

1

00:00:00,000 --> 00:00:09,000

Out of the sky and into the sea, a UFO captured entering the water in front of hundreds of beachgoers.

2

00:00:09,000 --> 00:00:16,000

Could aliens actually be amongst us, hiding out as it were in the deepest recesses of the oceans?

3

00:00:16,000 --> 00:00:21,000

Neil Armstrong's bizarre jungle quest for an ancient alien library.

4

00:00:21,000 --> 00:00:26,000

Did something happen on the lunar surface to inspire this mission?

5

00:00:26,000 --> 00:00:32,000

It's been reported that Armstrong and Aldrin saw lights on the edge of the crater.

6

00:00:33,000 --> 00:00:41,000

And NASA's nightmare, a genius rocket scientist, seems to open a gate to another world.

7

00:00:42,000 --> 00:00:48,000

Did Parsons really succeed in getting the attention of other dimensional beings?

8

00:00:49,000 --> 00:01:01,000

UFOs, once the stuff of fantasy, now caught on camera, finally forcing governments to reveal what they know.

9

00:01:01,000 --> 00:01:05,000

UAPs aren't unexplained, but they are real.

10

00:01:07,000 --> 00:01:13,000

Many of these phenomena have been cited in training ranges. We're very much concerned about safety of flight.

11

00:01:13,000 --> 00:01:20,000

So let's just speculate for one moment that these things, whatever they are, are here to do not very good things.

12

00:01:20,000 --> 00:01:32,000

Impossible engineering, terrifying encounters, sinister cover-ups. This is evidence of the unexplained.

13

00:01:44,000 --> 00:01:52,000

May 2021. It's a calm, almost windless day on Jankar Beach in East Indonesia.

14

00:01:52,000 --> 00:01:58,000

When something huge appears in the sky, startling hundreds of beachgoers.

15

00:01:59,000 --> 00:02:01,000

This is a weird-looking object.

16

00:02:01,000 --> 00:02:05,000

If there is no wind, it's travelling under its own propulsion.

17

00:02:06,000 --> 00:02:14,000

What this black mob then seems to do is descends towards the water and then just vanishes into the ocean.

18

00:02:14,000 --> 00:02:23,000

There is no sound and no sign of heavy impact. The object appears to simply glide into the water without losing any speed.

19

00:02:25,000 --> 00:02:32,000

Objects that can move from the air and then through the water at the same speed have been tracked by military equipment in the past.

20

00:02:33,000 --> 00:02:48,000

In 2019, a leaked US Navy video from the USS Omaha seems to show a mysterious craft hovering before it disappears into the ocean off the coast of San Diego in California.

21

00:02:48,000 --> 00:02:55,000

The object was apparently trapped as it dived from a very, very high altitude, 100,000 feet.

22

00:02:55,000 --> 00:03:00,000

It was still travelling at a very, very high speed as it entered the water.

23

00:03:01,000 --> 00:03:03,000

Where was that? Splash. We got a splash.

24

00:03:03,000 --> 00:03:08,000

There were claims that it was tracked, travelling at about 300 knots underwater.

25

00:03:08,000 --> 00:03:16,000

That's about 345 miles an hour. That's 10 times faster than the Royal Navy's nuclear-powered subs.

26

00:03:17,000 --> 00:03:23,000

The US Navy actually sent a submarine to the area to investigate, but they can't find any trace of any object.

27

00:03:23,000 --> 00:03:26,000

It was as if it had vanished into thin air.

28

00:03:26,000 --> 00:03:36,000

Objects like this one, filmed in 2019, and the one witnessed on Janker Beach, seem to have what the Pentagon describes as transmedium capabilities.

29

00:03:36,000 --> 00:03:42,000

Transmediumness is the ability to travel through air and water without loss of performance or capability.

30

00:03:42,000 --> 00:03:47,000

Normally when you travel, let's say, from air to water, you will experience some form of resistance.

31

00:03:47,000 --> 00:03:54,000

Effectively, the water will slow you down. Even light itself is slowed down when it travels through

water.

32

00:03:54,000 --> 00:04:02,000

Water is just under 800 times thicker than air, so to move through it, you need enormous amounts of fuel and power.

33

00:04:02,000 --> 00:04:06,000

The next time you're out in your F-16 fighter jet, just try flying that underwater.

34

00:04:06,000 --> 00:04:10,000

It's going to break up the moment you hit the ocean surface.

35

00:04:10,000 --> 00:04:15,000

In 2004, of course, we have the world-famous Nimitz incident.

36

00:04:16,000 --> 00:04:25,000

US Navy pilots spot what seems to be a tic-tac-shaped object hovering above a disturbance in the water.

37

00:04:25,000 --> 00:04:31,000

The disturbance is described as being caused by a large cross-shaped object just beneath the

surface.

38

00:04:31,000 --> 00:04:44,000

In that same instant, a radar operator on the nearby ship, the USS Princeton, confirmed that a craft was actually in the water, moving faster than 70 knots.

39

00:04:44,000 --> 00:04:53,000

Military analysts have come to call these things unidentified submerged objects, or USOs.

40

00:04:53,000 --> 00:05:04,000

A USO is described very much like a UFO. These are objects that are performing in a way that we frankly can't replicate, and they're doing it underwater.

41

00:05:04,000 --> 00:05:10,000

One of the first modern-day sightings of a USO was by Japanese fishermen in 1957.

42

00:05:10,000 --> 00:05:17,000

Since then, USOs have been clocked numerous times, often moving at incredible speeds.

43

00:05:17,000 --> 00:05:24,000

Some of these objects have been clocked at the speed of sound, underwater. That's way beyond our

attack.

44

00:05:24,000 --> 00:05:34,000

The former head of the French Secret Service claimed that they had picked up one of these objects traveling underwater at faster than the speed of sound.

45

00:05:34,000 --> 00:05:38,000

The speed of sound in water is over 3,000 miles per hour.

46

00:05:38,000 --> 00:05:46,000

We're seeing a vehicle that can operate very, very fast underwater, with instantaneous acceleration, potentially hypersonic velocities.

47

00:05:47,000 --> 00:05:50,000

It does make you wonder how can this be achieved?

48

00:05:50,000 --> 00:05:57,000

If this craft was real, it could circumnavigate the entire globe underwater in just eight hours.

49

00:05:59,000 --> 00:06:07,000

The world's superpowers spend hundreds of billions annually on black projects, funding secret,

highly advanced aircraft.

50

00:06:07,000 --> 00:06:13,000

It's not a stretch to believe, they're funding secret underwater technology too.

51

00:06:13,000 --> 00:06:21,000

There have been rumors though that both the US and China are developing new supersonic submarines using a technology called supracavitation.

52

00:06:21,000 --> 00:06:28,000

This is where a submerged vessel effectively travels inside an air bubble, eliminating the water drag.

53

00:06:28,000 --> 00:06:35,000

Bubbles, by definition, experience far less resistance in water than the object itself.

54

00:06:35,000 --> 00:06:45,000

So if you can create the bubbles, let's say at the nose of the object, so that the bubbles then surround the object, then that object should be able to move faster.

55

00:06:49,000 --> 00:06:54,000

The reports of US pilot witnesses indicate that these craft have no obvious means for propulsion.

56

00:06:54,000 --> 00:07:03,000

If you have a jet sucking an air through its engines and pushing it out the back, even a submarine propeller pushing against the water, that is an obvious form of propulsion.

57

00:07:03,000 --> 00:07:08,000

Some theorize that these craft are somehow manipulating the gravity fields to move.

58

00:07:08,000 --> 00:07:15,000

If that's true, it doesn't matter in what medium they're traveling. Air, water, it's all the same.

59

00:07:15,000 --> 00:07:31,000

Even if there was a top secret program that had developed supersonic submarines, you have to remember the trans-medium qualities of these USOs, their ability to both fly and travel through water.

60

00:07:32,000 --> 00:07:43,000

Our oceans cover 70% of the entire surface of the Earth, and 80% of these waters have never been scanned, explored, or seen by human eyes.

61

00:07:43,000 --> 00:07:49,000

To put that in context, we know more about the surface of the moon or Mars.

62

00:07:49,000 --> 00:07:54,000

It is likely to mean there are things we don't know about that live in the ocean.

63

00:07:55,000 --> 00:08:03,000

The Greek philosopher Plato told of an ancient civilization called Atlantis that now lies beneath the ocean.

64

00:08:03,000 --> 00:08:15,000

Later, scholars and archaeologists theorized the story could be a memory of a society that inhabited, or perhaps still inhabits, an undersea realm.

65

00:08:15,000 --> 00:08:19,000

Maybe we're cohabitating with something else on this planet.

66

00:08:19,000 --> 00:08:24,000

Maybe we're dealing with something that's even far older than our own species. Is that possible?

67

00:08:24,000 --> 00:08:39,000

Gary Heseltine, a former police officer and now the vice president of the International Coalition

for Extraterrestrial Research, believes that there are underwater alien bases hidden in our deepest oceans and trenches.

68

00:08:40,000 --> 00:08:49,000

In May 2022, there was a congressional hearing into UAPs, the first such hearing for 50 years.

69

00:08:49,000 --> 00:08:55,000

Now, Representative Raja Krishnamurti asked the entirely legitimate question.

70

00:08:55,000 --> 00:09:05,000

Do we have any sensors underwater to detect unsubmerged UAPs? Anything that is in the ocean or in the seas?

71

00:09:05,000 --> 00:09:13,000

In response, the Under Secretary of Defense for Intelligence and Security made a rather terse comment.

72

00:09:13,000 --> 00:09:16,000

So I think that would be more appropriately addressed in close session.

73

00:09:16,000 --> 00:09:17,000

Okay.

74

00:09:17,000 --> 00:09:23,000

He wasn't going to answer that question in the public glare with the cameras rolling.

75

00:09:23,000 --> 00:09:26,000

So what exactly does he have to hide?

76

00:09:26,000 --> 00:09:32,000

When we're talking about USOs in particular, I think it's important that we remain open-minded.

77

00:09:32,000 --> 00:09:38,000

Just because we can't imagine living at the crushing depth of the ocean doesn't mean something else can't.

78

00:09:38,000 --> 00:09:43,000

We're just now recognizing the reality of what this is to begin with.

79

00:09:43,000 --> 00:09:47,000

August 1993, Melbourne, eastern Australia.

80

00:09:47,000 --> 00:09:52,000

Kelly Carhill and her husband are driving to visit some friends.

81

00:09:55,000 --> 00:10:03,000

The events that are about to unfold, if true, make this an encounter so extraordinary that 30 years later,

82

00:10:03,000 --> 00:10:06,000

it's been a long time since the last time we've met.

83

00:10:06,000 --> 00:10:13,000

Out to unfold, if true, make this an encounter so extraordinary that 30 years later,

84

00:10:13,000 --> 00:10:17,000

it's been dubbed the Holy Grail of Abductions.

85

00:10:18,000 --> 00:10:23,000

The only reason that I went public in the first place is that no one's game to come forward simply because they've got no evidence.

86

00:10:23,000 --> 00:10:28,000

And here you are sitting there with all of this physical evidence with other witnesses, something no one else has.

87

00:10:28,000 --> 00:10:31,000

People are starting to realize, hey, there is something going on here.

88

00:10:31,000 --> 00:10:38,000

The original story is that Kelly is driving along in a suburb about 20 miles from the centre of Melbourne.

89

00:10:38,000 --> 00:10:47,000

She's on the Bellgrove Hallam Road on the way to Montauk in the Dandenong Mountains to see a girlfriend.

90

00:10:47,000 --> 00:10:51,000

And it's about dusk so the light is getting dimmer.

91

00:10:51,000 --> 00:10:56,000

And she sees what looks like orange lights in a field.

92

00:10:57,000 --> 00:11:00,000

Hours later, the couple return along the same road.

93

00:11:01,000 --> 00:11:06,000

Driving home later, they see an object about a kilometre in front of them.

94

00:11:06,000 --> 00:11:11,000

And it seems to be sort of hovering at about twice the height of the trees.

95

00:11:11,000 --> 00:11:16,000

Now Kelly says she originally thought that it was some kind of airship or balloon or a blimp,

96

00:11:16,000 --> 00:11:20,000

but as she looked at it, she saw that it was almost made out of light.

97

00:11:20,000 --> 00:11:26,000

And as they got closer, the light divided into distinct orbs.

98

00:11:26,000 --> 00:11:33,000

In the lights, Kelly could see silhouettes like people, like the outlines of people.

99

00:11:33,000 --> 00:11:40,000

She turned to her husband to point this out, but as she did, the object just shot past them.

100

00:11:43,000 --> 00:11:46,000

They kept driving and about a kilometre or two down the road,

101

00:11:46,000 --> 00:11:52,000

they came across what Kelly described as a screen or a wall of lights across the road.

102

00:11:52,000 --> 00:11:58,000

When she gets home, Kelly makes a puzzling discovery.

103

00:11:58,000 --> 00:12:06,000

Following the encounter, Kelly discovered that she had what looked like an equilateral triangle below her navel.

104

00:12:06,000 --> 00:12:11,000

Now it intrigued her that this was such an accurate geometric shape

105

00:12:11,000 --> 00:12:18,000

and also that it looked like a burn and yet she had experienced no sensation at the time.

106

00:12:18,000 --> 00:12:23,000

A strange series of events, but this was just the beginning.

107

00:12:23,000 --> 00:12:27,000

Weeks later, Kelly remembered getting out of the car that night.

108

00:12:27,000 --> 00:12:34,000

She remembered that there was another car too that had pulled up about 100 metres away from them on the road.

109

00:12:34,000 --> 00:12:40,000

And the people in that car and Kelly and her husband started to walk across the field.

110

00:12:40,000 --> 00:12:47,000

Kelly and the people from the other car just looked at what was apparently a huge craft

111

00:12:47,000 --> 00:12:49,000

and she was totally awestruck.

112

00:12:49,000 --> 00:12:55,000

Kelly said that even though it was, in her words, science fiction come to life,

113

00:12:55,000 --> 00:12:59,000

she and her husband weren't afraid yet.

114

00:12:59,000 --> 00:13:05,000

As they stood there, a tall, dark figure appeared in front of the craft.

115

00:13:05,000 --> 00:13:11,000

This being was joined by seven or eight others who appeared behind it.

116

00:13:11,000 --> 00:13:18,000

And then Kelly says that she felt this incredible energy that was like a low-level frequency

117

00:13:18,000 --> 00:13:22,000

that was pulsating through her in waves.

118

00:13:22,000 --> 00:13:27,000

She says it was so dense that she could physically feel it going through her body.

119

00:13:27,000 --> 00:13:31,000

Kelly of course feeling this overwhelming sense of horror.

120

00:13:31,000 --> 00:13:36,000

She says she began screaming and as she did, the eyes on the beings littered.

121

00:13:36,000 --> 00:13:40,000

The beings came charging across the field.

122

00:13:40,000 --> 00:13:42,000

They split into two groups.

123

00:13:42,000 --> 00:13:46,000

One veered away from Kelly, the other came directly towards her.

124

00:13:46,000 --> 00:13:53,000

Kelly says when they got to her, she felt a blow to the pit of her stomach that fell to the ground

125

00:13:53,000 --> 00:13:55,000

and she thought she was going to die.

126

00:13:55,000 --> 00:14:00,000

Kelly said that she was convinced that if she didn't get up now, she never would.

127

00:14:00,000 --> 00:14:04,000

But when she opened her eyes, it was all black.

128

00:14:04,000 --> 00:14:06,000

She couldn't see a thing.

129

00:14:09,000 --> 00:14:14,000

A survey in 2002 found thousands of people firmly believe they've come into contact

130

00:14:14,000 --> 00:14:18,000

with extraterrestrial craft or beings.

131

00:14:18,000 --> 00:14:24,000

But most of these encounters are relayed by a single witness with no independent corroboration.

132

00:14:24,000 --> 00:14:27,000

This case was different.

133

00:14:27,000 --> 00:14:33,000

Now this is an incredible account, but Kelly isn't the only one that said she saw what she reports that night.

134

00:14:33,000 --> 00:14:39,000

For the first time ever, we have independent eyewitnesses saying they saw the same thing.

135

00:14:39,000 --> 00:14:45,000

Three witnesses using the names Glenda, Jane and Bill to protect their identities

136

00:14:45,000 --> 00:14:49,000

had also been driving in the area that evening.

137

00:14:49,000 --> 00:14:53,000

Each were asked to draw what they saw.

138

00:14:53,000 --> 00:14:56,000

Now Kelly is seeing the sketches that they drew after the incident.

139

00:14:56,000 --> 00:14:58,000

They're almost identical to her own.

140

00:14:59,000 --> 00:15:04,000

The sketches that Kelly and the other witnesses drew entirely independently

141

00:15:04,000 --> 00:15:09,000

featured a circle of lights at the top of the craft and lines coming down

142

00:15:09,000 --> 00:15:12,000

that formed a kind of semi-circle on the ground.

143

00:15:12,000 --> 00:15:17,000

They were also able to draw the beings that Kelly remembered.

144

00:15:17,000 --> 00:15:20,000

But the similarities didn't end there.

145

00:15:20,000 --> 00:15:23,000

They all share the same mark under their belly button,

146

00:15:23,000 --> 00:15:29,000

but two of the other women, Glenda and Jane, had three small dots on their inner thigh as well.

147

00:15:29,000 --> 00:15:33,000

Glenda also has quite a severe ligature mark around her ankle.

148

00:15:35,000 --> 00:15:38,000

Not only are there the marks on the witnesses,

149

00:15:38,000 --> 00:15:43,000

but UFO researchers also found physical traces at the site itself.

150

00:15:43,000 --> 00:15:48,000

They find a triangular formation of three points six meters apart

151

00:15:48,000 --> 00:15:52,000

in the location where the women say the craft landed.

152

00:15:52,000 --> 00:15:56,000

These correspond with the tripod sketches that the women made.

153

00:15:58,000 --> 00:16:00,000

Kelly's case is compelling.

154

00:16:00,000 --> 00:16:05,000

We have all the witnesses corroborating the same story

155

00:16:05,000 --> 00:16:08,000

and their sketches very similar.

156

00:16:08,000 --> 00:16:09,000

Why is that?

157

00:16:09,000 --> 00:16:15,000

A team from the Paranormal Research Association even interviews her.

158

00:16:15,000 --> 00:16:17,000

They interview all the witnesses.

159

00:16:17,000 --> 00:16:19,000

They look at their medical records.

160

00:16:19,000 --> 00:16:23,000

But this case is as frustrating as it is extraordinary.

161

00:16:23,000 --> 00:16:28,000

The report that's promised from the association is never forthcoming.

162

00:16:28,000 --> 00:16:33,000

We don't hear anything more about this story, so what's going on here?

163

00:16:35,000 --> 00:16:38,000

Kelly spoke to the media about her experience

164

00:16:38,000 --> 00:16:41,000

and later wrote a book about it.

165

00:16:41,000 --> 00:16:47,000

I do believe that there is covert military activity going on.

166

00:16:47,000 --> 00:16:52,000

There's just too many top-secret documents

167

00:16:52,000 --> 00:16:56,000

that aren't allowed to be released from the States on the UFO topic.

168

00:16:56,000 --> 00:16:59,000

And if they don't exist, why not release the whole god-temp plot?

169

00:16:59,000 --> 00:17:04,000

Phenomena Research Australia say the reason they haven't released the report

170

00:17:04,000 --> 00:17:09,000

is because witnesses didn't want their medical and psychological reports included

171

00:17:09,000 --> 00:17:13,000

and doubt has been sown over Kelly's recollection of the events.

172

00:17:13,000 --> 00:17:16,000

I have this problem of the skeptics following me around.

173

00:17:16,000 --> 00:17:19,000

A particular Victorian skeptic called me a...

174

00:17:19,000 --> 00:17:23,000

What was it? A disorganised neurotic woman?

175

00:17:24,000 --> 00:17:30,000

When Kelly last spoke, she couldn't remember exactly what happened that night.

176

00:17:30,000 --> 00:17:34,000

But the one thing that she does remember is the fear.

177

00:17:34,000 --> 00:17:38,000

The fact that her body was being flooded with terrible moments

178

00:17:38,000 --> 00:17:41,000

could have impacted the way her memories were formed.

179

00:17:41,000 --> 00:17:45,000

Memory is a generative process of editing.

180

00:17:45,000 --> 00:17:50,000

It takes into account what we know now, what we felt then, what we feel now.

181

00:17:50,000 --> 00:17:56,000

Every time we pull up a memory, it shapes it and it turns it into something different.

182

00:17:57,000 --> 00:18:01,000

Research has demonstrated that it is incredibly easy to implant false memories

183

00:18:01,000 --> 00:18:05,000

and those memories feel very, very real.

184

00:18:05,000 --> 00:18:10,000

And it should be noted that the other witnesses who came forward after Kelly

185

00:18:10,000 --> 00:18:15,000

saw an ad asking for people who had potentially been abducted by aliens.

186

00:18:15,000 --> 00:18:18,000

This is suggestion on a grand scale.

187

00:18:20,000 --> 00:18:26,000

People have investigated why people could be so invested in the alien abduction stories

188

00:18:26,000 --> 00:18:28,000

that are part of their lives.

189

00:18:28,000 --> 00:18:31,000

For example, Professor Andrew Abeta of Rutgers University,

190

00:18:31,000 --> 00:18:36,000

he's a psychologist, has suggested that it's akin to a religious experience,

191

00:18:36,000 --> 00:18:41,000

that it gives life meaning, it puts somebody at the centre of a narrative,

192

00:18:41,000 --> 00:18:44,000

makes them important.

193

00:18:45,000 --> 00:18:50,000

Researchers are asking for phenomena research Australia's secret report to be published.

194

00:18:50,000 --> 00:18:57,000

Its findings could corroborate that Carr Hill's story is all a cocktail of mistakes and misunderstandings.

195

00:18:57,000 --> 00:19:01,000

Or it may be a holy grail that leaves a bitter taste.

196

00:19:01,000 --> 00:19:06,000

Confirmation that we are prey to an advanced intelligence that scoops us up

197

00:19:06,000 --> 00:19:10,000

and subjects us to degrading torture and will.

198

00:19:10,000 --> 00:19:15,000

Whatever you believe about Kelly Carr Hill's story in particular,

199

00:19:15,000 --> 00:19:20,000

whether or not Kelly was actually abducted by aliens, we just need to know more.

200

00:19:20,000 --> 00:19:25,000

Perhaps there was something else happening that day that bears further investigation.

201

00:19:26,000 --> 00:19:32,000

July 20th, 1969, Apollo 11's lunar module, The Eagle, lands on the moon.

202

00:19:32,000 --> 00:19:37,000

The moon mission of course is one of mankind's greatest achievements.

203

00:19:37,000 --> 00:19:40,000

Astronaut Neil Armstrong makes history.

204

00:19:40,000 --> 00:19:43,000

That's one small step for man.

205

00:19:43,000 --> 00:19:46,000

One giant leap for mankind.

206

00:19:46,000 --> 00:19:49,000

That's one small step for man.

207

00:19:49,000 --> 00:19:52,000

One giant leap for mankind.

208

00:19:52,000 --> 00:19:56,000

One giant leap for mankind.

209

00:19:57,000 --> 00:20:03,000

Fast forward to 1976 and Armstrong is on another dangerous mission.

210

00:20:07,000 --> 00:20:12,000

Armstrong along with Scottish engineers Stan Hall and a hundred strong team

211

00:20:12,000 --> 00:20:18,000

heads off on a quest to find a massive cave system deep in the jungles of Ecuador in South America.

212

00:20:19,000 --> 00:20:22,000

The tunnels are said to be home to an incredible treasure.

213

00:20:22,000 --> 00:20:28,000

An ancient library of metal books which Armstrong and his fellow explorers hope to find.

214

00:20:28,000 --> 00:20:34,000

This library is claimed to have metal books all etched in an alien language

215

00:20:34,000 --> 00:20:38,000

recording a quarter of a million years of history.

216

00:20:38,000 --> 00:20:40,000

It's an incredible story.

217

00:20:40,000 --> 00:20:44,000

The Ecuadorian cave system is known as Cueva de los Teos

218

00:20:44,000 --> 00:20:47,000

and it's said to be guarded by an ancient tribe

219

00:20:47,000 --> 00:20:51,000

who have pledged to protect these artifacts at all costs.

220

00:20:51,000 --> 00:20:54,000

The Schwarz, they are very tough people.

221

00:20:54,000 --> 00:20:58,000

They have never been conquered either by the Incas or by the conquistadores.

222

00:20:58,000 --> 00:21:02,000

They got a reputation as fierce warriors of the forest.

223

00:21:02,000 --> 00:21:06,000

A major in the Ecuadorian army, Petroneo Jarmillo claimed

224

00:21:06,000 --> 00:21:13,000

that when he was 17 years old back in 1946, he actually entered the library.

225

00:21:14,000 --> 00:21:17,000

What Jarmillo says he saw is incredible, frankly.

226

00:21:17,000 --> 00:21:22,000

He says he saw these thousands of large metal books stacked on shelves

227

00:21:22,000 --> 00:21:27,000

each weighing about 20 kilograms and according to him each page was impressed

228

00:21:27,000 --> 00:21:32,000

with ideographs which are kind of geometric designs with written inscriptions.

229

00:21:32,000 --> 00:21:34,000

Why didn't he bring some treasure out?

230

00:21:34,000 --> 00:21:37,000

It was physically extremely difficult to get in there.

231

00:21:37,000 --> 00:21:42,000

He had to dive underwater, go in this underwater tunnel and then come up.

232

00:21:43,000 --> 00:21:48,000

And to carry any kind of heavy weight there was impossible.

233

00:21:49,000 --> 00:21:53,000

I mean you have to ask yourself, why would the world's foremost astronaut

234

00:21:53,000 --> 00:21:56,000

choose to get involved in something like this?

235

00:21:56,000 --> 00:22:00,000

Did something happen on the lunar surface to inspire this mission?

236

00:22:05,000 --> 00:22:09,000

Neil Armstrong and his fellow astronaut, Buzz Aldrin,

237

00:22:09,000 --> 00:22:14,000

spent 21 hours and 36 minutes on the moon when they landed in 1969.

238

00:22:14,000 --> 00:22:21,000

Official history says they planted a flag, collected rock samples and spoke to the president.

239

00:22:21,000 --> 00:22:28,000

But rumours have persisted that their trip was more eventful than the authorized account reveals.

240

00:22:29,000 --> 00:22:37,000

NASA insiders have talked about the cover-up of what the astronauts actually saw while they were on the moon.

241

00:22:37,000 --> 00:22:42,000

It's been reported that Armstrong and Aldrin saw lights on the edge of the crater

242

00:22:42,000 --> 00:22:44,000

and they reportedly radioed in.

243

00:22:44,000 --> 00:22:49,000

They're here, they're parked on the side of the crater, they're watching us.

244

00:22:49,000 --> 00:22:53,000

The feedback to Earth went dead for two minutes.

245

00:22:53,000 --> 00:22:58,000

NASA insists that actually the two-minute gap was simply due to a camera overheating

246

00:22:58,000 --> 00:23:01,000

and interfering with transmission.

247

00:23:01,000 --> 00:23:06,000

How could a simple malfunction interfere with such an important mission?

248

00:23:06,000 --> 00:23:11,000

There are multiple cameras filming from different locations, different angles

249

00:23:11,000 --> 00:23:17,000

so the loss of one camera shouldn't mean a loss of the entire feed.

250

00:23:17,000 --> 00:23:23,000

Buzz Aldrin went on record to say that he'd actually seen a UFO as the astronauts were returning to Earth.

251

00:23:23,000 --> 00:23:31,000

Now, he later retracted that statement and said that what he'd actually seen was a panel that was objected from his own spacecraft.

252

00:23:31,000 --> 00:23:37,000

There are other reports that NASA erased 40 rolls of film from the Apollo mission.

253

00:23:37,000 --> 00:23:47,000

Was NASA in effect hiding clear evidence of an extraterrestrial presence on the moon to avoid a mass panic on Earth?

254

00:23:47,000 --> 00:23:54,000

Whatever occurred on the moon's surface, Armstrong returns as one of the most famous men in the world

255

00:23:54,000 --> 00:23:59,000

and in 1976 he lends his name to an extraordinary expedition.

256

00:23:59,000 --> 00:24:02,000

Neil knows something about geology being to the moon.

257

00:24:02,000 --> 00:24:08,000

I thought, well, why don't we ask Neil Armstrong to be the titular head of the expedition?

258

00:24:08,000 --> 00:24:13,000

And of course they laughed and said Neil Armstrong, there's no way that you're going to get Neil Armstrong.

259

00:24:13,000 --> 00:24:20,000

Neil sent a letter saying that he considered it not a favour but an honour to accept the position.

260

00:24:21,000 --> 00:24:28,000

This was one of the largest and most costly cave expeditions ever undertaken.

261

00:24:28,000 --> 00:24:32,000

The quality of all the scientists and participants was extremely high.

262

00:24:32,000 --> 00:24:35,000

So Neil Armstrong was really in good company.

263

00:24:35,000 --> 00:24:41,000

The aim of the mission is to survey and map the underground cave system at Cueva de los Tios.

264

00:24:41,000 --> 00:24:49,000

The library buried deep in the cave was said to hold knowledge dating back 250,000 years.

265

00:24:49,000 --> 00:24:52,000

Far older than human history.

266

00:24:52,000 --> 00:24:59,000

The metal library, if it exists, could make us totally rethink what we know about the origins of humankind

267

00:24:59,000 --> 00:25:04,000

as well as about the potential for extraterrestrial civilizations.

268

00:25:04,000 --> 00:25:12,000

Finding this library could indeed be the proof that extraterrestrials had indeed visited Earth.

269

00:25:12,000 --> 00:25:18,000

But before they could get to the library, Armstrong and his team first had to get through to Earth.

270

00:25:18,000 --> 00:25:23,000

They first had to get through to rain almost as challenging as the lunar surface.

271

00:25:23,000 --> 00:25:27,000

There's the thick jungle to contend with, the venomous creatures,

272

00:25:27,000 --> 00:25:33,000

not to mention the risks of navigating an uncharted subterranean cave system.

273

00:25:33,000 --> 00:25:37,000

Neil Armstrong got no privileges of any kind nor did he want any.

274

00:25:37,000 --> 00:25:41,000

He simply stepped forward and then stepped straight onto this six inch wide ladder

275

00:25:41,000 --> 00:25:45,000

and began to climb down to the very farthest, deepest part of the cave.

276

00:25:45,000 --> 00:25:50,000

Paul, Armstrong and the whole team, they actually make their way into the cave.

277

00:25:50,000 --> 00:25:54,000

And they're just going through these chambers which are like the size of cathedrals.

278

00:25:54,000 --> 00:26:00,000

I mean, they're completely awestruck. It's like going onto another world.

279

00:26:00,000 --> 00:26:06,000

In the depths of these caves, they find this seated skeleton.

280

00:26:06,000 --> 00:26:13,000

The skeleton was positioned so that on a summer solstice, rays of sunlight would pierce the chamber.

281

00:26:13,000 --> 00:26:18,000

It does appear that whatever civilization created that chamber and put that skeleton there

282

00:26:18,000 --> 00:26:23,000

may well have had a fairly strong degree of astronomical knowledge.

283

00:26:23,000 --> 00:26:28,000

The hundred strong teams spend more than a month searching the whole cave system.

284

00:26:28,000 --> 00:26:33,000

But there is no sign that the library described in such detail by Hannah Neil.

285

00:26:33,000 --> 00:26:36,000

Eventually, they're forced to turn back.

286

00:26:36,000 --> 00:26:42,000

Neil Armstrong returns to America, but Stan Hall refuses to accept defeat.

287

00:26:42,000 --> 00:26:47,000

Stan Hall is not a man to give up and he continues with his quest.

288

00:26:47,000 --> 00:26:53,000

And in 1991, Hall actually manages to track down Petronio Jamiro,

289

00:26:53,000 --> 00:26:57,000

the one man who claims to know its exact location.

290

00:26:57,000 --> 00:27:00,000

His very first words to me on the telephone were,

291

00:27:00,000 --> 00:27:05,000

well, Mr. Hall, after 16 years, finally we meet.

292

00:27:05,000 --> 00:27:09,000

Jamiro agrees to show Hall the caves.

293

00:27:09,000 --> 00:27:14,000

But in 1995, war breaks out on the border between Ecuador and Peru

294

00:27:14,000 --> 00:27:16,000

and Hall has to return to Britain.

295

00:27:16,000 --> 00:27:20,000

Shortly afterwards, Hall receives devastating news.

296

00:27:20,000 --> 00:27:25,000

Plans for a joint expedition were abandoned in 1998

297

00:27:25,000 --> 00:27:30,000

when news came through that Jamiro had been killed.

298

00:27:30,000 --> 00:27:36,000

Did he take the secret of the metal library to his grave?

299

00:27:36,000 --> 00:27:39,000

Armstrong rarely discussed the expedition to the caves

300

00:27:39,000 --> 00:27:43,000

and would not be drawn on the subject of aliens, UFOs,

301

00:27:43,000 --> 00:27:50,000

or what happened during those supposed two minutes of lost time up on the lunar surface.

302

00:27:50,000 --> 00:27:57,000

He retreated from the media spotlight, but in 1994 he delivered this cryptic message.

303

00:27:57,000 --> 00:28:00,000

There are great ideas undiscovered.

304

00:28:01,000 --> 00:28:10,000

Breakthroughs available to those who can remove one of Truth's protective layers.

305

00:28:10,000 --> 00:28:14,000

There are places to go beyond belief.

306

00:28:14,000 --> 00:28:18,000

What did he mean by Truth's protective layers?

307

00:28:18,000 --> 00:28:22,000

I mean, the cosmos is billions of years old

308

00:28:22,000 --> 00:28:27,000

and there may even be civilizations out there, life out there, billions of years ahead of us.

309

00:28:27,000 --> 00:28:33,000

No wonder these tales of ancient astronauts and messages from extraterrestrials

310

00:28:33,000 --> 00:28:38,000

really fascinated this most famous of space travelers.

311

00:28:43,000 --> 00:28:48,000

January 31st, 2022, in the ancient Welsh town of Milford Haven,

312

00:28:48,000 --> 00:28:55,000

a series of strange events begin with the sighting of a weird object just off the coast.

313

00:28:56,000 --> 00:29:00,000

A 93-year-old woman reports that she'd seen some kind of craft,

314

00:29:00,000 --> 00:29:05,000

which she describes as round, huge, and shimmering.

315

00:29:05,000 --> 00:29:09,000

She says that this object emerged from the water.

316

00:29:09,000 --> 00:29:13,000

It hovered over the bay and then shot off into the snow.

317

00:29:13,000 --> 00:29:17,000

A few days later, another local resident, Isabella Cooper,

318

00:29:17,000 --> 00:29:21,000

says that she also saw an object matching the same description

319

00:29:21,000 --> 00:29:26,000

and she just manages to catch an image of it on her camera before it shoots away.

320

00:29:26,000 --> 00:29:33,000

She says she witnessed a bright blue spherical object hovering a few hundred metres above the Milford Haven estuary.

321

00:29:34,000 --> 00:29:39,000

All these reports are ignored, they're written off as cranks, but only at first

322

00:29:39,000 --> 00:29:44,000

because then some seriously strange things start to happen.

323

00:29:44,000 --> 00:29:49,000

People living by the sea front wake up to an extraordinary sight.

324

00:29:49,000 --> 00:29:54,000

Across the beach, they see hundreds of thousands of dead starfish.

325

00:29:55,000 --> 00:29:58,000

Local people say they've never seen anything like this before.

326

00:29:58,000 --> 00:30:01,000

Is there something in the water?

327

00:30:03,000 --> 00:30:06,000

A local woman comes across another scene of mass slaughter

328

00:30:06,000 --> 00:30:09,000

as she's driving into Milford Haven late at night.

329

00:30:09,000 --> 00:30:12,000

This time, it's death from the skies.

330

00:30:12,000 --> 00:30:16,000

Starlings, thousands of them, spread across the road.

331

00:30:19,000 --> 00:30:26,000

Just before this happened, people in the town reported seeing a bright flash of light and hearing a loud bang.

332

00:30:26,000 --> 00:30:31,000

Now, you might think that was thunder and lightning, but apparently it was something quite different.

333

00:30:31,000 --> 00:30:35,000

One onlooker describes how they had left work and heard a bang

334

00:30:35,000 --> 00:30:38,000

and then suddenly dead birds started falling on the car.

335

00:30:38,000 --> 00:30:42,000

More and more reports started coming in from other people who'd seen these birds dropping.

336

00:30:42,000 --> 00:30:48,000

Police are called to the scene and we're collecting ten bin bags full of dead starlings.

337

00:30:49,000 --> 00:30:54,000

What is the connection between these deaths and the object in the sky?

338

00:30:55,000 --> 00:30:58,000

What makes the events in Milford Haven all the more strange

339

00:30:58,000 --> 00:31:03,000

is that this sleepy Welsh town has been menaced by UFOs before.

340

00:31:06,000 --> 00:31:12,000

It's on February the 4th, 1977, and you have fourteen pupils from a primary school called Broad Haven

341

00:31:12,000 --> 00:31:18,000

who all claim to have seen a UFO fly over in the field next to their school.

342

00:31:18,000 --> 00:31:26,000

The disbelieving head teacher separated the pupils and asked them each individually to draw what they'd seen.

343

00:31:26,000 --> 00:31:31,000

People were struck by the resemblance between the pictures that were produced.

344

00:31:31,000 --> 00:31:34,000

On the same day, there were children in the nearby village of Hubberston

345

00:31:34,000 --> 00:31:37,000

who saw another strange object over their school.

346

00:31:37,000 --> 00:31:43,000

Now, Hubberston is only ten minutes away from Milford Haven, so it could have been the same object.

347

00:31:44,000 --> 00:31:49,000

A short while later, Rosa Granville, who runs the Haven Fort Hotel,

348

00:31:49,000 --> 00:31:54,000

wakes up in the middle of the night and reports seeing an upside-down saucer.

349

00:31:54,000 --> 00:32:00,000

Granville spoke about the light and heat coming off the craft, and she reported that it burned her face.

350

00:32:00,000 --> 00:32:07,000

Rosa Granville reports seeing two faceless creatures that looked almost humanoid.

351

00:32:07,000 --> 00:32:12,000

She ran to get others to show it to them, but by the time she got back, they had disappeared.

352

00:32:12,000 --> 00:32:17,000

Rosa Granville and her band of would-be witnesses, they'd go to the place where she had seen the object.

353

00:32:17,000 --> 00:32:22,000

Strangely enough, they found scorched grass two inches deep.

354

00:32:22,000 --> 00:32:29,000

Disturbed, Rosa wrote her local MP who promptly got the Ministry of Defense to come and

investigate.

355

00:32:29,000 --> 00:32:37,000

An RF officer visited Rosa and went to examine the scene, but left as mystified as he had arrived.

356

00:32:37,000 --> 00:32:43,000

But then the visitation stopped as mysteriously as they had started.

357

00:32:43,000 --> 00:32:50,000

Fast forward to 2022, and once again we have sightings of strange objects over Milford Haven,

358

00:32:50,000 --> 00:32:57,000

but now the mystery deepens a bit because we have these dead sea creatures and dead birds in the equation as well.

359

00:32:57,000 --> 00:33:03,000

Surely there's got to be a human or logical explanation.

360

00:33:03,000 --> 00:33:08,000

The location of these sightings around Milford Haven may well provide some answers,

361

00:33:08,000 --> 00:33:13,000

because actually this place is not as quiet as it looks.

362

00:33:13,000 --> 00:33:18,000

Milford Haven's geography makes it very desirable from a military perspective.

363

00:33:18,000 --> 00:33:24,000

It's on an estuary which helps form a natural protective harbor.

364

00:33:24,000 --> 00:33:29,000

Milford Haven was used in wars with Vikings, Normans, Tudor wars,

365

00:33:29,000 --> 00:33:33,000

and it was buzzing with military activity during the First and Second World Wars.

366

00:33:33,000 --> 00:33:39,000

American military engineers actually built their largest advanced amphibious base here.

367

00:33:39,000 --> 00:33:44,000

It was absolutely crucial in the run-up to the D-Day landings.

368

00:33:44,000 --> 00:33:48,000

Today, Milford Haven port has another strategically important asset.

369

00:33:48,000 --> 00:33:51,000

There's a huge oil and gas terminal here.

370

00:33:51,000 --> 00:33:58,000

It's the largest liquid natural gas terminal in Europe and can supply up to a quarter of the UK's gas requirement.

371

00:33:58,000 --> 00:34:04,000

It's also the main gateway into Britain for fuel supplies from the rest of the world.

372

00:34:04,000 --> 00:34:08,000

With all this infrastructure, it's clear that you're going to need a lot of security,

373

00:34:08,000 --> 00:34:18,000

so some of these supposedly mysterious flying objects could actually be something to do with protecting Milford Haven as a vital national asset.

374

00:34:18,000 --> 00:34:26,000

But the recent reported sightings came from local people who would have been used to the normal comings and goings in the area.

375

00:34:26,000 --> 00:34:33,000

And they were accompanied by these mass deaths of wildlife at sea and on land.

376

00:34:33,000 --> 00:34:38,000

In the natural world, mass die-offs are rare, but not unheard of.

377

00:34:38,000 --> 00:34:44,000

And the cause of this, when it happens in nature, is said to be a traumatic weather event.

378

00:34:44,000 --> 00:34:47,000

Did a storm cause the death of all these sea creatures?

379

00:34:47,000 --> 00:34:53,000

Well, it's a plausible explanation, except that there were no storms reported in the region at the

time.

380

00:34:53,000 --> 00:34:55,000

What about the birds?

381

00:34:55,000 --> 00:34:59,000

Now, that day, there was a bang, whatever the cause of it, in the sky.

382

00:34:59,000 --> 00:35:05,000

In theory, this could have disorientated the birds and unable to tell in which direction they are flying.

383

00:35:05,000 --> 00:35:07,000

They flew just straight into the ground.

384

00:35:07,000 --> 00:35:15,000

But this doesn't really tally with the reports of local observers, who say that the birds were dropping out of the sky already dead

385

00:35:15,000 --> 00:35:18,000

and that they continued to do so for some time.

386

00:35:18,000 --> 00:35:21,000

And what caused this bang in the sky is still unknown.

387

00:35:22,000 --> 00:35:28,000

Police in Wales recently released a remarkable piece of film showing an unidentified flying object.

388

00:35:28,000 --> 00:35:35,000

It was picked up in 2016 on the forces thermal imaging cameras, but was totally invisible to the naked eye.

389

00:35:35,000 --> 00:35:41,000

Perhaps these craft have been operating unseen over West Wales for 50 years.

390

00:35:41,000 --> 00:35:48,000

If this is the case, why they are sporadically showing themselves is an intriguing question.

391

00:35:49,000 --> 00:35:51,000

So the mystery remains unresolved.

392

00:35:51,000 --> 00:35:58,000

There's still no explanation of these alleged strange sightings of aircrafts and mass die-offs.

393

00:35:58,000 --> 00:36:03,000

Certain places in the world have earned the term UFO hotspot,

394

00:36:03,000 --> 00:36:10,000

a place where so-called UFO activity seems to occur over years or even decades.

395

00:36:10,000 --> 00:36:14,000

Milford Haven has no doubt joined those ranks.

396

00:36:14,000 --> 00:36:22,000

But locals and wildlife lovers alike want to know what is it about their town that draws these strange forces

397

00:36:22,000 --> 00:36:25,000

and what might be coming next.

398

00:36:37,000 --> 00:36:42,000

UFOs, often seen in the skies, are long presumed to come from outer space.

399

00:36:42,000 --> 00:36:46,000

But perhaps the truth is far more unnerving.

400

00:36:46,000 --> 00:36:53,000

We have to be very careful and temper ourselves when we start talking about the reality.

401

00:36:53,000 --> 00:36:56,000

Are these things real? Are these things from outer space?

402

00:36:56,000 --> 00:36:59,000

They could be. Are they from inner space or the space in between?

403

00:36:59,000 --> 00:37:03,000

I was giving a briefing to a general about this topic.

404

00:37:03,000 --> 00:37:05,000

And at about half way through the briefing, the general said,

405

00:37:05,000 --> 00:37:08,000

Look, Lou, I just need to know at the end of the day,

406

00:37:08,000 --> 00:37:11,000

If I see one of these things, do I extend my hand out and handshake,

407

00:37:11,000 --> 00:37:14,000

and offer to shake a tander, do I point an M16 out of 10?

408

00:37:14,000 --> 00:37:19,000

And the answer is neither. It's just far more complex than that.

409

00:37:19,000 --> 00:37:29,000

Incredibly, some analysts have theorized that the occupants of UFOs are actually demonic entities visiting us from a parallel dimension.

410

00:37:29,000 --> 00:37:37,000

Bioretical physicist Dr. Fred Allen Wolfe thinks that something like a spirit world is encoded in a quantum state.

411

00:37:37,000 --> 00:37:41,000

A parallel dimension that intersects with our own.

412

00:37:41,000 --> 00:37:48,000

To better understand what this means, we need to go back to the early days of NASA and the US Air Force,

413

00:37:48,000 --> 00:37:54,000

and take a look at one of the most revolutionary scientists at the time.

414

00:37:54,000 --> 00:37:58,000

Jack Parsons was a brilliant American rocket engineer and chemist.

415

00:37:58,000 --> 00:38:02,000

He's considered by Sun to be the founding father of rocket science.

416

00:38:02,000 --> 00:38:11,000

In 1934, the age of only 20, Jack Parsons and his Caltech graduate friends formed the Rocket Research Group.

417

00:38:11,000 --> 00:38:18,000

Just five years later, they would become the first government-funded rocket research organization in American history.

418

00:38:18,000 --> 00:38:24,000

The group created the Jet Assisted Takeoff Engine, or JETO, for the US Army.

419

00:38:24,000 --> 00:38:29,000

Parsons also developed a rocket fuel that was stable enough to be stored indefinitely.

420

00:38:29,000 --> 00:38:32,000

A hugely significant development.

421

00:38:32,000 --> 00:38:34,000

The fuel was a total game changer.

422

00:38:34,000 --> 00:38:42,000

It would become the basis for the Minutemen missile, the Titan rocket, and eventually the Space Shuttle boosters.

423

00:38:42,000 --> 00:38:51,000

Parsons also helped found the hugely important NASA-owned Jet Propulsion Laboratory in California.

424

00:38:52,000 --> 00:38:55,000

So far, so standard for a top American scientist.

425

00:38:55,000 --> 00:38:59,000

But Parsons wasn't a normal guy in a lab coat.

426

00:38:59,000 --> 00:39:05,000

He was fascinated by the seemingly spooky qualities of quantum mechanics.

427

00:39:05,000 --> 00:39:11,000

Quantum theory is rock-solid science, but for some it also has magical properties.

428

00:39:11,000 --> 00:39:18,000

A particle does not have to be here or there. It can be here and there at the same time.

429

00:39:18,000 --> 00:39:23,000

To this day, there is still no comprehensive theory of everything.

430

00:39:23,000 --> 00:39:31,000

Both Einstein's theory of relativity and quantum mechanics are accepted explanations of how different parts of the universe works.

431

00:39:31,000 --> 00:39:36,000

But their theories aren't actually compatible, and no one knows how to make them so.

432

00:39:36,000 --> 00:39:43,000

For Parsons, space exploration, quantum mechanics, and black magic were just sides of the same coin.

433

00:39:43,000 --> 00:39:47,000

They were all previously thought of as impossible, mad.

434

00:39:47,000 --> 00:39:53,000

But Parsons was turning one into a reality, and he was going to do the same for the others.

435

00:39:53,000 --> 00:39:57,000

In 1949, Parsons wrote,

436

00:39:57,000 --> 00:40:02,000

It has seemed to me that if I had the genius to found the Jet Propulsion Field in the US,

437

00:40:02,000 --> 00:40:07,000

found a multi-million dollar corporation and a world-renowned research laboratory,

438

00:40:07,000 --> 00:40:11,000

then I should also be able to apply this genius to the magical field.

439

00:40:12,000 --> 00:40:19,000

To achieve his bizarre goal of trying to unite the physical and the metaphysical world into an ultimate theory of everything,

440

00:40:19,000 --> 00:40:27,000

Parsons got in contact with a man known as the Great Beast, a British Satanist called Alastair Crowley.

441

00:40:27,000 --> 00:40:33,000

Crowley inducted him into a group that claimed to conjure and communicate with demons.

442

00:40:33,000 --> 00:40:38,000

He was part of the secret society known as the Ordo Templi Orientis.

443

00:40:38,000 --> 00:40:41,000

They were practitioners of the Thelomite occult.

444

00:40:41,000 --> 00:40:46,000

They believed that humans are made of the same thing as stars.

445

00:40:46,000 --> 00:40:52,000

Considering the Big Bang Theory didn't exist until the 1920s or 30s, that's pretty interesting.

446

00:40:53,000 --> 00:41:02,000

Crowley told Parsons that at the height of World War I, he developed a magical ritual that ripped open a gateway in reality.

447

00:41:03,000 --> 00:41:09,000

According to Crowley, the ritual would summon weird lights followed by a creature called lamb.

448

00:41:09,000 --> 00:41:15,000

A sketch made of this entity looks uncannily like a classic grey alien.

449

00:41:17,000 --> 00:41:24,000

In the spring of 1946, Parsons said he took Crowley's knowledge and performed a similar ritual,

450

00:41:24,000 --> 00:41:33,000

opening a portal or rib between dimensions using a combination of ancient magic and his knowledge of quantum physics.

451

00:41:33,000 --> 00:41:38,000

Parsons actually wanted to reproduce with whatever creature came.

452

00:41:38,000 --> 00:41:42,000

He wanted to father a new kind of being, a moon child.

453

00:41:42,000 --> 00:41:49,000

What the ritual entailed is not entirely clear, but Parsons claims it was a success.

454

00:41:49,000 --> 00:41:56,000

Just one year later in 1947, the world's first ever UFO sighting was reported.

455

00:41:57,000 --> 00:42:11,000

June 24th, 1947, at 3pm, pilot Kenneth Arnold reports nine mysterious objects moving at over 1,200 miles per hour over Mount Rainier in Washington State, USA.

456

00:42:11,000 --> 00:42:14,000

The modern UFO era is born.

457

00:42:14,000 --> 00:42:18,000

The story was huge. The nation's first UFO report.

458

00:42:18,000 --> 00:42:26,000

Private pilot Kenneth Arnold sighted nine saucer-like things. He estimated the speed of the saucers at 1,200 miles per hour.

459

00:42:26,000 --> 00:42:33,000

For some, the question is, did Parsons really succeed in getting the attention of other dimensional beings?

460

00:42:34,000 --> 00:42:40,000

At the end of the Second World War, the US Air Force has over 63,000 active aircraft.

461

00:42:40,000 --> 00:42:46,000

If any arm of the military is likely to encounter UFOs, it's these guys.

462

00:42:47,000 --> 00:42:58,000

In 1952, not long after these first modern-day UFO sightings, the US Air Force set up Project Blue Book, keen to get to the bottom of what UFOs might be.

463

00:42:59,000 --> 00:43:09,000

Project Blue Book systematically studied over 12,000 UFO reports, but the Air Force was accused of trying to cover up incidents and discourage coming forward.

464

00:43:09,000 --> 00:43:15,000

The Air Force has been accused in time of hiding information about UFO. What do you have to say to that?

465

00:43:16,000 --> 00:43:22,000

These charges are absolutely untrue. There's nothing to hide. There's nothing to hide at all.

466

00:43:22,000 --> 00:43:27,000

Top Air Force personnel managed to have the Blue Book closed in 1969.

467

00:43:28,000 --> 00:43:33,000

Could it be that they didn't want the world to know what they found in these reports?

468

00:43:33,000 --> 00:43:41,000

Perhaps Parsons indeed succeeded in satisfying his theories of quantum physics and magic to open a portal to another world.

469

00:43:42,000 --> 00:43:48,000

UAPs seem to behave in ways that defy the laws of physics as we understand them.

470

00:43:48,000 --> 00:43:52,000

Could this mean that these UAPs are from a different plane of existence?

471

00:43:53,000 --> 00:43:59,000

Parsons may very well have believed so. However, this would never be confirmed by the man himself.

472

00:44:00,000 --> 00:44:06,000

Police say Parsons died tragically in a home accident while mixing explosives in a coffee can.

473

00:44:06,000 --> 00:44:11,000

Some of those who knew him said he was performing an occult ritual.

474

00:44:11,000 --> 00:44:20,000

His legacy might be both the dawn of America's space program and perhaps even the opening of a door to another dimension, and those who come through it.

475

00:44:20,000 --> 00:44:25,000

As we learn more about quantum theory, perhaps the truth will become clear.

476

00:44:25,000 --> 00:44:33,000

I mean, there's a lot we still don't understand about the world, and theories like quantum mechanics can seem as mystical as they are scientific.
