

Dr. David Clarke

Longdendale Lights & Earth Lights

**DISCLOSURE
TEAM**

1
00:00:08,750 --> 00:00:06,430

[Music]

2
00:00:17,050 --> 00:00:08,760

one realizes very quickly we've been

3
00:00:17,060 --> 00:00:25,470

I had access to to all those programs

4
00:00:43,549 --> 00:00:39,250

[Music]

5
00:00:45,590 --> 00:00:43,559

40 feet long no windows no no real wings

6
00:00:47,810 --> 00:00:45,600

or control surfaces no obvious signs of

7
00:00:49,490 --> 00:00:47,820

propulsion and yet this object is

8
00:00:51,830 --> 00:00:49,500

witnessed Now by four separate

9
00:01:01,069 --> 00:00:51,840

individuals in two separate aircraft

10
00:01:04,070 --> 00:01:01,079

[Music]

11
00:01:06,830 --> 00:01:04,080

hey guys how's it going welcome back to

12
00:01:08,929 --> 00:01:06,840

the first show post Christmas I suppose

13
00:01:11,149 --> 00:01:08,939

I hope everyone's well and I hope you

14

00:01:12,050 --> 00:01:11,159

had a great holiday period so far I

15

00:01:14,630 --> 00:01:12,060

don't know if some of you are still

16

00:01:16,250 --> 00:01:14,640

enjoying your time off or not but yeah

17

00:01:17,870 --> 00:01:16,260

so we're here and we're here we're going

18

00:01:19,910 --> 00:01:17,880

to be talking about Earth lights tonight

19

00:01:21,710 --> 00:01:19,920

now this is something that uh is quite

20

00:01:24,230 --> 00:01:21,720

new to me um I've only been looking at

21

00:01:26,649 --> 00:01:24,240

it since my trip to Colombia at the

22

00:01:29,749 --> 00:01:26,659

start of 2022 so it's a whole different

23

00:01:31,310 --> 00:01:29,759

aspect of the phenomena that has taken

24

00:01:33,590 --> 00:01:31,320

up a lot of time for me and it's been

25

00:01:35,749 --> 00:01:33,600

really fascinating I'm currently reading

26

00:01:39,469 --> 00:01:35,759

this book here earthlight's Revelation

27

00:01:41,749 --> 00:01:39,479

by Paul Devereaux with David Clark as

28

00:01:43,310 --> 00:01:41,759

part of it as well so we can discuss

29

00:01:45,710 --> 00:01:43,320

parts of that but we're going to be

30

00:01:48,530 --> 00:01:45,720

looking at various cases but primarily

31

00:01:51,050 --> 00:01:48,540

focusing on one case the londondale

32

00:01:52,609 --> 00:01:51,060

lights which is uh an area not too far

33

00:01:54,950 --> 00:01:52,619

from where I live here in Sheffield it's

34

00:01:56,590 --> 00:01:54,960

between Sheffield and Manchester

35

00:01:59,630 --> 00:01:56,600

um but we'll get into that but before

36

00:02:02,210 --> 00:01:59,640

that I'll just say please as always in

37

00:02:04,190 --> 00:02:02,220

the chat keep it polite calm cool

38

00:02:05,569 --> 00:02:04,200

collected all that good stuff

39

00:02:07,130 --> 00:02:05,579

um and let's not waste any more time

40

00:02:09,410 --> 00:02:07,140

guys thank you for all for being here

41

00:02:11,089 --> 00:02:09,420

and now I'd like to welcome

42

00:02:13,850 --> 00:02:11,099

again

43

00:02:16,250 --> 00:02:13,860

Dr David Clark Dave how are you fine

44

00:02:18,110 --> 00:02:16,260

yeah Merry Christmas yeah Merry

45

00:02:19,910 --> 00:02:18,120

Christmas are we still in Christmas or

46

00:02:22,490 --> 00:02:19,920

midwinter Solstice whatever you want to

47

00:02:26,650 --> 00:02:22,500

call it well yeah don't tell anyone but

48

00:02:33,710 --> 00:02:30,890

it's just hassle yeah on the 12th night

49

00:02:36,890 --> 00:02:33,720

Vinnie no I know but look if you take it

50

00:02:38,770 --> 00:02:36,900

down too early well maybe no presents

51

00:02:41,150 --> 00:02:38,780

for me next year then

52

00:02:43,729 --> 00:02:41,160

but listen thank you so much as always

53

00:02:45,170 --> 00:02:43,739

for being here I really do appreciate it

54

00:02:48,229 --> 00:02:45,180

um you always give a good insight into

55

00:02:49,970 --> 00:02:48,239

the conversations that we have so I

56

00:02:51,170 --> 00:02:49,980

think before I asked my first question I

57

00:02:53,570 --> 00:02:51,180

just you know I've been looking into

58

00:02:55,250 --> 00:02:53,580

Earth lights and Associated phenomena

59

00:02:57,650 --> 00:02:55,260

for getting on for a year now and

60

00:02:59,570 --> 00:02:57,660

there's a lot out there to look at

61

00:03:00,890 --> 00:02:59,580

um but Paul devere the book that I just

62

00:03:02,449 --> 00:03:00,900

showed you know he's obviously been at

63

00:03:04,550 --> 00:03:02,459

the Forefront of this for a long time

64

00:03:07,369 --> 00:03:04,560

and I just want to read a little quote

65

00:03:09,830 --> 00:03:07,379

that I I found that of his that kind of

66

00:03:12,710 --> 00:03:09,840

doesn't cover it all but it resonated a

67

00:03:14,630 --> 00:03:12,720

bit with me so it says what are Earth

68

00:03:16,970 --> 00:03:14,640

lights well they certainly have

69

00:03:19,490 --> 00:03:16,980

electrical and magnetic attributes and

70

00:03:21,290 --> 00:03:19,500

some form of plasma is assumed modern

71

00:03:23,589 --> 00:03:21,300

Witnesses who come close to Earth lights

72

00:03:25,850 --> 00:03:23,599

typically report hallucinatory episodes

73

00:03:27,710 --> 00:03:25,860

suggesting magnetic fields that are

74

00:03:29,869 --> 00:03:27,720

known to be able to affect parts of the

75

00:03:31,190 --> 00:03:29,879

brain one thing that has struck me in

76

00:03:33,350 --> 00:03:31,200

pouring over witness reports from

77

00:03:35,089 --> 00:03:33,360

different periods of time and parts of

78

00:03:36,710 --> 00:03:35,099

the world is the similarity of

79

00:03:38,869 --> 00:03:36,720

descriptions stating that Earth lights

80

00:03:40,610 --> 00:03:38,879

sometimes behave as if they have a

81

00:03:43,670 --> 00:03:40,620

rudimentary intelligence like

82

00:03:44,930 --> 00:03:43,680

inquisitive animals intriguingly it was

83

00:03:46,970 --> 00:03:44,940

fairly recently announced that

84

00:03:49,130 --> 00:03:46,980

scientists in Romania had created

85

00:03:51,770 --> 00:03:49,140

laboratory plasmas that they observed

86

00:03:54,050 --> 00:03:51,780

behaving exactly like living cells and

87

00:03:55,729 --> 00:03:54,060

long before them the late David Bohm who

88

00:03:58,250 --> 00:03:55,739

was recognized as laying the foundations

89

00:04:00,410 --> 00:03:58,260

of plasma physics observed that once

90

00:04:02,509 --> 00:04:00,420

electrons were in a plasma they stopped

91

00:04:04,070 --> 00:04:02,519

behaving like individuals and started

92

00:04:06,589 --> 00:04:04,080

behaving as if they were part of a

93

00:04:08,089 --> 00:04:06,599

larger and interconnected whole He

94

00:04:09,949 --> 00:04:08,099

remarked that he frequently had the

95

00:04:11,809 --> 00:04:09,959

impression that the Sea of electrons was

96

00:04:13,490 --> 00:04:11,819

in some sense alive

97

00:04:15,410 --> 00:04:13,500

and that's Paul devrel and like I said

98

00:04:17,750 --> 00:04:15,420

he's done so much work on it and

99

00:04:19,370 --> 00:04:17,760

obviously you've been I mean met him

100

00:04:21,530 --> 00:04:19,380

worked with him all these things so

101

00:04:23,510 --> 00:04:21,540

let's take it right back to when this

102

00:04:27,290 --> 00:04:23,520

sort of area of the phenomena first came

103

00:04:29,870 --> 00:04:27,300

onto your radar and yeah go from there

104

00:04:31,730 --> 00:04:29,880

thank you yeah I don't know this is

105

00:04:34,010 --> 00:04:31,740

really this is like doing an archeology

106

00:04:35,650 --> 00:04:34,020

of how I got interested in the subject

107

00:04:37,730 --> 00:04:35,660

because

108

00:04:40,610 --> 00:04:37,740

it was from a number of different things

109

00:04:43,189 --> 00:04:40,620

I mean I read um Charles fort's books

110

00:04:45,890 --> 00:04:43,199

for start starters and that must have

111

00:04:48,170 --> 00:04:45,900

been early 1980s when I started

112

00:04:51,110 --> 00:04:48,180

subscribing to 14 Times magazine which

113

00:04:54,650 --> 00:04:51,120

is as you know still running today under

114

00:04:57,469 --> 00:04:54,660

Dave Sutton's editorship and um Charles

115

00:04:59,950 --> 00:04:57,479

fought in I think it's low his second

116

00:05:04,370 --> 00:04:59,960

book which was published in

117

00:05:07,730 --> 00:05:04,380

1910 or 1920 as far back as that he he

118

00:05:10,070 --> 00:05:07,740

was someone who spent months and months

119

00:05:11,990 --> 00:05:10,080

years of his of his time combing through

120

00:05:15,050 --> 00:05:12,000

old newspapers and magazines and he'd

121

00:05:18,170 --> 00:05:15,060

found a whole um collection of stories

122

00:05:20,450 --> 00:05:18,180

about mysterious lights that haunted

123

00:05:23,629 --> 00:05:20,460

certain locations that appeared over and

124

00:05:25,550 --> 00:05:23,639

over again and in some cases

125

00:05:28,129 --> 00:05:25,560

um took their names from these

126

00:05:30,050 --> 00:05:28,139

mysterious whites you know like um

127

00:05:31,969 --> 00:05:30,060

there's numerous examples we can mention

128

00:05:34,850 --> 00:05:31,979

around the world like the Martha lights

129

00:05:37,490 --> 00:05:34,860

the hair style and lights and Charles

130

00:05:39,830 --> 00:05:37,500

Fort mentioned several of these in in

131

00:05:41,689 --> 00:05:39,840

Britain one of one of which is from your

132

00:05:44,510 --> 00:05:41,699

neck of the woods Vinnie that down at um

133

00:05:48,170 --> 00:05:44,520

in Warwickshire the Burton classic ghost

134

00:05:50,150 --> 00:05:48,180

yeah if you Google that someone wrote a

135

00:05:52,730 --> 00:05:50,160

small book about it recently but that

136

00:05:56,810 --> 00:05:52,740

was an outbreak of Lights in this area

137

00:06:00,650 --> 00:05:56,820

in the Cotswolds in the 1920s and it was

138

00:06:02,930 --> 00:06:00,660

basically a what today we would call UAP

139

00:06:05,629 --> 00:06:02,940

um a light that rose out of the ground

140

00:06:08,450 --> 00:06:05,639

and sort of traveled around this sort of

141

00:06:10,850 --> 00:06:08,460

isolated Village and it was seen sending

142

00:06:13,969 --> 00:06:10,860

beams of light to the ground people went

143

00:06:16,370 --> 00:06:13,979

out at night sort of looking for it and

144

00:06:19,550 --> 00:06:16,380

it got into the national newspapers and

145

00:06:21,129 --> 00:06:19,560

reporters traveled to this uh tiny

146

00:06:23,930 --> 00:06:21,139

little hammer in the middle of nowhere

147

00:06:26,270 --> 00:06:23,940

and and quite a few of them saw this

148

00:06:28,010 --> 00:06:26,280

light and couldn't explain it I mean it

149

00:06:29,450 --> 00:06:28,020

wasn't a structured crafter and it was

150

00:06:31,670 --> 00:06:29,460

some something that seemed to sort of

151

00:06:33,890 --> 00:06:31,680

rise up out of the ground split into

152

00:06:35,930 --> 00:06:33,900

smaller lights they've moved around and

153

00:06:37,550 --> 00:06:35,940

sent beams to the ground and then

154

00:06:40,010 --> 00:06:37,560

vanished in a Flash

155

00:06:41,270 --> 00:06:40,020

and you can see why people who perhaps

156

00:06:43,249 --> 00:06:41,280

saw these things thought they were

157

00:06:46,490 --> 00:06:43,259

seeing a ghost or an apparition or

158

00:06:49,189 --> 00:06:46,500

something of that kind and I got

159

00:06:52,010 --> 00:06:49,199

interested in in the subject at the time

160

00:06:53,629 --> 00:06:52,020

I was a I was I was doing a I was a

161

00:06:55,070 --> 00:06:53,639

student at Sheffield University I was

162

00:06:57,110 --> 00:06:55,080

doing archeology

163

00:06:59,270 --> 00:06:57,120

and I was interested in the connection

164

00:07:02,930 --> 00:06:59,280

of these lights with ancient Landscapes

165

00:07:05,330 --> 00:07:02,940

with stone circles and sacred places

166

00:07:06,650 --> 00:07:05,340

um and the more I looked at these

167

00:07:09,469 --> 00:07:06,660

stories the more I looked into the

168

00:07:12,590 --> 00:07:09,479

folklore of mysterious lights and I I

169

00:07:15,590 --> 00:07:12,600

mean anyone doing a bit of research can

170

00:07:16,309 --> 00:07:15,600

find there are numerous examples

171

00:07:18,909 --> 00:07:16,319

um

172

00:07:21,230 --> 00:07:18,919

they were known as Willa the Wisp or

173

00:07:23,210 --> 00:07:21,240

jack-o-lantern and virtually every area

174

00:07:25,070 --> 00:07:23,220

of the British Isles has got stories

175

00:07:26,689 --> 00:07:25,080

about them and often

176

00:07:29,330 --> 00:07:26,699

um these lights are seen around certain

177

00:07:34,189 --> 00:07:29,340

places and they are seen year after year

178

00:07:37,490 --> 00:07:34,199

after year so and and way before all the

179

00:07:40,510 --> 00:07:37,500

things that cause UFO sightings nowadays

180

00:07:42,589 --> 00:07:40,520

or ifus you know airplanes and

181

00:07:44,330 --> 00:07:42,599

meteorological balloons people were

182

00:07:46,189 --> 00:07:44,340

seeing lights

183

00:07:48,770 --> 00:07:46,199

well before there were planes well

184

00:07:49,969 --> 00:07:48,780

before there were helicopters so what

185

00:07:53,450 --> 00:07:49,979

was it that they were seeing and then

186

00:07:55,189 --> 00:07:53,460

the traditional explanation was in when

187

00:07:57,110 --> 00:07:55,199

we got to the age of Science and the

188

00:07:58,249 --> 00:07:57,120

enlightenment was that these weren't

189

00:08:01,610 --> 00:07:58,259

spirits

190

00:08:04,490 --> 00:08:01,620

they were um natural phenomena things

191

00:08:07,249 --> 00:08:04,500

caused by Marsh gas for instance that

192

00:08:09,290 --> 00:08:07,259

was the classic example that marshy

193

00:08:10,550 --> 00:08:09,300

areas you got sort of methane bubbling

194

00:08:13,070 --> 00:08:10,560

up

195

00:08:14,450 --> 00:08:13,080

um getting some kind of ignition was

196

00:08:16,070 --> 00:08:14,460

going on and that's what we're creating

197

00:08:18,589 --> 00:08:16,080

these mysterious lights moving around

198

00:08:21,710 --> 00:08:18,599

and it's some really bizarre

199

00:08:23,210 --> 00:08:21,720

explanations including there was one um

200

00:08:25,490 --> 00:08:23,220

explanation

201
00:08:27,890 --> 00:08:25,500
um that it was barn owls that had got

202
00:08:29,950 --> 00:08:27,900
infected with like a luminous fungus

203
00:08:32,329 --> 00:08:29,960
when they were sort of nesting in trees

204
00:08:34,010 --> 00:08:32,339
and people were actually seeing these

205
00:08:36,529 --> 00:08:34,020
mysterious moving lives of what they

206
00:08:40,550 --> 00:08:36,539
were were these luminous owls that was

207
00:08:41,630 --> 00:08:40,560
the most bizarre but they shook but you

208
00:08:43,310 --> 00:08:41,640
know they're similar to the sort of

209
00:08:46,730 --> 00:08:43,320
bizarre explanations that people come up

210
00:08:48,829 --> 00:08:46,740
with for UF UAP sightings today yeah

211
00:08:50,030 --> 00:08:48,839
so that so I just got immersed in all

212
00:08:52,910 --> 00:08:50,040
this stuff and I published a little

213
00:08:55,550 --> 00:08:52,920

booklet when I was a student in the

214

00:08:57,829 --> 00:08:55,560

mid-1980s and that's how I came to meet

215

00:09:01,490 --> 00:08:57,839

Paul Devereux I think he he came across

216

00:09:03,170 --> 00:09:01,500

the research that I'd um published and

217

00:09:04,970 --> 00:09:03,180

he at the time was involved in this

218

00:09:07,610 --> 00:09:04,980

thing called the dragon project which I

219

00:09:09,949 --> 00:09:07,620

think is still ongoing where teams of

220

00:09:11,930 --> 00:09:09,959

people were going to ancient stone

221

00:09:13,910 --> 00:09:11,940

circles I mean the roll right stones in

222

00:09:15,470 --> 00:09:13,920

Oxfordshire is the the one yeah where

223

00:09:19,370 --> 00:09:15,480

they were based and they'd found all

224

00:09:21,949 --> 00:09:19,380

these weird magnetic anomalies so Paul

225

00:09:23,350 --> 00:09:21,959

at that time was working on this Theory

226

00:09:26,150 --> 00:09:23,360

Earth lights

227

00:09:28,310 --> 00:09:26,160

he called the birthlights but it was it

228

00:09:30,949 --> 00:09:28,320

was something that he picked up from

229

00:09:32,449 --> 00:09:30,959

Reading um stories

230

00:09:34,190 --> 00:09:32,459

um about research that had been done by

231

00:09:37,310 --> 00:09:34,200

geologists into what was known as the

232

00:09:39,530 --> 00:09:37,320

piezoelectric effect and this was

233

00:09:41,930 --> 00:09:39,540

um people may have seen some of these

234

00:09:43,730 --> 00:09:41,940

some of the footage where um in in

235

00:09:46,730 --> 00:09:43,740

Laboratories where they've crushed

236

00:09:48,949 --> 00:09:46,740

quartz bearing rock and all these lights

237

00:09:52,130 --> 00:09:48,959

are seen zooming around in the

238

00:09:53,690 --> 00:09:52,140

laboratory now if that is happening

239

00:09:56,570 --> 00:09:53,700

um in the landscape where you've got

240

00:09:58,550 --> 00:09:56,580

massive um Earth movements you've got um

241

00:10:00,710 --> 00:09:58,560

faults in the Earth's crust you've got

242

00:10:03,050 --> 00:10:00,720

many earthquakes going on so the thing

243

00:10:05,750 --> 00:10:03,060

the idea is is that this is what is

244

00:10:08,030 --> 00:10:05,760

creating some of these mysterious lights

245

00:10:09,769 --> 00:10:08,040

yeah and Paul you know he does present

246

00:10:12,050 --> 00:10:09,779

all of these different theories still in

247

00:10:13,850 --> 00:10:12,060

his books and his work and it just does

248

00:10:16,430 --> 00:10:13,860

seem to be that across all these more

249

00:10:18,470 --> 00:10:16,440

known cases like Hess darling and and

250

00:10:19,430 --> 00:10:18,480

things that they still haven't sort of

251
00:10:21,889 --> 00:10:19,440
formed

252
00:10:24,050 --> 00:10:21,899
a hundred percent conclusions on what

253
00:10:26,210 --> 00:10:24,060
these things are and I think I find that

254
00:10:28,009 --> 00:10:26,220
really fascinating that it's been

255
00:10:30,290 --> 00:10:28,019
actually been studied by scientists but

256
00:10:31,730 --> 00:10:30,300
still little is known about it and you

257
00:10:34,370 --> 00:10:31,740
did mention there before we move on

258
00:10:36,769 --> 00:10:34,380
sorry I wanted to show this is that Paul

259
00:10:38,750 --> 00:10:36,779
did write a really good article I came

260
00:10:41,630 --> 00:10:38,760
across about strange lights and sacred

261
00:10:43,790 --> 00:10:41,640
sites which if I just share my screen

262
00:10:46,730 --> 00:10:43,800
people can just see the

263
00:10:49,610 --> 00:10:46,740

so if you read through this this is it's

264

00:10:51,110 --> 00:10:49,620

a really really detailed article and it

265

00:10:52,670 --> 00:10:51,120

goes into a lot of depth I've linked it

266

00:10:53,930 --> 00:10:52,680

in the description of the YouTube video

267

00:10:56,449 --> 00:10:53,940

below but

268

00:10:57,110 --> 00:10:56,459

yeah Paul's work it's just incredible

269

00:10:58,670 --> 00:10:57,120

um

270

00:11:00,470 --> 00:10:58,680

and yeah you helped him out over the

271

00:11:02,030 --> 00:11:00,480

over the years as well so and I think

272

00:11:05,269 --> 00:11:02,040

that was more and more local to this

273

00:11:07,850 --> 00:11:05,279

area okay yeah yeah and Earthwise

274

00:11:09,769 --> 00:11:07,860

Revelation which is he did a book

275

00:11:13,430 --> 00:11:09,779

um called just Earth lights I think that

276

00:11:14,810 --> 00:11:13,440

was published early in 1980s and again I

277

00:11:16,069 --> 00:11:14,820

must have read that when it was

278

00:11:18,110 --> 00:11:16,079

published and that would have been about

279

00:11:20,030 --> 00:11:18,120

1982-83

280

00:11:22,130 --> 00:11:20,040

so I could all these different things

281

00:11:24,889 --> 00:11:22,140

were coming together in my mind and then

282

00:11:27,230 --> 00:11:24,899

um I was involved in this um

283

00:11:28,850 --> 00:11:27,240

um a group in West Yorkshire UFO group

284

00:11:30,650 --> 00:11:28,860

but we got more and more interested in

285

00:11:32,990 --> 00:11:30,660

collecting these stories about these

286

00:11:35,389 --> 00:11:33,000

Earth lights and we did a what was known

287

00:11:37,190 --> 00:11:35,399

as project penine where we did lots of

288

00:11:39,889 --> 00:11:37,200

archive research we went we looked in

289

00:11:41,990 --> 00:11:39,899

all the sort of local archives for for

290

00:11:44,150 --> 00:11:42,000

these kinds of stories collected a lot

291

00:11:45,650 --> 00:11:44,160

of stuff together did lots of interviews

292

00:11:49,130 --> 00:11:45,660

with people this is how I came across

293

00:11:51,290 --> 00:11:49,140

the londondale lights and then Paul

294

00:11:53,210 --> 00:11:51,300

um used all the material that we

295

00:11:55,430 --> 00:11:53,220

gathered and there's a whole chapter in

296

00:11:57,410 --> 00:11:55,440

Earthwise Revelation on Project Penang

297

00:11:59,210 --> 00:11:57,420

where we look at all the different areas

298

00:12:01,790 --> 00:11:59,220

of the north of England where there are

299

00:12:04,009 --> 00:12:01,800

these long Traditions

300

00:12:06,170 --> 00:12:04,019

um of these mysterious lights that go

301

00:12:07,850 --> 00:12:06,180

way back into folklore

302

00:12:09,949 --> 00:12:07,860

um so you get stories about witchcraft

303

00:12:11,870 --> 00:12:09,959

you get stories about Willa the Wisps

304

00:12:13,790 --> 00:12:11,880

you get stories about

305

00:12:16,250 --> 00:12:13,800

um ghosts and Phantoms but when you

306

00:12:18,350 --> 00:12:16,260

actually dig down into what how these

307

00:12:21,290 --> 00:12:18,360

stories originated what was it that

308

00:12:23,810 --> 00:12:21,300

people were seeing usually it's just

309

00:12:25,610 --> 00:12:23,820

weird balls of light and mysterious

310

00:12:28,130 --> 00:12:25,620

light from another people have seen them

311

00:12:32,389 --> 00:12:28,140

they were they were describing what they

312

00:12:34,790 --> 00:12:32,399

saw in the the the the language of the

313

00:12:37,250 --> 00:12:34,800

era because this is way before

314

00:12:40,009 --> 00:12:37,260

um UFOs flying sources any of these

315

00:12:41,150 --> 00:12:40,019

modern terms so they used

316

00:12:44,569 --> 00:12:41,160

um traditional

317

00:12:46,610 --> 00:12:44,579

um folklore to to describe what it was

318

00:12:49,910 --> 00:12:46,620

that they'd experience and some people

319

00:12:51,889 --> 00:12:49,920

described what they'd seen as like in

320

00:12:54,590 --> 00:12:51,899

terms of like fairy beliefs you know

321

00:12:56,690 --> 00:12:54,600

fairies rings of dancing fairies that

322

00:12:58,790 --> 00:12:56,700

kind of thing other people described it

323

00:13:00,530 --> 00:12:58,800

as one of the Wisps but ultimately what

324

00:13:03,050 --> 00:13:00,540

people were seeing was was some kind of

325

00:13:06,949 --> 00:13:03,060

luminous phenomena

326

00:13:09,530 --> 00:13:06,959

UAP we would call it today yeah I'd say

327

00:13:12,310 --> 00:13:09,540

it's just a sign of the times and what

328

00:13:14,269 --> 00:13:12,320

they label it as I suppose

329

00:13:15,889 --> 00:13:14,279

fascinating I've got a great question

330

00:13:17,269 --> 00:13:15,899

here from Elena

331

00:13:19,069 --> 00:13:17,279

do you have any theories about the

332

00:13:22,850 --> 00:13:19,079

varying color shifts and their potential

333

00:13:25,129 --> 00:13:22,860

cause or purpose yeah that's that yeah

334

00:13:28,970 --> 00:13:25,139

it's because there are so many different

335

00:13:31,310 --> 00:13:28,980

colors involved in in these um in these

336

00:13:35,150 --> 00:13:31,320

uh reports um

337

00:13:37,970 --> 00:13:35,160

I think the um the the the theories

338

00:13:39,710 --> 00:13:37,980

about them being created by Marsh gas

339

00:13:41,090 --> 00:13:39,720

um which is um

340

00:13:44,870 --> 00:13:41,100

caused by

341

00:13:46,910 --> 00:13:44,880

um methane bubbling out of um

342

00:13:48,230 --> 00:13:46,920

um ponds and areas where you've got

343

00:13:50,030 --> 00:13:48,240

decaying

344

00:13:52,370 --> 00:13:50,040

um vegetable and animal matter I think

345

00:13:54,590 --> 00:13:52,380

there's this the colors there are

346

00:13:57,410 --> 00:13:54,600

supposed to be green and red that people

347

00:14:00,590 --> 00:13:57,420

see but you also get accounts of of

348

00:14:02,629 --> 00:14:00,600

white lights like motorcycle headlights

349

00:14:05,329 --> 00:14:02,639

is a very common description in some of

350

00:14:06,769 --> 00:14:05,339

these um stories and and there's

351

00:14:10,009 --> 00:14:06,779

sometimes particularly in America

352

00:14:11,569 --> 00:14:10,019

they're described as spooked lights yeah

353

00:14:13,490 --> 00:14:11,579

um so you've got a comment you've got

354

00:14:15,889 --> 00:14:13,500

ghost light spook lights Willow The

355

00:14:18,710 --> 00:14:15,899

Whisper every color

356

00:14:20,870 --> 00:14:18,720

um in the Spectrum has been reported

357

00:14:22,850 --> 00:14:20,880

um from different parts of the world and

358

00:14:24,410 --> 00:14:22,860

this came into the um the business with

359

00:14:26,690 --> 00:14:24,420

the londondale lights because of that

360

00:14:28,610 --> 00:14:26,700

being like a mountainous area where

361

00:14:31,370 --> 00:14:28,620

you've got um different Mountain rescue

362

00:14:33,350 --> 00:14:31,380

teams who are responsible for

363

00:14:36,350 --> 00:14:33,360

um responding to calls people in

364

00:14:39,650 --> 00:14:36,360

distress and I remember interviewing the

365

00:14:43,490 --> 00:14:39,660

the the rescue team leader Phil Shaw

366

00:14:45,470 --> 00:14:43,500

back in the 1990s and he was saying that

367

00:14:47,090 --> 00:14:45,480

um if you if you're if you're out on

368

00:14:49,370 --> 00:14:47,100

the Moors and you're part of the hiking

369

00:14:51,769 --> 00:14:49,380

party or somebody who's bivvying out out

370

00:14:53,810 --> 00:14:51,779

there that if you were in distress and

371

00:14:55,370 --> 00:14:53,820

you needed rescuing there's a people

372

00:14:57,530 --> 00:14:55,380

would normally write off a flare and it

373

00:14:59,150 --> 00:14:57,540

would be a red flare that's what they

374

00:15:01,430 --> 00:14:59,160

would be expecting

375

00:15:03,769 --> 00:15:01,440

um to receive a report about but he said

376

00:15:05,569 --> 00:15:03,779

the reports of these londondale lights

377

00:15:07,790 --> 00:15:05,579

they were never read they were always

378

00:15:09,949 --> 00:15:07,800

sort of green or blue or something like

379

00:15:12,350 --> 00:15:09,959

that which is something people lost on

380

00:15:14,150 --> 00:15:12,360

the Moors who had flares would not be

381

00:15:18,110 --> 00:15:14,160

let not be firing off

382

00:15:19,430 --> 00:15:18,120

so the color thing is a real puzzle it

383

00:15:20,990 --> 00:15:19,440

is because you mentioned like the

384

00:15:22,610 --> 00:15:21,000

Masters and things but and then you went

385

00:15:24,829 --> 00:15:22,620

on to the mountainous and you know

386

00:15:27,470 --> 00:15:24,839

hairstyle and for example no not really

387

00:15:29,509 --> 00:15:27,480

any marshes it's cold and desolate and

388

00:15:31,189 --> 00:15:29,519

probably you know high and same in

389

00:15:32,530 --> 00:15:31,199

Colombia where we were and the lights

390

00:15:34,610 --> 00:15:32,540

there we saw

391

00:15:36,769 --> 00:15:34,620

predominantly white lights like you said

392

00:15:38,750 --> 00:15:36,779

the motorcycle headlight but with a bit

393

00:15:39,889 --> 00:15:38,760

of red and blue which you know some

394

00:15:42,350 --> 00:15:39,899

people will

395

00:15:43,370 --> 00:15:42,360

see that as like redshift and blue shift

396

00:15:45,889 --> 00:15:43,380

which is

397

00:15:48,590 --> 00:15:45,899

getting into a whole different realm of

398

00:15:50,269 --> 00:15:48,600

uh physics and stuff maybe but let's

399

00:15:52,250 --> 00:15:50,279

let's you know you mentioned long Dell

400

00:15:53,750 --> 00:15:52,260

let's jump into into londondale because

401
00:15:55,850 --> 00:15:53,760
this is kind of the really interesting

402
00:15:58,009 --> 00:15:55,860
case we're going to talk about so where

403
00:15:59,810 --> 00:15:58,019
do we start with that and please tell me

404
00:16:02,389 --> 00:15:59,820
to bring up any of the images and stuff

405
00:16:03,350 --> 00:16:02,399
as well well um the londondale thing

406
00:16:06,769 --> 00:16:03,360
came

407
00:16:08,810 --> 00:16:06,779
um as a result of doing the work on

408
00:16:10,370 --> 00:16:08,820
Project Penang because I think what

409
00:16:12,650 --> 00:16:10,380
happened was there was a there's a group

410
00:16:14,569 --> 00:16:12,660
team of about three of us again I've

411
00:16:16,189 --> 00:16:14,579
said this before I've always been

412
00:16:17,990 --> 00:16:16,199
involved in my little teams of people

413
00:16:20,449 --> 00:16:18,000

who've sort of done this kind of

414

00:16:23,110 --> 00:16:20,459

research and I think it was um Andy

415

00:16:25,850 --> 00:16:23,120

Roberts and Martin Douglas

416

00:16:27,590 --> 00:16:25,860

we worked on this project Penang thing

417

00:16:29,509 --> 00:16:27,600

we wrote off

418

00:16:31,069 --> 00:16:29,519

um to all the mountain rescue teams in

419

00:16:33,710 --> 00:16:31,079

the north of England saying have you

420

00:16:37,009 --> 00:16:33,720

ever been called out to um report some

421

00:16:39,769 --> 00:16:37,019

mysterious lies you know that

422

00:16:42,410 --> 00:16:39,779

you were reported to you via the police

423

00:16:44,329 --> 00:16:42,420

as people in distress and but turned out

424

00:16:47,930 --> 00:16:44,339

to be not

425

00:16:50,090 --> 00:16:47,940

um not rescue um incidents or or

426

00:16:52,069 --> 00:16:50,100

accidents or things like that and the

427

00:16:54,650 --> 00:16:52,079

the team that came back straight away

428

00:16:56,629 --> 00:16:54,660

was the glossent one saying yes and

429

00:16:59,389 --> 00:16:56,639

we've got a whole log of incidents going

430

00:17:00,889 --> 00:16:59,399

back to the 1960s or 70s of these things

431

00:17:03,710 --> 00:17:00,899

that are called the londondale lights

432

00:17:06,169 --> 00:17:03,720

and like you've been here I mean at the

433

00:17:08,329 --> 00:17:06,179

time I mean I was pretty well versed in

434

00:17:10,789 --> 00:17:08,339

all the sort of UFO sightings and ghosts

435

00:17:12,949 --> 00:17:10,799

that stuff from from this area Chef

436

00:17:16,189 --> 00:17:12,959

between Sheffield and Manchester but I'd

437

00:17:18,110 --> 00:17:16,199

never heard of this so I just I I then

438

00:17:20,750 --> 00:17:18,120

sort of spend a lot of time doing field

439

00:17:23,150 --> 00:17:20,760

work in that um in that area and it's

440

00:17:25,370 --> 00:17:23,160

not I've described it as removed but

441

00:17:27,650 --> 00:17:25,380

it's not really remote in in sort of

442

00:17:28,990 --> 00:17:27,660

North American Standards yeah no

443

00:17:31,730 --> 00:17:29,000

absolutely

444

00:17:33,890 --> 00:17:31,740

it's I mean anyone who knows the north

445

00:17:35,810 --> 00:17:33,900

of England is

446

00:17:37,370 --> 00:17:35,820

the two big cities of Sheffield and

447

00:17:39,529 --> 00:17:37,380

Manchester I mean literally like 30

448

00:17:41,690 --> 00:17:39,539

miles apart but you've got the Peak

449

00:17:44,750 --> 00:17:41,700

District National Park which was

450

00:17:46,850 --> 00:17:44,760

the very first national park

451
00:17:48,529 --> 00:17:46,860
um to be declared a national park in

452
00:17:51,350 --> 00:17:48,539
England and I think that was in the

453
00:17:53,330 --> 00:17:51,360
1950s so even though you've got these

454
00:17:56,090 --> 00:17:53,340
two massive cities with millions of

455
00:17:58,029 --> 00:17:56,100
people on either side the bit in between

456
00:18:01,250 --> 00:17:58,039
particularly that zone

457
00:18:03,590 --> 00:18:01,260
up on the snake pass as it's called and

458
00:18:05,630 --> 00:18:03,600
where you've got Kinder Scout

459
00:18:07,669 --> 00:18:05,640
um bleethlow and blackhill which are all

460
00:18:10,549 --> 00:18:07,679
sort of like big sort of peak covered

461
00:18:12,470 --> 00:18:10,559
mountains and they've just got tiny

462
00:18:13,970 --> 00:18:12,480
little roads that sort of Link Sheffield

463
00:18:16,070 --> 00:18:13,980

in Manchester

464

00:18:18,049 --> 00:18:16,080

one of which is known as the snake pass

465

00:18:19,130 --> 00:18:18,059

which goes right over the top of the

466

00:18:22,010 --> 00:18:19,140

Moors and then there's another one

467

00:18:23,510 --> 00:18:22,020

called Woodhead which is sort of not

468

00:18:26,270 --> 00:18:23,520

really a Motorway but it's the nearest

469

00:18:28,970 --> 00:18:26,280

we've got to a proper dual carriageway

470

00:18:30,470 --> 00:18:28,980

link in the two cities and as it drops

471

00:18:32,150 --> 00:18:30,480

into Manchester you go into the

472

00:18:33,230 --> 00:18:32,160

londondale valley and there's like all

473

00:18:35,330 --> 00:18:33,240

these

474

00:18:37,970 --> 00:18:35,340

um reservoirs in the bottom electricity

475

00:18:40,610 --> 00:18:37,980

pylons and although you're driving into

476

00:18:43,190 --> 00:18:40,620

a really populous area there's very very

477

00:18:44,870 --> 00:18:43,200

few people who actually live in

478

00:18:46,610 --> 00:18:44,880

londondale I think there's you know no

479

00:18:49,310 --> 00:18:46,620

more than a couple of hundred people and

480

00:18:52,130 --> 00:18:49,320

they're mainly sort of farmers these are

481

00:18:53,690 --> 00:18:52,140

sort of really Upland mall and um Farms

482

00:18:56,330 --> 00:18:53,700

where you've you've got very few people

483

00:18:58,130 --> 00:18:56,340

and apart from the traffic that's going

484

00:19:00,110 --> 00:18:58,140

backwards and forwards there's not all

485

00:19:01,669 --> 00:19:00,120

that many people around at night and

486

00:19:04,669 --> 00:19:01,679

there's certainly no one up on the top

487

00:19:06,409 --> 00:19:04,679

of the Moors and if you do go up hiking

488

00:19:08,210 --> 00:19:06,419

as I've done

489

00:19:09,950 --> 00:19:08,220

um many many times

490

00:19:12,230 --> 00:19:09,960

um during the um the course of the year

491

00:19:14,630 --> 00:19:12,240

when you get up onto the top of Kinder

492

00:19:17,690 --> 00:19:14,640

scale and bleep low you would not think

493

00:19:19,490 --> 00:19:17,700

you were 30 miles from Sheffield or from

494

00:19:21,409 --> 00:19:19,500

the center of Manchester you could be in

495

00:19:24,110 --> 00:19:21,419

the middle of that nowhere

496

00:19:27,169 --> 00:19:24,120

you know you'll see you'll see hikers

497

00:19:29,510 --> 00:19:27,179

and climbers but um very very few people

498

00:19:31,490 --> 00:19:29,520

you you could be you could be in the

499

00:19:33,289 --> 00:19:31,500

middle of Scotland or anywhere yeah

500

00:19:35,570 --> 00:19:33,299

absolutely I'm just going to bring up

501
00:19:37,549 --> 00:19:35,580
this image which uh is the the London

502
00:19:39,950 --> 00:19:37,559
Trail is kind of where you can hike but

503
00:19:42,289 --> 00:19:39,960
this image is a sign showing the path

504
00:19:44,029 --> 00:19:42,299
and it kind of gives an idea of

505
00:19:47,049 --> 00:19:44,039
of what you're talking about so you've

506
00:19:49,250 --> 00:19:47,059
kind of got this long thin yeah you know

507
00:19:52,010 --> 00:19:49,260
Reservoir with it's kind of the two

508
00:19:54,230 --> 00:19:52,020
peaks coming up either side here

509
00:19:56,390 --> 00:19:54,240
so you know that's where the lights have

510
00:20:01,010 --> 00:19:56,400
been seen is that right yeah the the

511
00:20:04,250 --> 00:20:01,020
lights are mainly seen on the South Side

512
00:20:06,289 --> 00:20:04,260
um of londondale so you've got um the

513
00:20:09,169 --> 00:20:06,299

what's known as the bleaklow Massif

514

00:20:10,789 --> 00:20:09,179

which is a huge this huge area

515

00:20:13,010 --> 00:20:10,799

um down at the the bottom right hand

516

00:20:17,210 --> 00:20:13,020

corner of this map you're showing there

517

00:20:18,950 --> 00:20:17,220

and the um it's um it's it's like

518

00:20:20,470 --> 00:20:18,960

walking in chocolate cake when you're on

519

00:20:23,029 --> 00:20:20,480

the top

520

00:20:25,909 --> 00:20:23,039

there's nothing there but there is um

521

00:20:27,890 --> 00:20:25,919

there is a large Mound known as tourside

522

00:20:30,710 --> 00:20:27,900

Castle which is thought to be um some

523

00:20:33,230 --> 00:20:30,720

kind of burial mound or Barrow and it's

524

00:20:35,330 --> 00:20:33,240

quite interesting that when these

525

00:20:37,669 --> 00:20:35,340

um sightings have been caught have been

526

00:20:39,350 --> 00:20:37,679

sort of um plotted on a map they all

527

00:20:41,510 --> 00:20:39,360

seem to congregate in this area around

528

00:20:44,750 --> 00:20:41,520

tourside castle and there's like a big

529

00:20:46,490 --> 00:20:44,760

Rocky Edge that you can see from the

530

00:20:48,650 --> 00:20:46,500

bottom of the valley called Brahma Edge

531

00:20:50,390 --> 00:20:48,660

an interestingly because you find a lot

532

00:20:51,950 --> 00:20:50,400

of these stories

533

00:20:53,990 --> 00:20:51,960

um turning up in local place names

534

00:20:54,950 --> 00:20:54,000

there's actually an area called shining

535

00:20:57,169 --> 00:20:54,960

cloth

536

00:20:58,850 --> 00:20:57,179

which is really interesting because this

537

00:21:01,909 --> 00:20:58,860

is where some of these lights have been

538

00:21:05,390 --> 00:21:01,919

seen and I interviewed a guy called Sean

539

00:21:08,390 --> 00:21:05,400

wood who is a teacher and a musician and

540

00:21:11,570 --> 00:21:08,400

he lives in a um a real big Gothic house

541

00:21:14,570 --> 00:21:11,580

called um Bleak House which is very very

542

00:21:16,370 --> 00:21:14,580

Bleak and it's as you're dropping into

543

00:21:18,370 --> 00:21:16,380

um the main part of the valley near the

544

00:21:20,750 --> 00:21:18,380

near the um where the tour side

545

00:21:23,090 --> 00:21:20,760

Reservoir is

546

00:21:25,789 --> 00:21:23,100

um and he's lived there in this quite

547

00:21:28,130 --> 00:21:25,799

isolated built um building for something

548

00:21:31,610 --> 00:21:28,140

like 15 or 20 years

549

00:21:32,450 --> 00:21:31,620

and um I remember him saying that he

550

00:21:34,549 --> 00:21:32,460

didn't know anything about the

551
00:21:37,610 --> 00:21:34,559
londondale lights and he want one night

552
00:21:39,710 --> 00:21:37,620
winter night he was um he was sat in the

553
00:21:42,289 --> 00:21:39,720
in the back room and the main window's

554
00:21:45,110 --> 00:21:42,299
face shining cloth and Brahma Ridge and

555
00:21:47,690 --> 00:21:45,120
he he kept seeing this light shining

556
00:21:49,549 --> 00:21:47,700
through the window and he thought it was

557
00:21:51,710 --> 00:21:49,559
someone playing a prank in that he was

558
00:21:54,890 --> 00:21:51,720
someone who stopped by the side of this

559
00:21:56,330 --> 00:21:54,900
really busy road and and and somehow

560
00:21:58,970 --> 00:21:56,340
managed to get to the front of his house

561
00:22:01,010 --> 00:21:58,980
and was shining a torch you know some

562
00:22:02,149 --> 00:22:01,020
some kind of prank and he went out and

563
00:22:05,450 --> 00:22:02,159

looked through the window and there's

564

00:22:07,730 --> 00:22:05,460

this massive ball of light hovering over

565

00:22:09,950 --> 00:22:07,740

the um the hillside opposite

566

00:22:11,810 --> 00:22:09,960

and he went outside looked at it

567

00:22:14,570 --> 00:22:11,820

couldn't believe his eyes and his next

568

00:22:17,630 --> 00:22:14,580

door neighbors this is how isolated he

569

00:22:20,570 --> 00:22:17,640

was was the the youth hostel at crowden

570

00:22:23,690 --> 00:22:20,580

which is about three or four miles down

571

00:22:25,490 --> 00:22:23,700

the valley so wow um they were his neck

572

00:22:27,110 --> 00:22:25,500

mere neighbors there was no one else

573

00:22:29,210 --> 00:22:27,120

other than Farmers living anywhere near

574

00:22:32,390 --> 00:22:29,220

so he phoned up the crowd and youth

575

00:22:33,890 --> 00:22:32,400

hostel and spoke to um the manager there

576

00:22:36,289 --> 00:22:33,900

and this person said yeah we're all

577

00:22:39,710 --> 00:22:36,299

outside watching it as well what is it

578

00:22:41,990 --> 00:22:39,720

so that was the first time he'd seen the

579

00:22:45,289 --> 00:22:42,000

London Dale lives and since then I think

580

00:22:48,350 --> 00:22:45,299

over a 20 year period he's seen them I

581

00:22:50,330 --> 00:22:48,360

don't know 30 or 40 times but

582

00:22:52,250 --> 00:22:50,340

um every time the difference because

583

00:22:54,169 --> 00:22:52,260

sometimes it's like a Searchlight coming

584

00:22:57,230 --> 00:22:54,179

out of the hillside at other times it's

585

00:22:59,029 --> 00:22:57,240

like a string of moving lights

586

00:23:01,370 --> 00:22:59,039

um sometimes it's just like one light

587

00:23:03,230 --> 00:23:01,380

that rises from the ground and this this

588

00:23:04,730 --> 00:23:03,240

is why

589

00:23:05,930 --> 00:23:04,740

um the Mountain Rescue Team have been

590

00:23:08,450 --> 00:23:05,940

involved because people who are

591

00:23:11,210 --> 00:23:08,460

unfamiliar with the area and don't know

592

00:23:12,890 --> 00:23:11,220

the legend of the londondale lights

593

00:23:15,529 --> 00:23:12,900

um they see a light on the hillside

594

00:23:17,570 --> 00:23:15,539

which they think is that someone in

595

00:23:20,390 --> 00:23:17,580

distress is it uh as it is it an

596

00:23:22,370 --> 00:23:20,400

aircraft that's crashed is it someone

597

00:23:25,010 --> 00:23:22,380

that's lost that's sending up distress

598

00:23:26,570 --> 00:23:25,020

flares so they've phoned the police and

599

00:23:28,310 --> 00:23:26,580

of course the police then call Mountain

600

00:23:30,289 --> 00:23:28,320

Rescue

601
00:23:32,570 --> 00:23:30,299
um mounting rescue teams have been up

602
00:23:36,110 --> 00:23:32,580
there dozens of times

603
00:23:37,730 --> 00:23:36,120
um looking for um any any trace of

604
00:23:38,990 --> 00:23:37,740
um people in distress and they've never

605
00:23:41,330 --> 00:23:39,000
found anyone

606
00:23:43,430 --> 00:23:41,340
so it's a continuing mystery and this

607
00:23:44,930 --> 00:23:43,440
has been going on since at least the

608
00:23:47,330 --> 00:23:44,940
1950s

609
00:23:49,669 --> 00:23:47,340
yeah and we've got some old newspaper

610
00:23:51,950 --> 00:23:49,679
clippings here oh I've noticed one here

611
00:23:53,270 --> 00:23:51,960
which didn't have a year

612
00:23:54,529 --> 00:23:53,280
there's one there that's actually got a

613
00:23:56,990 --> 00:23:54,539

picture of shining cloth but it's

614

00:23:58,789 --> 00:23:57,000

looking at the 1972 one first yeah now

615

00:23:59,930 --> 00:23:58,799

this is the one that really fascinated

616

00:24:03,830 --> 00:23:59,940

me

617

00:24:06,110 --> 00:24:03,840

we were doing the archive research

618

00:24:09,529 --> 00:24:06,120

and yeah this was an account that was

619

00:24:11,510 --> 00:24:09,539

published in um the newsletter of peak

620

00:24:13,549 --> 00:24:11,520

National Park then

621

00:24:16,190 --> 00:24:13,559

Peak National Park was only created in

622

00:24:18,830 --> 00:24:16,200

the 1950s and the the youth hostel that

623

00:24:22,250 --> 00:24:18,840

I mentioned uh crowden that was only

624

00:24:25,010 --> 00:24:22,260

built in I think 1968

625

00:24:27,350 --> 00:24:25,020

um and um one of the first Peak part

626

00:24:30,409 --> 00:24:27,360

wardens who covered this area was a guy

627

00:24:32,330 --> 00:24:30,419

called Ken drabble and his wife at the

628

00:24:34,190 --> 00:24:32,340

time Margaret drabble

629

00:24:36,950 --> 00:24:34,200

um they were living at crowden youth

630

00:24:40,070 --> 00:24:36,960

hostel and she was a teacher and she

631

00:24:42,049 --> 00:24:40,080

used to drive back from West Yorkshire

632

00:24:44,750 --> 00:24:42,059

right over the top of the Moors there's

633

00:24:47,630 --> 00:24:44,760

a big repeater television aerial called

634

00:24:52,010 --> 00:24:47,640

home home Moss so she'd drive over this

635

00:24:54,110 --> 00:24:52,020

lonely home Moss Road and drop down into

636

00:24:57,590 --> 00:24:54,120

um londondale and one night and this was

637

00:24:59,450 --> 00:24:57,600

in the summer of 1970

638

00:25:01,190 --> 00:24:59,460

um she was driving I'm just reading her

639

00:25:03,710 --> 00:25:01,200

account from this story now she was

640

00:25:06,710 --> 00:25:03,720

driving alongside the reservoirs

641

00:25:09,470 --> 00:25:06,720

of the tin twistle to Woodhead Road late

642

00:25:11,930 --> 00:25:09,480

on this July night and it was a really

643

00:25:13,850 --> 00:25:11,940

warm summer night

644

00:25:16,370 --> 00:25:13,860

um dark and she was driving with the

645

00:25:17,990 --> 00:25:16,380

windows of a car wound down and she says

646

00:25:20,570 --> 00:25:18,000

there was a really good Moon it was very

647

00:25:22,850 --> 00:25:20,580

warm I had the car windows open and

648

00:25:25,310 --> 00:25:22,860

suddenly she saw this light come from

649

00:25:28,549 --> 00:25:25,320

the top of bleakler and she said it lit

650

00:25:31,370 --> 00:25:28,559

the whole valley for a couple of miles

651
00:25:33,529 --> 00:25:31,380
um and it it was so bright she was able

652
00:25:35,450 --> 00:25:33,539
to turn the headlights of a car off and

653
00:25:38,870 --> 00:25:35,460
drive as if it was in daylight and this

654
00:25:40,490 --> 00:25:38,880
was like 11 12 at night midnight after

655
00:25:42,950 --> 00:25:40,500
midnight

656
00:25:44,090 --> 00:25:42,960
um but then as she was as she drove into

657
00:25:48,490 --> 00:25:44,100
it

658
00:25:53,269 --> 00:25:48,500
like um and almost like driving into a

659
00:25:55,370 --> 00:25:53,279
like a white beam of lie and she says

660
00:25:57,230 --> 00:25:55,380
that the the air turned cold and she had

661
00:25:59,690 --> 00:25:57,240
to wind the windows up even though it

662
00:26:02,269 --> 00:25:59,700
was July it should absolutely terrified

663
00:26:04,730 --> 00:26:02,279

and she said she could see every sort of

664

00:26:06,350 --> 00:26:04,740

every sort of detail of the mountains in

665

00:26:08,510 --> 00:26:06,360

the distance

666

00:26:11,029 --> 00:26:08,520

um pin pinpointed and you know she could

667

00:26:12,110 --> 00:26:11,039

sort of see it really really clearly

668

00:26:14,210 --> 00:26:12,120

um

669

00:26:15,950 --> 00:26:14,220

and she drove down to the youth hostel

670

00:26:17,930 --> 00:26:15,960

told the people there about it and their

671

00:26:19,730 --> 00:26:17,940

husband and she said afterwards she

672

00:26:21,470 --> 00:26:19,740

asked some of the local farmers if

673

00:26:23,149 --> 00:26:21,480

they'd seen anything and she said they

674

00:26:26,029 --> 00:26:23,159

were really reluctant to talk about it

675

00:26:27,710 --> 00:26:26,039

but she got the impression that they did

676
00:26:30,769 --> 00:26:27,720
know something

677
00:26:33,710 --> 00:26:30,779
um so about a year later

678
00:26:36,289 --> 00:26:33,720
um all the people at the crowden youth

679
00:26:38,810 --> 00:26:36,299
hostel saw a very similar light

680
00:26:40,970 --> 00:26:38,820
from streaming across the valley and

681
00:26:43,430 --> 00:26:40,980
they all went out and they thought it um

682
00:26:45,049 --> 00:26:43,440
again they thought it might have been an

683
00:26:46,610 --> 00:26:45,059
aircraft that had crashed on the top of

684
00:26:47,750 --> 00:26:46,620
the mountain

685
00:26:50,390 --> 00:26:47,760
um so

686
00:26:52,549 --> 00:26:50,400
um Barbara drabble's husband Ken who was

687
00:26:55,490 --> 00:26:52,559
the chief Peak part Warden was actually

688
00:26:58,430 --> 00:26:55,500

there and he saw the light and he

689

00:27:00,409 --> 00:26:58,440

thought well we'll go up and he got he

690

00:27:03,590 --> 00:27:00,419

got in a Land Rover and he got these

691

00:27:05,570 --> 00:27:03,600

massive gas-powered searchlights

692

00:27:06,950 --> 00:27:05,580

um went up there on the more took a team

693

00:27:08,510 --> 00:27:06,960

with him

694

00:27:10,669 --> 00:27:08,520

um when they got onto the Moor they had

695

00:27:12,649 --> 00:27:10,679

these search lights on searching around

696

00:27:15,169 --> 00:27:12,659

to see if they could find something and

697

00:27:17,390 --> 00:27:15,179

he and he was in radio contact with the

698

00:27:19,250 --> 00:27:17,400

people down in the valley and they said

699

00:27:21,110 --> 00:27:19,260

that the searchlights that he was using

700

00:27:21,950 --> 00:27:21,120

were just like a little pinpoint of

701
00:27:23,750 --> 00:27:21,960
light

702
00:27:26,750 --> 00:27:23,760
seen from the valley and yet this

703
00:27:27,890 --> 00:27:26,760
mysterious lie and absolutely filled the

704
00:27:30,789 --> 00:27:27,900
entire Valley

705
00:27:33,890 --> 00:27:30,799
so it was like completely inexplicable

706
00:27:37,130 --> 00:27:33,900
and after that

707
00:27:38,630 --> 00:27:37,140
um Barbara then went uh and spoke to

708
00:27:40,190 --> 00:27:38,640
some of the people in the valley again

709
00:27:43,190 --> 00:27:40,200
some of the farmers and they did

710
00:27:45,289 --> 00:27:43,200
actually admit that yes they had seen it

711
00:27:48,350 --> 00:27:45,299
that it came regular they didn't know

712
00:27:50,029 --> 00:27:48,360
what it was something Supernatural and

713
00:27:52,370 --> 00:27:50,039

that it caused

714

00:27:54,649 --> 00:27:52,380

um ice to form when it came in the

715

00:27:55,909 --> 00:27:54,659

summer and that they'd lost some of

716

00:27:58,909 --> 00:27:55,919

these Farmers had actually lost

717

00:28:00,649 --> 00:27:58,919

livestock that sheep had been frozen by

718

00:28:02,390 --> 00:28:00,659

this mysterious light when he came and

719

00:28:05,510 --> 00:28:02,400

but they were really reluctant to talk

720

00:28:07,250 --> 00:28:05,520

about it so I remember interviewing

721

00:28:10,010 --> 00:28:07,260

Barbara

722

00:28:12,289 --> 00:28:10,020

um and Sean wood and Michael aspel

723

00:28:14,390 --> 00:28:12,299

um did a program on this in which I was

724

00:28:16,130 --> 00:28:14,400

interviewed and they interviewed Ken

725

00:28:18,590 --> 00:28:16,140

drabble they interviewed Barbara drabble

726

00:28:20,930 --> 00:28:18,600

and it was part of a series that was

727

00:28:22,789 --> 00:28:20,940

shown strange but true I think it was

728

00:28:24,950 --> 00:28:22,799

called in the 1990s

729

00:28:26,269 --> 00:28:24,960

um yeah which may be findable somewhere

730

00:28:27,890 --> 00:28:26,279

online

731

00:28:30,950 --> 00:28:27,900

but it was one of the most mysterious

732

00:28:32,990 --> 00:28:30,960

things that I've ever

733

00:28:34,730 --> 00:28:33,000

um investigated and I've investigated as

734

00:28:38,570 --> 00:28:34,740

you know some very mysterious things

735

00:28:41,450 --> 00:28:38,580

yeah absolutely to me

736

00:28:44,450 --> 00:28:41,460

um it's classic earthlight

737

00:28:46,250 --> 00:28:44,460

and and that whole valley is heavily

738

00:28:48,409 --> 00:28:46,260

faltered and you've got all the sorts of

739

00:28:50,810 --> 00:28:48,419

quartz rock and the the sort of

740

00:28:53,450 --> 00:28:50,820

conditions described

741

00:28:55,490 --> 00:28:53,460

um in the research has been the sort of

742

00:28:57,830 --> 00:28:55,500

thing the perfect conditions where you

743

00:29:00,110 --> 00:28:57,840

would expect these kinds of Lights to

744

00:29:02,750 --> 00:29:00,120

occur and the Very fact that

745

00:29:05,390 --> 00:29:02,760

um it only happens occasionally you know

746

00:29:07,669 --> 00:29:05,400

you'll get like an outbreak where people

747

00:29:09,710 --> 00:29:07,679

will see things relatively regularly

748

00:29:11,390 --> 00:29:09,720

maybe just once or twice a year but

749

00:29:13,549 --> 00:29:11,400

they'll see it regularly for a period of

750

00:29:17,090 --> 00:29:13,559

time and then there'll be nothing for 20

751
00:29:19,490 --> 00:29:17,100
or 30 years and then maybe there'll be a

752
00:29:21,529 --> 00:29:19,500
few sightings again and Paul deveraux's

753
00:29:23,330 --> 00:29:21,539
theory is that that's because what

754
00:29:24,529 --> 00:29:23,340
you've got is like a buildup of sort of

755
00:29:27,830 --> 00:29:24,539
tension

756
00:29:29,690 --> 00:29:27,840
in um in the geology and rather than

757
00:29:31,310 --> 00:29:29,700
having a full-scale earthquake where all

758
00:29:33,950 --> 00:29:31,320
this energy is dissipated really quickly

759
00:29:36,830 --> 00:29:33,960
what you're getting is a slow release of

760
00:29:37,669 --> 00:29:36,840
energy and maybe electrons are sort of I

761
00:29:40,010 --> 00:29:37,679
don't know

762
00:29:41,990 --> 00:29:40,020
um interacting with the landscape with

763
00:29:43,909 --> 00:29:42,000

water with the reservoirs because

764

00:29:45,950 --> 00:29:43,919

obviously if the reservoirs are full

765

00:29:49,190 --> 00:29:45,960

you've got more tension on the geology

766

00:29:50,029 --> 00:29:49,200

who knows but it's it's an intriguing

767

00:29:52,130 --> 00:29:50,039

story

768

00:29:53,450 --> 00:29:52,140

definitely I'm just going to highlight a

769

00:29:55,610 --> 00:29:53,460

couple of comments Here Andrew Clark

770

00:29:57,409 --> 00:29:55,620

just said strange but true is on YouTube

771

00:30:00,289 --> 00:29:57,419

I was watching the long Lindell lights

772

00:30:03,769 --> 00:30:00,299

episode earlier today right I'm gonna

773

00:30:06,409 --> 00:30:03,779

take a link to that yeah I'd love to see

774

00:30:08,389 --> 00:30:06,419

it again please like DM me on Instagram

775

00:30:10,789 --> 00:30:08,399

or Twitter all the links are in in the

776

00:30:12,529 --> 00:30:10,799

description I'd love to find that uh I'd

777

00:30:13,850 --> 00:30:12,539

really appreciate that

778

00:30:16,070 --> 00:30:13,860

um I've got a couple of questions here

779

00:30:17,630 --> 00:30:16,080

Karen Karen Alexander says have there

780

00:30:20,210 --> 00:30:17,640

been any reports of this classification

781

00:30:22,190 --> 00:30:20,220

of Lights affecting Machinery such as

782

00:30:24,110 --> 00:30:22,200

cars or tractors

783

00:30:26,210 --> 00:30:24,120

um yeah I think there are I think if you

784

00:30:28,130 --> 00:30:26,220

read um earthlights there are some

785

00:30:29,810 --> 00:30:28,140

examples of of people saying that

786

00:30:31,669 --> 00:30:29,820

engines have cut out that kind of thing

787

00:30:35,210 --> 00:30:31,679

the sort of thing that um known as car

788

00:30:36,409 --> 00:30:35,220

stops in the ufology yeah yeah um but

789

00:30:38,210 --> 00:30:36,419

again

790

00:30:39,110 --> 00:30:38,220

um the thing about that is

791

00:30:40,970 --> 00:30:39,120

um

792

00:30:43,850 --> 00:30:40,980

there is a

793

00:30:45,710 --> 00:30:43,860

um a possibility that in some of these

794

00:30:48,649 --> 00:30:45,720

cases if you were confronted by

795

00:30:51,289 --> 00:30:48,659

something like one of these bizarre

796

00:30:54,110 --> 00:30:51,299

light phenomena you would be so shocked

797

00:30:58,130 --> 00:30:54,120

and so taken aback that maybe you know

798

00:31:00,289 --> 00:30:58,140

you you stole the car so if or you the

799

00:31:02,149 --> 00:31:00,299

ignition had you know quite naturally

800

00:31:04,789 --> 00:31:02,159

I've done this myself and I've seen

801
00:31:06,950 --> 00:31:04,799
something unfamiliar and oh my God you

802
00:31:08,690 --> 00:31:06,960
know the cars stopped how would you know

803
00:31:11,149 --> 00:31:08,700
whether that was something that had been

804
00:31:12,789 --> 00:31:11,159
caused externally or as a result of your

805
00:31:15,350 --> 00:31:12,799
own actions because you're in this

806
00:31:17,389 --> 00:31:15,360
unfamiliar situation

807
00:31:20,389 --> 00:31:17,399
yeah but I don't I don't think Barbara

808
00:31:22,250 --> 00:31:20,399
drabble was suggesting that her car

809
00:31:23,930 --> 00:31:22,260
um lost energy or anything like that or

810
00:31:24,769 --> 00:31:23,940
the engine cut out when she saw this

811
00:31:26,510 --> 00:31:24,779
thing

812
00:31:28,730 --> 00:31:26,520
I think what really stands out in that

813
00:31:30,769 --> 00:31:28,740

story I mean there's many things but the

814

00:31:32,870 --> 00:31:30,779

the fact that the lights were cold and

815

00:31:35,029 --> 00:31:32,880

formed ice whereas if you think of

816

00:31:36,889 --> 00:31:35,039

plasma I mean I mean

817

00:31:38,990 --> 00:31:36,899

I'm not a scientist I hate to tell

818

00:31:41,389 --> 00:31:39,000

everyone but you'd all I'd associate

819

00:31:43,430 --> 00:31:41,399

heat with plasma you know a build of you

820

00:31:45,230 --> 00:31:43,440

know so that's really bizarre that but

821

00:31:46,630 --> 00:31:45,240

there is a thing called cold plasma

822

00:31:49,310 --> 00:31:46,640

Apparently

823

00:31:51,470 --> 00:31:49,320

one of the theories that um I read

824

00:31:53,149 --> 00:31:51,480

recently and I think I put it in the 14

825

00:31:55,549 --> 00:31:53,159

Times article

826

00:31:57,409 --> 00:31:55,559

that I wrote on the um the lights in

827

00:32:00,350 --> 00:31:57,419

Colombia there was a get there was I

828

00:32:01,850 --> 00:32:00,360

think it's a scientist from Italy who's

829

00:32:04,190 --> 00:32:01,860

come up with this really elaborate

830

00:32:06,590 --> 00:32:04,200

theory about Hess darling

831

00:32:09,470 --> 00:32:06,600

um all linking the geology of the valley

832

00:32:11,630 --> 00:32:09,480

and in that he he's convinced that the

833

00:32:14,210 --> 00:32:11,640

hesterlin valley forms like a natural

834

00:32:16,789 --> 00:32:14,220

battery in the you I don't I'm not a

835

00:32:19,070 --> 00:32:16,799

physicist I don't understand this but

836

00:32:20,750 --> 00:32:19,080

um there's certain kinds of rocks in one

837

00:32:22,310 --> 00:32:20,760

side of the valley they interact with

838

00:32:24,409 --> 00:32:22,320

rocks on the other side of the valley

839

00:32:26,810 --> 00:32:24,419

and you've got like a river with copper

840

00:32:29,090 --> 00:32:26,820

deposits in it and it effectively

841

00:32:31,850 --> 00:32:29,100

creates a battery which creates light

842

00:32:34,669 --> 00:32:31,860

and he's actually experimented and been

843

00:32:36,710 --> 00:32:34,679

able to light a um um a small

844

00:32:38,570 --> 00:32:36,720

electricity bulb

845

00:32:41,230 --> 00:32:38,580

um using this sort of battery effect in

846

00:32:43,130 --> 00:32:41,240

hair style and so who knows

847

00:32:44,630 --> 00:32:43,140

that's interesting because that

848

00:32:46,490 --> 00:32:44,640

resonates with what we looked at in

849

00:32:48,409 --> 00:32:46,500

Colombia one of the mountain peaks sits

850

00:32:49,850 --> 00:32:48,419

in a negative charge the other in a

851
00:32:52,730 --> 00:32:49,860
positive and I think the river between

852
00:32:54,470 --> 00:32:52,740
them is sulfur based that's right yeah

853
00:32:58,250 --> 00:32:54,480
I'm just looking us here is a guy called

854
00:33:00,350 --> 00:32:58,260
Jada menarev and he works in Italy and

855
00:33:03,529 --> 00:33:00,360
radio astronomy of scientists and he

856
00:33:05,389 --> 00:33:03,539
said um he believes this is Hess darling

857
00:33:07,850 --> 00:33:05,399
that the Valley's unusual geology

858
00:33:09,649 --> 00:33:07,860
functions as a natural battery with two

859
00:33:12,409 --> 00:33:09,659
distinctly different types of rocks

860
00:33:14,690 --> 00:33:12,419
acting as the anode and the cathode

861
00:33:17,389 --> 00:33:14,700
um the valley is rocks rich in iron and

862
00:33:19,549 --> 00:33:17,399
zinc on one side

863
00:33:21,889 --> 00:33:19,559

um and on the other side of the river

864

00:33:23,870 --> 00:33:21,899

are rich in Copper so you've got the

865

00:33:26,029 --> 00:33:23,880

river Hester between them and the

866

00:33:28,850 --> 00:33:26,039

electrolyte that activates the circuit

867

00:33:31,730 --> 00:33:28,860

is provided by sulfur that leeches into

868

00:33:33,950 --> 00:33:31,740

the river now he and a colleague have

869

00:33:35,690 --> 00:33:33,960

actually tested the theory in the valley

870

00:33:38,810 --> 00:33:35,700

and they were able to produce sufficient

871

00:33:41,269 --> 00:33:38,820

current to light a lamp and they believe

872

00:33:43,669 --> 00:33:41,279

the battery produces iron bubbles that

873

00:33:45,590 --> 00:33:43,679

can rise from the valley and move along

874

00:33:48,430 --> 00:33:45,600

the electrical field generated in the

875

00:33:50,570 --> 00:33:48,440

humid atmosphere above it so maybe

876

00:33:53,149 --> 00:33:50,580

there's something similar going on in

877

00:33:55,310 --> 00:33:53,159

londondale they're quite possible yeah

878

00:33:58,190 --> 00:33:55,320

the Barbara drabble isn't the only

879

00:33:59,029 --> 00:33:58,200

person who's had a weird experience

880

00:34:01,130 --> 00:33:59,039

um

881

00:34:03,110 --> 00:34:01,140

involving a car because I don't think

882

00:34:05,570 --> 00:34:03,120

you can find this this the story from

883

00:34:08,149 --> 00:34:05,580

1995 that was um

884

00:34:09,109 --> 00:34:08,159

reported I think I sent you a scan of

885

00:34:12,109 --> 00:34:09,119

this

886

00:34:14,389 --> 00:34:12,119

um Vinnie which was the the um

887

00:34:16,430 --> 00:34:14,399

the young woman called um Laverne

888

00:34:17,710 --> 00:34:16,440

Marshall this is a story that was in the

889

00:34:21,290 --> 00:34:17,720

um the local

890

00:34:24,829 --> 00:34:21,300

newspapered loss of Advertiser and this

891

00:34:26,889 --> 00:34:24,839

is a very bizarre story and this is a

892

00:34:30,889 --> 00:34:26,899

night in February

893

00:34:34,669 --> 00:34:30,899

1995. and this lady from glossop called

894

00:34:37,790 --> 00:34:34,679

Laverne Marshall she had dropped her son

895

00:34:39,230 --> 00:34:37,800

off um he threw no she'd taken us on to

896

00:34:41,930 --> 00:34:39,240

Heathrow Airport

897

00:34:44,750 --> 00:34:41,940

and she'd driven all the way back after

898

00:34:47,869 --> 00:34:44,760

he got his fly with her daughter Stacy

899

00:34:49,250 --> 00:34:47,879

and Stacy's baby and they were in the

900

00:34:51,710 --> 00:34:49,260

back of the car and they lived in

901
00:34:53,930 --> 00:34:51,720
glossop so they went up the M1 they took

902
00:34:56,510 --> 00:34:53,940
the m62 across the pennines and then

903
00:34:58,490 --> 00:34:56,520
dropped into londondale Valley and this

904
00:35:00,170 --> 00:34:58,500
was really late at night and they just

905
00:35:02,450 --> 00:35:00,180
dropped into the valley to a place

906
00:35:04,970 --> 00:35:02,460
called near a place called The Devil's

907
00:35:07,130 --> 00:35:04,980
elbow again

908
00:35:08,810 --> 00:35:07,140
these weird place names that seem to

909
00:35:10,910 --> 00:35:08,820
reflect the fact that odd things have

910
00:35:13,130 --> 00:35:10,920
happened there before and the bizarre

911
00:35:15,910 --> 00:35:13,140
thing about this was they they saw light

912
00:35:19,010 --> 00:35:15,920
but they were inside the car

913
00:35:22,130 --> 00:35:19,020

that's so just suddenly in the middle of

914

00:35:24,050 --> 00:35:22,140

nowhere this bunch of Lights appeared in

915

00:35:27,530 --> 00:35:24,060

the side of the car like four or five

916

00:35:29,750 --> 00:35:27,540

wise also on moving around the dashboard

917

00:35:31,910 --> 00:35:29,760

almost like soldiers Drilling and they

918

00:35:34,069 --> 00:35:31,920

were sort of moving around in the car as

919

00:35:36,770 --> 00:35:34,079

they were driving and as you can imagine

920

00:35:38,510 --> 00:35:36,780

they were absolutely terrified stopped

921

00:35:41,089 --> 00:35:38,520

stopped and started the car at different

922

00:35:43,130 --> 00:35:41,099

points and then as when they got to the

923

00:35:45,470 --> 00:35:43,140

outskirts of loss of these lights just

924

00:35:47,270 --> 00:35:45,480

vanished and because there'd been

925

00:35:49,190 --> 00:35:47,280

stories in the local press about it

926
00:35:51,170 --> 00:35:49,200
they'd said nothing because they thought

927
00:35:53,030 --> 00:35:51,180
nobody would believe them and it was

928
00:35:56,089 --> 00:35:53,040
only when stories about the London Dale

929
00:35:57,710 --> 00:35:56,099
White started um to be to be published

930
00:36:00,950 --> 00:35:57,720
and you can see there's a little rag out

931
00:36:02,390 --> 00:36:00,960
in the corner and Tony Dodd who was very

932
00:36:04,550 --> 00:36:02,400
active

933
00:36:06,530 --> 00:36:04,560
um with the Yorkshire UFO Society at the

934
00:36:07,790 --> 00:36:06,540
time he he was investigating something

935
00:36:10,490 --> 00:36:07,800
mysterious in one of the local

936
00:36:12,170 --> 00:36:10,500
reservoirs and this prompted Laverne

937
00:36:13,790 --> 00:36:12,180
Marshall to come forward and again I

938
00:36:16,730 --> 00:36:13,800

went and interviewed her I've got her on

939

00:36:20,630 --> 00:36:16,740

tape talking about this and and she was

940

00:36:22,130 --> 00:36:20,640

genuinely terrified and I've never heard

941

00:36:24,770 --> 00:36:22,140

a story like that I mean I know those

942

00:36:27,109 --> 00:36:24,780

stories about UFO abductions where

943

00:36:28,490 --> 00:36:27,119

people see a light outside the car and

944

00:36:30,530 --> 00:36:28,500

then they have a period of missing time

945

00:36:32,450 --> 00:36:30,540

but these were lights they didn't see

946

00:36:35,210 --> 00:36:32,460

anything outside the car these were

947

00:36:36,890 --> 00:36:35,220

strange sort of luminous

948

00:36:38,390 --> 00:36:36,900

um balls of line that appeared inside

949

00:36:41,329 --> 00:36:38,400

the car and they were like whizzing

950

00:36:44,569 --> 00:36:41,339

around and moving around inside the car

951

00:36:48,470 --> 00:36:44,579

so it's strange that he was in

952

00:36:51,530 --> 00:36:48,480

londondale that's strange and that case

953

00:36:53,990 --> 00:36:51,540

does you know uh let me start again back

954

00:36:56,930 --> 00:36:54,000

in earlier this year when George Knapp

955

00:36:58,730 --> 00:36:56,940

and Colin Kelleher released their book

956

00:37:00,829 --> 00:36:58,740

um talking about orsap the skinwalkers

957

00:37:02,990 --> 00:37:00,839

at the Pentagon they did talk about a

958

00:37:05,990 --> 00:37:03,000

case where these strange orbs entered a

959

00:37:08,270 --> 00:37:06,000

car very very similar to the yeah very

960

00:37:10,130 --> 00:37:08,280

similar but they did see they did see

961

00:37:12,589 --> 00:37:10,140

them in a field and they came towards

962

00:37:14,150 --> 00:37:12,599

the car entered the car and caused

963

00:37:16,550 --> 00:37:14,160

health effects to the driver and stuff

964

00:37:18,230 --> 00:37:16,560

so that's really fascinating but I think

965

00:37:20,030 --> 00:37:18,240

one thing also is that the londondale

966

00:37:21,710 --> 00:37:20,040

lights the first case was this huge

967

00:37:23,390 --> 00:37:21,720

light that lit up a couple of miles of

968

00:37:25,430 --> 00:37:23,400

the valley and now we're like almost

969

00:37:27,710 --> 00:37:25,440

talking about small orb size objects

970

00:37:30,290 --> 00:37:27,720

it's just so strange how yep the

971

00:37:33,410 --> 00:37:30,300

difference is that that are there it

972

00:37:35,030 --> 00:37:33,420

just runs the whole gamut you know

973

00:37:36,470 --> 00:37:35,040

there's everything

974

00:37:38,569 --> 00:37:36,480

um that you've got like people who've

975

00:37:40,790 --> 00:37:38,579

seen like Searchlight beams that seem to

976
00:37:43,430 --> 00:37:40,800
sort of come out of the ground you've

977
00:37:46,550 --> 00:37:43,440
got um like a string of lights sort of

978
00:37:49,250 --> 00:37:46,560
purple lights you've got uh again back

979
00:37:50,870 --> 00:37:49,260
to the colors what you don't get are the

980
00:37:54,109 --> 00:37:50,880
red lights which are what the mountain

981
00:37:56,630 --> 00:37:54,119
rescue teams are expecting if people are

982
00:38:00,050 --> 00:37:56,640
firing distress flares so if someone was

983
00:38:02,150 --> 00:38:00,060
out you know pranking and hoaxing you

984
00:38:04,250 --> 00:38:02,160
know you'd expect the lights to be red

985
00:38:06,650 --> 00:38:04,260
but they never are they're always sort

986
00:38:09,109 --> 00:38:06,660
of purple or blue which is a very odd

987
00:38:10,210 --> 00:38:09,119
color for the light

988
00:38:12,770 --> 00:38:10,220

um

989

00:38:14,750 --> 00:38:12,780

there are I mean there are some

990

00:38:16,430 --> 00:38:14,760

conventional explanations for this I

991

00:38:18,710 --> 00:38:16,440

mean one that we haven't mentioned which

992

00:38:21,890 --> 00:38:18,720

has got to be a factor is the fact that

993

00:38:22,730 --> 00:38:21,900

the londondale valley is on one of the

994

00:38:25,630 --> 00:38:22,740

um

995

00:38:28,310 --> 00:38:25,640

the approaches for aircraft going into

996

00:38:29,329 --> 00:38:28,320

Manchester airport now Manchester

997

00:38:31,930 --> 00:38:29,339

Airport is one of the biggest

998

00:38:34,370 --> 00:38:31,940

international airports in in England and

999

00:38:36,530 --> 00:38:34,380

if you're up there at nine I've been up

1000

00:38:38,329 --> 00:38:36,540

there numerous times they're constantly

1001

00:38:40,730 --> 00:38:38,339

coming in they're on a the flight path

1002

00:38:42,770 --> 00:38:40,740

and you can see them stacking up yeah um

1003

00:38:44,690 --> 00:38:42,780

so it's quite possible

1004

00:38:46,970 --> 00:38:44,700

that some of these sightings have been

1005

00:38:50,030 --> 00:38:46,980

caused by people who perhaps are

1006

00:38:52,609 --> 00:38:50,040

unfamiliar with the terrain maybe

1007

00:38:54,829 --> 00:38:52,619

visitors from outside the area who

1008

00:38:56,450 --> 00:38:54,839

aren't familiar with the fact that

1009

00:38:58,790 --> 00:38:56,460

they're on this flight path into

1010

00:39:00,530 --> 00:38:58,800

Manchester and maybe you know unusual

1011

00:39:02,270 --> 00:39:00,540

conditions where you've got missed or

1012

00:39:04,550 --> 00:39:02,280

temperature inversions and they've seen

1013

00:39:06,650 --> 00:39:04,560

something that looks as if it's very

1014

00:39:10,849 --> 00:39:06,660

very close when it's actually quite um

1015

00:39:13,010 --> 00:39:10,859

far away or a higher altitude but again

1016

00:39:15,109 --> 00:39:13,020

that doesn't explain

1017

00:39:17,329 --> 00:39:15,119

um the folklore the stories that date

1018

00:39:20,630 --> 00:39:17,339

back before there was an airport in

1019

00:39:21,829 --> 00:39:20,640

Manchester and it doesn't explain this

1020

00:39:23,089 --> 00:39:21,839

the account

1021

00:39:24,829 --> 00:39:23,099

um that we've been talking about you

1022

00:39:28,310 --> 00:39:24,839

know the one with the the valley filled

1023

00:39:30,470 --> 00:39:28,320

with an entire bluish white light that

1024

00:39:31,790 --> 00:39:30,480

wouldn't be a an aircraft that caused

1025

00:39:33,650 --> 00:39:31,800

that no

1026
00:39:35,810 --> 00:39:33,660
um there are electricity pylons running

1027
00:39:37,730 --> 00:39:35,820
through the valley it's possible that um

1028
00:39:40,329 --> 00:39:37,740
some of the some of the reports are

1029
00:39:43,430 --> 00:39:40,339
caused by you know um electricity

1030
00:39:44,750 --> 00:39:43,440
sparking Saint Elmo's Fire I think it's

1031
00:39:45,890 --> 00:39:44,760
called that kind of thing is a

1032
00:39:48,770 --> 00:39:45,900
possibility

1033
00:39:51,290 --> 00:39:48,780
and there's been um there was a

1034
00:39:52,970 --> 00:39:51,300
physicist at Manchester University

1035
00:39:55,190 --> 00:39:52,980
um who got interested in this but he was

1036
00:39:57,230 --> 00:39:55,200
he was um interested in ball lightning

1037
00:39:58,730 --> 00:39:57,240
and he thought some of the some of the

1038
00:40:01,250 --> 00:39:58,740

sightings could be explained as ball

1039

00:40:04,490 --> 00:40:01,260

lightning but again ball lightning is

1040

00:40:06,950 --> 00:40:04,500

very specific you know it's a it's a

1041

00:40:09,349 --> 00:40:06,960

it's a it's been seen in many many

1042

00:40:13,310 --> 00:40:09,359

different forms and and ball lightning

1043

00:40:15,770 --> 00:40:13,320

does appear inside moving objects I mean

1044

00:40:17,510 --> 00:40:15,780

it's been seen inside aircraft there's a

1045

00:40:19,010 --> 00:40:17,520

classic example

1046

00:40:20,690 --> 00:40:19,020

um several examples where people have

1047

00:40:23,450 --> 00:40:20,700

actually seen lightning balls moving

1048

00:40:25,970 --> 00:40:23,460

down the interior of an aircraft you can

1049

00:40:27,950 --> 00:40:25,980

imagine how terrifying that is

1050

00:40:29,270 --> 00:40:27,960

um so maybe it's possible that um

1051
00:40:31,730 --> 00:40:29,280
something like that could appear inside

1052
00:40:35,030 --> 00:40:31,740
a car and then you've got all the sort

1053
00:40:37,190 --> 00:40:35,040
of um the plasma the coal plasma and all

1054
00:40:39,470 --> 00:40:37,200
this is where we start um shading into

1055
00:40:42,349 --> 00:40:39,480
the UAP

1056
00:40:44,930 --> 00:40:42,359
um theories and Ron haddo in the combine

1057
00:40:48,170 --> 00:40:44,940
report he talks about earth-license and

1058
00:40:50,510 --> 00:40:48,180
plasmas as um as as being the source of

1059
00:40:52,670 --> 00:40:50,520
some of the UAP reports

1060
00:40:53,870 --> 00:40:52,680
and I think what is why this particular

1061
00:40:58,550 --> 00:40:53,880
area

1062
00:41:01,190 --> 00:40:58,560
hairstyle and londondale Colombia and

1063
00:41:03,710 --> 00:41:01,200

the one thing that is that they all have

1064

00:41:05,870 --> 00:41:03,720

in common is that they all have these

1065

00:41:07,849 --> 00:41:05,880

variations that there's not just one

1066

00:41:10,069 --> 00:41:07,859

light phenomena it's like you said the

1067

00:41:11,810 --> 00:41:10,079

strings of Lights there's lights in the

1068

00:41:13,849 --> 00:41:11,820

air a lot of the time there's lights on

1069

00:41:15,589 --> 00:41:13,859

the ground and it's that's what makes it

1070

00:41:17,990 --> 00:41:15,599

even more mysterious that it's not

1071

00:41:19,550 --> 00:41:18,000

consistent uh you know with one type of

1072

00:41:21,829 --> 00:41:19,560

light and that it's it's

1073

00:41:25,069 --> 00:41:21,839

I think that's what's so fascinating and

1074

00:41:28,310 --> 00:41:25,079

in and in Colombia hair style and there

1075

00:41:30,230 --> 00:41:28,320

are stories of people seeing UFOs I know

1076

00:41:31,490 --> 00:41:30,240

a lot of these are anecdotal and but

1077

00:41:36,230 --> 00:41:31,500

they say that you know they're seeing

1078

00:41:38,990 --> 00:41:36,240

physical craft so that adds to the

1079

00:41:41,270 --> 00:41:39,000

Allure let's say of it being something

1080

00:41:44,569 --> 00:41:41,280

generally not of this Earth but yeah

1081

00:41:46,550 --> 00:41:44,579

yeah she saw on the mountain in Colombia

1082

00:41:47,589 --> 00:41:46,560

is it philippena is that how you

1083

00:41:49,490 --> 00:41:47,599

pronounce

1084

00:41:51,589 --> 00:41:49,500

yeah yeah

1085

00:41:53,810 --> 00:41:51,599

um that there was I mean like you

1086

00:41:55,370 --> 00:41:53,820

explained to me really well when we

1087

00:41:57,890 --> 00:41:55,380

talked about this

1088

00:41:58,970 --> 00:41:57,900

um there was no other source for that

1089

00:42:00,710 --> 00:41:58,980

because you were you were literally

1090

00:42:02,630 --> 00:42:00,720

seeing it against the face of the

1091

00:42:05,210 --> 00:42:02,640

mountain and that's not something

1092

00:42:07,430 --> 00:42:05,220

that you would get an aircraft there

1093

00:42:10,010 --> 00:42:07,440

would be no no one up there with torches

1094

00:42:12,470 --> 00:42:10,020

you know in the middle of nowhere

1095

00:42:15,230 --> 00:42:12,480

no I mean and we are going back we are

1096

00:42:17,810 --> 00:42:15,240

going back to kind of just

1097

00:42:19,490 --> 00:42:17,820

try and recreate it by getting as close

1098

00:42:21,609 --> 00:42:19,500

as we can to those different areas on

1099

00:42:24,170 --> 00:42:21,619

the face of the Mountain at night time

1100

00:42:26,630 --> 00:42:24,180

and we're going to take torches up there

1101

00:42:29,450 --> 00:42:26,640

but you know it's only just to fully

1102

00:42:31,130 --> 00:42:29,460

rule it out 100 with 99 sure of course

1103

00:42:33,650 --> 00:42:31,140

but without actually physically doing

1104

00:42:36,410 --> 00:42:33,660

that experiment we wouldn't say you know

1105

00:42:38,569 --> 00:42:36,420

100 because we like to you know do it

1106

00:42:40,670 --> 00:42:38,579

properly but yeah I mean it was it was

1107

00:42:42,410 --> 00:42:40,680

crazy and that's the thing some of the

1108

00:42:44,630 --> 00:42:42,420

photographs that Ashley Cowie had taken

1109

00:42:47,270 --> 00:42:44,640

in the year or two prior to our

1110

00:42:50,510 --> 00:42:47,280

investigation were strange red lights in

1111

00:42:51,829 --> 00:42:50,520

the sky or blue plasma streaks in

1112

00:42:54,230 --> 00:42:51,839

different areas on the mountain it

1113

00:42:57,410 --> 00:42:54,240

wasn't just this one white headlight

1114

00:42:59,630 --> 00:42:57,420

type air ball of light so yeah it's

1115

00:43:02,450 --> 00:42:59,640

fascinating

1116

00:43:04,790 --> 00:43:02,460

um but jumping back to londondale I'm

1117

00:43:06,890 --> 00:43:04,800

gonna bring in bring up this image of

1118

00:43:10,010 --> 00:43:06,900

the devil's elbow just to give an idea

1119

00:43:13,190 --> 00:43:10,020

of the the roads and stuff because I

1120

00:43:15,470 --> 00:43:13,200

drove down this road so you can see it's

1121

00:43:18,829 --> 00:43:15,480

a single you know Lane

1122

00:43:21,890 --> 00:43:18,839

Road twisting through the valley and I

1123

00:43:23,690 --> 00:43:21,900

drove down this twice uh in October once

1124

00:43:25,430 --> 00:43:23,700

in the daytime and then again in the

1125

00:43:27,829 --> 00:43:25,440

evening coming back and

1126
00:43:29,870 --> 00:43:27,839
once you've passed the few Lights of the

1127
00:43:31,550 --> 00:43:29,880
kind of village and and that you and

1128
00:43:36,050 --> 00:43:31,560
you're driving along the side of one of

1129
00:43:37,609 --> 00:43:36,060
the valleys it's so dark and Bleak and I

1130
00:43:39,170 --> 00:43:37,619
was aware obviously of the londondale

1131
00:43:40,849 --> 00:43:39,180
lights I was looking out everywhere but

1132
00:43:43,130 --> 00:43:40,859
you had this sense of oh you wouldn't

1133
00:43:45,710 --> 00:43:43,140
want to be out here at night really and

1134
00:43:47,950 --> 00:43:45,720
so yeah it's a strange old place that's

1135
00:43:50,270 --> 00:43:47,960
for sure and and the the the the the

1136
00:43:52,250 --> 00:43:50,280
naming of it the devil's elbow because

1137
00:43:54,109 --> 00:43:52,260
the traditional one of the traditional

1138
00:43:56,870 --> 00:43:54,119

names for the lights in londondale are

1139

00:43:58,970 --> 00:43:56,880

devils bonfires right and I heard

1140

00:44:01,430 --> 00:43:58,980

various people describing them as that

1141

00:44:03,470 --> 00:44:01,440

so there's obviously a link with

1142

00:44:05,750 --> 00:44:03,480

um you know the evil you know the the

1143

00:44:07,970 --> 00:44:05,760

traditional sort of idea that you know

1144

00:44:10,430 --> 00:44:07,980

if you saw these lights it was the devil

1145

00:44:12,950 --> 00:44:10,440

or odd or demons who were sort of

1146

00:44:15,530 --> 00:44:12,960

dancing in the night or trying to lure

1147

00:44:16,970 --> 00:44:15,540

you into the darkness and this is where

1148

00:44:18,829 --> 00:44:16,980

you get the will of the Wisp stories

1149

00:44:21,290 --> 00:44:18,839

from because this the the will of the

1150

00:44:25,010 --> 00:44:21,300

whist was supposed to be a some kind of

1151

00:44:27,530 --> 00:44:25,020

imp or fairy that people saw

1152

00:44:29,329 --> 00:44:27,540

um when they were out on on their own in

1153

00:44:31,130 --> 00:44:29,339

darkness and you'd think it was a

1154

00:44:32,809 --> 00:44:31,140

lantern carried by someone and people

1155

00:44:34,250 --> 00:44:32,819

would follow it and the more you

1156

00:44:36,109 --> 00:44:34,260

followed it the more it would move away

1157

00:44:38,390 --> 00:44:36,119

and then you'd end up trapped in a bog

1158

00:44:40,430 --> 00:44:38,400

or quicksand or something like that so

1159

00:44:43,190 --> 00:44:40,440

you can see how these stories began to

1160

00:44:46,550 --> 00:44:43,200

link these mysterious lights with evil

1161

00:44:48,190 --> 00:44:46,560

and with you know evil spirits that

1162

00:44:50,690 --> 00:44:48,200

hence the naming of the devil's elbow

1163

00:44:52,730 --> 00:44:50,700

and again with the devil's elbow there

1164

00:44:54,530 --> 00:44:52,740

was a chap I interviewed who must now be

1165

00:44:57,410 --> 00:44:54,540

dead because he was in his late 80s

1166

00:44:58,450 --> 00:44:57,420

early 90s uh when I visited him and that

1167

00:45:02,990 --> 00:44:58,460

would be

1168

00:45:06,170 --> 00:45:03,000

1992 and he was the last um Railway

1169

00:45:08,390 --> 00:45:06,180

worker who who was used to work in the

1170

00:45:10,730 --> 00:45:08,400

signal box in the valley because there's

1171

00:45:13,550 --> 00:45:10,740

a massive tunnel that was that was that

1172

00:45:16,430 --> 00:45:13,560

was made under londondale Valley Lincoln

1173

00:45:17,630 --> 00:45:16,440

Manchester with Sheffield in the 19th

1174

00:45:20,150 --> 00:45:17,640

century and there were hundreds of

1175

00:45:23,089 --> 00:45:20,160

people worked on this many of them um

1176

00:45:25,130 --> 00:45:23,099

Irish laborers who'd come across just to

1177

00:45:28,370 --> 00:45:25,140

work on the project a lot of them are

1178

00:45:30,829 --> 00:45:28,380

buried in the Little Chapel At War dead

1179

00:45:32,270 --> 00:45:30,839

um and for some reason they pulled the

1180

00:45:34,910 --> 00:45:32,280

trains and it's now got a lot of

1181

00:45:37,190 --> 00:45:34,920

electricity pylon running through it but

1182

00:45:39,470 --> 00:45:37,200

he was the last of the Railway men who

1183

00:45:42,109 --> 00:45:39,480

worked on there and he lived in a group

1184

00:45:43,430 --> 00:45:42,119

of cottages in the middle of nowhere and

1185

00:45:44,990 --> 00:45:43,440

loads of people said oh you need to go

1186

00:45:47,030 --> 00:45:45,000

and see John Davis

1187

00:45:49,370 --> 00:45:47,040

um and he was about 80 ate when I saw

1188

00:45:52,309 --> 00:45:49,380

him and he'd actually had

1189

00:45:54,650 --> 00:45:52,319

a most bizarre encounter at the devil's

1190

00:45:57,890 --> 00:45:54,660

elbow one night and he was coming back

1191

00:46:00,349 --> 00:45:57,900

on an old 1950s motorbike and it must

1192

00:46:02,270 --> 00:46:00,359

have been late 1950s or 60s and he he

1193

00:46:04,309 --> 00:46:02,280

came around that bend as you were seeing

1194

00:46:06,829 --> 00:46:04,319

there and there was a big full moon and

1195

00:46:10,010 --> 00:46:06,839

he said he felt all the hair in the back

1196

00:46:12,050 --> 00:46:10,020

of his head rising up before he actually

1197

00:46:13,670 --> 00:46:12,060

saw anything and he stopped his

1198

00:46:15,470 --> 00:46:13,680

motorbike he said just before he got to

1199

00:46:18,050 --> 00:46:15,480

the bend and he could hear something

1200

00:46:21,109 --> 00:46:18,060

coming across the road and he said it

1201

00:46:23,030 --> 00:46:21,119

was this huge intensely black object

1202

00:46:25,990 --> 00:46:23,040

that seemed to sort of come out of the

1203

00:46:28,609 --> 00:46:26,000

more and like almost like um

1204

00:46:31,010 --> 00:46:28,619

moved over the road and dropped into the

1205

00:46:32,750 --> 00:46:31,020

valley below and it was just so dark and

1206

00:46:34,970 --> 00:46:32,760

black it couldn't see anything he

1207

00:46:36,950 --> 00:46:34,980

couldn't see over it or Beyond it almost

1208

00:46:39,470 --> 00:46:36,960

and he described it as like a huge black

1209

00:46:41,210 --> 00:46:39,480

slug and he's almost as if it was coming

1210

00:46:42,829 --> 00:46:41,220

out of the mountain and dropping into

1211

00:46:45,770 --> 00:46:42,839

the valley and he sort of let this thing

1212

00:46:48,829 --> 00:46:45,780

sort of descend and then carried on on

1213

00:46:50,630 --> 00:46:48,839

his way back to his Railway Cottages so

1214

00:46:52,069 --> 00:46:50,640

you've got almost the opposite of a

1215

00:46:54,349 --> 00:46:52,079

light there you've got something that's

1216

00:46:56,990 --> 00:46:54,359

got no light at all as if it sucked all

1217

00:46:58,550 --> 00:46:57,000

the light into it like a mini black hole

1218

00:47:00,770 --> 00:46:58,560

Yeah so there's obviously something

1219

00:47:02,809 --> 00:47:00,780

really bizarre going on there and that's

1220

00:47:04,730 --> 00:47:02,819

why that particular

1221

00:47:06,650 --> 00:47:04,740

um Bend in the road has become known as

1222

00:47:08,510 --> 00:47:06,660

the devil's elbow because if people have

1223

00:47:11,510 --> 00:47:08,520

had those kinds of weird experiences

1224

00:47:14,150 --> 00:47:11,520

year after year after year the place has

1225

00:47:15,650 --> 00:47:14,160

become associated with the supernatural

1226

00:47:17,569 --> 00:47:15,660

yeah

1227

00:47:19,730 --> 00:47:17,579

fascinating and let's let's go back

1228

00:47:21,530 --> 00:47:19,740

because you mentioned the rescue teams

1229

00:47:23,870 --> 00:47:21,540

in there and there's a document that you

1230

00:47:26,450 --> 00:47:23,880

sent me which I think is really uh Worth

1231

00:47:28,490 --> 00:47:26,460

showing as well so I'll bring that up oh

1232

00:47:30,890 --> 00:47:28,500

is this the Mountain Rescue Team log it

1233

00:47:34,609 --> 00:47:30,900

is yeah and this gives you like an idea

1234

00:47:37,970 --> 00:47:34,619

of various sightings let's say so

1235

00:47:39,470 --> 00:47:37,980

if I yeah this is excellent yeah so this

1236

00:47:41,329 --> 00:47:39,480

is when we were doing project pen on

1237

00:47:43,250 --> 00:47:41,339

this is what we got back from loss of

1238

00:47:46,010 --> 00:47:43,260

Mountain Rescue Team and they'd gone

1239

00:47:48,530 --> 00:47:46,020

through their records right back to the

1240

00:47:51,710 --> 00:47:48,540

19 early 1970s and as you can see here

1241

00:47:55,130 --> 00:47:51,720

they've logged all these sightings so

1242

00:47:57,530 --> 00:47:55,140

September 1973 sighting of a red foe

1243

00:47:59,089 --> 00:47:57,540

this was a red flare sorry I'm standing

1244

00:48:01,670 --> 00:47:59,099

corrected

1245

00:48:05,089 --> 00:48:01,680

um but this is reported by a motorist as

1246

00:48:08,089 --> 00:48:05,099

he drove towards blossom um the b6105 is

1247

00:48:09,770 --> 00:48:08,099

where the devil Devil's elbow is right

1248

00:48:11,990 --> 00:48:09,780

um and that appeared to be above

1249

00:48:15,770 --> 00:48:12,000

um cloth Edge Rescue Team search Peak

1250

00:48:18,410 --> 00:48:15,780

news and lots of blue negative result

1251

00:48:20,750 --> 00:48:18,420

second one 1977 this was a police

1252

00:48:24,770 --> 00:48:20,760

sergeant that was um coming over the

1253

00:48:27,650 --> 00:48:24,780

snake pass and he saw a flare Rising

1254

00:48:29,750 --> 00:48:27,660

directly behind Shire Hill so the same

1255

00:48:31,010 --> 00:48:29,760

direction as the first sighting but from

1256

00:48:34,190 --> 00:48:31,020

a different

1257

00:48:35,809 --> 00:48:34,200

direction so when all these are

1258

00:48:38,750 --> 00:48:35,819

triangulated they're all in a similar

1259

00:48:42,050 --> 00:48:38,760

area the one in March February March

1260

00:48:43,550 --> 00:48:42,060

1980 was um the actual team leader of

1261

00:48:45,470 --> 00:48:43,560

loss of Mountain Rescue Team who

1262

00:48:47,809 --> 00:48:45,480

actually provided this info that was his

1263

00:48:49,849 --> 00:48:47,819

own personal sighting of a large

1264

00:48:52,069 --> 00:48:49,859

Searchlight this is on the top of the

1265

00:48:54,770 --> 00:48:52,079

Moor and like he says there vehicle

1266

00:48:56,450 --> 00:48:54,780

access to where he saw this light was

1267

00:48:59,690 --> 00:48:56,460

impossible it's just in the middle of

1268

00:49:01,550 --> 00:48:59,700

nowhere you couldn't take a car up there

1269

00:49:05,329 --> 00:49:01,560

um so what was it

1270

00:49:08,270 --> 00:49:05,339

um then there was another site in 1982 a

1271

00:49:10,370 --> 00:49:08,280

green flare not the sort of normal color

1272

00:49:12,410 --> 00:49:10,380

you would you would let off if you were

1273

00:49:13,430 --> 00:49:12,420

in if you're in trouble

1274

00:49:15,829 --> 00:49:13,440

um again

1275

00:49:18,170 --> 00:49:15,839

um bearing taking taken from the

1276

00:49:21,530 --> 00:49:18,180

location several small parties from the

1277

00:49:24,050 --> 00:49:21,540

rescue team went up there found nothing

1278

00:49:26,450 --> 00:49:24,060

same year later in the same year October

1279

00:49:29,089 --> 00:49:26,460

sighting of a flare Rising between James

1280

00:49:30,530 --> 00:49:29,099

Thorne lower shelf stones again by a

1281

00:49:33,170 --> 00:49:30,540

police officer

1282

00:49:35,150 --> 00:49:33,180

again the search team went out didn't

1283

00:49:36,470 --> 00:49:35,160

find anything and then there's some um

1284

00:49:37,849 --> 00:49:36,480

additional info which is really

1285

00:49:40,370 --> 00:49:37,859

interesting

1286

00:49:41,990 --> 00:49:40,380

the last site in raised interest in the

1287

00:49:44,870 --> 00:49:42,000

phenomenon of the lights in londondale

1288

00:49:46,670 --> 00:49:44,880

lots of people then came forward with um

1289

00:49:48,950 --> 00:49:46,680

sightings recall from previous years

1290

00:49:50,930 --> 00:49:48,960

Barbara drabble being one of them

1291

00:49:53,809 --> 00:49:50,940

and he then says these have taken the

1292

00:49:55,970 --> 00:49:53,819

form of searchlights flares strings of

1293

00:49:59,150 --> 00:49:55,980

Lights crossing the hillside ghostly

1294

00:50:02,329 --> 00:49:59,160

Roman Legions have been reported in the

1295

00:50:03,770 --> 00:50:02,339

vicinity of torside Castle and quite

1296

00:50:05,870 --> 00:50:03,780

intriguing

1297

00:50:07,609 --> 00:50:05,880

um mention then he says that there have

1298

00:50:10,069 --> 00:50:07,619

been other sightings of mysterious

1299

00:50:11,990 --> 00:50:10,079

lights in the same area from one or two

1300

00:50:15,890 --> 00:50:12,000

people who refused to discuss the matter

1301
00:50:19,010 --> 00:50:15,900
any further very odd why why would they

1302
00:50:21,589 --> 00:50:19,020
refuse to discuss it and there's been so

1303
00:50:23,990 --> 00:50:21,599
many sightings at that point this was in

1304
00:50:25,609 --> 00:50:24,000
the late 90s that the police stopped

1305
00:50:27,670 --> 00:50:25,619
didn't bothering in the rescue team

1306
00:50:30,290 --> 00:50:27,680
anymore

1307
00:50:32,150 --> 00:50:30,300
because it obviously it costs a lot of

1308
00:50:34,250 --> 00:50:32,160
money to get the Mountain Rescue Team up

1309
00:50:36,349 --> 00:50:34,260
there with Land Rovers helicopters

1310
00:50:39,650 --> 00:50:36,359
searchlights all this kind of thing

1311
00:50:41,569 --> 00:50:39,660
and he says we would expect a red flare

1312
00:50:43,849 --> 00:50:41,579
to be fired by someone in distress and

1313
00:50:47,210 --> 00:50:43,859

in all the cases with the exception of

1314

00:50:51,710 --> 00:50:47,220

that first one in 1973 the lights or

1315

00:50:55,030 --> 00:50:52,890

fascinating

1316

00:50:57,230 --> 00:50:55,040

[Music]

1317

00:51:00,170 --> 00:50:57,240

am I right in saying that for a while

1318

00:51:04,010 --> 00:51:00,180

there was a webcam upon

1319

00:51:05,569 --> 00:51:04,020

sale yeah so this is um late 1990s when

1320

00:51:07,130 --> 00:51:05,579

I was sort of actively investigating

1321

00:51:09,589 --> 00:51:07,140

this and various other people were

1322

00:51:11,030 --> 00:51:09,599

interested in my classpool did his

1323

00:51:12,410 --> 00:51:11,040

program there was it got a lot of

1324

00:51:14,650 --> 00:51:12,420

attention in fact I think there was even

1325

00:51:16,730 --> 00:51:14,660

a double page spread in the Daily Mail

1326

00:51:21,710 --> 00:51:16,740

about it

1327

00:51:23,270 --> 00:51:21,720

um and this um a lady called Debbie Fair

1328

00:51:25,549 --> 00:51:23,280

um who was I think she worked on the

1329

00:51:28,190 --> 00:51:25,559

radio station in glossop um this was

1330

00:51:29,630 --> 00:51:28,200

when um people was getting online for

1331

00:51:31,670 --> 00:51:29,640

the first time and

1332

00:51:33,589 --> 00:51:31,680

um people had webcams this was a

1333

00:51:34,910 --> 00:51:33,599

completely new phenomenon and she

1334

00:51:37,250 --> 00:51:34,920

thought well why don't I stick one of

1335

00:51:40,309 --> 00:51:37,260

these in my bedroom window because she

1336

00:51:43,069 --> 00:51:40,319

lived in Blossom overlooking them the

1337

00:51:44,150 --> 00:51:43,079

the area where the lights were seen and

1338

00:51:45,710 --> 00:51:44,160

I think she might have been one of the

1339

00:51:47,870 --> 00:51:45,720

first people to do this and she had a

1340

00:51:49,849 --> 00:51:47,880

live webcam looking out over londondale

1341

00:51:51,410 --> 00:51:49,859

Valley which was I think he was in

1342

00:51:54,049 --> 00:51:51,420

existence for two or three years not

1343

00:51:55,730 --> 00:51:54,059

nothing was ever odd was ever seen on

1344

00:51:58,130 --> 00:51:55,740

this webcam but

1345

00:52:00,890 --> 00:51:58,140

um it was just an interest in um

1346

00:52:02,329 --> 00:52:00,900

little expelled experiment she did and I

1347

00:52:03,650 --> 00:52:02,339

know there's been various other people

1348

00:52:05,270 --> 00:52:03,660

in other parts of the world that have

1349

00:52:07,430 --> 00:52:05,280

done similar things there's a team isn't

1350

00:52:08,690 --> 00:52:07,440

there in North Carolina

1351
00:52:10,849 --> 00:52:08,700
um where you've got the Brown Mountain

1352
00:52:12,710 --> 00:52:10,859
Lights and they've set up some kind of

1353
00:52:15,410 --> 00:52:12,720
live webcam again I don't know whether

1354
00:52:17,930 --> 00:52:15,420
this is still live but they had three

1355
00:52:20,690 --> 00:52:17,940
different cameras in different parts of

1356
00:52:22,490 --> 00:52:20,700
Brown Mountain where it's very similar

1357
00:52:24,109 --> 00:52:22,500
lights to longondale lights have been

1358
00:52:25,970 --> 00:52:24,119
seen and I think they did actually

1359
00:52:28,250 --> 00:52:25,980
succeed in capturing something that was

1360
00:52:30,890 --> 00:52:28,260
genuinely anomalous

1361
00:52:32,569 --> 00:52:30,900
yeah the image that I used for the

1362
00:52:33,770 --> 00:52:32,579
thumbnail I think was a brown Mountain

1363
00:52:35,630 --> 00:52:33,780

like I'm just going to bring up my

1364

00:52:38,930 --> 00:52:35,640

screen I've got a couple of other

1365

00:52:41,569 --> 00:52:38,940

uh so I think this is the one I used but

1366

00:52:44,690 --> 00:52:41,579

yeah that looks like it yeah there's

1367

00:52:47,329 --> 00:52:44,700

these kind of streaks with you know

1368

00:52:48,890 --> 00:52:47,339

purple Bluey kind of you know these are

1369

00:52:50,690 --> 00:52:48,900

very similar to what's been captured in

1370

00:52:53,270 --> 00:52:50,700

Colombia especially

1371

00:52:54,650 --> 00:52:53,280

um and her Stalin as well yeah

1372

00:52:57,290 --> 00:52:54,660

so I just think they're absolutely

1373

00:52:59,750 --> 00:52:57,300

fascinating under the scene in every

1374

00:53:01,490 --> 00:52:59,760

part of the world in in Australia there

1375

00:53:03,470 --> 00:53:01,500

is this thing called the Min Min lights

1376
00:53:05,510 --> 00:53:03,480
in um

1377
00:53:08,210 --> 00:53:05,520
Queensland an area in Queensland

1378
00:53:09,589 --> 00:53:08,220
Queensland and I mean I've only just

1379
00:53:11,809 --> 00:53:09,599
sort of skimmed the surface with that

1380
00:53:13,309 --> 00:53:11,819
but there's mountains of literature and

1381
00:53:14,630 --> 00:53:13,319
accounts for people who've seen these

1382
00:53:16,549 --> 00:53:14,640
things and I think

1383
00:53:18,170 --> 00:53:16,559
um the Aboriginal PE peoples of

1384
00:53:19,370 --> 00:53:18,180
Australia they've got Traditions about

1385
00:53:20,650 --> 00:53:19,380
them

1386
00:53:23,210 --> 00:53:20,660
um again

1387
00:53:24,470 --> 00:53:23,220
yeah this is an example of the min-min

1388
00:53:25,910 --> 00:53:24,480

lights

1389

00:53:27,530 --> 00:53:25,920

I think Paul Deborah has actually

1390

00:53:30,290 --> 00:53:27,540

written about these as well in Earth

1391

00:53:33,589 --> 00:53:30,300

flights in his Earth flights but

1392

00:53:35,930 --> 00:53:33,599

I tried I tried to reach out to Paul

1393

00:53:37,609 --> 00:53:35,940

um no response and then I found out that

1394

00:53:39,710 --> 00:53:37,619

he doesn't really give interviews

1395

00:53:42,230 --> 00:53:39,720

because he's worried about what may be

1396

00:53:44,809 --> 00:53:42,240

construed by the the media and they may

1397

00:53:47,450 --> 00:53:44,819

you know uh sort of pick apart his

1398

00:53:49,240 --> 00:53:47,460

interviews to fit a certain narrative so

1399

00:53:49,910 --> 00:53:49,250

you know it is what it is

1400

00:53:50,870 --> 00:53:49,920

[Music]

1401

00:53:52,430 --> 00:53:50,880

um

1402

00:53:53,870 --> 00:53:52,440

but you you know and maybe you could

1403

00:53:55,670 --> 00:53:53,880

have a word with himself yeah well I'm

1404

00:53:57,470 --> 00:53:55,680

saying it in the new year so I'll see if

1405

00:53:59,390 --> 00:53:57,480

I can persuade him to um come on your

1406

00:54:01,010 --> 00:53:59,400

show really that'd be great and we'll do

1407

00:54:02,750 --> 00:54:01,020

this all over again and he could take us

1408

00:54:04,790 --> 00:54:02,760

through some more more sort of aspects

1409

00:54:07,190 --> 00:54:04,800

of it I'm sure he'd be able to add a lot

1410

00:54:09,049 --> 00:54:07,200

more to um to what I've what I've been

1411

00:54:12,109 --> 00:54:09,059

able to summarize today I mean I think

1412

00:54:14,150 --> 00:54:12,119

one thing we can say for sure

1413

00:54:16,670 --> 00:54:14,160

um about these things is that they are

1414

00:54:17,930 --> 00:54:16,680

some kind of natural phenomenon I mean I

1415

00:54:19,849 --> 00:54:17,940

don't know what I mean by it natural

1416

00:54:21,890 --> 00:54:19,859

what I mean is it's something connected

1417

00:54:24,349 --> 00:54:21,900

to the Earth it's not something that's

1418

00:54:26,210 --> 00:54:24,359

coming here from outer space or other

1419

00:54:29,390 --> 00:54:26,220

dimensions it's something that's always

1420

00:54:32,270 --> 00:54:29,400

been here probably been here long before

1421

00:54:34,250 --> 00:54:32,280

humans were around and one of the

1422

00:54:35,750 --> 00:54:34,260

interesting theories

1423

00:54:37,309 --> 00:54:35,760

um I think I came across this again in

1424

00:54:38,690 --> 00:54:37,319

the scientific article there was there

1425

00:54:40,190 --> 00:54:38,700

was some guy that was writing in new

1426
00:54:42,710 --> 00:54:40,200
scientists and he was talking about

1427
00:54:44,450 --> 00:54:42,720
Willa the Wisp and spook lights and he

1428
00:54:46,670 --> 00:54:44,460
was saying he was linking them to

1429
00:54:48,410 --> 00:54:46,680
something he's called extremophiles you

1430
00:54:50,630 --> 00:54:48,420
know that they've found

1431
00:54:52,250 --> 00:54:50,640
um phosphine or evidence of phosphine on

1432
00:54:54,410 --> 00:54:52,260
Venus

1433
00:54:56,690 --> 00:54:54,420
um and he's he his theory is that some

1434
00:54:59,630 --> 00:54:56,700
of these mysterious lights might be

1435
00:55:02,329 --> 00:54:59,640
examples of some kind of sort of very

1436
00:55:04,730 --> 00:55:02,339
sort of basic life forms that exist in

1437
00:55:06,589 --> 00:55:04,740
the atmosphere because there are all

1438
00:55:09,829 --> 00:55:06,599

these stories about um

1439

00:55:11,630 --> 00:55:09,839

that people used to um have about

1440

00:55:14,450 --> 00:55:11,640

um UFOs being some kind of living

1441

00:55:16,430 --> 00:55:14,460

organism rather than a machine yeah and

1442

00:55:18,290 --> 00:55:16,440

and for anyone any any of those people

1443

00:55:20,089 --> 00:55:18,300

who are watching who've seen the film

1444

00:55:21,650 --> 00:55:20,099

noob

1445

00:55:23,329 --> 00:55:21,660

um that was in the cinemas I've

1446

00:55:25,130 --> 00:55:23,339

forgotten the name of the of the

1447

00:55:27,890 --> 00:55:25,140

director now it's very famous director

1448

00:55:29,690 --> 00:55:27,900

from America and the whole um premise of

1449

00:55:32,870 --> 00:55:29,700

it I don't want to give you any spoilers

1450

00:55:35,690 --> 00:55:32,880

is it's it's basically a farmer in

1451

00:55:37,609 --> 00:55:35,700

California who is being plagued by UFO

1452

00:55:40,069 --> 00:55:37,619

sightings and the UFO turns out to be

1453

00:55:42,049 --> 00:55:40,079

like a living organism that that's

1454

00:55:43,190 --> 00:55:42,059

that's up to no good I'm not going to

1455

00:55:45,170 --> 00:55:43,200

say anymore because I don't want to put

1456

00:55:46,970 --> 00:55:45,180

any spoilers for those who haven't seen

1457

00:55:50,150 --> 00:55:46,980

the film but it was obviously drawing

1458

00:55:52,370 --> 00:55:50,160

upon these these ideas and beliefs that

1459

00:55:55,190 --> 00:55:52,380

and this is something that um Charles

1460

00:55:56,750 --> 00:55:55,200

Ford actually wrote about he said maybe

1461

00:55:58,549 --> 00:55:56,760

some of these lights that people have

1462

00:56:00,349 --> 00:55:58,559

seen are living creatures who inhabit

1463

00:56:03,470 --> 00:56:00,359

parts of the atmosphere and occasionally

1464

00:56:05,089 --> 00:56:03,480

they will descend to the ground and

1465

00:56:07,910 --> 00:56:05,099

that's where what people describe as

1466

00:56:10,130 --> 00:56:07,920

these mysterious lights who knows yeah

1467

00:56:11,870 --> 00:56:10,140

and one thing that really pulled ever

1468

00:56:14,089 --> 00:56:11,880

rotates even further where he says yes

1469

00:56:16,370 --> 00:56:14,099

they could be natural phenomena but he

1470

00:56:18,049 --> 00:56:16,380

then adds Consciousness into that to the

1471

00:56:19,849 --> 00:56:18,059

equation so they could yes they could be

1472

00:56:21,829 --> 00:56:19,859

natural Earth lights

1473

00:56:23,870 --> 00:56:21,839

but there may be a Consciousness aspect

1474

00:56:27,470 --> 00:56:23,880

to it which that again is a whole new

1475

00:56:29,870 --> 00:56:27,480

ball game of is it some other non-human

1476
00:56:31,609 --> 00:56:29,880
entity that's aware of of you know and

1477
00:56:33,530 --> 00:56:31,619
that's just fascinating I think that's

1478
00:56:35,510 --> 00:56:33,540
why I like talking about it and looking

1479
00:56:39,349 --> 00:56:35,520
into it as it as it

1480
00:56:42,049 --> 00:56:39,359
relates to the UFO subject but I mean

1481
00:56:43,670 --> 00:56:42,059
um people think that when they see these

1482
00:56:45,290 --> 00:56:43,680
lights and this is the will of the West

1483
00:56:48,170 --> 00:56:45,300
thing again that as they move towards

1484
00:56:49,790 --> 00:56:48,180
them the the light moves away or the

1485
00:56:51,890 --> 00:56:49,800
there's people who've sort of had

1486
00:56:54,109 --> 00:56:51,900
torches or flashlights and they've

1487
00:56:56,990 --> 00:56:54,119
they've directed the light at what the

1488
00:56:59,470 --> 00:56:57,000

scene and these things seem to react but

1489

00:57:02,690 --> 00:56:59,480

bear in mind that human beings are

1490

00:57:05,210 --> 00:57:02,700

electromagnetic creatures you know we've

1491

00:57:07,190 --> 00:57:05,220

we've got an electrical fields around us

1492

00:57:09,589 --> 00:57:07,200

so if you're in the vicinity of say I

1493

00:57:12,170 --> 00:57:09,599

don't know something like a plasma it's

1494

00:57:14,210 --> 00:57:12,180

going to react to you because you've got

1495

00:57:17,030 --> 00:57:14,220

an electrical field so

1496

00:57:19,130 --> 00:57:17,040

you know maybe that explains how people

1497

00:57:21,109 --> 00:57:19,140

sort of interpret what they're seeing as

1498

00:57:23,329 --> 00:57:21,119

if it's something alive as if it's

1499

00:57:26,030 --> 00:57:23,339

intelligent as if it's moving in an

1500

00:57:29,569 --> 00:57:26,040

intelligent way when maybe it's moving

1501
00:57:31,430 --> 00:57:29,579
in in connection with your movements

1502
00:57:34,010 --> 00:57:31,440
who knows

1503
00:57:35,210 --> 00:57:34,020
that's so many theories yeah I think

1504
00:57:38,170 --> 00:57:35,220
that's something that Paul Deborah

1505
00:57:40,010 --> 00:57:38,180
expands upon in in his book yeah

1506
00:57:42,049 --> 00:57:40,020
absolutely

1507
00:57:43,790 --> 00:57:42,059
um and again everyone should check out

1508
00:57:46,069 --> 00:57:43,800
Earth lights but like I said this is the

1509
00:57:47,750 --> 00:57:46,079
second one earthlight's Revelation it's

1510
00:57:49,670 --> 00:57:47,760
fascinating goes into cases from all

1511
00:57:52,549 --> 00:57:49,680
around the world from all different time

1512
00:57:54,530 --> 00:57:52,559
periods so many theories and and things

1513
00:57:56,390 --> 00:57:54,540

like that before we finish off I've got

1514

00:57:57,710 --> 00:57:56,400

a couple of questions from people just

1515

00:58:01,309 --> 00:57:57,720

uh I'd like to

1516

00:58:03,109 --> 00:58:01,319

to acknowledge so Tino says hello Vinnie

1517

00:58:05,170 --> 00:58:03,119

and Dave is there any activity over

1518

00:58:07,910 --> 00:58:05,180

saddle with more area

1519

00:58:09,049 --> 00:58:07,920

yes is the answer to that um I do

1520

00:58:10,370 --> 00:58:09,059

remember when I was doing the project

1521

00:58:12,589 --> 00:58:10,380

Pennine

1522

00:58:14,870 --> 00:58:12,599

um research that there were several um

1523

00:58:17,270 --> 00:58:14,880

cases we didn't look into this because

1524

00:58:19,670 --> 00:58:17,280

we got so distracted by the stuff that

1525

00:58:21,049 --> 00:58:19,680

we got from glossop Mountain Rescue Team

1526

00:58:23,390 --> 00:58:21,059

but there is there was another Mountain

1527

00:58:25,130 --> 00:58:23,400

Rescue Team a bit further north who

1528

00:58:27,349 --> 00:58:25,140

covered saddleworth and we did get some

1529

00:58:28,849 --> 00:58:27,359

accounts from them of very similar

1530

00:58:30,650 --> 00:58:28,859

lights that had been seen over Sable

1531

00:58:32,990 --> 00:58:30,660

with more there's a very famous sighting

1532

00:58:34,130 --> 00:58:33,000

I think he's in one of Jenny Randall's

1533

00:58:36,530 --> 00:58:34,140

books

1534

00:58:38,030 --> 00:58:36,540

um the road that goes over

1535

00:58:40,549 --> 00:58:38,040

um saddle with more that come I think

1536

00:58:42,770 --> 00:58:40,559

it's the it comes out of Oldham and goes

1537

00:58:45,049 --> 00:58:42,780

up onto the Moors towards the

1538

00:58:47,450 --> 00:58:45,059

um n62 there was a case there in the

1539

00:58:48,890 --> 00:58:47,460

1970s where a guy

1540

00:58:51,170 --> 00:58:48,900

um I think I think the guy's name was

1541

00:58:52,609 --> 00:58:51,180

Alan Fallows it's for some reason that

1542

00:58:54,109 --> 00:58:52,619

comes to me and he was driving over

1543

00:58:56,390 --> 00:58:54,119

there late one night and he saw this

1544

00:58:58,849 --> 00:58:56,400

like a ball of light white light that

1545

00:59:00,650 --> 00:58:58,859

sort of came down crossed over the road

1546

00:59:01,430 --> 00:59:00,660

in front of him

1547

00:59:04,190 --> 00:59:01,440

um

1548

00:59:06,049 --> 00:59:04,200

like a huge meteorological balloon but

1549

00:59:08,630 --> 00:59:06,059

it wasn't some heterological balloon it

1550

00:59:10,430 --> 00:59:08,640

was like internally luminous that moved

1551

00:59:12,109 --> 00:59:10,440

across the road and vanished off in the

1552

00:59:14,630 --> 00:59:12,119

direction of londondale

1553

00:59:17,630 --> 00:59:14,640

and and I think the the Mountain Rescue

1554

00:59:20,270 --> 00:59:17,640

Team um involved um had been called out

1555

00:59:22,250 --> 00:59:20,280

some very similar sightings and he was

1556

00:59:25,250 --> 00:59:22,260

absolutely petrified there's this guy

1557

00:59:28,849 --> 00:59:25,260

again reported it to the police so that

1558

00:59:31,010 --> 00:59:28,859

whole area north from londondale up into

1559

00:59:33,530 --> 00:59:31,020

West Yorkshire there are there are

1560

00:59:35,329 --> 00:59:33,540

similar stories and you tend to get sort

1561

00:59:36,890 --> 00:59:35,339

of outbreaks where things will be seen

1562

00:59:39,049 --> 00:59:36,900

regularly for a few years and then

1563

00:59:41,329 --> 00:59:39,059

nothing will be seen for decades and

1564

00:59:42,829 --> 00:59:41,339

then things will be seen again which

1565

00:59:45,470 --> 00:59:42,839

again does suggest it's something

1566

00:59:48,349 --> 00:59:45,480

natural that's causing that yeah yeah

1567

00:59:50,510 --> 00:59:48,359

absolutely a couple more

1568

00:59:52,309 --> 00:59:50,520

um Elena this I mean this is a big

1569

00:59:53,930 --> 00:59:52,319

question is there any way a

1570

00:59:56,390 --> 00:59:53,940

technologically advanced civilization

1571

00:59:58,190 --> 00:59:56,400

could have used the natural battery to

1572

01:00:00,410 --> 00:59:58,200

power multi-dimensional Technologies

1573

01:00:02,870 --> 01:00:00,420

potentially through our interaction with

1574

01:00:05,109 --> 01:00:02,880

consciousness

1575

01:00:08,030 --> 01:00:05,119

I guess it's a

1576

01:00:10,970 --> 01:00:08,040

I've no idea I can't answer that one I'm

1577

01:00:12,890 --> 01:00:10,980

afraid I mean this is when I was talking

1578

01:00:14,990 --> 01:00:12,900

earlier on site interrupt about the the

1579

01:00:17,630 --> 01:00:15,000

red light and the blue shift light that

1580

01:00:21,289 --> 01:00:17,640

we saw in Colombia that that has been

1581

01:00:25,190 --> 01:00:21,299

associated with dimensional shift and so

1582

01:00:28,130 --> 01:00:25,200

I guess that could you know can we say

1583

01:00:30,770 --> 01:00:28,140

it for sure no can we say it's not no so

1584

01:00:32,569 --> 01:00:30,780

well I can only talk I mean that

1585

01:00:34,849 --> 01:00:32,579

question is freezing the very sort of

1586

01:00:37,069 --> 01:00:34,859

modern technological sort of way but as

1587

01:00:39,650 --> 01:00:37,079

a folklorist I can only sort of answer

1588

01:00:41,750 --> 01:00:39,660

it in a sort of folkloric way in the

1589

01:00:43,430 --> 01:00:41,760

people in the past who saw these things

1590

01:00:47,270 --> 01:00:43,440

thought they were seeing things from

1591

01:00:49,910 --> 01:00:47,280

other dimensions I.E you know um people

1592

01:00:53,510 --> 01:00:49,920

who in the past who believed in the

1593

01:00:55,849 --> 01:00:53,520

being another world like Fairyland and

1594

01:00:57,829 --> 01:00:55,859

we came across these lights revolving

1595

01:00:59,569 --> 01:00:57,839

lights and things and there are the

1596

01:01:01,910 --> 01:00:59,579

stories about people being dragged into

1597

01:01:04,789 --> 01:01:01,920

fairy rings and finding themselves in an

1598

01:01:06,410 --> 01:01:04,799

in like Fairyland again in their own way

1599

01:01:08,270 --> 01:01:06,420

they were talking about

1600

01:01:10,670 --> 01:01:08,280

um going almost down a portal into

1601
01:01:12,349 --> 01:01:10,680
another world so we expect we talk about

1602
01:01:14,030 --> 01:01:12,359
this now in a scientific and

1603
01:01:16,910 --> 01:01:14,040
technological way

1604
01:01:19,370 --> 01:01:16,920
yeah absolutely

1605
01:01:21,829 --> 01:01:19,380
um and then finally Yoni says probably

1606
01:01:23,089 --> 01:01:21,839
an absolute ridiculous question but has

1607
01:01:25,430 --> 01:01:23,099
there been research with these lights

1608
01:01:28,130 --> 01:01:25,440
looking at bacteria or single cell-like

1609
01:01:29,690 --> 01:01:28,140
creatures uh there you go yes I mean

1610
01:01:32,329 --> 01:01:29,700
that's that's the theory that I

1611
01:01:33,470 --> 01:01:32,339
mentioned the extremophiles um thing I'm

1612
01:01:35,930 --> 01:01:33,480
trying to I'm trying to find the

1613
01:01:38,150 --> 01:01:35,940

reference it was it was published in a

1614

01:01:40,910 --> 01:01:38,160

in a scientific journal uh something

1615

01:01:42,589 --> 01:01:40,920

like nature or new scientists

1616

01:01:45,650 --> 01:01:42,599

um and um

1617

01:01:48,650 --> 01:01:45,660

ah here we go yeah 2014 paper in the

1618

01:01:51,049 --> 01:01:48,660

philosophical transactions of the Royal

1619

01:01:52,789 --> 01:01:51,059

Society by a guy called Howell Edwards

1620

01:01:55,309 --> 01:01:52,799

and I think you can download this if you

1621

01:01:59,450 --> 01:01:55,319

if you Google for it and he's talking

1622

01:02:03,410 --> 01:01:59,460

about the will of the Wisp and um

1623

01:02:06,170 --> 01:02:03,420

head Edwards um he he he compares the

1624

01:02:07,870 --> 01:02:06,180

elusive nature of these lies with recent

1625

01:02:10,130 --> 01:02:07,880

discoveries of organisms called

1626

01:02:12,170 --> 01:02:10,140

extremophiles that exist deep in the

1627

01:02:14,390 --> 01:02:12,180

ocean in the ocean and in parts of

1628

01:02:16,549 --> 01:02:14,400

Antarctica and he speculates that

1629

01:02:18,829 --> 01:02:16,559

similar organisms organisms might be

1630

01:02:20,870 --> 01:02:18,839

found on Mars and Europa which is

1631

01:02:23,450 --> 01:02:20,880

obviously the two of the two of the

1632

01:02:26,210 --> 01:02:23,460

places where where NASA and some of the

1633

01:02:28,430 --> 01:02:26,220

are looking for evidence of

1634

01:02:29,450 --> 01:02:28,440

um life outside the Earth

1635

01:02:31,430 --> 01:02:29,460

um

1636

01:02:34,069 --> 01:02:31,440

they've actually found traces of

1637

01:02:36,770 --> 01:02:34,079

phosphine and methane

1638

01:02:39,650 --> 01:02:36,780

um which again would suggest very basic

1639

01:02:41,530 --> 01:02:39,660

life forms so you know maybe there is a

1640

01:02:44,450 --> 01:02:41,540

connection there I don't know

1641

01:02:46,970 --> 01:02:44,460

this is what keeps me um involved in

1642

01:02:48,230 --> 01:02:46,980

this subject because it's it just opens

1643

01:02:50,809 --> 01:02:48,240

your mind up to all these amazing

1644

01:02:52,430 --> 01:02:50,819

possibilities yeah absolutely I mean the

1645

01:02:54,049 --> 01:02:52,440

more I research and the more you come

1646

01:02:56,690 --> 01:02:54,059

across these different aspects of the

1647

01:02:59,690 --> 01:02:56,700

phenomena more questions are raised

1648

01:03:01,730 --> 01:02:59,700

which makes you know more research more

1649

01:03:04,190 --> 01:03:01,740

work and and just it just sucks you in

1650

01:03:06,109 --> 01:03:04,200

even further but that I mean that was a

1651
01:03:07,849 --> 01:03:06,119
great conversation and and yeah I mean

1652
01:03:09,109 --> 01:03:07,859
we could probably talk about all the

1653
01:03:11,690 --> 01:03:09,119
different

1654
01:03:13,069 --> 01:03:11,700
cases throughout the world but I think

1655
01:03:14,930 --> 01:03:13,079
you know it was good to pick up on

1656
01:03:16,549 --> 01:03:14,940
something local to us as well I mean

1657
01:03:18,829 --> 01:03:16,559
it's making me considered maybe next

1658
01:03:21,230 --> 01:03:18,839
year going out to spend a few days in

1659
01:03:22,670 --> 01:03:21,240
londondale Wild camping or something and

1660
01:03:25,190 --> 01:03:22,680
it would be worth it wouldn't it and if

1661
01:03:28,970 --> 01:03:25,200
it were possible to install a um you

1662
01:03:31,309 --> 01:03:28,980
know like a um a webcam somewhere in in

1663
01:03:33,230 --> 01:03:31,319

the right Zone you know like you see on

1664

01:03:35,089 --> 01:03:33,240

Spring watch where they have these

1665

01:03:36,670 --> 01:03:35,099

little cameras and the the detect

1666

01:03:39,829 --> 01:03:36,680

movement and you get all these like

1667

01:03:41,750 --> 01:03:39,839

foxes and things that are picked up why

1668

01:03:43,670 --> 01:03:41,760

can't we do that in londondale and have

1669

01:03:44,450 --> 01:03:43,680

something that's looking for these these

1670

01:03:46,430 --> 01:03:44,460

lights

1671

01:03:47,930 --> 01:03:46,440

no absolutely that's what we plan on

1672

01:03:50,150 --> 01:03:47,940

doing Columbia next year we're getting

1673

01:03:52,069 --> 01:03:50,160

some trail cams some sense motion sensor

1674

01:03:55,010 --> 01:03:52,079

trail cams set up on top of the mountain

1675

01:03:56,930 --> 01:03:55,020

just in case there are humans up there

1676
01:03:59,569 --> 01:03:56,940
at night trying to you know Connors and

1677
01:04:02,150 --> 01:03:59,579
that so yeah because at least eliminate

1678
01:04:03,589 --> 01:04:02,160
some of the possible explanations well

1679
01:04:05,690 --> 01:04:03,599
I'll tell you what we could do Dave we

1680
01:04:07,309 --> 01:04:05,700
could go there we could go up there next

1681
01:04:10,670 --> 01:04:07,319
year and I could do one of these like a

1682
01:04:13,030 --> 01:04:10,680
12-hour live stream yeah well we'd have

1683
01:04:15,770 --> 01:04:13,040
to wrap up warm

1684
01:04:17,450 --> 01:04:15,780
yeah no I don't think we get that many

1685
01:04:19,390 --> 01:04:17,460
viewers after a few hours that's for

1686
01:04:21,950 --> 01:04:19,400
sure but anyway

1687
01:04:24,530 --> 01:04:21,960
well listen thank you so much I really

1688
01:04:26,569 --> 01:04:24,540

appreciate you coming on as always

1689

01:04:28,609 --> 01:04:26,579

um before we go I just want to say to

1690

01:04:30,470 --> 01:04:28,619

everybody if you wanted to read David's

1691

01:04:33,289 --> 01:04:30,480

article on the light phenomena in 14

1692

01:04:35,990 --> 01:04:33,299

times it's only available in physical

1693

01:04:38,569 --> 01:04:36,000

form it's not available online it's in

1694

01:04:41,270 --> 01:04:38,579

the September 2022 issue which can be

1695

01:04:44,270 --> 01:04:41,280

ordered online you know back issues uh

1696

01:04:46,430 --> 01:04:44,280

for anybody that wants to watch our

1697

01:04:48,950 --> 01:04:46,440

uh documentary series from Columbia

1698

01:04:51,470 --> 01:04:48,960

phenomenology the link is in the

1699

01:04:53,809 --> 01:04:51,480

description now and also there is a 25

1700

01:04:55,910 --> 01:04:53,819

off discount code which is only

1701

01:04:57,589 --> 01:04:55,920

available for a limited time I think

1702

01:04:59,329 --> 01:04:57,599

till the end of the year so only a few

1703

01:05:01,309 --> 01:04:59,339

more days

1704

01:05:04,010 --> 01:05:01,319

um and we are going back out in April

1705

01:05:06,289 --> 01:05:04,020

next year to continue that so I hope you

1706

01:05:07,549 --> 01:05:06,299

guys enjoyed this uh Show on Earth

1707

01:05:09,109 --> 01:05:07,559

lights

1708

01:05:10,549 --> 01:05:09,119

um like I said it's certainly a really

1709

01:05:12,770 --> 01:05:10,559

interesting aspect of the phenomena

1710

01:05:15,109 --> 01:05:12,780

that's really captured me

1711

01:05:17,870 --> 01:05:15,119

and yeah that's about it I think

1712

01:05:20,230 --> 01:05:17,880

thank you and happy New Year yeah happy

1713

01:05:23,329 --> 01:05:20,240

New Year everyone right yeah

1714

01:05:24,589 --> 01:05:23,339

2023. yeah thank you to everybody in the

1715

01:05:26,390 --> 01:05:24,599

live chat as always for being here

1716

01:05:29,450 --> 01:05:26,400

everyone that listens or watches after

1717

01:05:31,609 --> 01:05:29,460

the fact thank you also and I'll see you

1718

01:05:33,589 --> 01:05:31,619

now yeah I think this was the last show

1719

01:05:35,630 --> 01:05:33,599

of 2022 I'll be back in the New Year

1720

01:05:37,549 --> 01:05:35,640

I've got all sorts coming up so go and

1721

01:05:40,190 --> 01:05:37,559

check it out go and follow me on all my

1722

01:05:41,750 --> 01:05:40,200

socials links to follow David as well on

1723

01:05:43,010 --> 01:05:41,760

his blog his Twitter are in the

1724

01:05:44,870 --> 01:05:43,020

description as well

1725

01:05:47,690 --> 01:05:44,880

I think that covers it guys so for now
