

**The UFO appeared to be about 100 feet in diameter at the base, 25-30 feet high. The first row of windows was about 12 feet from the base, the others evenly spaced above it. The UFO appeared shiny and metallic. Through the windows, Flynn could see a blank yellow wall, with no sign of life or machinery.**

## **MAN REPORTED INJURED BY UFO**

**The character testimony and physical evidence seem to authenticate the incident, though NICAP's investigation will continue. If further evidence is found at the site, and the story is fully substantiated, the public should be informed to avoid any risk of injury in future near-landing cases.**

1  
00:00:04,309 --> 00:00:00,169

[Music]

2  
00:00:06,110 --> 00:00:04,319

in the late afternoon just before dark

3  
00:00:08,210 --> 00:00:06,120

one of the old dogs and two of the

4  
00:00:10,790 --> 00:00:08,220

puppies jump to Deer

5  
00:00:12,290 --> 00:00:10,800

the old dog came back but two puppies

6  
00:00:13,669 --> 00:00:12,300

didn't come back

7  
00:00:15,890 --> 00:00:13,679

oh

8  
00:00:17,390 --> 00:00:15,900

so I build up a fire and kept waiting on

9  
00:00:20,029 --> 00:00:17,400

him and it didn't come back about 12

10  
00:00:21,830 --> 00:00:20,039

o'clock uh at night

11  
00:00:23,450 --> 00:00:21,840

I heard somebody shoot up in the

12  
00:00:26,029 --> 00:00:23,460

direction that I heard the two young

13  
00:00:27,950 --> 00:00:26,039

dogs last running

14

00:00:29,870 --> 00:00:27,960

so I figured somebody had shot my dog

15

00:00:32,330 --> 00:00:29,880

for uh

16

00:00:33,950 --> 00:00:32,340

a deer or something like that so I

17

00:00:35,990 --> 00:00:33,960

cranked up for buggy

18

00:00:38,330 --> 00:00:36,000

and they're headed up in that direction

19

00:00:40,490 --> 00:00:38,340

with my headlight on

20

00:00:43,130 --> 00:00:40,500

so I had gone about a mile probably and

21

00:00:46,069 --> 00:00:43,140

I saw this light up about 300 foot air

22

00:00:49,310 --> 00:00:46,079

above the cypress trees so stepped there

23

00:00:50,869 --> 00:00:49,320

for a little bit now watch it go uh

24

00:00:52,250 --> 00:00:50,879

first when I first saw it it was going

25

00:00:54,350 --> 00:00:52,260

Northeast

26

00:00:55,850 --> 00:00:54,360

and I lost I could see it in the long

27

00:00:58,670 --> 00:00:55,860

run a little bit where they came back to

28

00:01:00,830 --> 00:00:58,680

where I had it uh almost original the

29

00:01:03,889 --> 00:01:00,840

same was a cone shape

30

00:01:05,929 --> 00:01:03,899

and it was approximately 32 or 33 foot

31

00:01:08,149 --> 00:01:05,939

high and I'll explain to you how I can

32

00:01:09,530 --> 00:01:08,159

get those vitamins later on but uh it

33

00:01:12,649 --> 00:01:09,540

started from the bottom of it

34

00:01:14,210 --> 00:01:12,659

specifically on its own shape about 16

35

00:01:15,289 --> 00:01:14,220

foot up it started with a fear of

36

00:01:16,850 --> 00:01:15,299

weapons

37

00:01:18,649 --> 00:01:16,860

now brother that clear when it was

38

00:01:20,450 --> 00:01:18,659

another two women before that one was

39

00:01:22,670 --> 00:01:20,460

another tier one of that one was another

40

00:01:25,249 --> 00:01:22,680

tear window there was fourth year women

41

00:01:26,450 --> 00:01:25,259

and from the top tier women to the cone

42

00:01:28,550 --> 00:01:26,460

top of it

43

00:01:31,010 --> 00:01:28,560

was about eight foot

44

00:01:32,570 --> 00:01:31,020

from the round low Limitless with a dull

45

00:01:34,490 --> 00:01:32,580

yellow light like you'd ever bow about

46

00:01:36,590 --> 00:01:34,500

5-2 ward off heated or something like

47

00:01:39,170 --> 00:01:36,600

that the light didn't chance directly

48

00:01:41,450 --> 00:01:39,180

out it Shone down beside the ship

49

00:01:44,390 --> 00:01:41,460

from around the base of the ship

50

00:01:45,950 --> 00:01:44,400

was a deep red light back from the

51  
00:01:47,510 --> 00:01:45,960  
exhaust which is where the exhaust came

52  
00:01:50,149 --> 00:01:47,520  
from

53  
00:01:53,389 --> 00:01:50,159  
so I got them watch it for about

54  
00:01:55,010 --> 00:01:53,399  
I'd say 30 to 40 minutes I pranked up

55  
00:01:56,030 --> 00:01:55,020  
turned on my light and headed on up to

56  
00:01:58,850 --> 00:01:56,040  
the ship

57  
00:02:01,190 --> 00:01:58,860  
but if it's one of my dog left and he'd

58  
00:02:02,569 --> 00:02:01,200  
come back within them buddy and he

59  
00:02:04,969 --> 00:02:02,579  
started to howling and carrying on so

60  
00:02:06,590 --> 00:02:04,979  
until I shut the buggy off about 250

61  
00:02:09,469 --> 00:02:06,600  
yards from it

62  
00:02:11,210 --> 00:02:09,479  
got off walked on up to the ship

63  
00:02:13,250 --> 00:02:11,220

because I was standing there just about

64

00:02:17,510 --> 00:02:13,260

the light was just coming over the top

65

00:02:19,550 --> 00:02:17,520

of my head I was approximately uh 75 80

66

00:02:20,990 --> 00:02:19,560

foot the light was coming I was standing

67

00:02:23,330 --> 00:02:21,000

in those lights at the bottom of the

68

00:02:25,800 --> 00:02:23,340

ship went from the from the ship was

69

00:02:30,250 --> 00:02:25,810

just something like would come from

70

00:02:35,030 --> 00:02:32,510

well I stood there about a half a minute

71

00:02:37,369 --> 00:02:35,040

looking up to where the windows were

72

00:02:38,690 --> 00:02:37,379

and I waved and nothing just happened I

73

00:02:41,270 --> 00:02:38,700

stood there probably another half a

74

00:02:42,650 --> 00:02:41,280

minute and waved again

75

00:02:44,570 --> 00:02:42,660

and that's the last thing that I know

76  
00:02:46,190 --> 00:02:44,580  
some kind of a light that came from just

77  
00:02:48,229 --> 00:02:46,200  
beneath the bottom here when it looked

78  
00:02:50,150 --> 00:02:48,239  
like a shark

79  
00:02:51,290 --> 00:02:50,160  
six inches long about the size of a

80  
00:02:53,089 --> 00:02:51,300  
vessel

81  
00:02:57,170 --> 00:02:53,099  
but he didn't hit me right between the

82  
00:03:00,589 --> 00:02:58,790  
profile

83  
00:03:02,449 --> 00:03:00,599  
when it comes to a good seat so I can

84  
00:03:04,430 --> 00:03:02,459  
hear the dog in the buggy out there and

85  
00:03:06,770 --> 00:03:04,440  
scratching and trying to get out

86  
00:03:08,509 --> 00:03:06,780  
so I crawl around and uh

87  
00:03:09,830 --> 00:03:08,519  
I don't know if I was in the night or in

88  
00:03:10,970 --> 00:03:09,840

the daytime but the next morning when I

89

00:03:12,410 --> 00:03:10,980

got to where I could see a little bit

90

00:03:15,229 --> 00:03:12,420

but it was just

91

00:03:17,210 --> 00:03:15,239

uh the sun was just coming up

92

00:03:18,949 --> 00:03:17,220

so I made it over again

93

00:03:20,690 --> 00:03:18,959

I've gotten something out to eat come

94

00:03:22,490 --> 00:03:20,700

over with Olga

95

00:03:24,470 --> 00:03:22,500

and I made it into the engine

96

00:03:25,790 --> 00:03:24,480

reservation which is about 18 miles from

97

00:03:28,670 --> 00:03:25,800

there

98

00:03:29,809 --> 00:03:28,680

and uh I got one of the Indians Drive Me

99

00:03:32,210 --> 00:03:29,819

Out to the

100

00:03:33,890 --> 00:03:32,220

uh somewhere into the road for that time

101  
00:03:36,170 --> 00:03:33,900  
Melissa I was coming back pretty good I

102  
00:03:37,790 --> 00:03:36,180  
could see you know uh fairly good out of

103  
00:03:38,809 --> 00:03:37,800  
left side so I made it only into the

104  
00:03:42,350 --> 00:03:38,819  
hospital

105  
00:03:44,809 --> 00:03:42,360  
days

106  
00:03:46,550 --> 00:03:44,819  
uh before I got to where I could see out

107  
00:03:48,110 --> 00:03:46,560  
of my right eye so in fact they wouldn't

108  
00:03:50,330 --> 00:03:48,120  
let me see then they kept it tight stuff

109  
00:03:53,690 --> 00:03:50,340  
I called a baby to sheriff committed

110  
00:03:55,729 --> 00:03:53,700  
Sheriff uh called the the FBI and he

111  
00:03:58,910 --> 00:03:55,739  
referred it to the Austin Air Force Base

112  
00:04:00,470 --> 00:03:58,920  
in Homestead Florida with me uh have a

113  
00:04:02,509 --> 00:04:00,480

team of investigators to investigate

114

00:04:04,250 --> 00:04:02,519

these things

115

00:04:05,570 --> 00:04:04,260

all right they may not like that they

116

00:04:07,550 --> 00:04:05,580

were really interested in going down

117

00:04:09,350 --> 00:04:07,560

there and best to investigated

118

00:04:11,350 --> 00:04:09,360

well when they thought that I was going

119

00:04:14,690 --> 00:04:11,360

to be able to get out of the hospital

120

00:04:16,789 --> 00:04:14,700

and notified him that we're ready to go

121

00:04:18,170 --> 00:04:16,799

and they told him that if we would take

122

00:04:19,969 --> 00:04:18,180

the line

123

00:04:21,949 --> 00:04:19,979

and mark the area off where they could

124

00:04:23,629 --> 00:04:21,959

sit there they would fly deep in there

125

00:04:27,350 --> 00:04:23,639

and then let's get it

126  
00:04:29,870 --> 00:04:27,360  
if we did we hold two bags of lines over

127  
00:04:31,310 --> 00:04:29,880  
that terrain we don't stare carry any

128  
00:04:34,490 --> 00:04:31,320  
more than you have to because it's a

129  
00:04:35,749 --> 00:04:34,500  
department down there we took about 40

130  
00:04:37,730 --> 00:04:35,759  
pictures

131  
00:04:39,890 --> 00:04:37,740  
we took the sauce happens

132  
00:04:41,270 --> 00:04:39,900  
I'll be able to store samples and he

133  
00:04:42,530 --> 00:04:41,280  
failed him a copy of the pictures that

134  
00:04:44,150 --> 00:04:42,540  
we had

135  
00:04:47,330 --> 00:04:44,160  
wrote them they never had the credit

136  
00:04:48,890 --> 00:04:47,340  
system even went back the pictures that

137  
00:04:51,290 --> 00:04:48,900  
have had the courtesy to let us know
