

1  
00:00:05,749 --> 00:00:03,110  
like I say I was a woman and I left work

2  
00:00:08,210 --> 00:00:05,759  
to come home was on my way home and on

3  
00:00:12,169 --> 00:00:08,220  
my way home I I had that thought it was

4  
00:00:14,749 --> 00:00:12,179  
like a impulse you're telling me to

5  
00:00:17,450 --> 00:00:14,759  
I do go somewhere

6  
00:00:19,609 --> 00:00:17,460  
and I I started to think where should I

7  
00:00:21,410 --> 00:00:19,619  
go to myself

8  
00:00:24,830 --> 00:00:21,420  
and then it was like in my mind I got a

9  
00:00:26,390 --> 00:00:24,840  
mental picture of this area and knew it

10  
00:00:27,710 --> 00:00:26,400  
was near the air base I knew where

11  
00:00:30,589 --> 00:00:27,720  
everybody parked

12  
00:00:32,630 --> 00:00:30,599  
got back here I wasn't back here 10

13  
00:00:34,330 --> 00:00:32,640

minutes when I could see the object I

14

00:00:37,130 --> 00:00:34,340

don't know exactly where I saw it first

15

00:00:38,510 --> 00:00:37,140

but it like it circled the area and I

16

00:00:41,630 --> 00:00:38,520

saw it and I saw the first thing I

17

00:00:42,490 --> 00:00:41,640

noticed was it was much smaller I mean

18

00:00:44,750 --> 00:00:42,500

it was

19

00:00:47,389 --> 00:00:44,760

prior to other ones were anywhere from

20

00:00:49,069 --> 00:00:47,399

40 to 65 foot diameter but this one was

21

00:00:51,529 --> 00:00:49,079

20 30 foot

22

00:00:53,510 --> 00:00:51,539

and another thing was it was very very

23

00:00:56,709 --> 00:00:53,520

different it was different in the sense

24

00:01:00,529 --> 00:00:56,719

that instead of being orange and silver

25

00:01:03,650 --> 00:01:00,539

it was uh just like a silver medal

26

00:01:07,010 --> 00:01:03,660

appearance yeah and not only that

27

00:01:08,990 --> 00:01:07,020

but it had two domes one of them on top

28

00:01:12,109 --> 00:01:09,000

of the object and one of them underneath

29

00:01:13,789 --> 00:01:12,119

it but it looked sealed and metal in

30

00:01:15,350 --> 00:01:13,799

other words it you didn't see no windows

31

00:01:18,230 --> 00:01:15,360

or no holes or nothing

32

00:01:19,550 --> 00:01:18,240

no windows no oh do not see any Windows

33

00:01:21,950 --> 00:01:19,560

it was just surface metal all the way

34

00:01:24,649 --> 00:01:21,960

around almost like sheet metal formed

35

00:01:27,230 --> 00:01:24,659

into the shape of a a disc with two

36

00:01:29,210 --> 00:01:27,240

domes hold on top one on the bottom how

37

00:01:32,390 --> 00:01:29,220

was the uh the Dome was it a

38

00:01:34,609 --> 00:01:32,400

transparency no it was solid metal with

39

00:01:36,469 --> 00:01:34,619

the rest of the disc and it was all

40

00:01:39,230 --> 00:01:36,479

colored silver with the sun shining off

41

00:01:41,870 --> 00:01:39,240

it I mean it was just beautiful silver

42

00:01:44,030 --> 00:01:41,880

like aluminum or sheet metal or how did

43

00:01:46,789 --> 00:01:44,040

it fly I don't know I did not hear any

44

00:01:48,170 --> 00:01:46,799

noise it was like it was that in that

45

00:01:49,789 --> 00:01:48,180

sense it was like the other objects

46

00:01:51,289 --> 00:01:49,799

because it made absolutely no noise I

47

00:01:52,490 --> 00:01:51,299

mean it would go up like this and come

48

00:01:55,130 --> 00:01:52,500

back like this

49

00:01:57,770 --> 00:01:55,140

come around like that and just watching

50

00:01:59,510 --> 00:01:57,780

it was you know it was hard because when

51  
00:02:01,490 --> 00:01:59,520  
it would go that way I'd run across the

52  
00:02:02,749 --> 00:02:01,500  
field and I'm trying to get into the

53  
00:02:04,910 --> 00:02:02,759  
viewfinder

54  
00:02:07,609 --> 00:02:04,920  
and I took about four or five shots like

55  
00:02:10,790 --> 00:02:07,619  
that and I believe two or three of them

56  
00:02:12,650 --> 00:02:10,800  
came out and two came out empty Sky well

57  
00:02:15,770 --> 00:02:12,660  
in the course of the siding the object

58  
00:02:17,449 --> 00:02:15,780  
was going like this way and then it

59  
00:02:20,089 --> 00:02:17,459  
reverse course and went back that way

60  
00:02:22,850 --> 00:02:20,099  
until it was like hiding behind some

61  
00:02:24,050 --> 00:02:22,860  
trees over there yeah and I I stopped

62  
00:02:25,130 --> 00:02:24,060  
and I thought for a moment it was going

63  
00:02:28,010 --> 00:02:25,140

to be gone

64

00:02:29,690 --> 00:02:28,020

but instead I saw an airplane coming

65

00:02:31,729 --> 00:02:29,700

this way

66

00:02:34,190 --> 00:02:31,739

and you know I start getting closer and

67

00:02:36,170 --> 00:02:34,200

closer at the same time the airplane was

68

00:02:38,930 --> 00:02:36,180

halfway from those trees to where I was

69

00:02:41,809 --> 00:02:38,940

at the object came from behind the trees

70

00:02:43,190 --> 00:02:41,819

to start to follow the airplane so

71

00:02:45,110 --> 00:02:43,200

it's

72

00:02:46,970 --> 00:02:45,120

the way the airplane was the airplane

73

00:02:49,009 --> 00:02:46,980

was coming in like this and the object

74

00:02:50,509 --> 00:02:49,019

like it came around like this

75

00:02:52,670 --> 00:02:50,519

started to come around like this but

76

00:02:55,490 --> 00:02:52,680

instead it went back this way and on

77

00:02:57,830 --> 00:02:55,500

these sides of the trees oh and when as

78

00:02:59,809 --> 00:02:57,840

a C-130 passed over me I took a picture

79

00:03:02,449 --> 00:02:59,819

of it and then I swung back by that time

80

00:03:04,130 --> 00:03:02,459

the object had gone back over here

81

00:03:05,330 --> 00:03:04,140

and then it started to go back and I

82

00:03:07,670 --> 00:03:05,340

took some more pictures of it then it

83

00:03:10,309 --> 00:03:07,680

came over me like this and the sun

84

00:03:14,030 --> 00:03:10,319

wasn't like this as much as it was over

85

00:03:17,449 --> 00:03:14,040

this way and when it did the object

86

00:03:20,270 --> 00:03:17,459

the object went straight up

87

00:03:22,850 --> 00:03:20,280

and for a moment it was cast

88

00:03:28,729 --> 00:03:22,860

as the quite hit it it took on a dark

89

00:03:33,530 --> 00:03:30,290

it's like

90

00:03:37,550 --> 00:03:34,160

squander

91

00:03:42,949 --> 00:03:40,910

I just stood stood in the field

92

00:03:45,949 --> 00:03:42,959

and shaking my head trying to figure out

93

00:03:47,930 --> 00:03:45,959

why I was the one seeing all this

94

00:03:49,910 --> 00:03:47,940

wait for someone to pull over and get

95

00:03:53,449 --> 00:03:49,920

out and say what the hell was that

96

00:03:56,089 --> 00:03:53,459

or or you know something to that effect

97

00:03:59,570 --> 00:03:56,099

excuse my French but I mean that

98

00:04:02,210 --> 00:03:59,580

that's really I didn't I was just and I

99

00:04:03,949 --> 00:04:02,220

was trying to think of what first I want

100

00:04:05,509 --> 00:04:03,959

to guard the film and I was praying all

101  
00:04:06,830 --> 00:04:05,519  
my pictures came out because I knew I

102  
00:04:08,270 --> 00:04:06,840  
had some good pictures of it they did

103  
00:04:10,550 --> 00:04:08,280  
come out right what do you think the

104  
00:04:13,009 --> 00:04:10,560  
military people I'm positive they had to

105  
00:04:15,050 --> 00:04:13,019  
see it I know for a fact that Air Force

106  
00:04:16,249 --> 00:04:15,060  
people did because it wasn't hid behind

107  
00:04:18,710 --> 00:04:16,259  
the trees where you couldn't see it it

108  
00:04:19,789 --> 00:04:18,720  
was like see that big tree it was like

109  
00:04:22,249 --> 00:04:19,799  
on the other side you're just sitting

110  
00:04:24,050 --> 00:04:22,259  
here next to the tree discovering right

111  
00:04:26,390 --> 00:04:24,060  
there and when the when the airplane

112  
00:04:28,670 --> 00:04:26,400  
came over and it came back if the pilot

113  
00:04:30,290 --> 00:04:28,680

saw me I mean imagine a pilot that

114

00:04:33,490 --> 00:04:30,300

loaded the ground

115

00:04:37,670 --> 00:04:33,500

here's somebody standing with a camera

116

00:04:39,230 --> 00:04:37,680

right right I mean he had to see me on

117

00:04:42,110 --> 00:04:39,240

me on the field

118

00:04:44,150 --> 00:04:42,120

right and also the Raider man have known

119

00:04:47,390 --> 00:04:44,160

about it oh I pause it on the radar

120

00:04:49,249 --> 00:04:47,400

right it's the thing was was

121

00:04:51,830 --> 00:04:49,259

at one point I'd say about 2 000 feet

122

00:04:53,450 --> 00:04:51,840

above the ground two three thousand and

123

00:04:56,990 --> 00:04:53,460

from what I've talked to radar people

124

00:05:00,529 --> 00:04:57,000

they say the radar will pick up anything

125

00:05:02,870 --> 00:05:00,539

as low as 800 feet you know if they find

126

00:05:04,430 --> 00:05:02,880

it at 1500 they'll sweep the area and

127

00:05:06,050 --> 00:05:04,440

then come back and sweep it and try to

128

00:05:07,790 --> 00:05:06,060

get the lowest Suite possible in order

129

00:05:09,830 --> 00:05:07,800

to detect the object on radar to get an

130

00:05:12,409 --> 00:05:09,840

echo fixed and if that was able to
