Jay Stratton Steps Out of The Shadows

The Pentagon's Highest
Ranking UFO Hunter
Steps Out Of The Shadows
To Highlight His Work
On The UFO Topic

**DISCLOSURE
TEAM**

1
00:00:32,630 --> 00:00:11,890

[Music]

2
00:00:36,049 --> 00:00:32,640
welcome back everybody to another video

3
00:00:39,170 --> 00:00:36,059
I'm your host Vinnie Adams and joining

4
00:00:41,869 --> 00:00:39,180
me today for the first time is my

5
00:00:45,290 --> 00:00:41,879
co-host so please welcome

6
00:00:47,810 --> 00:00:45,300
Katie Howland Katie how are you

7
00:00:49,790 --> 00:00:47,820
amazing it's so good to finally be in

8
00:00:52,610 --> 00:00:49,800
The Coho seat I'm so happy to be here

9
00:00:55,310 --> 00:00:52,620
and so grateful for the invite it's

10
00:00:58,670 --> 00:00:55,320
gonna be fun it is it's already we've

11
00:01:00,470 --> 00:00:58,680
already got many plans underway and I

12
00:01:02,090 --> 00:01:00,480
think in the coming months it's uh it's

13
00:01:03,349 --> 00:01:02,100

gonna be a nice pleasant change around

14

00:01:05,750 --> 00:01:03,359

here and we're really going to step it

15

00:01:07,969 --> 00:01:05,760

up so I can't wait and I'm just so glad

16

00:01:10,730 --> 00:01:07,979

that we are starting off right now so

17

00:01:13,429 --> 00:01:10,740

thank you oh let's do it

18

00:01:17,330 --> 00:01:13,439

excellent just for anybody watching this

19

00:01:19,070 --> 00:01:17,340

is a pre-recorded interview uh so

20

00:01:22,070 --> 00:01:19,080

any questions you put in the chat will

21

00:01:23,870 --> 00:01:22,080

not be answered thank you anyway but

22

00:01:26,450 --> 00:01:23,880

let's not waste any more time

23

00:01:28,310 --> 00:01:26,460

um please welcome our guest Mr

24

00:01:32,149 --> 00:01:28,320

Christopher Sharp

25

00:01:36,890 --> 00:01:34,550

oh I'm doing well thank you it's an

26

00:01:39,710 --> 00:01:36,900

honor to be on with you guys especially

27

00:01:41,569 --> 00:01:39,720

for Katie's first show I'm so excited

28

00:01:43,010 --> 00:01:41,579

I've admired you ever since you've kind

29

00:01:45,410 --> 00:01:43,020

of like come to prominence in the

30

00:01:47,690 --> 00:01:45,420

community and uh yeah this is just a

31

00:01:50,149 --> 00:01:47,700

true honor to be here but your show you

32

00:01:51,830 --> 00:01:50,159

know a respect you both so much so thank

33

00:01:53,749 --> 00:01:51,840

you for having me on

34

00:01:55,850 --> 00:01:53,759

oh thank you

35

00:01:59,210 --> 00:01:55,860

I'll make sure to slip you a 10 after

36

00:02:02,510 --> 00:02:01,069

well Chris listen you become quite the

37

00:02:04,490 --> 00:02:02,520

regular here now and you've been really

38

00:02:06,230 --> 00:02:04,500

breaking some amazing Stories so I

39

00:02:08,690 --> 00:02:06,240

thought it was just only natural to get

40

00:02:10,550 --> 00:02:08,700

you on to talk about Jay Stratton coming

41

00:02:11,990 --> 00:02:10,560

out of the Shadows

42

00:02:15,050 --> 00:02:12,000

um because the more we sort of learn

43

00:02:16,430 --> 00:02:15,060

about this guy it it not only shows that

44

00:02:19,010 --> 00:02:16,440

he was an important role and an

45

00:02:21,290 --> 00:02:19,020

important figure in the subject but it

46

00:02:23,570 --> 00:02:21,300

also helps other people such as Lu

47

00:02:25,190 --> 00:02:23,580

Elizondo solidify what they've been

48

00:02:27,050 --> 00:02:25,200

saying and the positions they held and

49

00:02:29,210 --> 00:02:27,060

things like that and so it'd be great if

50

00:02:31,610 --> 00:02:29,220

we can just discuss all of that

51
00:02:32,869 --> 00:02:31,620
um I think one thing is as well is since

52
00:02:34,670 --> 00:02:32,879
you were last on the channel I think

53
00:02:36,110 --> 00:02:34,680
you've released three articles pretty

54
00:02:38,570 --> 00:02:36,120
much based around the work of George

55
00:02:40,130 --> 00:02:38,580
Knapp and Jeremy Corbell so are you able

56
00:02:42,350 --> 00:02:40,140
to tell us about have you got like a

57
00:02:44,990 --> 00:02:42,360
working relationship with them now

58
00:02:47,030 --> 00:02:45,000
that's correct yes so

59
00:02:48,949 --> 00:02:47,040
um Jeremy George and I work very very

60
00:02:51,890 --> 00:02:48,959
close together

61
00:02:53,390 --> 00:02:51,900
um on these stories to make sure they

62
00:02:55,550 --> 00:02:53,400
they come out properly

63
00:02:57,589 --> 00:02:55,560

and that there's no BS attached that

64

00:02:58,970 --> 00:02:57,599

nothing's embellished we just report the

65

00:03:01,790 --> 00:02:58,980

story straight

66

00:03:03,350 --> 00:03:01,800

uh so so that's that's what we aim to do

67

00:03:04,490 --> 00:03:03,360

so obviously

68

00:03:06,110 --> 00:03:04,500

um you know you've got the weaponized

69

00:03:09,290 --> 00:03:06,120

podcast which is the long form and then

70

00:03:11,149 --> 00:03:09,300

what I do is I kind of come along and I

71

00:03:13,430 --> 00:03:11,159

get a story from that take away all the

72

00:03:15,530 --> 00:03:13,440

key Parts if I can I try to get a little

73

00:03:17,930 --> 00:03:15,540

bit more information on them to find

74

00:03:19,910 --> 00:03:17,940

other angles and say that we need to

75

00:03:22,430 --> 00:03:19,920

focus a bit more on on this you can get

76

00:03:25,729 --> 00:03:22,440

more information and um we have a

77

00:03:28,729 --> 00:03:25,739

fantastic working relationship

78

00:03:32,330 --> 00:03:28,739

um and I've got so much respect for both

79

00:03:34,070 --> 00:03:32,340

you know Jeremy and George and I mean

80

00:03:36,410 --> 00:03:34,080

kind of like seeing how the inner

81

00:03:38,449 --> 00:03:36,420

workings of how they work on a story you

82

00:03:41,089 --> 00:03:38,459

get so much respect for how careful they

83

00:03:42,770 --> 00:03:41,099

are how careful they are and they're

84

00:03:45,350 --> 00:03:42,780

obsessive about the truth as well

85

00:03:46,369 --> 00:03:45,360

they're obsessive about the truth

86

00:03:48,170 --> 00:03:46,379

um making sure they're getting

87

00:03:50,330 --> 00:03:48,180

everything accurate the small details

88

00:03:52,970 --> 00:03:50,340

are really really count the context

89

00:03:54,649 --> 00:03:52,980

counts and I think most of all I can

90

00:03:57,050 --> 00:03:54,659

really respect as well that they protect

91

00:03:58,610 --> 00:03:57,060

they protect these people who are coming

92

00:04:01,369 --> 00:03:58,620

forward so they're very very protective

93

00:04:04,910 --> 00:04:01,379

of their because you know that the likes

94

00:04:07,070 --> 00:04:04,920

of you know Jay and John Gutierrez kind

95

00:04:08,449 --> 00:04:07,080

of coming out for the first time in

96

00:04:11,210 --> 00:04:08,459

public but that's a that's a really

97

00:04:13,250 --> 00:04:11,220

really big deal especially for them

98

00:04:15,410 --> 00:04:13,260

um and you know what the UFO means you

99

00:04:17,210 --> 00:04:15,420

can be like as well so

100

00:04:19,969 --> 00:04:17,220

um no it's it's a great relationship

101
00:04:22,550 --> 00:04:19,979
that we have and um I'm hopeful that we

102
00:04:23,990 --> 00:04:22,560
can break some more fantastic material

103
00:04:26,210 --> 00:04:24,000
together

104
00:04:27,590 --> 00:04:26,220
well it's great that you can take you

105
00:04:29,510 --> 00:04:27,600
know all of the good nuggets that are

106
00:04:30,890 --> 00:04:29,520
coming out from weaponized and perhaps

107
00:04:32,689 --> 00:04:30,900
give it to a new audience you know

108
00:04:34,430 --> 00:04:32,699
that's one of the benefits of having

109
00:04:36,650 --> 00:04:34,440
those close relationships especially

110
00:04:38,030 --> 00:04:36,660
across the pond

111
00:04:39,710 --> 00:04:38,040
um so really happy that you're doing

112
00:04:41,510 --> 00:04:39,720
that and amplifies with the great

113
00:04:43,850 --> 00:04:41,520

content that's coming out

114

00:04:45,590 --> 00:04:43,860

thank you yeah no and and the thing is

115

00:04:48,050 --> 00:04:45,600

what about an article is you know people

116

00:04:49,490 --> 00:04:48,060

uh people can print it out you can send

117

00:04:51,530 --> 00:04:49,500

it on to each other and stuff like that

118

00:04:52,969 --> 00:04:51,540

so you know people in the Pentagon

119

00:04:55,550 --> 00:04:52,979

wanted to share it or something like

120

00:04:57,650 --> 00:04:55,560

that they can do that and um one would

121

00:04:59,629 --> 00:04:57,660

hope that is occurring because

122

00:05:01,790 --> 00:04:59,639

um I think you know these things that

123

00:05:03,710 --> 00:05:01,800

Jeremy and Georgia are breaking are

124

00:05:05,570 --> 00:05:03,720

causing huge waves and all credit for

125

00:05:08,330 --> 00:05:05,580

them you know this is this is what

126
00:05:11,749 --> 00:05:08,340
happens if you're trusted

127
00:05:15,010 --> 00:05:11,759
and the as Jeremy says the best way to

128
00:05:16,790 --> 00:05:15,020
be entrusted is to be trustworthy and

129
00:05:18,710 --> 00:05:16,800
you know the fact that they're getting

130
00:05:19,730 --> 00:05:18,720
all these exclusives they can break just

131
00:05:23,450 --> 00:05:19,740
shows

132
00:05:25,370 --> 00:05:23,460
how much Integrity they they both have

133
00:05:26,930 --> 00:05:25,380
um so yeah I'm really enjoying the

134
00:05:29,270 --> 00:05:26,940
moment I'm learning so much from them as

135
00:05:32,510 --> 00:05:29,280
well so it's been a great experience

136
00:05:34,070 --> 00:05:32,520
yeah that's amazing excuse me

137
00:05:36,590 --> 00:05:34,080
I do have a little bit of a cough and a

138
00:05:38,029 --> 00:05:36,600

cold so I may have to mute myself going

139

00:05:41,150 --> 00:05:38,039

forward

140

00:05:43,490 --> 00:05:41,160

um throw me off I can edit this out oh I

141

00:05:46,430 --> 00:05:43,500

can just leave it in

142

00:05:47,810 --> 00:05:46,440

um so yeah what I would obviously I

143

00:05:49,070 --> 00:05:47,820

brought you on and asked you to come on

144

00:05:51,590 --> 00:05:49,080

because I wanted to speak about Jay

145

00:05:53,270 --> 00:05:51,600

Stratton um so we'll jump onto that one

146

00:05:57,409 --> 00:05:53,280

first but I would like to touch upon the

147

00:05:58,790 --> 00:05:57,419

Gutierrez case with the 2019 drone swarm

148

00:06:00,650 --> 00:05:58,800

um but we'll go back we'll play it in

149

00:06:01,969 --> 00:06:00,660

reverse so we'll start with Stratton and

150

00:06:03,770 --> 00:06:01,979

I guess my question is not just you

151

00:06:06,590 --> 00:06:03,780

Chris but Katie as well is what did you

152

00:06:08,570 --> 00:06:06,600

guys know about Jay Stratton before he

153

00:06:11,689 --> 00:06:08,580

came out this week

154

00:06:13,610 --> 00:06:11,699

I mean I knew very little only what what

155

00:06:16,550 --> 00:06:13,620

Whispers had come through the grapevine

156

00:06:18,290 --> 00:06:16,560

I was aware he was Axelrod was aware

157

00:06:20,689 --> 00:06:18,300

that he had been involved in a number of

158

00:06:22,249 --> 00:06:20,699

the programs but it was great to see him

159

00:06:24,830 --> 00:06:22,259

finally come forward for the first time

160

00:06:27,230 --> 00:06:24,840

you know I think we all knew alien Colin

161

00:06:28,490 --> 00:06:27,240

is coming up uh regardless of I know

162

00:06:30,290 --> 00:06:28,500

there's lots of mixed feelings about

163

00:06:32,749 --> 00:06:30,300

that appearance but

164

00:06:34,969 --> 00:06:32,759

um I think it was great to see him in a

165

00:06:37,490 --> 00:06:34,979

more sober serious environment

166

00:06:39,350 --> 00:06:37,500

um and yeah it was it was really

167

00:06:42,050 --> 00:06:39,360

interesting I was most interested by the

168

00:06:43,870 --> 00:06:42,060

timing why now so Chris I'd love to hear

169

00:06:48,529 --> 00:06:43,880

what you thought too

170

00:06:51,770 --> 00:06:48,539

yeah absolutely so I I was aware that he

171

00:06:54,590 --> 00:06:51,780

was the head of the uapf

172

00:06:56,749 --> 00:06:54,600

um and that he got taken not just after

173

00:06:58,490 --> 00:06:56,759

it got passed into law in terms of that

174

00:07:00,170 --> 00:06:58,500

ndaa which

175

00:07:01,969 --> 00:07:00,180

um obviously

176

00:07:04,610 --> 00:07:01,979

um put into law that that report had to

177

00:07:05,469 --> 00:07:04,620

be released from the uapf

178

00:07:07,909 --> 00:07:05,479

um

179

00:07:08,990 --> 00:07:07,919

which is a its own story and I don't

180

00:07:10,550 --> 00:07:09,000

have much details about that

181

00:07:12,830 --> 00:07:10,560

unfortunately

182

00:07:14,570 --> 00:07:12,840

um and I knew as well that

183

00:07:16,309 --> 00:07:14,580

um you know now he works really good

184

00:07:19,790 --> 00:07:16,319

Technologies

185

00:07:22,010 --> 00:07:19,800

um he's a specialist in terms of

186

00:07:23,270 --> 00:07:22,020

um kind of a foreign foreign weapon

187

00:07:24,890 --> 00:07:23,280

systems

188

00:07:27,890 --> 00:07:24,900

um like you said in the interview like

189

00:07:30,710 --> 00:07:27,900

he knows how they fly I mean it's not

190

00:07:33,650 --> 00:07:30,720

just knowing like oh that's you know a

191

00:07:35,990 --> 00:07:33,660

MIG 21 or whatever it's like oh there

192

00:07:37,490 --> 00:07:36,000

are Russians flying that and this is how

193

00:07:39,890 --> 00:07:37,500

we know there are Russians 5x because we

194

00:07:42,950 --> 00:07:39,900

know how they fly so it's that intrinsic

195

00:07:44,450 --> 00:07:42,960

detail which is so important and

196

00:07:47,270 --> 00:07:44,460

um yeah and also absolutely specialist

197

00:07:49,309 --> 00:07:47,280

because like reverse engineering so uh

198

00:07:54,469 --> 00:07:49,319

yeah he's uh he's a very very

199

00:07:58,610 --> 00:07:56,390

yeah and one of the things that that

200

00:08:00,110 --> 00:07:58,620

also struck me was

201
00:08:04,070 --> 00:08:00,120
um when they were talking about visiting

202
00:08:05,990 --> 00:08:04,080
Radiance Technologies in the podcast and

203
00:08:08,570 --> 00:08:06,000
um being able to peek in and hear about

204
00:08:09,830 --> 00:08:08,580
all of the people on staff who were you

205
00:08:12,529 --> 00:08:09,840
know very very knowledgeable about

206
00:08:15,830 --> 00:08:12,539
reverse engineering that made me think

207
00:08:17,510 --> 00:08:15,840
that they you know may not be working on

208
00:08:19,790 --> 00:08:17,520
those programs now but maybe they're

209
00:08:21,469 --> 00:08:19,800
pre-positioning for some bids in the

210
00:08:23,809 --> 00:08:21,479
future and I'm really curious you know

211
00:08:26,689 --> 00:08:23,819
over in the UK do you think you'll see

212
00:08:28,369 --> 00:08:26,699
something similar

213
00:08:31,790 --> 00:08:28,379

I think you'll see companies trying to

214

00:08:33,769 --> 00:08:31,800

swipe up talent in anticipation of more

215

00:08:35,810 --> 00:08:33,779

contracts coming through

216

00:08:38,990 --> 00:08:35,820

well I suppose the big one here is BAE

217

00:08:40,190 --> 00:08:39,000

Systems uh which is a really really big

218

00:08:44,930 --> 00:08:40,200

one

219

00:08:47,750 --> 00:08:44,940

um so yeah yeah I I think that that

220

00:08:50,030 --> 00:08:47,760

might be the case as we said before

221

00:08:51,949 --> 00:08:50,040

um I mean I know I'm not saying that you

222

00:08:53,090 --> 00:08:51,959

know this is something I know from

223

00:08:54,889 --> 00:08:53,100

knowledge or anything it's just

224

00:08:58,009 --> 00:08:54,899

basically like we discussed last time

225

00:09:00,170 --> 00:08:58,019

wasn't it that look China can be working

226
00:09:01,850 --> 00:09:00,180
on a reverse engineering program have

227
00:09:03,889 --> 00:09:01,860
hundreds if not thousands of people

228
00:09:05,389 --> 00:09:03,899
working on it be able to keep their

229
00:09:07,190 --> 00:09:05,399
mouths shut because it's not fairly

230
00:09:10,130 --> 00:09:07,200
terrain regime you've literally got like

231
00:09:14,269 --> 00:09:10,140
a Communist Party officer

232
00:09:17,449 --> 00:09:14,279
um spying on every 100 of the population

233
00:09:20,449 --> 00:09:17,459
um so that that's how much you can keep

234
00:09:22,329 --> 00:09:20,459
Secret in China so in America if it's

235
00:09:24,530 --> 00:09:22,339
all kind of spread out in

236
00:09:26,210 --> 00:09:24,540
compartmentalized with like you know two

237
00:09:28,009 --> 00:09:26,220
people working on a program and they're

238
00:09:30,410 --> 00:09:28,019

not allowed to call anyone for expertise

239

00:09:31,970 --> 00:09:30,420

advice they get stuck then that's a huge

240

00:09:34,310 --> 00:09:31,980

problem so

241

00:09:36,889 --> 00:09:34,320

um yeah yeah one would hope that if that

242

00:09:38,990 --> 00:09:36,899

was the case and if it was working like

243

00:09:41,810 --> 00:09:39,000

that you would be able to kind of really

244

00:09:43,430 --> 00:09:41,820

open this up to all the emerging

245

00:09:46,670 --> 00:09:43,440

um you know companies out there with

246

00:09:49,070 --> 00:09:46,680

best talent um so yeah that that would

247

00:09:51,829 --> 00:09:49,080

be one hope of mine and uh yeah one

248

00:09:54,769 --> 00:09:51,839

could hope for like an Apollo moment

249

00:09:56,630 --> 00:09:54,779

where a new era of technology is

250

00:09:59,810 --> 00:09:56,640

discovered for the next decade if we

251
00:10:03,110 --> 00:09:59,820
open this stuff up which could make all

252
00:10:05,030 --> 00:10:03,120
of our Lives Infinity in infinite better

253
00:10:07,009 --> 00:10:05,040
basically than it is at the moment in

254
00:10:09,710 --> 00:10:07,019
terms of life expectancy the energy

255
00:10:11,570 --> 00:10:09,720
crisis and hopefully we can we can kind

256
00:10:13,130 --> 00:10:11,580
of like step forward as one Humanity

257
00:10:14,990 --> 00:10:13,140
especially with the United Nations

258
00:10:17,210 --> 00:10:15,000
project at the moment in terms of

259
00:10:19,910 --> 00:10:17,220
project title which is huge as well so

260
00:10:21,410 --> 00:10:19,920
uh yeah one would hope that um this is a

261
00:10:22,370 --> 00:10:21,420
really good step into the right

262
00:10:24,889 --> 00:10:22,380
direction

263
00:10:26,750 --> 00:10:24,899

yeah absolutely no I appreciate both

264

00:10:28,670 --> 00:10:26,760

your comments there what I'd like to do

265

00:10:29,870 --> 00:10:28,680

now if that's okay is um like we

266

00:10:31,850 --> 00:10:29,880

mentioned earlier You released this

267

00:10:33,829 --> 00:10:31,860

article in The Liberation times with the

268

00:10:36,290 --> 00:10:33,839

the highlights let's say of the Jay

269

00:10:37,970 --> 00:10:36,300

Stratton story so if we bring it up I'd

270

00:10:40,550 --> 00:10:37,980

just like touch upon a few points we can

271

00:10:42,829 --> 00:10:40,560

kind of go through it and uh

272

00:10:44,509 --> 00:10:42,839

feel free either of you to just if you

273

00:10:46,910 --> 00:10:44,519

see anything or we think of a point that

274

00:10:48,170 --> 00:10:46,920

you want to talk about just just go for

275

00:10:54,710 --> 00:10:48,180

it

276

00:10:57,050 --> 00:10:54,720

there he is

277

00:10:59,150 --> 00:10:57,060

there's the man of the hour

278

00:11:00,610 --> 00:10:59,160

don't tell me if you spot any typos by

279

00:11:05,290 --> 00:11:00,620

the way I don't want to know

280

00:11:07,910 --> 00:11:05,300

I'm not I'm not the police don't worry

281

00:11:10,670 --> 00:11:07,920

yeah no I think what was good as well is

282

00:11:13,550 --> 00:11:10,680

a lot of the you know he he came out in

283

00:11:15,530 --> 00:11:13,560

this uh on this podcast and they were

284

00:11:17,329 --> 00:11:15,540

switching between his interview and then

285

00:11:19,910 --> 00:11:17,339

back to Jeremy and George talking and

286

00:11:20,930 --> 00:11:19,920

then back to Jay so we didn't get like a

287

00:11:23,090 --> 00:11:20,940

full

288

00:11:24,769 --> 00:11:23,100

length let's say interview with him we

289

00:11:25,910 --> 00:11:24,779

got some sort of pointers but I think

290

00:11:27,949 --> 00:11:25,920

some of the

291

00:11:29,810 --> 00:11:27,959

statements that he made were quite

292

00:11:32,810 --> 00:11:29,820

interesting and you know they weren't

293

00:11:34,250 --> 00:11:32,820

like directly saying something but I

294

00:11:36,530 --> 00:11:34,260

think you can interpret them in certain

295

00:11:38,630 --> 00:11:36,540

ways which maybe some people might say

296

00:11:40,250 --> 00:11:38,640

sometimes can be a bad thing but you

297

00:11:43,130 --> 00:11:40,260

know we can still wait and see what else

298

00:11:44,990 --> 00:11:43,140

he comes with further down the line but

299

00:11:47,389 --> 00:11:45,000

I did like this one here where it says

300

00:11:49,610 --> 00:11:47,399

uh I kept an open mind a skeptic mind

301
00:11:51,170 --> 00:11:49,620
whatever you want to call it looking for

302
00:11:53,329 --> 00:11:51,180
something that can answer this in all

303
00:11:54,710 --> 00:11:53,339
the means that I had to chase that but

304
00:11:56,810 --> 00:11:54,720
there were definitely some times where

305
00:11:58,310 --> 00:11:56,820
we really couldn't close the loop and we

306
00:12:01,069 --> 00:11:58,320
realized that something needed to be

307
00:12:02,630 --> 00:12:01,079
done about it I find that quite

308
00:12:04,670 --> 00:12:02,640
I don't know don't know what the word is

309
00:12:07,190 --> 00:12:04,680
but what do you guys think

310
00:12:08,449 --> 00:12:07,200
I mean I I was shocked when I when I

311
00:12:10,250 --> 00:12:08,459
read

312
00:12:11,750 --> 00:12:10,260
forward thing to say for a man of that

313
00:12:12,949 --> 00:12:11,760

experience

314

00:12:15,290 --> 00:12:12,959

uh you know I think we should pull up

315

00:12:17,269 --> 00:12:15,300

his LinkedIn later and we'll show all

316

00:12:19,069 --> 00:12:17,279

the various titles he's held

317

00:12:21,350 --> 00:12:19,079

he knows what he's talking about so for

318

00:12:23,870 --> 00:12:21,360

someone of that caliber you know he's

319

00:12:25,009 --> 00:12:23,880

senior executive service

320

00:12:26,870 --> 00:12:25,019

um

321

00:12:28,490 --> 00:12:26,880

it's a little controversial to say he's

322

00:12:29,870 --> 00:12:28,500

equivalent to a two star but that's the

323

00:12:32,389 --> 00:12:29,880

easiest way to describe it just don't

324

00:12:33,590 --> 00:12:32,399

say that to someone actually with two

325

00:12:37,130 --> 00:12:33,600

stars

326

00:12:39,050 --> 00:12:37,140

um and so this really stood out to me

327

00:12:41,509 --> 00:12:39,060

and I think that should stand out to

328

00:12:43,430 --> 00:12:41,519

anyone not just in the UFO Community but

329

00:12:44,449 --> 00:12:43,440

in the defense Community as well what do

330

00:12:46,250 --> 00:12:44,459

you think Chris

331

00:12:48,230 --> 00:12:46,260

yeah I think it's going to burst some

332

00:12:51,350 --> 00:12:48,240

balloons let's say

333

00:12:55,970 --> 00:12:53,810

yeah yeah I I think you know like um you

334

00:12:57,769 --> 00:12:55,980

have to go back to the uaptf report

335

00:13:00,530 --> 00:12:57,779

because a lot of that came from a

336

00:13:02,030 --> 00:13:00,540

presentation that um Stratton had

337

00:13:03,410 --> 00:13:02,040

prepared so you look at some of the

338

00:13:05,150 --> 00:13:03,420

things

339

00:13:08,030 --> 00:13:05,160

um on that like I mentioned last time

340

00:13:10,370 --> 00:13:08,040

signature management

341

00:13:13,790 --> 00:13:10,380

um you know so so that could be low

342

00:13:17,090 --> 00:13:13,800

visibility instantaneous acceleration

343

00:13:20,210 --> 00:13:17,100

um as well as reported um radar jamming

344

00:13:21,769 --> 00:13:20,220

stuff like that so yeah that that was

345

00:13:24,290 --> 00:13:21,779

something really really big in that

346

00:13:27,650 --> 00:13:24,300

uapgf report and if you've got someone

347

00:13:30,530 --> 00:13:27,660

like Stratton who can't

348

00:13:32,569 --> 00:13:30,540

kind of close that Loop that's a really

349

00:13:33,769 --> 00:13:32,579

big deal because you know this is

350

00:13:36,590 --> 00:13:33,779

someone who

351
00:13:38,690 --> 00:13:36,600
who knows the foreign weapon systems he

352
00:13:40,610 --> 00:13:38,700
knows how the Russians he knows how the

353
00:13:43,730 --> 00:13:40,620
training is so he's very very well aware

354
00:13:45,769 --> 00:13:43,740
of what this stuff is and I'd also

355
00:13:48,170 --> 00:13:45,779
mention as well in terms of the first

356
00:13:50,269 --> 00:13:48,180
quotation that's really really key

357
00:13:52,790 --> 00:13:50,279
because you know like you said Katie

358
00:13:55,730 --> 00:13:52,800
looking at his um record this is a very

359
00:13:56,990 --> 00:13:55,740
senior person the equivalent although he

360
00:14:00,110 --> 00:13:57,000
does like to downplay it but the

361
00:14:02,509 --> 00:14:00,120
equivalent like a two-star general uh no

362
00:14:04,850 --> 00:14:02,519
Admiral sorry and um you know basically

363
00:14:07,190 --> 00:14:04,860

saying we're already 70 years behind the

364

00:14:10,129 --> 00:14:07,200

power for trust right because everybody

365

00:14:11,990 --> 00:14:10,139

says the government's lying to us and

366

00:14:14,569 --> 00:14:12,000

the whole Blue Book thing and the whole

367

00:14:17,569 --> 00:14:14,579

Roswell being killed trust I mean he's

368

00:14:19,790 --> 00:14:17,579

not directly saying they're lying to us

369

00:14:23,090 --> 00:14:19,800

but um I mean you can read between the

370

00:14:25,129 --> 00:14:23,100

lines there and take away from it and um

371

00:14:28,730 --> 00:14:25,139

I mean this is coming from a really

372

00:14:31,790 --> 00:14:28,740

really serious person so um I think this

373

00:14:32,930 --> 00:14:31,800

might this might be a clue of things to

374

00:14:35,389 --> 00:14:32,940

come as

375

00:14:37,790 --> 00:14:35,399

this stuff starts to unravel and things

376

00:14:38,930 --> 00:14:37,800

get made public

377

00:14:42,110 --> 00:14:38,940

um in terms of what's happening in

378

00:14:44,810 --> 00:14:42,120

Congress right now yeah I also really

379

00:14:47,750 --> 00:14:44,820

appreciated the the skeptic mention it

380

00:14:50,509 --> 00:14:47,760

reminded me of Mitch Horowitz who to

381

00:14:53,389 --> 00:14:50,519

always talks about the need to have a

382

00:14:55,250 --> 00:14:53,399

better contrast of Skeptics and how we

383

00:14:56,870 --> 00:14:55,260

need to welcome Skeptics who are doing

384

00:14:58,430 --> 00:14:56,880

it in good faith and so that made me

385

00:15:00,650 --> 00:14:58,440

really happy to see that and I hope that

386

00:15:02,930 --> 00:15:00,660

opens up more conversations in that way

387

00:15:04,790 --> 00:15:02,940

maybe absolutely absolutely yeah

388

00:15:07,310 --> 00:15:04,800

completely agree I think what was

389

00:15:10,970 --> 00:15:07,320

interesting as well obviously you know

390

00:15:13,250 --> 00:15:10,980

he worked with allsup atip and the uaptf

391

00:15:16,009 --> 00:15:13,260

and that says volumes to me if he's

392

00:15:17,870 --> 00:15:16,019

continuously moving and changing roles

393

00:15:19,970 --> 00:15:17,880

but continually going back to the UFO

394

00:15:22,250 --> 00:15:19,980

subject why would you do that if there

395

00:15:23,810 --> 00:15:22,260

was nothing to it or why would you want

396

00:15:25,250 --> 00:15:23,820

to come out and talk about it now if

397

00:15:27,829 --> 00:15:25,260

you've been through the ringer for over

398

00:15:29,389 --> 00:15:27,839

a decade and it's like I don't want to

399

00:15:31,370 --> 00:15:29,399

talk about something that there's

400

00:15:32,870 --> 00:15:31,380

nothing to it you know that I mean

401
00:15:34,910 --> 00:15:32,880
that's just me interpreting it and again

402
00:15:37,670 --> 00:15:34,920
I'd happily be wrong if I'm interpreting

403
00:15:39,710 --> 00:15:37,680
it incorrectly but that just spoke to me

404
00:15:43,610 --> 00:15:39,720
if you know what I mean

405
00:15:45,170 --> 00:15:43,620
yeah yeah absolutely you know he's like

406
00:15:48,889 --> 00:15:45,180
the only guy who's been involved with

407
00:15:50,810 --> 00:15:48,899
all the modern day yeah so programs

408
00:15:52,610 --> 00:15:50,820
um so that that's a really big thing and

409
00:15:54,949 --> 00:15:52,620
you know like like he was saying you

410
00:15:57,410 --> 00:15:54,959
know he was after being involved with

411
00:15:59,150 --> 00:15:57,420
all staff native he was ready like to

412
00:16:01,610 --> 00:15:59,160
walk away from it he wasn't expecting

413
00:16:04,970 --> 00:16:01,620

anything else to do with the topic again

414

00:16:08,530 --> 00:16:04,980

and that was until Lou came out and the

415

00:16:11,870 --> 00:16:08,540

New York Times article came out and then

416

00:16:14,150 --> 00:16:11,880

exactly you know and I the Office of

417

00:16:15,949 --> 00:16:14,160

Naval intelligence and his boss was like

418

00:16:17,210 --> 00:16:15,959

look Congress you know Congress started

419

00:16:19,370 --> 00:16:17,220

taking interest and senior people

420

00:16:21,710 --> 00:16:19,380

started taking interest in this so he

421

00:16:23,990 --> 00:16:21,720

was the perfect place in the perfect

422

00:16:26,269 --> 00:16:24,000

place the perfect time really so it

423

00:16:27,949 --> 00:16:26,279

seemed very very it was like Serendipity

424

00:16:29,470 --> 00:16:27,959

involved you're doing this it felt like

425

00:16:31,910 --> 00:16:29,480

it was meant to be

426

00:16:34,490 --> 00:16:31,920

speaking of meant to be Chris I I do

427

00:16:37,310 --> 00:16:34,500

want to ask you whether you have Insight

428

00:16:38,810 --> 00:16:37,320

or speculation as to the timing though

429

00:16:41,050 --> 00:16:38,820

because you're right he's worked in

430

00:16:44,990 --> 00:16:41,060

these roles for

431

00:16:47,269 --> 00:16:45,000

over a decade now you know and it's not

432

00:16:49,430 --> 00:16:47,279

exactly a thankless thing to come into

433

00:16:51,889 --> 00:16:49,440

the spotlight and so I'm really curious

434

00:16:55,129 --> 00:16:51,899

if you have any ideas or

435

00:16:56,990 --> 00:16:55,139

uh suspect why why now yeah yeah

436

00:17:00,290 --> 00:16:57,000

absolutely yeah there's a good reason

437

00:17:02,509 --> 00:17:00,300

why now because I mean

438

00:17:06,110 --> 00:17:02,519

by appearing publicly

439

00:17:09,230 --> 00:17:06,120

he is embossing others to come forward

440

00:17:11,630 --> 00:17:09,240

other serious people to come forward so

441

00:17:13,250 --> 00:17:11,640

that is a really really big deal and I

442

00:17:14,809 --> 00:17:13,260

think people

443

00:17:15,949 --> 00:17:14,819

I would speculate that people were

444

00:17:17,210 --> 00:17:15,959

starting to come forward they're all

445

00:17:19,309 --> 00:17:17,220

considering to come forward now that

446

00:17:21,770 --> 00:17:19,319

Jay's come forward I think oh gosh this

447

00:17:23,510 --> 00:17:21,780

is a really big moment okay that if

448

00:17:26,150 --> 00:17:23,520

Jay's come forward I'm I'm going to come

449

00:17:28,010 --> 00:17:26,160

forward as well so I I think this is a

450

00:17:29,930 --> 00:17:28,020

really big signal

451

00:17:31,669 --> 00:17:29,940

um of intent for the topic in general

452

00:17:33,610 --> 00:17:31,679

from him going out it's a really really

453

00:17:36,830 --> 00:17:33,620

big significant

454

00:17:40,490 --> 00:17:36,840

symbolic moment let's say

455

00:17:43,070 --> 00:17:40,500

um so yeah I I I you've picked a really

456

00:17:45,650 --> 00:17:43,080

really good point there in Jam

457

00:17:48,650 --> 00:17:45,660

I like to think that

458

00:17:50,090 --> 00:17:48,660

we're having behind the scenes you know

459

00:17:51,350 --> 00:17:50,100

I'm always hearing things and I think

460

00:17:52,730 --> 00:17:51,360

that things are going very very well

461

00:17:54,110 --> 00:17:52,740

right now behind the scenes especially

462

00:17:57,049 --> 00:17:54,120

in Washington

463

00:17:59,210 --> 00:17:57,059

um I like to think that we've almost got

464

00:18:02,210 --> 00:17:59,220

there in terms of winning the war let's

465

00:18:04,549 --> 00:18:02,220

say and then you know we've got further

466

00:18:06,830 --> 00:18:04,559

reinforcements coming now with um Jay

467

00:18:08,390 --> 00:18:06,840

Stratton like you said Vinnie earlier

468

00:18:10,490 --> 00:18:08,400

you know Lou's been out there for a long

469

00:18:13,130 --> 00:18:10,500

time so it's Chris and now you've got

470

00:18:16,010 --> 00:18:13,140

Jay coming to um to join the party as

471

00:18:17,810 --> 00:18:16,020

well and I think that that yeah and I

472

00:18:19,549 --> 00:18:17,820

and I'm hoping that further people can

473

00:18:22,010 --> 00:18:19,559

forward as well

474

00:18:23,930 --> 00:18:22,020

yeah absolutely and I mentioned a minute

475

00:18:25,610 --> 00:18:23,940

ago about how it shines Lewin in a good

476

00:18:27,049 --> 00:18:25,620

light as well because all the things

477

00:18:29,810 --> 00:18:27,059

that he'd been saying are almost being

478

00:18:31,310 --> 00:18:29,820

validated again but what what also

479

00:18:33,110 --> 00:18:31,320

shines Lou in a good light is the fact

480

00:18:35,390 --> 00:18:33,120

that you've got Stratton with an

481

00:18:38,270 --> 00:18:35,400

exceptional career history

482

00:18:41,870 --> 00:18:38,280

coming into atip but only being second

483

00:18:45,049 --> 00:18:41,880

place or second man to Lou so that shows

484

00:18:47,330 --> 00:18:45,059

how highly respected and trustworthy Lou

485

00:18:49,430 --> 00:18:47,340

was to people within the Pentagon and

486

00:18:50,570 --> 00:18:49,440

and that you know so it's only doing

487

00:18:52,310 --> 00:18:50,580

good things

488

00:18:54,950 --> 00:18:52,320

um and you mentioned Jay coming forward

489

00:18:56,750 --> 00:18:54,960

he's gonna you know help other people

490

00:18:59,330 --> 00:18:56,760

come forward and again seeing someone of

491

00:19:01,370 --> 00:18:59,340

that High Caliber will you know

492

00:19:04,070 --> 00:19:01,380

hopefully show people

493

00:19:06,110 --> 00:19:04,080

that if he can do it at that level then

494

00:19:08,330 --> 00:19:06,120

I'm going to do it and things like that

495

00:19:10,250 --> 00:19:08,340

and we mentioned earlier and I'll stop

496

00:19:11,570 --> 00:19:10,260

waffling in a second that we were going

497

00:19:14,390 --> 00:19:11,580

to show the LinkedIn so I've got that

498

00:19:16,310 --> 00:19:14,400

ready because it is incredible and you

499

00:19:19,010 --> 00:19:16,320

can see some Aerospace jobs there at the

500

00:19:23,150 --> 00:19:19,020

bottom but I wanted to start up was the

501
00:19:26,029 --> 00:19:23,160
the DIA role which he was in I mean

502
00:19:27,650 --> 00:19:26,039
it's just it's just impressive I mean do

503
00:19:29,570 --> 00:19:27,660
you want to talk talk us through that a

504
00:19:30,770 --> 00:19:29,580
little bit Katie and I'll move up when

505
00:19:32,870 --> 00:19:30,780
you've gone past it because you probably

506
00:19:34,610 --> 00:19:32,880
have had more experience or knowledge

507
00:19:35,930 --> 00:19:34,620
when it comes to departments and

508
00:19:37,490 --> 00:19:35,940
agencies

509
00:19:39,289 --> 00:19:37,500
yeah I mean I think what's really

510
00:19:41,630 --> 00:19:39,299
interesting what first stood out to me

511
00:19:44,990 --> 00:19:41,640
is that he is the person that brought

512
00:19:47,029 --> 00:19:45,000
the Skinwalker Ranch book to Iraq which

513
00:19:49,370 --> 00:19:47,039

kind of started if you're familiar with

514

00:19:51,110 --> 00:19:49,380

how awesome came to be and people came

515

00:19:52,610 --> 00:19:51,120

to advocate for it it was basically that

516

00:19:55,310 --> 00:19:52,620

they were all sitting in the green zone

517

00:19:58,070 --> 00:19:55,320

passing this book around the one pool

518

00:19:59,870 --> 00:19:58,080

that everyone gathered at so it was

519

00:20:01,730 --> 00:19:59,880

pretty cool to find out that that was

520

00:20:04,010 --> 00:20:01,740

kind of the Genesis of a lot of these

521

00:20:06,529 --> 00:20:04,020

programs it came from Jay pulling out a

522

00:20:07,789 --> 00:20:06,539

book in his backpack on deployment

523

00:20:10,730 --> 00:20:07,799

um but yeah it's interesting this season

524

00:20:12,710 --> 00:20:10,740

the defense intelligence agency

525

00:20:14,930 --> 00:20:12,720

um you know is very highly respected

526

00:20:16,610 --> 00:20:14,940

obviously is you can think of it as like

527

00:20:17,870 --> 00:20:16,620

the entire pentagon's intelligence

528

00:20:20,570 --> 00:20:17,880

Branch

529

00:20:23,390 --> 00:20:20,580

um but what's really interesting that I

530

00:20:25,490 --> 00:20:23,400

saw is like the um how he kind of would

531

00:20:28,310 --> 00:20:25,500

go in between

532

00:20:30,409 --> 00:20:28,320

Branch specific jobs you know like he

533

00:20:31,669 --> 00:20:30,419

was he said he was a reservist

534

00:20:33,110 --> 00:20:31,679

um I think in the Navy if I remember

535

00:20:35,710 --> 00:20:33,120

correctly

536

00:20:38,630 --> 00:20:35,720

um but then he would work for you know

537

00:20:41,210 --> 00:20:38,640

organizations that actually go up to the

538

00:20:43,070 --> 00:20:41,220

intelligence Branch the odni instead of

539

00:20:45,230 --> 00:20:43,080

actually to the services so it gave him

540

00:20:48,289 --> 00:20:45,240

a lot more Independence

541

00:20:50,090 --> 00:20:48,299

um to investigate things not directly

542

00:20:51,169 --> 00:20:50,100

within the line of command in the same

543

00:20:52,490 --> 00:20:51,179

way

544

00:20:54,110 --> 00:20:52,500

um so that's what really stood out to me

545

00:20:56,930 --> 00:20:54,120

here you also see obviously the

546

00:20:58,970 --> 00:20:56,940

Department of State that's not uncommon

547

00:21:02,029 --> 00:20:58,980

you'll see six months it was probably a

548

00:21:03,830 --> 00:21:02,039

rotation that he took while

549

00:21:05,270 --> 00:21:03,840

um being in the intelligence committee

550

00:21:08,750 --> 00:21:05,280

that's very or the intelligence

551
00:21:12,289 --> 00:21:08,760
Community that's very common in fact the

552
00:21:14,330 --> 00:21:12,299
arrow openings that we've seen are those

553
00:21:16,909 --> 00:21:14,340
types of joint temporary rotations

554
00:21:19,669 --> 00:21:16,919
they're not permanent positions

555
00:21:21,710 --> 00:21:19,679
so it looks like he was a part of you

556
00:21:23,750 --> 00:21:21,720
know similar programs like that and got

557
00:21:26,090 --> 00:21:23,760
to go you know to Baghdad to the

558
00:21:28,250 --> 00:21:26,100
Department of State so he really touched

559
00:21:30,049 --> 00:21:28,260
a lot of things

560
00:21:31,730 --> 00:21:30,059
yeah absolutely

561
00:21:33,289 --> 00:21:31,740
and I see it here as we come up we've

562
00:21:34,610 --> 00:21:33,299
got this flight Commander here seven

563
00:21:37,010 --> 00:21:34,620

month roll

564

00:21:38,990 --> 00:21:37,020

Afghanistan Camp leatherneck again yeah

565

00:21:40,909 --> 00:21:39,000

but then he moves in here into Chief

566

00:21:43,789 --> 00:21:40,919

space technology issues

567

00:21:45,710 --> 00:21:43,799

for under ilio Office of the Secretary

568

00:21:47,450 --> 00:21:45,720

of Defense and see this it seems more of

569

00:21:50,570 --> 00:21:47,460

a more permanent role

570

00:21:53,330 --> 00:21:50,580

yeah yeah it looks like it

571

00:21:55,730 --> 00:21:53,340

it's hard to tell for me it's hard I

572

00:21:57,350 --> 00:21:55,740

very very briefly worked for DOD and so

573

00:21:58,970 --> 00:21:57,360

it's hard as a contractor so it's hard

574

00:22:00,169 --> 00:21:58,980

for me to tell sometimes whether some of

575

00:22:03,230 --> 00:22:00,179

these are

576

00:22:05,390 --> 00:22:03,240

um civilian roles or whatnot I think

577

00:22:07,310 --> 00:22:05,400

possibly though the OSD role is probably

578

00:22:08,810 --> 00:22:07,320

civilian rule yeah right yeah because

579

00:22:11,630 --> 00:22:08,820

then you see the director of air Warfare

580

00:22:14,570 --> 00:22:11,640

and spear which would have been civilian

581

00:22:16,190 --> 00:22:14,580

yeah so I mean there we go keep going up

582

00:22:18,890 --> 00:22:16,200

we could consider and go through each

583

00:22:20,270 --> 00:22:18,900

one I love you guys it's unbelievable

584

00:22:22,490 --> 00:22:20,280

isn't it

585

00:22:24,230 --> 00:22:22,500

yeah and when you get up to the top here

586

00:22:28,070 --> 00:22:24,240

and you see senior level executive

587

00:22:30,409 --> 00:22:28,080

that's um it doesn't sound crazy but

588

00:22:33,590 --> 00:22:30,419

that's a very very rare and highly

589

00:22:36,289 --> 00:22:33,600

respected level in this civil service so

590

00:22:39,890 --> 00:22:36,299

once you get past GS 15 which is like

591

00:22:41,930 --> 00:22:39,900

the highest pay grade level you can have

592

00:22:44,090 --> 00:22:41,940

um within that within that system you

593

00:22:46,070 --> 00:22:44,100

become a senior executive service member

594

00:22:48,409 --> 00:22:46,080

and that's where you get into some of

595

00:22:50,270 --> 00:22:48,419

the the star equivalencies

596

00:22:51,909 --> 00:22:50,280

um so that that is really what gives him

597

00:22:54,649 --> 00:22:51,919

I think the

598

00:22:58,190 --> 00:22:54,659

authority to go across to a lot of folks

599

00:22:59,870 --> 00:22:58,200

in our agency in our department and get

600

00:23:01,010 --> 00:22:59,880

the information he needs

601
00:23:02,630 --> 00:23:01,020

yeah

602
00:23:04,250 --> 00:23:02,640

I love it that you're here to lay this

603
00:23:07,010 --> 00:23:04,260

out for us because I would have no idea

604
00:23:09,409 --> 00:23:07,020

so I really appreciate it this much this

605
00:23:11,450 --> 00:23:09,419

much I'm gonna have my Pentagon friends

606
00:23:13,250 --> 00:23:11,460

messaging me going no no you got that

607
00:23:14,990 --> 00:23:13,260

wrong

608
00:23:16,070 --> 00:23:15,000

and then obviously we see at the top his

609
00:23:17,990 --> 00:23:16,080

current position at Radiance

610
00:23:19,970 --> 00:23:18,000

Technologies is a senior portfolio

611
00:23:23,149 --> 00:23:19,980

advisor maritime

612
00:23:24,590 --> 00:23:23,159

try again sorry series shouting at me so

613
00:23:27,169 --> 00:23:24,600

yeah I thought that was just interesting

614

00:23:28,970 --> 00:23:27,179

to bring up but uh let's jump back to

615

00:23:31,789 --> 00:23:28,980

the to the article again if you see

616

00:23:33,350 --> 00:23:31,799

anything that I'm scrolling past

617

00:23:36,649 --> 00:23:33,360

um

618

00:23:38,510 --> 00:23:36,659

please let me know

619

00:23:40,130 --> 00:23:38,520

yeah that line there Jay Stratton was

620

00:23:41,870 --> 00:23:40,140

seen as the best person to work on the

621

00:23:44,810 --> 00:23:41,880

topic by Oni due to his previous

622

00:23:46,250 --> 00:23:44,820

experiences with other UAP programs and

623

00:23:47,810 --> 00:23:46,260

his background in identifying the

624

00:23:50,090 --> 00:23:47,820

capabilities of other nations military

625

00:23:52,549 --> 00:23:50,100

systems and validating potential threats

626

00:23:54,470 --> 00:23:52,559

now when people putting forward for

627

00:23:55,909 --> 00:23:54,480

these positions to bring him back into a

628

00:23:58,070 --> 00:23:55,919

UAP program

629

00:24:00,169 --> 00:23:58,080

is this offering him a job or is this

630

00:24:02,210 --> 00:24:00,179

telling him you're going to do this like

631

00:24:03,970 --> 00:24:02,220

what level of choice does he have and is

632

00:24:07,070 --> 00:24:03,980

it you know

633

00:24:10,789 --> 00:24:07,080

that's what I'm interested in

634

00:24:12,890 --> 00:24:10,799

yeah I I mean in terms of that I think

635

00:24:14,930 --> 00:24:12,900

just just from

636

00:24:17,390 --> 00:24:14,940

interpreting it myself I think it was

637

00:24:18,890 --> 00:24:17,400

just kind of like you'd be great for

638

00:24:20,690 --> 00:24:18,900

this role Jim we know that you're

639

00:24:22,669 --> 00:24:20,700

interested in it

640

00:24:25,070 --> 00:24:22,679

um it's kind of like I think

641

00:24:27,350 --> 00:24:25,080

they they may have anticipated that he

642

00:24:29,149 --> 00:24:27,360

would be interested in a role

643

00:24:31,010 --> 00:24:29,159

um and it would be something that he

644

00:24:32,810 --> 00:24:31,020

would he would take so I think it was

645

00:24:34,970 --> 00:24:32,820

just kind of like a judge a nudge in the

646

00:24:37,070 --> 00:24:34,980

right direction basically saying you

647

00:24:40,070 --> 00:24:37,080

know I think I think you know you're

648

00:24:42,169 --> 00:24:40,080

needed for this and obviously with um

649

00:24:42,950 --> 00:24:42,179

Congress to have a senior

650

00:24:44,450 --> 00:24:42,960

um people within the government

651
00:24:46,610 --> 00:24:44,460
breathing down their neck saying that we

652
00:24:48,169 --> 00:24:46,620
want some answers after this 2017 story

653
00:24:49,970 --> 00:24:48,179
comes out

654
00:24:52,490 --> 00:24:49,980
um then yeah that does make sense and

655
00:24:55,789 --> 00:24:52,500
then after that what happens is that you

656
00:24:58,310 --> 00:24:55,799
have an entity which he starts

657
00:25:01,070 --> 00:24:58,320
um which later becomes the UAP task

658
00:25:02,810 --> 00:25:01,080
force I mean I think it it was the UAP

659
00:25:05,630 --> 00:25:02,820
task force in name and then it got

660
00:25:09,049 --> 00:25:05,640
formalized it went for esper I think it

661
00:25:12,190 --> 00:25:09,059
was s but wasn't it in 2020 he was the

662
00:25:15,350 --> 00:25:12,200
um Deputy of um Secretary of Defense

663
00:25:18,049 --> 00:25:15,360

when he basically formalizes the UAP

664

00:25:20,149 --> 00:25:18,059

task force however if you look within

665

00:25:22,430 --> 00:25:20,159

the intelligence authorization act which

666

00:25:24,769 --> 00:25:22,440

I think was drafted in June or July you

667

00:25:27,230 --> 00:25:24,779

know it references you know something

668

00:25:28,970 --> 00:25:27,240

like you know the continued you know we

669

00:25:31,850 --> 00:25:28,980

support the good work of the UAP task

670

00:25:34,070 --> 00:25:31,860

force so it speculates that even before

671

00:25:36,890 --> 00:25:34,080

you know that um that mandate was being

672

00:25:39,169 --> 00:25:36,900

drafted asking for

673

00:25:40,909 --> 00:25:39,179

um something to be drafted in terms of

674

00:25:42,710 --> 00:25:40,919

report by the UAP task force that

675

00:25:45,289 --> 00:25:42,720

something already did exist within the

676
00:25:47,690 --> 00:25:45,299
Navy so um that that's quite important

677
00:25:50,810 --> 00:25:47,700
as well because you know that starts in

678
00:25:54,230 --> 00:25:50,820
2018 the report from the uaptf came out

679
00:25:57,470 --> 00:25:54,240
in 2021 so this has been going for three

680
00:26:00,350 --> 00:25:57,480
years already before the report came out

681
00:26:01,970 --> 00:26:00,360
yeah and Chris can you uh clarify for

682
00:26:03,430 --> 00:26:01,980
people who might not be you know as

683
00:26:08,090 --> 00:26:03,440
tuned into this

684
00:26:10,669 --> 00:26:08,100
the drama or controversy surrounding uh

685
00:26:13,549 --> 00:26:10,679
Stratton getting removed from the uaptf

686
00:26:16,010 --> 00:26:13,559
right before uh the report was to be due

687
00:26:19,850 --> 00:26:16,020
and what happened there

688
00:26:22,490 --> 00:26:19,860

yeah I mean I don't really have too much

689

00:26:26,110 --> 00:26:22,500

information on that I mean I think

690

00:26:32,390 --> 00:26:28,430

I think he seemed to play that down to

691

00:26:34,610 --> 00:26:32,400

some extent however saying that I mean

692

00:26:36,230 --> 00:26:34,620

I think others would speculate that say

693

00:26:37,909 --> 00:26:36,240

that it was a bit more behind it and it

694

00:26:40,370 --> 00:26:37,919

really did handicap them from the

695

00:26:41,990 --> 00:26:40,380

beginning because all of a sudden

696

00:26:44,690 --> 00:26:42,000

um you know this National Fence

697

00:26:46,370 --> 00:26:44,700

authorization had to get signed after I

698

00:26:47,990 --> 00:26:46,380

think Trump tried to veto it didn't he

699

00:26:50,690 --> 00:26:48,000

and then he was overall by the Senate

700

00:26:53,570 --> 00:26:50,700

and uh the house I'm like no it's going

701
00:26:55,549 --> 00:26:53,580
through and so sudden New Year they find

702
00:26:58,070 --> 00:26:55,559
themselves oh gosh we've got like six

703
00:27:00,049 --> 00:26:58,080
months or so to draw this huge report

704
00:27:01,370 --> 00:27:00,059
which is you know which has got to be

705
00:27:04,310 --> 00:27:01,380
sent to

706
00:27:06,409 --> 00:27:04,320
um Congress and then all of a sudden

707
00:27:09,470 --> 00:27:06,419
after that it's kind of like they lose

708
00:27:12,529 --> 00:27:09,480
they lose the main guy the director in

709
00:27:14,750 --> 00:27:12,539
charge and that that was a huge huge

710
00:27:16,430 --> 00:27:14,760
blow to them and remember the other

711
00:27:18,409 --> 00:27:16,440
people I think it was like two or three

712
00:27:20,390 --> 00:27:18,419
other people that may have been at the

713
00:27:22,130 --> 00:27:20,400

uoptf at the time they all had other

714

00:27:23,390 --> 00:27:22,140

jobs they all had full-time jobs that

715

00:27:26,149 --> 00:27:23,400

they were doing resources it was just

716

00:27:28,190 --> 00:27:26,159

kind of like You know despite the

717

00:27:30,190 --> 00:27:28,200

urgency of this as we've now discovered

718

00:27:33,830 --> 00:27:30,200

with the Chinese operations and look

719

00:27:36,230 --> 00:27:33,840

studying new AP also means finding other

720

00:27:38,450 --> 00:27:36,240

platforms as well which are a vital

721

00:27:40,070 --> 00:27:38,460

match Security address and just seems to

722

00:27:42,230 --> 00:27:40,080

me bizarre that you know you would

723

00:27:43,669 --> 00:27:42,240

dedicate full-time staff to this but

724

00:27:45,590 --> 00:27:43,679

anyhow

725

00:27:49,010 --> 00:27:45,600

um it was their commitment these other

726

00:27:52,070 --> 00:27:49,020

guys took it on when after Stratton

727

00:27:53,630 --> 00:27:52,080

um was moved these guys are heroes these

728

00:27:55,070 --> 00:27:53,640

guys are working overtime working their

729

00:27:56,870 --> 00:27:55,080

asses off

730

00:27:58,850 --> 00:27:56,880

um because they believed in transparency

731

00:28:01,310 --> 00:27:58,860

they believed in the cause

732

00:28:02,570 --> 00:28:01,320

and you know they wanted to make straps

733

00:28:03,830 --> 00:28:02,580

and proud as well by saying that we've

734

00:28:06,289 --> 00:28:03,840

got this over the line for you because

735

00:28:07,549 --> 00:28:06,299

by all means like this guy just loved by

736

00:28:10,789 --> 00:28:07,559

the people that he worked with and he

737

00:28:12,830 --> 00:28:10,799

was so well respected and um hats up to

738

00:28:14,510 --> 00:28:12,840

those guys and what they managed to do

739

00:28:16,370 --> 00:28:14,520

is they managed to use a big

740

00:28:18,769 --> 00:28:16,380

presentation that

741

00:28:20,510 --> 00:28:18,779

um Stratton had created remember he was

742

00:28:22,669 --> 00:28:20,520

saying that presentation was very very

743

00:28:24,950 --> 00:28:22,679

important how you presented these to

744

00:28:26,570 --> 00:28:24,960

senior officials and committees was very

745

00:28:29,149 --> 00:28:26,580

very important

746

00:28:30,769 --> 00:28:29,159

um so he'd he had created something very

747

00:28:33,769 --> 00:28:30,779

very impressive in terms of what he was

748

00:28:36,049 --> 00:28:33,779

showing and always key people in

749

00:28:38,330 --> 00:28:36,059

Washington and it was that basis of this

750

00:28:40,070 --> 00:28:38,340

kind of like presentation that he had

751
00:28:43,789 --> 00:28:40,080
created that

752
00:28:45,890 --> 00:28:43,799
um helped the task force you know get

753
00:28:48,049 --> 00:28:45,900
this report to Congress sometime and

754
00:28:51,769 --> 00:28:48,059
create something substantially better

755
00:28:53,330 --> 00:28:51,779
than what we got last month yeah

756
00:28:55,070 --> 00:28:53,340
absolutely

757
00:28:56,870 --> 00:28:55,080
I think one thing as well is obviously

758
00:28:59,570 --> 00:28:56,880
loved because you know he's here giving

759
00:29:02,570 --> 00:28:59,580
classified briefings to key audiences

760
00:29:03,529 --> 00:29:02,580
now is that nice the Committees would

761
00:29:06,529 --> 00:29:03,539
that be

762
00:29:07,970 --> 00:29:06,539
yeah yeah yeah absolutely and it's

763
00:29:09,890 --> 00:29:07,980

saying it's you know it's it's probably

764

00:29:11,810 --> 00:29:09,900

the primary reason why arrow is created

765

00:29:13,750 --> 00:29:11,820

which is great but that throws up the

766

00:29:18,169 --> 00:29:13,760

question if this is at the time when

767

00:29:21,169 --> 00:29:18,179

aimsog or aoi MSG was still happening

768

00:29:23,690 --> 00:29:21,179

why go to someone outside of who's now

769

00:29:25,250 --> 00:29:23,700

left the role and not use someone who's

770

00:29:27,529 --> 00:29:25,260

currently in the role you know with

771

00:29:29,169 --> 00:29:27,539

aimsog well this is the thing about

772

00:29:32,029 --> 00:29:29,179

ainslog so

773

00:29:33,710 --> 00:29:32,039

there's some complexity around this and

774

00:29:35,930 --> 00:29:33,720

you may want to correct me 80 in case

775

00:29:39,230 --> 00:29:35,940

I'll get anything wrong here but um what

776

00:29:41,269 --> 00:29:39,240

happened was UAP task force

777

00:29:42,889 --> 00:29:41,279

um after the report came out it wasn't

778

00:29:45,529 --> 00:29:42,899

all of a sudden

779

00:29:50,029 --> 00:29:45,539

um taken apart it no longer exists what

780

00:29:51,049 --> 00:29:50,039

happened was that the do the dod

781

00:29:54,830 --> 00:29:51,059

um

782

00:29:57,350 --> 00:29:54,840

and yodie and I created before

783

00:29:59,330 --> 00:29:57,360

Thanksgiving aoimsg

784

00:30:01,250 --> 00:29:59,340

to follow up on the memo that came from

785

00:30:03,409 --> 00:30:01,260

Kathleen Hicks following the uaptf

786

00:30:06,110 --> 00:30:03,419

report saying that something kind of

787

00:30:10,029 --> 00:30:06,120

more permanent was needed to tackle

788

00:30:13,149 --> 00:30:10,039

um Range Fowlers and things like that so

789

00:30:19,250 --> 00:30:13,159

aoimsg was created

790

00:30:21,230 --> 00:30:19,260

by DOD and odni it wasn't created as an

791

00:30:22,610 --> 00:30:21,240

act of law it wasn't created as an act

792

00:30:25,610 --> 00:30:22,620

of legislation

793

00:30:27,529 --> 00:30:25,620

the legislation for the National Defense

794

00:30:30,110 --> 00:30:27,539

authorization act just created an office

795

00:30:31,970 --> 00:30:30,120

called the office and it was after that

796

00:30:34,430 --> 00:30:31,980

that because I found it surprising that

797

00:30:35,810 --> 00:30:34,440

I was like okay cool what's the office

798

00:30:37,789 --> 00:30:35,820

going to be called what we're going to

799

00:30:40,130 --> 00:30:37,799

do with this new office and um Susan

800

00:30:41,570 --> 00:30:40,140

Goff basically said to me oh the new

801
00:30:46,370 --> 00:30:41,580
office is

802
00:30:48,889 --> 00:30:46,380
ay MSG it's like okay uh and so the new

803
00:30:51,529 --> 00:30:48,899
office was the old office in a way

804
00:30:54,529 --> 00:30:51,539
um so it was always a different entity

805
00:30:58,190 --> 00:30:54,539
from the uaptf so uaptf never

806
00:30:59,990 --> 00:30:58,200
transitioned to aoi MSG and hopefully

807
00:31:01,190 --> 00:31:00,000
that answers the question and then

808
00:31:04,190 --> 00:31:01,200
what's happened with this new

809
00:31:06,350 --> 00:31:04,200
legislation that's been passed now they

810
00:31:10,909 --> 00:31:06,360
formally basically said that the office

811
00:31:12,710 --> 00:31:10,919
is Arrow so so that's what's happened

812
00:31:14,029 --> 00:31:12,720
but obviously you've got another person

813
00:31:17,210 --> 00:31:14,039

coming in

814

00:31:18,010 --> 00:31:17,220

of Kirkpatrick so you've got people kind

815

00:31:19,789 --> 00:31:18,020

of like

816

00:31:21,230 --> 00:31:19,799

speculation on my part by the way

817

00:31:23,510 --> 00:31:21,240

perhaps people like saying oh we don't

818

00:31:25,130 --> 00:31:23,520

know this guy you you know if it was

819

00:31:26,269 --> 00:31:25,140

stress and taking over would be there in

820

00:31:27,889 --> 00:31:26,279

a heartbeat but we don't know

821

00:31:30,830 --> 00:31:27,899

Kirkpatrick we're feeling it out you

822

00:31:32,389 --> 00:31:30,840

know so it may be a bit of that as well

823

00:31:34,370 --> 00:31:32,399

yeah I suspect there's probably some

824

00:31:36,289 --> 00:31:34,380

internal politics you know just like you

825

00:31:37,570 --> 00:31:36,299

said because we have to also remember

826
00:31:40,490 --> 00:31:37,580
that

827
00:31:43,549 --> 00:31:40,500
aoimsg was created

828
00:31:44,830 --> 00:31:43,559
I can speculate not as fully

829
00:31:47,750 --> 00:31:44,840
um

830
00:31:50,029 --> 00:31:47,760
gung-ho response by the Pentagon but

831
00:31:52,850 --> 00:31:50,039
actually as an attempt to create a

832
00:31:56,149 --> 00:31:52,860
watered-down version of what Gila brand

833
00:31:58,549 --> 00:31:56,159
of Rubio at the time were proposing in

834
00:32:00,889 --> 00:31:58,559
legislation and I think the Hope was

835
00:32:02,630 --> 00:32:00,899
that if they jumped ahead and said oh

836
00:32:04,730 --> 00:32:02,640
look it's okay we're already creating an

837
00:32:07,970 --> 00:32:04,740
office that Rubio and gillibrand would

838
00:32:10,450 --> 00:32:07,980

kind of back down and they didn't

839

00:32:14,389 --> 00:32:10,460

um because they didn't think that AOL

840

00:32:16,490 --> 00:32:14,399

aoimsg was going far enough and you know

841

00:32:18,470 --> 00:32:16,500

because of Rubio and jellobrand and

842

00:32:20,750 --> 00:32:18,480

others we now have Arrow which is

843

00:32:22,970 --> 00:32:20,760

fantastic and so I suspect that there

844

00:32:26,330 --> 00:32:22,980

was a little bit of push-pull

845

00:32:28,430 --> 00:32:26,340

um in terms of personnel and who was in

846

00:32:31,070 --> 00:32:28,440

whose Camp you know the Pentagon can be

847

00:32:33,710 --> 00:32:31,080

uh quite political in that way and that

848

00:32:36,289 --> 00:32:33,720

was definitely what I took from it as

849

00:32:38,330 --> 00:32:36,299

well absolutely and it always they're

850

00:32:40,549 --> 00:32:38,340

always calibrating navigating their way

851
00:32:42,049 --> 00:32:40,559
through so you know a bit of navigating

852
00:32:44,090 --> 00:32:42,059
they were doing this time was removing

853
00:32:45,950 --> 00:32:44,100
it from ousdins

854
00:32:49,250 --> 00:32:45,960
right which is a big move in terms of

855
00:32:50,930 --> 00:32:49,260
who they're reporting to so uh yeah so

856
00:32:53,570 --> 00:32:50,940
that was that was that that was a great

857
00:32:55,070 --> 00:32:53,580
move there so um I mean yeah so maybe

858
00:32:58,370 --> 00:32:55,080
there'll be more to come we'll have to

859
00:32:59,690 --> 00:32:58,380
see yeah fantastic now just I mean this

860
00:33:02,810 --> 00:32:59,700
line here which I believe is George

861
00:33:04,370 --> 00:33:02,820
Knapp saying it um which is just you

862
00:33:05,930 --> 00:33:04,380
know I assume George and Jeremy have had

863
00:33:08,990 --> 00:33:05,940

a lot more than just that one sit-down

864

00:33:10,850 --> 00:33:09,000

conversation with Stratton at

865

00:33:13,130 --> 00:33:10,860

um where was it was in Huntsville at the

866

00:33:14,450 --> 00:33:13,140

SCU conference wasn't it but you know to

867

00:33:15,830 --> 00:33:14,460

say that Stratton believes the public

868

00:33:18,009 --> 00:33:15,840

has a right to know what's going on

869

00:33:20,269 --> 00:33:18,019

rather than the obfuscation stonewalling

870

00:33:22,730 --> 00:33:20,279

misleading statements and strategic

871

00:33:24,409 --> 00:33:22,740

leaks to debunkers all of which continue

872

00:33:26,990 --> 00:33:24,419

to muddy the waters I mean this is what

873

00:33:29,389 --> 00:33:27,000

we've been we've been asking for as a

874

00:33:31,909 --> 00:33:29,399

community is for somebody to come out

875

00:33:34,850 --> 00:33:31,919

who is you know not part of the Old

876
00:33:35,630 --> 00:33:34,860
Guard the secret Keepers and I think you

877
00:33:37,730 --> 00:33:35,640
know

878
00:33:41,149 --> 00:33:37,740
it's easy to get excited and I'm trying

879
00:33:42,529 --> 00:33:41,159
to not be like a too excited but you

880
00:33:44,509 --> 00:33:42,539
know I'm thinking there may be good

881
00:33:46,070 --> 00:33:44,519
things to come so Chris is is that

882
00:33:49,389 --> 00:33:46,080
something we should expect and do you

883
00:33:52,730 --> 00:33:49,399
know what to what level we should be uh

884
00:33:54,169 --> 00:33:52,740
you know I don't want to get too excited

885
00:33:56,210 --> 00:33:54,179
like you know we know to kind of hold

886
00:33:58,070 --> 00:33:56,220
back our expectations with these reports

887
00:33:59,930 --> 00:33:58,080
do we need to hold back our expectations

888
00:34:02,149 --> 00:33:59,940

a bit with regards to information that

889

00:34:04,370 --> 00:34:02,159

come from people like Stratton

890

00:34:06,710 --> 00:34:04,380

I think you can start to get a little

891

00:34:08,869 --> 00:34:06,720

bit more excited now and not just the

892

00:34:10,369 --> 00:34:08,879

construction I think you know things are

893

00:34:12,950 --> 00:34:10,379

happening in Washington as well now

894

00:34:16,490 --> 00:34:12,960

remember you know Kirkpatrick is no

895

00:34:18,470 --> 00:34:16,500

longer reporting to ousdi and S

896

00:34:22,070 --> 00:34:18,480

um so that's really really big thing so

897

00:34:24,710 --> 00:34:22,080

there's nothing stopping him now from

898

00:34:26,450 --> 00:34:24,720

having a bit more freedom to be honest

899

00:34:28,849 --> 00:34:26,460

about this topic and more transparent

900

00:34:30,950 --> 00:34:28,859

whereas it wasn't before so that that's

901
00:34:33,770 --> 00:34:30,960
a really really big thing

902
00:34:35,810 --> 00:34:33,780
um and in terms of yeah yeah Stratton

903
00:34:38,869 --> 00:34:35,820
that yeah that's a really really big

904
00:34:40,909 --> 00:34:38,879
deal and um I think as well like

905
00:34:43,970 --> 00:34:40,919
so so one important important thing to

906
00:34:46,970 --> 00:34:43,980
take into context is what he later says

907
00:34:49,430 --> 00:34:46,980
in terms of um basically talking about

908
00:34:53,889 --> 00:34:49,440
the public affairs office of Pentagon in

909
00:34:58,970 --> 00:34:56,510
and uh you can kind of like see this

910
00:35:00,349 --> 00:34:58,980
kind of like I'm interpreting it is that

911
00:35:02,329 --> 00:35:00,359
you can see this kind of like mini like

912
00:35:04,190 --> 00:35:02,339
battle going on between

913
00:35:06,650 --> 00:35:04,200

um Stratton and what they're doing

914

00:35:08,210 --> 00:35:06,660

within the uapf and the and the

915

00:35:10,250 --> 00:35:08,220

background with a different stuff and

916

00:35:13,069 --> 00:35:10,260

what's going on as well and what the

917

00:35:14,210 --> 00:35:13,079

public affairs office is saying and you

918

00:35:16,250 --> 00:35:14,220

know he was saying that Communications

919

00:35:17,930 --> 00:35:16,260

is so key and it looked like he was

920

00:35:19,609 --> 00:35:17,940

being undermined to a certain extent

921

00:35:21,230 --> 00:35:19,619

from some of the statements coming out

922

00:35:23,089 --> 00:35:21,240

of the public affairs office which I

923

00:35:25,190 --> 00:35:23,099

found really quite interesting and you

924

00:35:28,069 --> 00:35:25,200

can see as well that

925

00:35:30,230 --> 00:35:28,079

um you know he mentions Lou as well

926

00:35:32,270 --> 00:35:30,240

um and I think that's really important

927

00:35:35,150 --> 00:35:32,280

because obviously the public affairs

928

00:35:37,010 --> 00:35:35,160

officer said that he had that Lou had no

929

00:35:38,810 --> 00:35:37,020

assigned responsibility surveyed it

930

00:35:40,690 --> 00:35:38,820

which is heartbreaking I mean this guy

931

00:35:44,030 --> 00:35:40,700

to do he

932

00:35:45,890 --> 00:35:44,040

immense cost to him and his family he

933

00:35:48,349 --> 00:35:45,900

did the right thing and he quit his job

934

00:35:51,470 --> 00:35:48,359

you know he gave up his pension and and

935

00:35:53,150 --> 00:35:51,480

people came after him and um now you've

936

00:35:55,370 --> 00:35:53,160

got his previous employers at the

937

00:35:57,710 --> 00:35:55,380

Pentagon basically saying oh no he

938

00:36:00,109 --> 00:35:57,720

wasn't you know he wasn't director of um

939

00:36:02,630 --> 00:36:00,119

atip it's kind of like trying to erase

940

00:36:05,390 --> 00:36:02,640

what he did which is a really really

941

00:36:08,510 --> 00:36:05,400

horrible thing and um they keep it up to

942

00:36:10,910 --> 00:36:08,520

this day like saying that he had no

943

00:36:12,589 --> 00:36:10,920

assigned responsibilities but okay so I

944

00:36:14,150 --> 00:36:12,599

asked he's in golfer instance I said

945

00:36:17,750 --> 00:36:14,160

what about unassigned responsibilities

946

00:36:19,730 --> 00:36:17,760

because we know there you go we know

947

00:36:21,470 --> 00:36:19,740

that Gary Reed wasn't very happy with

948

00:36:23,569 --> 00:36:21,480

him being his supervisor that he had

949

00:36:27,230 --> 00:36:23,579

been kept from this obviously it wasn't

950

00:36:29,690 --> 00:36:27,240

ever assigned by a supervisor and I've

951
00:36:31,490 --> 00:36:29,700
never got a public statement about that

952
00:36:33,650 --> 00:36:31,500
let's say I've never got a public

953
00:36:36,050 --> 00:36:33,660
statement about that answering that

954
00:36:40,130 --> 00:36:37,970
well and that's what's completely

955
00:36:41,930 --> 00:36:40,140
perpetuated this is a lot of people

956
00:36:44,150 --> 00:36:41,940
aren't able to read between the lines

957
00:36:46,609 --> 00:36:44,160
with statements like that a single word

958
00:36:48,710 --> 00:36:46,619
assigned responsibilities we know for a

959
00:36:50,510 --> 00:36:48,720
fact that his supervisor did not assign

960
00:36:52,250 --> 00:36:50,520
these responsibilities and so the

961
00:36:54,230 --> 00:36:52,260
Pentagon isn't lying

962
00:36:56,329 --> 00:36:54,240
you know but they're they're saying what

963
00:36:57,950 --> 00:36:56,339

is convenient to their their narrative

964

00:36:59,750 --> 00:36:57,960

and so I'm so glad that you picked that

965

00:37:02,450 --> 00:36:59,760

out and that we have you know

966

00:37:04,490 --> 00:37:02,460

journalists like you that can can really

967

00:37:07,190 --> 00:37:04,500

parse these words because unfortunately

968

00:37:10,430 --> 00:37:07,200

with the level of obfuscation and

969

00:37:13,130 --> 00:37:10,440

political agendas we have to do that and

970

00:37:16,069 --> 00:37:13,140

that's not being paranoid or con or

971

00:37:19,310 --> 00:37:16,079

conspiratorial or anything it's it's how

972

00:37:22,250 --> 00:37:19,320

DC Works uh sometimes unfortunately and

973

00:37:23,990 --> 00:37:22,260

so I just hats off to you for for

974

00:37:27,770 --> 00:37:24,000

recognizing these things and for pushing

975

00:37:29,530 --> 00:37:27,780

I hope uh Susan will someday respond to

976
00:37:31,790 --> 00:37:29,540
that comment and if there's other

977
00:37:33,230 --> 00:37:31,800
journalists listening I hope you'll ask

978
00:37:35,990 --> 00:37:33,240
them too what about unassigned

979
00:37:38,030 --> 00:37:36,000
responsibilities yeah exactly I I I

980
00:37:39,589 --> 00:37:38,040
would say I have a good relationship

981
00:37:42,770 --> 00:37:39,599
with suit

982
00:37:44,270 --> 00:37:42,780
um you know you have to and yeah I

983
00:37:46,010 --> 00:37:44,280
respect the fact that she's getting some

984
00:37:47,870 --> 00:37:46,020
really good answers before she invited

985
00:37:50,030 --> 00:37:47,880
me to the Pentagon briefing with

986
00:37:51,589 --> 00:37:50,040
Kirkpatrick and I accept as well when

987
00:37:53,630 --> 00:37:51,599
you're doing this you're getting sign up

988
00:37:56,210 --> 00:37:53,640

from people above you saying it's okay

989

00:37:58,370 --> 00:37:56,220

if we say this or what's messaging what

990

00:38:00,290 --> 00:37:58,380

else can we say can you elaborate on

991

00:38:02,510 --> 00:38:00,300

this so she's she's kind of like getting

992

00:38:05,870 --> 00:38:02,520

it through some hurdles as well herself

993

00:38:08,150 --> 00:38:05,880

so but I would say that I was

994

00:38:10,910 --> 00:38:08,160

I was deeply disappointed that it took

995

00:38:12,349 --> 00:38:10,920

so long for them to also

996

00:38:14,210 --> 00:38:12,359

um confirm that Lou worked for space

997

00:38:15,890 --> 00:38:14,220

force we've been asking for months and

998

00:38:18,950 --> 00:38:15,900

other people had been asking for months

999

00:38:20,030 --> 00:38:18,960

it took me I I literally had to make a

1000

00:38:22,490 --> 00:38:20,040

complaint

1001
00:38:24,890 --> 00:38:22,500
to get that information

1002
00:38:26,630 --> 00:38:24,900
it just seems that a whole public

1003
00:38:28,849 --> 00:38:26,640
affairs office has been weaponized

1004
00:38:31,490 --> 00:38:28,859
against one person and that can't be

1005
00:38:34,190 --> 00:38:31,500
allowed that's totally awful it's it's

1006
00:38:35,690 --> 00:38:34,200
it should be investigated I feel

1007
00:38:37,849 --> 00:38:35,700
it's retribution

1008
00:38:39,170 --> 00:38:37,859
yeah it seems It's like there's a lot of

1009
00:38:41,750 --> 00:38:39,180
changes going on not only with the

1010
00:38:44,810 --> 00:38:41,760
Departments and the other you know a tip

1011
00:38:46,250 --> 00:38:44,820
to uaptf to aim SOG to Arrow but you

1012
00:38:48,109 --> 00:38:46,260
know um Jay mentioned here that he

1013
00:38:51,710 --> 00:38:48,119

himself had come across you know

1014

00:38:53,329 --> 00:38:51,720

religious pushback within us the ranks

1015

00:38:55,130 --> 00:38:53,339

you know and that's something that you

1016

00:38:57,890 --> 00:38:55,140

you think oh it probably happened a

1017

00:39:00,050 --> 00:38:57,900

decade 20 30 40 years ago but to hear

1018

00:39:02,329 --> 00:39:00,060

him say that he's still well not now but

1019

00:39:05,630 --> 00:39:02,339

has encountered it in the not so distant

1020

00:39:07,370 --> 00:39:05,640

past is is quite something you know so I

1021

00:39:09,109 --> 00:39:07,380

found that quite surprising

1022

00:39:11,210 --> 00:39:09,119

and in writing

1023

00:39:12,950 --> 00:39:11,220

I mean I I would like someone to get on

1024

00:39:15,170 --> 00:39:12,960

the for you for that one use the word

1025

00:39:16,730 --> 00:39:15,180

demon I mean that's what it sounds like

1026

00:39:18,710 --> 00:39:16,740

Jay said it said in writing so like

1027

00:39:21,410 --> 00:39:18,720

let's let's find out who

1028

00:39:24,710 --> 00:39:21,420

yeah wait wave off is an important term

1029

00:39:27,950 --> 00:39:24,720

it's like I'm sorry wave off when when

1030

00:39:31,010 --> 00:39:27,960

they said you should wave off this topic

1031

00:39:32,510 --> 00:39:31,020

what the phrase wave up is very very

1032

00:39:35,010 --> 00:39:32,520

important in terms of military-speaking

1033

00:39:35,020 --> 00:39:42,130

[Music]

1034

00:39:46,370 --> 00:39:44,230

you on that

1035

00:39:49,609 --> 00:39:46,380

yeah you can look at if you look at the

1036

00:39:51,230 --> 00:39:49,619

terminology for some you know of that

1037

00:39:56,410 --> 00:39:51,240

you can you can find it in there you'll

1038

00:40:00,650 --> 00:39:59,089

you know he's talking military term text

1039

00:40:01,609 --> 00:40:00,660

that's his language so sometimes what

1040

00:40:03,349 --> 00:40:01,619

you have to do is you have to get

1041

00:40:05,089 --> 00:40:03,359

context of how you're speaking the terms

1042

00:40:06,710 --> 00:40:05,099

that he's using to understand the

1043

00:40:08,569 --> 00:40:06,720

importance of it because he's speaking

1044

00:40:10,670 --> 00:40:08,579

military lingo a lot of the time

1045

00:40:12,770 --> 00:40:10,680

probably he doesn't even realize if he's

1046

00:40:15,230 --> 00:40:12,780

talking in a normal conversation but

1047

00:40:19,250 --> 00:40:15,240

yeah he's you can you can tell that you

1048

00:40:21,890 --> 00:40:19,260

know he's been he's a deeply humble guy

1049

00:40:24,109 --> 00:40:21,900

um very very respectful he's not trying

1050

00:40:25,790 --> 00:40:24,119

to cause too many waves and enemies and

1051
00:40:28,010 --> 00:40:25,800
stuff like that within the dod which is

1052
00:40:30,530 --> 00:40:28,020
fantastic and he's going about it the

1053
00:40:32,390 --> 00:40:30,540
right way in terms of what he's saying

1054
00:40:35,150 --> 00:40:32,400
um and his measured statements in that

1055
00:40:37,430 --> 00:40:35,160
interview and yeah hats often I I really

1056
00:40:40,130 --> 00:40:37,440
respect him and what he's done and

1057
00:40:42,050 --> 00:40:40,140
I'm hoping that this helps other people

1058
00:40:43,670 --> 00:40:42,060
come forward as well

1059
00:40:45,530 --> 00:40:43,680
yeah do you think this is why he didn't

1060
00:40:47,870 --> 00:40:45,540
come out uh you know in a in a more

1061
00:40:49,790 --> 00:40:47,880
mainstream way say a big article in one

1062
00:40:51,230 --> 00:40:49,800
of the big newspapers you know the New

1063
00:40:53,030 --> 00:40:51,240

York Times Washington Post or anything

1064

00:40:56,210 --> 00:40:53,040

like that and you know he came out on

1065

00:40:58,250 --> 00:40:56,220

any a UFO podcast and in a

1066

00:41:00,710 --> 00:40:58,260

with a journalist that writes about UFOs

1067

00:41:02,089 --> 00:41:00,720

well some people may say well why is he

1068

00:41:04,670 --> 00:41:02,099

doing that if he's really got something

1069

00:41:07,010 --> 00:41:04,680

why doesn't he come out on 60 Minutes or

1070

00:41:08,390 --> 00:41:07,020

something like that and you know is this

1071

00:41:10,670 --> 00:41:08,400

going back to what you just said about

1072

00:41:13,250 --> 00:41:10,680

he didn't want to make waves but and be

1073

00:41:16,010 --> 00:41:13,260

like boom hey Pentagon DOD look at what

1074

00:41:19,250 --> 00:41:16,020

I'm doing and you know is that

1075

00:41:21,650 --> 00:41:19,260

possibly why it's about trust it's about

1076
00:41:24,589 --> 00:41:21,660
trust and Reporting the story properly

1077
00:41:26,930 --> 00:41:24,599
because this this story

1078
00:41:28,370 --> 00:41:26,940
it's important that it gets seen by the

1079
00:41:30,230 --> 00:41:28,380
right people I think that that's very

1080
00:41:33,170 --> 00:41:30,240
very important

1081
00:41:34,970 --> 00:41:33,180
um and I think at the moment I would I I

1082
00:41:36,470 --> 00:41:34,980
would say that mainstream journalism and

1083
00:41:40,430 --> 00:41:36,480
the big publication to have a lot more

1084
00:41:43,250 --> 00:41:40,440
resources than you know a father and a

1085
00:41:45,290 --> 00:41:43,260
husband with another full-time job like

1086
00:41:47,750 --> 00:41:45,300
myself have a lot more resources and

1087
00:41:49,550 --> 00:41:47,760
they're not asking the the right

1088
00:41:51,950 --> 00:41:49,560

questions and I don't think they're

1089

00:41:52,910 --> 00:41:51,960

going about it the right way

1090

00:41:54,890 --> 00:41:52,920

um that

1091

00:41:56,990 --> 00:41:54,900

like like I've said in a previous

1092

00:41:59,030 --> 00:41:57,000

interview like when and I've studied

1093

00:42:00,770 --> 00:41:59,040

this as well I did a destination of it

1094

00:42:02,810 --> 00:42:00,780

like you know like if you're a

1095

00:42:05,089 --> 00:42:02,820

journalist and you're embedded in Israel

1096

00:42:07,250 --> 00:42:05,099

then you're reporting on the the

1097

00:42:08,930 --> 00:42:07,260

conflict situation there if you're

1098

00:42:10,130 --> 00:42:08,940

embedded in Israel all the sources that

1099

00:42:13,250 --> 00:42:10,140

you're going to get access to are

1100

00:42:15,050 --> 00:42:13,260

official Israeli sources and if you're

1101
00:42:17,030 --> 00:42:15,060
not actively looking for the other side

1102
00:42:18,530 --> 00:42:17,040
if you're not looking for the

1103
00:42:20,329 --> 00:42:18,540
um the other sources within the

1104
00:42:21,589 --> 00:42:20,339
Palestinian territories which is going

1105
00:42:23,030 --> 00:42:21,599
to be very difficult to do because

1106
00:42:25,910 --> 00:42:23,040
they'll have limited access to it you're

1107
00:42:27,170 --> 00:42:25,920
just going to power what they say so I

1108
00:42:29,150 --> 00:42:27,180
get the feeling that a lot of

1109
00:42:31,010 --> 00:42:29,160
journalists are just parroting what the

1110
00:42:32,569 --> 00:42:31,020
what the Pentagon says they're not

1111
00:42:34,730 --> 00:42:32,579
really reading between the lines or

1112
00:42:36,530 --> 00:42:34,740
anything like that I I think it's so

1113
00:42:38,690 --> 00:42:36,540

important to do that and remember as

1114

00:42:40,370 --> 00:42:38,700

well that you know George George Knapp

1115

00:42:43,490 --> 00:42:40,380

is an incredible journalist so is Jeremy

1116

00:42:45,710 --> 00:42:43,500

Corbell they can be trusted I mean

1117

00:42:48,770 --> 00:42:45,720

and I think their track record really

1118

00:42:51,650 --> 00:42:48,780

speaks speaks for itself

1119

00:42:53,870 --> 00:42:51,660

um and you know when no other journalist

1120

00:42:56,329 --> 00:42:53,880

wanted to touch this topic

1121

00:42:58,430 --> 00:42:56,339

because of the stigma I never afraid to

1122

00:43:01,250 --> 00:42:58,440

come out it was George and Jeremy had

1123

00:43:03,770 --> 00:43:01,260

the guts to report on this topic when

1124

00:43:07,190 --> 00:43:03,780

everyone else was kind of like

1125

00:43:09,770 --> 00:43:07,200

it was kind of too scared to touch it so

1126

00:43:11,089 --> 00:43:09,780

I think you know being when you're

1127

00:43:12,770 --> 00:43:11,099

dealing with people from the Pentagon

1128

00:43:15,530 --> 00:43:12,780

and military people or these people

1129

00:43:16,670 --> 00:43:15,540

deeply respectful you know and they

1130

00:43:23,150 --> 00:43:16,680

respect

1131

00:43:25,550 --> 00:43:23,160

values and ethics so I think you know

1132

00:43:28,730 --> 00:43:25,560

that relationship and being trustworthy

1133

00:43:30,530 --> 00:43:28,740

in terms of Jeremy and um and George

1134

00:43:31,849 --> 00:43:30,540

that that's really paid up for them

1135

00:43:33,290 --> 00:43:31,859

which is why they're getting all this

1136

00:43:34,550 --> 00:43:33,300

exclusive

1137

00:43:35,870 --> 00:43:34,560

um coverage you know they're not just

1138

00:43:39,050 --> 00:43:35,880

going to

1139

00:43:41,870 --> 00:43:39,060

um General van hurk from NORAD

1140

00:43:44,510 --> 00:43:41,880

um who's kind of like saying oh UFOs

1141

00:43:47,329 --> 00:43:44,520

it's nothing you know it's

1142

00:43:48,829 --> 00:43:47,339

they're not doing that and I think you

1143

00:43:51,410 --> 00:43:48,839

know it's it's difficult in this

1144

00:43:53,210 --> 00:43:51,420

environment to actually find someone

1145

00:43:55,190 --> 00:43:53,220

trustworthy

1146

00:43:56,210 --> 00:43:55,200

um these days especially amongst amongst

1147

00:43:58,010 --> 00:43:56,220

journalists

1148

00:43:59,510 --> 00:43:58,020

um you would expect better from the New

1149

00:44:01,670 --> 00:43:59,520

York Times

1150

00:44:02,930 --> 00:44:01,680

um in terms of the reporting on this

1151

00:44:05,150 --> 00:44:02,940

topic

1152

00:44:06,950 --> 00:44:05,160

um I mean hats off to Josh from The

1153

00:44:09,530 --> 00:44:06,960

Daily Mail this is a fantastic job I

1154

00:44:11,150 --> 00:44:09,540

think the the story that he did last

1155

00:44:13,309 --> 00:44:11,160

year with the odn eye Source coming out

1156

00:44:15,290 --> 00:44:13,319

that was one of my favorite stories and

1157

00:44:17,390 --> 00:44:15,300

hats off to him so he's doing a good job

1158

00:44:18,710 --> 00:44:17,400

but um yeah like it's very very

1159

00:44:21,170 --> 00:44:18,720

difficult and I would also mention as

1160

00:44:24,290 --> 00:44:21,180

well that Independent Media is

1161

00:44:25,910 --> 00:44:24,300

is getting bigger now for a good reason

1162

00:44:28,130 --> 00:44:25,920

I think and

1163

00:44:31,910 --> 00:44:28,140

um I'm hopeful that you know Liberation

1164

00:44:33,950 --> 00:44:31,920

times could be could be seen as one of

1165

00:44:36,550 --> 00:44:33,960

that one of one of those kind of up and

1166

00:44:37,609 --> 00:44:36,560

coming Independent Media Publications

1167

00:44:39,490 --> 00:44:37,619

[Music]

1168

00:44:42,829 --> 00:44:39,500

um which is kind of like

1169

00:44:44,870 --> 00:44:42,839

not being reigned in by editors and

1170

00:44:46,970 --> 00:44:44,880

other interests and stuff like that I

1171

00:44:49,790 --> 00:44:46,980

just want to report it as best as I can

1172

00:44:50,990 --> 00:44:49,800

you know so yeah that's how I go about

1173

00:44:53,210 --> 00:44:51,000

it I'm not saying I'm the greatest

1174

00:44:55,309 --> 00:44:53,220

journalist in the world I I just I'm

1175

00:44:57,410 --> 00:44:55,319

just trying my best just to support it

1176
00:45:00,470 --> 00:44:57,420
as best as I can and do justice to these

1177
00:45:02,450 --> 00:45:00,480
people like Lou who's just like almost

1178
00:45:04,910 --> 00:45:02,460
lost everything from this so it's

1179
00:45:06,829 --> 00:45:04,920
passion no absolutely and it's

1180
00:45:08,329 --> 00:45:06,839
appreciated I'm sure you can see that

1181
00:45:11,450 --> 00:45:08,339
that you know people in the community

1182
00:45:12,950 --> 00:45:11,460
are they love seeing your work I mean a

1183
00:45:15,710 --> 00:45:12,960
new article comes out on that and you

1184
00:45:16,970 --> 00:45:15,720
know and you know did we mentioned the J

1185
00:45:18,230 --> 00:45:16,980
Stratton one which I think we've pretty

1186
00:45:19,609 --> 00:45:18,240
much covered now Katie is there anything

1187
00:45:21,230 --> 00:45:19,619
else you want to say about J Stratton

1188
00:45:24,650 --> 00:45:21,240

before we move on

1189

00:45:26,089 --> 00:45:24,660

I got all my points cool that's cool I

1190

00:45:28,370 --> 00:45:26,099

think all we can do now is just wait and

1191

00:45:29,569 --> 00:45:28,380

see what he he does next I believe he's

1192

00:45:32,809 --> 00:45:29,579

obviously speaking you mentioned an

1193

00:45:34,550 --> 00:45:32,819

alien Con in Pasadena in early March and

1194

00:45:36,470 --> 00:45:34,560

so that's what one month away pretty

1195

00:45:38,390 --> 00:45:36,480

much so yeah but there's not gonna be

1196

00:45:40,130 --> 00:45:38,400

any recording of it too so that's a

1197

00:45:41,750 --> 00:45:40,140

little disappointing I'm hoping I'm

1198

00:45:43,670 --> 00:45:41,760

hoping that they we're going to see him

1199

00:45:45,650 --> 00:45:43,680

at some more conferences this year

1200

00:45:47,809 --> 00:45:45,660

hopefully some

1201

00:45:50,569 --> 00:45:47,819

um more academic conferences perhaps

1202

00:45:53,450 --> 00:45:50,579

maybe it'll show up at you know inquire

1203

00:45:54,349 --> 00:45:53,460

non-reliance or SCU or some of the other

1204

00:45:57,650 --> 00:45:54,359

um

1205

00:45:59,569 --> 00:45:57,660

higher brow conferences let's call them

1206

00:46:01,730 --> 00:45:59,579

um but it'd be great it'd be great to

1207

00:46:04,130 --> 00:46:01,740

see him more in public where you know we

1208

00:46:06,109 --> 00:46:04,140

can have a transcript and really parse

1209

00:46:07,550 --> 00:46:06,119

out what he's saying

1210

00:46:08,630 --> 00:46:07,560

yeah Chris have you got any insight into

1211

00:46:10,010 --> 00:46:08,640

that you know you obviously you've

1212

00:46:11,510 --> 00:46:10,020

spoken with George and Jeremy have they

1213

00:46:13,730 --> 00:46:11,520

said anything to you that you're able to

1214

00:46:16,550 --> 00:46:13,740

to tell us

1215

00:46:18,230 --> 00:46:16,560

I think there's much more to come from

1216

00:46:20,150 --> 00:46:18,240

um Jay strafton obviously there's a

1217

00:46:21,710 --> 00:46:20,160

pre-recorded interview

1218

00:46:22,790 --> 00:46:21,720

um so there'll be more elements of that

1219

00:46:25,430 --> 00:46:22,800

to come

1220

00:46:27,470 --> 00:46:25,440

um hopefully in upcoming episodes of um

1221

00:46:29,569 --> 00:46:27,480

of weaponized

1222

00:46:31,130 --> 00:46:29,579

um it was it was a very very big deal I

1223

00:46:33,530 --> 00:46:31,140

mean when we go about these stories

1224

00:46:35,630 --> 00:46:33,540

they're very very sensitive you know and

1225

00:46:37,250 --> 00:46:35,640

I've got to make sure that before I

1226

00:46:38,930 --> 00:46:37,260

watch the episode that George is okay

1227

00:46:43,069 --> 00:46:38,940

with it because

1228

00:46:45,349 --> 00:46:43,079

you know like he's trusted he he deeply

1229

00:46:47,630 --> 00:46:45,359

like him and Jeremy and they deeply

1230

00:46:50,390 --> 00:46:47,640

deeply care for their sources you know

1231

00:46:51,829 --> 00:46:50,400

that yeah things are done correct and

1232

00:46:53,750 --> 00:46:51,839

that they can be trusted because it's

1233

00:46:55,790 --> 00:46:53,760

very very important to them and this

1234

00:46:57,710 --> 00:46:55,800

brings us back to what we were saying

1235

00:47:00,109 --> 00:46:57,720

before about why these people do come

1236

00:47:01,490 --> 00:47:00,119

forward through um people like Jeremy

1237

00:47:03,710 --> 00:47:01,500

and George because they're trustworthy

1238

00:47:05,690 --> 00:47:03,720

and they prove themselves to be that

1239

00:47:08,210 --> 00:47:05,700

yeah so on that note you know let's talk

1240

00:47:10,609 --> 00:47:08,220

about John Gutierrez who came forward to

1241

00:47:14,089 --> 00:47:10,619

continue this ever-evolving story

1242

00:47:15,530 --> 00:47:14,099

surrounding the 2019 drone swarms and I

1243

00:47:17,870 --> 00:47:15,540

keep doing that when I say it because I

1244

00:47:19,370 --> 00:47:17,880

don't know how else to to put it and I

1245

00:47:21,710 --> 00:47:19,380

think it's important because people

1246

00:47:23,750 --> 00:47:21,720

still are convinced that it's definitely

1247

00:47:25,430 --> 00:47:23,760

drones even though there isn't enough

1248

00:47:28,910 --> 00:47:25,440

data and information in the public

1249

00:47:31,069 --> 00:47:28,920

domain to form a conclusion and people

1250

00:47:33,349 --> 00:47:31,079

still think that Jeremy's saying it's

1251

00:47:36,470 --> 00:47:33,359

aliens and what Jeremy did I think in

1252

00:47:38,690 --> 00:47:36,480

this week's episode weaponized was very

1253

00:47:40,970 --> 00:47:38,700

clearly make a statement saying I don't

1254

00:47:42,650 --> 00:47:40,980

know what it is and all of this and it

1255

00:47:44,569 --> 00:47:42,660

was really really good that he did that

1256

00:47:46,430 --> 00:47:44,579

but let's talk about John Gutierrez

1257

00:47:48,349 --> 00:47:46,440

Chris what what can you tell us that um

1258

00:47:51,770 --> 00:47:48,359

sort of came out that was a bit newer

1259

00:47:55,849 --> 00:47:51,780

for this case or this series of cases

1260

00:47:59,510 --> 00:47:55,859

yes obviously he he he's spoken to some

1261

00:48:02,030 --> 00:47:59,520

of the the witnesses involved and he's

1262

00:48:04,069 --> 00:48:02,040

spoken about you know for instance

1263

00:48:05,510 --> 00:48:04,079

um on one of the ships you know he was

1264

00:48:07,190 --> 00:48:05,520

saying that the crew were following it

1265

00:48:09,050 --> 00:48:07,200

when it was going from different sides

1266

00:48:11,030 --> 00:48:09,060

of the ship you know

1267

00:48:13,550 --> 00:48:11,040

um just following this object I'd say

1268

00:48:15,890 --> 00:48:13,560

and um all of a sudden it stuns him it's

1269

00:48:18,890 --> 00:48:15,900

just like go straight up

1270

00:48:20,569 --> 00:48:18,900

um into the sky and it's not making a

1271

00:48:21,710 --> 00:48:20,579

noise throughout

1272

00:48:23,510 --> 00:48:21,720

um so that that's really really

1273

00:48:25,069 --> 00:48:23,520

important it didn't make a noise and

1274

00:48:27,290 --> 00:48:25,079

that's important although you've got all

1275

00:48:28,190 --> 00:48:27,300

the the noise when you're out at Sea and

1276

00:48:30,290 --> 00:48:28,200

stuff

1277

00:48:32,569 --> 00:48:30,300

um he would still usually hear something

1278

00:48:34,309 --> 00:48:32,579

I mean these people would just being out

1279

00:48:35,390 --> 00:48:34,319

on deployment and you know John's been

1280

00:48:37,609 --> 00:48:35,400

up and completely as well they're very

1281

00:48:39,170 --> 00:48:37,619

very they know what Chinese drones are

1282

00:48:41,510 --> 00:48:39,180

they know what the capabilities are it's

1283

00:48:43,910 --> 00:48:41,520

not like the first time that a drone's

1284

00:48:46,670 --> 00:48:43,920

ever come up to them you know so that's

1285

00:48:48,410 --> 00:48:46,680

really important for um for context

1286

00:48:50,809 --> 00:48:48,420

there that he was providing he was just

1287

00:48:52,849 --> 00:48:50,819

like basically backing up the witnesses

1288

00:48:55,190 --> 00:48:52,859

and what Jeremy has said before

1289

00:48:56,630 --> 00:48:55,200

basically that there's a lot more to

1290

00:48:59,870 --> 00:48:56,640

this

1291

00:49:02,089 --> 00:48:59,880

um so I I think that's kind of like what

1292

00:49:04,609 --> 00:49:02,099

he was saying and I mean

1293

00:49:06,410 --> 00:49:04,619

John's a patriot you know to you know

1294

00:49:07,550 --> 00:49:06,420

he's a proud American Patriot and he

1295

00:49:10,430 --> 00:49:07,560

cares about

1296

00:49:12,109 --> 00:49:10,440

um safety and you know I think he felt

1297

00:49:13,849 --> 00:49:12,119

an urge to speak out in this and it's

1298

00:49:15,109 --> 00:49:13,859

very very important to say that he was

1299

00:49:16,910 --> 00:49:15,119

speaking from his own personal

1300

00:49:17,750 --> 00:49:16,920

perspective he was not speaking behalf

1301

00:49:19,490 --> 00:49:17,760

of

1302

00:49:22,069 --> 00:49:19,500

um the Navy or the dod it was basically

1303

00:49:24,710 --> 00:49:22,079

him just you know giving his own kind of

1304

00:49:26,809 --> 00:49:24,720

like take on it but he provided he

1305

00:49:28,370 --> 00:49:26,819

provided lots lots of interesting

1306

00:49:29,870 --> 00:49:28,380

details and I think one of the most

1307

00:49:31,370 --> 00:49:29,880

interesting things that he spoke about

1308

00:49:33,530 --> 00:49:31,380

was the USS

1309

00:49:35,329 --> 00:49:33,540

um Kia Sarge if I'm pronouncing that

1310

00:49:37,309 --> 00:49:35,339

correct so it's a huge ship basically

1311

00:49:39,109 --> 00:49:37,319

and it's um it's I think it was like

1312

00:49:40,730 --> 00:49:39,119

bigger than the former aircraft carriers

1313

00:49:42,349 --> 00:49:40,740

that we used to have in terms of HMS

1314

00:49:45,410 --> 00:49:42,359

Invincible

1315

00:49:48,109 --> 00:49:45,420

um and it's kind of like a marine ship

1316

00:49:49,730 --> 00:49:48,119

um I think they might hold Harrier Jets

1317

00:49:51,829 --> 00:49:49,740

as well

1318

00:49:53,089 --> 00:49:51,839

um they hold helicopters Marines it's a

1319

00:49:54,470 --> 00:49:53,099

huge ship and

1320

00:49:56,930 --> 00:49:54,480

um he was speaking about an incident

1321

00:49:59,630 --> 00:49:56,940

whereby he knows someone who was on

1322

00:50:01,849 --> 00:49:59,640

board that ship on the bridge and they

1323

00:50:03,290 --> 00:50:01,859

spotted a UAP like a green a green

1324

00:50:04,490 --> 00:50:03,300

object

1325

00:50:06,050 --> 00:50:04,500

um in the sky and this was whilst

1326
00:50:07,609 --> 00:50:06,060
they're out in deployment as well I

1327
00:50:09,290 --> 00:50:07,619
think it may have been

1328
00:50:11,990 --> 00:50:09,300
um the Arabian

1329
00:50:13,190 --> 00:50:12,000
but by the by by Saudi Arabia or

1330
00:50:15,050 --> 00:50:13,200
somewhere like that at the time I'm not

1331
00:50:17,870 --> 00:50:15,060
sure if we got confirmation on that but

1332
00:50:19,910 --> 00:50:17,880
um it was on deployment anyway and um

1333
00:50:22,609 --> 00:50:19,920
this screen object just gets closer and

1334
00:50:24,530 --> 00:50:22,619
all of a sudden a bright light is being

1335
00:50:27,589 --> 00:50:24,540
done to the ship illuminating all the

1336
00:50:29,690 --> 00:50:27,599
whole of this large ship and it lasts

1337
00:50:32,569 --> 00:50:29,700
for eight seconds the Supreme green bean

1338
00:50:34,970 --> 00:50:32,579

does and this person this this lady is

1339

00:50:36,950 --> 00:50:34,980

describing her to John basically how

1340

00:50:38,270 --> 00:50:36,960

she's covered her eyes

1341

00:50:39,890 --> 00:50:38,280

um with her hands and it's so bright she

1342

00:50:41,569 --> 00:50:39,900

can't even see her hands that's how

1343

00:50:44,270 --> 00:50:41,579

bright and illuminating this light was

1344

00:50:45,530 --> 00:50:44,280

and you're talking about a situation as

1345

00:50:47,809 --> 00:50:45,540

well where

1346

00:50:49,430 --> 00:50:47,819

um everyone's disorientated on the on

1347

00:50:52,490 --> 00:50:49,440

the bridge and they're trying like whoa

1348

00:50:54,349 --> 00:50:52,500

where am I and stuff like that hey

1349

00:50:55,849 --> 00:50:54,359

big deal I mean we're talking about a

1350

00:50:57,770 --> 00:50:55,859

Chinese balloon over the United States

1351
00:50:59,030 --> 00:50:57,780
at the moment and journalists are

1352
00:51:01,010 --> 00:50:59,040
obsessed about this but we're not

1353
00:51:03,470 --> 00:51:01,020
talking about any of the unusual flight

1354
00:51:05,270 --> 00:51:03,480
characteristics of UAP an instance like

1355
00:51:06,950 --> 00:51:05,280
this I mean let's say Italian Chinese

1356
00:51:08,930 --> 00:51:06,960
did have this technology they basically

1357
00:51:11,329 --> 00:51:08,940
stunned the whole of the bridge of a

1358
00:51:12,829 --> 00:51:11,339
major U.S warship during that eight

1359
00:51:15,290 --> 00:51:12,839
seconds if it was China they could do

1360
00:51:17,690 --> 00:51:15,300
anything they could take it down and I

1361
00:51:19,370 --> 00:51:17,700
mean I just don't understand sorry I'm

1362
00:51:22,370 --> 00:51:19,380
going on I'm really passionate about it

1363
00:51:26,150 --> 00:51:22,380

love it I love it at the moment and oh

1364

00:51:29,270 --> 00:51:26,160

there were like 167 blue light entities

1365

00:51:32,150 --> 00:51:29,280

um put into the UAP report but that

1366

00:51:33,770 --> 00:51:32,160

they're not focusing on the unusual

1367

00:51:36,770 --> 00:51:33,780

flight characteristics and the other

1368

00:51:38,809 --> 00:51:36,780

unusual characteristics of these UAP

1369

00:51:40,849 --> 00:51:38,819

by all means frame it that China might

1370

00:51:42,589 --> 00:51:40,859

have this technology great but that's by

1371

00:51:44,510 --> 00:51:42,599

far the biggest thing and biggest

1372

00:51:46,910 --> 00:51:44,520

Potential Threat if it is a foreign

1373

00:51:49,309 --> 00:51:46,920

adversary and people are just paying no

1374

00:51:51,410 --> 00:51:49,319

attention to it and it's um it's really

1375

00:51:53,089 --> 00:51:51,420

paying into the hands of the dod because

1376
00:51:54,890 --> 00:51:53,099
they want to answer these questions they

1377
00:51:55,910 --> 00:51:54,900
want to take you down this direction you

1378
00:51:57,589 --> 00:51:55,920
know

1379
00:51:59,030 --> 00:51:57,599
um they don't want to talk about unusual

1380
00:52:00,950 --> 00:51:59,040
flight characteristics they don't want

1381
00:52:02,210 --> 00:52:00,960
to talk about transmedian aspects they

1382
00:52:04,490 --> 00:52:02,220
don't want to talk about what's being

1383
00:52:05,990 --> 00:52:04,500
seen in space or underwater they don't

1384
00:52:08,450 --> 00:52:06,000
want to talk about any of that because

1385
00:52:10,609 --> 00:52:08,460
they can't explain it

1386
00:52:15,349 --> 00:52:10,619
um so that's really important but sorry

1387
00:52:17,870 --> 00:52:15,359
I digress I digress that um yeah

1388
00:52:19,490 --> 00:52:17,880

no I think it's all great and I love I

1389

00:52:20,809 --> 00:52:19,500

mean I think we all feel very similar to

1390

00:52:23,150 --> 00:52:20,819

you right

1391

00:52:25,910 --> 00:52:23,160

um and one of the questions I have is do

1392

00:52:27,530 --> 00:52:25,920

you think that these types of encounters

1393

00:52:29,809 --> 00:52:27,540

are being discussed in the classified

1394

00:52:31,790 --> 00:52:29,819

reports do you think these are being

1395

00:52:34,250 --> 00:52:31,800

highlighted

1396

00:52:35,870 --> 00:52:34,260

um two members of Congress to be aware

1397

00:52:37,849 --> 00:52:35,880

of or do you think they're being kind of

1398

00:52:39,770 --> 00:52:37,859

shoved into the rug entirely

1399

00:52:41,210 --> 00:52:39,780

yeah yes I think they are being

1400

00:52:42,950 --> 00:52:41,220

presented I mean remember what Jay

1401
00:52:44,450 --> 00:52:42,960
Stratton says presentation is very very

1402
00:52:46,549 --> 00:52:44,460
important when you're doing these things

1403
00:52:48,410 --> 00:52:46,559
so it's going back the right way and I

1404
00:52:50,329 --> 00:52:48,420
think although I am very very passionate

1405
00:52:53,630 --> 00:52:50,339
about the balloons and everyone's going

1406
00:52:55,190 --> 00:52:53,640
on about this um this balloon in prosaic

1407
00:52:58,370 --> 00:52:55,200
technology I mean Bloom State back from

1408
00:53:00,290 --> 00:52:58,380
the 18th century however however saying

1409
00:53:02,329 --> 00:53:00,300
that is a very very good way of

1410
00:53:04,970 --> 00:53:02,339
presenting the UAP issue and if we do go

1411
00:53:07,730 --> 00:53:04,980
down the route of the unusual flight

1412
00:53:09,950 --> 00:53:07,740
characteristics of UAP from this it's a

1413
00:53:12,230 --> 00:53:09,960

very very good way to get in there

1414

00:53:14,150 --> 00:53:12,240

um so I feel that this could be a very

1415

00:53:15,829 --> 00:53:14,160

very important aspect if we are going to

1416

00:53:19,190 --> 00:53:15,839

focus on

1417

00:53:20,510 --> 00:53:19,200

um our skies a lot more and that's in

1418

00:53:22,010 --> 00:53:20,520

terms of my country as well as your

1419

00:53:24,410 --> 00:53:22,020

country as well

1420

00:53:25,910 --> 00:53:24,420

um Katie about our country Vinnie um I

1421

00:53:27,290 --> 00:53:25,920

feel that you know you won't just see

1422

00:53:28,970 --> 00:53:27,300

balloons that you'll have to explain

1423

00:53:30,530 --> 00:53:28,980

because Congress will be on top of this

1424

00:53:33,230 --> 00:53:30,540

now wanting to know everything that is

1425

00:53:35,150 --> 00:53:33,240

in the skies of America and above the

1426

00:53:37,250 --> 00:53:35,160

sensitive military

1427

00:53:39,290 --> 00:53:37,260

um assets though what they want to know

1428

00:53:40,849 --> 00:53:39,300

if it's balloons know whatever it is so

1429

00:53:42,410 --> 00:53:40,859

let's say if you do see something

1430

00:53:44,390 --> 00:53:42,420

extraordinary technology they're going

1431

00:53:46,069 --> 00:53:44,400

to catch that now and you know it's not

1432

00:53:48,230 --> 00:53:46,079

just Congress that's going to be honored

1433

00:53:50,089 --> 00:53:48,240

with this it's going to be the precedent

1434

00:53:51,470 --> 00:53:50,099

as well because it's got all the way

1435

00:53:53,630 --> 00:53:51,480

it's Biden now

1436

00:53:56,030 --> 00:53:53,640

yeah and just going back to the 2019

1437

00:53:57,410 --> 00:53:56,040

drone swarm case I think it's even more

1438

00:53:59,690 --> 00:53:57,420

strange now that we've had John

1439

00:54:02,450 --> 00:53:59,700

Gutierrez come forward because he's

1440

00:54:05,210 --> 00:54:02,460

pretty much helped in rule out the the

1441

00:54:06,950 --> 00:54:05,220

best Straight part of the story uh you

1442

00:54:09,049 --> 00:54:06,960

know the merchant ship it really does

1443

00:54:10,490 --> 00:54:09,059

not look like that was uh anything to do

1444

00:54:11,930 --> 00:54:10,500

with it you know part of some of the

1445

00:54:14,510 --> 00:54:11,940

times when these drones will swore me it

1446

00:54:16,790 --> 00:54:14,520

was it was moored up in in the docks or

1447

00:54:18,230 --> 00:54:16,800

whatever and then the big thing was that

1448

00:54:20,990 --> 00:54:18,240

these objects were spotted coming from

1449

00:54:23,170 --> 00:54:21,000

the west from the open ocean you know uh

1450

00:54:25,910 --> 00:54:23,180

so this is still very much a mysterious

1451
00:54:28,309 --> 00:54:25,920
case and for everyone that's saying well

1452
00:54:30,829 --> 00:54:28,319
it's definitely drones they may be right

1453
00:54:32,329 --> 00:54:30,839
and I think this is important but we're

1454
00:54:33,770 --> 00:54:32,339
not going to go there oh sorry I'll

1455
00:54:36,109 --> 00:54:33,780
speak for myself I'm not going to go

1456
00:54:38,390 --> 00:54:36,119
there without the data so I will

1457
00:54:41,329 --> 00:54:38,400
continue to be their UAP because they're

1458
00:54:43,609 --> 00:54:41,339
unidentified and I think I'm purposely

1459
00:54:45,650 --> 00:54:43,619
making that point almost because I was

1460
00:54:48,230 --> 00:54:45,660
inspired by Jeremy to say for anybody

1461
00:54:50,450 --> 00:54:48,240
that thinks that we do what we do or I

1462
00:54:52,190 --> 00:54:50,460
do what I do because I so badly want it

1463
00:54:54,230 --> 00:54:52,200

to be aliens from outer space case or

1464

00:54:56,030 --> 00:54:54,240

whatever it's nice because I want to see

1465

00:54:57,650 --> 00:54:56,040

this right through to the end and then

1466

00:54:59,569 --> 00:54:57,660

I'll then I'll then I'll go with the

1467

00:55:01,370 --> 00:54:59,579

data you know absolutely

1468

00:55:03,470 --> 00:55:01,380

on the logic train you want to take this

1469

00:55:05,990 --> 00:55:03,480

down logic so

1470

00:55:08,030 --> 00:55:06,000

I made a point from starting an article

1471

00:55:10,670 --> 00:55:08,040

with a quote from one of the people who

1472

00:55:13,549 --> 00:55:10,680

made the designation of unmanned aerial

1473

00:55:15,170 --> 00:55:13,559

systems and that person admits that that

1474

00:55:16,490 --> 00:55:15,180

was a mistake looking back on it that

1475

00:55:19,490 --> 00:55:16,500

was a mistake because we hadn't

1476

00:55:22,250 --> 00:55:19,500

positively identified it so that that's

1477

00:55:24,290 --> 00:55:22,260

really really major I mean they're going

1478

00:55:25,970 --> 00:55:24,300

like they're going on the basis that was

1479

00:55:28,190 --> 00:55:25,980

unmanned aero systems because these

1480

00:55:30,950 --> 00:55:28,200

people making the nature decided to do

1481

00:55:33,530 --> 00:55:30,960

so because they were too small to have a

1482

00:55:34,970 --> 00:55:33,540

human on board so there but therefore it

1483

00:55:36,770 --> 00:55:34,980

must be a drone

1484

00:55:38,569 --> 00:55:36,780

um so that's what they're making the

1485

00:55:40,430 --> 00:55:38,579

Assumption based on however these people

1486

00:55:42,710 --> 00:55:40,440

that made the initial designations are

1487

00:55:44,150 --> 00:55:42,720

now saying oh I'm not so sure I don't

1488

00:55:45,770 --> 00:55:44,160

think it was it wasn't coming from the

1489

00:55:47,690 --> 00:55:45,780

bat straight they just appeared to come

1490

00:55:50,089 --> 00:55:47,700

from nowhere you know they're coming

1491

00:55:51,650 --> 00:55:50,099

from the West no going East-West North

1492

00:55:52,910 --> 00:55:51,660

and all these other questions all these

1493

00:55:55,329 --> 00:55:52,920

other bearings they would have gone back

1494

00:55:58,130 --> 00:55:55,339

to one place if it came from a certainly

1495

00:56:00,829 --> 00:55:58,140

bizarre activity involved

1496

00:56:02,690 --> 00:56:00,839

um however when you ask the

1497

00:56:04,609 --> 00:56:02,700

um Pentagon public affairs office they

1498

00:56:07,370 --> 00:56:04,619

basically say the that

1499

00:56:09,349 --> 00:56:07,380

um this was both an initial assessment

1500

00:56:11,630 --> 00:56:09,359

and also they evaluated it as well and

1501
00:56:14,210 --> 00:56:11,640
they still found it to be a mad aerial

1502
00:56:16,609 --> 00:56:14,220
system so now I've gone back to my

1503
00:56:19,190 --> 00:56:16,619
said to them and I've gone up I've sent

1504
00:56:22,069 --> 00:56:19,200
multiple emails now saying do you still

1505
00:56:24,109 --> 00:56:22,079
stick by you know your line that this

1506
00:56:25,730 --> 00:56:24,119
was unmanned aerial systems and I've yet

1507
00:56:29,210 --> 00:56:25,740
to receive response because their

1508
00:56:30,650 --> 00:56:29,220
messaging is now being undermined so uh

1509
00:56:32,510 --> 00:56:30,660
yeah that'd be really interesting sorry

1510
00:56:35,270 --> 00:56:32,520
I rudely interrupted you Katie but what

1511
00:56:36,530 --> 00:56:35,280
I'd like to ask you

1512
00:56:39,049 --> 00:56:36,540
um what what do you make of it because

1513
00:56:41,150 --> 00:56:39,059

obviously now I mean look we don't know

1514

00:56:43,130 --> 00:56:41,160

that they might have good evidence and

1515

00:56:45,049 --> 00:56:43,140

it's unmanned hero system but by all

1516

00:56:47,089 --> 00:56:45,059

means everything I've heard from the

1517

00:56:49,430 --> 00:56:47,099

people who have the insight into these

1518

00:56:51,290 --> 00:56:49,440

events points to it not being unmanned

1519

00:56:53,990 --> 00:56:51,300

aerial systems unless they've got a big

1520

00:56:55,549 --> 00:56:54,000

rabbit to take out the hat I don't think

1521

00:56:57,890 --> 00:56:55,559

they can really back up their claims

1522

00:57:00,349 --> 00:56:57,900

that it was unmanned aerial systems so

1523

00:57:02,809 --> 00:57:00,359

now you've got a situation where I think

1524

00:57:05,690 --> 00:57:02,819

um Bray at the Congressional hearing

1525

00:57:07,490 --> 00:57:05,700

basically says drones flash unmanned

1526

00:57:09,890 --> 00:57:07,500

aerial systems

1527

00:57:11,510 --> 00:57:09,900

so what does that mean that he said that

1528

00:57:15,170 --> 00:57:11,520

in a hearing now and

1529

00:57:17,990 --> 00:57:15,180

now that messaging has been undermined

1530

00:57:20,450 --> 00:57:18,000

I mean I think that I I'm just going to

1531

00:57:22,910 --> 00:57:20,460

reserve judgment you know it I would be

1532

00:57:25,490 --> 00:57:22,920

I'm not an expert in drugs

1533

00:57:27,829 --> 00:57:25,500

I'm not you know and I think that it

1534

00:57:29,450 --> 00:57:27,839

would be perfectly fine to find out at

1535

00:57:31,609 --> 00:57:29,460

the end of the day that DOD did have

1536

00:57:33,770 --> 00:57:31,619

some Intel I didn't want to share that

1537

00:57:36,049 --> 00:57:33,780

led them to that conclusion I'd be super

1538

00:57:38,390 --> 00:57:36,059

happy I'd also be happy if I found out

1539

00:57:40,250 --> 00:57:38,400

that you know that that's probably not

1540

00:57:42,589 --> 00:57:40,260

accurate and they were exhibiting some

1541

00:57:44,809 --> 00:57:42,599

like characteristics that you know just

1542

00:57:46,790 --> 00:57:44,819

can't be explained that way you know I I

1543

00:57:50,809 --> 00:57:46,800

kind of tend to agree with Vinnie and

1544

00:57:53,049 --> 00:57:50,819

and Jeremy that you know my I came into

1545

00:57:56,809 --> 00:57:53,059

this as a national security professional

1546

00:57:58,730 --> 00:57:56,819

concerned with whatever it is I'm

1547

00:58:00,530 --> 00:57:58,740

worried I'm worried if it's China I'm

1548

00:58:03,170 --> 00:58:00,540

worried if it's Russia I'm worried if

1549

00:58:06,109 --> 00:58:03,180

it's ours and we're wasting billions of

1550

00:58:06,950 --> 00:58:06,119

dollars on outdated Tech I'm worried if

1551

00:58:11,030 --> 00:58:06,960

it's

1552

00:58:13,069 --> 00:58:11,040

something else and so to me honestly I

1553

00:58:15,890 --> 00:58:13,079

don't care what it is I just want to

1554

00:58:18,890 --> 00:58:15,900

know and I think that that all of our

1555

00:58:20,630 --> 00:58:18,900

defense officials and all both of our

1556

00:58:22,910 --> 00:58:20,640

countries need to look at it that way

1557

00:58:24,410 --> 00:58:22,920

you know I I get that there's stigma but

1558

00:58:26,270 --> 00:58:24,420

the bottom line is we have to secure our

1559

00:58:28,370 --> 00:58:26,280

airspace we have to secure our seas we

1560

00:58:30,349 --> 00:58:28,380

have to know what we're up against so

1561

00:58:32,150 --> 00:58:30,359

that we can properly prepare and respond

1562

00:58:34,670 --> 00:58:32,160

and

1563

00:58:35,990 --> 00:58:34,680

um asking those questions is the only

1564

00:58:38,270 --> 00:58:36,000

way you do that and you can't take

1565

00:58:41,510 --> 00:58:38,280

anything off the table

1566

00:58:44,390 --> 00:58:41,520

absolutely absolutely well said

1567

00:58:46,849 --> 00:58:44,400

yeah well I think that's kind of covered

1568

00:58:48,349 --> 00:58:46,859

the latest on that Chris before you uh

1569

00:58:50,089 --> 00:58:48,359

go is it anything that you're able to

1570

00:58:53,510 --> 00:58:50,099

talk about that you are working on any

1571

00:58:57,650 --> 00:58:53,520

any little inside peaks of anything new

1572

00:59:04,670 --> 00:59:01,549

yeah I mean um I'm just currently in a

1573

00:59:06,589 --> 00:59:04,680

tussle with um Susan Goff on the over

1574

00:59:08,690 --> 00:59:06,599

mosul

1575

00:59:10,609 --> 00:59:08,700

um her current line is look I'm not

1576
00:59:11,569 --> 00:59:10,619
going to comment on anything contained

1577
00:59:13,250 --> 00:59:11,579
within

1578
00:59:15,589 --> 00:59:13,260
um class by briefings which is fine that

1579
00:59:17,630 --> 00:59:15,599
is a great line to do to to give and

1580
00:59:19,130 --> 00:59:17,640
perfectly understandable my problem is

1581
00:59:21,650 --> 00:59:19,140
there's a lack of consistency because

1582
00:59:23,510 --> 00:59:21,660
they previously have commented and

1583
00:59:25,549 --> 00:59:23,520
confirmed materials have been classified

1584
00:59:27,530 --> 00:59:25,559
material and three things which are the

1585
00:59:30,890 --> 00:59:27,540
other videos so I just asked a question

1586
00:59:33,470 --> 00:59:30,900
saying look I get that and perfectly

1587
00:59:35,030 --> 00:59:33,480
respected security purposes but can you

1588
00:59:36,670 --> 00:59:35,040

explain to me why is it like a

1589

00:59:39,309 --> 00:59:36,680

consistency what is your approach

1590

00:59:41,390 --> 00:59:39,319

commenting on these

1591

00:59:44,690 --> 00:59:41,400

zilch they don't want to answer that so

1592

00:59:48,289 --> 00:59:44,700

I find that really really frustrating

1593

00:59:51,170 --> 00:59:48,299

um so I mean we're currently just trying

1594

00:59:53,150 --> 00:59:51,180

we've got yeah we've got good reasons

1595

00:59:54,829 --> 00:59:53,160

you know to believe that there are lots

1596

00:59:56,809 --> 00:59:54,839

of people that can confirm it and I have

1597

00:59:58,190 --> 00:59:56,819

had it confirmed to me that through

1598

01:00:00,410 --> 00:59:58,200

various other sources that it was

1599

01:00:02,630 --> 01:00:00,420

something contained within

1600

01:00:05,450 --> 01:00:02,640

um you know a class like briefing that

1601
01:00:06,890 --> 01:00:05,460
is it is legitimate so

1602
01:00:08,510 --> 01:00:06,900
um I think we're very confident that it

1603
01:00:10,309 --> 01:00:08,520
is but it's just frustrating that

1604
01:00:12,589 --> 01:00:10,319
there's a lack of transparency from the

1605
01:00:15,109 --> 01:00:12,599
Pentagon and actually saying that and

1606
01:00:17,150 --> 01:00:15,119
Goff is saying that there's going to be

1607
01:00:20,809 --> 01:00:17,160
more materials which are going to be

1608
01:00:24,410 --> 01:00:20,819
released relating to aptf so UAP when

1609
01:00:26,329 --> 01:00:24,420
they can confirm it and release it but I

1610
01:00:28,190 --> 01:00:26,339
mean what we're getting so far it's it's

1611
01:00:29,510 --> 01:00:28,200
not good but I think some of the

1612
01:00:31,069 --> 01:00:29,520
progress that's being made in Washington

1613
01:00:33,710 --> 01:00:31,079

right now

1614

01:00:35,870 --> 01:00:33,720

um is very very good and I'm hoping that

1615

01:00:37,970 --> 01:00:35,880

this this does change it and that we're

1616

01:00:41,329 --> 01:00:37,980

going to see some contradictions

1617

01:00:43,670 --> 01:00:41,339

um coming up as a record is corrected

1618

01:00:45,170 --> 01:00:43,680

but my big question right now as I'm

1619

01:00:47,270 --> 01:00:45,180

going back sorry going back to this

1620

01:00:50,210 --> 01:00:47,280

balloon thing that you know we've got

1621

01:00:51,890 --> 01:00:50,220

incursions going on every day like

1622

01:00:53,750 --> 01:00:51,900

Gutierrez said these things are being

1623

01:00:55,849 --> 01:00:53,760

seen every day and they're a safety

1624

01:00:57,349 --> 01:00:55,859

hazard for flight and Graves has said

1625

01:00:59,750 --> 01:00:57,359

that we saw them like every day as well

1626
01:01:02,270 --> 01:00:59,760
on the East Coast why is nothing being

1627
01:01:04,250 --> 01:01:02,280
done about it like

1628
01:01:06,049 --> 01:01:04,260
why why are journalists not taking an

1629
01:01:07,490 --> 01:01:06,059
interest in that saying why is nothing

1630
01:01:09,530 --> 01:01:07,500
being done about this could be Chinese

1631
01:01:10,910 --> 01:01:09,540
we don't know but

1632
01:01:12,230 --> 01:01:10,920
it's just it's just incredibly

1633
01:01:14,510 --> 01:01:12,240
frustrating that you're just seeing a

1634
01:01:16,309 --> 01:01:14,520
lack of transparency on this and I like

1635
01:01:18,289 --> 01:01:16,319
to I like to be this topic that you've

1636
01:01:21,289 --> 01:01:18,299
got one side and I think it is very true

1637
01:01:22,069 --> 01:01:21,299
as said by the Odeon at OD and I Source

1638
01:01:24,289 --> 01:01:22,079

they don't want to comment on this

1639

01:01:25,609 --> 01:01:24,299

because they can't explain it they can't

1640

01:01:26,690 --> 01:01:25,619

explain it so they don't want to comment

1641

01:01:28,730 --> 01:01:26,700

on it because they don't want to turn

1642

01:01:30,230 --> 01:01:28,740

around to the US public because we have

1643

01:01:31,730 --> 01:01:30,240

no idea

1644

01:01:33,109 --> 01:01:31,740

um but then you've apparently got this

1645

01:01:35,030 --> 01:01:33,119

other side within the special access

1646

01:01:38,089 --> 01:01:35,040

programs and stuff like that know

1647

01:01:41,990 --> 01:01:38,099

perfectly well allegedly what this stuff

1648

01:01:43,490 --> 01:01:42,000

is so um yeah if I'm if I'm if I'm a

1649

01:01:45,430 --> 01:01:43,500

congressman at the moment in America I'm

1650

01:01:48,530 --> 01:01:45,440

probably just as frustrated

1651

01:01:50,870 --> 01:01:48,540

but yeah it's a matter of protecting our

1652

01:01:54,349 --> 01:01:50,880

military members and every Congressman

1653

01:01:56,510 --> 01:01:54,359

or congresswoman should be aware of that

1654

01:01:58,789 --> 01:01:56,520

and pushing for that

1655

01:02:01,430 --> 01:01:58,799

absolutely well said

1656

01:02:03,049 --> 01:02:01,440

yeah wow wonderful Chris thank you so

1657

01:02:04,569 --> 01:02:03,059

much Katie I'm going to hand it over to

1658

01:02:07,370 --> 01:02:04,579

you to do the outro

1659

01:02:08,030 --> 01:02:07,380

well thanks for being here Chris

1660

01:02:10,670 --> 01:02:08,040

um

1661

01:02:13,849 --> 01:02:10,680

welcome to disclosure team as an

1662

01:02:15,410 --> 01:02:13,859

official team with me and Vinnie thanks

1663

01:02:17,930 --> 01:02:15,420

for being here everyone

1664

01:02:19,730 --> 01:02:17,940

um really appreciate it I was fun to sit

1665

01:02:21,410 --> 01:02:19,740

in the seat with you guys and Chris

1666

01:02:23,450 --> 01:02:21,420

thank you so much it's always wonderful

1667

01:02:25,430 --> 01:02:23,460

to talk with you and

1668

01:02:27,890 --> 01:02:25,440

um appreciate your thoughtful approach

1669

01:02:30,589 --> 01:02:27,900

to this issue and

1670

01:02:32,450 --> 01:02:30,599

um your friendship and uh can't wait to

1671

01:02:34,609 --> 01:02:32,460

see what you come up with next

1672

01:02:36,950 --> 01:02:34,619

oh thank you so much for having me both

1673

01:02:38,809 --> 01:02:36,960

it was it was a true it was just

1674

01:02:40,970 --> 01:02:38,819

brilliant I loved it what a great

1675

01:02:43,010 --> 01:02:40,980

experience the Insight provided by ukt

1676

01:02:46,010 --> 01:02:43,020

and the thoughtful questions provided by

1677

01:02:47,270 --> 01:02:46,020

UV e and it's just yeah I think um it's

1678

01:02:49,490 --> 01:02:47,280

gonna be great I can't wait to be on

1679

01:02:52,549 --> 01:02:49,500

again hopefully uh yeah it won't be too

1680

01:02:54,230 --> 01:02:52,559

long anytime my friend anytime all right
