NDAA/IAA & New UAP Report

DISCLOSURE
TEAM

1
00:00:06,289 --> 00:00:04,249
welcome back guys uh to another special

2
00:00:08,509 --> 00:00:06,299
show here on the disclosure team YouTube

3
00:00:10,250 --> 00:00:08,519
channel today I'm joined by Christopher

4
00:00:12,530 --> 00:00:10,260
sharp we are just going to be doing a

5
00:00:14,450 --> 00:00:12,540
fairly short show just to talk about the

6
00:00:17,330 --> 00:00:14,460
latest news with the National Defense

7
00:00:21,050 --> 00:00:17,340
authorization act for fiscal year 2023

8
00:00:23,810 --> 00:00:21,060
we'll briefly touch upon the delayed UAP

9
00:00:26,450 --> 00:00:23,820
report so yeah Guys Without further Ado

10
00:00:28,730 --> 00:00:26,460
please welcome Christopher sharp how you

11
00:00:33,549 --> 00:00:28,740
doing Chris yeah not too bad thanks

12
00:00:36,770 --> 00:00:35,569
that's all good it's that time of year

13
00:00:38,930 --> 00:00:36,780

when we're all getting a little bit

14

00:00:41,389 --> 00:00:38,940

under the weather but we'll uh we'll

15

00:00:42,830 --> 00:00:41,399

carry on either way so listen thank you

16

00:00:44,510 --> 00:00:42,840

so much for joining me here I just

17

00:00:47,090 --> 00:00:44,520

wanted to sort of talk about the the

18

00:00:48,950 --> 00:00:47,100

latest as I say with the ndaa

19

00:00:51,170 --> 00:00:48,960

um I think it's best probably first to

20

00:00:52,610 --> 00:00:51,180

start back sort of after the

21

00:00:55,010 --> 00:00:52,620

Congressional hearings that we had

22

00:00:57,290 --> 00:00:55,020

because we started to hear some language

23

00:00:58,790 --> 00:00:57,300

coming out fairly quickly after that or

24

00:01:00,290 --> 00:00:58,800

in the summertime so are you able to

25

00:01:01,069 --> 00:01:00,300

just bring us up to speed on what that

26

00:01:04,250 --> 00:01:01,079

was

27

00:01:08,090 --> 00:01:04,260

yeah yeah excuse me of course so what

28

00:01:11,090 --> 00:01:08,100

happened was that after the um after the

29

00:01:13,429 --> 00:01:11,100

hearings it became clear that

30

00:01:15,109 --> 00:01:13,439

um briefings were happening behind the

31

00:01:16,609 --> 00:01:15,119

scenes

32

00:01:19,190 --> 00:01:16,619

um with

33

00:01:21,770 --> 00:01:19,200

in my opinion whistleblowers because

34

00:01:23,390 --> 00:01:21,780

what happened in summer was that the

35

00:01:26,350 --> 00:01:23,400

Senate released its intelligence

36

00:01:29,149 --> 00:01:26,360

authorization at the draft of it

37

00:01:32,090 --> 00:01:29,159

and that was the one that contained all

38

00:01:33,830 --> 00:01:32,100

the provisions for the uh the

39

00:01:37,429 --> 00:01:33,840

whistleblowers

40

00:01:38,990 --> 00:01:37,439

so it became abundantly clear as the

41

00:01:41,170 --> 00:01:39,000

source stated to me that that did not

42

00:01:44,510 --> 00:01:41,180

come from a vacuum there was information

43

00:01:47,330 --> 00:01:44,520

provided to the Senate intelligence

44

00:01:49,190 --> 00:01:47,340

committee so that's a language that came

45

00:01:52,130 --> 00:01:49,200

out and then after that you had an

46

00:01:54,410 --> 00:01:52,140

explanatory report and that explanatory

47

00:01:55,190 --> 00:01:54,420

report was basically stating that you

48

00:01:56,749 --> 00:01:55,200

know

49

00:01:58,069 --> 00:01:56,759

um there's been an exponential increase

50

00:02:04,270 --> 00:01:58,079

in

51
00:02:07,789 --> 00:02:04,280
transmedium objects and they also

52
00:02:10,070 --> 00:02:07,799
criticized the the Pentagon as well

53
00:02:13,210 --> 00:02:10,080
um and and that was nothing new really I

54
00:02:15,530 --> 00:02:13,220
think um case in point was the 2019

55
00:02:19,070 --> 00:02:15,540
instance in the Pacific

56
00:02:21,770 --> 00:02:19,080
in that you were told that these were

57
00:02:23,750 --> 00:02:21,780
unmanned aerial systems but there was no

58
00:02:25,550 --> 00:02:23,760
information coming at all and provided

59
00:02:28,729 --> 00:02:25,560
about the origin

60
00:02:30,589 --> 00:02:28,739
and the people who were kind of

61
00:02:32,089 --> 00:02:30,599
um controlling controlling these things

62
00:02:33,470 --> 00:02:32,099
he would have controlled us who were the

63
00:02:35,570 --> 00:02:33,480

origin

64

00:02:37,070 --> 00:02:35,580

um and that was something that I think

65

00:02:39,949 --> 00:02:37,080

Riri

66

00:02:41,509 --> 00:02:39,959

um got under got on got under their feet

67

00:02:43,670 --> 00:02:41,519

really and and they were they were not

68

00:02:45,949 --> 00:02:43,680

very very happy about it so yeah that

69

00:02:49,729 --> 00:02:45,959

that was really really important I think

70

00:02:51,530 --> 00:02:49,739

that um intelligence report was yeah

71

00:02:54,229 --> 00:02:51,540

absolutely and we started to hear

72

00:02:56,390 --> 00:02:54,239

Whispers as well in the last six months

73

00:02:58,250 --> 00:02:56,400

about Crash retrieval programs being

74

00:02:59,869 --> 00:02:58,260

talked about behind the scenes did you

75

00:03:01,850 --> 00:02:59,879

hear anything much about that from

76

00:03:03,110 --> 00:03:01,860

sources or or what what can you say

77

00:03:07,369 --> 00:03:03,120

about that

78

00:03:10,130 --> 00:03:07,379

yeah they they exist there's historic

79

00:03:13,369 --> 00:03:10,140

um programs and then there's programs

80

00:03:17,449 --> 00:03:13,379

that are currently active right now that

81

00:03:19,850 --> 00:03:17,459

is it's clearly for me becoming a fact

82

00:03:21,110 --> 00:03:19,860

and not speculation

83

00:03:26,750 --> 00:03:21,120

so

84

00:03:28,309 --> 00:03:26,760

clear in terms of what they're trying to

85

00:03:30,290 --> 00:03:28,319

get at in within the national feds

86

00:03:31,790 --> 00:03:30,300

authorization act because to make it

87

00:03:34,190 --> 00:03:31,800

clear that intelligence operation

88

00:03:35,570 --> 00:03:34,200

authorization has now been coupled with

89

00:03:36,830 --> 00:03:35,580

the national provincial organization act

90

00:03:39,170 --> 00:03:36,840

whereas last year there were two

91

00:03:40,670 --> 00:03:39,180

separate separate things

92

00:03:44,350 --> 00:03:40,680

um so yeah it makes it clear basically

93

00:03:46,430 --> 00:03:44,360

that um it compels

94

00:03:49,789 --> 00:03:46,440

reporting of

95

00:03:54,110 --> 00:03:49,799

any programs that have not explicitly

96

00:03:56,270 --> 00:03:54,120

been reported to the key Congressman

97

00:03:57,470 --> 00:03:56,280

like chairs on the key committees like

98

00:03:59,930 --> 00:03:57,480

the intelligence committees and the

99

00:04:02,930 --> 00:03:59,940

armed services committees so what it's

100

00:04:06,110 --> 00:04:02,940

basically stay stating is that

101
00:04:08,350 --> 00:04:06,120
if if you've got knowledge or if you've

102
00:04:11,270 --> 00:04:08,360
been working on these these programs

103
00:04:13,190 --> 00:04:11,280
then you can break your non-disclosure

104
00:04:16,069 --> 00:04:13,200
agreement

105
00:04:18,590 --> 00:04:16,079
um you know even if it's you can break

106
00:04:19,189 --> 00:04:18,600
an executive order as well

107
00:04:23,270 --> 00:04:19,199
um

108
00:04:25,490 --> 00:04:23,280
and and you know the atomic

109
00:04:27,530 --> 00:04:25,500
um energy Act and the secrecy kind of

110
00:04:30,050 --> 00:04:27,540
like binded by that

111
00:04:33,710 --> 00:04:30,060
um you can break those kind of things

112
00:04:36,050 --> 00:04:33,720
to report that knowledge to Arrow

113
00:04:38,270 --> 00:04:36,060

so that's something the legislation

114

00:04:41,090 --> 00:04:38,280

makes clear that you can now report that

115

00:04:43,450 --> 00:04:41,100

information and then once Arrow has

116

00:04:47,090 --> 00:04:43,460

validated that information

117

00:04:49,310 --> 00:04:47,100

then they report it to the Secretary of

118

00:04:51,409 --> 00:04:49,320

Defense that they're no longer reporting

119

00:04:53,510 --> 00:04:51,419

to Moltres office that's gone which is

120

00:04:55,850 --> 00:04:53,520

great news because it was full of Gary

121

00:04:59,390 --> 00:04:55,860

Reed allies so now they're going

122

00:05:00,890 --> 00:04:59,400

straight to the deputy and Secretary of

123

00:05:03,530 --> 00:05:00,900

Defenders and secretary of defense

124

00:05:05,570 --> 00:05:03,540

office and reporting to them so then

125

00:05:08,629 --> 00:05:05,580

what happens is the secretary of defense

126

00:05:10,909 --> 00:05:08,639

will then have 72 hours to report that

127

00:05:12,110 --> 00:05:10,919

information to the the relevant

128

00:05:14,689 --> 00:05:12,120

committees

129

00:05:16,790 --> 00:05:14,699

so this is really really big stuff this

130

00:05:19,010 --> 00:05:16,800

is really really kind of like firm firm

131

00:05:22,610 --> 00:05:19,020

language here and because it now falls

132

00:05:24,230 --> 00:05:22,620

on the Secretary of Defense Lloyd Austin

133

00:05:27,170 --> 00:05:24,240

you know there's there's more

134

00:05:28,850 --> 00:05:27,180

accountability to this now

135

00:05:30,590 --> 00:05:28,860

yeah one thing I think we heard when

136

00:05:32,629 --> 00:05:30,600

Arrow was first formed there was another

137

00:05:34,730 --> 00:05:32,639

group The Arrow exec which I think is

138

00:05:36,469 --> 00:05:34,740

some kind of oversight board

139

00:05:38,090 --> 00:05:36,479

um what can you say about that because I

140

00:05:39,710 --> 00:05:38,100

think Moultrie was even attached to that

141

00:05:42,350 --> 00:05:39,720

in some way

142

00:05:44,210 --> 00:05:42,360

yeah yeah that was something that was

143

00:05:47,990 --> 00:05:44,220

legislated

144

00:05:51,409 --> 00:05:48,000

um last year so that was when the dod

145

00:05:53,689 --> 00:05:51,419

and odni came out with arrow in what AI

146

00:05:57,050 --> 00:05:53,699

MSG as it was known then in the first

147

00:05:59,450 --> 00:05:57,060

place and um yeah they were really kind

148

00:06:03,050 --> 00:05:59,460

of like the controllers of this and

149

00:06:05,950 --> 00:06:03,060

um I think that the main guy like on in

150

00:06:08,450 --> 00:06:05,960

this group at the time was Gary Reed

151
00:06:12,110 --> 00:06:08,460
which is someone you don't want heading

152
00:06:13,909 --> 00:06:12,120
up this kind of like effort really and

153
00:06:15,950 --> 00:06:13,919
also it's

154
00:06:18,529 --> 00:06:15,960
I I think as well you have to make it

155
00:06:20,270 --> 00:06:18,539
better to be clear that at that time

156
00:06:23,570 --> 00:06:20,280
um there was no Kirkpatrick there was no

157
00:06:26,150 --> 00:06:23,580
director of The Office

158
00:06:28,550 --> 00:06:26,160
um so I mean I've got limited knowledge

159
00:06:31,790 --> 00:06:28,560
in terms of like the ins and outs and

160
00:06:33,830 --> 00:06:31,800
workings of that

161
00:06:36,650 --> 00:06:33,840
um but I I do know that I was hoping

162
00:06:38,150 --> 00:06:36,660
that Gary Reed was involved in he was

163
00:06:40,309 --> 00:06:38,160

the last person he wanted wanted

164

00:06:42,950 --> 00:06:40,319

involved but now a lot of the

165

00:06:44,090 --> 00:06:42,960

accountability falls on Kirkpatrick yeah

166

00:06:46,370 --> 00:06:44,100

and you mentioned him you know we know

167

00:06:48,469 --> 00:06:46,380

he's been heading the arrow group

168

00:06:51,409 --> 00:06:48,479

um but we also saw earlier in the year

169

00:06:53,570 --> 00:06:51,419

job vacancies coming up being advertised

170

00:06:55,309 --> 00:06:53,580

for positions within arrow and

171

00:06:57,290 --> 00:06:55,319

I think I read somewhere that they've

172

00:06:59,029 --> 00:06:57,300

now been filled but you know let's just

173

00:07:02,629 --> 00:06:59,039

touch upon you know obviously we would

174

00:07:04,550 --> 00:07:02,639

do the UAP report on October 31st and we

175

00:07:06,110 --> 00:07:04,560

were all hearing from various sources

176

00:07:08,330 --> 00:07:06,120

that it was due and it was coming and

177

00:07:10,490 --> 00:07:08,340

then it then it wasn't do you have any

178

00:07:12,230 --> 00:07:10,500

latest on that or is it now a case of

179

00:07:14,570 --> 00:07:12,240

just sitting and waiting for for when it

180

00:07:16,610 --> 00:07:14,580

just appears well firstly there was a

181

00:07:18,650 --> 00:07:16,620

briefings war on that so there was the

182

00:07:21,589 --> 00:07:18,660

Barnes article in New York Times people

183

00:07:24,170 --> 00:07:21,599

kind of like um stating that like these

184

00:07:26,749 --> 00:07:24,180

things these things are mostly Chinese

185

00:07:28,850 --> 00:07:26,759

drones and stuff but yeah I think that

186

00:07:31,969 --> 00:07:28,860

story I mean just talking to sources

187

00:07:34,430 --> 00:07:31,979

from both sides let's say I think that

188

00:07:35,510 --> 00:07:34,440

peed off everyone yeah you know if you

189

00:07:37,969 --> 00:07:35,520

don't want this information coming out

190

00:07:40,430 --> 00:07:37,979

it's PG off because Congress aren't

191

00:07:41,270 --> 00:07:40,440

happy now and I think it was I think in

192

00:07:43,430 --> 00:07:41,280

my opinion it was probably made

193

00:07:45,589 --> 00:07:43,440

abundantly clear that there's a variety

194

00:07:48,050 --> 00:07:45,599

of explanations possible explanations

195

00:07:49,909 --> 00:07:48,060

for UAP and they're not all Chinese

196

00:07:52,790 --> 00:07:49,919

Germans which I think this article kind

197

00:07:54,409 --> 00:07:52,800

of like failed to convey and um I think

198

00:07:57,409 --> 00:07:54,419

that really really a lot of people off

199

00:07:59,930 --> 00:07:57,419

and then obviously Congress has got paid

200

00:08:01,129 --> 00:07:59,940

off as well now because

201
00:08:04,249 --> 00:08:01,139
if you're on the other side and you want

202
00:08:06,589 --> 00:08:04,259
more transparency then that's not good

203
00:08:09,350 --> 00:08:06,599
news and then you had another report

204
00:08:11,510 --> 00:08:09,360
from Josh Boswell my co-writer from the

205
00:08:12,950 --> 00:08:11,520
daily mail and just someone from the

206
00:08:14,409 --> 00:08:12,960
intelligence Community was just stating

207
00:08:17,210 --> 00:08:14,419
to him that look

208
00:08:20,330 --> 00:08:17,220
these are not all Chinese drones these

209
00:08:22,670 --> 00:08:20,340
things are strange and you know they

210
00:08:24,950 --> 00:08:22,680
include like triangles

211
00:08:26,629 --> 00:08:24,960
um we've seen orbs

212
00:08:28,490 --> 00:08:26,639
um in the Middle East from Reaper drones

213
00:08:30,350 --> 00:08:28,500

they're like that was making abundantly

214

00:08:32,449 --> 00:08:30,360

clear that we're not seeing that so

215

00:08:34,250 --> 00:08:32,459

firstly let's establish it from that

216

00:08:36,529 --> 00:08:34,260

base that we know that there is some

217

00:08:39,649 --> 00:08:36,539

kind of a civil war

218

00:08:41,930 --> 00:08:39,659

um within the intelligence community and

219

00:08:45,470 --> 00:08:41,940

the dod regarding this

220

00:08:47,210 --> 00:08:45,480

so now we have a situation where we know

221

00:08:49,490 --> 00:08:47,220

that Congress

222

00:08:51,889 --> 00:08:49,500

is not happy

223

00:08:56,090 --> 00:08:51,899

um about this situation and there's a

224

00:08:59,150 --> 00:08:56,100

delay in the report now

225

00:09:01,610 --> 00:08:59,160

we we know from looking at the last UAP

226

00:09:04,310 --> 00:09:01,620

report that there's a lot of

227

00:09:07,310 --> 00:09:04,320

um consultation and coordination occurs

228

00:09:10,190 --> 00:09:07,320

into these reports so what happens is

229

00:09:12,410 --> 00:09:10,200

that our own in this instance provides

230

00:09:13,850 --> 00:09:12,420

like the data and allowance system what

231

00:09:16,610 --> 00:09:13,860

not to

232

00:09:17,389 --> 00:09:16,620

um the odni

233

00:09:21,290 --> 00:09:17,399

um

234

00:09:24,050 --> 00:09:21,300

and then it's their job to put together

235

00:09:26,990 --> 00:09:24,060

a report based on all this stuff being

236

00:09:28,970 --> 00:09:27,000

given by arrow and they need to

237

00:09:31,970 --> 00:09:28,980

coordinate as well with other agencies

238

00:09:35,449 --> 00:09:31,980

as well to check boxes basically

239

00:09:38,930 --> 00:09:35,459

um so that can conclude the um the CIA

240

00:09:41,870 --> 00:09:38,940

it could include the natural geospatial

241

00:09:44,030 --> 00:09:41,880

intelligence agency and all all sorts of

242

00:09:46,070 --> 00:09:44,040

things basically so there's a lot that

243

00:09:49,490 --> 00:09:46,080

goes on and also during this yes it is

244

00:09:52,130 --> 00:09:49,500

correct it is correct that Congress has

245

00:09:54,650 --> 00:09:52,140

not seeing this in terms it's not being

246

00:09:56,630 --> 00:09:54,660

delivered to compress yet so I want to

247

00:09:58,790 --> 00:09:56,640

make that abundantly clear but also

248

00:10:01,970 --> 00:09:58,800

there is something called the legisl

249

00:10:04,009 --> 00:10:01,980

there's like a legislative affairs kind

250

00:10:08,150 --> 00:10:04,019

of like arm to the odni which is

251

00:10:11,329 --> 00:10:08,160

basically it is it's um liaison office

252

00:10:13,009 --> 00:10:11,339

with um with Congress so there will be a

253

00:10:15,829 --> 00:10:13,019

con there will be constant back and

254

00:10:19,490 --> 00:10:15,839

forth during this process between

255

00:10:21,949 --> 00:10:19,500

um Congressional staffers and the odni

256

00:10:24,410 --> 00:10:21,959

regarding this report

257

00:10:27,949 --> 00:10:24,420

um and that's just to ensure basically

258

00:10:28,850 --> 00:10:27,959

that it's uh it's meeting the intent of

259

00:10:32,090 --> 00:10:28,860

Congress

260

00:10:34,130 --> 00:10:32,100

so there's all these things going on and

261

00:10:36,769 --> 00:10:34,140

I think you hear some some people say

262

00:10:38,870 --> 00:10:36,779

look it's really boring

263

00:10:40,130 --> 00:10:38,880

it's bureaucracy as normal yes that that

264

00:10:42,170 --> 00:10:40,140

is something and I know who they're

265

00:10:43,250 --> 00:10:42,180

having conversations with as well we all

266

00:10:44,509 --> 00:10:43,260

do

267

00:10:46,490 --> 00:10:44,519

um but

268

00:10:47,829 --> 00:10:46,500

you know I don't know what I don't know

269

00:10:50,449 --> 00:10:47,839

at the end of the day there may be

270

00:10:52,370 --> 00:10:50,459

knowing what I know and what others know

271

00:10:55,790 --> 00:10:52,380

about the background of this you can't

272

00:10:59,210 --> 00:10:55,800

say for sure what is causing

273

00:11:01,130 --> 00:10:59,220

to delay and it could be something like

274

00:11:03,050 --> 00:11:01,140

arrow is basically not essentially

275

00:11:04,910 --> 00:11:03,060

meeting the requirements of the intent

276

00:11:06,590 --> 00:11:04,920

spelled out in the last National Defense

277

00:11:08,090 --> 00:11:06,600

authorization I'd say it could be

278

00:11:10,430 --> 00:11:08,100

something after that we know that Aria's

279

00:11:12,410 --> 00:11:10,440

been very very poorly staffed but um

280

00:11:14,210 --> 00:11:12,420

look this is speculation on my behalf

281

00:11:17,210 --> 00:11:14,220

but I think that's what usually happens

282

00:11:18,829 --> 00:11:17,220

when you're um when there's a big vacuum

283

00:11:20,930 --> 00:11:18,839

and um

284

00:11:22,430 --> 00:11:20,940

the impression I'm getting it no one has

285

00:11:25,190 --> 00:11:22,440

an idea what's going on

286

00:11:27,769 --> 00:11:25,200

and I think that that's the only thing I

287

00:11:29,750 --> 00:11:27,779

have can be quite sure of but I did

288

00:11:32,269 --> 00:11:29,760

think it was going to come out in in

289

00:11:33,290 --> 00:11:32,279

December that came from very very good

290

00:11:36,470 --> 00:11:33,300

knowledge

291

00:11:38,269 --> 00:11:36,480

it wasn't

292

00:11:40,130 --> 00:11:38,279

um but obviously that failed as well and

293

00:11:43,069 --> 00:11:40,140

that's just kind of like really spelled

294

00:11:45,410 --> 00:11:43,079

out to me that no one knows what is

295

00:11:47,329 --> 00:11:45,420

going on yeah and that's the thing like

296

00:11:49,190 --> 00:11:47,339

you know it's all always good to have

297

00:11:51,889 --> 00:11:49,200

sources who may be sort of on the inside

298

00:11:53,630 --> 00:11:51,899

or know certain things but it does get

299

00:11:55,610 --> 00:11:53,640

to a point where nobody seems to know

300

00:11:57,769 --> 00:11:55,620

like like you just said I mean I had a

301
00:12:01,970 --> 00:11:57,779
conversation with someone the other day

302
00:12:03,110 --> 00:12:01,980
close to to Sean Kirkpatrick and I think

303
00:12:11,090 --> 00:12:03,120
the

304
00:12:13,190 --> 00:12:11,100
little

305
00:12:15,230 --> 00:12:13,200
bits of communication between different

306
00:12:17,449 --> 00:12:15,240
uh agencies in that to get this thing

307
00:12:19,130 --> 00:12:17,459
together so I think you know it we

308
00:12:21,410 --> 00:12:19,140
shouldn't be that surprised that it's

309
00:12:23,210 --> 00:12:21,420
delayed and you know we've heard a lot

310
00:12:24,710 --> 00:12:23,220
of conspiracies about people saying

311
00:12:26,569 --> 00:12:24,720
they're just trying to obfuscate the

312
00:12:28,850 --> 00:12:26,579
truth and maybe it is just the fact that

313
00:12:31,370 --> 00:12:28,860

it's just a lot of work that needs to be

314

00:12:33,170 --> 00:12:31,380

done and due to the lack of Staff as you

315

00:12:34,610 --> 00:12:33,180

say it could just be that

316

00:12:36,290 --> 00:12:34,620

you know if it's going to be done

317

00:12:38,930 --> 00:12:36,300

properly it's going to take a lot longer

318

00:12:40,250 --> 00:12:38,940

than than was a was given so the one

319

00:12:41,630 --> 00:12:40,260

thing I will ask is are there going to

320

00:12:43,550 --> 00:12:41,640

be any sort of ramifications or

321

00:12:48,949 --> 00:12:43,560

repercussions for it being delayed and

322

00:12:55,250 --> 00:12:52,970

no not not I can see currently I can see

323

00:12:57,350 --> 00:12:55,260

Congress being frustrated because yeah

324

00:12:59,810 --> 00:12:57,360

as a politician when people airing their

325

00:13:01,850 --> 00:12:59,820

frustrations about a delay then that's

326

00:13:05,290 --> 00:13:01,860

going to inevitably cause frustration

327

00:13:09,050 --> 00:13:05,300

with Congress as well but insofar as

328

00:13:12,350 --> 00:13:09,060

legislation I mean it's difficult

329

00:13:14,449 --> 00:13:12,360

stating that this one bit of legislation

330

00:13:16,370 --> 00:13:14,459

like you know Kirkpatrick having to

331

00:13:17,870 --> 00:13:16,380

report directly to the Secretary of

332

00:13:20,569 --> 00:13:17,880

Defense now it's difficult saying where

333

00:13:22,009 --> 00:13:20,579

that came from we all know that there's

334

00:13:24,290 --> 00:13:22,019

been lots of

335

00:13:27,650 --> 00:13:24,300

big issues with that former office that

336

00:13:29,030 --> 00:13:27,660

was based in a USD ins so we know that

337

00:13:30,769 --> 00:13:29,040

but it's difficult to say oh that was

338

00:13:32,210 --> 00:13:30,779

down to this reason it was down for that

339

00:13:32,990 --> 00:13:32,220

reason

340

00:13:35,269 --> 00:13:33,000

um

341

00:13:37,610 --> 00:13:35,279

but I also know as well that Kurt

342

00:13:39,829 --> 00:13:37,620

Patrick may have got his way on on some

343

00:13:42,710 --> 00:13:39,839

things as well in terms of the legis the

344

00:13:44,389 --> 00:13:42,720

finalized legislation so

345

00:13:45,910 --> 00:13:44,399

um I mean there's no clear sign right

346

00:13:49,430 --> 00:13:45,920

now I can see that there's any

347

00:13:52,129 --> 00:13:49,440

ramifications it looks like now we're in

348

00:13:54,590 --> 00:13:52,139

a situation where this new finalized

349

00:13:56,990 --> 00:13:54,600

language is kind of like really putting

350

00:13:59,329 --> 00:13:57,000

putting the pressure on Kirkpatrick and

351

00:14:01,730 --> 00:13:59,339

if he doesn't deliver so he's got to

352

00:14:02,870 --> 00:14:01,740

deliver like a report for instance which

353

00:14:04,569 --> 00:14:02,880

is going to be with the accounting

354

00:14:07,009 --> 00:14:04,579

office in previous

355

00:14:08,509 --> 00:14:07,019

legislation but now he's going to do it

356

00:14:12,290 --> 00:14:08,519

in terms of finding the information from

357

00:14:14,449 --> 00:14:12,300

19 1945 so I mean if he doesn't kind of

358

00:14:17,509 --> 00:14:14,459

like deliver on that I mean he can be

359

00:14:20,509 --> 00:14:17,519

squeezed and um yeah the onus is really

360

00:14:22,790 --> 00:14:20,519

on him now yeah absolutely now one thing

361

00:14:25,190 --> 00:14:22,800

I wanted to do is take a look at um well

362

00:14:27,110 --> 00:14:25,200

on Twitter if you people should be aware

363

00:14:29,389 --> 00:14:27,120

of Douglas Dean Johnson who regularly

364

00:14:31,430 --> 00:14:29,399

covers this kind of aspect of the the

365

00:14:32,930 --> 00:14:31,440

subject and he recently wrote an article

366

00:14:35,030 --> 00:14:32,940

which I wanted to share and just discuss

367

00:14:36,949 --> 00:14:35,040

couple of the points that that he

368

00:14:38,629 --> 00:14:36,959

mentioned so if I just bring that up on

369

00:14:43,310 --> 00:14:38,639

screen and we'll just talk through it a

370

00:14:45,110 --> 00:14:43,320

little bit uh here we go so it is a

371

00:14:47,750 --> 00:14:45,120

preliminary look at the UAP related

372

00:14:50,629 --> 00:14:47,760

provisions of the final proposed fiscal

373

00:14:54,650 --> 00:14:50,639

year 2023 National Defense authorization

374

00:14:56,629 --> 00:14:54,660

act H.R 7776

375

00:14:58,490 --> 00:14:56,639

um and if I just scroll down

376

00:15:01,310 --> 00:14:58,500

with me

377

00:15:04,189 --> 00:15:01,320

he says the house passed Bill contains

378

00:15:06,470 --> 00:15:04,199

two main UAP related Provisions found in

379

00:15:07,850 --> 00:15:06,480

three sections of the bill so the first

380

00:15:10,310 --> 00:15:07,860

one we wanted to talk about here was

381

00:15:12,710 --> 00:15:10,320

Bill section 1673 and I'll just read

382

00:15:14,870 --> 00:15:12,720

this this first paragraph It's a secure

383

00:15:18,410 --> 00:15:14,880

method for authorized reporting Safe

384

00:15:21,350 --> 00:15:18,420

Harbor or UAP whistleblower provisions

385

00:15:22,850 --> 00:15:21,360

so this section creates a secure method

386

00:15:25,850 --> 00:15:22,860

by which current or former government

387

00:15:28,189 --> 00:15:25,860

employees or contractors can submit UAP

388

00:15:30,949 --> 00:15:28,199

related information to the Pentagon UAP

389

00:15:32,810 --> 00:15:30,959

office and through the office reach also

390

00:15:34,910 --> 00:15:32,820

the Congressional armed services and

391

00:15:37,850 --> 00:15:34,920

intelligence committees so that's pretty

392

00:15:39,829 --> 00:15:37,860

big government employees former and

393

00:15:41,329 --> 00:15:39,839

contractors so does that sort of come

394

00:15:43,870 --> 00:15:41,339

into

395

00:15:46,850 --> 00:15:43,880

contractors with private organizations

396

00:15:52,610 --> 00:15:46,860

you know what does that say to you

397

00:15:58,009 --> 00:15:54,889

um yeah yeah I I think if you're

398

00:16:01,790 --> 00:15:58,019

listening to a lot of the the chatter

399

00:16:04,069 --> 00:16:01,800

about this thing it's been with

400

00:16:05,629 --> 00:16:04,079

these defense contractors like you're

401
00:16:08,389 --> 00:16:05,639
lockheeds and stuff for a very very long

402
00:16:10,490 --> 00:16:08,399
time they get given stats okay we're

403
00:16:11,990 --> 00:16:10,500
gonna give you this you try and work it

404
00:16:13,430 --> 00:16:12,000
out and it may be that we've got a

405
00:16:14,810 --> 00:16:13,440
situation at the moment where they're

406
00:16:18,530 --> 00:16:14,820
finding it very very difficult to

407
00:16:20,990 --> 00:16:18,540
reverse engineer this technology

408
00:16:23,810 --> 00:16:21,000
um but but yeah that tells me that's

409
00:16:27,889 --> 00:16:23,820
explicit now that um

410
00:16:29,329 --> 00:16:27,899
that there is involvement with um with

411
00:16:32,389 --> 00:16:29,339
government

412
00:16:34,910 --> 00:16:32,399
um contractors within that so

413
00:16:36,590 --> 00:16:34,920

yeah I think that that's very very

414

00:16:38,449 --> 00:16:36,600

important and I think it's something

415

00:16:40,370 --> 00:16:38,459

that people

416

00:16:43,129 --> 00:16:40,380

um people really really

417

00:16:44,629 --> 00:16:43,139

um need to keep an eye on I think in

418

00:16:45,949 --> 00:16:44,639

terms of yeah

419

00:16:47,930 --> 00:16:45,959

and the one thing I will say is that

420

00:16:49,610 --> 00:16:47,940

when we hear the word whistleblower and

421

00:16:51,230 --> 00:16:49,620

especially associated with the UFO

422

00:16:53,629 --> 00:16:51,240

subject is that a lot of people think

423

00:16:55,370 --> 00:16:53,639

that if someone Blows the Whistle it's

424

00:16:57,290 --> 00:16:55,380

going to become public knowledge what

425

00:16:59,090 --> 00:16:57,300

they were involved with whereas in this

426
00:17:01,850 --> 00:16:59,100
instant this is not

427
00:17:03,590 --> 00:17:01,860
going to be public this is giving them

428
00:17:06,409 --> 00:17:03,600
the option

429
00:17:08,329 --> 00:17:06,419
uh the aim to report behind the scenes

430
00:17:10,789 --> 00:17:08,339
behind closed doors enclosed briefings

431
00:17:13,010 --> 00:17:10,799
to the armed services and intelligence

432
00:17:15,110 --> 00:17:13,020
committees this is not suddenly going to

433
00:17:17,689 --> 00:17:15,120
blow the subject wide open publicly and

434
00:17:20,870 --> 00:17:17,699
I just wanted to sort of you know temper

435
00:17:24,770 --> 00:17:20,880
expectations with that

436
00:17:26,329 --> 00:17:24,780
yes I can see the next

437
00:17:29,510 --> 00:17:26,339
big movement

438
00:17:32,530 --> 00:17:29,520

in terms of advocacy let's say within

439

00:17:36,650 --> 00:17:32,540

the UFO Community is to actually

440

00:17:39,650 --> 00:17:36,660

is an effort to Galvanize people to

441

00:17:43,789 --> 00:17:39,660

pressurize Congress to make as much

442

00:17:45,770 --> 00:17:43,799

information public as possible I mean in

443

00:17:47,390 --> 00:17:45,780

terms of Congress this is all trying to

444

00:17:49,669 --> 00:17:47,400

be more transparent about the way this

445

00:17:52,549 --> 00:17:49,679

Topic's been treated because it's not

446

00:17:55,789 --> 00:17:52,559

only being hidden from us it's also been

447

00:17:59,029 --> 00:17:55,799

hidden from Congress as well yeah so

448

00:18:01,430 --> 00:17:59,039

I think there will have to be some give

449

00:18:03,110 --> 00:18:01,440

in terms of this in terms of kind of

450

00:18:05,870 --> 00:18:03,120

like letting some of that information go

451
00:18:07,190 --> 00:18:05,880
and go about declassifying it which may

452
00:18:09,169 --> 00:18:07,200
be down to getting the president

453
00:18:13,070 --> 00:18:09,179
involved for example

454
00:18:15,049 --> 00:18:13,080
but um but I think we we may we may see

455
00:18:17,210 --> 00:18:15,059
that and um I was thinking just the

456
00:18:18,710 --> 00:18:17,220
other day that you know a lot of people

457
00:18:20,510 --> 00:18:18,720
say it might not come out the way you

458
00:18:22,909 --> 00:18:20,520
think it will it may not be the

459
00:18:27,169 --> 00:18:22,919
president United States uh making a

460
00:18:29,150 --> 00:18:27,179
speech whatever but it could do I mean

461
00:18:31,130 --> 00:18:29,160
when you when you had the James Webb

462
00:18:33,470 --> 00:18:31,140
Telescope and its first images being

463
00:18:35,090 --> 00:18:33,480

browned you know you had a um you had a

464

00:18:36,950 --> 00:18:35,100

big event with the president showing off

465

00:18:39,710 --> 00:18:36,960

the [h__\h] and stuff like that so it's

466

00:18:41,570 --> 00:18:39,720

hard to imagine that any kind of talk

467

00:18:43,310 --> 00:18:41,580

about non-human intelligence may not

468

00:18:45,470 --> 00:18:43,320

involve the president getting involved

469

00:18:46,850 --> 00:18:45,480

or they're saying that Joe Biden does

470

00:18:48,590 --> 00:18:46,860

have a lot on his hands at the moment as

471

00:18:50,330 --> 00:18:48,600

well but it'd be interesting seeing

472

00:18:51,710 --> 00:18:50,340

whether that might play out but I think

473

00:18:52,850 --> 00:18:51,720

that this is the next big effort trying

474

00:18:56,029 --> 00:18:52,860

to get Congress to share the information

475

00:18:57,470 --> 00:18:56,039

with the public yeah absolutely now just

476

00:18:59,330 --> 00:18:57,480

going back to the article here one thing

477

00:19:01,130 --> 00:18:59,340

that under the new bill the office will

478

00:19:02,990 --> 00:19:01,140

retain its current name so we're not

479

00:19:05,330 --> 00:19:03,000

going to see another acronym coming in

480

00:19:07,669 --> 00:19:05,340

so Arrow the old domain anomalies

481

00:19:09,890 --> 00:19:07,679

resolution office will

482

00:19:12,169 --> 00:19:09,900

um remain which is which is good because

483

00:19:14,630 --> 00:19:12,179

it's a lot more palatable and it gets to

484

00:19:16,430 --> 00:19:14,640

keep its Twitter page

485

00:19:17,450 --> 00:19:16,440

there you go and let's hope they tweet a

486

00:19:20,150 --> 00:19:17,460

little bit more because they've been a

487

00:19:22,370 --> 00:19:20,160

bit quiet on that front so

488

00:19:24,110 --> 00:19:22,380

yeah moving down

489

00:19:26,270 --> 00:19:24,120

I don't want to go through it all but I

490

00:19:29,510 --> 00:19:26,280

think they were the key there was a few

491

00:19:31,610 --> 00:19:29,520

changes in the language but from the uh

492

00:19:33,590 --> 00:19:31,620

intelligence authorization act before it

493

00:19:35,750 --> 00:19:33,600

made its way into the ndaa and I think

494

00:19:37,430 --> 00:19:35,760

that's really what what covers here what

495

00:19:38,810 --> 00:19:37,440

I'll do as well for anybody watching or

496

00:19:41,510 --> 00:19:38,820

listening is in the description on

497

00:19:43,010 --> 00:19:41,520

YouTube I will pop a link to to Douglas

498

00:19:44,930 --> 00:19:43,020

Dean Johnson's article that we're

499

00:19:47,810 --> 00:19:44,940

looking through because in the article

500

00:19:50,750 --> 00:19:47,820

as well is a PDF a link to a PDF of the

501
00:19:54,470 --> 00:19:50,760
33 pages of Provisions that you can read

502
00:19:56,029 --> 00:19:54,480
all relating to the UAP subject

503
00:19:58,070 --> 00:19:56,039
um yeah I think like the main thing is

504
00:19:59,630 --> 00:19:58,080
that this legislation compels the dod

505
00:20:02,150 --> 00:19:59,640
intelligence Community to fully

506
00:20:03,650 --> 00:20:02,160
cooperate and support the activities of

507
00:20:05,930 --> 00:20:03,660
Arrow

508
00:20:06,470 --> 00:20:05,940
um you know which does include

509
00:20:09,110 --> 00:20:06,480
um

510
00:20:12,710 --> 00:20:09,120
providing let's say

511
00:20:13,549 --> 00:20:12,720
um you know people from other offices

512
00:20:19,970 --> 00:20:13,559
um

513
00:20:22,610 --> 00:20:19,980

U.S Navy for instance to be co-located

514

00:20:26,029 --> 00:20:22,620

within Arrow

515

00:20:28,250 --> 00:20:26,039

um and to share any non-to agreement any

516

00:20:31,010 --> 00:20:28,260

non-disclosure agreements as well

517

00:20:33,289 --> 00:20:31,020

related to UAP to provide scientific and

518

00:20:35,990 --> 00:20:33,299

technical support you know even capable

519

00:20:36,890 --> 00:20:36,000

capabilities to respond to to incidents

520

00:20:39,169 --> 00:20:36,900

because that's going to be one of the

521

00:20:41,870 --> 00:20:39,179

main things as well that you know you do

522

00:20:44,630 --> 00:20:41,880

incorporations of these other kind of um

523

00:20:47,390 --> 00:20:44,640

departments and offices once a new event

524

00:20:50,029 --> 00:20:47,400

emerges and yeah that'd be really

525

00:20:52,549 --> 00:20:50,039

important yeah absolutely I mean like

526

00:20:54,289 --> 00:20:52,559

we're reading this article and this is

527

00:20:55,610 --> 00:20:54,299

just you know the provisions that

528

00:20:56,990 --> 00:20:55,620

Douglas Dean Johnson thought were

529

00:20:58,970 --> 00:20:57,000

important but you know this like I said

530

00:21:00,590 --> 00:20:58,980

there's 33 pages of it so you know if

531

00:21:03,049 --> 00:21:00,600

someone really wants to sort of dig in

532

00:21:05,450 --> 00:21:03,059

themselves then then you know check out

533

00:21:06,890 --> 00:21:05,460

all of all of that PDF

534

00:21:09,169 --> 00:21:06,900

um but this part here the general

535

00:21:11,690 --> 00:21:09,179

revisions pertaining to the Pentagon UAP

536

00:21:13,909 --> 00:21:11,700

office arrow and its operations and

537

00:21:16,310 --> 00:21:13,919

arrow conducted historical called

538

00:21:19,010 --> 00:21:16,320

reports on government involvement in UAP

539

00:21:20,690 --> 00:21:19,020

so that's that's huge and just moving

540

00:21:22,669 --> 00:21:20,700

down here as well I just noticed that

541

00:21:24,770 --> 00:21:22,679

what you said it the new bill

542

00:21:27,590 --> 00:21:24,780

significantly elevates the status of the

543

00:21:29,210 --> 00:21:27,600

arrow program so like you said reporting

544

00:21:31,270 --> 00:21:29,220

directly to the deputy secretary of

545

00:21:33,409 --> 00:21:31,280

defense and the principal deputy

546

00:21:34,970 --> 00:21:33,419

director of National Intelligence

547

00:21:36,590 --> 00:21:34,980

correct

548

00:21:38,529 --> 00:21:36,600

yeah I mean this is this is really

549

00:21:41,510 --> 00:21:38,539

pushing the conversation forward

550

00:21:43,310 --> 00:21:41,520

compared to last year and I think that

551
00:21:46,789 --> 00:21:43,320
that in itself is something that we

552
00:21:49,190 --> 00:21:46,799
should look at in a positive light

553
00:21:52,490 --> 00:21:49,200
I think so as well I think it's clear

554
00:21:54,409 --> 00:21:52,500
now that the game's kind of up and I

555
00:22:01,250 --> 00:21:54,419
think

556
00:22:03,049 --> 00:22:01,260
information is kind of is coming out and

557
00:22:04,870 --> 00:22:03,059
I think that

558
00:22:09,710 --> 00:22:04,880
there's important conversations

559
00:22:11,270 --> 00:22:09,720
happening and yeah but I think I just

560
00:22:14,450 --> 00:22:11,280
want to say I think next year is going

561
00:22:16,190 --> 00:22:14,460
to be a really really big year and

562
00:22:17,649 --> 00:22:16,200
um it'll be a lot of exciting things

563
00:22:20,270 --> 00:22:17,659

happening

564

00:22:21,890 --> 00:22:20,280

so yeah

565

00:22:24,110 --> 00:22:21,900

it's gonna it's gonna be really exciting

566

00:22:26,149 --> 00:22:24,120

man and um yeah there will be some stuff

567

00:22:27,710 --> 00:22:26,159

that I'm going to put out as well about

568

00:22:29,029 --> 00:22:27,720

this

569

00:22:31,370 --> 00:22:29,039

um which you might be aware of already

570

00:22:35,570 --> 00:22:31,380

so it's gonna be it's gonna be great man

571

00:22:38,510 --> 00:22:35,580

it's yeah 1945 is very very important

572

00:22:41,510 --> 00:22:38,520

because that is the date of the alleged

573

00:22:43,190 --> 00:22:41,520

Trinity crash and that was at the

574

00:22:45,350 --> 00:22:43,200

Trinity kind of like

575

00:22:47,450 --> 00:22:45,360

um test sites where they were launching

576

00:22:49,549 --> 00:22:47,460

the atomic bombs we

577

00:22:51,470 --> 00:22:49,559

we know let's say that there is some

578

00:22:53,990 --> 00:22:51,480

kind of link between atomic bombs going

579

00:22:56,810 --> 00:22:54,000

off and the electro electromagnetic

580

00:22:58,490 --> 00:22:56,820

pulse and bringing down these things so

581

00:23:01,130 --> 00:22:58,500

I think I think that's that's really

582

00:23:02,390 --> 00:23:01,140

important and then yeah seven which is

583

00:23:05,029 --> 00:23:02,400

why that language was there before in

584

00:23:06,890 --> 00:23:05,039

1947 that's when you had all these

585

00:23:10,130 --> 00:23:06,900

um new agencies and offices created and

586

00:23:13,130 --> 00:23:10,140

stuff so it's easy to kind of get a um

587

00:23:15,590 --> 00:23:13,140

it's easy to kind of like get a paper

588

00:23:17,690 --> 00:23:15,600

trail go back to them

589

00:23:20,090 --> 00:23:17,700

yeah absolutely and I'll just read this

590

00:23:22,610 --> 00:23:20,100

about that pertains to the January 1st

591

00:23:25,430 --> 00:23:22,620

1945 date it says the report is to

592

00:23:27,409 --> 00:23:25,440

include a compilation an itemization of

593

00:23:28,669 --> 00:23:27,419

the key historical record of the

594

00:23:31,070 --> 00:23:28,679

involvement of the intelligence

595

00:23:33,529 --> 00:23:31,080

Community with unidentified anomalous

596

00:23:35,510 --> 00:23:33,539

phenomena including any program or

597

00:23:37,490 --> 00:23:35,520

activity that was protected by

598

00:23:39,169 --> 00:23:37,500

restricted access and has not been

599

00:23:40,190 --> 00:23:39,179

explicitly and clearly reported to

600

00:23:42,470 --> 00:23:40,200

Congress

601
00:23:44,570 --> 00:23:42,480
than successful or unsuccessful efforts

602
00:23:46,850 --> 00:23:44,580
to identify and track unidentified

603
00:23:48,649 --> 00:23:46,860
anomalous phenomena and finally any

604
00:23:51,470 --> 00:23:48,659
efforts to obfuscate and manipulate

605
00:23:53,450 --> 00:23:51,480
public opinion hide or otherwise provide

606
00:23:56,210 --> 00:23:53,460
incorrect unclassified or classified

607
00:23:58,549 --> 00:23:56,220
information about unidentified anomalous

608
00:24:00,409 --> 00:23:58,559
phenomena or related activities so

609
00:24:02,029 --> 00:24:00,419
that's huge and the one thing as well is

610
00:24:04,850 --> 00:24:02,039
that they've obviously changed the the

611
00:24:06,710 --> 00:24:04,860
the name from an identified aerial

612
00:24:08,390 --> 00:24:06,720
phenomena to the unidentified anomalous

613
00:24:10,190 --> 00:24:08,400

phenomena which I think is is fitting

614

00:24:13,130 --> 00:24:10,200

and works better

615

00:24:15,590 --> 00:24:13,140

Vinnie that is so important you that is

616

00:24:17,330 --> 00:24:15,600

so important what you just register yes

617

00:24:18,770 --> 00:24:17,340

firstly the name team is very very

618

00:24:20,630 --> 00:24:18,780

important because before you had a

619

00:24:22,310 --> 00:24:20,640

situation where

620

00:24:24,049 --> 00:24:22,320

um the airports are saying it's in space

621

00:24:25,730 --> 00:24:24,059

so we don't have to deal with it and the

622

00:24:27,049 --> 00:24:25,740

space of also saying oh it's in the air

623

00:24:28,789 --> 00:24:27,059

or it's in the oceans we don't have to

624

00:24:32,090 --> 00:24:28,799

deal with it so actually kind of like

625

00:24:34,430 --> 00:24:32,100

taking anything to do of that out of the

626
00:24:35,690 --> 00:24:34,440
equation and and there's definitions

627
00:24:37,250 --> 00:24:35,700
there anyway

628
00:24:38,870 --> 00:24:37,260
um inside

629
00:24:40,909 --> 00:24:38,880
um the language basically just states

630
00:24:43,070 --> 00:24:40,919
that we're dealing with trans medium

631
00:24:45,049 --> 00:24:43,080
stuff that can go through space air and

632
00:24:46,789 --> 00:24:45,059
water so it's staring away but it makes

633
00:24:48,110 --> 00:24:46,799
it very very difficult now the airports

634
00:24:50,690 --> 00:24:48,120
to turn around and give that excuse so

635
00:24:54,230 --> 00:24:50,700
that's really important firstly

636
00:24:56,510 --> 00:24:54,240
um and and the other thing I think that

637
00:24:59,450 --> 00:24:56,520
there was some some confusion before

638
00:25:02,029 --> 00:24:59,460

saying oh no so that means if I'm in a

639

00:25:03,950 --> 00:25:02,039

special Access program I can't come

640

00:25:05,450 --> 00:25:03,960

forward and blah blah blah and people

641

00:25:07,070 --> 00:25:05,460

interpret that language wrong but no no

642

00:25:09,110 --> 00:25:07,080

it's not like that it's like if you're

643

00:25:13,190 --> 00:25:09,120

on a special Access program that has not

644

00:25:15,409 --> 00:25:13,200

been clearly reported to Congress or

645

00:25:17,270 --> 00:25:15,419

come past my eyes Access program then

646

00:25:19,690 --> 00:25:17,280

that's when you can come out I mean it

647

00:25:23,090 --> 00:25:19,700

could even be something whereby

648

00:25:25,730 --> 00:25:23,100

that programs communicated with Congress

649

00:25:28,250 --> 00:25:25,740

before and say no no we're we're doing X

650

00:25:29,330 --> 00:25:28,260

Y and Z nothing to do uaps but they've

651

00:25:31,909 --> 00:25:29,340

not made it clear that they are doing

652

00:25:33,649 --> 00:25:31,919

something with UOB see that would then

653

00:25:35,570 --> 00:25:33,659

allow that person to come forward

654

00:25:37,190 --> 00:25:35,580

because it's clear that

655

00:25:39,649 --> 00:25:37,200

you know Congress didn't have knowledge

656

00:25:42,230 --> 00:25:39,659

about about that program so so that's

657

00:25:43,549 --> 00:25:42,240

really important and then in terms of

658

00:25:45,830 --> 00:25:43,559

um the language you're reading as well

659

00:25:47,990 --> 00:25:45,840

that you can't mislead the public and

660

00:25:51,769 --> 00:25:48,000

what not about the city that's really

661

00:25:53,750 --> 00:25:51,779

important so I mean I I think now you're

662

00:25:55,970 --> 00:25:53,760

going to see perhaps a different tone

663

00:25:57,950 --> 00:25:55,980

taken from public affairs office in the

664

00:26:00,230 --> 00:25:57,960

pentagon look when it comes down to

665

00:26:02,750 --> 00:26:00,240

season goth like she's always been

666

00:26:05,210 --> 00:26:02,760

really really good to me yeah because

667

00:26:07,970 --> 00:26:05,220

she's provided me with exclusive

668

00:26:11,450 --> 00:26:07,980

information uh that no one else has got

669

00:26:12,950 --> 00:26:11,460

so for instance Lou working

670

00:26:14,630 --> 00:26:12,960

um with space force that was really

671

00:26:18,289 --> 00:26:14,640

important and student have to do that

672

00:26:20,630 --> 00:26:18,299

and so but I mean if there are obesity

673

00:26:22,430 --> 00:26:20,640

allegations against Sue that we're aware

674

00:26:24,890 --> 00:26:22,440

of so

675

00:26:25,730 --> 00:26:24,900

it could be that you know

676

00:26:27,830 --> 00:26:25,740

um

677

00:26:28,549 --> 00:26:27,840

it could be that

678

00:26:31,010 --> 00:26:28,559

um

679

00:26:33,769 --> 00:26:31,020

that they may change their tune on some

680

00:26:35,870 --> 00:26:33,779

of these things it could be that

681

00:26:37,250 --> 00:26:35,880

um the report is what would be important

682

00:26:39,890 --> 00:26:37,260

to the report as well once that

683

00:26:41,570 --> 00:26:39,900

legislation comes through because once

684

00:26:44,570 --> 00:26:41,580

that legislation comes through let's say

685

00:26:46,669 --> 00:26:44,580

that let's say the

686

00:26:48,470 --> 00:26:46,679

um defense officials intelligence

687

00:26:50,390 --> 00:26:48,480

commission officials do have knowledge

688

00:26:52,490 --> 00:26:50,400

now that these programs exist and

689

00:26:53,990 --> 00:26:52,500

verified information which from my

690

00:26:56,269 --> 00:26:54,000

understanding is correct

691

00:26:58,730 --> 00:26:56,279

then to kind of like put out a report

692

00:27:00,169 --> 00:26:58,740

and then pretend to some extent you

693

00:27:02,090 --> 00:27:00,179

don't know what these are still and

694

00:27:04,310 --> 00:27:02,100

still using the Chinese and stuff like

695

00:27:07,430 --> 00:27:04,320

that pretending that I aren't

696

00:27:10,850 --> 00:27:07,440

truly like strange things flying in our

697

00:27:13,430 --> 00:27:10,860

skies our oceans over atmosphere then

698

00:27:16,789 --> 00:27:13,440

that would may you could potentially

699

00:27:19,190 --> 00:27:16,799

argue that is misleading the public so I

700

00:27:21,710 --> 00:27:19,200

think that's really promising as well in

701
00:27:23,750 --> 00:27:21,720
terms of transparency transparency

702
00:27:25,970 --> 00:27:23,760
because Congress people want to live up

703
00:27:27,169 --> 00:27:25,980
to that as well so any comments they

704
00:27:29,690 --> 00:27:27,179
make

705
00:27:31,250 --> 00:27:29,700
will they'll be they'll have to be

706
00:27:33,049 --> 00:27:31,260
really careful they can't a congressman

707
00:27:34,430 --> 00:27:33,059
can't just go oh these are all Chinese

708
00:27:36,049 --> 00:27:34,440
drones

709
00:27:38,029 --> 00:27:36,059
can't say that if it's not true because

710
00:27:40,549 --> 00:27:38,039
that would be misleading people so that

711
00:27:43,909 --> 00:27:40,559
is really really important for any new

712
00:27:45,890 --> 00:27:43,919
briefings reports comments made

713
00:27:48,470 --> 00:27:45,900

so that that

714

00:27:50,090 --> 00:27:48,480

yeah that's great excellent and and we

715

00:27:51,769 --> 00:27:50,100

like we said this has passed through the

716

00:27:53,450 --> 00:27:51,779

House of Representatives now so it's

717

00:27:54,649 --> 00:27:53,460

we're waiting for it to go into the

718

00:27:57,169 --> 00:27:54,659

Senate and then

719

00:27:58,669 --> 00:27:57,179

if it passes there then it's just signed

720

00:28:00,350 --> 00:27:58,679

into law by the president if I'm right

721

00:28:02,990 --> 00:28:00,360

and you know we saw that happen last

722

00:28:06,649 --> 00:28:03,000

year uh so do you think that's going to

723

00:28:11,630 --> 00:28:08,930

yes from my understanding there was some

724

00:28:14,810 --> 00:28:11,640

uncertainty in terms of

725

00:28:16,490 --> 00:28:14,820

um the house because you've got a new um

726

00:28:18,230 --> 00:28:16,500

a new leader of the house coming in he's

727

00:28:20,510 --> 00:28:18,240

a republican he would threatened to kind

728

00:28:22,310 --> 00:28:20,520

of like hold it up so that was something

729

00:28:24,890 --> 00:28:22,320

that was um

730

00:28:27,230 --> 00:28:24,900

it was a threat let's say but now you've

731

00:28:28,430 --> 00:28:27,240

got a situation where Congress which is

732

00:28:29,750 --> 00:28:28,440

kind of like doing the main champion in

733

00:28:31,730 --> 00:28:29,760

terms of the armed services and

734

00:28:33,110 --> 00:28:31,740

intelligence committees whoever passing

735

00:28:35,870 --> 00:28:33,120

this through so hopefully this will be a

736

00:28:38,090 --> 00:28:35,880

trans a smooth transition and then by

737

00:28:39,769 --> 00:28:38,100

the end so that should hopefully go

738

00:28:43,010 --> 00:28:39,779

through oh gosh in the next two days

739

00:28:44,750 --> 00:28:43,020

because Congress packs up in on the 15th

740

00:28:47,090 --> 00:28:44,760

so yeah hopefully it happens within the

741

00:28:48,649 --> 00:28:47,100

next two days or so and then by the end

742

00:28:52,190 --> 00:28:48,659

you know by the end of the year

743

00:28:53,450 --> 00:28:52,200

hopefully be signed by Biden and um I

744

00:28:56,330 --> 00:28:53,460

doubt he wants to be the first president

745

00:28:58,010 --> 00:28:56,340

for 60 odd years not to pass this

746

00:28:59,269 --> 00:28:58,020

legislation especially at a time when

747

00:29:01,730 --> 00:28:59,279

you've got you know

748

00:29:03,830 --> 00:29:01,740

um Global threats Rising so yeah I think

749

00:29:05,510 --> 00:29:03,840

that will go that'll go smoothly

750

00:29:08,210 --> 00:29:05,520

smoothly through and let's see what

751
00:29:10,370 --> 00:29:08,220
comes following that absolutely yes it'd

752
00:29:12,169 --> 00:29:10,380
be interesting to to see what comes I

753
00:29:14,149 --> 00:29:12,179
think one thing that I'd like to just

754
00:29:15,950 --> 00:29:14,159
touch upon briefly before we end is I

755
00:29:18,769 --> 00:29:15,960
mean I still hear a lot of people saying

756
00:29:20,990 --> 00:29:18,779
we want more hearings we want to hear

757
00:29:23,269 --> 00:29:21,000
from more people you know being

758
00:29:27,230 --> 00:29:23,279
subpoenaed to appear in front of

759
00:29:30,169 --> 00:29:27,240
Congress you know barbless under all the

760
00:29:33,350 --> 00:29:30,179
names that we know have worked uh you

761
00:29:35,330 --> 00:29:33,360
know for the government or in your UFO

762
00:29:36,769 --> 00:29:35,340
programs potentially you know do you

763
00:29:39,110 --> 00:29:36,779

think that's something that's likely to

764

00:29:40,909 --> 00:29:39,120

happen next year you know we had it once

765

00:29:41,990 --> 00:29:40,919

this year do you think we'll see more of

766

00:29:46,310 --> 00:29:42,000

it

767

00:29:47,810 --> 00:29:46,320

that following the signing of the

768

00:29:49,970 --> 00:29:47,820

National Defense authorization at the

769

00:29:51,769 --> 00:29:49,980

sources of stating that it's kind of

770

00:29:54,049 --> 00:29:51,779

likely that we might get

771

00:29:55,669 --> 00:29:54,059

um hearings immediately after public

772

00:29:56,990 --> 00:29:55,679

hearings as well

773

00:29:58,730 --> 00:29:57,000

um

774

00:30:01,430 --> 00:29:58,740

but but I think in terms of the

775

00:30:04,250 --> 00:30:01,440

conversations I'm having I mean the I

776

00:30:06,710 --> 00:30:04,260

feel the tone seems to have changed I

777

00:30:10,250 --> 00:30:06,720

think people is confident that

778

00:30:13,190 --> 00:30:10,260

that might happen that that may happen

779

00:30:15,649 --> 00:30:13,200

um so I'm unsure at this moment if that

780

00:30:17,450 --> 00:30:15,659

may happen I think it's a good idea I

781

00:30:19,310 --> 00:30:17,460

think it's a really really good idea I

782

00:30:22,870 --> 00:30:19,320

think in terms of a public relations

783

00:30:27,169 --> 00:30:22,880

exercise it would be very good because

784

00:30:28,610 --> 00:30:27,179

in my mind in my mind you can firstly

785

00:30:30,350 --> 00:30:28,620

establish in the public eye that we're

786

00:30:32,029 --> 00:30:30,360

not dealing with

787

00:30:34,010 --> 00:30:32,039

um drones and whatnot because that New

788

00:30:35,210 --> 00:30:34,020

York Times article really did Muddy the

789

00:30:36,769 --> 00:30:35,220

waters

790

00:30:38,029 --> 00:30:36,779

um so you established that verse so you

791

00:30:40,549 --> 00:30:38,039

bring out people like forever like

792

00:30:41,870 --> 00:30:40,559

Dietrich like um Kevin day perhaps or

793

00:30:43,610 --> 00:30:41,880

anyone like that basically just

794

00:30:44,810 --> 00:30:43,620

establish fact that we're not dealing

795

00:30:47,690 --> 00:30:44,820

with this stuff you know even Brian

796

00:30:49,730 --> 00:30:47,700

Gray's be fantastic so I think you would

797

00:30:51,710 --> 00:30:49,740

do that first and any new witnesses as

798

00:30:53,210 --> 00:30:51,720

well that would be able to appear but

799

00:30:54,649 --> 00:30:53,220

mostly you would do people that have

800

00:30:56,870 --> 00:30:54,659

been established there in the public eye

801
00:30:58,909 --> 00:30:56,880
anyway at least known to people like us

802
00:31:01,070 --> 00:30:58,919
but not particularly known by a

803
00:31:02,570 --> 00:31:01,080
mainstream more mainstream audience and

804
00:31:04,190 --> 00:31:02,580
I think it makes sense to do that in

805
00:31:05,810 --> 00:31:04,200
January

806
00:31:08,870 --> 00:31:05,820
um and you would hope that that would

807
00:31:11,630 --> 00:31:08,880
happen during a time where

808
00:31:13,630 --> 00:31:11,640
um you don't have a Amber Heard and

809
00:31:16,370 --> 00:31:13,640
Johnny Depp court case

810
00:31:17,990 --> 00:31:16,380
hogging in the headlines so you do that

811
00:31:20,630 --> 00:31:18,000
and then what you could do is you could

812
00:31:23,029 --> 00:31:20,640
then transition it to your elizondos and

813
00:31:26,210 --> 00:31:23,039

melons at that point in terms of public

814

00:31:28,430 --> 00:31:26,220

hearings and um then you would allow

815

00:31:30,889 --> 00:31:28,440

them to kind of like transition to this

816

00:31:33,470 --> 00:31:30,899

into like yeah weird stuff is being seen

817

00:31:34,789 --> 00:31:33,480

too look there's this stuff happening as

818

00:31:37,310 --> 00:31:34,799

well there's obfuscation behind the

819

00:31:39,110 --> 00:31:37,320

scenes there's an alleged

820

00:31:41,630 --> 00:31:39,120

um retrieval programs which I'm quite

821

00:31:43,970 --> 00:31:41,640

certain do exist so I mean you've got

822

00:31:47,210 --> 00:31:43,980

that happening so I mean I'm keeping my

823

00:31:48,590 --> 00:31:47,220

um I'm keeping my nice the crown in

824

00:31:50,389 --> 00:31:48,600

terms of this

825

00:31:53,630 --> 00:31:50,399

um and you know I was the first to

826

00:31:56,450 --> 00:31:53,640

report the the hearings back in May

827

00:31:57,830 --> 00:31:56,460

um so I'm hoping to kind of like um be

828

00:32:00,350 --> 00:31:57,840

correct on this as well but you know

829

00:32:02,990 --> 00:32:00,360

either way I I view this I I come from

830

00:32:05,149 --> 00:32:03,000

this at a place in terms of look there's

831

00:32:06,950 --> 00:32:05,159

a there's a major major Scandal

832

00:32:10,490 --> 00:32:06,960

happening like

833

00:32:12,830 --> 00:32:10,500

huge beyond all imagination in terms of

834

00:32:14,269 --> 00:32:12,840

this UAP stuff and the potential

835

00:32:17,450 --> 00:32:14,279

cover-ups so

836

00:32:19,370 --> 00:32:17,460

I approach the story as a scandal and

837

00:32:20,990 --> 00:32:19,380

what you usually do is you talk to the

838

00:32:22,310 --> 00:32:21,000

whistleblowers when it comes to this

839

00:32:24,169 --> 00:32:22,320

kind of stuff you know you talk to

840

00:32:26,930 --> 00:32:24,179

whistleblowers and

841

00:32:28,669 --> 00:32:26,940

I get the impression at the moment that

842

00:32:31,789 --> 00:32:28,679

um let's compare let's let's compare

843

00:32:34,190 --> 00:32:31,799

this to Watergate you know so

844

00:32:36,110 --> 00:32:34,200

um you got a situation where like if

845

00:32:37,909 --> 00:32:36,120

this is Watergate you've got the New

846

00:32:42,230 --> 00:32:37,919

York Times and defense journalists

847

00:32:45,169 --> 00:32:42,240

talking to um Nixon and his staff

848

00:32:46,970 --> 00:32:45,179

oh there's no cover-up cool we're going

849

00:32:48,950 --> 00:32:46,980

to report that to the uh we're gonna

850

00:32:51,590 --> 00:32:48,960

report that to the world now no cover-up

851
00:32:54,110 --> 00:32:51,600
Nixon says nothing going on here nothing

852
00:32:55,909 --> 00:32:54,120
to see no drama end of story you know

853
00:32:57,889 --> 00:32:55,919
that that that's

854
00:33:00,649 --> 00:32:57,899
that's exactly what it's like with

855
00:33:03,049 --> 00:33:00,659
what's going on with the these reporters

856
00:33:05,210 --> 00:33:03,059
and it's awful it really really is awful

857
00:33:07,970 --> 00:33:05,220
and um I think the other thing I don't

858
00:33:10,070 --> 00:33:07,980
like to criticize journalists but I mean

859
00:33:12,889 --> 00:33:10,080
even me being someone who views this as

860
00:33:15,470 --> 00:33:12,899
a scandal at least in my stories I also

861
00:33:17,450 --> 00:33:15,480
allow Susan Goff to have her say as well

862
00:33:19,789 --> 00:33:17,460
well the Pentagon to have their say

863
00:33:21,590 --> 00:33:19,799

so I can balance out and say look he

864

00:33:24,049 --> 00:33:21,600

said she said whatever you know I did

865

00:33:26,330 --> 00:33:24,059

that with the US Air Force

866

00:33:27,649 --> 00:33:26,340

um story that I recently did with you

867

00:33:29,330 --> 00:33:27,659

know people being threatened and stuff

868

00:33:31,789 --> 00:33:29,340

in the US Air Force which by the way did

869

00:33:33,169 --> 00:33:31,799

a complete like 360 and how they viewed

870

00:33:35,450 --> 00:33:33,179

this at first they were going to work

871

00:33:37,490 --> 00:33:35,460

for UAP task force for instance and then

872

00:33:39,889 --> 00:33:37,500

all of a sudden they just back down but

873

00:33:42,409 --> 00:33:39,899

that's really really how I see this you

874

00:33:44,389 --> 00:33:42,419

know the New York Times Reporter bans he

875

00:33:46,789 --> 00:33:44,399

could have gone to

876

00:33:48,889 --> 00:33:46,799

have gone to melon just to kind of like

877

00:33:50,570 --> 00:33:48,899

say look this is what's coming out from

878

00:33:51,950 --> 00:33:50,580

my sources

879

00:33:54,409 --> 00:33:51,960

um this is what's coming from the

880

00:33:56,870 --> 00:33:54,419

Pentagon in terms of got off what do you

881

00:33:59,029 --> 00:33:56,880

say like surely you know like Liberation

882

00:34:01,490 --> 00:33:59,039

time is not Holden there's like some

883

00:34:03,710 --> 00:34:01,500

international travel treasure you know

884

00:34:06,289 --> 00:34:03,720

but still I feel that I should you know

885

00:34:07,669 --> 00:34:06,299

for my readers provide two sites where

886

00:34:10,369 --> 00:34:07,679

possible it's not always possible I

887

00:34:12,230 --> 00:34:10,379

agree but given the resources and

888

00:34:13,730 --> 00:34:12,240

reputation of the New York Times the

889

00:34:17,030 --> 00:34:13,740

fact that it couldn't talk to two

890

00:34:19,490 --> 00:34:17,040

separate sources and also went against

891

00:34:22,609 --> 00:34:19,500

the same practice as well and providing

892

00:34:25,909 --> 00:34:22,619

Anonymous sources it really re-harkens

893

00:34:29,690 --> 00:34:25,919

that something is going on and look I'm

894

00:34:31,369 --> 00:34:29,700

I I really I realize that Anonymous

895

00:34:33,230 --> 00:34:31,379

sources are really important when

896

00:34:34,730 --> 00:34:33,240

reporting matters of like National

897

00:34:37,430 --> 00:34:34,740

Security and stuff you know that's

898

00:34:39,649 --> 00:34:37,440

really important but that makes it even

899

00:34:42,230 --> 00:34:39,659

more important than New York Times case

900

00:34:44,990 --> 00:34:42,240

to speak to someone from the other side

901
00:34:45,950 --> 00:34:45,000
to get another steer on us

902
00:34:48,349 --> 00:34:45,960
um apologies I'm really really

903
00:34:52,070 --> 00:34:48,359
passionate about this Vinnie um that's

904
00:34:53,450 --> 00:34:52,080
fine but yeah that's that is how I feel

905
00:34:56,570 --> 00:34:53,460
about the story

906
00:34:57,349 --> 00:34:56,580
um but yeah but what I can say is I

907
00:34:59,630 --> 00:34:57,359
think there's gonna be really really

908
00:35:02,510 --> 00:34:59,640
good stuff coming from both the email

909
00:35:04,670 --> 00:35:02,520
and Liberation times next year I think

910
00:35:07,609 --> 00:35:04,680
there's some great great stuff coming

911
00:35:09,950 --> 00:35:07,619
out and um the year's not even over yet

912
00:35:11,390 --> 00:35:09,960
so who knows what else we can see no

913
00:35:12,950 --> 00:35:11,400

absolutely and look forward to seeing

914

00:35:14,870 --> 00:35:12,960

what you come out with and I really

915

00:35:16,370 --> 00:35:14,880

appreciate you joining me today and we

916

00:35:18,770 --> 00:35:16,380

we could have sat and gone through all

917

00:35:20,569 --> 00:35:18,780

33 pages but I think we just sort of

918

00:35:22,430 --> 00:35:20,579

wanted to touch upon the key points and

919

00:35:24,829 --> 00:35:22,440

for anybody who does want to delve

920

00:35:26,630 --> 00:35:24,839

deeper like I said the link below

921

00:35:29,270 --> 00:35:26,640

um you can find Douglas Dean Johnson's

922

00:35:32,030 --> 00:35:29,280

article which links to the 33 pages of

923

00:35:34,370 --> 00:35:32,040

UAP Provisions so please by all means go

924

00:35:36,530 --> 00:35:34,380

and uh dig deep do your own research and

925
