00:28:52,250 --> 00:28:49,740

even Ed Mitchell says that

724

00:28:53,870 --> 00:28:52,260

Wilson was able to identify a program on

725

00:28:58,610 --> 00:28:53,880

there and

726

00:29:00,830 --> 00:28:58,620

Wilson track down the program and and

727

00:29:04,970 --> 00:29:00,840

they told him he he didn't have a need

728

00:29:07,190 --> 00:29:04,980

to know you know and you know within two

729

00:29:10,730 --> 00:29:07,200

months he had arranged a meeting to fly

730

00:29:13,370 --> 00:29:10,740

out and and talk with the security

731

00:29:16,070 --> 00:29:13,380

officer the program manager and the

732

00:29:18,049 --> 00:29:16,080

corporate lawyer or attorney

733

00:29:20,210 --> 00:29:18,059

about the program and that's when they

734

00:29:22,130 --> 00:29:20,220

get into the Weeds about no this was uh

735

00:29:24,769 --> 00:29:22,140

as non-human technology

736

00:29:26,210 --> 00:29:24,779

they can't make the progress on it uh he

737

00:29:27,529 --> 00:29:26,220

doesn't have need to know he's not on

738

00:29:28,909 --> 00:29:27,539

the bigot list he doesn't meet the

739

00:29:32,269 --> 00:29:28,919
requirements

740

00:29:34,250 --> 00:29:32,279
and you know again Wilson was Furious he

741

00:29:36,889 --> 00:29:34,260
he went back to the um special access

742

00:29:39,169 --> 00:29:36,899
oversight committee I believe and and

743

00:29:40,669 --> 00:29:39,179
said what the hell and they told him to

744

00:29:43,070 --> 00:29:40,679
back off unless he doesn't want to

745

00:29:44,570 --> 00:29:43,080
retire early or lose a star or two yep

746

00:29:47,990 --> 00:29:44,580
and

747

00:29:49,970 --> 00:29:48,000
um you know Wilson was the deputy

748

00:29:53,630 --> 00:29:49,980
director of the DIA at that time

749

00:29:55,130 --> 00:29:53,640
and likely because he even though he was

750

00:29:56,750 --> 00:29:55,140
still pissed and chasing the story

751

00:29:59,870 --> 00:29:56,760

several years later

752

00:30:01,630 --> 00:29:59,880

you know he he you know he listened

753

00:30:05,210 --> 00:30:01,640

basically and he ended up getting

754

00:30:08,029 --> 00:30:05,220

promoted to the director of the DIA

755

00:30:09,830 --> 00:30:08,039

um you know which good for him

756

00:30:13,549 --> 00:30:09,840

um I can understand why he would never

757

00:30:15,409 --> 00:30:13,559

want to talk about this uh you know for

758

00:30:17,510 --> 00:30:15,419

several reasons other than the the

759

00:30:19,850 --> 00:30:17,520

National Security implications I mean

760

00:30:21,230 --> 00:30:19,860

it's embarrassing right this he's one of

761

00:30:23,630 --> 00:30:21,240

the head honchos and they're telling him

762

00:30:26,389 --> 00:30:23,640

like he you had you don't have the need

763

00:30:29,690 --> 00:30:26,399

to know and uh you know sorry basically

764

00:30:31,730 --> 00:30:29,700

yeah no absolutely man I mean where does

765

00:30:33,889 --> 00:30:31,740

that link in with I mean what we're

766

00:30:36,830 --> 00:30:33,899

hearing now is the Congress has been

767

00:30:38,630 --> 00:30:36,840

made aware of Legacy programs and one

768

00:30:41,029 --> 00:30:38,640

thing that isn't I mean it's mentioned

769

00:30:43,310 --> 00:30:41,039

quite frequently but that I can't quite

770

00:30:45,470 --> 00:30:43,320

seem to find the connection and it seems

771

00:30:47,630 --> 00:30:45,480

to be a real gray area is the Aerospace

772

00:30:50,090 --> 00:30:47,640

you know the private Aerospace industry

773

00:30:51,409 --> 00:30:50,100

connection to all of this and just well

774

00:30:53,630 --> 00:30:51,419

before you pipe in I'm just going to

775

00:30:55,850 --> 00:30:53,640

unlock this window next to me so you go

776

00:30:59,690 --> 00:30:55,860

ahead I I can hear you

777

00:31:02,630 --> 00:30:59,700

and no no just for uh well so yeah the

778

00:31:05,690 --> 00:31:02,640

Aerospace Legacy connection I mean it

779

00:31:07,909 --> 00:31:05,700

seems you know even the Wilson When

780

00:31:10,789 --> 00:31:07,919

Wilson was inquiring about this and he

781

00:31:13,190 --> 00:31:10,799

found the alleged program it led him to

782

00:31:15,529 --> 00:31:13,200

a private Aerospace contractor

783

00:31:17,630 --> 00:31:15,539

so you're talking about

784

00:31:20,810 --> 00:31:17,640

um you know there's the big names in the

785

00:31:23,210 --> 00:31:20,820

in the Aerospace world that are suspects

786

00:31:26,029 --> 00:31:23,220

a lot of people suspect that it was uh

787

00:31:29,389 --> 00:31:26,039

Lockheed I I have no idea

788

00:31:31,730 --> 00:31:29,399

but you know uh Dr Eric Davis is has

789

00:31:34,070 --> 00:31:31,740

said the same thing and you know Stephen

790

00:31:36,049 --> 00:31:34,080

Greer has has said the same thing

791

00:31:37,610 --> 00:31:36,059

and I believe Ed Mitchell has said the

792

00:31:40,370 --> 00:31:37,620

same thing so all these people are

793

00:31:42,529 --> 00:31:40,380

talking about uh you know private

794

00:31:44,810 --> 00:31:42,539

contractors getting

795

00:31:46,970 --> 00:31:44,820

access to the material for a number of

796

00:31:49,430 --> 00:31:46,980

reasons you know even if you go back to

797

00:31:50,450 --> 00:31:49,440

the Philip Corso

798

00:31:52,370 --> 00:31:50,460

um

799

00:31:54,230 --> 00:31:52,380

you know testimony

800

00:31:56,029 --> 00:31:54,240

um and not even the book that Philip

801
00:31:58,850 --> 00:31:56,039
Corso wrote the results he had something

802
00:32:01,970 --> 00:31:58,860
before that which um is available

803
00:32:04,909 --> 00:32:01,980
through open Minds website but it's also

804
00:32:07,250 --> 00:32:04,919
a PDF on the internet and uh you know

805
00:32:10,970 --> 00:32:07,260
Philip Corso before he had the book he

806
00:32:13,250 --> 00:32:10,980
had written his the basic notes

807
00:32:16,070 --> 00:32:13,260
um called dawn of a new era

808
00:32:19,970 --> 00:32:16,080
and it's I it's

809
00:32:22,130 --> 00:32:19,980
uh more it's a more pure form of of what

810
00:32:23,930 --> 00:32:22,140
Phil Corso Philip Corso was trying to

811
00:32:25,549 --> 00:32:23,940
communicate

812
00:32:26,690 --> 00:32:25,559
um and just for people listening Philip

813
00:32:28,610 --> 00:32:26,700

of course there's a disclosure project

814

00:32:30,889 --> 00:32:28,620

witness who came forward and said that

815

00:32:34,330 --> 00:32:30,899

you know he was

816

00:32:38,870 --> 00:32:34,340

you know authorized as one of his jobs

817

00:32:41,269 --> 00:32:38,880

to take UFO recover technology and and

818

00:32:43,310 --> 00:32:41,279

get it out to

819

00:32:44,930 --> 00:32:43,320

National Laboratories and private

820

00:32:47,389 --> 00:32:44,940

contractors

821

00:32:49,430 --> 00:32:47,399

so that story goes back

822

00:32:52,490 --> 00:32:49,440

several decades

823

00:32:54,370 --> 00:32:52,500

and you know even Dr Davis in one of

824

00:32:58,310 --> 00:32:54,380

these earlier interviews is saying that

825

00:32:59,810 --> 00:32:58,320

he he tried he checked out the the

826
00:33:01,070 --> 00:32:59,820
Philip Corso story and that was

827
00:33:02,870 --> 00:33:01,080
basically true

828
00:33:07,250 --> 00:33:02,880
you know

829
00:33:10,070 --> 00:33:07,260
that through official channels

830
00:33:13,130 --> 00:33:10,080
so you know there's the connection with

831
00:33:14,870 --> 00:33:13,140
uh with private Aerospace and

832
00:33:17,690 --> 00:33:14,880
there's a few reasons that people

833
00:33:19,130 --> 00:33:17,700
speculate why you know private Aerospace

834
00:33:21,769 --> 00:33:19,140
gets access

835
00:33:24,350 --> 00:33:21,779
first they're the leading Minds in the

836
00:33:28,669 --> 00:33:24,360
field right you want the best Minds

837
00:33:30,830 --> 00:33:28,679
possible in the field and you know

838
00:33:33,409 --> 00:33:30,840

corporate pays better you know

839

00:33:36,169 --> 00:33:33,419

proprietary companies pay better so they

840

00:33:37,730 --> 00:33:36,179

get they get the best and and you know a

841

00:33:40,310 --> 00:33:37,740

lot of people

842

00:33:42,289 --> 00:33:40,320

have said even I believe Dr kit green

843

00:33:45,830 --> 00:33:42,299

has said this publicly to Rich Dolan in

844

00:33:47,870 --> 00:33:45,840

an interview is that actually when you

845

00:33:50,509 --> 00:33:47,880

leave when you leave the Pentagon and go

846

00:33:52,549 --> 00:33:50,519

to the corporate world

847

00:33:54,250 --> 00:33:52,559

um you know say you're in DOD and now

848

00:33:57,590 --> 00:33:54,260

you're working for a private contractor

849

00:33:59,509 --> 00:33:57,600

your clearances go up you get more

850

00:34:01,730 --> 00:33:59,519

access

851
00:34:03,409 --> 00:34:01,740
um and I don't know the mechanism or

852
00:34:05,930 --> 00:34:03,419
reason for that but

853
00:34:07,310 --> 00:34:05,940
if kit green is saying that I you know I

854
00:34:08,810 --> 00:34:07,320
tend to take his word on it because he's

855
00:34:10,430 --> 00:34:08,820
been in the business for you know so

856
00:34:12,050 --> 00:34:10,440
long

857
00:34:14,750 --> 00:34:12,060
um but you know so you have the best

858
00:34:17,450 --> 00:34:14,760
minds and also you know you can't foia

859
00:34:19,609 --> 00:34:17,460
the recipe for Coca-Cola right it's

860
00:34:21,050 --> 00:34:19,619
proprietary information it's protected

861
00:34:23,389 --> 00:34:21,060
by the law

862
00:34:26,990 --> 00:34:23,399
so it seems they found uh like a

863
00:34:28,790 --> 00:34:27,000

loophole right yeah to you know not only

864

00:34:30,349 --> 00:34:28,800

get the best Minds to look at this

865

00:34:33,349 --> 00:34:30,359

technology and try to make sense of it

866

00:34:34,790 --> 00:34:33,359

but also it's it's protected by the law

867

00:34:38,690 --> 00:34:34,800

basically

868

00:34:41,149 --> 00:34:38,700

and even in secret machines you know the

869

00:34:42,530 --> 00:34:41,159

the fictional version

870

00:34:44,930 --> 00:34:42,540

uh

871

00:34:48,589 --> 00:34:44,940

you know they're talking about

872

00:34:51,230 --> 00:34:48,599

the the Maynard Consortium Corporation

873

00:34:53,329 --> 00:34:51,240

is this like private

874

00:34:55,849 --> 00:34:53,339

group of people who are like big

875

00:34:57,470 --> 00:34:55,859

banksters and and people with a lot of

876

00:35:01,550 --> 00:34:57,480

money and power

877

00:35:06,230 --> 00:35:01,560

but they're they use uh us you know they

878

00:35:08,210 --> 00:35:06,240

are able to get the contract and and I

879

00:35:10,250 --> 00:35:08,220

forget the exact title but and again

880

00:35:11,990 --> 00:35:10,260

this is something that was in the the

881

00:35:16,310 --> 00:35:12,000

secret machines book which came out in

882

00:35:19,430 --> 00:35:16,320

like 2016 or something 2015 2016. and

883

00:35:20,690 --> 00:35:19,440

the in the book it's talking about this

884

00:35:22,970 --> 00:35:20,700

special

885

00:35:25,250 --> 00:35:22,980

um title and code that you you're able

886

00:35:27,470 --> 00:35:25,260

to use in the classified world

887

00:35:30,589 --> 00:35:27,480

and if you look up the code it's taught

888

00:35:32,930 --> 00:35:30,599

it's talking about the waived saps right

889

00:35:34,430 --> 00:35:32,940

so they had you know they were they

890

00:35:36,290 --> 00:35:34,440

released it in this fiction book but

891

00:35:38,089 --> 00:35:36,300

actually you know even years later you

892

00:35:39,470 --> 00:35:38,099

know Christopher melon and Lou Alexander

893

00:35:42,470 --> 00:35:39,480

were out there talking about the waived

894

00:35:46,910 --> 00:35:42,480

saps yep that's where it seemed that

895

00:35:50,390 --> 00:35:48,650

absolutely

896

00:35:52,370 --> 00:35:50,400

I mean and that's the thing I mean we

897

00:35:53,870 --> 00:35:52,380

keep hearing about this whistleblower

898

00:35:55,910 --> 00:35:53,880

language coming out for the National

899

00:35:58,670 --> 00:35:55,920

Defense authorization act for fiscal

900

00:36:01,130 --> 00:35:58,680

year 2023 but then we hear people like

901
00:36:03,470 --> 00:36:01,140
Ross Coulton who are like it's [h__h]

902
00:36:06,829 --> 00:36:03,480
it's not good enough it's not protecting

903
00:36:08,630 --> 00:36:06,839
these uh whistleblowers enough and what

904
00:36:10,010 --> 00:36:08,640
I've sort of gathered from that is that

905
00:36:12,890 --> 00:36:10,020
some of these whistleblowers do have

906
00:36:14,930 --> 00:36:12,900
connections through uh outsourced

907
00:36:16,430 --> 00:36:14,940
programs into the I'd say the black

908
00:36:18,290 --> 00:36:16,440
world but I think it's the gray world

909
00:36:20,930 --> 00:36:18,300
the gray that in between where they're

910
00:36:22,849 --> 00:36:20,940
just buried programs within programs

911
00:36:24,530 --> 00:36:22,859
within programs and there's no guarantee

912
00:36:26,089 --> 00:36:24,540
that if these people come forward that

913
00:36:27,770 --> 00:36:26,099

they'll get their pensions they'll

914

00:36:29,150 --> 00:36:27,780

they'll keep their jobs they'll be safe

915

00:36:30,849 --> 00:36:29,160

you know is that kind of what you're

916

00:36:33,770 --> 00:36:30,859

getting at the moment

917

00:36:35,089 --> 00:36:33,780

yeah I mean I'm again I'm I'm hearing

918

00:36:36,170 --> 00:36:35,099

different things

919

00:36:38,990 --> 00:36:36,180

um yeah yeah yeah

920

00:36:41,150 --> 00:36:39,000

you know Dean Johnson had

921

00:36:42,410 --> 00:36:41,160

had responded to somebody's tweet about

922

00:36:44,569 --> 00:36:42,420

that

923

00:36:47,210 --> 00:36:44,579

uh because Leslie Kane also said well

924

00:36:49,130 --> 00:36:47,220

you know she's not sure you know again

925

00:36:52,310 --> 00:36:49,140

just like Ross coltheart if the language

926
00:36:56,990 --> 00:36:52,320
is adequate to protect these people and

927
00:36:59,390 --> 00:36:57,000
I I agree with Ross that it should be

928
00:37:01,430 --> 00:36:59,400
you know there's the responsibility and

929
00:37:03,410 --> 00:37:01,440
the stress shouldn't be placed on the

930
00:37:05,990 --> 00:37:03,420
whistleblowers it shouldn't work like

931
00:37:08,510 --> 00:37:06,000
that it you know the Rama the

932
00:37:10,790 --> 00:37:08,520
ramifications for that should be placed

933
00:37:13,190 --> 00:37:10,800
on the institutions for basically doing

934
00:37:16,609 --> 00:37:13,200
something illegal

935
00:37:19,670 --> 00:37:16,619
um so so they're not taking as much of a

936
00:37:24,829 --> 00:37:23,390
so I don't I I don't know on on a

937
00:37:27,950 --> 00:37:24,839
technical level

938
00:37:30,290 --> 00:37:27,960

how much protection they have yeah um

939

00:37:32,329 --> 00:37:30,300

and if it's you know when push comes to

940

00:37:34,790 --> 00:37:32,339

shove what you know what they're

941

00:37:37,790 --> 00:37:34,800

actually up against

942

00:37:40,609 --> 00:37:37,800

um but I I do know that some of these

943

00:37:42,589 --> 00:37:40,619

Legacy people you know have been helping

944

00:37:44,270 --> 00:37:42,599

this whole time and they've been

945

00:37:45,890 --> 00:37:44,280

cooperating

946

00:37:47,569 --> 00:37:45,900

um you know more than that they've been

947

00:37:48,470 --> 00:37:47,579

going out of their way to push this

948

00:37:50,870 --> 00:37:48,480

forward

949

00:37:53,329 --> 00:37:50,880

and we've probably heard one or two of

950

00:37:54,170 --> 00:37:53,339

these names before in in a leak or

951
00:37:56,329 --> 00:37:54,180
something

952
00:38:06,490 --> 00:37:56,339
and

953
00:38:10,250 --> 00:38:06,500
I from what I have gathered I have not

954
00:38:11,990 --> 00:38:10,260
seen that they're not going to come

955
00:38:14,690 --> 00:38:12,000
forward in in

956
00:38:16,550 --> 00:38:14,700
the way that they are able to you know

957
00:38:19,069 --> 00:38:16,560
that doesn't mean that they're gonna be

958
00:38:20,990 --> 00:38:19,079
on CNN talking about Crash retrievals no

959
00:38:22,910 --> 00:38:21,000
they have to go through proper channels

960
00:38:25,609 --> 00:38:22,920
they have to go through Congress

961
00:38:28,130 --> 00:38:25,619
and at that point I don't know what's

962
00:38:30,470 --> 00:38:28,140
going to happen but the people that I've

963
00:38:32,750 --> 00:38:30,480

spoken to are optimistic that

964

00:38:35,450 --> 00:38:32,760

you know crash retrievals are going to

965

00:38:39,530 --> 00:38:35,460

be put on the agenda

966

00:38:41,990 --> 00:38:39,540

um and you know shortly thereafter is

967

00:38:43,130 --> 00:38:42,000

somehow going to be acknowledged

968

00:38:45,589 --> 00:38:43,140

publicly

969

00:38:47,530 --> 00:38:45,599

and I don't you know again we're we're

970

00:38:50,329 --> 00:38:47,540

still we're we're still seeing

971

00:38:51,770 --> 00:38:50,339

resistance and you know infighting

972

00:38:53,390 --> 00:38:51,780

basically and that's why we have all

973

00:38:57,410 --> 00:38:53,400

these distortions and nobody knows

974

00:38:59,569 --> 00:38:57,420

what's going on in the public uh because

975

00:39:02,390 --> 00:38:59,579

not everybody's in agreement about this

976

00:39:04,670 --> 00:39:02,400

so

977

00:39:06,589 --> 00:39:04,680

I we're in Uncharted Territory literally

978

00:39:08,210 --> 00:39:06,599

and

979

00:39:09,370 --> 00:39:08,220

I don't think anybody knows what's going

980

00:39:12,109 --> 00:39:09,380

to happen

981

00:39:14,930 --> 00:39:12,119

but I know that people that are trying

982

00:39:16,790 --> 00:39:14,940

or trying their their darndest

983

00:39:18,050 --> 00:39:16,800

and and they're going to see it through

984

00:39:19,730 --> 00:39:18,060

right they're going to do everything

985

00:39:20,870 --> 00:39:19,740

within their power and maybe a little

986

00:39:23,450 --> 00:39:20,880

more

987

00:39:24,950 --> 00:39:23,460

to to see it through because I mean

988

00:39:26,270 --> 00:39:24,960

they're on a mission now and some of

989

00:39:28,910 --> 00:39:26,280

these people

990

00:39:30,829 --> 00:39:28,920

uh like Lou and and others or they're

991

00:39:32,510 --> 00:39:30,839

very Mission oriented they take it very

992

00:39:33,770 --> 00:39:32,520

seriously you don't you don't just drop

993

00:39:35,750 --> 00:39:33,780

the mission you see it through to the

994

00:39:38,150 --> 00:39:35,760

end and that's it how wherever the chips

995

00:39:41,270 --> 00:39:38,160

fall that's where they fall

996

00:39:44,329 --> 00:39:41,280

um but I'm I'm optimistic I'm optimistic

997

00:39:45,530 --> 00:39:44,339

and I'm confident that

998

00:39:48,950 --> 00:39:45,540

you know

999

00:39:51,109 --> 00:39:48,960

if if there were some of these people

1000

00:39:52,849 --> 00:39:51,119

um you know it's possible that they've

1001
00:39:55,130 --> 00:39:52,859
already spoken to the people they need

1002
00:39:57,410 --> 00:39:55,140
to speak to yeah and

1003
00:40:00,470 --> 00:39:57,420
and they didn't even wait for the

1004
00:40:02,990 --> 00:40:00,480
language to be drafted uh so you know

1005
00:40:05,990 --> 00:40:03,000
for whatever that's worth

1006
00:40:08,270 --> 00:40:06,000
people know what's going on and it's

1007
00:40:10,069 --> 00:40:08,280
it's a matter of what are people going

1008
00:40:12,890 --> 00:40:10,079
to do with that information

1009
00:40:14,690 --> 00:40:12,900
and you know Lou said some years ago now

1010
00:40:16,550 --> 00:40:14,700
in an interview with George Knapp like

1011
00:40:18,349 --> 00:40:16,560
you got to give these people time you're

1012
00:40:20,030 --> 00:40:18,359
trying to give them a six course meal in

1013
00:40:22,609 --> 00:40:20,040

in one course that's not gonna work they

1014

00:40:24,589 --> 00:40:22,619

have to process this right like if if

1015

00:40:26,990 --> 00:40:24,599

you're on the Senate intelligence

1016

00:40:28,670 --> 00:40:27,000

committee or armed service committee or

1017

00:40:30,470 --> 00:40:28,680

congress even if you're on the gang of

1018

00:40:33,530 --> 00:40:30,480

eight and this is the first time you're

1019

00:40:35,450 --> 00:40:33,540

hearing about this and you have some

1020

00:40:39,109 --> 00:40:35,460

kind of military

1021

00:40:40,370 --> 00:40:39,119

slash retired corporate Insider telling

1022

00:40:42,050 --> 00:40:40,380

you that we are in possession of

1023

00:40:43,849 --> 00:40:42,060

non-human technology and we've been

1024

00:40:46,390 --> 00:40:43,859

visited and everything you heard about

1025

00:40:48,770 --> 00:40:46,400

UFOs and all that is true

1026

00:40:51,230 --> 00:40:48,780

and you're responsible for it now

1027

00:40:53,690 --> 00:40:51,240

because now I've told you you're liable

1028

00:40:58,550 --> 00:40:53,700

to act down in that information like

1029

00:40:59,569 --> 00:40:58,560

holy [h__h] right so you know what what

1030

00:41:01,310 --> 00:40:59,579

are people going to do with that

1031

00:41:03,290 --> 00:41:01,320

information even if they're told Through

1032

00:41:06,250 --> 00:41:03,300

official channels

1033

00:41:08,810 --> 00:41:06,260

um and and maybe not everybody

1034

00:41:10,730 --> 00:41:08,820

that's that's being briefed is in

1035

00:41:14,270 --> 00:41:10,740

agreement or even knows what to make

1036

00:41:16,310 --> 00:41:14,280

sense of that so it I I foresee things

1037

00:41:17,030 --> 00:41:16,320

taking time

1038

00:41:20,210 --> 00:41:17,040

um

1039

00:41:23,990 --> 00:41:20,220

but I'm I'm still one of those uh people

1040

00:41:26,810 --> 00:41:24,000

who have faith in humanity sure um so I

1041

00:41:28,849 --> 00:41:26,820

I think that that people are are going

1042

00:41:29,710 --> 00:41:28,859

to try to do their best given that

1043

00:41:32,750 --> 00:41:29,720

information

1044

00:41:34,670 --> 00:41:32,760

and again I'm optimistic

1045

00:41:36,290 --> 00:41:34,680

and if I really want to get super

1046

00:41:39,770 --> 00:41:36,300

speculative

1047

00:41:43,190 --> 00:41:39,780

um you know I think that the phenomenon

1048

00:41:46,010 --> 00:41:43,200

is is guiding

1049

00:41:48,109 --> 00:41:46,020

this process at least

1050

00:41:50,930 --> 00:41:48,119

um or I can say guiding I can say

1051

00:41:54,109 --> 00:41:50,940

manipulating I can say influencing

1052

00:41:57,890 --> 00:41:54,119

I don't think that the increased

1053

00:42:01,910 --> 00:41:57,900

encounters are are a coincidence

1054

00:42:04,730 --> 00:42:01,920

I don't think they're purely because of

1055

00:42:06,410 --> 00:42:04,740

um the upgraded technology and sensors I

1056

00:42:08,690 --> 00:42:06,420

I think that there literally is more

1057

00:42:09,829 --> 00:42:08,700

activity and it's the phenomenon's way

1058

00:42:11,630 --> 00:42:09,839

of

1059

00:42:14,030 --> 00:42:11,640

pushing the issue

1060

00:42:15,710 --> 00:42:14,040

yeah absolutely and I I'm a positive

1061

00:42:17,690 --> 00:42:15,720

person too and

1062

00:42:20,150 --> 00:42:17,700

that might turn around and bite me in

1063

00:42:22,370 --> 00:42:20,160

the ass further down the line but it

1064

00:42:23,650 --> 00:42:22,380

keeps me going and and that's that's all

1065

00:42:26,569 --> 00:42:23,660

I can say about good for your health

1066

00:42:28,430 --> 00:42:26,579

exactly exactly

1067

00:42:31,130 --> 00:42:28,440

on a very literal level it's actually

1068

00:42:32,990 --> 00:42:31,140

good for your biology and mind State and

1069

00:42:34,790 --> 00:42:33,000

especially working in this subject you

1070

00:42:36,890 --> 00:42:34,800

know because you start feeling the

1071

00:42:39,530 --> 00:42:36,900

weights getting on your shoulders and

1072

00:42:42,589 --> 00:42:39,540

before long you just it becomes so heavy

1073

00:42:45,650 --> 00:42:42,599

and too much so yeah tell us what I do

1074

00:42:47,750 --> 00:42:45,660

for fun yeah you're the Hulk you're like

1075

00:42:49,550 --> 00:42:47,760

these I just came from the gym so I was

1076
00:42:52,609 --> 00:42:49,560
just putting weights on my shoulders for

1077
00:42:55,370 --> 00:42:52,619
fun beast mode beast mode activated

1078
00:42:57,589 --> 00:42:55,380
today with James and we love it uh blue

1079
00:42:59,210 --> 00:42:57,599
eyes is race is a point here how can

1080
00:43:00,770 --> 00:42:59,220
people talk about agencies and other

1081
00:43:02,809 --> 00:43:00,780
people withholding information when

1082
00:43:04,130 --> 00:43:02,819
they're doing the same thing I suppose

1083
00:43:06,290 --> 00:43:04,140
the one thing I would have to say to

1084
00:43:08,030 --> 00:43:06,300
that is it's Source protection we hear

1085
00:43:10,150 --> 00:43:08,040
this through journalism we hear it

1086
00:43:12,770 --> 00:43:10,160
through you people's

1087
00:43:14,809 --> 00:43:12,780
researchers is that

1088
00:43:16,670 --> 00:43:14,819

people get told things and they get told

1089

00:43:19,609 --> 00:43:16,680

not to release it and you have to kind

1090

00:43:21,770 --> 00:43:19,619

of respect Source sources wishes because

1091

00:43:23,569 --> 00:43:21,780

if you start

1092

00:43:25,609 --> 00:43:23,579

spouting out what you've been told to

1093

00:43:27,950 --> 00:43:25,619

withhold then you're never going to get

1094

00:43:29,210 --> 00:43:27,960

told stuff again and I mean that to a

1095

00:43:30,829 --> 00:43:29,220

point where

1096

00:43:32,390 --> 00:43:30,839

you're not getting told the secrets of

1097

00:43:34,370 --> 00:43:32,400

the universe here or the secrets of the

1098

00:43:37,069 --> 00:43:34,380

UFO subject because I believe it's just

1099

00:43:38,990 --> 00:43:37,079

little directions to go in from what I

1100

00:43:41,930 --> 00:43:39,000

garnered same with Ross who talks about

1101

00:43:43,790 --> 00:43:41,940

this a lot and so it's kind of

1102

00:43:45,950 --> 00:43:43,800

that's how I look at it when when it's

1103

00:43:47,510 --> 00:43:45,960

like withholding information it's the

1104

00:43:49,730 --> 00:43:47,520

government and the military may be

1105

00:43:51,410 --> 00:43:49,740

withholding the big picture but within

1106

00:43:53,270 --> 00:43:51,420

that you'll get people withholding

1107

00:43:55,130 --> 00:43:53,280

little tidbits that

1108

00:43:57,410 --> 00:43:55,140

they have to respect what do you think

1109

00:43:59,870 --> 00:43:57,420

James yeah so I mean there's several

1110

00:44:01,849 --> 00:43:59,880

levels to that right like yeah I mean

1111

00:44:03,349 --> 00:44:01,859

yeah some of these people and sources

1112

00:44:06,790 --> 00:44:03,359

they they'd love to tell you everything

1113

00:44:09,230 --> 00:44:06,800

they know they're they have a great

1114

00:44:11,089 --> 00:44:09,240

stress and responsibility and again like

1115

00:44:14,030 --> 00:44:11,099

the weight on your shoulders of holding

1116

00:44:16,730 --> 00:44:14,040

this this secret right

1117

00:44:19,609 --> 00:44:16,740

um and being in the shadows and and

1118

00:44:22,250 --> 00:44:19,619

you know they want to help

1119

00:44:23,569 --> 00:44:22,260

um and it's it's it's not just it's not

1120

00:44:26,270 --> 00:44:23,579

like they're trying to hoard the

1121

00:44:28,309 --> 00:44:26,280

information like okay if you have a NDA

1122

00:44:31,370 --> 00:44:28,319

or security clearance you're literally

1123

00:44:33,410 --> 00:44:31,380

your your life depends on it uh you know

1124

00:44:34,910 --> 00:44:33,420

your career your livelihood and your

1125

00:44:36,890 --> 00:44:34,920

family and your house and your mortgage

1126

00:44:38,870 --> 00:44:36,900

and everything like that

1127

00:44:41,030 --> 00:44:38,880

um and again like Lou has said it's not

1128

00:44:42,290 --> 00:44:41,040

it's not about you know it's not like oh

1129

00:44:44,510 --> 00:44:42,300

it's about money I'm going to keep my

1130

00:44:47,390 --> 00:44:44,520

jobs like you have an honor a code of

1131

00:44:49,670 --> 00:44:47,400

honor that you're respecting to protect

1132

00:44:51,290 --> 00:44:49,680

the people of this country

1133

00:44:53,270 --> 00:44:51,300

um and they take that very seriously

1134

00:44:56,089 --> 00:44:53,280

that's an oath that they took

1135

00:44:57,410 --> 00:44:56,099

so that there's that level to it but

1136

00:44:59,750 --> 00:44:57,420

then again there's the trickle-down

1137

00:45:01,910 --> 00:44:59,760

effect where you know maybe some of

1138

00:45:04,490 --> 00:45:01,920

these sources they want to help inform

1139

00:45:06,470 --> 00:45:04,500

the Public's research right so maybe a

1140

00:45:09,050 --> 00:45:06,480

researcher gets a hold of them

1141

00:45:10,730 --> 00:45:09,060

and they can't really tell you the

1142

00:45:11,990 --> 00:45:10,740

details of something but they can steer

1143

00:45:14,450 --> 00:45:12,000

you in the direction that's going to

1144

00:45:15,829 --> 00:45:14,460

help the research

1145

00:45:18,230 --> 00:45:15,839

and

1146

00:45:20,089 --> 00:45:18,240

if me or you or you know other

1147

00:45:21,650 --> 00:45:20,099

researchers are told something it's not

1148

00:45:23,750 --> 00:45:21,660

like oh you know we're

1149

00:45:25,130 --> 00:45:23,760

you know we're positioning ourselves

1150

00:45:27,530 --> 00:45:25,140

above the community because we have

1151
00:45:29,450 --> 00:45:27,540
information it's like we all you know

1152
00:45:32,270 --> 00:45:29,460
don't want to compromise the work that's

1153
00:45:33,950 --> 00:45:32,280
being done right like if we go blurt

1154
00:45:36,109 --> 00:45:33,960
something out

1155
00:45:37,309 --> 00:45:36,119
um that could potentially sabotage an

1156
00:45:38,630 --> 00:45:37,319
initiative

1157
00:45:44,690 --> 00:45:38,640
and

1158
00:45:47,510 --> 00:45:44,700
they're playing right like

1159
00:45:49,190 --> 00:45:47,520
uh for example people and again I don't

1160
00:45:51,710 --> 00:45:49,200
know how true this is

1161
00:45:54,710 --> 00:45:51,720
but you know someone speculated that you

1162
00:45:55,910 --> 00:45:54,720
know the New York Times piece

1163
00:45:58,490 --> 00:45:55,920

um

1164

00:46:00,829 --> 00:45:58,500

that was done by Julian Barnes really

1165

00:46:02,270 --> 00:46:00,839

pissed some people off and you know part

1166

00:46:03,890 --> 00:46:02,280

of the reason that we haven't seen the

1167

00:46:06,109 --> 00:46:03,900

report yet is because Congress was

1168

00:46:09,349 --> 00:46:06,119

really pissed and they wanted more

1169

00:46:12,290 --> 00:46:09,359

information from the odni before the

1170

00:46:14,390 --> 00:46:12,300

report was officially submitted

1171

00:46:16,069 --> 00:46:14,400

um so that's you know and that was like

1172

00:46:20,089 --> 00:46:16,079

a preemptive strike right it's an

1173

00:46:23,990 --> 00:46:20,099

anonymous source and it is in complete

1174

00:46:25,849 --> 00:46:24,000

uh controversy and conflict with another

1175

00:46:28,190 --> 00:46:25,859

article that was put out by the daily

1176

00:46:30,770 --> 00:46:28,200

mail saying way different things from

1177

00:46:34,550 --> 00:46:30,780

other sources so yeah

1178

00:46:38,210 --> 00:46:36,589

information getting out in different

1179

00:46:40,550 --> 00:46:38,220

ways and the spin that's put on the

1180

00:46:42,230 --> 00:46:40,560

information can can affect what's going

1181

00:46:44,210 --> 00:46:42,240

on and everything that we're seeing here

1182

00:46:45,050 --> 00:46:44,220

on the outside

1183

00:46:48,950 --> 00:46:45,060

um

1184

00:46:50,690 --> 00:46:48,960

so you know again as a researcher you

1185

00:46:52,370 --> 00:46:50,700

want to protect your sources it's you

1186

00:46:53,690 --> 00:46:52,380

know it's not only like oh I can if I

1187

00:46:55,490 --> 00:46:53,700

protect my source I'm going to get more

1188

00:46:56,270 --> 00:46:55,500

information

1189

00:46:57,650 --> 00:46:56,280

um

1190

00:46:59,690 --> 00:46:57,660

you know it's

1191

00:47:01,970 --> 00:46:59,700

if you know you're you have a

1192

00:47:03,890 --> 00:47:01,980

responsibility and a respect for that

1193

00:47:06,829 --> 00:47:03,900

individual that you're you're not gonna

1194

00:47:08,089 --> 00:47:06,839

blow their cover either because

1195

00:47:10,490 --> 00:47:08,099

you know

1196

00:47:13,130 --> 00:47:10,500

in in the intelligence World they they

1197

00:47:15,470 --> 00:47:13,140

use that as a way to track who's talking

1198

00:47:17,210 --> 00:47:15,480

you know what I mean you're given

1199

00:47:19,250 --> 00:47:17,220

certain information and they follow

1200

00:47:20,690 --> 00:47:19,260

where the information goes and this

1201

00:47:24,230 --> 00:47:20,700

person has this piece so they know where

1202

00:47:26,089 --> 00:47:24,240

it came from right so uh there's there's

1203

00:47:28,790 --> 00:47:26,099

all different levels to it

1204

00:47:30,950 --> 00:47:28,800

yeah absolutely now James man you've

1205

00:47:32,870 --> 00:47:30,960

been awesome jumping on here tonight um

1206

00:47:34,790 --> 00:47:32,880

and we've gone nearly wow we're close

1207

00:47:36,410 --> 00:47:34,800

getting close to the hour but we cannot

1208

00:47:38,329 --> 00:47:36,420

leave because one thing we need to talk

1209

00:47:40,430 --> 00:47:38,339

about because in a week's time you're

1210

00:47:42,410 --> 00:47:40,440

hosting the second inquiry into

1211

00:47:44,930 --> 00:47:42,420

anomalous experiences and the phenomena

1212

00:47:46,910 --> 00:47:44,940

conference in New York city so please

1213

00:47:49,130 --> 00:47:46,920

please tell us about that

1214

00:47:51,050 --> 00:47:49,140

sure yeah I'm really excited about it

1215

00:47:53,750 --> 00:47:51,060

it's a you know it's it's really

1216

00:47:55,849 --> 00:47:53,760

incredible that you know we were able to

1217

00:47:58,609 --> 00:47:55,859

put the first one together at all and

1218

00:47:59,809 --> 00:47:58,619

and the second one as well now so that

1219

00:48:02,809 --> 00:47:59,819

is going to be

1220

00:48:04,370 --> 00:48:02,819

uh Saturday December 3rd in New York

1221

00:48:06,589 --> 00:48:04,380

City but it's also going to be available

1222

00:48:09,410 --> 00:48:06,599

on live stream because when we've done

1223

00:48:11,270 --> 00:48:09,420

these the live stream the the in-person

1224

00:48:14,210 --> 00:48:11,280

tickets have sold out within like a week

1225

00:48:16,010 --> 00:48:14,220

each time it's like really incredible

1226

00:48:18,710 --> 00:48:16,020

um but you can join in through the live

1227

00:48:19,790 --> 00:48:18,720

stream and uh you know this event is

1228

00:48:22,010 --> 00:48:19,800

going to have

1229

00:48:25,250 --> 00:48:22,020

Christopher Mellon which is incredible

1230

00:48:26,750 --> 00:48:25,260

uh Leslie Kane Ralph Blumenthal Whitley

1231

00:48:30,290 --> 00:48:26,760

streber

1232

00:48:32,450 --> 00:48:30,300

um Sharon roulette Hewitt who is on the

1233

00:48:34,670 --> 00:48:32,460

the Bix board the Bigelow Institute for

1234

00:48:38,030 --> 00:48:34,680

Consciousness and studies and Jeffrey

1235

00:48:40,609 --> 00:48:38,040

[h__\h] and you know Jeffrey [h__\h] is

1236

00:48:42,650 --> 00:48:40,619

incredible and it's it's amazing that

1237

00:48:45,109 --> 00:48:42,660

he's he's gone under the radar for so

1238

00:48:46,550 --> 00:48:45,119

long and I I jokingly say that he's gone

1239

00:48:48,890 --> 00:48:46,560

under the radar for so long because he

1240

00:48:52,309 --> 00:48:48,900

goes over most people's heads

1241

00:48:54,410 --> 00:48:52,319

um because he's he's he's done a lot of

1242

00:48:55,910 --> 00:48:54,420

things that again people don't know

1243

00:48:59,329 --> 00:48:55,920

about and people probably won't know

1244

00:49:02,390 --> 00:48:59,339

about uh but he's been a big supporter

1245

00:49:04,790 --> 00:49:02,400

of this and getting academics on board

1246

00:49:06,589 --> 00:49:04,800

um and you know I think he's mentioned a

1247

00:49:09,050 --> 00:49:06,599

few times in American Cosmic so people

1248

00:49:09,589 --> 00:49:09,060

might get an idea from there

1249

00:49:12,470 --> 00:49:09,599

um

1250

00:49:14,390 --> 00:49:12,480

but he you know it's incredible that

1251
00:49:16,250 --> 00:49:14,400
he's participating in this event event

1252
00:49:18,130 --> 00:49:16,260
you know he's at the chair of like

1253
00:49:20,569 --> 00:49:18,140
religious studies at Rice University

1254
00:49:21,829 --> 00:49:20,579
where the archives of the impossible

1255
00:49:23,569 --> 00:49:21,839
took place

1256
00:49:25,309 --> 00:49:23,579
and you know again I encourage everybody

1257
00:49:27,050 --> 00:49:25,319
to go look up The Archives of the

1258
00:49:29,569 --> 00:49:27,060
impossible you know Diana pasaka

1259
00:49:31,730 --> 00:49:29,579
participated Jack valet Greg Bishop uh

1260
00:49:34,250 --> 00:49:31,740
you know Jay Christopher King was able

1261
00:49:37,970 --> 00:49:34,260
to speak on a panel at that as well

1262
00:49:41,450 --> 00:49:37,980
which is uh which is really awesome but

1263
00:49:43,010 --> 00:49:41,460

um so people can join the event uh via

1264

00:49:45,829 --> 00:49:43,020

live stream and if you join the event

1265

00:49:47,930 --> 00:49:45,839

via live stream the next day you get

1266

00:49:49,910 --> 00:49:47,940

access to the full you know you get an

1267

00:49:51,650 --> 00:49:49,920

email with access to the full event so

1268

00:49:53,270 --> 00:49:51,660

you can re-watch it as many times as you

1269

00:49:55,069 --> 00:49:53,280

want

1270

00:49:57,410 --> 00:49:55,079

um you know but also

1271

00:50:00,050 --> 00:49:57,420

you know we're we're uploading the the

1272

00:50:02,990 --> 00:50:00,060

lectures and the talks and the Q and A's

1273

00:50:06,410 --> 00:50:03,000

to the YouTube channel so everybody can

1274

00:50:09,170 --> 00:50:06,420

freely access it afterwards you know uh

1275

00:50:10,910 --> 00:50:09,180

it takes a ton to put these kind of

1276

00:50:14,690 --> 00:50:10,920

events together

1277

00:50:17,089 --> 00:50:14,700

um if you took an event on like that

1278

00:50:18,589 --> 00:50:17,099

yourself I like I think your head would

1279

00:50:21,290 --> 00:50:18,599

explode

1280

00:50:23,390 --> 00:50:21,300

um it's it's really uh an effort but

1281

00:50:24,530 --> 00:50:23,400

it's totally worth it and you know the

1282

00:50:27,290 --> 00:50:24,540

first event

1283

00:50:29,210 --> 00:50:27,300

I think we it was incredible to see

1284

00:50:31,010 --> 00:50:29,220

everybody there in person and I know Jay

1285

00:50:33,230 --> 00:50:31,020

you've been to events like that and just

1286

00:50:35,930 --> 00:50:33,240

to meet everybody and talk to people is

1287

00:50:38,510 --> 00:50:35,940

really incredible

1288

00:50:40,190 --> 00:50:38,520

it is I mean it was incredible I can't

1289

00:50:42,410 --> 00:50:40,200

wait for the second one I've just popped

1290

00:50:44,690 --> 00:50:42,420

the link into the live chat here on the

1291

00:50:46,790 --> 00:50:44,700

side now obviously this whole show was

1292

00:50:48,710 --> 00:50:46,800

meant to be Nicole coming on so what I'm

1293

00:50:50,030 --> 00:50:48,720

going to do is as soon as this ends I'm

1294

00:50:52,970 --> 00:50:50,040

going to go and change the description

1295

00:50:54,589 --> 00:50:52,980

this is going to be a James iandoli you

1296

00:50:56,990 --> 00:50:54,599

can leave me as Nicole I wish I was

1297

00:50:59,930 --> 00:50:57,000

Nicole I wish I was that good looking

1298

00:51:01,260 --> 00:50:59,940

I'm sorry yeah it's so good brother man

1299

00:51:02,870 --> 00:51:01,270

uh you do it for me

1300

00:51:05,630 --> 00:51:02,880

[Laughter]

1301
00:51:07,130 --> 00:51:05,640
it was totally serendipitous I you know

1302
00:51:09,770 --> 00:51:07,140
I wish Nicole made it on I was looking

1303
00:51:11,930 --> 00:51:09,780
forward to her talk me too man me too

1304
00:51:14,930 --> 00:51:11,940
and I'm sure whatever happens you know

1305
00:51:16,609 --> 00:51:14,940
it's all good I I have no no grudges for

1306
00:51:19,190 --> 00:51:16,619
her not turning up life gets in the way

1307
00:51:20,990 --> 00:51:19,200
it's all good we can reschedule and this

1308
00:51:22,430 --> 00:51:21,000
has turned into a fantastic conversation

1309
00:51:24,770 --> 00:51:22,440
that I've wanted to have with you you

1310
00:51:26,569 --> 00:51:24,780
know since at least last month and that

1311
00:51:29,150 --> 00:51:26,579
but I like I said earlier I appreciate

1312
00:51:31,190 --> 00:51:29,160
how busy you've been and you are you are

1313
00:51:32,990 --> 00:51:31,200

doing like next level work at the moment

1314

00:51:35,030 --> 00:51:33,000

but and one thing I will say is that

1315

00:51:37,609 --> 00:51:35,040

work that you do

1316

00:51:39,230 --> 00:51:37,619

still pushes me to work better myself

1317

00:51:41,630 --> 00:51:39,240

because you were the original person

1318

00:51:43,309 --> 00:51:41,640

that kind of pushed me to do YouTube so

1319

00:51:45,589 --> 00:51:43,319

that's the kind of level that I always

1320

00:51:48,109 --> 00:51:45,599

set myself up so so thank you so much

1321

00:51:50,150 --> 00:51:48,119

dude I appreciate that and I mean you're

1322

00:51:52,790 --> 00:51:50,160

you're able to do this even more

1323

00:51:54,349 --> 00:51:52,800

consistently than me you know I'm kind

1324

00:51:55,490 --> 00:51:54,359

of all over the place and I do my best

1325

00:51:58,069 --> 00:51:55,500

but

1326
00:51:59,930 --> 00:51:58,079
um and you know for people watching and

1327
00:52:01,010 --> 00:51:59,940
listening you know Vinnie and I talked

1328
00:52:02,690 --> 00:52:01,020
about this

1329
00:52:05,569 --> 00:52:02,700
off the Record

1330
00:52:08,809 --> 00:52:05,579
um yeah I'm not gonna blowing no but

1331
00:52:11,450 --> 00:52:08,819
you're good I'm gonna continue to be to

1332
00:52:14,569 --> 00:52:11,460
be you know hammering away at the crash

1333
00:52:16,150 --> 00:52:14,579
retrieval issue for months to come and

1334
00:52:19,309 --> 00:52:16,160
you know

1335
00:52:22,130 --> 00:52:19,319
James Fox has said that Lou told him

1336
00:52:25,190 --> 00:52:22,140
like the calvary is coming

1337
00:52:27,530 --> 00:52:25,200
um and I think that the crash retrieval

1338
00:52:30,049 --> 00:52:27,540

issue is is incredibly important right

1339

00:52:31,849 --> 00:52:30,059

now and

1340

00:52:35,089 --> 00:52:31,859

I mean I don't think that should be our

1341

00:52:36,589 --> 00:52:35,099

only focus and you know I think there's

1342

00:52:38,450 --> 00:52:36,599

there's other areas of the research

1343

00:52:40,609 --> 00:52:38,460

which are very important

1344

00:52:43,130 --> 00:52:40,619

but I think that we need to put pressure

1345

00:52:45,410 --> 00:52:43,140

on the crash retrieval issue I think it

1346

00:52:48,109 --> 00:52:45,420

needs to be a constant theme that we

1347

00:52:50,210 --> 00:52:48,119

that we visit and inform people on and

1348

00:52:52,670 --> 00:52:50,220

form UFO Twitter inform journalists

1349

00:52:54,049 --> 00:52:52,680

right who may be watching our work or

1350

00:52:54,829 --> 00:52:54,059

seeing us on Twitter seeing us on

1351
00:52:57,170 --> 00:52:54,839
YouTube

1352
00:52:59,030 --> 00:52:57,180
because there's a lot of material there

1353
00:53:01,670 --> 00:52:59,040
there's so much material there

1354
00:53:04,490 --> 00:53:01,680
and you know some people that may have

1355
00:53:06,710 --> 00:53:04,500
come on board 2017 and after may only be

1356
00:53:07,910 --> 00:53:06,720
familiar with Roswell

1357
00:53:10,250 --> 00:53:07,920
when

1358
00:53:12,890 --> 00:53:10,260
you know there's there's hundreds of

1359
00:53:17,390 --> 00:53:12,900
Crash retrieval cases but

1360
00:53:20,630 --> 00:53:17,400
there's dozens of good ones right and

1361
00:53:22,609 --> 00:53:20,640
I think that you know putting that on

1362
00:53:25,130 --> 00:53:22,619
our priority list is is going to be

1363
00:53:27,410 --> 00:53:25,140

helpful especially if we have people

1364

00:53:31,010 --> 00:53:27,420

from Legacy programs

1365

00:53:33,650 --> 00:53:31,020

potentially going to speak with you know

1366

00:53:35,890 --> 00:53:33,660

are going to have their testimony heard

1367

00:53:39,530 --> 00:53:35,900

and hopefully acted on

1368

00:53:41,870 --> 00:53:39,540

that we have made the proper information

1369

00:53:44,690 --> 00:53:41,880

available for those who said oh so what

1370

00:53:48,349 --> 00:53:44,700

is it with this Legacy stuff right yeah

1371

00:53:50,270 --> 00:53:48,359

um well maybe Lou can't go into too much

1372

00:53:53,510 --> 00:53:50,280

detail but I'm guess what I'm just a

1373

00:53:56,930 --> 00:53:53,520

random dude uh on the internet I can say

1374

00:54:00,049 --> 00:53:56,940

anything so I can make information

1375

00:54:03,730 --> 00:54:00,059

available to people you know Vinnie

1376

00:54:06,170 --> 00:54:03,740

you're you're Tony Stark

1377

00:54:07,190 --> 00:54:06,180

you can make information available to

1378

00:54:10,010 --> 00:54:07,200

people

1379

00:54:12,890 --> 00:54:10,020

um you know so that that's kind of the

1380

00:54:16,370 --> 00:54:12,900

way it is and

1381

00:54:18,710 --> 00:54:16,380

I think it's important that we we keep

1382

00:54:20,030 --> 00:54:18,720

that on the Forefront and not let that

1383

00:54:23,569 --> 00:54:20,040

get buried

1384

00:54:25,730 --> 00:54:23,579

just with a you know begging and waiting

1385

00:54:27,290 --> 00:54:25,740

for UAP report to tell us what we

1386

00:54:28,849 --> 00:54:27,300

already know

1387

00:54:30,410 --> 00:54:28,859

um yeah it's going to be great if we

1388

00:54:33,290 --> 00:54:30,420

hear about new cases and we have

1389

00:54:35,390 --> 00:54:33,300

something new to work with and research

1390

00:54:37,250 --> 00:54:35,400

ourselves and and find the good cases

1391

00:54:38,329 --> 00:54:37,260

within that and promote it so that we

1392

00:54:39,829 --> 00:54:38,339

can put that in front of the right

1393

00:54:43,190 --> 00:54:39,839

people

1394

00:54:45,829 --> 00:54:43,200

in Congress in the Senate but like

1395

00:54:48,410 --> 00:54:45,839

family members friends you know people

1396

00:54:49,490 --> 00:54:48,420

in your Social Circles you know

1397

00:54:52,490 --> 00:54:49,500

um

1398

00:54:54,710 --> 00:54:52,500

but the you know the crash retrieval

1399

00:54:57,109 --> 00:54:54,720

issue is like again it's the red line

1400

00:54:58,730 --> 00:54:57,119

man it's the Holy Grail

1401
00:55:01,370 --> 00:54:58,740
once

1402
00:55:03,710 --> 00:55:01,380
the the pressure is applied on that from

1403
00:55:06,290 --> 00:55:03,720
both the outside and the inside you know

1404
00:55:07,730 --> 00:55:06,300
I'm optimistic that

1405
00:55:08,870 --> 00:55:07,740
it should you know it'll be taken

1406
00:55:10,910 --> 00:55:08,880
seriously

1407
00:55:12,530 --> 00:55:10,920
I completely agree

1408
00:55:14,690 --> 00:55:12,540
and that's the thing with me is you know

1409
00:55:17,089 --> 00:55:14,700
I do my YouTube I do my interviews but

1410
00:55:20,510 --> 00:55:17,099
my research that I do is another

1411
00:55:22,370 --> 00:55:20,520
secondary I have you know people coming

1412
00:55:25,609 --> 00:55:22,380
forward I had a pilot I interviewed last

1413
00:55:28,130 --> 00:55:25,619

last week 747 cargo pilot which has led

1414

00:55:30,290 --> 00:55:28,140

to me being contacted by other people

1415

00:55:33,049 --> 00:55:30,300

who I can't talk about publicly yet who

1416

00:55:34,250 --> 00:55:33,059

may not come forward publicly but I just

1417

00:55:37,010 --> 00:55:34,260

want to say there are conversations

1418

00:55:39,890 --> 00:55:37,020

happening because the momentum is

1419

00:55:41,930 --> 00:55:39,900

snowballing yeah and so we are we are

1420

00:55:44,030 --> 00:55:41,940

going in the right direction

1421

00:55:46,609 --> 00:55:44,040

um and it's incredible it's so good to

1422

00:55:48,589 --> 00:55:46,619

see and I wish the public could see the

1423

00:55:50,510 --> 00:55:48,599

same thing that I see and that you see

1424

00:55:51,950 --> 00:55:50,520

and and that um

1425

00:55:54,049 --> 00:55:51,960

I just think it's going to be an

1426

00:55:56,270 --> 00:55:54,059

interesting end to this year start of

1427

00:55:59,329 --> 00:55:56,280

next year and I'm I'm going to keep

1428

00:56:02,930 --> 00:55:59,339

hitting it you know full force with the

1429

00:56:07,250 --> 00:56:02,940

Avengers yeah totally man I we need to

1430

00:56:08,450 --> 00:56:07,260

and again I am optimistic and there

1431

00:56:10,130 --> 00:56:08,460

there are a lot of things and

1432

00:56:12,829 --> 00:56:10,140

conversations going on there's more

1433

00:56:15,829 --> 00:56:12,839

academics coming on board

1434

00:56:17,270 --> 00:56:15,839

um but it is going to take time and yeah

1435

00:56:19,670 --> 00:56:17,280

of course we all want it to happen

1436

00:56:21,410 --> 00:56:19,680

yesterday but that's that's just not how

1437

00:56:23,329 --> 00:56:21,420

the reality of it works

1438

00:56:25,250 --> 00:56:23,339

potentially there are a number of things

1439

00:56:28,069 --> 00:56:25,260

that could happen

1440

00:56:31,910 --> 00:56:28,079

that accelerate the process some good

1441

00:56:35,930 --> 00:56:33,950

you know if the phenomenon wanted to it

1442

00:56:37,790 --> 00:56:35,940

could it could end the whole charade in

1443

00:56:41,030 --> 00:56:37,800

in a flat second

1444

00:56:43,190 --> 00:56:41,040

absolutely and you know maybe that's not

1445

00:56:44,450 --> 00:56:43,200

the best thing that could happen for us

1446

00:56:47,750 --> 00:56:44,460

right

1447

00:56:49,970 --> 00:56:47,760

and maybe that's why the phenomenon's

1448

00:56:52,970 --> 00:56:49,980

interaction has been in the way it has

1449

00:56:55,670 --> 00:56:52,980

this whole time maybe it's

1450

00:56:57,530 --> 00:56:55,680

anticipating our our level of Readiness

1451
00:56:59,809 --> 00:56:57,540
and reaction and again this is part of

1452
00:57:02,990 --> 00:56:59,819
me being optimistic and this is part of

1453
00:57:03,770 --> 00:57:03,000
me having a ton of my own experiences

1454
00:57:06,770 --> 00:57:03,780
um

1455
00:57:08,569 --> 00:57:06,780
that's how I tend to think about it

1456
00:57:12,349 --> 00:57:08,579
these days

1457
00:57:13,549 --> 00:57:12,359
yeah it's it's it's difficult isn't it

1458
00:57:14,930 --> 00:57:13,559
it's difficult we all have our

1459
00:57:18,349 --> 00:57:14,940
individual thoughts and the way that we

1460
00:57:20,030 --> 00:57:18,359
break it down and keep it in our minds

1461
00:57:22,370 --> 00:57:20,040
as we progress day by day in the

1462
00:57:25,130 --> 00:57:22,380
subjects but like you said positivity

1463
00:57:27,650 --> 00:57:25,140

does help that even though we get these

1464

00:57:28,849 --> 00:57:27,660

I had it in Instagram live earlier and

1465

00:57:30,470 --> 00:57:28,859

people were saying it seems like we're

1466

00:57:32,210 --> 00:57:30,480

in a low period I'm like I can

1467

00:57:34,670 --> 00:57:32,220

understand that but

1468

00:57:36,950 --> 00:57:34,680

you know sometimes in the low periods it

1469

00:57:39,770 --> 00:57:36,960

comes with a smack and we're back up

1470

00:57:41,690 --> 00:57:39,780

into the high and you know it's who

1471

00:57:44,809 --> 00:57:41,700

knows what can happen well and and and

1472

00:57:45,650 --> 00:57:44,819

and the whole thing is like we're you I

1473

00:57:49,809 --> 00:57:45,660

don't want to say it like this but

1474

00:57:54,589 --> 00:57:52,490

I mean the nature of the universe itself

1475

00:57:55,190 --> 00:57:54,599

is is transient right

1476

00:57:58,430 --> 00:57:55,200

um

1477

00:58:00,410 --> 00:57:58,440

so that's that's the way of of anything

1478

00:58:02,390 --> 00:58:00,420

there's always highs and lows whether

1479

00:58:05,690 --> 00:58:02,400

you're talking about a football game or

1480

00:58:07,130 --> 00:58:05,700

re you know research right like if

1481

00:58:09,109 --> 00:58:07,140

you're talking about like even

1482

00:58:11,030 --> 00:58:09,119

technological research right they hit

1483

00:58:12,710 --> 00:58:11,040

walls and they're going and they finally

1484

00:58:15,349 --> 00:58:12,720

make a breakthrough right and it's like

1485

00:58:16,970 --> 00:58:15,359

a big event and then it there's a come

1486

00:58:19,010 --> 00:58:16,980

down from that and there's a lull and

1487

00:58:20,690 --> 00:58:19,020

then bam there's just like an explosion

1488

00:58:25,130 --> 00:58:20,700

so I mean

1489

00:58:27,710 --> 00:58:25,140

look look at the past five years there's

1490

00:58:29,329 --> 00:58:27,720

we've seen the highs and the lows and

1491

00:58:31,549 --> 00:58:29,339

we've seen

1492

00:58:34,450 --> 00:58:31,559

you know don't expect that to stop

1493

00:58:37,490 --> 00:58:34,460

basically we're gonna see that continued

1494

00:58:38,930 --> 00:58:37,500

uh pattern right there's there's like a

1495

00:58:41,150 --> 00:58:38,940

low for a few months and then something

1496

00:58:42,650 --> 00:58:41,160

explodes and there's a media wave for

1497

00:58:44,990 --> 00:58:42,660

like two or three months and then it

1498

00:58:47,930 --> 00:58:45,000

lows again and then we get another

1499

00:58:49,309 --> 00:58:47,940

amazing Revelation or confirmation and

1500

00:58:52,010 --> 00:58:49,319

then lows

1501
00:58:54,230 --> 00:58:52,020
and you know some people say oh it's a

1502
00:58:56,690 --> 00:58:54,240
drip drip disclosure

1503
00:58:57,890 --> 00:58:56,700
um and I I don't think necessarily it's

1504
00:59:00,710 --> 00:58:57,900
it's

1505
00:59:02,569 --> 00:59:00,720
by Design like that

1506
00:59:04,849 --> 00:59:02,579
um I mean if you want to talk about the

1507
00:59:07,370 --> 00:59:04,859
grander Consciousness scale okay we can

1508
00:59:09,950 --> 00:59:07,380
get woo and talk about that but and and

1509
00:59:11,030 --> 00:59:09,960
in like the real down to earth grounded

1510
00:59:14,270 --> 00:59:11,040
reality

1511
00:59:17,870 --> 00:59:14,280
approach like yeah I mean that's you

1512
00:59:20,569 --> 00:59:17,880
know this is the the way progress works

1513
00:59:22,130 --> 00:59:20,579

absolutely man absolutely we're just

1514

00:59:23,329 --> 00:59:22,140

about the hit the hour James I think

1515

00:59:24,530 --> 00:59:23,339

we'll we'll call it there tonight

1516

00:59:26,990 --> 00:59:24,540

because I don't want to keep you any

1517

00:59:29,150 --> 00:59:27,000

longer I really do appreciate it but

1518

00:59:31,430 --> 00:59:29,160

everybody that has been watching thank

1519

00:59:33,589 --> 00:59:31,440

you so much but please go down into the

1520

00:59:36,069 --> 00:59:33,599

description which will change after this

1521

00:59:38,270 --> 00:59:36,079

live stream so far in the description

1522

00:59:41,150 --> 00:59:38,280

James's YouTube channel is there along

1523

00:59:44,210 --> 00:59:41,160

with a link to loose threads the 250

1524

00:59:46,370 --> 00:59:44,220

page uh article by a mega point and the

1525

00:59:49,069 --> 00:59:46,380

Hermetic penetrator but it will what I

1526

00:59:51,170 --> 00:59:49,079

will add is a link to uh James's

1527

00:59:53,390 --> 00:59:51,180

upcoming conference a week today from

1528

00:59:55,430 --> 00:59:53,400

New York City where you can watch

1529

00:59:57,170 --> 00:59:55,440

virtually as well so all of that will be

1530

00:59:59,990 --> 00:59:57,180

in there the inquiry into anomalous

1531

01:00:01,250 --> 01:00:00,000

experiences and the phenomena and I'll

1532

01:00:02,809 --> 01:00:01,260

try and put anything else in there that

1533

01:00:04,730 --> 01:00:02,819

I think is relevant to the conversation

1534

01:00:06,289 --> 01:00:04,740

that we've just had but thank you so

1535

01:00:08,150 --> 01:00:06,299

much to everybody in the live chat but

1536

01:00:11,329 --> 01:00:08,160

more importantly James thank you so much

1537

01:00:13,670 --> 01:00:11,339

you really really uh

1538

01:00:15,349 --> 01:00:13,680

just filled in and made it into an

1539

01:00:17,089 --> 01:00:15,359

explosive conversation I cannot thank

1540

01:00:19,130 --> 01:00:17,099

you enough brother that was a pleasant

1541

01:00:21,589 --> 01:00:19,140

surprise totally serendipitous you know

1542

01:00:23,930 --> 01:00:21,599

I just finished at the gym and uh there

1543

01:00:25,490 --> 01:00:23,940

we have it now thank you so much man

1544

01:00:26,690 --> 01:00:25,500

always yeah it's always great coming on

1545

01:00:27,890 --> 01:00:26,700

talking to you Vinnie and you know we

1546

01:00:29,990 --> 01:00:27,900

had to have you on engaging the

1547

01:00:31,430 --> 01:00:30,000

phenomenon again soon uh because I'm

1548

01:00:34,069 --> 01:00:31,440

going to be doing more panels as well

1549

01:00:35,630 --> 01:00:34,079

and and again touching on the the crash

1550

01:00:37,789 --> 01:00:35,640

retrieval subject

1551

01:00:39,650 --> 01:00:37,799

yeah but anytime you know that man but

1552

01:00:42,289 --> 01:00:39,660

listen we carry on speaking behind the

1553

01:00:44,329 --> 01:00:42,299

scenes as we do but for now guys I will

1554

01:00:46,130 --> 01:00:44,339

update you if I can on what happened to

1555

01:00:48,589 --> 01:00:46,140

Nicole like I said I just hope that she

1556

01:00:50,210 --> 01:00:48,599

was okay she will be rescheduled to come

1557

01:00:52,430 --> 01:00:50,220

on because that conversation is going to

1558

01:00:54,589 --> 01:00:52,440

be incredible but thank you guys for for

1559

01:00:57,109 --> 01:00:54,599

being patient and being here and and

1560

01:01:00,049 --> 01:00:57,119

having fun with us all I will be back

1561

01:01:02,390 --> 01:01:00,059

next week with

1562

01:01:03,589 --> 01:01:02,400

I can't even remember my own schedule go

1563

01:01:05,150 --> 01:01:03,599

and follow me on Twitter and Instagram

1564

01:01:07,370 --> 01:01:05,160

and you're checking check out my

1565

01:01:09,589 --> 01:01:07,380

schedule yeah so you had John Burriss

1566

01:01:11,450 --> 01:01:09,599

coming on John Burriss is coming on and

1567

01:01:12,890 --> 01:01:11,460

uh actually I think I've got a week off

1568

01:01:14,390 --> 01:01:12,900

next week and then John Burroughs is

1569

01:01:16,730 --> 01:01:14,400

coming on to talk about rendersham so

1570

01:01:21,109 --> 01:01:16,740

that's going to be fantastic John oh

1571

01:01:24,170 --> 01:01:21,119

make sure to press John because John

1572

01:01:26,030 --> 01:01:24,180

John knows a lot

1573

01:01:27,650 --> 01:01:26,040

yeah that's kind of like I've wanted to

1574

01:01:29,809 --> 01:01:27,660

cover renderson for a long time and I've

1575

01:01:33,230 --> 01:01:29,819

never quite figured out the right guess

1576

01:01:35,210 --> 01:01:33,240

and here we go finally honestly and I I

1577

01:01:36,829 --> 01:01:35,220

think that John is the best guest to

1578

01:01:38,630 --> 01:01:36,839

talk about randallstrom that's my own

1579

01:01:41,030 --> 01:01:38,640

opinion maybe I'm biased I've known John

1580

01:01:44,150 --> 01:01:41,040

for a number of years now

1581

01:01:47,829 --> 01:01:44,160

um but I I really appreciate uh some of

1582

01:01:51,049 --> 01:01:47,839

his perspectives although he he

1583

01:01:53,289 --> 01:01:51,059

he's John Burroughs go listen to some of

1584

01:01:56,870 --> 01:01:53,299

his old school phenomenon radio

1585

01:01:59,210 --> 01:01:56,880

interviews I I recommend that but he's

1586

01:02:01,430 --> 01:01:59,220

he's John Burrough so

1587

01:02:03,289 --> 01:02:01,440

God I love it God I love it yeah guys

1588

01:02:05,510 --> 01:02:03,299

thank you so much so yeah go and follow

1589

01:02:07,549 --> 01:02:05,520

me and James on all the social medias

1590

01:02:08,930 --> 01:02:07,559

the links are in will will be in the

1591

01:02:11,870 --> 01:02:08,940

description in the next half an hour

1592

01:02:13,370 --> 01:02:11,880

thank you guys so much take care enjoy

1593

01:02:14,210 --> 01:02:13,380

the rest of your weekend and we'll see
