# UFO LANDS IN SUFFOLK

**A UFO has landed in Britain—and that staggering fact has been officially confirmed.**

Despite a massive cover-up, News of the World investigators have proof that the mysterious craft came to earth in a red ball of light at 3 a.m. on December 27, 1980.

It happened in a pine forest called Tangham Wood just half a mile from the United States Air Force base at RAF Woodbridge, in Suffolk.

An American airman who was there told us there were three beings in silver space suits around the craft. Feral cattle and forest animals ran berserk as the spacecraft, a sloping silver disk about 20ft across as it rose, silently glided to land in a blinding explosion of lights.

appeared elliptical through an 8-12 power lens.

They then turned to full circles. The objects to the north remained in the sky for an hour or more. The object to the south was visible for two or three hours and beamed down a stream of light from time to time.

Numerous people, including James, witnessed these events, Colonel Hall concluded.

toward the depressions.

2. Later in the night a red sun-like light was seen through the trees. It moved about and pulsed. At one point it appeared to throw off glowing particles and then broke into five separate white objects and then disappeared. Immediately thereafter, three star-like objects were noticed in the sky, two objects to the north and one to the south. All of which were about 10" and 15" across. The objects moved rapidly in sharp, angular movements and displayed red, green and blue lights. The objects to the north appeared to be elliptical through an 8-12 power lens. They then turned to full circles. The objects to the north remained in the sky for an hour or more. The object to the south was visible for two or three hours and beamed down a stream of light from time to time. Numerous people, including the undersigned, witnessed the activities in paragraphs 2 and 3.

**NO HOAX**

1  
00:00:07,010 --> 00:00:04,130  
150 feet or more from the initial I

2  
00:00:08,570 --> 00:00:07,020  
should say suspected impact Point having

3  
00:00:10,910 --> 00:00:08,580  
a lift color you can't get to let all

4  
00:00:13,129 --> 00:00:10,920  
the work there seems to be some kind of

5  
00:00:15,289 --> 00:00:13,139  
mechanical progress let's send back

6  
00:00:17,230 --> 00:00:15,299  
another item being complement takes a

7  
00:00:19,670 --> 00:00:17,240  
range of The Gather tire and

8  
00:00:22,240 --> 00:00:19,680  
Chase around here a little bit more the

9  
00:00:22,840 --> 00:00:22,250  
light off to my pants

10  
00:00:28,570 --> 00:00:22,850  
[Applause]

11  
00:00:31,009 --> 00:00:28,580  
[Laughter]

12  
00:00:32,810 --> 00:00:31,019  
okay we're now approaching any within

13  
00:00:33,889 --> 00:00:32,820

about 25 30 feet what kind of readings

14

00:00:38,470 --> 00:00:33,899

do we get anything

15

00:00:43,850 --> 00:00:41,170

reporting in person

16

00:00:55,810 --> 00:00:43,860

they are well there's one more well

17

00:01:02,990 --> 00:00:59,029

can we read that on a scale I guess so

18

00:01:08,270 --> 00:01:03,000

we're now the 5 10 scale at the reading

19

00:01:23,640 --> 00:01:10,750

you're so comfortably safe here

20

00:01:23,650 --> 00:01:34,190

[Laughter]

21

00:01:34,200 --> 00:01:51,730

yes

22

00:01:55,190 --> 00:01:53,450

out there

23

00:01:59,630 --> 00:01:55,200

doing the clicks I can't hear the

24

00:02:05,870 --> 00:02:02,749

yes that's the best in bus deflection

25

00:02:08,589 --> 00:02:05,880

needle I've seen yet okay can you give

26  
00:02:10,449 --> 00:02:08,599  
me an estimation we're on the 0.5 scale

27  
00:02:13,430 --> 00:02:10,459  
we're getting

28  
00:02:20,449 --> 00:02:13,440  
a couple weeks

29  
00:02:24,750 --> 00:02:24,050  
we're getting right at uh a half of the

30  
00:02:27,050 --> 00:02:24,760  
middle right now

31  
00:02:37,270 --> 00:02:27,060  
[Applause]

32  
00:02:41,930 --> 00:02:39,890  
okay we'll go out towards the now it's

33  
00:02:43,970 --> 00:02:41,940  
59. this is after the level one

34  
00:02:45,530 --> 00:02:43,980  
indentation when we first got the

35  
00:02:47,089 --> 00:02:45,540  
strongest reading

36  
00:02:50,970 --> 00:02:47,099  
yeah it's similar to what we got in the

37  
00:02:55,330 --> 00:02:53,270  
[Applause]

38  
00:02:58,670 --> 00:02:55,340

uh

39

00:02:59,690 --> 00:02:58,680

like an area here possibly it could be a

40

00:03:06,330 --> 00:02:59,700

blast

41

00:03:10,430 --> 00:03:08,110

[Applause]

42

00:03:11,690 --> 00:03:10,440

tenths there seven tenths right here in

43

00:03:14,630 --> 00:03:11,700

the center

44

00:03:18,470 --> 00:03:14,640

we climbed a small bonus it looks like a

45

00:03:20,570 --> 00:03:18,480

blasted her scrubbed up area here we've

46

00:03:27,120 --> 00:03:20,580

got very positive degrees let's see is

47

00:03:33,150 --> 00:03:30,229

[Applause]

48

00:03:38,530 --> 00:03:33,160

uh

49

00:03:38,540 --> 00:03:48,670

[Applause]

50

00:03:53,149 --> 00:03:51,110

about 10 foot out and make a perimeter

51  
00:03:55,190 --> 00:03:53,159  
run around it starting right back here

52  
00:03:57,350 --> 00:03:55,200  
at the corner back at the same first

53  
00:04:01,369 --> 00:03:57,360  
corner where we came in let's go right

54  
00:04:05,710 --> 00:04:03,649  
that only depend upon you kind of clicks

55  
00:04:08,210 --> 00:04:05,720  
but okay

56  
00:04:10,210 --> 00:04:08,220  
then I put the light on it and sweep

57  
00:04:13,910 --> 00:04:10,220  
around it

58  
00:04:13,920 --> 00:04:48,050  
foreign

59  
00:04:52,490 --> 00:04:49,790  
and this is an awkward thing to use

60  
00:05:04,210 --> 00:04:54,189  
I've always

61  
00:05:11,450 --> 00:05:06,350  
are we getting any further I'm gonna

62  
00:05:15,770 --> 00:05:14,390  
what are we up to we're up to two three

63  
00:05:17,629 --> 00:05:15,780

units

64

00:05:19,550 --> 00:05:17,639

deflection you're getting close to one

65

00:05:22,310 --> 00:05:19,560

pod

66

00:05:24,610 --> 00:05:22,320

is that something

67

00:05:26,930 --> 00:05:24,620

you know

68

00:05:28,150 --> 00:05:26,940

okay it's still not going about three or

69

00:05:31,129 --> 00:05:28,160

four years

70

00:05:34,249 --> 00:05:31,139

picking up more of them more frequently

71

00:05:36,650 --> 00:05:34,259

yes your stance is again you're staying

72

00:05:37,850 --> 00:05:36,660

steady up around two to three to four

73

00:05:39,310 --> 00:05:37,860

units now

74

00:05:42,430 --> 00:05:39,320

yeah

75

00:05:45,650 --> 00:05:42,440

that's one of these trees

76  
00:05:47,930 --> 00:05:45,660  
but we assume is a landing site all out

77  
00:05:51,290 --> 00:05:47,940  
of the bridge and facing in the same

78  
00:05:53,270 --> 00:05:51,300  
direction towards the center let's go

79  
00:05:54,710 --> 00:05:53,280  
this way around the circle here

80  
00:05:58,330 --> 00:05:54,720  
turn it back down here

81  
00:06:01,730 --> 00:05:58,340  
[Applause]

82  
00:06:03,909 --> 00:06:01,740  
let me see that it's kind of funny it's

83  
00:06:06,790 --> 00:06:03,919  
it's you're right about the abrasion

84  
00:06:14,290 --> 00:06:06,800  
I've never seen a tree that's uh

85  
00:06:14,300 --> 00:06:20,770  
yeah

86  
00:06:26,390 --> 00:06:23,330  
that's identify that is point number one

87  
00:06:27,409 --> 00:06:26,400  
let's stay there so y'all know where it

88  
00:06:30,650 --> 00:06:27,419

is with the sketch it you got that

89

00:06:33,030 --> 00:06:30,660

certain levels yes sir okay closest to

90

00:06:37,330 --> 00:06:33,040

the word Bridge base

91

00:06:37,340 --> 00:06:42,520

so this tree is

92

00:06:42,530 --> 00:06:45,790

[Applause]

93

00:06:49,909 --> 00:06:48,650

kind of negative at this time we'll tell

94

00:06:51,230 --> 00:06:49,919

them when they can come out here we

95

00:06:52,969 --> 00:06:51,240

don't want them out here right now okay

96

00:06:55,309 --> 00:06:52,979

the sample you're gonna mark this sample

97

00:06:57,890 --> 00:06:55,319

number one one yes I've got to often

98

00:07:00,650 --> 00:06:57,900

include some of that sap and all is

99

00:07:02,930 --> 00:07:00,660

between indentation two and three on a

100

00:07:05,570 --> 00:07:02,940

pine tree about

101  
00:07:08,749 --> 00:07:05,580  
about five feet away about three and a

102  
00:07:13,189 --> 00:07:10,570  
okay

103  
00:07:15,290 --> 00:07:13,199  
there's a round abrasion on the tree

104  
00:07:17,450 --> 00:07:15,300  
about uh three and a half fourths in

105  
00:07:19,150 --> 00:07:17,460  
diameter it looks like it might be old

106  
00:07:22,450 --> 00:07:19,160  
but uh

107  
00:07:37,150 --> 00:07:22,460  
strangers a Christmas

108  
00:07:41,870 --> 00:07:39,350  
this is the picture your first picture

109  
00:07:43,270 --> 00:07:41,880  
will be at the first tree the one

110  
00:07:46,070 --> 00:07:43,280  
between uh

111  
00:07:48,170 --> 00:07:46,080  
Mark two and three meantime I'm gonna

112  
00:07:51,230 --> 00:07:48,180  
look a couple of these trees over here

113  
00:07:53,210 --> 00:07:51,240

we are getting you're getting rains on

114

00:07:55,670 --> 00:07:53,220

the trees taking samples from on the

115

00:07:58,969 --> 00:07:55,680

side facing the suspected Landing side

116

00:07:59,930 --> 00:07:58,979

four clicks Max up to four interesting

117

00:08:02,570 --> 00:07:59,940

that's right where you're taking the

118

00:08:04,430 --> 00:08:02,580

sample now four that's the strongest

119

00:08:06,230 --> 00:08:04,440

point on the tree yes sir I think I

120

00:08:13,749 --> 00:08:06,240

could put it back

121

00:08:17,689 --> 00:08:15,950

indentations look like something Twisted

122

00:08:19,249 --> 00:08:17,699

as it got you know as it sat down on

123

00:08:20,869 --> 00:08:19,259

them looks like someone took something

124

00:08:22,610 --> 00:08:20,879

inside it down and twisted it from side

125

00:08:25,369 --> 00:08:22,620

to side

126  
00:08:27,529 --> 00:08:25,379  
very strange welcome to Century we took

127  
00:08:30,710 --> 00:08:27,539  
the sample off with this big house fire

128  
00:08:32,690 --> 00:08:30,720  
scope okay get the definite heat

129  
00:08:34,670 --> 00:08:32,700  
reflection off the tree about three or

130  
00:08:36,350 --> 00:08:34,680  
four feet off the ground yes where the

131  
00:08:38,329 --> 00:08:36,360  
same spot is the same place for the spot

132  
00:08:40,190 --> 00:08:38,339  
as we're getting the heat to the spot on

133  
00:08:42,310 --> 00:08:40,200  
a tree directly behind us and pick up

134  
00:08:44,870 --> 00:08:42,320  
the same thing

135  
00:08:46,730 --> 00:08:44,880  
three trees in the area immediately

136  
00:08:48,410 --> 00:08:46,740  
adjacent to the site within 10 feet of

137  
00:08:50,710 --> 00:08:48,420  
the suspectedly any site we're picking

138  
00:08:54,050 --> 00:08:50,720

up heat reflection off the trees

139

00:08:57,790 --> 00:08:54,060

what's that again

140

00:09:01,750 --> 00:08:57,800

well shot a light on again

141

00:09:01,760 --> 00:09:07,910

you'll notice the white

142

00:09:07,920 --> 00:09:13,430

hey

143

00:09:17,150 --> 00:09:14,810

you're right there's another White

144

00:09:18,290 --> 00:09:17,160

Street concentration indicates uh let me

145

00:09:20,389 --> 00:09:18,300

turn around look at this tree over here

146

00:09:25,430 --> 00:09:20,399

now just a second once you push right on

147

00:09:28,310 --> 00:09:27,050

wait give me a little side lighting so I

148

00:09:31,930 --> 00:09:28,320

can climb the tree

149

00:09:31,940 --> 00:09:38,570

I lost the trade

150

00:09:38,580 --> 00:09:43,250

okay stop stop light off

151

00:09:50,570 --> 00:09:48,250

hey this is Erie what do the hot spots

152

00:09:56,050 --> 00:09:50,580

strange here so we want to look at the

153

00:10:01,210 --> 00:09:57,910

[Applause]

154

00:10:03,410 --> 00:10:01,220

okay let's step back not walk all over

155

00:10:05,980 --> 00:10:03,420

come back here somebody put a beam on

156

00:10:09,730 --> 00:10:05,990

them but you got to be back down 15 feet

157

00:10:34,970 --> 00:10:09,740

[Applause]

158

00:10:36,590 --> 00:10:34,980

okay that's what we call spot number

159

00:10:37,910 --> 00:10:36,600

three

160

00:10:40,310 --> 00:10:37,920

let's go to the back corner and get spot

161

00:10:42,530 --> 00:10:40,320

number one spot one over one here's spot

162

00:10:44,980 --> 00:10:42,540

number one right here spot number one

163

00:10:49,490 --> 00:10:46,750

[Applause]

164

00:10:51,370 --> 00:10:49,500

there it is right there

165

00:10:55,069 --> 00:10:51,380

focused

166

00:10:59,389 --> 00:10:55,079

okay look it out spot number one through

167

00:11:03,470 --> 00:11:01,610

take a slight increase in light as I go

168

00:11:04,730 --> 00:11:03,480

over slight increase in line at spot

169

00:11:05,990 --> 00:11:04,740

number one let's go look at spot number

170

00:11:10,870 --> 00:11:06,000

two

171

00:11:14,889 --> 00:11:10,880

right here

172

00:11:17,990 --> 00:11:14,899

you can get focused on it tell me when

173

00:11:24,250 --> 00:11:18,000

okay lights on let's see what we get on

174

00:11:29,050 --> 00:11:26,930

just a slight increase

175

00:11:31,250 --> 00:11:29,060

let's try to Center

176

00:11:32,690 --> 00:11:31,260

the center spot the well the early is

177

00:11:37,790 --> 00:11:32,700

the center it's slightly off center it's

178

00:11:40,389 --> 00:11:39,290

I gotta get your reading on it right

179

00:11:44,410 --> 00:11:40,399

there

180

00:11:48,310 --> 00:11:44,420

okay tell me when you're ready okay

181

00:11:52,690 --> 00:11:50,630

it's a better spot we're looking at now

182

00:11:55,730 --> 00:11:52,700

on almost the center

183

00:11:58,790 --> 00:11:55,740

slight increase there this is slightly

184

00:12:01,610 --> 00:11:58,800

off center toward the uh one two side

185

00:12:02,690 --> 00:12:01,620

it's a some that's an abrasion or

186

00:12:04,009 --> 00:12:02,700

something in the ground where the pine

187

00:12:06,350 --> 00:12:04,019

needles are all pushed back when we get

188

00:12:09,050 --> 00:12:06,360

a high radiac or high reading about the

189

00:12:11,230 --> 00:12:09,060

deflection of uh two to three maybe four

190

00:12:14,030 --> 00:12:11,240

depending on the point

191

00:12:17,090 --> 00:12:14,040

yes so there's a positive After Effects

192

00:12:20,210 --> 00:12:17,100

there is definitely that's on the center

193

00:12:22,790 --> 00:12:20,220

Front there is an after effect what does

194

00:12:25,250 --> 00:12:22,800

that mean so the lights are turned off

195

00:12:27,590 --> 00:12:25,260

once we are focused in our last time for

196

00:12:29,630 --> 00:12:27,600

the eyes to adjust we are getting an

197

00:12:31,850 --> 00:12:29,640

indication of a heat Source coming out

198

00:12:35,090 --> 00:12:31,860

of that Center spine

199

00:12:36,590 --> 00:12:35,100

as uh which will show up on some form of

200

00:12:38,509 --> 00:12:36,600

energies hardly Heat at this stage of

201  
00:12:40,970 --> 00:12:38,519  
the game

202  
00:12:43,569 --> 00:12:40,980  
it is looking directly overhead one can

203  
00:12:46,310 --> 00:12:43,579  
see an opening trees plus some freshly

204  
00:12:47,870 --> 00:12:46,320  
uh broken Pine branches on the ground

205  
00:12:49,670 --> 00:12:47,880  
underneath

206  
00:12:52,009 --> 00:12:49,680  
looks like someone came on to about 15

207  
00:12:54,370 --> 00:12:52,019  
to 20 feet up some small branches about

208  
00:12:56,629 --> 00:12:54,380  
inch or less in diameter

209  
00:12:59,470 --> 00:12:56,639  
148 we're hearing very strange sounds

210  
00:13:01,850 --> 00:12:59,480  
about the farmers Barnyard animals

211  
00:13:11,530 --> 00:13:01,860  
very very active making awful lot of

212  
00:13:16,310 --> 00:13:13,930  
there it is again

213  
00:13:19,790 --> 00:13:16,320

watch throw the head off my flashlight

214

00:13:21,970 --> 00:13:19,800

there it is hey I see it too what is it

215

00:13:25,910 --> 00:13:21,980

we don't know sir so yeah

216

00:13:27,410 --> 00:13:25,920

it's a strange small red light looks

217

00:13:28,660 --> 00:13:27,420

beyond maybe a quarter and a half mile

218

00:13:36,170 --> 00:13:28,670

maybe further out

219

00:13:40,449 --> 00:13:38,600

oh dust flashlight

220

00:13:42,710 --> 00:13:40,459

[Applause]

221

00:13:45,110 --> 00:13:42,720

and get a better look at it so you can

222

00:13:46,610 --> 00:13:45,120

get the star scope on it are they still

223

00:13:49,310 --> 00:13:46,620

there and all the binary animals have

224

00:13:51,590 --> 00:13:49,320

gotten quiet now yeah we're having about

225

00:13:53,030 --> 00:13:51,600

110 to 120 degrees from the side I threw

226

00:13:55,930 --> 00:13:53,040  
to the clearing now still getting a

227

00:13:58,970 --> 00:13:55,940  
reading on the meter about two clicks

228

00:14:00,949 --> 00:13:58,980  
getting stronger

229

00:14:03,230 --> 00:14:00,959  
now it's uh

230

00:14:08,750 --> 00:14:03,240  
coming up hold up there we go about

231

00:14:12,860 --> 00:14:10,190  
all right he's turning the meter off you

232

00:14:12,860 --> 00:14:12,870  
gotta say that again

233

00:14:16,370 --> 00:14:14,449  
[Applause]

234

00:14:17,930 --> 00:14:16,380  
four feet off the ground about 110

235

00:14:20,949 --> 00:14:17,940  
degrees getting a reading of about four

236

00:14:24,769 --> 00:14:23,509  
now it's done no it's not I think it's

237

00:14:26,449 --> 00:14:24,779  
something on the ground I think it's

238

00:14:28,509 --> 00:14:26,459

something that's something very

239

00:14:31,850 --> 00:14:28,519

important

240

00:14:34,009 --> 00:14:31,860

we've seen we're about 150 to 200 yards

241

00:14:36,829 --> 00:14:34,019

from the site everything else is just

242

00:14:38,449 --> 00:14:36,839

definitely calm there's no doubt about

243

00:14:41,210 --> 00:14:38,459

there's some type of strange flashing

244

00:14:42,189 --> 00:14:41,220

red light ahead so I saw yellow tangent

245

00:14:45,650 --> 00:14:42,199

too

246

00:14:47,509 --> 00:14:45,660

weird it appears to be maybe moving a

247

00:14:49,329 --> 00:14:47,519

bit this way it's it's brighter than it

248

00:14:51,840 --> 00:14:49,339

has been kill him it's coming this way

249

00:14:54,189 --> 00:14:51,850

it is definitely coming this way

250

00:15:04,449 --> 00:14:54,199

[Applause]

251  
00:15:09,470 --> 00:15:07,550  
there's something very very strange

252  
00:15:13,930 --> 00:15:09,480  
get the headset on see if it gets on my

253  
00:15:21,490 --> 00:15:16,850  
but it still has been removed okay

254  
00:15:35,210 --> 00:15:31,490  
[Applause]

255  
00:15:50,290 --> 00:15:38,040  
[Music]

256  
00:15:55,370 --> 00:15:52,940  
it almost burns your eye

257  
00:15:57,470 --> 00:15:55,380  
[Applause]

258  
00:15:59,030 --> 00:15:57,480  
ask the farmer's house across in the

259  
00:16:01,610 --> 00:15:59,040  
next field now we have multiple cities

260  
00:16:04,069 --> 00:16:01,620  
of up to five lights with a similar

261  
00:16:05,750 --> 00:16:04,079  
shape now but there's a little steady

262  
00:16:08,810 --> 00:16:05,760  
now rather than a pulsating your glow

263  
00:16:12,009 --> 00:16:08,820

with a red flash you just crossed the

264

00:16:19,810 --> 00:16:14,150

three good clicks on the meter and we're

265

00:16:25,189 --> 00:16:22,250

will work the far side of the farmers

266

00:16:27,410 --> 00:16:25,199

the second Farmer's field and made

267

00:16:28,610 --> 00:16:27,420

siding again about 110 degrees this

268

00:16:30,590 --> 00:16:28,620

looks like it's clear out to the coast

269

00:16:32,569 --> 00:16:30,600

it's right on the horizon

270

00:16:35,930 --> 00:16:32,579

moves about a bit and flashes from time

271

00:16:37,550 --> 00:16:35,940

to time still study or let

272

00:16:38,990 --> 00:16:37,560

also after negative

273

00:16:41,629 --> 00:16:39,000

regular field we're picking up the

274

00:16:42,520 --> 00:16:41,639

slight range uh four or five clicks now

275

00:16:44,050 --> 00:16:42,530

on the meter

276

00:16:47,990 --> 00:16:44,060

[Applause]

277

00:16:50,569 --> 00:16:48,000

305 we see strange strobe light flashes

278

00:16:52,189 --> 00:16:50,579

to the uh rather sporadic but there's

279

00:16:53,170 --> 00:16:52,199

definitely something uh some kind of

280

00:16:56,590 --> 00:16:53,180

phenomenal

281

00:16:59,509 --> 00:16:56,600

three or five at about uh 10 degrees

282

00:17:03,949 --> 00:16:59,519

Horizon uh directly north we've got two

283

00:17:06,890 --> 00:17:03,959

strange objects uh half moon shape have

284

00:17:09,049 --> 00:17:06,900

that with colored lights on them but uh

285

00:17:11,809 --> 00:17:09,059

yesterday about five to ten miles out

286

00:17:14,210 --> 00:17:11,819

maybe less the headphones now turned

287

00:17:16,130 --> 00:17:14,220

into full circles because while there

288

00:17:18,610 --> 00:17:16,140

was a eclipse or something there for a

289

00:17:21,850 --> 00:17:18,620

minute or two

290

00:17:25,189 --> 00:17:21,860

now we've got an object about 10 degrees

291

00:17:30,890 --> 00:17:25,199

off the Horizon and once the north are

292

00:17:35,390 --> 00:17:32,510

away too

293

00:17:38,950 --> 00:17:35,400

yeah we're both heading north

294

00:17:44,029 --> 00:17:41,150

we're observing what appears to be a

295

00:17:47,990 --> 00:17:44,039

beam for coming down to the ground

296

00:17:51,350 --> 00:17:49,909

anybody and the objects are still in the

297

00:17:52,250 --> 00:17:51,360

sky although the one to the side looks

298

00:17:54,770 --> 00:17:52,260

like it's losing a little bit of

299

00:17:58,130 --> 00:17:54,780

altitude we're coming on heading back

300

00:17:59,750 --> 00:17:58,140

toward the base it's an object to the

301

00:18:02,510 --> 00:17:59,760

stuff the object to the side is still
