

1  
00:00:05,190 --> 00:00:02,389  
you said you saw literally hundreds

2  
00:00:07,670 --> 00:00:05,200  
of unidentifiable flying objects yes

3  
00:00:09,270 --> 00:00:07,680  
they were flying quite high how high we

4  
00:00:12,230 --> 00:00:09,280  
couldn't tell because we couldn't get

5  
00:00:14,789 --> 00:00:12,240  
anywhere near their altitude

6  
00:00:18,630 --> 00:00:14,799  
but they were either very large craft

7  
00:00:20,950 --> 00:00:18,640  
way up or smaller crafts still well

8  
00:00:23,029 --> 00:00:20,960  
above what we can get to for a day and a

9  
00:00:25,269 --> 00:00:23,039  
half all of this happened

10  
00:00:28,150 --> 00:00:25,279  
but then no one wanted to talk about it

11  
00:00:29,830 --> 00:00:28,160  
well we sent a report forward on it and

12  
00:00:31,750 --> 00:00:29,840  
the answer that finally came back months

13  
00:00:33,510 --> 00:00:31,760

later was they were probably high-flying

14

00:00:35,270 --> 00:00:33,520

seed pods

15

00:00:37,190 --> 00:00:35,280

which didn't sound very logical

16

00:00:39,670 --> 00:00:37,200

supervising flight testing in edwards

17

00:00:41,670 --> 00:00:39,680

air force base his military camera crew

18

00:00:43,990 --> 00:00:41,680

actually filmed an unidentified

19

00:00:45,350 --> 00:00:44,000

saucer-shaped object landing near the

20

00:00:47,190 --> 00:00:45,360

site

21

00:00:49,270 --> 00:00:47,200

as they were sitting there filming a

22

00:00:51,590 --> 00:00:49,280

little saucer came from i say little

23

00:00:53,510 --> 00:00:51,600

saucer it was a saucer came

24

00:00:55,189 --> 00:00:53,520

flying over their heads put down three

25

00:00:57,430 --> 00:00:55,199

little landing gear and landed right out

26

00:00:59,349 --> 00:00:57,440

on the dry lake bed

27

00:01:01,270 --> 00:00:59,359

and they picked up their cameras and

28

00:01:02,549 --> 00:01:01,280

started over toward it filming as they

29

00:01:04,229 --> 00:01:02,559

went

30

00:01:05,990 --> 00:01:04,239

and when they got in fairly close to it

31

00:01:08,630 --> 00:01:06,000

it lifted up put the gear back in the

32

00:01:10,950 --> 00:01:08,640

wheel wells tipped up and took off at a

33

00:01:12,390 --> 00:01:10,960

great rate of speed

34

00:01:14,630 --> 00:01:12,400

and so they brought the

35

00:01:16,469 --> 00:01:14,640

came into my office and told me what

36

00:01:17,910 --> 00:01:16,479

happened i sent them over to develop the

37

00:01:19,670 --> 00:01:17,920

film

38

00:01:22,870 --> 00:01:19,680

and then had to go through all the

39

00:01:25,429 --> 00:01:22,880

proper regulations of reporting this and

40

00:01:28,390 --> 00:01:25,439

and we wound up having to send the film

41

00:01:30,550 --> 00:01:28,400

forward to washington in the base that

42

00:01:31,990 --> 00:01:30,560

airplane and

43

00:01:33,190 --> 00:01:32,000

i don't know whether anyone's ever seen

44

00:01:35,910 --> 00:01:33,200

it since

45

00:01:37,749 --> 00:01:35,920

now the vehicle that you just described

46

00:01:40,069 --> 00:01:37,759

how similar was it to the very first

47

00:01:41,749 --> 00:01:40,079

sighting that you had back in 1951 quite

48

00:01:44,870 --> 00:01:41,759

similar was about basically the same

49

00:01:46,710 --> 00:01:44,880

planned farm vehicle they were a double

50

00:01:48,149 --> 00:01:46,720

saucer lenticular

51  
00:01:50,710 --> 00:01:48,159  
but if you're going to be going in and

52  
00:01:52,550 --> 00:01:50,720  
out of atmospheres like earth or other

53  
00:01:53,749 --> 00:01:52,560  
places might have

54  
00:01:55,990 --> 00:01:53,759  
you certainly need a little more

55  
00:01:58,069 --> 00:01:56,000  
aerodynamic type of vehicle

56  
00:01:59,270 --> 00:01:58,079  
and the saucer has the capability of

57  
00:02:01,830 --> 00:01:59,280  
going through the air at tremendous

58  
00:02:04,469 --> 00:02:01,840  
rates of speed and handling the bow and

59  
00:02:06,550 --> 00:02:04,479  
trailing wave without making shock waves

60  
00:02:08,070 --> 00:02:06,560  
so it can be very silent while traveling

61  
00:02:09,589 --> 00:02:08,080  
big rates of speed through the

62  
00:02:12,229 --> 00:02:09,599  
atmosphere a friend of mine who was a

63  
00:02:14,949 --> 00:02:12,239

captain on a major airline

64

00:02:16,949 --> 00:02:14,959

at night was flying along noticed this

65

00:02:18,390 --> 00:02:16,959

suddenly a big glow came off his left

66

00:02:19,830 --> 00:02:18,400

wing and

67

00:02:23,350 --> 00:02:19,840

he looked out and his big saucer was

68

00:02:25,350 --> 00:02:23,360

sitting right off their wing and so he

69

00:02:26,869 --> 00:02:25,360

turned slide toward it moved away and

70

00:02:29,350 --> 00:02:26,879

turned back and it moved back in

71

00:02:31,750 --> 00:02:29,360

position and turned to his co-pilot and

72

00:02:33,150 --> 00:02:31,760

said do you see what i see and he said

73

00:02:34,470 --> 00:02:33,160

oh god yeah i do

74

00:02:36,150 --> 00:02:34,480

[Music]

75

00:02:37,750 --> 00:02:36,160

and it trailed along with him for quite

76  
00:02:39,830 --> 00:02:37,760  
a period of time and tipped up climbed

77  
00:02:44,630 --> 00:02:39,840  
very steeply away

78  
00:02:45,910 --> 00:02:44,640  
was on jim mcdevitt's gemini 7 mission

79  
00:02:48,150 --> 00:02:45,920  
where they saw

80  
00:02:49,670 --> 00:02:48,160  
this glint of something metallic off in

81  
00:02:51,830 --> 00:02:49,680  
the distance

82  
00:02:53,589 --> 00:02:51,840  
and he reported and nobody had it listed

83  
00:02:55,589 --> 00:02:53,599  
on the ground so he tried getting a

84  
00:02:57,509 --> 00:02:55,599  
picture of it but the sun unfortunately

85  
00:02:58,869 --> 00:02:57,519  
was glitting off sprite all you got is

86  
00:03:01,589 --> 00:02:58,879  
just a glint

87  
00:03:04,070 --> 00:03:01,599  
there was no detail on what it was

88  
00:03:06,869 --> 00:03:04,080

but never any uh any further siding at

89

00:03:08,550 --> 00:03:06,879

all on it the letter to un was in

90

00:03:10,790 --> 00:03:08,560

conjunction with the meeting that i had

91

00:03:12,790 --> 00:03:10,800

with kurt waldheim and the security

92

00:03:15,750 --> 00:03:12,800

council of the un

93

00:03:16,949 --> 00:03:15,760

to try to encourage the u.n to establish

94

00:03:18,949 --> 00:03:16,959

a committee

95

00:03:20,550 --> 00:03:18,959

to start comparing notes and data and

96

00:03:22,790 --> 00:03:20,560

information

97

00:03:23,750 --> 00:03:22,800

and to really look into all of this from

98

00:03:26,390 --> 00:03:23,760

an

99

00:03:27,910 --> 00:03:26,400

unbiased neutral point of view here's a

100

00:03:29,750 --> 00:03:27,920

quote from from your letter i believe

101

00:03:31,270 --> 00:03:29,760

that these extra terrestrial vehicles

102

00:03:33,350 --> 00:03:31,280

and their crews are visiting this planet

103

00:03:35,670 --> 00:03:33,360

from other planets and are obviously a

104

00:03:37,670 --> 00:03:35,680

little more advanced than we are here on

105

00:03:39,270 --> 00:03:37,680

earth and are you saying that's exactly

106

00:03:41,430 --> 00:03:39,280

why governments have been trying to keep
