

1
00:00:04,570 --> 00:00:03,350
I was told was the crew was out planting

2
00:00:07,789 --> 00:00:04,580
trees

3
00:00:09,950 --> 00:00:07,799
about noon they looked up and saw that

4
00:00:12,589 --> 00:00:09,960
they sat it for the parachute coming

5
00:00:14,150 --> 00:00:12,599
down as they got closer to the ground it

6
00:00:16,849 --> 00:00:14,160
stopped and started doing some

7
00:00:18,710 --> 00:00:16,859
maneuvering

8
00:00:20,510 --> 00:00:18,720
which got the attention to more of the

9
00:00:23,630 --> 00:00:20,520
crew members and they were standing

10
00:00:24,670 --> 00:00:23,640
there within 500 yards they noticed it

11
00:00:28,070 --> 00:00:24,680
was a

12
00:00:30,529 --> 00:00:28,080
machine rather than parachute after a

13
00:00:32,690 --> 00:00:30,539

little bit it went over there was a herd

14

00:00:35,709 --> 00:00:32,700

of elk in the circuit next to them and

15

00:00:42,049 --> 00:00:38,950

and actually pick one of them up

16

00:00:45,549 --> 00:00:42,059

and took it I'm assuming into the

17

00:00:48,709 --> 00:00:45,559

machine they said that it then

18

00:00:51,229 --> 00:00:48,719

acted like the weight of that thing was

19

00:00:54,290 --> 00:00:51,239

almost too much milk and it started

20

00:00:55,729 --> 00:00:54,300

wobbling trying to gain altitude it was

21

00:00:56,990 --> 00:00:55,739

moving over towards the edge of the

22

00:00:59,689 --> 00:00:57,000

clear cut and they thought it was going

23

00:01:01,790 --> 00:00:59,699

to crash into the trees but it stopped

24

00:01:05,630 --> 00:01:01,800

moved back over into the middle of the

25

00:01:07,670 --> 00:01:05,640

clear-cut over for a minute and went out

26

00:01:10,429 --> 00:01:07,680

of fright vertical and it took the elk

27

00:01:12,590 --> 00:01:10,439

with it did it yeah and when did this

28

00:01:14,390 --> 00:01:12,600

occur please do you happen to know uh
