

1
00:00:06,650 --> 00:00:04,970
we're representing fsic the Flying

2
00:00:08,930 --> 00:00:06,660
Saucer investigating Committee of Akron

3
00:00:10,850 --> 00:00:08,940
uh this is Chuck mackerson and I'm

4
00:00:12,770 --> 00:00:10,860
Laurie Moyers and would you give me your

5
00:00:16,970 --> 00:00:12,780
name Jerry Yost

6
00:00:18,529 --> 00:00:16,980
your age 32 32. you're replaceable

7
00:00:19,790 --> 00:00:18,539
employment where do you work Akron

8
00:00:20,750 --> 00:00:19,800
Police Department work with the police

9
00:00:23,210 --> 00:00:20,760
department

10
00:00:25,790 --> 00:00:23,220
just in order that we don't add to or

11
00:00:28,970 --> 00:00:25,800
subtract from your account of what you

12
00:00:31,550 --> 00:00:28,980
saw at 1 30 this morning would you start

13
00:00:34,729 --> 00:00:31,560

in pretty much as you were going up uh

14

00:00:36,970 --> 00:00:34,739

the boulevard there and uh give me a

15

00:00:40,310 --> 00:00:36,980

full detail account of everything you

16

00:00:43,030 --> 00:00:40,320

saw and and as much detail as you can

17

00:00:45,709 --> 00:00:43,040

bring into it who else

18

00:00:48,290 --> 00:00:45,719

approximately 1 30 a.m in the morning

19

00:00:49,850 --> 00:00:48,300

and we just cleared a call at triplet

20

00:00:52,670 --> 00:00:49,860

auto wrecking we were heading East on

21

00:00:54,229 --> 00:00:52,680

triplet and approximately triplet in

22

00:00:56,270 --> 00:00:54,239

Woodstock

23

00:00:59,810 --> 00:00:56,280

I made the comment to my partner I'd

24

00:01:01,369 --> 00:00:59,820

seen this object ways back and I didn't

25

00:01:04,850 --> 00:01:01,379

say anything or even think of it it

26

00:01:07,070 --> 00:01:04,860

appeared to be a harvest moon that I

27

00:01:09,830 --> 00:01:07,080

thought but I made a statement to my

28

00:01:13,850 --> 00:01:09,840

partner that uh look at the large

29

00:01:15,649 --> 00:01:13,860

Harvest Moon ahead and he said that's no

30

00:01:17,030 --> 00:01:15,659

moon he said the moon's to the rarest I

31

00:01:19,730 --> 00:01:17,040

said well it's got to be the moon I said

32

00:01:22,910 --> 00:01:19,740

what else could it be and then we were

33

00:01:26,090 --> 00:01:22,920

continuing on and by that time we've

34

00:01:29,570 --> 00:01:26,100

gotten uh rather close so I asked maybe

35

00:01:32,450 --> 00:01:29,580

200 yards and the object was uh hanging

36

00:01:34,609 --> 00:01:32,460

down in a little Valley like behind some

37

00:01:36,710 --> 00:01:34,619

trees in that in the church

38

00:01:39,350 --> 00:01:36,720

and the object appeared to be as big or

39

00:01:41,749 --> 00:01:39,360

bigger than the the church itself

40

00:01:44,929 --> 00:01:41,759

and about that time the object just

41

00:01:47,510 --> 00:01:44,939

seemed to diminish in size I mean

42

00:01:49,310 --> 00:01:47,520

staying parallel with the grind and just

43

00:01:52,429 --> 00:01:49,320

started getting smaller

44

00:01:54,889 --> 00:01:52,439

and all of a sudden it just uh was a

45

00:01:57,649 --> 00:01:54,899

southeast of us at the time we first

46

00:02:01,850 --> 00:01:57,659

cited it and it just veered off in the

47

00:02:04,310 --> 00:02:01,860

Northeast Direction and that the uh was

48

00:02:07,190 --> 00:02:04,320

Rising rapidly I mean very fashionable

49

00:02:09,290 --> 00:02:07,200

uh now did you feel that it diminished

50

00:02:11,210 --> 00:02:09,300

in size before it started or anything it

51
00:02:12,890 --> 00:02:11,220
diminished inside me like I say it was

52
00:02:14,750 --> 00:02:12,900
huge when we first saw it and it just

53
00:02:16,250 --> 00:02:14,760
seemed like it was just on grind it was

54
00:02:18,229 --> 00:02:16,260
just going away from us even before it

55
00:02:20,630 --> 00:02:18,239
gained altitude yeah but all of a sudden

56
00:02:22,490 --> 00:02:20,640
it just veered it was going more it was

57
00:02:24,770 --> 00:02:22,500
just going straight East when it was

58
00:02:26,570 --> 00:02:24,780
starting to get smaller then it veered

59
00:02:29,449 --> 00:02:26,580
Northeast and that's when it started

60
00:02:32,510 --> 00:02:29,459
making its uh Horizon to the sky

61
00:02:34,490 --> 00:02:32,520
then let's run we estimate around Canton

62
00:02:36,770 --> 00:02:34,500
and tripler Canton Albrecht there it

63
00:02:40,070 --> 00:02:36,780

just took a new East course

64

00:02:42,350 --> 00:02:40,080
and we followed it I can and to

65

00:02:44,210 --> 00:02:42,360
albrechten down Albrecht and

66

00:02:47,809 --> 00:02:44,220
we got down there around Hydro Boulevard

67

00:02:50,330 --> 00:02:47,819
and Albrecht and it uh managed you know

68

00:02:54,170 --> 00:02:50,340
just disappeared into the sky for about

69

00:02:56,869 --> 00:02:54,180
125 seconds then it appeared way out to

70

00:02:59,270 --> 00:02:56,879
be on magador Sheffield you know out in

71

00:03:01,430 --> 00:02:59,280
that area for a matter of two three

72

00:03:03,229 --> 00:03:01,440
seconds I mean it didn't come down close

73

00:03:05,210 --> 00:03:03,239
to Earth it was still way up and then it

74

00:03:07,729 --> 00:03:05,220
just disappeared again that's the last

75

00:03:09,290 --> 00:03:07,739
we saw no it's that way who was the

76

00:03:11,210 --> 00:03:09,300

other person what's your picket John

77

00:03:13,190 --> 00:03:11,220

Bick and John Becker yeah he was driving

78

00:03:14,930 --> 00:03:13,200

the car and uh to the bus of your

79

00:03:17,750 --> 00:03:14,940

knowledge were there any other possible

80

00:03:19,009 --> 00:03:17,760

observers to the well there was a fella

81

00:03:21,470 --> 00:03:19,019

like I say we're just going up to the

82

00:03:24,770 --> 00:03:21,480

highest station can the triplet to get

83

00:03:26,449 --> 00:03:24,780

our radio our heater fixed and when we

84

00:03:28,790 --> 00:03:26,459

saw it we were going to go up there and

85

00:03:30,890 --> 00:03:28,800

get him you know to see it too but if it

86

00:03:34,369 --> 00:03:30,900

was going to hold still you know like it

87

00:03:37,490 --> 00:03:34,379

was but it didn't uh remain in one place

88

00:03:40,250 --> 00:03:37,500

it just took off but when we first come

89

00:03:41,630 --> 00:03:40,260

upon it it was stationary I believe

90

00:03:43,130 --> 00:03:41,640

there was some mention on the radio this

91

00:03:45,830 --> 00:03:43,140

morning the State Highway Patrol having

92

00:03:49,070 --> 00:03:45,840

seen something also yes uh state highway

93

00:03:52,070 --> 00:03:49,080

patrolman stated he observed the same

94

00:03:54,830 --> 00:03:52,080

type of an object in Sawyer wooden which

95

00:03:57,110 --> 00:03:54,840

is uh probably three miles from the

96

00:03:59,449 --> 00:03:57,120

scene where we first you know decided

97

00:04:01,910 --> 00:03:59,459

that he pinpoint the time I was about to

98

00:04:03,530 --> 00:04:01,920

sign yeah he it happened uh

99

00:04:05,930 --> 00:04:03,540

approximately five or ten minutes before

100

00:04:07,910 --> 00:04:05,940

we you know before you thought before we

101
00:04:09,289 --> 00:04:07,920
saw it yeah he saw it first and he

102
00:04:12,710 --> 00:04:09,299
observed for about five minutes out

103
00:04:14,509 --> 00:04:12,720
there and then he lost it and we saw it

104
00:04:16,789 --> 00:04:14,519
over here on triplet and we called in to

105
00:04:19,490 --> 00:04:16,799
our radio dispatch and asked them to

106
00:04:22,129 --> 00:04:19,500
check this uh airport CFA if had any uh

107
00:04:25,010 --> 00:04:22,139
sightings in our dispatcher called back

108
00:04:26,270 --> 00:04:25,020
and said that uh the airports hadn't

109
00:04:28,670 --> 00:04:26,280
received any but the state highway

110
00:04:30,310 --> 00:04:28,680
patrolman had spotted something he said

111
00:04:32,689 --> 00:04:30,320
at 8-24

112
00:04:35,749 --> 00:04:32,699
which was right in that area because the

113
00:04:38,090 --> 00:04:35,759

patrolman said that he had seen it uh in

114

00:04:40,129 --> 00:04:38,100

sawyerwood and he pulled off 224 there

115

00:04:42,290 --> 00:04:40,139

and observed it for five minutes

116

00:04:44,689 --> 00:04:42,300

and he said it was uh it was moving

117

00:04:48,590 --> 00:04:44,699

because he fixed the position of it with

118

00:04:51,050 --> 00:04:48,600

a light telephone pole or something out

119

00:04:52,730 --> 00:04:51,060

there I I think we have missed some of

120

00:04:54,890 --> 00:04:52,740

the detail of the shape of the object

121

00:04:56,930 --> 00:04:54,900

and you first saw and the coloration and

122

00:04:58,490 --> 00:04:56,940

then the changing of the shape and its

123

00:05:01,070 --> 00:04:58,500

color you know when we first saw it it

124

00:05:03,890 --> 00:05:01,080

just looked like a the bottom half of a

125

00:05:06,650 --> 00:05:03,900

huge Harvest Moon that was the top half

126

00:05:10,610 --> 00:05:06,660

was covered by quad layer and it was

127

00:05:12,909 --> 00:05:10,620

very brilliant oranges gold color and

128

00:05:15,409 --> 00:05:12,919

sort of

129

00:05:18,350 --> 00:05:15,419

was fading away as it appeared to have

130

00:05:19,730 --> 00:05:18,360

sort of a waffle-like uh design on it

131

00:05:22,610 --> 00:05:19,740

and uh

132

00:05:24,830 --> 00:05:22,620

as it was disappearing though into the

133

00:05:27,230 --> 00:05:24,840

sky it just had the appearance of two

134

00:05:29,629 --> 00:05:27,240

saucers put together I was thinking of

135

00:05:32,390 --> 00:05:29,639

this waffle at the time was that a grid

136

00:05:35,330 --> 00:05:32,400

type thing yeah and this was demarked by

137

00:05:36,170 --> 00:05:35,340

dark lines yeah like you say the the

138

00:05:39,770 --> 00:05:36,180

color

139

00:05:42,950 --> 00:05:39,780

of the object itself is an orangish gold

140

00:05:45,350 --> 00:05:42,960

or yellowish gold brilliant color and

141

00:05:47,870 --> 00:05:45,360

the lines on there seem to be sort of a

142

00:05:49,850 --> 00:05:47,880

orangish bronze color I mean not very

143

00:05:51,409 --> 00:05:49,860

Vivid I mean you know but you could see

144

00:05:53,390 --> 00:05:51,419

them sort of set off but there was this

145

00:05:55,670 --> 00:05:53,400

crisscrossing effect to me it appeared

146

00:05:58,730 --> 00:05:55,680

like yeah could you uh tell me

147

00:06:00,890 --> 00:05:58,740

approximately how number how many uh

148

00:06:03,230 --> 00:06:00,900

vertical lines and horizontal lines were

149

00:06:07,189 --> 00:06:03,240

in this grid for the middle

150

00:06:12,350 --> 00:06:07,199

it's uh there's a three it was a ten

151
00:06:15,830 --> 00:06:14,270
I'd say maybe

152
00:06:18,650 --> 00:06:15,840
they were from

153
00:06:20,710 --> 00:06:18,660
five to ten in that area I mean there

154
00:06:23,090 --> 00:06:20,720
were space

155
00:06:25,790 --> 00:06:23,100
I mean you know you got those

156
00:06:27,529 --> 00:06:25,800
Discretions we saw in an instant there

157
00:06:29,570 --> 00:06:27,539
and it was you know going away from us

158
00:06:30,950 --> 00:06:29,580
and like I said when we first saw it we

159
00:06:32,809 --> 00:06:30,960
didn't think about it he didn't even

160
00:06:34,670 --> 00:06:32,819
think of anything of the sort of meaning

161
00:06:36,529 --> 00:06:34,680
of what it could be they say we was

162
00:06:39,350 --> 00:06:36,539
thinking it was a moon or a

163
00:06:42,529 --> 00:06:39,360

a blimp or something you know uh coming

164

00:06:43,790 --> 00:06:42,539

across they're all lit up and uh you

165

00:06:45,230 --> 00:06:43,800

know if you see something you could

166

00:06:47,510 --> 00:06:45,240

observe it and know what you're looking

167

00:06:49,189 --> 00:06:47,520

at it the first time you kind of look

168

00:06:51,230 --> 00:06:49,199

for detail though this thing here it

169

00:06:53,809 --> 00:06:51,240

just uh was moving away and like I say

170

00:06:55,610 --> 00:06:53,819

it was covered by trees and that

171

00:06:56,870 --> 00:06:55,620

fortunately there's no leaves on the

172

00:07:00,230 --> 00:06:56,880

trees you could see you know through the

173

00:07:04,150 --> 00:07:00,240

trees and altitude now how about the

174

00:07:06,830 --> 00:07:04,160

coloration so as you gained the altitude

175

00:07:11,029 --> 00:07:06,840

before it disappeared it was just a

176

00:07:14,510 --> 00:07:11,039

brilliant white brilliant white yeah

177

00:07:17,270 --> 00:07:14,520

and uh how long do you estimate it took

178

00:07:20,629 --> 00:07:17,280

you to drive from your original point of

179

00:07:22,490 --> 00:07:20,639

observation uh now you suggested this

180

00:07:24,469 --> 00:07:22,500

morning that it did get larger to you

181

00:07:27,409 --> 00:07:24,479

for a little period as you were posted

182

00:07:30,230 --> 00:07:27,419

yeah and and then from that point uh

183

00:07:33,469 --> 00:07:30,240

that you first saw until you uh hit

184

00:07:35,510 --> 00:07:33,479

Canton Road where it hit the clouds uh I

185

00:07:38,330 --> 00:07:35,520

thought it was about a minute probably

186

00:07:40,730 --> 00:07:38,340

from the time that I first saw it until

187

00:07:42,830 --> 00:07:40,740

the last sighting of it I mean the whole

188

00:07:44,210 --> 00:07:42,840

episode probably took no more than a

189

00:07:45,650 --> 00:07:44,220
minute

190

00:07:47,210 --> 00:07:45,660
probably I can see where you wouldn't

191

00:07:49,129 --> 00:07:47,220
get too much time for a detailed

192

00:07:50,990 --> 00:07:49,139
observation but a minute it's a long

193

00:07:52,909 --> 00:07:51,000
time when you're looking at something if

194

00:07:55,010 --> 00:07:52,919
if it had just disappeared straight out

195

00:07:57,350 --> 00:07:55,020
and that was it you know we could see it

196

00:07:59,210 --> 00:07:57,360
but the thing once nine minutes started

197

00:08:01,550 --> 00:07:59,220
veering off and uh you can just see it

198

00:08:03,409 --> 00:08:01,560
going across you know right out across

199

00:08:06,170 --> 00:08:03,419
the sky there in the Northeast Direction

200

00:08:08,629 --> 00:08:06,180
and like I say out around Canton triplet

201
00:08:10,010 --> 00:08:08,639
in that area General vicinity it just

202
00:08:13,909 --> 00:08:10,020
took a

203
00:08:15,409 --> 00:08:13,919
East easterly Direction and that's uh

204
00:08:17,570 --> 00:08:15,419
all over the weather conditions at the

205
00:08:19,909 --> 00:08:17,580
time so it was clear it wasn't raining

206
00:08:22,850 --> 00:08:19,919
uh it rained about a

207
00:08:25,670 --> 00:08:22,860
oh they were from half hour to an hour

208
00:08:27,469 --> 00:08:25,680
after the siding but at the time it was

209
00:08:29,330 --> 00:08:27,479
clear there was a

210
00:08:31,610 --> 00:08:29,340
heavy you know quad covering broken

211
00:08:33,709 --> 00:08:31,620
clouds yeah there's a moon you could see

212
00:08:35,510 --> 00:08:33,719
the moon it would you know be visible

213
00:08:37,250 --> 00:08:35,520

and the clouds would drift by now that

214

00:08:39,829 --> 00:08:37,260

you did see both the object and the moon

215

00:08:41,510 --> 00:08:39,839

separately yeah I I didn't see the moon

216

00:08:43,730 --> 00:08:41,520

at the time I was watching object but I

217

00:08:44,930 --> 00:08:43,740

told my buddy with you know the the Moon

218

00:08:46,550 --> 00:08:44,940

ahead and he said that's not the moon

219

00:08:47,990 --> 00:08:46,560

because he said the Moon is to the rear

220

00:08:49,310 --> 00:08:48,000

of us and he looked back and he saw the

221

00:08:52,490 --> 00:08:49,320

moon behind us today in the north

222

00:08:54,949 --> 00:08:52,500

Westerly Direction he did the set yeah

223

00:08:57,170 --> 00:08:54,959

and we did after the sighting and

224

00:08:59,030 --> 00:08:57,180

everything we did see the moon and the

225

00:09:01,910 --> 00:08:59,040

moon was at the time would have been

226
00:09:05,449 --> 00:09:01,920
like I say to our Northwest and the moon

227
00:09:06,949 --> 00:09:05,459
was a sort of a whitish color and was

228
00:09:09,230 --> 00:09:06,959
nowhere any

229
00:09:11,810 --> 00:09:09,240
even close to the color of the object

230
00:09:14,030 --> 00:09:11,820
that we saw it was like I told this

231
00:09:16,790 --> 00:09:14,040
gentleman here at about a third of the

232
00:09:19,910 --> 00:09:16,800
size of this object it dubbed up here to

233
00:09:22,009 --> 00:09:19,920
stand still at one time well it actually

234
00:09:24,590 --> 00:09:22,019
to me it appeared like it was going to

235
00:09:26,930 --> 00:09:24,600
have taken away off from us there was no

236
00:09:28,910 --> 00:09:26,940
other traffic on the road at all and

237
00:09:31,670 --> 00:09:28,920
when we came up there it appeared to be

238
00:09:33,110 --> 00:09:31,680

just an emotionless position until we

239

00:09:35,570 --> 00:09:33,120

started getting closer then it started

240

00:09:37,910 --> 00:09:35,580

going away from us and the faster we got

241

00:09:40,250 --> 00:09:37,920

then it just shot up the

242

00:09:42,250 --> 00:09:40,260

into the sky then and it did suddenly

243

00:09:44,630 --> 00:09:42,260

speed up yeah

244

00:09:46,790 --> 00:09:44,640

tremendous acceleration it didn't break

245

00:09:49,070 --> 00:09:46,800

up into any parts or explode or this

246

00:09:52,610 --> 00:09:49,080

type of thing give off any smoke no

247

00:09:55,490 --> 00:09:52,620

I just don't leave on a visible Trail

248

00:09:56,870 --> 00:09:55,500

well you mean uh like a table or

249

00:09:58,910 --> 00:09:56,880

something no

250

00:10:01,430 --> 00:09:58,920

um did it drop anything no change

251
00:10:03,230 --> 00:10:01,440
brightness well no it just went from

252
00:10:05,210 --> 00:10:03,240
that orgies gold color

253
00:10:07,490 --> 00:10:05,220
from the uh you know close to the Earth

254
00:10:10,970 --> 00:10:07,500
there until it got up into the change

255
00:10:14,750 --> 00:10:10,980
shape from the half moon scallop top to

256
00:10:17,389 --> 00:10:14,760
to the double disc shape yeah

257
00:10:19,790 --> 00:10:17,399
do you remember if there was any wind at

258
00:10:21,590 --> 00:10:19,800
the time strong wind no I don't think it

259
00:10:23,449 --> 00:10:21,600
was uh windy out there

260
00:10:25,910 --> 00:10:23,459
you observed the object at all times

261
00:10:29,269 --> 00:10:25,920
through the windshield you didn't stop

262
00:10:31,130 --> 00:10:29,279
the car you know we stopped and I can't

263
00:10:32,630 --> 00:10:31,140

uh when we got out of Albrecht and got

264

00:10:34,850 --> 00:10:32,640

out of the car after we'd lost it you

265

00:10:36,769 --> 00:10:34,860

know the last time but it never came

266

00:10:40,070 --> 00:10:36,779

back but no time did you observe it

267

00:10:43,790 --> 00:10:40,080

outside of the car no I think

268

00:10:47,269 --> 00:10:43,800

um use no binoculars no

269

00:10:49,449 --> 00:10:47,279

was the object uh fuzzy or blurred or

270

00:10:52,670 --> 00:10:49,459

sharply outlined yeah I'd say it was

271

00:10:54,550 --> 00:10:52,680

quite clearly you know sharp sharp the

272

00:10:57,710 --> 00:10:54,560

lines of uh

273

00:10:59,389 --> 00:10:57,720

I mean I could say it didn't just a big

274

00:11:01,430 --> 00:10:59,399

ball there you know like the sun or

275

00:11:03,410 --> 00:11:01,440

something and to have a lot of fuzziness

276

00:11:05,569 --> 00:11:03,420

around the edges it was distinct the uh

277

00:11:08,509 --> 00:11:05,579

the outer edges was quite this thing

278

00:11:10,430 --> 00:11:08,519

seemed to be selfless yeah

279

00:11:12,470 --> 00:11:10,440

you see there's nothing around there to

280

00:11:13,970 --> 00:11:12,480

cause any reflection I mean if that

281

00:11:15,829 --> 00:11:13,980

great magnet too because it's a

282

00:11:18,290 --> 00:11:15,839

residential area and they just got uh

283

00:11:20,509 --> 00:11:18,300

well back in that area you know a coin

284

00:11:22,730 --> 00:11:20,519

will cover the moon if you hold a nickel

285

00:11:24,470 --> 00:11:22,740

up like this at arm's length you can't

286

00:11:26,829 --> 00:11:24,480

see the moon Beyond it

287

00:11:29,269 --> 00:11:26,839

uh actually if you were to hold your

288

00:11:32,449 --> 00:11:29,279

hands out like this at the closest point

289

00:11:34,310 --> 00:11:32,459

just visualize this how wide a spread

290

00:11:36,650 --> 00:11:34,320

would you have to make to cover the

291

00:11:38,329 --> 00:11:36,660

object as your closest point that our

292

00:11:40,069 --> 00:11:38,339

closest point you know if you're looking

293

00:11:41,630 --> 00:11:40,079

through your hands like this

294

00:11:43,970 --> 00:11:41,640

I say

295

00:11:46,490 --> 00:11:43,980

about like that

296

00:11:49,009 --> 00:11:46,500

it wouldn't take that much area it was

297

00:11:52,250 --> 00:11:49,019

huge you see at 200 yards if you were to

298

00:11:55,970 --> 00:11:52,260

expand this uh I'm not kidding you it

299

00:11:57,949 --> 00:11:55,980

was uh and and how much of the church

300

00:12:00,610 --> 00:11:57,959

would you say that it would take up in

301

00:12:04,430 --> 00:12:00,620

the bottom swing yeah

302

00:12:06,650 --> 00:12:04,440

it was above the church yes and it was

303

00:12:08,630 --> 00:12:06,660

as big or bigger than the church at the

304

00:12:10,850 --> 00:12:08,640

time we saw it and the church uh that's

305

00:12:12,170 --> 00:12:10,860

a little amazing yeah because it was

306

00:12:13,430 --> 00:12:12,180

huge I mean it wasn't just a little

307

00:12:15,530 --> 00:12:13,440

little spot

308

00:12:16,490 --> 00:12:15,540

I mean it was huge I mean this church I

309

00:12:18,530 --> 00:12:16,500

don't know if you're familiar with the

310

00:12:19,850 --> 00:12:18,540

church it's a good size Church yeah we

311

00:12:21,889 --> 00:12:19,860

saw one of that great big church but

312

00:12:24,230 --> 00:12:21,899

it's a good sized church and this object

313

00:12:26,810 --> 00:12:24,240

was beyond beyond the trees and then of

314

00:12:28,790 --> 00:12:26,820

this little wooded area and it was uh

315

00:12:30,769 --> 00:12:28,800

like you say now if the object was in

316

00:12:32,269 --> 00:12:30,779

front of it you could see you're getting

317

00:12:34,250 --> 00:12:32,279

that but it it's behind it and it's

318

00:12:35,569 --> 00:12:34,260

still as big or bigger than the church

319

00:12:37,790 --> 00:12:35,579

where they're in the conventional

320

00:12:46,810 --> 00:12:37,800

aircraft in the area at the time

321

00:12:50,569 --> 00:12:49,550

now if you were to compare the speed of

322

00:12:55,430 --> 00:12:50,579

the object

323

00:12:58,610 --> 00:12:55,440

uh with a piston a prop job a light

324

00:13:01,490 --> 00:12:58,620

plane a jet or or faster how would you

325

00:13:03,050 --> 00:13:01,500

compare it as it took off well so I've

326

00:13:05,629 --> 00:13:03,060

never seen anything to accelerate like

327

00:13:07,550 --> 00:13:05,639

that like I say we were coming into the

328

00:13:09,110 --> 00:13:07,560

bin when it started moving away from us

329

00:13:10,970 --> 00:13:09,120

and my buddy

330

00:13:13,850 --> 00:13:10,980

started going faster around the Bender

331

00:13:16,790 --> 00:13:13,860

by the time we got down to vital Tire it

332

00:13:19,310 --> 00:13:16,800

was just about completely out of sight

333

00:13:20,569 --> 00:13:19,320

and at the state it was at that level it

334

00:13:22,850 --> 00:13:20,579

seemed like it just got up to a certain

335

00:13:25,370 --> 00:13:22,860

level and it stayed there they're not in

336

00:13:26,870 --> 00:13:25,380

all brick that it disappeared when it

337

00:13:28,190 --> 00:13:26,880

came back out whether it just went

338

00:13:29,810 --> 00:13:28,200

through a cloud layer or something I

339

00:13:31,670 --> 00:13:29,820

don't know whether it went higher and

340

00:13:34,550 --> 00:13:31,680

came back down again I I don't know

341

00:13:37,490 --> 00:13:34,560

either but it disappeared there for uh

342

00:13:38,569 --> 00:13:37,500

five seconds and it came back in the

343

00:13:41,509 --> 00:13:38,579

view again

344

00:13:45,650 --> 00:13:41,519

when it disappeared entirely I'll say

345

00:13:49,009 --> 00:13:45,660

nearby we have the muni airport the

346

00:13:50,990 --> 00:13:49,019

arrows of space in Goodyear aircraft and

347

00:13:53,810 --> 00:13:51,000

uh of course it was up from dock

348

00:13:56,389 --> 00:13:53,820

uh have you ever seen any other objects

349

00:14:00,710 --> 00:13:56,399

of an unidentified nature

350

00:14:02,930 --> 00:14:00,720

whoa no just uh these sputniks you know

351

00:14:04,730 --> 00:14:02,940

things that they put up on a certain

352

00:14:06,590 --> 00:14:04,740

nights you know we've the wife and I

353

00:14:09,410 --> 00:14:06,600

we've decided things you know you've

354

00:14:13,430 --> 00:14:09,420

seen the papers yeah

355

00:14:15,829 --> 00:14:13,440

but I've never seen uh anything that uh

356

00:14:17,810 --> 00:14:15,839

I remember

357

00:14:20,389 --> 00:14:17,820

shooting stuff have you been called

358

00:14:22,329 --> 00:14:20,399

today by the Air Force or federal state

359

00:14:24,230 --> 00:14:22,339

county line

360

00:14:26,569 --> 00:14:24,240

newspaper is the only ones it's called

361

00:14:27,949 --> 00:14:26,579

Beacon General didn't call you well

362

00:14:29,949 --> 00:14:27,959

Beacon Journal was at the station where

363

00:14:32,509 --> 00:14:29,959

we came in this morning

364

00:14:33,889 --> 00:14:32,519

and tonight as a woman from The Plain

365

00:14:36,170 --> 00:14:33,899

Dealer called

366

00:14:39,590 --> 00:14:36,180

and talked to me then uh this morning

367

00:14:43,189 --> 00:14:39,600

before I uh well I'll talk to you this

368

00:14:45,769 --> 00:14:43,199

morning and uh talked to wkr and who

369

00:14:48,230 --> 00:14:45,779

there's only two radio stations without

370

00:14:50,389 --> 00:14:48,240

a lot of interest it's amazing the

371

00:14:51,650 --> 00:14:50,399

amount of Interest did you hear the

372

00:14:53,750 --> 00:14:51,660

Dorothy full-time program the other

373

00:14:56,810 --> 00:14:53,760

night no I uh our television set through

374

00:15:00,110 --> 00:14:56,820

I was there about a week ago and we

375

00:15:03,350 --> 00:15:00,120

haven't uh had a TV show

376

00:15:05,689 --> 00:15:03,360

um as I talked with the uh captain at

377

00:15:07,850 --> 00:15:05,699

the station this morning uh he told me

378

00:15:09,230 --> 00:15:07,860

that they weren't logging UFO reports

379

00:15:12,410 --> 00:15:09,240

now they were holding on individual

380

00:15:14,090 --> 00:15:12,420

cards what do they mean by this well she

381

00:15:15,530 --> 00:15:14,100

said we got over the new station I'll

382

00:15:17,870 --> 00:15:15,540

leave

383

00:15:20,150 --> 00:15:17,880

got a new radio system and they've got a

384

00:15:21,590 --> 00:15:20,160

new setup now before no I don't know I

385

00:15:24,110 --> 00:15:21,600

haven't been in there to see it but they

386

00:15:25,670 --> 00:15:24,120

used to have just a big sheet and the

387

00:15:26,990 --> 00:15:25,680

headlines on it you know like a ledger

388

00:15:30,110 --> 00:15:27,000

sheet or something and they put the car

389

00:15:31,910 --> 00:15:30,120

the timeout the reason for the you know

390

00:15:33,410 --> 00:15:31,920

the call what type of a call then when

391

00:15:36,050 --> 00:15:33,420

you called back they put the disposition

392

00:15:38,150 --> 00:15:36,060

and that was on a big sheet a lot yeah

393

00:15:39,949 --> 00:15:38,160

now I understand they've got cards with

394

00:15:41,689 --> 00:15:39,959

all that on there and each time a car

395

00:15:44,750 --> 00:15:41,699

gets a call they take that card and they

396

00:15:47,750 --> 00:15:44,760

put the time they get the call they date

397

00:15:50,030 --> 00:15:47,760

the reason for it the car number who

398

00:15:51,290 --> 00:15:50,040

called you know the party calling for

399

00:15:53,389 --> 00:15:51,300

what reason where they're calling from

400

00:15:54,910 --> 00:15:53,399

and all that on one card and I guess

401
00:15:58,250 --> 00:15:54,920
that some way is going to be fouled

402
00:16:01,069 --> 00:15:58,260
according to cars or districts I don't

403
00:16:01,930 --> 00:16:01,079
know like I said I am into seeing their

404
00:16:03,889 --> 00:16:01,940
setup

405
00:16:05,449 --> 00:16:03,899
revolutionary changes they have changed

406
00:16:08,650 --> 00:16:05,459
yeah they have changed the setup down

407
00:16:12,530 --> 00:16:08,660
there but as far as logging I don't know

408
00:16:13,910 --> 00:16:12,540
or uh putting on cards I don't know some

409
00:16:17,030 --> 00:16:13,920
time ago I understood that they have

410
00:16:19,550 --> 00:16:17,040
assigned a man to uh handle UFO calls do

411
00:16:22,730 --> 00:16:19,560
you know about them no I don't

412
00:16:26,090 --> 00:16:22,740
Know This Woman This call from uh Plain

413
00:16:29,090 --> 00:16:26,100

Dealer today she said uh uh Kent State

414

00:16:31,490 --> 00:16:29,100
couple did you talk to them no

415

00:16:33,009 --> 00:16:31,500
she was saying that she said are you

416

00:16:35,629 --> 00:16:33,019
familiar with the

417

00:16:39,110 --> 00:16:35,639
Kent State couple that cited this object

418

00:16:41,689 --> 00:16:39,120
Friday night in North Hill Hall yes we

419

00:16:43,370 --> 00:16:41,699
have about uh eight or ten calls on this

420

00:16:44,870 --> 00:16:43,380
I didn't I was thinking you were talking

421

00:16:47,870 --> 00:16:44,880
about last night no this was Friday

422

00:16:50,930 --> 00:16:47,880
night yesterday Friday night we have a

423

00:16:53,150 --> 00:16:50,940
great Money Report uh the and in fact

424

00:16:55,490 --> 00:16:53,160
we've called practically every airport

425

00:16:58,069 --> 00:16:55,500
within 100 miles to see if there were

426

00:16:59,329 --> 00:16:58,079

any advertising planes in the area and

427

00:17:03,050 --> 00:16:59,339

to the best of our knowledge so we're

428

00:17:05,630 --> 00:17:03,060

not but uh and it seemed to be a

429

00:17:08,169 --> 00:17:05,640

disshaped object with a fast rotating

430

00:17:11,270 --> 00:17:08,179

room of lights around the perimeter

431

00:17:13,789 --> 00:17:11,280

one man said he was very close to it and

432

00:17:16,610 --> 00:17:13,799

uh he is the pilot and it could identify

433

00:17:18,470 --> 00:17:16,620

almost anything and he said that was

434

00:17:19,789 --> 00:17:18,480

nothing that he could identify that's

435

00:17:23,150 --> 00:17:19,799

why it's me there's nothing I've ever

436

00:17:28,730 --> 00:17:26,150

well uh one one more question I suppose

437

00:17:30,409 --> 00:17:28,740

since uh the information here is pretty

438

00:17:32,530 --> 00:17:30,419

much general knowledge you you probably

439

00:17:36,529 --> 00:17:32,540

have no objection to our using it also

440

00:17:38,529 --> 00:17:36,539

uh the ways in which we use it uh is uh

441

00:17:40,370 --> 00:17:38,539

for instance we have a monthly meeting

442

00:17:42,289 --> 00:17:40,380

and uh

443

00:17:44,690 --> 00:17:42,299

quite often people who have seen them

444

00:17:47,270 --> 00:17:44,700

come down and share what they've seen

445

00:17:49,610 --> 00:17:47,280

with us as Dale started he came down on

446

00:17:51,830 --> 00:17:49,620

Sharon and then we have a little monthly

447

00:17:55,130 --> 00:17:51,840

bulletin that we put out how's the

448

00:17:57,230 --> 00:17:55,140

circulation of around uh 200 now around

449

00:17:59,390 --> 00:17:57,240

600 on the mailing list but we don't

450

00:18:02,330 --> 00:17:59,400

very often cover the whole mailing list

451
00:18:04,970 --> 00:18:02,340
and uh occasionally we have other public

452
00:18:07,070 --> 00:18:04,980
education meetings in which we use it do

453
00:18:09,169 --> 00:18:07,080
you have any objection to this no

454
00:18:10,789 --> 00:18:09,179
very fine

455
00:18:12,470 --> 00:18:10,799
do you have any questions Chuck that

456
00:18:14,990 --> 00:18:12,480
we've listed yeah I'm just like to go

457
00:18:16,930 --> 00:18:15,000
into a little bit more detail on several

458
00:18:20,029 --> 00:18:16,940
of these but

459
00:18:21,289 --> 00:18:20,039
uh the weather now you mentioned clouds

460
00:18:24,310 --> 00:18:21,299
are you familiar with the

461
00:18:29,650 --> 00:18:24,320
classifications of clouds at all

462
00:18:35,930 --> 00:18:33,470
I say it was dark out and all I know is

463
00:18:39,830 --> 00:18:35,940

there was a low ceiling in the

464

00:18:41,630 --> 00:18:39,840

at night I mean you know with uh

465

00:18:44,270 --> 00:18:41,640

no illumination is pretty hard to

466

00:18:46,669 --> 00:18:44,280

distinguish the clouds and the moon was

467

00:18:48,770 --> 00:18:46,679

in and out you know during the night and

468

00:18:51,169 --> 00:18:48,780

uh before this until it rained then

469

00:18:53,690 --> 00:18:51,179

after that the cloud coverage had it you

470

00:18:55,789 --> 00:18:53,700

know completely uh covered up

471

00:18:58,010 --> 00:18:55,799

but they were dark and dark very dark

472

00:18:59,810 --> 00:18:58,020

clouds and they were rather low like I

473

00:19:01,130 --> 00:18:59,820

said when the moon would come out in

474

00:19:04,850 --> 00:19:01,140

their Clear Spot you could see the

475

00:19:06,890 --> 00:19:04,860

clouds and they uh they were rather low

476

00:19:08,450 --> 00:19:06,900

uh could you give me a rough estimate on

477

00:19:17,770 --> 00:19:08,460

the percentage of the sky that was

478

00:19:17,780 --> 00:19:22,909

I wouldn't uh

479

00:19:28,549 --> 00:19:25,850

how many I'd like to a map from you you

480

00:19:31,669 --> 00:19:28,559

know giving your locations

481

00:19:33,350 --> 00:19:31,679

and the angles from where you from the

482

00:19:35,630 --> 00:19:33,360

Direction You observe these from and if

483

00:19:37,250 --> 00:19:35,640

you change the position at all did you

484

00:19:40,190 --> 00:19:37,260

change position

485

00:19:42,430 --> 00:19:40,200

well most of the time we were heading

486

00:19:44,810 --> 00:19:42,440

east because triple Boulevard runs East

487

00:19:46,370 --> 00:19:44,820

and uh until you come to Canton Road

488

00:19:48,710 --> 00:19:46,380

then we had to make a left which would

489

00:19:50,990 --> 00:19:48,720

have been North and we went one block

490

00:19:53,230 --> 00:19:51,000

and we made it right which is East again

491

00:19:56,029 --> 00:19:53,240

and headed directly east

492

00:19:58,549 --> 00:19:56,039

there at the church you have almost a 30

493

00:19:59,990 --> 00:19:58,559

degree angle turn a curved arm yeah but

494

00:20:01,789 --> 00:20:00,000

it it when it straightens out you're

495

00:20:03,830 --> 00:20:01,799

still ahead and these I mean you're like

496

00:20:05,810 --> 00:20:03,840

this part of triple Boulevard is heading

497

00:20:08,270 --> 00:20:05,820

straight East and you make a sort of an

498

00:20:10,310 --> 00:20:08,280

S turn like this and go straight on East

499

00:20:13,669 --> 00:20:10,320

so actually you're continuing on you

500

00:20:16,490 --> 00:20:13,679

know directions a little less curve

501
00:20:17,529 --> 00:20:16,500
there well yes head north then uh come

502
00:20:20,630 --> 00:20:17,539
back uh

503
00:20:22,070 --> 00:20:20,640
but it's only uh just a small turn there

504
00:20:24,350 --> 00:20:22,080
you know

505
00:20:27,310 --> 00:20:24,360
uh did you have to lean forward and

506
00:20:29,750 --> 00:20:27,320
required anytime to look out the window

507
00:20:31,970 --> 00:20:29,760
well you know even when it was going

508
00:20:34,370 --> 00:20:31,980
because it was going out away from us

509
00:20:35,990 --> 00:20:34,380
like this and we could uh my partner was

510
00:20:37,850 --> 00:20:36,000
driving and he he could see it all the

511
00:20:39,169 --> 00:20:37,860
time that I saw it and uh you know

512
00:20:41,029 --> 00:20:39,179
without the

513
00:20:42,710 --> 00:20:41,039

nina not looking up or anything like

514

00:20:43,970 --> 00:20:42,720

that like you just showed me that with

515

00:20:46,370 --> 00:20:43,980

your eye was that about the approximate

516

00:20:48,529 --> 00:20:46,380

angle you uh when it was taken off yeah

517

00:20:51,650 --> 00:20:48,539

I mean like when we first saw it was to

518

00:20:53,570 --> 00:20:51,660

our right or south east of us but then

519

00:21:01,150 --> 00:20:53,580

when it was going off into the sky it

520

00:21:05,810 --> 00:21:03,529

I think that's about all I have Larry

521

00:21:08,090 --> 00:21:05,820

now I'd like to get some angles and put

522

00:21:09,830 --> 00:21:08,100

all possible bearings

523

00:21:12,950 --> 00:21:09,840

no you you feel you'd have to be out

524

00:21:16,370 --> 00:21:14,330

um

525

00:21:20,390 --> 00:21:16,380

I was like you go to work at 11 don't

526

00:21:23,690 --> 00:21:20,400

you yeah well we start uh

527

00:21:25,669 --> 00:21:23,700

by the time uh actually we are supposed

528

00:21:26,990 --> 00:21:25,679

to be on duty 11 30 by the time we get

529

00:21:29,690 --> 00:21:27,000

out of the station now it's about

530

00:21:31,610 --> 00:21:29,700

quarter of 12.

531

00:21:33,350 --> 00:21:31,620

how do we change that on time now we

532

00:21:35,870 --> 00:21:33,360

used to change that in our districts now

533

00:21:37,669 --> 00:21:35,880

we changed downtown which uh holds you

534

00:21:39,409 --> 00:21:37,679

up sometimes from a quarter to 12 to 12

535

00:21:41,450 --> 00:21:39,419

o'clock depending on the

536

00:21:43,430 --> 00:21:41,460

roll call you know and information that

537

00:21:45,649 --> 00:21:43,440

they're putting up on there

538

00:21:49,370 --> 00:21:45,659

so sometimes it's after 12 before we get

539

00:21:51,110 --> 00:21:49,380

out in our respective districts

540

00:21:53,330 --> 00:21:51,120

I think he was running about this one

541

00:21:58,190 --> 00:21:53,340

possibly he could maybe catch you in the

542

00:22:04,010 --> 00:22:01,490

we'll be out there all night

543

00:22:06,950 --> 00:22:04,020

for like I said midnight to eight in the

544

00:22:13,549 --> 00:22:11,090

um I've got a schedule myself around 11

545

00:22:16,190 --> 00:22:13,559

o'clock uh you you're not driving right

546

00:22:19,490 --> 00:22:17,990

I was wondering you know if you drop me

547

00:22:20,870 --> 00:22:19,500

off I'd get my car

548

00:22:22,610 --> 00:22:20,880

well no no I know you're not driving

549

00:22:25,630 --> 00:22:22,620

here but I mean but but you do have a

550

00:22:27,770 --> 00:22:25,640

car yes uh do you suppose you could uh

551

00:22:29,390 --> 00:22:27,780

do you have a pressing schedule for

552

00:22:31,510 --> 00:22:29,400

tomorrow morning we'll have to get up in

553

00:22:33,770 --> 00:22:31,520

the morning

554

00:22:37,190 --> 00:22:33,780

I mean do you feel you want to pick this

555

00:22:38,950 --> 00:22:37,200

up tonight or maybe wow we could do it I

556

00:22:41,930 --> 00:22:38,960

mean it's better well I'm off Wednesday

557

00:22:44,690 --> 00:22:41,940

you know Tuesday night I'm off Tuesday

558

00:22:47,750 --> 00:22:44,700

night well it's tomorrow night yeah

559

00:22:50,149 --> 00:22:47,760

we're off tomorrow night oh Tuesday

560

00:22:53,270 --> 00:22:50,159

well maybe uh even make arrangements

561

00:22:56,630 --> 00:22:53,280

yeah I'm sure we can uh

562

00:22:58,730 --> 00:22:56,640

although I do have an equipment now

563

00:23:02,570 --> 00:22:58,740

you can do it tonight uh you will be in

564

00:23:05,390 --> 00:23:02,580

the area you say well uh

565

00:23:07,149 --> 00:23:05,400

hello for sightings that

566

00:23:10,190 --> 00:23:07,159

yeah

567

00:23:12,289 --> 00:23:10,200

I'd like to do it just kind of uh walk

568

00:23:13,850 --> 00:23:12,299

through the steps that go through the

569

00:23:15,950 --> 00:23:13,860

motions you actually went through and

570

00:23:19,149 --> 00:23:15,960

observing this oh I see and then I have

571

00:23:22,730 --> 00:23:19,159

a compass and a complete major altitude

572

00:23:24,830 --> 00:23:22,740

and uh so if he could pin the exact

573

00:23:27,289 --> 00:23:24,840

moments of observation along with about

574

00:23:29,330 --> 00:23:27,299

three or four other people observing it

575

00:23:32,090 --> 00:23:29,340

from different directions he could just

576
00:23:34,070 --> 00:23:32,100
about tell you well how high it was and

577
00:23:49,090 --> 00:23:34,080
what have you

578
00:23:52,850 --> 00:23:51,110
ERS out there

579
00:23:54,890 --> 00:23:52,860
reporting there

580
00:23:58,690 --> 00:23:54,900
so we if we do we're not allowed to be

581
00:24:01,130 --> 00:23:58,700
stung until after one o'clock new rules

582
00:24:02,930 --> 00:24:01,140
they give us a list of about 10 15

583
00:24:04,310 --> 00:24:02,940
things we're not allowed to do now well

584
00:24:09,909 --> 00:24:04,320
sometimes they're starting to get a

585
00:24:14,090 --> 00:24:12,350
then they get a new station down there

586
00:24:15,890 --> 00:24:14,100
and they're you know they they just

587
00:24:17,090 --> 00:24:15,900
comes up every so often they start we're

588
00:24:18,970 --> 00:24:17,100

just like in the service you know they

589

00:24:22,610 --> 00:24:18,980

gotta keep portion get a little yeah

590

00:24:24,289 --> 00:24:22,620

yeah but we just

591

00:24:26,090 --> 00:24:24,299

we just great and bear we know it's

592

00:24:29,210 --> 00:24:26,100

going to last for a while and things

593

00:24:31,190 --> 00:24:29,220

will slack off but yeah we can meet you

594

00:24:33,110 --> 00:24:31,200

have a regular spot you have to report

595

00:24:36,370 --> 00:24:33,120

in or something yeah we got like I said

596

00:24:40,549 --> 00:24:36,380

we got to be at the station about 11 30.

597

00:24:42,649 --> 00:24:40,559

and a quarter 12 to 12 anywhere from

598

00:24:44,390 --> 00:24:42,659

then to there we're relieved you know to

599

00:24:46,370 --> 00:24:44,400

go out in our district man you got to

600

00:24:49,490 --> 00:24:46,380

give us time so actually I'd say

601
00:24:51,110 --> 00:24:49,500
it's from 12 30 with just you know would

602
00:24:53,750 --> 00:24:51,120
give us enough time to get out in our

603
00:24:58,669 --> 00:24:53,760
district and clear the station and uh

604
00:25:03,590 --> 00:25:00,590
yeah and you might find yourself writing

605
00:25:05,210 --> 00:25:03,600
a call well what we could do is we can

606
00:25:06,230 --> 00:25:05,220
just call our service and tell them that

607
00:25:08,649 --> 00:25:06,240
we're going to be out of service you

608
00:25:11,690 --> 00:25:08,659
know for a few minutes

609
00:25:15,350 --> 00:25:11,700
how about if I meet you tonight at 12 30

610
00:25:17,570 --> 00:25:15,360
at the control tower parking lot it's

611
00:25:20,330 --> 00:25:17,580
okay right in front of the uh control

612
00:25:21,529 --> 00:25:20,340
tower at the airport right and then if

613
00:25:26,029 --> 00:25:21,539

you're delays any reason you wouldn't

614

00:25:27,950 --> 00:25:26,039

have coffee yeah I think okay all right

615

00:25:29,630 --> 00:25:27,960

if you get there earlier if we can get

616

00:25:31,490 --> 00:25:29,640

there earlier we'll come by there and

617

00:25:33,230 --> 00:25:31,500

then okay maybe make it earlier watch

618

00:25:35,029 --> 00:25:33,240

I'd be there about 12.

619

00:25:36,950 --> 00:25:35,039

so I'll be there plenty of time okay

620

00:25:39,230 --> 00:25:36,960

well as soon as we can we'll come by

621

00:25:42,049 --> 00:25:39,240

there and uh if you're there at 12 and

622

00:25:45,049 --> 00:25:42,059

we're out there at 12 well I'm pressing

623

00:25:46,430 --> 00:25:45,059

for us to get uh a taped interview with

624

00:25:49,269 --> 00:25:46,440

this uh

625

00:25:51,710 --> 00:25:49,279

truck driver over the traffic between

626

00:25:53,450 --> 00:25:51,720

Parkersburg and Marietta oh you're on

627

00:25:56,390 --> 00:25:53,460

that case yeah

628

00:25:57,789 --> 00:25:56,400

so you do this uh on the side I mean it

629

00:26:00,470 --> 00:25:57,799

was just yeah

630

00:26:03,830 --> 00:26:00,480

this is November 8th isn't it yes

631

00:26:05,690 --> 00:26:03,840

November 8th uh 1966 and this is Chuck

632

00:26:06,710 --> 00:26:05,700

mackinson and Larry Moyers and Mark

633

00:26:09,049 --> 00:26:06,720

conducive from the flying south

634

00:26:10,370 --> 00:26:09,059

investigating committee interviewing a

635

00:26:12,409 --> 00:26:10,380

person about something that happened

636

00:26:14,750 --> 00:26:12,419

just the other night uh what is your

637

00:26:18,230 --> 00:26:14,760

full name please John Pickett John

638

00:26:20,330 --> 00:26:18,240

vickett your age 36. and where do you

639

00:26:22,149 --> 00:26:20,340

work at from Christopher what's your

640

00:26:24,890 --> 00:26:22,159

occupation

641

00:26:27,590 --> 00:26:24,900

any special training in the Army this is

642

00:26:29,450 --> 00:26:27,600

the serving the services yes what uh

643

00:26:32,570 --> 00:26:29,460

what service was in the Army and Marine

644

00:26:34,909 --> 00:26:32,580

Corps and did you fly I identifying

645

00:26:36,409 --> 00:26:34,919

yesterday you did yeah you consider

646

00:26:39,169 --> 00:26:36,419

yourself having a pretty good set of

647

00:26:43,210 --> 00:26:39,179

eyes even today oh yeah okay what was

648

00:26:48,649 --> 00:26:45,830

what time was it the approximate time

649

00:26:51,169 --> 00:26:48,659

approximately 1 30 in the morning that's

650

00:26:54,289 --> 00:26:51,179

Eastern Standard Time now yes and the

651
00:26:57,529 --> 00:26:54,299
place where you saw the object was it uh

652
00:26:58,909 --> 00:26:57,539
Triplett Boulevard and quail and quail

653
00:27:00,890 --> 00:26:58,919
were you traveling in what direction I

654
00:27:02,930 --> 00:27:00,900
was traveling East how long do you use

655
00:27:05,690 --> 00:27:02,940
the object you know minutes or seconds

656
00:27:07,130 --> 00:27:05,700
well uh actually it's kind of hard to

657
00:27:08,750 --> 00:27:07,140
tell it wasn't very long I'd say maybe

658
00:27:11,090 --> 00:27:08,760
uh two minutes

659
00:27:12,529 --> 00:27:11,100
something like that did you have good uh

660
00:27:14,029 --> 00:27:12,539
What kind of a kind did you have and

661
00:27:16,190 --> 00:27:14,039
what kind of disability it was clear we

662
00:27:17,210 --> 00:27:16,200
could see it good uh was there clouds in

663
00:27:19,130 --> 00:27:17,220

this guy

664

00:27:21,230 --> 00:27:19,140

well it may have been I don't know I

665

00:27:22,490 --> 00:27:21,240

didn't notice actually yeah but it

666

00:27:23,930 --> 00:27:22,500

didn't look clear it didn't rain it

667

00:27:26,269 --> 00:27:23,940

wasn't raining oh no it wasn't raining

668

00:27:28,310 --> 00:27:26,279

for the Stars uh was there a moon out

669

00:27:30,470 --> 00:27:28,320

yes there was a Mona which way was it

670

00:27:33,409 --> 00:27:30,480

from you well from us it would have been

671

00:27:35,330 --> 00:27:33,419

uh it was behind our Cruiser and we was

672

00:27:39,769 --> 00:27:35,340

heading east so from us it would have

673

00:27:41,750 --> 00:27:39,779

been what uh West sort of West yeah all

674

00:27:44,630 --> 00:27:41,760

right in the what direction did you see

675

00:27:48,230 --> 00:27:44,640

the object itself East you see more than

676
00:27:50,630 --> 00:27:48,240
one object no just one all right now uh

677
00:27:52,789 --> 00:27:50,640
what color was it but when we first seen

678
00:27:55,490 --> 00:27:52,799
it was a yellowish gold or orangeish

679
00:27:57,289 --> 00:27:55,500
gold color did you ever see it behind

680
00:27:59,870 --> 00:27:57,299
trees or did it pass in front of trees

681
00:28:02,029 --> 00:27:59,880
yes uh when we first seen it you could

682
00:28:03,289 --> 00:28:02,039
see it through the trees it's just the

683
00:28:04,490 --> 00:28:03,299
bottom portion of it you can see through

684
00:28:06,230 --> 00:28:04,500
the tree I'll give you a chance to tell

685
00:28:08,690 --> 00:28:06,240
the whole story you know all in one big

686
00:28:09,649 --> 00:28:08,700
swing in a minute here did you observe

687
00:28:10,970 --> 00:28:09,659
it through the windshield or did you get

688
00:28:12,470 --> 00:28:10,980

out of the car to see through the

689

00:28:15,649 --> 00:28:12,480

windshield you didn't get out to look at

690

00:28:18,169 --> 00:28:15,659

all when we got out of the car but uh

691

00:28:21,049 --> 00:28:18,179

it was uh after we had lost it the first

692

00:28:23,750 --> 00:28:21,059

time there yeah okay you hear any sound

693

00:28:26,210 --> 00:28:23,760

at all no was it a clearly outlined

694

00:28:27,649 --> 00:28:26,220

object or was it blurred or fuzzy no it

695

00:28:28,730 --> 00:28:27,659

was clear you can see it do you think

696

00:28:30,289 --> 00:28:28,740

the light was coming from the object

697

00:28:31,130 --> 00:28:30,299

itself or was it reflecting lights in

698

00:28:33,830 --> 00:28:31,140

the city

699

00:28:36,470 --> 00:28:33,840

no it was coming from The Savage

700

00:28:38,690 --> 00:28:36,480

all right and uh we'll ask you about

701
00:28:40,190 --> 00:28:38,700
what about the size what did it compare

702
00:28:42,409 --> 00:28:40,200
how to compare with the moon did you did

703
00:28:43,850 --> 00:28:42,419
you try to compare the two well compared

704
00:28:45,470 --> 00:28:43,860
to the Moon the Moon was small compared

705
00:28:47,090 --> 00:28:45,480
to this object you've seen well could

706
00:28:51,529 --> 00:28:47,100
you give me a proportion two three times

707
00:28:54,169 --> 00:28:51,539
or what well one and a half no it was uh

708
00:28:57,370 --> 00:28:54,179
I'd say twice as big as part of the Moon

709
00:28:59,810 --> 00:28:57,380
we could see the diameter yeah yeah

710
00:29:02,630 --> 00:28:59,820
I would say from what we could tell

711
00:29:05,269 --> 00:29:02,640
approximately 70 feet long from where we

712
00:29:09,350 --> 00:29:05,279
was at it looked why did you come to the

713
00:29:11,510 --> 00:29:09,360

system how far away were you well uh

714

00:29:13,250 --> 00:29:11,520

maybe 100 yards under 50 yards something

715

00:29:15,470 --> 00:29:13,260

like that

716

00:29:18,769 --> 00:29:15,480

and how the object disappear from you

717

00:29:21,169 --> 00:29:18,779

well it uh it was setting still when we

718

00:29:23,269 --> 00:29:21,179

first seen it and then when we stopped

719

00:29:24,350 --> 00:29:23,279

the cruiser and then we started to go

720

00:29:25,669 --> 00:29:24,360

towards you go ahead and tell your whole

721

00:29:28,370 --> 00:29:25,679

story from now on right from the very

722

00:29:30,049 --> 00:29:28,380

beginning uh we were going east on

723

00:29:32,210 --> 00:29:30,059

tripler Boulevard

724

00:29:34,850 --> 00:29:32,220

and we were at Woodstock and Triplett

725

00:29:36,830 --> 00:29:34,860

when we spotted this object at Quail and

726

00:29:40,430 --> 00:29:36,840

triplet which is about uh

727

00:29:41,990 --> 00:29:40,440

maybe 100 yards away 150 yards away this

728

00:29:45,289 --> 00:29:42,000

object was sitting right behind the

729

00:29:48,529 --> 00:29:45,299

church there at uh quail and uh Triplett

730

00:29:49,490 --> 00:29:48,539

and we stopped a cruiser as long as I

731

00:29:50,570 --> 00:29:49,500

come up over there you know it kind of

732

00:29:51,769 --> 00:29:50,580

shakes you when you see something you've

733

00:29:55,130 --> 00:29:51,779

never seen it before

734

00:29:57,230 --> 00:29:55,140

and uh with them how much my buddy told

735

00:29:58,730 --> 00:29:57,240

me you know let's go see what it is so

736

00:30:01,970 --> 00:29:58,740

when we got in the cruiser and started

737

00:30:03,769 --> 00:30:01,980

toward this object it started to leave

738

00:30:07,130 --> 00:30:03,779

traveling East

739

00:30:10,310 --> 00:30:07,140

straight away yes it didn't rise but it

740

00:30:13,490 --> 00:30:10,320

started to go away from us headed east

741

00:30:15,289 --> 00:30:13,500

it went in that direction while I

742

00:30:16,090 --> 00:30:15,299

couldn't say how many feet or how many

743

00:30:19,370 --> 00:30:16,100

miles

744

00:30:21,049 --> 00:30:19,380

for a ways and then it it kind of veered

745

00:30:22,970 --> 00:30:21,059

to the left now it didn't make a sharp

746

00:30:24,889 --> 00:30:22,980

left but it kind of banked like like you

747

00:30:25,730 --> 00:30:24,899

would see an airplane Bank off to the

748

00:30:27,529 --> 00:30:25,740

left

749

00:30:30,850 --> 00:30:27,539

and it went in this direction until we

750

00:30:33,289 --> 00:30:30,860

got to about a curved path you mean yes

751
00:30:35,870 --> 00:30:33,299
did the object change shape as a curve

752
00:30:37,909 --> 00:30:35,880
like that uh yeah it uh I don't know

753
00:30:40,630 --> 00:30:37,919
seemed to kind of flatten out a little

754
00:30:44,269 --> 00:30:40,640
as it was going away from item I'd say

755
00:30:46,310 --> 00:30:44,279
accelerating uh it kind of flattened out

756
00:30:48,590 --> 00:30:46,320
now it uh

757
00:30:50,830 --> 00:30:48,600
stayed there on this bank until we got

758
00:30:54,590 --> 00:30:50,840
to approximately uh

759
00:30:56,269 --> 00:30:54,600
Canton Road then it seemed to go back in

760
00:30:58,430 --> 00:30:56,279
the easterly direction

761
00:31:01,370 --> 00:30:58,440
now stayed in this direction until we

762
00:31:04,190 --> 00:31:01,380
got almost to mogador on Albrecht Avenue

763
00:31:06,830 --> 00:31:04,200

and it went out of sight

764

00:31:08,210 --> 00:31:06,840

how well it just kept getting smaller

765

00:31:10,310 --> 00:31:08,220

and smaller and smaller until it got out

766

00:31:11,570 --> 00:31:10,320

of sight just in distance right it

767

00:31:13,130 --> 00:31:11,580

didn't get lost in any clouds or

768

00:31:16,789 --> 00:31:13,140

anything like that no we could see it

769

00:31:18,289 --> 00:31:16,799

until it went out of sight uh and then a

770

00:31:20,149 --> 00:31:18,299

few seconds later it came back into

771

00:31:22,730 --> 00:31:20,159

sight and I told my buddy I said it's

772

00:31:25,370 --> 00:31:22,740

coming back down did it get larger he

773

00:31:27,830 --> 00:31:25,380

has to come yeah it got me larger but it

774

00:31:29,450 --> 00:31:27,840

didn't come down you know as far as it

775

00:31:33,350 --> 00:31:29,460

was at first you know it just came down

776
00:31:35,330 --> 00:31:33,360
for maybe like uh uh three seconds that

777
00:31:37,730 --> 00:31:35,340
we could see it at this time seemed to

778
00:31:39,230 --> 00:31:37,740
be returning towards you yes and then it

779
00:31:40,850 --> 00:31:39,240
took off again

780
00:31:42,289 --> 00:31:40,860
and disappeared you know kept getting

781
00:31:43,970 --> 00:31:42,299
smaller smaller and it took off again

782
00:31:45,110 --> 00:31:43,980
and then we didn't see it anymore it

783
00:31:46,310 --> 00:31:45,120
appeared to you that was disappearing

784
00:31:47,450 --> 00:31:46,320
just like any other object like an

785
00:31:48,529 --> 00:31:47,460
airplane or something like that in the

786
00:31:50,269 --> 00:31:48,539
distance so you just watching an

787
00:31:52,370 --> 00:31:50,279
airplane go away from me with a light in

788
00:31:54,529 --> 00:31:52,380

the back or something like that and uh

789

00:31:55,730 --> 00:31:54,539

at this at this time the color of it was

790

00:31:59,750 --> 00:31:55,740

uh

791

00:32:01,610 --> 00:31:59,760

seen it at first what was the color at

792

00:32:04,250 --> 00:32:01,620

first well I don't know a kind of a

793

00:32:06,590 --> 00:32:04,260

silver gray maybe oh is it first no it

794

00:32:07,909 --> 00:32:06,600

was a yellowish orange color but then as

795

00:32:09,710 --> 00:32:07,919

it kept getting what you know going

796

00:32:12,049 --> 00:32:09,720

faster it seemed like it changed this

797

00:32:13,490 --> 00:32:12,059

color to uh all kind of a whitish colors

798

00:32:15,529 --> 00:32:13,500

silver gray maybe what about when it

799

00:32:18,230 --> 00:32:15,539

went into this curving turn yeah that's

800

00:32:20,389 --> 00:32:18,240

when it started changing color and shape

801
00:32:22,370 --> 00:32:20,399
like you know it kind of flattened out

802
00:32:24,649 --> 00:32:22,380
well maybe uh maybe it's much like if

803
00:32:26,389 --> 00:32:24,659
you look at a quarter hit on and then

804
00:32:27,769 --> 00:32:26,399
you make the quarter uh flatten out a

805
00:32:29,930 --> 00:32:27,779
bit now if you took that quarter head on

806
00:32:31,310 --> 00:32:29,940
like that and then the minute you you uh

807
00:32:32,570 --> 00:32:31,320
you sort of flipped it like that you

808
00:32:34,430 --> 00:32:32,580
couldn't see the whole thing now you see

809
00:32:37,430 --> 00:32:34,440
it as an oval shape right something of

810
00:32:39,649 --> 00:32:37,440
that nature yes yes

811
00:32:41,029 --> 00:32:39,659
you didn't hear a sound at all you see

812
00:32:42,710 --> 00:32:41,039
any Sparks on any smoke or anything like

813
00:32:44,870 --> 00:32:42,720

that coming from around and see no

814

00:32:46,730 --> 00:32:44,880

lights there's no body or anything it

815

00:32:50,090 --> 00:32:46,740

was standing still at one time when we

816

00:32:51,409 --> 00:32:50,100

first seen it yes yes and uh did uh what

817

00:32:53,029 --> 00:32:51,419

kind of speed was it making when it was

818

00:32:54,590 --> 00:32:53,039

moving away what do you think

819

00:32:56,330 --> 00:32:54,600

just compared to an airplane that's the

820

00:32:57,889 --> 00:32:56,340

only thing you can compare it with well

821

00:32:59,510 --> 00:32:57,899

when it was going away from us it was

822

00:33:02,029 --> 00:32:59,520

going a lot faster even any airplane

823

00:33:04,490 --> 00:33:02,039

could go I think it was I I believe

824

00:33:06,470 --> 00:33:04,500

because uh considering the length of

825

00:33:08,690 --> 00:33:06,480

time that we've seen it for this object

826
00:33:10,669 --> 00:33:08,700
to disappear from the size it was when

827
00:33:12,529 --> 00:33:10,679
we first seen it for it to go clear out

828
00:33:14,090 --> 00:33:12,539
of sight enough to be able to watch it

829
00:33:15,710 --> 00:33:14,100
go out of sight how long did you think

830
00:33:18,230 --> 00:33:15,720
it took to go out of sight

831
00:33:21,590 --> 00:33:18,240
could you just estimate that time

832
00:33:23,210 --> 00:33:21,600
maybe a minute and a half minutes what

833
00:33:24,889 --> 00:33:23,220
was your altitude estimate

834
00:33:26,450 --> 00:33:24,899
when we first seen it when you first

835
00:33:28,430 --> 00:33:26,460
seen it then when it went outside yes

836
00:33:31,310 --> 00:33:28,440
well when we first seen it it was awful

837
00:33:34,190 --> 00:33:31,320
though I would say maybe uh

838
00:33:35,570 --> 00:33:34,200

100 200 feet off the ground when we it

839

00:33:36,889 --> 00:33:35,580

looked like when we first seen it you

840

00:33:39,769 --> 00:33:36,899

know it's hard to tell

841

00:33:41,509 --> 00:33:39,779

uh and the altitude when we lost it I

842

00:33:43,070 --> 00:33:41,519

have no idea what it was because it just

843

00:33:45,950 --> 00:33:43,080

kept going up and going farther farther

844

00:33:47,570 --> 00:33:45,960

away it actually it actually raised in

845

00:33:49,310 --> 00:33:47,580

its elevation as it went away as it's

846

00:33:52,250 --> 00:33:49,320

going away yes it was gone usually if

847

00:33:53,509 --> 00:33:52,260

it's flying a level course uh it would

848

00:33:54,710 --> 00:33:53,519

drop a little bit of time as it went

849

00:33:56,570 --> 00:33:54,720

toward the Horizon but in this case you

850

00:33:58,130 --> 00:33:56,580

say it was just right it was Rising so

851

00:34:00,230 --> 00:33:58,140

then it was actually on the rise as it

852

00:34:02,029 --> 00:34:00,240

went out yes when we first saw this when

853

00:34:04,009 --> 00:34:02,039

there's any uh landmarks or objects to

854

00:34:07,250 --> 00:34:04,019

kind of give me the height comparison

855

00:34:09,770 --> 00:34:07,260

well yes the church there now we could

856

00:34:11,690 --> 00:34:09,780

see this object above the church

857

00:34:13,190 --> 00:34:11,700

see and there's there's trees there and

858

00:34:14,750 --> 00:34:13,200

you can see it through the trees on the

859

00:34:17,210 --> 00:34:14,760

sides of the church

860

00:34:19,310 --> 00:34:17,220

now whether it was on the ground or off

861

00:34:21,050 --> 00:34:19,320

the ground we don't know you know I

862

00:34:23,690 --> 00:34:21,060

couldn't tell on the ground on the

863

00:34:26,690 --> 00:34:23,700

ground well whether it landed or oh see

864

00:34:29,270 --> 00:34:26,700

I'm talking about but how close it was

865

00:34:30,470 --> 00:34:29,280

down actually I don't know how's the

866

00:34:32,510 --> 00:34:30,480

conference size when you look at the

867

00:34:35,030 --> 00:34:32,520

church and it well it was as big as a

868

00:34:37,190 --> 00:34:35,040

church or bigger and that's quite it has

869

00:34:39,109 --> 00:34:37,200

quite a harvest moon I know this was no

870

00:34:41,690 --> 00:34:39,119

moon because we seen the moon up there I

871

00:34:43,010 --> 00:34:41,700

pointed to them was there anything at

872

00:34:45,409 --> 00:34:43,020

all that you could see I mean was there

873

00:34:46,790 --> 00:34:45,419

any detail at all outside of a uh what

874

00:34:48,470 --> 00:34:46,800

was the shape of the object I mean not

875

00:34:50,570 --> 00:34:48,480

the yeah the general shape was round you

876

00:34:53,149 --> 00:34:50,580

say the bottom of it was round and it

877

00:34:55,310 --> 00:34:53,159

was uh flat on the top you know is that

878

00:34:57,050 --> 00:34:55,320

right and uh there was nothing to cut it

879

00:34:58,430 --> 00:34:57,060

off no clouds to cut it off like that no

880

00:35:00,410 --> 00:34:58,440

no there was nothing to cut it off like

881

00:35:01,490 --> 00:35:00,420

that no it had a form to it this had a

882

00:35:03,890 --> 00:35:01,500

farm didn't have anything sticking out

883

00:35:05,630 --> 00:35:03,900

like antennas I didn't see any no what

884

00:35:07,250 --> 00:35:05,640

about this what about the uh the surface

885

00:35:10,730 --> 00:35:07,260

of this object did it have anything that

886

00:35:14,150 --> 00:35:10,740

met your eye that was strange well uh

887

00:35:16,670 --> 00:35:14,160

other than being a strange hobby to uh

888

00:35:19,069 --> 00:35:16,680

it wasn't real smooth surface you know

889

00:35:20,810 --> 00:35:19,079

what I mean it had uh I don't know if

890

00:35:22,250 --> 00:35:20,820

you'd call it waves or what you would

891

00:35:24,410 --> 00:35:22,260

call it but it wasn't a were they

892

00:35:26,569 --> 00:35:24,420

geometrically placed all the way yes it

893

00:35:27,589 --> 00:35:26,579

looked uh you know like uh well they

894

00:35:29,270 --> 00:35:27,599

weren't actually what I don't know if

895

00:35:32,230 --> 00:35:29,280

you call them Squares or not

896

00:35:34,849 --> 00:35:32,240

uh it's kind of hard to describe it

897

00:35:36,950 --> 00:35:34,859

but it wasn't a smooth surface you know

898

00:35:38,329 --> 00:35:36,960

what uh when you get some time sit down

899

00:35:39,650 --> 00:35:38,339

with a piece of paper and do the best

900

00:35:41,569 --> 00:35:39,660

you can on these you keep drawing until

901
00:35:43,490 --> 00:35:41,579
you get what you think is right we'd

902
00:35:44,930 --> 00:35:43,500
like to see what you come up with all

903
00:35:46,550 --> 00:35:44,940
right uh I don't know whether we should

904
00:35:48,589 --> 00:35:46,560
join what we have or not until we get

905
00:35:50,030 --> 00:35:48,599
the uh we get his drawing but we do have

906
00:35:51,290 --> 00:35:50,040
something here that might compare with

907
00:35:53,390 --> 00:35:51,300
what you saw

908
00:35:55,790 --> 00:35:53,400
but it wasn't a smooth surface there was

909
00:35:57,290 --> 00:35:55,800
I I don't know if it was a design on the

910
00:35:59,270 --> 00:35:57,300
on this thing or what it was but it

911
00:36:01,030 --> 00:35:59,280
wasn't a smooth surface you saw no no

912
00:36:03,470 --> 00:36:01,040
other lights with it you know another

913
00:36:05,329 --> 00:36:03,480

lights which are of a different color or

914

00:36:07,550 --> 00:36:05,339

even with more with more Brilliance no

915

00:36:09,050 --> 00:36:07,560

nothing rotating it didn't seem to be

916

00:36:12,050 --> 00:36:09,060

rotating at all

917

00:36:13,310 --> 00:36:12,060

right now was it was it banking this way

918

00:36:15,170 --> 00:36:13,320

now let's say French you got the flat

919

00:36:17,870 --> 00:36:15,180

top and you got the rounded bottom there

920

00:36:19,849 --> 00:36:17,880

was it uh yawing back and forth no not

921

00:36:21,950 --> 00:36:19,859

that I was completely level even in all

922

00:36:23,630 --> 00:36:21,960

flight yes and well until it started

923

00:36:25,190 --> 00:36:23,640

banking off like this here but it wasn't

924

00:36:27,290 --> 00:36:25,200

moving this way no not that we could

925

00:36:29,390 --> 00:36:27,300

tell no this is what I call a wobble you

926
00:36:32,150 --> 00:36:29,400
know did you see any kind of smoke or

927
00:36:34,370 --> 00:36:32,160
any kind of uh of an hour or Corona or

928
00:36:35,750 --> 00:36:34,380
effect around it did you see the

929
00:36:37,790 --> 00:36:35,760
atmosphere around it was just it was

930
00:36:40,190 --> 00:36:37,800
just clear-cutting the atmosphere yeah I

931
00:36:42,410 --> 00:36:40,200
mean it wasn't faded out you know what I

932
00:36:43,790 --> 00:36:42,420
mean like say you would see smoke in the

933
00:36:45,710 --> 00:36:43,800
sky at night how to kind of Fade Out

934
00:36:47,270 --> 00:36:45,720
this was not like it didn't give off any

935
00:36:48,530 --> 00:36:47,280
any other light though or let's say for

936
00:36:50,390 --> 00:36:48,540
instance do you see the clear-cut area

937
00:36:52,490 --> 00:36:50,400
did it give off any light let's say

938
00:36:53,750 --> 00:36:52,500

sometimes it gives off a a certain

939

00:36:55,310 --> 00:36:53,760

amount of light all the way around

940

00:36:58,089 --> 00:36:55,320

perfectly I mean like you see it around

941

00:37:01,730 --> 00:36:58,099

the Moon yeah sometimes yes

942

00:37:02,990 --> 00:37:01,740

hmm no change of brightness except when

943

00:37:05,089 --> 00:37:03,000

it changed it when it started to move

944

00:37:06,410 --> 00:37:05,099

that's the only time when we seen it

945

00:37:08,329 --> 00:37:06,420

when it first started to go away from us

946

00:37:09,710 --> 00:37:08,339

it was the same color you know it did

947

00:37:11,690 --> 00:37:09,720

change shape only because you thought

948

00:37:14,930 --> 00:37:11,700

there was a possibility that it was that

949

00:37:16,670 --> 00:37:14,940

it was uh changing its position well you

950

00:37:17,870 --> 00:37:16,680

don't know for sure I don't know why it

951
00:37:23,810 --> 00:37:17,880
changed the shape but it looked like it

952
00:37:25,609 --> 00:37:23,820
did uh leaving all right now let's see

953
00:37:27,050 --> 00:37:25,619
uh when you look through the windshield

954
00:37:28,730 --> 00:37:27,060
what part of the windshield did you look

955
00:37:30,290 --> 00:37:28,740
through I mean was it as a middle of the

956
00:37:31,430 --> 00:37:30,300
windshield the upper part of the

957
00:37:32,390 --> 00:37:31,440
windshield yeah it was through the

958
00:37:34,810 --> 00:37:32,400
middle of the windshield we didn't have

959
00:37:36,890 --> 00:37:34,820
to look up we didn't no

960
00:37:38,630 --> 00:37:36,900
pretty much the metal first scene it

961
00:37:41,450 --> 00:37:38,640
seems to be a pretty low angle right

962
00:37:45,170 --> 00:37:41,460
okay and uh your comparison of course

963
00:37:46,670 --> 00:37:45,180

you gave it at uh as because the church

964

00:37:47,690 --> 00:37:46,680

if not larger that was right next to

965

00:37:49,250 --> 00:37:47,700

right

966

00:37:50,450 --> 00:37:49,260

well it's pretty hard to tell unless we

967

00:37:51,650 --> 00:37:50,460

know exactly how far away it was

968

00:37:53,690 --> 00:37:51,660

somebody on that side should have seen

969

00:37:55,790 --> 00:37:53,700

it that's what we need somebody east of

970

00:37:57,170 --> 00:37:55,800

you and Beyond and should have seen it

971

00:37:58,609 --> 00:37:57,180

and then we could forget a pretty good

972

00:37:59,990 --> 00:37:58,619

idea you know we're just exactly where

973

00:38:01,609 --> 00:38:00,000

it was as far as distance is concerned

974

00:38:04,550 --> 00:38:01,619

well I understand this patrolman did see

975

00:38:06,609 --> 00:38:04,560

it he was on east of us when he seen it

976

00:38:09,730 --> 00:38:06,619

he was he was the woman

977

00:38:11,810 --> 00:38:09,740

well he was in sawyerwood yeah

978

00:38:13,069 --> 00:38:11,820

still would give us an idea you see

979

00:38:15,290 --> 00:38:13,079

because we could cross those two lines

980

00:38:17,030 --> 00:38:15,300

he was on Route 224 and we were on

981

00:38:19,730 --> 00:38:17,040

tripler Boulevard and they run parallel

982

00:38:21,589 --> 00:38:19,740

approximately a mile apart yeah let me

983

00:38:23,569 --> 00:38:21,599

ask another question here what about the

984

00:38:25,310 --> 00:38:23,579

uh

985

00:38:26,569 --> 00:38:25,320

it just happened to be there he just

986

00:38:28,730 --> 00:38:26,579

looked and there was as you were driving

987

00:38:30,290 --> 00:38:28,740

down the road yeah we didn't see it come

988

00:38:32,329 --> 00:38:30,300

down or anything we didn't see nothing

989

00:38:33,589 --> 00:38:32,339

until is there a riser or something

990

00:38:35,630 --> 00:38:33,599

there's a little bit of a rise where you

991

00:38:37,670 --> 00:38:35,640

come up over and level off the wire kind

992

00:38:39,829 --> 00:38:37,680

of goes up the hill there yeah but it

993

00:38:41,210 --> 00:38:39,839

goes up a hill and it makes a curve and

994

00:38:42,770 --> 00:38:41,220

then starts down the hill when we get on

995

00:38:44,990 --> 00:38:42,780

top at the curve there is where we see

996

00:38:46,490 --> 00:38:45,000

it right okay

997

00:38:47,990 --> 00:38:46,500

uh did you see any airplanes around

998

00:38:49,730 --> 00:38:48,000

during the time that you were watching

999

00:38:51,589 --> 00:38:49,740

this thing or just before or just after

1000

00:38:52,790 --> 00:38:51,599

no I didn't

1001

00:38:55,970 --> 00:38:52,800

oh

1002

00:38:57,950 --> 00:38:55,980

and uh what other person was with you uh

1003

00:38:59,930 --> 00:38:57,960

my partner Gary Yost uh-huh and do you

1004

00:39:01,550 --> 00:38:59,940

know the name of the patrolman no I

1005

00:39:03,790 --> 00:39:01,560

don't I couldn't tell you that I don't

1006

00:39:08,329 --> 00:39:03,800

know did we find out Chuck

1007

00:39:10,550 --> 00:39:08,339

okay look I didn't I don't know

1008

00:39:12,290 --> 00:39:10,560

let's see now

1009

00:39:13,609 --> 00:39:12,300

did anybody else talk to you let's say

1010

00:39:16,190 --> 00:39:13,619

for instance of an official nature like

1011

00:39:17,450 --> 00:39:16,200

the military like the Air Force like the

1012

00:39:20,450 --> 00:39:17,460

sheriffs

1013

00:39:22,310 --> 00:39:20,460

no nobody's talked to me but uh you just

1014

00:39:23,510 --> 00:39:22,320

it's just us that's all nobody else but

1015

00:39:26,030 --> 00:39:23,520

somebody else has talked to you on the

1016

00:39:28,730 --> 00:39:26,040

phone oh yeah it's just about 20 minutes

1017

00:39:31,930 --> 00:39:28,740

ago Mr Popovich George Popovich okay the

1018

00:39:34,550 --> 00:39:31,940

uforc and uh

1019

00:39:36,890 --> 00:39:34,560

you didn't have a camera with you no we

1020

00:39:38,329 --> 00:39:36,900

didn't I wish we would oh boy you know

1021

00:39:41,210 --> 00:39:38,339

it's amazing to me because almost all

1022

00:39:42,650 --> 00:39:41,220

police uh cars are lacking a camera I

1023

00:39:44,870 --> 00:39:42,660

think that there should be uh some kind

1024

00:39:46,490 --> 00:39:44,880

of a Polaroid or something in there that

1025

00:39:48,950 --> 00:39:46,500

you guys could take a picture of our

1026

00:39:51,589 --> 00:39:48,960

traffic cars our cameras our cruise yeah

1027

00:39:54,349 --> 00:39:51,599

well they all should have one do you

1028

00:39:56,210 --> 00:39:54,359

people have a log down at the uh done at

1029

00:39:58,190 --> 00:39:56,220

your police station on UFOs that come in

1030

00:39:59,450 --> 00:39:58,200

do they put them on the log we were told

1031

00:40:01,370 --> 00:39:59,460

they don't

1032

00:40:04,190 --> 00:40:01,380

whether they do or not I that I don't

1033

00:40:05,750 --> 00:40:04,200

know now we uh radioed in that we

1034

00:40:07,190 --> 00:40:05,760

spotted it seems kind of funny to me

1035

00:40:08,930 --> 00:40:07,200

that they they wouldn't put on the

1036

00:40:10,730 --> 00:40:08,940

record now whether they do or not I

1037

00:40:12,950 --> 00:40:10,740

couldn't tell you

1038

00:40:14,569 --> 00:40:12,960

is there any possibility that you uh you

1039

00:40:17,270 --> 00:40:14,579

have anything against use of your name

1040

00:40:18,950 --> 00:40:17,280

for particular purpose like mitching on

1041

00:40:21,170 --> 00:40:18,960

a radio or in a newspaper or something I

1042

00:40:24,530 --> 00:40:21,180

mean on our little pamphlet that we send

1043

00:40:27,849 --> 00:40:24,540

out it's okay yeah we thank you for that

1044

00:40:31,910 --> 00:40:27,859

now is there any other question Larry

1045

00:40:32,930 --> 00:40:31,920

have you seen other objects before have

1046

00:40:35,450 --> 00:40:32,940

you ever seen something like this before

1047

00:40:38,450 --> 00:40:35,460

well uh I don't know if I'll see you

1048

00:40:40,130 --> 00:40:38,460

before yeah we've seen a uh going across

1049

00:40:41,329 --> 00:40:40,140

the sky one night but what it was I

1050

00:40:43,310 --> 00:40:41,339

don't know it was too far away we

1051
00:40:44,569 --> 00:40:43,320
couldn't tell what it was but we watched

1052
00:40:46,670 --> 00:40:44,579
it but it was nothing like this here

1053
00:40:48,250 --> 00:40:46,680
this is it wasn't April 17th in the

1054
00:40:50,810 --> 00:40:48,260
morning was it

1055
00:40:52,970 --> 00:40:50,820
when was it geez I don't know when it

1056
00:40:54,530 --> 00:40:52,980
was you know I couldn't tell you I know

1057
00:40:55,550 --> 00:40:54,540
it was in the summertime did I don't

1058
00:40:57,770 --> 00:40:55,560
know did he tell you about it no you

1059
00:41:00,170 --> 00:40:57,780
didn't let's see well but it was so far

1060
00:41:02,450 --> 00:41:00,180
away but we couldn't tell what it was

1061
00:41:03,650 --> 00:41:02,460
but it was nothing like this here it was

1062
00:41:06,050 --> 00:41:03,660
just a white

1063
00:41:07,609 --> 00:41:06,060

uh going across could have been a

1064

00:41:08,569 --> 00:41:07,619

satellite too could have been yeah now

1065

00:41:10,069 --> 00:41:08,579

let me ask you a question about this

1066

00:41:12,109 --> 00:41:10,079

surface because this is important to us

1067

00:41:13,250 --> 00:41:12,119

uh was there a scintillation you know

1068

00:41:14,329 --> 00:41:13,260

what a scintillation is you know you

1069

00:41:15,829 --> 00:41:14,339

take for instance if you look at a

1070

00:41:18,470 --> 00:41:15,839

diamond or something or something with

1071

00:41:20,210 --> 00:41:18,480

many little particles of very shiny

1072

00:41:22,370 --> 00:41:20,220

materials that continually give off

1073

00:41:25,430 --> 00:41:22,380

little bits of light all the time did it

1074

00:41:27,890 --> 00:41:25,440

look like it like that at all no uh well

1075

00:41:30,470 --> 00:41:27,900

no it looked more like a

1076

00:41:31,430 --> 00:41:30,480

well I don't know what he described as a

1077

00:41:33,410 --> 00:41:31,440

waffle

1078

00:41:35,450 --> 00:41:33,420

I finish on it you know what I mean a

1079

00:41:37,130 --> 00:41:35,460

waffle finish right you know how a

1080

00:41:38,210 --> 00:41:37,140

waffle a little chicken yeah yeah well

1081

00:41:40,270 --> 00:41:38,220

that's what it looked like it wasn't

1082

00:41:43,250 --> 00:41:40,280

smooth

1083

00:41:44,990 --> 00:41:43,260

but I didn't give off this business like

1084

00:41:46,849 --> 00:41:45,000

like different surfaces of light no

1085

00:41:49,430 --> 00:41:46,859

giving off color so that they maybe the

1086

00:41:50,870 --> 00:41:49,440

color one moment was uh let's say a tiny

1087

00:41:52,970 --> 00:41:50,880

bit of green a tiny bit of red a tiny

1088

00:41:55,970 --> 00:41:52,980

bit of white tiny bit of nothing like

1089

00:41:57,530 --> 00:41:55,980

that no and it was not one time that you

1090

00:41:59,990 --> 00:41:57,540

saw any light go away from the object

1091

00:42:02,510 --> 00:42:00,000

into the atmosphere around it you know

1092

00:42:03,650 --> 00:42:02,520

no I didn't no no what was it Brilliance

1093

00:42:05,210 --> 00:42:03,660

what would you compare the Brilliance to

1094

00:42:06,530 --> 00:42:05,220

I mean how brilliant was it compared to

1095

00:42:16,490 --> 00:42:06,540

the Moon let's say

1096

00:42:20,990 --> 00:42:18,589

well other than being a different color

1097

00:42:22,310 --> 00:42:21,000

it was bright but it was a different

1098

00:42:25,430 --> 00:42:22,320

color than auto headlights you know what

1099

00:42:26,870 --> 00:42:25,440

I mean but it was bright I mean have you

1100

00:42:28,849 --> 00:42:26,880

seen uh have you seen let's say France

1101
00:42:30,950 --> 00:42:28,859
as a landing light in an airplane coming

1102
00:42:33,770 --> 00:42:30,960
towards you oh I've seen that yeah we

1103
00:42:35,630 --> 00:42:33,780
see that out there directly at it oh yes

1104
00:42:37,130 --> 00:42:35,640
you could look at it as bright as the

1105
00:42:38,810 --> 00:42:37,140
sun would be if you no I mean you we

1106
00:42:40,250 --> 00:42:38,820
looked at it we never took our eyes off

1107
00:42:42,950 --> 00:42:40,260
of them it didn't hurt your eyes anyway

1108
00:42:45,950 --> 00:42:42,960
no did they have any no no no watering

1109
00:42:50,150 --> 00:42:45,960
of the eyes at the moment from strain no

1110
00:42:55,370 --> 00:42:52,670
you notice anywhere

1111
00:42:57,530 --> 00:42:55,380
is there any way that night no not not

1112
00:43:01,309 --> 00:42:57,540
to amount to anything that is it cold or

1113
00:43:02,870 --> 00:43:01,319

warm it was cold it was cold

1114

00:43:05,089 --> 00:43:02,880

see I did miss some of these things yeah

1115

00:43:07,370 --> 00:43:05,099

I didn't follow the thing all the way

1116

00:43:08,990 --> 00:43:07,380

we got the elevation the size apparently

1117

00:43:10,430 --> 00:43:09,000

we're going to compare it with a with a

1118

00:43:12,410 --> 00:43:10,440

with a church so there's no use to

1119

00:43:14,510 --> 00:43:12,420

having anything else to compare it with

1120

00:43:17,150 --> 00:43:14,520

and he did say that it Rose while it was

1121

00:43:19,970 --> 00:43:17,160

in motion it didn't it never did

1122

00:43:21,890 --> 00:43:19,980

anything erratic it never it never moved

1123

00:43:24,410 --> 00:43:21,900

along like this or or let's say for

1124

00:43:26,390 --> 00:43:24,420

instance it's uh sort of a like a wild

1125

00:43:28,910 --> 00:43:26,400

canary or something like that it uh what

1126
00:43:30,950 --> 00:43:28,920
you might say was on a steady course it

1127
00:43:32,630 --> 00:43:30,960
didn't up and down or if it rolls it

1128
00:43:34,849 --> 00:43:32,640
rolls steadily right and if it came

1129
00:43:36,829 --> 00:43:34,859
towards you it came towards you right it

1130
00:43:38,569 --> 00:43:36,839
never seemed to have any any deviation

1131
00:43:40,970 --> 00:43:38,579
right or left as it came towards you or

1132
00:43:42,829 --> 00:43:40,980
went away no it didn't no other than

1133
00:43:44,809 --> 00:43:42,839
when it banked off what I would call

1134
00:43:47,270 --> 00:43:44,819
banked off kind of to the left

1135
00:43:49,670 --> 00:43:47,280
you know or to the uh North it would

1136
00:43:51,890 --> 00:43:49,680
have been was it was it a helicopter

1137
00:43:53,630 --> 00:43:51,900
was it a helicopter no it was an

1138
00:43:55,849 --> 00:43:53,640

airplane no it wouldn't work do you

1139

00:43:57,170 --> 00:43:55,859

think it was a blimp no it was no blend

1140

00:43:59,450 --> 00:43:57,180

do you think it was any kind of an

1141

00:44:01,010 --> 00:43:59,460

aircraft you ever saw no I've never seen

1142

00:44:03,849 --> 00:44:01,020

anything like it what'd you think you

1143

00:44:06,170 --> 00:44:03,859

saw I don't know what it was

1144

00:44:07,490 --> 00:44:06,180

I think this about concludes our little

1145

00:44:08,990 --> 00:44:07,500

interview here I don't think I have

1146

00:44:10,730 --> 00:44:09,000

anything else to ask

1147

00:44:12,589 --> 00:44:10,740

and uh

1148

00:44:14,630 --> 00:44:12,599

how do you spell your last name your

1149

00:44:16,210 --> 00:44:14,640

first name John and your last name I

1150

00:44:18,410 --> 00:44:16,220

mean

1151

00:44:20,870 --> 00:44:18,420

well thanks Mr Pickett for your

1152

00:44:23,210 --> 00:44:20,880

hospitality and the interview and this

1153

00:44:24,710 --> 00:44:23,220

is Mark and do so Larry Moyers and Chuck
