

D. SLAYTON

1
00:00:04,950 --> 00:00:02,790
as i closed on this thing why it didn't

2
00:00:06,789 --> 00:00:04,960
look like a weather balloon and that's

3
00:00:08,790 --> 00:00:06,799
what i presumed it was

4
00:00:10,310 --> 00:00:08,800
then i had plenty of gas and time so i

5
00:00:12,950 --> 00:00:10,320
decided i just come back around and make

6
00:00:14,230 --> 00:00:12,960
a make a pass on it and

7
00:00:15,509 --> 00:00:14,240
i got around where i should have been

8
00:00:16,870 --> 00:00:15,519
coming back on this thing all of a

9
00:00:18,230 --> 00:00:16,880
sudden it didn't look a balloon anymore

10
00:00:21,429 --> 00:00:18,240
it looked like a

11
00:00:23,189 --> 00:00:21,439
saucer sitting on edge about a 45 degree

12
00:00:24,870 --> 00:00:23,199
angle

13
00:00:26,550 --> 00:00:24,880

i didn't have any gun camera film on

14

00:00:28,390 --> 00:00:26,560

board unfortunately or i shot some

15

00:00:30,150 --> 00:00:28,400

pictures of it

16

00:00:32,229 --> 00:00:30,160

and about that time i guess what

17

00:00:34,549 --> 00:00:32,239

whatever it was for whatever reasons

18

00:00:35,910 --> 00:00:34,559

took off climbing at about a 45 degree

19

00:00:38,229 --> 00:00:35,920

angle and

20

00:00:38,950 --> 00:00:38,239

and just accelerated and disappeared and
