

1

00:00:00,000 --> 00:00:03,000

NASA announces its investigating UFOs.

2

00:00:03,000 --> 00:00:07,000

But is it already hiding a truth too terrifying to reveal?

3

00:00:07,000 --> 00:00:14,000

Edgar Mitchell, Gordon Cooper, and Jim McVivitt all said that they saw UFOs while they were in space.

4

00:00:14,000 --> 00:00:18,000

A lot of the astronauts have signed papers not to talk. They have their retirements taken away.

5

00:00:18,000 --> 00:00:21,000

They're told to keep it quiet. And they're good Americans too.

6

00:00:21,000 --> 00:00:25,000

I mean, it comes under the guise of national security.

7

00:00:25,000 --> 00:00:32,000

The world famous Tic Tac. A spacecraft or a time machine from the future.

8

00:00:32,000 --> 00:00:42,000

The fact that we see the Tic Tac form in 1960, 2004, 2014, 2015 indicates that it may be the same machine coming from the same point in time.

9

00:00:42,000 --> 00:00:48,000

And a woman is filmed as she seems to teleport from her bed at 3 a.m.

10

00:00:48,000 --> 00:00:54,000

And some believe that this is the time that aliens deliberately choose to interact with us.

11

00:00:54,000 --> 00:01:01,000

It's when the world is at its quietest and it's when we are at our most vulnerable.

12

00:01:01,000 --> 00:01:11,000

UFOs, once the stuff of science fiction, now caught on camera, finally forcing governments to reveal what they know.

13

00:01:11,000 --> 00:01:15,000

UAPs aren't unexplained, but they are real.

14

00:01:16,000 --> 00:01:23,000

Many of these phenomena have been cited in training languages. We're very much concerned about safety of flight.

15

00:01:23,000 --> 00:01:30,000

So let's just speculate for one moment that these things, whatever they are, are here to do not very good things.

16

00:01:30,000 --> 00:01:37,000

Impossible engineering. Terrifying encounters. Sinister cover-ups.

17

00:01:37,000 --> 00:01:42,000

This is evidence of the unexplained.

18

00:01:45,000 --> 00:01:46,880

The

19

00:02:00,000 --> 00:02:09,000

February 2020. A mysterious conical object the size of a bus is filmed keeping pace with the

International Space Station for 20 minutes.

20

00:02:10,000 --> 00:02:19,000

But NASA officials claim it is simply space junk, even though finally it seems to power away under its own control.

21

00:02:19,000 --> 00:02:29,000

Two years later on the 9th of June 2022, NASA, which has always dismissed talk of UFOs, seems to change its tune.

22

00:02:30,000 --> 00:02:40,000

Welcome to today's media teleconference on a new independent scientific study that NASA's commissioning on unidentified aerial phenomena.

23

00:02:40,000 --> 00:02:47,000

They're the observations of events in the sky that cannot be identified as aircraft or as natural phenomena.

24

00:02:47,000 --> 00:02:53,000

The North American Space Agency is now going to start studying them.

25

00:02:54,000 --> 00:03:02,000

I want to first say that of course part of our task at NASA, given to us by Congress, is not only to do

26

00:03:02,000 --> 00:03:08,000

fundamental research in the skies and so forth, but as part of that also to find life elsewhere.

27

00:03:08,000 --> 00:03:12,000

This excited journalist at the press conference asked the big question.

28

00:03:12,000 --> 00:03:19,000

What's the budget NASA's allocated for this and where is the funding coming from to support the study today?

29

00:03:19,000 --> 00:03:26,000

How much of the agency's \$24 billion budget is going to be allocated to this new work?

30

00:03:26,000 --> 00:03:35,000

To speak about budget, so on budget, we would estimate it anywhere between a few tens of thousands of dollars, certainly no more than a hundred k.

31

00:03:35,000 --> 00:03:44,000

\$100,000 to study the world-changing possibility that a non-human intelligence is at work in the space around our planet.

32

00:03:44,000 --> 00:03:49,000

That's just above the average annual salary of one NASA worker.

33

00:03:49,000 --> 00:03:59,000

Why does it seem like NASA is putting such a small percentage of its huge budget towards studying unidentified aerial phenomenon?

34

00:03:59,000 --> 00:04:08,000

The tiny budget makes me wonder if NASA doesn't really value the problem enough to put the resources behind it that one would think they ought to.

35

00:04:08,000 --> 00:04:16,000

Many of NASA's former workers claim the organization has deliberately kept the truth about UFOs from the public for decades.

36

00:04:16,000 --> 00:04:24,000

My name is Donna Hare. During the 70s and 71, I worked in the building 8 of NASA.

37

00:04:24,000 --> 00:04:34,000

Donna Hare, now an award-winning illustrator, says she was a photographic technician at a private laboratory contracted by NASA in the 1970s.

38

00:04:34,000 --> 00:04:39,000

I walked into a restricted area, which was not my company. It was the NASA photo lab.

39

00:04:39,000 --> 00:04:50,000

One of the gentlemen I had been friends with, he pointed my attention to one panel of a mosaic, which are several panels put together to form a larger picture.

40

00:04:50,000 --> 00:04:56,000

And these were either, I believe they were satellite pictures. I'm not sure. There were aerial looking down.

41

00:04:56,000 --> 00:05:03,000

And I said, this is really interesting. He explained everything. And then he, with a smile on his face, he said, look over there.

42

00:05:03,000 --> 00:05:12,000

And I looked and in one of the photo panels, I saw a round white dot. And at the time it was very crisp, very sharp lines on it.

43

00:05:12,000 --> 00:05:25,000

And I said to him, what is that? Is that a dot on the emulsion? And then he's grinning and he says, dots on the emulsion don't leave round shadows on the ground.

44

00:05:25,000 --> 00:05:34,000

She was told that space photographs were being doctored by NASA to hide UFOs before being released.

45

00:05:34,000 --> 00:05:41,000

And I said, is this a UFO? And he's smiling at me and he says, I can't tell you that.

46

00:05:41,000 --> 00:05:49,000

So I said, what are you going to do with this information? And he said, well, we always have to airbrush them out before we sell them to the public.

47

00:05:49,000 --> 00:05:55,000

And I was just amazed that they had a protocol in place for getting rid of UFO pictures.

48

00:05:55,000 --> 00:06:07,000

She claims another NASA employee was forced by military personnel to burn a sheaf of UFO photographs and another was hit with a rifle butt when he tried to take a look.

49

00:06:07,000 --> 00:06:16,000

I started asking questions. Alone, they would tell me things and then swear if I ever said they said it, they would say I was lying.

50

00:06:16,000 --> 00:06:20,000

One gentleman that I knew very well was in quarantine with some of the astronauts.

51

00:06:20,000 --> 00:06:28,000

He said just about every one of them has seen things when they went to the moon that were, in fact, one said that they were there.

52

00:06:28,000 --> 00:06:30,000

Craft were on the moon at that time.

53

00:06:30,000 --> 00:06:45,000

Even more astonishingly, she says she was told that back in 1969, during the historic moon landings, a trio of UFOs followed the astronauts as they explored the surface of the moon.

54

00:06:45,000 --> 00:06:54,000

And this was relayed to her by an unnamed colleague who had been working with the astronauts during that quarantine period.

55

00:06:54,000 --> 00:07:04,000

She says that NASA codenamed this trio of UFOs Santa Claus before then airbrushing them from all released images.

56

00:07:04,000 --> 00:07:12,000

Donna also claimed that NASA employees who wanted to speak out were threatened with gagging orders and told that they would lose their pensions.

57

00:07:12,000 --> 00:07:15,000

They've signed papers not to talk. They have their retirements taken away.

58

00:07:15,000 --> 00:07:19,000

A lot of the astronauts are told to keep it quiet and they're good Americans too.

59

00:07:19,000 --> 00:07:22,000

I mean, it comes under the guise of national security.

60

00:07:22,000 --> 00:07:36,000

It's a fantastical story, but her claims are echoed by photographic technician, Sergeant Carl Wolf, who was working at tactical air command at Langley Air Force Base in Virginia in the 1960s.

61

00:07:36,000 --> 00:07:44,000

I was in the United States Air Force from 1964 until 1968.

62

00:07:44,000 --> 00:07:55,000

He says he was asked to help out at the next door national security agency, the NSA, who were bringing in information from the lunar orbiter.

63

00:07:55,000 --> 00:08:03,000

There, he says he was told by an NSA technician that they had found a base on the dark side of the moon.

64

00:08:03,000 --> 00:08:10,000

We walked over to one side of the lab and he said, by the way, we've discovered a base on the back side of the moon.

65

00:08:10,000 --> 00:08:14,000

I said, who's? What do you mean, who's?

66

00:08:14,000 --> 00:08:21,000

And then he pulled out one of these mosaics and showed this base, which had geometric shapes.

67

00:08:21,000 --> 00:08:26,000

There were towers. There were spherical buildings.

68

00:08:26,000 --> 00:08:33,000

There were very tall towers and things that looked somewhat like radar dishes, but they were large structures.

69

00:08:33,000 --> 00:08:38,000

I realized that he was telling me this information because he didn't have anybody else to talk to.

70

00:08:38,000 --> 00:08:44,000

And he had a high level security clearance, obviously, but he couldn't share that information with anybody else.

71

00:08:44,000 --> 00:08:49,000

He was very distressed and he needed to discuss it with somebody.

72

00:08:49,000 --> 00:08:56,000

More than 600 humans have been into space since the first manned space flight in 1961.

73

00:08:56,000 --> 00:09:01,000

And many of these astronauts have returned with claims that we are not alone.

74

00:09:01,000 --> 00:09:08,000

Edgar Mitchell, Gordon Cooper and Jim McDivitt all said that they saw UFOs while they were in space.

75

00:09:08,000 --> 00:09:16,000

Gordon Cooper was a pioneering astronaut, engineer and test pilot who joined the US Air Force in 1949

76

00:09:16,000 --> 00:09:25,000

and who, in 1963, made the longest space flight in history, orbiting the Earth 22 times in a Mercury space capsule.

77

00:09:25,000 --> 00:09:34,000

Gordon Cooper says that his birth sighting was in 1951, but years later he came across another UFO.

78

00:09:34,000 --> 00:09:45,000

This encounter wasn't in space, but at Edwards Air Force Base in California in 1957, when Cooper was a supersonic test pilot.

79

00:09:45,000 --> 00:09:53,000

What he says is, I saw the vehicle set down, put down its landing gear and land, and then when we approached filming it,

80

00:09:53,000 --> 00:09:59,000

it took off again at a very great rate of speed. And was it similar to what you saw in 1951?

81

00:09:59,000 --> 00:10:03,000

He's asked and he goes, yes, it was. It was a kind of double saucer.

82

00:10:03,000 --> 00:10:08,000

And this is a very good shape, he says, for traveling through Earth's atmosphere.

83

00:10:08,000 --> 00:10:17,000

And even modern day astronauts are starting to come forward and say there is more to the UFO phenomenon than had previously been acknowledged.

84

00:10:17,000 --> 00:10:23,000

So on July the 13th, 2022, you have British astronaut Tim Peake going on air onto Good Morning Britain.

85

00:10:23,000 --> 00:10:28,000

He actually says, I think it's a really good thing that these discussions are being had.

86

00:10:28,000 --> 00:10:33,000

And he also says, I don't think it's a development of any state nation, not at all.

87

00:10:33,000 --> 00:10:40,000

And he also adds, it does seem extraordinary what these machines are capable of. There is no explanation for it.

88

00:10:40,000 --> 00:10:49,000

And now NASA's leader, former astronaut Bill Nelson says he believes in the possibility of advanced extraterrestrials.

89

00:10:49,000 --> 00:11:01,000

When asked what they could be, Nelson replies, who am I to say that planet Earth is the only location of a life form that is as civilized and organized as ours is?

90

00:11:01,000 --> 00:11:07,000

Now that seems to be a very popular way that NASA employees have of framing the narrative.

91

00:11:07,000 --> 00:11:14,000

In an interview with The Guardian newspaper in December 2021, Nelson said, do I think there's life in the universe?

92

00:11:14,000 --> 00:11:22,000

The answer is clearly I do and we're searching for it. Nelson continued, you've seen those films that have now been made public.

93

00:11:22,000 --> 00:11:27,000

They, talking about the Navy pilots, know they saw something.

94

00:11:28,000 --> 00:11:34,000

Is it an adversary on Earth that has this technology? I hope not.

95

00:11:34,000 --> 00:11:42,000

Perhaps they are spending just \$100,000 on the new study because they already know the outcome.

96

00:11:42,000 --> 00:11:49,000

Is this just a way of NASA bringing the public up to speed on something that they've known about for some time?

97

00:11:49,000 --> 00:11:53,000

And if that is the case, well, what is it they know?

98

00:11:53,000 --> 00:12:02,000

NASA officials say that they initially want to find out which of these observations are natural phenomena so they can ensure the safety of US aircraft.

99

00:12:02,000 --> 00:12:12,000

And crucially, NASA has also said that the results will be shared publicly as part of NASA's commitment to scientific integrity and openness.

100

00:12:12,000 --> 00:12:21,000

Could this mean that for the first time, the full, unexplogated files of UFO sightings by NASA astronauts could be made available?

101

00:12:22,000 --> 00:12:30,000

If the legendary space agency opens its vaults and tells us what it knows, it may really be one giant leap for mankind.

102

00:12:30,000 --> 00:12:39,000

It does seem that there is a huge amount of information from NASA astronauts, whether in space or on Earth.

103

00:12:39,000 --> 00:12:49,000

So at what points does NASA come clean and tell us what's been seen on these missions? And what on Earth does it all mean?

104

00:12:52,000 --> 00:12:58,000

It's the most famous UFO encounter of the 21st century.

105

00:12:58,000 --> 00:13:00,000

When will it come to NASA?

106

00:13:00,000 --> 00:13:02,000

I don't know, I'll think, dude.

107

00:13:02,000 --> 00:13:05,000

Well, I think it's a huge thing.

108

00:13:06,000 --> 00:13:16,000

But did US naval pilots of the coast of California on November the 14th, 2004 encounter alien spaceships or something else entirely?

109

00:13:16,000 --> 00:13:19,000

Perhaps a time machine.

110

00:13:20,000 --> 00:13:37,000

The pilots were flying F-18 fighter jets, super hornets based on board USS Nimitz, an aircraft carrier of the coast of San Diego.

111

00:13:37,000 --> 00:13:51,000

On November the 14th, they detect one of these anomalous aerial vehicles and they track it descending from 80,000 feet to 20,000 feet in less than a second.

112

00:13:52,000 --> 00:14:01,000

The spy 1 radar only goes up to about 80,000 feet. Anything past that, it loses fidelity. So these things could have actually been coming in from low Earth orbit.

113

00:14:02,000 --> 00:14:09,000

David Fraver and Lieutenant Alex Dietrich were both flying with a weapon systems officer in the back seat.

114

00:14:10,000 --> 00:14:19,000

Now what they see looks like a giant tic-tac. It's about 40 feet long and its movements are really quite erratic.

115

00:14:21,000 --> 00:14:29,000

And what's strangest of all is that the pilots and the systems officers can't see what is making this object fly.

116

00:14:31,000 --> 00:14:36,000

There is no obvious line of propulsion or wings or anything like that.

117

00:14:38,000 --> 00:14:43,000

Navy commander David Fraver attempts to get closer to the object.

118

00:14:45,000 --> 00:14:55,000

He kind of circles downwards towards it and he says that that's when the tic-tac, if you like, suddenly totally changes both position and direction.

119

00:14:56,000 --> 00:15:07,000

The most advanced human technology cannot even begin to complete such a fast and total shift in movement.

120

00:15:10,000 --> 00:15:20,000

What's more alarming still, according to Fraver, is that the tic-tac starts to climb up towards him and he says it was if it was mimicking his movements.

121

00:15:21,000 --> 00:15:23,000

Oh my gosh!

122

00:15:25,000 --> 00:15:29,000

They're going against the wind. The wind's 100.

123

00:15:32,000 --> 00:15:38,000

The so-called tic-tac comes so close to Fraver, he says he thought it was preparing to engage.

124

00:15:39,000 --> 00:15:43,000

Then, all at once, the object vanished.

125

00:15:44,000 --> 00:15:54,000

This encounter changed the whole conversation about UFOs. But had this particular craft turned up 50 years previously?

126

00:15:55,000 --> 00:16:08,000

On April the 24th 1964, outside Sorocco, New Mexico, police officer Lonnie Zamora sees a strange, very bright light off the desert road. He goes to investigate.

127

00:16:09,000 --> 00:16:17,000

What Zamora claims is that he sees this oval object and it looked like it was made out of aluminium or some kind of other metal.

128

00:16:18,000 --> 00:16:30,000

It's uncannily similar in design to the so-called tic-tac craft seen by the Navy pilots in 2004 and this time occupants of the vehicle allegedly emerge.

129

00:16:31,000 --> 00:16:45,000

Now what he claims is that he sees these two humanoid figures disappear behind the oval object and they were small apparently, so he thought they're either short adults or tall children and they were dressed in white overalls.

130

00:16:46,000 --> 00:17:05,000

Then Zamora describes a loud sound coming from the oval object. It rose to hover about 20 to 30 feet in the air and Zamora says it hung there noiselessly for a while before it moved off, also without any noise.

131

00:17:06,000 --> 00:17:18,000

In science fiction the occupants of UFOs are depicted as visitors from other worlds, but the nearest star known to have a planet is Proxima Centauri over four light years away.

132

00:17:19,000 --> 00:17:32,000

It would take 73,000 years to reach Earth by conventional spacecraft. The Pentagon is considering a more exotic possibility that UFOs are actually travellers in time.

133

00:17:33,000 --> 00:17:41,000

When we talk about UAPs and UFOs and time travellers and all that, we have to understand that we really don't understand time very well ourselves.

134

00:17:41,000 --> 00:17:50,000

In his theory of relativity, Einstein theorized that the universe has four dimensions. The first three are spatial and the fourth of course is time.

135

00:17:50,000 --> 00:17:58,000

And together they form space-time with the space-time continuum which actually defines all our physical reality.

136

00:17:59,000 --> 00:18:09,000

Albert Einstein believed that our physical reality might have holes in it. Passage through time that with advanced technology it might be possible to access.

137

00:18:10,000 --> 00:18:26,000

Many scientists and astronomers believe that wormholes are all around us. They're very, very tiny. Nothing is actually flat or solid. If you look very closely at anything you'll see tiny holes or wrinkles.

138

00:18:27,000 --> 00:18:40,000

Take something as smooth and solid looking as a pool ball. If you look closely enough you'll see

there are holes. It's easy for us to see this in the first three dimensions.

139

00:18:40,000 --> 00:18:47,000

But it's true of the fourth as well. There are holes and wrinkles in time.

140

00:18:47,000 --> 00:18:57,000

If this is how UFOs are travelling, it could explain the seemingly bizarre movements of the craft seen by Zamora and the pilots of the Nimitz.

141

00:18:57,000 --> 00:19:10,000

This would explain the tic-tac's ability to appear and disappear both from sight and radar. They are entering and exiting our dimension, not moving within it.

142

00:19:11,000 --> 00:19:18,000

Professor Michael P. Masters of Montana University believes these craft might have the ability to travel through time.

143

00:19:21,000 --> 00:19:27,000

One indication of these craft are time machines is that we see the same versions of them in different periods.

144

00:19:28,000 --> 00:19:39,000

The fact that we see the tic-tac form in 1960, 2004, 2014, 2015 indicates that it may be the same machine coming from the same point in time.

145

00:19:39,000 --> 00:19:54,000

And he has concluded that accounts of occupants add weight to this theory. Masters has studied the description of the humanoids given by Lonnie Zamora and others who have claimed to witness occupants in or around a UFO.

146

00:19:55,000 --> 00:20:04,000

So one of the traits that characterizes human evolution is we have neoteny or pedomorphosis, where you have the retention of juvenile traits into adulthood.

147

00:20:04,000 --> 00:20:12,000

So for instance, we look more like the childlike form of chimpanzees, which are closest living relative on this planet.

148

00:20:12,000 --> 00:20:23,000

And what's interesting is very commonly these UFO-occupied instance visitors are described as being very childlike or having traits that have been compared to a fetus.

149

00:20:23,000 --> 00:20:31,000

These fetal-like characteristics, and it's just one of many things that would seem to indicate that there's genetic continuity between us and them.

150

00:20:32,000 --> 00:20:36,000

So rather than being from outside of Earth, they come from outside of time.

151

00:20:37,000 --> 00:20:43,000

One apparent problem with this theory is the descriptions of the occupants of UFOs vary.

152

00:20:43,000 --> 00:20:52,000

But Masters answers that too. He proposes that we're seeing craft and beings coming from different time periods in the future.

153

00:20:52,000 --> 00:21:00,000

A global study done by the Dr. Edgar Mitchell Foundation sampled over 3500 individuals asking them about their contact experiences.

154

00:21:00,000 --> 00:21:08,000

And what they found is the majority of people saw humans, not humanoid or grey aliens, but actual humans.

155

00:21:08,000 --> 00:21:16,000

And that might indicate that we could be coming back from a more proximate point in our future, possibly as early as 100 or 200 years.

156

00:21:17,000 --> 00:21:23,000

In a century or two's time, the Earth could be a very different place to the planet we inhabit now.

157

00:21:24,000 --> 00:21:31,000

Why, if these mysterious craft are from the future? Are they so interested in the 20th and 21st centuries?

158

00:21:31,000 --> 00:21:39,000

What is it about Earth in this time period which so fascinates them? The answer could be unsettling.

159

00:21:40,000 --> 00:21:46,000

What's worrying some spectators is the volume of UFO sightings in this time period.

160

00:21:46,000 --> 00:21:54,000

Does it presage some coming cataclysm? Are these visitors coming not to stop it, but to observe it?

161

00:21:54,000 --> 00:22:03,000

Now to some people the idea of UFOs being piloted by humans of a kind might be comforting.

162

00:22:03,000 --> 00:22:08,000

I don't know, to me. It's the most unsettling scenario of all.

163

00:22:10,000 --> 00:22:21,000

In the historic English spa town of Droitwich in Worcestershire in December 2010, a woman tells her husband an incredible story.

164

00:22:21,000 --> 00:22:28,000

A woman believes that she's being regularly abducted by aliens in the early hours of the morning from her bed.

165

00:22:29,000 --> 00:22:35,000

So her husband didn't really believe her, but she was really frightened to go to sleep.

166

00:22:35,000 --> 00:22:41,000

So as somebody who works with security cameras for a living, he said, right, okay, we're going to set up a camera

167

00:22:41,000 --> 00:22:47,000

and when you fall asleep, we'll film you and we'll show you that nothing's happening to you at night.

168

00:22:47,000 --> 00:22:54,000

It sounds ridiculous, doesn't it? If your wife is saying to you, hey, I was abducted last night, but he set up the camera in the room.

169

00:22:58,000 --> 00:23:04,000

The woman's husband hoped the footage would show nothing and reassure her she had nothing to fear.

170

00:23:04,000 --> 00:23:08,000

But when they watched it back, they were both in for a shock.

171

00:23:10,000 --> 00:23:19,000

The night vision footage is pretty clear. There's nothing obstructing our view of the bed and we can see the woman and she appears to be sleeping under a sheet on it.

172

00:23:19,000 --> 00:23:25,000

We can see her moving every once in a while. We can also see her husband sleeping next to her to the left of the screen.

173

00:23:25,000 --> 00:23:31,000

And so far, so good. It's just his wife sleeping. Absolutely nothing out of the ordinary taking place.

174

00:23:32,000 --> 00:23:37,000

But as the clock hits 3.34 a.m., that all changes.

175

00:23:37,000 --> 00:23:47,000

You can see her under the covers. She's moving around and then suddenly it looks as if she's arching her back and the bed covers just swallow her up.

176

00:23:47,000 --> 00:23:49,000

They go flat and she's gone.

177

00:23:51,000 --> 00:23:57,000

How her husband must have reacted to this footage, I can't imagine. His heart must have been in his throat.

178

00:23:58,000 --> 00:24:02,000

There's no doubt she vanishes and people don't just disappear like that.

179

00:24:02,000 --> 00:24:10,000

Nobody is seen walking into the room and there's just her husband to the left of the camera. But suddenly he's alone in the room.

180

00:24:13,000 --> 00:24:18,000

13 minutes later, according to the clock on the film, the woman reappears.

181

00:24:20,000 --> 00:24:24,000

Suddenly, you see the sheets on her side of the bed sort of inflate.

182

00:24:27,000 --> 00:24:33,000

You can see that the disturbance has caused her husband to stir a little bit and she's just back there sleeping.

183

00:24:34,000 --> 00:24:45,000

Looking at the time code on the camera, her reappearance is at 03.46. So the question is, where had she been for the previous 13 minutes?

184

00:24:46,000 --> 00:24:53,000

The woman and her husband turned to Birmingham-based UFO investigator David Hodgrian in search of answers.

185

00:24:53,000 --> 00:25:03,000

A point that was noted by Hodgrian was that at no point did the couple seem to seek publicity or money for that matter for their footage.

186

00:25:03,000 --> 00:25:07,000

And that convinced him that in all likelihood it was genuine.

187

00:25:07,000 --> 00:25:15,000

The footage was also analyzed by an American television series that looks at photos and videos for signs of fakery.

188

00:25:15,000 --> 00:25:20,000

They were unable to recreate the footage without resorting to hidden contraptions.

189

00:25:21,000 --> 00:25:28,000

The footage is extraordinary, but the claim of abduction by a non-human intelligence is surprisingly common.

190

00:25:28,000 --> 00:25:38,000

One study carried out by two American professors questioned nearly 6,000 people about their experiences with alien abduction.

191

00:25:40,000 --> 00:25:48,000

The study concluded that around 3.7 million American adults report having been abducted by aliens at some point in their lives.

192

00:25:50,000 --> 00:25:54,000

Many in a room surrounded by alien-looking creatures.

193

00:25:57,000 --> 00:26:04,000

The appearance of evil-looking figures at the foot of the bed has been linked to a phenomenon called sleep paralysis.

194

00:26:05,000 --> 00:26:12,000

It's a medical condition in which the mind and body become detached from each other in the moments just before sleep.

195

00:26:13,000 --> 00:26:22,000

Some skeptics have suggested that alien abductions actually come down to the subject's pre-sleep activities.

196

00:26:27,000 --> 00:26:32,000

So for example, having watched a movie or read a book on an alien subject.

197

00:26:33,000 --> 00:26:45,000

In a study conducted by a researcher in England on sleep paralysis, the subject had watched an alien movie before going to bed

198

00:26:45,000 --> 00:26:54,000

and in that state of sleep paralysis, imagine that an alien was there with them inserting a metal probe into their head.

199

00:26:54,000 --> 00:27:05,000

Sleep paralysis probably does explain a lot of these encounters, but this video of a woman seemingly vanished from her bed for 13 minutes.

200

00:27:05,000 --> 00:27:07,000

That's a bit harder to explain.

201

00:27:10,000 --> 00:27:18,000

No matter how strongly one might believe that sleep paralysis is the cause for some of these experiences of alien abduction,

202

00:27:18,000 --> 00:27:24,000

what we have though in the case of the droid witch woman is an outright vanishing.

203

00:27:24,000 --> 00:27:30,000

And the time that this apparent vanishing was caught on camera could be significant too.

204

00:27:32,000 --> 00:27:40,000

Professor Gary Nolan of the Stamford University School of Medicine has found that most of these reported alien abductions

205

00:27:40,000 --> 00:27:48,000

happen between 3 a.m. and 4 a.m. in the morning and that is a time when most of us are fast asleep.

206

00:27:51,000 --> 00:28:01,000

It's a time that's been known as the witch in us since the Middle Ages and some believe that this is the time that aliens deliberately choose to interact with us.

207

00:28:01,000 --> 00:28:07,000

It's when the world is at its quietest and it's when we are at our most vulnerable.

208

00:28:11,000 --> 00:28:23,000

Many people who claim to have been abducted by aliens say they have been subjected to degrading examinations, surgical procedures and even sexual contact before being returned.

209

00:28:25,000 --> 00:28:38,000

Harvard University professor John E. Mack, who died in 2004, believed many of these abduction experiences were not the result of fantasies inspired by science fiction movies or comics, but were real.

210

00:28:40,000 --> 00:28:55,000

Mack is a prominent and outspoken defender of the possibility of alien abductions and he says that books, media, TV shows, that sort of thing can't be responsible for all alien abduction experiences,

211

00:28:55,000 --> 00:29:02,000

given that some of them come from areas where people really aren't exposed to that kind of material.

212

00:29:03,000 --> 00:29:18,000

No natural explanation has ever been established for the woman's mysterious disappearance from her bed and as we know, if you eliminate all which is impossible, then whatever remains, however improbable, must be the truth.

213

00:29:19,000 --> 00:29:24,000

As things stand, we still have no answers to what happened to this woman.

214

00:29:24,000 --> 00:29:32,000

So we have to ask the question, what happened for those 13 minutes? Where did she go and what was done to her?

215

00:29:35,000 --> 00:29:44,000

If this isn't a hoax of some kind, what we need to start thinking about maybe is where are people

being taken in the middle of the night and why?

216

00:29:48,000 --> 00:29:56,000

Maybe the reality is that the dead of night holds more terrors and more secrets than we're prepared to admit.

217

00:29:56,000 --> 00:30:25,000

Is there a secret deal between our world leaders and the entities who pilot UFOs? It seems an outlandish possibility, but in December 2020, Haim Eshed, who had been the head of Israel's space program for the country's defense ministry for over 30 years, says it's true.

218

00:30:26,000 --> 00:30:35,000

Haim Eshed is a former general and aeronautics expert and regarded as the godfather of the nation's space program.

219

00:30:35,000 --> 00:30:47,000

In an interview in Hebrew with an Israeli newspaper, Eshed said the UFOs had asked not to reveal that they're here. He said, quote, humanity is not ready yet.

220

00:30:48,000 --> 00:30:54,000

He claimed that the occupants of UFOs have struck a secret and sinister agreement with leaders on Earth.

221

00:30:55,000 --> 00:31:03,000

Eshed says they're very interested in the fabric of the universe and that they're being allowed to conduct secret experiments.

222

00:31:03,000 --> 00:31:14,000

He says that when Donald Trump was president that he was going to reveal the truth, but he was prevailed upon not to because it would have resulted in mass hysteria.

223

00:31:16,000 --> 00:31:22,000

After the interview was published, the press clamored for Eshed to reveal more, but he fell silent.

224

00:31:23,000 --> 00:31:30,000

Eshed's successor at the agency is a man called Isaac Bent Israel, and he says that Eshed went too far.

225

00:31:30,000 --> 00:31:35,000

And actually, he also added, it was unlikely that human-alien encounters are occurring.

226

00:31:36,000 --> 00:31:50,000

Could such a brilliant man be mistaken or even deluded? Or did he accidentally reveal a sinister bargain, long rumoured, to have been struck between the US government and the President Eisenhower in the 1950s

227

00:31:50,000 --> 00:31:56,000

to keep the existence of UFOs secret until the world was ready to hear it?

228

00:31:58,000 --> 00:32:11,000

Dwight D. Eisenhower, of course, was this huge colossus. He was a decorated Army general and he'd been supreme commander of Allied forces during the Normandy invasion until the German surrender in 1945.

229

00:32:11,000 --> 00:32:22,000

By the time of his inauguration in 1953, Eisenhower was a five-star general, so possibly the man you want in charge if there's an alien invasion in the often.

230

00:32:24,000 --> 00:32:35,000

Eisenhower entered the White House in 1953. It is said by some his most extraordinary act as president occurred on February the 20th, 1954.

231

00:32:36,000 --> 00:32:48,000

The exact events of February 20th, 1954 aren't clear. All we know is that Eisenhower made a late-night trip from Palm Springs, California.

232

00:32:48,000 --> 00:32:59,000

Some people believe that President Eisenhower went to Edwards Air Force Base in New Mexico that night, and that he went there to meet with two extraterrestrials.

233

00:33:00,000 --> 00:33:14,000

Why would Eisenhower do this? UFOs have been appearing over American territory since the Kenneth Arnold sighting in 1947, and in 1952 there seems to have been an extraordinary escalation.

234

00:33:14,000 --> 00:33:30,000

Washington National radar apparently detects these objects flying over the White House and Capitol, and two F-94 jets immediately set out in hot pursuit, but every time they get close, the objects apparently disappear from radar detection.

235

00:33:30,000 --> 00:33:40,000

The story made headlines across the U.S. UFOs over Washington. The Korean War, the presidential campaign, those were completely forgotten.

236

00:33:40,000 --> 00:33:47,000

Now, the armed forces tried to minimize the story as much as possible, and the official line was that this was a weather event.

237

00:33:47,000 --> 00:34:01,000

But behind the scenes, these events have been taken really quite seriously, and in December the government convenes a panel of experts who have been told there is, quote, something going on that must have immediate attention.

238

00:34:01,000 --> 00:34:07,000

Some UFO investigators believe this was the catalyst for a secret presidential meeting.

239

00:34:08,000 --> 00:34:15,000

At this meeting, it's said that Eisenhower made a peace deal with the extraterrestrials.

240

00:34:15,000 --> 00:34:33,000

It was supposed to stop an alien invasion of Earth, in return for which Eisenhower agreed that the aliens would be able to secretly abduct and study human beings, provided they were returned unharmed.

241

00:34:34,000 --> 00:34:43,000

But White House officials insist the president had an appointment with his dentist that day, not two extraterrestrial ambassadors.

242

00:34:43,000 --> 00:34:54,000

And the Dwight D. Eisenhower Library in Kansas also maintains that the president went to the dentist that very night, and so does James M. Nixon.

243

00:34:54,000 --> 00:35:04,000

He too is a dentist and a historian of presidential dental work, and he says that Ike certainly had work done on his crown.

244

00:35:04,000 --> 00:35:09,000

A dental appointment seems far more likely than a secret interplanetary deal.

245

00:35:09,000 --> 00:35:21,000

How could such a secret be kept? Why would politicians, military figures, why would they agree to keep such a world-changing secret secret?

246

00:35:21,000 --> 00:35:34,000

You've got a man called Michael Sala. He's a former American university professor, and he believes that Eisenhower went to the Edwards Air Force Base in New Mexico that night, and he also believes that he went there to meet with two extraterrestrials.

247

00:35:34,000 --> 00:35:44,000

Michael Sala suggests the consequences of revealing the secret were too dire. The threat of invasion or total destruction by an advanced technology.

248

00:35:44,000 --> 00:35:54,000

And high-level bizarre revelations, like Hayam Eschitz claimed that a secret deal has been done, now seem to be emerging from the shadows.

249

00:35:54,000 --> 00:36:02,000

Maybe there was a reason to keep this super secret in the past, but times have changed. Now is the time that we need to talk about this.

250

00:36:03,000 --> 00:36:22,000

November 2018. The southwest desert of the United States. Over 95,000 square miles of arid and sparsely inhabited land. It's America's front line.

251

00:36:23,000 --> 00:36:27,000

A star-long boat, two-eight-one-ling, four west-west slopes.

252

00:36:27,000 --> 00:36:36,000

Near midnight on November 6, a US military Apache helicopter is preparing for takeoff near the Mexican-American border.

253

00:36:36,000 --> 00:36:40,000

There's three really fast-flying jets up there.

254

00:36:40,000 --> 00:36:43,000

I will blame plus some AT-10s or some M16s.

255

00:36:45,000 --> 00:36:50,000

One of the two men on board spots three unidentified objects in the distance.

256

00:36:53,000 --> 00:37:04,000

The camera captures flying objects speeding at about 1.3 times the speed of sound. That's more than 900 miles an hour.

257

00:37:10,000 --> 00:37:21,000

The Apache helicopter is equipped with a pilot night vision sensor, which is used typically to track nighttime gang-related activity or legal immigrants.

258

00:37:21,000 --> 00:37:25,000

And that's what enables the camera to track the dots at such high speed.

259

00:37:27,000 --> 00:37:32,000

Over one and a half million people attempt to cross the border into America here every year.

260

00:37:34,000 --> 00:37:40,000

And drugs worth over 50 million dollars are sent into the United States every single week.

261

00:37:43,000 --> 00:37:49,000

The people who profit from these narcotics will stop at nothing to get their product into the country.

262

00:37:52,000 --> 00:37:56,000

Mexico's drug barons are among the wealthiest people in the world.

263

00:37:56,000 --> 00:38:02,000

The notorious El Chapo Guzman alone was worth an estimated 2.3 billion dollars.

264

00:38:04,000 --> 00:38:14,000

So, you know, it stands to reason to think that maybe a man like that would have the money to invest in the very latest tech to get all those drugs across the border.

265

00:38:15,000 --> 00:38:23,000

But even the fastest narco drones, as they're called, can't travel at the kinds of speeds logged in this video.

266

00:38:26,000 --> 00:38:34,000

These craft could instead be a secret part of the American government's fight back against the billionaire narco drug lords.

267

00:38:35,000 --> 00:38:46,000

So for years there have been many theories and conspiracies that a lot of these UFO sightings are actually examples of unseen U.S. technology.

268

00:38:47,000 --> 00:38:52,000

This part of Southwest America is very sparsely populated desert.

269

00:38:52,000 --> 00:38:57,000

It's the perfect place to conduct secret tests away from the public eye.

270

00:38:58,000 --> 00:39:09,000

There's been a lot of talk, conspiracy theories of secretive U.S. military bases such as Area 51 being used for far more than just military training.

271

00:39:09,000 --> 00:39:18,000

Now, of course, a lot of people have heard of Area 51, but actually there's a far less known secret base called Area 6.

272

00:39:18,000 --> 00:39:27,000

So when a mile long runway is added to Area 6 in 2005, that only fuels the intrigue and just increases the question.

273

00:39:29,000 --> 00:39:42,000

Eventually, in 2016, National Nuclear Security Administration spokesman Darwin Morgan said the site is used to test unmanned aircraft away from the public eye and to avoid being spied on in space.

274

00:39:43,000 --> 00:39:48,000

So could these objects have come from the Area 6 base?

275

00:39:48,000 --> 00:39:57,000

If so, the U.S. has developed a highly unusual craft exhibiting unprecedented aerodynamic maneuverability.

276

00:39:57,000 --> 00:40:04,000

As the objects approach a peak, they begin to rotate around each other almost as if they're rotating on an axis.

277

00:40:04,000 --> 00:40:07,000

They're doing this at incredibly high speeds.

278

00:40:07,000 --> 00:40:11,000

Their movements are extraordinary. It's like they're performing.

279

00:40:12,000 --> 00:40:15,000

There aren't, to my knowledge, any craft capable of motion like that.

280

00:40:15,000 --> 00:40:21,000

So unless the U.S. government is keeping something seriously quiet, I'm really not sure what we're seeing here.

281

00:40:22,000 --> 00:40:25,000

And then the three objects get even weirder.

282

00:40:26,000 --> 00:40:31,000

We then see these objects appearing to form a triangle and they're moving at incredibly fast speeds.

283

00:40:31,000 --> 00:40:34,000

You know, how they don't collide, I've no idea.

284

00:40:35,000 --> 00:40:43,000

At Mark 1.28, which is around 980 miles an hour, that's a speed that many human-built fast jets are capable of.

285

00:40:45,000 --> 00:40:53,000

It's not exceptional this speed, but what our human-built craft can't do to the best of our knowledge is move like that.

286

00:40:54,000 --> 00:40:58,000

It's almost as though they have been spotted and are showing off for the camera.

287

00:40:59,000 --> 00:41:03,000

This behavior doesn't just seem intentional and intelligent.

288

00:41:03,000 --> 00:41:08,000

It seems to follow a pattern scientists have discovered in the movement of living creatures.

289

00:41:09,000 --> 00:41:14,000

There's something about the movement of these objects that scientists find absolutely fascinating,

290

00:41:14,000 --> 00:41:18,000

because they seem to be moving in a pattern that's called levy flight.

291

00:41:20,000 --> 00:41:26,000

Levy flight is related to chaos theory and it's been found that the movement of living things

292

00:41:26,000 --> 00:41:31,000

is similar to the movement of inert objects that are moving seemingly at random.

293

00:41:32,000 --> 00:41:41,000

Sharks, the apex predators of our oceans, have to eat as much as 3% of their own body weight each meal just to survive.

294

00:41:44,000 --> 00:41:48,000

Marine biologists have observed a shift in the behavior of sharks.

295

00:41:49,000 --> 00:41:52,000

Their movements change, they become levy flights.

296

00:41:52,000 --> 00:41:57,000

Long trajectories followed by short, random movements specifically when they're hungry.

297

00:41:58,000 --> 00:42:05,000

There was a study in 1999 that analyzed 12 million movements over 15 years

298

00:42:05,000 --> 00:42:09,000

and that showed that numerous marine predator species like sharks

299

00:42:09,000 --> 00:42:13,000

use levy flight movements when seeking food.

300

00:42:16,000 --> 00:42:20,000

This is not the movement or behavior of machines or piloted machines.

301

00:42:20,000 --> 00:42:25,000

This is the movement of something that looks as if it could be alive.

302

00:42:26,000 --> 00:42:32,000

But no known living creature in our skies is capable of maneuvers like those captured by the footage

303

00:42:32,000 --> 00:42:38,000

filmed over the arid landscape of the southwestern United States in November 2018.

304

00:42:39,000 --> 00:42:45,000

Science fiction movies have sold us the idea that UFOs are some kind of transportation device,

305

00:42:45,000 --> 00:42:48,000

a futuristic type of spaceship.

306

00:42:48,000 --> 00:42:51,000

But that could be a disguise.

307

00:42:52,000 --> 00:42:59,000

Mathematician and UFO investigator Jacques Vallée says he has investigated a case where a woman and her family

308

00:42:59,000 --> 00:43:02,000

saw a metallic disc above their car.

309

00:43:03,000 --> 00:43:09,000

They caught it on camera, but the resulting photo which he says he saw didn't show a disc,

310

00:43:09,000 --> 00:43:15,000

but a strange, spiky object, perhaps some kind of creature cloaking itself to human eyes.

311

00:43:15,000 --> 00:43:19,000

You've got to ask, you know, some of these mysterious objects we see in this guy

312

00:43:19,000 --> 00:43:23,000

and the things that we call UFOs, I mean, could they be life forms?

313

00:43:23,000 --> 00:43:29,000

This particular form of travel has been spotted by many pilots who've encountered UFOs.

314

00:43:29,000 --> 00:43:37,000

Ryan Graves, a former Navy pilot who encountered UAPs off the coasts of Virginia and Florida in 2014,

315

00:43:37,000 --> 00:43:42,000

described their movement as jittery, not smooth like a conventional aircraft.

316

00:43:45,000 --> 00:43:50,000

Another pilot describes the UFO he encountered as moving like a housefly.

317

00:43:51,000 --> 00:43:58,000

If these objects are in some ways living entities, mimicking the levee flight of some of our natural predators,

318

00:43:58,000 --> 00:44:03,000

we perhaps have to rethink why they're here and what it is they want.

319

00:44:03,000 --> 00:44:09,000

What a levee flight movement pattern suggests is that these objects are not following a predetermined course,

320

00:44:09,000 --> 00:44:15,000

but are exploring, rather like an animal scoping an area for food.

321

00:44:17,000 --> 00:44:21,000

Living creatures, machines or some kind of combination of the two,

322

00:44:21,000 --> 00:44:25,000

sightings like the one captured by the helicopter on the arid border,

323

00:44:25,000 --> 00:44:29,000

could provide a clue to the true nature of the phenomenon,

324

00:44:29,000 --> 00:44:33,000

but as yet they raise more questions than answers.

325

00:44:33,000 --> 00:44:38,000

What you feel about a UFO and their intentions and where they're from and who's behind the wheel,

326

00:44:38,000 --> 00:44:40,000

we don't have that data yet.

327

00:44:40,000 --> 00:44:45,000

We may not have it yet, but such is the increasing number of UFO sightings.

328

00:44:45,000 --> 00:44:49,000

It surely won't belong before we do.
