1  
00:00:00,330 --> 00:00:22,269

[Music]

2  
00:00:22,279 --> 00:00:28,200

thank you

3  
00:00:33,709 --> 00:00:30,529

[Music]

4  
00:00:34,850 --> 00:00:33,719

welcome back everybody I hope you are

5  
00:00:37,010 --> 00:00:34,860

all doing well

6  
00:00:39,049 --> 00:00:37,020

and before we bring on my guests the

7  
00:00:41,569 --> 00:00:39,059

usual please just keep the chat nice and

8  
00:00:43,250 --> 00:00:41,579

cool Carmen collected if you do have any

9  
00:00:45,110 --> 00:00:43,260

questions that you'd like me to consider

10  
00:00:47,090 --> 00:00:45,120

during the interview just pop them in

11  
00:00:50,209 --> 00:00:47,100

capital letters I'll do my best to to

12  
00:00:51,889 --> 00:00:50,219

look at those and yeah good to see

13  
00:00:53,569 --> 00:00:51,899

everyone and I hope you enjoy this

14

00:00:55,610 --> 00:00:53,579

conversation uh it's always good

15

00:00:59,950 --> 00:00:55,620

speaking with my guests so let's bring

16

00:01:03,110 --> 00:00:59,960

him in please welcome Tim McMillan

17

00:01:04,490 --> 00:01:03,120

hey good man how are you yeah not bad at

18

00:01:06,890 --> 00:01:04,500

all thank you man appreciate you being

19

00:01:09,770 --> 00:01:06,900

here yeah of course it's good it's good

20

00:01:11,030 --> 00:01:09,780

to catch up you know you you uh this is

21

00:01:12,469 --> 00:01:11,040

you're one of my favorite people so it's

22

00:01:13,550 --> 00:01:12,479

always fun when we get to kind of catch

23

00:01:15,890 --> 00:01:13,560

up and chat

24

00:01:18,469 --> 00:01:15,900

I appreciate that man well listen Tim I

25

00:01:20,270 --> 00:01:18,479

wanted to start this off by asking you

26  
00:01:21,969 --> 00:01:20,280  
about something that I'm sure you're

27  
00:01:25,550 --> 00:01:21,979  
probably sick of talking about but it's

28  
00:01:27,530 --> 00:01:25,560  
part four of your article devices of

29  
00:01:30,469 --> 00:01:27,540  
Unknown Origin and I just wondered if

30  
00:01:32,990 --> 00:01:30,479  
we're likely to see that anytime

31  
00:01:36,469 --> 00:01:33,000  
I hope so well let me hear you out there

32  
00:01:38,030 --> 00:01:36,479  
so I I don't want anybody to be misled

33  
00:01:39,710 --> 00:01:38,040  
or have any expectation when we say

34  
00:01:41,690 --> 00:01:39,720  
anytime soon like it's coming in the

35  
00:01:43,310 --> 00:01:41,700  
next month or anything like that sure uh

36  
00:01:46,069 --> 00:01:43,320  
because I don't believe it is it's it's

37  
00:01:47,450 --> 00:01:46,079  
unfortunate because when I laid that out

38  
00:01:48,890 --> 00:01:47,460

um it was really always supposed to be a

39

00:01:51,230 --> 00:01:48,900

part three and then something else

40

00:01:54,289 --> 00:01:51,240

popped up that was gonna make for a part

41

00:01:58,190 --> 00:01:54,299

four that was gonna be like oh wow like

42

00:02:00,830 --> 00:01:58,200

this is gonna be huge and then it just

43

00:02:03,649 --> 00:02:00,840

the Dynamics changed a little bit the

44

00:02:06,109 --> 00:02:03,659

story didn't go away but if you're gonna

45

00:02:08,690 --> 00:02:06,119

share a really you know explosive story

46

00:02:10,370 --> 00:02:08,700

or a story that uh is going to generate

47

00:02:11,630 --> 00:02:10,380

a lot of tension or you know you've got

48

00:02:12,710 --> 00:02:11,640

to make sure you got all your ducks in a

49

00:02:14,750 --> 00:02:12,720

row and you got to be able to make sure

50

00:02:16,550 --> 00:02:14,760

you can put people on record like that

51  
00:02:17,809 --> 00:02:16,560  
that's a big it's a big deal with this

52  
00:02:20,330 --> 00:02:17,819  
one is

53  
00:02:22,670 --> 00:02:20,340  
um you know there's often times when you

54  
00:02:25,190 --> 00:02:22,680  
have to rely on unnamed sources or

55  
00:02:26,630 --> 00:02:25,200  
people speaking uh on background or deep

56  
00:02:29,150 --> 00:02:26,640  
background

57  
00:02:32,630 --> 00:02:29,160  
um but I've always stood by that uh

58  
00:02:33,949 --> 00:02:32,640  
anytime that I use that it's it's to

59  
00:02:36,229 --> 00:02:33,959  
give context to something that's going

60  
00:02:39,050 --> 00:02:36,239  
on it's never to substantiate the meat

61  
00:02:42,110 --> 00:02:39,060  
of the whole deal and so with this one

62  
00:02:45,290 --> 00:02:42,120  
it really needs it needs one or two

63  
00:02:46,729 --> 00:02:45,300

people that were willing to go go on the

64

00:02:50,390 --> 00:02:46,739

record initially and then they're like

65

00:02:53,270 --> 00:02:50,400

well give me some time for XYZ and XYZ

66

00:02:56,770 --> 00:02:53,280

made sense and so that's where we are

67

00:02:59,990 --> 00:02:56,780

with that I do you know I certainly

68

00:03:02,030 --> 00:03:00,000

intend to publish it at some point I

69

00:03:04,610 --> 00:03:02,040

promise that's cool now it's good to

70

00:03:06,110 --> 00:03:04,620

know I have to ask God to ask listen I

71

00:03:07,309 --> 00:03:06,120

wanted to talk as well about what we've

72

00:03:09,290 --> 00:03:07,319

seen quite a few things happening

73

00:03:11,210 --> 00:03:09,300

recently but

74

00:03:12,530 --> 00:03:11,220

earlier I think it was earlier this week

75

00:03:14,210 --> 00:03:12,540

or towards the end of last week we saw

76

00:03:17,030 --> 00:03:14,220

Senator Kirsten Gillibrand in a meeting

77

00:03:19,009 --> 00:03:17,040

with U.S intelligence directors talking

78

00:03:22,309 --> 00:03:19,019

about the current funding for the all

79

00:03:24,170 --> 00:03:22,319

domain anomaly resolution office and it

80

00:03:25,970 --> 00:03:24,180

just you know this was both within DOD

81

00:03:28,369 --> 00:03:25,980

and intelligence budgets and it just

82

00:03:30,710 --> 00:03:28,379

seemed so problematic still it's still

83

00:03:32,089 --> 00:03:30,720

not running as mandated by Congress and

84

00:03:34,309 --> 00:03:32,099

I just wondered what your thoughts were

85

00:03:35,710 --> 00:03:34,319

on what's taking them so long to get

86

00:03:38,750 --> 00:03:35,720

this thing going

87

00:03:41,149 --> 00:03:38,760

sure well it's it's not surprising I

88

00:03:42,710 --> 00:03:41,159

mean this is uh very typical with how

89

00:03:44,330 --> 00:03:42,720

the government operates and nothing

90

00:03:45,130 --> 00:03:44,340

really operates

91

00:03:47,210 --> 00:03:45,140

um

92

00:03:48,949 --> 00:03:47,220

effectively quickly with government

93

00:03:51,229 --> 00:03:48,959

especially when things aren't

94

00:03:53,809 --> 00:03:51,239

specifically allocated and so that's

95

00:03:55,729 --> 00:03:53,819

part of the problem with a lot of what

96

00:03:57,649 --> 00:03:55,739

uh you know Congress when they outline

97

00:03:59,809 --> 00:03:57,659

the different things that they the

98

00:04:00,949 --> 00:03:59,819

different expectations that they had for

99

00:04:02,869 --> 00:04:00,959

it

100

00:04:06,350 --> 00:04:02,879

um they didn't you know specifically

101  
00:04:11,210 --> 00:04:06,360  
allocate this amount of money is going

102  
00:04:13,190 --> 00:04:11,220  
to go to Arrow this is it you know this

103  
00:04:15,170 --> 00:04:13,200  
is is congressionally mandated to go to

104  
00:04:18,409 --> 00:04:15,180  
that rather they they expected those

105  
00:04:19,969 --> 00:04:18,419  
funds to be taken out of already uh

106  
00:04:21,349 --> 00:04:19,979  
appropriated funding it was going into

107  
00:04:24,409 --> 00:04:21,359  
different intelligence programs and

108  
00:04:26,810 --> 00:04:24,419  
everything and so uh that in itself

109  
00:04:29,629 --> 00:04:26,820  
always makes it difficult for any

110  
00:04:31,610 --> 00:04:29,639  
program in fact um you know people may

111  
00:04:33,590 --> 00:04:31,620  
recall Louis zando talking about when he

112  
00:04:35,150 --> 00:04:33,600  
was trying to get funding for for atip

113  
00:04:37,070 --> 00:04:35,160

when that ran out when the alsap

114

00:04:38,450 --> 00:04:37,080

contract ran out he talked about they

115

00:04:40,010 --> 00:04:38,460

had secured funding then somebody stole

116

00:04:41,450 --> 00:04:40,020

it from them that's the kind of thing

117

00:04:43,909 --> 00:04:41,460

we're talking about here is there's a

118

00:04:45,170 --> 00:04:43,919

there's a pot there's a pot of gold and

119

00:04:47,270 --> 00:04:45,180

there's a whole bunch of hands they're

120

00:04:49,310 --> 00:04:47,280

trying to grab it and so I think that's

121

00:04:50,810 --> 00:04:49,320

where part of the problem is there

122

00:04:53,210 --> 00:04:50,820

there's also

123

00:04:54,710 --> 00:04:53,220

um there's some interesting

124

00:04:56,810 --> 00:04:54,720

there's some interesting political

125

00:04:58,850 --> 00:04:56,820

conflicts perhaps unsurprisingly going

126  
00:05:00,890 --> 00:04:58,860  
on behind the scenes uh from from what

127  
00:05:03,710 --> 00:05:00,900  
I've gathered from people you know in

128  
00:05:05,990 --> 00:05:03,720  
fact you know I I heard from people who

129  
00:05:08,210 --> 00:05:06,000  
work at the Pentagon who who are

130  
00:05:11,629 --> 00:05:08,220  
familiar with the program who expressing

131  
00:05:14,210 --> 00:05:11,639  
being a little dismayed to hear uh

132  
00:05:15,590 --> 00:05:14,220  
elected leaders requesting more funding

133  
00:05:17,930 --> 00:05:15,600  
or saying they needed more funding

134  
00:05:20,510 --> 00:05:17,940  
because uh they were under they're under

135  
00:05:22,490 --> 00:05:20,520  
the interpretation that Arrow does have

136  
00:05:23,749 --> 00:05:22,500  
a budget and it's in fact only spent a

137  
00:05:26,029 --> 00:05:23,759  
very small

138  
00:05:28,670 --> 00:05:26,039

margin of that budget in fact that they

139

00:05:30,950 --> 00:05:28,680

have uh roughly 85 percent of their

140

00:05:32,689 --> 00:05:30,960

budget still unspent and so they were

141

00:05:35,510 --> 00:05:32,699

dismayed with it now

142

00:05:37,490 --> 00:05:35,520

uh you know I ask you know this goes

143

00:05:39,590 --> 00:05:37,500

into when are you gonna put print part

144

00:05:40,850 --> 00:05:39,600

four and and you're like well Jim damn

145

00:05:43,430 --> 00:05:40,860

why haven't you published an article

146

00:05:45,590 --> 00:05:43,440

share this like why is Arrow begging for

147

00:05:47,150 --> 00:05:45,600

money they haven't spent it is this is

148

00:05:48,590 --> 00:05:47,160

another one of those instances where you

149

00:05:50,029 --> 00:05:48,600

know I asked I said wow that's that's

150

00:05:51,950 --> 00:05:50,039

impressive can is there any

151  
00:05:53,990 --> 00:05:51,960  
documentation you can give me to back

152  
00:05:57,170 --> 00:05:54,000  
that up somehow you know you show me

153  
00:05:58,430 --> 00:05:57,180  
take a picture of the budget and

154  
00:06:00,529 --> 00:05:58,440  
everything and they said they you know

155  
00:06:02,689 --> 00:06:00,539  
they can't do that that crosses the line

156  
00:06:05,510 --> 00:06:02,699  
of classification and I said okay

157  
00:06:07,730 --> 00:06:05,520  
understandable but therefore I say all

158  
00:06:10,430 --> 00:06:07,740  
that to say that's what I'm being told

159  
00:06:12,350 --> 00:06:10,440  
from people but everybody has political

160  
00:06:14,090 --> 00:06:12,360  
agendas and I think we're seeing that

161  
00:06:15,770 --> 00:06:14,100  
more and more

162  
00:06:17,629 --> 00:06:15,780  
um really in the last couple months

163  
00:06:20,090 --> 00:06:17,639

you're seeing more and more of some

164

00:06:21,890 --> 00:06:20,100

political agendas coming out of the

165

00:06:24,110 --> 00:06:21,900

Pentagon and with lawmakers when it

166

00:06:25,909 --> 00:06:24,120

comes to the topic

167

00:06:28,430 --> 00:06:25,919

yeah what about the you know the

168

00:06:30,050 --> 00:06:28,440

liaising with other agencies do you

169

00:06:32,270 --> 00:06:30,060

think that's starting to work I mean we

170

00:06:33,590 --> 00:06:32,280

saw again senator gillibrand in a

171

00:06:35,689 --> 00:06:33,600

meeting with Four Star General Anthony

172

00:06:37,730 --> 00:06:35,699

cotton talking about stratcom and the

173

00:06:39,110 --> 00:06:37,740

co-coms and their assistants that you

174

00:06:41,330 --> 00:06:39,120

know it just seems that this is just

175

00:06:43,430 --> 00:06:41,340

really not fully operational and it's

176  
00:06:45,590 --> 00:06:43,440  
it's Dragon so is that sort of the same

177  
00:06:47,870 --> 00:06:45,600  
thing it's just it's just time

178  
00:06:50,570 --> 00:06:47,880  
it's time and it's just the the the

179  
00:06:52,730 --> 00:06:50,580  
really Byzantine biocracy that goes on

180  
00:06:54,529 --> 00:06:52,740  
to the government and so uh some people

181  
00:06:56,150 --> 00:06:54,539  
may have seen that I really I commented

182  
00:07:00,050 --> 00:06:56,160  
that I thought her questioning of

183  
00:07:02,090 --> 00:07:00,060  
stratcom uh was great because you know

184  
00:07:03,529 --> 00:07:02,100  
uh General cotton tried to defer to

185  
00:07:06,409 --> 00:07:03,539  
North comic couple number you have to

186  
00:07:08,689 --> 00:07:06,419  
ask North com but it was nice that she

187  
00:07:10,670 --> 00:07:08,699  
asked them because stratcom is in charge

188  
00:07:13,010 --> 00:07:10,680

of the global intelligence or

189

00:07:15,890 --> 00:07:13,020

reconnaissance Synergy for the entire

190

00:07:17,990 --> 00:07:15,900

Department of Defense whereas North com

191

00:07:20,749 --> 00:07:18,000

is just in charge of the continental

192

00:07:23,089 --> 00:07:20,759

United States and its territories so you

193

00:07:24,710 --> 00:07:23,099

know what she was saying without saying

194

00:07:28,010 --> 00:07:24,720

it it's kind of funny when you put these

195

00:07:30,050 --> 00:07:28,020

lawmakers on on on the the box there is

196

00:07:31,969 --> 00:07:30,060

that hey I expect this to be something

197

00:07:34,249 --> 00:07:31,979

that you take a global interest in

198

00:07:35,510 --> 00:07:34,259

because if you're only if we're relying

199

00:07:37,610 --> 00:07:35,520

on North com we're only looking at the

200

00:07:38,990 --> 00:07:37,620

U.S but I don't expect that because if

201  
00:07:40,790 --> 00:07:39,000  
they're not coming from the us where the

202  
00:07:42,650 --> 00:07:40,800  
heck are they coming from should we try

203  
00:07:44,210 --> 00:07:42,660  
to figure that out so I thought that was

204  
00:07:46,909 --> 00:07:44,220  
good but you're right I think you're

205  
00:07:49,850 --> 00:07:46,919  
correct and kind of uh and I commented

206  
00:07:51,589 --> 00:07:49,860  
on that in it uh General Cotton's kind

207  
00:07:54,710 --> 00:07:51,599  
of where he was a little taken back by

208  
00:07:57,350 --> 00:07:54,720  
and even kind of smirked a little bit

209  
00:07:58,969 --> 00:07:57,360  
um but uh you could tell that you know

210  
00:08:02,629 --> 00:07:58,979  
he said that they had Liaisons I'm sure

211  
00:08:04,210 --> 00:08:02,639  
they do but but agencies are so

212  
00:08:08,210 --> 00:08:04,220  
territorial

213  
00:08:09,950 --> 00:08:08,220

and so protective of their assets and

214

00:08:13,189 --> 00:08:09,960

what they want to do you know it's like

215

00:08:15,650 --> 00:08:13,199

kids not want to be told what to do and

216

00:08:18,110 --> 00:08:15,660

it's even Amplified when you're talking

217

00:08:21,230 --> 00:08:18,120

about uh people who are in senior

218

00:08:23,089 --> 00:08:21,240

executive leadership roles who are have

219

00:08:25,610 --> 00:08:23,099

gotten there by Presidential nomination

220

00:08:27,589 --> 00:08:25,620

or their generals who spent 40 years and

221

00:08:30,469 --> 00:08:27,599

they've got this rank I mean you know

222

00:08:31,850 --> 00:08:30,479

they've flown around in private jets uh

223

00:08:35,029 --> 00:08:31,860

and suddenly somebody's telling what to

224

00:08:38,510 --> 00:08:35,039

do and so uh it's very difficult I think

225

00:08:40,730 --> 00:08:38,520

that's one reason why and I've always

226

00:08:42,290 --> 00:08:40,740

agreed with it that Christopher melon

227

00:08:44,810 --> 00:08:42,300

has always said he felt like there

228

00:08:46,070 --> 00:08:44,820

needed to be a structure similar to what

229

00:08:48,470 --> 00:08:46,080

they did with the Special Operations

230

00:08:50,870 --> 00:08:48,480

Command we actually had a combatant

231

00:08:53,090 --> 00:08:50,880

command now that's a that's a big ticket

232

00:08:56,750 --> 00:08:53,100

to ask for to have a UFO combatant

233

00:08:59,570 --> 00:08:56,760

command but a similar structure where

234

00:09:02,090 --> 00:08:59,580

you have representatives from all of

235

00:09:04,130 --> 00:09:02,100

these different areas and components of

236

00:09:07,550 --> 00:09:04,140

government actually working in the same

237

00:09:08,870 --> 00:09:07,560

building under the same umbrella really

238

00:09:10,790 --> 00:09:08,880

gives you a lot more muscle and

239

00:09:13,250 --> 00:09:10,800

unfortunately Arrow doesn't have that

240

00:09:17,630 --> 00:09:13,260

and I have always said that that's going

241

00:09:19,430 --> 00:09:17,640

to make that job extremely difficult for

242

00:09:21,470 --> 00:09:19,440

the foreseeable future in my opinion as

243

00:09:23,810 --> 00:09:21,480

long as it kind of exists how it is and

244

00:09:25,430 --> 00:09:23,820

and bear in mind we're just talking

245

00:09:28,550 --> 00:09:25,440

about the Department of Defense that's

246

00:09:30,949 --> 00:09:28,560

not getting into there there's a vast

247

00:09:32,750 --> 00:09:30,959

array of federal agencies from the FBI

248

00:09:34,730 --> 00:09:32,760

to the Department of energy all these

249

00:09:36,530 --> 00:09:34,740

different places that the dod has no

250

00:09:39,889 --> 00:09:36,540

jurisdiction over but all of them

251  
00:09:42,530 --> 00:09:39,899  
Homeland Security the Coast Guard all of

252  
00:09:44,930 --> 00:09:42,540  
them can have influence into this and

253  
00:09:46,730 --> 00:09:44,940  
and frankly probably have data or some

254  
00:09:48,710 --> 00:09:46,740  
information to share it's just getting

255  
00:09:51,350 --> 00:09:48,720  
those resources together is extremely

256  
00:09:52,970 --> 00:09:51,360  
difficult yeah no I can imagine and and

257  
00:09:54,769 --> 00:09:52,980  
I think Senator gillibrand also

258  
00:09:56,870 --> 00:09:54,779  
mentioned something about norad's senses

259  
00:09:58,430 --> 00:09:56,880  
being quite old as well and that could

260  
00:10:01,310 --> 00:09:58,440  
be something that needs upgrading in

261  
00:10:03,650 --> 00:10:01,320  
order to really help gather better data

262  
00:10:05,630 --> 00:10:03,660  
well that was a I'm glad you brought it

263  
00:10:07,009 --> 00:10:05,640

up you reminded me because I I chuckled

264

00:10:08,810 --> 00:10:07,019

when she said that because it goes into

265

00:10:12,290 --> 00:10:08,820

that dance that kind of hidden little

266

00:10:14,449 --> 00:10:12,300

game that lawmakers and and people uh in

267

00:10:16,070 --> 00:10:14,459

executive power positions play but she

268

00:10:18,110 --> 00:10:16,080

did she made it she expressed her intent

269

00:10:20,570 --> 00:10:18,120

the distraction on extract common ball

270

00:10:23,329 --> 00:10:20,580

and she followed that up by bringing up

271

00:10:25,310 --> 00:10:23,339

the the older air defense systems and

272

00:10:27,170 --> 00:10:25,320

that's kind of a subtle way of saying

273

00:10:29,750 --> 00:10:27,180

hey this is I expect you to be looking

274

00:10:31,490 --> 00:10:29,760

at this globally by the way won't you be

275

00:10:33,530 --> 00:10:31,500

coming to me in a couple of months or

276

00:10:34,490 --> 00:10:33,540

weeks here with your new defense budget

277

00:10:36,650 --> 00:10:34,500

and you're going to be asking for a

278

00:10:38,630 --> 00:10:36,660

bunch of money for Radars aren't you hmm

279

00:10:41,210 --> 00:10:38,640

okay well I just told you what I wanted

280

00:10:43,490 --> 00:10:41,220

so all right you know thanks for your

281

00:10:44,690 --> 00:10:43,500

question so it's just kind of veiled way

282

00:10:45,889 --> 00:10:44,700

of saying it's a give and take

283

00:10:48,170 --> 00:10:45,899

relationship

284

00:10:50,030 --> 00:10:48,180

yeah absolutely and we've got a question

285

00:10:52,430 --> 00:10:50,040

here from Dan which he highlights a good

286

00:10:54,889 --> 00:10:52,440

point says often we see responses to any

287

00:10:56,690 --> 00:10:54,899

bit of UAP video or photo with we have

288

00:10:58,910 --> 00:10:56,700

the best sensors on this why can't we

289

00:11:01,130 --> 00:10:58,920

figure it out do we have all the best

290

00:11:04,250 --> 00:11:01,140

sensors pointing at all places at all

291

00:11:07,790 --> 00:11:04,260

times no oh yeah we don't you know

292

00:11:11,269 --> 00:11:07,800

clearly we don't uh and in in particular

293

00:11:12,910 --> 00:11:11,279

and I had a conversation about this uh

294

00:11:15,290 --> 00:11:12,920

on Twitter the other day

295

00:11:18,410 --> 00:11:15,300

where uh there was some conversation

296

00:11:20,990 --> 00:11:18,420

about uh the lack there of of different

297

00:11:24,009 --> 00:11:21,000

videos or perhaps identifications of

298

00:11:26,810 --> 00:11:24,019

objects in particular this was the 2019

299

00:11:28,069 --> 00:11:26,820

Events off the west coast and one thing

300

00:11:31,610 --> 00:11:28,079

that I pointed out is that it's

301

00:11:34,550 --> 00:11:31,620

important to to realize that uh for the

302

00:11:36,290 --> 00:11:34,560

most part the imagery systems that are

303

00:11:38,870 --> 00:11:36,300

on Military systems especially those

304

00:11:41,530 --> 00:11:38,880

naval ships or even aircraft uh their

305

00:11:44,870 --> 00:11:41,540

purpose-built single mission

306

00:11:46,850 --> 00:11:44,880

for that weapon system so you know the

307

00:11:49,069 --> 00:11:46,860

the targeting pods that we've seen some

308

00:11:53,210 --> 00:11:49,079

great videos like the uh the Nimitz

309

00:11:55,130 --> 00:11:53,220

video or the um the gimbal uh you know

310

00:11:57,290 --> 00:11:55,140

we've seen those were used to capture

311

00:11:58,730 --> 00:11:57,300

these videos but that's not what those

312

00:12:00,350 --> 00:11:58,740

systems are designed for and in fact

313

00:12:02,329 --> 00:12:00,360

that's not really their best purpose

314

00:12:04,670 --> 00:12:02,339

their targeting systems used for ground

315

00:12:06,590 --> 00:12:04,680

engagements air to ground targeting uh

316

00:12:08,329 --> 00:12:06,600

missile engagement they've since been

317

00:12:10,550 --> 00:12:08,339

kind of co-opted

318

00:12:12,230 --> 00:12:10,560

um for air-to-air intelligence gathering

319

00:12:14,030 --> 00:12:12,240

but these systems aren't designed for it

320

00:12:15,530 --> 00:12:14,040

and so there's very problematic Dan

321

00:12:17,569 --> 00:12:15,540

brings up a good point that we don't

322

00:12:20,150 --> 00:12:17,579

have the best systems pointed everywhere

323

00:12:22,550 --> 00:12:20,160

we don't have them necessarily tuned to

324

00:12:24,949 --> 00:12:22,560

what they need to be tuned to I think in

325

00:12:27,290 --> 00:12:24,959

a lot of times and they aren't really

326

00:12:30,050 --> 00:12:27,300

designed for capturing the types of

327

00:12:31,730 --> 00:12:30,060

intelligence that seems to be escaping

328

00:12:32,810 --> 00:12:31,740

things when we're looking at this

329

00:12:34,610 --> 00:12:32,820

because there's always seems to be

330

00:12:36,050 --> 00:12:34,620

something missing you know maybe you've

331

00:12:37,430 --> 00:12:36,060

getting the video but you don't you

332

00:12:38,990 --> 00:12:37,440

don't get other sensor data there's

333

00:12:42,530 --> 00:12:39,000

something there's a veil there that's

334

00:12:43,910 --> 00:12:42,540

missing and so you know it's obvious

335

00:12:47,030 --> 00:12:43,920

that you're dealing with at times

336

00:12:48,710 --> 00:12:47,040

something that is abstract it's outside

337

00:12:50,269 --> 00:12:48,720

of the balance of what those systems

338

00:12:52,790 --> 00:12:50,279

were designed for I think that's

339

00:12:55,190 --> 00:12:52,800

problematic I think it's problematic for

340

00:12:57,829 --> 00:12:55,200

understanding UAP it's problematic for

341

00:12:59,090 --> 00:12:57,839

the very example that we don't have data

342

00:13:01,610 --> 00:12:59,100

on it that's exactly what your

343

00:13:04,730 --> 00:13:01,620

adversaries do they want to get in those

344

00:13:07,129 --> 00:13:04,740

gaps and so it is problematic but but

345

00:13:10,670 --> 00:13:07,139

Dan brings up a great point we don't and

346

00:13:12,949 --> 00:13:10,680

I think we we've seen that uh very that

347

00:13:15,350 --> 00:13:12,959

that's really been reinforced in the

348

00:13:17,269 --> 00:13:15,360

last couple months

349

00:13:19,069 --> 00:13:17,279

I appreciate the answer and I think Dan

350

00:13:20,930 --> 00:13:19,079

says that too yeah

351  
00:13:22,850 --> 00:13:20,940  
um and you mentioned that the 2019 drone

352  
00:13:24,170 --> 00:13:22,860  
swarms that we're still here you know

353  
00:13:25,970 --> 00:13:24,180  
come back into the conversation every

354  
00:13:28,550 --> 00:13:25,980  
now and again and I just wondered where

355  
00:13:30,470 --> 00:13:28,560  
your head's at with that case currently

356  
00:13:34,730 --> 00:13:30,480  
with the uh we're talking about the West

357  
00:13:37,250 --> 00:13:34,740  
Coast the 20 was it 29 2019 yeah yeah

358  
00:13:41,090 --> 00:13:37,260  
you know I don't know you know I think

359  
00:13:43,550 --> 00:13:41,100  
that uh I'm well aware that there there

360  
00:13:46,129 --> 00:13:43,560  
has been instances where

361  
00:13:48,290 --> 00:13:46,139  
um foreign governments have tried to use

362  
00:13:51,530 --> 00:13:48,300  
drones namely in this case China before

363  
00:13:53,629 --> 00:13:51,540

both spying on uh mainland United States

364

00:13:56,090 --> 00:13:53,639

and also just harassment intimidation

365

00:13:58,850 --> 00:13:56,100

little nuisance type stuff so I know

366

00:14:00,829 --> 00:13:58,860

that goes on and I think offhand when

367

00:14:02,690 --> 00:14:00,839

you hear about

368

00:14:04,490 --> 00:14:02,700

um some of the things that that were

369

00:14:06,470 --> 00:14:04,500

going on or what they were seeing it's

370

00:14:08,470 --> 00:14:06,480

certainly you know it makes me lean

371

00:14:12,110 --> 00:14:08,480

towards this was drone swarm technology

372

00:14:14,210 --> 00:14:12,120

this was some type of uh likely in my

373

00:14:16,550 --> 00:14:14,220

opinion perhaps ferreting is what it's

374

00:14:18,650 --> 00:14:16,560

called it's where you're intentionally

375

00:14:20,329 --> 00:14:18,660

uh coming at the ships you're trying to

376

00:14:21,889 --> 00:14:20,339

make them turn on their air defense

377

00:14:23,690 --> 00:14:21,899

systems because you want to soak up all

378

00:14:25,730 --> 00:14:23,700

those emissions you want to know how

379

00:14:28,069 --> 00:14:25,740

they defend themselves so you can defeat

380

00:14:29,990 --> 00:14:28,079

them if you need to and so to a certain

381

00:14:31,069 --> 00:14:30,000

degree that answers why a lot of people

382

00:14:32,810 --> 00:14:31,079

why didn't they shoot them out of the

383

00:14:35,329 --> 00:14:32,820

sky or why didn't they use this this or

384

00:14:36,530 --> 00:14:35,339

this system and those kind of situation

385

00:14:38,750 --> 00:14:36,540

is the worst thing you could do is

386

00:14:40,790 --> 00:14:38,760

overreact the worst thing you do is go

387

00:14:44,930 --> 00:14:40,800

to quarters and man the battle station

388

00:14:47,030 --> 00:14:44,940

because now your adversary has an exact

389

00:14:50,210 --> 00:14:47,040

image of what your posture is in that

390

00:14:52,250 --> 00:14:50,220

situation so all of it sounds like that

391

00:14:54,949 --> 00:14:52,260

but there are aspects of it that that

392

00:14:57,650 --> 00:14:54,959

you know don't seem to make sense I

393

00:14:59,150 --> 00:14:57,660

think uh you know we've heard that uh

394

00:15:01,970 --> 00:14:59,160

you know I've looked at the case

395

00:15:04,069 --> 00:15:01,980

admittedly not extremely intimately but

396

00:15:06,350 --> 00:15:04,079

enough to be aware that it's certainly

397

00:15:08,210 --> 00:15:06,360

difficult to narrow down a point of

398

00:15:10,310 --> 00:15:08,220

origin for where these forms could have

399

00:15:12,350 --> 00:15:10,320

been coming from there's certain the

400

00:15:14,569 --> 00:15:12,360

descriptions of them exceeding the

401

00:15:16,790 --> 00:15:14,579

capabilities of normal drones in terms

402

00:15:19,610 --> 00:15:16,800

of energy use so you have all of that

403

00:15:22,610 --> 00:15:19,620

going where you know what are we dealing

404

00:15:24,710 --> 00:15:22,620

with and I've uh you know I've spoken to

405

00:15:28,009 --> 00:15:24,720

Sailors who were on various ships out

406

00:15:29,629 --> 00:15:28,019

there and I've heard it's it has in no

407

00:15:31,910 --> 00:15:29,639

way clarified things because I've heard

408

00:15:34,250 --> 00:15:31,920

from them oh it was drones you know I

409

00:15:37,430 --> 00:15:34,260

could hear them or man no way that was

410

00:15:38,810 --> 00:15:37,440

drones because you know X Y and Z it

411

00:15:41,689 --> 00:15:38,820

didn't this didn't happen at this time

412

00:15:45,350 --> 00:15:41,699

so no way to do the drug so it's like

413

00:15:47,329 --> 00:15:45,360

so I'm every bit as confused perhaps

414

00:15:49,490 --> 00:15:47,339

just the general public I think it just

415

00:15:52,129 --> 00:15:49,500

goes into the kind of gray basket of

416

00:15:54,410 --> 00:15:52,139

there's not enough information there's

417

00:15:56,629 --> 00:15:54,420

there there's nothing that I have seen

418

00:15:59,569 --> 00:15:56,639

that exhibits any of the characteristics

419

00:16:02,689 --> 00:15:59,579

that I tend to to categorize with quote

420

00:16:05,449 --> 00:16:02,699

UAP which is exotic really like stuff

421

00:16:07,610 --> 00:16:05,459

that goes okay that there ain't nothing

422

00:16:08,870 --> 00:16:07,620

there's no way that that's that's not

423

00:16:10,610 --> 00:16:08,880

real

424

00:16:12,470 --> 00:16:10,620

um so I haven't heard anything like that

425

00:16:14,750 --> 00:16:12,480

but at the same time I can't

426

00:16:16,670 --> 00:16:14,760

you know I can't even go to a high

427

00:16:18,470 --> 00:16:16,680

degree of certainty and say yeah I

428

00:16:21,829 --> 00:16:18,480

definitely think it was this so it's

429

00:16:23,269 --> 00:16:21,839

just it's interesting yeah no it does

430

00:16:25,129 --> 00:16:23,279

feel like we kind of hit a wall with it

431

00:16:26,990 --> 00:16:25,139

and we just need more information or

432

00:16:29,810 --> 00:16:27,000

data to be able to take that any further

433

00:16:32,210 --> 00:16:29,820

so no I appreciate your answer uh now

434

00:16:34,370 --> 00:16:32,220

obviously another Hot Topic that's been

435

00:16:36,769 --> 00:16:34,380

kind of on the focus recently is this

436

00:16:39,590 --> 00:16:36,779

potential crash retrieval programs

437

00:16:41,569 --> 00:16:39,600

Legacy programs and you know there have

438

00:16:43,610 --> 00:16:41,579

been calls this past week for the U.S

439

00:16:45,769 --> 00:16:43,620

Senate committee on Appropriations who

440

00:16:47,389 --> 00:16:45,779

have jurisdiction on spending to

441

00:16:49,310 --> 00:16:47,399

actually order these special access

442

00:16:51,769 --> 00:16:49,320

program audit these special access

443

00:16:53,329 --> 00:16:51,779

programs such as ones potentially held

444

00:16:55,189 --> 00:16:53,339

at Lockheed Martin

445

00:16:56,749 --> 00:16:55,199

I mean to ask these questions these

446

00:16:58,790 --> 00:16:56,759

contractors do you think that they could

447

00:17:01,370 --> 00:16:58,800

get answers from them like what what's

448

00:17:03,949 --> 00:17:01,380

the deal there is the gray areas in that

449

00:17:06,710 --> 00:17:03,959

oh man see this is another great area

450

00:17:09,110 --> 00:17:06,720

where it depends on what time of the the

451  
00:17:12,049 --> 00:17:09,120  
month or year you catch me on for my

452  
00:17:14,270 --> 00:17:12,059  
opinion uh I'm in uh what are those

453  
00:17:16,189 --> 00:17:14,280  
cycles of opinion where

454  
00:17:18,949 --> 00:17:16,199  
I tend to think that the probability

455  
00:17:21,710 --> 00:17:18,959  
that we have uh you know retrieved

456  
00:17:24,470 --> 00:17:21,720  
materials from UAP or something that's

457  
00:17:26,329 --> 00:17:24,480  
really exotic it's low now if you asked

458  
00:17:27,710 --> 00:17:26,339  
me a month from now I might tell you the

459  
00:17:29,090 --> 00:17:27,720  
exact opposite it's interesting I was

460  
00:17:31,130 --> 00:17:29,100  
just having this conversation with two

461  
00:17:33,289 --> 00:17:31,140  
real good friends earlier today where

462  
00:17:35,330 --> 00:17:33,299  
they were kind of asking me or we were

463  
00:17:36,890 --> 00:17:35,340

bouncing off the the same kind of

464

00:17:40,250 --> 00:17:36,900

question you just asked and I was like

465

00:17:41,750 --> 00:17:40,260

nah there's no way no way uh but they

466

00:17:43,430 --> 00:17:41,760

you know kind of slow you down you make

467

00:17:45,110 --> 00:17:43,440

you think of it um

468

00:17:47,210 --> 00:17:45,120

because there are instances that you're

469

00:17:50,210 --> 00:17:47,220

like man that how do you explain that

470

00:17:51,770 --> 00:17:50,220

for me it's always been listening to

471

00:17:54,409 --> 00:17:51,780

some of those old recordings of Jesse

472

00:17:56,330 --> 00:17:54,419

Marcel from Roswell where I'm like

473

00:17:58,070 --> 00:17:56,340

you know I'm an investigator man that's

474

00:18:01,430 --> 00:17:58,080

hard you know that's one of the only

475

00:18:04,850 --> 00:18:01,440

instances where I can point to say okay

476

00:18:08,630 --> 00:18:04,860

that is a person who is saying firsthand

477

00:18:10,850 --> 00:18:08,640

I held this in my hand I saw this with

478

00:18:12,950 --> 00:18:10,860

my own eyes whereas most of these

479

00:18:14,930 --> 00:18:12,960

stories are somebody told me somebody

480

00:18:17,270 --> 00:18:14,940

told me it's very very rare that she at

481

00:18:19,850 --> 00:18:17,280

first hand so all right to caveat that

482

00:18:22,070 --> 00:18:19,860

do I think that it could be

483

00:18:24,110 --> 00:18:22,080

um you know it could be beneficial to

484

00:18:27,529 --> 00:18:24,120

you know could it be fruitful could you

485

00:18:29,510 --> 00:18:27,539

see anything I don't know and the reason

486

00:18:32,390 --> 00:18:29,520

I say that is an abnormal circumstances

487

00:18:34,669 --> 00:18:32,400

maybe you know we when push comes to

488

00:18:36,590 --> 00:18:34,679

shove they've uncovered you know some

489

00:18:38,330 --> 00:18:36,600

really dark deep Secrets throughout the

490

00:18:40,549 --> 00:18:38,340

years when it comes to let's say MK

491

00:18:42,010 --> 00:18:40,559

Ultra you know say hey sure as heck

492

00:18:44,330 --> 00:18:42,020

didn't want that to come out you know

493

00:18:46,669 --> 00:18:44,340

kidnapping people from brothels and

494

00:18:49,970 --> 00:18:46,679

dosing with LSD but it's still able to

495

00:18:52,130 --> 00:18:49,980

come out uh you know Iran Contra yellow

496

00:18:55,130 --> 00:18:52,140

fruit the list goes on of these things

497

00:18:56,870 --> 00:18:55,140

that actually got people in prison uh

498

00:18:58,850 --> 00:18:56,880

but you know this is something I brought

499

00:19:01,490 --> 00:18:58,860

up when I was speaking to two guys

500

00:19:04,549 --> 00:19:01,500

earlier is I'm like man

501  
00:19:06,289 --> 00:19:04,559  
who's ever in charge of that secrecy if

502  
00:19:09,770 --> 00:19:06,299  
there's really something they're hiding

503  
00:19:12,289 --> 00:19:09,780  
it like there I mean that's some Legacy

504  
00:19:13,789 --> 00:19:12,299  
you know generational that is that is

505  
00:19:15,890 --> 00:19:13,799  
the best secrecy I've ever heard from

506  
00:19:18,710 --> 00:19:15,900  
because it's never come out to been

507  
00:19:20,810 --> 00:19:18,720  
fruition so it's very difficult to say

508  
00:19:23,570 --> 00:19:20,820  
well will that be successful in

509  
00:19:26,990 --> 00:19:23,580  
uncovering these secrets because

510  
00:19:28,850 --> 00:19:27,000  
I don't I nothing else has been you know

511  
00:19:30,770 --> 00:19:28,860  
like that's such a you know if that

512  
00:19:33,650 --> 00:19:30,780  
exists it would appear to exist in such

513  
00:19:35,810 --> 00:19:33,660

a degree of secrecy that exceeds what

514

00:19:38,029 --> 00:19:35,820

I'm familiar with you know not could

515

00:19:41,150 --> 00:19:38,039

speak to what I would I you know it's an

516

00:19:43,190 --> 00:19:41,160

entire whole other side of it and now if

517

00:19:46,070 --> 00:19:43,200

you're talking about things that are

518

00:19:47,990 --> 00:19:46,080

potentially proprietary property so

519

00:19:50,330 --> 00:19:48,000

let's say you know because I've argued

520

00:19:52,130 --> 00:19:50,340

this point well you know perhaps even

521

00:19:53,870 --> 00:19:52,140

pose this kind of hypothetical scenario

522

00:19:56,630 --> 00:19:53,880

that you did have crash you know let's

523

00:19:58,850 --> 00:19:56,640

say Roswell was an alien spaceship it

524

00:20:00,110 --> 00:19:58,860

crashed and this was uh something that

525

00:20:02,450 --> 00:20:00,120

was in possession the atomic energy

526

00:20:04,430 --> 00:20:02,460

commission uh back through the 40s into

527

00:20:06,770 --> 00:20:04,440

the 1970s which was the civilian

528

00:20:08,570 --> 00:20:06,780

Administration but before the adoption

529

00:20:11,150 --> 00:20:08,580

of the Department of energy which became

530

00:20:13,549 --> 00:20:11,160

a federal agency this this property was

531

00:20:16,669 --> 00:20:13,559

transitioned into Private Industry

532

00:20:19,130 --> 00:20:16,679

become proprietary property so if it's

533

00:20:21,710 --> 00:20:19,140

Lockheed Martin let's say or anyone else

534

00:20:24,049 --> 00:20:21,720

Boeing Walmart doesn't matter if it's

535

00:20:25,310 --> 00:20:24,059

their priority for property uh the

536

00:20:30,110 --> 00:20:25,320

government is is actually legally

537

00:20:32,510 --> 00:20:30,120

forbidden from disclosing that so in

538

00:20:36,169 --> 00:20:32,520

that in those cases you know they they

539

00:20:37,909 --> 00:20:36,179

wouldn't be able to unless uh you know

540

00:20:40,130 --> 00:20:37,919

there's all sorts of legal things too

541

00:20:40,970 --> 00:20:40,140

that's just it's a really

542

00:20:44,270 --> 00:20:40,980

right

543

00:20:46,730 --> 00:20:44,280

it's a maze because there's legal ways

544

00:20:50,029 --> 00:20:46,740

like if you really thought you you could

545

00:20:51,590 --> 00:20:50,039

you know potentially enforce search uh

546

00:20:52,610 --> 00:20:51,600

search warrants you know you could try

547

00:20:55,610 --> 00:20:52,620

to seize this property International

548

00:20:59,450 --> 00:20:55,620

Security type thing it's just it's it's

549

00:21:01,610 --> 00:20:59,460

a it's a maze it's amazing and it it

550

00:21:02,990 --> 00:21:01,620

also brought up the legal side that if

551  
00:21:04,490 --> 00:21:03,000  
you know a good friend of mine who's a

552  
00:21:07,130 --> 00:21:04,500  
lawyer I was speaking with today brought

553  
00:21:09,529 --> 00:21:07,140  
up the the aspect that how would these

554  
00:21:11,690 --> 00:21:09,539  
companies mitigate that if they had that

555  
00:21:13,250 --> 00:21:11,700  
because they're legally beholden to

556  
00:21:16,070 --> 00:21:13,260  
their shareholders

557  
00:21:17,630 --> 00:21:16,080  
and so if they've been hiding this you

558  
00:21:19,850 --> 00:21:17,640  
know they're legally on the hook so

559  
00:21:22,850 --> 00:21:19,860  
there's all these really nuanced things

560  
00:21:24,169 --> 00:21:22,860  
that certainly doesn't make me believe

561  
00:21:26,330 --> 00:21:24,179  
that just because you pass a

562  
00:21:27,409 --> 00:21:26,340  
congressional bill that anyone would go

563  
00:21:29,870 --> 00:21:27,419

ah

564

00:21:32,149 --> 00:21:29,880

you got me now all right and come on in

565

00:21:33,230 --> 00:21:32,159

wheel out the bodies everybody here here

566

00:21:36,710 --> 00:21:33,240

they go

567

00:21:38,930 --> 00:21:36,720

so I don't know I you know it's I'm

568

00:21:41,690 --> 00:21:38,940

uh I'd like to say I'm optimistic but

569

00:21:44,690 --> 00:21:41,700

I'm not I'm pessimistically skeptical

570

00:21:46,130 --> 00:21:44,700

but man I would I certainly would not

571

00:21:48,350 --> 00:21:46,140

try to explain in a way to diminish it

572

00:21:51,110 --> 00:21:48,360

if it comes true I want it to come true

573

00:21:53,810 --> 00:21:51,120

let me put it that way cool yeah I know

574

00:21:55,730 --> 00:21:53,820

what you mean got another great question

575

00:21:58,370 --> 00:21:55,740

here this one's from Jay Allen he says

576

00:22:01,549 --> 00:21:58,380

uh Tim's theory on complete silence from

577

00:22:03,289 --> 00:22:01,559

the U.S Air Force uh on UAP I'm Korea

578

00:22:05,570 --> 00:22:03,299

Air Force and UFO is still a hostile

579

00:22:08,510 --> 00:22:05,580

topic here nobody talks about it to the

580

00:22:11,750 --> 00:22:08,520

point of looking away on purpose

581

00:22:14,450 --> 00:22:11,760

yeah yeah no that's very true and very

582

00:22:16,970 --> 00:22:14,460

true with the Air Force um I know

583

00:22:19,430 --> 00:22:16,980

because I I live on an Air Force Base

584

00:22:20,690 --> 00:22:19,440

and so I'm very I'm surrounded I've come

585

00:22:25,130 --> 00:22:20,700

in contact with the Air Force all the

586

00:22:26,270 --> 00:22:25,140

time and it's certainly a informal you

587

00:22:28,730 --> 00:22:26,280

know there's never anything I've come

588

00:22:30,350 --> 00:22:28,740

across that's formal per se you know

589

00:22:33,890 --> 00:22:30,360

I've never seen a formal policy but it's

590

00:22:35,630 --> 00:22:33,900

certainly informal and and honestly in

591

00:22:37,430 --> 00:22:35,640

any type of Institutions whether it's

592

00:22:39,710 --> 00:22:37,440

the military or the government informal

593

00:22:41,630 --> 00:22:39,720

policies are frankly more stable than

594

00:22:44,210 --> 00:22:41,640

formal ones because they're not written

595

00:22:45,830 --> 00:22:44,220

down so they're kind of slippery and so

596

00:22:48,890 --> 00:22:45,840

there's certainly particularly with the

597

00:22:49,490 --> 00:22:48,900

Air Forces it's informal policy

598

00:22:52,669 --> 00:22:49,500

um

599

00:22:55,789 --> 00:22:52,679

that you don't discuss it and that you

600

00:22:57,230 --> 00:22:55,799

on top of that that if you discuss it

601  
00:22:58,789 --> 00:22:57,240  
you know the only people that discuss it

602  
00:23:01,490 --> 00:22:58,799  
are the people who you know Live at Home

603  
00:23:03,710 --> 00:23:01,500  
in their mom's basement and you know

604  
00:23:05,390 --> 00:23:03,720  
the play video games you read Comics all

605  
00:23:07,190 --> 00:23:05,400  
that you know don't worry about that

606  
00:23:09,830 --> 00:23:07,200  
let's go let's go get ready to defeat

607  
00:23:12,230 --> 00:23:09,840  
the Russians and so

608  
00:23:15,049 --> 00:23:12,240  
um you know that's kind of the tone for

609  
00:23:17,330 --> 00:23:15,059  
it and it just kind of sets the standard

610  
00:23:19,970 --> 00:23:17,340  
for what's acceptable and unacceptable

611  
00:23:21,710 --> 00:23:19,980  
Behavior it's very very interesting

612  
00:23:24,950 --> 00:23:21,720  
because you'll you'll certainly come

613  
00:23:27,710 --> 00:23:24,960

across people who are career uh you know

614

00:23:30,830 --> 00:23:27,720

Air Force pilots career Airmen uh career

615

00:23:33,169 --> 00:23:30,840

military personnel who uh will share

616

00:23:34,789 --> 00:23:33,179

that oh yeah you know I I saw this or

617

00:23:37,909 --> 00:23:34,799

this at one point Dom and it's always

618

00:23:40,250 --> 00:23:37,919

like what did you do hey they didn't

619

00:23:41,990 --> 00:23:40,260

know what to do in terms of reporting it

620

00:23:43,850 --> 00:23:42,000

was until recently do they kind of

621

00:23:46,370 --> 00:23:43,860

adopted these different protocols did

622

00:23:50,090 --> 00:23:46,380

you have a formal process for reporting

623

00:23:52,010 --> 00:23:50,100

it and so what do you do you know how do

624

00:23:53,450 --> 00:23:52,020

you report it now I'll just say that

625

00:23:54,950 --> 00:23:53,460

we do anything you know I look at my

626  
00:23:55,789 --> 00:23:54,960  
co-pilot look at my crew chief and we're

627  
00:23:58,669 --> 00:23:55,799  
like

628  
00:24:01,570 --> 00:23:58,679  
I don't know man crazy man just kept

629  
00:24:04,730 --> 00:24:01,580  
moving and I think that that's kind of

630  
00:24:07,430 --> 00:24:04,740  
institutionally uh goes out there and

631  
00:24:09,310 --> 00:24:07,440  
the stigma behind it is real and so that

632  
00:24:12,470 --> 00:24:09,320  
that definitely

633  
00:24:14,029 --> 00:24:12,480  
affects how that topic is treated but

634  
00:24:16,490 --> 00:24:14,039  
the Air Force in particular and I think

635  
00:24:19,250 --> 00:24:16,500  
if we looked at it historically speaking

636  
00:24:21,770 --> 00:24:19,260  
I think that some of that uh the Air

637  
00:24:23,630 --> 00:24:21,780  
Force maybe perhaps feels like for for

638  
00:24:25,669 --> 00:24:23,640

many years they they had a [h\_\_\h] Burger

639

00:24:29,210 --> 00:24:25,679

on their plate with the blue book and

640

00:24:31,250 --> 00:24:29,220

all of this and uh you know they they

641

00:24:34,010 --> 00:24:31,260

looked at it for decades and walked away

642

00:24:36,409 --> 00:24:34,020

with no real answers and I think there's

643

00:24:39,770 --> 00:24:36,419

so much aversion to wanting to go back

644

00:24:40,909 --> 00:24:39,780

to that and I think that that still it's

645

00:24:43,909 --> 00:24:40,919

kind of like this ingrained

646

00:24:46,549 --> 00:24:43,919

institutional trauma that's just gone

647

00:24:50,990 --> 00:24:46,559

through with it and so I think they

648

00:24:52,370 --> 00:24:51,000

don't want to be a part of that again

649

00:24:53,330 --> 00:24:52,380

well that's a good answer I appreciate

650

00:24:54,590 --> 00:24:53,340

it I've never I've never really thought

651  
00:24:57,649 --> 00:24:54,600  
about it from that angle but that makes

652  
00:24:59,210 --> 00:24:57,659  
absolute sense it's it's hard I mean

653  
00:25:01,909 --> 00:24:59,220  
when you're looking at it when you're

654  
00:25:03,470 --> 00:25:01,919  
supposed to be the premier air power in

655  
00:25:05,690 --> 00:25:03,480  
the world you're supposed to be the the

656  
00:25:07,610 --> 00:25:05,700  
one that everybody looks to and you

657  
00:25:09,529 --> 00:25:07,620  
don't have answers and you invest time

658  
00:25:12,110 --> 00:25:09,539  
and money into it

659  
00:25:13,730 --> 00:25:12,120  
um it's hard and and I think that that

660  
00:25:15,950 --> 00:25:13,740  
even plays into it when we go into the

661  
00:25:18,289 --> 00:25:15,960  
invest money and time into it is you

662  
00:25:19,810 --> 00:25:18,299  
look at it as leadership starts to go

663  
00:25:23,210 --> 00:25:19,820

man

664

00:25:26,409 --> 00:25:23,220

I need more f-35s I need this this and

665

00:25:30,529 --> 00:25:26,419

this man you know this is what I need

666

00:25:32,690 --> 00:25:30,539

this frustrates me and I don't know how

667

00:25:34,190 --> 00:25:32,700

to attack this I don't know how to

668

00:25:37,010 --> 00:25:34,200

defeat this I don't know how to address

669

00:25:39,649 --> 00:25:37,020

this so it's not real and so I think

670

00:25:42,470 --> 00:25:39,659

that that that has a huge influence and

671

00:25:45,350 --> 00:25:42,480

because for so many years it was the Air

672

00:25:47,690 --> 00:25:45,360

Force's problem and that they just

673

00:25:49,070 --> 00:25:47,700

really really want to avoid it becoming

674

00:25:50,810 --> 00:25:49,080

their problem I mean they have done a

675

00:25:52,909 --> 00:25:50,820

phenomenal job staying out at the

676  
00:25:55,810 --> 00:25:52,919  
spotlight in the last couple years I got

677  
00:26:00,169 --> 00:25:57,950  
and sticking with the Air Force we've

678  
00:26:02,210 --> 00:26:00,179  
got a question here from your colleague

679  
00:26:03,529 --> 00:26:02,220  
and our friend Christopher plane

680  
00:26:05,149 --> 00:26:03,539  
um he says hey Tim is there any

681  
00:26:07,250 --> 00:26:05,159  
realistic scenario where the bulk of

682  
00:26:09,169 --> 00:26:07,260  
current UFO reports are a disruptive

683  
00:26:11,690 --> 00:26:09,179  
platform under development by one actor

684  
00:26:13,029 --> 00:26:11,700  
Air Force and they simply don't want to

685  
00:26:16,250 --> 00:26:13,039  
share

686  
00:26:18,289 --> 00:26:16,260  
that's a great question I I want to say

687  
00:26:20,149 --> 00:26:18,299  
that first and foremost personal belief

688  
00:26:22,549 --> 00:26:20,159

kind of conviction it's that devout

689

00:26:25,669 --> 00:26:22,559

belief that I believe the vast majority

690

00:26:27,649 --> 00:26:25,679

of UFO or UAP reports whether they be

691

00:26:31,669 --> 00:26:27,659

military or civilian

692

00:26:33,529 --> 00:26:31,679

are indeed misidentifications or

693

00:26:35,810 --> 00:26:33,539

anything benign they're not anything

694

00:26:39,710 --> 00:26:35,820

exotic I've always been of the belief

695

00:26:42,890 --> 00:26:39,720

that a very very small portion of these

696

00:26:45,230 --> 00:26:42,900

reports represent something truly exotic

697

00:26:47,090 --> 00:26:45,240

and really unexplainable I think that

698

00:26:49,430 --> 00:26:47,100

that contributes to the difficulty of

699

00:26:52,370 --> 00:26:49,440

the whole thing because you have let's

700

00:26:54,890 --> 00:26:52,380

say 95 that maybe don't have enough data

701  
00:26:56,630 --> 00:26:54,900  
maybe it's a distant Bird hats off the

702  
00:26:59,450 --> 00:26:56,640  
Midwest it's a bird all right or

703  
00:27:03,529 --> 00:26:59,460  
whatever else and uh but it looked weird

704  
00:27:05,690 --> 00:27:03,539  
at the time and you you have so much of

705  
00:27:08,029 --> 00:27:05,700  
that but then you've got this tiny tiny

706  
00:27:10,490 --> 00:27:08,039  
sliver so it's easier to kind of bulk in

707  
00:27:12,649 --> 00:27:10,500  
there so I think the vast majority of

708  
00:27:14,029 --> 00:27:12,659  
those I you know just want to qualify I

709  
00:27:15,710 --> 00:27:14,039  
think the vast majority of them aren't

710  
00:27:17,510 --> 00:27:15,720  
anything exotic I think that they are

711  
00:27:20,450 --> 00:27:17,520  
misidentifications of things that are

712  
00:27:23,210 --> 00:27:20,460  
much more prosaic in terms of how much

713  
00:27:26,149 --> 00:27:23,220

of that really exotic now so maybe let's

714

00:27:27,830 --> 00:27:26,159

talk to things like the Tic Tac or uh

715

00:27:29,510 --> 00:27:27,840

the object that Ryan Graves and the

716

00:27:31,310 --> 00:27:29,520

aviators were seeing off of the East

717

00:27:33,710 --> 00:27:31,320

Coast what is the potential of that

718

00:27:35,870 --> 00:27:33,720

being a U.S Air Force technology or

719

00:27:39,649 --> 00:27:35,880

let's just expand that out to anybody's

720

00:27:42,830 --> 00:27:39,659

technology right yeah China Russia and I

721

00:27:43,789 --> 00:27:42,840

you know I don't I really don't you know

722

00:27:45,649 --> 00:27:43,799

especially when you look at something

723

00:27:48,950 --> 00:27:45,659

like the Tic Tac and the reason that I

724

00:27:52,070 --> 00:27:48,960

say that is I'm very fortunate in that

725

00:27:53,690 --> 00:27:52,080

uh you know working at the debrief you

726  
00:27:56,110 --> 00:27:53,700  
know not just me but my colleagues Chris

727  
00:27:59,029 --> 00:27:56,120  
playing Micah Hanks we spend our days

728  
00:28:01,909 --> 00:27:59,039  
talking to people who are at the

729  
00:28:04,370 --> 00:28:01,919  
bleeding edge of Technologies so the

730  
00:28:06,110 --> 00:28:04,380  
ones that that are working on their

731  
00:28:08,269 --> 00:28:06,120  
research getting ready to published in

732  
00:28:11,090 --> 00:28:08,279  
in the academic journals or what is the

733  
00:28:13,250 --> 00:28:11,100  
really the eye the eyebrow raising

734  
00:28:15,289 --> 00:28:13,260  
Science and Technology you know Chris

735  
00:28:16,970 --> 00:28:15,299  
just just published a really fascinating

736  
00:28:19,789 --> 00:28:16,980  
feature today about a new propulsion

737  
00:28:21,169 --> 00:28:19,799  
system whisper beam technology uh check

738  
00:28:22,909 --> 00:28:21,179

it out but that's the kind of stuff that

739

00:28:26,029 --> 00:28:22,919

we're looking at really cutting-edge

740

00:28:29,330 --> 00:28:26,039

stuff and uh you know I just had an

741

00:28:30,649 --> 00:28:29,340

opportunity to to have a really great go

742

00:28:32,210 --> 00:28:30,659

in and have a really good exclusive

743

00:28:35,210 --> 00:28:32,220

interview with the

744

00:28:37,549 --> 00:28:35,220

and get my hands on and get to see the

745

00:28:39,470 --> 00:28:37,559

only true operational trans medium

746

00:28:42,890 --> 00:28:39,480

drones which I'll be doing a feature on

747

00:28:44,510 --> 00:28:42,900

that soon and so oh yeah we'll be able

748

00:28:47,450 --> 00:28:44,520

to we'll be disclosing the department of

749

00:28:49,130 --> 00:28:47,460

defenses is transmedium drones but I see

750

00:28:51,590 --> 00:28:49,140

this technology and I talk to the people

751  
00:28:53,450 --> 00:28:51,600  
who are working on developing it and you

752  
00:28:56,390 --> 00:28:53,460  
begin to realize that there is an

753  
00:28:58,490 --> 00:28:56,400  
enormous gap between the perception of

754  
00:29:01,490 --> 00:28:58,500  
what people think is potentially

755  
00:29:04,010 --> 00:29:01,500  
possible and what actually is possible

756  
00:29:06,230 --> 00:29:04,020  
and so that's where I look at it and go

757  
00:29:09,409 --> 00:29:06,240  
that something like the Tic Tac that has

758  
00:29:11,930 --> 00:29:09,419  
no airfoil no control surfaces no no

759  
00:29:13,789 --> 00:29:11,940  
obvious means propulsion and is able to

760  
00:29:16,490 --> 00:29:13,799  
instantaneously take off either the

761  
00:29:20,090 --> 00:29:16,500  
pilots are incorrect somehow uh you know

762  
00:29:22,909 --> 00:29:20,100  
either four trained aviators engaged in

763  
00:29:25,010 --> 00:29:22,919

a mass Collective hallucination which is

764

00:29:27,830 --> 00:29:25,020

a cog psych major I will tell you is

765

00:29:30,950 --> 00:29:27,840

more amazing than aliens because it's so

766

00:29:33,649 --> 00:29:30,960

unlikely that it's impossible or this is

767

00:29:34,970 --> 00:29:33,659

something else because it's not just one

768

00:29:37,190 --> 00:29:34,980

technology that we would have to

769

00:29:39,590 --> 00:29:37,200

overcome to achieve that it's multiple

770

00:29:41,690 --> 00:29:39,600

so we're just not there yet you know

771

00:29:42,610 --> 00:29:41,700

even down to the material science side

772

00:29:47,029 --> 00:29:42,620

of things

773

00:29:50,090 --> 00:29:47,039

we're having a difficult time working on

774

00:29:51,590 --> 00:29:50,100

developing the reusable Hypersonic

775

00:29:53,269 --> 00:29:51,600

platform so the ability to have a

776

00:29:55,250 --> 00:29:53,279

Hypersonic aircraft that's reusable

777

00:29:58,549 --> 00:29:55,260

because the material science isn't there

778

00:30:00,529 --> 00:29:58,559

there withstand those forces that speed

779

00:30:03,110 --> 00:30:00,539

and so I don't I think that some of

780

00:30:05,090 --> 00:30:03,120

those it's just not there and and we do

781

00:30:06,590 --> 00:30:05,100

so even when you see articles from us

782

00:30:08,810 --> 00:30:06,600

rather debrief where we're talking about

783

00:30:10,610 --> 00:30:08,820

you know exotic Advanced propulsion

784

00:30:12,950 --> 00:30:10,620

that's being designed by DARPA or Napa

785

00:30:14,690 --> 00:30:12,960

and we're talking to these people uh or

786

00:30:15,950 --> 00:30:14,700

the trans medium drones we do we talk to

787

00:30:17,930 --> 00:30:15,960

them what do you think about this this

788

00:30:20,029 --> 00:30:17,940

and this and you know they're very

789

00:30:22,310 --> 00:30:20,039

candid and they're like look man you

790

00:30:23,990 --> 00:30:22,320

know let's say in the the warp

791

00:30:25,549 --> 00:30:24,000

technology the people who are really

792

00:30:27,769 --> 00:30:25,559

trying to develop a wardrobe all right

793

00:30:29,570 --> 00:30:27,779

this community is really small we know

794

00:30:31,310 --> 00:30:29,580

each other you know a lot of us work at

795

00:30:33,169 --> 00:30:31,320

different you know Lawrence Livermore

796

00:30:34,730 --> 00:30:33,179

Los Alamos like we work for the

797

00:30:37,610 --> 00:30:34,740

government we all know each other like

798

00:30:40,490 --> 00:30:37,620

man we would know there would be hints

799

00:30:42,590 --> 00:30:40,500

if something like that was even

800

00:30:44,450 --> 00:30:42,600

on the cusp of being possible and

801  
00:30:45,950 --> 00:30:44,460  
they're like it's just not there yet and

802  
00:30:48,590 --> 00:30:45,960  
they can give you all the mathematics

803  
00:30:50,330 --> 00:30:48,600  
and all the reasons why I'm just take

804  
00:30:53,149 --> 00:30:50,340  
what I hear and go yeah this matches

805  
00:30:55,370 --> 00:30:53,159  
what everybody else hears and so I don't

806  
00:30:57,950 --> 00:30:55,380  
you know I think it's a great question I

807  
00:30:59,570 --> 00:30:57,960  
think it's the most obvious logical when

808  
00:31:01,430 --> 00:30:59,580  
you're trying to answer something that

809  
00:31:04,310 --> 00:31:01,440  
really is exotic and doesn't make sense

810  
00:31:05,930 --> 00:31:04,320  
but I just don't see it I don't see any

811  
00:31:07,789 --> 00:31:05,940  
of the technology components that are

812  
00:31:10,010 --> 00:31:07,799  
there to achieve that

813  
00:31:12,230 --> 00:31:10,020

yeah I think also what makes the Tic Tac

814

00:31:14,810 --> 00:31:12,240

case so amazing is that it was nearly 20

815

00:31:16,190 --> 00:31:14,820

years ago now so you add that onto the

816

00:31:18,350 --> 00:31:16,200

fact that they're still not the customer

817

00:31:20,029 --> 00:31:18,360

of these Technologies then it's an it's

818

00:31:21,950 --> 00:31:20,039

another data point that really pushes

819

00:31:23,690 --> 00:31:21,960

you far out there that to make it even

820

00:31:28,250 --> 00:31:23,700

more unexplainable

821

00:31:29,690 --> 00:31:28,260

it's it really is I mean that's where

822

00:31:31,430 --> 00:31:29,700

I mean even when you you're you're

823

00:31:34,430 --> 00:31:31,440

considering like they're really

824

00:31:35,510 --> 00:31:34,440

classified stuff you know like people

825

00:31:37,610 --> 00:31:35,520

always always talk about the

826

00:31:39,769 --> 00:31:37,620

unacknowledged special access programs

827

00:31:41,269 --> 00:31:39,779

or the the granddaddy of them all the

828

00:31:42,769 --> 00:31:41,279

waived and acknowledged where the

829

00:31:44,630 --> 00:31:42,779

president signs something off and says

830

00:31:46,070 --> 00:31:44,640

nobody has to know about it we were

831

00:31:47,990 --> 00:31:46,080

talking about those very often we're

832

00:31:50,990 --> 00:31:48,000

talking about operational sap so we're

833

00:31:54,110 --> 00:31:51,000

talking about uh you know there is a bad

834

00:31:55,730 --> 00:31:54,120

guy there's a Russian mobster bad guy

835

00:31:57,470 --> 00:31:55,740

and we've decided we're gonna kill him

836

00:31:59,450 --> 00:31:57,480

but we don't want anybody to know about

837

00:32:01,730 --> 00:31:59,460

it those are a way to use that you know

838

00:32:03,830 --> 00:32:01,740

they're usually not tech technology and

839

00:32:05,330 --> 00:32:03,840

Acquisitions as because depending on the

840

00:32:07,549 --> 00:32:05,340

technology

841

00:32:09,169 --> 00:32:07,559

um you have to spread out you know it's

842

00:32:11,029 --> 00:32:09,179

unfortunate some of the best

843

00:32:14,810 --> 00:32:11,039

technological advances that we've ever

844

00:32:16,909 --> 00:32:14,820

made in the U.S military uh were done by

845

00:32:17,930 --> 00:32:16,919

Skunk Works back in the 50s and 60s but

846

00:32:19,850 --> 00:32:17,940

they were able to do it because it was

847

00:32:22,130 --> 00:32:19,860

everybody in-house you know Kelly

848

00:32:24,830 --> 00:32:22,140

Johnson and like 30 people built the U2

849

00:32:26,389 --> 00:32:24,840

in six months is amazing you couldn't do

850

00:32:28,850 --> 00:32:26,399

that nowadays because you've got all

851  
00:32:31,190 --> 00:32:28,860  
these other parts that are necessary and

852  
00:32:34,190 --> 00:32:31,200  
so it's very hard to to Really control

853  
00:32:37,310 --> 00:32:34,200  
certain aspects of usap but at the end

854  
00:32:39,710 --> 00:32:37,320  
of the day there's different you know

855  
00:32:41,389 --> 00:32:39,720  
you're a stealth fighter has all these

856  
00:32:43,370 --> 00:32:41,399  
different components so you need these

857  
00:32:45,350 --> 00:32:43,380  
necessary components to go in there and

858  
00:32:47,690 --> 00:32:45,360  
so those necessary components that go in

859  
00:32:49,669 --> 00:32:47,700  
there aren't necessarily classified how

860  
00:32:51,289 --> 00:32:49,679  
they're put them together are and so

861  
00:32:53,210 --> 00:32:51,299  
when I say that something like the Tic

862  
00:32:55,430 --> 00:32:53,220  
Tac we don't even see the necessary

863  
00:32:59,269 --> 00:32:55,440

components available yet to go into

864

00:33:01,310 --> 00:32:59,279

something like that it's not not there

865

00:33:03,549 --> 00:33:01,320

yeah yeah and you mentioned the U2 there

866

00:33:07,970 --> 00:33:03,559

and we recently saw the cockpit selfie

867

00:33:09,470 --> 00:33:07,980

uh showing the Chinese balloon and uh

868

00:33:11,510 --> 00:33:09,480

why have we not seen any other photos

869

00:33:13,070 --> 00:33:11,520

from these incursions or incidents Tim

870

00:33:16,070 --> 00:33:13,080

what what do you think

871

00:33:19,610 --> 00:33:16,080

I don't that's weird and I'm glad that

872

00:33:21,590 --> 00:33:19,620

you brought that up because you know I

873

00:33:23,450 --> 00:33:21,600

talked to people who I know and trust

874

00:33:25,070 --> 00:33:23,460

very well who who work in the

875

00:33:27,169 --> 00:33:25,080

intelligence Community who have access

876

00:33:28,490 --> 00:33:27,179

to the reports that came with it so they

877

00:33:30,230 --> 00:33:28,500

weren't involved in the analysis or

878

00:33:32,210 --> 00:33:30,240

directly in these incidents but they see

879

00:33:34,130 --> 00:33:32,220

kind of the after paperwork because that

880

00:33:35,690 --> 00:33:34,140

follows into the airline and so they

881

00:33:37,669 --> 00:33:35,700

they told me hey man I really think

882

00:33:39,889 --> 00:33:37,679

these are just balloons most like the

883

00:33:43,549 --> 00:33:39,899

hobbyist balloons you know we reported

884

00:33:45,950 --> 00:33:43,559

on it that uh at least one perhaps all

885

00:33:48,289 --> 00:33:45,960

of them were detected of admitting rfvf

886

00:33:49,909 --> 00:33:48,299

radio frequencies and so that's

887

00:33:52,190 --> 00:33:49,919

consistent with hobby balloons and all

888

00:33:54,649 --> 00:33:52,200

this but at the same time

889

00:33:58,669 --> 00:33:54,659

there is still this weird air of secrecy

890

00:34:00,649 --> 00:33:58,679

about it namely the videos you know the

891

00:34:03,409 --> 00:34:00,659

images that they haven't shared with it

892

00:34:05,330 --> 00:34:03,419

and I just recently found it I say that

893

00:34:07,250 --> 00:34:05,340

I'll be sharing this for the first time

894

00:34:09,109 --> 00:34:07,260

Vinnie right here

895

00:34:12,050 --> 00:34:09,119

um you know I found out uh without any

896

00:34:15,109 --> 00:34:12,060

Shadow doubt they have not shown uh

897

00:34:16,490 --> 00:34:15,119

Congress any videos they have not shown

898

00:34:18,649 --> 00:34:16,500

the Senate armed services or

899

00:34:19,970 --> 00:34:18,659

intelligence committee videos of these

900

00:34:21,770 --> 00:34:19,980

objects

901  
00:34:25,369 --> 00:34:21,780  
prior to shoot down a dirty shoot down

902  
00:34:27,889 --> 00:34:25,379  
they have not shown them whatsoever I

903  
00:34:31,250 --> 00:34:27,899  
can say that for an absolute fact

904  
00:34:34,550 --> 00:34:31,260  
that's weird and those lawmakers said

905  
00:34:37,129 --> 00:34:34,560  
that's weird that is odd why won't they

906  
00:34:39,649 --> 00:34:37,139  
why won't they show us I don't have an

907  
00:34:41,750 --> 00:34:39,659  
answer for that I have some theories you

908  
00:34:44,570 --> 00:34:41,760  
know the first Theory goes to the

909  
00:34:47,030 --> 00:34:44,580  
mundane which is there is political

910  
00:34:48,349 --> 00:34:47,040  
pressures behind this that these if they

911  
00:34:50,089 --> 00:34:48,359  
show these videos it's going to look

912  
00:34:52,070 --> 00:34:50,099  
like a Mickey Mouse balloon that got

913  
00:34:54,710 --> 00:34:52,080

loose from the Macy's day Thanksgiving

914

00:34:56,210 --> 00:34:54,720

Parade it's gonna be embarrassing for

915

00:34:58,010 --> 00:34:56,220

the White House and the current

916

00:34:59,690 --> 00:34:58,020

executive administration because I

917

00:35:02,510 --> 00:34:59,700

wanted to shoot this down you know this

918

00:35:05,390 --> 00:35:02,520

was obviously a politically motivated uh

919

00:35:09,230 --> 00:35:05,400

move so there's that you know I think

920

00:35:10,849 --> 00:35:09,240

that that is not entirely crazy and even

921

00:35:13,130 --> 00:35:10,859

you know people within Congress have

922

00:35:14,990 --> 00:35:13,140

said that that could be because you do

923

00:35:16,310 --> 00:35:15,000

you know then you show it to a committee

924

00:35:18,650 --> 00:35:16,320

there are Republicans Democrats

925

00:35:20,150 --> 00:35:18,660

everybody from every side's there and

926

00:35:22,130 --> 00:35:20,160

it's hard to share certain things

927

00:35:23,810 --> 00:35:22,140

without it getting out so that's a

928

00:35:25,849 --> 00:35:23,820

possibility

929

00:35:27,950 --> 00:35:25,859

I don't know that I have another one

930

00:35:30,290 --> 00:35:27,960

other than it's weird you know that

931

00:35:34,069 --> 00:35:30,300

there is something odd involved in it

932

00:35:36,349 --> 00:35:34,079

even though everybody who has seen you

933

00:35:38,329 --> 00:35:36,359

know access to those reports on them of

934

00:35:39,829 --> 00:35:38,339

these objects has has said that these

935

00:35:42,109 --> 00:35:39,839

are not object there's nothing in there

936

00:35:44,510 --> 00:35:42,119

that seems peculiar

937

00:35:46,670 --> 00:35:44,520

um but why haven't they released that I

938

00:35:49,910 --> 00:35:46,680

don't know I I do know for a fact that

939

00:35:52,670 --> 00:35:49,920

uh Arrow was not involved they were not

940

00:35:55,069 --> 00:35:52,680

allowed to be involved so they were not

941

00:35:58,849 --> 00:35:55,079

involved in this whatsoever so they

942

00:36:00,349 --> 00:35:58,859

definitely treated it like it wasn't UAP

943

00:36:02,810 --> 00:36:00,359

other than that they haven't shared any

944

00:36:04,550 --> 00:36:02,820

videos which is very online on par with

945

00:36:06,170 --> 00:36:04,560

them so I don't know it's one of these

946

00:36:08,810 --> 00:36:06,180

things that

947

00:36:10,370 --> 00:36:08,820

um I don't know maybe we're gonna maybe

948

00:36:12,829 --> 00:36:10,380

we're gonna have to to start up a

949

00:36:14,930 --> 00:36:12,839

GoFundMe and maybe maybe I'll talk to my

950

00:36:16,910 --> 00:36:14,940

cohorts of the debrief maybe we can pull

951  
00:36:19,970 --> 00:36:16,920  
some funds together and go on an

952  
00:36:21,230 --> 00:36:19,980  
expedition up to Alaska and I tried to I

953  
00:36:22,910 --> 00:36:21,240  
try to send MJ out there to the

954  
00:36:25,370 --> 00:36:22,920  
Wilderness he's in Canada to go try to

955  
00:36:27,230 --> 00:36:25,380  
hunt down that one but you know I don't

956  
00:36:30,650 --> 00:36:27,240  
know it's

957  
00:36:32,630 --> 00:36:30,660  
it's weird I agree that it's weird it's

958  
00:36:34,910 --> 00:36:32,640  
even weird that the US government fired

959  
00:36:36,829 --> 00:36:34,920  
three missiles over over uh North

960  
00:36:39,050 --> 00:36:36,839  
America and you know here we are like a

961  
00:36:41,630 --> 00:36:39,060  
month later everybody's like any who's

962  
00:36:43,670 --> 00:36:41,640  
you know so what's going on today you

963  
00:36:46,010 --> 00:36:43,680

know like it's it's weird it's weird

964

00:36:47,990 --> 00:36:46,020

there's not more pressure there yeah and

965

00:36:49,970 --> 00:36:48,000

I spoke to Ross Coulter recently about

966

00:36:51,470 --> 00:36:49,980

it and he said that there's no one in

967

00:36:53,329 --> 00:36:51,480

the mainstream Media or anything like

968

00:36:54,650 --> 00:36:53,339

that asking the hard questions it's

969

00:36:56,329 --> 00:36:54,660

almost like it's just been left alone

970

00:36:57,890 --> 00:36:56,339

and you know you'd think that people

971

00:36:59,510 --> 00:36:57,900

within Congress or the senate or

972

00:37:01,550 --> 00:36:59,520

somewhere would would be wanting

973

00:37:02,690 --> 00:37:01,560

follow-ups on this but it it just seems

974

00:37:05,329 --> 00:37:02,700

It's Gone Dead

975

00:37:07,910 --> 00:37:05,339

it when I when we you know I ran an

976

00:37:09,890 --> 00:37:07,920

article a couple of weeks ago

977

00:37:11,690 --> 00:37:09,900

because I ask I called them in a guy was

978

00:37:13,550 --> 00:37:11,700

like hey what's going on you know can

979

00:37:16,010 --> 00:37:13,560

you at least confirm that you have video

980

00:37:17,690 --> 00:37:16,020

and they wouldn't and I said well is

981

00:37:19,609 --> 00:37:17,700

there any plans to release video that

982

00:37:22,130 --> 00:37:19,619

you may or may not have they said I

983

00:37:23,870 --> 00:37:22,140

can't tell you so I'm like okay and I

984

00:37:26,870 --> 00:37:23,880

said well has anybody else been asking

985

00:37:28,670 --> 00:37:26,880

you know because I figure okay NBC they

986

00:37:30,109 --> 00:37:28,680

said no not really you know not since it

987

00:37:32,329 --> 00:37:30,119

was initial press conferences and I'm

988

00:37:35,089 --> 00:37:32,339

like because there's only so much one

989

00:37:37,670 --> 00:37:35,099

media Outlet can do sure you know you

990

00:37:40,069 --> 00:37:37,680

know we could call every day and they're

991

00:37:41,810 --> 00:37:40,079

just gonna keep telling us no but uh you

992

00:37:43,730 --> 00:37:41,820

know if multiple Outlets call an

993

00:37:45,710 --> 00:37:43,740

especially bigger Outlets started

994

00:37:47,150 --> 00:37:45,720

calling harassing uh it becomes a

995

00:37:50,450 --> 00:37:47,160

political issue on the other side of the

996

00:37:52,730 --> 00:37:50,460

coin now now you know if if Fox News and

997

00:37:55,069 --> 00:37:52,740

CNN and any of the other big networks

998

00:37:56,810 --> 00:37:55,079

are doing their headline on tonight's

999

00:37:59,510 --> 00:37:56,820

news is why is the government not

1000

00:38:00,950 --> 00:37:59,520

sharing this information that pushes

1001

00:38:02,810 --> 00:38:00,960

them in the corner

1002

00:38:04,250 --> 00:38:02,820

but if it's just the debrief or if it's

1003

00:38:06,050 --> 00:38:04,260

just the debrief and it's just one or

1004

00:38:08,210 --> 00:38:06,060

two other outlets really it's easy to

1005

00:38:09,589 --> 00:38:08,220

ignore and so it is unfortunate and I

1006

00:38:11,510 --> 00:38:09,599

agree with you it is one of these things

1007

00:38:14,510 --> 00:38:11,520

where I'm like it should be a no-brainer

1008

00:38:17,329 --> 00:38:14,520

why why should we not share this or at

1009

00:38:20,030 --> 00:38:17,339

least uh at least give us a a good

1010

00:38:23,750 --> 00:38:20,040

reason as to why and I'm not sure I can

1011

00:38:25,190 --> 00:38:23,760

I can find one out yeah I mean I haven't

1012

00:38:26,630 --> 00:38:25,200

I found the comment earlier but it's

1013

00:38:29,030 --> 00:38:26,640

gone now but Walter here in the chat

1014

00:38:31,970 --> 00:38:29,040

said because it's just an embarrassment

1015

00:38:34,609 --> 00:38:31,980

and I I think that that could be I mean

1016

00:38:37,730 --> 00:38:34,619

and the odd thing is

1017

00:38:39,650 --> 00:38:37,740

I don't think it is because even if you

1018

00:38:42,109 --> 00:38:39,660

shot down the Mickey Mouse balloon you

1019

00:38:45,530 --> 00:38:42,119

remember I'm a defense guy I look at it

1020

00:38:48,770 --> 00:38:45,540

is is is that Russia and China would

1021

00:38:51,530 --> 00:38:48,780

look at that from afar and go okay these

1022

00:38:53,630 --> 00:38:51,540

people are nuts like the threshold that

1023

00:38:56,210 --> 00:38:53,640

they're willing to use missiles and

1024

00:38:58,849 --> 00:38:56,220

forces very very low yeah that's going

1025

00:39:00,530 --> 00:38:58,859

to impact how we interact with America

1026  
00:39:02,450 --> 00:39:00,540  
like we're we're not going to push the

1027  
00:39:04,069 --> 00:39:02,460  
envelope as much so to me I actually

1028  
00:39:06,950 --> 00:39:04,079  
think from a foreign policy standpoint

1029  
00:39:08,870 --> 00:39:06,960  
if you showed that you shot down you

1030  
00:39:12,470 --> 00:39:08,880  
know Billy's birthday balloons I think

1031  
00:39:13,670 --> 00:39:12,480  
that your adversaries go man or a they

1032  
00:39:15,410 --> 00:39:13,680  
got enough money they don't even care

1033  
00:39:18,050 --> 00:39:15,420  
they're just firing off Sidewinder

1034  
00:39:20,750 --> 00:39:18,060  
missiles and B they're willing to do it

1035  
00:39:22,490 --> 00:39:20,760  
so that's going to influence how we will

1036  
00:39:24,650 --> 00:39:22,500  
are going how much we're going to push

1037  
00:39:27,230 --> 00:39:24,660  
States but but I do think at the same

1038  
00:39:29,270 --> 00:39:27,240

time because of Politics the other side

1039

00:39:30,950 --> 00:39:29,280

of the political aisle is going to try

1040

00:39:33,410 --> 00:39:30,960

to use that for embarrassment so it's a

1041

00:39:36,710 --> 00:39:33,420

very valid and could be the exact reason

1042

00:39:39,410 --> 00:39:36,720

okay now some photographs that we have

1043

00:39:41,750 --> 00:39:39,420

seen recently coming from Jeremy Corbell

1044

00:39:45,230 --> 00:39:41,760

and George Knapp of this uh Baghdad

1045

00:39:48,109 --> 00:39:45,240

Phantom now allegedly the Air Force had

1046

00:39:50,390 --> 00:39:48,119

designated this as UAP although you know

1047

00:39:52,490 --> 00:39:50,400

that's just word of mouth and I'd say

1048

00:39:56,589 --> 00:39:52,500

what's your overall view of the photos

1049

00:39:59,270 --> 00:39:56,599

the story and not just them but these uh

1050

00:40:01,790 --> 00:39:59,280

alleged other objects being seen over

1051

00:40:04,609 --> 00:40:01,800

active War zones as well

1052

00:40:06,170 --> 00:40:04,619

so okay so the the photo uh you know

1053

00:40:08,030 --> 00:40:06,180

when I first saw it my first thoughts

1054

00:40:09,589 --> 00:40:08,040

was okay yeah and I think he said it on

1055

00:40:11,210 --> 00:40:09,599

Twitter I was like this this is a

1056

00:40:13,730 --> 00:40:11,220

missile this is this is a russian-made

1057

00:40:16,670 --> 00:40:13,740

grand missile you know rocket-propelled

1058

00:40:18,770 --> 00:40:16,680

uh multi-rocket launch system and then

1059

00:40:19,970 --> 00:40:18,780

uh Chris Spitzer who's a good friend of

1060

00:40:21,950 --> 00:40:19,980

mine he's on Twitter he does some

1061

00:40:24,310 --> 00:40:21,960

phenomenal analysis if anybody's looking

1062

00:40:26,750 --> 00:40:24,320

for somebody that does really good

1063

00:40:28,730 --> 00:40:26,760

objective like he's he's one of the most

1064

00:40:30,170 --> 00:40:28,740

objective people I've seen

1065

00:40:32,270 --> 00:40:30,180

um because he knew their swings either

1066

00:40:35,030 --> 00:40:32,280

way but you know he pointed out and I

1067

00:40:37,069 --> 00:40:35,040

believe correctly so the the mode that

1068

00:40:38,990 --> 00:40:37,079

that particular sensor system was in was

1069

00:40:42,290 --> 00:40:39,000

in white hot and the missile or the

1070

00:40:44,390 --> 00:40:42,300

object is is not white it's dark it's

1071

00:40:45,589 --> 00:40:44,400

cold and so that sent me on a little bit

1072

00:40:46,790 --> 00:40:45,599

of a journey to be like yeah you're

1073

00:40:49,190 --> 00:40:46,800

right well what if the ambient

1074

00:40:51,230 --> 00:40:49,200

background behind it is warmer that type

1075

00:40:54,349 --> 00:40:51,240

of thing that could influence it and

1076

00:40:55,970 --> 00:40:54,359

that could be a factor in it but I I you

1077

00:40:57,650 --> 00:40:55,980

know as he correctly has pointed out I

1078

00:40:59,510 --> 00:40:57,660

can't find an example for that and

1079

00:41:01,490 --> 00:40:59,520

speaking to some people they they all

1080

00:41:03,349 --> 00:41:01,500

kind of confirmed it yeah if it is a

1081

00:41:05,690 --> 00:41:03,359

missile So based on the velocity that's

1082

00:41:07,550 --> 00:41:05,700

traveling even if its motor is off now

1083

00:41:09,950 --> 00:41:07,560

it's kind of in Glide it's still

1084

00:41:11,630 --> 00:41:09,960

traveling at a high velocity and it

1085

00:41:13,730 --> 00:41:11,640

should be producing heat it should get

1086

00:41:15,109 --> 00:41:13,740

off a signature and they're like so that

1087

00:41:16,390 --> 00:41:15,119

part of it doesn't look like a missile

1088

00:41:19,550 --> 00:41:16,400

so I'm like

1089

00:41:21,890 --> 00:41:19,560

okay I don't know what it is I did speak

1090

00:41:24,589 --> 00:41:21,900

with somebody who kind of uh gave me

1091

00:41:28,670 --> 00:41:24,599

some really good Intel on what type of

1092

00:41:31,250 --> 00:41:28,680

of Airborne surveillance platform that

1093

00:41:33,230 --> 00:41:31,260

particular uh drone uses which was

1094

00:41:36,530 --> 00:41:33,240

interesting because it uses a

1095

00:41:40,310 --> 00:41:36,540

multi-camera array something like 300 or

1096

00:41:42,109 --> 00:41:40,320

800 lenses that form together they come

1097

00:41:46,010 --> 00:41:42,119

together and give you this really

1098

00:41:47,990 --> 00:41:46,020

massive scene and so they but they are

1099

00:41:49,730 --> 00:41:48,000

taking all of the so each one of these

1100

00:41:53,030 --> 00:41:49,740

little lenses is soaking up everything

1101  
00:41:54,829 --> 00:41:53,040  
they can then they push it together to

1102  
00:41:57,530 --> 00:41:54,839  
make it one flush picture that you're

1103  
00:41:58,730 --> 00:41:57,540  
looking at and they said so potentially

1104  
00:42:00,470 --> 00:41:58,740  
what you're looking at because they said

1105  
00:42:02,870 --> 00:42:00,480  
that what I thought initially was the

1106  
00:42:04,490 --> 00:42:02,880  
the trail the exhaust of a solid fuel

1107  
00:42:07,970 --> 00:42:04,500  
burning off that you would submit with a

1108  
00:42:09,530 --> 00:42:07,980  
rocket it tends to look like a artifact

1109  
00:42:12,890 --> 00:42:09,540  
in the camera system and they said well

1110  
00:42:15,109 --> 00:42:12,900  
that you can have errors in the system

1111  
00:42:16,609 --> 00:42:15,119  
you can have errors in the system that

1112  
00:42:18,290 --> 00:42:16,619  
can create these anomalous things things

1113  
00:42:21,349 --> 00:42:18,300

that you know they even pointed out that

1114

00:42:23,630 --> 00:42:21,359

that particular system on those Reaper

1115

00:42:26,690 --> 00:42:23,640

drones was even producing

1116

00:42:29,089 --> 00:42:26,700

um ghost triangles ghost artifact

1117

00:42:32,450 --> 00:42:29,099

triangles of all things and the systems

1118

00:42:34,849 --> 00:42:32,460

going back to 2011 2012 and they're

1119

00:42:37,250 --> 00:42:34,859

first implemented and they said that

1120

00:42:38,930 --> 00:42:37,260

could be what it is but at the end of

1121

00:42:41,329 --> 00:42:38,940

the day it's extremely difficult because

1122

00:42:43,069 --> 00:42:41,339

we're only looking at six still shots

1123

00:42:44,930 --> 00:42:43,079

and so that's what makes it hard and I

1124

00:42:47,089 --> 00:42:44,940

think in this particular case that's

1125

00:42:48,530 --> 00:42:47,099

where I will admit I haven't spent a

1126  
00:42:50,750 --> 00:42:48,540  
significant amount of time on it because

1127  
00:42:52,970 --> 00:42:50,760  
because I believe there's only so much

1128  
00:42:55,550 --> 00:42:52,980  
information we can glean from it and I I

1129  
00:42:57,829 --> 00:42:55,560  
am one of those people who have kind of

1130  
00:42:59,870 --> 00:42:57,839  
championed against people who are really

1131  
00:43:02,150 --> 00:42:59,880  
interested in this topic exerting

1132  
00:43:04,309 --> 00:43:02,160  
tremendous amounts of energy fighting

1133  
00:43:06,530 --> 00:43:04,319  
arguing over something that's never

1134  
00:43:08,750 --> 00:43:06,540  
going to get you a conclusion and I

1135  
00:43:10,550 --> 00:43:08,760  
think that those are one not diminishing

1136  
00:43:12,230 --> 00:43:10,560  
it's cool they're out there it's

1137  
00:43:14,030 --> 00:43:12,240  
impressive they're out there because

1138  
00:43:15,829 --> 00:43:14,040

they were taken over denied area they're

1139

00:43:18,410 --> 00:43:15,839

taking over foreign airspace this is

1140

00:43:20,030 --> 00:43:18,420

usually closely guarded and so the

1141

00:43:21,170 --> 00:43:20,040

stories behind it go with it they were

1142

00:43:23,750 --> 00:43:21,180

seeing those objects it's very

1143

00:43:26,210 --> 00:43:23,760

interesting not surprising in the least

1144

00:43:28,190 --> 00:43:26,220

I think that that's a very important

1145

00:43:30,890 --> 00:43:28,200

component that's limited a lot of the

1146

00:43:32,630 --> 00:43:30,900

best videos that we've seen going back

1147

00:43:35,089 --> 00:43:32,640

to what Dan mentioned earlier about

1148

00:43:37,430 --> 00:43:35,099

whereabout system best sensor systems

1149

00:43:39,349 --> 00:43:37,440

are they aren't over the U.S you know

1150

00:43:41,569 --> 00:43:39,359

we're not spying on ourselves so the

1151  
00:43:44,450 --> 00:43:41,579  
best systems are out there over foreign

1152  
00:43:47,270 --> 00:43:44,460  
areas over denied areas like Iran Russia

1153  
00:43:49,010 --> 00:43:47,280  
China which that imagery is never you

1154  
00:43:50,990 --> 00:43:49,020  
know that's the ultra classified that

1155  
00:43:52,430 --> 00:43:51,000  
doesn't come out and so it doesn't

1156  
00:43:54,410 --> 00:43:52,440  
surprise me at all that you would be

1157  
00:43:56,329 --> 00:43:54,420  
seeing these objects in areas where

1158  
00:43:59,030 --> 00:43:56,339  
you're going to be operating these

1159  
00:44:02,390 --> 00:43:59,040  
devices you know at any we just heard

1160  
00:44:04,190 --> 00:44:02,400  
yesterday about the uh the rq9 being

1161  
00:44:06,470 --> 00:44:04,200  
knocked down by Russia during the close

1162  
00:44:09,170 --> 00:44:06,480  
intercept over the Black Sea those are

1163  
00:44:12,170 --> 00:44:09,180

q9s those Reapers they're up over the

1164

00:44:14,870 --> 00:44:12,180

Black Sea every day 18 hours a day

1165

00:44:16,250 --> 00:44:14,880

they're near 24 hours a day that's where

1166

00:44:17,690 --> 00:44:16,260

you're going to come in contact with us

1167

00:44:20,030 --> 00:44:17,700

things because you're there and you're

1168

00:44:21,589 --> 00:44:20,040

and you're looking and so it doesn't

1169

00:44:24,349 --> 00:44:21,599

surprise me in the least I'll be

1170

00:44:26,510 --> 00:44:24,359

interested to see I just don't know

1171

00:44:29,990 --> 00:44:26,520

how much more information we can get out

1172

00:44:32,390 --> 00:44:30,000

of it and uh and I'm not I'll admittedly

1173

00:44:34,370 --> 00:44:32,400

I'm not reversed on the classification

1174

00:44:36,530 --> 00:44:34,380

behind it I don't know if it was it the

1175

00:44:38,630 --> 00:44:36,540

air force that said it was unidentified

1176

00:44:40,490 --> 00:44:38,640

or whether uh the person who filmed it

1177

00:44:42,349 --> 00:44:40,500

thought it was unidentified I believe I

1178

00:44:44,630 --> 00:44:42,359

heard maybe you can tell me that it

1179

00:44:46,550 --> 00:44:44,640

actually isn't one that was sent to

1180

00:44:50,230 --> 00:44:46,560

Arrow it wasn't something that was sent

1181

00:44:53,150 --> 00:44:50,240

in officially no it wasn't no okay yeah

1182

00:44:54,890 --> 00:44:53,160

it is yeah and I I appreciate your

1183

00:44:56,390 --> 00:44:54,900

answer and I'm not surprised it's just I

1184

00:44:58,670 --> 00:44:56,400

mean it's good to have data keep coming

1185

00:45:01,069 --> 00:44:58,680

out in these things but how much we can

1186

00:45:03,710 --> 00:45:01,079

glean from it that's a different story

1187

00:45:05,450 --> 00:45:03,720

it's just hard any still images like

1188

00:45:07,849 --> 00:45:05,460

that are very difficult you know even if

1189

00:45:10,609 --> 00:45:07,859

it was a still image of a

1190

00:45:12,710 --> 00:45:10,619

Flying Saucer and skinny Bob was waving

1191

00:45:14,210 --> 00:45:12,720

you know people are gonna say well

1192

00:45:16,430 --> 00:45:14,220

that's a hoax or whatever it's very very

1193

00:45:19,130 --> 00:45:16,440

difficult and you really need all those

1194

00:45:21,230 --> 00:45:19,140

kind of details but I understand from

1195

00:45:22,790 --> 00:45:21,240

from Georgia and Jeremy's side of things

1196

00:45:24,530 --> 00:45:22,800

you do have to protect sourcing and

1197

00:45:26,750 --> 00:45:24,540

everything especially you're something

1198

00:45:28,490 --> 00:45:26,760

like that that was my first process oh

1199

00:45:30,890 --> 00:45:28,500

[h\_\_h] this gets money in some trouble

1200

00:45:33,589 --> 00:45:30,900

because it is imagery from a denied area

1201

00:45:35,510 --> 00:45:33,599

it is imagery from from a foreign

1202

00:45:37,069 --> 00:45:35,520

country and so

1203

00:45:39,710 --> 00:45:37,079

um you know they have to be very

1204

00:45:41,270 --> 00:45:39,720

cautious there and so you know we've

1205

00:45:44,270 --> 00:45:41,280

been at positions in the debrief where

1206

00:45:45,710 --> 00:45:44,280

we've gotten information we put it out

1207

00:45:47,329 --> 00:45:45,720

there we're like this is what we know

1208

00:45:49,370 --> 00:45:47,339

this is what we got this is what people

1209

00:45:51,170 --> 00:45:49,380

said that's all I can give you we're not

1210

00:45:54,710 --> 00:45:51,180

saying one way or another

1211

00:45:56,210 --> 00:45:54,720

yeah I appreciate it uh now uh another

1212

00:45:57,470 --> 00:45:56,220

story that I don't think was picked up

1213

00:45:59,210 --> 00:45:57,480

on and I think you'll probably agree

1214

00:46:01,430 --> 00:45:59,220

with me on this is John Greenwald

1215

00:46:03,410 --> 00:46:01,440

recently released this uh

1216

00:46:05,809 --> 00:46:03,420

story about a Tic Tac being detected

1217

00:46:08,030 --> 00:46:05,819

using this sentient system

1218

00:46:10,550 --> 00:46:08,040

and

1219

00:46:12,250 --> 00:46:10,560

I think the capabilities were well one

1220

00:46:15,470 --> 00:46:12,260

of the capabilities of this system

1221

00:46:18,410 --> 00:46:15,480

revealed through foil was that it can

1222

00:46:22,370 --> 00:46:18,420

see and detect UFOs so you know what's

1223

00:46:24,530 --> 00:46:22,380

your thoughts on that that was wild I

1224

00:46:26,329 --> 00:46:24,540

mean that and I said that it I didn't

1225

00:46:28,069 --> 00:46:26,339

say it I didn't realize until after I

1226

00:46:31,250 --> 00:46:28,079

said it so I publicly said here that

1227

00:46:33,650 --> 00:46:31,260

there evidently had been a a typical

1228

00:46:35,930 --> 00:46:33,660

Twitter Thrift there perhaps between

1229

00:46:37,250 --> 00:46:35,940

John Greenwald and George Knapp and I

1230

00:46:38,630 --> 00:46:37,260

certainly was not trying to when I said

1231

00:46:40,970 --> 00:46:38,640

that I thought it was most exciting news

1232

00:46:43,490 --> 00:46:40,980

in a while I was like oh great now I'm

1233

00:46:45,589 --> 00:46:43,500

like I'm siding with team John against

1234

00:46:47,750 --> 00:46:45,599

you know George I'm like no no I didn't

1235

00:46:50,089 --> 00:46:47,760

mean that didn't be that so I didn't

1236

00:46:51,950 --> 00:46:50,099

mean that at all I thought it was first

1237

00:46:55,250 --> 00:46:51,960

first thing it was remarkable this came

1238

00:46:56,569 --> 00:46:55,260

out in for you like I was stunned the

1239

00:47:00,050 --> 00:46:56,579

nro

1240

00:47:02,150 --> 00:47:00,060

is such a secretive agency super

1241

00:47:03,710 --> 00:47:02,160

secretive you know they deal with us by

1242

00:47:06,470 --> 00:47:03,720

satellites they deal with all the

1243

00:47:09,170 --> 00:47:06,480

geospatial intelligence gathering and I

1244

00:47:11,990 --> 00:47:09,180

just know I know people that work there

1245

00:47:14,569 --> 00:47:12,000

and it's super secret and so you know

1246

00:47:15,890 --> 00:47:14,579

down to the fact that when I saw it I

1247

00:47:18,050 --> 00:47:15,900

sent it

1248

00:47:20,690 --> 00:47:18,060

um I sent John's article to some people

1249

00:47:22,910 --> 00:47:20,700

I know that that I can either confirm or

1250

00:47:26,690 --> 00:47:22,920

deny that work at some of those agencies

1251  
00:47:30,530 --> 00:47:26,700  
or perhaps worked with uh you know Arrow

1252  
00:47:32,690 --> 00:47:30,540  
or the UAP task force and said hey

1253  
00:47:34,450 --> 00:47:32,700  
what's up with this and the the answer

1254  
00:47:36,829 --> 00:47:34,460  
was Universal

1255  
00:47:39,950 --> 00:47:36,839  
all of them said I can either confirm or

1256  
00:47:41,870 --> 00:47:39,960  
deny anything in that I said okay so it

1257  
00:47:43,609 --> 00:47:41,880  
I mean that's that means that the

1258  
00:47:44,990 --> 00:47:43,619  
program's really classified a lot of the

1259  
00:47:47,569 --> 00:47:45,000  
aspects of something like man that come

1260  
00:47:51,349 --> 00:47:47,579  
out in foia is really remarkable and

1261  
00:47:54,650 --> 00:47:51,359  
then for them to see that is really

1262  
00:47:56,390 --> 00:47:54,660  
remarkable because the nro and I'm you

1263  
00:47:59,390 --> 00:47:56,400

know these particular this particular

1264

00:48:01,250 --> 00:47:59,400

capability is obviously classified so we

1265

00:48:03,710 --> 00:48:01,260

don't know all the intimate details of

1266

00:48:08,329 --> 00:48:03,720

it sure I can tell you that the nro

1267

00:48:11,150 --> 00:48:08,339

stuff is good it's really good and and

1268

00:48:14,089 --> 00:48:11,160

so their their ability to see insights

1269

00:48:16,550 --> 00:48:14,099

of objects and understand things is

1270

00:48:18,650 --> 00:48:16,560

good and so the fact that they picked

1271

00:48:20,809 --> 00:48:18,660

that up was remarkable there was some

1272

00:48:22,970 --> 00:48:20,819

language in it about how they could

1273

00:48:24,829 --> 00:48:22,980

detect these types of things in fact if

1274

00:48:27,589 --> 00:48:24,839

somebody requested if there was a formal

1275

00:48:29,930 --> 00:48:27,599

request for them to do you know redacted

1276

00:48:31,609 --> 00:48:29,940

redacted they could do that I could fill

1277

00:48:33,410 --> 00:48:31,619

in some of those blanks there for people

1278

00:48:35,569 --> 00:48:33,420

and what they're getting at is that

1279

00:48:37,130 --> 00:48:35,579

these satellites are passing around the

1280

00:48:39,829 --> 00:48:37,140

earth seven thousand miles per hour

1281

00:48:41,450 --> 00:48:39,839

constantly and the only uh they're only

1282

00:48:43,250 --> 00:48:41,460

able to capture a certain area about 11

1283

00:48:45,910 --> 00:48:43,260

minutes at a time it's about 11 minute

1284

00:48:48,349 --> 00:48:45,920

Windows what they get and there's not

1285

00:48:49,790 --> 00:48:48,359

you know thank God I'd hate to be that

1286

00:48:53,170 --> 00:48:49,800

poor soul that would have to sit there

1287

00:48:55,490 --> 00:48:53,180

at the monitor who's like watching it

1288

00:48:57,230 --> 00:48:55,500

that's not what happens but what happens

1289

00:48:59,569 --> 00:48:57,240

is you have these computer logarithms

1290

00:49:01,190 --> 00:48:59,579

you have ai that's going through all of

1291

00:49:02,809 --> 00:49:01,200

this data for you and it's highlighting

1292

00:49:05,630 --> 00:49:02,819

stuff very similar to how they do with

1293

00:49:07,849 --> 00:49:05,640

the transient star and the mapping and

1294

00:49:09,349 --> 00:49:07,859

everything with NASA uh how it'll

1295

00:49:11,930 --> 00:49:09,359

highlight things for you and you can go

1296

00:49:13,790 --> 00:49:11,940

back and look and so what they're what

1297

00:49:16,849 --> 00:49:13,800

they're getting at there is hey

1298

00:49:19,790 --> 00:49:16,859

if you give us a formal request we'll

1299

00:49:22,250 --> 00:49:19,800

we'll tune up our our gating filters a

1300

00:49:24,410 --> 00:49:22,260

little bit and say Hey give us an alarm

1301  
00:49:27,170 --> 00:49:24,420  
if you see anything that looks like that

1302  
00:49:28,730 --> 00:49:27,180  
and again this goes back to what Dan

1303  
00:49:30,650 --> 00:49:28,740  
first said are we looking at the right

1304  
00:49:33,349 --> 00:49:30,660  
places are we looking how we should be

1305  
00:49:35,450 --> 00:49:33,359  
looking and and I said no because in

1306  
00:49:37,849 --> 00:49:35,460  
certain instances you have to tell these

1307  
00:49:40,670 --> 00:49:37,859  
systems what to look for you have to say

1308  
00:49:43,490 --> 00:49:40,680  
no no don't just look for uh you know

1309  
00:49:45,710 --> 00:49:43,500  
fighter jets naval ships tanks I want

1310  
00:49:47,390 --> 00:49:45,720  
you to also look for weird stuff you

1311  
00:49:48,890 --> 00:49:47,400  
know I want you to look for ovals Tic

1312  
00:49:51,170 --> 00:49:48,900  
Tacs I want you to look for things that

1313  
00:49:52,910 --> 00:49:51,180

are moving faster that you normally

1314

00:49:54,530 --> 00:49:52,920

would filter out because it's moving too

1315

00:49:56,210 --> 00:49:54,540

fast or you filter out because it's

1316

00:49:57,770 --> 00:49:56,220

moving too slow we saw that with the

1317

00:50:00,589 --> 00:49:57,780

balloon detection so we changed the

1318

00:50:02,390 --> 00:50:00,599

radar and so I think that's what we're

1319

00:50:04,250 --> 00:50:02,400

getting at there is that they

1320

00:50:06,050 --> 00:50:04,260

essentially said hey we can do that if

1321

00:50:08,150 --> 00:50:06,060

you make this formal request for it

1322

00:50:10,730 --> 00:50:08,160

which is interesting because it appeared

1323

00:50:12,470 --> 00:50:10,740

that they actually picked up this object

1324

00:50:14,089 --> 00:50:12,480

teasing through that reacted document

1325

00:50:15,470 --> 00:50:14,099

they picked up this object because

1326  
00:50:17,210 --> 00:50:15,480  
somebody was playing with it somebody

1327  
00:50:19,250 --> 00:50:17,220  
was like hey let me change the gating a

1328  
00:50:22,250 --> 00:50:19,260  
little bit let me change those bypass

1329  
00:50:24,829 --> 00:50:22,260  
filters and and whoa hey check it out we

1330  
00:50:27,230 --> 00:50:24,839  
got this you know here's what we got we

1331  
00:50:28,670 --> 00:50:27,240  
can make some changes if you asked for

1332  
00:50:30,470 --> 00:50:28,680  
that so it's really really interesting I

1333  
00:50:34,870 --> 00:50:30,480  
think it's even more interesting because

1334  
00:50:37,190 --> 00:50:34,880  
what we can only hope uh I could say

1335  
00:50:39,950 --> 00:50:37,200  
probably with a high degree of certainty

1336  
00:50:42,230 --> 00:50:39,960  
that that request was made and that they

1337  
00:50:43,670 --> 00:50:42,240  
did say yeah this is what we want you to

1338  
00:50:45,650 --> 00:50:43,680

look for I want you to look for all

1339

00:50:48,170 --> 00:50:45,660

these shapes that they redacted out of

1340

00:50:50,270 --> 00:50:48,180

that classification she got they won't

1341

00:50:51,890 --> 00:50:50,280

even tell us the shapes and so we have

1342

00:50:55,130 --> 00:50:51,900

to ask ourselves man what did they get

1343

00:50:58,130 --> 00:50:55,140

since then but yeah I think that was the

1344

00:51:00,410 --> 00:50:58,140

that was a very very promising that was

1345

00:51:03,049 --> 00:51:00,420

very promised thing for you so so kudos

1346

00:51:05,750 --> 00:51:03,059

to John and those for for teasing that

1347

00:51:07,730 --> 00:51:05,760

out that was a good pickup yeah indeed

1348

00:51:09,170 --> 00:51:07,740

indeed I just want to say thank you to

1349

00:51:11,510 --> 00:51:09,180

Nick Brown for the five pound donation

1350

00:51:13,130 --> 00:51:11,520

much appreciated he says Richard Dolan

1351  
00:51:15,170 --> 00:51:13,140  
posted a new video today curious if

1352  
00:51:17,329 --> 00:51:15,180  
you'd seen it to me it's very important

1353  
00:51:18,410 --> 00:51:17,339  
he quoted Jack valet's latest book any

1354  
00:51:21,049 --> 00:51:18,420  
thoughts

1355  
00:51:23,990 --> 00:51:21,059  
I haven't seen it no I hadn't seen it

1356  
00:51:25,430 --> 00:51:24,000  
yeah I had it on I had it on today with

1357  
00:51:27,349 --> 00:51:25,440  
my daughter running around so I didn't

1358  
00:51:28,270 --> 00:51:27,359  
really pay that much attention to it but

1359  
00:51:31,670 --> 00:51:28,280  
yeah

1360  
00:51:35,210 --> 00:51:31,680  
is it a new UA where his new video he

1361  
00:51:36,890 --> 00:51:35,220  
said so yeah it's Dolan covering some of

1362  
00:51:39,410 --> 00:51:36,900  
Jacque Valley's latest book but it's

1363  
00:51:41,690 --> 00:51:39,420

really focusing on the program that

1364

00:51:44,210 --> 00:51:41,700

allegedly has almost come out three

1365

00:51:46,370 --> 00:51:44,220

times over the past however many decades

1366

00:51:48,470 --> 00:51:46,380

that's what I got from it anyway so okay

1367

00:51:51,710 --> 00:51:48,480

that could be interesting but Nick Brown

1368

00:51:53,870 --> 00:51:51,720

thank you anyway really appreciate that

1369

00:51:55,549 --> 00:51:53,880

um here's a question from Katie from

1370

00:51:57,349 --> 00:51:55,559

earlier uh we're obviously talking about

1371

00:51:59,930 --> 00:51:57,359

secondhand reports but she says a lot of

1372

00:52:01,549 --> 00:51:59,940

UAB reporting seems to be recycling the

1373

00:52:04,069 --> 00:52:01,559

same rumors from potentially the same

1374

00:52:06,170 --> 00:52:04,079

sources diminishing our report quality

1375

00:52:08,870 --> 00:52:06,180

so how do you address this trap the

1376  
00:52:10,970 --> 00:52:08,880  
debrief great question Katie really good

1377  
00:52:13,490 --> 00:52:10,980  
question and and it's difficult you know

1378  
00:52:17,450 --> 00:52:13,500  
I'll first and say

1379  
00:52:21,530 --> 00:52:17,460  
it's UAP is a difficult subject to

1380  
00:52:24,349 --> 00:52:21,540  
report on period you know it's not it's

1381  
00:52:27,530 --> 00:52:24,359  
not necessarily a normal normal topic to

1382  
00:52:29,569 --> 00:52:27,540  
report on and because of that because

1383  
00:52:31,730 --> 00:52:29,579  
there's this stigma behind it and so you

1384  
00:52:33,349 --> 00:52:31,740  
run into these various barriers but then

1385  
00:52:34,730 --> 00:52:33,359  
you you run into this other problem is

1386  
00:52:36,230 --> 00:52:34,740  
the people who do want to talk about it

1387  
00:52:38,450 --> 00:52:36,240  
whether they work in government or out

1388  
00:52:40,370 --> 00:52:38,460

or they have some insight is that all of

1389

00:52:43,010 --> 00:52:40,380

us are human beings we all have beliefs

1390

00:52:46,010 --> 00:52:43,020

yeah we it just is what it is we all

1391

00:52:48,290 --> 00:52:46,020

have beliefs that influence how we view

1392

00:52:49,849 --> 00:52:48,300

things and so it doesn't matter how

1393

00:52:53,569 --> 00:52:49,859

credentialed somebody is or whether you

1394

00:52:55,630 --> 00:52:53,579

like them or what position you're in you

1395

00:52:59,089 --> 00:52:55,640

also have to accept that oh man okay

1396

00:53:00,770 --> 00:52:59,099

this person believes this and that

1397

00:53:02,630 --> 00:53:00,780

belief is going to guide what they're

1398

00:53:04,069 --> 00:53:02,640

looking at so it's always really

1399

00:53:05,569 --> 00:53:04,079

imperative I think one of the things

1400

00:53:07,849 --> 00:53:05,579

that we really strive to do at the

1401  
00:53:11,510 --> 00:53:07,859  
debris is to try to make sure that we

1402  
00:53:13,430 --> 00:53:11,520  
never single Source anything we never

1403  
00:53:16,549 --> 00:53:13,440  
report anything that's just coming from

1404  
00:53:18,950 --> 00:53:16,559  
One Source that and we know that this

1405  
00:53:22,130 --> 00:53:18,960  
one source has this bias belief system

1406  
00:53:25,609 --> 00:53:22,140  
right we will somebody will say x y z

1407  
00:53:27,049 --> 00:53:25,619  
and so we will go uh you know to

1408  
00:53:28,609 --> 00:53:27,059  
somebody else that we think is probably

1409  
00:53:32,150 --> 00:53:28,619  
going to have a differing point of view

1410  
00:53:35,030 --> 00:53:32,160  
you know I haven't reported on UAP very

1411  
00:53:37,490 --> 00:53:35,040  
very much in the past few months or so

1412  
00:53:39,829 --> 00:53:37,500  
but but Micah Mike has really covered

1413  
00:53:42,290 --> 00:53:39,839

that slack our editor-in-chief and he's

1414

00:53:43,910 --> 00:53:42,300

really into this topic and uh much more

1415

00:53:46,010 --> 00:53:43,920

knowledgeable than me frankly on the

1416

00:53:48,049 --> 00:53:46,020

history of it and everything and so he

1417

00:53:49,490 --> 00:53:48,059

always does a great job and and I love

1418

00:53:51,829 --> 00:53:49,500

that he does this in articles some

1419

00:53:53,390 --> 00:53:51,839

people you know ah you know big grudges

1420

00:53:55,010 --> 00:53:53,400

for it but he'll reach out to Mick West

1421

00:53:58,730 --> 00:53:55,020

he'll get these other different reviews

1422

00:54:02,150 --> 00:53:58,740

so you kind of add that into that and we

1423

00:54:03,829 --> 00:54:02,160

try as hard as possible especially I I

1424

00:54:04,430 --> 00:54:03,839

really try

1425

00:54:07,549 --> 00:54:04,440

um

1426  
00:54:09,829 --> 00:54:07,559  
to as much as I possibly can that you'll

1427  
00:54:13,190 --> 00:54:09,839  
notice that when I report on anything

1428  
00:54:15,170 --> 00:54:13,200  
that's UAP related unless it directly

1429  
00:54:16,849 --> 00:54:15,180  
involves somebody so unless I'm in

1430  
00:54:20,030 --> 00:54:16,859  
unless I'm reporting on something that

1431  
00:54:21,829 --> 00:54:20,040  
directly involves uh Lou Alexander I

1432  
00:54:23,210 --> 00:54:21,839  
don't talk to Lou I don't call Lou I

1433  
00:54:25,549 --> 00:54:23,220  
don't care what he has to say about it

1434  
00:54:27,470 --> 00:54:25,559  
not that I don't like Lou I just I want

1435  
00:54:30,470 --> 00:54:27,480  
to hear from somebody else we try our

1436  
00:54:32,569 --> 00:54:30,480  
hardest to gather and listen to the

1437  
00:54:35,870 --> 00:54:32,579  
opinions or sourcing from people who are

1438  
00:54:38,030 --> 00:54:35,880

not quote unquote in the UFO field

1439

00:54:40,370 --> 00:54:38,040

um you know that's that's why it gives

1440

00:54:41,990 --> 00:54:40,380

us we will bring up these UFO questions

1441

00:54:43,370 --> 00:54:42,000

the people we're talking to for other

1442

00:54:45,650 --> 00:54:43,380

things you know this is how it's

1443

00:54:47,030 --> 00:54:45,660

happened with uh like Eric hasseltine

1444

00:54:49,130 --> 00:54:47,040

who is a former

1445

00:54:52,010 --> 00:54:49,140

um Information Technology director for

1446

00:54:54,170 --> 00:54:52,020

for dni you know we try to get those

1447

00:54:56,690 --> 00:54:54,180

kind of sources we try to get people who

1448

00:54:58,670 --> 00:54:56,700

aren't quote unquote UFO people they're

1449

00:55:01,730 --> 00:54:58,680

willing to talk to us about it and give

1450

00:55:02,750 --> 00:55:01,740

us an outside perspective and I think a

1451

00:55:05,150 --> 00:55:02,760

lot of times

1452

00:55:07,730 --> 00:55:05,160

um we're surprised by that I think that

1453

00:55:10,069 --> 00:55:07,740

people do Katie has a very valid point

1454

00:55:11,390 --> 00:55:10,079

of this information loop I think

1455

00:55:12,770 --> 00:55:11,400

sometimes people are afraid to get out

1456

00:55:15,349 --> 00:55:12,780

of that because they believe that if

1457

00:55:16,549 --> 00:55:15,359

they talk to somebody outside of that

1458

00:55:18,650 --> 00:55:16,559

Loop they're going to hear something

1459

00:55:19,970 --> 00:55:18,660

they don't want and frankly in my

1460

00:55:22,430 --> 00:55:19,980

experience has been the exact opposite

1461

00:55:24,170 --> 00:55:22,440

you know it's uh you know Ray maybe it's

1462

00:55:26,270 --> 00:55:24,180

the former Secretary of Navy that was

1463

00:55:28,670 --> 00:55:26,280

really featured in part three of those

1464

00:55:30,650 --> 00:55:28,680

devices of Unknown Origin me and him

1465

00:55:32,030 --> 00:55:30,660

talked about Navy technology the first

1466

00:55:33,829 --> 00:55:32,040

time we met we were talking about

1467

00:55:35,270 --> 00:55:33,839

different Navy Technologies I just

1468

00:55:38,089 --> 00:55:35,280

called him up before hey man talking

1469

00:55:40,190 --> 00:55:38,099

about UFOs and surprisingly he was happy

1470

00:55:42,890 --> 00:55:40,200

with it he was great with it great guy

1471

00:55:45,170 --> 00:55:42,900

uh Eric hasselton's another one so uh

1472

00:55:46,970 --> 00:55:45,180

you know God His Name Escapes me the one

1473

00:55:49,250 --> 00:55:46,980

in trans medium the former assistant

1474

00:55:50,809 --> 00:55:49,260

director of NORAD was willing to talk to

1475

00:55:54,349 --> 00:55:50,819

us about it so you run into all these

1476

00:55:57,470 --> 00:55:54,359

people and to me I think that bolsters

1477

00:55:59,809 --> 00:55:57,480

the credibility that has always kept me

1478

00:56:03,349 --> 00:55:59,819

investigating it because you're able to

1479

00:56:05,329 --> 00:56:03,359

walk away and go okay they aren't just

1480

00:56:07,130 --> 00:56:05,339

speaking from police because they're

1481

00:56:09,829 --> 00:56:07,140

sharing either experiences that they

1482

00:56:12,290 --> 00:56:09,839

generally have what they've had in their

1483

00:56:13,730 --> 00:56:12,300

positions and and and their experience

1484

00:56:15,589 --> 00:56:13,740

with that and then they're going to go

1485

00:56:19,250 --> 00:56:15,599

about their lives like they're not

1486

00:56:23,270 --> 00:56:19,260

really going to stay in the UFO field so

1487

00:56:25,609 --> 00:56:23,280

uh I'm not I'm I'm the the risk is

1488

00:56:28,549 --> 00:56:25,619

greatly reduced that I'm just in an

1489

00:56:31,130 --> 00:56:28,559

information Loop but I think yeah great

1490

00:56:33,170 --> 00:56:31,140

question Katie I think that that is

1491

00:56:36,589 --> 00:56:33,180

problematic I think it is very

1492

00:56:39,710 --> 00:56:36,599

problematic in a lot of UFO Reporting

1493

00:56:41,210 --> 00:56:39,720

but I I don't criticize anybody for it I

1494

00:56:43,849 --> 00:56:41,220

think people just get caught in that

1495

00:56:45,410 --> 00:56:43,859

Loop because it becomes easy you know

1496

00:56:47,930 --> 00:56:45,420

you know if you pick up phone and ask

1497

00:56:48,950 --> 00:56:47,940

Lou or whoever hey you know what did you

1498

00:56:50,210 --> 00:56:48,960

think about this they're going to talk

1499

00:56:52,010 --> 00:56:50,220

to you they're going to give you a quote

1500

00:56:55,430 --> 00:56:52,020

but I think you know it's good to

1501

00:56:57,170 --> 00:56:55,440

cultivate different sources of opinion

1502

00:56:59,030 --> 00:56:57,180

um and you'll be surprised I think the

1503

00:57:00,829 --> 00:56:59,040

joy that's actually how you get new info

1504

00:57:01,849 --> 00:57:00,839

and you bring new stuff to the table in

1505

00:57:03,890 --> 00:57:01,859

my opinion

1506

00:57:06,049 --> 00:57:03,900

yeah great answer thank you I appreciate

1507

00:57:08,270 --> 00:57:06,059

that uh and another case that I wanted

1508

00:57:09,410 --> 00:57:08,280

to just just bring up with you I don't

1509

00:57:10,730 --> 00:57:09,420

know how much we can talk about it

1510

00:57:13,510 --> 00:57:10,740

because there's nothing really about it

1511

00:57:16,490 --> 00:57:13,520

is the 1971 Holloman Air Force Base

1512

00:57:18,290 --> 00:57:16,500

alleged Landing that it just keeps

1513

00:57:19,970 --> 00:57:18,300

coming around again and you know

1514

00:57:22,010 --> 00:57:19,980

everyone gets really excited so I just

1515

00:57:24,109 --> 00:57:22,020

wondered if you had any thoughts on it

1516

00:57:26,329 --> 00:57:24,119

whether it's there's any validity to it

1517

00:57:30,589 --> 00:57:26,339

or anything

1518

00:57:34,630 --> 00:57:32,809

I'm trying to remember

1519

00:57:36,910 --> 00:57:34,640

I better figure out what I can say

1520

00:57:40,130 --> 00:57:36,920

because

1521

00:57:43,670 --> 00:57:40,140

I I you know here's another I can say

1522

00:57:45,170 --> 00:57:43,680

that I am under an NDA related to

1523

00:57:47,809 --> 00:57:45,180

Holloman

1524

00:57:48,829 --> 00:57:47,819

but it's not what you think and it will

1525

00:57:55,190 --> 00:57:48,839

come out

1526

00:58:00,230 --> 00:57:58,069

I you know I don't know okay so for you

1527

00:58:02,450 --> 00:58:00,240

know I've heard that you know I've heard

1528

00:58:04,010 --> 00:58:02,460

different variations of the Holloman

1529

00:58:05,510 --> 00:58:04,020

myth I've heard that Eisenhower maybe

1530

00:58:07,309 --> 00:58:05,520

went out there and shook hands with

1531

00:58:09,950 --> 00:58:07,319

aliens perhaps maybe they met with other

1532

00:58:12,650 --> 00:58:09,960

people perhaps aliens landed I I don't

1533

00:58:14,870 --> 00:58:12,660

know it seems really outlandish to me

1534

00:58:16,490 --> 00:58:14,880

and I don't mean that disrespectfully to

1535

00:58:18,589 --> 00:58:16,500

either the aliens or the people who

1536

00:58:21,530 --> 00:58:18,599

maybe believe that it happened maybe it

1537

00:58:22,670 --> 00:58:21,540

did uh it goes back to kind of

1538

00:58:24,890 --> 00:58:22,680

um where I stand with the crash

1539

00:58:28,309 --> 00:58:24,900

retrievals and stuff so I'm like yeah

1540

00:58:30,950 --> 00:58:28,319

it's a huge Dory we gotta have something

1541

00:58:32,809 --> 00:58:30,960

other than a guy who said a guy I saw it

1542

00:58:35,390 --> 00:58:32,819

or something like that right and so I

1543

00:58:36,650 --> 00:58:35,400

think that uh it's a hard story for me

1544

00:58:41,270 --> 00:58:36,660

to swallow

1545

00:58:42,530 --> 00:58:41,280

reasons that probably might probably

1546

00:58:45,170 --> 00:58:42,540

wouldn't surprise anybody that knows me

1547

00:58:47,569 --> 00:58:45,180

but but it don't come from the UFO field

1548

00:58:50,150 --> 00:58:47,579

which is uh you know I'm an avid World

1549

00:58:52,250 --> 00:58:50,160

War II amateur historian you know very

1550

00:58:54,349 --> 00:58:52,260

big on that of constantly you know

1551

00:58:57,289 --> 00:58:54,359

that's probably my my biggest passion

1552

00:58:59,750 --> 00:58:57,299

arguably is World War II history and so

1553

00:59:01,370 --> 00:58:59,760

I've done you know I've read a lot I

1554

00:59:03,289 --> 00:59:01,380

feel like I know Dwight D Eisenhower

1555

00:59:05,150 --> 00:59:03,299

like he was my grandfather

1556

00:59:08,210 --> 00:59:05,160

and so I know kind of his personality

1557

00:59:10,130 --> 00:59:08,220

and everything and he knowing all of

1558

00:59:11,809 --> 00:59:10,140

that I find it very hard to believe that

1559

00:59:13,730 --> 00:59:11,819

Dwight Eisenhower would have met with

1560

00:59:15,829 --> 00:59:13,740

aliens and not shared that

1561

00:59:18,650 --> 00:59:15,839

right with the public just knowing who

1562

00:59:21,109 --> 00:59:18,660

he was as a as a person as a leader as a

1563

00:59:25,130 --> 00:59:21,119

president as an Allied Commander he was

1564

00:59:27,770 --> 00:59:25,140

just very well known as is a rare person

1565

00:59:30,170 --> 00:59:27,780

of his of any generation that was really

1566

00:59:32,530 --> 00:59:30,180

there for the people and so I have a

1567

00:59:36,710 --> 00:59:32,540

hard time you know he had already

1568

00:59:38,750 --> 00:59:36,720

commanded the allies during World War II

1569

00:59:40,549 --> 00:59:38,760

and he made some of the toughest

1570

00:59:41,750 --> 00:59:40,559

decisions and everything and so this

1571

00:59:43,370 --> 00:59:41,760

idea that you could make the tough

1572

00:59:45,289 --> 00:59:43,380

decision of letting the people know

1573

00:59:47,329 --> 00:59:45,299

about this

1574

00:59:48,890 --> 00:59:47,339

um I just I have a hard time I struggle

1575

00:59:50,870 --> 00:59:48,900

thinking that Eisenhower would have done

1576  
00:59:52,670 --> 00:59:50,880  
that of course the Counterpoint people

1577  
00:59:53,450 --> 00:59:52,680  
will say is but the aliens told him they

1578  
00:59:54,890 --> 00:59:53,460  
could

1579  
00:59:56,450 --> 00:59:54,900  
well then [\h\_\_\h] I don't want to meet him

1580  
00:59:58,089 --> 00:59:56,460  
they sound they sound like angry mean

1581  
01:00:00,349 --> 00:59:58,099  
aliens you know

1582  
01:00:02,510 --> 01:00:00,359  
they're not friendly

1583  
01:00:04,789 --> 01:00:02,520  
ah no thank you again I appreciate the

1584  
01:00:06,410 --> 01:00:04,799  
answer appreciate it listen Tim before I

1585  
01:00:07,609 --> 01:00:06,420  
let you let you go I just wondered if it

1586  
01:00:08,990 --> 01:00:07,619  
was anything that you are working on

1587  
01:00:14,329 --> 01:00:09,000  
that you could tell us about other than

1588  
01:00:17,329 --> 01:00:14,339

devices part four no I I a couple of

1589

01:00:20,390 --> 01:00:17,339

things not not necessarily uh UAP

1590

01:00:22,430 --> 01:00:20,400

related but but tangentially I think go

1591

01:00:24,650 --> 01:00:22,440

back into what we talked about in

1592

01:00:26,809 --> 01:00:24,660

answering that question you know what do

1593

01:00:29,809 --> 01:00:26,819

you think it could be secret U.S

1594

01:00:31,490 --> 01:00:29,819

technology right and that's related to

1595

01:00:33,650 --> 01:00:31,500

advancing Technologies like I mentioned

1596

01:00:35,569 --> 01:00:33,660

I have uh I got to sit down and put it

1597

01:00:37,309 --> 01:00:35,579

on paper it's one of these things we're

1598

01:00:39,109 --> 01:00:37,319

just joking about it but with my good

1599

01:00:41,030 --> 01:00:39,119

buddy and colleague Christopher plane

1600

01:00:42,770 --> 01:00:41,040

where I'm like man I just got into this

1601  
01:00:44,089 --> 01:00:42,780  
because I like solving Mysteries or I

1602  
01:00:46,609 --> 01:00:44,099  
like figuring stuff out or I'm

1603  
01:00:48,770 --> 01:00:46,619  
insatiably curious I don't want to write

1604  
01:00:51,109 --> 01:00:48,780  
it down and share with people screw

1605  
01:00:52,910 --> 01:00:51,119  
everybody up you know for myself I gotta

1606  
01:00:54,770 --> 01:00:52,920  
put it on paper but I did have an

1607  
01:00:57,289 --> 01:00:54,780  
opportunity to get some really great

1608  
01:01:00,470 --> 01:00:57,299  
exclusives when it relates to

1609  
01:01:04,190 --> 01:01:00,480  
um a legitimate transmedium technology

1610  
01:01:06,710 --> 01:01:04,200  
that's real she didn't happen this is

1611  
01:01:08,809 --> 01:01:06,720  
not junk this this is something that is

1612  
01:01:10,250 --> 01:01:08,819  
disruptive and so that I think is really

1613  
01:01:13,609 --> 01:01:10,260

cool that's something I'll be working on

1614

01:01:14,829 --> 01:01:13,619

publishing out there there's he's so

1615

01:01:19,370 --> 01:01:14,839

stupid

1616

01:01:21,349 --> 01:01:19,380

uh I'm working on another really cool uh

1617

01:01:23,930 --> 01:01:21,359

military medical technology that relates

1618

01:01:26,750 --> 01:01:23,940

to augmented reality and how saving

1619

01:01:29,450 --> 01:01:26,760

soldiers lives on the battlefield uh a

1620

01:01:30,950 --> 01:01:29,460

world away which is just phenomenal

1621

01:01:33,049 --> 01:01:30,960

um I mean that's the fun about what we

1622

01:01:34,910 --> 01:01:33,059

do at the debrief I think is that we get

1623

01:01:37,130 --> 01:01:34,920

to look at the inside and we we don't

1624

01:01:39,170 --> 01:01:37,140

get to see the the silliness that you

1625

01:01:41,210 --> 01:01:39,180

know chat gbt is not going to kill us

1626

01:01:44,210 --> 01:01:41,220

all it's not going to take us over we

1627

01:01:47,450 --> 01:01:44,220

get to see how people are applying Ai

1628

01:01:49,849 --> 01:01:47,460

and AR and VR Technologies and drone

1629

01:01:52,190 --> 01:01:49,859

Technologies and they're really

1630

01:01:53,510 --> 01:01:52,200

going to change the world like for good

1631

01:01:55,190 --> 01:01:53,520

like there's things that we're seeing

1632

01:01:57,349 --> 01:01:55,200

that are really good Israeli Jones story

1633

01:01:59,390 --> 01:01:57,359

just did was amazing what they're able

1634

01:02:02,809 --> 01:01:59,400

to do with those and so I do have some

1635

01:02:05,630 --> 01:02:02,819

of that kind of lined up and so we'll be

1636

01:02:08,510 --> 01:02:05,640

bringing that forward and uh

1637

01:02:10,069 --> 01:02:08,520

figure out what I always got UAP stuff

1638

01:02:11,690 --> 01:02:10,079

that's kind of simmering you know

1639

01:02:13,670 --> 01:02:11,700

there's always something simmering on

1640

01:02:15,650 --> 01:02:13,680

the stove when it relates to UAP because

1641

01:02:17,270 --> 01:02:15,660

I know that's what most of the audience

1642

01:02:18,849 --> 01:02:17,280

will be interested in so that's always

1643

01:02:21,410 --> 01:02:18,859

simmering you know

1644

01:02:23,450 --> 01:02:21,420

keep on the lookout for that but I I

1645

01:02:25,430 --> 01:02:23,460

would also say that uh you know

1646

01:02:28,910 --> 01:02:25,440

hopefully people enjoy the content but

1647

01:02:30,890 --> 01:02:28,920

but do check out what we have even if

1648

01:02:33,589 --> 01:02:30,900

it's not UAP related because I do

1649

01:02:35,089 --> 01:02:33,599

genuinely believe that uh when you read

1650

01:02:37,190 --> 01:02:35,099

the content we're putting out you will

1651  
01:02:39,530 --> 01:02:37,200  
walk away going you'll be able to have

1652  
01:02:41,390 --> 01:02:39,540  
more intellectual conversations and

1653  
01:02:44,150 --> 01:02:41,400  
investigations of you AP because you'll

1654  
01:02:45,650 --> 01:02:44,160  
be able to say nah no there's no way I

1655  
01:02:48,289 --> 01:02:45,660  
know because I just read that Battelle

1656  
01:02:50,690 --> 01:02:48,299  
material institutes is is is working on

1657  
01:02:52,130 --> 01:02:50,700  
this graphene coding to go over

1658  
01:02:53,630 --> 01:02:52,140  
Hypersonic vehicles but they hadn't

1659  
01:02:55,609 --> 01:02:53,640  
developed it yet so don't give me this

1660  
01:02:57,170 --> 01:02:55,619  
[h\_\_\h] the Air Force is flying a Mach 10

1661  
01:02:59,390 --> 01:02:57,180  
jet yet because they can't you know

1662  
01:03:01,549 --> 01:02:59,400  
you'll be able to answer those things

1663  
01:03:05,150 --> 01:03:01,559

and have something behind it other than

1664

01:03:07,069 --> 01:03:05,160

it's not true so we'll we're constantly

1665

01:03:08,750 --> 01:03:07,079

bringing stuff out like that

1666

01:03:10,430 --> 01:03:08,760

I look forward to anything you put out

1667

01:03:12,530 --> 01:03:10,440

and you say that I actually go all

1668

01:03:14,990 --> 01:03:12,540

across all the Articles non-uap related

1669

01:03:16,970 --> 01:03:15,000

even I think your latest one on this uh

1670

01:03:20,809 --> 01:03:16,980

Wormhole technology thing that you put

1671

01:03:23,030 --> 01:03:20,819

off yeah it's really cool yeah no that

1672

01:03:25,370 --> 01:03:23,040

was really I mean that's the stuff I

1673

01:03:28,370 --> 01:03:25,380

mean that that's the most fun about what

1674

01:03:30,770 --> 01:03:28,380

I do honestly Vinnie is and all of a

1675

01:03:32,569 --> 01:03:30,780

sudden UAP isn't weird anymore because

1676  
01:03:34,970 --> 01:03:32,579  
when you start talking and you see with

1677  
01:03:37,490 --> 01:03:34,980  
the real science and the real Tech is

1678  
01:03:38,750 --> 01:03:37,500  
being developed and they explain it much

1679  
01:03:40,309 --> 01:03:38,760  
greater terms but when you're sitting

1680  
01:03:42,650 --> 01:03:40,319  
there and somebody's saying look here's

1681  
01:03:44,930 --> 01:03:42,660  
all the math and all the proof that you

1682  
01:03:47,630 --> 01:03:44,940  
know this wormholes can be created and

1683  
01:03:49,430 --> 01:03:47,640  
everything you go well I mean is it

1684  
01:03:51,829 --> 01:03:49,440  
really weird to think that somebody else

1685  
01:03:54,530 --> 01:03:51,839  
had perfected this and visiting is that

1686  
01:03:57,170 --> 01:03:54,540  
crazy uh because it's not crazy this

1687  
01:03:58,430 --> 01:03:57,180  
exists so yeah no that's that's really

1688  
01:04:00,109 --> 01:03:58,440

cool

1689

01:04:01,849 --> 01:04:00,119

um yeah yeah I always get excited

1690

01:04:03,049 --> 01:04:01,859

because Chris Chris playing who's

1691

01:04:04,970 --> 01:04:03,059

sitting here tell me I'm working on

1692

01:04:07,309 --> 01:04:04,980

insane stuff he's the one who always

1693

01:04:08,809 --> 01:04:07,319

keeps me motivated because he's he's I

1694

01:04:10,670 --> 01:04:08,819

think he goes to lunch and parties with

1695

01:04:12,770 --> 01:04:10,680

these propulsion nerds like he's got

1696

01:04:14,930 --> 01:04:12,780

stuff and Chris is Chris has probably

1697

01:04:16,190 --> 01:04:14,940

got a portfolio of aerospace companies

1698

01:04:17,630 --> 01:04:16,200

he's not telling us about he's gonna be

1699

01:04:21,109 --> 01:04:17,640

a billionaire because he's investing in

1700

01:04:22,849 --> 01:04:21,119

these Tech Giants and uh but it's cool

1701

01:04:24,230 --> 01:04:22,859

stuff man there is it's really really

1702

01:04:26,569 --> 01:04:24,240

cool stuff

1703

01:04:28,190 --> 01:04:26,579

that's great listen Tim thank you so

1704

01:04:29,930 --> 01:04:28,200

much absolutely wonderful conversation

1705

01:04:32,270 --> 01:04:29,940

it's always an absolute pleasure to

1706

01:04:34,250 --> 01:04:32,280

speak with you uh and to everybody in

1707

01:04:35,630 --> 01:04:34,260

the chat thank you guys as well I'll be

1708

01:04:37,910 --> 01:04:35,640

back next week with Katie where we'll

1709

01:04:40,549 --> 01:04:37,920

have Dr Gary Nolan and Tyler Henry

1710

01:04:42,410 --> 01:04:40,559

together for an interesting conversation

1711

01:04:44,630 --> 01:04:42,420

but yeah once again Tim thank you so

1712

01:04:47,030 --> 01:04:44,640

much no no absolutely man it's been

1713

01:04:49,370 --> 01:04:47,040

fantastic Vinnie I appreciate it

1714

01:04:50,809 --> 01:04:49,380

wonderful okay everyone we'll end it
