[Music]

2  
00:00:04,070 --> 00:00:02,399

at this point when i

3  
00:00:06,230 --> 00:00:04,080

uh would say approximately is where i

4  
00:00:07,990 --> 00:00:06,240

had this terrific flash hit the air my

5  
00:00:11,270 --> 00:00:08,000

aircraft lit up the inside of my

6  
00:00:13,190 --> 00:00:11,280

aircraft and uh i i assumed of course at

7  
00:00:15,749 --> 00:00:13,200

the time in a split second that it was

8  
00:00:17,430 --> 00:00:15,759

probably a p-51 fighter that had dove

9  
00:00:19,750 --> 00:00:17,440

over my nose and that it was the sun's

10  
00:00:22,310 --> 00:00:19,760

reflecting upon his bright wing surfaces

11  
00:00:24,470 --> 00:00:22,320

that caused it however before i gathered

12  
00:00:26,150 --> 00:00:24,480

my wits together i looked way off here

13  
00:00:28,870 --> 00:00:26,160

to the north and then when i saw where

14

00:00:31,269 --> 00:00:28,880

the flash came from it was a an insulin

15

00:00:34,229 --> 00:00:31,279

formation of very peculiar looking

16

00:00:36,870 --> 00:00:34,239

aircraft and uh they were rapidly

17

00:00:38,950 --> 00:00:36,880

approaching mountaineer and it was at

18

00:00:42,069 --> 00:00:38,960

about this point when i got here i could

19

00:00:45,510 --> 00:00:42,079

see their their tail surfaces or the

20

00:00:47,910 --> 00:00:45,520

rear end of the man in the second uh the

21

00:00:49,670 --> 00:00:47,920

second craft from the rear had a more or

22

00:00:51,510 --> 00:00:49,680

less crescent-shaped

23

00:00:53,910 --> 00:00:51,520

look and it had a hole in the center of

24

00:00:55,830 --> 00:00:53,920

it and of course i kept mulling in my

25

00:00:57,350 --> 00:00:55,840

mind that's a damnedest looking airplane

26

00:00:59,590 --> 00:00:57,360

i ever saw

27

00:01:01,830 --> 00:00:59,600

i looked at my sweet second hand on my

28

00:01:03,750 --> 00:01:01,840

24-hour clock and they had covered this

29

00:01:05,830 --> 00:01:03,760

distance of approximately 50 miles in a

30

00:01:08,070 --> 00:01:05,840

minute and 42 seconds

31

00:01:09,510 --> 00:01:08,080

it is placing their speed at

32

00:01:13,350 --> 00:01:09,520

approximately

33

00:01:15,510 --> 00:01:13,360

1700 miles an hour 1781 it came out at

34

00:01:18,550 --> 00:01:15,520

that distance which is of course unheard

35

00:01:21,030 --> 00:01:18,560

of in 1947. i says well i tell you they

36

00:01:22,950 --> 00:01:21,040

flew like erratically like a like a

37

00:01:23,990 --> 00:01:22,960

saucer would if if you skipped it across

38

00:01:26,469 --> 00:01:24,000

the water

39

00:01:28,870 --> 00:01:26,479

and of course then all of a sudden uh

40

00:01:30,870 --> 00:01:28,880

the term flying disc and and this type

41

00:01:32,950 --> 00:01:30,880

of thing are crescent-shaped or whatnot

42

00:01:34,950 --> 00:01:32,960

was completely dropped and everybody

43

00:01:36,469 --> 00:01:34,960

started seeing flying saucers

44

00:01:38,230 --> 00:01:36,479

and they've been seeing them ever since

45

00:01:39,910 --> 00:01:38,240

here we've seen something i've seen

46

00:01:40,870 --> 00:01:39,920

something hundreds of pilots have seen

47

00:01:43,030 --> 00:01:40,880

something

48

00:01:45,990 --> 00:01:43,040

in the skies we have

49

00:01:49,109 --> 00:01:46,000

dutifully reported these things

50

00:01:50,950 --> 00:01:49,119

and we have to have 15 million witnesses

51  
00:01:53,109 --> 00:01:50,960  
before anybody's going to look into the

52  
00:01:55,510 --> 00:01:53,119  
problem seriously

53  
00:01:58,149 --> 00:01:55,520  
why this is utterly fantastic this is

54  
00:02:00,310 --> 00:01:58,159  
more fantastic than than flying saucers
