

1
00:00:06,440 --> 00:00:03,679
and every time an unidentified object is detected,

2
00:00:11,110 --> 00:00:06,450
obviously a

3
00:00:16,460 --> 00:00:14,089
efficient process is to check if it was an

4
00:00:19,609 --> 00:00:16,470
aircraft that is flying without an approved flight plan,

5
00:00:23,300 --> 00:00:19,619
that's right, but when it is proven

6
00:00:26,810 --> 00:00:23,310
that it is something different, the aircraft

7
00:00:32,060 --> 00:00:26,820
are activated. was

8
00:00:36,490 --> 00:00:32,070
that the radars detected several

9
00:00:39,830 --> 00:00:36,500
unidentified objects in the area of

10
00:00:43,010 --> 00:00:39,840
São Paulo São José dos Campos Rio de

11
00:00:45,440 --> 00:00:43,020
Janeiro remembers He was the first to see these

12
00:00:47,389 --> 00:00:45,450
Luminous objects when he flew from

13
00:00:50,660 --> 00:00:47,399

Brasília to São José dos Campos together

14

00:00:53,360 --> 00:00:50,670

with Coronel but that was all he was a

15

00:00:55,160 --> 00:00:53,370

star like that well Luminous from all the

16

00:00:56,680 --> 00:00:55,170

orangey reddish the inside

17

00:01:03,720 --> 00:01:00,000

can then we take control of and

18

00:01:05,999 --> 00:01:03,730

I'm already going to pass from generation there it's on it

19

00:01:07,530 --> 00:01:06,009

was that night and that

20

00:01:09,530 --> 00:01:07,540

beat appeared as if it were a

21

00:01:12,060 --> 00:01:09,540

light that had turned off the

22

00:01:13,789 --> 00:01:12,070

discount speed of light was

23

00:01:15,990 --> 00:01:13,799

approaching it

24

00:01:18,539 --> 00:01:16,000

was over a thousand kilometers per hour

25

00:01:22,730 --> 00:01:18,549

because at that moment I was a thousand

26
00:01:24,350 --> 00:01:22,740
km away from a What could this be

27
00:01:26,720 --> 00:01:24,360
international

28
00:01:30,180 --> 00:01:26,730
because our objective also to

29
00:01:32,930 --> 00:01:30,190
approach to identify we just can't get

30
00:01:36,600 --> 00:01:32,940
very close even though it is

31
00:01:41,390 --> 00:01:36,610
a certain pursuit of luminous Ué

32
00:01:47,760 --> 00:01:45,450
i received information that the

33
00:01:51,320 --> 00:01:47,770
happy guild eight Luminous points in

34
00:01:53,880 --> 00:01:51,330
front of me approximately 18 thousand

35
00:01:57,660 --> 00:01:53,890
night it was completely clear i did not

36
00:01:59,219 --> 00:01:57,670
see anything and the control was informed that

37
00:02:00,660 --> 00:01:59,229
the distant is decreasing that they are

38
00:02:02,490 --> 00:02:00,670

approaching and keeping mine front

39

00:02:03,950 --> 00:02:02,500

you feel the same

40

00:02:07,219 --> 00:02:03,960

[Music]

41

00:02:11,820 --> 00:02:07,229

Not myself I was very curious

42

00:02:13,670 --> 00:02:11,830

so you didn't see it was visual So

43

00:02:18,960 --> 00:02:13,680

really she can see that

44

00:02:21,720 --> 00:02:18,970

you can't see anything a

45

00:02:24,090 --> 00:02:21,730

Subscribing all the

46

00:02:27,200 --> 00:02:24,100

communications tapes between the pilots and

47

00:02:29,850 --> 00:02:27,210

controllers between the

48

00:02:31,370 --> 00:02:29,860

area controllers from Brasilia in the area of ■■São Paulo

49

00:02:34,530 --> 00:02:31,380

Indianópolis

50

00:02:38,670 --> 00:02:34,540

and later we will be able to reach a

51
00:02:40,910 --> 00:02:38,680
conclusion that it would or would not be a trace of the

52
00:02:44,040 --> 00:02:40,920
classified one among the criteria taken

53
00:02:45,900 --> 00:02:44,050
8:50 pm on Monday A

54
00:02:47,700 --> 00:02:45,910
bright spot is detected by the

55
00:02:50,070 --> 00:02:47,710
control tower of the airport of São José from

56
00:02:52,350 --> 00:02:50,080
Campos to Torres asks Commander Alcir

57
00:02:54,449 --> 00:02:52,360
who was traveling with Colonel ozires Silva the

58
00:02:56,700 --> 00:02:54,459
president of Petrobrás to do a

59
00:02:56,910 --> 00:02:56,710
visual search with glasses

60
00:02:57,920 --> 00:02:56,920
[Music]

61
00:03:01,559 --> 00:02:57,930
o

62
00:03:03,510 --> 00:03:01,569
21:10 light signals are seen by

63
00:03:04,250 --> 00:03:03,520

Commander Alcir

64

00:04:18,479 --> 00:03:04,260

o

65

00:04:26,110 --> 00:04:18,489

an

66

00:04:29,320 --> 00:04:26,120

seven of one side six two now what
