1
00:00:02,880 --> 00:00:08,310

[Music]

2
00:00:14,150 --> 00:00:11,589

hello and welcome to episode number 48

3
00:00:18,230 --> 00:00:14,160

of the point of convergence podcast as

4
00:00:20,230 --> 00:00:18,240

always i am your host exo academian

5
00:00:22,550 --> 00:00:20,240

over the past couple of episodes of the

6
00:00:24,630 --> 00:00:22,560

point of convergence podcast we've been

7
00:00:25,830 --> 00:00:24,640

examining two distinct but related

8
00:00:28,950 --> 00:00:25,840

matters

9
00:00:31,189 --> 00:00:28,960

number one that various intel sources

10
00:00:33,590 --> 00:00:31,199

sources trusted by credible individuals

11
00:00:35,510 --> 00:00:33,600

such as australian journalist ross

12
00:00:37,590 --> 00:00:35,520

coulthart and british intelligence

13
00:00:39,830 --> 00:00:37,600

analyst frank milburn

14

00:00:42,549 --> 00:00:39,840

have divulged the apparent existence of

15

00:00:44,869 --> 00:00:42,559

various factions of future humans who

16

00:00:47,270 --> 00:00:44,879

have been intervening in affairs in our

17

00:00:50,069 --> 00:00:47,280

present time in order to impact the

18

00:00:52,869 --> 00:00:50,079

potential arising of a cataclysmic event

19

00:00:54,389 --> 00:00:52,879

that lies allegedly in our not very

20

00:00:57,110 --> 00:00:54,399

distant future

21

00:00:58,549 --> 00:00:57,120

and number two that further evolution

22

00:01:01,110 --> 00:00:58,559

especially after something like a

23

00:01:03,349 --> 00:01:01,120

cataclysmic environmental event

24

00:01:05,830 --> 00:01:03,359

could very likely give rise to a species

25

00:01:08,390 --> 00:01:05,840

of neo-humans who would look very much

26
00:01:11,030 --> 00:01:08,400
like the quintessential grey aliens

27
00:01:12,789 --> 00:01:11,040
we've all become familiar with

28
00:01:14,710 --> 00:01:12,799
it should be clearly understood as i

29
00:01:16,870 --> 00:01:14,720
just noted above that while these

30
00:01:19,510 --> 00:01:16,880
matters may be related the notion that

31
00:01:22,789 --> 00:01:19,520
at least some of the gray aliens contact

32
00:01:26,149 --> 00:01:22,799
teas abductees have interacted with our

33
00:01:28,469 --> 00:01:26,159
time traveling future neo-humans can and

34
00:01:30,149 --> 00:01:28,479
i would argue should be considered on

35
00:01:31,670 --> 00:01:30,159
its own merits

36
00:01:33,990 --> 00:01:31,680
and i think the grounds for this

37
00:01:35,910 --> 00:01:34,000
possibility are remarkably compelling

38
00:01:37,590 --> 00:01:35,920

especially once you really dig into the

39

00:01:39,670 --> 00:01:37,600

pertinent details

40

00:01:42,389 --> 00:01:39,680

much of the evidence we'll discuss today

41

00:01:44,469 --> 00:01:42,399

in that regard comes from anthropologist

42

00:01:47,510 --> 00:01:44,479

and evolutionary biologist michael

43

00:01:50,149 --> 00:01:47,520

master's book identified flying objects

44

00:01:52,550 --> 00:01:50,159

a multi-disciplinary scientific approach

45

00:01:54,870 --> 00:01:52,560

to the ufo phenomenon

46

00:01:57,350 --> 00:01:54,880

not only does masters lay out a thorough

47

00:01:59,910 --> 00:01:57,360

and convincing case that so-called grey

48

00:02:02,230 --> 00:01:59,920

aliens are best understood as being a

49

00:02:04,950 --> 00:02:02,240

later arising along the same genetic

50

00:02:07,830 --> 00:02:04,960

line that began with chimpanzees and

51
00:02:10,150 --> 00:02:07,840
later gave rise to modern homo sapiens

52
00:02:12,470 --> 00:02:10,160
but he makes an equally strong case that

53
00:02:14,949 --> 00:02:12,480
two-way time travel is not only a

54
00:02:17,830 --> 00:02:14,959
theoretical possibility but a very

55
00:02:20,070 --> 00:02:17,840
likely eventuality based on our ongoing

56
00:02:21,990 --> 00:02:20,080
technological development

57
00:02:24,790 --> 00:02:22,000
he also clarifies that many of the

58
00:02:27,430 --> 00:02:24,800
seemingly unworkable paradoxes that

59
00:02:29,990 --> 00:02:27,440
arise with the notion of time travel are

60
00:02:33,110 --> 00:02:30,000
rooted in our misapprehension of how

61
00:02:35,190 --> 00:02:33,120
time actually works and indeed in what

62
00:02:37,430 --> 00:02:35,200
it actually is

63
00:02:39,589 --> 00:02:37,440

in today's podcast in addition to a

64

00:02:42,150 --> 00:02:39,599

deeper dive into master's bold but

65

00:02:43,990 --> 00:02:42,160

well-supported arguments we'll examine

66

00:02:46,710 --> 00:02:44,000

additional lines of evidence that relate

67

00:02:49,030 --> 00:02:46,720

to the intel reports suggesting timeline

68

00:02:52,309 --> 00:02:49,040

manipulation by factions of future

69

00:02:54,790 --> 00:02:52,319

humans may already be happening

70

00:02:57,110 --> 00:02:54,800

are time-traveling future neo-humans the

71

00:02:59,350 --> 00:02:57,120

missing link in making sense of the ufo

72

00:03:00,550 --> 00:02:59,360

phenomenon that has eluded us for

73

00:03:02,550 --> 00:03:00,560

decades

74

00:03:05,270 --> 00:03:02,560

or at least of making sense of a large

75

00:03:07,589 --> 00:03:05,280

swath of the data and activity and

76

00:03:09,350 --> 00:03:07,599

interactions observed

77

00:03:13,110 --> 00:03:09,360

these are precisely the matters we'll

78

00:03:17,050 --> 00:03:13,120

seek to unravel in this the 48th episode

79

00:03:20,229 --> 00:03:17,060

of the point of convergence podcast

80

00:03:22,470 --> 00:03:20,239

[Music]

81

00:03:24,229 --> 00:03:22,480

as we begin this week's podcast i'd just

82

00:03:27,110 --> 00:03:24,239

like to remind you that this is part

83

00:03:28,869 --> 00:03:27,120

three of three in this series to make

84

00:03:30,869 --> 00:03:28,879

more sense of what we'll discuss today i

85

00:03:33,670 --> 00:03:30,879

would suggest you go back to episode

86

00:03:35,990 --> 00:03:33,680

number 46 to get the first episode then

87

00:03:37,910 --> 00:03:36,000

47 and then come back and listen to this

88

00:03:40,229 --> 00:03:37,920

episode 48.

89

00:03:42,550 --> 00:03:40,239

now i'd like to give my usual caveat

90

00:03:44,949 --> 00:03:42,560

here that what we're discussing today

91

00:03:48,229 --> 00:03:44,959

the possibility that some of these grays

92

00:03:50,949 --> 00:03:48,239

maybe neo-humans from the future is just

93

00:03:53,110 --> 00:03:50,959

one aspect of a much larger phenomenon

94

00:03:54,869 --> 00:03:53,120

and as i've said many times i believe

95

00:03:57,270 --> 00:03:54,879

there are numerous sources behind this

96

00:03:59,110 --> 00:03:57,280

phenomenon and indeed part of the

97

00:04:01,190 --> 00:03:59,120

challenge in understanding it and part

98

00:04:03,270 --> 00:04:01,200

of the mistake people make in trying to

99

00:04:05,270 --> 00:04:03,280

make sense of it is that they assume

100

00:04:07,509 --> 00:04:05,280

it's a singular actor and a single

101
00:04:09,830 --> 00:04:07,519
agenda and then they try to make sense

102
00:04:12,390 --> 00:04:09,840
of all these phenomena as if they are

103
00:04:15,110 --> 00:04:12,400
the actions of a singular actor which

104
00:04:17,110 --> 00:04:15,120
becomes largely impossible because in

105
00:04:19,749 --> 00:04:17,120
reality they are arising from different

106
00:04:22,310 --> 00:04:19,759
sources so just to clarify in addition

107
00:04:24,310 --> 00:04:22,320
to future humans or a kind of creature

108
00:04:26,510 --> 00:04:24,320
that is somehow related to us from our

109
00:04:28,550 --> 00:04:26,520
future i also believe that

110
00:04:30,870 --> 00:04:28,560
extraterrestrials are involved in the

111
00:04:32,870 --> 00:04:30,880
phenomenon in general as are

112
00:04:35,270 --> 00:04:32,880
interdimensionals and as we'll get to

113
00:04:37,590 --> 00:04:35,280

later in this podcast it's not even so

114

00:04:39,990 --> 00:04:37,600

easy to separate those notions

115

00:04:41,670 --> 00:04:40,000

extraterrestrial and interdimensional

116

00:04:42,749 --> 00:04:41,680

from what we're going to discuss today

117

00:04:45,270 --> 00:04:42,759

which is

118

00:04:47,270 --> 00:04:45,280

extraterrestrials that is beings from

119

00:04:49,270 --> 00:04:47,280

beyond our time

120

00:04:52,150 --> 00:04:49,280

i'd also like to remind you that the ufo

121

00:04:55,270 --> 00:04:52,160

phenomenon clearly involves a variety of

122

00:04:58,790 --> 00:04:55,280

other entities not just grey aliens or

123

00:05:01,510 --> 00:04:58,800

reptilians or nordics or mantids but

124

00:05:03,749 --> 00:05:01,520

also shadow people and cryptids and

125

00:05:07,029 --> 00:05:03,759

portals that may very well be wormholes

126
00:05:09,110 --> 00:05:07,039
between galaxies or between realities

127
00:05:11,350 --> 00:05:09,120
all of that is in the mix that is partly

128
00:05:13,510 --> 00:05:11,360
why this is so fascinating but also so

129
00:05:15,990 --> 00:05:13,520
complex to unravel

130
00:05:18,710 --> 00:05:16,000
so with that caveat aside let's dive

131
00:05:21,670 --> 00:05:18,720
back into this part three discussing

132
00:05:26,230 --> 00:05:21,680
this notion that some of these aliens

133
00:05:31,189 --> 00:05:28,790
now let's jump into this specific intel

134
00:05:33,909 --> 00:05:31,199
as it applies to this notion that time

135
00:05:36,550 --> 00:05:33,919
travelers have come back in order to

136
00:05:38,469 --> 00:05:36,560
address some sort of cataclysm that lies

137
00:05:40,629 --> 00:05:38,479
in our near future as i've mentioned

138
00:05:41,590 --> 00:05:40,639

before on previous episodes in this

139

00:05:43,590 --> 00:05:41,600

series

140

00:05:45,909 --> 00:05:43,600

one or more factions wants to help us

141

00:05:48,790 --> 00:05:45,919

prevent this cataclysm from happening

142

00:05:50,710 --> 00:05:48,800

while other faction or factions want to

143

00:05:52,950 --> 00:05:50,720

actually ensure it does happen

144

00:05:55,270 --> 00:05:52,960

specifically the grays are supposedly on

145

00:05:57,270 --> 00:05:55,280

this side of the equation because they

146

00:05:59,830 --> 00:05:57,280

want the cataclysm to happen because it

147

00:06:02,390 --> 00:05:59,840

gives rise to their genesis now on the

148

00:06:04,710 --> 00:06:02,400

last two episodes we discussed how

149

00:06:07,189 --> 00:06:04,720

objects in space may be the threat that

150

00:06:09,590 --> 00:06:07,199

we really face that this may be the root

151
00:06:11,830 --> 00:06:09,600
of this environmental disaster that

152
00:06:13,749 --> 00:06:11,840
brings about this cataclysm either

153
00:06:15,990 --> 00:06:13,759
because something directly impacts the

154
00:06:18,710 --> 00:06:16,000
earth or it comes so close to the earth

155
00:06:20,629 --> 00:06:18,720
that it creates an electromagnetic pulse

156
00:06:23,270 --> 00:06:20,639
which basically fries all of their

157
00:06:24,390 --> 00:06:23,280
circuitry of our entire techno-economic

158
00:06:26,790 --> 00:06:24,400
grid

159
00:06:28,950 --> 00:06:26,800
now in terms of objects in space another

160
00:06:32,150 --> 00:06:28,960
possibility is that an additional planet

161
00:06:34,550 --> 00:06:32,160
or planetoid and its debris come around

162
00:06:36,150 --> 00:06:34,560
once in a while if this is the case and

163
00:06:39,590 --> 00:06:36,160

there is some evidence that this is the

164

00:06:41,670 --> 00:06:39,600

case then this planetoid and its debris

165

00:06:43,830 --> 00:06:41,680

may be the source of this potential

166

00:06:45,830 --> 00:06:43,840

cataclysm now what are the chances we

167

00:06:48,550 --> 00:06:45,840

could be surprised by something out

168

00:06:50,390 --> 00:06:48,560

there well to many people's surprise the

169

00:06:52,790 --> 00:06:50,400

chances are actually pretty good

170

00:06:56,070 --> 00:06:52,800

unfortunately again we talked about the

171

00:06:58,309 --> 00:06:56,080

chelyabinsk event that happened in 2013

172

00:07:01,670 --> 00:06:58,319

in a previous episode we know that that

173

00:07:03,909 --> 00:07:01,680

event caught us by surprise because the

174

00:07:06,150 --> 00:07:03,919

objects came from behind the sun and we

175

00:07:08,390 --> 00:07:06,160

are largely blinded in that direction

176

00:07:10,469 --> 00:07:08,400

because of the intensity of the sun

177

00:07:12,790 --> 00:07:10,479

now that's shocking to many people that

178

00:07:14,390 --> 00:07:12,800

we're so exposed to objects from outer

179

00:07:16,390 --> 00:07:14,400

space that we don't even see until

180

00:07:19,029 --> 00:07:16,400

they're basically here of course that

181

00:07:21,589 --> 00:07:19,039

means even if we did have defenses we

182

00:07:24,550 --> 00:07:21,599

might not have the time to act in order

183

00:07:26,469 --> 00:07:24,560

to prevent a cataclysm now ironically

184

00:07:29,189 --> 00:07:26,479

while many people are busy speculating

185

00:07:31,350 --> 00:07:29,199

about alien invasions the real danger

186

00:07:33,430 --> 00:07:31,360

may be near-earth debris that we're just

187

00:07:35,350 --> 00:07:33,440

not paying close enough attention to

188

00:07:37,589 --> 00:07:35,360

indeed some of these intel sources that

189

00:07:40,550 --> 00:07:37,599

i've mentioned before speaking to people

190

00:07:42,710 --> 00:07:40,560

like frank milburn and ross coulthart

191

00:07:44,390 --> 00:07:42,720

have expressed extreme frustration that

192

00:07:46,790 --> 00:07:44,400

there hasn't been more of a dedicated

193

00:07:49,029 --> 00:07:46,800

effort to ensuring we can stop such

194

00:07:50,710 --> 00:07:49,039

objects from impacting the earth

195

00:07:53,270 --> 00:07:50,720

now when it comes to previous earth

196

00:07:55,510 --> 00:07:53,280

cataclysms there are historians and

197

00:07:57,830 --> 00:07:55,520

archaeologists and anthropologists who

198

00:08:00,070 --> 00:07:57,840

believe that it's happened several times

199

00:08:03,270 --> 00:08:00,080

and perhaps even wiped out previous

200

00:08:05,589 --> 00:08:03,280

sophisticated civilizations on the earth

201

00:08:07,510 --> 00:08:05,599

civilizations for which we largely no

202

00:08:10,550 --> 00:08:07,520

longer have any record

203

00:08:13,270 --> 00:08:10,560

civilizations such as atlantis

204

00:08:15,309 --> 00:08:13,280

graham hancock is one of those people he

205

00:08:17,830 --> 00:08:15,319

argues that our tendency towards

206

00:08:20,150 --> 00:08:17,840

uniformitarianism the notion that events

207

00:08:22,150 --> 00:08:20,160

on the earth have always proceeded

208

00:08:24,390 --> 00:08:22,160

pretty much exactly as they have in our

209

00:08:26,629 --> 00:08:24,400

recorded history which of course is a

210

00:08:28,150 --> 00:08:26,639

huge assumption hancock and others

211

00:08:30,710 --> 00:08:28,160

believe that actually there have been

212

00:08:33,110 --> 00:08:30,720

numerous repeated cataclysms and perhaps

213

00:08:34,790 --> 00:08:33,120

that these cataclysms happen cyclically

214

00:08:37,029 --> 00:08:34,800

meaning that they come on a repeated

215

00:08:39,029 --> 00:08:37,039

schedule and as we've discussed before

216

00:08:41,509 --> 00:08:39,039

there are some such as hancock and

217

00:08:43,829 --> 00:08:41,519

others who suggest that time is coming

218

00:08:45,990 --> 00:08:43,839

due once again for a reoccurrence of

219

00:08:49,269 --> 00:08:46,000

these cataclysms whether that be an

220

00:08:51,190 --> 00:08:49,279

asteroid a comet a magnetic pole shift

221

00:08:52,870 --> 00:08:51,200

that we talked about even recently i

222

00:08:55,030 --> 00:08:52,880

heard about the possibility of a super

223

00:08:56,470 --> 00:08:55,040

volcano eruption which would massively

224

00:08:58,070 --> 00:08:56,480

impact the earth

225

00:09:00,230 --> 00:08:58,080

now speaking of potentially

226

00:09:01,829 --> 00:09:00,240

corroborating evidence towards this

227

00:09:04,070 --> 00:09:01,839

notion that a cataclysm is going to

228

00:09:06,230 --> 00:09:04,080

happen that will massively impact the

229

00:09:08,310 --> 00:09:06,240

earth and even more so impact our

230

00:09:10,509 --> 00:09:08,320

civilization we should remember that

231

00:09:13,590 --> 00:09:10,519

many experiencers have been shown

232

00:09:16,550 --> 00:09:13,600

apocalyptic images of the earth the

233

00:09:19,509 --> 00:09:16,560

earth either exploding or on fire what

234

00:09:22,550 --> 00:09:19,519

have you susie hansen is a helpful case

235

00:09:24,470 --> 00:09:22,560

in point she is an experiencer who's had

236

00:09:26,710 --> 00:09:24,480

contact events since she was a young

237

00:09:29,430 --> 00:09:26,720

child and she repeatedly continues to

238

00:09:31,990 --> 00:09:29,440

have these events and has a good working

239

00:09:34,070 --> 00:09:32,000

relationship with these others many of

240

00:09:36,710 --> 00:09:34,080

them which look like graves

241

00:09:39,430 --> 00:09:36,720

now she reports being recruited as a

242

00:09:42,150 --> 00:09:39,440

kind of ambassador between these others

243

00:09:45,350 --> 00:09:42,160

and us and that her role will be to help

244

00:09:47,110 --> 00:09:45,360

us when a cataclysm does occur so what

245

00:09:50,070 --> 00:09:47,120

i'm saying is she's basically been

246

00:09:52,230 --> 00:09:50,080

prepared to expect such a cataclysm and

247

00:09:54,949 --> 00:09:52,240

that she and many others have been

248

00:09:57,350 --> 00:09:54,959

chosen to help the human population when

249

00:09:59,590 --> 00:09:57,360

this cataclysm occurs so in other words

250

00:10:01,750 --> 00:09:59,600

the implication is this will be in her

251
00:10:04,310 --> 00:10:01,760
lifetime and as far as i understand

252
00:10:06,310 --> 00:10:04,320
susie's in her 60s or so i believe so

253
00:10:08,870 --> 00:10:06,320
this again could potentially line up

254
00:10:11,110 --> 00:10:08,880
within 10 years kind of timeline for

255
00:10:13,829 --> 00:10:11,120
this cataclysm that we've heard about

256
00:10:15,670 --> 00:10:13,839
from these intel sources

257
00:10:17,430 --> 00:10:15,680
so that along with other lines of

258
00:10:19,990 --> 00:10:17,440
evidence i've discussed on our previous

259
00:10:22,470 --> 00:10:20,000
podcast episodes lend some support to

260
00:10:24,310 --> 00:10:22,480
this notion that a cataclysm may indeed

261
00:10:26,230 --> 00:10:24,320
lie in our future

262
00:10:28,790 --> 00:10:26,240
i would now like to add that there is

263
00:10:30,949 --> 00:10:28,800

more than just these others supposedly

264

00:10:32,790 --> 00:10:30,959

telling us this is going to happen

265

00:10:33,670 --> 00:10:32,800

because as commenters have pointed out

266

00:10:35,829 --> 00:10:33,680

to me

267

00:10:37,110 --> 00:10:35,839

what if these others are simply lying

268

00:10:39,590 --> 00:10:37,120

how do we know they're telling us the

269

00:10:41,350 --> 00:10:39,600

truth about this cataclysm well that's a

270

00:10:43,670 --> 00:10:41,360

fair point because of course even

271

00:10:46,389 --> 00:10:43,680

experiencers like susie hansen

272

00:10:48,150 --> 00:10:46,399

potentially could be being deceived by

273

00:10:50,069 --> 00:10:48,160

these others do we have any

274

00:10:51,829 --> 00:10:50,079

corroborating evidence that doesn't

275

00:10:54,150 --> 00:10:51,839

arise from them

276

00:10:55,910 --> 00:10:54,160

well as it turns out we do

277

00:10:58,230 --> 00:10:55,920

part of what's been going on apparently

278

00:11:01,030 --> 00:10:58,240

by this control group in charge of this

279

00:11:03,590 --> 00:11:01,040

particular aspect of the ufo phenomenon

280

00:11:06,069 --> 00:11:03,600

is that remote viewing has been used in

281

00:11:08,150 --> 00:11:06,079

order to try to ascertain what is

282

00:11:10,470 --> 00:11:08,160

happening in our future now we've

283

00:11:12,949 --> 00:11:10,480

discussed remote viewing before we

284

00:11:14,630 --> 00:11:12,959

discussed how remote viewing was a very

285

00:11:18,389 --> 00:11:14,640

successful program

286

00:11:20,230 --> 00:11:18,399

run by the cia for 20 years and what

287

00:11:22,870 --> 00:11:20,240

i've heard is that even when the program

288

00:11:24,630 --> 00:11:22,880

supposedly shut down it basically just

289

00:11:27,350 --> 00:11:24,640

shifted to the department of defense

290

00:11:29,590 --> 00:11:27,360

instead of the cia and now has gone

291

00:11:32,550 --> 00:11:29,600

deeply black and i don't know this for

292

00:11:34,389 --> 00:11:32,560

sure i have heard that superstar remote

293

00:11:35,829 --> 00:11:34,399

viewers are involved in this program

294

00:11:37,829 --> 00:11:35,839

because obviously you would want the

295

00:11:40,630 --> 00:11:37,839

very best of the very best

296

00:11:42,550 --> 00:11:40,640

but people like joseph mcmonagle perhaps

297

00:11:44,710 --> 00:11:42,560

who is one of the best in the world are

298

00:11:47,190 --> 00:11:44,720

likely involved in this program in order

299

00:11:48,949 --> 00:11:47,200

to try to peer into the future to see

300

00:11:51,110 --> 00:11:48,959

what lies ahead

301
00:11:52,949 --> 00:11:51,120
now some people may balk at the notion

302
00:11:55,990 --> 00:11:52,959
that remote viewing could actually be

303
00:11:57,030 --> 00:11:56,000
useful evidential kind of data in this

304
00:11:59,269 --> 00:11:57,040
case

305
00:12:01,910 --> 00:11:59,279
but actually the history of remote

306
00:12:03,509 --> 00:12:01,920
viewing is remarkably successful as i

307
00:12:05,829 --> 00:12:03,519
mentioned before

308
00:12:08,069 --> 00:12:05,839
very accurate intel has been obtained

309
00:12:10,550 --> 00:12:08,079
time and time again and we know this

310
00:12:13,110 --> 00:12:10,560
because the data obtained was

311
00:12:14,389 --> 00:12:13,120
corroborated by other lines of evidence

312
00:12:16,790 --> 00:12:14,399
because of course the intelligence

313
00:12:19,190 --> 00:12:16,800

services do the best they can to always

314

00:12:20,230 --> 00:12:19,200

corroborate whatever evidence is

315

00:12:22,069 --> 00:12:20,240

obtained

316

00:12:24,710 --> 00:12:22,079

in one case i'm aware of joseph

317

00:12:26,870 --> 00:12:24,720

mcmonagle was actually tasked with

318

00:12:29,990 --> 00:12:26,880

trying to find out more about a bomb

319

00:12:32,389 --> 00:12:30,000

that went off in an airliner in the past

320

00:12:34,949 --> 00:12:32,399

he was in fact able to remote view what

321

00:12:37,269 --> 00:12:34,959

was going on inside the airplane before

322

00:12:39,829 --> 00:12:37,279

the bomb detonated and was able to

323

00:12:41,990 --> 00:12:39,839

provide information about where the bomb

324

00:12:44,550 --> 00:12:42,000

actually was and that lined up with

325

00:12:46,230 --> 00:12:44,560

other data points what's even more

326

00:12:49,110 --> 00:12:46,240

fascinating about that case is

327

00:12:51,509 --> 00:12:49,120

supposedly people on board the plane

328

00:12:53,430 --> 00:12:51,519

could actually somehow see joseph

329

00:12:55,750 --> 00:12:53,440

mcmonagle perhaps they saw kind of an

330

00:12:58,150 --> 00:12:55,760

ethereal form of him but people

331

00:13:00,790 --> 00:12:58,160

apparently noticed him which is very

332

00:13:02,710 --> 00:13:00,800

interesting for numerous reasons one

333

00:13:05,190 --> 00:13:02,720

because of course this in itself is a

334

00:13:07,350 --> 00:13:05,200

kind of time travel and even though he

335

00:13:09,590 --> 00:13:07,360

can't directly change anything he

336

00:13:12,230 --> 00:13:09,600

couldn't put a seat up or down on that

337

00:13:14,949 --> 00:13:12,240

plane but when people see him that of

338

00:13:17,509 --> 00:13:14,959

course might change their behavior so in

339

00:13:20,470 --> 00:13:17,519

an indirect way you're actually changing

340

00:13:23,110 --> 00:13:20,480

the timeline by remote viewing mcmonugal

341

00:13:25,910 --> 00:13:23,120

has also been used to learn about an

342

00:13:28,310 --> 00:13:25,920

ancient civilization on mars and again

343

00:13:30,790 --> 00:13:28,320

this is documented as having happened

344

00:13:33,350 --> 00:13:30,800

you can go online and find illustrations

345

00:13:36,310 --> 00:13:33,360

that mcmonagle made of the supposed

346

00:13:38,870 --> 00:13:36,320

beings and the structures he saw on mars

347

00:13:41,189 --> 00:13:38,880

in the distant distant past

348

00:13:43,829 --> 00:13:41,199

and just to remind you when a remote

349

00:13:46,069 --> 00:13:43,839

viewer is given a task such as this they

350

00:13:47,829 --> 00:13:46,079

don't know what the target is they just

351

00:13:50,389 --> 00:13:47,839

are given coordinates or some sort of

352

00:13:52,310 --> 00:13:50,399

reference number and then they just

353

00:13:54,710 --> 00:13:52,320

describe what they see sometimes they

354

00:13:56,870 --> 00:13:54,720

draw what they see mcmonagle has done

355

00:13:59,829 --> 00:13:56,880

this time and time again and has

356

00:14:02,230 --> 00:13:59,839

demonstrated his clear talent for this

357

00:14:04,150 --> 00:14:02,240

now it may not just be an innate talent

358

00:14:06,949 --> 00:14:04,160

because as it turns out there was an

359

00:14:08,870 --> 00:14:06,959

event in mcmonagle's life much like jack

360

00:14:11,430 --> 00:14:08,880

sarfati that we talked about in a couple

361

00:14:14,069 --> 00:14:11,440

episodes ago which is very interesting

362

00:14:17,189 --> 00:14:14,079

and potentially very pertinent to this

363

00:14:20,069 --> 00:14:17,199

discussion because it may involve a time

364

00:14:22,790 --> 00:14:20,079

loop you remember that in episode 1 we

365

00:14:25,670 --> 00:14:22,800

talked about jacques sarfati apparently

366

00:14:28,310 --> 00:14:25,680

being contacted by a tic tac-like

367

00:14:30,470 --> 00:14:28,320

vehicle in 1953

368

00:14:33,750 --> 00:14:30,480

and he was communicated by the conscious

369

00:14:36,710 --> 00:14:33,760

ai inside that craft that this was

370

00:14:38,710 --> 00:14:36,720

technology from humanity of the future

371

00:14:41,189 --> 00:14:38,720

and then later on of course we know that

372

00:14:43,829 --> 00:14:41,199

sarfati became a world-class physicist

373

00:14:45,750 --> 00:14:43,839

and to some degree his contribution may

374

00:14:47,430 --> 00:14:45,760

very well end up leading to something

375

00:14:48,949 --> 00:14:47,440

like the development of tic tac

376

00:14:50,790 --> 00:14:48,959

technology

377

00:14:52,790 --> 00:14:50,800

so there you have kind of a time loop

378

00:14:55,110 --> 00:14:52,800

going on in a similar way what's

379

00:14:58,470 --> 00:14:55,120

interesting about mcmonagle is that in

380

00:15:00,870 --> 00:14:58,480

the 70s he had an encounter with a ufo

381

00:15:03,110 --> 00:15:00,880

while he was in the military this ufo

382

00:15:04,710 --> 00:15:03,120

appeared above him shined a bright light

383

00:15:06,949 --> 00:15:04,720

down that affected him and another

384

00:15:09,509 --> 00:15:06,959

person that he was with and ever since

385

00:15:12,470 --> 00:15:09,519

then mcmonagle has had remarkable

386

00:15:15,590 --> 00:15:12,480

abilities abilities such as the capacity

387

00:15:17,269 --> 00:15:15,600

to remote view to an astounding degree

388

00:15:19,430 --> 00:15:17,279

to a degree that makes him basically one

389

00:15:21,670 --> 00:15:19,440

of the very best in the world

390

00:15:23,350 --> 00:15:21,680

so again there you also have a kind of

391

00:15:25,990 --> 00:15:23,360

time loop where some sort of

392

00:15:28,150 --> 00:15:26,000

intelligence potentially from the future

393

00:15:30,310 --> 00:15:28,160

contacted him and changed him in some

394

00:15:32,710 --> 00:15:30,320

way in the 1970s

395

00:15:34,949 --> 00:15:32,720

and now he may be being used to remote

396

00:15:37,269 --> 00:15:34,959

view the future again a kind of time

397

00:15:39,350 --> 00:15:37,279

loop might be taking place there

398

00:15:41,430 --> 00:15:39,360

now i just want to clarify i don't know

399

00:15:43,990 --> 00:15:41,440

that mcmanagal is the one that is being

400

00:15:46,150 --> 00:15:44,000

used to remote view the future my

401
00:15:49,030 --> 00:15:46,160
suspicion is that he is because he's one

402
00:15:51,590 --> 00:15:49,040
of the very very best even if it's not

403
00:15:53,590 --> 00:15:51,600
him you can guarantee they're using some

404
00:15:56,790 --> 00:15:53,600
of the very best in the world because of

405
00:15:58,710 --> 00:15:56,800
course this is such an important task

406
00:16:01,430 --> 00:15:58,720
but pay attention to the notion of time

407
00:16:03,030 --> 00:16:01,440
loops because that is key to all of this

408
00:16:05,990 --> 00:16:03,040
and even though it runs counter to how

409
00:16:08,629 --> 00:16:06,000
we think about time apparently it is a

410
00:16:10,870 --> 00:16:08,639
natural function of space-time

411
00:16:13,030 --> 00:16:10,880
so now that we've covered in more detail

412
00:16:14,870 --> 00:16:13,040
some of the intel applying to this

413
00:16:16,470 --> 00:16:14,880

supposed cataclysm

414

00:16:17,749 --> 00:16:16,480

and other lines of evidence that might

415

00:16:20,629 --> 00:16:17,759

support that

416

00:16:23,430 --> 00:16:20,639

let's move now to master's argument what

417

00:16:25,590 --> 00:16:23,440

i would call his masterful argument that

418

00:16:28,069 --> 00:16:25,600

these others or at least some of them

419

00:16:29,350 --> 00:16:28,079

may very well indeed be us from the

420

00:16:31,350 --> 00:16:29,360

future

421

00:16:33,590 --> 00:16:31,360

just to clarify from his point of view

422

00:16:36,150 --> 00:16:33,600

it's almost guaranteed they must be us

423

00:16:38,550 --> 00:16:36,160

from the future he is very confident in

424

00:16:40,870 --> 00:16:38,560

that conclusion now before we get to his

425

00:16:42,870 --> 00:16:40,880

very soundly based arguments based on

426

00:16:44,629 --> 00:16:42,880

evolutionary biology

427

00:16:47,189 --> 00:16:44,639

he does bring up something that is

428

00:16:50,310 --> 00:16:47,199

interesting he brings up the santilli

429

00:16:53,030 --> 00:16:50,320

alien autopsy film now we know that that

430

00:16:54,790 --> 00:16:53,040

film itself is likely a hoax almost

431

00:16:57,430 --> 00:16:54,800

guaranteed to be but there is

432

00:16:59,910 --> 00:16:57,440

suggestions that that film is based on

433

00:17:02,389 --> 00:16:59,920

evidence that is actually real and if

434

00:17:05,270 --> 00:17:02,399

that's the case then from master's point

435

00:17:07,990 --> 00:17:05,280

of view it is remarkable how human-like

436

00:17:10,230 --> 00:17:08,000

that alien looks it looks like something

437

00:17:12,309 --> 00:17:10,240

that must be related to us

438

00:17:14,470 --> 00:17:12,319

and to add to that and of course this is

439

00:17:16,470 --> 00:17:14,480

somewhat speculative there have been

440

00:17:18,789 --> 00:17:16,480

people who have suggested that one of

441

00:17:21,429 --> 00:17:18,799

the surprises when a supposed alien

442

00:17:23,429 --> 00:17:21,439

autopsy happened perhaps on the beings

443

00:17:25,909 --> 00:17:23,439

recovered at roswell

444

00:17:29,110 --> 00:17:25,919

was that they actually shared a genetic

445

00:17:31,590 --> 00:17:29,120

lineage with us they found dna in this

446

00:17:32,549 --> 00:17:31,600

being that matched our own and vice

447

00:17:34,549 --> 00:17:32,559

versa

448

00:17:36,710 --> 00:17:34,559

this was a shock to the system of course

449

00:17:38,990 --> 00:17:36,720

because in that day and age the

450

00:17:41,590 --> 00:17:39,000

assumption was this being was

451
00:17:44,549 --> 00:17:41,600
extraterrestrial no one was expecting to

452
00:17:46,630 --> 00:17:44,559
find dna that matched human dna but

453
00:17:48,470 --> 00:17:46,640
again according to some sources that was

454
00:17:50,950 --> 00:17:48,480
what was found and that was part of the

455
00:17:52,470 --> 00:17:50,960
shock and may indeed have even led to

456
00:17:54,870 --> 00:17:52,480
part of the reason why this has been

457
00:17:57,350 --> 00:17:54,880
covered up because the assumption is the

458
00:17:59,029 --> 00:17:57,360
american public and the world public

459
00:18:01,350 --> 00:17:59,039
couldn't handle this

460
00:18:03,590 --> 00:18:01,360
but again much of that line of argument

461
00:18:05,830 --> 00:18:03,600
is speculative we can't prove that we

462
00:18:08,870 --> 00:18:05,840
don't know for sure what happened with

463
00:18:11,270 --> 00:18:08,880

that autopsy however we need not rely on

464

00:18:13,830 --> 00:18:11,280

speculation and that's because dr

465

00:18:16,710 --> 00:18:13,840

michael masters professor of biological

466

00:18:17,909 --> 00:18:16,720

anthropology at montana tech in butte

467

00:18:19,669 --> 00:18:17,919

montana

468

00:18:22,310 --> 00:18:19,679

suggests that long-standing and

469

00:18:24,950 --> 00:18:22,320

repeatedly attested observations of the

470

00:18:27,029 --> 00:18:24,960

appearance of these others suggest they

471

00:18:29,830 --> 00:18:27,039

must be related to us and i'd like to

472

00:18:31,909 --> 00:18:29,840

quote from master's book here quote

473

00:18:34,710 --> 00:18:31,919

the physical form of these individuals

474

00:18:35,830 --> 00:18:34,720

is remarkably consistent across abductee

475

00:18:37,669 --> 00:18:35,840

reports

476

00:18:39,669 --> 00:18:37,679

furthermore the physical traits

477

00:18:40,950 --> 00:18:39,679

described are also consistent with what

478

00:18:43,350 --> 00:18:40,960

we would expect to see in the

479

00:18:46,470 --> 00:18:43,360

morphological form of our distant

480

00:18:50,549 --> 00:18:46,480

descendants based on prominent long-term

481

00:18:53,430 --> 00:18:50,559

trends in our cerebral ocular cranial

482

00:18:55,590 --> 00:18:53,440

facial and post-cranial anatomy

483

00:18:58,710 --> 00:18:55,600

throughout the last six million years of

484

00:19:00,789 --> 00:18:58,720

hominin evolution unquote now what's

485

00:19:03,190 --> 00:19:00,799

interesting is masters points out that

486

00:19:05,270 --> 00:19:03,200

when you look at ancient humans and even

487

00:19:07,669 --> 00:19:05,280

before that chimpanzees and you look at

488

00:19:10,310 --> 00:19:07,679

the trends the biological trends of

489

00:19:12,950 --> 00:19:10,320

evolution that led to modern humans you

490

00:19:15,430 --> 00:19:12,960

see this trend towards smaller faces

491

00:19:18,070 --> 00:19:15,440

larger brains and he suggests when you

492

00:19:21,190 --> 00:19:18,080

continue that trend what you end up with

493

00:19:23,270 --> 00:19:21,200

is something very much like a gray alien

494

00:19:25,270 --> 00:19:23,280

quoting again from his book quote

495

00:19:27,750 --> 00:19:25,280

considering only these most enduring

496

00:19:30,070 --> 00:19:27,760

trends throughout the hominin past our

497

00:19:33,990 --> 00:19:30,080

bipedal hominin descendants are likely

498

00:19:36,950 --> 00:19:34,000

to possess an even rounder neurocranium

499

00:19:38,909 --> 00:19:36,960

situated above even smaller faces which

500

00:19:40,549 --> 00:19:38,919

exhibit an even greater degree of

501
00:19:42,870 --> 00:19:40,559
paedomorphosis

502
00:19:45,190 --> 00:19:42,880
with this in mind one can appreciate how

503
00:19:48,150 --> 00:19:45,200
the vast majority of reports of close

504
00:19:50,310 --> 00:19:48,160
encounters which describe alien beings

505
00:19:53,669 --> 00:19:50,320
with these same craniofacial

506
00:19:56,549 --> 00:19:53,679
characteristics are quite simply us as

507
00:19:58,950 --> 00:19:56,559
more evolved members of the same hominin

508
00:20:01,270 --> 00:19:58,960
lineage unquote

509
00:20:03,830 --> 00:20:01,280
now just to make this crystal clear what

510
00:20:06,070 --> 00:20:03,840
masters is arguing is that it's not just

511
00:20:08,310 --> 00:20:06,080
that they look remarkably similar to us

512
00:20:10,230 --> 00:20:08,320
and have a hominid form which suggests

513
00:20:12,789 --> 00:20:10,240

they must come from us in some way they

514

00:20:14,710 --> 00:20:12,799

must be a further evolution of our form

515

00:20:17,909 --> 00:20:14,720

he's also arguing that when you look at

516

00:20:19,990 --> 00:20:17,919

the trends of evolution from chimpanzees

517

00:20:21,830 --> 00:20:20,000

to modern humans and you look at that

518

00:20:24,470 --> 00:20:21,840

trajectory and you continue that

519

00:20:27,029 --> 00:20:24,480

trajectory what you will end up with is

520

00:20:29,669 --> 00:20:27,039

something very much like a gray alien

521

00:20:33,430 --> 00:20:29,679

that has a smaller face a kind of more

522

00:20:35,669 --> 00:20:33,440

childlike face a larger brain etc it's a

523

00:20:37,510 --> 00:20:35,679

very compelling argument

524

00:20:39,750 --> 00:20:37,520

now as part of my research for this

525

00:20:41,669 --> 00:20:39,760

series i reached out to michael masters

526

00:20:43,270 --> 00:20:41,679

to ask him some questions

527

00:20:46,149 --> 00:20:43,280

one of the questions i asked him because

528

00:20:48,149 --> 00:20:46,159

i had several people ask me is how long

529

00:20:50,310 --> 00:20:48,159

it might take for something like the

530

00:20:52,710 --> 00:20:50,320

modern human form to evolve into

531

00:20:55,430 --> 00:20:52,720

something like a gray alien kind of form

532

00:20:57,110 --> 00:20:55,440

if they are indeed us in the future

533

00:20:59,669 --> 00:20:57,120

now of course there are many factors

534

00:21:01,270 --> 00:20:59,679

that determine that kind of eventuality

535

00:21:03,270 --> 00:21:01,280

but this is what masters said to me when

536

00:21:05,830 --> 00:21:03,280

i corresponded with him

537

00:21:08,070 --> 00:21:05,840

quote if our project gets picked up

538

00:21:11,029 --> 00:21:08,080

we're planning on doing some 3d computer

539

00:21:13,750 --> 00:21:11,039

modeling with geometric morphometrics to

540

00:21:15,830 --> 00:21:13,760

get a better answer to that question

541

00:21:17,110 --> 00:21:15,840

assuming they're not ai which i don't

542

00:21:18,950 --> 00:21:17,120

think they are

543

00:21:21,669 --> 00:21:18,960

and assuming the accelerating rate of

544

00:21:23,430 --> 00:21:21,679

evolutionary change continues which it

545

00:21:25,909 --> 00:21:23,440

should considering how long it already

546

00:21:29,350 --> 00:21:25,919

has then i think at minimum we're

547

00:21:31,669 --> 00:21:29,360

looking at 8 000 to 12 000 years though

548

00:21:34,230 --> 00:21:31,679

there are other issues related to sex

549

00:21:36,549 --> 00:21:34,240

age and geographic variation i've

550

00:21:38,149 --> 00:21:36,559

discussed on various shows before

551
00:21:40,390 --> 00:21:38,159
unquote

552
00:21:42,230 --> 00:21:40,400
so that covers some of master's very

553
00:21:44,549 --> 00:21:42,240
compelling arguments based on his

554
00:21:46,710 --> 00:21:44,559
expertise in this area

555
00:21:49,430 --> 00:21:46,720
suggesting that these others at least

556
00:21:51,590 --> 00:21:49,440
some of them are very likely to be our

557
00:21:53,990 --> 00:21:51,600
genetic descendants

558
00:21:56,470 --> 00:21:54,000
let's now move to the issue of time

559
00:21:58,470 --> 00:21:56,480
travel how likely is it how close are we

560
00:22:00,310 --> 00:21:58,480
to understanding it and actually making

561
00:22:02,149 --> 00:22:00,320
it actionable

562
00:22:03,909 --> 00:22:02,159
well einstein is known to have said

563
00:22:05,590 --> 00:22:03,919

something like people like us who

564

00:22:08,070 --> 00:22:05,600

believe in physics know that the

565

00:22:11,110 --> 00:22:08,080

distinction between past present and

566

00:22:12,630 --> 00:22:11,120

future is only a stubbornly persistent

567

00:22:15,350 --> 00:22:12,640

illusion

568

00:22:18,710 --> 00:22:15,360

now we know now that time perception

569

00:22:20,549 --> 00:22:18,720

changes in proportion to velocity

570

00:22:23,029 --> 00:22:20,559

if you travel away at the speed of light

571

00:22:25,270 --> 00:22:23,039

for instance exactly when you look back

572

00:22:27,590 --> 00:22:25,280

at the earth you would see a snapshot an

573

00:22:29,669 --> 00:22:27,600

unchanging snapshot because you're

574

00:22:32,070 --> 00:22:29,679

speeding away at the same speed as the

575

00:22:34,710 --> 00:22:32,080

light in another example if you happen

576

00:22:37,110 --> 00:22:34,720

to be on a distant planet about 65

577

00:22:38,710 --> 00:22:37,120

million light years from the earth when

578

00:22:41,350 --> 00:22:38,720

you peered with a really powerful

579

00:22:43,590 --> 00:22:41,360

telescope on the earth you might find a

580

00:22:45,750 --> 00:22:43,600

t-rex staring back at you because of

581

00:22:48,789 --> 00:22:45,760

course what you're seeing is the earth

582

00:22:50,710 --> 00:22:48,799

as it was 65 million years ago because

583

00:22:53,029 --> 00:22:50,720

that's how long it's taken for the image

584

00:22:55,430 --> 00:22:53,039

to get to you for the photons to get to

585

00:22:57,029 --> 00:22:55,440

you because you are 65 million light

586

00:22:58,710 --> 00:22:57,039

years away

587

00:23:01,270 --> 00:22:58,720

now there's also the issue of time

588

00:23:04,310 --> 00:23:01,280

dilation the twin example is a prime

589

00:23:06,789 --> 00:23:04,320

example here the idea is if you have one

590

00:23:09,190 --> 00:23:06,799

twin who gets on a spacecraft traveling

591

00:23:11,190 --> 00:23:09,200

close to the speed of light very quickly

592

00:23:13,270 --> 00:23:11,200

and then comes back to earth and meets

593

00:23:15,830 --> 00:23:13,280

up with his twin on earth the twin on

594

00:23:17,990 --> 00:23:15,840

earth will now be perhaps an old man

595

00:23:20,789 --> 00:23:18,000

while the twin who was on the spacecraft

596

00:23:24,149 --> 00:23:20,799

hardly aged at all we know this is the

597

00:23:25,990 --> 00:23:24,159

case and that's called time dilation

598

00:23:27,990 --> 00:23:26,000

now part of the trickiness here is that

599

00:23:30,470 --> 00:23:28,000

the way we experience time in such a

600

00:23:32,950 --> 00:23:30,480

linear way such a predictable way our

601
00:23:35,430 --> 00:23:32,960
entire lives and because we all share

602
00:23:37,669 --> 00:23:35,440
this persistent illusion as einstein put

603
00:23:40,390 --> 00:23:37,679
it's hard for us to wrap our heads

604
00:23:42,710 --> 00:23:40,400
around how time actually works what the

605
00:23:45,029 --> 00:23:42,720
actual structure of space time is thought

606
00:23:46,870 --> 00:23:45,039
to be by physicists

607
00:23:48,870 --> 00:23:46,880
for instance one of the most bizarre

608
00:23:51,510 --> 00:23:48,880
elements of this is that with a time

609
00:23:52,549 --> 00:23:51,520
loop you don't actually need an origin

610
00:23:55,029 --> 00:23:52,559
event

611
00:23:56,789 --> 00:23:55,039
now the irony is in school we were

612
00:23:58,630 --> 00:23:56,799
always taught make sure you show your

613
00:24:00,630 --> 00:23:58,640

work so we know how you came up with the

614

00:24:03,430 --> 00:24:00,640

answer you remember that

615

00:24:05,669 --> 00:24:03,440

well here with a time travel vehicle you

616

00:24:07,750 --> 00:24:05,679

don't necessarily have to have a moment

617

00:24:10,230 --> 00:24:07,760

where the actual technology

618

00:24:12,789 --> 00:24:10,240

had that aha moment where someone

619

00:24:15,110 --> 00:24:12,799

figured it out you can rather have a

620

00:24:17,029 --> 00:24:15,120

self-consistent loop where you have

621

00:24:19,269 --> 00:24:17,039

someone traveling from the future to the

622

00:24:21,430 --> 00:24:19,279

past then it happens that that vehicle

623

00:24:24,070 --> 00:24:21,440

lands in the past and this loops back to

624

00:24:27,190 --> 00:24:24,080

the future you do not need the moment in

625

00:24:30,149 --> 00:24:27,200

between where the precipitating event of

626

00:24:32,070 --> 00:24:30,159

discovery actually took place

627

00:24:34,630 --> 00:24:32,080

now again that completely flies in the

628

00:24:37,110 --> 00:24:34,640

face of our understanding of logic but

629

00:24:39,669 --> 00:24:37,120

apparently this is completely consistent

630

00:24:41,909 --> 00:24:39,679

with our understanding of space-time as

631

00:24:45,029 --> 00:24:41,919

long as space-time is internally

632

00:24:47,029 --> 00:24:45,039

consistent then this can be the case and

633

00:24:50,310 --> 00:24:47,039

in fact when we think back to incidents

634

00:24:52,310 --> 00:24:50,320

like jack servati and joseph mcmonagle

635

00:24:54,909 --> 00:24:52,320

which was more speculative with serfati

636

00:24:57,669 --> 00:24:54,919

we know he was visited by this craft in

637

00:25:00,310 --> 00:24:57,679

1953 and we know that in a roundabout

638

00:25:02,870 --> 00:25:00,320

way surfadi is involved in what may

639

00:25:05,590 --> 00:25:02,880

eventually become the arrival of tic tac

640

00:25:07,669 --> 00:25:05,600

technology which many people believe is

641

00:25:10,549 --> 00:25:07,679

actually a time travel vehicle because

642

00:25:14,070 --> 00:25:10,559

if you warp space time by definition you

643

00:25:16,149 --> 00:25:14,080

are moving through time as well as space

644

00:25:18,630 --> 00:25:16,159

so what i'm getting at here is that many

645

00:25:21,350 --> 00:25:18,640

arguments against the notion that some

646

00:25:22,710 --> 00:25:21,360

aliens are time-traveling neo-humans

647

00:25:24,710 --> 00:25:22,720

from the future

648

00:25:27,190 --> 00:25:24,720

relates to a discrepancy between our

649

00:25:29,510 --> 00:25:27,200

experience of time and its actual

650

00:25:31,750 --> 00:25:29,520

structure or nature

651
00:25:34,149 --> 00:25:31,760
closed time-like curves mess with our

652
00:25:36,230 --> 00:25:34,159
conception of linearity and yet these

653
00:25:38,470 --> 00:25:36,240
closed time-like curves which i just

654
00:25:40,549 --> 00:25:38,480
discussed are an implication of

655
00:25:43,350 --> 00:25:40,559
einstein's equations

656
00:25:46,390 --> 00:25:43,360
now a very tricky and perplexing and to

657
00:25:48,470 --> 00:25:46,400
some people disturbing implication of

658
00:25:50,070 --> 00:25:48,480
time travel as many physicists

659
00:25:52,630 --> 00:25:50,080
understand it

660
00:25:54,149 --> 00:25:52,640
is that the notion of free will doesn't

661
00:25:56,630 --> 00:25:54,159
really exist

662
00:25:58,470 --> 00:25:56,640
all we really have is the illusion of

663
00:26:00,870 --> 00:25:58,480

free will it feels like we're making

664

00:26:03,750 --> 00:26:00,880

decisions it feels like cause and effect

665

00:26:05,990 --> 00:26:03,760

takes place in a predictable way

666

00:26:08,230 --> 00:26:06,000

but physics experiments have shown that

667

00:26:10,310 --> 00:26:08,240

you could actually run events backwards

668

00:26:12,630 --> 00:26:10,320

and they would still fit the math would

669

00:26:14,630 --> 00:26:12,640

still work and this is interesting when

670

00:26:15,990 --> 00:26:14,640

you think about what experiences have

671

00:26:18,390 --> 00:26:16,000

been told and what they sometimes

672

00:26:19,990 --> 00:26:18,400

experience when they're on board craft

673

00:26:21,909 --> 00:26:20,000

or even people who have near-death

674

00:26:22,950 --> 00:26:21,919

experiences have a similar kind of

675

00:26:25,350 --> 00:26:22,960

experience

676

00:26:28,149 --> 00:26:25,360

what they report is that we kind of

677

00:26:30,310 --> 00:26:28,159

choose to forget the larger aspects of

678

00:26:32,149 --> 00:26:30,320

who we are that runs over multiple

679

00:26:35,269 --> 00:26:32,159

timelines and sometimes runs over

680

00:26:37,430 --> 00:26:35,279

multiple iterations as different species

681

00:26:40,390 --> 00:26:37,440

we choose to forget all of that so that

682

00:26:42,950 --> 00:26:40,400

we can enter a lifetime and learn things

683

00:26:45,350 --> 00:26:42,960

in a real way in a way that feels real

684

00:26:48,549 --> 00:26:45,360

and that is meaningful and therefore

685

00:26:50,789 --> 00:26:48,559

changes us evolves our kind of soul our

686

00:26:52,310 --> 00:26:50,799

true spirit nature so in some ways that

687

00:26:54,950 --> 00:26:52,320

lines up with what we're saying with

688

00:26:56,549 --> 00:26:54,960

physics here that free will really

689

00:26:58,870 --> 00:26:56,559

doesn't exist what we have is the

690

00:27:01,909 --> 00:26:58,880

illusion of free will it feels like the

691

00:27:03,190 --> 00:27:01,919

decisions we make have impact have

692

00:27:05,750 --> 00:27:03,200

consequence

693

00:27:08,870 --> 00:27:05,760

when actually according to physics what

694

00:27:11,269 --> 00:27:08,880

reality might be more like is a block of

695

00:27:13,269 --> 00:27:11,279

space time in four dimensions that

696

00:27:15,750 --> 00:27:13,279

basically has everything already

697

00:27:18,630 --> 00:27:15,760

complete the past present future are

698

00:27:21,510 --> 00:27:18,640

just these illusions we experience as we

699

00:27:23,669 --> 00:27:21,520

move through this block but the block

700

00:27:25,909 --> 00:27:23,679

already exists everything that has ever

701
00:27:27,669 --> 00:27:25,919
happened or ever will happen already

702
00:27:29,830 --> 00:27:27,679
exists it's just that we don't

703
00:27:32,389 --> 00:27:29,840
experience it that way when we're living

704
00:27:34,070 --> 00:27:32,399
this human iteration again it's very

705
00:27:36,710 --> 00:27:34,080
interesting how you get alignment

706
00:27:38,950 --> 00:27:36,720
between certain spiritual conceptions

707
00:27:41,110 --> 00:27:38,960
and physics and certain conceptions that

708
00:27:44,310 --> 00:27:41,120
people come to understand when they're

709
00:27:45,590 --> 00:27:44,320
on board ufo craft or with these others

710
00:27:47,510 --> 00:27:45,600
or when they've had a near-death

711
00:27:50,070 --> 00:27:47,520
experience and how that lines up with

712
00:27:51,990 --> 00:27:50,080
how physics understands this

713
00:27:54,230 --> 00:27:52,000

now speaking of time travel and the

714

00:27:56,549 --> 00:27:54,240

notion that vehicles like tic tacs are

715

00:27:58,310 --> 00:27:56,559

actually time travel vehicles

716

00:28:00,310 --> 00:27:58,320

masters points out an interesting

717

00:28:02,470 --> 00:28:00,320

observation when it comes to what people

718

00:28:04,310 --> 00:28:02,480

see when they look at these objects

719

00:28:06,549 --> 00:28:04,320

and specifically when they appear and

720

00:28:08,230 --> 00:28:06,559

disappear or at least it looks like that

721

00:28:10,710 --> 00:28:08,240

to the observer

722

00:28:11,590 --> 00:28:10,720

this is what master says in this regard

723

00:28:14,070 --> 00:28:11,600

quote

724

00:28:16,870 --> 00:28:14,080

a fascinating aspect of reports of close

725

00:28:19,430 --> 00:28:16,880

encounters is that ifos by the way he

726

00:28:21,029 --> 00:28:19,440

uses the term ifo to mean identified

727

00:28:23,510 --> 00:28:21,039

flying object

728

00:28:25,990 --> 00:28:23,520

ifos are commonly observed appearing or

729

00:28:27,990 --> 00:28:26,000

disappearing often while maintaining the

730

00:28:29,990 --> 00:28:28,000

same position in the sky

731

00:28:32,310 --> 00:28:30,000

this is important in the context of the

732

00:28:34,789 --> 00:28:32,320

current time travel model because if

733

00:28:37,269 --> 00:28:34,799

something abruptly appears or disappears

734

00:28:39,990 --> 00:28:37,279

in our three observable dimensions of

735

00:28:43,110 --> 00:28:40,000

space it is a very good indication that

736

00:28:45,750 --> 00:28:43,120

it has just changed its position in the

737

00:28:46,789 --> 00:28:45,760

only other observable dimension

738

00:28:49,350 --> 00:28:46,799

time

739

00:28:51,510 --> 00:28:49,360

this regularly reported occurrence while

740

00:28:54,470 --> 00:28:51,520

seemingly bizarre from the standpoint of

741

00:28:57,029 --> 00:28:54,480

our conventional notion of linear time

742

00:29:00,230 --> 00:28:57,039

is actually an expected outcome of time

743

00:29:03,990 --> 00:29:00,240

machines entering or exiting a specific

744

00:29:06,070 --> 00:29:04,000

region of space-time unquote

745

00:29:08,070 --> 00:29:06,080

now also in terms of the tech that would

746

00:29:10,789 --> 00:29:08,080

enable time travel

747

00:29:13,830 --> 00:29:10,799

masters quotes dr clifford johnson who

748

00:29:15,830 --> 00:29:13,840

talks about this quote according to dr

749

00:29:17,750 --> 00:29:15,840

clifford johnson a professor in the

750

00:29:20,149 --> 00:29:17,760

department of physics and astronomy at

751

00:29:22,230 --> 00:29:20,159

the university of southern california

752

00:29:24,630 --> 00:29:22,240

we tend to think of gravity as very

753

00:29:27,669 --> 00:29:24,640

strong after all it's what binds us to

754

00:29:30,710 --> 00:29:27,679

the earth but actually of all the forces

755

00:29:32,870 --> 00:29:30,720

we know in nature gravity is the weakest

756

00:29:34,950 --> 00:29:32,880

let me give you a number it's 10 to the

757

00:29:36,630 --> 00:29:34,960

power 40 times weaker than

758

00:29:39,750 --> 00:29:36,640

electromagnetism

759

00:29:41,669 --> 00:29:39,760

that's a one with 40 zeros after it

760

00:29:44,549 --> 00:29:41,679

the extreme difference between the force

761

00:29:46,549 --> 00:29:44,559

of gravity and the electromagnetic force

762

00:29:48,870 --> 00:29:46,559

points to the role that the latter may

763

00:29:51,830 --> 00:29:48,880

someday play in helping us finally break

764

00:29:53,750 --> 00:29:51,840

free of the antiquated vector based

765

00:29:56,710 --> 00:29:53,760

combustion engine propulsion

766

00:29:58,710 --> 00:29:56,720

technologies of the present era

767

00:30:00,310 --> 00:29:58,720

if we are able to develop an aircraft

768

00:30:02,950 --> 00:30:00,320

that can harness and control the

769

00:30:05,029 --> 00:30:02,960

electromagnetic force against the weaker

770

00:30:07,110 --> 00:30:05,039

force of gravity this could

771

00:30:09,029 --> 00:30:07,120

fundamentally transform the way we

772

00:30:11,110 --> 00:30:09,039

travel and the speed with which we get

773

00:30:13,269 --> 00:30:11,120

around the world as well

774

00:30:15,830 --> 00:30:13,279

furthermore one of the best shapes for

775

00:30:18,710 --> 00:30:15,840

opposing earth's gravity once we no

776

00:30:22,230 --> 00:30:18,720

longer require wings and tubes to fly

777

00:30:24,230 --> 00:30:22,240

is likely to be a disc shape which can

778

00:30:26,710 --> 00:30:24,240

counter the force of gravity more

779

00:30:29,269 --> 00:30:26,720

homogeneously across its symmetrical

780

00:30:31,909 --> 00:30:29,279

base while rotating in the air to

781

00:30:33,430 --> 00:30:31,919

maintain lateral stability

782

00:30:35,669 --> 00:30:33,440

unquote

783

00:30:38,230 --> 00:30:35,679

now another quote i would like to offer

784

00:30:39,830 --> 00:30:38,240

in terms of this closed time-like curve

785

00:30:41,830 --> 00:30:39,840

that i talked about before and how that

786

00:30:44,789 --> 00:30:41,840

relates to time travel and how this is

787

00:30:46,950 --> 00:30:44,799

very complex hard to imagine for us

788

00:30:47,830 --> 00:30:46,960

because we experience time in a linear

789

00:30:51,110 --> 00:30:47,840

way

790

00:30:53,750 --> 00:30:51,120

works and how you could actually create

791

00:30:56,549 --> 00:30:53,760

a time travel vehicle and not have

792

00:30:58,549 --> 00:30:56,559

inconsistent or paradoxical travel to

793

00:31:00,870 --> 00:30:58,559

the past or the future

794

00:31:04,149 --> 00:31:00,880

quoting from master's book quote

795

00:31:06,310 --> 00:31:04,159

remarkably as light cones dip over in

796

00:31:07,750 --> 00:31:06,320

association with a warpage of proximate

797

00:31:10,149 --> 00:31:07,760

space-time

798

00:31:12,310 --> 00:31:10,159

world lines within them can deviate from

799

00:31:13,669 --> 00:31:12,320

a strictly past to future linear

800

00:31:15,830 --> 00:31:13,679

trajectory

801
00:31:18,070 --> 00:31:15,840
this means that anyone or anything

802
00:31:20,230 --> 00:31:18,080
traveling along a world line that lies

803
00:31:22,389 --> 00:31:20,240
within the margins of a tilted light

804
00:31:24,630 --> 00:31:22,399
cone in their localized region of

805
00:31:27,509 --> 00:31:24,640
space-time would now be permitted to

806
00:31:31,110 --> 00:31:27,519
travel into the global past by means of

807
00:31:34,070 --> 00:31:31,120
this newly formed ctc closed time-like

808
00:31:37,190 --> 00:31:34,080
curve according to the astrophysicists

809
00:31:39,430 --> 00:31:37,200
francisco lobo and paulo crawford a

810
00:31:41,590 --> 00:31:39,440
closed time-like curve allows time

811
00:31:43,750 --> 00:31:41,600
travel in the sense that an observer

812
00:31:45,669 --> 00:31:43,760
which travels on a trajectory in space

813
00:31:48,070 --> 00:31:45,679

time along this curve

814

00:31:49,430 --> 00:31:48,080

returns to an event which coincides with

815

00:31:51,990 --> 00:31:49,440

the departure

816

00:31:54,870 --> 00:31:52,000

the arrow of time leads forward as

817

00:31:58,070 --> 00:31:54,880

measured locally by the observer but

818

00:31:59,750 --> 00:31:58,080

globally he she may return to an event

819

00:32:02,310 --> 00:31:59,760

in the past

820

00:32:04,230 --> 00:32:02,320

additionally according to leo c stein

821

00:32:06,789 --> 00:32:04,240

nasa einstein fellow in the department

822

00:32:09,269 --> 00:32:06,799

of astronomy at cornell university

823

00:32:11,830 --> 00:32:09,279

a closed time-like curve is a trajectory

824

00:32:13,590 --> 00:32:11,840

that's perfectly normal everywhere

825

00:32:16,389 --> 00:32:13,600

always sticking to the rules of moving

826

00:32:19,190 --> 00:32:16,399

in a time-like direction always going

827

00:32:22,389 --> 00:32:19,200

locally forward in time and yet ends up

828

00:32:25,190 --> 00:32:22,399

back where and when it starts

829

00:32:27,430 --> 00:32:25,200

the existence of a ctc in some space

830

00:32:28,470 --> 00:32:27,440

time would mean that a time machine is

831

00:32:30,789 --> 00:32:28,480

possible

832

00:32:34,149 --> 00:32:30,799

just by going along that trajectory and

833

00:32:37,029 --> 00:32:34,159

without violating any laws of physics

834

00:32:39,110 --> 00:32:37,039

unquote now that passage i just read

835

00:32:41,750 --> 00:32:39,120

helped point out how you could have time

836

00:32:43,990 --> 00:32:41,760

travel without having paradoxes but

837

00:32:46,389 --> 00:32:44,000

perhaps that's still not clear to you

838

00:32:48,230 --> 00:32:46,399

it is difficult to understand no doubt

839

00:32:50,789 --> 00:32:48,240

for instance we've all heard about the

840

00:32:52,630 --> 00:32:50,799

so-called grandfather paradox what would

841

00:32:54,630 --> 00:32:52,640

happen if you went back into the past

842

00:32:56,230 --> 00:32:54,640

and killed your grandfather so that he

843

00:32:57,909 --> 00:32:56,240

could never give birth to your mother or

844

00:33:00,149 --> 00:32:57,919

your father therefore how could you ever

845

00:33:02,549 --> 00:33:00,159

be born that's how the paradox basically

846

00:33:04,789 --> 00:33:02,559

is described well apparently this just

847

00:33:06,310 --> 00:33:04,799

isn't really the way things are that's

848

00:33:07,350 --> 00:33:06,320

not actually how space time is

849

00:33:10,389 --> 00:33:07,360

structured

850

00:33:12,950 --> 00:33:10,399

that paradox only exists in our illusory

851

00:33:15,269 --> 00:33:12,960

understanding of reality

852

00:33:16,230 --> 00:33:15,279

let me quote from master's book here

853

00:33:17,909 --> 00:33:16,240

quote

854

00:33:20,710 --> 00:33:17,919

more recently at the university of

855

00:33:23,110 --> 00:33:20,720

queensland in australia physicist tim

856

00:33:25,509 --> 00:33:23,120

ralph and his phd student martin

857

00:33:28,310 --> 00:33:25,519

ringbauer led a team of researchers who

858

00:33:30,630 --> 00:33:28,320

were able to simulate deutsche's model

859

00:33:33,269 --> 00:33:30,640

experimentally for the first time

860

00:33:36,310 --> 00:33:33,279

in their 2014 nature communications

861

00:33:39,029 --> 00:33:36,320

paper titled experimental simulation of

862

00:33:41,350 --> 00:33:39,039

closed time-like curves they confirmed

863

00:33:43,590 --> 00:33:41,360

many aspects of deutsche's 20 year old

864

00:33:46,549 --> 00:33:43,600

theory particularly how it relates to

865

00:33:48,870 --> 00:33:46,559

the classic grandfather paradox

866

00:33:51,430 --> 00:33:48,880

more specifically deutsche's theory of

867

00:33:54,870 --> 00:33:51,440

probabilities and particles entering and

868

00:33:57,990 --> 00:33:54,880

exiting a ctc was examined using a

869

00:34:00,149 --> 00:33:58,000

photon with its polarization encoded as

870

00:34:03,029 --> 00:34:00,159

well as a second photon that would act

871

00:34:05,750 --> 00:34:03,039

as a past embodiment of the first or a

872

00:34:07,750 --> 00:34:05,760

kind of stunt double in the time loop

873

00:34:09,629 --> 00:34:07,760

simulation they performed

874

00:34:12,230 --> 00:34:09,639

in this way they could test deutsche's

875

00:34:15,030 --> 00:34:12,240

self-consistency solution by measuring

876
00:34:17,510 --> 00:34:15,040
the polarization of the second photon

877
00:34:20,310 --> 00:34:17,520
after it had interacted with the first

878
00:34:22,550 --> 00:34:20,320
averaged across multiple trials

879
00:34:25,190 --> 00:34:22,560
according to co-author tim ralph the

880
00:34:28,389 --> 00:34:25,200
state we got at our output the second

881
00:34:30,869 --> 00:34:28,399
photon at the simulated exit of the ctc

882
00:34:34,389 --> 00:34:30,879
was the same as that of our input the

883
00:34:36,470 --> 00:34:34,399
first encoded photon at the ctc entrance

884
00:34:38,710 --> 00:34:36,480
this result clearly corroborates the

885
00:34:40,230 --> 00:34:38,720
earlier work of david deutsch

886
00:34:42,950 --> 00:34:40,240
of course we're not really sending

887
00:34:45,669 --> 00:34:42,960
anything back in time but the simulation

888
00:34:47,349 --> 00:34:45,679

allows us to study weird evolutions

889

00:34:48,790 --> 00:34:47,359

normally not allowed in quantum

890

00:34:50,950 --> 00:34:48,800

mechanics

891

00:34:53,909 --> 00:34:50,960

even though ralph and ringbauer did not

892

00:34:56,149 --> 00:34:53,919

actually send anything back in time this

893

00:34:58,069 --> 00:34:56,159

experiment does contribute to a growing

894

00:35:00,870 --> 00:34:58,079

body of work as well as a growing

895

00:35:03,589 --> 00:35:00,880

consensus among physicists that backward

896

00:35:06,550 --> 00:35:03,599

time travel is not only possible but it

897

00:35:08,710 --> 00:35:06,560

is also paradox free these studies

898

00:35:11,030 --> 00:35:08,720

demonstrate that no one can change

899

00:35:13,670 --> 00:35:11,040

anything in the past given that their

900

00:35:15,349 --> 00:35:13,680

actions already exist as an interwoven

901

00:35:17,910 --> 00:35:15,359

part of the past

902

00:35:20,470 --> 00:35:17,920

as such self-consistency is not a

903

00:35:23,430 --> 00:35:20,480

conscious choice made by those who time

904

00:35:25,430 --> 00:35:23,440

travel but instead is a simple byproduct

905

00:35:27,829 --> 00:35:25,440

of existing as part of a different

906

00:35:30,790 --> 00:35:27,839

period which has always possessed

907

00:35:33,109 --> 00:35:30,800

embedded elements of another time

908

00:35:35,990 --> 00:35:33,119

according to friedman et al

909

00:35:38,950 --> 00:35:36,000

in their 1990 paper couchy problem in

910

00:35:42,390 --> 00:35:38,960

space times with closed time-like curves

911

00:35:44,230 --> 00:35:42,400

if ctcs are allowed and if the above

912

00:35:46,470 --> 00:35:44,240

vision of theoretical physics

913

00:35:48,790 --> 00:35:46,480

accommodation with them turns out to be

914

00:35:51,990 --> 00:35:48,800

more or less correct then what will this

915

00:35:53,670 --> 00:35:52,000

imply about the philosophical notion of

916

00:35:55,270 --> 00:35:53,680

free will for humans and other

917

00:35:57,270 --> 00:35:55,280

intelligent beings

918

00:36:00,230 --> 00:35:57,280

it certainly will imply that intelligent

919

00:36:02,069 --> 00:36:00,240

beings cannot change the past such

920

00:36:04,630 --> 00:36:02,079

change is incompatible with the

921

00:36:05,750 --> 00:36:04,640

principle of self-consistency

922

00:36:07,750 --> 00:36:05,760

unquote

923

00:36:09,990 --> 00:36:07,760

so all that is to say basically the

924

00:36:12,950 --> 00:36:10,000

notion is this demonstrates that when

925

00:36:15,750 --> 00:36:12,960

apparent paradoxes arise the problem is

926
00:36:17,589 --> 00:36:15,760
not in the reality but in our flawed

927
00:36:19,670 --> 00:36:17,599
conception of it anchored by our

928
00:36:22,150 --> 00:36:19,680
biologically induced delusional

929
00:36:24,069 --> 00:36:22,160
experience of time as linear and

930
00:36:26,230 --> 00:36:24,079
unidirectional

931
00:36:27,829 --> 00:36:26,240
now on the one hand that passage helps

932
00:36:30,230 --> 00:36:27,839
us understand how

933
00:36:32,390 --> 00:36:30,240
time travel could exist without running

934
00:36:34,870 --> 00:36:32,400
into paradoxes that the paradoxes are

935
00:36:38,390 --> 00:36:34,880
really only a misapprehension based on

936
00:36:40,069 --> 00:36:38,400
our illusory understanding of space-time

937
00:36:42,310 --> 00:36:40,079
but of course that also makes one

938
00:36:44,310 --> 00:36:42,320

question whether or not these others if

939

00:36:46,150 --> 00:36:44,320

they are us from the future

940

00:36:48,390 --> 00:36:46,160

could actually come back and change

941

00:36:50,630 --> 00:36:48,400

anything according to what we just read

942

00:36:52,550 --> 00:36:50,640

in some ways the answer would be no but

943

00:36:54,710 --> 00:36:52,560

again this may come down to how you look

944

00:36:56,710 --> 00:36:54,720

at it how you conceive of this which

945

00:36:59,109 --> 00:36:56,720

perspective you look at it from it is

946

00:37:00,470 --> 00:36:59,119

very complex no doubt but the bottom

947

00:37:03,190 --> 00:37:00,480

line i think we should take away from

948

00:37:05,109 --> 00:37:03,200

that passage is that time travel is not

949

00:37:07,910 --> 00:37:05,119

only conceivable and it's not only

950

00:37:09,589 --> 00:37:07,920

possible but it's also very actionable

951
00:37:11,910 --> 00:37:09,599
and it's very likely the kind of

952
00:37:14,150 --> 00:37:11,920
technology we will likely develop in the

953
00:37:16,710 --> 00:37:14,160
not too distant future

954
00:37:19,430 --> 00:37:16,720
now as i think is fairly clear after the

955
00:37:22,390 --> 00:37:19,440
past three episodes the time traveling

956
00:37:24,870 --> 00:37:22,400
model the future human hypothesis is a

957
00:37:27,750 --> 00:37:24,880
very strong contender in my perspective

958
00:37:29,829 --> 00:37:27,760
to explain much of the data we're seeing

959
00:37:31,430 --> 00:37:29,839
of course it's not the only possibility

960
00:37:33,109 --> 00:37:31,440
there are other ways you could make

961
00:37:34,870 --> 00:37:33,119
sense of the data for instance there

962
00:37:36,950 --> 00:37:34,880
might have been a cosmic seeding that

963
00:37:38,710 --> 00:37:36,960

happened in the distant past by some

964

00:37:41,270 --> 00:37:38,720

other intelligence perhaps by some

965

00:37:44,870 --> 00:37:41,280

sophisticated alien intelligence

966

00:37:47,589 --> 00:37:44,880

that ceded humanoid kind of life across

967

00:37:49,829 --> 00:37:47,599

the galaxy and that would explain why

968

00:37:51,670 --> 00:37:49,839

these others look so much like us

969

00:37:53,430 --> 00:37:51,680

another possibility is that they are

970

00:37:55,829 --> 00:37:53,440

coming from an alternate earth and

971

00:37:58,630 --> 00:37:55,839

perhaps that it's not so much about past

972

00:38:01,030 --> 00:37:58,640

or present or future as it is alternate

973

00:38:03,270 --> 00:38:01,040

realities where evolution perhaps took a

974

00:38:05,510 --> 00:38:03,280

different trajectory and that's why they

975

00:38:07,349 --> 00:38:05,520

look like that rather than like us in

976

00:38:10,069 --> 00:38:07,359

fact when you think about any of the

977

00:38:12,150 --> 00:38:10,079

typical types of aliens that look quite

978

00:38:14,790 --> 00:38:12,160

earth-like whether they're mantids or

979

00:38:16,630 --> 00:38:14,800

whether they're reptilians they still

980

00:38:18,710 --> 00:38:16,640

often look like creatures that may have

981

00:38:20,870 --> 00:38:18,720

arisen on the earth so again there's a

982

00:38:23,750 --> 00:38:20,880

couple different options there they may

983

00:38:25,990 --> 00:38:23,760

be from our future or they may be

984

00:38:28,150 --> 00:38:26,000

examples of the evolutionary trend that

985

00:38:29,750 --> 00:38:28,160

happened in parallel realities in

986

00:38:31,750 --> 00:38:29,760

alternate earths

987

00:38:34,310 --> 00:38:31,760

now if time travel is in the mix then

988

00:38:36,870 --> 00:38:34,320

conceivably these extra tempestrial

989

00:38:39,670 --> 00:38:36,880

grays could have populated the galaxy

990

00:38:41,589 --> 00:38:39,680

and thus become extraterrestrial grays

991

00:38:44,150 --> 00:38:41,599

and they might still need us because of

992

00:38:46,310 --> 00:38:44,160

the genetic variants we offer as their

993

00:38:48,310 --> 00:38:46,320

ancestors which i talked about in a

994

00:38:49,829 --> 00:38:48,320

previous podcast and this is what i

995

00:38:51,829 --> 00:38:49,839

meant in the beginning when i said that

996

00:38:54,750 --> 00:38:51,839

these hard lines between

997

00:38:57,750 --> 00:38:54,760

extraterrestrial interdimensional and

998

00:39:00,069 --> 00:38:57,760

extratempestrial i.e time traveling is

999

00:39:01,829 --> 00:39:00,079

perhaps not so clearly delineated and

1000

00:39:04,550 --> 00:39:01,839

this probably says more about the

1001
00:39:06,630 --> 00:39:04,560
inadequacy the insufficiency of our

1002
00:39:09,910 --> 00:39:06,640
categories than it does about the nature

1003
00:39:11,510 --> 00:39:09,920
of the ufo phenomenon itself

1004
00:39:13,190 --> 00:39:11,520
and now i'd like to leave you with a few

1005
00:39:15,990 --> 00:39:13,200
concluding thoughts

1006
00:39:18,550 --> 00:39:16,000
firstly if time travel is a factor

1007
00:39:20,630 --> 00:39:18,560
within the ufo phenomenon then things

1008
00:39:22,710 --> 00:39:20,640
become even more complex than they

1009
00:39:24,790 --> 00:39:22,720
already were i think that's clear after

1010
00:39:27,109 --> 00:39:24,800
what we've discussed today

1011
00:39:29,589 --> 00:39:27,119
this complexity is no reason to reject

1012
00:39:31,190 --> 00:39:29,599
the notion of time travel however

1013
00:39:33,750 --> 00:39:31,200

that would be trading truth for

1014

00:39:35,910 --> 00:39:33,760

preference whatever is going on we have

1015

00:39:37,910 --> 00:39:35,920

to grapple with it

1016

00:39:40,470 --> 00:39:37,920

i'd also like to point out that people

1017

00:39:43,910 --> 00:39:40,480

like frank milburn and ross coulthart

1018

00:39:46,069 --> 00:39:43,920

and myself generally have allergies to

1019

00:39:48,069 --> 00:39:46,079

outlandish unsupported conspiracy

1020

00:39:50,069 --> 00:39:48,079

theories we don't tend to like those

1021

00:39:52,630 --> 00:39:50,079

kinds of arguments

1022

00:39:55,990 --> 00:39:52,640

however this intel is being provided by

1023

00:39:57,910 --> 00:39:56,000

trusted assets and importantly it works

1024

00:40:00,470 --> 00:39:57,920

for the most part within master's

1025

00:40:02,390 --> 00:40:00,480

compelling argument for time-traveling

1026

00:40:04,950 --> 00:40:02,400

neo-human graves

1027

00:40:07,190 --> 00:40:04,960

but again and very importantly while

1028

00:40:09,670 --> 00:40:07,200

these are of course related and here i

1029

00:40:12,790 --> 00:40:09,680

speak of masters argument that these are

1030

00:40:14,630 --> 00:40:12,800

likely future humans visiting us and the

1031

00:40:16,630 --> 00:40:14,640

matter of the intel that has arisen

1032

00:40:19,109 --> 00:40:16,640

suggesting that these future humans are

1033

00:40:21,349 --> 00:40:19,119

trying to change our timelines as it

1034

00:40:23,430 --> 00:40:21,359

applies to some cataclysm

1035

00:40:24,550 --> 00:40:23,440

you can accept one while rejecting the

1036

00:40:26,790 --> 00:40:24,560

other

1037

00:40:28,230 --> 00:40:26,800

personally i'm more interested in you

1038

00:40:30,710 --> 00:40:28,240

really weighing the evidence for

1039

00:40:32,710 --> 00:40:30,720

master's hypothesis because i think it's

1040

00:40:35,349 --> 00:40:32,720

very compelling when it comes to

1041

00:40:38,150 --> 00:40:35,359

modeling reality physicists look for

1042

00:40:39,910 --> 00:40:38,160

elegance if it's too messy it's likely

1043

00:40:42,069 --> 00:40:39,920

not accurate

1044

00:40:44,150 --> 00:40:42,079

now as we've said already this theory

1045

00:40:46,230 --> 00:40:44,160

could still be incorrect even though it

1046

00:40:48,470 --> 00:40:46,240

is a very elegant solution to some of

1047

00:40:50,069 --> 00:40:48,480

the data too much of the data

1048

00:40:52,309 --> 00:40:50,079

but i think based on our current

1049

00:40:54,390 --> 00:40:52,319

knowledge and model of reality which of

1050

00:40:56,630 --> 00:40:54,400

course is likely to change but based on

1051
00:40:58,630 --> 00:40:56,640
what we believe now about reality

1052
00:41:00,790 --> 00:40:58,640
taking into account the data arising

1053
00:41:03,349 --> 00:41:00,800
from experienter interactions with these

1054
00:41:05,750 --> 00:41:03,359
beings and the behavior of the craft

1055
00:41:09,030 --> 00:41:05,760
observed that this is one of the best

1056
00:41:11,349 --> 00:41:09,040
current hypotheses we have available

1057
00:41:13,910 --> 00:41:11,359
occam's razor is a principle of theory

1058
00:41:15,990 --> 00:41:13,920
construction or evaluation according to

1059
00:41:18,550 --> 00:41:16,000
which other things being equal

1060
00:41:20,470 --> 00:41:18,560
explanations that posit fewer entities

1061
00:41:22,390 --> 00:41:20,480
or fewer kinds of entities

1062
00:41:24,230 --> 00:41:22,400
are to be preferred to explanations

1063
00:41:25,910 --> 00:41:24,240

deposit more

1064

00:41:28,550 --> 00:41:25,920

now when you think of that in terms of

1065

00:41:30,069 --> 00:41:28,560

the future human hypothesis it is a

1066

00:41:32,309 --> 00:41:30,079

simpler solution in many ways that

1067

00:41:34,790 --> 00:41:32,319

better fits with occam's razor when you

1068

00:41:37,510 --> 00:41:34,800

consider that these others are actually

1069

00:41:40,630 --> 00:41:37,520

us but from the future instead of two

1070

00:41:43,430 --> 00:41:40,640

entities an e.t and a human being you

1071

00:41:47,270 --> 00:41:43,440

have a single entity a human being who

1072

00:41:49,510 --> 00:41:47,280

evolves to become a neo-human gray

1073

00:41:51,109 --> 00:41:49,520

and on that note we've come to the close

1074

00:41:53,349 --> 00:41:51,119

of another edition of the point of

1075

00:41:55,790 --> 00:41:53,359

convergence podcast if you'd like to

1076

00:41:57,430 --> 00:41:55,800

support this podcast you can do so at

1077

00:41:59,829 --> 00:41:57,440

patreon.com

1078

00:42:02,230 --> 00:41:59,839

exo academian and a big thanks to those

1079

00:42:04,390 --> 00:42:02,240

who have become patrons

1080

00:42:06,150 --> 00:42:04,400

but until next time friends from deep

1081

00:42:09,349 --> 00:42:06,160

within the blue ridge mountains of north

1082

00:42:10,640 --> 00:42:09,359

carolina this is exo academian signing
