

Point of Convergence

PODCAST

Hosted by **ExoAcademician**

EPISODE #86

*The Temporal Engineers:
Of Timeline Manipulation &
Everpresent UFO Beings*

ON YOUTUBE & YOUR FAVORITE
PODCASTING PLATFORM

1
00:00:14,270 --> 00:00:11,209
hello and welcome to episode number 86

2
00:00:18,410 --> 00:00:14,280
of the point of convergence podcast as

3
00:00:20,150 --> 00:00:18,420
always I am your host EXO academian

4
00:00:22,189 --> 00:00:20,160
throughout the history of humankind

5
00:00:25,189 --> 00:00:22,199
we've been pushing the boundaries of

6
00:00:27,529 --> 00:00:25,199
exploration determined to map and often

7
00:00:29,630 --> 00:00:27,539
eventually populate every nook and

8
00:00:32,030 --> 00:00:29,640
cranny of physical space we come across

9
00:00:34,130 --> 00:00:32,040
this has meant we've ventured into every

10
00:00:36,290 --> 00:00:34,140
corner of the earth even though sporting

11
00:00:37,910 --> 00:00:36,300
the most inhospitable of environmental

12
00:00:40,190 --> 00:00:37,920
conditions

13
00:00:42,170 --> 00:00:40,200

when their modern day UFO phenomenon

14

00:00:45,350 --> 00:00:42,180

first exploded into public Consciousness

15

00:00:47,510 --> 00:00:45,360

around the era of the 1940s through not

16

00:00:49,670 --> 00:00:47,520

one but a series of remarkable events

17

00:00:51,950 --> 00:00:49,680

that orientation around Frontier

18

00:00:53,990 --> 00:00:51,960

Consciousness that almost everyone of

19

00:00:56,450 --> 00:00:54,000

the time once it was clear these strange

20

00:00:58,970 --> 00:00:56,460

objects seen designated UFOs or

21

00:01:01,850 --> 00:00:58,980

unidentified flying objects were very

22

00:01:02,930 --> 00:01:01,860

unlikely to be a prosaic origin to

23

00:01:05,390 --> 00:01:02,940

assume that these apparently

24

00:01:06,950 --> 00:01:05,400

intelligently controlled vehicles must

25

00:01:09,950 --> 00:01:06,960

be coming from the laughs of the

26
00:01:11,570 --> 00:01:09,960
Frontiers we had yet to explore namely

27
00:01:13,609 --> 00:01:11,580
outer space

28
00:01:16,250 --> 00:01:13,619
that greater expanse of the surrounding

29
00:01:18,710 --> 00:01:16,260
Cosmos this of course suggested the

30
00:01:20,690 --> 00:01:18,720
existence of extraterrestrials beings

31
00:01:22,850 --> 00:01:20,700
who had evolved on different planets in

32
00:01:24,710 --> 00:01:22,860
entirely different star systems in

33
00:01:26,929 --> 00:01:24,720
far-flung corners of the Milky Way

34
00:01:29,510 --> 00:01:26,939
galaxy or Beyond

35
00:01:31,609 --> 00:01:29,520
this sparked our imagination leading us

36
00:01:33,950 --> 00:01:31,619
to imagine what they might look like and

37
00:01:36,109 --> 00:01:33,960
how they might behave would they look

38
00:01:38,330 --> 00:01:36,119

anything like us would they follow our

39

00:01:40,370 --> 00:01:38,340

Behavior patterns would they want to

40

00:01:42,649 --> 00:01:40,380

conquer and colonize us the same way

41

00:01:45,350 --> 00:01:42,659

we'd done with each other

42

00:01:46,969 --> 00:01:45,360

as the 20th century marched on many

43

00:01:48,890 --> 00:01:46,979

people around the planet begin to report

44

00:01:51,350 --> 00:01:48,900

encounters with the varied being

45

00:01:52,490 --> 00:01:51,360

supposedly piloting these sophisticated

46

00:01:55,069 --> 00:01:52,500

vehicles

47

00:01:56,810 --> 00:01:55,079

interestingly while modern science had

48

00:01:59,210 --> 00:01:56,820

long leaned towards extraterrestrial

49

00:02:01,249 --> 00:01:59,220

beings looking decidedly unlike us

50

00:02:02,810 --> 00:02:01,259

because of their origin being tied to

51
00:02:05,149 --> 00:02:02,820
completely different evolutionary

52
00:02:08,089 --> 00:02:05,159
pressures in completely different home

53
00:02:10,010 --> 00:02:08,099
planet contexts the reports arising from

54
00:02:12,830 --> 00:02:10,020
these encounters with other worldly

55
00:02:15,589 --> 00:02:12,840
beings quote unquote spoke to remarkably

56
00:02:17,930 --> 00:02:15,599
humanoid form and indeed on regular

57
00:02:19,309 --> 00:02:17,940
occasion even as seemingly fully human

58
00:02:21,890 --> 00:02:19,319
form

59
00:02:23,510 --> 00:02:21,900
furthermore even the types less human in

60
00:02:26,210 --> 00:02:23,520
appearance still match the general

61
00:02:29,150 --> 00:02:26,220
morphology of other forms of life from

62
00:02:31,550 --> 00:02:29,160
Earth including reptilian and insectoid

63
00:02:34,070 --> 00:02:31,560

types including mantis beings even

64

00:02:36,770 --> 00:02:34,080

bearing a striking resemblance to nine

65

00:02:38,990 --> 00:02:36,780

foot tall praying mantis insects found

66

00:02:40,910 --> 00:02:39,000

right here on our home planet

67

00:02:44,210 --> 00:02:40,920

of course this raises an obvious

68

00:02:45,650 --> 00:02:44,220

question why were these encountered

69

00:02:47,630 --> 00:02:45,660

forms flying in the face of our

70

00:02:49,670 --> 00:02:47,640

expectations around what

71

00:02:51,770 --> 00:02:49,680

extraterrestrial beings would look like

72

00:02:53,030 --> 00:02:51,780

and more importantly what they would not

73

00:02:54,890 --> 00:02:53,040

look like

74

00:02:56,570 --> 00:02:54,900

I would suggest to you that perhaps the

75

00:02:59,210 --> 00:02:56,580

issue lies in one of our earlier

76
00:03:02,449 --> 00:02:59,220
assumptions that the next Frontier to be

77
00:03:03,710 --> 00:03:02,459
explored is always spatial in nature but

78
00:03:06,770 --> 00:03:03,720
what if these others were not coming

79
00:03:10,250 --> 00:03:06,780
from elsewhere but from some other yet

80
00:03:12,830 --> 00:03:10,260
poorly understood non-spatial dimension

81
00:03:14,390 --> 00:03:12,840
on that note the notion of a Multiverse

82
00:03:17,390 --> 00:03:14,400
opened up the interdimensional

83
00:03:18,589 --> 00:03:17,400
hypothesis to popular consideration

84
00:03:20,570 --> 00:03:18,599
and that's still in the running

85
00:03:22,729 --> 00:03:20,580
suggesting these beings are arriving

86
00:03:25,309 --> 00:03:22,739
from Planes of existence sitting in

87
00:03:27,110 --> 00:03:25,319
parallel to our physical existence

88
00:03:29,330 --> 00:03:27,120

but there is another possibility that

89

00:03:31,670 --> 00:03:29,340

has long escaped the mainstream of our

90

00:03:35,869 --> 00:03:31,680

Collective imagination around these

91

00:03:37,550 --> 00:03:35,879

particular beings namely time travel in

92

00:03:39,890 --> 00:03:37,560

other words what if these beings are not

93

00:03:42,470 --> 00:03:39,900

so much coming from somewhere else but

94

00:03:44,270 --> 00:03:42,480

rather some when else

95

00:03:46,610 --> 00:03:44,280

when one stops to consider this

96

00:03:48,589 --> 00:03:46,620

possibility not only does it hold its

97

00:03:51,589 --> 00:03:48,599

own in terms of serving as a potential

98

00:03:53,750 --> 00:03:51,599

theoretical explanatory mechanism but it

99

00:03:56,210 --> 00:03:53,760

also fits remarkably well with key

100

00:03:57,949 --> 00:03:56,220

components of the historical data not

101
00:04:00,470 --> 00:03:57,959
just around the appearance and behavior

102
00:04:02,509 --> 00:04:00,480
of these various beings but also with

103
00:04:04,970 --> 00:04:02,519
other key elements arising from the

104
00:04:07,789 --> 00:04:04,980
historical experienter literature

105
00:04:09,649 --> 00:04:07,799
this possibility that time is a key

106
00:04:12,229 --> 00:04:09,659
variable in the overarching phenomenon

107
00:04:15,890 --> 00:04:12,239
is a fascinating one one that will be

108
00:04:19,449 --> 00:04:15,900
our focus and this the 86th episode of

109
00:04:24,950 --> 00:04:22,670
[Music]

110
00:04:26,390 --> 00:04:24,960
as we begin this week's episode I would

111
00:04:28,370 --> 00:04:26,400
just like to remind everyone that if

112
00:04:30,650 --> 00:04:28,380
you'd like to get access to all of my

113
00:04:32,930 --> 00:04:30,660

content including not just the point of

114

00:04:35,210 --> 00:04:32,940

convergence episodes and liminal frames

115

00:04:38,210 --> 00:04:35,220

episodes but bonus material I create

116

00:04:40,430 --> 00:04:38,220

such as OTC squared off the cuff and off

117

00:04:42,170 --> 00:04:40,440

the cusp is what that stands for and

118

00:04:44,870 --> 00:04:42,180

various features series I also create

119

00:04:47,570 --> 00:04:44,880

about different topics as well as access

120

00:04:50,030 --> 00:04:47,580

to my private Discord server

121

00:04:53,749 --> 00:04:50,040

Etc then you can do so by becoming a

122

00:04:56,030 --> 00:04:53,759

patron on patreon.com EXO academian or

123

00:04:57,890 --> 00:04:56,040

by subscribing on Spotify that would

124

00:05:01,129 --> 00:04:57,900

give you access to all of the material

125

00:05:04,670 --> 00:05:01,139

all of the content I create

126

00:05:06,170 --> 00:05:04,680

okay moving on to this week's episode

127

00:05:08,570 --> 00:05:06,180

first of all I want to make a point

128

00:05:11,270 --> 00:05:08,580

about the overarching phenomenon or what

129

00:05:12,890 --> 00:05:11,280

we colloquially call the phenomenon

130

00:05:15,050 --> 00:05:12,900

first of all I think it's important to

131

00:05:16,610 --> 00:05:15,060

say that my working hypothesis is that

132

00:05:18,730 --> 00:05:16,620

we still have more than one group

133

00:05:21,290 --> 00:05:18,740

involved with us here on the earth

134

00:05:23,510 --> 00:05:21,300

indeed many many different types of

135

00:05:25,550 --> 00:05:23,520

origin sources I would suggest and

136

00:05:27,710 --> 00:05:25,560

within each of those perhaps we have

137

00:05:29,510 --> 00:05:27,720

different groups for instance what we're

138

00:05:32,210 --> 00:05:29,520

going to discuss today will involve a

139

00:05:34,010 --> 00:05:32,220

certain kind of hypothesis that gives An

140

00:05:35,689 --> 00:05:34,020

Origin explanation for some of these

141

00:05:38,510 --> 00:05:35,699

beings and I want to make clear that

142

00:05:39,830 --> 00:05:38,520

even amongst this one narrow focus of a

143

00:05:41,810 --> 00:05:39,840

type of being we're going to talk about

144

00:05:44,330 --> 00:05:41,820

today being so perhaps we're coming

145

00:05:46,850 --> 00:05:44,340

through time rather than from somewhere

146

00:05:49,070 --> 00:05:46,860

else or at least the time is the key

147

00:05:50,749 --> 00:05:49,080

element because of course space time is

148

00:05:52,249 --> 00:05:50,759

one integrated fabric so if they're

149

00:05:54,710 --> 00:05:52,259

coming through time they're also coming

150

00:05:56,810 --> 00:05:54,720

through space and because the Earth is a

151
00:05:59,029 --> 00:05:56,820
moving object in fact our entire solar

152
00:06:00,770 --> 00:05:59,039
system is moving then that also means

153
00:06:04,010 --> 00:06:00,780
that they are coming through space as

154
00:06:06,110 --> 00:06:04,020
well but the primary element is time

155
00:06:07,610 --> 00:06:06,120
but again even there amongst the groups

156
00:06:10,249 --> 00:06:07,620
that are coming through I think we see

157
00:06:12,230 --> 00:06:10,259
evidence in the data for different types

158
00:06:14,629 --> 00:06:12,240
of groups different factions even have

159
00:06:17,150 --> 00:06:14,639
the same kinds of groups this is part of

160
00:06:18,590 --> 00:06:17,160
the complexity here I also want to point

161
00:06:20,749 --> 00:06:18,600
out that what's interesting when you

162
00:06:23,330 --> 00:06:20,759
think about the total data to do with

163
00:06:25,670 --> 00:06:23,340

the UFO phenomenon it's always good to

164

00:06:27,890 --> 00:06:25,680

look for patterns within the totality

165

00:06:29,930 --> 00:06:27,900

because we sometimes conflate and

166

00:06:32,210 --> 00:06:29,940

collapse all of the data assuming that

167

00:06:35,270 --> 00:06:32,220

we will find one origin source and one

168

00:06:36,590 --> 00:06:35,280

agenda for the entire Enterprise and I

169

00:06:38,870 --> 00:06:36,600

think personally that's where we go

170

00:06:41,270 --> 00:06:38,880

wrong I think when we look at the data

171

00:06:43,790 --> 00:06:41,280

we actually can identify patterns within

172

00:06:46,790 --> 00:06:43,800

it sub patterns that speak to a specific

173

00:06:49,129 --> 00:06:46,800

historical Enterprise being conducted by

174

00:06:50,930 --> 00:06:49,139

specific beings and again that's what

175

00:06:52,010 --> 00:06:50,940

we're going to speak to today because I

176

00:06:54,529 --> 00:06:52,020

think much of what we're going to

177

00:06:56,270 --> 00:06:54,539

discuss today has to do with events that

178

00:06:58,730 --> 00:06:56,280

happened in the 20th moving into the

179

00:07:01,430 --> 00:06:58,740

21st century and especially towards the

180

00:07:04,010 --> 00:07:01,440

latter half of the 20th century

181

00:07:06,050 --> 00:07:04,020

of course that said I would be remiss to

182

00:07:08,990 --> 00:07:06,060

not also mention that once time travel

183

00:07:10,909 --> 00:07:09,000

enters the picture even if it began by

184

00:07:12,469 --> 00:07:10,919

entering at a certain point in linear

185

00:07:14,990 --> 00:07:12,479

time or what we experience as linear

186

00:07:16,969 --> 00:07:15,000

time then as it gets perfected then

187

00:07:19,550 --> 00:07:16,979

perhaps you go back further and further

188

00:07:22,070 --> 00:07:19,560

and so what is the original or the first

189

00:07:24,050 --> 00:07:22,080

example gets confusing because when it

190

00:07:26,390 --> 00:07:24,060

actually entered a certain timeline is

191

00:07:28,610 --> 00:07:26,400

one issue but how it ends up impacting

192

00:07:30,950 --> 00:07:28,620

the entire timeline or perhaps creating

193

00:07:33,290 --> 00:07:30,960

multiple timelines is another issue

194

00:07:35,210 --> 00:07:33,300

entirely that's part of the complexity

195

00:07:37,790 --> 00:07:35,220

here especially because we've been so

196

00:07:40,730 --> 00:07:37,800

conditioned to think in terms of linear

197

00:07:43,189 --> 00:07:40,740

time and much of our expectations will

198

00:07:45,469 --> 00:07:43,199

be stretched here and that's perhaps why

199

00:07:47,749 --> 00:07:45,479

this hypothesis hasn't gained more

200

00:07:50,330 --> 00:07:47,759

traction in the mainstream because

201
00:07:52,309 --> 00:07:50,340
apparent paradoxes prevent people from

202
00:07:54,290 --> 00:07:52,319
really taking it seriously and perhaps

203
00:07:56,689 --> 00:07:54,300
looking at the data through this lens

204
00:07:58,550 --> 00:07:56,699
but once you move past those paradoxes

205
00:08:01,070 --> 00:07:58,560
and I think we can once we really think

206
00:08:03,589 --> 00:08:01,080
through what's really going on here then

207
00:08:06,409 --> 00:08:03,599
actually again this is a very good fit

208
00:08:08,330 --> 00:08:06,419
for a certain specific aspect of the

209
00:08:10,749 --> 00:08:08,340
totality of the phenomenon a very

210
00:08:13,610 --> 00:08:10,759
specific seemingly historical Enterprise

211
00:08:15,950 --> 00:08:13,620
involving certain kinds of beings and

212
00:08:18,950 --> 00:08:15,960
morphologies that almost match to a t

213
00:08:21,189 --> 00:08:18,960

forms already existing on the earth or

214

00:08:23,450 --> 00:08:21,199

they are at least even to the naked eye

215

00:08:25,969 --> 00:08:23,460

seemingly examples of further

216

00:08:28,969 --> 00:08:25,979

evolutionary trajectories involving

217

00:08:31,670 --> 00:08:28,979

forms types that already exist right

218

00:08:33,889 --> 00:08:31,680

here on our home planet

219

00:08:36,829 --> 00:08:33,899

in today's episode we'll be relying

220

00:08:38,630 --> 00:08:36,839

largely on Mike Master's work Dr Mike

221

00:08:40,730 --> 00:08:38,640

Masters who is a biological

222

00:08:43,610 --> 00:08:40,740

Anthropologist and paleoanthropologist

223

00:08:45,829 --> 00:08:43,620

also a friend of mine he's written

224

00:08:47,810 --> 00:08:45,839

several books on this issue of time

225

00:08:50,030 --> 00:08:47,820

travel and its relation to the UFO

226

00:08:52,070 --> 00:08:50,040

phenomenon the book we're going to focus

227

00:08:55,009 --> 00:08:52,080

on today is the extra-term Pastoral

228

00:08:57,410 --> 00:08:55,019

model he also has a new book out called

229

00:08:59,990 --> 00:08:57,420

Revelation the future human past which

230

00:09:01,850 --> 00:09:00,000

is written as fiction but you might ask

231

00:09:03,410 --> 00:09:01,860

yourself whether or not writing it as

232

00:09:05,990 --> 00:09:03,420

fiction allows for a certain kind of

233

00:09:08,630 --> 00:09:06,000

artistic license to tackle some of these

234

00:09:10,790 --> 00:09:08,640

tricky topics but I highly recommend you

235

00:09:12,769 --> 00:09:10,800

check out that book too but today we're

236

00:09:14,630 --> 00:09:12,779

going to focus on the extra tempestal

237

00:09:17,389 --> 00:09:14,640

model the second of the three books he's

238

00:09:19,370 --> 00:09:17,399

written on this matter of time travel on

239

00:09:23,150 --> 00:09:19,380

the matter of these being future humans

240

00:09:25,190 --> 00:09:23,160

perhaps that we are encountering

241

00:09:26,930 --> 00:09:25,200

now first of all before we kick off here

242

00:09:28,550 --> 00:09:26,940

because I'm thinking about some of you

243

00:09:31,430 --> 00:09:28,560

might be very eager to hear this

244

00:09:33,470 --> 00:09:31,440

hypothesis others might be not so open

245

00:09:35,650 --> 00:09:33,480

to it because you're so connected to

246

00:09:37,790 --> 00:09:35,660

this being extraterrestrials or

247

00:09:39,170 --> 00:09:37,800

ultra-terrestrials or interdimensionals

248

00:09:41,210 --> 00:09:39,180

or something else

249

00:09:44,449 --> 00:09:41,220

I just want to say be self-aware about

250

00:09:47,150 --> 00:09:44,459

which hypotheses resonate with you and

251
00:09:49,130 --> 00:09:47,160
why this is a self-awareness check here

252
00:09:51,110 --> 00:09:49,140
because we always want to be searching

253
00:09:54,410 --> 00:09:51,120
for trying to be aware of making

254
00:09:56,630 --> 00:09:54,420
ourselves aware of potential bias in our

255
00:09:59,630 --> 00:09:56,640
response to this phenomenon in our

256
00:10:01,970 --> 00:09:59,640
delving into this data

257
00:10:04,070 --> 00:10:01,980
now in previous episodes I've also

258
00:10:06,170 --> 00:10:04,080
touched on this topic the extra

259
00:10:08,329 --> 00:10:06,180
tempestral model or the extra-term

260
00:10:10,670 --> 00:10:08,339
Pastoral hypothesis the notion that

261
00:10:12,889 --> 00:10:10,680
these are beings actually coming from

262
00:10:15,110 --> 00:10:12,899
our future and yes indeed that would

263
00:10:17,750 --> 00:10:15,120

make them our descendants

264

00:10:20,630 --> 00:10:17,760

now in previous episodes I focused on

265

00:10:22,550 --> 00:10:20,640

the likely biological connection these

266

00:10:24,230 --> 00:10:22,560

beings have with us based on their

267

00:10:25,970 --> 00:10:24,240

morphology and we've gone into that in

268

00:10:28,130 --> 00:10:25,980

great detail we will touch on that

269

00:10:29,930 --> 00:10:28,140

briefly in a moment but mainly what I

270

00:10:32,269 --> 00:10:29,940

want to focus on today is largely what

271

00:10:34,730 --> 00:10:32,279

Mike Masters focuses on in this second

272

00:10:36,590 --> 00:10:34,740

book the extra-term Pastoral model which

273

00:10:39,650 --> 00:10:36,600

is the other elements of the historical

274

00:10:41,329 --> 00:10:39,660

narrative that fit really well with the

275

00:10:43,130 --> 00:10:41,339

notion that these are future humans

276

00:10:46,009 --> 00:10:43,140

coming back perhaps trying to change

277

00:10:47,389 --> 00:10:46,019

something in the timeline now again can

278

00:10:49,550 --> 00:10:47,399

you change timelines that's something

279

00:10:51,710 --> 00:10:49,560

we'll get into that's a complex matter

280

00:10:53,210 --> 00:10:51,720

what's interesting about this book is he

281

00:10:55,490 --> 00:10:53,220

takes different case studies of

282

00:10:57,410 --> 00:10:55,500

historical events that have involved the

283

00:10:59,930 --> 00:10:57,420

UFO phenomenon even some of our most

284

00:11:02,090 --> 00:10:59,940

well-known ones but looking at it from

285

00:11:03,949 --> 00:11:02,100

the lens of the extra-term Pastoral

286

00:11:06,110 --> 00:11:03,959

model in other words looking at what was

287

00:11:08,150 --> 00:11:06,120

reported as happening in those events

288

00:11:09,590 --> 00:11:08,160

the kinds of beings that were described

289

00:11:11,630 --> 00:11:09,600

the kinds of behaviors that were

290

00:11:13,250 --> 00:11:11,640

described the ways the craft were

291

00:11:14,990 --> 00:11:13,260

described the ways that the

292

00:11:17,210 --> 00:11:15,000

hybridization and biological exam

293

00:11:19,490 --> 00:11:17,220

elimination seems so front and center

294

00:11:22,190 --> 00:11:19,500

when you look at that through the lens

295

00:11:24,410 --> 00:11:22,200

of the extra tampestral model especially

296

00:11:26,210 --> 00:11:24,420

when we tie to that certain Revelations

297

00:11:28,490 --> 00:11:26,220

these beings have provided to different

298

00:11:30,769 --> 00:11:28,500

experiences around why they're doing it

299

00:11:33,110 --> 00:11:30,779

then suddenly begins to make a lot of

300

00:11:35,389 --> 00:11:33,120

sense so much so in fact that it makes

301
00:11:37,009 --> 00:11:35,399
us Wonder makes me wonder anyway if

302
00:11:39,290 --> 00:11:37,019
perhaps this has been hiding in plain

303
00:11:41,810 --> 00:11:39,300
sight all along and perhaps again

304
00:11:43,970 --> 00:11:41,820
bringing up that word bias that's all

305
00:11:45,769 --> 00:11:43,980
that's prevented us from seeing this as

306
00:11:47,870 --> 00:11:45,779
the best fit for the data especially

307
00:11:50,329 --> 00:11:47,880
again for a certain segment of the data

308
00:11:51,769 --> 00:11:50,339
to do with events we look back on in the

309
00:11:54,230 --> 00:11:51,779
20th century

310
00:11:55,970 --> 00:11:54,240
okay so let's jump into the book first

311
00:11:57,769 --> 00:11:55,980
of all again I just want to touch on the

312
00:11:59,930 --> 00:11:57,779
fact that the morphology the

313
00:12:01,850 --> 00:11:59,940

similarities between us and them are

314

00:12:03,530 --> 00:12:01,860

remarkable especially when you're a

315

00:12:05,810 --> 00:12:03,540

biological Anthropologist like Mike

316

00:12:08,389 --> 00:12:05,820

Masters who has a specialty in the

317

00:12:11,269 --> 00:12:08,399

hominid line he looks at them and looks

318

00:12:13,730 --> 00:12:11,279

at us and sees two types that must be

319

00:12:15,889 --> 00:12:13,740

connected genetically connected along an

320

00:12:18,230 --> 00:12:15,899

evolutionary trajectory

321

00:12:20,210 --> 00:12:18,240

quoting from the book here quote as

322

00:12:22,190 --> 00:12:20,220

mentioned above it is improbable that

323

00:12:24,829 --> 00:12:22,200

extraterrestrial aliens would evolve to

324

00:12:26,810 --> 00:12:24,839

look or act like us the odds are very

325

00:12:29,630 --> 00:12:26,820

low that another two-legged upright

326

00:12:31,970 --> 00:12:29,640

walking hominin with two eyes a nose a

327

00:12:34,550 --> 00:12:31,980

mouth five digits on each hand and foot

328

00:12:37,009 --> 00:12:34,560

and an enlarged brain and neurocranium

329

00:12:38,990 --> 00:12:37,019

would evolve again in a separate solar

330

00:12:41,030 --> 00:12:39,000

system it is even less likely when

331

00:12:44,150 --> 00:12:41,040

considering the specific environmental

332

00:12:46,610 --> 00:12:44,160

and bio-cultural factors that culminated

333

00:12:48,710 --> 00:12:46,620

in our complex condition making our

334

00:12:52,670 --> 00:12:48,720

species unique among the plethora of

335

00:12:55,310 --> 00:12:52,680

other organisms on this planet unquote

336

00:12:56,930 --> 00:12:55,320

so key points there number one we share

337

00:12:58,670 --> 00:12:56,940

many things in common with them and

338

00:13:00,290 --> 00:12:58,680

perhaps we're so familiar with these

339

00:13:02,329 --> 00:13:00,300

details because we see each other all

340

00:13:04,670 --> 00:13:02,339

the time that we kind of miss the

341

00:13:06,889 --> 00:13:04,680

remarkable aspect there that these

342

00:13:08,629 --> 00:13:06,899

beings look so much like us they have a

343

00:13:11,030 --> 00:13:08,639

head with two eyes and nose some

344

00:13:14,090 --> 00:13:11,040

semblance of a mouth and ears they have

345

00:13:15,290 --> 00:13:14,100

two arms two legs bipedal in nature all

346

00:13:17,090 --> 00:13:15,300

of these things that they share in

347

00:13:19,009 --> 00:13:17,100

common with us in terms of a humanoid

348

00:13:21,170 --> 00:13:19,019

form and again that's just looking at

349

00:13:22,970 --> 00:13:21,180

what we call the Graze there are also

350

00:13:25,009 --> 00:13:22,980

many encounters with even more human

351
00:13:26,870 --> 00:13:25,019
looking beings and again we'll get into

352
00:13:28,610 --> 00:13:26,880
how perhaps that suggests these beings

353
00:13:30,470 --> 00:13:28,620
are from different points along the

354
00:13:32,690 --> 00:13:30,480
timeline and the ones that look most

355
00:13:34,610 --> 00:13:32,700
like us are coming from the near future

356
00:13:37,009 --> 00:13:34,620
the ones that look the least like us

357
00:13:38,750 --> 00:13:37,019
coming from the most distant future that

358
00:13:40,430 --> 00:13:38,760
actually again makes a lot of sense once

359
00:13:42,530 --> 00:13:40,440
you start thinking about it

360
00:13:45,050 --> 00:13:42,540
but that's the biological similarity

361
00:13:47,269 --> 00:13:45,060
which again you cannot look past but

362
00:13:49,490 --> 00:13:47,279
once you do as I said as we're going to

363
00:13:51,530 --> 00:13:49,500

do in this episode in different case

364

00:13:53,090 --> 00:13:51,540

studies examining the actual data in

365

00:13:55,069 --> 00:13:53,100

terms of what they were doing what was

366

00:13:57,590 --> 00:13:55,079

happening and the things they said to

367

00:13:59,329 --> 00:13:57,600

experiencers again suddenly it makes a

368

00:14:01,970 --> 00:13:59,339

lot of sense when you look at it through

369

00:14:03,829 --> 00:14:01,980

the extra tempestal model lens and when

370

00:14:05,509 --> 00:14:03,839

you think about the reasons that are

371

00:14:08,210 --> 00:14:05,519

perhaps given as to why they would be

372

00:14:09,769 --> 00:14:08,220

conducting these kinds of Affairs now I

373

00:14:11,870 --> 00:14:09,779

encouraged to that last Point again I

374

00:14:13,190 --> 00:14:11,880

want to say this as an experiencer as

375

00:14:15,650 --> 00:14:13,200

someone who is representing other

376

00:14:18,410 --> 00:14:15,660

experiencers championing experiencers

377

00:14:21,230 --> 00:14:18,420

again some people will not want to take

378

00:14:22,850 --> 00:14:21,240

into account the historical data around

379

00:14:25,129 --> 00:14:22,860

what has been communicated to

380

00:14:27,050 --> 00:14:25,139

experiences in terms of messages that

381

00:14:29,629 --> 00:14:27,060

these beings have for us as earthlings

382

00:14:31,730 --> 00:14:29,639

and messages they have about why they

383

00:14:34,190 --> 00:14:31,740

came here what they're doing here and

384

00:14:35,930 --> 00:14:34,200

perhaps when they came from all of these

385

00:14:37,850 --> 00:14:35,940

elements are in the historical

386

00:14:39,949 --> 00:14:37,860

literature if we will pay attention to

387

00:14:42,710 --> 00:14:39,959

it some people of the nuts and bolts

388

00:14:45,110 --> 00:14:42,720

variety will refuse to but that is I

389

00:14:47,449 --> 00:14:45,120

think a foolhardy way to approach this

390

00:14:49,370 --> 00:14:47,459

this is a rich historical narrative this

391

00:14:50,329 --> 00:14:49,380

is a data set this is something we

392

00:14:52,550 --> 00:14:50,339

should definitely take into

393

00:14:54,889 --> 00:14:52,560

consideration when we formulate our

394

00:14:56,750 --> 00:14:54,899

hypotheses Mike Masters has done that

395

00:14:59,329 --> 00:14:56,760

here and I applaud him for his efforts

396

00:15:02,509 --> 00:14:59,339

again he's in a very unique position to

397

00:15:05,090 --> 00:15:02,519

not only have a background in biological

398

00:15:07,009 --> 00:15:05,100

anthropology but he's also taking

399

00:15:10,009 --> 00:15:07,019

seriously the accounts that experiences

400

00:15:12,350 --> 00:15:10,019

provide in terms of what they hear from

401
00:15:14,030 --> 00:15:12,360
these other beings and again that is

402
00:15:16,550 --> 00:15:14,040
credit to him because some people simply

403
00:15:17,990 --> 00:15:16,560
ignore it but this is a rich part of the

404
00:15:19,189 --> 00:15:18,000
historical literature the historical

405
00:15:20,930 --> 00:15:19,199
data

406
00:15:23,210 --> 00:15:20,940
and then when you take all of that into

407
00:15:25,610 --> 00:15:23,220
consideration this does emerge I think

408
00:15:27,949 --> 00:15:25,620
as a leading hypothesis again for this

409
00:15:30,769 --> 00:15:27,959
aspect of the data this sub pattern

410
00:15:32,150 --> 00:15:30,779
within the totality I think this is the

411
00:15:34,310 --> 00:15:32,160
best fit for the data we're looking at

412
00:15:36,110 --> 00:15:34,320
today the data we're considering even

413
00:15:38,030 --> 00:15:36,120

the data that's part of the John Mack

414

00:15:39,290 --> 00:15:38,040
archives which of course I'm very

415

00:15:41,090 --> 00:15:39,300
interested in

416

00:15:42,889 --> 00:15:41,100
now before we move into some of the

417

00:15:44,689 --> 00:15:42,899
historical cases that we'll consider

418

00:15:46,310 --> 00:15:44,699
that will also again I think support

419

00:15:49,129 --> 00:15:46,320
this notion that they could be extra

420

00:15:52,189 --> 00:15:49,139
tempestules let's first consider their

421

00:15:53,629 --> 00:15:52,199
clandestine nature why do they hide so

422

00:15:55,610 --> 00:15:53,639
much why don't they land on the White

423

00:15:57,889 --> 00:15:55,620
House lawn and announce their presence

424

00:15:59,990 --> 00:15:57,899
if they are extraterrestrials from Alpha

425

00:16:01,009 --> 00:16:00,000
Centauri or some other far-flung

426

00:16:02,750 --> 00:16:01,019

location

427

00:16:05,930 --> 00:16:02,760

this is what Masters has to say about

428

00:16:08,090 --> 00:16:05,940

that quote if extraterrestrial beings

429

00:16:10,430 --> 00:16:08,100

did happen to locate us and Traverse

430

00:16:12,350 --> 00:16:10,440

vast distances to get here we might

431

00:16:14,750 --> 00:16:12,360

expect some formal introduction upon

432

00:16:16,730 --> 00:16:14,760

their arrival still the approach of the

433

00:16:19,009 --> 00:16:16,740

visitors thus far has been epic in

434

00:16:20,689 --> 00:16:19,019

nature with no formal contact or

435

00:16:22,850 --> 00:16:20,699

announcement of their presence in our

436

00:16:24,650 --> 00:16:22,860

times it is hard to Fathom why

437

00:16:26,750 --> 00:16:24,660

extraterrestrials From A Distant star

438

00:16:29,509 --> 00:16:26,760

system would zip around our skies and

439

00:16:32,030 --> 00:16:29,519

oceans and occasionally perform covert

440

00:16:34,970 --> 00:16:32,040

medical examinations on us then return

441

00:16:37,310 --> 00:16:34,980

home without introducing themselves this

442

00:16:39,170 --> 00:16:37,320

scenario seems far more paradoxical than

443

00:16:41,990 --> 00:16:39,180

one in which are distant descendants

444

00:16:45,290 --> 00:16:42,000

return to investigate their own past

445

00:16:47,629 --> 00:16:45,300

while avoiding overt contact for fear of

446

00:16:50,509 --> 00:16:47,639

disrupting our social order or the

447

00:16:52,129 --> 00:16:50,519

entire timeline unquote

448

00:16:53,810 --> 00:16:52,139

again I think that's a compelling

449

00:16:55,790 --> 00:16:53,820

argument when you think about their

450

00:16:57,350 --> 00:16:55,800

clandestine nature yes they could be

451
00:16:59,930 --> 00:16:57,360
following some sort of prime directive

452
00:17:01,910 --> 00:16:59,940
that's possible but then why do we see

453
00:17:03,170 --> 00:17:01,920
so much of them while they're also

454
00:17:05,270 --> 00:17:03,180
supposedly following that prime

455
00:17:07,189 --> 00:17:05,280
directive It's a combination of the two

456
00:17:09,590 --> 00:17:07,199
that I think is the compelling argument

457
00:17:11,569 --> 00:17:09,600
leaning towards the notion that they're

458
00:17:13,309 --> 00:17:11,579
here and showing themselves only as much

459
00:17:15,710 --> 00:17:13,319
as they need to and they mostly are

460
00:17:17,630 --> 00:17:15,720
trying to hide because this is a covert

461
00:17:19,549 --> 00:17:17,640
Enterprise because they do not want most

462
00:17:22,069 --> 00:17:19,559
of us to know why they're here and they

463
00:17:24,289 --> 00:17:22,079

don't want to impact the timeline by

464

00:17:27,590 --> 00:17:24,299

broadcasting both their presence and

465

00:17:29,150 --> 00:17:27,600

their origin to us now again furthering

466

00:17:31,250 --> 00:17:29,160

that point I've seen some people

467

00:17:33,890 --> 00:17:31,260

interested in this topic who assume that

468

00:17:35,750 --> 00:17:33,900

their ETS being frustrated by the fact

469

00:17:37,250 --> 00:17:35,760

that these beings don't tell us who they

470

00:17:39,710 --> 00:17:37,260

are and where they're coming from and

471

00:17:42,350 --> 00:17:39,720

why they're here some people see this as

472

00:17:44,570 --> 00:17:42,360

signs of malicious intent inherently

473

00:17:46,430 --> 00:17:44,580

malicious intent because of the silence

474

00:17:48,230 --> 00:17:46,440

but I think this is a good example

475

00:17:49,970 --> 00:17:48,240

whether or not this is the appropriate

476

00:17:52,310 --> 00:17:49,980

hypothesis and is proven to be correct

477

00:17:53,990 --> 00:17:52,320

in the long run or not that we have to

478

00:17:56,510 --> 00:17:54,000

be careful when we lead to conclusions

479

00:17:58,130 --> 00:17:56,520

like that because if it's true that for

480

00:17:59,990 --> 00:17:58,140

instance in a case like this they might

481

00:18:02,029 --> 00:18:00,000

be concerned with polluting the timeline

482

00:18:03,590 --> 00:18:02,039

changing the very timeline that could

483

00:18:06,049 --> 00:18:03,600

impact their future not to mention

484

00:18:08,990 --> 00:18:06,059

aspects of our own future that they

485

00:18:11,750 --> 00:18:09,000

would be cautious reticent about how

486

00:18:14,150 --> 00:18:11,760

they interact with us so silence and

487

00:18:17,029 --> 00:18:14,160

clandestine activities don't necessarily

488

00:18:19,010 --> 00:18:17,039

imply nefarious intent

489

00:18:21,110 --> 00:18:19,020

now one of the first case studies we're

490

00:18:25,190 --> 00:18:21,120

going to look at here involves a man

491

00:18:27,169 --> 00:18:25,200

named Udo wartina from 1940 in Montana

492

00:18:28,970 --> 00:18:27,179

this is something Udo said afterwards

493

00:18:30,830 --> 00:18:28,980

regarding his encounter

494

00:18:33,289 --> 00:18:30,840

quote he was a nice looking man

495

00:18:35,810 --> 00:18:33,299

seemingly about my age he wore a light

496

00:18:37,730 --> 00:18:35,820

gray pair of overalls a hat of the same

497

00:18:40,430 --> 00:18:37,740

material on his head and on his feet

498

00:18:43,430 --> 00:18:40,440

were slippers or moccasins his English

499

00:18:45,529 --> 00:18:43,440

was like mine but he spoke slowly as if

500

00:18:47,270 --> 00:18:45,539

he were a linguished and had to pick his

501
00:18:49,190 --> 00:18:47,280
way unquote

502
00:18:51,650 --> 00:18:49,200
so this is interesting again people

503
00:18:53,690 --> 00:18:51,660
attached to the ET hypothesis will say

504
00:18:55,430 --> 00:18:53,700
Well they're just casting that

505
00:18:57,049 --> 00:18:55,440
impression on people they don't really

506
00:18:58,549 --> 00:18:57,059
look like human beings they're just

507
00:19:00,710 --> 00:18:58,559
doing that to make him feel more

508
00:19:03,110 --> 00:19:00,720
comfortable or again if people assume

509
00:19:05,330 --> 00:19:03,120
nefarious intent then they assume this

510
00:19:07,130 --> 00:19:05,340
perhaps implies they're trying to fool

511
00:19:08,930 --> 00:19:07,140
him it's a ruse while they try to

512
00:19:11,690 --> 00:19:08,940
manipulate him for some sort of

513
00:19:14,090 --> 00:19:11,700

Nefarious purpose but again another way

514

00:19:15,710 --> 00:19:14,100

to look at it is just at face value that

515

00:19:17,570 --> 00:19:15,720

he saw someone that looked like a man

516

00:19:18,350 --> 00:19:17,580

enough like a man that he didn't really

517

00:19:21,230 --> 00:19:18,360

even

518

00:19:23,690 --> 00:19:21,240

notice anything hugely different except

519

00:19:25,730 --> 00:19:23,700

the way that he spoke English he spoke

520

00:19:28,250 --> 00:19:25,740

English but he seemed to be picking his

521

00:19:30,529 --> 00:19:28,260

words as if he was a linguist so we can

522

00:19:32,690 --> 00:19:30,539

imagine here again following this lens

523

00:19:34,669 --> 00:19:32,700

of the extra-term Pastoral model perhaps

524

00:19:37,490 --> 00:19:34,679

this is an anthropologist someone who's

525

00:19:40,190 --> 00:19:37,500

studied languages ancient languages even

526
00:19:42,770 --> 00:19:40,200
and managed to master them to a certain

527
00:19:44,750 --> 00:19:42,780
degree but not like a native speaker but

528
00:19:47,029 --> 00:19:44,760
it allowed him to at least carry on a

529
00:19:49,310 --> 00:19:47,039
conversation with Udo

530
00:19:51,830 --> 00:19:49,320
and the next element I want to get to is

531
00:19:53,690 --> 00:19:51,840
the technological nature of these craft

532
00:19:56,450 --> 00:19:53,700
this is something else to consider here

533
00:19:58,370 --> 00:19:56,460
again when people conflate and collapse

534
00:20:00,710 --> 00:19:58,380
all of the data they assume that this is

535
00:20:02,870 --> 00:20:00,720
all about some Third Realm some beings

536
00:20:04,730 --> 00:20:02,880
coming from some place some Dimension

537
00:20:07,610 --> 00:20:04,740
that's not really physical in nature

538
00:20:09,169 --> 00:20:07,620

perhaps flying craft that only look like

539

00:20:11,210 --> 00:20:09,179

crap they're actually more like

540

00:20:14,090 --> 00:20:11,220

something else something magical

541

00:20:15,650 --> 00:20:14,100

something non-physical in a way but

542

00:20:17,990 --> 00:20:15,660

what's clear in many of these encounters

543

00:20:20,330 --> 00:20:18,000

again from this particular aspect of the

544

00:20:22,730 --> 00:20:20,340

literature these are very technological

545

00:20:24,529 --> 00:20:22,740

craft and we're going to see that in how

546

00:20:26,330 --> 00:20:24,539

Udo describes his encounter with the

547

00:20:27,950 --> 00:20:26,340

craft itself

548

00:20:30,830 --> 00:20:27,960

when a quote from the book again here

549

00:20:32,450 --> 00:20:30,840

quote once inside where Tina noticed

550

00:20:34,970 --> 00:20:32,460

that the pervasive humming sound he

551
00:20:36,830 --> 00:20:34,980
heard outside was no longer audible when

552
00:20:38,510 --> 00:20:36,840
he asked about the sound the man not

553
00:20:40,610 --> 00:20:38,520
only told him where it came from and how

554
00:20:43,010 --> 00:20:40,620
it related to powering the ship but

555
00:20:45,230 --> 00:20:43,020
according to Warren Ashton's 1998

556
00:20:46,549 --> 00:20:45,240
research where Tina was given what

557
00:20:49,010 --> 00:20:46,559
appeared to be a full and open

558
00:20:52,250 --> 00:20:49,020
discussion of the key principle involved

559
00:20:53,950 --> 00:20:52,260
in the following words quote as you

560
00:20:56,810 --> 00:20:53,960
noticed we are floating above the ground

561
00:20:59,570 --> 00:20:56,820
and though the ground slopes the ship is

562
00:21:02,029 --> 00:20:59,580
level there are in the outside room two

563
00:21:04,130 --> 00:21:02,039

flywheels one turning one way and the

564

00:21:05,870 --> 00:21:04,140

other in the opposite direction he

565

00:21:08,630 --> 00:21:05,880

explained that this gives the ship its

566

00:21:10,190 --> 00:21:08,640

own gravitation or rather overcomes the

567

00:21:13,010 --> 00:21:10,200

gravitational pull of the earth and

568

00:21:14,270 --> 00:21:13,020

other planets the sun and stars and

569

00:21:16,789 --> 00:21:14,280

through the pull of the stars and

570

00:21:19,610 --> 00:21:16,799

planets to ride on like you do when you

571

00:21:21,590 --> 00:21:19,620

sail on Ice unquote

572

00:21:23,450 --> 00:21:21,600

again this is just to address the fact

573

00:21:26,029 --> 00:21:23,460

that this is a technological vehicle

574

00:21:28,010 --> 00:21:26,039

this is not some sort of light form that

575

00:21:30,350 --> 00:21:28,020

is just looking like a physical craft

576

00:21:33,169 --> 00:21:30,360

clearly we are seeing elements of

577

00:21:34,549 --> 00:21:33,179

Technology here advanced technology and

578

00:21:36,590 --> 00:21:34,559

now we're going to learn about how this

579

00:21:38,510 --> 00:21:36,600

specific kind of Technology could

580

00:21:40,850 --> 00:21:38,520

actually be used for something like time

581

00:21:43,070 --> 00:21:40,860

travel quoting from the book again quote

582

00:21:45,409 --> 00:21:43,080

high electromagnetic fields are

583

00:21:47,570 --> 00:21:45,419

frequently detected in and around UFOs

584

00:21:50,210 --> 00:21:47,580

and places where they had recently been

585

00:21:51,770 --> 00:21:50,220

it is also common for cars radios and

586

00:21:54,350 --> 00:21:51,780

other devices to become increasingly

587

00:21:56,690 --> 00:21:54,360

erratic and completely shut off as a UAP

588

00:21:58,669 --> 00:21:56,700

approaches the prevalence of these

589

00:22:00,710 --> 00:21:58,679

reports suggests the electromagnetic

590

00:22:03,649 --> 00:22:00,720

force is integral to the operation of

591

00:22:05,690 --> 00:22:03,659

these machines the fundamental Force may

592

00:22:07,909 --> 00:22:05,700

also be a part of how these Travelers

593

00:22:09,710 --> 00:22:07,919

manipulate SpaceTime to return to the

594

00:22:11,810 --> 00:22:09,720

past and how they withstand the

595

00:22:14,090 --> 00:22:11,820

tremendous g-forces generated in

596

00:22:16,549 --> 00:22:14,100

association with the incredibly fast

597

00:22:19,610 --> 00:22:16,559

accelerations and decelerations observed

598

00:22:21,730 --> 00:22:19,620

as we'll be discussed later in the text

599

00:22:23,810 --> 00:22:21,740

there is already some indication that

600

00:22:25,730 --> 00:22:23,820

electromagnetism could be a valuable

601
00:22:29,090 --> 00:22:25,740
tool in our pervasive fight against

602
00:22:30,770 --> 00:22:29,100
gravity in aeronautic engineering its

603
00:22:33,049 --> 00:22:30,780
future significance in anti-gravity

604
00:22:34,970 --> 00:22:33,059
propulsion systems may be implicit in

605
00:22:37,250 --> 00:22:34,980
the immense differences between the

606
00:22:39,830 --> 00:22:37,260
electromagnetic and gravitational forces

607
00:22:41,750 --> 00:22:39,840
in fact according to Dr Clifford Johnson

608
00:22:43,669 --> 00:22:41,760
a professor in the department of physics

609
00:22:46,250 --> 00:22:43,679
and astronomy at the University of

610
00:22:48,289 --> 00:22:46,260
Southern California we tend to think of

611
00:22:50,450 --> 00:22:48,299
gravity as very strong after all it's

612
00:22:52,430 --> 00:22:50,460
what binds us to the Earth but actually

613
00:22:55,130 --> 00:22:52,440

of all the forces we know in nature

614

00:22:57,529 --> 00:22:55,140

gravities the weakest let me give you a

615

00:22:59,990 --> 00:22:57,539

number it's 10 to the power 40 times

616

00:23:03,409 --> 00:23:00,000

weaker than electromagnetism that's a

617

00:23:05,630 --> 00:23:03,419

one with 40 zeros after it unquote

618

00:23:08,149 --> 00:23:05,640

and then referring to this difference in

619

00:23:10,730 --> 00:23:08,159

the two strengths Masters goes on to say

620

00:23:12,830 --> 00:23:10,740

that quote it may also Aid in

621

00:23:15,230 --> 00:23:12,840

constructing a device capable of bending

622

00:23:17,570 --> 00:23:15,240

and warping space-time to allow time

623

00:23:19,610 --> 00:23:17,580

travel to the Past manipulating the

624

00:23:22,190 --> 00:23:19,620

electromagnetic force could be a key

625

00:23:25,850 --> 00:23:22,200

component in creating closed time-like

626
00:23:27,350 --> 00:23:25,860
curves CTC by bending space-time to the

627
00:23:30,529 --> 00:23:27,360
extent that light cones become

628
00:23:32,390 --> 00:23:30,539
reoriented toward the past amplifying

629
00:23:35,210 --> 00:23:32,400
the electromagnetic force could help

630
00:23:37,430 --> 00:23:35,220
create ctcs without having to maneuver

631
00:23:39,590 --> 00:23:37,440
masses equivalent to that of a black

632
00:23:41,270 --> 00:23:39,600
hole which may otherwise be needed to

633
00:23:43,610 --> 00:23:41,280
achieve the same level of space-time

634
00:23:45,649 --> 00:23:43,620
warping using the force of gravity

635
00:23:48,350 --> 00:23:45,659
the form and observed capabilities of

636
00:23:49,970 --> 00:23:48,360
uaps considered alongside reports of

637
00:23:52,190 --> 00:23:49,980
Close Encounters detailing the

638
00:23:54,430 --> 00:23:52,200

components and inner workings of these

639

00:23:56,870 --> 00:23:54,440

craft like that

640

00:23:58,549 --> 00:23:56,880

indicate our species may eventually

641

00:24:01,130 --> 00:23:58,559

harness the awesome power of the

642

00:24:03,049 --> 00:24:01,140

electromagnetic force this may allow our

643

00:24:05,570 --> 00:24:03,059

proximate Descendants the ability to

644

00:24:07,250 --> 00:24:05,580

advance aeronautic propulsion and our

645

00:24:10,310 --> 00:24:07,260

more distant descendants to eventually

646

00:24:12,169 --> 00:24:10,320

develop backward time travel technology

647

00:24:14,450 --> 00:24:12,179

unquote

648

00:24:15,950 --> 00:24:14,460

now moving beyond the technology piece

649

00:24:18,010 --> 00:24:15,960

we're going to talk about the actual

650

00:24:20,450 --> 00:24:18,020

encounters and sometimes the

651
00:24:22,850 --> 00:24:20,460
reproductive encounters they're not

652
00:24:24,710 --> 00:24:22,860
always clinical in nature sometimes it

653
00:24:27,409 --> 00:24:24,720
actually involves full-on sexual

654
00:24:29,090 --> 00:24:27,419
intercourse between beings that are

655
00:24:31,250 --> 00:24:29,100
somehow compatible enough that this

656
00:24:34,130 --> 00:24:31,260
seems possible we're going to look at

657
00:24:37,970 --> 00:24:34,140
the case of Antonio Via boa and this

658
00:24:40,490 --> 00:24:37,980
happened in Brazil in 1957. this is

659
00:24:42,529 --> 00:24:40,500
something Antonio villaboya said about

660
00:24:46,010 --> 00:24:42,539
his encounter with a particular female

661
00:24:48,230 --> 00:24:46,020
kind of entity quote I was flabbergasted

662
00:24:50,630 --> 00:24:48,240
and not without good reason the woman

663
00:24:53,630 --> 00:24:50,640

was Stark naked as naked as I was

664

00:24:55,490 --> 00:24:53,640

moreover she was beautiful though of a

665

00:24:57,230 --> 00:24:55,500

different type from the women I had

666

00:25:00,289 --> 00:24:57,240

known unquote

667

00:25:02,690 --> 00:25:00,299

now just to clarify in this account via

668

00:25:05,450 --> 00:25:02,700

bot was led inside the ship by these two

669

00:25:07,970 --> 00:25:05,460

figures human looking figures and taken

670

00:25:10,250 --> 00:25:07,980

to this inner chamber where then a naked

671

00:25:11,990 --> 00:25:10,260

female figure that looked mostly human

672

00:25:14,390 --> 00:25:12,000

came in there were some differences

673

00:25:16,010 --> 00:25:14,400

about her but definitely he was aroused

674

00:25:18,590 --> 00:25:16,020

and they had supposedly sexual

675

00:25:20,590 --> 00:25:18,600

intercourse as The Story Goes now how

676
00:25:22,510 --> 00:25:20,600
would this happen with alien beings with

677
00:25:25,669 --> 00:25:22,520
extraterrestrial being specifically

678
00:25:28,190 --> 00:25:25,679
likely not possible this is what Masters

679
00:25:30,590 --> 00:25:28,200
says about this particular case quote

680
00:25:32,930 --> 00:25:30,600
numerous aspects of via boa's account

681
00:25:35,029 --> 00:25:32,940
suggest these individuals were human and

682
00:25:37,970 --> 00:25:35,039
likely humans from the not too distant

683
00:25:40,130 --> 00:25:37,980
future their temporal proximity is

684
00:25:42,169 --> 00:25:40,140
indicated by viaboa's description of the

685
00:25:44,990 --> 00:25:42,179
woman that seduced him who had only

686
00:25:46,549 --> 00:25:45,000
slightly more derived features which are

687
00:25:48,610 --> 00:25:46,559
entirely consistent with trace

688
00:25:50,870 --> 00:25:48,620

delineating the hominin clade

689

00:25:53,390 --> 00:25:50,880

additionally they both possessed the

690

00:25:55,490 --> 00:25:53,400

requisite Anatomy for having sex with

691

00:25:58,130 --> 00:25:55,500

each other and though Brazil has less

692

00:25:59,870 --> 00:25:58,140

stringent rules against bestiality there

693

00:26:02,870 --> 00:25:59,880

are no indications that via bo

694

00:26:04,970 --> 00:26:02,880

copulated with another species it is

695

00:26:06,830 --> 00:26:04,980

patently possible to copulate with any

696

00:26:08,630 --> 00:26:06,840

variety of animals that we are not

697

00:26:10,690 --> 00:26:08,640

usually attracted to ones different from

698

00:26:14,090 --> 00:26:10,700

ourselves regardless of how much

699

00:26:16,390 --> 00:26:14,100

aphrodisiac antiseptic viscous clear

700

00:26:18,649 --> 00:26:16,400

odorous liquid is rubbed on our bodies

701
00:26:20,870 --> 00:26:18,659
additionally Beyond mere physical

702
00:26:23,330 --> 00:26:20,880
attraction or the functional capacity

703
00:26:25,730 --> 00:26:23,340
for copulation using projecting

704
00:26:27,769 --> 00:26:25,740
phalluses and recessed vaginas which

705
00:26:30,470 --> 00:26:27,779
life forms who evolved on other planets

706
00:26:32,990 --> 00:26:30,480
may not have the basic ability for two

707
00:26:36,049 --> 00:26:33,000
organisms to reproduce viable Offspring

708
00:26:38,510 --> 00:26:36,059
has long been the gold standard used to

709
00:26:41,570 --> 00:26:38,520
determine whether they are the same

710
00:26:45,110 --> 00:26:41,580
species simply stated that biological

711
00:26:47,570 --> 00:26:45,120
species concept BSC asserts that of two

712
00:26:49,850 --> 00:26:47,580
separate organisms can mate reproduce

713
00:26:51,470 --> 00:26:49,860

and produce viable Offspring meaning

714

00:26:53,870 --> 00:26:51,480

their offspring are also able to

715

00:26:56,870 --> 00:26:53,880

reproduce then they are considered the

716

00:26:59,029 --> 00:26:56,880

same species unquote

717

00:27:02,090 --> 00:26:59,039

now again as Masters points out in that

718

00:27:04,190 --> 00:27:02,100

situation that particular case via boa

719

00:27:06,649 --> 00:27:04,200

was perhaps interacting with beings not

720

00:27:09,110 --> 00:27:06,659

from the too distant future and so

721

00:27:10,850 --> 00:27:09,120

sexual intercourse of that kind was

722

00:27:13,010 --> 00:27:10,860

possible because they hadn't changed

723

00:27:14,990 --> 00:27:13,020

much from our current morphology

724

00:27:17,390 --> 00:27:15,000

now with the more distant ones

725

00:27:18,830 --> 00:27:17,400

temporally speaking anyway often

726

00:27:21,169 --> 00:27:18,840

different kinds of techniques are used

727

00:27:23,029 --> 00:27:21,179

but ultimately it's still used to

728

00:27:25,789 --> 00:27:23,039

actually produce hybrid beings which

729

00:27:28,250 --> 00:27:25,799

again suggest that the same root species

730

00:27:30,110 --> 00:27:28,260

is involved

731

00:27:31,610 --> 00:27:30,120

all right now we're going to jump ahead

732

00:27:33,230 --> 00:27:31,620

to another element that actually

733

00:27:36,049 --> 00:27:33,240

supports the notion that the extra

734

00:27:39,049 --> 00:27:36,059

tempestral model is the best explanation

735

00:27:40,430 --> 00:27:39,059

for this actual component of the data

736

00:27:43,490 --> 00:27:40,440

we're going to look at a case that

737

00:27:46,250 --> 00:27:43,500

happened in 1977 involving Corporal

738

00:27:48,710 --> 00:27:46,260

Armando Valdez and this happened in

739

00:27:50,390 --> 00:27:48,720

Pampa uskuma Chile

740

00:27:52,730 --> 00:27:50,400

now what's interesting about this case

741

00:27:55,730 --> 00:27:52,740

perhaps telling about this case is that

742

00:27:58,370 --> 00:27:55,740

we see actual differences in time local

743

00:28:00,769 --> 00:27:58,380

time between Valdez and his experience

744

00:28:03,230 --> 00:28:00,779

versus his men that were in the area

745

00:28:04,370 --> 00:28:03,240

again this gives evidence supporting

746

00:28:07,610 --> 00:28:04,380

this notion that they are actually

747

00:28:09,590 --> 00:28:07,620

manipulating time and that abductees are

748

00:28:11,210 --> 00:28:09,600

often put through a different experience

749

00:28:13,730 --> 00:28:11,220

of time in other words their local

750

00:28:15,490 --> 00:28:13,740

experience of time is different than the

751
00:28:18,649 --> 00:28:15,500
other humans that they are returned to

752
00:28:20,810 --> 00:28:18,659
afterwards so at this point Valdez and

753
00:28:22,190 --> 00:28:20,820
his men see a mysterious object and now

754
00:28:25,430 --> 00:28:22,200
we're going to pick up when Valdez

755
00:28:27,350 --> 00:28:25,440
approaches it quote Valdez said a quick

756
00:28:29,090 --> 00:28:27,360
prayer and ordered the light to leave as

757
00:28:31,370 --> 00:28:29,100
if it were a soldier under his command

758
00:28:33,350 --> 00:28:31,380
because it was not and it didn't leave

759
00:28:36,230 --> 00:28:33,360
that these next demanded that the object

760
00:28:37,970 --> 00:28:36,240
identify itself when this tactic also

761
00:28:40,190 --> 00:28:37,980
failed he began walking toward the

762
00:28:42,169 --> 00:28:40,200
object again but as he drew nearer

763
00:28:44,630 --> 00:28:42,179

Corporal Valdez suddenly disappeared

764

00:28:46,370 --> 00:28:44,640

from sight because the bright violet

765

00:28:48,890 --> 00:28:46,380

light had been illuminating the entire

766

00:28:50,690 --> 00:28:48,900

area his men could plainly see that he

767

00:28:52,909 --> 00:28:50,700

did not simply disappear into the

768

00:28:55,370 --> 00:28:52,919

darkness but instead he vanished

769

00:28:57,470 --> 00:28:55,380

entirely this caused confusion and

770

00:28:59,570 --> 00:28:57,480

consternation amongst the six soldiers

771

00:29:01,870 --> 00:28:59,580

who were watching intently as Valdez

772

00:29:04,490 --> 00:29:01,880

marched towards the peculiar craft

773

00:29:07,789 --> 00:29:04,500

according to his men about 15 minutes

774

00:29:10,669 --> 00:29:07,799

after Corporal Valdez disappeared he

775

00:29:12,529 --> 00:29:10,679

abruptly reappeared however he looked

776

00:29:14,870 --> 00:29:12,539

entirely different from the last time

777

00:29:17,690 --> 00:29:14,880

they saw him in fact in a matter of only

778

00:29:20,090 --> 00:29:17,700

15 minutes Valdez went from being a

779

00:29:22,250 --> 00:29:20,100

strong imposing military officer to

780

00:29:24,830 --> 00:29:22,260

appearing frail weak and extremely

781

00:29:26,570 --> 00:29:24,840

unsteady on his feet feet then in an

782

00:29:28,370 --> 00:29:26,580

almost trance-like State as if

783

00:29:30,830 --> 00:29:28,380

channeling the visitors inside the craft

784

00:29:32,570 --> 00:29:30,840

he said quote you don't know who we are

785

00:29:33,889 --> 00:29:32,580

or where we come from but we will be

786

00:29:36,230 --> 00:29:33,899

back soon

787

00:29:37,549 --> 00:29:36,240

Valdez then lost Consciousness fell to

788

00:29:39,889 --> 00:29:37,559

the ground and didn't wake up again

789

00:29:41,930 --> 00:29:39,899

until seven in the morning when he came

790

00:29:45,049 --> 00:29:41,940

to a few hours after passing out near

791

00:29:47,090 --> 00:29:45,059

the craft Corporal Valdez was aware that

792

00:29:49,730 --> 00:29:47,100

something had happened but he was unsure

793

00:29:52,190 --> 00:29:49,740

what had transpired since the last thing

794

00:29:54,950 --> 00:29:52,200

he remembered was walking toward this

795

00:29:56,810 --> 00:29:54,960

strange object earlier that morning that

796

00:29:59,630 --> 00:29:56,820

is where the story takes an interesting

797

00:30:02,149 --> 00:29:59,640

turn as Valdez looked down to check his

798

00:30:04,730 --> 00:30:02,159

watch rather than showing April 25th

799

00:30:07,669 --> 00:30:04,740

which was the actual date it instead

800

00:30:10,370 --> 00:30:07,679

read April 30th five days in the future

801
00:30:12,950 --> 00:30:10,380
this suggests that Corporal Armando

802
00:30:15,529 --> 00:30:12,960
Valdez was near or perhaps on this ship

803
00:30:18,110 --> 00:30:15,539
for five days even though from the

804
00:30:19,669 --> 00:30:18,120
standpoint of his men only 15 minutes

805
00:30:22,070 --> 00:30:19,679
had passed between the time he

806
00:30:24,409 --> 00:30:22,080
disappeared and then reappeared in a

807
00:30:26,389 --> 00:30:24,419
Haggard State similar to the Travis

808
00:30:29,090 --> 00:30:26,399
Walton Abduction the passage of these

809
00:30:31,610 --> 00:30:29,100
missing five days was corroborated by

810
00:30:33,889 --> 00:30:31,620
excess beard growth on valdez's face

811
00:30:37,970 --> 00:30:33,899
which according to his men was clearly

812
00:30:39,110 --> 00:30:37,980
Haven prior to the incident unquote and

813
00:30:41,330 --> 00:30:39,120

then just jumping ahead a couple

814

00:30:43,549 --> 00:30:41,340

paragraphs quote it is possible that

815

00:30:45,529 --> 00:30:43,559

Valdez was abducted and his memory of

816

00:30:48,049 --> 00:30:45,539

the encounter was white claimed prior to

817

00:30:50,990 --> 00:30:48,059

his return which is extremely common

818

00:30:52,730 --> 00:30:51,000

across abductions although it is also

819

00:30:55,250 --> 00:30:52,740

possible that when he approached this

820

00:30:57,470 --> 00:30:55,260

craft and entered a radius in which the

821

00:31:00,590 --> 00:30:57,480

space-time metric was modified for the

822

00:31:02,870 --> 00:31:00,600

visitors own purposes Valdez experienced

823

00:31:04,549 --> 00:31:02,880

their speed of time and no longer the

824

00:31:07,130 --> 00:31:04,559

one he had previously shared with his

825

00:31:09,409 --> 00:31:07,140

men just moments prior this would also

826

00:31:12,049 --> 00:31:09,419

help explain why Valdez appeared to have

827

00:31:13,970 --> 00:31:12,059

disappeared given that if he entered a

828

00:31:16,370 --> 00:31:13,980

space in which time moves at a much

829

00:31:19,549 --> 00:31:16,380

different speed he would no longer share

830

00:31:21,350 --> 00:31:19,559

a mutual now with his men in the same

831

00:31:22,850 --> 00:31:21,360

way you can't see someone standing in

832

00:31:25,630 --> 00:31:22,860

front of you who had been there

833

00:31:28,669 --> 00:31:25,640

yesterday or who will be there tomorrow

834

00:31:30,529 --> 00:31:28,679

valdez's men could no longer see him as

835

00:31:33,470 --> 00:31:30,539

part of their four-dimensional reality

836

00:31:36,070 --> 00:31:33,480

as he was still in that same place but

837

00:31:38,149 --> 00:31:36,080

suddenly at a different time

838

00:31:40,370 --> 00:31:38,159

experiencing some form of space-time

839

00:31:42,529 --> 00:31:40,380

Distortion in and around uaps is

840

00:31:44,570 --> 00:31:42,539

exceedingly common and additional

841

00:31:47,090 --> 00:31:44,580

examples will be presented in other case

842

00:31:49,310 --> 00:31:47,100

studies as well the ubiquity with which

843

00:31:52,190 --> 00:31:49,320

space-time is Warped in the area around

844

00:31:55,010 --> 00:31:52,200

these craft is also indicated by a

845

00:31:57,110 --> 00:31:55,020

recent GQ Magazine interview with Lou

846

00:31:59,350 --> 00:31:57,120

Elizondo who headed the advanced

847

00:32:02,750 --> 00:31:59,360

Aerospace threat identification program

848

00:32:04,490 --> 00:32:02,760

atip and unclassified but unpublicized

849

00:32:06,889 --> 00:32:04,500

organizations set up by the U.S

850

00:32:09,230 --> 00:32:06,899

government to study UFOs

851
00:32:12,649 --> 00:32:09,240
while discussing how frequently Pilots

852
00:32:14,450 --> 00:32:12,659
see and interact with uaps in the air he

853
00:32:16,669 --> 00:32:14,460
mentions that it is also common for them

854
00:32:19,310 --> 00:32:16,679
to experience alterations in the passage

855
00:32:20,930 --> 00:32:19,320
of time while in close proximity to

856
00:32:23,029 --> 00:32:20,940
these machines

857
00:32:25,190 --> 00:32:23,039
quoting again from what the way Elizondo

858
00:32:27,110 --> 00:32:25,200
said here quote and then you might get

859
00:32:29,330 --> 00:32:27,120
somebody who gets really close and says

860
00:32:30,889 --> 00:32:29,340
you know Lou it's really bizarre it felt

861
00:32:33,169 --> 00:32:30,899
like I was there for only five minutes

862
00:32:35,570 --> 00:32:33,179
but when I looked at my watch 30 minutes

863
00:32:38,570 --> 00:32:35,580

went by but I only used five minutes

864

00:32:40,789 --> 00:32:38,580

worth of fuel how is that possible well

865

00:32:42,529 --> 00:32:40,799

there's a reason for that we believe and

866

00:32:44,810 --> 00:32:42,539

it probably has to do with warping of

867

00:32:46,430 --> 00:32:44,820

space-time and the closer you get to one

868

00:32:49,010 --> 00:32:46,440

of these vehicles the more you may begin

869

00:32:51,470 --> 00:32:49,020

to experience space-time relative to the

870

00:32:53,750 --> 00:32:51,480

vehicle and the environment current

871

00:32:55,909 --> 00:32:53,760

hypothesis is that it creates a bubble

872

00:32:58,250 --> 00:32:55,919

around it and that bubble is insulating

873

00:33:00,710 --> 00:32:58,260

itself from the space-time that all of

874

00:33:02,450 --> 00:33:00,720

us experience and so therefore the way

875

00:33:04,730 --> 00:33:02,460

it experiences space-time within the

876

00:33:07,490 --> 00:33:04,740

bubble is fundamentally different from

877

00:33:09,529 --> 00:33:07,500

outside the bubble unquote

878

00:33:12,529 --> 00:33:09,539

and in considering this case further

879

00:33:14,630 --> 00:33:12,539

Master says quote the visitor's apparent

880

00:33:16,430 --> 00:33:14,640

ability to manipulate space-time and the

881

00:33:18,889 --> 00:33:16,440

resulting Divergence in the rate with

882

00:33:21,289 --> 00:33:18,899

which time passes in their reference

883

00:33:23,090 --> 00:33:21,299

frame relative to our own may also

884

00:33:25,310 --> 00:33:23,100

explain how they can accelerate and

885

00:33:28,009 --> 00:33:25,320

decelerate at tremendous Speed without

886

00:33:30,769 --> 00:33:28,019

dying these incredible Maneuvers would

887

00:33:32,930 --> 00:33:30,779

surely generate massive g-forces however

888

00:33:34,909 --> 00:33:32,940

if these visitors are in fact altering

889

00:33:37,909 --> 00:33:34,919

the speed of time in and around their

890

00:33:40,789 --> 00:33:37,919

UFOs then what we see as a 75g

891

00:33:43,090 --> 00:33:40,799

acceleration may feel like a slow 1G

892

00:33:45,350 --> 00:33:43,100

acceleration to them inside the ship

893

00:33:46,909 --> 00:33:45,360

rather than thinking of these seemingly

894

00:33:49,370 --> 00:33:46,919

impossible accelerations and

895

00:33:51,649 --> 00:33:49,380

decelerations as a real-time phenomenon

896

00:33:53,870 --> 00:33:51,659

and questioning how any biological

897

00:33:57,230 --> 00:33:53,880

entity aboard could withstand the insane

898

00:33:59,509 --> 00:33:57,240

g-forces generated the Valdez experience

899

00:34:01,789 --> 00:33:59,519

leads one to wonder if it is only an

900

00:34:04,610 --> 00:34:01,799

illusion resulting from the Divergent

901
00:34:08,030 --> 00:34:04,620
way in which we see them and they see us

902
00:34:10,609 --> 00:34:08,040
in different temporal reference frames

903
00:34:12,770 --> 00:34:10,619
if Valdez did experience the passage of

904
00:34:14,750 --> 00:34:12,780
five days over the course of 15 minutes

905
00:34:18,169 --> 00:34:14,760
it may help explain his physical

906
00:34:20,810 --> 00:34:18,179
condition once he reappeared not eating

907
00:34:23,030 --> 00:34:20,820
and drinking for a 120 hours would

908
00:34:24,829 --> 00:34:23,040
naturally make someone very weak and

909
00:34:27,230 --> 00:34:24,839
while people can die within three days

910
00:34:29,750 --> 00:34:27,240
of not having any water death from

911
00:34:32,149 --> 00:34:29,760
dehydration typically takes closer to 10

912
00:34:34,450 --> 00:34:32,159
days depending on factors like age

913
00:34:37,129 --> 00:34:34,460

activity level and overall health

914

00:34:39,829 --> 00:34:37,139

valdez's extreme weakness and fatigue

915

00:34:41,450 --> 00:34:39,839

also could have been exacerbated by

916

00:34:44,149 --> 00:34:41,460

standing too close to the operative

917

00:34:47,450 --> 00:34:44,159

object since similar symptoms are common

918

00:34:50,930 --> 00:34:47,460

across such accounts unquote

919

00:34:52,930 --> 00:34:50,940

now as we know encounters on board craft

920

00:34:56,210 --> 00:34:52,940

after having experienced an abduction

921

00:34:58,970 --> 00:34:56,220

often involve biological examinations

922

00:35:00,770 --> 00:34:58,980

and extraction of sperm and egg

923

00:35:03,530 --> 00:35:00,780

to be used within some sort of

924

00:35:05,630 --> 00:35:03,540

overarching hybridization program this

925

00:35:08,630 --> 00:35:05,640

is a key aspect of the data it is front

926
00:35:10,970 --> 00:35:08,640
and center it is a feature not a bug the

927
00:35:12,770 --> 00:35:10,980
question is why would space aliens be

928
00:35:14,870 --> 00:35:12,780
doing this would it even be possible for

929
00:35:16,790 --> 00:35:14,880
them to do it and furthermore why would

930
00:35:18,890 --> 00:35:16,800
they so often express to the human

931
00:35:20,810 --> 00:35:18,900
beings that were being abducted that it

932
00:35:22,310 --> 00:35:20,820
was essential that this happened that it

933
00:35:25,430 --> 00:35:22,320
was part of some overarching Enterprise

934
00:35:26,990 --> 00:35:25,440
that was of the greatest importance this

935
00:35:30,230 --> 00:35:27,000
was not just some random scientific

936
00:35:33,109 --> 00:35:30,240
experiment Gathering specimens as an ET

937
00:35:34,790 --> 00:35:33,119
species traveled around the cosmos there

938
00:35:38,030 --> 00:35:34,800

seems to be something much more specific

939

00:35:39,530 --> 00:35:38,040

connected again to our future now to

940

00:35:42,109 --> 00:35:39,540

touch on this aspect we're going to look

941

00:35:43,190 --> 00:35:42,119

at the case of Terry Lovelace which we

942

00:35:46,490 --> 00:35:43,200

actually covered in two different

943

00:35:48,650 --> 00:35:46,500

podcast episodes on point of convergence

944

00:35:51,349 --> 00:35:48,660

this is what Masters has to say in

945

00:35:53,930 --> 00:35:51,359

discussing the Lovelace case quote

946

00:35:56,630 --> 00:35:53,940

occupational specialization is apparent

947

00:35:58,069 --> 00:35:56,640

across contact cases and it may exist as

948

00:36:00,470 --> 00:35:58,079

part of a much larger collaborative

949

00:36:02,630 --> 00:36:00,480

operation for instance during one of

950

00:36:04,730 --> 00:36:02,640

Terry Lovelace's four to five abductions

951
00:36:07,010 --> 00:36:04,740
he was taken aboard a large triangular

952
00:36:09,349 --> 00:36:07,020
craft where he Recology seeing numerous

953
00:36:11,870 --> 00:36:09,359
specialized human groups exhibiting

954
00:36:13,490 --> 00:36:11,880
diverse physical characteristics who are

955
00:36:16,010 --> 00:36:13,500
carrying out different but coordinated

956
00:36:18,349 --> 00:36:16,020
tasks this included one group that would

957
00:36:20,510 --> 00:36:18,359
line up abducted people strip them naked

958
00:36:22,790 --> 00:36:20,520
and take them into rooms that stretch as

959
00:36:24,530 --> 00:36:22,800
far as he could see while we can't know

960
00:36:26,230 --> 00:36:24,540
what was happening inside these rooms

961
00:36:28,849 --> 00:36:26,240
from this part of lovelace's account

962
00:36:30,770 --> 00:36:28,859
based on countless other abductee

963
00:36:32,930 --> 00:36:30,780

reports the people who were stripped

964

00:36:35,210 --> 00:36:32,940

naked were most likely subjected to a

965

00:36:37,430 --> 00:36:35,220

biomedical examination which also

966

00:36:39,530 --> 00:36:37,440

involves sperm and egg extractions

967

00:36:41,810 --> 00:36:39,540

evidence of the latter as well as the

968

00:36:44,089 --> 00:36:41,820

results of this ubiquitous practice of

969

00:36:46,250 --> 00:36:44,099

taking gametes from people during UFO

970

00:36:48,589 --> 00:36:46,260

abductions can be seen in the fact that

971

00:36:50,690 --> 00:36:48,599

Terry Lovelace and his friend Toby were

972

00:36:52,849 --> 00:36:50,700

also subjected to this practice of sperm

973

00:36:54,349 --> 00:36:52,859

withdrawal and from what lovely saw

974

00:36:55,970 --> 00:36:54,359

lining the walls of this massive

975

00:36:57,470 --> 00:36:55,980

triangular craft

976

00:37:00,170 --> 00:36:57,480

and then we're going to quote what

977

00:37:03,109 --> 00:37:00,180

actually lovely said here quote there

978

00:37:05,210 --> 00:37:03,119

was a crowd of people too 50 or 60 a lot

979

00:37:07,730 --> 00:37:05,220

of people some of the human beings were

980

00:37:09,950 --> 00:37:07,740

crew members they just ignored us they

981

00:37:12,530 --> 00:37:09,960

marched us past a long wall of aquariums

982

00:37:14,930 --> 00:37:12,540

there are big fish tanks a hundred or

983

00:37:17,390 --> 00:37:14,940

more aquariums that cover a whole wall

984

00:37:21,170 --> 00:37:17,400

there is pink water inside and some are

985

00:37:23,390 --> 00:37:21,180

bigger they look like no bleep no these

986

00:37:25,790 --> 00:37:23,400

are human beings but no they can't be

987

00:37:28,069 --> 00:37:25,800

living human beings they're different oh

988

00:37:30,109 --> 00:37:28,079

God they're not like us one moved its

989

00:37:33,829 --> 00:37:30,119

head and turned towards us his eyes

990

00:37:35,210 --> 00:37:33,839

blinked and oh bleep no unquote now

991

00:37:37,670 --> 00:37:35,220

we're very familiar with these kinds of

992

00:37:39,829 --> 00:37:37,680

situations where not only alien beings

993

00:37:43,370 --> 00:37:39,839

what are supposed to be alien beings or

994

00:37:45,650 --> 00:37:43,380

onboard craft Grays and insectoid types

995

00:37:48,890 --> 00:37:45,660

and even mantid beings and whatnot of

996

00:37:51,109 --> 00:37:48,900

reptilians Etc we also very often see

997

00:37:52,790 --> 00:37:51,119

beings that look like everyday humans

998

00:37:55,490 --> 00:37:52,800

humans you might find in our

999

00:37:57,770 --> 00:37:55,500

contemporary time now this could

1000

00:37:59,690 --> 00:37:57,780

indicate 8 cooperation with military

1001
00:38:01,130 --> 00:37:59,700
groups that's very possible in fact I

1002
00:38:03,770 --> 00:38:01,140
think that probably is part of what's

1003
00:38:06,349 --> 00:38:03,780
going on but in addition they may be

1004
00:38:08,150 --> 00:38:06,359
humans from our near future and this

1005
00:38:10,790 --> 00:38:08,160
might indicate an overarching Enterprise

1006
00:38:13,430 --> 00:38:10,800
where humans or at least descendants

1007
00:38:15,770 --> 00:38:13,440
from the same hominin line are working

1008
00:38:17,810 --> 00:38:15,780
together in some sort of overarching

1009
00:38:19,609 --> 00:38:17,820
Enterprise and when we see different

1010
00:38:22,490 --> 00:38:19,619
beings different forms different

1011
00:38:25,130 --> 00:38:22,500
morphology it might just be the same

1012
00:38:27,890 --> 00:38:25,140
root species but represented along

1013
00:38:30,410 --> 00:38:27,900

different points along the trajectory of

1014

00:38:33,290 --> 00:38:30,420

our evolutionary path

1015

00:38:35,750 --> 00:38:33,300

now in terms of what is often observed

1016

00:38:38,810 --> 00:38:35,760

in abduction cases or contact cases or

1017

00:38:40,790 --> 00:38:38,820

even citing cases there's another aspect

1018

00:38:43,190 --> 00:38:40,800

that we can consider here from within

1019

00:38:45,589 --> 00:38:43,200

this extra-term pastoral model

1020

00:38:48,650 --> 00:38:45,599

we notice often that there is a silence

1021

00:38:51,290 --> 00:38:48,660

and a Stillness when a UFO is present

1022

00:38:53,510 --> 00:38:51,300

what does this suggest why is suddenly

1023

00:38:56,150 --> 00:38:53,520

everything silent why are birds and

1024

00:38:59,210 --> 00:38:56,160

insects suddenly not heard not a peep is

1025

00:39:01,790 --> 00:38:59,220

heard when a UFO is nearby what does

1026

00:39:04,069 --> 00:39:01,800

this suggest again Masters point to the

1027

00:39:06,349 --> 00:39:04,079

fact that this could be an indication of

1028

00:39:08,990 --> 00:39:06,359

a space-time manipulation

1029

00:39:11,569 --> 00:39:09,000

quoting for the book again quote as

1030

00:39:13,790 --> 00:39:11,579

discussed in the Corporal Armando Valdez

1031

00:39:15,770 --> 00:39:13,800

case study one explanation for the

1032

00:39:18,650 --> 00:39:15,780

sweeping calm often observed by

1033

00:39:20,270 --> 00:39:18,660

contactees and abductees is that these

1034

00:39:22,430 --> 00:39:20,280

vehicles are capable of warping

1035

00:39:25,190 --> 00:39:22,440

space-time in their proximate vicinity

1036

00:39:27,770 --> 00:39:25,200

the differential rate of times passage

1037

00:39:30,349 --> 00:39:27,780

near these ships creates the sense that

1038

00:39:33,050 --> 00:39:30,359

time inside this bubble has slowed or

1039

00:39:36,290 --> 00:39:33,060

ceased entirely relative to the outside

1040

00:39:38,630 --> 00:39:36,300

world since no movement means no sound

1041

00:39:41,270 --> 00:39:38,640

this may also help explain why the ship

1042

00:39:43,609 --> 00:39:41,280

Linda Jones observed appeared to fade in

1043

00:39:45,650 --> 00:39:43,619

and out of existence while it engineered

1044

00:39:48,410 --> 00:39:45,660

the Timescape around them

1045

00:39:50,829 --> 00:39:48,420

during a keynote lecture at the 2021

1046

00:39:53,210 --> 00:39:50,839

anomalous Aerospace phenomena conference

1047

00:39:56,150 --> 00:39:53,220

sponsored by the scientific Coalition

1048

00:39:59,990 --> 00:39:56,160

for UAP studies noted American engineer

1049

00:40:02,510 --> 00:40:00,000

Dr Harold Hal put off Drew on his 2010

1050

00:40:05,450 --> 00:40:02,520

paper titled Advanced space propulsion

1051
00:40:07,910 --> 00:40:05,460
based on vacuum space-time metric

1052
00:40:10,430 --> 00:40:07,920
engineering as well as a book by Paul

1053
00:40:12,349 --> 00:40:10,440
Hill former Chief scientist at Nasa

1054
00:40:15,349 --> 00:40:12,359
Langley Research Center titled

1055
00:40:17,569 --> 00:40:15,359
unconventional flying objects during his

1056
00:40:19,630 --> 00:40:17,579
presentation Dr putoff contended that

1057
00:40:22,730 --> 00:40:19,640
the utter silence and missing time

1058
00:40:25,370 --> 00:40:22,740
experienced by so many contactees and

1059
00:40:28,250 --> 00:40:25,380
abductees may be related to space-time

1060
00:40:29,690 --> 00:40:28,260
metric engineering which he considers an

1061
00:40:32,390 --> 00:40:29,700
important part of the functional

1062
00:40:33,950 --> 00:40:32,400
capabilities of these craft and quoting

1063
00:40:36,410 --> 00:40:33,960

from what putoff said here quote

1064

00:40:38,270 --> 00:40:36,420

basically if you are able to change the

1065

00:40:40,730 --> 00:40:38,280

temporal aspect of your surrounding

1066

00:40:43,069 --> 00:40:40,740

space you can either speed it up or slow

1067

00:40:45,589 --> 00:40:43,079

it down the reports that often come

1068

00:40:47,870 --> 00:40:45,599

forth people say well there I was I was

1069

00:40:50,450 --> 00:40:47,880

close to a craft and suddenly all the

1070

00:40:52,849 --> 00:40:50,460

sounds of nature the birds the wind you

1071

00:40:55,370 --> 00:40:52,859

know I didn't hear a thing well if time

1072

00:40:57,470 --> 00:40:55,380

has been slowed down in that area and

1073

00:40:59,270 --> 00:40:57,480

has gone into infrasonic so that you

1074

00:41:00,950 --> 00:40:59,280

wouldn't hear it that's one of the

1075

00:41:03,050 --> 00:41:00,960

elements that you would expect to

1076

00:41:04,910 --> 00:41:03,060

experience so then you would also

1077

00:41:06,710 --> 00:41:04,920

obviously have kinds of things where you

1078

00:41:09,290 --> 00:41:06,720

would interpret it as missing time

1079

00:41:11,630 --> 00:41:09,300

because suddenly if time got slowed down

1080

00:41:14,030 --> 00:41:11,640

so maybe you might be let's say in the

1081

00:41:16,910 --> 00:41:14,040

crass vicinity slowed down for five

1082

00:41:20,510 --> 00:41:16,920

minutes meanwhile outside several hours

1083

00:41:23,450 --> 00:41:20,520

have gone by by then you emerge you say

1084

00:41:25,010 --> 00:41:23,460

oh my gosh I've got missing time it

1085

00:41:27,829 --> 00:41:25,020

might not be that you actually missed

1086

00:41:30,349 --> 00:41:27,839

any subjective time it's just one of the

1087

00:41:33,050 --> 00:41:30,359

consequences of space-time metric

1088

00:41:35,329 --> 00:41:33,060

engineering and then Masters goes on to

1089

00:41:37,430 --> 00:41:35,339

say the visitor's ability to engineer

1090

00:41:39,710 --> 00:41:37,440

the space-time metric could also help

1091

00:41:41,750 --> 00:41:39,720

explain other observed aspects of these

1092

00:41:44,450 --> 00:41:41,760

craft and their flight characteristics

1093

00:41:46,190 --> 00:41:44,460

including how roughly 30 ton ship can

1094

00:41:49,250 --> 00:41:46,200

withstand estimated accelerations

1095

00:41:51,349 --> 00:41:49,260

ranging from 100 G's to thousands of G's

1096

00:41:54,829 --> 00:41:51,359

and travel through our atmosphere

1097

00:41:57,410 --> 00:41:54,839

upwards of 9 000 miles per hour with no

1098

00:41:59,870 --> 00:41:57,420

Sonic booms air disturbances or evidence

1099

00:42:02,870 --> 00:41:59,880

of excessive heat while also displaying

1100

00:42:04,849 --> 00:42:02,880

trans medium capabilities as these

1101
00:42:07,550 --> 00:42:04,859
seamlessly move from air to water and

1102
00:42:09,530 --> 00:42:07,560
Back Again Space trimetric Engineering

1103
00:42:11,810 --> 00:42:09,540
may also help explain the bright light

1104
00:42:14,510 --> 00:42:11,820
so often seen emanating from these ships

1105
00:42:16,089 --> 00:42:14,520
as well as why people who get too close

1106
00:42:19,010 --> 00:42:16,099
to them reports suffering from

1107
00:42:21,650 --> 00:42:19,020
sunburn-like injuries indicative of

1108
00:42:23,990 --> 00:42:21,660
radiation damage which would happen if

1109
00:42:26,390 --> 00:42:24,000
the electromagnetic spectrum is blue

1110
00:42:29,810 --> 00:42:26,400
shifted in association with a space-time

1111
00:42:32,089 --> 00:42:29,820
metric engineering Dr putoff also

1112
00:42:34,430 --> 00:42:32,099
addressed these issues in his 2021

1113
00:42:36,770 --> 00:42:34,440

presentation and quoting from put off

1114

00:42:38,569 --> 00:42:36,780

here quote under the conditions with

1115

00:42:40,670 --> 00:42:38,579

which the space-time metric has been

1116

00:42:42,589 --> 00:42:40,680

engineered to produce the kinds of

1117

00:42:45,470 --> 00:42:42,599

effects you might expect to see with a

1118

00:42:47,810 --> 00:42:45,480

UAP you get blue shift which means first

1119

00:42:49,849 --> 00:42:47,820

of all some of that infrared is going to

1120

00:42:51,770 --> 00:42:49,859

be up shifted into the visible part of

1121

00:42:53,750 --> 00:42:51,780

the spectrum so you expect craft to be

1122

00:42:56,450 --> 00:42:53,760

quite bright which is one of the things

1123

00:42:58,550 --> 00:42:56,460

that is in fact reported with this blue

1124

00:43:01,190 --> 00:42:58,560

ship there is prediction of near field

1125

00:43:03,349 --> 00:43:01,200

exposure injuries for example the

1126

00:43:06,589 --> 00:43:03,359

visible can be blue shifted up into the

1127

00:43:08,510 --> 00:43:06,599

UV and you get sunburn injuries often

1128

00:43:10,609 --> 00:43:08,520

reported by people who claim to have

1129

00:43:13,370 --> 00:43:10,619

encountered a powered up craft that

1130

00:43:15,290 --> 00:43:13,380

relatively close range or if you're too

1131

00:43:17,630 --> 00:43:15,300

close it can even some of that visible

1132

00:43:20,270 --> 00:43:17,640

spectrum which ordinarily isn't harmful

1133

00:43:23,569 --> 00:43:20,280

can be shifted up into the soft x-ray

1134

00:43:26,270 --> 00:43:23,579

region and you get radiation injury

1135

00:43:28,309 --> 00:43:26,280

unquote and then Masters finishes by

1136

00:43:30,109 --> 00:43:28,319

saying regarding the visitor's apparent

1137

00:43:32,030 --> 00:43:30,119

ability to change the speed of time and

1138

00:43:34,190 --> 00:43:32,040

the vicinity of these craft it is

1139

00:43:36,470 --> 00:43:34,200

interesting to note that juxtapositions

1140

00:43:39,230 --> 00:43:36,480

between the Linda Jones and Armando

1141

00:43:41,390 --> 00:43:39,240

Valdez case studies as Dr putoff

1142

00:43:44,030 --> 00:43:41,400

mentioned in the first quote quote again

1143

00:43:46,370 --> 00:43:44,040

if you are able to change the temporal

1144

00:43:49,550 --> 00:43:46,380

aspect of your surrounding space you can

1145

00:43:51,050 --> 00:43:49,560

either speed it up or slow it down both

1146

00:43:52,910 --> 00:43:51,060

options appear to have played out

1147

00:43:55,190 --> 00:43:52,920

separately in the Jones and Valdez

1148

00:43:57,349 --> 00:43:55,200

encounters for example it is a parent

1149

00:43:59,809 --> 00:43:57,359

from Linda Jones report that time was

1150

00:44:01,490 --> 00:43:59,819

slowed down around them as sound shifted

1151
00:44:03,770 --> 00:44:01,500
into the infrasonic range and she

1152
00:44:06,170 --> 00:44:03,780
experienced a couple of hours of missing

1153
00:44:08,450 --> 00:44:06,180
time however the opposite seems to have

1154
00:44:10,430 --> 00:44:08,460
been the case with Armando Valdez where

1155
00:44:13,069 --> 00:44:10,440
he aged by five days during the

1156
00:44:15,770 --> 00:44:13,079
15-minute period that he was gone from

1157
00:44:18,470 --> 00:44:15,780
his men indicating that time moves much

1158
00:44:20,630 --> 00:44:18,480
faster in proximity to that craft

1159
00:44:22,730 --> 00:44:20,640
unquote

1160
00:44:24,589 --> 00:44:22,740
now in addition to all of this

1161
00:44:26,510 --> 00:44:24,599
corroborating evidence suggesting that

1162
00:44:28,069 --> 00:44:26,520
the extra tempestal model makes sense

1163
00:44:30,710 --> 00:44:28,079

of much of what we see in these

1164

00:44:33,230 --> 00:44:30,720

encounters we also sometimes just have

1165

00:44:35,030 --> 00:44:33,240

direct testimony from experiencers even

1166

00:44:36,770 --> 00:44:35,040

among some of the most well-known cases

1167

00:44:40,270 --> 00:44:36,780

and somehow this is flown under the

1168

00:44:42,589 --> 00:44:40,280

radar for instance from the famous 1980

1169

00:44:45,650 --> 00:44:42,599

rendelshelm Forest incident in Suffolk

1170

00:44:48,470 --> 00:44:45,660

UK this is what Jim pennison was quoted

1171

00:44:51,410 --> 00:44:48,480

as saying quote I've never believed that

1172

00:44:53,870 --> 00:44:51,420

it was extraterrestrial I still don't we

1173

00:44:55,910 --> 00:44:53,880

believe it based on the evident it's an

1174

00:44:59,450 --> 00:44:55,920

interdimensional type craft and it's

1175

00:45:01,790 --> 00:44:59,460

clearly us from the future unquote

1176

00:45:03,770 --> 00:45:01,800

and to support this further Masters

1177

00:45:05,930 --> 00:45:03,780

quotes from when peniston was in a

1178

00:45:08,630 --> 00:45:05,940

certain session with the U.S Air Force

1179

00:45:10,790 --> 00:45:08,640

office of special investigations quoting

1180

00:45:12,290 --> 00:45:10,800

from that section quote during this

1181

00:45:14,930 --> 00:45:12,300

session peniston spoke of being

1182

00:45:16,250 --> 00:45:14,940

interrogated by two agents from the U.S

1183

00:45:17,809 --> 00:45:16,260

Air Force office of special

1184

00:45:19,670 --> 00:45:17,819

investigations

1185

00:45:21,589 --> 00:45:19,680

and one agent from the British military

1186

00:45:23,569 --> 00:45:21,599

who asked if there were any beings

1187

00:45:26,150 --> 00:45:23,579

present when he encountered the metallic

1188

00:45:28,670 --> 00:45:26,160

craft peniston responded that there were

1189

00:45:31,190 --> 00:45:28,680

visitors present and notably that they

1190

00:45:32,770 --> 00:45:31,200

were time travelers from the future he

1191

00:45:35,270 --> 00:45:32,780

reiterated that they were not

1192

00:45:37,250 --> 00:45:35,280

extraterrestrials but were humans coming

1193

00:45:39,829 --> 00:45:37,260

back through time to collect genetic

1194

00:45:41,690 --> 00:45:39,839

material to help alleviate problems they

1195

00:45:43,490 --> 00:45:41,700

were having with reproduction in the

1196

00:45:46,069 --> 00:45:43,500

future and then quoting from what

1197

00:45:49,069 --> 00:45:46,079

peniston said they the visitors are

1198

00:45:51,770 --> 00:45:49,079

asking me if I see binary code I see the

1199

00:45:53,390 --> 00:45:51,780

binary code they are Time Travelers they

1200

00:45:55,430 --> 00:45:53,400

are us

1201
00:45:57,250 --> 00:45:55,440
after peniston divulged that the

1202
00:45:59,450 --> 00:45:57,260
visitors were future humans and not

1203
00:46:02,569 --> 00:45:59,460
extraterrestrials the hypnotherapist

1204
00:46:04,430 --> 00:46:02,579
asks what they need from us peniston

1205
00:46:06,770 --> 00:46:04,440
stated that they are taking game each

1206
00:46:09,829 --> 00:46:06,780
and sometimes fetuses to help with

1207
00:46:11,270 --> 00:46:09,839
reproductive problems in the future the

1208
00:46:14,089 --> 00:46:11,280
interviewer says do they ever take

1209
00:46:16,550 --> 00:46:14,099
fetishes penestine responds if it is

1210
00:46:18,829 --> 00:46:16,560
tasked they do there are different ships

1211
00:46:20,930 --> 00:46:18,839
for tasking the government agents know

1212
00:46:23,210 --> 00:46:20,940
about this that's what they want to

1213
00:46:25,250 --> 00:46:23,220

contain the situation

1214

00:46:26,809 --> 00:46:25,260

and then Masters goes on to say this

1215

00:46:28,430 --> 00:46:26,819

statement is particularly noteworthy

1216

00:46:30,710 --> 00:46:28,440

because of its relevance to the other

1217

00:46:32,809 --> 00:46:30,720

case studies and most notably the

1218

00:46:34,609 --> 00:46:32,819

previous two for instance Linda Jones

1219

00:46:36,710 --> 00:46:34,619

reports having game meets and a

1220

00:46:39,470 --> 00:46:36,720

developing fetus extracted from her

1221

00:46:40,910 --> 00:46:39,480

person Jones also stated that her

1222

00:46:42,710 --> 00:46:40,920

Reproductive Services were very

1223

00:46:44,630 --> 00:46:42,720

important to the visitors beginning

1224

00:46:46,790 --> 00:46:44,640

early in life and to a greater extent

1225

00:46:49,550 --> 00:46:46,800

once she reached reproductive maturity

1226
00:46:51,890 --> 00:46:49,560
Terry lovelace's account is also notable

1227
00:46:54,109 --> 00:46:51,900
in this context since he claims to have

1228
00:46:56,870 --> 00:46:54,119
seen developing fetuses floating in a

1229
00:46:59,569 --> 00:46:56,880
pinkish liquid inside exogenesis

1230
00:47:02,569 --> 00:46:59,579
Chambers onboard a massive triangular

1231
00:47:05,210 --> 00:47:02,579
craft in conjunction with peniston's

1232
00:47:06,710 --> 00:47:05,220
above statement this triangular ship may

1233
00:47:08,569 --> 00:47:06,720
be an example of one that was

1234
00:47:11,089 --> 00:47:08,579
specifically designed and built for a

1235
00:47:13,609 --> 00:47:11,099
specific task which in this case appears

1236
00:47:15,710 --> 00:47:13,619
to be related to reproductive tasks

1237
00:47:17,510 --> 00:47:15,720
similar to Terry lovelace's experience

1238
00:47:19,609 --> 00:47:17,520

while Jim peniston was being

1239

00:47:21,410 --> 00:47:19,619

interrogated by Agents from the U.S Air

1240

00:47:23,510 --> 00:47:21,420

Force office of special investigations

1241

00:47:25,790 --> 00:47:23,520

he started to realize that the

1242

00:47:27,890 --> 00:47:25,800

interrogators already knew about

1243

00:47:30,170 --> 00:47:27,900

everything he was telling them and

1244

00:47:32,150 --> 00:47:30,180

rather than seeking information they

1245

00:47:34,490 --> 00:47:32,160

were simply trying to contain the

1246

00:47:36,410 --> 00:47:34,500

situation their attempt at damage

1247

00:47:38,930 --> 00:47:36,420

control also involved intentionally

1248

00:47:41,270 --> 00:47:38,940

confusing the details of each man's

1249

00:47:43,430 --> 00:47:41,280

account which was done to diminish The

1250

00:47:45,589 --> 00:47:43,440

credibility of their testimonies and to

1251
00:47:48,829 --> 00:47:45,599
cast doubt on the reality of the event

1252
00:47:51,050 --> 00:47:48,839
this imposed misapprehension is revealed

1253
00:47:53,150 --> 00:47:51,060
in peniston's hypnotherapy session

1254
00:47:55,849 --> 00:47:53,160
jumping to that again the interviewer

1255
00:47:58,670 --> 00:47:55,859
says they see you as requiring damage

1256
00:48:00,650 --> 00:47:58,680
control peniston yes they see me and

1257
00:48:03,370 --> 00:48:00,660
John Burroughs and they're worried about

1258
00:48:05,089 --> 00:48:03,380
call halt they know all about us

1259
00:48:07,370 --> 00:48:05,099
interviewer says what are the

1260
00:48:09,770 --> 00:48:07,380
intelligence agents NSA agents going to

1261
00:48:11,569 --> 00:48:09,780
do with you penistone replies they tell

1262
00:48:13,550 --> 00:48:11,579
me when I was at the East Gate with John

1263
00:48:16,130 --> 00:48:13,560

they have five different stories to tell

1264

00:48:18,410 --> 00:48:16,140

it's important to scramble dates which

1265

00:48:20,510 --> 00:48:18,420

confuses and undermines consistency of

1266

00:48:22,849 --> 00:48:20,520

eyewitness testimonies so there's no

1267

00:48:25,670 --> 00:48:22,859

credibility with the public and media

1268

00:48:27,349 --> 00:48:25,680

and the Masters continues in addition to

1269

00:48:29,809 --> 00:48:27,359

revealing information about this stage

1270

00:48:31,609 --> 00:48:29,819

cover-up the origin of these visitors as

1271

00:48:33,710 --> 00:48:31,619

future humans and their intent to

1272

00:48:36,470 --> 00:48:33,720

collect game age and genetic material

1273

00:48:38,510 --> 00:48:36,480

from past peoples peniston provided an

1274

00:48:40,849 --> 00:48:38,520

interesting and subtle detail about how

1275

00:48:42,770 --> 00:48:40,859

these craft May physically travel back

1276

00:48:44,690 --> 00:48:42,780
through time again going to the

1277

00:48:46,250 --> 00:48:44,700
interview interviewer does the

1278

00:48:47,770 --> 00:48:46,260
government believe what you are saying

1279

00:48:50,750 --> 00:48:47,780
about them coming from the future

1280

00:48:52,370 --> 00:48:50,760
pennison oh yes this time they were

1281

00:48:54,770 --> 00:48:52,380
having problems but they got their

1282

00:48:57,589 --> 00:48:54,780
machine off they have to be in space to

1283

00:48:59,510 --> 00:48:57,599
travel they need speed to travel

1284

00:49:01,910 --> 00:48:59,520
how far into the past can they go the

1285

00:49:04,790 --> 00:49:01,920
interviewer asks peniston these ships

1286

00:49:07,069 --> 00:49:04,800
can go 40 or 50 000 years they can't go

1287

00:49:07,970 --> 00:49:07,079
back much further they might not get

1288

00:49:09,950 --> 00:49:07,980

back

1289

00:49:11,569 --> 00:49:09,960

and then Masters goes on to say this

1290

00:49:13,490 --> 00:49:11,579

statement corroborates a previously

1291

00:49:15,950 --> 00:49:13,500

proposed concept related to how

1292

00:49:18,349 --> 00:49:15,960

high-speed travel while light cones are

1293

00:49:20,089 --> 00:49:18,359

oriented towards the past may allow our

1294

00:49:22,730 --> 00:49:20,099

time traveling descendants to venture

1295

00:49:24,530 --> 00:49:22,740

deeper into the past light cones can be

1296

00:49:26,630 --> 00:49:24,540

understood as having the same properties

1297

00:49:28,849 --> 00:49:26,640

as light meaning they travel at the

1298

00:49:31,069 --> 00:49:28,859

speed of light they propagate like light

1299

00:49:33,410 --> 00:49:31,079

and their trajectory can be warped and

1300

00:49:35,210 --> 00:49:33,420

curved in the same way as light when

1301
00:49:38,329 --> 00:49:35,220
light cones approach an extremely large

1302
00:49:40,970 --> 00:49:38,339
denser highly energetic Mass their path

1303
00:49:43,130 --> 00:49:40,980
becomes curved and they can tilt or tip

1304
00:49:46,190 --> 00:49:43,140
over while still maintaining their

1305
00:49:48,770 --> 00:49:46,200
conical shape remarkably as light cones

1306
00:49:51,470 --> 00:49:48,780
tip over in association with a warpage

1307
00:49:53,809 --> 00:49:51,480
of proximate space-time World Lines

1308
00:49:56,569 --> 00:49:53,819
within them can deviate from a strictly

1309
00:49:58,609 --> 00:49:56,579
passed to Future linear trajectory this

1310
00:50:00,770 --> 00:49:58,619
means that anyone or anything traveling

1311
00:50:03,230 --> 00:50:00,780
along a world line that lies within the

1312
00:50:05,690 --> 00:50:03,240
margins of a tilted like cone in their

1313
00:50:07,490 --> 00:50:05,700

localized region of space-time would now

1314

00:50:11,569 --> 00:50:07,500

be permitted to travel into the global

1315

00:50:13,309 --> 00:50:11,579

past via a closed time-like curve CTC

1316

00:50:15,470 --> 00:50:13,319

unquote

1317

00:50:17,210 --> 00:50:15,480

now of course there are several key

1318

00:50:19,849 --> 00:50:17,220

Revelations there that potentially

1319

00:50:21,290 --> 00:50:19,859

support this notion of the extra-term

1320

00:50:23,450 --> 00:50:21,300

Pastoral model being the best

1321

00:50:25,790 --> 00:50:23,460

explanatory mechanism to make sense of

1322

00:50:27,290 --> 00:50:25,800

what we've seen again those of you who

1323

00:50:29,870 --> 00:50:27,300

tuned in when I cover the Terry love

1324

00:50:31,849 --> 00:50:29,880

lace case will remember that he had this

1325

00:50:33,890 --> 00:50:31,859

sense that some aspects of the military

1326

00:50:35,809 --> 00:50:33,900

already knew about this they already

1327

00:50:37,790 --> 00:50:35,819

knew about his encounter and actually

1328

00:50:39,410 --> 00:50:37,800

did their damndest to make sure he

1329

00:50:42,230 --> 00:50:39,420

would not remember and that his friend

1330

00:50:44,690 --> 00:50:42,240

Toby would not remember again when we

1331

00:50:47,030 --> 00:50:44,700

think about the 90-year cover-up that

1332

00:50:49,010 --> 00:50:47,040

we're now aware of one wonders is it

1333

00:50:51,710 --> 00:50:49,020

because it's not just about space travel

1334

00:50:54,410 --> 00:50:51,720

but also time travel and specifically

1335

00:50:56,150 --> 00:50:54,420

has to do with our future and the fact

1336

00:50:57,829 --> 00:50:56,160

that these beings are coming back in

1337

00:51:00,230 --> 00:50:57,839

time beings that are genetically related

1338

00:51:01,490 --> 00:51:00,240

to us are very descendants even and

1339

00:51:04,730 --> 00:51:01,500

they're coming back to again address

1340

00:51:06,109 --> 00:51:04,740

some sort of malady in our future that

1341

00:51:07,670 --> 00:51:06,119

perhaps there's not enough genetic

1342

00:51:09,589 --> 00:51:07,680

variants and so they need to come back

1343

00:51:12,410 --> 00:51:09,599

and gather that genetic variance from

1344

00:51:14,750 --> 00:51:12,420

their ancestors to inject new fresh

1345

00:51:16,790 --> 00:51:14,760

stock and to make their own stock

1346

00:51:18,950 --> 00:51:16,800

healthier again when you think about all

1347

00:51:21,530 --> 00:51:18,960

this it makes a lot of sense there's a

1348

00:51:23,210 --> 00:51:21,540

remarkable degree of consistency and

1349

00:51:24,710 --> 00:51:23,220

corroboration amongst these different

1350

00:51:26,990 --> 00:51:24,720

elements and amongst the different

1351
00:51:30,170 --> 00:51:27,000
aspects of experience your testimony

1352
00:51:32,150 --> 00:51:30,180
over time again and on top of that we

1353
00:51:35,150 --> 00:51:32,160
have direct statements from these others

1354
00:51:37,069 --> 00:51:35,160
very often saying you are us we are you

1355
00:51:38,870 --> 00:51:37,079
one time there was this case where

1356
00:51:40,730 --> 00:51:38,880
someone said it would be easier to deal

1357
00:51:42,829 --> 00:51:40,740
with you if you weren't so damn ugly

1358
00:51:45,589 --> 00:51:42,839
basically and the being responded by

1359
00:51:48,829 --> 00:51:45,599
saying my dear one day will look just

1360
00:51:51,349 --> 00:51:48,839
like us so again often there's direct

1361
00:51:53,630 --> 00:51:51,359
statements supporting this hypothesis if

1362
00:51:55,250 --> 00:51:53,640
we bother to really pay attention to all

1363
00:51:57,470 --> 00:51:55,260

of the different details and how they

1364

00:51:58,670 --> 00:51:57,480

might work together in some overarching

1365

00:52:01,309 --> 00:51:58,680

narrative

1366

00:52:03,290 --> 00:52:01,319

now as we begin to draw this episode to

1367

00:52:05,450 --> 00:52:03,300

a close I'd like now to turn to the

1368

00:52:07,490 --> 00:52:05,460

issue of paradoxes or at least apparent

1369

00:52:10,069 --> 00:52:07,500

paradoxes again a lot of people get

1370

00:52:12,470 --> 00:52:10,079

caught up in the apparent paradoxes and

1371

00:52:14,930 --> 00:52:12,480

thus reject this model this hypothesis

1372

00:52:17,569 --> 00:52:14,940

this explanatory mechanism to make sense

1373

00:52:19,609 --> 00:52:17,579

of what's been going on historically but

1374

00:52:22,250 --> 00:52:19,619

again the key is that these are apparent

1375

00:52:24,530 --> 00:52:22,260

paradoxes only in our perception this is

1376

00:52:26,809 --> 00:52:24,540

what Masters has to say about that quote

1377

00:52:28,970 --> 00:52:26,819

consistency paradoxes like the

1378

00:52:31,609 --> 00:52:28,980

grandfather Paradox as well as the

1379

00:52:34,010 --> 00:52:31,619

causal Loop Paradox aka the bootstrap

1380

00:52:36,290 --> 00:52:34,020

Paradox where something from the future

1381

00:52:39,349 --> 00:52:36,300

AIDS in its own creation by being a part

1382

00:52:42,589 --> 00:52:39,359

of its past despite their names also

1383

00:52:44,510 --> 00:52:42,599

aren't paradoxical the common heuristic

1384

00:52:46,190 --> 00:52:44,520

device for understanding causal Loops

1385

00:52:48,829 --> 00:52:46,200

typically involves someone creating

1386

00:52:51,109 --> 00:52:48,839

something or having an impactful idea

1387

00:52:52,970 --> 00:52:51,119

which through the mechanism of backward

1388

00:52:55,790 --> 00:52:52,980

time travel is revealed to an earlier

1389

00:52:57,770 --> 00:52:55,800

version of themselves this past person

1390

00:53:00,770 --> 00:52:57,780

then uses the newly acquired information

1391

00:53:02,390 --> 00:53:00,780

person outcome and later in life they

1392

00:53:05,030 --> 00:53:02,400

become the one traveling back through

1393

00:53:07,190 --> 00:53:05,040

time to convey that information to their

1394

00:53:09,290 --> 00:53:07,200

younger self in a sort of infinite

1395

00:53:11,089 --> 00:53:09,300

self-consistent causal Loop of creation

1396

00:53:13,430 --> 00:53:11,099

and dissemination

1397

00:53:15,470 --> 00:53:13,440

this scenario may appear to laugh in the

1398

00:53:17,329 --> 00:53:15,480

face of causality however when

1399

00:53:19,630 --> 00:53:17,339

understood within the framework of a

1400

00:53:22,970 --> 00:53:19,640

closed loop of self-consistent events

1401
00:53:24,410 --> 00:53:22,980
causality becomes irrelevant as does the

1402
00:53:27,109 --> 00:53:24,420
question of who created the original

1403
00:53:30,049 --> 00:53:27,119
idea or invention taken back through

1404
00:53:32,089 --> 00:53:30,059
time the apparent perplexity of these

1405
00:53:33,829 --> 00:53:32,099
scenarios largely stems from the fact

1406
00:53:35,870 --> 00:53:33,839
that our perception of time is

1407
00:53:38,270 --> 00:53:35,880
habitually derived from obstinate

1408
00:53:40,490 --> 00:53:38,280
observations of linearly organized

1409
00:53:42,910 --> 00:53:40,500
events with clearly defined boundaries

1410
00:53:45,730 --> 00:53:42,920
between a past cause and a future effect

1411
00:53:48,290 --> 00:53:45,740
yet in the presence of a time machine

1412
00:53:50,870 --> 00:53:48,300
events in the future can elicit an

1413
00:53:53,870 --> 00:53:50,880

effect in the past because neither comes

1414

00:53:55,910 --> 00:53:53,880

before the other unquote

1415

00:53:57,470 --> 00:53:55,920

so the bottom line there is that even if

1416

00:54:00,170 --> 00:53:57,480

it's difficult for you to wrap your head

1417

00:54:01,849 --> 00:54:00,180

around there is no Paradox here this is

1418

00:54:03,890 --> 00:54:01,859

a self-consistent way of thinking about

1419

00:54:05,569 --> 00:54:03,900

the way that time works when you have

1420

00:54:07,970 --> 00:54:05,579

something like a time machine that can

1421

00:54:09,650 --> 00:54:07,980

manipulate our usual experience of

1422

00:54:11,750 --> 00:54:09,660

linearity

1423

00:54:13,609 --> 00:54:11,760

now when we step back for a moment we

1424

00:54:15,470 --> 00:54:13,619

think about the historical narrative the

1425

00:54:17,690 --> 00:54:15,480

recent historical narrative in which

1426
00:54:19,430 --> 00:54:17,700
these beings have come into our timeline

1427
00:54:21,049 --> 00:54:19,440
within the last century or so perhaps

1428
00:54:23,089 --> 00:54:21,059
going back before then but if we just

1429
00:54:25,370 --> 00:54:23,099
pay attention to that even we have the

1430
00:54:27,770 --> 00:54:25,380
sense that they're here for a reason not

1431
00:54:30,470 --> 00:54:27,780
just to repair some malady in their

1432
00:54:32,750 --> 00:54:30,480
previous present which is our future but

1433
00:54:35,450 --> 00:54:32,760
on top of that they seem to be also here

1434
00:54:37,130 --> 00:54:35,460
to warn us about a certain outcome that

1435
00:54:39,230 --> 00:54:37,140
is inevitable based on our current

1436
00:54:41,390 --> 00:54:39,240
trajectory the way we exist as a

1437
00:54:43,490 --> 00:54:41,400
civilization and specifically the way we

1438
00:54:45,650 --> 00:54:43,500

treat the planet which is our home and

1439

00:54:48,410 --> 00:54:45,660

again of course ultimately will be their

1440

00:54:50,450 --> 00:54:48,420

home as well the messaging very often

1441

00:54:52,190 --> 00:54:50,460

revolves around this specifically not

1442

00:54:54,049 --> 00:54:52,200

necessarily what's going wrong with our

1443

00:54:55,790 --> 00:54:54,059

civilization but what's going wrong with

1444

00:54:57,829 --> 00:54:55,800

the planet because of the way our

1445

00:54:59,870 --> 00:54:57,839

civilization is conducting our Affairs

1446

00:55:02,690 --> 00:54:59,880

so in addition to being here to collect

1447

00:55:05,210 --> 00:55:02,700

genetic material to add variants to

1448

00:55:06,829 --> 00:55:05,220

their future population there's also

1449

00:55:09,230 --> 00:55:06,839

this sense that they are here to warn us

1450

00:55:10,970 --> 00:55:09,240

to do their best to warn us about the

1451

00:55:13,490 --> 00:55:10,980

fact that they're trajectory we are on

1452

00:55:16,490 --> 00:55:13,500

is unsustainable and will inevitably

1453

00:55:18,710 --> 00:55:16,500

result in a very bad outcome if we do

1454

00:55:20,329 --> 00:55:18,720

not change our ways again this has been

1455

00:55:23,150 --> 00:55:20,339

centrally observed in so many

1456

00:55:25,130 --> 00:55:23,160

experiencer accounts it's old hat by now

1457

00:55:27,230 --> 00:55:25,140

we know what the consistent message is

1458

00:55:29,630 --> 00:55:27,240

it revolves around the sense of a coming

1459

00:55:32,450 --> 00:55:29,640

cataclysm related to the way that we

1460

00:55:34,549 --> 00:55:32,460

have a commodity-based relationship with

1461

00:55:36,349 --> 00:55:34,559

the planet and of course our economic

1462

00:55:38,089 --> 00:55:36,359

structures and whatnot also come into

1463

00:55:39,710 --> 00:55:38,099

play there but ultimately there's this

1464

00:55:41,390 --> 00:55:39,720

real focus on what we're doing to the

1465

00:55:43,250 --> 00:55:41,400

environment what we're doing to the

1466

00:55:45,890 --> 00:55:43,260

planet and that that our current course

1467

00:55:47,930 --> 00:55:45,900

will lead to a bad outcome if we do not

1468

00:55:49,609 --> 00:55:47,940

change our ways

1469

00:55:51,410 --> 00:55:49,619

and now I'd like to leave you with this

1470

00:55:53,870 --> 00:55:51,420

concluding thought

1471

00:55:56,030 --> 00:55:53,880

when one considers the legacy of 20th

1472

00:55:57,650 --> 00:55:56,040

century ecological history within the

1473

00:56:00,049 --> 00:55:57,660

particular lands we've considered here

1474

00:56:02,329 --> 00:56:00,059

today A couple of intriguing and

1475

00:56:04,370 --> 00:56:02,339

pertinent questions emerge

1476

00:56:06,950 --> 00:56:04,380

first why would these possibly future

1477

00:56:09,530 --> 00:56:06,960

relative beings embark on such dangerous

1478

00:56:11,630 --> 00:56:09,540

Endeavors to begin with coming back in

1479

00:56:13,549 --> 00:56:11,640

time and perhaps initially crashing the

1480

00:56:16,309 --> 00:56:13,559

sophisticated space-time manipulating

1481

00:56:18,650 --> 00:56:16,319

Vehicles they're operating while working

1482

00:56:21,349 --> 00:56:18,660

to perfect the technology

1483

00:56:24,109 --> 00:56:21,359

second why would a certain contingent of

1484

00:56:26,569 --> 00:56:24,119

temporal locals who are perhaps privy to

1485

00:56:28,430 --> 00:56:26,579

what is really going on here agree to

1486

00:56:30,710 --> 00:56:28,440

keeping the truth of the matter secret

1487

00:56:31,970 --> 00:56:30,720

perhaps with a sweetener involving the

1488

00:56:35,210 --> 00:56:31,980

receipt of some of this very

1489

00:56:37,130 --> 00:56:35,220

sophisticated Tech in the Here and Now

1490

00:56:39,170 --> 00:56:37,140

I would pause it and light up everything

1491

00:56:40,849 --> 00:56:39,180

we've considered today including the

1492

00:56:43,069 --> 00:56:40,859

daunting environmental concerns the

1493

00:56:44,329 --> 00:56:43,079

planet now faces as well as the

1494

00:56:46,849 --> 00:56:44,339

increasingly chaotic and

1495

00:56:49,250 --> 00:56:46,859

self-destructive path our species seems

1496

00:56:51,230 --> 00:56:49,260

intent on following that perhaps the

1497

00:56:53,870 --> 00:56:51,240

answer lies in the fact that the need is

1498

00:56:55,609 --> 00:56:53,880

simply that dire and that both we

1499

00:56:58,190 --> 00:56:55,619

temporal locals and the extra

1500

00:57:00,349 --> 00:56:58,200

tempestules who are in some way our

1501

00:57:02,329 --> 00:57:00,359

future descendants have a shared

1502

00:57:05,030 --> 00:57:02,339

interest in seeing some overarching

1503

00:57:08,089 --> 00:57:05,040

scheme involving a newly hybrid version

1504

00:57:11,809 --> 00:57:08,099

of the two of us somehow survive to see

1505

00:57:16,430 --> 00:57:14,450

and on that note we've come to the close

1506

00:57:18,650 --> 00:57:16,440

of another edition of the point of

1507

00:57:20,630 --> 00:57:18,660

convergence podcast if you'd like to

1508

00:57:25,130 --> 00:57:20,640

support this podcast you can do so by

1509

00:57:29,270 --> 00:57:27,230

but until next time friends from deep

1510

00:57:32,569 --> 00:57:29,280

within the Blue Ridge Mountains of North
