force carolina guitar

7
00:00:22,720 --> 00:00:21,000
on april 11, 1980 at 7 and 15

8
00:00:25,550 --> 00:00:22,730
hours in the morning

9
00:00:28,700 --> 00:00:25,560
1,800 men were information and

10
00:00:31,549 --> 00:00:28,710
services of La Joya Arequipa

11
00:00:34,130 --> 00:00:31,559
lighting el saber fifteen in love and

12
00:00:37,130 --> 00:00:34,140
heitinga information and

13
00:00:39,319 --> 00:00:37,140

services of La Joya Arequipa

14

00:00:41,660 --> 00:00:39,329

all of them observed a

15

00:00:44,840 --> 00:00:41,670

stationary object in the air that looked like a

16

00:00:47,389 --> 00:00:44,850

balloon like a 5 kilometers away and

17

00:00:50,810 --> 00:00:47,399

at about 600 meters of altitude it was

18

00:00:53,810 --> 00:00:50,820

bright because it reflected the sun

19

00:00:56,060 --> 00:00:53,820

watching you station obvious area indescat in

20

00:00:58,490 --> 00:00:56,070

the sky with love like balloon tree

21

00:01:02,060 --> 00:00:58,500

primales from stands to the next and

22

00:01:05,150 --> 00:01:02,070

tenerife altitude and volumes pikes and

23

00:01:07,969 --> 00:01:05,160

reflectors are my unit commander he

24

00:01:09,310 --> 00:01:07,979

gave me the order to take off the ticket

25

00:01:11,980 --> 00:01:09,320

sukhoy 22

26
00:01:14,840 --> 00:01:11,990
to shoot the spherical object

27
00:01:18,770 --> 00:01:14,850
because it was in a prohibited space without

28
00:01:22,310 --> 00:01:18,780
permission and we feared espionage my only

29
00:01:25,520 --> 00:01:22,320
command now it was my turn to sign his contract

30
00:01:27,920 --> 00:01:25,530
strike the offset and wazin restricted air

31
00:01:31,310 --> 00:01:27,930
space without clemens the same with sounded

32
00:01:35,470 --> 00:01:31,320
good h I am going to do that at the object and I

33
00:01:38,140 --> 00:01:35,480
fired 64 30 mm shells at it,

34
00:01:40,920 --> 00:01:38,150
some shells hit the ground

35
00:01:44,560 --> 00:01:40,930
and others hit the object squarely

36
00:01:46,720 --> 00:01:44,570
but without any effect the shells did not

37
00:01:49,930 --> 00:01:46,730
ricochet, they were probably

38
00:01:52,930 --> 00:01:49,940

absorbed by the wall of fire in the shape of a

39
00:01:54,720 --> 00:01:52,940
cone that I commanded normally would have

40
00:01:58,420 --> 00:01:54,730
destroyed any object in its path

41
00:02:00,730 --> 00:01:58,430
next friday forster traffics and i will

42
00:02:02,700 --> 00:02:00,740
join salserin are projects

43
00:02:06,610 --> 00:02:02,710
wentworth the ground another heat

44
00:02:08,220 --> 00:02:06,620
beautiful leaving

45
00:02:10,560 --> 00:02:08,230
timpani of

46
00:02:12,190 --> 00:02:10,570
the

47
00:02:13,410 --> 00:02:12,200
world projectile effect

48
00:02:16,650 --> 00:02:13,420
on the

49
00:02:21,860 --> 00:02:19,740
the object then began to climb up and

50
00:02:24,399 --> 00:02:21,870
away from the base

51
00:02:28,699 --> 00:02:24,409
and when I was about 11,000 meters

52
00:02:30,740 --> 00:02:28,709
suddenly it stopped forcing me to leave

53
00:02:34,160 --> 00:02:30,750
the side because I was already only

54
00:02:36,920 --> 00:02:34,170
500 meters from it so I made a

55
00:02:38,990 --> 00:02:36,930
climb to attack it from above but

56
00:02:41,780 --> 00:02:39,000
just when I had already focused on it

57
00:02:43,910 --> 00:02:41,790
and was ready to hit it. shoot the object

58
00:02:47,059 --> 00:02:43,920
and a vertical ascent evading my

59
00:02:49,009 --> 00:02:47,069
attack and 80 migrants so much love far

60
00:02:51,890 --> 00:02:49,019
away from the page well I was

61
00:02:54,229 --> 00:02:51,900
authorized to suffer threaten in stop for

62
00:02:57,650 --> 00:02:54,239
sanity virtues before in sagüés unifil

63
00:02:59,900 --> 00:02:57,660

ingenuity fire away a flight attack favor

64

00:03:02,809 --> 00:02:59,910

is already settled what they have to grant

65

00:03:05,110 --> 00:03:02,819

waters gratitude and optimally streiber from

66

00:03:07,830 --> 00:03:05,120

oakland and beijing from attack

67

00:03:10,990 --> 00:03:07,840

twice more I had the object in my sights

68

00:03:13,570 --> 00:03:11,000

when it was stationary and

69

00:03:16,600 --> 00:03:13,580

each time it moved away at the last moment

70

00:03:19,600 --> 00:03:16,610

before my shot always evading my

71

00:03:22,809 --> 00:03:19,610

attack war trance radio seran target

72

00:03:25,089 --> 00:03:22,819

can be observed station air is very

73

00:03:28,649 --> 00:03:25,099

favor through the mines well it will

74

00:03:31,899 --> 00:03:28,659

be back to five guys the last attack

75

00:03:34,059 --> 00:03:31,909

so I decided to do a full

76

00:03:36,759 --> 00:03:34,069

speed ascent to get well above

77

00:03:39,210 --> 00:03:36,769

the object but it started to rise

78

00:03:42,400 --> 00:03:39,220

too and almost parallel with a plane

79

00:03:45,610 --> 00:03:42,410

when it exceeded 19,000 meters the

80

00:03:48,460 --> 00:03:45,620

object stopped to dismantle blue

81

00:03:50,680 --> 00:03:48,470

after touching back and verifying these

82

00:03:53,809 --> 00:03:50,690

men to take the plan still good

83

00:03:56,630 --> 00:03:53,819

rich used in fit and stable

84

00:03:58,290 --> 00:03:56,640

it was then that I approached 100 meters

85

00:04:01,170 --> 00:03:58,300

from the object

86

00:04:03,600 --> 00:04:01,180

it was about 10 meters in diameter it was

87

00:04:06,810 --> 00:04:03,610

like enameled with a cream-colored dome

88

00:04:10,410 --> 00:04:06,820

on a wide and circular metallic base it

89

00:04:12,740 --> 00:04:10,420

had no engines or exhausts or

90

00:04:15,690 --> 00:04:12,750

windows or antennas

91

00:04:18,420 --> 00:04:15,700

it lacked all the typical implements

92

00:04:21,750 --> 00:04:18,430

of an airplane and without any visible

93

00:04:24,660 --> 00:04:21,760

propulsion system to have camps and wisin

94

00:04:27,810 --> 00:04:24,670

afrikaner fit or egg and whatsapp

95

00:04:30,030 --> 00:04:27,820

being different from mary the same in the ring

96

00:04:33,090 --> 00:04:30,040

color down budweiser that the mind is

97

00:04:35,850 --> 00:04:33,100

pacified and jano in jeans we no windows

98

00:04:40,050 --> 00:04:35,860

no wings or antenna and the typical

99

00:04:42,420 --> 00:04:40,060

aircraft company skirt is good baseball

100

00:04:45,030 --> 00:04:42,430

it was at that moment that I realized that

101

00:04:47,520 --> 00:04:45,040

this was not It was not an object to spy on but

102

00:04:51,180 --> 00:04:47,530

it was a man, something completely

103

00:04:54,390 --> 00:04:51,190

unknown, I had almost no fuel, that

104

00:04:56,850 --> 00:04:54,400

is, I could no longer attack or

105

00:04:59,970 --> 00:04:56,860

maneuver my plane, nor could I escape at

106

00:05:02,790 --> 00:04:59,980

high speed and I felt fear, perhaps this

107

00:05:06,060 --> 00:05:02,800

was my end and joke, dharmendra, reality

108

00:05:09,570 --> 00:05:06,070

is that sometimes it was not Spain device it does

109

00:05:13,830 --> 00:05:09,580

112

then I managed to calm down and

113

00:05:23,900 --> 00:05:23,139

radioed for another plane to come to take

114

00:05:26,700 --> 00:05:23,910

a look they

115

00:05:29,480 --> 00:05:26,710

told me no that I was too

116

00:05:31,730 --> 00:05:29,490

high that it would simply turn me back

117

00:05:34,370 --> 00:05:31,740

I had to plan part of my descent

118

00:05:36,499 --> 00:05:34,380

due to lack of fuel zigzagging

119

00:05:38,809 --> 00:05:36,509
