

1  
00:00:00,060 --> 00:00:03,470

Lake

2  
00:00:08,690 --> 00:00:06,829

to South Cisco Grove and uh I got

3  
00:00:11,509 --> 00:00:08,700

celebrated from the rest of the group

4  
00:00:13,549 --> 00:00:11,519

and his well we were not too far before

5  
00:00:17,689 --> 00:00:13,559

dark the

6  
00:00:19,609 --> 00:00:17,699

area was pretty real rough terrain I got

7  
00:00:21,650 --> 00:00:19,619

to the point where I couldn't see so I

8  
00:00:24,769 --> 00:00:21,660

just climbed the highest mountain I

9  
00:00:28,250 --> 00:00:24,779

could find right around that area and uh

10  
00:00:29,589 --> 00:00:28,260

I wrote a car just to see if I could do

11  
00:00:32,210 --> 00:00:29,599

some type of

12  
00:00:35,530 --> 00:00:32,220

response to that this was to the people

13  
00:00:40,850 --> 00:00:39,049

and I read until the fire went out and I

14

00:00:43,970 --> 00:00:40,860

didn't have any response so

15

00:00:47,810 --> 00:00:43,980

find us and trees nearby

16

00:00:52,790 --> 00:00:47,820

and I guess I was there a half hour so

17

00:00:54,590 --> 00:00:52,800

and uh that's why this uh light which I

18

00:00:57,590 --> 00:00:54,600

thought was a helicopter

19

00:01:00,529 --> 00:00:57,600

bobbing up and down over the surface and

20

00:01:01,970 --> 00:01:00,539

they grew up above the skyline and um

21

00:01:04,670 --> 00:01:01,980

Timberline

22

00:01:05,750 --> 00:01:04,680

so I jumped out of the tree and started

23

00:01:08,330 --> 00:01:05,760

there

24

00:01:09,590 --> 00:01:08,340

I'll go through small fires on this it

25

00:01:12,550 --> 00:01:09,600

was Rock

26

00:01:23,810 --> 00:01:12,560

attention

27

00:01:29,690 --> 00:01:27,350

there's a ranger station nearby

28

00:01:31,910 --> 00:01:29,700

and contacted this and they were looking

29

00:01:33,649 --> 00:01:31,920

out looking for me

30

00:01:36,830 --> 00:01:33,659

um

31

00:01:38,929 --> 00:01:36,840

uh but then when it came right up to me

32

00:01:41,929 --> 00:01:38,939

there was no sound at this highway there

33

00:01:45,170 --> 00:01:41,939

just the lights it's all I could see

34

00:01:47,690 --> 00:01:45,180

hello actually about

35

00:01:51,230 --> 00:01:47,700

tall is hard to say about

36

00:01:52,310 --> 00:01:51,240

I've always cried about 30 50 guys maybe

37

00:01:54,609 --> 00:01:52,320

not that

38

00:01:58,429 --> 00:01:54,619

it was fairly close it's a bright light

39

00:01:59,149 --> 00:01:58,439

I was like that creeping was it was my

40

00:02:01,490 --> 00:01:59,159

life

41

00:02:05,030 --> 00:02:01,500

shoulder flies from the spot it was just

42

00:02:07,910 --> 00:02:05,040

leather glow or something you just

43

00:02:11,330 --> 00:02:07,920

anyways I made a half circle

44

00:02:13,670 --> 00:02:11,340

around it and uh and when it brought

45

00:02:18,050 --> 00:02:13,680

over this candy

46

00:02:19,369 --> 00:02:18,060

through other objects this flat

47

00:02:22,330 --> 00:02:19,379

can't

48

00:02:26,410 --> 00:02:22,340

describe message

49

00:02:30,309 --> 00:02:26,420

there's three of them spaced uh local

50

00:02:32,930 --> 00:02:30,319

supplies behind this light and uh

51  
00:02:35,390 --> 00:02:32,940  
connection between the two well I didn't

52  
00:02:37,190 --> 00:02:35,400  
see any connection it was just out of

53  
00:02:38,210 --> 00:02:37,200  
the Sea of the Moon reflecting on these

54  
00:02:41,150 --> 00:02:38,220  
objects

55  
00:02:42,949 --> 00:02:41,160  
and uh while I was watching it that

56  
00:02:50,949 --> 00:02:42,959  
there was something dropped out of the

57  
00:02:56,330 --> 00:02:53,869  
I couldn't see it anymore so

58  
00:02:57,890 --> 00:02:56,340  
all right I still watch the watch the I

59  
00:03:01,910 --> 00:02:57,900  
was still watching the light and it was

60  
00:03:04,970 --> 00:03:01,920  
just squirrel just covering and

61  
00:03:07,369 --> 00:03:04,980  
the next thing I do is uh

62  
00:03:09,530 --> 00:03:07,379  
I was just a few minutes later it was

63  
00:03:10,250 --> 00:03:09,540

crashing through the bar so I feel from

64

00:03:11,570 --> 00:03:10,260

me

65

00:03:13,610 --> 00:03:11,580

and uh

66

00:03:15,770 --> 00:03:13,620

there's uh

67

00:03:18,110 --> 00:03:15,780

I mean I saw up on the top of this

68

00:03:19,610 --> 00:03:18,120

little blinking light and it looked

69

00:03:22,130 --> 00:03:19,620

somewhat of a dome or some or something

70

00:03:24,589 --> 00:03:22,140

I couldn't see the whole logic just

71

00:03:28,190 --> 00:03:24,599

reflecting off of that and then I saw

72

00:03:30,949 --> 00:03:28,200

one of these uh raise me income

73

00:03:32,750 --> 00:03:30,959

from the beginning and start by this

74

00:03:34,729 --> 00:03:32,760

man's knee that off he's just curious

75

00:03:36,530 --> 00:03:34,739

what it was and he was messing around

76

00:03:39,050 --> 00:03:36,540

with it somewhere did you see what he

77

00:03:40,789 --> 00:03:39,060

was wearing it was just a

78

00:03:42,530 --> 00:03:40,799

bright outfit

79

00:03:44,449 --> 00:03:42,540

I don't know uh

80

00:03:47,449 --> 00:03:44,459

I think it was quiet when I was a light

81

00:03:49,250 --> 00:03:47,459

colored looks like this

82

00:03:52,130 --> 00:03:49,260

sort of sometime

83

00:03:54,530 --> 00:03:52,140

and there's no didn't look like there

84

00:03:57,890 --> 00:03:54,540

was any helmet just it just covered the

85

00:04:01,430 --> 00:03:57,900

whole bodies on everything about armor

86

00:04:04,369 --> 00:04:01,440

slaves everything recovered yeah it was

87

00:04:06,050 --> 00:04:04,379

just like a human form with the

88

00:04:08,630 --> 00:04:06,060

exception it didn't have a neck it just

89

00:04:11,690 --> 00:04:08,640

the head

90

00:04:14,809 --> 00:04:11,700

head on the shoulder and uh

91

00:04:17,629 --> 00:04:14,819

and it was joined by this other thing

92

00:04:20,629 --> 00:04:17,639

come on and they came right under the

93

00:04:22,009 --> 00:04:20,639

tree all within 12 foot under me and

94

00:04:23,930 --> 00:04:22,019

just looked up at me

95

00:04:25,430 --> 00:04:23,940

and uh

96

00:04:27,950 --> 00:04:25,440

they

97

00:04:31,249 --> 00:04:27,960

I was all dressed in camouflage clothing

98

00:04:31,969 --> 00:04:31,259

so I thought maybe I could stay I stayed

99

00:04:33,469 --> 00:04:31,979

still

100

00:04:36,590 --> 00:04:33,479

yeah

101  
00:04:38,629 --> 00:04:36,600  
uh and then as I saw these two big eyes

102  
00:04:40,870 --> 00:04:38,639  
coming through the

103  
00:04:43,550 --> 00:04:40,880  
down this working his way down this hill

104  
00:04:45,409 --> 00:04:43,560  
they just all the sides of a silver

105  
00:04:47,330 --> 00:04:45,419  
dollar and they look like they flame

106  
00:04:48,650 --> 00:04:47,340  
actual flame inside but they had nothing

107  
00:04:52,730 --> 00:04:48,660  
to do with these other two individuals

108  
00:04:55,610 --> 00:04:52,740  
now they it came up separate and uh

109  
00:04:59,870 --> 00:04:55,620  
it uh

110  
00:05:03,950 --> 00:04:59,880  
stood kind of up hill something about 12

111  
00:05:05,870 --> 00:05:03,960  
13 feet something like that and uh

112  
00:05:07,850 --> 00:05:05,880  
I noticed that uh

113  
00:05:10,610 --> 00:05:07,860

kind of white smoke was coming out of

114

00:05:14,990 --> 00:05:10,620

its mouth and

115

00:05:18,430 --> 00:05:15,000

for the next instant I I started uh

116

00:05:21,290 --> 00:05:18,440

uh kind of gasping for breath and

117

00:05:26,810 --> 00:05:21,300

kind of temporarily lost Consciousness I

118

00:05:29,330 --> 00:05:26,820

fell over my Bowl here on the limb uh

119

00:05:31,390 --> 00:05:29,340

and at that time I thought maybe you

120

00:05:33,469 --> 00:05:31,400

just I was too close it was

121

00:05:37,129 --> 00:05:33,479

radioactivity or something like that of

122

00:05:41,029 --> 00:05:37,139

that sort and uh and I thought maybe

123

00:05:45,230 --> 00:05:42,710

I shot my board

124

00:05:46,909 --> 00:05:45,240

hit this one or three times this one

125

00:05:49,490 --> 00:05:46,919

that was made out of metal

126  
00:05:56,090 --> 00:05:49,500  
and it uh

127  
00:06:01,310 --> 00:05:58,670  
isn't doing any good no and it just it's

128  
00:06:04,129 --> 00:06:01,320  
jumping back a little bit but that's uh

129  
00:06:05,590 --> 00:06:04,139  
that's all it did and uh did you fired

130  
00:06:07,610 --> 00:06:05,600  
the other two well

131  
00:06:10,390 --> 00:06:07,620  
he was the only one that was doing the

132  
00:06:17,810 --> 00:06:15,230  
anyway and uh then I had several books

133  
00:06:19,490 --> 00:06:17,820  
and matches with me so I let one and

134  
00:06:20,870 --> 00:06:19,500  
threw it down just to see if maybe they

135  
00:06:23,809 --> 00:06:20,880  
would fill the problem

136  
00:06:27,110 --> 00:06:23,819  
and they stepped back a little bit so I

137  
00:06:31,010 --> 00:06:27,120  
I'll start to I whip my hat on side and

138  
00:06:33,890 --> 00:06:31,020

threw it out when I do that

139

00:06:37,550 --> 00:06:33,900

how I saw through whatever it was it's

140

00:06:39,529 --> 00:06:37,560

like uh made of that cooling noise and

141

00:06:42,350 --> 00:06:39,539

then it just shot way up in the sky it

142

00:06:45,770 --> 00:06:42,360

stayed way up real high then and these

143

00:06:47,570 --> 00:06:45,780

others uh always we always moved back

144

00:06:57,590 --> 00:06:47,580

they moved back

145

00:07:01,550 --> 00:06:59,450

start allowing it

146

00:07:03,290 --> 00:07:01,560

took place that little brush there was

147

00:07:04,790 --> 00:07:03,300

around there on fire

148

00:07:09,890 --> 00:07:04,800

and

149

00:07:14,749 --> 00:07:11,390

it was too long

150

00:07:17,450 --> 00:07:14,759

and so I just I climb as high as I

151  
00:07:19,129 --> 00:07:17,460  
couldn't truly red to the top and took

152  
00:07:20,570 --> 00:07:19,139  
my belt and wrapped around me in the

153  
00:07:22,850 --> 00:07:20,580  
tree just to

154  
00:07:23,870 --> 00:07:22,860  
in case I didn't pass out like that

155  
00:07:25,070 --> 00:07:23,880  
again

156  
00:07:27,830 --> 00:07:25,080  
and

157  
00:07:29,629 --> 00:07:27,840  
the silver cars died down they came back

158  
00:07:34,129 --> 00:07:29,639  
in underneath the tree

159  
00:07:37,610 --> 00:07:34,139  
almost this uh one Karma robot that is

160  
00:07:43,309 --> 00:07:39,890  
When the Smoke would go

161  
00:07:46,909 --> 00:07:43,319  
tell us now I started kind of

162  
00:07:49,070 --> 00:07:46,919  
gas just like oh nitrogen or something

163  
00:07:52,550 --> 00:07:49,080

we'll take the place of air that's cool

164

00:07:54,290 --> 00:07:52,560

no smell and no odor so just I just

165

00:07:58,370 --> 00:07:54,300

couldn't believe it just like it wasn't

166

00:08:01,189 --> 00:07:58,380

getting any air and uh doing how to pass

167

00:08:02,510 --> 00:08:01,199

out for just an instant and as soon as

168

00:08:05,350 --> 00:08:02,520

I'd wake up

169

00:08:08,990 --> 00:08:05,360

little brownies

170

00:08:11,089 --> 00:08:09,000

I found it by shaking the tree that as

171

00:08:15,790 --> 00:08:11,099

long as the Tulip moved they would

172

00:08:22,670 --> 00:08:18,350

repeatedly does it then you know done

173

00:08:26,629 --> 00:08:22,680

this all night but then uh try to boost

174

00:08:29,029 --> 00:08:26,639

each other up the true trunk and as soon

175

00:08:31,089 --> 00:08:29,039

as I moved the tree then they step back

176

00:08:34,010 --> 00:08:31,099

it seemed like that smoke would come and

177

00:08:37,730 --> 00:08:34,020

I'll Black Ops

178

00:08:39,350 --> 00:08:37,740

Point as soon as I'd wake up I I could

179

00:08:41,769 --> 00:08:39,360

see him they'd just be starting up the

180

00:08:46,150 --> 00:08:41,779

tree so I knew it wasn't out too long

181

00:08:49,370 --> 00:08:46,160

ever attempt to find the dream

182

00:08:53,389 --> 00:08:49,380

was down there but I hide underneath he

183

00:08:57,350 --> 00:08:54,530

anyway

184

00:08:58,930 --> 00:08:57,360

I just went on all night and all several

185

00:09:02,449 --> 00:08:58,940

times I saw

186

00:09:03,829 --> 00:09:02,459

these large objects go over rocks and

187

00:09:06,829 --> 00:09:03,839

stuff and I was here crashing through

188

00:09:08,509 --> 00:09:06,839

the brush around but earlier

189

00:09:12,230 --> 00:09:08,519

um

190

00:09:14,110 --> 00:09:12,240

how close to Morning News this this guy

191

00:09:16,790 --> 00:09:14,120

was just starting to turn a little pink

192

00:09:20,810 --> 00:09:16,800

and uh

193

00:09:22,670 --> 00:09:20,820

the this other robot came up and there

194

00:09:25,730 --> 00:09:22,680

was two of them underneath the tree

195

00:09:27,170 --> 00:09:25,740

and we were standing facing each other I

196

00:09:30,949 --> 00:09:27,180

could see him down through the benches

197

00:09:33,350 --> 00:09:30,959

and it just seemed like uh through art

198

00:09:35,329 --> 00:09:33,360

flashes or electrical flashes going back

199

00:09:36,470 --> 00:09:35,339

and just real bright flashes in in

200

00:09:38,030 --> 00:09:36,480

between them

201  
00:09:48,470 --> 00:09:38,040  
and

202  
00:09:54,290 --> 00:09:50,509  
still kind of dark

203  
00:09:56,449 --> 00:09:54,300  
and it's just getting light and uh

204  
00:09:59,030 --> 00:09:56,459  
I was hanging from my bill over the top

205  
00:10:03,350 --> 00:10:01,550  
right down where I looked around there

206  
00:10:05,210 --> 00:10:03,360  
was nothing there

207  
00:10:07,610 --> 00:10:05,220  
and uh

208  
00:10:09,110 --> 00:10:07,620  
I went down and I looked around the

209  
00:10:12,829 --> 00:10:09,120  
bottom treated everything all I could

210  
00:10:14,990 --> 00:10:12,839  
find was uh I used to burn cloth and

211  
00:10:18,110 --> 00:10:15,000  
then I found my canteen and

212  
00:10:20,630 --> 00:10:18,120  
uh this one Arrow I shot it was laying

213  
00:10:22,910 --> 00:10:20,640

on top of brush over the side which went
