

Tim Ventura

UAP, Futurism & Alt Propulsion

**DISCLOSURE
TEAM**

1
00:00:04,670 --> 00:00:02,869
welcome back to the channel guys this is

2
00:00:08,030 --> 00:00:04,680
a pre-recorded interview with Tim

3
00:00:10,970 --> 00:00:08,040
Ventura futurist technologist business

4
00:00:13,490 --> 00:00:10,980
executive podcaster and founder and

5
00:00:15,829 --> 00:00:13,500
moderator of the Apec conference please

6
00:00:19,070 --> 00:00:15,839
check out the links below this video for

7
00:00:20,870 --> 00:00:19,080
all of Tim's work and his podcast and I

8
00:00:22,550 --> 00:00:20,880
hope you enjoy this interview if you do

9
00:00:24,050 --> 00:00:22,560
please remember to leave a like rating

10
00:00:25,310 --> 00:00:24,060
And subscribe to the channel if you

11
00:00:27,410 --> 00:00:25,320
don't already

12
00:00:28,849 --> 00:00:27,420
I hope you enjoy this interview with Tim

13
00:00:31,009 --> 00:00:28,859

Ventura

14

00:00:32,749 --> 00:00:31,019

so Tim I wanted to really start off by

15

00:00:36,350 --> 00:00:32,759

asking you what sparked your initial

16

00:00:37,850 --> 00:00:36,360

interest in interest in UAP and do you

17

00:00:38,990 --> 00:00:37,860

think it is an important field of

18

00:00:42,470 --> 00:00:39,000

research

19

00:00:45,889 --> 00:00:42,480

well if it's okay and so I I have kind

20

00:00:50,090 --> 00:00:45,899

of a an odd story to that I actually saw

21

00:00:52,910 --> 00:00:50,100

a UFO in 1996 I saw what they called the

22

00:00:54,350 --> 00:00:52,920

stealth blimp and

23

00:00:56,689 --> 00:00:54,360

um you know I I don't want to go into

24

00:00:59,630 --> 00:00:56,699

the site I would say that I had a very

25

00:01:01,610 --> 00:00:59,640

close-up sighting of it but that didn't

26

00:01:03,470 --> 00:01:01,620

convince me in fact I thought that it

27

00:01:06,289 --> 00:01:03,480

was one of ours and I'd read online

28

00:01:08,270 --> 00:01:06,299

later that that was some kind of a you

29

00:01:09,890 --> 00:01:08,280

know Navy observation platform or

30

00:01:12,350 --> 00:01:09,900

something

31

00:01:14,570 --> 00:01:12,360

um so you know I I went along with

32

00:01:17,510 --> 00:01:14,580

things but I I'd always had this

33

00:01:18,410 --> 00:01:17,520

interest in physics and propulsion and

34

00:01:20,390 --> 00:01:18,420

science

35

00:01:24,710 --> 00:01:20,400

and I ended up starting American

36

00:01:27,410 --> 00:01:24,720

anti-gravity in 2002 and the focus there

37

00:01:30,649 --> 00:01:27,420

was on emerging propulsion right new

38

00:01:33,350 --> 00:01:30,659

propulsion and you know anti-gravity

39

00:01:35,810 --> 00:01:33,360

bfield Brown effect the surl effect out

40

00:01:39,289 --> 00:01:35,820

of the UK lots and lots of different

41

00:01:41,569 --> 00:01:39,299

ideas and I ended up interviewing and

42

00:01:44,630 --> 00:01:41,579

covering pretty much that entire field

43

00:01:46,249 --> 00:01:44,640

and there's massive overlap there with

44

00:01:49,789 --> 00:01:46,259

UAP

45

00:01:52,429 --> 00:01:49,799

and so being thick headed as I am I

46

00:01:54,109 --> 00:01:52,439

spent years doing this intensely and

47

00:01:55,789 --> 00:01:54,119

built a pretty good reputation and

48

00:01:59,090 --> 00:01:55,799

pretty big following you know did a lot

49

00:02:02,630 --> 00:01:59,100

of media and the more that I dug into

50

00:02:05,450 --> 00:02:02,640

UAP the less I was able to find that was

51
00:02:07,550 --> 00:02:05,460
credible you know I met a lot of the key

52
00:02:10,550 --> 00:02:07,560
figures there and I'm like I see a lot

53
00:02:13,790 --> 00:02:10,560
of smoke I don't see any fire so after

54
00:02:17,869 --> 00:02:13,800
all of that I still didn't believe in

55
00:02:19,550 --> 00:02:17,879
UAP right and so you know again I I'm

56
00:02:22,070 --> 00:02:19,560
I'm the last person to figure some

57
00:02:25,970 --> 00:02:22,080
things out I'll admit that

58
00:02:28,190 --> 00:02:25,980
um so in 2007 the Nimitz or 2017 the

59
00:02:30,350 --> 00:02:28,200
Nimitz story broke right I started to

60
00:02:32,150 --> 00:02:30,360
see those and I'm like okay yeah it

61
00:02:35,690 --> 00:02:32,160
could be the pilots could be this could

62
00:02:37,369 --> 00:02:35,700
be that and and you know I I have it

63
00:02:38,630 --> 00:02:37,379

like I've been doing a lot of Defense

64

00:02:40,369 --> 00:02:38,640

interviews

65

00:02:43,850 --> 00:02:40,379

um I do a lot of writing I work with a

66

00:02:46,790 --> 00:02:43,860

lot of scientists and the people that I

67

00:02:49,490 --> 00:02:46,800

trusted with credentials phds military

68

00:02:50,990 --> 00:02:49,500

figures folks along those lines they

69

00:02:53,330 --> 00:02:51,000

they'd stop him they said no no no

70

00:02:56,570 --> 00:02:53,340

you've got to take a close look at this

71

00:02:58,550 --> 00:02:56,580

this is something real I was like ah as

72

00:03:02,030 --> 00:02:58,560

vegans UFOs right you know that's not

73

00:03:04,670 --> 00:03:02,040

real and and so but I I did I started to

74

00:03:07,910 --> 00:03:04,680

look at it and I started to review like

75

00:03:10,369 --> 00:03:07,920

Kevin knuth and the SCU their analysis

76

00:03:12,470 --> 00:03:10,379

and I started to look at the reports and

77

00:03:14,630 --> 00:03:12,480

I did a research on the military reports

78

00:03:17,149 --> 00:03:14,640

and the more I read I was like wait a

79

00:03:19,369 --> 00:03:17,159

minute this isn't somebody who saw a

80

00:03:21,530 --> 00:03:19,379

light in the sky and said oh look it's

81

00:03:24,170 --> 00:03:21,540

aliens you know this isn't something

82

00:03:24,710 --> 00:03:24,180

that you can write off as

83

00:03:27,589 --> 00:03:24,720

um

84

00:03:28,790 --> 00:03:27,599

for instance uh night terrors I think

85

00:03:31,009 --> 00:03:28,800

right that's what the production

86

00:03:34,070 --> 00:03:31,019

experiences have been written off as I

87

00:03:36,949 --> 00:03:34,080

said this is these are military reports

88

00:03:41,030 --> 00:03:36,959

it's highly credible they have multiple

89

00:03:43,430 --> 00:03:41,040

types of overlapping sensor data and you

90

00:03:46,550 --> 00:03:43,440

know the more that you research the more

91

00:03:49,009 --> 00:03:46,560

that you find I was like my God this is

92

00:03:52,190 --> 00:03:49,019

real you know and so for me

93

00:03:54,130 --> 00:03:52,200

it took a while to kind of come to that

94

00:03:57,670 --> 00:03:54,140

conclusion but I would say it was 2018

95

00:04:02,509 --> 00:03:57,680

2019 you know I had this

96

00:04:04,369 --> 00:04:02,519

emotional moment of this is real and in

97

00:04:06,229 --> 00:04:04,379

some ways that's still going on for me

98

00:04:08,149 --> 00:04:06,239

and and the reason I mention that is I

99

00:04:11,149 --> 00:04:08,159

have a feeling that that's something

100

00:04:13,369 --> 00:04:11,159

that's going on for most people if not

101

00:04:16,009 --> 00:04:13,379

all people you know

102

00:04:17,810 --> 00:04:16,019

um I mean there are many individuals

103

00:04:19,909 --> 00:04:17,820

perhaps yourself who are like you know

104

00:04:22,490 --> 00:04:19,919

what UFOs are real I'm cool with it but

105

00:04:24,530 --> 00:04:22,500

for the rest of us it's kind of like

106

00:04:27,590 --> 00:04:24,540

it's it's one of those cultural things

107

00:04:29,810 --> 00:04:27,600

right like yeah you know 1950s stuff in

108

00:04:32,530 --> 00:04:29,820

the air maybe maybe not I was like well

109

00:04:37,189 --> 00:04:32,540

wait a minute it's real like really real

110

00:04:39,050 --> 00:04:37,199

that's that's a lot you know so yeah no

111

00:04:40,370 --> 00:04:39,060

that's a great answer so that that's

112

00:04:42,230 --> 00:04:40,380

yeah that's kind of my back story

113

00:04:45,110 --> 00:04:42,240

hopefully that wasn't too drawn out but

114

00:04:47,870 --> 00:04:45,120

no the reason yeah I wanted to share

115

00:04:51,409 --> 00:04:47,880

that because I I know a lot of people

116

00:04:53,390 --> 00:04:51,419

have a low bar for acceptance and that's

117

00:04:56,270 --> 00:04:53,400

fine that's everybody has their own

118

00:04:57,950 --> 00:04:56,280

criteria right but for a lot of folks

119

00:04:59,810 --> 00:04:57,960

they're like you know okay somebody told

120

00:05:02,749 --> 00:04:59,820

me the UFOs are real therefore they are

121

00:05:04,969 --> 00:05:02,759

in my case it was the opposite I I had

122

00:05:06,230 --> 00:05:04,979

studied this I had a lot of knowledge I

123

00:05:09,230 --> 00:05:06,240

worked with a lot of really credible

124

00:05:12,110 --> 00:05:09,240

people and I I was just like yeah just

125

00:05:15,350 --> 00:05:12,120

dismissive you know and it was that

126
00:05:16,909 --> 00:05:15,360
overwhelming amount of evidence and I I

127
00:05:18,950 --> 00:05:16,919
would say

128
00:05:20,629 --> 00:05:18,960
um over the last couple of years it's

129
00:05:24,050 --> 00:05:20,639
just gotten more and more and more

130
00:05:26,570 --> 00:05:24,060
overwhelming so you know they're here I

131
00:05:29,150 --> 00:05:26,580
mean what else can we say and they may

132
00:05:31,370 --> 00:05:29,160
have been here for a very very long time

133
00:05:32,810 --> 00:05:31,380
yeah absolutely and and through your

134
00:05:34,430 --> 00:05:32,820
conversations that you've had in the

135
00:05:36,230 --> 00:05:34,440
past few years and

136
00:05:38,990 --> 00:05:36,240
you know there's a lot of people tend to

137
00:05:41,330 --> 00:05:39,000
theorize about the actual origin of the

138
00:05:43,850 --> 00:05:41,340

non-human intelligence do you sort of

139

00:05:45,430 --> 00:05:43,860

lean more towards any specific Theory

140

00:05:48,050 --> 00:05:45,440

whether it be extraterrestrial

141

00:05:49,870 --> 00:05:48,060

interdimensional and a whole multitude

142

00:05:52,969 --> 00:05:49,880

of others

143

00:05:54,350 --> 00:05:52,979

so I this is again I I have a I've done

144

00:05:55,730 --> 00:05:54,360

a lot of interviews I've done an

145

00:05:57,110 --> 00:05:55,740

interview series and I've heard a lot of

146

00:05:58,969 --> 00:05:57,120

different opinions and so I kind of

147

00:06:00,290 --> 00:05:58,979

benefit from that because I'm able to

148

00:06:04,969 --> 00:06:00,300

think about what different people say

149

00:06:08,950 --> 00:06:04,979

and go okay how do I feel about this and

150

00:06:12,110 --> 00:06:08,960

I'm leaning towards the alien hypothesis

151
00:06:14,330 --> 00:06:12,120
and actually I'm leaning towards machine

152
00:06:16,730 --> 00:06:14,340
intelligence but I want to put a caveat

153
00:06:19,550 --> 00:06:16,740
on that because

154
00:06:22,010 --> 00:06:19,560
um so the the idea was like for anybody

155
00:06:25,249 --> 00:06:22,020
who's watched Arthur C Clarke's 2001

156
00:06:27,050 --> 00:06:25,259
Space Odyssey that was what they call a

157
00:06:29,150 --> 00:06:27,060
Von Neumann probe it's a

158
00:06:32,510 --> 00:06:29,160
self-replicating machine right that

159
00:06:34,670 --> 00:06:32,520
travels the Galaxy and we are far more

160
00:06:36,770 --> 00:06:34,680
likely to encounter those than anything

161
00:06:38,930 --> 00:06:36,780
else and the reason why is

162
00:06:40,249 --> 00:06:38,940
okay let's just let's assume for a

163
00:06:42,350 --> 00:06:40,259

moment that you're you know you're on

164

00:06:44,270 --> 00:06:42,360

Planet X right and you want to explore

165

00:06:47,270 --> 00:06:44,280

the Galaxy

166

00:06:49,550 --> 00:06:47,280

um you can produce UFOs you know as fast

167

00:06:51,529 --> 00:06:49,560

as you want the problem is those UFOs

168

00:06:54,830 --> 00:06:51,539

have to have Crews they have to have a

169

00:06:56,210 --> 00:06:54,840

pilot right even if they're you know

170

00:06:58,790 --> 00:06:56,220

faster than light they can get there

171

00:07:01,730 --> 00:06:58,800

instantly it still takes time to explore

172

00:07:04,430 --> 00:07:01,740

the Galaxy the amount of time the amount

173

00:07:07,309 --> 00:07:04,440

of production the amount of like labor

174

00:07:09,590 --> 00:07:07,319

involved is daunting you wouldn't be

175

00:07:12,710 --> 00:07:09,600

able to explore that much at all whereas

176
00:07:16,490 --> 00:07:12,720
with the Von Neumann probe within 50

177
00:07:20,029 --> 00:07:16,500
replication events you could explore all

178
00:07:22,550 --> 00:07:20,039
400 billion stars in the Milky Way so

179
00:07:24,830 --> 00:07:22,560
it's it's just far more likely that you

180
00:07:27,230 --> 00:07:24,840
know I mean maybe there are Planet X

181
00:07:30,529 --> 00:07:27,240
aliens sending saucers out there with

182
00:07:32,450 --> 00:07:30,539
you know little guys with antennas but

183
00:07:35,210 --> 00:07:32,460
um the you know it's it's far less

184
00:07:38,570 --> 00:07:35,220
likely that we encounter them than we

185
00:07:40,670 --> 00:07:38,580
initially encounter a machine now it's

186
00:07:42,650 --> 00:07:40,680
entirely possible that the machine

187
00:07:44,270 --> 00:07:42,660
showed up and it's been here and it sent

188
00:07:46,550 --> 00:07:44,280

a signal home and said hey guess what

189

00:07:48,469 --> 00:07:46,560

there's life here you know that could be

190

00:07:50,510 --> 00:07:48,479

what's going on

191

00:07:53,570 --> 00:07:50,520

um you know and then I think another

192

00:07:56,570 --> 00:07:53,580

aspect to this is when you're talking

193

00:07:59,390 --> 00:07:56,580

about civilizations that are thousands

194

00:08:02,510 --> 00:07:59,400

millions tens of millions of years more

195

00:08:05,290 --> 00:08:02,520

advanced than ours the word machine and

196

00:08:08,150 --> 00:08:05,300

biological and intelligence those those

197

00:08:10,550 --> 00:08:08,160

terms probably don't mean the same thing

198

00:08:13,969 --> 00:08:10,560

that we tend to think you know

199

00:08:16,550 --> 00:08:13,979

so yeah so machine is probably a loose

200

00:08:18,469 --> 00:08:16,560

way to describe it I mean

201
00:08:20,390 --> 00:08:18,479
but but that's probably the best word I

202
00:08:22,070 --> 00:08:20,400
can use I guess yeah I completely

203
00:08:23,150 --> 00:08:22,080
understand where you're coming from with

204
00:08:24,890 --> 00:08:23,160
that

205
00:08:26,210 --> 00:08:24,900
um I mean in your opinion as the

206
00:08:27,830 --> 00:08:26,220
awareness and understanding of this

207
00:08:29,809 --> 00:08:27,840
subject does increase how do you think

208
00:08:32,810 --> 00:08:29,819
it could potentially impact you know

209
00:08:35,930 --> 00:08:32,820
society and culture at Large

210
00:08:40,070 --> 00:08:35,940
well I think there's going to be a

211
00:08:42,469 --> 00:08:40,080
tremendous impact but it reminds me of I

212
00:08:43,909 --> 00:08:42,479
I've read this about earthquakes uh I'm

213
00:08:45,590 --> 00:08:43,919

in the Seattle area we don't have too

214

00:08:48,050 --> 00:08:45,600

many but we've had a couple of big ones

215

00:08:50,630 --> 00:08:48,060

we had one that was kind of sharp right

216

00:08:52,490 --> 00:08:50,640

it's like the sharp jar and it hits you

217

00:08:55,130 --> 00:08:52,500

and you're like okay wow there's an

218

00:08:57,769 --> 00:08:55,140

earthquake going on you know with with

219

00:08:59,690 --> 00:08:57,779

the UAP phenomena I think that this

220

00:09:01,910 --> 00:08:59,700

realization is more like one of those

221

00:09:03,949 --> 00:09:01,920

deep rolling Quakes and I went through

222

00:09:07,009 --> 00:09:03,959

one of those too and you know and at

223

00:09:08,870 --> 00:09:07,019

first it's like something's going on you

224

00:09:11,030 --> 00:09:08,880

know and then it takes a while and

225

00:09:13,790 --> 00:09:11,040

you're like oh okay

226

00:09:16,009 --> 00:09:13,800

I think that's the UAP phenomena and I

227

00:09:18,949 --> 00:09:16,019

think that for a couple of reasons

228

00:09:23,030 --> 00:09:18,959

um one of them is this has been a part

229

00:09:26,570 --> 00:09:23,040

of our culture for over 70 years right I

230

00:09:29,210 --> 00:09:26,580

mean the 1950s was the Heyday and it's

231

00:09:31,910 --> 00:09:29,220

been on the Silver Screen it's been on

232

00:09:34,430 --> 00:09:31,920

television you know it's been in comic

233

00:09:36,290 --> 00:09:34,440

books and magazines maybe intentionally

234

00:09:38,750 --> 00:09:36,300

maybe that was the reason that they put

235

00:09:40,850 --> 00:09:38,760

it there was to warm people up to it

236

00:09:42,889 --> 00:09:40,860

so I think that there's going to be a

237

00:09:45,710 --> 00:09:42,899

transition period for people to realize

238

00:09:47,389 --> 00:09:45,720

hey this isn't just Will Smith in

239

00:09:51,530 --> 00:09:47,399

Independence Day punching out an alien

240

00:09:52,970 --> 00:09:51,540

this is real life you know that we

241

00:09:55,070 --> 00:09:52,980

actually have neighbors that are

242

00:09:57,650 --> 00:09:55,080

visiting us and

243

00:09:59,449 --> 00:09:57,660

so I think it's going to take a while to

244

00:10:01,910 --> 00:09:59,459

kind of penetrate the popular

245

00:10:04,190 --> 00:10:01,920

Consciousness but that's probably a good

246

00:10:05,990 --> 00:10:04,200

thing you know and again maybe that was

247

00:10:08,210 --> 00:10:06,000

intended there have been all those

248

00:10:10,190 --> 00:10:08,220

rumors about Spielberg right maybe that

249

00:10:12,889 --> 00:10:10,200

was the whole plan was to warm people up

250

00:10:14,750 --> 00:10:12,899

to it so that they don't freak out yeah

251

00:10:15,829 --> 00:10:14,760

absolutely really good point do you

252

00:10:18,290 --> 00:10:15,839

think maybe the religious and

253

00:10:21,050 --> 00:10:18,300

philosophical Believers May

254

00:10:22,790 --> 00:10:21,060

uh react slightly differently to kind of

255

00:10:26,030 --> 00:10:22,800

the General Public

256

00:10:29,630 --> 00:10:26,040

you know I have heard stories this was

257

00:10:32,030 --> 00:10:29,640

back in the 1970s and 80s I guess that

258

00:10:35,030 --> 00:10:32,040

there were people in U.S Congress saying

259

00:10:37,790 --> 00:10:35,040

UFOs were demons and yeah to me that

260

00:10:40,370 --> 00:10:37,800

just seems silly it I mean it just it

261

00:10:42,170 --> 00:10:40,380

just seems silly you know

262

00:10:45,530 --> 00:10:42,180

um and it's not to be dismissive of

263

00:10:48,650 --> 00:10:45,540

religion it's just I I don't I don't

264

00:10:50,210 --> 00:10:48,660

know those seem incredibly incongruent

265

00:10:53,030 --> 00:10:50,220

with each other and I think the more

266

00:10:55,130 --> 00:10:53,040

that we learn about UAP and and these

267

00:10:57,710 --> 00:10:55,140

visitors I think the more apparent that

268

00:10:59,690 --> 00:10:57,720

will be you know I mean again I'm not

269

00:11:02,509 --> 00:10:59,700

saying that there aren't demons I just

270

00:11:04,310 --> 00:11:02,519

I'm pretty darn sure this isn't it

271

00:11:05,870 --> 00:11:04,320

yeah fair enough and do you think there

272

00:11:08,030 --> 00:11:05,880

should be some ethical considerations

273

00:11:10,009 --> 00:11:08,040

that we should consider when when it

274

00:11:11,269 --> 00:11:10,019

comes to making contact with a non-human

275

00:11:14,269 --> 00:11:11,279

intelligence I mean especially if

276

00:11:17,930 --> 00:11:14,279

they're more advanced than us

277

00:11:20,389 --> 00:11:17,940

you know it's it's an excellent point

278

00:11:22,550 --> 00:11:20,399

um we've already made contact we've

279

00:11:26,449 --> 00:11:22,560

already attempted to make contact I

280

00:11:29,210 --> 00:11:26,459

think one of the interesting things is

281

00:11:31,310 --> 00:11:29,220

they probably know us a lot better than

282

00:11:33,769 --> 00:11:31,320

we think they know us

283

00:11:36,110 --> 00:11:33,779

you know I and again I think there's

284

00:11:36,710 --> 00:11:36,120

part of an acceptance thing there

285

00:11:38,990 --> 00:11:36,720

um

286

00:11:42,050 --> 00:11:39,000

so I didn't interview with Sean Cahill

287

00:11:46,130 --> 00:11:42,060

who was part of the Nimitz crew and he

288

00:11:49,069 --> 00:11:46,140

is very close to uh Louis El zondo right

289

00:11:52,310 --> 00:11:49,079

and so apparently they both went down to

290

00:11:53,750 --> 00:11:52,320

Ensenada in Baja California which is

291

00:11:56,269 --> 00:11:53,760

near where the Nimitz event happened

292

00:11:58,550 --> 00:11:56,279

yeah and and they wanted to see if they

293

00:12:01,610 --> 00:11:58,560

could get any stories well from what he

294

00:12:03,290 --> 00:12:01,620

had told me the local fishing Village

295

00:12:05,509 --> 00:12:03,300

there

296

00:12:07,190 --> 00:12:05,519

um sees these things all the time he'd

297

00:12:08,990 --> 00:12:07,200

said that they weren't even surprised he

298

00:12:10,790 --> 00:12:09,000

said you know we were on the ship we saw

299

00:12:12,230 --> 00:12:10,800

these Tic Tacs they looked like this and

300

00:12:13,670 --> 00:12:12,240

it was the craziest thing and the

301
00:12:15,949 --> 00:12:13,680
fishermen were just like oh yeah yeah

302
00:12:18,230 --> 00:12:15,959
that happens all the time here you know

303
00:12:21,829 --> 00:12:18,240
so much so that it's a part of the local

304
00:12:25,790 --> 00:12:21,839
folklore it goes back quite a ways and

305
00:12:28,130 --> 00:12:25,800
so if that's the case you know these

306
00:12:30,650 --> 00:12:28,140
intelligences are are well aware of us

307
00:12:31,430 --> 00:12:30,660
you know they're probably aware of you

308
00:12:34,190 --> 00:12:31,440
know

309
00:12:36,769 --> 00:12:34,200
how we react how we're developing things

310
00:12:38,329 --> 00:12:36,779
like that at least some of them and and

311
00:12:40,670 --> 00:12:38,339
again maybe there are others that are a

312
00:12:43,069 --> 00:12:40,680
little bit newer but

313
00:12:46,069 --> 00:12:43,079

um it seems like they are probably

314

00:12:49,129 --> 00:12:46,079

taking greater care with us as a young

315

00:12:51,710 --> 00:12:49,139

species than than we are having little

316

00:12:53,449 --> 00:12:51,720

to no clue what's going on you know yeah

317

00:12:56,210 --> 00:12:53,459

absolutely so again another good point

318

00:12:58,790 --> 00:12:56,220

I've spoke to sort of local indigenous

319

00:13:00,110 --> 00:12:58,800

people in Colombia and to them it is

320

00:13:02,150 --> 00:13:00,120

like you said it's just part of their

321

00:13:04,790 --> 00:13:02,160

everyday life it's just accepted there's

322

00:13:06,769 --> 00:13:04,800

no Stigma there's no taboo and I think

323

00:13:08,870 --> 00:13:06,779

we forget that in in some of these

324

00:13:11,389 --> 00:13:08,880

cultures that we're immersed in so so

325

00:13:12,769 --> 00:13:11,399

yeah really interesting point there

326

00:13:14,329 --> 00:13:12,779

um I was going to ask what role do you

327

00:13:16,550 --> 00:13:14,339

think artificial intelligence and

328

00:13:18,110 --> 00:13:16,560

machine learning will play as the the

329

00:13:21,350 --> 00:13:18,120

UAP subject

330

00:13:22,790 --> 00:13:21,360

um grows I suppose with more data coming

331

00:13:24,650 --> 00:13:22,800

in do you think that that will benefit

332

00:13:28,310 --> 00:13:24,660

the the research and study of the

333

00:13:30,710 --> 00:13:28,320

subject yeah I think tremendously uh I

334

00:13:32,990 --> 00:13:30,720

mean you know as I'm sure you've seen

335

00:13:35,030 --> 00:13:33,000

this with chat GPT I think that's really

336

00:13:37,550 --> 00:13:35,040

kind of turn the world upside down you

337

00:13:39,410 --> 00:13:37,560

know that I think is another one of

338

00:13:42,470 --> 00:13:39,420

those disruptive transformative

339

00:13:44,210 --> 00:13:42,480

Technologies where we don't really know

340

00:13:45,590 --> 00:13:44,220

where it's going right and that's why

341

00:13:47,509 --> 00:13:45,600

they had that recent letter where they

342

00:13:48,889 --> 00:13:47,519

were calling for a global pause for six

343

00:13:49,550 --> 00:13:48,899

months

344

00:13:51,290 --> 00:13:49,560

um

345

00:13:54,290 --> 00:13:51,300

there's a lot of good that could come

346

00:13:57,829 --> 00:13:54,300

out of it it's just so much so fast and

347

00:14:00,170 --> 00:13:57,839

it's so unknown and so uh with UAP

348

00:14:02,930 --> 00:14:00,180

Technologies for instance I I didn't

349

00:14:07,430 --> 00:14:02,940

interview with Don tadaya uh a few weeks

350

00:14:10,310 --> 00:14:07,440

ago and he is a python programmer and a

351

00:14:12,590 --> 00:14:10,320

data scientist he pulled the new Fork

352

00:14:16,310 --> 00:14:12,600

the National UFO Center reporting

353

00:14:19,009 --> 00:14:16,320

database uh 80 000 records he was able

354

00:14:22,009 --> 00:14:19,019

to use sixty thousand of those and he

355

00:14:24,949 --> 00:14:22,019

did tons and tons of detailed Trend

356

00:14:27,710 --> 00:14:24,959

charts on those you know and that's just

357

00:14:30,829 --> 00:14:27,720

one data set and one of the challenges

358

00:14:33,050 --> 00:14:30,839

with that data is it is not perfect data

359

00:14:37,069 --> 00:14:33,060

right the bright side is it goes back

360

00:14:38,990 --> 00:14:37,079

decades but the downside is it's you

361

00:14:40,610 --> 00:14:39,000

know a lot of human hands have touched

362

00:14:43,910 --> 00:14:40,620

it there are a lot of variables there

363

00:14:46,129 --> 00:14:43,920

there's false data all sorts of stuff

364

00:14:48,230 --> 00:14:46,139

um the same I understand is true for the

365

00:14:51,530 --> 00:14:48,240

mufon database he didn't look at that

366

00:14:54,170 --> 00:14:51,540

but that's another one and then

367

00:14:56,269 --> 00:14:54,180

as the military collects more and more

368

00:14:59,210 --> 00:14:56,279

of this data they will have these

369

00:15:01,730 --> 00:14:59,220

databases to work with also you know and

370

00:15:04,910 --> 00:15:01,740

it's entirely possible

371

00:15:06,829 --> 00:15:04,920

um that you know it may turn out that

372

00:15:09,530 --> 00:15:06,839

there are satellite photos satellite

373

00:15:12,230 --> 00:15:09,540

data radio telemetry

374

00:15:14,509 --> 00:15:12,240

um my personal belief is that the

375

00:15:17,569 --> 00:15:14,519

military probably has data that they

376

00:15:19,610 --> 00:15:17,579

don't even know they have right

377

00:15:21,350 --> 00:15:19,620

yeah absolutely and you think a

378

00:15:23,210 --> 00:15:21,360

disclosure of a non-human intelligence

379

00:15:25,670 --> 00:15:23,220

do you think it would lead to

380

00:15:28,250 --> 00:15:25,680

advancements in not only technology but

381

00:15:30,290 --> 00:15:28,260

also like medicine and energy and and

382

00:15:32,470 --> 00:15:30,300

even the way that we kind of care for

383

00:15:37,670 --> 00:15:32,480

the environment things like that

384

00:15:39,590 --> 00:15:37,680

I I hope so you know it's

385

00:15:42,350 --> 00:15:39,600

I think that our perception of

386

00:15:44,530 --> 00:15:42,360

intelligence in general is changing and

387

00:15:47,210 --> 00:15:44,540

I don't think it started with ET

388

00:15:49,129 --> 00:15:47,220

I'd read a big article about our

389

00:15:52,189 --> 00:15:49,139

relationship as human beings with dogs

390

00:15:54,590 --> 00:15:52,199

and that started to change in the 1980s

391

00:15:57,769 --> 00:15:54,600

you know before that dogs were like an

392

00:16:01,250 --> 00:15:57,779

outdoor Barnyard creature right and and

393

00:16:03,949 --> 00:16:01,260

in in the US and I think in the UK and

394

00:16:05,870 --> 00:16:03,959

probably most of Europe around that time

395

00:16:07,850 --> 00:16:05,880

they started to come endorse they became

396

00:16:09,290 --> 00:16:07,860

more a part of the family right and I

397

00:16:12,110 --> 00:16:09,300

think that was tied to Lifestyle

398

00:16:14,230 --> 00:16:12,120

differences and things like that but

399

00:16:20,810 --> 00:16:16,970

progressively I think we have admitted

400

00:16:23,329 --> 00:16:20,820

that other forms of life on Earth are a

401
00:16:26,329 --> 00:16:23,339
lot more sentient capable of a lot more

402
00:16:28,370 --> 00:16:26,339
emotion right a lot more alive than we

403
00:16:30,350 --> 00:16:28,380
believed in the past you know in the

404
00:16:32,210 --> 00:16:30,360
past it was kind of like okay well it's

405
00:16:33,889 --> 00:16:32,220
these dumb creatures and we use them for

406
00:16:36,110 --> 00:16:33,899
food and that's all they're good for you

407
00:16:37,790 --> 00:16:36,120
know and now we're starting to see okay

408
00:16:40,189 --> 00:16:37,800
they they're missing some of our

409
00:16:43,550 --> 00:16:40,199
cognitive abilities but but they still

410
00:16:45,410 --> 00:16:43,560
have souls in that sense you know

411
00:16:47,930 --> 00:16:45,420
um they still have emotions they they

412
00:16:50,210 --> 00:16:47,940
still have wants and needs just not

413
00:16:52,730 --> 00:16:50,220

quite at the same level we do

414

00:16:57,350 --> 00:16:52,740

and and that's just life right here on

415

00:16:59,569 --> 00:16:57,360

Earth you know and as we accept the fact

416

00:17:03,650 --> 00:16:59,579

that we're not alone which isn't

417

00:17:06,350 --> 00:17:03,660

surprising again with 400 billion stars

418

00:17:09,110 --> 00:17:06,360

even if only a tiny fraction of those

419

00:17:10,970 --> 00:17:09,120

are capable of Life there could be

420

00:17:13,490 --> 00:17:10,980

thousands potentially millions of

421

00:17:14,809 --> 00:17:13,500

civilizations out there you know

422

00:17:17,510 --> 00:17:14,819

and

423

00:17:20,990 --> 00:17:17,520

It ultimately does become a numbers game

424

00:17:23,870 --> 00:17:21,000

but you know starting with such a vast

425

00:17:27,289 --> 00:17:23,880

number of potential options

426

00:17:29,630 --> 00:17:27,299

um it's likely that there are creatures

427

00:17:31,909 --> 00:17:29,640

out there and it's possible that they've

428

00:17:34,430 --> 00:17:31,919

encountered us you know it definitely

429

00:17:37,070 --> 00:17:34,440

seems that way I mean the weight of the

430

00:17:39,830 --> 00:17:37,080

evidence points to it yeah absolutely

431

00:17:41,450 --> 00:17:39,840

yeah a word that's thrown around a lot

432

00:17:43,610 --> 00:17:41,460

with it with the UAP subject is

433

00:17:45,470 --> 00:17:43,620

consciousness do you do you have any

434

00:17:48,289 --> 00:17:45,480

kind of way of connecting Consciousness

435

00:17:50,450 --> 00:17:48,299

to the UAP subject yourself

436

00:18:02,570 --> 00:17:50,460

I

437

00:18:03,710 --> 00:18:02,580

be going way off track right but it's

438

00:18:06,890 --> 00:18:03,720

fine

439

00:18:09,350 --> 00:18:06,900

um so starting last year I I went

440

00:18:10,669 --> 00:18:09,360

gangbusters on UAP interviews right I

441

00:18:12,770 --> 00:18:10,679

started interviewing subject matter

442

00:18:15,289 --> 00:18:12,780

experts and

443

00:18:17,210 --> 00:18:15,299

um people who are close to that

444

00:18:19,130 --> 00:18:17,220

phenomena especially Witnesses

445

00:18:20,870 --> 00:18:19,140

especially people who have seen them or

446

00:18:23,630 --> 00:18:20,880

interacted in some way

447

00:18:27,770 --> 00:18:23,640

they they come back to Consciousness

448

00:18:31,549 --> 00:18:27,780

right and uh they use it as a code word

449

00:18:33,950 --> 00:18:31,559

for basically psychic events but like uh

450

00:18:36,230 --> 00:18:33,960

Skinwalker Ranch the same thing you know

451
00:18:38,930 --> 00:18:36,240
and in fact when I did an interview with

452
00:18:40,370 --> 00:18:38,940
Gary Nolan and he had said the same

453
00:18:41,990 --> 00:18:40,380
thing he's like it comes back to

454
00:18:43,669 --> 00:18:42,000
Consciousness and he's like what the

455
00:18:47,510 --> 00:18:43,679
heck does that have to UFO have to do

456
00:18:51,049 --> 00:18:47,520
with UFOs so you know I I don't know but

457
00:18:54,409 --> 00:18:51,059
I'd like to find out so I I started

458
00:18:57,289 --> 00:18:54,419
doing some Consciousness interviews and

459
00:19:00,710 --> 00:18:57,299
what I've seen is there there is a

460
00:19:03,289 --> 00:19:00,720
connection uh in the people who are

461
00:19:05,090 --> 00:19:03,299
close to it and I don't know why I have

462
00:19:08,930 --> 00:19:05,100
no idea why

463
00:19:09,710 --> 00:19:08,940

um what I've wondered is

464

00:19:12,710 --> 00:19:09,720

um

465

00:19:14,570 --> 00:19:12,720

if there are more physical laws some

466

00:19:17,330 --> 00:19:14,580

kind of new physics that we're not aware

467

00:19:19,010 --> 00:19:17,340

of it appears that there is I did

468

00:19:20,750 --> 00:19:19,020

interviews with the global Consciousness

469

00:19:23,270 --> 00:19:20,760

project

470

00:19:26,390 --> 00:19:23,280

um and they they actually have 25 years

471

00:19:28,190 --> 00:19:26,400

of data where when major news events hit

472

00:19:30,289 --> 00:19:28,200

the headlines

473

00:19:33,049 --> 00:19:30,299

um these random number generators the

474

00:19:36,590 --> 00:19:33,059

quantum based number generators register

475

00:19:38,810 --> 00:19:36,600

it right and and so like September 11th

476
00:19:41,630 --> 00:19:38,820
was a major ping or the invasion of Iraq

477
00:19:43,370 --> 00:19:41,640
things like that you know and so there's

478
00:19:46,730 --> 00:19:43,380
an indication that there's something

479
00:19:50,270 --> 00:19:46,740
more there and I guess my thought is

480
00:19:52,010 --> 00:19:50,280
that again if these intelligences are

481
00:19:53,750 --> 00:19:52,020
tens of thousands or millions of years

482
00:19:56,930 --> 00:19:53,760
more advanced than us

483
00:19:59,330 --> 00:19:56,940
they probably operate in that area or at

484
00:20:00,710 --> 00:19:59,340
least use that area and maybe that's the

485
00:20:03,650 --> 00:20:00,720
connection

486
00:20:04,970 --> 00:20:03,660
yeah fair enough absolutely do you think

487
00:20:07,430 --> 00:20:04,980
maybe there's a chance that the the

488
00:20:09,070 --> 00:20:07,440

phenomenon isn't necessarily a singular

489

00:20:12,289 --> 00:20:09,080

phenomena that it could represent

490

00:20:15,049 --> 00:20:12,299

multiple phenomena

491

00:20:17,810 --> 00:20:15,059

yes absolutely

492

00:20:20,150 --> 00:20:17,820

I I avoid thinking about that too much

493

00:20:23,810 --> 00:20:20,160

because it will hurt my brain to be

494

00:20:25,789 --> 00:20:23,820

honest it's one of those you know and

495

00:20:27,529 --> 00:20:25,799

people have said that they've said well

496

00:20:30,110 --> 00:20:27,539

you know we're being visited by multiple

497

00:20:32,570 --> 00:20:30,120

species right and

498

00:20:34,850 --> 00:20:32,580

um I mean I guess if you want to

499

00:20:37,070 --> 00:20:34,860

take it a little bit farther out there's

500

00:20:39,289 --> 00:20:37,080

what they call the zoo hypothesis which

501
00:20:42,409 --> 00:20:39,299
is basically the the Star Trek prime

502
00:20:44,630 --> 00:20:42,419
directive right that you know aliens

503
00:20:46,789 --> 00:20:44,640
show up and they're like oh okay yeah

504
00:20:49,250 --> 00:20:46,799
these humans aren't that advanced we'll

505
00:20:51,289 --> 00:20:49,260
uh we'll study them but you know for

506
00:20:53,930 --> 00:20:51,299
God's sake don't interact with them you

507
00:20:56,510 --> 00:20:53,940
know and

508
00:20:58,970 --> 00:20:56,520
if that's the case yeah we could be

509
00:21:01,130 --> 00:20:58,980
visited by many many different groups or

510
00:21:02,390 --> 00:21:01,140
species or planets or whatever you might

511
00:21:03,830 --> 00:21:02,400
call it

512
00:21:05,090 --> 00:21:03,840
um I try not to think about that too

513
00:21:07,070 --> 00:21:05,100

much because it's one of those things

514

00:21:09,529 --> 00:21:07,080

that is just like instant headache right

515

00:21:11,750 --> 00:21:09,539

I mean you know and and in terms of

516

00:21:14,630 --> 00:21:11,760

studying it then it makes it nearly

517

00:21:16,789 --> 00:21:14,640

impossible you know it's you know why do

518

00:21:19,010 --> 00:21:16,799

they have 25 different types of ships

519

00:21:20,930 --> 00:21:19,020

and sightings well because there are six

520

00:21:23,570 --> 00:21:20,940

thousand types of aliens so that's just

521

00:21:26,810 --> 00:21:23,580

what came through this week you know I

522

00:21:28,310 --> 00:21:26,820

I don't know no that's fair enough

523

00:21:29,930 --> 00:21:28,320

um is there a certain way that you

524

00:21:32,390 --> 00:21:29,940

address any kind of skepticism and

525

00:21:34,610 --> 00:21:32,400

criticism from those who question the

526
00:21:37,789 --> 00:21:34,620
legitimacy of your interest in the UFO

527
00:21:39,350 --> 00:21:37,799
subject I haven't encountered any of

528
00:21:42,890 --> 00:21:39,360
that recently

529
00:21:47,029 --> 00:21:42,900
strangely enough maybe it's not strange

530
00:21:48,710 --> 00:21:47,039
um you know I I have met many people

531
00:21:50,930 --> 00:21:48,720
um I I mean I I don't necessarily

532
00:21:52,850 --> 00:21:50,940
proselytize about UFOs I don't talk

533
00:21:54,289 --> 00:21:52,860
about it that much my personal life you

534
00:21:58,010 --> 00:21:54,299
know but

535
00:22:00,890 --> 00:21:58,020
um I have met many people who are like

536
00:22:02,930 --> 00:22:00,900
well for instance I was at a girls

537
00:22:05,930 --> 00:22:02,940
soccer game talking to one of the dads

538
00:22:07,190 --> 00:22:05,940

you know nice friendly guy and he said

539

00:22:09,049 --> 00:22:07,200

well what have you been doing lately

540

00:22:10,909 --> 00:22:09,059

well I mean you know podcasting and

541

00:22:12,529 --> 00:22:10,919

doing research and things like that oh

542

00:22:14,750 --> 00:22:12,539

what have you been following I said well

543

00:22:17,450 --> 00:22:14,760

I've been following the euap story what

544

00:22:22,130 --> 00:22:17,460

what UAP hips like UFOs they're real and

545

00:22:23,870 --> 00:22:22,140

he's like UFOs really you know so there

546

00:22:26,270 --> 00:22:23,880

are a lot of people out there who seem

547

00:22:28,430 --> 00:22:26,280

to have just completely missed it you

548

00:22:29,870 --> 00:22:28,440

know that I mean hey by the way the US

549

00:22:32,390 --> 00:22:29,880

government has a task force

550

00:22:35,510 --> 00:22:32,400

investigating this and you know and

551

00:22:38,149 --> 00:22:35,520

I mean you know and and then there there

552

00:22:41,029 --> 00:22:38,159

are also some very muddy waters in terms

553

00:22:42,950 --> 00:22:41,039

of disclosure right and I'm sure you

554

00:22:46,730 --> 00:22:42,960

would agree with that you know it has

555

00:22:49,130 --> 00:22:46,740

disclosure happened or not or is it a

556

00:22:51,529 --> 00:22:49,140

process where are we with that that's

557

00:22:53,450 --> 00:22:51,539

that's interesting you know yeah

558

00:22:56,390 --> 00:22:53,460

absolutely and and you mentioned earlier

559

00:22:58,789 --> 00:22:56,400

until the 2017 the New York Times how I

560

00:23:01,250 --> 00:22:58,799

almost kind of seemed like a big sea

561

00:23:03,110 --> 00:23:01,260

change in in the UFO world and you know

562

00:23:04,850 --> 00:23:03,120

since then we've had three consecutive

563

00:23:08,149 --> 00:23:04,860

years of legislation in the National

564

00:23:11,029 --> 00:23:08,159

Defense authorization acts we've had uh

565

00:23:12,010 --> 00:23:11,039

two public UAP reports so I just

566

00:23:14,330 --> 00:23:12,020

wondered

567

00:23:16,070 --> 00:23:14,340

what do you think about all of that you

568

00:23:18,470 --> 00:23:16,080

know that the government after being

569

00:23:20,630 --> 00:23:18,480

involved in this subject for 75 plus

570

00:23:23,870 --> 00:23:20,640

years are suddenly now

571

00:23:25,430 --> 00:23:23,880

taking it seriously and wanting to be

572

00:23:28,490 --> 00:23:25,440

transparent about it how do you feel

573

00:23:29,870 --> 00:23:28,500

about all that well I I have a lot of I

574

00:23:31,370 --> 00:23:29,880

have a lot of thoughts about the

575

00:23:33,110 --> 00:23:31,380

government again I I have a lot of

576

00:23:35,270 --> 00:23:33,120

Defense connections and so I know that

577

00:23:38,810 --> 00:23:35,280

Community very well

578

00:23:40,669 --> 00:23:38,820

um I would say in general as a rule

579

00:23:43,130 --> 00:23:40,679

um that you know it is not the big

580

00:23:45,710 --> 00:23:43,140

monolithic energy looking to squash

581

00:23:48,110 --> 00:23:45,720

information that people think you know I

582

00:23:50,870 --> 00:23:48,120

mean any government is a collection of

583

00:23:52,490 --> 00:23:50,880

people there's turnover uh that's one of

584

00:23:55,130 --> 00:23:52,500

the things that people forget for

585

00:23:56,930 --> 00:23:55,140

instance a lot of the Cold War era folks

586

00:23:59,690 --> 00:23:56,940

that probably knew this a little bit

587

00:24:01,010 --> 00:23:59,700

better are gone today's people are

588

00:24:03,350 --> 00:24:01,020

really they came up in the information

589

00:24:06,230 --> 00:24:03,360

technology space you know like myself

590

00:24:07,610 --> 00:24:06,240

they started out with internet stuff and

591

00:24:09,350 --> 00:24:07,620

so

592

00:24:10,789 --> 00:24:09,360

um the way they approach problems is

593

00:24:13,250 --> 00:24:10,799

through information and they're not

594

00:24:16,070 --> 00:24:13,260

focused on UFOs they're focused on you

595

00:24:19,310 --> 00:24:16,080

know is Russia hacking us you know so I

596

00:24:21,470 --> 00:24:19,320

would imagine that for the vast majority

597

00:24:23,210 --> 00:24:21,480

of people in government

598

00:24:25,850 --> 00:24:23,220

um this UFO thing is just as

599

00:24:28,070 --> 00:24:25,860

disconcerting as it is for you know the

600

00:24:28,789 --> 00:24:28,080

average person on the street

601
00:24:33,230 --> 00:24:28,799
um

602
00:24:36,950 --> 00:24:33,240
some of which I can repeat some of which

603
00:24:38,990 --> 00:24:36,960
I can't but I I would say that um the

604
00:24:41,450 --> 00:24:39,000
most credible rumors I've heard from

605
00:24:44,029 --> 00:24:41,460
some very high ranking people are that

606
00:24:46,310 --> 00:24:44,039
the people who should be studying this

607
00:24:48,169 --> 00:24:46,320
who are studying this don't really know

608
00:24:50,029 --> 00:24:48,179
a heck of a lot more than you or I do

609
00:24:51,830 --> 00:24:50,039
they're just trying to figure things out

610
00:24:54,049 --> 00:24:51,840
and they've been caught off guard as

611
00:24:56,810 --> 00:24:54,059
much as anybody else

612
00:24:58,310 --> 00:24:56,820
um so you know in in terms of the

613
00:25:01,190 --> 00:24:58,320

government

614

00:25:02,930 --> 00:25:01,200

um not surprisingly they you know this

615

00:25:05,510 --> 00:25:02,940

they've they've treated this like an

616

00:25:08,090 --> 00:25:05,520

exception I guess and maybe rightfully

617

00:25:09,950 --> 00:25:08,100

so for decades you know pilot comes in

618

00:25:11,450 --> 00:25:09,960

and says hey I saw something strange and

619

00:25:14,870 --> 00:25:11,460

they're like okay you know how much have

620

00:25:17,510 --> 00:25:14,880

you had to drink you know yeah well

621

00:25:19,730 --> 00:25:17,520

so you know they've been they've been

622

00:25:21,230 --> 00:25:19,740

sweeping under the rug and now they have

623

00:25:23,210 --> 00:25:21,240

to deal with it and I think one of the

624

00:25:25,370 --> 00:25:23,220

problems is they don't entirely know

625

00:25:27,230 --> 00:25:25,380

what they have to deal with either yeah

626

00:25:29,510 --> 00:25:27,240

yeah I mean there are there are certain

627

00:25:30,649 --> 00:25:29,520

incredible people such as Gary Nolan

628

00:25:32,029 --> 00:25:30,659

like you mentioned earlier that are

629

00:25:35,149 --> 00:25:32,039

talking about whistleblowers coming

630

00:25:37,070 --> 00:25:35,159

forward speaking to Congress speaking to

631

00:25:40,010 --> 00:25:37,080

to Arrow about

632

00:25:42,649 --> 00:25:40,020

potential crash retrieval programs what

633

00:25:46,310 --> 00:25:42,659

are your thoughts on that side of things

634

00:25:48,110 --> 00:25:46,320

I don't know I don't know

635

00:25:50,269 --> 00:25:48,120

um I guess what what I could tell you

636

00:25:52,909 --> 00:25:50,279

it's no surprise is

637

00:25:54,590 --> 00:25:52,919

um the most credible book I have friends

638

00:25:57,470 --> 00:25:54,600

in the Air Force who have said that it

639

00:26:00,830 --> 00:25:57,480

sounds sounds legit is the Corso book

640

00:26:03,169 --> 00:26:00,840

right which everybody has read and

641

00:26:05,029 --> 00:26:03,179

um you know I've met people who have

642

00:26:06,409 --> 00:26:05,039

worked in areas like that who have read

643

00:26:10,070 --> 00:26:06,419

it who said yep that sounds like

644

00:26:11,990 --> 00:26:10,080

government but at the same time he

645

00:26:13,370 --> 00:26:12,000

actually did work in those areas so if

646

00:26:14,870 --> 00:26:13,380

he was going to write a book about what

647

00:26:16,909 --> 00:26:14,880

it's like to work in the Air Force and

648

00:26:18,710 --> 00:26:16,919

the Pentagon well yeah he was there so

649

00:26:20,269 --> 00:26:18,720

he would know

650

00:26:24,169 --> 00:26:20,279

um you know that doesn't necessarily

651
00:26:26,630 --> 00:26:24,179
make it true it's difficult to know what

652
00:26:29,210 --> 00:26:26,640
has kind of come and gone in the past I

653
00:26:32,149 --> 00:26:29,220
guess uh you know I I did an interview

654
00:26:34,730 --> 00:26:32,159
with Brent ziarnick and that's on my

655
00:26:37,669 --> 00:26:34,740
channel and he dug through the air force

656
00:26:40,130 --> 00:26:37,679
archives and he found tons and tons and

657
00:26:42,590 --> 00:26:40,140
tons of stuff about UFOs but he didn't

658
00:26:45,830 --> 00:26:42,600
find anything that's not public you know

659
00:26:47,630 --> 00:26:45,840
so it's it's all out there and one of

660
00:26:49,850 --> 00:26:47,640
the things that he had mentioned he was

661
00:26:52,430 --> 00:26:49,860
able just because of his role and his

662
00:26:55,549 --> 00:26:52,440
Rank and things like that he was able to

663
00:26:57,409 --> 00:26:55,559

look at the uncensored unredacted

664

00:27:00,890 --> 00:26:57,419

versions of things that are in foia

665

00:27:03,230 --> 00:27:00,900

reports and even then he said very

666

00:27:04,909 --> 00:27:03,240

little is redacted that isn't out there

667

00:27:08,090 --> 00:27:04,919

and the steps redacted wouldn't be

668

00:27:10,190 --> 00:27:08,100

interesting to anybody you know so

669

00:27:13,909 --> 00:27:10,200

you know it's

670

00:27:15,409 --> 00:27:13,919

yeah there are so many unknowns I would

671

00:27:18,169 --> 00:27:15,419

say at this point

672

00:27:20,330 --> 00:27:18,179

um everyone is asking the big questions

673

00:27:22,130 --> 00:27:20,340

and I think that's a good thing you know

674

00:27:24,110 --> 00:27:22,140

it kind of gives us an opportunity to

675

00:27:25,909 --> 00:27:24,120

maybe restart on this

676

00:27:27,350 --> 00:27:25,919

yeah that's a good point I think I think

677

00:27:30,169 --> 00:27:27,360

what we really need is just that

678

00:27:32,090 --> 00:27:30,179

breakthrough big piece of evidence that

679

00:27:34,070 --> 00:27:32,100

really does change the kind of face of

680

00:27:35,210 --> 00:27:34,080

it all and moves us on to that next step

681

00:27:38,090 --> 00:27:35,220

so

682

00:27:40,370 --> 00:27:38,100

yeah I think it's ongoing you know one

683

00:27:42,529 --> 00:27:40,380

thing that interested me also was

684

00:27:45,230 --> 00:27:42,539

um Sean Kirkpatrick right Dr Sean

685

00:27:47,390 --> 00:27:45,240

Kirkpatrick who's in charge of Arrow he

686

00:27:50,630 --> 00:27:47,400

co-authored a paper a couple of months

687

00:27:53,269 --> 00:27:50,640

ago with Avi Loeb and it was about a

688

00:27:56,570 --> 00:27:53,279

moama and they talked about the

689

00:27:59,090 --> 00:27:56,580

possibility of extraterrestrial contact

690

00:28:00,529 --> 00:27:59,100

and you know could the could the

691

00:28:02,090 --> 00:28:00,539

interstellar asteroid have actually been

692

00:28:03,890 --> 00:28:02,100

some kind of a transport vehicle or

693

00:28:05,450 --> 00:28:03,900

something into collect you know coming

694

00:28:08,690 --> 00:28:05,460

in to collect data or something like

695

00:28:10,730 --> 00:28:08,700

that and the paper itself was was

696

00:28:13,789 --> 00:28:10,740

interesting uh you know folks can look

697

00:28:16,789 --> 00:28:13,799

that up pretty easily online but

698

00:28:20,269 --> 00:28:16,799

it also seemed like a form of signaling

699

00:28:22,730 --> 00:28:20,279

to me that the the man who was in charge

700

00:28:24,830 --> 00:28:22,740

of that program would put his name on

701
00:28:27,350 --> 00:28:24,840
something like that you know it doesn't

702
00:28:30,049 --> 00:28:27,360
necessarily mean that that he believes

703
00:28:32,149 --> 00:28:30,059
so to speak but I think to me it was a

704
00:28:34,610 --> 00:28:32,159
signal that he's open to the possibility

705
00:28:37,610 --> 00:28:34,620
you know he's not gonna immediately

706
00:28:41,269 --> 00:28:37,620
clamp down and say this isn't real

707
00:28:43,370 --> 00:28:41,279
um and I I think in the hearing a lot of

708
00:28:45,350 --> 00:28:43,380
people were worried about that because

709
00:28:47,330 --> 00:28:45,360
they see them asking questions right he

710
00:28:49,430 --> 00:28:47,340
played a couple of videos and he said

711
00:28:52,430 --> 00:28:49,440
this one we can't identify this one we

712
00:28:54,350 --> 00:28:52,440
can identify look it's a plane you know

713
00:28:56,210 --> 00:28:54,360

um although what what is interesting in

714

00:28:58,610 --> 00:28:56,220

that hearing what the video that he

715

00:29:01,010 --> 00:28:58,620

played they couldn't identify was I

716

00:29:04,430 --> 00:29:01,020

understand that was the mosul sphere

717

00:29:07,310 --> 00:29:04,440

which is one of many reported sightings

718

00:29:09,950 --> 00:29:07,320

of those spheres apparently uh those

719

00:29:11,870 --> 00:29:09,960

predator drones have spotted several of

720

00:29:13,789 --> 00:29:11,880

those in the Middle East over the last

721

00:29:15,830 --> 00:29:13,799

few years so

722

00:29:19,310 --> 00:29:15,840

yeah that's interesting it seems that we

723

00:29:21,230 --> 00:29:19,320

have a a orb seems to be the the flavor

724

00:29:23,570 --> 00:29:21,240

of the the year maybe let's say you know

725

00:29:25,850 --> 00:29:23,580

we've moved on from triangles and Tic

726

00:29:27,470 --> 00:29:25,860

Tacs and sources so I find that quite

727

00:29:29,570 --> 00:29:27,480

fascinating that is we're now into this

728

00:29:31,610 --> 00:29:29,580

this realm of orbs

729

00:29:33,950 --> 00:29:31,620

I I've wondered if maybe those are

730

00:29:36,169 --> 00:29:33,960

surveillance probes for the Tic Tac

731

00:29:38,690 --> 00:29:36,179

right like the Tic Tac is the mothership

732

00:29:40,370 --> 00:29:38,700

or something along those lines and and

733

00:29:42,230 --> 00:29:40,380

the orbs are just little surveillance

734

00:29:44,269 --> 00:29:42,240

drones maybe because they're less

735

00:29:46,970 --> 00:29:44,279

noticeable it just sends it out to you

736

00:29:50,710 --> 00:29:46,980

know record data or something

737

00:29:53,510 --> 00:29:50,720

um yeah it could be it could be why not

738

00:29:55,430 --> 00:29:53,520

well and there so there was just that

739

00:30:00,409 --> 00:29:55,440

report that came out again I think this

740

00:30:02,149 --> 00:30:00,419

was last month uh like mid-may about

741

00:30:03,590 --> 00:30:02,159

um I forgot the name of the ship but

742

00:30:04,850 --> 00:30:03,600

this was around where the Nimitz was

743

00:30:08,750 --> 00:30:04,860

you're probably familiar with this one

744

00:30:11,810 --> 00:30:08,760

right this was the 2019 show counter

745

00:30:14,029 --> 00:30:11,820

yeah and and they just had the radar

746

00:30:15,710 --> 00:30:14,039

sensor data that was leaked that just

747

00:30:18,590 --> 00:30:15,720

hit the news

748

00:30:20,029 --> 00:30:18,600

and so that was more of these orbs it

749

00:30:22,610 --> 00:30:20,039

appears

750

00:30:24,230 --> 00:30:22,620

running around where the Nimitz was yeah

751

00:30:25,970 --> 00:30:24,240

it does seem strange that these These

752

00:30:28,549 --> 00:30:25,980

are occurring and more people would call

753

00:30:30,289 --> 00:30:28,559

hot spots I suppose yeah it's

754

00:30:31,789 --> 00:30:30,299

fascinating

755

00:30:34,370 --> 00:30:31,799

one thing I wanted to bring up is that

756

00:30:35,990 --> 00:30:34,380

by the time this interview goes Live on

757

00:30:38,510 --> 00:30:36,000

YouTube which will be tomorrow Wednesday

758

00:30:41,570 --> 00:30:38,520

the 31st we'd have just had the the

759

00:30:44,029 --> 00:30:41,580

latest NASA meeting on unidentified

760

00:30:46,610 --> 00:30:44,039

anomalous phenomena yeah independent

761

00:30:48,710 --> 00:30:46,620

study team uh with yeah I think it's

762

00:30:51,289 --> 00:30:48,720

about a four hour

763

00:30:52,850 --> 00:30:51,299

meeting have you been following sort of

764

00:30:57,049 --> 00:30:52,860

the work NASA's been doing over the past

765

00:30:59,510 --> 00:30:57,059

sort of nine to 12 months not closely no

766

00:31:02,630 --> 00:30:59,520

uh okay NASA seems to be trailing the

767

00:31:04,669 --> 00:31:02,640

military on this you know and and they

768

00:31:05,810 --> 00:31:04,679

do have an independent effort I I hope

769

00:31:07,549 --> 00:31:05,820

that

770

00:31:10,310 --> 00:31:07,559

um they're able to do you know the best

771

00:31:12,769 --> 00:31:10,320

job possible but I I don't have any big

772

00:31:15,169 --> 00:31:12,779

expectations there I'm just not sure

773

00:31:17,029 --> 00:31:15,179

what they have to work with you know it

774

00:31:19,190 --> 00:31:17,039

would be nice for them to go back

775

00:31:21,470 --> 00:31:19,200

through Mission footage and look for

776
00:31:22,370 --> 00:31:21,480
some of these anomalies but at the same

777
00:31:24,230 --> 00:31:22,380
time

778
00:31:26,029 --> 00:31:24,240
um a lot of things have been spotted in

779
00:31:28,250 --> 00:31:26,039
those and people have said that's UFO

780
00:31:29,870 --> 00:31:28,260
and it turns out that it's you know it's

781
00:31:33,049 --> 00:31:29,880
a piece of foam insulation or something

782
00:31:34,730 --> 00:31:33,059
so even if NASA goes hunting for it they

783
00:31:37,250 --> 00:31:34,740
may not find it or they may not be able

784
00:31:39,350 --> 00:31:37,260
to identify it yeah I completely agree

785
00:31:41,090 --> 00:31:39,360
and I think the purpose of the the

786
00:31:43,190 --> 00:31:41,100
meeting tomorrow is to sort of say

787
00:31:46,430 --> 00:31:43,200
whether they are going to go forward and

788
00:31:48,590 --> 00:31:46,440

do a full study or not so personally I'm

789

00:31:50,990 --> 00:31:48,600

not expecting much for come to come from

790

00:31:52,490 --> 00:31:51,000

the meeting other than a yes going

791

00:31:54,830 --> 00:31:52,500

forward we are going to do more work

792

00:31:57,409 --> 00:31:54,840

rather than a we don't think it's worth

793

00:31:59,930 --> 00:31:57,419

it which would be highly disappointing

794

00:32:01,730 --> 00:31:59,940

well one of the things that also

795

00:32:04,850 --> 00:32:01,740

interests me and this goes to I think a

796

00:32:06,889 --> 00:32:04,860

much larger issue right uh somewhat in

797

00:32:10,130 --> 00:32:06,899

the UK perhaps but absolutely in the

798

00:32:15,350 --> 00:32:10,140

United States uh which is I think that

799

00:32:17,210 --> 00:32:15,360

the UFO the UAP story uh is it's not the

800

00:32:19,310 --> 00:32:17,220

only one but I think that this is one of

801
00:32:22,430 --> 00:32:19,320
the biggest stories that goes to trust

802
00:32:24,830 --> 00:32:22,440
in government you know and

803
00:32:27,710 --> 00:32:24,840
the reason I mention that now is you'd

804
00:32:30,649 --> 00:32:27,720
mention NASA but Gary McKinnon has said

805
00:32:33,350 --> 00:32:30,659
Point Blank that NASA has a history of

806
00:32:35,330 --> 00:32:33,360
you know digitally airbrushing out UFOs

807
00:32:37,250 --> 00:32:35,340
from pictures

808
00:32:39,769 --> 00:32:37,260
um and so it would be interesting to see

809
00:32:42,830 --> 00:32:39,779
them go through and say hey have we been

810
00:32:46,370 --> 00:32:42,840
editing photos you know

811
00:32:48,889 --> 00:32:46,380
um I think that's important because this

812
00:32:52,250 --> 00:32:48,899
is one of the few opportunities that

813
00:32:55,730 --> 00:32:52,260

these organizations have to you know

814

00:32:58,070 --> 00:32:55,740

restore trust in government I mean

815

00:33:00,049 --> 00:32:58,080

again this kind of goes off the UAP

816

00:33:02,149 --> 00:33:00,059

track a little bit but I think that that

817

00:33:05,149 --> 00:33:02,159

in a weird way that's that's a larger

818

00:33:06,590 --> 00:33:05,159

issue than UAP UAP it looks like they're

819

00:33:08,029 --> 00:33:06,600

here they've been here they're they're

820

00:33:10,970 --> 00:33:08,039

probably not causing trouble they're

821

00:33:13,789 --> 00:33:10,980

probably just studying us right but

822

00:33:16,490 --> 00:33:13,799

um the fact that our elected

823

00:33:18,769 --> 00:33:16,500

representatives are hiding that

824

00:33:22,190 --> 00:33:18,779

that's that's a problem that's a big

825

00:33:24,889 --> 00:33:22,200

problem and the fact that everyone knows

826

00:33:26,930 --> 00:33:24,899

that and over the last 70 years again

827

00:33:28,970 --> 00:33:26,940

that's one of several different things

828

00:33:31,190 --> 00:33:28,980

that has eroded public trust in

829

00:33:33,289 --> 00:33:31,200

government you know

830

00:33:36,710 --> 00:33:33,299

um and then it leads to other questions

831

00:33:38,269 --> 00:33:36,720

also I mean for instance like we were

832

00:33:40,970 --> 00:33:38,279

talking about Christianity and demons

833

00:33:43,009 --> 00:33:40,980

earlier well if the second coming of

834

00:33:45,289 --> 00:33:43,019

Christ happened would we know about it

835

00:33:46,909 --> 00:33:45,299

or would it get covered up

836

00:33:48,169 --> 00:33:46,919

good point

837

00:33:53,870 --> 00:33:48,179

yeah

838

00:33:57,110 --> 00:33:53,880

think that there's a major trust in

839

00:33:59,149 --> 00:33:57,120

government issue I mean you know

840

00:34:01,370 --> 00:33:59,159

government is it's in in the United

841

00:34:03,230 --> 00:34:01,380

States it's for the People by the people

842

00:34:06,950 --> 00:34:03,240

right

843

00:34:08,690 --> 00:34:06,960

um so who is making these decisions to

844

00:34:11,629 --> 00:34:08,700

you know to hide things

845

00:34:14,510 --> 00:34:11,639

and I again I don't think that today's

846

00:34:16,730 --> 00:34:14,520

government officials necessarily even

847

00:34:19,490 --> 00:34:16,740

know I think that there's

848

00:34:22,369 --> 00:34:19,500

a long history of decisions that are

849

00:34:25,369 --> 00:34:22,379

made I think part of it needs to be

850

00:34:27,889 --> 00:34:25,379

um I think that there needs to be

851

00:34:29,690 --> 00:34:27,899

there needs to be accountability I think

852

00:34:32,510 --> 00:34:29,700

there also needs to be some historical

853

00:34:34,609 --> 00:34:32,520

Reckoning there right yeah and I I know

854

00:34:37,669 --> 00:34:34,619

that the US government has started to do

855

00:34:39,470 --> 00:34:37,679

this on other issues uh in in many other

856

00:34:41,389 --> 00:34:39,480

historical ways the British government

857

00:34:43,430 --> 00:34:41,399

has done this right they've gone back

858

00:34:45,770 --> 00:34:43,440

through and said we made decisions you

859

00:34:48,649 --> 00:34:45,780

know sometimes in the 1600s that weren't

860

00:34:50,450 --> 00:34:48,659

the best and and you know the Canadian

861

00:34:53,389 --> 00:34:50,460

government has done that with regards to

862

00:34:54,950 --> 00:34:53,399

the aboriginals so it it's one of those

863

00:34:57,770 --> 00:34:54,960

things where

864

00:34:59,810 --> 00:34:57,780

um people make mistakes sometimes those

865

00:35:03,050 --> 00:34:59,820

mistakes are compounded sometimes

866

00:35:04,910 --> 00:35:03,060

they're based on policies but

867

00:35:07,790 --> 00:35:04,920

um but at the same time if they want to

868

00:35:10,490 --> 00:35:07,800

restore public trust you know there

869

00:35:11,569 --> 00:35:10,500

needs to be more openness and more

870

00:35:14,210 --> 00:35:11,579

honesty

871

00:35:16,609 --> 00:35:14,220

and I'm not entirely sure if we're

872

00:35:21,050 --> 00:35:16,619

seeing that now for instance the the

873

00:35:22,790 --> 00:35:21,060

classified reports right so we have a

874

00:35:25,430 --> 00:35:22,800

you know a private we have a public

875

00:35:27,770 --> 00:35:25,440

report which is what 16 pages long I

876

00:35:30,829 --> 00:35:27,780

think six pages long and then we have a

877

00:35:33,470 --> 00:35:30,839

classified report you know and then

878

00:35:35,750 --> 00:35:33,480

senators and congressmen walk out of the

879

00:35:38,270 --> 00:35:35,760

report room stunned

880

00:35:40,069 --> 00:35:38,280

you know what what what is it that we're

881

00:35:42,109 --> 00:35:40,079

not hearing

882

00:35:44,030 --> 00:35:42,119

and why yeah why are we not allowed that

883

00:35:45,470 --> 00:35:44,040

information and I agree with what you

884

00:35:48,470 --> 00:35:45,480

said I think as well it's just it's

885

00:35:50,990 --> 00:35:48,480

never never too late to change and start

886

00:35:52,730 --> 00:35:51,000

to bring transparency and trust back to

887

00:35:55,069 --> 00:35:52,740

the general public no matter what

888

00:35:58,730 --> 00:35:55,079

country it is so again some some great

889

00:36:01,430 --> 00:35:58,740

points there yeah well again the reason

890

00:36:04,370 --> 00:36:01,440

I mention that is you know I I think

891

00:36:07,250 --> 00:36:04,380

this goes to uh the last election right

892

00:36:10,490 --> 00:36:07,260

in the U.S the 2020 election

893

00:36:13,970 --> 00:36:10,500

um my my view is no matter what side

894

00:36:15,290 --> 00:36:13,980

you're on half the population thinks the

895

00:36:18,770 --> 00:36:15,300

other half of the population was

896

00:36:21,710 --> 00:36:18,780

cheating right so yeah and and so

897

00:36:25,490 --> 00:36:21,720

there's a major Schism there and it all

898

00:36:28,310 --> 00:36:25,500

goes back to trust in government and

899

00:36:31,370 --> 00:36:28,320

you know the the UAP phenomena the UFO

900

00:36:34,609 --> 00:36:31,380

area is one thing that they could score

901
00:36:37,490 --> 00:36:34,619
an absolute home run with and if they

902
00:36:38,990 --> 00:36:37,500
don't soon that trust may be eroded

903
00:36:42,530 --> 00:36:39,000
completely

904
00:36:44,690 --> 00:36:42,540
so yeah yeah absolutely now I'd like to

905
00:36:46,609 --> 00:36:44,700
get into a bit of the sort of talk on

906
00:36:48,410 --> 00:36:46,619
propulsion if that's okay with you now

907
00:36:51,050 --> 00:36:48,420
I'm not particularly scientifically

908
00:36:54,589 --> 00:36:51,060
minded so you'll have to bear with me

909
00:36:58,010 --> 00:36:54,599
um but I'd like to start by we've talked

910
00:36:59,510 --> 00:36:58,020
about these uh objects UAP being you

911
00:37:02,210 --> 00:36:59,520
know potentially non-human intelligence

912
00:37:04,690 --> 00:37:02,220
but could it be possible that some

913
00:37:07,370 --> 00:37:04,700

foreign adversarial country has

914

00:37:09,349 --> 00:37:07,380

leapfrogged the rest of the world and

915

00:37:11,810 --> 00:37:09,359

this could be the you know the reason

916

00:37:14,630 --> 00:37:11,820

for why we're seeing these objects no I

917

00:37:16,849 --> 00:37:14,640

I absolutely don't see that I absolutely

918

00:37:19,750 --> 00:37:16,859

don't see that so I know and I have

919

00:37:22,790 --> 00:37:19,760

worked with some of the top Engineers

920

00:37:25,250 --> 00:37:22,800

physicists I mean you name it top

921

00:37:27,950 --> 00:37:25,260

experts in that field

922

00:37:30,230 --> 00:37:27,960

um in terms of for instance uh China

923

00:37:31,550 --> 00:37:30,240

right is Fielding a lot of new jet

924

00:37:32,270 --> 00:37:31,560

fighters

925

00:37:35,270 --> 00:37:32,280

um

926
00:37:37,490 --> 00:37:35,280
they look very advanced in some ways

927
00:37:39,829 --> 00:37:37,500
they are the engines on those Fighters

928
00:37:41,990 --> 00:37:39,839
are actually 30 years older than ours

929
00:37:43,550 --> 00:37:42,000
they're completely outdated so a lot of

930
00:37:44,810 --> 00:37:43,560
it is kind of smoke and mirrors right

931
00:37:46,790 --> 00:37:44,820
it's

932
00:37:48,829 --> 00:37:46,800
um you know they they have a mixture of

933
00:37:51,109 --> 00:37:48,839
contemporary as well as older

934
00:37:54,670 --> 00:37:51,119
Technologies but in terms of performance

935
00:37:57,890 --> 00:37:54,680
they are Way Beyond or way way behind us

936
00:37:59,690 --> 00:37:57,900
Russia is much the same and if you look

937
00:38:02,930 --> 00:37:59,700
at how those countries are actually

938
00:38:06,230 --> 00:38:02,940

performing in the field right

939

00:38:09,170 --> 00:38:06,240

um uh China is very obviously I mean

940

00:38:11,150 --> 00:38:09,180

they're relying on balloons you know the

941

00:38:13,370 --> 00:38:11,160

the weather the the quote-unquote

942

00:38:15,589 --> 00:38:13,380

weather balloons so you know if China

943

00:38:16,790 --> 00:38:15,599

was going to have these spy Vehicles we

944

00:38:18,770 --> 00:38:16,800

know what they would look like because

945

00:38:21,290 --> 00:38:18,780

we were shooting a ban in February they

946

00:38:22,970 --> 00:38:21,300

would be big balloons and they would

947

00:38:24,530 --> 00:38:22,980

send them over and you know they're

948

00:38:27,050 --> 00:38:24,540

doing it to send a message as well as

949

00:38:29,390 --> 00:38:27,060

collect information uh in terms of

950

00:38:31,550 --> 00:38:29,400

Russia if I understand correctly Russia

951
00:38:34,490 --> 00:38:31,560
has made it down to I believe it's the

952
00:38:37,010 --> 00:38:34,500
t-34 tank in Ukraine

953
00:38:39,589 --> 00:38:37,020
so they've exhausted all of their modern

954
00:38:41,990 --> 00:38:39,599
era tanks apparently they used up all of

955
00:38:44,329 --> 00:38:42,000
their Vietnam era tanks they've made it

956
00:38:46,970 --> 00:38:44,339
back to World War II era tanks they're

957
00:38:49,069 --> 00:38:46,980
Fielding in Ukraine so neither one of

958
00:38:51,650 --> 00:38:49,079
these countries is on The Cutting Edge

959
00:38:54,770 --> 00:38:51,660
and again that's no surprise they don't

960
00:38:58,670 --> 00:38:54,780
spend as much as we do China has a much

961
00:39:01,010 --> 00:38:58,680
larger standing army but in terms of you

962
00:39:02,990 --> 00:39:01,020
know what they put into that

963
00:39:06,230 --> 00:39:03,000

um they're starting from way behind

964

00:39:08,630 --> 00:39:06,240

they're just not there you know so I

965

00:39:12,109 --> 00:39:08,640

don't see I don't see either of those

966

00:39:14,390 --> 00:39:12,119

countries having any chance I I would

967

00:39:16,849 --> 00:39:14,400

call it zero percent chance of these

968

00:39:19,490 --> 00:39:16,859

being foreign and I don't see any other

969

00:39:22,430 --> 00:39:19,500

countries doing it either you know there

970

00:39:24,290 --> 00:39:22,440

aren't any tiny like you know Argentina

971

00:39:26,270 --> 00:39:24,300

or Brazil or anything like that none of

972

00:39:28,670 --> 00:39:26,280

them have the resources to put together

973

00:39:30,650 --> 00:39:28,680

this kind of technology so then then

974

00:39:32,510 --> 00:39:30,660

that leaves the question of if not them

975

00:39:34,730 --> 00:39:32,520

then who you know is it American

976

00:39:36,950 --> 00:39:34,740

Technology well

977

00:39:39,349 --> 00:39:36,960

various people have said these are these

978

00:39:41,690 --> 00:39:39,359

are U.S black programs and I've heard

979

00:39:44,569 --> 00:39:41,700

many many reasons to disagree with that

980

00:39:46,849 --> 00:39:44,579

as well one of them is these encounters

981

00:39:48,829 --> 00:39:46,859

disrupted a lot of training exercises

982

00:39:50,329 --> 00:39:48,839

and put Pilots at risk

983

00:39:52,970 --> 00:39:50,339

and so

984

00:39:55,670 --> 00:39:52,980

that's that's not something even if

985

00:39:57,710 --> 00:39:55,680

these things just landed at Area 51

986

00:39:59,870 --> 00:39:57,720

that's the kind of thing that people go

987

00:40:02,030 --> 00:39:59,880

to prison for because it endangers the

988

00:40:06,410 --> 00:40:02,040

lives of U.S service members you know

989

00:40:08,990 --> 00:40:06,420

but some of the other aspects of this

990

00:40:11,930 --> 00:40:09,000

um for instance the Agvadilla sighting

991

00:40:14,870 --> 00:40:11,940

we saw a vehicle enter the water I

992

00:40:17,810 --> 00:40:14,880

believe it was tracking something like

993

00:40:20,810 --> 00:40:17,820

60 to 100 miles an hour something like

994

00:40:24,589 --> 00:40:20,820

that go into the water and come back out

995

00:40:27,589 --> 00:40:24,599

there appears to be shape shifting Kevin

996

00:40:30,050 --> 00:40:27,599

knuth described accelerations at

997

00:40:32,390 --> 00:40:30,060

thousands of G's these these are things

998

00:40:36,589 --> 00:40:32,400

that are not physically possible with

999

00:40:38,870 --> 00:40:36,599

any technology uh I mean people don't

1000

00:40:42,010 --> 00:40:38,880

take into account it's not just the

1001

00:40:45,530 --> 00:40:42,020

drive system like for instance

1002

00:40:47,450 --> 00:40:45,540

uh the the Nimitz uaps they spotted

1003

00:40:50,990 --> 00:40:47,460

these on the incoming ballistic missile

1004

00:40:53,150 --> 00:40:51,000

radar right in space they they went from

1005

00:40:54,349 --> 00:40:53,160

space down to surface level in a matter

1006

00:40:58,130 --> 00:40:54,359

of seconds

1007

00:41:00,130 --> 00:40:58,140

so even if we had some kind of a secret

1008

00:41:02,690 --> 00:41:00,140

project that could do that the the

1009

00:41:06,290 --> 00:41:02,700

acceleration would it wouldn't just kill

1010

00:41:08,270 --> 00:41:06,300

a pilot it would destroy any airframe it

1011

00:41:10,069 --> 00:41:08,280

would just crumple it and even if they

1012

00:41:13,609 --> 00:41:10,079

had some kind of a super airframe that

1013

00:41:15,950 --> 00:41:13,619

could take it the the speed itself would

1014

00:41:17,930 --> 00:41:15,960

result in a massive Fireball and you

1015

00:41:21,170 --> 00:41:17,940

would end up ablating the surface of any

1016

00:41:22,970 --> 00:41:21,180

you know shielding that you had I mean

1017

00:41:25,190 --> 00:41:22,980

it's kind of like the space shuttle

1018

00:41:28,069 --> 00:41:25,200

right but when you have something like

1019

00:41:30,530 --> 00:41:28,079

that come back in it has to come down at

1020

00:41:33,410 --> 00:41:30,540

a slower speed otherwise it will just

1021

00:41:36,109 --> 00:41:33,420

destroy itself you know and even

1022

00:41:37,670 --> 00:41:36,119

meteorites same thing when they entered

1023

00:41:39,349 --> 00:41:37,680

the atmosphere they're coming in fast

1024

00:41:41,270 --> 00:41:39,359

they burn up that's why most of them

1025

00:41:44,870 --> 00:41:41,280

don't hit the ground these things didn't

1026
00:41:47,089 --> 00:41:44,880
burn up so there there's technology that

1027
00:41:50,569 --> 00:41:47,099
is so far beyond

1028
00:41:52,930 --> 00:41:50,579
hours that it's not even close I don't

1029
00:41:57,050 --> 00:41:52,940
see this as being anything from Earth

1030
00:41:58,609 --> 00:41:57,060
and I think that may be John Ramirez has

1031
00:42:00,470 --> 00:41:58,619
said that there there may be some kind

1032
00:42:02,390 --> 00:42:00,480
of announcement in September maybe

1033
00:42:04,670 --> 00:42:02,400
that's the announcement maybe somebody

1034
00:42:05,930 --> 00:42:04,680
in government maybe the era will finally

1035
00:42:08,470 --> 00:42:05,940
say look

1036
00:42:11,210 --> 00:42:08,480
these things can't be from Earth because

1037
00:42:13,790 --> 00:42:11,220
the the performance that's been reported

1038
00:42:16,430 --> 00:42:13,800

and documented it's it's not even close

1039

00:42:18,170 --> 00:42:16,440

right I mean just to give us an idea

1040

00:42:20,089 --> 00:42:18,180

then what are some of the most promising

1041

00:42:22,490 --> 00:42:20,099

Advanced propulsion Technologies

1042

00:42:23,690 --> 00:42:22,500

currently being researched you know by

1043

00:42:25,370 --> 00:42:23,700

us

1044

00:42:27,890 --> 00:42:25,380

well so there are a lot of different

1045

00:42:30,470 --> 00:42:27,900

Avenues in gravity modification that are

1046

00:42:33,050 --> 00:42:30,480

being explored right and a lot of that

1047

00:42:34,190 --> 00:42:33,060

comes out of experimental stuff for

1048

00:42:39,370 --> 00:42:34,200

instance

1049

00:42:43,609 --> 00:42:39,380

one well-known one is back in 1989 uh Dr

1050

00:42:45,490 --> 00:42:43,619

evgeny poglanoff or Eugene poglanov he

1051
00:42:48,410 --> 00:42:45,500
indicated that a rotating superconductor

1052
00:42:50,690 --> 00:42:48,420
appeared to have a column of smoked lost

1053
00:42:53,450 --> 00:42:50,700
weight above it anything in this column

1054
00:42:56,630 --> 00:42:53,460
right of of like steam above the

1055
00:42:57,770 --> 00:42:56,640
superconductor lost weight and they went

1056
00:43:00,109 --> 00:42:57,780
up to different floors in the building

1057
00:43:01,910 --> 00:43:00,119
and measured it you know he did

1058
00:43:04,370 --> 00:43:01,920
subsequent experiments with what he

1059
00:43:06,349 --> 00:43:04,380
called a force beam generator where he

1060
00:43:08,390 --> 00:43:06,359
basically used a massive discharge of

1061
00:43:10,190 --> 00:43:08,400
electricity onto a superconductor and he

1062
00:43:12,890 --> 00:43:10,200
claimed that It produced a force being

1063
00:43:15,470 --> 00:43:12,900

capable of crumpling metal it was very

1064

00:43:18,530 --> 00:43:15,480

powerful but very brief as well

1065

00:43:20,870 --> 00:43:18,540

so that's one area that a lot of

1066

00:43:24,230 --> 00:43:20,880

research has been done there was a lady

1067

00:43:26,210 --> 00:43:24,240

named Dr ning Lee University Huntsville

1068

00:43:28,910 --> 00:43:26,220

and she worked on that for several years

1069

00:43:31,490 --> 00:43:28,920

I understand that she just passed of

1070

00:43:34,910 --> 00:43:31,500

cancer a couple years ago so her

1071

00:43:36,410 --> 00:43:34,920

research is presumably gone now and from

1072

00:43:39,530 --> 00:43:36,420

what I understand not much was

1073

00:43:42,170 --> 00:43:39,540

accomplished in the last few years but

1074

00:43:44,170 --> 00:43:42,180

so superconductors are definitely one

1075

00:43:47,510 --> 00:43:44,180

area where there have been reports

1076

00:43:49,370 --> 00:43:47,520

another is B field Brown effect I

1077

00:43:51,829 --> 00:43:49,380

understand there's a company called Ivo

1078

00:43:53,930 --> 00:43:51,839

that's actually Fielding something on a

1079

00:43:56,329 --> 00:43:53,940

space launch in this this month and

1080

00:43:58,849 --> 00:43:56,339

that'll be a big first it's this is

1081

00:44:01,130 --> 00:43:58,859

asymmetrical capacitance again the

1082

00:44:04,609 --> 00:44:01,140

be field brown effect which has been

1083

00:44:06,530 --> 00:44:04,619

dismissed as being eye on wind those

1084

00:44:08,870 --> 00:44:06,540

things tend to go together it's very

1085

00:44:11,270 --> 00:44:08,880

difficult to test them separately and so

1086

00:44:13,730 --> 00:44:11,280

a space test is one of the only ways to

1087

00:44:16,130 --> 00:44:13,740

test it without having air present to

1088

00:44:16,849 --> 00:44:16,140

write it off a Scion wind

1089

00:44:18,950 --> 00:44:16,859

um

1090

00:44:21,950 --> 00:44:18,960

so that'll be interesting to see what

1091

00:44:24,109 --> 00:44:21,960

happens with as well another one is the

1092

00:44:28,130 --> 00:44:24,119

surl effect right which again goes back

1093

00:44:30,230 --> 00:44:28,140

to I think the 1960s now John Searle has

1094

00:44:33,230 --> 00:44:30,240

been written off by so many people as a

1095

00:44:36,829 --> 00:44:33,240

charlatan you know it's it's humorous at

1096

00:44:39,470 --> 00:44:36,839

this point and yet everyone who builds a

1097

00:44:41,750 --> 00:44:39,480

replication notices strange effects

1098

00:44:44,809 --> 00:44:41,760

there were a couple of researchers in

1099

00:44:48,890 --> 00:44:44,819

Russia Sergey Godin and Vladimir Roshan

1100

00:44:51,890 --> 00:44:48,900

who tested it in the 90s I believe and

1101

00:44:54,170 --> 00:44:51,900

they said that they saw self spin in

1102

00:44:56,569 --> 00:44:54,180

their case they weren't they they made

1103

00:44:59,690 --> 00:44:56,579

changes to their device compared to his

1104

00:45:03,050 --> 00:44:59,700

and so they weren't able to get what

1105

00:45:05,750 --> 00:45:03,060

they were hoping for but basically what

1106

00:45:07,910 --> 00:45:05,760

they reported in a scientific paper was

1107

00:45:09,849 --> 00:45:07,920

the onset of many of the same things

1108

00:45:12,770 --> 00:45:09,859

that Cyril had claimed happened

1109

00:45:15,190 --> 00:45:12,780

there was another experiment by Paul

1110

00:45:18,290 --> 00:45:15,200

Murad and John Brandenburg

1111

00:45:20,210 --> 00:45:18,300

in the early 2000 thousands and they

1112

00:45:22,790 --> 00:45:20,220

reported seeing anomalous effects as

1113

00:45:24,950 --> 00:45:22,800

well so you know that's that's yet

1114

00:45:27,349 --> 00:45:24,960

another example

1115

00:45:28,849 --> 00:45:27,359

um a friend of mine Mark Sokol is

1116

00:45:32,390 --> 00:45:28,859

working with something else entirely

1117

00:45:33,530 --> 00:45:32,400

which is epr or nuclear magnetic

1118

00:45:37,609 --> 00:45:33,540

resonance

1119

00:45:40,550 --> 00:45:37,619

and that is the idea that basically if

1120

00:45:43,609 --> 00:45:40,560

you can align the nucleus of atoms you

1121

00:45:45,950 --> 00:45:43,619

may be able to utilize procession for

1122

00:45:48,050 --> 00:45:45,960

forward thrust and you may be able to do

1123

00:45:50,930 --> 00:45:48,060

other things as well depending on Whose

1124

00:45:52,730 --> 00:45:50,940

physics you subscribe to so

1125

00:45:55,430 --> 00:45:52,740

um so that's something that that I think

1126

00:45:57,290 --> 00:45:55,440

is a very interesting and promising area

1127

00:45:59,150 --> 00:45:57,300

and I think we'll see more about that in

1128

00:46:00,890 --> 00:45:59,160

the next few months

1129

00:46:03,230 --> 00:46:00,900

um yeah I mean that's that's four

1130

00:46:05,930 --> 00:46:03,240

different ways and they're probably 50

1131

00:46:07,910 --> 00:46:05,940

out there you know that are being

1132

00:46:10,010 --> 00:46:07,920

actively researched and hundreds more

1133

00:46:11,270 --> 00:46:10,020

that have been talked about yeah I was

1134

00:46:12,829 --> 00:46:11,280

looking into it today doing some

1135

00:46:15,589 --> 00:46:12,839

research and the amount that I came

1136

00:46:17,210 --> 00:46:15,599

across was was overwhelming as you said

1137

00:46:18,710 --> 00:46:17,220

there were so many

1138

00:46:20,569 --> 00:46:18,720

um what's the what what are your

1139

00:46:23,210 --> 00:46:20,579

thoughts on the feasibility of warp

1140

00:46:26,809 --> 00:46:23,220

drive as a form of kind of uh you know

1141

00:46:30,890 --> 00:46:26,819

travel for for these objects well so Dr

1142

00:46:32,750 --> 00:46:30,900

Jack sarfati uh claims he he has what's

1143

00:46:34,510 --> 00:46:32,760

called the weightless warp drive he

1144

00:46:37,970 --> 00:46:34,520

claims that's exactly what they're using

1145

00:46:40,190 --> 00:46:37,980

there was a fellow named Thor I mean

1146

00:46:43,730 --> 00:46:40,200

thorsten he was a German fellow and he

1147

00:46:45,710 --> 00:46:43,740

created a website called UAP Theory

1148

00:46:48,410 --> 00:46:45,720

and sorry I'm trying to remember because

1149

00:46:51,950 --> 00:46:48,420

he he put the site up it was I'm not

1150

00:46:53,630 --> 00:46:51,960

sure if you ever saw it but for for a

1151
00:46:56,210 --> 00:46:53,640
period of about a year year and a half

1152
00:46:58,730 --> 00:46:56,220
it was almost like a Bible for warp

1153
00:47:01,790 --> 00:46:58,740
drive UAP warp drive I you know what

1154
00:47:03,770 --> 00:47:01,800
Vinnie I can send you a copy please and

1155
00:47:05,750 --> 00:47:03,780
if if the audience emailed me I'll send

1156
00:47:07,190 --> 00:47:05,760
them a copy as well

1157
00:47:09,770 --> 00:47:07,200
um

1158
00:47:11,690 --> 00:47:09,780
yeah I have I archived a copy the whole

1159
00:47:14,990 --> 00:47:11,700
site he what he did was he did close-up

1160
00:47:17,270 --> 00:47:15,000
animated gifs of some of the things he

1161
00:47:19,730 --> 00:47:17,280
used the Aguadilla video

1162
00:47:22,010 --> 00:47:19,740
which is one of the su's better videos

1163
00:47:24,650 --> 00:47:22,020

yeah and again chose an object entering

1164

00:47:25,849 --> 00:47:24,660

the water and coming coming out it also

1165

00:47:29,990 --> 00:47:25,859

shows

1166

00:47:33,890 --> 00:47:30,000

split in two and a lot of other

1167

00:47:36,230 --> 00:47:33,900

interesting things so what he said was

1168

00:47:40,069 --> 00:47:36,240

that was yeah that was a warp drive

1169

00:47:42,589 --> 00:47:40,079

which instead of pushing an aircraft

1170

00:47:45,710 --> 00:47:42,599

through you know instead of like a an

1171

00:47:49,069 --> 00:47:45,720

action reaction type of propulsion it's

1172

00:47:52,970 --> 00:47:49,079

changing the geodesic space right so

1173

00:47:54,950 --> 00:47:52,980

basically it creates an area of higher

1174

00:47:57,230 --> 00:47:54,960

gravity above itself or in front of

1175

00:47:58,910 --> 00:47:57,240

itself and it falls into it it's

1176

00:48:02,510 --> 00:47:58,920

actually changing time space it's

1177

00:48:04,309 --> 00:48:02,520

warping time space the AL QB air warp

1178

00:48:06,710 --> 00:48:04,319

drive is probably the best known example

1179

00:48:08,510 --> 00:48:06,720

of this and there may be dozens of

1180

00:48:10,609 --> 00:48:08,520

variations on that that are out there

1181

00:48:12,410 --> 00:48:10,619

I've seen many different write-ups and

1182

00:48:14,990 --> 00:48:12,420

I've seen it explained in string and

1183

00:48:17,270 --> 00:48:15,000

brain Theory and you know attempts at

1184

00:48:19,430 --> 00:48:17,280

quantum theory so it's one of those idea

1185

00:48:22,390 --> 00:48:19,440

is that everybody is kind of approached

1186

00:48:30,170 --> 00:48:27,770

Thor claimed that the UAP was using this

1187

00:48:33,470 --> 00:48:30,180

type of warp drive to actually warp time

1188

00:48:36,170 --> 00:48:33,480

and space as its form of propulsion and

1189

00:48:38,270 --> 00:48:36,180

anti-gravity and if that's the case they

1190

00:48:39,950 --> 00:48:38,280

very well could go faster than the speed

1191

00:48:42,290 --> 00:48:39,960

of light

1192

00:48:43,490 --> 00:48:42,300

um you know or or close enough to it

1193

00:48:45,410 --> 00:48:43,500

that

1194

00:48:47,450 --> 00:48:45,420

you know it would at the very least

1195

00:48:50,089 --> 00:48:47,460

radically change the way that we

1196

00:48:52,370 --> 00:48:50,099

perceive Interstellar trips or you know

1197

00:48:55,550 --> 00:48:52,380

trips between stars at least

1198

00:48:57,290 --> 00:48:55,560

uh one of the other things that he

1199

00:49:00,589 --> 00:48:57,300

thought he saw and this was the reason

1200

00:49:03,530 --> 00:49:00,599

that I I saved his sight was

1201
00:49:04,970 --> 00:49:03,540
um would the object splits in two he

1202
00:49:07,670 --> 00:49:04,980
claimed that that was gravitational

1203
00:49:10,089 --> 00:49:07,680
lensing and when I looked at that I said

1204
00:49:13,849 --> 00:49:10,099
oh yeah because

1205
00:49:15,710 --> 00:49:13,859
if you're creating an area of changed

1206
00:49:18,349 --> 00:49:15,720
gravity if you're warping time and space

1207
00:49:20,089 --> 00:49:18,359
around the craft it's likely that that

1208
00:49:24,349 --> 00:49:20,099
will change light that's going through

1209
00:49:26,030 --> 00:49:24,359
it and so the object splitting in two it

1210
00:49:28,430 --> 00:49:26,040
may not have actually split in two it

1211
00:49:30,170 --> 00:49:28,440
may have just been a warping of what we

1212
00:49:33,770 --> 00:49:30,180
saw coming out of it because time is

1213
00:49:36,050 --> 00:49:33,780

Warped spaces warped so that intrigued

1214

00:49:39,109 --> 00:49:36,060

me because one of these very common

1215

00:49:40,069 --> 00:49:39,119

reports about UAP is well they change

1216

00:49:43,130 --> 00:49:40,079

shape

1217

00:49:44,930 --> 00:49:43,140

right or it was a sphere then it was an

1218

00:49:47,990 --> 00:49:44,940

egg it was this it was that and I'm like

1219

00:49:49,670 --> 00:49:48,000

maybe they didn't change shape maybe if

1220

00:49:51,710 --> 00:49:49,680

they're if they're using this warp drive

1221

00:49:54,230 --> 00:49:51,720

maybe it just depends on where they're

1222

00:49:56,030 --> 00:49:54,240

going how you view them maybe it's a

1223

00:49:58,250 --> 00:49:56,040

sphere the whole time you know or a

1224

00:50:00,829 --> 00:49:58,260

saucer the whole time who knows

1225

00:50:03,170 --> 00:50:00,839

that's fascinating and you know to me

1226

00:50:04,550 --> 00:50:03,180

that that makes sense so I yeah that's

1227

00:50:07,010 --> 00:50:04,560

wonderful

1228

00:50:09,530 --> 00:50:07,020

um I think this is a great point of the

1229

00:50:11,930 --> 00:50:09,540

interview for you to tell us about Apec

1230

00:50:13,550 --> 00:50:11,940

ah okay well and I I appreciate you

1231

00:50:16,309 --> 00:50:13,560

letting me plug it I've got as you can

1232

00:50:18,230 --> 00:50:16,319

see on my screen's behind me yep during

1233

00:50:21,170 --> 00:50:18,240

the pandemic when we all thought we were

1234

00:50:24,230 --> 00:50:21,180

going to die stockpiling toilet paper uh

1235

00:50:25,910 --> 00:50:24,240

I was approached by Mark silkel and a

1236

00:50:27,770 --> 00:50:25,920

couple of other fellows and they said

1237

00:50:29,930 --> 00:50:27,780

Tim they said back in the day you used

1238

00:50:31,970 --> 00:50:29,940

to run this American anti-gravity and

1239

00:50:34,370 --> 00:50:31,980

they said we want to put on a conference

1240

00:50:37,309 --> 00:50:34,380

and you're the only person who can

1241

00:50:39,589 --> 00:50:37,319

moderate it and and again at first I

1242

00:50:42,650 --> 00:50:39,599

turned him down I said you know UFOs

1243

00:50:45,050 --> 00:50:42,660

might be bad mojo you know I I was like

1244

00:50:46,849 --> 00:50:45,060

this I I'm not sure if the world is kind

1245

00:50:49,069 --> 00:50:46,859

of ready for this kind of a conference

1246

00:50:52,970 --> 00:50:49,079

and but they they were persistent they

1247

00:50:56,030 --> 00:50:52,980

came back and so so we started it and

1248

00:50:58,849 --> 00:50:56,040

the first couple of conferences were

1249

00:51:00,470 --> 00:50:58,859

um it was insane and yet magical right

1250

00:51:03,470 --> 00:51:00,480

it was

1251

00:51:04,849 --> 00:51:03,480

and I think that the magic of aipac is

1252

00:51:06,530 --> 00:51:04,859

something that can apply probably

1253

00:51:07,849 --> 00:51:06,540

applies in the UAP Community it can

1254

00:51:11,210 --> 00:51:07,859

apply to a lot of different communities

1255

00:51:13,370 --> 00:51:11,220

where uh you have people who have been

1256

00:51:16,130 --> 00:51:13,380

interested in this and researching this

1257

00:51:18,950 --> 00:51:16,140

for decades coming together to actually

1258

00:51:21,650 --> 00:51:18,960

talk all in the same place at the same

1259

00:51:23,569 --> 00:51:21,660

time for the first time and so for the

1260

00:51:25,430 --> 00:51:23,579

first few of those you know we had some

1261

00:51:27,349 --> 00:51:25,440

of the the real Old-Timers from that

1262

00:51:29,450 --> 00:51:27,359

Community they didn't know how to use

1263

00:51:31,790 --> 00:51:29,460

zoom they were new to the whole thing

1264

00:51:33,710 --> 00:51:31,800

and they were like oh my God I'm on a

1265

00:51:35,450 --> 00:51:33,720

conference and here are all of my heroes

1266

00:51:36,650 --> 00:51:35,460

here are all the people I talk to you

1267

00:51:37,370 --> 00:51:36,660

know

1268

00:51:40,790 --> 00:51:37,380

um

1269

00:51:43,010 --> 00:51:40,800

so that's where Apex started and then we

1270

00:51:44,930 --> 00:51:43,020

leveraged our Network we leveraged

1271

00:51:47,030 --> 00:51:44,940

connections and we started to get

1272

00:51:49,309 --> 00:51:47,040

presentations by various phds and

1273

00:51:52,490 --> 00:51:49,319

subject matter experts and we've tried

1274

00:51:54,230 --> 00:51:52,500

to kind of grow things since then it was

1275

00:51:56,510 --> 00:51:54,240

called early on it was called the

1276
00:51:58,549 --> 00:51:56,520
Woodstock of anti-gravity and and I've

1277
00:52:00,650 --> 00:51:58,559
tried to kind of keep that you know

1278
00:52:03,710 --> 00:52:00,660
close to my heart where

1279
00:52:05,930 --> 00:52:03,720
um we cover a lot of UAP stuff probably

1280
00:52:09,109 --> 00:52:05,940
half of the material in the conference

1281
00:52:11,930 --> 00:52:09,119
is related to UAP or about UAP wow and

1282
00:52:15,109 --> 00:52:11,940
then the other half is more traditional

1283
00:52:17,690 --> 00:52:15,119
um by traditional again we've got warp

1284
00:52:19,730 --> 00:52:17,700
drives gravity modification a lot of

1285
00:52:22,730 --> 00:52:19,740
inertial propulsion off-center Rotator

1286
00:52:24,710 --> 00:52:22,740
stuff people actually building things we

1287
00:52:26,809 --> 00:52:24,720
have lab time where people demonstrate

1288
00:52:28,849 --> 00:52:26,819

things they built

1289

00:52:30,829 --> 00:52:28,859

um so there's there's a lot going on

1290

00:52:33,589 --> 00:52:30,839

there and

1291

00:52:36,290 --> 00:52:33,599

after probably about a six month Hiatus

1292

00:52:38,450 --> 00:52:36,300

we are restarting the conference a

1293

00:52:40,430 --> 00:52:38,460

slightly new format and we've

1294

00:52:42,230 --> 00:52:40,440

restructured things a little bit and

1295

00:52:44,150 --> 00:52:42,240

then we're going to be doing basically a

1296

00:52:47,030 --> 00:52:44,160

conference once a month and then kind of

1297

00:52:49,130 --> 00:52:47,040

an open mic session every two weeks and

1298

00:52:50,690 --> 00:52:49,140

that that allows these different parts

1299

00:52:53,450 --> 00:52:50,700

of the community I guess to interact

1300

00:52:57,049 --> 00:52:53,460

better because you have again you have

1301
00:52:59,930 --> 00:52:57,059
phds Engineers who are writing papers on

1302
00:53:03,530 --> 00:52:59,940
How to you know how it should be built

1303
00:53:05,930 --> 00:53:03,540
how uaps work things like that as well

1304
00:53:07,430 --> 00:53:05,940
as people actually building things and

1305
00:53:09,470 --> 00:53:07,440
they don't always speak the same

1306
00:53:11,870 --> 00:53:09,480
language so having these two different

1307
00:53:14,569 --> 00:53:11,880
sessions lets them communicate in the

1308
00:53:16,510 --> 00:53:14,579
best way for them I guess wow that's

1309
00:53:20,390 --> 00:53:16,520
amazing and are these open to the public

1310
00:53:24,049 --> 00:53:20,400
yeah yeah so I would urge I would urge

1311
00:53:28,010 --> 00:53:24,059
anyone to visit altpropulsion.com and

1312
00:53:30,290 --> 00:53:28,020
register for Apec we have a web form it

1313
00:53:32,150 --> 00:53:30,300

goes to a secure email capture that's it

1314

00:53:34,549 --> 00:53:32,160

we don't bam people we don't rent the

1315

00:53:36,950 --> 00:53:34,559

list anything like that we've been doing

1316

00:53:39,290 --> 00:53:36,960

that since I think the first six months

1317

00:53:41,750 --> 00:53:39,300

of the conference uh

1318

00:53:42,770 --> 00:53:41,760

and what basically what we do is we send

1319

00:53:48,230 --> 00:53:42,780

out

1320

00:53:50,450 --> 00:53:48,240

one like three or four days before and

1321

00:53:52,190 --> 00:53:50,460

then one day of just is kind of a last

1322

00:53:53,809 --> 00:53:52,200

minute hey you should be there and

1323

00:53:55,849 --> 00:53:53,819

that's about it other than that we we

1324

00:53:58,390 --> 00:53:55,859

really don't send much email in fact we

1325

00:54:01,190 --> 00:53:58,400

probably should send more than we do but

1326
00:54:02,030 --> 00:54:01,200
I understand completely but yeah what

1327
00:54:03,770 --> 00:54:02,040
I'm going to do is I'm going to make

1328
00:54:05,510 --> 00:54:03,780
sure that all of the links of yours are

1329
00:54:08,390 --> 00:54:05,520
in the description of this so people can

1330
00:54:09,770 --> 00:54:08,400
go and check it out I suppose before we

1331
00:54:11,630 --> 00:54:09,780
finish I just wanted to ask you if you

1332
00:54:13,910 --> 00:54:11,640
have any more sort of UAP related

1333
00:54:15,290 --> 00:54:13,920
interviews coming up on your wonderful

1334
00:54:18,230 --> 00:54:15,300
YouTube channel

1335
00:54:20,150 --> 00:54:18,240
oh well thank you and and so yeah that's

1336
00:54:21,829 --> 00:54:20,160
I mean I guess if people look up the Tim

1337
00:54:24,650 --> 00:54:21,839
Ventura interviews

1338
00:54:27,410 --> 00:54:24,660

um I've been trying to put them up as I

1339

00:54:30,349 --> 00:54:27,420

can I guess uh I'm talking with George

1340

00:54:34,430 --> 00:54:30,359

Knapp I would like to do one with him

1341

00:54:35,990 --> 00:54:34,440

um Ross kohlhart I I I'm I'm in talks

1342

00:54:37,970 --> 00:54:36,000

with him although I understand he's on

1343

00:54:39,890 --> 00:54:37,980

vacation so he's been kind of slowing me

1344

00:54:42,470 --> 00:54:39,900

down you know

1345

00:54:45,109 --> 00:54:42,480

um so those are those are two that I'm

1346

00:54:47,210 --> 00:54:45,119

kind of working on but you know I I'm

1347

00:54:50,510 --> 00:54:47,220

trying to kind of continue digging as

1348

00:54:52,970 --> 00:54:50,520

well and I think these these recent

1349

00:54:55,130 --> 00:54:52,980

again the mosul sphere is interesting

1350

00:54:57,470 --> 00:54:55,140

for me that's that's really new I hadn't

1351

00:55:01,430 --> 00:54:57,480

heard of that before the hearings and

1352

00:55:02,930 --> 00:55:01,440

this leaked radar data uh from this this

1353

00:55:04,790 --> 00:55:02,940

other ship

1354

00:55:06,710 --> 00:55:04,800

um those are both kind of breaking news

1355

00:55:08,569 --> 00:55:06,720

stories and so I would love to try and

1356

00:55:10,190 --> 00:55:08,579

find more out about those and I'm sure

1357

00:55:13,130 --> 00:55:10,200

all of us will I'm sure it'll make

1358

00:55:14,990 --> 00:55:13,140

headlines you know absolutely well

1359

00:55:16,910 --> 00:55:15,000

listen Tim thank you so much for joining

1360

00:55:18,770 --> 00:55:16,920

me it's been a wonderful conversation I

1361

00:55:20,809 --> 00:55:18,780

knew it was going to be

1362

00:55:23,210 --> 00:55:20,819

um so yeah I really appreciate it thank

1363

00:55:25,609 --> 00:55:23,220

you wonderful well Vinnie thank you as

1364

00:55:27,290 --> 00:55:25,619

well my pleasure and thank you to

1365

00:55:28,670 --> 00:55:27,300

everybody watching as always please

1366

00:55:30,950 --> 00:55:28,680

leave a like if you enjoyed the video

1367

00:55:33,470 --> 00:55:30,960

subscribe if you don't already and we
