

1  
00:00:04,870 --> 00:00:02,310  
these discs were designed by german

2  
00:00:06,309 --> 00:00:04,880  
technology in the late 40s

3  
00:00:09,270 --> 00:00:06,319  
uh the first ones we know of that were

4  
00:00:11,910 --> 00:00:09,280  
tested out were probably around 47 or 48

5  
00:00:13,669 --> 00:00:11,920  
they're called drill levitation devices

6  
00:00:16,870 --> 00:00:13,679  
as you can see they actually fly quite

7  
00:00:19,189 --> 00:00:16,880  
well notice the nice v formation

8  
00:00:22,790 --> 00:00:19,199  
being typical earth-bound air force

9  
00:00:24,790 --> 00:00:22,800  
pilots they're still flying in formation

10  
00:00:25,750 --> 00:00:24,800  
we understand this technology a little

11  
00:00:27,109 --> 00:00:25,760  
bit

12  
00:00:29,189 --> 00:00:27,119  
because

13  
00:00:31,029 --> 00:00:29,199

intelligences shot down some of their

14

00:00:32,470 --> 00:00:31,039

ships learned how they're doing it and

15

00:00:34,630 --> 00:00:32,480

when you hear rumors about how the

16

00:00:36,389 --> 00:00:34,640

americans are building flying discs what

17

00:00:37,990 --> 00:00:36,399

we're doing is playing catch-up to the

18

00:00:40,229 --> 00:00:38,000

german technology that's been around

19

00:00:42,470 --> 00:00:40,239

since the 40s their technology has

20

00:00:43,750 --> 00:00:42,480

accelerated tremendously

21

00:00:45,750 --> 00:00:43,760

they make two different types of

22

00:00:48,549 --> 00:00:45,760

levitation devices that's what we're

23

00:00:50,310 --> 00:00:48,559

doing out of area 51 we manufacture the

24

00:00:51,910 --> 00:00:50,320

devices in san diego they're put

25

00:00:54,470 --> 00:00:51,920

together by general electric we test

26  
00:00:56,549 --> 00:00:54,480  
them at area 51. here's the german disk

27  
00:00:58,630 --> 00:00:56,559  
parked down on the ground at a facility

28  
00:01:00,630 --> 00:00:58,640  
down in brazil there's four guys

29  
00:01:02,470 --> 00:01:00,640  
standing next to it down there

30  
00:01:04,390 --> 00:01:02,480  
there's a whole row of them you couldn't

31  
00:01:06,230 --> 00:01:04,400  
count how many were down there

32  
00:01:08,870 --> 00:01:06,240  
i just he had his polaroid with him and

33  
00:01:10,950 --> 00:01:08,880  
grabbed a few short shots here

34  
00:01:13,510 --> 00:01:10,960  
over here's two guys here on a craft

35  
00:01:18,390 --> 00:01:13,520  
coming in you see the two guys standing

36  
00:01:21,510 --> 00:01:19,990  
and down here at the bottom which i know

37  
00:01:24,149 --> 00:01:21,520  
isn't clear

38  
00:01:25,830 --> 00:01:24,159

is one of these old bell-shaped crafts

39

00:01:27,030 --> 00:01:25,840

many of you are probably not familiar

40

00:01:29,910 --> 00:01:27,040

but there was a fellow named georgia

41

00:01:32,230 --> 00:01:29,920

damski back 1962 who claimed to be

42

00:01:33,749 --> 00:01:32,240

having contacts with people from venus

43

00:01:35,109 --> 00:01:33,759

this was the craft he was taking

44

00:01:37,350 --> 00:01:35,119

pictures of

45

00:01:39,109 --> 00:01:37,360

george's contacts were real but he

46

00:01:41,030 --> 00:01:39,119

wasn't having contacts with anybody from

47

00:01:42,550 --> 00:01:41,040

venus the blonde haired ladies that are

48

00:01:43,910 --> 00:01:42,560

inside the craft were actually from

49

00:01:45,510 --> 00:01:43,920

brazil that's where the crafts were

50

00:01:48,069 --> 00:01:45,520

flying out of they've been making them

51  
00:01:50,069 --> 00:01:48,079  
down there since about 1947. they find

52  
00:01:51,990 --> 00:01:50,079  
it very convenient if they make contact

53  
00:01:53,910 --> 00:01:52,000  
or land somewhere to tell people they're

54  
00:01:55,590 --> 00:01:53,920  
extraterrestrials and we're very open to

55  
00:01:57,350 --> 00:01:55,600  
it if they tell them hi we're part of a

56  
00:02:01,109 --> 00:01:57,360  
german intelligence group from brazil

57  
00:02:05,190 --> 00:02:03,270  
here's a i got my camcorder and i've got

58  
00:02:07,350 --> 00:02:05,200  
my micro lens on here getting as close

59  
00:02:09,350 --> 00:02:07,360  
as i can to this picture it's a very

60  
00:02:11,670 --> 00:02:09,360  
very small polaroid picture that's about

61  
00:02:13,830 --> 00:02:11,680  
that big and it got wet in the rain he

62  
00:02:15,910 --> 00:02:13,840  
left it the window sill so i've ironed

63  
00:02:17,990 --> 00:02:15,920

it and put it on paper so we didn't lose

64

00:02:19,990 --> 00:02:18,000

it and i'm copying it with my macro

65

00:02:21,589 --> 00:02:20,000

here's the whole picture

66

00:02:23,589 --> 00:02:21,599

over here is one of the old bell shaped

67

00:02:25,750 --> 00:02:23,599

discs there's one in the air those the

68

00:02:27,910 --> 00:02:25,760

platforms they're sitting on

69

00:02:29,510 --> 00:02:27,920

there's a guy standing here there's a

70

00:02:31,830 --> 00:02:29,520

guy over here just coming out of this

71

00:02:34,710 --> 00:02:33,190

i'm trying to get real close to the

72

00:02:36,869 --> 00:02:34,720

bottom of it here so we can see what

73

00:02:39,750 --> 00:02:36,879

they're like

74

00:02:41,350 --> 00:02:39,760

this is an area if you look on a map

75

00:02:42,390 --> 00:02:41,360

i've got a little video tape over there

76

00:02:45,110 --> 00:02:42,400

if you're interested in learning more

77

00:02:46,390 --> 00:02:45,120

about this information called space

78

00:02:47,910 --> 00:02:46,400

cities

79

00:02:50,309 --> 00:02:47,920

i've narrowed it down to about within a

80

00:02:51,910 --> 00:02:50,319

200 mile range where this facility is at

81

00:02:54,309 --> 00:02:51,920

what they're doing down there here's the

82

00:02:55,910 --> 00:02:54,319

guy standing there

83

00:02:57,190 --> 00:02:55,920

the disc sit down on the platforms

84

00:02:59,030 --> 00:02:57,200

remember earlier i was telling you about

85

00:03:01,110 --> 00:02:59,040

how the condensers charge out the bottom

86

00:03:03,030 --> 00:03:01,120

to have to charge the field up if you

87

00:03:05,270 --> 00:03:03,040

get too close to the earth the charge

88

00:03:07,190 --> 00:03:05,280

dissipates because it's grounded these

89

00:03:09,509 --> 00:03:07,200

metal platforms they set them down on

90

00:03:11,990 --> 00:03:09,519

the platforms then they can keep the

91

00:03:13,750 --> 00:03:12,000

ship charged up and if they need to take

92

00:03:15,430 --> 00:03:13,760

back off right away they can they don't

93

00:03:18,149 --> 00:03:15,440

have to wait for the ship to charge back

94

00:03:20,309 --> 00:03:18,159

up the platforms charge them up for them

95

00:03:22,070 --> 00:03:20,319

so they can lift right back off if they

96

00:03:23,910 --> 00:03:22,080

would set it down without the platform

97

00:03:25,430 --> 00:03:23,920

on the tripod legs they've got to go

98

00:03:27,270 --> 00:03:25,440

through the process again charging the

99

00:03:28,869 --> 00:03:27,280

capacitors up which takes three to four

100

00:03:33,270 --> 00:03:28,879

minutes so if they're in a hurry to get

101

00:03:37,910 --> 00:03:35,190

these old bell-shaped discs actually

102

00:03:40,390 --> 00:03:37,920

have three mercedes-benz truck engines

103

00:03:42,149 --> 00:03:40,400

in them driving the magnetic field this

104

00:03:43,990 --> 00:03:42,159

was their first design that they made

105

00:03:45,110 --> 00:03:44,000

this is the first ones that the germans

106

00:03:46,789 --> 00:03:45,120

built

107

00:03:48,470 --> 00:03:46,799

these craft here were under

108

00:03:50,309 --> 00:03:48,480

consideration and they were working on

109

00:03:52,149 --> 00:03:50,319

them in the end of world war ii when you

110

00:03:53,670 --> 00:03:52,159

hear about hitler's secret weapon at the

111

00:03:55,589 --> 00:03:53,680

world war ii if you go back and look at

112

00:03:57,110 --> 00:03:55,599

the newspapers that's what he was

113

00:03:58,949 --> 00:03:57,120

talking about they were in hopes they

114

00:04:00,390 --> 00:03:58,959

would get these things up and working

115

00:04:02,630 --> 00:04:00,400

and they would still have a chance then

116

00:04:04,470 --> 00:04:02,640

to win the war fortunately for all of us

117

00:04:05,750 --> 00:04:04,480

they did not and we'd all be speaking

118

00:04:07,910 --> 00:04:05,760

german today

119

00:04:09,750 --> 00:04:07,920

uh interesting side effect too once they

120

00:04:12,710 --> 00:04:09,760

finally did get them up and working they

121

00:04:14,070 --> 00:04:12,720

made lousy uh war weapons because the

122

00:04:15,910 --> 00:04:14,080

field around them prevents you from

123

00:04:17,509 --> 00:04:15,920

dropping bombs or anything out of them

124

00:04:18,870 --> 00:04:17,519

it ignites the bombs

125

00:04:20,390 --> 00:04:18,880

so it took them a while they don't even

126  
00:04:22,550 --> 00:04:20,400  
have weapons on them for a while and

127  
00:04:24,469 --> 00:04:22,560  
then they had to come up with

128  
00:04:26,230 --> 00:04:24,479  
other kinds of devices this was the

129  
00:04:28,950 --> 00:04:26,240  
first pictures i saw from the kid in

130  
00:04:30,629 --> 00:04:28,960  
florida his german contacts and to my

131  
00:04:33,430 --> 00:04:30,639  
knowledge i still think they're his best

132  
00:04:35,030 --> 00:04:33,440  
and perhaps his only contacts i think he

133  
00:04:37,430 --> 00:04:35,040  
probably had a couple of contacts from

134  
00:04:39,189 --> 00:04:37,440  
these people they came

135  
00:04:41,030 --> 00:04:39,199  
they took him for a ride it looks like

136  
00:04:42,390 --> 00:04:41,040  
on one or two occasions and then perhaps

137  
00:04:44,550 --> 00:04:42,400  
they never came back

138  
00:04:46,230 --> 00:04:44,560

so we found this situation on several

139

00:04:48,790 --> 00:04:46,240

people around the planet

140

00:04:51,110 --> 00:04:48,800

so it's not an uncommon situation and

141

00:04:53,830 --> 00:04:51,120

this is from et technology but it was

142

00:04:55,030 --> 00:04:53,840

before 47. it wasn't e.t nothing to do

143

00:04:56,870 --> 00:04:55,040

with e.t

144

00:04:59,189 --> 00:04:56,880

no just good old german intelligence

145

00:05:00,710 --> 00:04:59,199

figured it out i can tell you where they

146

00:05:03,430 --> 00:05:00,720

got it's kind of a long story but

147

00:05:05,189 --> 00:05:03,440

basically it came from uh german people

148

00:05:06,950 --> 00:05:05,199

who had traveled to india to study the

149

00:05:08,870 --> 00:05:06,960

concept of the virile the energy of the

150

00:05:10,629 --> 00:05:08,880

universe and they were trying to figure

151  
00:05:13,110 --> 00:05:10,639  
out how to levitate their own bodies to

152  
00:05:14,469 --> 00:05:13,120  
move in time and they came back and they

153  
00:05:15,830 --> 00:05:14,479  
explained it to people what they were

154  
00:05:18,390 --> 00:05:15,840  
doing in india how they were trying to

155  
00:05:20,390 --> 00:05:18,400  
travel in time and some german engineers

156  
00:05:22,390 --> 00:05:20,400  
tried to build a machine to travel in

157  
00:05:24,550 --> 00:05:22,400  
time but when they turned the thing on

158  
00:05:26,550 --> 00:05:24,560  
and lifted up off the floor instead they

159  
00:05:28,150 --> 00:05:26,560  
didn't time travel but it floated and

160  
00:05:29,909 --> 00:05:28,160  
they stumbled onto the idea of how to

161  
00:05:31,990 --> 00:05:29,919  
make what's called a vril levitation

162  
00:05:33,670 --> 00:05:32,000  
device we think they did that probably

163  
00:05:35,749 --> 00:05:33,680

the first time in some time probably

164

00:05:37,189 --> 00:05:35,759

around 25 or 27

165

00:05:38,710 --> 00:05:37,199

and then the concept laid around in

166

00:05:41,029 --> 00:05:38,720

private circles for a while and then

167

00:05:42,550 --> 00:05:41,039

became a potential thing during the war
