2
00:00:11,910 --> 00:00:09,350

hello

3
00:00:13,910 --> 00:00:11,920

and welcome to episode number 10 of the

4
00:00:18,390 --> 00:00:13,920

point of convergence podcast

5
00:00:20,630 --> 00:00:18,400

as always i'm your host exo academian

6
00:00:22,230 --> 00:00:20,640

slowly but surely and with increasing

7
00:00:24,550 --> 00:00:22,240

pace in recent years

8
00:00:27,429 --> 00:00:24,560

the human population is waking up to the

9
00:00:30,630 --> 00:00:27,439

idea that our world is being visited by

10
00:00:31,910 --> 00:00:30,640

intelligences from elsewhere as our

11
00:00:33,430 --> 00:00:31,920

sensor systems grow

12
00:00:35,350 --> 00:00:33,440

ever more refined with each

13
00:00:37,110 --> 00:00:35,360

technological iteration

14

00:00:38,869 --> 00:00:37,120

and the planet becomes increasingly

15

00:00:40,470 --> 00:00:38,879

populated with increasingly high

16

00:00:42,310 --> 00:00:40,480

definition cameras

17

00:00:43,990 --> 00:00:42,320

the evidence for the presence of these

18

00:00:46,869 --> 00:00:44,000

others will undoubtedly

19

00:00:47,830 --> 00:00:46,879

only grow forcing at some point you

20

00:00:50,950 --> 00:00:47,840

would imagine

21

00:00:53,350 --> 00:00:50,960

a true reckoning by human civilization

22

00:00:55,510 --> 00:00:53,360

at some point as a society we'll need to

23

00:00:56,709 --> 00:00:55,520

openly ask this question of the ufo

24

00:01:01,510 --> 00:00:56,719

phenomenon

25

00:01:04,710 --> 00:01:03,910

at one point in human history the answer

26

00:01:06,789 --> 00:01:04,720

to the question

27

00:01:08,149 --> 00:01:06,799

as to the origin of these visitors

28

00:01:09,670 --> 00:01:08,159

seemed obvious

29

00:01:11,670 --> 00:01:09,680

almost to the point where the question

30

00:01:14,070 --> 00:01:11,680

didn't even need to be asked

31

00:01:15,030 --> 00:01:14,080

from many people's perspective if they

32

00:01:17,830 --> 00:01:15,040

weren't human

33

00:01:19,350 --> 00:01:17,840

then surely they must be from out there

34

00:01:21,670 --> 00:01:19,360

meaning outer space

35

00:01:23,830 --> 00:01:21,680

and more specifically from some other

36

00:01:24,870 --> 00:01:23,840

planet located within some far-flung

37

00:01:27,510 --> 00:01:24,880

star system

38

00:01:29,590 --> 00:01:27,520

within the milky way galaxy or perhaps

39

00:01:32,350 --> 00:01:29,600

some other galaxy entirely

40

00:01:36,469 --> 00:01:32,360

this argument is known as the eth the

41

00:01:40,310 --> 00:01:39,190

but over time several considerations

42

00:01:42,310 --> 00:01:40,320

combined

43

00:01:44,469 --> 00:01:42,320

to cause this assumption as to the

44

00:01:45,910 --> 00:01:44,479

origin of these others to be called into

45

00:01:47,670 --> 00:01:45,920

question

46

00:01:49,510 --> 00:01:47,680

first there was the understanding that

47

00:01:52,350 --> 00:01:49,520

the sheer distances involved

48

00:01:53,749 --> 00:01:52,360

in such travel were so pun intended

49

00:01:55,670 --> 00:01:53,759

astronomical

50

00:01:57,990 --> 00:01:55,680

that the notion of transversing that

51
00:02:00,550 --> 00:01:58,000
distance in something like a spacecraft

52
00:02:04,630 --> 00:02:00,560
seemed unlikely even if such vehicles

53
00:02:09,029 --> 00:02:07,030
secondly the data regarding the nature

54
00:02:11,670 --> 00:02:09,039
of the appearances of these others

55
00:02:12,150 --> 00:02:11,680
seemed peculiar sometimes they appeared

56
00:02:14,790 --> 00:02:12,160
as

57
00:02:15,910 --> 00:02:14,800
nuts and bolts quote-unquote craft with

58
00:02:17,750 --> 00:02:15,920
rumors circulating

59
00:02:20,710 --> 00:02:17,760
even of crash retrievals from such

60
00:02:22,710 --> 00:02:20,720
vehicles going back 70 years now

61
00:02:25,030 --> 00:02:22,720
while at other times they seem to appear

62
00:02:27,190 --> 00:02:25,040
more as manifestations of light

63
00:02:28,630 --> 00:02:27,200

or of hyperspace kinds of objects that

64

00:02:33,110 --> 00:02:28,640

could transform shape

65

00:02:36,869 --> 00:02:34,790

and then thirdly there is the

66

00:02:39,190 --> 00:02:36,879

contributing factor of our evolving

67

00:02:42,150 --> 00:02:39,200

sense of the nature of the cosmos

68

00:02:44,150 --> 00:02:42,160

the very fabric of reality itself in the

69

00:02:46,229 --> 00:02:44,160

last 100 years or so

70

00:02:48,070 --> 00:02:46,239

science has postulated not just the

71

00:02:49,589 --> 00:02:48,080

three plus one dimensions of reality

72

00:02:51,589 --> 00:02:49,599

we're familiar with

73

00:02:52,710 --> 00:02:51,599

but something more like a matrix of 10

74

00:02:55,830 --> 00:02:52,720

or more dimensions

75

00:02:57,830 --> 00:02:55,840

as one finds described in string theory

76

00:02:59,350 --> 00:02:57,840

thus the notion of reality being a

77

00:03:01,509 --> 00:02:59,360

fabric of fixed space

78

00:03:03,430 --> 00:03:01,519

where travel always necessitated

79

00:03:05,830 --> 00:03:03,440

movement from one fixed point

80

00:03:06,790 --> 00:03:05,840

to another fixed point in one physical

81

00:03:10,949 --> 00:03:06,800

universe

82

00:03:14,630 --> 00:03:13,190

add to the mix that these others looked

83

00:03:17,110 --> 00:03:14,640

rather humanoid

84

00:03:18,070 --> 00:03:17,120

and that they in some form or another

85

00:03:20,550 --> 00:03:18,080

may have been here

86

00:03:22,710 --> 00:03:20,560

all along going back into the depths of

87

00:03:25,350 --> 00:03:22,720

human history and beyond

88

00:03:27,470 --> 00:03:25,360

has led some to postulate the source of

89

00:03:31,030 --> 00:03:27,480

these others as being not so much merely

90

00:03:34,070 --> 00:03:31,040

extraterrestrial as interdimensional

91

00:03:35,910 --> 00:03:34,080

but what does this term mean exactly is

92

00:03:37,589 --> 00:03:35,920

this a reference to the extra dimensions

93

00:03:39,830 --> 00:03:37,599

posited in string theory

94

00:03:42,149 --> 00:03:39,840

or to the notion of a multiverse or

95

00:03:44,070 --> 00:03:42,159

something else entirely

96

00:03:46,390 --> 00:03:44,080

these are issues that are perhaps just

97

00:03:48,710 --> 00:03:46,400

as complex to unravel as they are

98

00:03:50,630 --> 00:03:48,720

intriguing to engage with

99

00:03:52,390 --> 00:03:50,640

but that's exactly what we'll attempt in

100

00:04:01,509 --> 00:03:52,400

this the 10th episode

101
00:04:03,670 --> 00:04:01,519
of the point of convergent podcast

102
00:04:06,949 --> 00:04:03,680
now first off you may have noticed the

103
00:04:09,270 --> 00:04:06,959
peculiar title of this week's episode

104
00:04:10,470 --> 00:04:09,280
from whence they came a closer look at

105
00:04:13,270 --> 00:04:10,480
the extraterrestrial

106
00:04:13,750 --> 00:04:13,280
and interdimensional hypotheses that

107
00:04:15,990 --> 00:04:13,760
word

108
00:04:17,270 --> 00:04:16,000
wentz is an interesting one it's an old

109
00:04:19,830 --> 00:04:17,280
english word you hardly

110
00:04:21,430 --> 00:04:19,840
ever hear it anymore but the reason i

111
00:04:21,990 --> 00:04:21,440
used it is because it has a double

112
00:04:25,189 --> 00:04:22,000
meaning

113
00:04:27,270 --> 00:04:25,199

it can mean where as well as source

114

00:04:29,909 --> 00:04:27,280

and that's particularly apt for today's

115

00:04:33,030 --> 00:04:32,469

and why because to remind you of

116

00:04:35,189 --> 00:04:33,040

something

117

00:04:38,070 --> 00:04:35,199

jacques valet said that we quoted in a

118

00:04:40,390 --> 00:04:38,080

podcast on another episode

119

00:04:42,550 --> 00:04:40,400

the evidence suggests that the way they

120

00:04:44,070 --> 00:04:42,560

manipulate space-time suggests they

121

00:04:48,390 --> 00:04:44,080

could be from anywhere

122

00:04:49,430 --> 00:04:48,400

and any time and indeed jacques valet

123

00:04:51,749 --> 00:04:49,440

came to believe that the

124

00:04:54,950 --> 00:04:51,759

extraterrestrial hypothesis was

125

00:04:58,150 --> 00:04:54,960

too limited too simple an explanation

126

00:05:00,230 --> 00:04:58,160

to explain the fullness of the data

127

00:05:02,870 --> 00:05:00,240

and he wrote in the book dimensions

128

00:05:03,510 --> 00:05:02,880

quote i have carefully kept my distance

129

00:05:05,590 --> 00:05:03,520

from

130

00:05:07,590 --> 00:05:05,600

researchers who claim that ufos are

131

00:05:10,310 --> 00:05:07,600

interplanetary visitors

132

00:05:12,550 --> 00:05:10,320

such a conclusion is not only premature

133

00:05:15,110 --> 00:05:12,560

but is contradicted by several basic

134

00:05:17,430 --> 00:05:15,120

facts that become apparent only when one

135

00:05:21,510 --> 00:05:17,440

takes a historical perspective

136

00:05:23,590 --> 00:05:21,520

unquote figures like jacques vallee

137

00:05:24,710 --> 00:05:23,600

and a man like j allen heineck that he

138

00:05:27,029 --> 00:05:24,720

worked with

139

00:05:27,909 --> 00:05:27,039

were in some ways ahead of their time in

140

00:05:30,150 --> 00:05:27,919

postulating

141

00:05:32,469 --> 00:05:30,160

alternate hypotheses to explain the

142

00:05:34,629 --> 00:05:32,479

origin of these others

143

00:05:36,710 --> 00:05:34,639

valet went on to spell out his

144

00:05:38,710 --> 00:05:36,720

objections to the eth

145

00:05:40,390 --> 00:05:38,720

as a singular and complete explanation

146

00:05:42,070 --> 00:05:40,400

of the ufo phenomenon

147

00:05:43,590 --> 00:05:42,080

after all he didn't reject it entirely

148

00:05:46,310 --> 00:05:43,600

he just didn't think it

149

00:05:47,830 --> 00:05:46,320

took into consideration all of the data

150

00:05:49,990 --> 00:05:47,840

and he spelled it out in a

151
00:05:52,070 --> 00:05:50,000
piece he wrote called five arguments

152
00:05:55,909 --> 00:05:52,080
against the extraterrestrial origin

153
00:05:57,430 --> 00:05:55,919
of unidentified flying objects

154
00:05:59,749 --> 00:05:57,440
and what i'd like to do is just go

155
00:06:02,710 --> 00:05:59,759
through this piece that jacques wrote

156
00:06:03,990 --> 00:06:02,720
to outline the five objections because i

157
00:06:05,670 --> 00:06:04,000
think they do a good job of

158
00:06:08,070 --> 00:06:05,680
demonstrating why

159
00:06:09,270 --> 00:06:08,080
this hypothesis alone doesn't really

160
00:06:11,590 --> 00:06:09,280
take into consideration

161
00:06:13,029 --> 00:06:11,600
all of the data it's not sufficient

162
00:06:15,670 --> 00:06:13,039
alone

163
00:06:16,550 --> 00:06:15,680

in the opening abstract to this piece

164

00:06:19,670 --> 00:06:16,560

jacques writes

165

00:06:20,070 --> 00:06:19,680

quote scientific opinion has generally

166

00:06:21,749 --> 00:06:20,080

followed

167

00:06:23,510 --> 00:06:21,759

public opinion in the belief that

168

00:06:25,670 --> 00:06:23,520

unidentified flying objects

169

00:06:27,670 --> 00:06:25,680

either do not exist the natural

170

00:06:30,390 --> 00:06:27,680

phenomenon hypothesis

171

00:06:32,629 --> 00:06:30,400

or if they do must represent evidence of

172

00:06:35,110 --> 00:06:32,639

a visitation by some advanced race of

173

00:06:38,950 --> 00:06:35,120

space travelers the extraterrestrial

174

00:06:42,390 --> 00:06:40,950

it is the view of the author that

175

00:06:44,469 --> 00:06:42,400

research on ufos

176
00:06:45,590 --> 00:06:44,479
needs not to be restricted to these two

177
00:06:48,469 --> 00:06:45,600
alternatives

178
00:06:48,950 --> 00:06:48,479
on the contrary the accumulated data

179
00:06:51,589 --> 00:06:48,960
base

180
00:06:53,830 --> 00:06:51,599
exhibits several patterns tending to

181
00:06:56,070 --> 00:06:53,840
indicate that ufos are real

182
00:06:57,110 --> 00:06:56,080
represent a previously unrecognized

183
00:06:59,350 --> 00:06:57,120
phenomenon

184
00:07:00,390 --> 00:06:59,360
and that the facts do not support the

185
00:07:05,029 --> 00:07:00,400
common concept

186
00:07:10,469 --> 00:07:07,990
five specific arguments articulated here

187
00:07:13,270 --> 00:07:10,479
contradict the egh

188
00:07:14,710 --> 00:07:13,280

number one unexplained close encounters

189

00:07:17,029 --> 00:07:14,720

are far more numerous

190

00:07:18,309 --> 00:07:17,039

than required for any physical survey of

191

00:07:21,430 --> 00:07:18,319

the earth

192

00:07:21,909 --> 00:07:21,440

number two the humanoid body structure

193

00:07:24,309 --> 00:07:21,919

of the

194

00:07:25,189 --> 00:07:24,319

alleged aliens is not likely to have

195

00:07:26,870 --> 00:07:25,199

originated

196

00:07:29,909 --> 00:07:26,880

on another planet and is not

197

00:07:31,189 --> 00:07:29,919

biologically adapted to space travel

198

00:07:33,350 --> 00:07:31,199

number three

199

00:07:34,550 --> 00:07:33,360

the reported behavior in thousands of

200

00:07:37,350 --> 00:07:34,560

abduction reports

201
00:07:40,150 --> 00:07:37,360
contradicts the hypothesis of genetic or

202
00:07:43,510 --> 00:07:40,160
scientific experimentation on humans

203
00:07:45,189 --> 00:07:43,520
by an advanced race number four

204
00:07:46,950 --> 00:07:45,199
the extension of the phenomenon

205
00:07:48,550 --> 00:07:46,960
throughout recorded human history

206
00:07:51,029 --> 00:07:48,560
demonstrates that ufos

207
00:07:52,309 --> 00:07:51,039
are not a contemporary phenomenon and

208
00:07:54,230 --> 00:07:52,319
number five

209
00:07:56,150 --> 00:07:54,240
the apparent ability of ufos to

210
00:07:58,550 --> 00:07:56,160
manipulate space and time

211
00:07:59,749 --> 00:07:58,560
suggests radically different and richer

212
00:08:02,230 --> 00:07:59,759
alternatives

213
00:08:04,790 --> 00:08:02,240

three of which are proposed in outline

214

00:08:08,950 --> 00:08:04,800

form as a conclusion to this paper

215

00:08:09,909 --> 00:08:08,960

unquote these are good points don't you

216

00:08:12,550 --> 00:08:09,919

think

217

00:08:13,029 --> 00:08:12,560

let's take them one at a time number one

218

00:08:15,670 --> 00:08:13,039

was

219

00:08:17,830 --> 00:08:15,680

quote unexplained close encounters are

220

00:08:19,830 --> 00:08:17,840

far more numerous than required for any

221

00:08:22,790 --> 00:08:19,840

physical survey of the earth

222

00:08:24,150 --> 00:08:22,800

unquote and this is interesting from my

223

00:08:26,629 --> 00:08:24,160

point of view and it somewhat

224

00:08:27,350 --> 00:08:26,639

shows how our perspectives change over

225

00:08:30,710 --> 00:08:27,360

time

226

00:08:33,350 --> 00:08:30,720

but go back to the 1950s 60s 70s

227

00:08:34,389 --> 00:08:33,360

and the notion was that perhaps aliens

228

00:08:38,389 --> 00:08:34,399

were traveling across

229

00:08:40,070 --> 00:08:38,399

vast distances of space via some sort of

230

00:08:42,070 --> 00:08:40,080

speed of light or faster than speed of

231

00:08:44,149 --> 00:08:42,080

light travel and that they were here

232

00:08:46,870 --> 00:08:44,159

basically to survey the earth

233

00:08:49,190 --> 00:08:46,880

like a scientific expedition basically

234

00:08:50,949 --> 00:08:49,200

and that that would mean things like

235

00:08:52,949 --> 00:08:50,959

documenting the species of the earth

236

00:08:53,670 --> 00:08:52,959

perhaps the evolutionary state of those

237

00:08:55,670 --> 00:08:53,680

species

238

00:08:57,990 --> 00:08:55,680

and documenting the geography and

239

00:09:00,230 --> 00:08:58,000

topography of the world

240

00:09:02,230 --> 00:09:00,240

but that doesn't really hold up when you

241

00:09:02,870 --> 00:09:02,240

think about how many encounters there

242

00:09:04,870 --> 00:09:02,880

were

243

00:09:07,430 --> 00:09:04,880

and we're talking both about ufo

244

00:09:09,509 --> 00:09:07,440

sightings and apparent abductions

245

00:09:11,829 --> 00:09:09,519

there were so many of these all around

246

00:09:14,389 --> 00:09:11,839

the world that if really the aliens were

247

00:09:16,710 --> 00:09:14,399

just here to survey the earth

248

00:09:18,630 --> 00:09:16,720

that just doesn't really hold up and

249

00:09:20,070 --> 00:09:18,640

remember that's just counting the

250

00:09:26,230 --> 00:09:20,080

reported sightings

251
00:09:29,030 --> 00:09:26,240
probably 10 that go unreported

252
00:09:30,870 --> 00:09:29,040
okay on to number two which was quote

253
00:09:32,070 --> 00:09:30,880
the humanoid body structure of the

254
00:09:34,310 --> 00:09:32,080
alleged aliens

255
00:09:35,269 --> 00:09:34,320
is not likely to have originated on

256
00:09:37,910 --> 00:09:35,279
another planet

257
00:09:38,550 --> 00:09:37,920
and is not biologically adapted to space

258
00:09:42,470 --> 00:09:38,560
travel

259
00:09:45,910 --> 00:09:42,480
unquote and what jacques is pointing to

260
00:09:46,949 --> 00:09:45,920
here is that the features of these

261
00:09:49,509 --> 00:09:46,959
aliens

262
00:09:52,070 --> 00:09:49,519
were remarkably humanoid and we know

263
00:09:54,230 --> 00:09:52,080

that species basically evolve

264

00:09:55,910 --> 00:09:54,240

to be better adapted to the environment

265

00:09:58,790 --> 00:09:55,920

from which they're from

266

00:10:01,110 --> 00:09:58,800

and so the humanoid structure hints at

267

00:10:02,389 --> 00:10:01,120

perhaps something much more terrestrial

268

00:10:05,269 --> 00:10:02,399

like maybe they were from

269

00:10:05,990 --> 00:10:05,279

here or at least from perhaps another

270

00:10:09,350 --> 00:10:06,000

earth

271

00:10:11,030 --> 00:10:09,360

because again

272

00:10:14,230 --> 00:10:11,040

the humanoid structure just is

273

00:10:16,150 --> 00:10:14,240

strikingly similar to our own

274

00:10:18,310 --> 00:10:16,160

and then there's also the question of

275

00:10:20,949 --> 00:10:18,320

whether or not that kind of

276

00:10:21,750 --> 00:10:20,959

body type is best suited to interstellar

277

00:10:24,150 --> 00:10:21,760

travel

278

00:10:25,590 --> 00:10:24,160

that is a less compelling argument in my

279

00:10:27,750 --> 00:10:25,600

in my point of view

280

00:10:29,350 --> 00:10:27,760

but nevertheless the humanoid structure

281

00:10:32,389 --> 00:10:29,360

definitely gives you pause

282

00:10:34,949 --> 00:10:32,399

makes you think

283

00:10:35,670 --> 00:10:34,959

number three was quote the reported

284

00:10:37,910 --> 00:10:35,680

behavior

285

00:10:40,069 --> 00:10:37,920

in thousands of abduction reports

286

00:10:42,389 --> 00:10:40,079

contradicts the hypothesis

287

00:10:43,350 --> 00:10:42,399

of genetic or scientific experimentation

288

00:10:46,710 --> 00:10:43,360

on humans

289

00:10:48,710 --> 00:10:46,720

by an advanced race unquote

290

00:10:50,389 --> 00:10:48,720

and what jacques is getting at here is

291

00:10:52,230 --> 00:10:50,399

something we've touched on on several

292

00:10:54,310 --> 00:10:52,240

occasions on this podcast

293

00:10:55,990 --> 00:10:54,320

it has to do with the absurd nature of

294

00:10:58,150 --> 00:10:56,000

some of these experiences

295

00:10:59,509 --> 00:10:58,160

some of these interactions when you

296

00:11:02,389 --> 00:10:59,519

think about an advanced

297

00:11:03,190 --> 00:11:02,399

scientifically minded species like

298

00:11:06,389 --> 00:11:03,200

vulcans

299

00:11:06,949 --> 00:11:06,399

on star trek for instance then the kind

300

00:11:10,150 --> 00:11:06,959

of

301
00:11:11,910 --> 00:11:10,160
like

302
00:11:14,710 --> 00:11:11,920
procedures that are conducted upon

303
00:11:17,990 --> 00:11:14,720
people just doesn't really seem

304
00:11:18,710 --> 00:11:18,000
similar to that not at all and so again

305
00:11:21,350 --> 00:11:18,720
that makes jacque

306
00:11:22,230 --> 00:11:21,360
question this notion that their visitors

307
00:11:26,870 --> 00:11:22,240
from elsewhere

308
00:11:30,949 --> 00:11:29,190
and number four is somewhat similar or

309
00:11:33,829 --> 00:11:30,959
at least it touches on a similar

310
00:11:35,829 --> 00:11:33,839
point it is quote the extension of the

311
00:11:38,710 --> 00:11:35,839
phenomenon throughout recorded human

312
00:11:41,110 --> 00:11:38,720
history demonstrates that ufos are not a

313
00:11:43,990 --> 00:11:41,120

contemporary phenomenon

314

00:11:45,350 --> 00:11:44,000

unquote and again what he's getting at

315

00:11:47,990 --> 00:11:45,360

here is when he actually

316

00:11:49,990 --> 00:11:48,000

looked back at distant human history

317

00:11:50,870 --> 00:11:50,000

even in religious texts and whatnot that

318

00:11:53,430 --> 00:11:50,880

inspired

319

00:11:55,430 --> 00:11:53,440

religious belief and the creation of

320

00:11:57,430 --> 00:11:55,440

dogma and things like that

321

00:11:59,590 --> 00:11:57,440

he found that there was remarkable

322

00:12:01,590 --> 00:11:59,600

similarity especially when you get past

323

00:12:02,629 --> 00:12:01,600

some of the facade nature and look at

324

00:12:05,829 --> 00:12:02,639

the underlying

325

00:12:07,350 --> 00:12:05,839

undercurrent source it seemed very

326

00:12:09,350 --> 00:12:07,360

similar to the point where

327

00:12:10,870 --> 00:12:09,360

jaw concluded that perhaps the same

328

00:12:12,629 --> 00:12:10,880

phenomenon has been

329

00:12:14,150 --> 00:12:12,639

interacting with us throughout human

330

00:12:16,150 --> 00:12:14,160

history and

331

00:12:17,829 --> 00:12:16,160

as we talked about before this may even

332

00:12:22,870 --> 00:12:17,839

been about them

333

00:12:27,590 --> 00:12:25,190

and number five was quote the apparent

334

00:12:28,230 --> 00:12:27,600

ability of ufos to manipulate space and

335

00:12:30,389 --> 00:12:28,240

time

336

00:12:31,430 --> 00:12:30,399

suggests radically different and richer

337

00:12:34,230 --> 00:12:31,440

alternatives

338

00:12:34,629 --> 00:12:34,240

unquote and what jacques is getting at

339

00:12:37,590 --> 00:12:34,639

here

340

00:12:38,470 --> 00:12:37,600

is why limit yourself to the notion that

341

00:12:41,590 --> 00:12:38,480

these are space

342

00:12:42,310 --> 00:12:41,600

travelers from some far-flung planet who

343

00:12:45,030 --> 00:12:42,320

came across

344

00:12:47,190 --> 00:12:45,040

vast distances to merely do a scientific

345

00:12:50,069 --> 00:12:47,200

survey of the earth

346

00:12:50,710 --> 00:12:50,079

when the manipulation of space and time

347

00:12:53,190 --> 00:12:50,720

suggests

348

00:12:55,030 --> 00:12:53,200

you can draw from a much bigger pot

349

00:12:57,910 --> 00:12:55,040

again as you said elsewhere

350

00:12:58,310 --> 00:12:57,920

they could be from anywhere and any time

351
00:13:02,230 --> 00:12:58,320
and

352
00:13:04,870 --> 00:13:02,240
come into play

353
00:13:06,230 --> 00:13:04,880
all sorts of notions that go far beyond

354
00:13:08,949 --> 00:13:06,240
the simplistic

355
00:13:10,069 --> 00:13:08,959
traveling across space from one fixed

356
00:13:13,430 --> 00:13:10,079
point to another

357
00:13:18,150 --> 00:13:16,230
and as i mentioned earlier jacques valet

358
00:13:20,150 --> 00:13:18,160
and people like jl and heineck and even

359
00:13:21,590 --> 00:13:20,160
people like john keel who suggested

360
00:13:24,150 --> 00:13:21,600
similar ideas

361
00:13:26,550 --> 00:13:24,160
were very much ahead of their time but

362
00:13:27,910 --> 00:13:26,560
has science has continued to develop to

363
00:13:30,629 --> 00:13:27,920

evolve and to propose

364

00:13:32,230 --> 00:13:30,639

new models of the universe then these

365

00:13:33,990 --> 00:13:32,240

notions of perhaps these being

366

00:13:36,470 --> 00:13:34,000

interdimensional travelers

367

00:13:37,990 --> 00:13:36,480

has gained even more steam and is taken

368

00:13:39,910 --> 00:13:38,000

even more seriously now

369

00:13:43,590 --> 00:13:39,920

than it was when jacques originally

370

00:13:47,350 --> 00:13:45,269

and that leads us to the next section of

371

00:13:49,189 --> 00:13:47,360

the podcast where we'll discuss this

372

00:13:52,150 --> 00:13:49,199

notion of interdimensionality

373

00:13:53,829 --> 00:13:52,160

what does this mean well interestingly

374

00:13:57,189 --> 00:13:53,839

as i just touched on

375

00:13:59,590 --> 00:13:57,199

science has come to embrace this notion

376

00:14:03,030 --> 00:13:59,600

and why well it really comes down to

377

00:14:05,910 --> 00:14:03,040

numbers to mathematics in science

378

00:14:06,710 --> 00:14:05,920

when you can't test something directly

379

00:14:08,710 --> 00:14:06,720

you propose

380

00:14:10,870 --> 00:14:08,720

models mathematical models that make

381

00:14:12,870 --> 00:14:10,880

sense of all the data

382

00:14:15,030 --> 00:14:12,880

and when physicists began to generate

383

00:14:16,949 --> 00:14:15,040

these models they found that

384

00:14:19,110 --> 00:14:16,959

things just made more sense were more

385

00:14:20,790 --> 00:14:19,120

elegant worked well together

386

00:14:22,790 --> 00:14:20,800

when you at first proposed one

387

00:14:24,389 --> 00:14:22,800

additional dimension beyond our

388

00:14:25,990 --> 00:14:24,399

three spatial dimensions and one

389

00:14:28,150 --> 00:14:26,000

dimension of time

390

00:14:30,069 --> 00:14:28,160

and this led to another dimension and

391

00:14:31,910 --> 00:14:30,079

another dimension again because this

392

00:14:33,750 --> 00:14:31,920

worked better with the math until

393

00:14:34,150 --> 00:14:33,760

eventually you came up with a notion

394

00:14:37,430 --> 00:14:34,160

like

395

00:14:39,910 --> 00:14:37,440

string theory which proposes 10

396

00:14:42,470 --> 00:14:39,920

spatial dimensions and one dimension of

397

00:14:45,910 --> 00:14:45,030

so if these additional dimensions exist

398

00:14:47,910 --> 00:14:45,920

where are they

399

00:14:49,189 --> 00:14:47,920

why can't we see or perceive them in any

400

00:14:51,750 --> 00:14:49,199

way

401
00:14:55,430 --> 00:14:51,760
well physicists assume that they are

402
00:14:57,990 --> 00:14:55,440
incredibly small almost unfathomably so

403
00:14:59,750 --> 00:14:58,000
coiled up in the smallest elements of

404
00:15:01,350 --> 00:14:59,760
reality

405
00:15:03,269 --> 00:15:01,360
and this would explain why we don't see

406
00:15:05,189 --> 00:15:03,279
or perceive them of course

407
00:15:07,350 --> 00:15:05,199
i would also suggest that other kinds of

408
00:15:09,990 --> 00:15:07,360
dimensions might exist that are not just

409
00:15:11,189 --> 00:15:10,000
non-perceivable because they're so small

410
00:15:12,870 --> 00:15:11,199
but because they just

411
00:15:14,790 --> 00:15:12,880
are beyond the bandwidth of our

412
00:15:16,949 --> 00:15:14,800
perception

413
00:15:18,870 --> 00:15:16,959

i would suggest that just as a chameleon

414

00:15:19,910 --> 00:15:18,880

can change its color depending on its

415

00:15:21,829 --> 00:15:19,920

environment

416

00:15:23,509 --> 00:15:21,839

there may be intelligences that can do

417

00:15:26,230 --> 00:15:23,519

this in terms of manifesting

418

00:15:28,710 --> 00:15:26,240

visually physically within our own band

419

00:15:30,389 --> 00:15:28,720

of perceived dimensions in our 3d plus

420

00:15:32,150 --> 00:15:30,399

one space

421

00:15:33,749 --> 00:15:32,160

and this could be done either via

422

00:15:35,990 --> 00:15:33,759

advanced technology

423

00:15:36,790 --> 00:15:36,000

or perhaps by some innate evolutionary

424

00:15:39,189 --> 00:15:36,800

ability

425

00:15:40,949 --> 00:15:39,199

as i've discussed on a previous podcast

426

00:15:42,550 --> 00:15:40,959

in fact that might be what's going on

427

00:15:45,910 --> 00:15:42,560

with entities like we see

428

00:15:47,910 --> 00:15:45,920

at skinwalker ranch

429

00:15:49,430 --> 00:15:47,920

and just to be clear it's not so much

430

00:15:52,389 --> 00:15:49,440

physicists who are making that

431

00:15:54,069 --> 00:15:52,399

last point i'm making that point that

432

00:15:56,389 --> 00:15:54,079

there very well may be

433

00:15:57,749 --> 00:15:56,399

entities that exist right here and have

434

00:16:00,389 --> 00:15:57,759

always been here

435

00:16:01,749 --> 00:16:00,399

but have the capacity to move in and out

436

00:16:03,430 --> 00:16:01,759

of our perception

437

00:16:07,110 --> 00:16:03,440

that's what i'm suggesting and we can

438

00:16:09,350 --> 00:16:07,120

think of a dimension in this way

439

00:16:10,310 --> 00:16:09,360

now in popular culture when we hear

440

00:16:12,069 --> 00:16:10,320

discussion of

441

00:16:13,350 --> 00:16:12,079

parallel universes or multiple

442

00:16:15,590 --> 00:16:13,360

dimensions

443

00:16:17,430 --> 00:16:15,600

that refers to a couple different ideas

444

00:16:19,910 --> 00:16:17,440

in science

445

00:16:21,430 --> 00:16:19,920

one notion is that of membranes and this

446

00:16:23,189 --> 00:16:21,440

is a model that's been

447

00:16:24,550 --> 00:16:23,199

postulated even more recently than

448

00:16:26,310 --> 00:16:24,560

string theory

449

00:16:27,670 --> 00:16:26,320

the idea here is that you may have

450

00:16:30,150 --> 00:16:27,680

multiple 3d

451
00:16:32,470 --> 00:16:30,160
experiential universes and think of

452
00:16:34,829 --> 00:16:32,480
these like sheets of a newspaper

453
00:16:36,069 --> 00:16:34,839
and each universe is a sheet of that

454
00:16:38,230 --> 00:16:36,079
newspaper

455
00:16:39,910 --> 00:16:38,240
and picture an ant walking along one

456
00:16:41,350 --> 00:16:39,920
sheet that's all it's aware of all it

457
00:16:42,550 --> 00:16:41,360
can interact with

458
00:16:44,470 --> 00:16:42,560
but on a different sheet of the

459
00:16:45,269 --> 00:16:44,480
newspaper a different ant is walking

460
00:16:47,990 --> 00:16:45,279
along

461
00:16:49,990 --> 00:16:48,000
and never the two shall meet in fact

462
00:16:52,629 --> 00:16:50,000
they aren't even aware of each other

463
00:16:53,990 --> 00:16:52,639

so what science is postulating here with

464

00:16:56,629 --> 00:16:54,000

the membranes theory

465

00:16:57,910 --> 00:16:56,639

is that there may be a total nine

466

00:17:00,069 --> 00:16:57,920

dimensions

467

00:17:00,949 --> 00:17:00,079

so that's the totality which contains

468

00:17:03,990 --> 00:17:00,959

within it

469

00:17:05,909 --> 00:17:04,000

multiple 3d experiential universes

470

00:17:09,510 --> 00:17:05,919

so single sheets of paper and the whole

471

00:17:12,150 --> 00:17:09,520

newspaper think about it that way

472

00:17:14,150 --> 00:17:12,160

and again in terms of our topic today

473

00:17:16,949 --> 00:17:14,160

this could work right if this is

474

00:17:17,990 --> 00:17:16,959

true if this turns out to be actually an

475

00:17:20,390 --> 00:17:18,000

accurate description

476
00:17:21,590 --> 00:17:20,400
of the totality you have a multiverse

477
00:17:24,230 --> 00:17:21,600
which is actually

478
00:17:25,029 --> 00:17:24,240
membranes of individual universes that

479
00:17:27,189 --> 00:17:25,039
might be

480
00:17:28,870 --> 00:17:27,199
really close to each other but still

481
00:17:31,669 --> 00:17:28,880
separate to those

482
00:17:32,070 --> 00:17:31,679
beings inside each universe but what if

483
00:17:34,950 --> 00:17:32,080
these

484
00:17:36,950 --> 00:17:34,960
others have found ways to punch holes

485
00:17:39,190 --> 00:17:36,960
between the different sheets to

486
00:17:40,950 --> 00:17:39,200
transverse that distance from one sheet

487
00:17:43,110 --> 00:17:40,960
of the newspaper to another

488
00:17:44,070 --> 00:17:43,120

that may be what's going on here that's

489

00:17:47,590 --> 00:17:44,080

another notion

490

00:17:49,150 --> 00:17:47,600

of interdimensionality

491

00:17:50,950 --> 00:17:49,160

another way that we can think about

492

00:17:51,510 --> 00:17:50,960

interdimensionality that actually has to

493

00:17:55,029 --> 00:17:51,520

do with

494

00:17:57,510 --> 00:17:55,039

science is the notion of a model called

495

00:17:59,669 --> 00:17:57,520

the many worlds theory and this was

496

00:18:01,669 --> 00:17:59,679

proposed by a man named hugh everett in

497

00:18:03,909 --> 00:18:01,679

the 1950s

498

00:18:05,110 --> 00:18:03,919

and what he proposed was shocking and

499

00:18:07,669 --> 00:18:05,120

revolutionary

500

00:18:08,950 --> 00:18:07,679

and yet as time has gone on it's held

501
00:18:11,110 --> 00:18:08,960
its ground

502
00:18:13,350 --> 00:18:11,120
it seems to be supported by the

503
00:18:16,470 --> 00:18:13,360
experimental data

504
00:18:17,029 --> 00:18:16,480
what whoever it proposed was that every

505
00:18:18,950 --> 00:18:17,039
time

506
00:18:21,830 --> 00:18:18,960
you come to a point where a decision is

507
00:18:22,710 --> 00:18:21,840
made the universe basically splits in

508
00:18:25,590 --> 00:18:22,720
two

509
00:18:26,230 --> 00:18:25,600
that there's a universe where you

510
00:18:28,310 --> 00:18:26,240
ordered

511
00:18:29,830 --> 00:18:28,320
a burger and there's a universe where

512
00:18:31,750 --> 00:18:29,840
you ordered the salad

513
00:18:32,870 --> 00:18:31,760

yes indeed and how often does this

514

00:18:35,990 --> 00:18:32,880

happen

515

00:18:39,909 --> 00:18:36,000

apparently very very very often almost

516

00:18:41,990 --> 00:18:39,919

unfathomably often every time

517

00:18:44,549 --> 00:18:42,000

a decision is made at any point in the

518

00:18:46,470 --> 00:18:44,559

universe by any conscious being

519

00:18:47,990 --> 00:18:46,480

the universe basically splits into two

520

00:18:50,310 --> 00:18:48,000

copies of itself

521

00:18:53,190 --> 00:18:50,320

and this goes on and on and on and

522

00:18:54,630 --> 00:18:53,200

always has gone on

523

00:18:56,150 --> 00:18:54,640

now admittedly this is a little

524

00:18:56,870 --> 00:18:56,160

difficult to wrap your head around it

525

00:18:59,110 --> 00:18:56,880

first

526
00:18:59,990 --> 00:18:59,120
and it goes against our notion of common

527
00:19:02,470 --> 00:19:00,000
sense

528
00:19:03,510 --> 00:19:02,480
but again over time we found time and

529
00:19:05,830 --> 00:19:03,520
time again

530
00:19:06,630 --> 00:19:05,840
that science doesn't follow a notion of

531
00:19:10,230 --> 00:19:06,640
common sense

532
00:19:13,190 --> 00:19:10,240
that changes with uh

533
00:19:14,710 --> 00:19:13,200
advanced scientific understanding now

534
00:19:17,350 --> 00:19:14,720
the many worlds

535
00:19:18,789 --> 00:19:17,360
theory is an extension of quantum theory

536
00:19:20,710 --> 00:19:18,799
and basically what hugh everett was

537
00:19:21,350 --> 00:19:20,720
trying to do was to make sense of what

538
00:19:25,270 --> 00:19:21,360

we see

539

00:19:27,190 --> 00:19:25,280
happening in the quantum world

540

00:19:29,350 --> 00:19:27,200
and what do we find when we look at the

541

00:19:32,710 --> 00:19:29,360
quantum world when we study that

542

00:19:34,470 --> 00:19:32,720
micro level of reality

543

00:19:36,230 --> 00:19:34,480
well we find things that just don't make

544

00:19:38,710 --> 00:19:36,240
any sense whatsoever

545

00:19:40,870 --> 00:19:38,720
they go completely against our notion of

546

00:19:44,230 --> 00:19:40,880
the way that reality works

547

00:19:47,029 --> 00:19:44,240
namely we find things like a single atom

548

00:19:48,070 --> 00:19:47,039
can be in two places at the same time

549

00:19:51,669 --> 00:19:48,080
that's a notion called

550

00:19:53,029 --> 00:19:51,679
superposition and this is where we come

551
00:19:54,630 --> 00:19:53,039
to the observer effect

552
00:19:56,390 --> 00:19:54,640
perhaps you've heard about this it's

553
00:19:58,470 --> 00:19:56,400
extremely bizarre

554
00:20:00,310 --> 00:19:58,480
the idea is that it's only when an

555
00:20:02,549 --> 00:20:00,320
observer actually looks

556
00:20:03,590 --> 00:20:02,559
makes a measurement about the location

557
00:20:06,230 --> 00:20:03,600
of that atom

558
00:20:08,230 --> 00:20:06,240
that it actually chooses you could say

559
00:20:10,789 --> 00:20:08,240
one place over another

560
00:20:12,630 --> 00:20:10,799
it is the act of observing itself that

561
00:20:14,789 --> 00:20:12,640
collapses the waveform

562
00:20:16,390 --> 00:20:14,799
and actually makes the decision point

563
00:20:18,470 --> 00:20:16,400

again very strange

564

00:20:19,510 --> 00:20:18,480

goes against our common sense and yet

565

00:20:22,630 --> 00:20:19,520

this has been proven

566

00:20:25,669 --> 00:20:24,390

and without getting too far into the

567

00:20:28,230 --> 00:20:25,679

weeds here

568

00:20:30,310 --> 00:20:28,240

what hugh ever is basically proposing

569

00:20:33,430 --> 00:20:30,320

when it comes to this quantum world

570

00:20:34,070 --> 00:20:33,440

is that every time that the atom for

571

00:20:36,310 --> 00:20:34,080

instance

572

00:20:37,830 --> 00:20:36,320

chooses one place over another it moves

573

00:20:40,549 --> 00:20:37,840

from superposition

574

00:20:41,669 --> 00:20:40,559

where all we can predict is a range of

575

00:20:43,750 --> 00:20:41,679

places it could be

576
00:20:45,190 --> 00:20:43,760
and actually chooses one or the other

577
00:20:48,870 --> 00:20:45,200
every time that happens

578
00:20:51,029 --> 00:20:48,880
basically the universe splits into

579
00:20:52,630 --> 00:20:51,039
that's how often this happens and that's

580
00:20:55,430 --> 00:20:52,640
how this gets resolved that

581
00:20:57,430 --> 00:20:55,440
every time this happens that something

582
00:20:59,669 --> 00:20:57,440
like an atom moves from superposition

583
00:21:00,390 --> 00:20:59,679
into actually a finite position we can

584
00:21:03,510 --> 00:21:00,400
measure

585
00:21:05,430 --> 00:21:03,520
the universe splits into uh one

586
00:21:07,350 --> 00:21:05,440
universe where the atom ended up in

587
00:21:10,870 --> 00:21:07,360
place a and another universe where the

588
00:21:13,190 --> 00:21:10,880

atom ended up in place b

589

00:21:14,070 --> 00:21:13,200

so perhaps you're asking yourself how in

590

00:21:16,230 --> 00:21:14,080

the world

591

00:21:17,990 --> 00:21:16,240

does this relate to our topic today what

592

00:21:18,950 --> 00:21:18,000

does this have to do with the others the

593

00:21:22,549 --> 00:21:18,960

visitors these

594

00:21:23,110 --> 00:21:22,559

potential aliens well if you think about

595

00:21:25,909 --> 00:21:23,120

it

596

00:21:27,830 --> 00:21:25,919

at any time in our history in our long

597

00:21:30,950 --> 00:21:27,840

history in the history of the universe

598

00:21:32,710 --> 00:21:30,960

or even the history of the earth

599

00:21:35,110 --> 00:21:32,720

one universe may have split off from

600

00:21:38,710 --> 00:21:35,120

another and so perhaps these

601
00:21:41,750 --> 00:21:38,720
others are actually other versions of us

602
00:21:43,750 --> 00:21:41,760
or other versions of sentient beings

603
00:21:45,669 --> 00:21:43,760
humanoids that walk the earth at one

604
00:21:47,830 --> 00:21:45,679
point and at some point split it off

605
00:21:49,270 --> 00:21:47,840
into a different dimension a different

606
00:21:51,830 --> 00:21:49,280
universe itself

607
00:21:53,909 --> 00:21:51,840
and that perhaps these beings have the

608
00:21:57,270 --> 00:21:53,919
ability to transverse that

609
00:21:59,110 --> 00:21:57,280
gap between the two universes

610
00:22:00,710 --> 00:21:59,120
and if you think about it this would

611
00:22:02,549 --> 00:22:00,720
resolve the issue that

612
00:22:04,390 --> 00:22:02,559
jacques valet raised that we discussed

613
00:22:06,789 --> 00:22:04,400

earlier in this podcast

614

00:22:09,029 --> 00:22:06,799

why do they appear humanoid why do they

615

00:22:09,750 --> 00:22:09,039

appear almost like they are native to

616

00:22:11,510 --> 00:22:09,760

the earth

617

00:22:13,909 --> 00:22:11,520

well this would explain it this would

618

00:22:16,230 --> 00:22:13,919

explain how they could actually be

619

00:22:17,029 --> 00:22:16,240

evolved creatures from something like

620

00:22:19,510 --> 00:22:17,039

the earth

621

00:22:22,950 --> 00:22:19,520

just not our earth an earth in a

622

00:22:27,669 --> 00:22:24,710

i mean the more you think about this the

623

00:22:29,430 --> 00:22:27,679

more it makes sense at least potentially

624

00:22:31,590 --> 00:22:29,440

think about some of the different kinds

625

00:22:34,549 --> 00:22:31,600

of alien creatures we've discussed

626
00:22:35,830 --> 00:22:34,559
on this podcast in previous episodes the

627
00:22:37,830 --> 00:22:35,840
mantids

628
00:22:40,149 --> 00:22:37,840
why do they look almost exactly like

629
00:22:43,669 --> 00:22:40,159
praying mantises from our world

630
00:22:45,669 --> 00:22:43,679
just a lot bigger or the reptilians

631
00:22:48,230 --> 00:22:45,679
why do they look a lot like lizards

632
00:22:51,590 --> 00:22:48,240
crossed with human beings

633
00:22:53,990 --> 00:22:51,600
again this could be because they share

634
00:22:56,310 --> 00:22:54,000
a distant history with us but at some

635
00:22:58,230 --> 00:22:56,320
point the universe has split

636
00:23:01,270 --> 00:22:58,240
and they have evolved one way and we

637
00:23:05,110 --> 00:23:03,110
now we have to remember that these

638
00:23:07,510 --> 00:23:05,120

notions we've discussed today

639

00:23:08,230 --> 00:23:07,520

are based on science's most recent

640

00:23:10,630 --> 00:23:08,240

understanding

641

00:23:13,270 --> 00:23:10,640

of the fabric of reality itself at least

642

00:23:15,350 --> 00:23:13,280

its most recent postulations

643

00:23:16,390 --> 00:23:15,360

and this understanding is growing year

644

00:23:18,470 --> 00:23:16,400

by year

645

00:23:20,630 --> 00:23:18,480

and we're making fairly gargantuan leaps

646

00:23:22,710 --> 00:23:20,640

from decade to decade

647

00:23:24,070 --> 00:23:22,720

in other words you can guarantee we'll

648

00:23:26,230 --> 00:23:24,080

learn even more

649

00:23:28,870 --> 00:23:26,240

that will inform our understanding of

650

00:23:31,350 --> 00:23:28,880

where these others may be coming from

651
00:23:32,390 --> 00:23:31,360
but already we see a very rich and

652
00:23:37,510 --> 00:23:32,400
fascinating

653
00:23:40,149 --> 00:23:37,520
tapestry of possibilities emerging

654
00:23:41,029 --> 00:23:40,159
a couple final points i'd like to make

655
00:23:43,750 --> 00:23:41,039
first off

656
00:23:44,549 --> 00:23:43,760
again whether these are interdimensional

657
00:23:46,470 --> 00:23:44,559
or not

658
00:23:48,950 --> 00:23:46,480
this doesn't preclude the idea that they

659
00:23:51,029 --> 00:23:48,960
may also be extraterrestrial

660
00:23:53,350 --> 00:23:51,039
they may be coming from a vast distance

661
00:23:55,190 --> 00:23:53,360
as well as crossing dimensions or coming

662
00:23:57,269 --> 00:23:55,200
across a vast distance

663
00:23:58,310 --> 00:23:57,279

from a different universe but also

664

00:24:00,950 --> 00:23:58,320

popping in from

665

00:24:02,870 --> 00:24:00,960

one to the other so again even these

666

00:24:05,029 --> 00:24:02,880

notions of being this one or the other

667

00:24:07,909 --> 00:24:05,039

may eventually collapse as we understand

668

00:24:12,870 --> 00:24:09,830

it's also important to remember that the

669

00:24:14,870 --> 00:24:12,880

phenomenon is not just one thing

670

00:24:16,950 --> 00:24:14,880

we use that term to describe the

671

00:24:18,390 --> 00:24:16,960

totality of various phenomena

672

00:24:20,390 --> 00:24:18,400

but it's important to remember that it

673

00:24:22,630 --> 00:24:20,400

is actually phenomena

674

00:24:24,310 --> 00:24:22,640

and so in that sense we may have both of

675

00:24:26,230 --> 00:24:24,320

these things going on

676

00:24:27,909 --> 00:24:26,240

we may have some visitors who are

677

00:24:30,230 --> 00:24:27,919

interdimensional in nature

678

00:24:32,230 --> 00:24:30,240

while others actually are from our own

679

00:24:36,390 --> 00:24:32,240

physical universe and have found a way

680

00:24:41,029 --> 00:24:38,950

indeed to take this even further there

681

00:24:42,149 --> 00:24:41,039

may be entities and we have evidence of

682

00:24:45,110 --> 00:24:42,159

this actually

683

00:24:45,990 --> 00:24:45,120

who are more based on light they are not

684

00:24:48,470 --> 00:24:46,000

really physical

685

00:24:50,950 --> 00:24:48,480

in structure whatsoever and these kind

686

00:24:51,750 --> 00:24:50,960

of beings may actually exist in multiple

687

00:24:54,230 --> 00:24:51,760

universes

688

00:24:55,750 --> 00:24:54,240

simultaneously because of their makeup

689

00:24:58,310 --> 00:24:55,760

their different makeup

690

00:24:59,029 --> 00:24:58,320

and in that sense we might use the word

691

00:25:00,950 --> 00:24:59,039

intra

692

00:25:02,390 --> 00:25:00,960

dimensional to describe them that would

693

00:25:06,549 --> 00:25:02,400

actually be more accurate

694

00:25:10,630 --> 00:25:08,630

in other words we're likely dealing with

695

00:25:13,750 --> 00:25:10,640

a plethora of possibilities

696

00:25:15,909 --> 00:25:13,760

a plethora of realities and this will

697

00:25:18,390 --> 00:25:15,919

likely only get more fascinating the

698

00:25:20,870 --> 00:25:18,400

more we learn

699

00:25:22,070 --> 00:25:20,880

and on that note we've come to the close

700

00:25:25,909 --> 00:25:22,080

of another edition

701
00:25:27,909 --> 00:25:25,919
of the point of convergence podcast

702
00:25:29,350 --> 00:25:27,919
and as i like to say let's keep this

703
00:25:31,590 --> 00:25:29,360
conversation going

704
00:25:33,190 --> 00:25:31,600
and growing if you haven't already don't

705
00:25:35,269 --> 00:25:33,200
forget to subscribe whether you're

706
00:25:36,390 --> 00:25:35,279
listening on a podcast platform or on

707
00:25:38,630 --> 00:25:36,400
youtube

708
00:25:39,909 --> 00:25:38,640
please like this if you enjoyed it if

709
00:25:41,110 --> 00:25:39,919
you found it intriguing and

710
00:25:42,630 --> 00:25:41,120
thought-provoking

711
00:25:44,789 --> 00:25:42,640
and please share with others who you

712
00:25:47,990 --> 00:25:44,799
think may be interested in these related

713
00:25:52,310 --> 00:25:50,149

until next time from deep in the blue
