

1
00:00:03,510 --> 00:00:01,910
on the day of the eclipse of the sun

2
00:00:05,990 --> 00:00:03,520
some of the crew and passengers of a

3
00:00:07,829 --> 00:00:06,000
boac stratocruiser reported seeing

4
00:00:10,070 --> 00:00:07,839
mysterious objects in the sky over the

5
00:00:11,749 --> 00:00:10,080
atlantic when the airliner arrived back

6
00:00:13,669 --> 00:00:11,759
in britain the pilot captain james

7
00:00:16,070 --> 00:00:13,679
howard was asked to describe these

8
00:00:17,590 --> 00:00:16,080
objects by our reporter peter max well

9
00:00:19,590 --> 00:00:17,600
very conveniently captain we've got a

10
00:00:21,590 --> 00:00:19,600
nice blackboard here do you think you

11
00:00:22,950 --> 00:00:21,600
could illustrate this phenomenon for us

12
00:00:25,269 --> 00:00:22,960
could you show us what it looked like

13
00:00:27,910 --> 00:00:25,279

very roughly i'll try

14

00:00:29,269 --> 00:00:27,920

when i look out of the left hand window

15

00:00:31,349 --> 00:00:29,279

the

16

00:00:33,430 --> 00:00:31,359

nose of a static bruiser

17

00:00:35,350 --> 00:00:33,440

i see something like this

18

00:00:37,110 --> 00:00:35,360

well that is the uh

19

00:00:40,069 --> 00:00:37,120

porch wing

20

00:00:41,990 --> 00:00:40,079

one of the engines is there

21

00:00:43,510 --> 00:00:42,000

and on this occasion

22

00:00:45,750 --> 00:00:43,520

the horizon

23

00:00:47,750 --> 00:00:45,760

was at about that level

24

00:00:49,510 --> 00:00:47,760

with low clouds

25

00:00:52,869 --> 00:00:49,520

way believe us

26

00:00:55,270 --> 00:00:52,879

the sun had just set over here

27

00:01:05,109 --> 00:00:55,280

and these objects

28

00:01:10,149 --> 00:01:07,830

a large object appeared at times to be

29

00:01:13,830 --> 00:01:10,159

something like that with the smaller

30

00:01:18,390 --> 00:01:16,630

in relation to it

31

00:01:20,870 --> 00:01:18,400

something like this

32

00:01:22,630 --> 00:01:20,880

they were sometimes ahead of it

33

00:01:23,910 --> 00:01:22,640

sometimes behind

34

00:01:26,550 --> 00:01:23,920

and the

35

00:01:29,270 --> 00:01:26,560

shape of this object was continually

36

00:01:31,590 --> 00:01:29,280

changing sometimes one end would appear

37

00:01:35,910 --> 00:01:31,600

to disappear sometimes this was very

38

00:01:43,030 --> 00:01:35,920

much larger sometimes it was almost a

39

00:01:50,469 --> 00:01:47,109

it was always uh black and silhouette

40

00:01:52,950 --> 00:01:50,479

and all this quite a clear edge to it

41

00:01:54,389 --> 00:01:52,960

and when it finally disappeared it

42

00:01:55,990 --> 00:01:54,399

seemed to dissolve

43

00:01:59,109 --> 00:01:56,000

yes the

44

00:01:59,910 --> 00:01:59,119

smaller ones just disappeared first and

45

00:02:01,030 --> 00:01:59,920

this

46

00:02:03,670 --> 00:02:01,040

trunk

47

00:02:05,270 --> 00:02:03,680

just shrunk down until it was no more

48

00:02:06,389 --> 00:02:05,280

than just a

49

00:02:09,749 --> 00:02:06,399

speck

50

00:02:12,949 --> 00:02:09,759

and then or even that disappear

51
00:02:14,790 --> 00:02:12,959
now would you say that that possible uh

52
00:02:17,190 --> 00:02:14,800
some sort of optical illusion or would

53
00:02:18,790 --> 00:02:17,200
you say it was an intelligently

54
00:02:21,110 --> 00:02:18,800
navigated

55
00:02:24,470 --> 00:02:21,120
craft

56
00:02:26,150 --> 00:02:24,480
at least 10 10 of us the entire crew and

57
00:02:27,589 --> 00:02:26,160
some of the passengers

58
00:02:28,710 --> 00:02:27,599
watched this

59
00:02:31,030 --> 00:02:28,720
object

60
00:02:34,150 --> 00:02:31,040
for 18 minutes

61
00:02:37,190 --> 00:02:34,160
and it maintained station alongside us

62
00:02:40,710 --> 00:02:37,200
some distance away and i think there's

63
00:02:43,030 --> 00:02:40,720

no question that it was no illusion

64

00:02:45,190 --> 00:02:43,040

and that it was being intelligently

65

00:02:47,670 --> 00:02:45,200

handled we were on route gooseberry in

66

00:02:50,550 --> 00:02:47,680

labrador flying at our assigned altitude

67

00:02:52,070 --> 00:02:50,560

of 19 000 feet it was a lovely summer

68

00:02:54,470 --> 00:02:52,080

evening

69

00:02:57,190 --> 00:02:54,480

i was looking down on the left hand side

70

00:02:59,910 --> 00:02:57,200

of the airplane and i saw through broken

71

00:03:01,509 --> 00:02:59,920

cloud something moving

72

00:03:04,550 --> 00:03:01,519

alongside us

73

00:03:07,350 --> 00:03:04,560

there were seven in all objects

74

00:03:08,470 --> 00:03:07,360

there was one large one and six smaller

75

00:03:09,910 --> 00:03:08,480

ones

76

00:03:13,110 --> 00:03:09,920

the big one

77

00:03:14,710 --> 00:03:13,120

also appeared to be changing its shape

78

00:03:16,550 --> 00:03:14,720

gradually

79

00:03:18,869 --> 00:03:16,560

and it stayed with us

80

00:03:19,990 --> 00:03:18,879

and the passengers became interested

81

00:03:24,550 --> 00:03:20,000

naturally

82

00:03:28,330 --> 00:03:25,990

we couldn't tell the passengers what it

83

00:03:30,149 --> 00:03:28,340

was because we we just didn't know

84

00:03:31,910 --> 00:03:30,159

[Music]

85

00:03:33,509 --> 00:03:31,920

some laughing about it and some were

86

00:03:35,030 --> 00:03:33,519

saying oh it's

87

00:03:36,229 --> 00:03:35,040

martians have landed in silly things
