2
00:00:19,349 --> 00:00:18,070
san jose the capital of costa rica

3
00:00:22,390 --> 00:00:19,359
just before four o'clock in the

4
00:00:24,150 --> 00:00:22,400
afternoon marvin badil a young carpenter

5
00:00:26,150 --> 00:00:24,160
was working when he heard a strange

6
00:00:27,750 --> 00:00:26,160
buzzing that distracted him from his

7
00:00:30,310 --> 00:00:27,760
work

8
00:00:32,069 --> 00:00:30,320
to his intense amazement the young man

9
00:00:37,830 --> 00:00:32,079
saw that the source of the noise was

10
00:00:43,590 --> 00:00:40,950
i was shaping this table here outside it

11
00:00:46,150 --> 00:00:43,600
was very cloudy i looked up and saw some

12
00:00:48,150 --> 00:00:46,160
sort of object it was very bright

13
00:00:49,750 --> 00:00:48,160

i looked at it carefully and took out my

14

00:00:51,750 --> 00:00:49,760

mobile phone

15

00:00:55,530 --> 00:00:51,760

i saw that it was giving me time to film

16

00:00:57,430 --> 00:00:55,540

it so i started to record

17

00:00:59,189 --> 00:00:57,440

[Music]

18

00:01:01,590 --> 00:00:59,199

i called my colleague who was working

19

00:01:03,270 --> 00:01:01,600

with a drill but he didn't hear me

20

00:01:06,870 --> 00:01:03,280

i called him again

21

00:01:10,310 --> 00:01:06,880

i turned towards him moving the phone

22

00:01:10,320 --> 00:01:13,990

the object had already gone

23

00:01:18,390 --> 00:01:16,149

the film that marvin recorded shows a

24

00:01:21,190 --> 00:01:18,400

classic flying saucer hovering just a

25

00:01:23,590 --> 00:01:21,200

few meters from the ground

26
00:01:25,190 --> 00:01:23,600
his colleague william rivera didn't hear

27
00:01:28,630 --> 00:01:25,200
marvin shouting over the noise of the

28
00:01:36,220 --> 00:01:30,710
thus he missed the extraordinary

29
00:01:48,310 --> 00:01:38,550
[Music]

30
00:01:52,789 --> 00:01:50,630
william rivera assures us that marvin

31
00:02:06,389 --> 00:01:52,799
was quite shaken

32
00:02:06,399 --> 00:02:17,110
i have no doubt

33
00:02:21,030 --> 00:02:19,190
and its appearance prove that it could

34
00:02:23,030 --> 00:02:21,040
not have been a conventional earthly

35
00:02:25,030 --> 00:02:23,040
vehicle according to marvin's

36
00:02:30,070 --> 00:02:25,040
description the object was about as

37
00:02:34,470 --> 00:02:31,270
it wouldn't have been large enough to

38
00:02:37,030 --> 00:02:34,480

hold a normal sized person

39

00:02:39,750 --> 00:02:37,040

oscar sierra the ufologist from costa

40

00:02:40,830 --> 00:02:39,760

rica explains his theory to the teleka

41

00:02:44,630 --> 00:02:40,840

journalists

42

00:02:49,509 --> 00:02:47,110

it's not necessarily a driven object it

43

00:02:51,509 --> 00:02:49,519

could be some sort of probe like those
