

1
00:00:05,330 --> 00:00:03,100
foreign

2
00:00:06,900 --> 00:00:05,340
[Music]

3
00:00:13,200 --> 00:00:06,910
[Laughter]

4
00:00:13,210 --> 00:00:18,550
[Music]

5
00:00:23,689 --> 00:00:21,230
welcome back to another episode of

6
00:00:27,009 --> 00:00:23,699
liminal frames I am your host Nathan

7
00:00:29,810 --> 00:00:27,019
joined by my good friend co-host Darren

8
00:00:33,049 --> 00:00:29,820
EXO Academia Darren we're recording on a

9
00:00:34,670 --> 00:00:33,059
Friday which is uh kind of rare for us

10
00:00:37,430 --> 00:00:34,680
we usually get these done earlier in the

11
00:00:39,530 --> 00:00:37,440
week so when folks are listening to this

12
00:00:42,229 --> 00:00:39,540
episode when we launch it on Saturday

13
00:00:45,049 --> 00:00:42,239

evening this is going to be pretty fresh

14

00:00:46,850 --> 00:00:45,059

and in fact the freshness of this

15

00:00:48,830 --> 00:00:46,860

episode although all episodes are fresh

16

00:00:50,810 --> 00:00:48,840

by the way but the freshness of this one

17

00:00:54,830 --> 00:00:50,820

is extra fresh because we are going to

18

00:00:57,229 --> 00:00:54,840

cover a wide range of topics that are

19

00:00:59,630 --> 00:00:57,239

hitting the news right now there's been

20

00:01:01,850 --> 00:00:59,640

a lot of things going on in the last

21

00:01:04,009 --> 00:01:01,860

couple of days and we thought it would

22

00:01:07,190 --> 00:01:04,019

be best instead of taking kind of a

23

00:01:09,530 --> 00:01:07,200

theme and unpacking that instead to

24

00:01:12,830 --> 00:01:09,540

switch gears and spend some time looking

25

00:01:15,289 --> 00:01:12,840

at the uh the news bites the sound bites

26
00:01:17,030 --> 00:01:15,299
that have been coming across all of our

27
00:01:19,190 --> 00:01:17,040
feeds and so I think that's going to be

28
00:01:21,109 --> 00:01:19,200
a really fun conversation before we do

29
00:01:23,810 --> 00:01:21,119
that I always want to catch up with you

30
00:01:25,969 --> 00:01:23,820
and know how things are going so what's

31
00:01:27,289 --> 00:01:25,979
happening in your world uh and how is

32
00:01:29,090 --> 00:01:27,299
your spring going

33
00:01:31,010 --> 00:01:29,100
my spring is going pretty well I think

34
00:01:32,690 --> 00:01:31,020
both you and I uh suffer a little bit

35
00:01:35,330 --> 00:01:32,700
from allergies so I think we're both

36
00:01:36,770 --> 00:01:35,340
feeling that a little bit but

37
00:01:38,630 --> 00:01:36,780
I'll say this it's a lot better than it

38
00:01:39,890 --> 00:01:38,640

was when I was a kid so no complaints

39

00:01:41,990 --> 00:01:39,900

really

40

00:01:44,149 --> 00:01:42,000

um I also made an announcement recently

41

00:01:45,710 --> 00:01:44,159

that uh I have a new role is the

42

00:01:48,170 --> 00:01:45,720

communications director for the John

43

00:01:49,850 --> 00:01:48,180

Mack Institute that's kind of some of

44

00:01:51,230 --> 00:01:49,860

the thing I've been saying that I I had

45

00:01:52,850 --> 00:01:51,240

something to announce at some point I

46

00:01:55,310 --> 00:01:52,860

was excited about so I've made that

47

00:01:58,730 --> 00:01:55,320

announcement that is really exciting for

48

00:02:01,429 --> 00:01:58,740

me it really fits with my my vision my

49

00:02:04,190 --> 00:02:01,439

values a perfect alignment so I couldn't

50

00:02:05,630 --> 00:02:04,200

be happier about that and what a time to

51
00:02:08,029 --> 00:02:05,640
be doing it because as you say there's

52
00:02:10,309 --> 00:02:08,039
so much going on with this topic right

53
00:02:11,809 --> 00:02:10,319
now in the public and even this week

54
00:02:14,330 --> 00:02:11,819
there were so much that came out that

55
00:02:16,369 --> 00:02:14,340
really I think impresses upon us this

56
00:02:18,290 --> 00:02:16,379
notion that we really are in uncanny

57
00:02:21,770 --> 00:02:18,300
times and that this is not just your

58
00:02:23,330 --> 00:02:21,780
usual uh ufology kind of year so I think

59
00:02:24,890 --> 00:02:23,340
yeah it'd be great for us to get into it

60
00:02:26,630 --> 00:02:24,900
we kind of Switched gears before we

61
00:02:29,570 --> 00:02:26,640
jumped in tonight because we we both

62
00:02:32,210 --> 00:02:29,580
decided yeah this is a something that a

63
00:02:33,770 --> 00:02:32,220

topical uh kind of concept album

64

00:02:35,089 --> 00:02:33,780

approach wouldn't maybe what we want to

65

00:02:37,369 --> 00:02:35,099

do this time instead let's focus on

66

00:02:39,650 --> 00:02:37,379

what's going on what it might mean for

67

00:02:41,089 --> 00:02:39,660

the big picture in terms of disclosure I

68

00:02:43,250 --> 00:02:41,099

think it's going to be so fresh that you

69

00:02:45,410 --> 00:02:43,260

might even say minty fresh

70

00:02:47,869 --> 00:02:45,420

um I love that I love a good minty

71

00:02:49,910 --> 00:02:47,879

freshness so uh excellent and and

72

00:02:53,150 --> 00:02:49,920

congratulations by the way that uh

73

00:02:54,589 --> 00:02:53,160

announcement about the the the Jimmy uh

74

00:02:56,150 --> 00:02:54,599

communications director we're very

75

00:02:58,250 --> 00:02:56,160

excited for you I think it is an

76

00:03:01,550 --> 00:02:58,260

excellent fit uh that organization will

77

00:03:03,369 --> 00:03:01,560

be well served uh by your areas of

78

00:03:06,589 --> 00:03:03,379

interest and commitment to this topic

79

00:03:08,570 --> 00:03:06,599

and the timing couldn't be better in my

80

00:03:12,949 --> 00:03:08,580

opinion uh there'll be a lot of things

81

00:03:15,229 --> 00:03:12,959

happening that will necessitate an

82

00:03:17,270 --> 00:03:15,239

active role of Jimmy in the conversation

83

00:03:18,770 --> 00:03:17,280

so looking forward to where that goes I

84

00:03:20,990 --> 00:03:18,780

appreciate that I really do feel like

85

00:03:23,030 --> 00:03:21,000

there's a kind of synchronistic timing

86

00:03:25,009 --> 00:03:23,040

that's going on here because with Jimmy

87

00:03:26,869 --> 00:03:25,019

the goal isn't just to cover this topic

88

00:03:29,089 --> 00:03:26,879

and to represent experiencers that have

89

00:03:31,130 --> 00:03:29,099

been having these experiences uh with

90

00:03:33,589 --> 00:03:31,140

this phenomenon over decades and longer

91

00:03:35,449 --> 00:03:33,599

but also to actually think about how we

92

00:03:37,550 --> 00:03:35,459

could live differently as a collective

93

00:03:39,589 --> 00:03:37,560

Community which I think uh based on

94

00:03:42,649 --> 00:03:39,599

where we are today there's never been a

95

00:03:44,330 --> 00:03:42,659

more pressing matter to engage with

96

00:03:45,770 --> 00:03:44,340

absolutely

97

00:03:47,869 --> 00:03:45,780

all right we're going to jump right in

98

00:03:49,009 --> 00:03:47,879

here uh I think we're going to hit the

99

00:03:50,930 --> 00:03:49,019

first uh

100

00:03:52,970 --> 00:03:50,940

the first topic we're going to touch on

101

00:03:55,550 --> 00:03:52,980

is is probably the one that most folks

102

00:03:58,070 --> 00:03:55,560

are talking about the this week and that

103

00:04:00,770 --> 00:03:58,080

is the uh the hearing that took place in

104

00:04:02,690 --> 00:04:00,780

the Senate uh with Dr Sean Kirkpatrick

105

00:04:04,430 --> 00:04:02,700

uh and a couple of senators it wasn't

106

00:04:07,490 --> 00:04:04,440

heavily attended we do know that there

107

00:04:10,070 --> 00:04:07,500

was a closed uh session of that hearing

108

00:04:12,110 --> 00:04:10,080

before the public session uh which is a

109

00:04:13,850 --> 00:04:12,120

little bit unusual uh so maybe that's

110

00:04:16,430 --> 00:04:13,860

why some of the Senators sort of dropped

111

00:04:18,590 --> 00:04:16,440

off in the public facing uh conversation

112

00:04:20,930 --> 00:04:18,600

but nevertheless it was really

113

00:04:22,969 --> 00:04:20,940

interesting to watch uh I think quite a

114

00:04:25,730 --> 00:04:22,979

contrast from what we saw in the last

115

00:04:29,930 --> 00:04:25,740

hearing that took place uh where we

116

00:04:33,350 --> 00:04:29,940

heard from Moultrie and Bray there was a

117

00:04:35,749 --> 00:04:33,360

different tone to the conversation and

118

00:04:37,430 --> 00:04:35,759

uh in some ways more content that we

119

00:04:40,129 --> 00:04:37,440

could actually kind of stick our teeth

120

00:04:43,909 --> 00:04:40,139

sink our teeth into which I appreciated

121

00:04:46,129 --> 00:04:43,919

uh the hot takes on social media were as

122

00:04:48,290 --> 00:04:46,139

I think many would expect not very

123

00:04:50,990 --> 00:04:48,300

favorable a lot of folks were pretty

124

00:04:52,330 --> 00:04:51,000

disappointed that there weren't any uh

125

00:04:54,530 --> 00:04:52,340

you know sort of big Revelations

126
00:04:56,390 --> 00:04:54,540
although I think those that have been

127
00:04:59,510 --> 00:04:56,400
following this subject really closely

128
00:05:01,370 --> 00:04:59,520
and who have uh had conversations with

129
00:05:03,350 --> 00:05:01,380
those who have been working very heavily

130
00:05:05,629 --> 00:05:03,360
behind the scenes weren't all that

131
00:05:08,090 --> 00:05:05,639
surprised at what took place uh we were

132
00:05:11,150 --> 00:05:08,100
in many ways kind of expecting what we

133
00:05:13,670 --> 00:05:11,160
saw uh and weren't uh you know sort of

134
00:05:16,790 --> 00:05:13,680
all that dismayed that the conversation

135
00:05:19,430 --> 00:05:16,800
had not been catapulted into the into

136
00:05:21,469 --> 00:05:19,440
the net next phase or fourth or fifth or

137
00:05:23,090 --> 00:05:21,479
sixth gear as Elizondo likes to allude

138
00:05:26,210 --> 00:05:23,100

to I don't know that we're quite there

139

00:05:28,909 --> 00:05:26,220

yet and that's okay from all that we are

140

00:05:30,710 --> 00:05:28,919

hearing so as we kind of get into that

141

00:05:32,570 --> 00:05:30,720

topic I know we wanted to First maybe

142

00:05:34,370 --> 00:05:32,580

set the stage a little bit

143

00:05:37,070 --> 00:05:34,380

we're talking about something that we've

144

00:05:38,570 --> 00:05:37,080

touched on before and I know you'll want

145

00:05:40,249 --> 00:05:38,580

to unpack this a little bit but that's

146

00:05:44,090 --> 00:05:40,259

the issue of neuro-linguistic

147

00:05:47,090 --> 00:05:44,100

programming and how language uh the

148

00:05:49,129 --> 00:05:47,100

language that we use to to talk about a

149

00:05:51,890 --> 00:05:49,139

subject it really frames the way in

150

00:05:55,070 --> 00:05:51,900

which we think it defines the

151
00:05:57,890 --> 00:05:55,080
possibility space of what can happen or

152
00:05:59,689 --> 00:05:57,900
cannot happen and so there was a good

153
00:06:01,790 --> 00:05:59,699
bit of that occurring in this

154
00:06:03,469 --> 00:06:01,800
conversation and and it doesn't even

155
00:06:05,150 --> 00:06:03,479
have to be intentional I want to make

156
00:06:07,129 --> 00:06:05,160
sure that that point is made I'm not

157
00:06:09,830 --> 00:06:07,139
necessarily making an argument here that

158
00:06:11,689 --> 00:06:09,840
Dr Patrick sat down before the hearing

159
00:06:13,969 --> 00:06:11,699
and said I want to use these words so

160
00:06:16,310 --> 00:06:13,979
that I can kind of really direct this in

161
00:06:19,010 --> 00:06:16,320
a specific way but but more so to say

162
00:06:21,469 --> 00:06:19,020
that it's something that in many ways is

163
00:06:24,710 --> 00:06:21,479

baked into our culture and it is tied

164

00:06:26,870 --> 00:06:24,720

very closely into our uh materialist

165

00:06:29,809 --> 00:06:26,880

physicalist framework of looking at the

166

00:06:32,570 --> 00:06:29,819

world and when you approach a problem as

167

00:06:35,570 --> 00:06:32,580

mysterious as the phenomena you're

168

00:06:38,390 --> 00:06:35,580

approaching it with the the toolkit that

169

00:06:40,550 --> 00:06:38,400

you have and and those tools may be

170

00:06:42,529 --> 00:06:40,560

completely inadequate in order to be

171

00:06:45,110 --> 00:06:42,539

able to actually engage with interact

172

00:06:47,390 --> 00:06:45,120

with and understand this incredible

173

00:06:51,830 --> 00:06:47,400

mystery but where would you want to take

174

00:06:53,749 --> 00:06:51,840

this uh with that concept of NLP

175

00:06:55,490 --> 00:06:53,759

yeah I think there's a few things to

176

00:06:57,409 --> 00:06:55,500

touch on there number one is the

177

00:07:00,710 --> 00:06:57,419

language that's used neuro-linguistic

178

00:07:04,309 --> 00:07:00,720

programming speaks to how both language

179

00:07:06,770 --> 00:07:04,319

tone uh gestures all sorts of different

180

00:07:08,270 --> 00:07:06,780

kinds of delivery mechanisms are sending

181

00:07:10,309 --> 00:07:08,280

a message that is meant to program

182

00:07:13,189 --> 00:07:10,319

people this doesn't have to be something

183

00:07:16,010 --> 00:07:13,199

nefarious as in The Manchurian Candidate

184

00:07:17,570 --> 00:07:16,020

or something it just means that people

185

00:07:19,790 --> 00:07:17,580

who know how to do this well whether

186

00:07:21,230 --> 00:07:19,800

they're public relations experts or you

187

00:07:23,710 --> 00:07:21,240

know spokespeople for the government or

188

00:07:26,689 --> 00:07:23,720

whatever know that the language you use

189

00:07:28,850 --> 00:07:26,699

helps to frame the matter altogether

190

00:07:31,249 --> 00:07:28,860

right and you when you have are in the

191

00:07:33,170 --> 00:07:31,259

position where you get to decide which

192

00:07:34,909 --> 00:07:33,180

language you're going to use you already

193

00:07:37,189 --> 00:07:34,919

are on the front foot because you can

194

00:07:38,570 --> 00:07:37,199

determine which direction the

195

00:07:40,670 --> 00:07:38,580

conversation goes and that's why you'll

196

00:07:43,070 --> 00:07:40,680

often hear people talk about trying to

197

00:07:45,230 --> 00:07:43,080

get ahead of the curve on a narrative

198

00:07:47,210 --> 00:07:45,240

what they mean is if you get ahead of it

199

00:07:48,589 --> 00:07:47,220

before the information comes out you can

200

00:07:51,409 --> 00:07:48,599

actually already steer it in a certain

201
00:07:53,990 --> 00:07:51,419
direction that's favorable for you right

202
00:07:56,390 --> 00:07:54,000
so there's there's certain wordings that

203
00:07:58,189 --> 00:07:56,400
were used in this in this hearing

204
00:08:01,730 --> 00:07:58,199
certain

205
00:08:04,189 --> 00:08:01,740
just expectations in terms of a panel of

206
00:08:06,529 --> 00:08:04,199
Congress people and then a scientist

207
00:08:09,290 --> 00:08:06,539
right I was thinking about how in in

208
00:08:11,450 --> 00:08:09,300
yester decade or yester Century we might

209
00:08:13,490 --> 00:08:11,460
have had doctors of the church or

210
00:08:16,309 --> 00:08:13,500
theologians or Priestly authorities

211
00:08:18,050 --> 00:08:16,319
before Royal Court right

212
00:08:19,969 --> 00:08:18,060
um King Charles or something and and

213
00:08:21,409 --> 00:08:19,979

making their their statements and then

214

00:08:23,689 --> 00:08:21,419

kind of back and forth what is God's

215

00:08:25,430 --> 00:08:23,699

will here what can we say about the

216

00:08:26,990 --> 00:08:25,440

nature of reality and astronomy and

217

00:08:29,869 --> 00:08:27,000

those kind of things that that have come

218

00:08:33,949 --> 00:08:29,879

up in the past now what we have is a

219

00:08:35,990 --> 00:08:33,959

scientific Authority that sits before a

220

00:08:38,510 --> 00:08:36,000

democratically elected Congressional

221

00:08:40,550 --> 00:08:38,520

panel right so it's different times but

222

00:08:42,290 --> 00:08:40,560

there's still certain expectations and

223

00:08:44,089 --> 00:08:42,300

Norms that are baked into that procedure

224

00:08:46,070 --> 00:08:44,099

so that's the first thing I would say

225

00:08:47,750 --> 00:08:46,080

when I think about how the entire thing

226

00:08:49,490 --> 00:08:47,760

was set up and how that steers the

227

00:08:52,250 --> 00:08:49,500

conversation in a certain way

228

00:08:55,009 --> 00:08:52,260

mm-hmm and if any of you have worked in

229

00:08:57,110 --> 00:08:55,019

a corporate environment uh you're

230

00:08:58,910 --> 00:08:57,120

familiar with this as well you probably

231

00:09:01,130 --> 00:08:58,920

do it all the time without even thinking

232

00:09:05,269 --> 00:09:01,140

about it particularly if you are giving

233

00:09:07,910 --> 00:09:05,279

a presentation to a client or if you're

234

00:09:10,310 --> 00:09:07,920

making a case about your performance to

235

00:09:13,190 --> 00:09:10,320

your boss you're going to be using

236

00:09:15,230 --> 00:09:13,200

certain sets of language to kind of

237

00:09:17,990 --> 00:09:15,240

frame up how you are doing how your

238

00:09:20,090 --> 00:09:18,000

business is performing uh so that the

239

00:09:23,030 --> 00:09:20,100

the audience the recipient of that

240

00:09:24,889 --> 00:09:23,040

information is is willing to receive it

241

00:09:27,230 --> 00:09:24,899

in the most favorable positive light

242

00:09:30,410 --> 00:09:27,240

possible right and just as you said we

243

00:09:33,590 --> 00:09:30,420

have a scientist here who who was really

244

00:09:37,490 --> 00:09:33,600

well versed in science speak and was

245

00:09:40,250 --> 00:09:37,500

very sober uh had very methodical uh you

246

00:09:42,170 --> 00:09:40,260

know very very cool and collected and

247

00:09:44,889 --> 00:09:42,180

that's what you would want to see so

248

00:09:48,410 --> 00:09:44,899

just that that sort of persona of Sean

249

00:09:51,050 --> 00:09:48,420

Kirkpatrick as uh the right person for

250

00:09:52,850 --> 00:09:51,060

the job and and and also he signaled

251

00:09:54,710 --> 00:09:52,860

that he was that right person in other

252

00:09:56,930 --> 00:09:54,720

ways as well if you'll recall from the

253

00:09:59,050 --> 00:09:56,940

hearing he even made it a point to drop

254

00:10:02,150 --> 00:09:59,060

the fact that when the Chinese balloon

255

00:10:04,610 --> 00:10:02,160

Fiasco was happening he was summoned in

256

00:10:07,250 --> 00:10:04,620

the middle of the night uh to give his

257

00:10:09,350 --> 00:10:07,260

opinion on whatever it might be I mean

258

00:10:12,710 --> 00:10:09,360

just saying that you were summoned by

259

00:10:14,329 --> 00:10:12,720

authorities at this huge event lends

260

00:10:17,269 --> 00:10:14,339

credibility to everything that he's

261

00:10:20,449 --> 00:10:17,279

going to say thereafter he's in the room

262

00:10:23,030 --> 00:10:20,459

with the decision makers trying to

263

00:10:26,750 --> 00:10:23,040

understand what is going on therefore he

264

00:10:29,030 --> 00:10:26,760

can be trusted uh to uh you know proceed

265

00:10:30,710 --> 00:10:29,040

in a good faith way uh that that

266

00:10:34,070 --> 00:10:30,720

everything is going according to plan

267

00:10:36,650 --> 00:10:34,080

and in fact we did hear that echoed by

268

00:10:38,329 --> 00:10:36,660

Senator gillibrand after the hearing uh

269

00:10:40,790 --> 00:10:38,339

in her comments that that she had full

270

00:10:42,290 --> 00:10:40,800

faith in him that uh he you know he's

271

00:10:44,329 --> 00:10:42,300

the right person for the job that he's

272

00:10:47,090 --> 00:10:44,339

really going to do the best that he

273

00:10:48,530 --> 00:10:47,100

possibly can and there is some I think

274

00:10:51,410 --> 00:10:48,540

question as to whether or not that

275

00:10:53,870 --> 00:10:51,420

actually is true but from a kind of a

276

00:10:56,090 --> 00:10:53,880

bureaucrat speak it it certainly is

277

00:10:59,030 --> 00:10:56,100

right so from from the the framework of

278

00:11:00,470 --> 00:10:59,040

a politician or the bureaucrat if he's

279

00:11:03,110 --> 00:11:00,480

kind of going through the motions and

280

00:11:04,370 --> 00:11:03,120

checking all those boxes uh you're just

281

00:11:05,750 --> 00:11:04,380

going to sit there and kind of Nod along

282

00:11:07,430 --> 00:11:05,760

and be like yeah all this sounds good

283

00:11:09,650 --> 00:11:07,440

good to me how much money do you need

284

00:11:10,910 --> 00:11:09,660

right exactly

285

00:11:13,009 --> 00:11:10,920

you know it's interesting because

286

00:11:15,050 --> 00:11:13,019

sometimes when you have the privilege of

287

00:11:17,750 --> 00:11:15,060

being the only scientist in the room

288

00:11:20,990 --> 00:11:17,760

kind of thing of that level then you're

289

00:11:23,090 --> 00:11:21,000

gonna speak in science speak and the the

290

00:11:24,829 --> 00:11:23,100

mere mortals who don't have those kind

291

00:11:26,690 --> 00:11:24,839

of backgrounds are just assuming that

292

00:11:28,610 --> 00:11:26,700

you're you're doing what you're saying

293

00:11:31,009 --> 00:11:28,620

and that this is partly what speaks to

294

00:11:33,710 --> 00:11:31,019

the NLP part just by using scientific

295

00:11:35,329 --> 00:11:33,720

language and in a very methodical dry

296

00:11:36,530 --> 00:11:35,339

way right people talked about how that

297

00:11:38,870 --> 00:11:36,540

they were almost falling asleep during

298

00:11:41,630 --> 00:11:38,880

the hearing but that speaks to this sort

299

00:11:44,269 --> 00:11:41,640

of impartial objective scientific

300

00:11:47,150 --> 00:11:44,279

analysis right so his very delivery was

301
00:11:49,310 --> 00:11:47,160
part of the the NLP aspect right that it

302
00:11:51,710 --> 00:11:49,320
sounds like a scientist who doesn't get

303
00:11:54,310 --> 00:11:51,720
emotional he's not biased he's just

304
00:11:57,350 --> 00:11:54,320
carefully methodically you know almost

305
00:11:58,790 --> 00:11:57,360
painfully slowly working through every

306
00:12:00,650 --> 00:11:58,800
single case he talked about that right

307
00:12:02,690 --> 00:12:00,660
how he's gone through every case goes

308
00:12:04,850 --> 00:12:02,700
through a several steps right before

309
00:12:06,350 --> 00:12:04,860
they determine what it is and if it's

310
00:12:08,210 --> 00:12:06,360
unclear then he sends it to this other

311
00:12:10,250 --> 00:12:08,220
uh committee or something that also

312
00:12:11,630 --> 00:12:10,260
gives their their assessment comes back

313
00:12:13,730 --> 00:12:11,640

and then he makes a final stamp of

314

00:12:16,370 --> 00:12:13,740

approval one way or the other

315

00:12:17,810 --> 00:12:16,380

but it's interesting because you had a

316

00:12:19,130 --> 00:12:17,820

response from Gary Nolan that I thought

317

00:12:21,829 --> 00:12:19,140

was quite interesting because then you

318

00:12:24,590 --> 00:12:21,839

have someone who also is a PhD in

319

00:12:26,449 --> 00:12:24,600

science and and has

320

00:12:28,850 --> 00:12:26,459

great familiarity with this topic

321

00:12:31,610 --> 00:12:28,860

specifically and he has enough

322

00:12:33,290 --> 00:12:31,620

understanding to actually pay specific

323

00:12:34,790 --> 00:12:33,300

attention to the words that are used the

324

00:12:38,329 --> 00:12:34,800

things that are said the way things are

325

00:12:40,910 --> 00:12:38,339

framed and so as an expert scientist he

326

00:12:42,710 --> 00:12:40,920

can actually uh notice a few things that

327

00:12:44,150 --> 00:12:42,720

maybe the average person is not going to

328

00:12:48,050 --> 00:12:44,160

notice and so this is something Gary

329

00:12:50,509 --> 00:12:48,060

Nolan tweeted after the hearing quote it

330

00:12:53,389 --> 00:12:50,519

was as expected but if but if you define

331

00:12:55,370 --> 00:12:53,399

the science too narrowly even a warp

332

00:12:58,490 --> 00:12:55,380

driven gnat could not fit through the

333

00:13:00,470 --> 00:12:58,500

needle watch the definitions saying you

334

00:13:02,690 --> 00:13:00,480

are doing science or saying science

335

00:13:05,990 --> 00:13:02,700

should be done does not mean you're

336

00:13:07,670 --> 00:13:06,000

actually doing science properly unquote

337

00:13:09,470 --> 00:13:07,680

it's a pretty pointed statement right

338

00:13:11,930 --> 00:13:09,480

he's saying that don't be fooled by

339

00:13:14,329 --> 00:13:11,940

science speak alone pay close attention

340

00:13:15,769 --> 00:13:14,339

to definitions I talk about this all the

341

00:13:18,050 --> 00:13:15,779

time right the parameters we set

342

00:13:19,370 --> 00:13:18,060

determine the possible answers and we're

343

00:13:22,310 --> 00:13:19,380

going to get to that in a minute I think

344

00:13:24,530 --> 00:13:22,320

in terms of this this ET hypothesis that

345

00:13:27,230 --> 00:13:24,540

was uh talked about as well

346

00:13:29,690 --> 00:13:27,240

yeah exactly I first of all I always

347

00:13:33,050 --> 00:13:29,700

loved the the Nolan fastballs he's he's

348

00:13:35,389 --> 00:13:33,060

got uh some amazing zingers uh pretty

349

00:13:36,650 --> 00:13:35,399

much on demand that guy is a tweet

350

00:13:37,730 --> 00:13:36,660

machine

351

00:13:39,350 --> 00:13:37,740

um and I think you're right perfectly

352

00:13:42,170 --> 00:13:39,360

kind of summed up an alternate

353

00:13:46,030 --> 00:13:42,180

perspective uh but the quote that got a

354

00:13:48,590 --> 00:13:46,040

lot of attention related to this sort of

355

00:13:50,690 --> 00:13:48,600

defining or narrowing uh the

356

00:13:53,269 --> 00:13:50,700

understanding of what is science or not

357

00:13:56,449 --> 00:13:53,279

on that science is the following so

358

00:13:58,610 --> 00:13:56,459

Kirkpatrick said Arrow has found no

359

00:14:01,430 --> 00:13:58,620

credible evidence thus far of

360

00:14:04,490 --> 00:14:01,440

extraterrestrial activity off-world

361

00:14:06,710 --> 00:14:04,500

technology or objects that defy the

362

00:14:09,170 --> 00:14:06,720

known laws of physics

363

00:14:11,829 --> 00:14:09,180

unquote yes and so this is what I

364

00:14:14,509 --> 00:14:11,839

tweeted in response to that I said quote

365

00:14:16,430 --> 00:14:14,519

declaring there is no evidence for E.T

366

00:14:18,710 --> 00:14:16,440

presence suggests we have already

367

00:14:21,110 --> 00:14:18,720

exhaustively determined what said

368

00:14:23,030 --> 00:14:21,120

evidence would look like considering

369

00:14:25,970 --> 00:14:23,040

such a presence would likely be more

370

00:14:28,129 --> 00:14:25,980

advanced than us suggests by itself that

371

00:14:29,870 --> 00:14:28,139

the first notion is foolhardy at best

372

00:14:32,269 --> 00:14:29,880

unquote

373

00:14:33,889 --> 00:14:32,279

my point being there it's a it's kind of

374

00:14:35,449 --> 00:14:33,899

a Preposterous statement to make because

375

00:14:37,850 --> 00:14:35,459

if we haven't even begun to talk about

376

00:14:39,650 --> 00:14:37,860

what that evidence would look like how

377

00:14:42,310 --> 00:14:39,660

can you make such a statement right and

378

00:14:45,230 --> 00:14:42,320

again it's sort of the the the

379

00:14:47,449 --> 00:14:45,240

lazy kind of response that gets that

380

00:14:50,150 --> 00:14:47,459

doesn't get caught these days the way

381

00:14:51,889 --> 00:14:50,160

that the press in its current iteration

382

00:14:53,329 --> 00:14:51,899

exists right and then I think in

383

00:14:55,310 --> 00:14:53,339

previous decades

384

00:14:56,750 --> 00:14:55,320

a more hard-hitting press that was

385

00:15:00,530 --> 00:14:56,760

really holding feet to the fire would

386

00:15:02,090 --> 00:15:00,540

say well has there been a panel put

387

00:15:04,730 --> 00:15:02,100

together to decide what that evidence

388

00:15:06,470 --> 00:15:04,740

would be and have you had different

389

00:15:08,629 --> 00:15:06,480

um objective observers with

390

00:15:10,129 --> 00:15:08,639

understanding in these matters ring in

391

00:15:12,710 --> 00:15:10,139

on whether or not they think that's a

392

00:15:14,629 --> 00:15:12,720

fair assessment or a fair criteria set

393

00:15:15,769 --> 00:15:14,639

of criteria to make that assessment and

394

00:15:17,810 --> 00:15:15,779

if not

395

00:15:21,410 --> 00:15:17,820

how is this statement anything more than

396

00:15:22,730 --> 00:15:21,420

propaganda right because again it's what

397

00:15:24,769 --> 00:15:22,740

I'm getting at is it really is not

398

00:15:26,810 --> 00:15:24,779

saying much of anything and yet for many

399

00:15:28,069 --> 00:15:26,820

people they'll be like oh okay well then

400

00:15:30,889 --> 00:15:28,079

I guess it's just you know I guess it's

401
00:15:33,530 --> 00:15:30,899
just Chinese drones after all right

402
00:15:35,210 --> 00:15:33,540
um this is again the NLP part because

403
00:15:37,670 --> 00:15:35,220
he's making a statement that sounds

404
00:15:39,170 --> 00:15:37,680
substantive when it's really not there

405
00:15:41,990 --> 00:15:39,180
isn't really really even the kind of

406
00:15:44,110 --> 00:15:42,000
apparatus in place that could uh hold

407
00:15:46,790 --> 00:15:44,120
this right to some sort of objective

408
00:15:49,009 --> 00:15:46,800
analysis and standards right so this is

409
00:15:50,689 --> 00:15:49,019
Again part of the irony here we're

410
00:15:52,310 --> 00:15:50,699
talking about objective science we're

411
00:15:54,710 --> 00:15:52,320
talking about establishing a very clear

412
00:15:56,629 --> 00:15:54,720
protocol right and yet that kind of

413
00:15:58,069 --> 00:15:56,639

statement is not scientific at all right

414

00:15:59,449 --> 00:15:58,079

so this is the kind of thing where we

415

00:16:01,129 --> 00:15:59,459

see

416

00:16:03,009 --> 00:16:01,139

um him speaking out of both sides of his

417

00:16:05,930 --> 00:16:03,019

mouth to some degree

418

00:16:08,150 --> 00:16:05,940

yeah I would have loved for some

419

00:16:10,850 --> 00:16:08,160

hard-hitting follow-ups to statements

420

00:16:13,310 --> 00:16:10,860

like that as you noted there it would

421

00:16:14,410 --> 00:16:13,320

have been great to say well explain to

422

00:16:17,449 --> 00:16:14,420

us

423

00:16:20,210 --> 00:16:17,459

what what you would be looking for to

424

00:16:22,250 --> 00:16:20,220

know that it is extraterrestrial or not

425

00:16:25,069 --> 00:16:22,260

extraterrestrial you know how are you

426

00:16:26,990 --> 00:16:25,079

defining that you know just just

427

00:16:28,550 --> 00:16:27,000

generally right

428

00:16:31,490 --> 00:16:28,560

um what assumptions are you bringing to

429

00:16:34,009 --> 00:16:31,500

the table in order to you know get your

430

00:16:35,810 --> 00:16:34,019

mind around it's in that bucket or it's

431

00:16:38,449 --> 00:16:35,820

not in that bucket uh I don't think

432

00:16:40,670 --> 00:16:38,459

that's ever been articulated uh at least

433

00:16:42,110 --> 00:16:40,680

I've not heard it articulated from that

434

00:16:44,689 --> 00:16:42,120

office

435

00:16:47,329 --> 00:16:44,699

um I will say too though that this this

436

00:16:50,269 --> 00:16:47,339

statement in many ways kind of mirrors

437

00:16:53,269 --> 00:16:50,279

what the paper that he co-wrote with Avi

438

00:16:55,430 --> 00:16:53,279

Loeb was was getting at and particularly

439

00:16:58,310 --> 00:16:55,440

the last part of the statement about

440

00:17:01,370 --> 00:16:58,320

objects that defy the known laws of

441

00:17:03,050 --> 00:17:01,380

physics right so again kind of making

442

00:17:05,809 --> 00:17:03,060

the argument here that we've not seen

443

00:17:08,030 --> 00:17:05,819

anything Fantastical uh and and

444

00:17:10,010 --> 00:17:08,040

basically things really do need to

445

00:17:13,730 --> 00:17:10,020

behave in accordance with what we

446

00:17:15,409 --> 00:17:13,740

understand is possible in our science so

447

00:17:17,689 --> 00:17:15,419

thus far you know we've not seen

448

00:17:20,870 --> 00:17:17,699

anything outside of those parameters but

449

00:17:22,730 --> 00:17:20,880

but but notably too here no credible

450

00:17:24,890 --> 00:17:22,740

evidence of anything outside of those

451
00:17:26,510 --> 00:17:24,900
parameters so you know what is credible

452
00:17:28,789 --> 00:17:26,520
evidence we don't know what that means

453
00:17:31,909 --> 00:17:28,799
we don't know what the definition of

454
00:17:35,510 --> 00:17:31,919
credibility is in this context uh does

455
00:17:38,270 --> 00:17:35,520
he consider a witness testimony of an

456
00:17:40,970 --> 00:17:38,280
object that you know instantaneously

457
00:17:43,430 --> 00:17:40,980
accelerated to mock two or three do we

458
00:17:46,130 --> 00:17:43,440
consider that to be uh you know credible

459
00:17:47,930 --> 00:17:46,140
evidence I mean what what threshold does

460
00:17:49,669 --> 00:17:47,940
it have to meet in order to meet

461
00:17:51,529 --> 00:17:49,679
credibility

462
00:17:53,330 --> 00:17:51,539
right great points and uh and John

463
00:17:54,950 --> 00:17:53,340

Ramirez in a previous statement we're

464

00:17:57,049 --> 00:17:54,960

going to talk about him later on but he

465

00:17:58,909 --> 00:17:57,059

made a statement earlier uh weeks ago

466

00:18:01,669 --> 00:17:58,919

about these kinds of hearings and he

467

00:18:03,289 --> 00:18:01,679

said pay close attention because when

468

00:18:05,210 --> 00:18:03,299

they say there is no evidence for no

469

00:18:06,890 --> 00:18:05,220

credible evidence there again they're

470

00:18:09,710 --> 00:18:06,900

not saying it but what they're what

471

00:18:11,570 --> 00:18:09,720

they're actually speaking to is the the

472

00:18:14,150 --> 00:18:11,580

narrow parameters of what they've been

473

00:18:16,070 --> 00:18:14,160

examining right the narrow parameters of

474

00:18:17,870 --> 00:18:16,080

what they've been examining so they

475

00:18:20,150 --> 00:18:17,880

might say based on the footage we're

476

00:18:22,430 --> 00:18:20,160

looking at we've not come across that

477

00:18:24,049 --> 00:18:22,440

but we don't have access to sensor data

478

00:18:25,909 --> 00:18:24,059

we don't have access or we're not

479

00:18:29,330 --> 00:18:25,919

considering expert witness data from

480

00:18:30,830 --> 00:18:29,340

F-18 pilots and radar operators right so

481

00:18:32,750 --> 00:18:30,840

it's not and so some people some people

482

00:18:34,430 --> 00:18:32,760

right away got up in arms and said well

483

00:18:36,590 --> 00:18:34,440

what about this case and the Nimitz and

484

00:18:38,810 --> 00:18:36,600

this and this and this you know and and

485

00:18:41,450 --> 00:18:38,820

Decades of experiencers having

486

00:18:43,549 --> 00:18:41,460

encounters and sightings right but what

487

00:18:45,110 --> 00:18:43,559

people need to realize as John Ramirez

488

00:18:47,990 --> 00:18:45,120

pointed out

489

00:18:50,330 --> 00:18:48,000

he's not saying it but what he's what

490

00:18:51,470 --> 00:18:50,340

he's speaking to is the the narrow

491

00:18:53,630 --> 00:18:51,480

evidence they've been looking at

492

00:18:54,950 --> 00:18:53,640

according to the parameters that they've

493

00:18:57,890 --> 00:18:54,960

defined which he has not even

494

00:19:01,010 --> 00:18:57,900

established publicly right so this again

495

00:19:02,830 --> 00:19:01,020

is a way to sour the public on this

496

00:19:05,690 --> 00:19:02,840

notion that it could be something

497

00:19:08,630 --> 00:19:05,700

non-prosaic while also not really

498

00:19:09,770 --> 00:19:08,640

addressing the broad evidence that

499

00:19:12,169 --> 00:19:09,780

actually is part of the public

500

00:19:13,370 --> 00:19:12,179

conversation right and of course on top

501
00:19:15,590 --> 00:19:13,380
of that one of the things that we were

502
00:19:18,230 --> 00:19:15,600
talking about before went on the air is

503
00:19:20,450 --> 00:19:18,240
is again it's it's so unscientific it

504
00:19:22,730 --> 00:19:20,460
kind of screams at us and yet it's not

505
00:19:25,610 --> 00:19:22,740
really talked about and that is that the

506
00:19:28,669 --> 00:19:25,620
only hypothesis he considered outside of

507
00:19:30,169 --> 00:19:28,679
something prosaic was E.T right and any

508
00:19:32,750 --> 00:19:30,179
of us who've been in this topic for more

509
00:19:34,549 --> 00:19:32,760
than like nine days know that you don't

510
00:19:36,289 --> 00:19:34,559
have to be here very long before you get

511
00:19:38,510 --> 00:19:36,299
into the interdimensional question the

512
00:19:39,830 --> 00:19:38,520
extra tempestal question the crypto

513
00:19:41,990 --> 00:19:39,840

terrestrial question the

514

00:19:43,730 --> 00:19:42,000

ultra-terrestrial question right these

515

00:19:45,169 --> 00:19:43,740

are all other possibilities so to say

516

00:19:47,990 --> 00:19:45,179

that it's only

517

00:19:50,510 --> 00:19:48,000

either something human a nation-state or

518

00:19:53,150 --> 00:19:50,520

a rogue kind of a human group that's

519

00:19:55,070 --> 00:19:53,160

done something or it must be ET is

520

00:19:57,650 --> 00:19:55,080

already a huge assumption that's not

521

00:19:59,810 --> 00:19:57,660

scientific it's not objective what

522

00:20:02,870 --> 00:19:59,820

criteria have been chosen to determine

523

00:20:04,310 --> 00:20:02,880

that only ET and prosaic are the options

524

00:20:06,049 --> 00:20:04,320

on the table right these are the kind of

525

00:20:07,370 --> 00:20:06,059

things that really scream at you when

526

00:20:11,150 --> 00:20:07,380

you think about it from a truly

527

00:20:13,850 --> 00:20:11,160

objective point of view I think yeah 100

528

00:20:16,010 --> 00:20:13,860

um it's uh you know it's very

529

00:20:19,370 --> 00:20:16,020

fascinating I I you know to take a kind

530

00:20:22,070 --> 00:20:19,380

of a pro approach to this I I was

531

00:20:23,150 --> 00:20:22,080

impressed that Ramirez uh and we're

532

00:20:24,110 --> 00:20:23,160

gonna like I said we're gonna talk a

533

00:20:26,810 --> 00:20:24,120

little bit more about him in a second

534

00:20:29,570 --> 00:20:26,820

here but he he did say that one of the

535

00:20:32,510 --> 00:20:29,580

positive things from this hearing is

536

00:20:35,090 --> 00:20:32,520

that it does further the legitimacy of

537

00:20:37,970 --> 00:20:35,100

the topic you know generally and in

538

00:20:39,710 --> 00:20:37,980

particular amongst other agencies and

539

00:20:41,390 --> 00:20:39,720

and I want to I want to kind of stay

540

00:20:44,150 --> 00:20:41,400

with this one for a second because that

541

00:20:46,669 --> 00:20:44,160

was talked about a good bit that uh that

542

00:20:49,130 --> 00:20:46,679

there is a a greater a greater

543

00:20:52,010 --> 00:20:49,140

willingness and acceptance to report on

544

00:20:54,110 --> 00:20:52,020

UAP that there is uh at least seemingly

545

00:20:55,850 --> 00:20:54,120

on the surface level a willingness and a

546

00:20:58,190 --> 00:20:55,860

collaboration amongst the heads of other

547

00:21:00,770 --> 00:20:58,200

agencies and and branches of the

548

00:21:02,690 --> 00:21:00,780

military uh to normalize reporting of

549

00:21:05,029 --> 00:21:02,700

the UAP you know if you see something

550

00:21:08,090 --> 00:21:05,039

say something and that sounds like it is

551
00:21:10,789 --> 00:21:08,100
starting to be the case now you know how

552
00:21:14,029 --> 00:21:10,799
those uh reports are collated how they

553
00:21:16,310 --> 00:21:14,039
are uh you know accepted or discarded I

554
00:21:18,590 --> 00:21:16,320
mean that remains to be seen but we are

555
00:21:21,169 --> 00:21:18,600
at least making it okay to have this

556
00:21:23,390 --> 00:21:21,179
conversation uh and and in fact I will

557
00:21:25,370 --> 00:21:23,400
point out too that that not only has

558
00:21:27,650 --> 00:21:25,380
Kirk Kirkpatrick mentioned this but

559
00:21:29,510 --> 00:21:27,660
other uh spokes folks have mentioned

560
00:21:32,390 --> 00:21:29,520
this as well that this is a global

561
00:21:34,549 --> 00:21:32,400
phenomena right so there was um and I

562
00:21:37,130 --> 00:21:34,559
forget his name but he was a spokesman

563
00:21:39,230 --> 00:21:37,140

for the space force essentially saying

564

00:21:41,270 --> 00:21:39,240

that very directly recently that this is

565

00:21:43,130 --> 00:21:41,280

a a global phenomenon it's important

566

00:21:44,690 --> 00:21:43,140

that we you know we we take a look at it

567

00:21:47,149 --> 00:21:44,700

we're very serious about it for flight

568

00:21:49,310 --> 00:21:47,159

safety all these things and again kind

569

00:21:51,890 --> 00:21:49,320

of defining that it's not a unique

570

00:21:54,890 --> 00:21:51,900

problem to the U.S it's not necessarily

571

00:21:56,649 --> 00:21:54,900

a unique problem uh to the Chinese or

572

00:22:00,230 --> 00:21:56,659

the Russians like it's it's everywhere

573

00:22:01,490 --> 00:22:00,240

and because it's everywhere it's okay if

574

00:22:03,830 --> 00:22:01,500

you're seeing something we need to know

575

00:22:06,350 --> 00:22:03,840

what you saw where you saw it let's get

576

00:22:08,270 --> 00:22:06,360

as much data as we possibly can and then

577

00:22:09,830 --> 00:22:08,280

we're going to analyze that and and

578

00:22:12,770 --> 00:22:09,840

classify it right we're going to create

579

00:22:14,690 --> 00:22:12,780

a formal classification effort that that

580

00:22:16,250 --> 00:22:14,700

is the task I mean I will say we're very

581

00:22:19,010 --> 00:22:16,260

good at doing that we're very good at

582

00:22:20,930 --> 00:22:19,020

categorizing classifying that's like the

583

00:22:23,090 --> 00:22:20,940

epitome of our science and in a way is

584

00:22:25,310 --> 00:22:23,100

is looking at these things and so to

585

00:22:27,110 --> 00:22:25,320

kind of get that effort moving and get

586

00:22:30,770 --> 00:22:27,120

it formally established

587

00:22:34,190 --> 00:22:30,780

is a very important piece of the overall

588

00:22:35,570 --> 00:22:34,200

process here right we you know when you

589

00:22:36,950 --> 00:22:35,580

looked at the hearing and you saw there

590

00:22:38,930 --> 00:22:36,960

were only a couple of senators present

591

00:22:40,970 --> 00:22:38,940

actually told you all you needed to know

592

00:22:43,130 --> 00:22:40,980

that there weren't going to be any you

593

00:22:44,630 --> 00:22:43,140

know amazing Bombshells dropped by Sean

594

00:22:46,850 --> 00:22:44,640

Kirkpatrick because you don't drop a

595

00:22:48,529 --> 00:22:46,860

bombshell in front of a two and just two

596

00:22:50,270 --> 00:22:48,539

senators who are like wait you just said

597

00:22:52,430 --> 00:22:50,280

that we do have credible evidence of

598

00:22:54,830 --> 00:22:52,440

extraterrestrials and that is never

599

00:22:58,370 --> 00:22:54,840

going to happen in a hearing in this

600

00:23:01,310 --> 00:22:58,380

context ever ever so to expect such

601
00:23:03,289 --> 00:23:01,320
would be I think completely naive

602
00:23:04,669 --> 00:23:03,299
very true and you made a great point

603
00:23:06,470 --> 00:23:04,679
there and I think we should we should

604
00:23:08,029 --> 00:23:06,480
hit on this because those of us

605
00:23:09,409 --> 00:23:08,039
intimately familiar with this topic that

606
00:23:10,970 --> 00:23:09,419
are obsessed with it and and think about

607
00:23:12,529 --> 00:23:10,980
it and talk about it and research it

608
00:23:14,990 --> 00:23:12,539
every day

609
00:23:17,210 --> 00:23:15,000
can feel frustrated at the snail's pace

610
00:23:18,350 --> 00:23:17,220
of progress on the one hand there's

611
00:23:19,909 --> 00:23:18,360
numerous things I want to say here and

612
00:23:22,250 --> 00:23:19,919
that we can get into

613
00:23:25,490 --> 00:23:22,260

one is that you're absolutely right that

614

00:23:28,549 --> 00:23:25,500

we are now seeing a shift where not only

615

00:23:31,130 --> 00:23:28,559

are different military personnel

616

00:23:33,230 --> 00:23:31,140

encouraged to report when they see

617

00:23:35,570 --> 00:23:33,240

things that seem anomalous but they're

618

00:23:37,789 --> 00:23:35,580

actually uh ordered to right this is

619

00:23:39,890 --> 00:23:37,799

part of their the clear orders are that

620

00:23:41,930 --> 00:23:39,900

you do need to report on this because it

621

00:23:43,970 --> 00:23:41,940

could be a national security issue again

622

00:23:46,310 --> 00:23:43,980

that's partly the way that military

623

00:23:47,330 --> 00:23:46,320

speak works right but nevertheless you

624

00:23:48,590 --> 00:23:47,340

can understand from their point of view

625

00:23:50,090 --> 00:23:48,600

it you would definitely want to take

626

00:23:51,590 --> 00:23:50,100

that into account which is very

627

00:23:53,390 --> 00:23:51,600

different than yester decade where

628

00:23:56,210 --> 00:23:53,400

people were basically

629

00:23:57,890 --> 00:23:56,220

you know uh threatened with not getting

630

00:23:59,090 --> 00:23:57,900

their pension or not getting any kind of

631

00:24:01,070 --> 00:23:59,100

promotions if they talked about that

632

00:24:03,830 --> 00:24:01,080

silly stuff so that's a big shift right

633

00:24:06,649 --> 00:24:03,840

and you're absolutely right that that is

634

00:24:08,090 --> 00:24:06,659

beginning to shift the tone when we have

635

00:24:09,830 --> 00:24:08,100

press conferences there isn't so much

636

00:24:12,169 --> 00:24:09,840

snickering there isn't you know X-Files

637

00:24:13,430 --> 00:24:12,179

music we think back to the famous

638

00:24:16,850 --> 00:24:13,440

situation

639

00:24:19,669 --> 00:24:16,860

after the the uh Phoenix Lights

640

00:24:21,649 --> 00:24:19,679

uh flap in the 90s where the governor of

641

00:24:23,450 --> 00:24:21,659

Arizona had one of his staff members

642

00:24:24,529 --> 00:24:23,460

walk on stage in an alien costume

643

00:24:27,770 --> 00:24:24,539

remember that

644

00:24:29,630 --> 00:24:27,780

and then it made all the media present

645

00:24:32,210 --> 00:24:29,640

laugh and everyone kind of scoffed and

646

00:24:35,210 --> 00:24:32,220

laughed about it he went on to say he

647

00:24:36,590 --> 00:24:35,220

regretted that right and that that um I

648

00:24:37,730 --> 00:24:36,600

think he went even as far as to say that

649

00:24:40,549 --> 00:24:37,740

he actually had seen something that

650

00:24:41,690 --> 00:24:40,559

night too along with many many other the

651
00:24:43,130 --> 00:24:41,700
people in the in the city of Phoenix

652
00:24:46,430 --> 00:24:43,140
right

653
00:24:48,169 --> 00:24:46,440
um but also I want to say too even you

654
00:24:50,990 --> 00:24:48,179
know as the communications director for

655
00:24:52,730 --> 00:24:51,000
the John Mack Institute one of the goals

656
00:24:55,970 --> 00:24:52,740
we have is to interface with academics

657
00:24:57,230 --> 00:24:55,980
right media academics experiencers and

658
00:24:59,930 --> 00:24:57,240
there's definitely a shifting

659
00:25:02,149 --> 00:24:59,940
perspective in Academia to this right

660
00:25:04,010 --> 00:25:02,159
which is really encouraging suddenly

661
00:25:06,470 --> 00:25:04,020
there's a lot of people that want to

662
00:25:09,049 --> 00:25:06,480
study this that see this as legitimate

663
00:25:11,270 --> 00:25:09,059

they may not determine that it's ET or

664

00:25:13,490 --> 00:25:11,280

extraterrestrial or ultra-terrestrial

665

00:25:15,169 --> 00:25:13,500

whatever but they they recognize it

666

00:25:17,149 --> 00:25:15,179

something right it's a it's it's

667

00:25:19,070 --> 00:25:17,159

representing a phenomenology that is

668

00:25:21,770 --> 00:25:19,080

that is really showing up in our world

669

00:25:23,210 --> 00:25:21,780

even if it confounds some of our current

670

00:25:26,029 --> 00:25:23,220

understandings and so there's a lot of

671

00:25:27,950 --> 00:25:26,039

academics that are very eager now to

672

00:25:29,870 --> 00:25:27,960

actually look into this and we do need

673

00:25:32,330 --> 00:25:29,880

to have a multi-disciplinary kind of

674

00:25:35,269 --> 00:25:32,340

approach here because this is not

675

00:25:36,350 --> 00:25:35,279

something that's just on the edges of

676

00:25:38,149 --> 00:25:36,360

what we already understand it's

677

00:25:40,669 --> 00:25:38,159

something that really I think eclipses

678

00:25:42,710 --> 00:25:40,679

our our worldview altogether I think is

679

00:25:45,110 --> 00:25:42,720

what what might be in play here

680

00:25:47,330 --> 00:25:45,120

so we definitely want to engage these

681

00:25:48,890 --> 00:25:47,340

different kinds of disciplines together

682

00:25:50,810 --> 00:25:48,900

to try and figure out what's going on

683

00:25:52,970 --> 00:25:50,820

here so you're absolutely right that

684

00:25:55,070 --> 00:25:52,980

that in itself is a very positive turn

685

00:25:57,169 --> 00:25:55,080

that for those of us who are intimately

686

00:25:59,390 --> 00:25:57,179

familiar we can kind of lose the force

687

00:26:01,130 --> 00:25:59,400

for the trees sometimes and not realize

688

00:26:04,010 --> 00:26:01,140

that actually sure enough this is

689

00:26:06,950 --> 00:26:04,020

happening there is much more of a

690

00:26:09,049 --> 00:26:06,960

mainstream understanding that this is

691

00:26:11,930 --> 00:26:09,059

something right that that even if we

692

00:26:14,990 --> 00:26:11,940

think it's um again not what the usual

693

00:26:17,269 --> 00:26:15,000

ufology folks would call it something is

694

00:26:19,370 --> 00:26:17,279

going on that's worth looking into and I

695

00:26:22,070 --> 00:26:19,380

think another piece I want to introduce

696

00:26:24,110 --> 00:26:22,080

is the notion that

697

00:26:26,450 --> 00:26:24,120

if the secret keepers have information

698

00:26:29,289 --> 00:26:26,460

that they plan to release to the public

699

00:26:32,269 --> 00:26:29,299

then all of these steps are actually

700

00:26:35,450 --> 00:26:32,279

steps towards an ultimate goal right

701
00:26:37,730 --> 00:26:35,460
that by normalizing this topic right by

702
00:26:39,169 --> 00:26:37,740
making it so the average American has

703
00:26:40,789 --> 00:26:39,179
heard about these topics they've heard

704
00:26:43,070 --> 00:26:40,799
the word phenomenon right they've

705
00:26:45,350 --> 00:26:43,080
they've heard the word anomalous many

706
00:26:46,610 --> 00:26:45,360
more times this year than they ever have

707
00:26:49,430 --> 00:26:46,620
in history right we're talking about

708
00:26:51,169 --> 00:26:49,440
President Senators right Congress people

709
00:26:54,169 --> 00:26:51,179
coming forward in and using this

710
00:26:57,710 --> 00:26:54,179
terminology which is another kind of NLP

711
00:26:59,630 --> 00:26:57,720
approach because that puts a little hook

712
00:27:02,510 --> 00:26:59,640
in someone's brain the average person

713
00:27:04,549 --> 00:27:02,520

right that that this is a thing so that

714

00:27:06,289 --> 00:27:04,559

later on when Revelations do come

715

00:27:07,850 --> 00:27:06,299

forward there's a place to put that

716

00:27:09,890 --> 00:27:07,860

Revelation you now have a hook you can

717

00:27:11,870 --> 00:27:09,900

hang it on so there's numerous reasons

718

00:27:16,370 --> 00:27:11,880

why we can be encouraged by that yeah

719

00:27:20,210 --> 00:27:16,380

100 uh as that culture uh of normalcy

720

00:27:21,830 --> 00:27:20,220

increases that sphere widens uh it just

721

00:27:25,130 --> 00:27:21,840

gets it compounds there's a compounding

722

00:27:27,830 --> 00:27:25,140

of effect of that normalization it

723

00:27:31,070 --> 00:27:27,840

becomes then strange if you don't report

724

00:27:32,810 --> 00:27:31,080

it if you are a pilot and you're out on

725

00:27:34,490 --> 00:27:32,820

a military operation and you see

726

00:27:37,430 --> 00:27:34,500

something and you report it and that

727

00:27:40,130 --> 00:27:37,440

that something was also tracked or

728

00:27:42,950 --> 00:27:40,140

observed on another sensor technology

729

00:27:44,390 --> 00:27:42,960

but that operator didn't report it you

730

00:27:47,269 --> 00:27:44,400

could see how they would be in the hot

731

00:27:49,310 --> 00:27:47,279

seat by not raising the issue that the

732

00:27:50,930 --> 00:27:49,320

pilot saw you know so because we you

733

00:27:53,029 --> 00:27:50,940

know clearly need everybody on the same

734

00:27:56,090 --> 00:27:53,039

page we have folks you know not

735

00:27:58,789 --> 00:27:56,100

reporting things due to stigma so it's a

736

00:28:01,549 --> 00:27:58,799

it's a huge deal and very exciting I

737

00:28:04,310 --> 00:28:01,559

think for uh where we are headed with

738

00:28:06,110 --> 00:28:04,320

the topic overall it's shaping up to be

739

00:28:07,490 --> 00:28:06,120

quite a big year now there are some

740

00:28:08,750 --> 00:28:07,500

other things that were interesting in

741

00:28:09,890 --> 00:28:08,760

that hearing that I know we want to

742

00:28:13,669 --> 00:28:09,900

touch on

743

00:28:15,049 --> 00:28:13,679

one was regarding the whistleblowers we

744

00:28:17,029 --> 00:28:15,059

all have heard about the Whistleblower

745

00:28:19,610 --> 00:28:17,039

protections that were introduced in the

746

00:28:22,250 --> 00:28:19,620

legislation and that exchange was fairly

747

00:28:24,769 --> 00:28:22,260

interesting uh for a couple of reasons

748

00:28:26,870 --> 00:28:24,779

one is that the that there were about a

749

00:28:29,210 --> 00:28:26,880

two dozen whistleblowers that the office

750

00:28:31,430 --> 00:28:29,220

had interviewed and from what we've

751

00:28:33,769 --> 00:28:31,440

heard uh many of those interviews are

752

00:28:35,690 --> 00:28:33,779

quite lengthy uh at least a couple of

753

00:28:38,690 --> 00:28:35,700

hours so they're spending some good time

754

00:28:41,630 --> 00:28:38,700

with these individuals but also

755

00:28:43,789 --> 00:28:41,640

interestingly uh um it sounded as if

756

00:28:46,490 --> 00:28:43,799

that the office itself isn't actually

757

00:28:49,269 --> 00:28:46,500

looking for them uh doesn't have a

758

00:28:52,730 --> 00:28:49,279

process uh stood up just yet in order to

759

00:28:54,470 --> 00:28:52,740

give folks a an access point a portal by

760

00:28:56,149 --> 00:28:54,480

which if you are a whistleblower you can

761

00:28:57,649 --> 00:28:56,159

connect with them and instead all of

762

00:29:00,710 --> 00:28:57,659

those whistleblowers were referred to

763

00:29:03,169 --> 00:29:00,720

the office by the the Senate uh the

764

00:29:05,510 --> 00:29:03,179

senators or their staffers so that was

765

00:29:07,549 --> 00:29:05,520

pretty interesting and uh you know I

766

00:29:09,890 --> 00:29:07,559

think so you could even argue concerning

767

00:29:13,250 --> 00:29:09,900

uh that we're still kind of waiting for

768

00:29:15,169 --> 00:29:13,260

for that aspect of this entire process

769

00:29:17,750 --> 00:29:15,179

to be stood up uh two dozen

770

00:29:20,090 --> 00:29:17,760

whistleblowers feels significant to me

771

00:29:22,370 --> 00:29:20,100

uh and the question naturally follows

772

00:29:23,750 --> 00:29:22,380

which by the way wasn't asked uh well

773

00:29:25,549 --> 00:29:23,760

can you give us this little sample of

774

00:29:27,710 --> 00:29:25,559

what they were whistleblowing about you

775

00:29:28,789 --> 00:29:27,720

know what are we talking about here

776

00:29:30,230 --> 00:29:28,799

um and you know obviously that's

777

00:29:32,690 --> 00:29:30,240

probably not going to be discussed with

778

00:29:33,889 --> 00:29:32,700

open hearing but an example of a

779

00:29:36,350 --> 00:29:33,899

question that I think would be on the

780

00:29:38,230 --> 00:29:36,360

minds of many folks watching that

781

00:29:41,149 --> 00:29:38,240

Exchange

782

00:29:42,950 --> 00:29:41,159

indeed and I would just offer my usual

783

00:29:45,230 --> 00:29:42,960

commentary here that what I've heard is

784

00:29:46,909 --> 00:29:45,240

that some of what's been testified to by

785

00:29:49,490 --> 00:29:46,919

those whistleblowers is is quite

786

00:29:52,010 --> 00:29:49,500

extraordinary and uh the kind of

787

00:29:53,210 --> 00:29:52,020

information that really should uh shake

788

00:29:55,430 --> 00:29:53,220

this loose in the way it hasn't been

789

00:29:56,330 --> 00:29:55,440

before I would suggest but to your point

790

00:29:57,950 --> 00:29:56,340

about

791

00:30:01,190 --> 00:29:57,960

standing up some sort of public

792

00:30:02,930 --> 00:30:01,200

interface that makes it easy right for

793

00:30:05,029 --> 00:30:02,940

for potential whistleblowers to either

794

00:30:07,310 --> 00:30:05,039

have a 1 800 number they can call or a

795

00:30:09,049 --> 00:30:07,320

website they can contact people through

796

00:30:10,730 --> 00:30:09,059

you know we learned that there actually

797

00:30:12,169 --> 00:30:10,740

isn't even a website yet right and and

798

00:30:14,149 --> 00:30:12,179

you and I talked about how it doesn't

799

00:30:16,130 --> 00:30:14,159

take long to throw up a basic website

800

00:30:18,769 --> 00:30:16,140

where you could at least channel the

801
00:30:20,750 --> 00:30:18,779
contact right so that that raises

802
00:30:22,549 --> 00:30:20,760
questions about how much is this really

803
00:30:25,490 --> 00:30:22,559
a good faith effort I think that's a

804
00:30:27,710 --> 00:30:25,500
fair criticism some people have raised

805
00:30:30,169 --> 00:30:27,720
and then Christopher sharp of The

806
00:30:32,810 --> 00:30:30,179
Liberation times uh tweeted this comment

807
00:30:34,669 --> 00:30:32,820
quote The Daily Record has learned from

808
00:30:37,130 --> 00:30:34,679
people familiar with the matter but not

809
00:30:39,590 --> 00:30:37,140
authorized to discuss it publicly that

810
00:30:40,909 --> 00:30:39,600
the arrow is asking whistleblowers to

811
00:30:43,430 --> 00:30:40,919
pay for their own travel and

812
00:30:45,529 --> 00:30:43,440
accommodations to give testimony in

813
00:30:46,789 --> 00:30:45,539

Washington DC unquote what do you think

814

00:30:48,409 --> 00:30:46,799

about that

815

00:30:50,210 --> 00:30:48,419

well I mean I would at least want a per

816

00:30:52,909 --> 00:30:50,220

diem if I was having to get out there

817

00:30:54,710 --> 00:30:52,919

and spill the beans on a black budget

818

00:30:57,529 --> 00:30:54,720

sap

819

00:31:00,110 --> 00:30:57,539

um yeah I mean it's uh it's kind of

820

00:31:02,810 --> 00:31:00,120

Bonkers and I I heard as well that there

821

00:31:05,269 --> 00:31:02,820

was one incident where a testimony was

822

00:31:08,750 --> 00:31:05,279

taken from a whistleblower essentially

823

00:31:10,549 --> 00:31:08,760

just on an open unsecured line uh which

824

00:31:12,110 --> 00:31:10,559

it doesn't sound like it would be the

825

00:31:15,710 --> 00:31:12,120

way you would want to collect that kind

826

00:31:17,510 --> 00:31:15,720

of sensitive information at all so uh

827

00:31:20,269 --> 00:31:17,520

definitely have some concerns it sounds

828

00:31:21,649 --> 00:31:20,279

as if uh even that and we talked about

829

00:31:23,450 --> 00:31:21,659

this off the air so I want to make sure

830

00:31:26,149 --> 00:31:23,460

we touch on this that that you know he

831

00:31:27,889 --> 00:31:26,159

he was very thankful to the the Senators

832

00:31:29,330 --> 00:31:27,899

for referring those whistleblowers to

833

00:31:31,610 --> 00:31:29,340

him but that's exactly what you would

834

00:31:33,830 --> 00:31:31,620

say uh so that you're not gonna get like

835

00:31:35,870 --> 00:31:33,840

the wrath of God coming down on you uh

836

00:31:37,430 --> 00:31:35,880

if you if you you know aren't open to

837

00:31:39,230 --> 00:31:37,440

talking to the folks that have referred

838

00:31:41,090 --> 00:31:39,240

in your direction

839

00:31:43,130 --> 00:31:41,100

um so and again going back to that

840

00:31:44,930 --> 00:31:43,140

corporate conversation we had earlier a

841

00:31:47,210 --> 00:31:44,940

lot of us have experiences like that

842

00:31:49,430 --> 00:31:47,220

where we're we're sort of uh you know

843

00:31:51,649 --> 00:31:49,440

we're performing as if uh we're really

844

00:31:54,169 --> 00:31:51,659

grateful for this opportunity or we're

845

00:31:56,330 --> 00:31:54,179

thankful for this uh you know feedback

846

00:31:57,830 --> 00:31:56,340

or whatever it is what we're secretly

847

00:31:59,389 --> 00:31:57,840

we're just like well you know leave me

848

00:32:00,769 --> 00:31:59,399

alone I don't want to have to deal with

849

00:32:02,090 --> 00:32:00,779

this

850

00:32:04,669 --> 00:32:02,100

um you know to just get out of my

851

00:32:07,669 --> 00:32:04,679

kitchen so to speak so

852

00:32:09,230 --> 00:32:07,679

um yeah it's uh it's not great

853

00:32:12,289 --> 00:32:09,240

um the other part about that exchange

854

00:32:16,549 --> 00:32:12,299

was apparently that a plan had been

855

00:32:17,810 --> 00:32:16,559

submitted uh to uh his uh superiors in

856

00:32:19,250 --> 00:32:17,820

OS

857

00:32:20,870 --> 00:32:19,260

ousdi

858

00:32:23,090 --> 00:32:20,880

and I believe the plant had been

859

00:32:24,889 --> 00:32:23,100

submitted in December so we're basically

860

00:32:28,070 --> 00:32:24,899

like four months down the road without

861

00:32:30,769 --> 00:32:28,080

any kind of uh you know approval of that

862

00:32:33,289 --> 00:32:30,779

recommended uh plan of action there I

863

00:32:35,630 --> 00:32:33,299

mean the pace is absolutely infuriating

864

00:32:40,610 --> 00:32:35,640

if we're gonna take this uh seriously

865

00:32:42,470 --> 00:32:40,620

right uh so yeah it's uh it's not great

866

00:32:44,930 --> 00:32:42,480

um obviously I would hope everybody has

867

00:32:48,590 --> 00:32:44,940

lots of questions around the that entire

868

00:32:51,830 --> 00:32:48,600

Enterprise right I mean for example just

869

00:32:53,990 --> 00:32:51,840

an another one here right if you if you

870

00:32:56,269 --> 00:32:54,000

have whistleblowers at all coming from

871

00:32:58,549 --> 00:32:56,279

within your organization from within the

872

00:33:00,590 --> 00:32:58,559

government and the agencies that are

873

00:33:02,630 --> 00:33:00,600

supporting the institution

874

00:33:05,570 --> 00:33:02,640

that should tell you something in and of

875

00:33:08,990 --> 00:33:05,580

itself that this is not just prosaic

876

00:33:11,570 --> 00:33:09,000

activity happening in our skies right

877

00:33:13,549 --> 00:33:11,580

because why why are they why do they

878

00:33:14,870 --> 00:33:13,559

even exist why why would they need to

879

00:33:16,669 --> 00:33:14,880

come forward why would they need to feel

880

00:33:18,049 --> 00:33:16,679

like they needed those those protections

881

00:33:21,169 --> 00:33:18,059

well because there is something

882

00:33:23,210 --> 00:33:21,179

happening and you know it's not just uh

883

00:33:25,730 --> 00:33:23,220

black us technology because if it were

884

00:33:28,130 --> 00:33:25,740

just black us technology that would be

885

00:33:31,549 --> 00:33:28,140

kept fairly secret for the good of the

886

00:33:35,330 --> 00:33:31,559

State uh so it goes beyond just that as

887

00:33:37,789 --> 00:33:35,340

a as a base uh you know correct criteria

888

00:33:39,950 --> 00:33:37,799

indeed and just to speak again about the

889

00:33:41,509 --> 00:33:39,960

whistleblowers and the kind of testimony

890

00:33:43,850 --> 00:33:41,519

you know what we're hearing is that the

891

00:33:46,490 --> 00:33:43,860

testimony has to do with Legacy crash

892

00:33:48,049 --> 00:33:46,500

retrieval programs so of course if

893

00:33:49,250 --> 00:33:48,059

that's the case that completely blows

894

00:33:50,870 --> 00:33:49,260

out of the water

895

00:33:52,850 --> 00:33:50,880

just this notion of there may be

896

00:33:55,730 --> 00:33:52,860

anomalous things in our skies right and

897

00:33:57,889 --> 00:33:55,740

by the way uh can you give the full uh

898

00:34:01,430 --> 00:33:57,899

the full meaning of the of the acronym

899

00:34:04,570 --> 00:34:01,440

Arrow uh the on domain

900

00:34:09,169 --> 00:34:07,190

solution resolution office thank you

901
00:34:10,730 --> 00:34:09,179
thank you though the archives right so

902
00:34:12,230 --> 00:34:10,740
the reason why it's all domain is

903
00:34:13,849 --> 00:34:12,240
because there's this recognition that

904
00:34:16,250 --> 00:34:13,859
it's not just in the sky necessarily

905
00:34:18,230 --> 00:34:16,260
right we see these things going into the

906
00:34:20,089 --> 00:34:18,240
ocean right coming out of lakes we see

907
00:34:22,129 --> 00:34:20,099
them reportedly even

908
00:34:24,530 --> 00:34:22,139
emerging from Solid Rock and that kind

909
00:34:25,970 --> 00:34:24,540
of thing right so this is this is an

910
00:34:28,389 --> 00:34:25,980
important shift right this is saying

911
00:34:31,129 --> 00:34:28,399
that you know initially people were

912
00:34:33,369 --> 00:34:31,139
skeptical when the government went from

913
00:34:36,050 --> 00:34:33,379

UFO to UAP which was initially

914

00:34:38,030 --> 00:34:36,060

unidentified aerial phenomena right now

915

00:34:40,310 --> 00:34:38,040

it's even moved further to unidentified

916

00:34:41,629 --> 00:34:40,320

anomalous phenomena again the point

917

00:34:43,970 --> 00:34:41,639

being that

918

00:34:46,010 --> 00:34:43,980

it's an acknowledgment that what we are

919

00:34:48,169 --> 00:34:46,020

having reported is more than just

920

00:34:50,389 --> 00:34:48,179

objects in the sky it can be something

921

00:34:51,649 --> 00:34:50,399

that manifests in your home that in

922

00:34:53,629 --> 00:34:51,659

other circles might be considered

923

00:34:56,389 --> 00:34:53,639

Poltergeist kind of activity right it

924

00:34:59,870 --> 00:34:56,399

can be uh something again that that just

925

00:35:01,490 --> 00:34:59,880

seems to not like trans medium Vehicles

926
00:35:03,470 --> 00:35:01,500
right meaning that they are able to move

927
00:35:08,030 --> 00:35:03,480
into different kinds of mediums like

928
00:35:10,190 --> 00:35:08,040
space to the sky to the ocean right

929
00:35:11,510 --> 00:35:10,200
um so that that's that's really telling

930
00:35:13,130 --> 00:35:11,520
and I think that's a good thing that

931
00:35:15,170 --> 00:35:13,140
that that's happened

932
00:35:16,670 --> 00:35:15,180
but in terms of these crash retrievals

933
00:35:18,530 --> 00:35:16,680
the notion is that it's not just things

934
00:35:23,510 --> 00:35:18,540
being observed that seem to behave

935
00:35:26,390 --> 00:35:23,520
anonymously are anomalously but that we

936
00:35:28,310 --> 00:35:26,400
actually have perhaps retrieved some

937
00:35:29,990 --> 00:35:28,320
vehicles that have either crashed or

938
00:35:32,030 --> 00:35:30,000

landed right there's the whole question

939

00:35:34,190 --> 00:35:32,040

there how does that happen but

940

00:35:36,829 --> 00:35:34,200

supposedly that has happened allegedly

941

00:35:38,750 --> 00:35:36,839

right and that there's been reverse

942

00:35:40,790 --> 00:35:38,760

engineering or at least attempts of that

943

00:35:43,490 --> 00:35:40,800

right which gets into all the Bob Lazar

944

00:35:45,589 --> 00:35:43,500

kind of testimony and whatnot

945

00:35:48,290 --> 00:35:45,599

um Colonel Corso talked about in his

946

00:35:50,450 --> 00:35:48,300

book The Day After Roswell that he was

947

00:35:53,089 --> 00:35:50,460

in charge of an office that actually was

948

00:35:54,829 --> 00:35:53,099

tasked with taking some of the materials

949

00:35:56,870 --> 00:35:54,839

The Meta materials and whatnot that were

950

00:35:59,030 --> 00:35:56,880

recovered from some of these crashes and

951
00:36:01,730 --> 00:35:59,040
passing it on to Leading U.S industry

952
00:36:03,410 --> 00:36:01,740
that would give leading U.S industry uh

953
00:36:05,510 --> 00:36:03,420
you know a leg up on the rest of the

954
00:36:06,950 --> 00:36:05,520
competition around the world now again

955
00:36:09,950 --> 00:36:06,960
that's alleged we don't know that for

956
00:36:11,630 --> 00:36:09,960
sure but the point being that just to

957
00:36:13,849 --> 00:36:11,640
remind people that there's much more

958
00:36:15,950 --> 00:36:13,859
going on behind the scenes than what

959
00:36:17,329 --> 00:36:15,960
we're seeing talked about in these these

960
00:36:18,829 --> 00:36:17,339
public testimonies and these kind of

961
00:36:21,230 --> 00:36:18,839
hearings

962
00:36:23,810 --> 00:36:21,240
yeah undoubtedly

963
00:36:26,390 --> 00:36:23,820

um you know controlling the narrative is

964

00:36:28,730 --> 00:36:26,400

very important uh and um I think that

965

00:36:30,109 --> 00:36:28,740

was on full display uh during that

966

00:36:32,450 --> 00:36:30,119

hearing

967

00:36:35,030 --> 00:36:32,460

um and you know as you were unpacking

968

00:36:37,190 --> 00:36:35,040

things just there further I had this

969

00:36:38,690 --> 00:36:37,200

thought of you know if you had to sit

970

00:36:41,390 --> 00:36:38,700

down and kind of think about okay we

971

00:36:44,450 --> 00:36:41,400

need to get the public from point A over

972

00:36:45,530 --> 00:36:44,460

here to point Z you know how are we

973

00:36:46,910 --> 00:36:45,540

going to do that you can't just

974

00:36:49,550 --> 00:36:46,920

immediately like

975

00:36:52,130 --> 00:36:49,560

you know warp over to Z you have to go

976
00:36:54,230 --> 00:36:52,140
through this sort of phase process okay

977
00:36:56,210 --> 00:36:54,240
well let's start off with this now let's

978
00:36:58,550 --> 00:36:56,220
transition to this kind of language

979
00:37:00,470 --> 00:36:58,560
let's transition to that let's now make

980
00:37:02,630 --> 00:37:00,480
this a possibility you know let's

981
00:37:05,690 --> 00:37:02,640
amplify these certain voices of

982
00:37:08,210 --> 00:37:05,700
credibility you know you you have to do

983
00:37:10,910 --> 00:37:08,220
that like it's just to remind folks it's

984
00:37:13,490 --> 00:37:10,920
the responsible thing to do for a state

985
00:37:15,470 --> 00:37:13,500
and and we can rail on States all day

986
00:37:17,210 --> 00:37:15,480
long believe me I'm not a huge fan like

987
00:37:19,010 --> 00:37:17,220
it's uh you know they've all got their

988
00:37:21,890 --> 00:37:19,020

problems but when you're talking about

989

00:37:24,170 --> 00:37:21,900

the livelihood of you know billions of

990

00:37:25,730 --> 00:37:24,180

people uh millions and billions of

991

00:37:27,589 --> 00:37:25,740

people you know because of the world

992

00:37:30,710 --> 00:37:27,599

order you can't just you know

993

00:37:32,390 --> 00:37:30,720

willy-nilly uh you know rip the Band-Aid

994

00:37:33,829 --> 00:37:32,400

off and hope for the best you know it's

995

00:37:35,690 --> 00:37:33,839

just not it's not it's not something

996

00:37:37,190 --> 00:37:35,700

that you would want them to do and you

997

00:37:39,890 --> 00:37:37,200

wouldn't do it if you were in their

998

00:37:41,569 --> 00:37:39,900

position no reasonable rational person

999

00:37:44,630 --> 00:37:41,579

would

1000

00:37:45,829 --> 00:37:44,640

um so stepping down from that soapbox

1001
00:37:48,109 --> 00:37:45,839
there were some other interesting

1002
00:37:51,890 --> 00:37:48,119
exchanges that took place in the hearing

1003
00:37:54,530 --> 00:37:51,900
uh between gillibrand and Kirkpatrick uh

1004
00:37:56,510 --> 00:37:54,540
related to aspects of you know do you

1005
00:37:58,310 --> 00:37:56,520
have what you need Dr Kirkpatrick to

1006
00:38:00,470 --> 00:37:58,320
perform the the job that that you're

1007
00:38:02,569 --> 00:38:00,480
doing uh do you have enough money is the

1008
00:38:04,130 --> 00:38:02,579
reporting structure okay I always find

1009
00:38:06,470 --> 00:38:04,140
that question funny when you have two

1010
00:38:08,930 --> 00:38:06,480
bosses who were who are watching the

1011
00:38:10,970 --> 00:38:08,940
conversation take place live uh is your

1012
00:38:12,589 --> 00:38:10,980
reporting structure okay uh do you have

1013
00:38:14,750 --> 00:38:12,599

any critiques for the bosses that that

1014

00:38:16,370 --> 00:38:14,760

you have I mean no person their right

1015

00:38:18,170 --> 00:38:16,380

Minds would be like yeah I mean get me

1016

00:38:20,990 --> 00:38:18,180

out from under the thumb of Moultrie

1017

00:38:22,730 --> 00:38:21,000

over here uh he's driving me bonkers so

1018

00:38:25,130 --> 00:38:22,740

you know you have to watch uh

1019

00:38:27,470 --> 00:38:25,140

Kirkpatrick very gingerly and

1020

00:38:30,829 --> 00:38:27,480

diplomatically kind of tiptoe around

1021

00:38:32,750 --> 00:38:30,839

that entire conversation uh you know

1022

00:38:35,450 --> 00:38:32,760

notice what he is saying and also what

1023

00:38:38,210 --> 00:38:35,460

he's not saying and also gillibrand

1024

00:38:40,790 --> 00:38:38,220

playing that game as well right so you

1025

00:38:43,910 --> 00:38:40,800

she she is aware of what he is saying to

1026

00:38:45,589 --> 00:38:43,920

her by her her signaling back to him you

1027

00:38:47,870 --> 00:38:45,599

know I look forward to this or get back

1028

00:38:49,730 --> 00:38:47,880

to me on that or you know she she knows

1029

00:38:51,589 --> 00:38:49,740

what he is saying to her when he is

1030

00:38:53,569 --> 00:38:51,599

basically hinting that there are some

1031

00:38:55,550 --> 00:38:53,579

deficiencies in the reporting structure

1032

00:38:57,890 --> 00:38:55,560

there are some deficiencies in the

1033

00:39:00,050 --> 00:38:57,900

authority of the office itself to

1034

00:39:02,390 --> 00:39:00,060

collect the information that it requires

1035

00:39:05,270 --> 00:39:02,400

uh he's not going to you know hang them

1036

00:39:07,370 --> 00:39:05,280

out to dry publicly but he he absolutely

1037

00:39:09,530 --> 00:39:07,380

hinted that there were some issues there

1038

00:39:10,730 --> 00:39:09,540

do you want to touch on that like what

1039

00:39:13,730 --> 00:39:10,740

do you think are some of the friction

1040

00:39:15,410 --> 00:39:13,740

points that the office is encountering

1041

00:39:16,910 --> 00:39:15,420

well the first thing I would say is that

1042

00:39:18,530 --> 00:39:16,920

yeah what you speak to there is

1043

00:39:20,329 --> 00:39:18,540

political theater right where where

1044

00:39:21,829 --> 00:39:20,339

you're at least going through the

1045

00:39:23,690 --> 00:39:21,839

motions and saying the things you need

1046

00:39:26,270 --> 00:39:23,700

to say so if you're in

1047

00:39:27,950 --> 00:39:26,280

um gillibrands uh seat then you need to

1048

00:39:30,410 --> 00:39:27,960

ask do you have everything you need you

1049

00:39:33,230 --> 00:39:30,420

know are we equipping you with what you

1050

00:39:34,970 --> 00:39:33,240

need to do your job she needs to have

1051

00:39:37,069 --> 00:39:34,980

said that right to tick off on her

1052

00:39:40,010 --> 00:39:37,079

checklist that I I I did what I was

1053

00:39:42,530 --> 00:39:40,020

supposed to and he like you say either

1054

00:39:44,150 --> 00:39:42,540

needs to say yes or if he doesn't say

1055

00:39:45,770 --> 00:39:44,160

yes and he's the creatively phrase it in

1056

00:39:48,470 --> 00:39:45,780

such a way that he doesn't make it sound

1057

00:39:50,329 --> 00:39:48,480

like he's throwing his bosses under the

1058

00:39:51,710 --> 00:39:50,339

bus so to speak right

1059

00:39:53,390 --> 00:39:51,720

um but that's that's political theater

1060

00:39:54,829 --> 00:39:53,400

to some degree

1061

00:39:55,670 --> 00:39:54,839

um another thing I would bring up too is

1062

00:39:58,130 --> 00:39:55,680

that

1063

00:40:01,310 --> 00:39:58,140

some people are frustrated in the UFO

1064

00:40:02,870 --> 00:40:01,320

Community when after the fact gillibrand

1065

00:40:04,670 --> 00:40:02,880

seems to talk about this is important

1066

00:40:07,370 --> 00:40:04,680

because we need to protect our airspace

1067

00:40:09,109 --> 00:40:07,380

and if there's foreign adversaries that

1068

00:40:11,390 --> 00:40:09,119

have made leaps in technology we need to

1069

00:40:13,089 --> 00:40:11,400

understand that because that presents a

1070

00:40:15,050 --> 00:40:13,099

threat for the future

1071

00:40:16,250 --> 00:40:15,060

sovereignty of the United States that

1072

00:40:18,829 --> 00:40:16,260

kind of thing I understand some people

1073

00:40:20,510 --> 00:40:18,839

get frustrated by that some people in

1074

00:40:22,250 --> 00:40:20,520

the UFO crowd also think that sounds

1075

00:40:25,250 --> 00:40:22,260

like a threat narrative quote unquote

1076

00:40:27,589 --> 00:40:25,260

right but I think you think back to what

1077

00:40:30,170 --> 00:40:27,599

Christopher melon and Luis Elizondo have

1078

00:40:32,569 --> 00:40:30,180

tried to now the the approach they've

1079

00:40:34,550 --> 00:40:32,579

taken is to understand who you're

1080

00:40:37,430 --> 00:40:34,560

talking to to understand your audience

1081

00:40:40,370 --> 00:40:37,440

right read the room as they say right so

1082

00:40:42,829 --> 00:40:40,380

if you're speaking to Congress people

1083

00:40:44,390 --> 00:40:42,839

right who's whose job is to represent

1084

00:40:46,550 --> 00:40:44,400

the United States and protect the

1085

00:40:49,790 --> 00:40:46,560

sovereignty of the United States then

1086

00:40:51,170 --> 00:40:49,800

you can't just or you could try to

1087

00:40:52,310 --> 00:40:51,180

tickle their Fancy by saying there's

1088

00:40:53,810 --> 00:40:52,320

some interesting things in the sky

1089

00:40:56,270 --> 00:40:53,820

aren't you curious

1090

00:40:59,089 --> 00:40:56,280

but that's not gonna behoove them to

1091

00:41:00,770 --> 00:40:59,099

take action like saying there are some

1092

00:41:03,230 --> 00:41:00,780

anomalous things that are in the sky

1093

00:41:06,230 --> 00:41:03,240

that are clearly in our physical reality

1094

00:41:07,970 --> 00:41:06,240

that we're not able to prevent from

1095

00:41:10,490 --> 00:41:07,980

coming in they're kind of you know with

1096

00:41:13,310 --> 00:41:10,500

impunity passing through U.S airspace

1097

00:41:15,349 --> 00:41:13,320

when you say that then both the military

1098

00:41:18,050 --> 00:41:15,359

and the Congressional leaders have to

1099

00:41:19,730 --> 00:41:18,060

say as part of their job we must respond

1100

00:41:21,770 --> 00:41:19,740

to this right we must

1101
00:41:23,630 --> 00:41:21,780
try to account for what these things are

1102
00:41:26,210 --> 00:41:23,640
so that kicks the whole process into

1103
00:41:28,730 --> 00:41:26,220
gear so even if you know that it's not

1104
00:41:30,829 --> 00:41:28,740
likely for an adversary in fact if you

1105
00:41:33,050 --> 00:41:30,839
know darn well it's not for an aperture

1106
00:41:34,970 --> 00:41:33,060
because you've already seen data that

1107
00:41:36,950 --> 00:41:34,980
convinces you of that fact you still

1108
00:41:38,569 --> 00:41:36,960
need to behoove them to start going

1109
00:41:40,550 --> 00:41:38,579
through the process themselves of

1110
00:41:42,290 --> 00:41:40,560
determining whether that's the case and

1111
00:41:44,450 --> 00:41:42,300
if it's not then you get to the second

1112
00:41:46,670 --> 00:41:44,460
level question well if it's not China or

1113
00:41:49,430 --> 00:41:46,680

Russia or Iran or whatever who is it

1114

00:41:51,050 --> 00:41:49,440

what is it right is it even human those

1115

00:41:52,970 --> 00:41:51,060

are questions we get to

1116

00:41:55,130 --> 00:41:52,980

but this is part of the political feeder

1117

00:41:57,109 --> 00:41:55,140

that you need to incorporate if you're

1118

00:41:59,450 --> 00:41:57,119

going to get to these answers through a

1119

00:42:01,370 --> 00:41:59,460

governmental kind of stream yeah

1120

00:42:02,390 --> 00:42:01,380

absolutely

1121

00:42:03,530 --> 00:42:02,400

um

1122

00:42:06,170 --> 00:42:03,540

well let's talk about one of those

1123

00:42:09,230 --> 00:42:06,180

aspects as well uh and that was this

1124

00:42:12,170 --> 00:42:09,240

conversation around the title 10 versus

1125

00:42:15,290 --> 00:42:12,180

title 50 Authority and I want to read a

1126
00:42:17,810 --> 00:42:15,300
tweet from Tim McMillan on this issue

1127
00:42:19,550 --> 00:42:17,820
which I thought was quite helpful

1128
00:42:22,490 --> 00:42:19,560
um so kind of pick up mid tweet here but

1129
00:42:24,230 --> 00:42:22,500
basically uh you know he said that the

1130
00:42:25,910 --> 00:42:24,240
Revelation the arrow doesn't have title

1131
00:42:28,370 --> 00:42:25,920
50 Authority and what this means is that

1132
00:42:31,190 --> 00:42:28,380
Arrow has limited access to title 50

1133
00:42:33,470 --> 00:42:31,200
information which includes covert action

1134
00:42:37,010 --> 00:42:33,480
and most intelligence missions carried

1135
00:42:42,170 --> 00:42:37,020
out by agencies like the CIA

1136
00:42:44,089 --> 00:42:42,180
nro NGA or NSA by saying it would be

1137
00:42:46,069 --> 00:42:44,099
nice to have title 50 Authority for

1138
00:42:49,250 --> 00:42:46,079

Patrick was taking a huge shot across

1139

00:42:52,490 --> 00:42:49,260

the bow at title 50 agencies that likely

1140

00:42:55,370 --> 00:42:52,500

haven't been playing ball with arrow in

1141

00:42:57,410 --> 00:42:55,380

essence Arrow may only have access to 20

1142

00:42:58,569 --> 00:42:57,420

percent of the US's full collection of

1143

00:43:00,710 --> 00:42:58,579

potential

1144

00:43:01,730 --> 00:43:00,720

that's you know quite a statement

1145

00:43:04,069 --> 00:43:01,740

obviously there's a little bit of

1146

00:43:06,589 --> 00:43:04,079

speculation in that statement as well

1147

00:43:08,750 --> 00:43:06,599

but I think the bottom line being if you

1148

00:43:11,270 --> 00:43:08,760

don't have the right tickets you can't

1149

00:43:13,309 --> 00:43:11,280

open the right doors to get the

1150

00:43:16,430 --> 00:43:13,319

information that you might need to

1151
00:43:19,790 --> 00:43:16,440
adequately resolve some of these instant

1152
00:43:22,670 --> 00:43:19,800
instances and reports uh you know that

1153
00:43:23,230 --> 00:43:22,680
that to me sounds very concerning

1154
00:43:25,130 --> 00:43:23,240
um

1155
00:43:27,710 --> 00:43:25,140
particularly if you're trying to leave

1156
00:43:30,050 --> 00:43:27,720
no stone unturned here uh you can't

1157
00:43:32,870 --> 00:43:30,060
unturn most of the stones that happen to

1158
00:43:36,050 --> 00:43:32,880
be you know in your in your garden

1159
00:43:38,210 --> 00:43:36,060
indeed I think back to to 911 and then

1160
00:43:40,250 --> 00:43:38,220
afterwards when there's this recognition

1161
00:43:41,630 --> 00:43:40,260
that the different agencies were not

1162
00:43:43,490 --> 00:43:41,640
only taught not talking to each other

1163
00:43:44,510 --> 00:43:43,500

sometimes the different intelligence

1164

00:43:47,030 --> 00:43:44,520

agencies

1165

00:43:48,290 --> 00:43:47,040

the CIA and the FBI and whatnot but

1166

00:43:50,150 --> 00:43:48,300

sometimes there was even kind of this

1167

00:43:53,410 --> 00:43:50,160

adversarial kind of relationship between

1168

00:43:55,970 --> 00:43:53,420

them and that that had perhaps let some

1169

00:43:57,589 --> 00:43:55,980

data squeak through that could have been

1170

00:43:59,569 --> 00:43:57,599

game changing right

1171

00:44:02,329 --> 00:43:59,579

could have perhaps prevented 911 from

1172

00:44:04,370 --> 00:44:02,339

happening so after that the Department

1173

00:44:07,010 --> 00:44:04,380

of Homeland Security was established

1174

00:44:10,309 --> 00:44:07,020

right to try to pull together these

1175

00:44:11,930 --> 00:44:10,319

different agencies and collate data so

1176

00:44:14,750 --> 00:44:11,940

that you would have that no stone

1177

00:44:16,430 --> 00:44:14,760

unturned kind of response and I remember

1178

00:44:18,790 --> 00:44:16,440

Christopher Mellon saying that that's

1179

00:44:21,349 --> 00:44:18,800

kind of what we need here up until now

1180

00:44:23,630 --> 00:44:21,359

these different agencies and even within

1181

00:44:26,510 --> 00:44:23,640

one agency you have siled sections right

1182

00:44:28,210 --> 00:44:26,520

with a need to know that's very limited

1183

00:44:31,069 --> 00:44:28,220

and as we've talked about before

1184

00:44:33,829 --> 00:44:31,079

allegedly again much of this has been

1185

00:44:35,390 --> 00:44:33,839

moved into private hands right into

1186

00:44:38,809 --> 00:44:35,400

private corporations Aerospace

1187

00:44:41,630 --> 00:44:38,819

corporations partly so you can again

1188

00:44:43,609 --> 00:44:41,640

allegedly hide some of this Cutting Edge

1189

00:44:46,069 --> 00:44:43,619

technology in the terms of Crash

1190

00:44:49,010 --> 00:44:46,079

retrievals because you can have a

1191

00:44:50,870 --> 00:44:49,020

protected under uh what's the word I'm

1192

00:44:52,430 --> 00:44:50,880

looking for here intellectual property

1193

00:44:54,530 --> 00:44:52,440

basically right you can you can claim

1194

00:44:56,930 --> 00:44:54,540

that this doesn't this doesn't apply for

1195

00:44:58,550 --> 00:44:56,940

foia right that's that's key right so

1196

00:45:01,430 --> 00:44:58,560

there's ways that you can get around

1197

00:45:03,309 --> 00:45:01,440

these kind of uh declarations that were

1198

00:45:05,510 --> 00:45:03,319

going to make government activity

1199

00:45:07,130 --> 00:45:05,520

transparent to people right one of the

1200

00:45:09,290 --> 00:45:07,140

ways you can avoid that is by putting it

1201
00:45:11,569 --> 00:45:09,300
into move it into a private Corporation

1202
00:45:14,630 --> 00:45:11,579
they have certain safeguards because of

1203
00:45:17,089 --> 00:45:14,640
intellectual property law and whatnot

1204
00:45:19,670 --> 00:45:17,099
but all it is to say

1205
00:45:21,650 --> 00:45:19,680
I think like you say

1206
00:45:23,270 --> 00:45:21,660
what Kirkpatrick is getting at here is

1207
00:45:25,370 --> 00:45:23,280
that we still have that siloing of

1208
00:45:27,530 --> 00:45:25,380
information going on even within the

1209
00:45:29,870 --> 00:45:27,540
same agency someone who sits across me

1210
00:45:31,849 --> 00:45:29,880
might not know what you know right this

1211
00:45:33,829 --> 00:45:31,859
has been you know Jacques delay in his

1212
00:45:36,230 --> 00:45:33,839
most recent uh Journal talks about this

1213
00:45:37,790 --> 00:45:36,240

just how solid the information is and

1214

00:45:40,010 --> 00:45:37,800

how difficult it is to really understand

1215

00:45:41,569 --> 00:45:40,020

what's going on so yeah I think that

1216

00:45:43,250 --> 00:45:41,579

this is a fair point Kirkpatrick is

1217

00:45:45,470 --> 00:45:43,260

making is that if you really want me to

1218

00:45:46,910 --> 00:45:45,480

be the person that's looking at this

1219

00:45:49,190 --> 00:45:46,920

then we need more of a coordinated

1220

00:45:51,550 --> 00:45:49,200

effort and we're still a long way from

1221

00:45:53,990 --> 00:45:51,560

that I think is what he's getting at

1222

00:45:57,230 --> 00:45:54,000

and I think too it's worth pointing out

1223

00:46:00,290 --> 00:45:57,240

that our intelligence agencies

1224

00:46:04,670 --> 00:46:00,300

uh operate with a great deal of immunity

1225

00:46:07,250 --> 00:46:04,680

from both public and uh you know

1226

00:46:08,390 --> 00:46:07,260

official government scrutiny right and

1227

00:46:10,250 --> 00:46:08,400

there and there are some some of those

1228

00:46:13,250 --> 00:46:10,260

are good there are good reasons for some

1229

00:46:15,890 --> 00:46:13,260

of that uh you know we have a lot of

1230

00:46:17,809 --> 00:46:15,900

dirty laundry let's put it that way

1231

00:46:21,170 --> 00:46:17,819

um and so it makes sense that we don't

1232

00:46:24,349 --> 00:46:21,180

want to air all of that out uh not just

1233

00:46:26,390 --> 00:46:24,359

to our own people but to our adversaries

1234

00:46:29,270 --> 00:46:26,400

we want to be very careful about that

1235

00:46:31,490 --> 00:46:29,280

and so it's not a surprise that these

1236

00:46:34,609 --> 00:46:31,500

agencies are dragging their feet to this

1237

00:46:37,069 --> 00:46:34,619

conversation because there's no

1238

00:46:40,250 --> 00:46:37,079

incentive for them really to to do to do

1239

00:46:42,710 --> 00:46:40,260

so you know that like if it comes out

1240

00:46:45,290 --> 00:46:42,720

later on down the road that uh you know

1241

00:46:47,329 --> 00:46:45,300

such and such agency you know withheld

1242

00:46:49,609 --> 00:46:47,339

some insane secret I mean what what are

1243

00:46:51,230 --> 00:46:49,619

the ramifications to that agency I don't

1244

00:46:53,569 --> 00:46:51,240

know that they're that severe right so

1245

00:46:56,210 --> 00:46:53,579

it's it's it's a kind of a slap on the

1246

00:46:58,370 --> 00:46:56,220

hand situation so it behooves them just

1247

00:47:00,770 --> 00:46:58,380

to kind of continue to play along and

1248

00:47:02,150 --> 00:47:00,780

and and and you know obfuscate or just

1249

00:47:04,250 --> 00:47:02,160

not even participate in the conversation

1250

00:47:06,230 --> 00:47:04,260

here I'm also thinking of the Air Force

1251
00:47:08,270 --> 00:47:06,240
which but I don't know the Air Force was

1252
00:47:10,490 --> 00:47:08,280
mentioned at all in the hearing uh but

1253
00:47:12,050 --> 00:47:10,500
there's certainly uh you know part of

1254
00:47:13,849 --> 00:47:12,060
this conversation but have been a very

1255
00:47:15,470 --> 00:47:13,859
quiet part of it

1256
00:47:18,710 --> 00:47:15,480
um and so you know it's it's very

1257
00:47:21,890 --> 00:47:18,720
interesting right I I see a lot of uh

1258
00:47:23,630 --> 00:47:21,900
cya happening in that hearing uh as you

1259
00:47:26,089 --> 00:47:23,640
said you know not only from the

1260
00:47:28,370 --> 00:47:26,099
politicians but from the office itself

1261
00:47:31,370 --> 00:47:28,380
uh making sure to say certain things

1262
00:47:33,470 --> 00:47:31,380
that that are on the record uh but but

1263
00:47:35,030 --> 00:47:33,480

we all know that by saying things on the

1264

00:47:38,390 --> 00:47:35,040

record even if we're very careful about

1265

00:47:40,670 --> 00:47:38,400

saying them uh we we have defined uh

1266

00:47:42,470 --> 00:47:40,680

that the position that we are making and

1267

00:47:44,750 --> 00:47:42,480

and that record can be referenced we can

1268

00:47:46,569 --> 00:47:44,760

look back and go well you told me in

1269

00:47:49,609 --> 00:47:46,579

this conversation that it wasn't

1270

00:47:52,910 --> 00:47:49,619

extraterrestrial and at that time you're

1271

00:47:56,089 --> 00:47:52,920

now telling me you also knew XYZ yet you

1272

00:47:58,010 --> 00:47:56,099

withheld that you know opinion so or you

1273

00:48:00,470 --> 00:47:58,020

you took us down a different path of

1274

00:48:02,809 --> 00:48:00,480

speculation so that that that really

1275

00:48:05,569 --> 00:48:02,819

creates some problems if you if you are

1276

00:48:06,770 --> 00:48:05,579

too restrictive in what is possible

1277

00:48:08,510 --> 00:48:06,780

um and I don't know maybe he did a

1278

00:48:11,270 --> 00:48:08,520

careful enough job here I think to kind

1279

00:48:13,130 --> 00:48:11,280

of protect him from uh you know kind of

1280

00:48:15,410 --> 00:48:13,140

uh the ramifications of the blowback

1281

00:48:17,270 --> 00:48:15,420

later on his words were very carefully

1282

00:48:19,670 --> 00:48:17,280

chosen uh where he could kind of be like

1283

00:48:21,530 --> 00:48:19,680

well you know I I what I said I still

1284

00:48:24,170 --> 00:48:21,540

stand by that at the time we didn't have

1285

00:48:25,430 --> 00:48:24,180

credible evidence and credible in that

1286

00:48:28,190 --> 00:48:25,440

case and the definition that I didn't

1287

00:48:30,170 --> 00:48:28,200

give you was in fact I needed uh you

1288

00:48:32,270 --> 00:48:30,180

know Neil deGrasse Tyson to say it was

1289

00:48:34,250 --> 00:48:32,280

an E.T you know something like like that

1290

00:48:36,650 --> 00:48:34,260

exactly that's that's the thing I mean

1291

00:48:38,589 --> 00:48:36,660

it can come down to a certain adjective

1292

00:48:40,970 --> 00:48:38,599

that's used to qualify a statement right

1293

00:48:42,530 --> 00:48:40,980

that that's all you need to protect

1294

00:48:44,690 --> 00:48:42,540

yourself sort of legally in these

1295

00:48:46,730 --> 00:48:44,700

situations right so credible evidence

1296

00:48:48,170 --> 00:48:46,740

right that that one qualifier there

1297

00:48:50,510 --> 00:48:48,180

right like you say

1298

00:48:52,190 --> 00:48:50,520

without defining that there's no way you

1299

00:48:54,050 --> 00:48:52,200

can hold his feet to the fire on that

1300

00:48:55,430 --> 00:48:54,060

because like you say he could have a

1301

00:48:57,050 --> 00:48:55,440

definition like you know if Neil

1302

00:48:59,089 --> 00:48:57,060

deGrasse Tyson would not be convinced by

1303

00:49:00,890 --> 00:48:59,099

this evidence now if Mick West would not

1304

00:49:03,410 --> 00:49:00,900

be convinced by this evidence then it's

1305

00:49:05,569 --> 00:49:03,420

not considered credible yet right and if

1306

00:49:07,790 --> 00:49:05,579

there's again if the Congressional panel

1307

00:49:09,890 --> 00:49:07,800

is not catching that and saying oh okay

1308

00:49:11,569 --> 00:49:09,900

he says so you said credible just for

1309

00:49:13,609 --> 00:49:11,579

the record can you establish what

1310

00:49:15,170 --> 00:49:13,619

determines what's credible and not right

1311

00:49:16,730 --> 00:49:15,180

that's the kind of thing where you could

1312

00:49:18,829 --> 00:49:16,740

actually then hold them to that but but

1313

00:49:20,390 --> 00:49:18,839

by letting him get away with that kind

1314

00:49:22,309 --> 00:49:20,400

of vague statement

1315

00:49:24,829 --> 00:49:22,319

um it gives him a lot of leeway in terms

1316

00:49:26,329 --> 00:49:24,839

of what comes up in the future again and

1317

00:49:27,890 --> 00:49:26,339

I think at this point the panel was

1318

00:49:29,690 --> 00:49:27,900

comfortable doing that but we're just

1319

00:49:33,230 --> 00:49:29,700

sort of trying to point out here

1320

00:49:35,750 --> 00:49:33,240

how much an NLP kind of situation is in

1321

00:49:38,089 --> 00:49:35,760

play here where the language used the

1322

00:49:40,670 --> 00:49:38,099

the qualifications used the lobbying

1323

00:49:42,710 --> 00:49:40,680

back forth of a political speak is is

1324

00:49:44,270 --> 00:49:42,720

designed to move this forward move the

1325

00:49:46,430 --> 00:49:44,280

ball down the field since Nathan

1326

00:49:48,290 --> 00:49:46,440

introduced a football analogy in the

1327

00:49:50,089 --> 00:49:48,300

last episode of no Fame we'll now go

1328

00:49:52,490 --> 00:49:50,099

forward with that this video football

1329

00:49:54,050 --> 00:49:52,500

down the field Without Really spilling

1330

00:49:55,910 --> 00:49:54,060

the beans fully right but that's kind of

1331

00:49:58,809 --> 00:49:55,920

what we can look at this is that it's

1332

00:50:01,490 --> 00:49:58,819

one more step in a process towards

1333

00:50:02,990 --> 00:50:01,500

warming the public up to what perhaps

1334

00:50:04,490 --> 00:50:03,000

might come in the future in terms of

1335

00:50:06,050 --> 00:50:04,500

Revelations

1336

00:50:08,329 --> 00:50:06,060

mm-hmm

1337

00:50:10,609 --> 00:50:08,339

yeah uh there were some also some

1338

00:50:12,770 --> 00:50:10,619

interesting things presented uh you know

1339

00:50:14,690 --> 00:50:12,780

get us a contrast it would be cool to

1340

00:50:17,569 --> 00:50:14,700

watch the the last the hearing before

1341

00:50:20,030 --> 00:50:17,579

this one like right next to this one and

1342

00:50:22,670 --> 00:50:20,040

and just sort of observe the contrast

1343

00:50:25,130 --> 00:50:22,680

between the two one notable contrast was

1344

00:50:28,190 --> 00:50:25,140

the very first video that was shown was

1345

00:50:30,309 --> 00:50:28,200

of a metallic sphere in the Middle East

1346

00:50:33,650 --> 00:50:30,319

I mean

1347

00:50:35,809 --> 00:50:33,660

what you know like is it it's either a

1348

00:50:38,210 --> 00:50:35,819

balloon or it's a it's a flying sphere

1349

00:50:41,450 --> 00:50:38,220

we don't know how right the Spheres

1350

00:50:42,890 --> 00:50:41,460

don't fly on their own volition uh and

1351
00:50:46,130 --> 00:50:42,900
they don't they're not aerodynamic and

1352
00:50:48,170 --> 00:50:46,140
then he at any rate so uh to kind of

1353
00:50:50,450 --> 00:50:48,180
lead with that one as a good example of

1354
00:50:53,809 --> 00:50:50,460
something that is still in that unknown

1355
00:50:56,390 --> 00:50:53,819
space in and of itself is I think pretty

1356
00:50:58,670 --> 00:50:56,400
pretty big uh you know maybe we're not

1357
00:51:00,410 --> 00:50:58,680
you know sort of giving it the Kudos

1358
00:51:02,390 --> 00:51:00,420
that it deserves to sort of put that

1359
00:51:06,190 --> 00:51:02,400
video out there and it was quite clear

1360
00:51:09,349 --> 00:51:06,200
as well and it it also mirrored the the

1361
00:51:11,809 --> 00:51:09,359
still images that we have seen from

1362
00:51:15,049 --> 00:51:11,819
Jeremy Corbell and George Knapp of the

1363
00:51:17,270 --> 00:51:15,059

mosul orb uh so we have two instances

1364

00:51:19,329 --> 00:51:17,280

here two separate instances here of of

1365

00:51:22,910 --> 00:51:19,339

flying metallic

1366

00:51:24,170 --> 00:51:22,920

spheres uh that you know to me they're

1367

00:51:26,630 --> 00:51:24,180

either balloons or they're

1368

00:51:29,030 --> 00:51:26,640

non-conventional Technologies right so

1369

00:51:31,190 --> 00:51:29,040

I'm not not sure what other bucket they

1370

00:51:33,650 --> 00:51:31,200

would fall into uh but what was your

1371

00:51:34,910 --> 00:51:33,660

take on that on that footage yeah I'm

1372

00:51:36,170 --> 00:51:34,920

glad you brought that up because that's

1373

00:51:38,210 --> 00:51:36,180

a fascinating

1374

00:51:39,770 --> 00:51:38,220

uh display again of of political theater

1375

00:51:41,210 --> 00:51:39,780

to some degree because I think he

1376

00:51:43,609 --> 00:51:41,220

accomplished a couple of things by

1377

00:51:45,410 --> 00:51:43,619

showing two videos right he showed one

1378

00:51:47,150 --> 00:51:45,420

that looked anomalous but they've been

1379

00:51:49,130 --> 00:51:47,160

able to figure out what it was and it

1380

00:51:51,589 --> 00:51:49,140

was prosaic after all then showed

1381

00:51:54,589 --> 00:51:51,599

another one that has not yet been

1382

00:51:57,170 --> 00:51:54,599

determined uh to be classified in one of

1383

00:51:58,609 --> 00:51:57,180

these prosaic forms right but first of

1384

00:52:01,549 --> 00:51:58,619

all want to point that out when you show

1385

00:52:03,530 --> 00:52:01,559

a video that to the naked eye to the

1386

00:52:05,329 --> 00:52:03,540

average person looks anomalous and then

1387

00:52:06,770 --> 00:52:05,339

you're able to show how you went through

1388

00:52:08,569 --> 00:52:06,780

a process to determine that actually

1389

00:52:10,609 --> 00:52:08,579

it's very explainable after all and it's

1390

00:52:12,349 --> 00:52:10,619

nothing nothing surprising it was just

1391

00:52:14,329 --> 00:52:12,359

an airplane or something right

1392

00:52:15,650 --> 00:52:14,339

and then you show the next one and say

1393

00:52:18,049 --> 00:52:15,660

this is an example of one that we're

1394

00:52:19,609 --> 00:52:18,059

still in the process of what you're what

1395

00:52:21,290 --> 00:52:19,619

you're suggesting what you're planting

1396

00:52:23,870 --> 00:52:21,300

in people's minds is that even though

1397

00:52:25,370 --> 00:52:23,880

these both look anomalous because the

1398

00:52:27,170 --> 00:52:25,380

first one went through a process and we

1399

00:52:28,849 --> 00:52:27,180

figured out what it was that's very

1400

00:52:30,829 --> 00:52:28,859

likely going to be the case he's not

1401
00:52:33,349 --> 00:52:30,839
saying that but it kind of is implied in

1402
00:52:34,970 --> 00:52:33,359
the in the presentation right but like

1403
00:52:36,710 --> 00:52:34,980
you say it's very interesting because at

1404
00:52:39,109 --> 00:52:36,720
first people thought oh is that Jeremy

1405
00:52:40,309 --> 00:52:39,119
corbell's mosul orb right but it turns

1406
00:52:43,069 --> 00:52:40,319
out it wasn't it's just very very

1407
00:52:45,470 --> 00:52:43,079
similar and it's interesting because

1408
00:52:46,609 --> 00:52:45,480
some people and Jeremy corbella have

1409
00:52:48,650 --> 00:52:46,619
talked but has talked about this along

1410
00:52:50,750 --> 00:52:48,660
with George Knapp that initially people

1411
00:52:53,829 --> 00:52:50,760
thought well there is like a vapor trail

1412
00:52:55,910 --> 00:52:53,839
or something right in that and then as

1413
00:52:59,089 --> 00:52:55,920

Kirkpatrick pointed out actually it

1414

00:53:02,270 --> 00:52:59,099

wasn't a vapor trail or exhaust plume it

1415

00:53:03,650 --> 00:53:02,280

was actually just a um an artifact of

1416

00:53:05,510 --> 00:53:03,660

the actual video right that it was

1417

00:53:07,370 --> 00:53:05,520

actually the image moving across the

1418

00:53:10,250 --> 00:53:07,380

object moving across the screen was

1419

00:53:11,809 --> 00:53:10,260

leaving an artifact behind of itself

1420

00:53:14,270 --> 00:53:11,819

kind of thing like a blur kind of thing

1421

00:53:16,790 --> 00:53:14,280

right so that was again I think really

1422

00:53:18,470 --> 00:53:16,800

helpful to to point out that he's doing

1423

00:53:20,329 --> 00:53:18,480

his job and determining it sure enough

1424

00:53:21,410 --> 00:53:20,339

this does not have an exhaust plume like

1425

00:53:23,510 --> 00:53:21,420

you would expect because like you

1426

00:53:25,549 --> 00:53:23,520

pointed out orbs don't tend to

1427

00:53:28,190 --> 00:53:25,559

especially if the if it is metal and it

1428

00:53:29,990 --> 00:53:28,200

kind of looks metallic then how is that

1429

00:53:32,450 --> 00:53:30,000

thing staying Aloft right

1430

00:53:33,589 --> 00:53:32,460

how is it propulsing right and you and I

1431

00:53:36,049 --> 00:53:33,599

talked about before we went on the air

1432

00:53:38,930 --> 00:53:36,059

it's interesting how there's statements

1433

00:53:40,790 --> 00:53:38,940

made around not observing any uh unknown

1434

00:53:42,890 --> 00:53:40,800

physics and that kind of thing right but

1435

00:53:45,290 --> 00:53:42,900

then we see a video of an orb that's

1436

00:53:47,870 --> 00:53:45,300

seemingly moving in at least initially

1437

00:53:50,450 --> 00:53:47,880

in a in a in a means that you can't

1438

00:53:52,430 --> 00:53:50,460

exactly explain according to at least

1439

00:53:54,230 --> 00:53:52,440

the naked eye according to the physics

1440

00:53:56,270 --> 00:53:54,240

we understand how it's staying Aloft we

1441

00:53:58,730 --> 00:53:56,280

don't see an exhaust plume there's no

1442

00:54:00,530 --> 00:53:58,740

wings right so so how is this thing

1443

00:54:02,750 --> 00:54:00,540

moving right like you say it could be a

1444

00:54:04,730 --> 00:54:02,760

balloon perhaps right but it's moving

1445

00:54:08,210 --> 00:54:04,740

pretty quickly for a balloon

1446

00:54:09,829 --> 00:54:08,220

um so these are these are interesting uh

1447

00:54:10,790 --> 00:54:09,839

points to make which reminds me of

1448

00:54:12,890 --> 00:54:10,800

another

1449

00:54:16,250 --> 00:54:12,900

a recent video that came out I'm sure

1450

00:54:18,109 --> 00:54:16,260

you saw this one where uh there's that

1451

00:54:19,670 --> 00:54:18,119

what kind of object the plane is flying

1452

00:54:21,650 --> 00:54:19,680

and an object comes flying over top of

1453

00:54:23,750 --> 00:54:21,660

the plane right now this is a good

1454

00:54:26,030 --> 00:54:23,760

example of I just want to remind people

1455

00:54:28,069 --> 00:54:26,040

that but that most of these things will

1456

00:54:30,890 --> 00:54:28,079

end up being prosaic right we're talking

1457

00:54:32,450 --> 00:54:30,900

about the unusual cases and on top of

1458

00:54:33,589 --> 00:54:32,460

that I think we have to allow for the

1459

00:54:37,250 --> 00:54:33,599

fact that

1460

00:54:39,290 --> 00:54:37,260

whatever is operating these vehicles I

1461

00:54:41,270 --> 00:54:39,300

think really has a lot to say about when

1462

00:54:43,730 --> 00:54:41,280

they will even be observed right I think

1463

00:54:45,710 --> 00:54:43,740

that in other words when we see them

1464

00:54:47,930 --> 00:54:45,720

especially captured in kind of like

1465

00:54:50,210 --> 00:54:47,940

military footage it's almost like it's

1466

00:54:51,650 --> 00:54:50,220

parading out there like George Knapp has

1467

00:54:52,490 --> 00:54:51,660

suggested that right that it's not like

1468

00:54:54,829 --> 00:54:52,500

it's

1469

00:54:56,930 --> 00:54:54,839

oh oh shoot they caught us they saw us

1470

00:54:59,690 --> 00:54:56,940

right it's actually no let's the the

1471

00:55:01,190 --> 00:54:59,700

naval groups are seeing like 30 of these

1472

00:55:02,690 --> 00:55:01,200

a day right with all sorts of different

1473

00:55:05,030 --> 00:55:02,700

shapes that's what's being reported

1474

00:55:06,770 --> 00:55:05,040

right by by the naval groups and

1475

00:55:08,150 --> 00:55:06,780

reported to people like Jeremy Corbell

1476
00:55:10,069 --> 00:55:08,160
and George Knapp so that doesn't sound

1477
00:55:12,230 --> 00:55:10,079
like something that's trying to hide it

1478
00:55:13,730 --> 00:55:12,240
sounds more like again we don't

1479
00:55:15,230 --> 00:55:13,740
understand the psychology necessarily

1480
00:55:17,329 --> 00:55:15,240
but at least the way we would think

1481
00:55:18,829 --> 00:55:17,339
about it it sounds almost like hey hey

1482
00:55:20,210 --> 00:55:18,839
here I am what do you think kind of

1483
00:55:22,609 --> 00:55:20,220
thing right so

1484
00:55:24,349 --> 00:55:22,619
uh these are interesting things to make

1485
00:55:25,910 --> 00:55:24,359
note of but but in that

1486
00:55:27,950 --> 00:55:25,920
example of that video that's been

1487
00:55:29,390 --> 00:55:27,960
floating out there now

1488
00:55:31,730 --> 00:55:29,400

um

1489

00:55:33,349 --> 00:55:31,740

one thing I noticed was again this is

1490

00:55:35,390 --> 00:55:33,359

where you can actually be fooled by the

1491

00:55:36,890 --> 00:55:35,400

footage because it looks like the thing

1492

00:55:39,410 --> 00:55:36,900

is flying towards the plane right

1493

00:55:40,790 --> 00:55:39,420

perhaps even a great clip but actually

1494

00:55:42,170 --> 00:55:40,800

in that kind of situation if you've ever

1495

00:55:44,390 --> 00:55:42,180

been in a plane and something sort of

1496

00:55:46,609 --> 00:55:44,400

flies over you it might actually be

1497

00:55:48,290 --> 00:55:46,619

pretty much stationary but it's still

1498

00:55:50,510 --> 00:55:48,300

going to look like it's moving because

1499

00:55:51,770 --> 00:55:50,520

you're moving right so these are you

1500

00:55:53,510 --> 00:55:51,780

know so in other words that could have

1501
00:55:54,770 --> 00:55:53,520
been a balloon potentially right and it

1502
00:55:56,569 --> 00:55:54,780
would look like it's coming at you and

1503
00:55:58,849 --> 00:55:56,579
people go that thing's going way too

1504
00:56:00,170 --> 00:55:58,859
fast for a balloon but it may just be an

1505
00:56:02,030 --> 00:56:00,180
artifact of the fact that you the the

1506
00:56:03,589 --> 00:56:02,040
plane is moving forward and so it gives

1507
00:56:05,329 --> 00:56:03,599
the impression that that object is

1508
00:56:07,069 --> 00:56:05,339
coming at a great clip but it might not

1509
00:56:09,349 --> 00:56:07,079
be but these are the the kind of things

1510
00:56:12,230 --> 00:56:09,359
that that need to be analyzed when they

1511
00:56:15,049 --> 00:56:12,240
determine what they are yeah uh totally

1512
00:56:16,910 --> 00:56:15,059
and the um you know it's interesting and

1513
00:56:18,770 --> 00:56:16,920

if I could be charitable and I you know

1514

00:56:21,710 --> 00:56:18,780

I tend to be charitable by default so it

1515

00:56:24,710 --> 00:56:21,720

is a weakness that I have but uh to show

1516

00:56:27,950 --> 00:56:24,720

a video of a metallic sphere uh in that

1517

00:56:32,150 --> 00:56:27,960

official capacity and to label it is on

1518

00:56:33,109 --> 00:56:32,160

as still unresolved and the fact that it

1519

00:56:36,049 --> 00:56:33,119

is

1520

00:56:38,990 --> 00:56:36,059

very much looks the same as the sphere

1521

00:56:41,510 --> 00:56:39,000

presented by Jeremy Corbell

1522

00:56:43,309 --> 00:56:41,520

you know we're talking about Framing and

1523

00:56:45,770 --> 00:56:43,319

neuro-linguistic programming and and

1524

00:56:48,109 --> 00:56:45,780

getting people primed to be open to

1525

00:56:50,870 --> 00:56:48,119

these things what have I just done I've

1526

00:56:55,250 --> 00:56:50,880

connected these two

1527

00:56:56,930 --> 00:56:55,260

objects together and whereas on one end

1528

00:57:00,470 --> 00:56:56,940

of that connection I have someone who's

1529

00:57:03,049 --> 00:57:00,480

not uncomfortable with a pretty wide

1530

00:57:06,290 --> 00:57:03,059

range of speculative theory about this

1531

00:57:08,690 --> 00:57:06,300

and is known to be kind of the UFO guy

1532

00:57:10,970 --> 00:57:08,700

uh and then on the other end you have

1533

00:57:12,829 --> 00:57:10,980

the scientist right but we've made a

1534

00:57:16,609 --> 00:57:12,839

connection here between these two

1535

00:57:21,670 --> 00:57:16,619

objects and and that does uh play a role

1536

00:57:24,230 --> 00:57:21,680

in the way in which we now look at

1537

00:57:27,890 --> 00:57:24,240

objects that are going to be similar but

1538

00:57:30,530 --> 00:57:27,900

also look at the legitimacy of these two

1539

00:57:32,450 --> 00:57:30,540

different efforts the legitimacy of what

1540

00:57:34,790 --> 00:57:32,460

Jeremy is doing and George is doing

1541

00:57:37,370 --> 00:57:34,800

which gets a lot of flex sometimes by

1542

00:57:41,030 --> 00:57:37,380

the way and the legitimacy of era we've

1543

00:57:43,490 --> 00:57:41,040

now in a way conjoined these two uh you

1544

00:57:45,770 --> 00:57:43,500

know at least in this aspect and we

1545

00:57:47,450 --> 00:57:45,780

we've we've you know you depending on on

1546

00:57:49,670 --> 00:57:47,460

your bias I suppose you could say well

1547

00:57:51,829 --> 00:57:49,680

now it's lowered the legitimacy in my

1548

00:57:54,170 --> 00:57:51,839

mind of Kirkpatrick where it's raised

1549

00:57:56,450 --> 00:57:54,180

legitimacy of Korbelt and Knapp or vice

1550

00:57:58,490 --> 00:57:56,460

versa right so I find that very

1551
00:58:01,670 --> 00:57:58,500
interesting and uh and just again

1552
00:58:04,370 --> 00:58:01,680
another example of how this uh hearing I

1553
00:58:07,130 --> 00:58:04,380
think plays a pivotal role as another

1554
00:58:10,609 --> 00:58:07,140
stepping stone in the in the path that

1555
00:58:13,130 --> 00:58:10,619
we need to lay before us

1556
00:58:15,109 --> 00:58:13,140
indeed and I would suggest again when

1557
00:58:17,630 --> 00:58:15,119
people really think about every single

1558
00:58:20,690 --> 00:58:17,640
word that's spoken every gesture that's

1559
00:58:23,270 --> 00:58:20,700
made every bit of evidence that's shown

1560
00:58:25,549 --> 00:58:23,280
I would suggest it's carefully carefully

1561
00:58:26,930 --> 00:58:25,559
chosen beforehand so

1562
00:58:28,309 --> 00:58:26,940
again the fact that those two videos

1563
00:58:30,470 --> 00:58:28,319

were shown

1564

00:58:32,329 --> 00:58:30,480

the fact that one has been resolved by

1565

00:58:34,430 --> 00:58:32,339

going through the the process that

1566

00:58:36,230 --> 00:58:34,440

Kirkpatrick and his uh colleagues have

1567

00:58:38,030 --> 00:58:36,240

set up and that the other one is

1568

00:58:40,670 --> 00:58:38,040

mid-stream he made that point right that

1569

00:58:42,530 --> 00:58:40,680

it's mid-stream so again what's implied

1570

00:58:44,630 --> 00:58:42,540

there is once the full process has

1571

00:58:46,549 --> 00:58:44,640

happened there that that too will likely

1572

00:58:48,109 --> 00:58:46,559

be resolved he didn't say that he

1573

00:58:50,150 --> 00:58:48,119

doesn't have to say that that's the

1574

00:58:51,170 --> 00:58:50,160

point right you plant that notion in

1575

00:58:53,270 --> 00:58:51,180

people's mind that's where the

1576
00:58:55,910 --> 00:58:53,280
neuro-linguistic programming comes in

1577
00:58:58,069 --> 00:58:55,920
even to the point where I even wonder if

1578
00:59:00,049 --> 00:58:58,079
this is just speculation but I just

1579
00:59:01,970 --> 00:59:00,059
wonder if he has a strong leaning

1580
00:59:03,230 --> 00:59:01,980
already up they will be able to explain

1581
00:59:06,410 --> 00:59:03,240
that one

1582
00:59:08,630 --> 00:59:06,420
and and that will actually further

1583
00:59:10,370 --> 00:59:08,640
this notion that these are all

1584
00:59:11,930 --> 00:59:10,380
ultimately explainable right which

1585
00:59:13,490 --> 00:59:11,940
speaks to I think what we want to get to

1586
00:59:17,349 --> 00:59:13,500
next which you can sort of lean in with

1587
00:59:20,870 --> 00:59:17,359
in terms of turning these UAP into sep

1588
00:59:24,170 --> 00:59:20,880

yeah exactly man I love these acronyms

1589

00:59:26,750 --> 00:59:24,180

uh all right so I had not heard this

1590

00:59:29,950 --> 00:59:26,760

acronym before or if I did I certainly

1591

00:59:35,150 --> 00:59:29,960

didn't retain it but

1592

00:59:37,309 --> 00:59:35,160

s-e-p somebody else's problem and uh

1593

00:59:39,950 --> 00:59:37,319

Senator Ernst uh picked up on that right

1594

00:59:42,049 --> 00:59:39,960

away when uh or actually I think she

1595

00:59:44,930 --> 00:59:42,059

even introduced introduced it and he

1596

00:59:47,270 --> 00:59:44,940

paired it back to her uh but you know he

1597

00:59:50,809 --> 00:59:47,280

made a a very clear point that what he

1598

00:59:53,450 --> 00:59:50,819

wanted to do was the the mission of that

1599

00:59:55,190 --> 00:59:53,460

office was basically to to

1600

00:59:58,370 --> 00:59:55,200

you know get itself out of the business

1601
01:00:01,190 --> 00:59:58,380
of of being even involved with this and

1602
01:00:03,170 --> 01:00:01,200
and normalize the uh the collection the

1603
01:00:05,450 --> 01:00:03,180
analysis the entire process from start

1604
01:00:08,630 --> 01:00:05,460
to finish and make that a standard

1605
01:00:10,910 --> 01:00:08,640
process that is baked into uh the uh

1606
01:00:14,650 --> 01:00:10,920
standard operating procedures of all of

1607
01:00:19,609 --> 01:00:14,660
our military branches that they then own

1608
01:00:21,230 --> 01:00:19,619
uh UAP and they all are owning that just

1609
01:00:23,329 --> 01:00:21,240
like they own everything that they do

1610
01:00:25,609 --> 01:00:23,339
now that they have a a way in which

1611
01:00:28,010 --> 01:00:25,619
they're supposed to use their sensor

1612
01:00:30,109 --> 01:00:28,020
platform they're supposed to train their

1613
01:00:31,609 --> 01:00:30,119

operators in how they report on what

1614

01:00:33,770 --> 01:00:31,619

what they experience and how they

1615

01:00:36,349 --> 01:00:33,780

interact with you know objects that are

1616

01:00:39,049 --> 01:00:36,359

certain of a certain kind so normalizing

1617

01:00:41,329 --> 01:00:39,059

that across the board so that it is no

1618

01:00:43,789 --> 01:00:41,339

longer arrows problem but somebody

1619

01:00:45,289 --> 01:00:43,799

else's problem I I just love it what did

1620

01:00:47,809 --> 01:00:45,299

you think about that one

1621

01:00:50,270 --> 01:00:47,819

well a few things come to mind number

1622

01:00:51,589 --> 01:00:50,280

one and this is really really careful

1623

01:00:54,230 --> 01:00:51,599

political theater when you think about

1624

01:00:56,450 --> 01:00:54,240

it because when you say and he did say

1625

01:00:58,970 --> 01:00:56,460

this that his goal is to eventually work

1626

01:01:00,849 --> 01:00:58,980

himself out of a job in the sense that

1627

01:01:03,650 --> 01:01:00,859

his goal was to eventually

1628

01:01:05,089 --> 01:01:03,660

establish protocols by which you could

1629

01:01:07,849 --> 01:01:05,099

you could determine what these things

1630

01:01:10,370 --> 01:01:07,859

were and then make sure that existing

1631

01:01:12,470 --> 01:01:10,380

agencies improve their own protocols

1632

01:01:14,450 --> 01:01:12,480

their own tools of analysis so they

1633

01:01:16,010 --> 01:01:14,460

could perform those same functions so

1634

01:01:18,470 --> 01:01:16,020

that in the end you would not need an

1635

01:01:20,450 --> 01:01:18,480

arrow right so what I mean it sound like

1636

01:01:23,089 --> 01:01:20,460

again he didn't say it he doesn't have

1637

01:01:25,670 --> 01:01:23,099

to it's implied that what we have here

1638

01:01:28,190 --> 01:01:25,680

is a lack of sufficient protocols and

1639

01:01:30,230 --> 01:01:28,200

tools of analysis in place in existing

1640

01:01:31,309 --> 01:01:30,240

agencies to determine what these things

1641

01:01:32,990 --> 01:01:31,319

are

1642

01:01:34,910 --> 01:01:33,000

now if he had said something different

1643

01:01:36,410 --> 01:01:34,920

imagine how different the the vibe would

1644

01:01:38,089 --> 01:01:36,420

have been if he'd said

1645

01:01:39,770 --> 01:01:38,099

I want to make it clear today that we're

1646

01:01:41,690 --> 01:01:39,780

seeing things that are so anomalous that

1647

01:01:43,789 --> 01:01:41,700

my expectation is that this office is

1648

01:01:46,549 --> 01:01:43,799

going to be a permanent permanent office

1649

01:01:47,809 --> 01:01:46,559

fully funded on the level of the FBI or

1650

01:01:50,089 --> 01:01:47,819

the CIA

1651
01:01:52,430 --> 01:01:50,099
or the National Security Agency because

1652
01:01:54,289 --> 01:01:52,440
this is a major phenomenon that

1653
01:01:56,210 --> 01:01:54,299
stretches our very understanding of what

1654
01:01:58,130 --> 01:01:56,220
is real imagine if that had been his

1655
01:01:59,750 --> 01:01:58,140
response right as opposed to what he

1656
01:02:01,670 --> 01:01:59,760
said which is that

1657
01:02:04,190 --> 01:02:01,680
my goal is to work myself out of a job

1658
01:02:05,990 --> 01:02:04,200
basically and eventually establish

1659
01:02:08,390 --> 01:02:06,000
protocols by which we can determine

1660
01:02:09,650 --> 01:02:08,400
through the usual tools of scientific

1661
01:02:11,089 --> 01:02:09,660
inquiry

1662
01:02:13,069 --> 01:02:11,099
to determine what these things are

1663
01:02:14,569 --> 01:02:13,079

because ultimately they had prosaic

1664

01:02:16,549 --> 01:02:14,579

explanations in other words and once we

1665

01:02:18,650 --> 01:02:16,559

have those protocols established in

1666

01:02:20,630 --> 01:02:18,660

existing agencies problem solved right

1667

01:02:22,910 --> 01:02:20,640

he didn't say that exactly but again

1668

01:02:25,549 --> 01:02:22,920

that's what's implied

1669

01:02:28,910 --> 01:02:25,559

yeah I can almost see the SNL skit right

1670

01:02:30,530 --> 01:02:28,920

now uh you know the scientist walks in

1671

01:02:33,049 --> 01:02:30,540

the room okay everybody calm down the

1672

01:02:34,250 --> 01:02:33,059

scientist is here uh nothing crazy to

1673

01:02:36,530 --> 01:02:34,260

see and they're in this entire

1674

01:02:38,809 --> 01:02:36,540

conversation there are you know aliens

1675

01:02:40,250 --> 01:02:38,819

standing behind him you know he's and

1676

01:02:42,109 --> 01:02:40,260

he's saying no no it's it's fine

1677

01:02:43,970 --> 01:02:42,119

everything's okay we've we've had a

1678

01:02:47,030 --> 01:02:43,980

process we don't know what this is It's

1679

01:02:49,970 --> 01:02:47,040

not that uh you know it definitely had

1680

01:02:51,890 --> 01:02:49,980

that kind of subtext in a way if I'm

1681

01:02:55,069 --> 01:02:51,900

being uncharitable right that that he's

1682

01:02:58,130 --> 01:02:55,079

uh bringing that uh you know cold

1683

01:03:01,789 --> 01:02:58,140

rational analysis uh to this intractable

1684

01:03:03,829 --> 01:03:01,799

problem that uh we should stop uh

1685

01:03:06,829 --> 01:03:03,839

entertaining the the speculative

1686

01:03:09,890 --> 01:03:06,839

theories of of bloggers and social media

1687

01:03:12,349 --> 01:03:09,900

people let the scientists do their job

1688

01:03:14,210 --> 01:03:12,359

right uh because once the scientists do

1689

01:03:16,309 --> 01:03:14,220

their job then we'll take it from the

1690

01:03:18,530 --> 01:03:16,319

explained or from The Unexplained into

1691

01:03:21,349 --> 01:03:18,540

the category of the explained and and

1692

01:03:24,049 --> 01:03:21,359

then we're in our work here is done

1693

01:03:26,990 --> 01:03:24,059

um yeah it's quite interesting thing uh

1694

01:03:30,410 --> 01:03:27,000

you know I I do wonder how that's going

1695

01:03:31,970 --> 01:03:30,420

to play later down the road right uh and

1696

01:03:34,670 --> 01:03:31,980

I think before the hearing there were

1697

01:03:36,710 --> 01:03:34,680

several uh folks who were you know

1698

01:03:38,210 --> 01:03:36,720

fairly connected who made statements to

1699

01:03:41,150 --> 01:03:38,220

that effect right that whenever

1700

01:03:43,549 --> 01:03:41,160

Kirkpatrick says uh you know it will

1701

01:03:46,430 --> 01:03:43,559

basically kind of be the millstone

1702

01:03:49,250 --> 01:03:46,440

around his neck later on if he if he

1703

01:03:51,829 --> 01:03:49,260

isn't careful right uh so we'll we'll

1704

01:03:53,510 --> 01:03:51,839

see time will tell what kind of corner

1705

01:03:55,430 --> 01:03:53,520

he may or may not have painted himself

1706

01:03:58,010 --> 01:03:55,440

into there

1707

01:03:59,750 --> 01:03:58,020

indeed and um

1708

01:04:01,130 --> 01:03:59,760

I think you you hit the nail in the head

1709

01:04:03,230 --> 01:04:01,140

there where you said that basically not

1710

01:04:05,690 --> 01:04:03,240

only did he describe what he's doing and

1711

01:04:08,210 --> 01:04:05,700

what his office is doing but how that

1712

01:04:10,849 --> 01:04:08,220

stands in opposition or contrast to what

1713

01:04:13,849 --> 01:04:10,859

has been happening in the blogosphere

1714

01:04:16,190 --> 01:04:13,859

and the in social media uh right in

1715

01:04:18,710 --> 01:04:16,200

terms of he he kind of did take a swing

1716

01:04:20,750 --> 01:04:18,720

at that and said that basically the only

1717

01:04:23,150 --> 01:04:20,760

reason why that thing has become a big

1718

01:04:25,490 --> 01:04:23,160

thing with all this conversation and

1719

01:04:28,069 --> 01:04:25,500

speculative kind of analysis is because

1720

01:04:30,589 --> 01:04:28,079

they are not bringing to Bear the tools

1721

01:04:32,870 --> 01:04:30,599

of rationality and the scientific method

1722

01:04:36,109 --> 01:04:32,880

right in a clear established cold

1723

01:04:39,289 --> 01:04:36,119

calculated uh method of inquiry that can

1724

01:04:42,289 --> 01:04:39,299

determine slowly and surely what these

1725

01:04:44,690 --> 01:04:42,299

things actually are right so definitely

1726

01:04:46,430 --> 01:04:44,700

um not only

1727

01:04:48,770 --> 01:04:46,440

tweeting his own horn and his own office

1728

01:04:51,170 --> 01:04:48,780

but also taking a bit of swipe at the at

1729

01:04:52,789 --> 01:04:51,180

the at the rest of us kind of thing

1730

01:04:54,650 --> 01:04:52,799

but I would also point out that I know

1731

01:04:56,809 --> 01:04:54,660

that our perspective would be

1732

01:04:59,270 --> 01:04:56,819

we're completely pro-science here we we

1733

01:05:00,530 --> 01:04:59,280

want scientific inquiry here again this

1734

01:05:02,990 --> 01:05:00,540

this gets to what we talked about

1735

01:05:05,089 --> 01:05:03,000

earlier in terms of

1736

01:05:08,210 --> 01:05:05,099

you know this is a step forward in that

1737

01:05:09,410 --> 01:05:08,220

sense right whenever you normalize that

1738

01:05:12,170 --> 01:05:09,420

um then you're going to have more and

1739

01:05:13,549 --> 01:05:12,180

more people that feel justified in

1740

01:05:15,829 --> 01:05:13,559

stepping into the ring right so there

1741

01:05:17,210 --> 01:05:15,839

may be people who are still very

1742

01:05:19,970 --> 01:05:17,220

skeptical of the notion that this is

1743

01:05:22,849 --> 01:05:19,980

anything non-prosaic but at least now

1744

01:05:25,190 --> 01:05:22,859

they can perhaps get funding and

1745

01:05:26,510 --> 01:05:25,200

approval from their academic departments

1746

01:05:29,450 --> 01:05:26,520

to actually study this right and that's

1747

01:05:30,589 --> 01:05:29,460

a good thing right because those of us

1748

01:05:32,630 --> 01:05:30,599

who've been intimately familiar with

1749

01:05:34,309 --> 01:05:32,640

this know there's so there's something

1750

01:05:36,289 --> 01:05:34,319

there there is a there there as I like

1751

01:05:38,510 --> 01:05:36,299

to say then let's bring in as many

1752

01:05:40,549 --> 01:05:38,520

people as we can and I think this is a

1753

01:05:43,329 --> 01:05:40,559

sign that things are moving forward not

1754

01:05:45,829 --> 01:05:43,339

only in terms of engaging with Academia

1755

01:05:47,450 --> 01:05:45,839

but also as that happens more and more

1756

01:05:49,609 --> 01:05:47,460

then the media is going to slowly but

1757

01:05:51,349 --> 01:05:49,619

surely be more comfortable jumping into

1758

01:05:53,809 --> 01:05:51,359

the ring too because not only is there

1759

01:05:55,809 --> 01:05:53,819

political precedence now for discussing

1760

01:05:59,450 --> 01:05:55,819

these matters and using terms like UAP

1761

01:06:01,910 --> 01:05:59,460

right and anomalous and phenomenon but

1762

01:06:04,370 --> 01:06:01,920

you have you know established academic

1763

01:06:06,190 --> 01:06:04,380

departments at well respected

1764

01:06:08,569 --> 01:06:06,200

universities around the world also

1765

01:06:11,510 --> 01:06:08,579

inquiring about this and looking into it

1766

01:06:13,089 --> 01:06:11,520

so this again is is a win-win in in the

1767

01:06:15,049 --> 01:06:13,099

big picture

1768

01:06:16,549 --> 01:06:15,059

yep you've got to win over the

1769

01:06:19,250 --> 01:06:16,559

establishment and I think that's exactly

1770

01:06:21,230 --> 01:06:19,260

what this is doing uh now Switching

1771

01:06:23,270 --> 01:06:21,240

gears a little bit here uh to some

1772

01:06:25,370 --> 01:06:23,280

slightly different topics but also been

1773

01:06:29,029 --> 01:06:25,380

you know really hot topics this week and

1774

01:06:31,910 --> 01:06:29,039

even as recent as today uh you know we

1775

01:06:35,270 --> 01:06:31,920

know that Ross coulart has uh talked a

1776

01:06:38,329 --> 01:06:35,280

lot recently about in conversations that

1777

01:06:40,010 --> 01:06:38,339

are taking place increasingly in uh

1778

01:06:42,950 --> 01:06:40,020

sensitive compartmented information

1779

01:06:46,069 --> 01:06:42,960

facilities or Skiffs and in particular

1780

01:06:48,589 --> 01:06:46,079

we just heard that there is uh a

1781

01:06:52,190 --> 01:06:48,599

gathering of intelligence heads at

1782

01:06:54,470 --> 01:06:52,200

Wright-Patterson Air Force Base uh that

1783

01:06:57,049 --> 01:06:54,480

at least from it from one person who was

1784

01:06:59,329 --> 01:06:57,059

who commented on this Gathering was

1785

01:07:01,970 --> 01:06:59,339

unprecedented in the in the history of

1786

01:07:03,529 --> 01:07:01,980

this particular committee uh so there's

1787

01:07:05,870 --> 01:07:03,539

a show and tell happening at

1788

01:07:07,730 --> 01:07:05,880

Wright-Patterson uh that is certainly

1789

01:07:09,710 --> 01:07:07,740

very interesting

1790

01:07:10,849 --> 01:07:09,720

um that's weird because when I think of

1791

01:07:12,170 --> 01:07:10,859

Ray Patterson I don't think it has

1792

01:07:15,710 --> 01:07:12,180

anything to do with ufology right

1793

01:07:17,630 --> 01:07:15,720

there's zero connection to ufology at

1794

01:07:20,990 --> 01:07:17,640

all just another Air Force Base I guess

1795

01:07:23,029 --> 01:07:21,000

yes indeed uh Tim McMillan was quoted as

1796

01:07:25,370 --> 01:07:23,039

saying this on Twitter today this is

1797

01:07:27,410 --> 01:07:25,380

incredibly bizarre senior leadership

1798

01:07:29,270 --> 01:07:27,420

from nearly every U.S intelligence

1799

01:07:31,670 --> 01:07:29,280

agency and members of the select

1800

01:07:35,329 --> 01:07:31,680

committee on intelligence are at right

1801
01:07:38,390 --> 01:07:35,339
Pat for a briefing and only local media

1802
01:07:41,150 --> 01:07:38,400
in Dayton is reporting on it unquote

1803
01:07:43,730 --> 01:07:41,160
so his point is to to what you said that

1804
01:07:45,710 --> 01:07:43,740
this is unprecedented right and now

1805
01:07:48,170 --> 01:07:45,720
perhaps people might think this is to do

1806
01:07:49,490 --> 01:07:48,180
with like the recent uh classified

1807
01:07:51,109 --> 01:07:49,500
information link that happened on

1808
01:07:53,510 --> 01:07:51,119
Discord right maybe it's it's the

1809
01:07:55,130 --> 01:07:53,520
different you know political leaders

1810
01:07:56,329 --> 01:07:55,140
saying we need to get together and talk

1811
01:07:59,809 --> 01:07:56,339
about how we can prevent this from

1812
01:08:03,049 --> 01:07:59,819
happening maybe but you know you put you

1813
01:08:04,549 --> 01:08:03,059

you add up uh the uh accused here and

1814

01:08:05,750 --> 01:08:04,559

it's certainly at least intriguing right

1815

01:08:07,910 --> 01:08:05,760

we have

1816

01:08:11,990 --> 01:08:07,920

this office established to look into

1817

01:08:13,910 --> 01:08:12,000

anomalous phenomena right we have

1818

01:08:16,249 --> 01:08:13,920

um political leaders at a high level

1819

01:08:18,110 --> 01:08:16,259

talking about anomalous objects even

1820

01:08:19,510 --> 01:08:18,120

when we think back to the the balloon

1821

01:08:21,890 --> 01:08:19,520

gate kind of scenario right

1822

01:08:23,749 --> 01:08:21,900

interestingly recently on the need to

1823

01:08:25,430 --> 01:08:23,759

know podcast I'm not sure if you caught

1824

01:08:27,890 --> 01:08:25,440

this but Ross kulthart said that he's

1825

01:08:30,470 --> 01:08:27,900

heard reports that one of the objects

1826

01:08:32,510 --> 01:08:30,480

that was shot at and was hit something

1827

01:08:34,189 --> 01:08:32,520

fell from the object but the object did

1828

01:08:36,590 --> 01:08:34,199

not go down

1829

01:08:38,209 --> 01:08:36,600

contrary to what has been reported or at

1830

01:08:39,769 --> 01:08:38,219

least assumed in the reporting right

1831

01:08:41,870 --> 01:08:39,779

which is very very interesting so again

1832

01:08:44,030 --> 01:08:41,880

I was saying this is kind of what I've

1833

01:08:46,189 --> 01:08:44,040

heard as well allegedly is that there's

1834

01:08:48,229 --> 01:08:46,199

more to to it than meets the eye right

1835

01:08:51,110 --> 01:08:48,239

and that sort of kicked off this entire

1836

01:08:52,789 --> 01:08:51,120

new round of interest and inquiry and

1837

01:08:55,189 --> 01:08:52,799

political statements about this entire

1838

01:08:57,349 --> 01:08:55,199

topic right and then you follow that up

1839

01:08:58,849 --> 01:08:57,359

over the over the spring here now where

1840

01:09:00,829 --> 01:08:58,859

we have these senior leadership

1841

01:09:02,870 --> 01:09:00,839

Gathering it right Patterson Air Force

1842

01:09:05,570 --> 01:09:02,880

Base and just in case people are not

1843

01:09:08,269 --> 01:09:05,580

familiar this is probably the most

1844

01:09:12,050 --> 01:09:08,279

famous place right alongside Area 51 and

1845

01:09:13,970 --> 01:09:12,060

S4 and all that in in Nevada where there

1846

01:09:16,010 --> 01:09:13,980

have been reportedly been crash

1847

01:09:18,829 --> 01:09:16,020

retrievals taken too right and even

1848

01:09:20,990 --> 01:09:18,839

alien bodies taken to Wright-Patterson

1849

01:09:23,510 --> 01:09:21,000

is at the center of that entire

1850

01:09:25,550 --> 01:09:23,520

historical narrative and this is exactly

1851

01:09:27,370 --> 01:09:25,560

where as we speak in the midst of all

1852

01:09:29,990 --> 01:09:27,380

these conversations about offices

1853

01:09:32,150 --> 01:09:30,000

investigating anomalous phenomena at the

1854

01:09:34,849 --> 01:09:32,160

very same time this is happening at

1855

01:09:36,550 --> 01:09:34,859

Wright-Patt with an unprecedented number

1856

01:09:38,809 --> 01:09:36,560

of political leaders Gathering Together

1857

01:09:40,669 --> 01:09:38,819

intelligence groups and whatnot to

1858

01:09:43,430 --> 01:09:40,679

discuss something right so it certainly

1859

01:09:47,329 --> 01:09:43,440

is suggestive if nothing else

1860

01:09:48,709 --> 01:09:47,339

I mean it's weird man uh it is super

1861

01:09:50,269 --> 01:09:48,719

strange

1862

01:09:51,950 --> 01:09:50,279

um I don't know if they're pulling the

1863

01:09:54,229 --> 01:09:51,960

bodies out of the freezer down there I

1864

01:09:55,610 --> 01:09:54,239

mean I don't know what's going on uh you

1865

01:09:57,830 --> 01:09:55,620

know of course I it looks a little bit

1866

01:09:59,450 --> 01:09:57,840

tongue-in-cheek I have no idea I mean I

1867

01:10:01,630 --> 01:09:59,460

am just speculating but like you said

1868

01:10:06,590 --> 01:10:01,640

the lore the UFO lore about

1869

01:10:08,750 --> 01:10:06,600

Wright-Patterson is uh very rich uh with

1870

01:10:12,770 --> 01:10:08,760

um you know interesting you know stories

1871

01:10:15,830 --> 01:10:12,780

of of uh material and craft and bodies

1872

01:10:17,810 --> 01:10:15,840

and you know secret labs and all those

1873

01:10:22,250 --> 01:10:17,820

kinds of things I think even

1874

01:10:25,370 --> 01:10:22,260

um General McCaslin was in charge of a

1875

01:10:26,570 --> 01:10:25,380

laboratory there at one point uh so of

1876

01:10:28,250 --> 01:10:26,580

course those of you who don't know and

1877

01:10:30,830 --> 01:10:28,260

he's the general who was connected to

1878

01:10:34,370 --> 01:10:30,840

Tom DeLong which kind of kicked off this

1879

01:10:37,729 --> 01:10:34,380

most recent uh you know fervor into into

1880

01:10:39,169 --> 01:10:37,739

this entire topic so uh it's it's very

1881

01:10:41,450 --> 01:10:39,179

very strange

1882

01:10:43,550 --> 01:10:41,460

um and the low level of publicity is

1883

01:10:45,890 --> 01:10:43,560

also strange I mean it's I guess you

1884

01:10:49,010 --> 01:10:45,900

could argue that uh you know keeping it

1885

01:10:50,630 --> 01:10:49,020

on the down low is just maybe smart uh

1886

01:10:53,390 --> 01:10:50,640

because you have so many important

1887

01:10:55,370 --> 01:10:53,400

people gathered in one place uh you want

1888

01:10:57,950 --> 01:10:55,380

to make sure that you're thinking uh of

1889

01:10:59,689 --> 01:10:57,960

this the security concerns there uh that

1890

01:11:01,729 --> 01:10:59,699

being said they're at an Air Force Base

1891

01:11:03,229 --> 01:11:01,739

I would hope it would be that one of the

1892

01:11:04,970 --> 01:11:03,239

most secure places that they could be

1893

01:11:07,310 --> 01:11:04,980

regardless of who knows that they're

1894

01:11:09,709 --> 01:11:07,320

there uh or not

1895

01:11:11,330 --> 01:11:09,719

um and uh and the fact that it's not it

1896

01:11:13,790 --> 01:11:11,340

you know made its way to any kind of

1897

01:11:15,770 --> 01:11:13,800

national news media at all is a little

1898

01:11:17,630 --> 01:11:15,780

bit peculiar

1899

01:11:20,570 --> 01:11:17,640

um you know I'm certainly not one to say

1900

01:11:22,669 --> 01:11:20,580

that the government has uh you know

1901
01:11:24,770 --> 01:11:22,679
buttons that that oppresses to say you

1902
01:11:26,390 --> 01:11:24,780
know talk about this story on CNN talk

1903
01:11:28,669 --> 01:11:26,400
about this story and I I don't think

1904
01:11:30,950 --> 01:11:28,679
that that's the case but but there it

1905
01:11:32,149 --> 01:11:30,960
but it is true that there are ties that

1906
01:11:35,330 --> 01:11:32,159
every one of these large media

1907
01:11:37,550 --> 01:11:35,340
organizations has ties with these

1908
01:11:39,830 --> 01:11:37,560
government agencies and when the

1909
01:11:42,590 --> 01:11:39,840
government wants a story to you know

1910
01:11:45,169 --> 01:11:42,600
make the rounds it will do what it does

1911
01:11:46,970 --> 01:11:45,179
it'll call those journalists and say hey

1912
01:11:48,410 --> 01:11:46,980
I've got something interesting to tell

1913
01:11:52,310 --> 01:11:48,420

you that you might that your network

1914

01:11:54,050 --> 01:11:52,320

might want to air a story on and uh the

1915

01:11:56,689 --> 01:11:54,060

network then has to judge am I being

1916

01:11:58,450 --> 01:11:56,699

played here uh by the state should I air

1917

01:12:01,610 --> 01:11:58,460

this story should I not air this story

1918

01:12:03,110 --> 01:12:01,620

uh you know if I don't air it will my

1919

01:12:06,770 --> 01:12:03,120

competitor air it and then it'll be like

1920

01:12:08,870 --> 01:12:06,780

well I'm you know I'm not uh you know

1921

01:12:10,250 --> 01:12:08,880

chasing the hot stories like they are so

1922

01:12:12,530 --> 01:12:10,260

I'm going to lose some viewership right

1923

01:12:14,930 --> 01:12:12,540

so it but that's not happened that story

1924

01:12:16,970 --> 01:12:14,940

hasn't hit the other network so uh

1925

01:12:19,250 --> 01:12:16,980

definitely peculiar

1926

01:12:21,530 --> 01:12:19,260

um we can only speculate but but man

1927

01:12:23,270 --> 01:12:21,540

crazy connections there

1928

01:12:24,950 --> 01:12:23,280

yeah and one last piece I'd add before

1929

01:12:26,390 --> 01:12:24,960

we move on to the next part with the

1930

01:12:29,149 --> 01:12:26,400

John Ramirez what he's been saying

1931

01:12:30,709 --> 01:12:29,159

recently is that again can you can you

1932

01:12:33,910 --> 01:12:30,719

uh tell us what skiff stands for again

1933

01:12:37,370 --> 01:12:33,920

yeah sensitive compartmented information

1934

01:12:40,010 --> 01:12:37,380

facility right so what Ross coldheart

1935

01:12:43,250 --> 01:12:40,020

reported on was that various political

1936

01:12:45,590 --> 01:12:43,260

leaders have been given uh classified

1937

01:12:47,689 --> 01:12:45,600

briefings in these facilities right and

1938

01:12:50,209 --> 01:12:47,699

so just to be clear

1939

01:12:52,850 --> 01:12:50,219

even an Air Force Base is not considered

1940

01:12:54,229 --> 01:12:52,860

generally secure enough for these kinds

1941

01:12:56,570 --> 01:12:54,239

of classified briefings there are

1942

01:13:00,410 --> 01:12:56,580

specific facilities that have insane

1943

01:13:02,330 --> 01:13:00,420

levels of security uh installed so that

1944

01:13:04,370 --> 01:13:02,340

there's no way that there could ever be

1945

01:13:06,290 --> 01:13:04,380

any concern of of an adversary or

1946

01:13:10,070 --> 01:13:06,300

something overhearing what's being

1947

01:13:11,689 --> 01:13:10,080

spoken so Ross's point was pretending

1948

01:13:13,310 --> 01:13:11,699

it's a balloon gate right this whole

1949

01:13:15,770 --> 01:13:13,320

notion of these objects that came over

1950

01:13:17,390 --> 01:13:15,780

the U.S airspace were shot down some of

1951

01:13:19,070 --> 01:13:17,400

them were not shot down some of them

1952

01:13:20,390 --> 01:13:19,080

were retrieved some were not retrieved

1953

01:13:22,250 --> 01:13:20,400

but there's a lot of confusion about

1954

01:13:23,630 --> 01:13:22,260

what happened and I would suggest

1955

01:13:26,030 --> 01:13:23,640

perhaps even

1956

01:13:27,649 --> 01:13:26,040

that that was by Design right again part

1957

01:13:29,810 --> 01:13:27,659

of this this notion of moving the

1958

01:13:31,850 --> 01:13:29,820

narrative forward but Ross's point was

1959

01:13:33,950 --> 01:13:31,860

if this was really just about Chinese

1960

01:13:36,950 --> 01:13:33,960

balloons why do you need to have the

1961

01:13:38,510 --> 01:13:36,960

briefing in a skiff right you only do

1962

01:13:40,790 --> 01:13:38,520

that when it's the most sensitive

1963

01:13:43,790 --> 01:13:40,800

information that you're taking the

1964

01:13:46,610 --> 01:13:43,800

highest security uh precaution you

1965

01:13:47,930 --> 01:13:46,620

possibly can so again that in itself is

1966

01:13:50,510 --> 01:13:47,940

suggestive of something really

1967

01:13:53,570 --> 01:13:50,520

significant happening there

1968

01:13:55,550 --> 01:13:53,580

yeah I guess we will wait and see uh if

1969

01:13:58,010 --> 01:13:55,560

anything material comes out of that

1970

01:14:00,169 --> 01:13:58,020

hopefully there are some uh Intrepid

1971

01:14:02,149 --> 01:14:00,179

reporters who have some access there

1972

01:14:04,250 --> 01:14:02,159

that are going to dig up uh some extra

1973

01:14:06,470 --> 01:14:04,260

nuggets around that particular story to

1974

01:14:08,209 --> 01:14:06,480

be keeping our eyes on that well one

1975

01:14:09,350 --> 01:14:08,219

less before you jump on too I just want

1976

01:14:11,209 --> 01:14:09,360

to point this out because you made me

1977

01:14:13,370 --> 01:14:11,219

think of something and that is that I

1978

01:14:15,830 --> 01:14:13,380

think you're absolutely right that when

1979

01:14:18,590 --> 01:14:15,840

these things are happening it kind of is

1980

01:14:20,750 --> 01:14:18,600

as a is a cookie offered to the media to

1981

01:14:22,430 --> 01:14:20,760

the press to say do you see what we're

1982

01:14:25,490 --> 01:14:22,440

doing over here we're having this

1983

01:14:27,350 --> 01:14:25,500

unprecedented Gathering of officials at

1984

01:14:29,090 --> 01:14:27,360

Wright-Patterson Air Force Base

1985

01:14:30,950 --> 01:14:29,100

in other words one of the things I've

1986

01:14:33,110 --> 01:14:30,960

suggested or that I've heard

1987

01:14:35,870 --> 01:14:33,120

in the Grapevine so to speak is that

1988

01:14:39,050 --> 01:14:35,880

part of the the move towards disclosure

1989

01:14:40,310 --> 01:14:39,060

allegedly involves the media also

1990

01:14:42,050 --> 01:14:40,320

playing a role right so we need

1991

01:14:44,270 --> 01:14:42,060

academics we need media we need

1992

01:14:46,910 --> 01:14:44,280

politicians all moving forward on this

1993

01:14:49,010 --> 01:14:46,920

so that this can become normalized for

1994

01:14:51,290 --> 01:14:49,020

our Collective Society right so when

1995

01:14:53,750 --> 01:14:51,300

these kind of things happen it's also I

1996

01:14:57,290 --> 01:14:53,760

think a kind of political theater that

1997

01:14:59,270 --> 01:14:57,300

is trying to behoove media to take

1998

01:15:00,649 --> 01:14:59,280

notice and say why is this happening it

1999

01:15:02,930 --> 01:15:00,659

shouldn't just be us asking these

2000

01:15:04,669 --> 01:15:02,940

questions or Ross Colt art and Bryce

2001

01:15:06,169 --> 01:15:04,679

Sabal right this should be happening in

2002

01:15:07,370 --> 01:15:06,179

mainstream media and I think that's what

2003

01:15:10,850 --> 01:15:07,380

they're hoping will eventually happen

2004

01:15:13,070 --> 01:15:10,860

yeah that's an excellent point uh just

2005

01:15:14,330 --> 01:15:13,080

ask right somebody anybody

2006

01:15:18,110 --> 01:15:14,340

um all right so

2007

01:15:20,689 --> 01:15:18,120

uh in other hot news uh John Ramirez I

2008

01:15:22,729 --> 01:15:20,699

always love listening to John and uh

2009

01:15:28,430 --> 01:15:22,739

he's uh he's a fountain of information

2010

01:15:31,070 --> 01:15:28,440

uh so he was recently on the Opus uh

2011

01:15:32,270 --> 01:15:31,080

show or Opus YouTube channel and I feel

2012

01:15:34,610 --> 01:15:32,280

forgive me I don't remember what the

2013

01:15:36,050 --> 01:15:34,620

Opus acronym stands for

2014

01:15:38,750 --> 01:15:36,060

um but it is kind of a support

2015

01:15:40,490 --> 01:15:38,760

Organization for folks I believe who are

2016

01:15:41,390 --> 01:15:40,500

experiencers

2017

01:15:44,090 --> 01:15:41,400

um

2018

01:15:46,130 --> 01:15:44,100

and so John said a lot of really

2019

01:15:47,050 --> 01:15:46,140

interesting things on that on that

2020

01:15:49,669 --> 01:15:47,060

episode

2021

01:15:52,070 --> 01:15:49,679

one which stands out in my mind anyway

2022

01:15:56,270 --> 01:15:52,080

is that disclosure the disclosure

2023

01:16:00,830 --> 01:15:56,280

timeline is now uh considered to be in

2024

01:16:03,050 --> 01:16:00,840

terms of months not years uh that that

2025

01:16:04,550 --> 01:16:03,060

we are really the gas I guess we're

2026

01:16:06,709 --> 01:16:04,560

hitting the gas here and they're going

2027

01:16:09,290 --> 01:16:06,719

to be some big kind of Bombshells coming

2028

01:16:11,510 --> 01:16:09,300

uh fourth uh fairly soon and he also

2029

01:16:14,030 --> 01:16:11,520

made a point to say it's not going to

2030

01:16:16,490 --> 01:16:14,040

come from behind a government Podium

2031

01:16:19,189 --> 01:16:16,500

it's going to come at the public through

2032

01:16:20,330 --> 01:16:19,199

some other kind of means so I don't even

2033

01:16:22,669 --> 01:16:20,340

know where to begin with that but it

2034

01:16:24,830 --> 01:16:22,679

sounds very exciting

2035

01:16:26,930 --> 01:16:24,840

well before we dive into it who is John

2036

01:16:28,310 --> 01:16:26,940

Ramirez and and why shouldn't take what

2037

01:16:29,930 --> 01:16:28,320

he said seriously that's true doesn't

2038

01:16:31,790 --> 01:16:29,940

everybody know who John Ramirez so John

2039

01:16:35,030 --> 01:16:31,800

Ramirez thank you good question good to

2040

01:16:36,830 --> 01:16:35,040

you up there is a a retired uh CIA

2041

01:16:40,250 --> 01:16:36,840

officer

2042

01:16:42,470 --> 01:16:40,260

uh who who uh where does he work in like

2043

01:16:44,330 --> 01:16:42,480

uh I think it was like ballistic uh

2044

01:16:47,990 --> 01:16:44,340

missile intelligence or you know

2045

01:16:49,490 --> 01:16:48,000

analyzing uh you know the kinds of

2046

01:16:51,169 --> 01:16:49,500

things that you'd need people to take to

2047

01:16:53,630 --> 01:16:51,179

pay attention to if you've got missiles

2048

01:16:56,570 --> 01:16:53,640

flying across the atmosphere right

2049

01:16:59,330 --> 01:16:56,580

yeah exactly he has quite a uh um a

2050

01:17:01,070 --> 01:16:59,340

background with a lot of insight from

2051

01:17:02,990 --> 01:17:01,080

experience into these kinds of matters

2052

01:17:06,649 --> 01:17:03,000

he's also made it clear that he

2053

01:17:08,090 --> 01:17:06,659

deliberately avoided having to sign an

2054

01:17:10,669 --> 01:17:08,100

NDA

2055

01:17:13,130 --> 01:17:10,679

a non-disclosure agreement around the

2056

01:17:15,470 --> 01:17:13,140

UFO topic because he he's always been

2057

01:17:18,590 --> 01:17:15,480

fascinated by this topic and one thing

2058

01:17:20,090 --> 01:17:18,600

that makes him unique is that he also uh

2059

01:17:21,950 --> 01:17:20,100

is an experimenter and he's been very

2060

01:17:25,370 --> 01:17:21,960

open about that so not only he's a

2061

01:17:27,290 --> 01:17:25,380

former CIA analyst who has you know

2062

01:17:29,930 --> 01:17:27,300

access to information that the average

2063

01:17:31,550 --> 01:17:29,940

person does not but he also is an

2064

01:17:34,550 --> 01:17:31,560

experiencer who's had many of his own

2065

01:17:37,850 --> 01:17:34,560

encounters and he's gone so far as to

2066

01:17:39,709 --> 01:17:37,860

avoid being directly associated with

2067

01:17:41,270 --> 01:17:39,719

being read into certain programs that

2068

01:17:44,149 --> 01:17:41,280

would involve a non-disclosure agreement

2069

01:17:45,830 --> 01:17:44,159

because he wants to have full ability to

2070

01:17:47,630 --> 01:17:45,840

talk about these things because it's a

2071

01:17:50,570 --> 01:17:47,640

passion of his as is often the case for

2072

01:17:52,550 --> 01:17:50,580

experiencers and to share what he knows

2073

01:17:55,910 --> 01:17:52,560

without you know disclosing classified

2074

01:17:58,010 --> 01:17:55,920

information so so the reason why we um

2075

01:18:00,169 --> 01:17:58,020

you know clarify who he is is to say

2076

01:18:02,209 --> 01:18:00,179

that this is someone who you know

2077

01:18:05,450 --> 01:18:02,219

supposedly knows that of which they

2078

01:18:07,910 --> 01:18:05,460

speak and he also went on to say in this

2079

01:18:09,709 --> 01:18:07,920

uh in this show that he knows these

2080

01:18:12,050 --> 01:18:09,719

things things these these bold claims

2081

01:18:14,450 --> 01:18:12,060

he's making based on

2082

01:18:17,390 --> 01:18:14,460

you know associations he has with his

2083

01:18:19,189 --> 01:18:17,400

previous employment so he's not just

2084

01:18:21,350 --> 01:18:19,199

hearing on some podcast or something

2085

01:18:24,470 --> 01:18:21,360

he's basically saying he's hearing this

2086

01:18:26,030 --> 01:18:24,480

from internal channels right that again

2087

01:18:27,229 --> 01:18:26,040

just to make this really clear this is a

2088

01:18:30,229 --> 01:18:27,239

bold statement

2089

01:18:33,050 --> 01:18:30,239

he's saying disclosure is happening in a

2090

01:18:35,030 --> 01:18:33,060

matter of months now not years so it

2091

01:18:37,970 --> 01:18:35,040

would already be compared to the long

2092

01:18:40,130 --> 01:18:37,980

history 75 80 years of this topic right

2093

01:18:42,470 --> 01:18:40,140

the modern UFO phenomenon would already

2094

01:18:43,970 --> 01:18:42,480

be a big thing to say hey I think big

2095

01:18:45,290 --> 01:18:43,980

changes are coming in the next you know

2096

01:18:47,270 --> 01:18:45,300

a few years

2097

01:18:49,390 --> 01:18:47,280

but he's going beyond that he's saying

2098

01:18:52,490 --> 01:18:49,400

that he's aware of

2099

01:18:54,950 --> 01:18:52,500

machinations internally that are

2100

01:18:57,950 --> 01:18:54,960

preparing for some sort of level of

2101

01:18:59,810 --> 01:18:57,960

disclosure to the public within months

2102

01:19:02,450 --> 01:18:59,820

this is a this is kind of a

2103

01:19:05,030 --> 01:19:02,460

groundbreaking statement to make and I

2104

01:19:07,610 --> 01:19:05,040

think based on his background I I I'm

2105

01:19:09,290 --> 01:19:07,620

I'm thinking he would not make such a

2106

01:19:10,790 --> 01:19:09,300

statement unless he had a fair degree of

2107

01:19:11,870 --> 01:19:10,800

confidence that this was the case what

2108

01:19:14,870 --> 01:19:11,880

do you think

2109

01:19:16,070 --> 01:19:14,880

yeah I mean I I definitely uh listen to

2110

01:19:19,490 --> 01:19:16,080

what he says

2111

01:19:21,470 --> 01:19:19,500

um you know I find to be quite credible

2112

01:19:23,630 --> 01:19:21,480

um

2113

01:19:26,390 --> 01:19:23,640

yeah I'm hopeful I I hope that things

2114

01:19:29,209 --> 01:19:26,400

transpire in that way uh I hope that

2115

01:19:31,130 --> 01:19:29,219

they uh you know kind of catalyze the

2116

01:19:33,229 --> 01:19:31,140

changes that you know we've many of the

2117

01:19:35,930 --> 01:19:33,239

changes that we've talked about uh with

2118

01:19:38,450 --> 01:19:35,940

respect to the phenomenon

2119

01:19:41,209 --> 01:19:38,460

um you know he did mention as well just

2120

01:19:43,070 --> 01:19:41,219

to iterate your reiterate here that you

2121

01:19:46,430 --> 01:19:43,080

know even in saying months we might mean

2122

01:19:47,750 --> 01:19:46,440

12 months or 18 months uh and I think

2123

01:19:49,790 --> 01:19:47,760

that that's important point to make

2124

01:19:51,709 --> 01:19:49,800

because uh you know when you're talking

2125

01:19:54,110 --> 01:19:51,719

about years you're talking about you

2126
01:19:55,970 --> 01:19:54,120
know in multiples uh so 24 months would

2127
01:19:57,729 --> 01:19:55,980
be the the when you kick into the years

2128
01:20:00,649 --> 01:19:57,739
catboy right so anything less than that

2129
01:20:02,510 --> 01:20:00,659
exactly correct and I want to bring that

2130
01:20:04,010 --> 01:20:02,520
up because he said that a lot of what

2131
01:20:06,229 --> 01:20:04,020
they're hearing and he was pleased with

2132
01:20:09,229 --> 01:20:06,239
the hearing a lot of what it did is is

2133
01:20:12,649 --> 01:20:09,239
it it does further bring this topic into

2134
01:20:15,709 --> 01:20:12,659
the the acceptable uh circle of

2135
01:20:18,770 --> 01:20:15,719
conversation and that it was his uh

2136
01:20:20,990 --> 01:20:18,780
opinion and hope that it would become

2137
01:20:24,649 --> 01:20:21,000
part of the political discourse as we

2138
01:20:26,810 --> 01:20:24,659

move into to the 2024 election year and

2139

01:20:29,750 --> 01:20:26,820

he even made the statement that it was

2140

01:20:32,750 --> 01:20:29,760

again his opinion that the the the next

2141

01:20:35,330 --> 01:20:32,760

president whoever wins the 2024 election

2142

01:20:38,270 --> 01:20:35,340

would basically be the disclosure

2143

01:20:40,189 --> 01:20:38,280

president uh so I I want to make sure we

2144

01:20:42,590 --> 01:20:40,199

bring all that to the fore here because

2145

01:20:44,750 --> 01:20:42,600

uh when I hear months maybe my initial

2146

01:20:46,910 --> 01:20:44,760

reaction is Hey by the summer you know

2147

01:20:49,189 --> 01:20:46,920

I'm going to have uh you know spaceships

2148

01:20:51,110 --> 01:20:49,199

that I can fly around you know but it

2149

01:20:52,790 --> 01:20:51,120

may not be quite like that although he

2150

01:20:56,090 --> 01:20:52,800

did mention I want to point this out

2151

01:20:58,669 --> 01:20:56,100

something he said that uh he did give

2152

01:21:01,790 --> 01:20:58,679

mention to uh maybe there would be a

2153

01:21:04,070 --> 01:21:01,800

future but in which we could explore you

2154

01:21:06,169 --> 01:21:04,080

know the Galaxy in these kinds of craft

2155

01:21:08,570 --> 01:21:06,179

I mean that is an incredible statement

2156

01:21:10,790 --> 01:21:08,580

to make I don't know if it's just a you

2157

01:21:13,070 --> 01:21:10,800

know a wishful thinking uh you know

2158

01:21:15,890 --> 01:21:13,080

statement but uh I mean it's hard even

2159

01:21:19,850 --> 01:21:15,900

to imagine but it's certainly cool

2160

01:21:22,130 --> 01:21:19,860

it is and and this sort of adds to this

2161

01:21:24,830 --> 01:21:22,140

the growing conversation we're hearing

2162

01:21:26,149 --> 01:21:24,840

around 2023 being a big year for this

2163

01:21:28,729 --> 01:21:26,159

topic and again I know there are some

2164

01:21:31,250 --> 01:21:28,739

people that have been bludgeoned into

2165

01:21:33,410 --> 01:21:31,260

skepticism I'm talking about enthusiasts

2166

01:21:34,910 --> 01:21:33,420

who have been Legend into skepticism

2167

01:21:36,890 --> 01:21:34,920

about there being any kind of official

2168

01:21:39,530 --> 01:21:36,900

disclosure because they've seen it time

2169

01:21:41,870 --> 01:21:39,540

and time again uh not happen right not

2170

01:21:44,570 --> 01:21:41,880

come to fruition and they've seen you

2171

01:21:46,790 --> 01:21:44,580

know groups in the military be able to

2172

01:21:48,350 --> 01:21:46,800

effectively shut down even inquiries

2173

01:21:50,689 --> 01:21:48,360

into these kinds of things right which

2174

01:21:52,430 --> 01:21:50,699

again Ross and and Bryce got into that

2175

01:21:54,530 --> 01:21:52,440

in their last episode

2176

01:21:56,330 --> 01:21:54,540

but it really seems like the the times

2177

01:21:58,910 --> 01:21:56,340

have changed and and that it's not just

2178

01:22:00,830 --> 01:21:58,920

that it's not just because people are

2179

01:22:02,689 --> 01:22:00,840

putting feed to the fire and that

2180

01:22:05,570 --> 01:22:02,699

Congress people are trying to hold

2181

01:22:07,370 --> 01:22:05,580

military groups to account but also that

2182

01:22:09,169 --> 01:22:07,380

people internally that have been

2183

01:22:12,410 --> 01:22:09,179

involved with the secret keeping

2184

01:22:14,090 --> 01:22:12,420

allegedly are are also the ones that are

2185

01:22:15,770 --> 01:22:14,100

actually trying to make this happen and

2186

01:22:18,590 --> 01:22:15,780

very interestingly he also added this

2187

01:22:20,630 --> 01:22:18,600

extra bit of nuance that there is also a

2188

01:22:22,610 --> 01:22:20,640

faction within internal circles that

2189

01:22:23,870 --> 01:22:22,620

does not want this to come out and are

2190

01:22:26,570 --> 01:22:23,880

determined to make sure that doesn't

2191

01:22:29,030 --> 01:22:26,580

happen but he even went as far as to say

2192

01:22:31,669 --> 01:22:29,040

therefore those who do want this to come

2193

01:22:35,209 --> 01:22:31,679

out that are internally involved have

2194

01:22:37,370 --> 01:22:35,219

are really scheming together to make

2195

01:22:39,110 --> 01:22:37,380

sure it happens that it basically can't

2196

01:22:40,490 --> 01:22:39,120

be stopped this time and that's what

2197

01:22:41,930 --> 01:22:40,500

gives him the confidence to make the

2198

01:22:43,630 --> 01:22:41,940

statement that it's a matter of months

2199

01:22:46,729 --> 01:22:43,640

not years

2200

01:22:50,149 --> 01:22:46,739

yeah that's certainly intriguing uh he

2201

01:22:52,130 --> 01:22:50,159

also mentioned uh to keep eyes on uh the

2202

01:22:54,830 --> 01:22:52,140

sort of Twitter sphere uh that there

2203

01:22:58,189 --> 01:22:54,840

might be some notable uh Personalities

2204

01:23:00,530 --> 01:22:58,199

in UFO Twitter who are connected that

2205

01:23:03,229 --> 01:23:00,540

might be making some statements uh to

2206

01:23:04,550 --> 01:23:03,239

pay attention to in other words so I

2207

01:23:06,110 --> 01:23:04,560

think that's his way of saying I can't

2208

01:23:08,030 --> 01:23:06,120

say these things but some people will be

2209

01:23:10,970 --> 01:23:08,040

saying them and when they do you know

2210

01:23:12,850 --> 01:23:10,980

that's a hint that this is connected to

2211

01:23:15,830 --> 01:23:12,860

that very effort that he is speaking of

2212

01:23:18,530 --> 01:23:15,840

uh so you know we certainly will see

2213

01:23:21,410 --> 01:23:18,540

we'll keep our eyes peeled out for that

2214

01:23:23,689 --> 01:23:21,420

um you know I'm hopeful uh I'm hopeful

2215

01:23:26,810 --> 01:23:23,699

again that this this transpires in a way

2216

01:23:29,030 --> 01:23:26,820

that is transformative uh for us as a

2217

01:23:32,390 --> 01:23:29,040

people because as you and I have talked

2218

01:23:35,030 --> 01:23:32,400

about many many times if

2219

01:23:37,370 --> 01:23:35,040

if this is disclosed and all it means is

2220

01:23:39,709 --> 01:23:37,380

uh we get to take this technology and

2221

01:23:41,810 --> 01:23:39,719

you know do the stupid human things

2222

01:23:44,930 --> 01:23:41,820

we've been doing with technology uh that

2223

01:23:47,510 --> 01:23:44,940

it's not a very good decision right so

2224

01:23:50,450 --> 01:23:47,520

um it needs to result in some real uh

2225

01:23:52,250 --> 01:23:50,460

societal uh change you know in the way

2226

01:23:54,709 --> 01:23:52,260

that we treat each other the way that we

2227

01:23:56,570 --> 01:23:54,719

uh operate uh the way that you know we

2228

01:23:59,750 --> 01:23:56,580

structure our entire cultures and

2229

01:24:01,430 --> 01:23:59,760

Society say all that stuff has to change

2230

01:24:02,930 --> 01:24:01,440

um because it's uh you know it's

2231

01:24:05,030 --> 01:24:02,940

imperative it's imperative we cannot

2232

01:24:07,669 --> 01:24:05,040

continue to operate and be the way that

2233

01:24:10,490 --> 01:24:07,679

we are uh we can't take you know

2234

01:24:12,830 --> 01:24:10,500

historical human thinking in into the

2235

01:24:14,689 --> 01:24:12,840

cosmos it's just not going to work and I

2236

01:24:16,490 --> 01:24:14,699

don't think that the cosmos will allow

2237

01:24:19,070 --> 01:24:16,500

it either for that matter

2238

01:24:21,590 --> 01:24:19,080

indeed and and I think the the action

2239

01:24:23,570 --> 01:24:21,600

we're seeing where so much of this

2240

01:24:25,370 --> 01:24:23,580

phenomenon seems to be ramping up right

2241

01:24:27,830 --> 01:24:25,380

that's that's what's being reported

2242

01:24:30,530 --> 01:24:27,840

both in terms of civilians reporting

2243

01:24:32,090 --> 01:24:30,540

these things and also military groups

2244

01:24:33,590 --> 01:24:32,100

reporting them now of course people will

2245

01:24:35,450 --> 01:24:33,600

point out that there's a lot more cell

2246

01:24:37,130 --> 01:24:35,460

phones than there used to be so maybe

2247

01:24:39,530 --> 01:24:37,140

it's just that there's more opportunity

2248

01:24:41,390 --> 01:24:39,540

to capture these things but actually

2249

01:24:43,189 --> 01:24:41,400

ironically we spend so much time looking

2250

01:24:44,990 --> 01:24:43,199

down at our screens when we're walking

2251

01:24:46,910 --> 01:24:45,000

around that probably there's far fewer

2252

01:24:48,530 --> 01:24:46,920

people spending their evenings looking

2253

01:24:50,990 --> 01:24:48,540

up in the night sky than used to be the

2254

01:24:53,930 --> 01:24:51,000

case right so I think that it is

2255

01:24:56,689 --> 01:24:53,940

significant and one could argue one

2256

01:25:00,530 --> 01:24:56,699

could make the argument that

2257

01:25:02,450 --> 01:25:00,540

perhaps the phenomenon or elements of it

2258

01:25:04,550 --> 01:25:02,460

are ramping up because of their

2259

01:25:06,709 --> 01:25:04,560

awareness that we are at a precipice

2260

01:25:09,350 --> 01:25:06,719

that something needs to change and so

2261

01:25:11,630 --> 01:25:09,360

perhaps there has even been a change in

2262

01:25:14,510 --> 01:25:11,640

calculus there that maybe this is the

2263

01:25:16,850 --> 01:25:14,520

time where some sort of intervention or

2264

01:25:19,130 --> 01:25:16,860

some sort of um Reckoning with something

2265

01:25:22,430 --> 01:25:19,140

larger than the usual human Affairs is

2266

01:25:24,530 --> 01:25:22,440

considered necessary to really move the

2267

01:25:27,590 --> 01:25:24,540

needle here because subtle changes

2268

01:25:30,770 --> 01:25:27,600

superficial alterations to to climate

2269

01:25:31,850 --> 01:25:30,780

policy and to you know energy policy is

2270

01:25:34,729 --> 01:25:31,860

not going to do it here we need

2271

01:25:37,490 --> 01:25:34,739

something significant we we are kind of

2272

01:25:39,950 --> 01:25:37,500

again a log Jam in terms of our

2273

01:25:41,510 --> 01:25:39,960

technological progress leaping further

2274

01:25:42,950 --> 01:25:41,520

and further ahead we've talked about AI

2275

01:25:45,050 --> 01:25:42,960

the last couple episodes we don't need

2276

01:25:47,149 --> 01:25:45,060

to get into it again but

2277

01:25:49,130 --> 01:25:47,159

you know bio weapons nuclear weapons

2278

01:25:52,970 --> 01:25:49,140

that that's all heating up again right

2279

01:25:55,430 --> 01:25:52,980

so all that is leaping forward uh with

2280

01:25:56,510 --> 01:25:55,440

remarkable pace and yet the the center

2281

01:25:58,370 --> 01:25:56,520

of gravity of the collective

2282

01:26:01,070 --> 01:25:58,380

Consciousness on the planet for Humanity

2283

01:26:02,270 --> 01:26:01,080

is not not even You could argue it's not

2284

01:26:04,610 --> 01:26:02,280

even really moving forward it's

2285

01:26:06,709 --> 01:26:04,620

certainly not keeping up pace with the

2286

01:26:09,110 --> 01:26:06,719

technological changes we're seeing so

2287

01:26:11,030 --> 01:26:09,120

perhaps that's indeed what what is going

2288

01:26:14,110 --> 01:26:11,040

on here that it could be a calculus from

2289

01:26:18,470 --> 01:26:14,120

some of the others that that something

2290

01:26:20,149 --> 01:26:18,480

necessary uh is is needed here and that

2291

01:26:22,330 --> 01:26:20,159

perhaps even this is because again

2292

01:26:25,189 --> 01:26:22,340

getting into this notion of

2293

01:26:27,590 --> 01:26:25,199

experiencers having so much of a sense

2294

01:26:29,990 --> 01:26:27,600

of a coming cataclysm or a sense of some

2295

01:26:32,570 --> 01:26:30,000

sort of coming apocalypse so many of the

2296

01:26:35,330 --> 01:26:32,580

experiencers end up having visions being

2297

01:26:37,129 --> 01:26:35,340

shown directly images of the Earth in

2298

01:26:39,649 --> 01:26:37,139

great distress and the sense that this

2299

01:26:41,810 --> 01:26:39,659

is the future for Humanity and that part

2300

01:26:44,510 --> 01:26:41,820

of the intervention of these others

2301
01:26:47,209 --> 01:26:44,520
being here is to possibly either prevent

2302
01:26:48,350 --> 01:26:47,219
that or to help us mitigate that when it

2303
01:26:50,629 --> 01:26:48,360
happens these are the kind of things

2304
01:26:53,510 --> 01:26:50,639
going on but I think when we think about

2305
01:26:56,689 --> 01:26:53,520
this move in in the public that

2306
01:26:58,550 --> 01:26:56,699
politically academically in the media a

2307
01:27:00,709 --> 01:26:58,560
little bit you know not moving as fast

2308
01:27:03,410 --> 01:27:00,719
as it should but these moves of

2309
01:27:05,390 --> 01:27:03,420
normalizing this topic perhaps are

2310
01:27:06,649 --> 01:27:05,400
getting us closer to this day but we do

2311
01:27:09,110 --> 01:27:06,659
have this Reckoning with something

2312
01:27:12,050 --> 01:27:09,120
Beyond us that maybe is exactly what we

2313
01:27:13,850 --> 01:27:12,060

need to to finally

2314

01:27:15,669 --> 01:27:13,860

fundamentally changed when we think

2315

01:27:19,070 --> 01:27:15,679

about being a civilization

2316

01:27:21,290 --> 01:27:19,080

yeah well said well in the last couple

2317

01:27:23,750 --> 01:27:21,300

minutes here I wanted to spend just a

2318

01:27:26,270 --> 01:27:23,760

brief amount of time on

2319

01:27:28,430 --> 01:27:26,280

the reaction that experiencers might be

2320

01:27:29,930 --> 01:27:28,440

having to this conversation kind of

2321

01:27:31,610 --> 01:27:29,940

where we are right now and you did

2322

01:27:34,790 --> 01:27:31,620

allude to the fact that John Ramirez

2323

01:27:36,410 --> 01:27:34,800

himself is an experiencer uh and he's

2324

01:27:38,330 --> 01:27:36,420

optimistic

2325

01:27:40,910 --> 01:27:38,340

um but I'm I'm also aware that there are

2326

01:27:43,430 --> 01:27:40,920

those experiences who uh you know kind

2327

01:27:46,370 --> 01:27:43,440

of watch this transpire and just get

2328

01:27:49,669 --> 01:27:46,380

incredibly frustrated that the pace of

2329

01:27:51,290 --> 01:27:49,679

this conversation is so slow uh and that

2330

01:27:53,090 --> 01:27:51,300

uh you know it's because it's literally

2331

01:27:55,310 --> 01:27:53,100

happening to to them and if you've

2332

01:27:57,770 --> 01:27:55,320

experienced something that is uh you

2333

01:28:00,169 --> 01:27:57,780

know personally impactful or traumatic I

2334

01:28:02,270 --> 01:28:00,179

mean you can relive that trauma every

2335

01:28:04,790 --> 01:28:02,280

single day of your life and and so it

2336

01:28:07,970 --> 01:28:04,800

feels immediate you know it feels

2337

01:28:09,470 --> 01:28:07,980

present right now and so I'm aware that

2338

01:28:12,649 --> 01:28:09,480

that is uh you know certainly

2339

01:28:14,330 --> 01:28:12,659

appreciative to those folks and uh you

2340

01:28:15,530 --> 01:28:14,340

know I'm sensitive to that

2341

01:28:16,910 --> 01:28:15,540

um you know so I don't know what what

2342

01:28:19,669 --> 01:28:16,920

are your thoughts on that with the

2343

01:28:21,770 --> 01:28:19,679

experience or Community do we think that

2344

01:28:23,330 --> 01:28:21,780

um they're that they're you know more

2345

01:28:25,669 --> 01:28:23,340

hopeful now or is it just kind of more

2346

01:28:27,290 --> 01:28:25,679

of the same same frustration

2347

01:28:30,169 --> 01:28:27,300

I think it's a bit of both right because

2348

01:28:32,090 --> 01:28:30,179

on the one hand I think anyone who's

2349

01:28:33,830 --> 01:28:32,100

being objective acknowledges that we're

2350

01:28:35,810 --> 01:28:33,840

having a level of public discourse that

2351

01:28:38,149 --> 01:28:35,820

we've not had before right I think back

2352

01:28:39,950 --> 01:28:38,159

to the 90s and you know you'd have uh

2353

01:28:41,990 --> 01:28:39,960

John Mack appearing on the Oprah show

2354

01:28:43,729 --> 01:28:42,000

right and that was a big Revelation back

2355

01:28:45,709 --> 01:28:43,739

then right but you were not having the

2356

01:28:47,090 --> 01:28:45,719

kind of governmental conversation that

2357

01:28:48,950 --> 01:28:47,100

we're having now

2358

01:28:51,890 --> 01:28:48,960

so that's a positive for sure a net

2359

01:28:54,350 --> 01:28:51,900

positive but but again the the elephant

2360

01:28:58,189 --> 01:28:54,360

in the room for experiencers and the way

2361

01:29:00,709 --> 01:28:58,199

I look at it as well is that you know we

2362

01:29:03,410 --> 01:29:00,719

have many many many people that not only

2363

01:29:05,390 --> 01:29:03,420

report encountering these crafts but the

2364

01:29:07,189 --> 01:29:05,400

beings operating them but there's a

2365

01:29:09,590 --> 01:29:07,199

remarkable overlap in terms of the

2366

01:29:11,209 --> 01:29:09,600

nature of those experiences so that in

2367

01:29:13,070 --> 01:29:11,219

itself if you ask any intelligence

2368

01:29:16,129 --> 01:29:13,080

analyst they would say that is valid

2369

01:29:17,750 --> 01:29:16,139

data we need to be looking into that we

2370

01:29:19,610 --> 01:29:17,760

should have a congressional committee

2371

01:29:21,770 --> 01:29:19,620

that's interviewing experiencers right

2372

01:29:23,510 --> 01:29:21,780

and and collating the data and saying

2373

01:29:25,070 --> 01:29:23,520

look at these interesting overlaps we

2374

01:29:28,970 --> 01:29:25,080

could again one of the ways we could

2375

01:29:30,290 --> 01:29:28,980

employ AI in a positive way is to and I

2376

01:29:32,090 --> 01:29:30,300

hope to do some of this in the future is

2377

01:29:33,649 --> 01:29:32,100

to look through all this mountains of

2378

01:29:36,410 --> 01:29:33,659

data experience your data right around

2379

01:29:37,790 --> 01:29:36,420

encounters and look for patterns what

2380

01:29:39,890 --> 01:29:37,800

can this tell us about this that we've

2381

01:29:41,270 --> 01:29:39,900

missed up until now right because this

2382

01:29:43,490 --> 01:29:41,280

has been suppressed and not really

2383

01:29:45,830 --> 01:29:43,500

engaged with the way it needs to be so

2384

01:29:48,169 --> 01:29:45,840

so this is a a huge opportunity I think

2385

01:29:50,149 --> 01:29:48,179

and I hope that at some point what

2386

01:29:52,550 --> 01:29:50,159

happens is that that does become part of

2387

01:29:54,770 --> 01:29:52,560

this public process is actually talking

2388

01:29:56,510 --> 01:29:54,780

to the people because that have had

2389

01:30:00,050 --> 01:29:56,520

these experiences because it's not just

2390

01:30:01,970 --> 01:30:00,060

anecdotal right when you have mountains

2391

01:30:03,649 --> 01:30:01,980

of data where you have this mirrored

2392

01:30:06,110 --> 01:30:03,659

kind of kinds of encounters and the

2393

01:30:08,629 --> 01:30:06,120

kinds of beings described that is a data

2394

01:30:10,129 --> 01:30:08,639

set that is valid evidence used in any

2395

01:30:12,110 --> 01:30:10,139

other kind of field that would look into

2396

01:30:14,510 --> 01:30:12,120

these kinds of matters so we need to get

2397

01:30:16,910 --> 01:30:14,520

past that kind of Log Jam in terms of

2398

01:30:19,070 --> 01:30:16,920

how we consider that and that'll help us

2399

01:30:20,090 --> 01:30:19,080

I think not only move the conversation

2400

01:30:23,030 --> 01:30:20,100

forward

2401
01:30:25,790 --> 01:30:23,040
as a collective but perhaps even finally

2402
01:30:28,250 --> 01:30:25,800
give us some insight into the the the

2403
01:30:30,350 --> 01:30:28,260
means the methods and perhaps even the

2404
01:30:32,510 --> 01:30:30,360
agenda of some of these others so I

2405
01:30:35,870 --> 01:30:32,520
think I hope that this will be part of

2406
01:30:41,590 --> 01:30:38,689
the experiencers are so

2407
01:30:44,390 --> 01:30:41,600
pivotal to this entire Enterprise

2408
01:30:47,110 --> 01:30:44,400
because they

2409
01:30:50,990 --> 01:30:47,120
represent the humanity

2410
01:30:54,410 --> 01:30:51,000
that is entwined with the phenomena

2411
01:30:58,090 --> 01:30:54,420
right and I think nothing will penetrate

2412
01:31:02,030 --> 01:30:58,100
our malaise uh our stupor in a way

2413
01:31:05,270 --> 01:31:02,040

better than the experiencers in our

2414

01:31:08,629 --> 01:31:05,280

communities stepping forward and and

2415

01:31:09,830 --> 01:31:08,639

then them having legitimacy from our

2416

01:31:13,010 --> 01:31:09,840

institutions

2417

01:31:15,410 --> 01:31:13,020

uh that moment will change

2418

01:31:17,990 --> 01:31:15,420

will change us irrevocably

2419

01:31:20,270 --> 01:31:18,000

uh and will be very very powerful and I

2420

01:31:22,250 --> 01:31:20,280

look forward to it it will be very raw

2421

01:31:24,470 --> 01:31:22,260

uh but I think

2422

01:31:27,110 --> 01:31:24,480

um you know we'll we'll be the Catalyst

2423

01:31:28,669 --> 01:31:27,120

for some lasting change in our in our

2424

01:31:29,570 --> 01:31:28,679

species

2425

01:31:31,910 --> 01:31:29,580

um

2426

01:31:34,129 --> 01:31:31,920

well it's been a great episode uh I

2427

01:31:36,709 --> 01:31:34,139

always love doing these kinds of uh you

2428

01:31:37,970 --> 01:31:36,719

know topical what's in the news uh chats

2429

01:31:40,490 --> 01:31:37,980

it's a little bit different than what we

2430

01:31:42,950 --> 01:31:40,500

usually do but uh I feel we'll be doing

2431

01:31:44,570 --> 01:31:42,960

some more of these in the future uh as

2432

01:31:46,910 --> 01:31:44,580

these kinds of things continue to

2433

01:31:49,010 --> 01:31:46,920

develop and I certainly look forward to

2434

01:31:50,629 --> 01:31:49,020

them and I want to thank you I say thank

2435

01:31:54,229 --> 01:31:50,639

you to our lit listeners our little

2436

01:31:55,850 --> 01:31:54,239

frames family that's tough to say uh but

2437

01:31:58,550 --> 01:31:55,860

thank you everyone for giving us a

2438

01:32:00,890 --> 01:31:58,560

listen a like or a share uh we really

2439

01:32:04,370 --> 01:32:00,900

appreciate that and we look forward to

2440

01:32:06,890 --> 01:32:04,380

speaking with you again very soon

2441

01:32:09,350 --> 01:32:06,900

May the quality of our questions shaped

2442

01:32:12,229 --> 01:32:09,360

by a desire for understanding enhance

2443

01:32:14,270 --> 01:32:12,239

our journey of discovery and may our

2444

01:32:17,090 --> 01:32:14,280

travels broaden the sphere of our

2445

01:32:21,250 --> 01:32:17,100

Consciousness reminding us that new

2446

01:32:24,530 --> 01:32:21,260

discoveries beget New Horizons as always

2447

01:32:29,490 --> 01:32:24,540

Adventure awaits we'll see you next time

2448

01:32:33,290 --> 01:32:31,620

[Music]

2449

01:32:39,590 --> 01:32:33,300

[Laughter]

2450

01:32:39,600 --> 01:32:49,750

[Music]
