

1
00:00:04,430 --> 00:00:02,270
so what was it about the lights that

2
00:00:06,530 --> 00:00:04,440
prompted you to focus on them a little

3
00:00:08,509 --> 00:00:06,540
bit more than you would do say

4
00:00:10,549 --> 00:00:08,519
where it were an aircraft

5
00:00:11,930 --> 00:00:10,559
I've said three things really basically

6
00:00:14,990 --> 00:00:11,940
it was a brightness of the lights

7
00:00:16,189 --> 00:00:15,000
Landing lights have rays which like a

8
00:00:18,710 --> 00:00:16,199
car like you can see them pointing

9
00:00:21,590 --> 00:00:18,720
forward there's no race just two bright

10
00:00:23,269 --> 00:00:21,600
lights they were close together

11
00:00:25,970 --> 00:00:23,279
which again to me ruled out military

12
00:00:27,769 --> 00:00:25,980
aircraft because military aircraft from

13
00:00:31,009 --> 00:00:27,779

my experience do not fly information at

14

00:00:32,630 --> 00:00:31,019

night time for safety reasons and

15

00:00:34,610 --> 00:00:32,640

secondly the light was staggered they

16

00:00:37,010 --> 00:00:34,620

weren't parallel they had to run above

17

00:00:40,369 --> 00:00:37,020

the other close together which would

18

00:00:42,229 --> 00:00:40,379

indicate to me to craft flying very

19

00:00:44,569 --> 00:00:42,239

close together do you do either of you

20

00:00:47,389 --> 00:00:44,579

hear any noise at all none whatsoever

21

00:00:49,010 --> 00:00:47,399

and I've got quite sure up hearing now

22

00:00:50,930 --> 00:00:49,020

the reason for that is I think if they

23

00:00:52,670 --> 00:00:50,940

were making a humming noise we have a

24

00:00:54,830 --> 00:00:52,680

Motorway just on the top of the hill

25

00:00:56,209 --> 00:00:54,840

which is a constant humming noise and

26

00:00:57,650 --> 00:00:56,219

that time of night of course there's a

27

00:00:59,630 --> 00:00:57,660

lot of traffic around we have the

28

00:01:01,610 --> 00:00:59,640

Bradford road down here too so it's nice

29

00:01:03,889 --> 00:01:01,620

from both directions that may have

30

00:01:05,630 --> 00:01:03,899

eliminated any noise that was there

31

00:01:07,850 --> 00:01:05,640

now you mentioned that the flight of

32

00:01:09,590 --> 00:01:07,860

these lights were staggered they had

33

00:01:11,330 --> 00:01:09,600

this intensity about them without giving

34

00:01:13,310 --> 00:01:11,340

off a beam was there any other curious

35

00:01:14,230 --> 00:01:13,320

feature that distinguished them from say

36

00:01:16,130 --> 00:01:14,240

normal aircraft

37

00:01:18,770 --> 00:01:16,140

[Music]

38

00:01:20,990 --> 00:01:18,780

the thing that impressed us most I

39

00:01:22,429 --> 00:01:21,000

thought it was so intensely dark has no

40

00:01:24,230 --> 00:01:22,439

Reflection from them there's no

41

00:01:26,330 --> 00:01:24,240

possibility of getting it at a shape

42

00:01:28,670 --> 00:01:26,340

distinction but I definitely think

43

00:01:30,350 --> 00:01:28,680

there's toe craft it was a strange one

44

00:01:32,149 --> 00:01:30,360

uh mainly because it was such a clear

45

00:01:34,850 --> 00:01:32,159

evening there was no clouds in the sky

46

00:01:36,890 --> 00:01:34,860

at all uh there's quite obviously quite

47

00:01:39,710 --> 00:01:36,900

a few planes that travel over here but

48

00:01:42,050 --> 00:01:39,720

they were just a very slow moving they

49

00:01:44,149 --> 00:01:42,060

were they were they didn't move around

50

00:01:46,310 --> 00:01:44,159

at all they stuck together all the time

51
00:01:48,649 --> 00:01:46,320
and it was just so strange watching the

52
00:01:50,630 --> 00:01:48,659
mouse slow they were moving across it

53
00:01:51,770 --> 00:01:50,640
was as if they weren't moving if you

54
00:01:54,170 --> 00:01:51,780
know what I mean it was just satellite

55
00:01:56,270 --> 00:01:54,180
traveling so slowly and they just never

56
00:01:58,550 --> 00:01:56,280
fluctuated away from each other they

57
00:02:01,490 --> 00:01:58,560
always stayed tight that you know the

58
00:02:03,590 --> 00:02:01,500
same distance apart and and just were

59
00:02:05,330 --> 00:02:03,600
just moving and it was quite uh weird

60
00:02:08,330 --> 00:02:05,340
just watching them really you could tell

61
00:02:10,910 --> 00:02:08,340
they weren't aircraft lights as what I

62
00:02:12,589 --> 00:02:10,920
know anyway I'm not very good at telling

63
00:02:14,150 --> 00:02:12,599

the distance or anything like that but I

64

00:02:16,369 --> 00:02:14,160

would say they were quite lowered down

65

00:02:18,229 --> 00:02:16,379

but they were certainly behind hours

66

00:02:20,270 --> 00:02:18,239

they weren't directly above because I

67

00:02:22,070 --> 00:02:20,280

could still see them as I was traveling

68

00:02:24,530 --> 00:02:22,080

up while I was training behind rather

69

00:02:25,670 --> 00:02:24,540

than looking straight backwards if you

70

00:02:27,410 --> 00:02:25,680

know I mean I wasn't sort of like

71

00:02:29,510 --> 00:02:27,420

looking just straight at the side I was

72

00:02:30,650 --> 00:02:29,520

having to turn that back and see them

73

00:02:32,630 --> 00:02:30,660

and then it was just as if they

74

00:02:35,089 --> 00:02:32,640

disappeared they did I didn't see them

75

00:02:38,449 --> 00:02:35,099

move away and I didn't see them sort of

76

00:02:40,190 --> 00:02:38,459

like uh just you know disappear they

77

00:02:41,869 --> 00:02:40,200

actually just moved away and then I

78

00:02:45,229 --> 00:02:41,879

think it must have been that the my

79

00:02:46,490 --> 00:02:45,239

recycling was gone then really I had a

80

00:02:48,229 --> 00:02:46,500

look when I got right to the top of

81

00:02:50,089 --> 00:02:48,239

chair well because you see quite a good

82

00:02:52,970 --> 00:02:50,099

distance across and I didn't see

83

00:02:54,710 --> 00:02:52,980

anything after that but you're fairly

84

00:02:56,330 --> 00:02:54,720

convinced that they weren't your

85

00:02:59,710 --> 00:02:56,340

standard lights attached to an aircraft

86

00:03:02,030 --> 00:02:59,720

oh definitely I would I would say quite

87

00:03:04,309 --> 00:03:02,040

99.9 certain they weren't actually

88

00:03:06,470 --> 00:03:04,319

lights attached to a normal everyday

89

00:03:08,390 --> 00:03:06,480

craft certainly not we were coming home

90

00:03:10,250 --> 00:03:08,400

from the vets

91

00:03:13,250 --> 00:03:10,260

it must have been about his appointment

92

00:03:15,470 --> 00:03:13,260

was 5 30 so it must have been about five

93

00:03:17,990 --> 00:03:15,480

forty five forty five

94

00:03:21,589 --> 00:03:18,000

coming up Tinsel Lane

95

00:03:23,990 --> 00:03:21,599

and we we just happened to look across

96

00:03:26,449 --> 00:03:24,000

our right shoulder

97

00:03:28,130 --> 00:03:26,459

and I I said to Charlotte I said oh gosh

98

00:03:30,170 --> 00:03:28,140

that's low

99

00:03:33,290 --> 00:03:30,180

is gonna crash

100

00:03:36,110 --> 00:03:33,300

but then as these lights got closer it

101
00:03:38,930 --> 00:03:36,120
couldn't possibly have been a plane they

102
00:03:42,830 --> 00:03:38,940
were too close together too big

103
00:03:44,869 --> 00:03:42,840
the best way I described them were

104
00:03:49,009 --> 00:03:44,879
glaring headlights

105
00:03:51,830 --> 00:03:49,019
but big in the sky not very

106
00:03:55,070 --> 00:03:51,840
uh

107
00:03:57,050 --> 00:03:55,080
just above house level

108
00:04:00,229 --> 00:03:57,060
too low to have been a plane

109
00:04:01,789 --> 00:04:00,239
so well I said to Charlotte I said hello

110
00:04:04,430 --> 00:04:01,799
it's early and Charlotte you know so

111
00:04:07,729 --> 00:04:04,440
which she grabbed my arm and says how

112
00:04:08,990 --> 00:04:07,739
old is your daughter she's 13. uh but I

113
00:04:10,970 --> 00:04:09,000

said on the way up to him you know

114

00:04:12,949 --> 00:04:10,980

they're not a friendly like it's a we

115

00:04:16,610 --> 00:04:12,959

were waving and having a laugh

116

00:04:19,610 --> 00:04:16,620

and we watched them go extremely slow

117

00:04:22,490 --> 00:04:19,620

extremely slow couldn't see anything

118

00:04:24,469 --> 00:04:22,500

else or hear anything

119

00:04:28,129 --> 00:04:24,479

big white

120

00:04:30,490 --> 00:04:28,139

glaring like headlamps like so just went

121

00:04:33,110 --> 00:04:30,500

across and then we carried on walking

122

00:04:34,430 --> 00:04:33,120

and as we're glancing across our left

123

00:04:36,170 --> 00:04:34,440

shoulder

124

00:04:37,850 --> 00:04:36,180

I couldn't see them anymore they've

125

00:04:42,050 --> 00:04:37,860

disappeared

126

00:04:44,570 --> 00:04:42,060

and yeah it was a bit eerie

127

00:04:46,129 --> 00:04:44,580

was all the time I had to video it but

128

00:04:47,990 --> 00:04:46,139

having said that I mean probably maybe

129

00:04:49,430 --> 00:04:48,000

yes I did see him for a minute and a

130

00:04:51,650 --> 00:04:49,440

half or so

131

00:04:54,950 --> 00:04:51,660

that we are somewhat restricted here

132

00:04:56,990 --> 00:04:54,960

with the um the elevation that the

133

00:04:58,790 --> 00:04:57,000

houses and the and the trees yeah we can

134

00:05:00,890 --> 00:04:58,800

actually hear an aircraft going overhead

135

00:05:03,230 --> 00:05:00,900

right now that's right we've got the top

136

00:05:05,930 --> 00:05:03,240

of that is yes now

137

00:05:08,150 --> 00:05:05,940

you are familiar I would take it with

138

00:05:10,490 --> 00:05:08,160

normal aircraft that come into Leeds

139

00:05:12,290 --> 00:05:10,500

Bradford Airport yeah have you ever or

140

00:05:15,230 --> 00:05:12,300

your wife ever seen any lights like this

141

00:05:16,370 --> 00:05:15,240

before never if I had it on I wouldn't

142

00:05:18,409 --> 00:05:16,380

have bothered getting the video coming

143

00:05:20,990 --> 00:05:18,419

out it was because it didn't fit into

144

00:05:23,330 --> 00:05:21,000

any pattern that we got the video camera

145

00:05:24,830 --> 00:05:23,340

out I could see the strobe lights uh

146

00:05:28,129 --> 00:05:24,840

because I'm looking through the video on

147

00:05:30,469 --> 00:05:28,139

magnification but

148

00:05:33,290 --> 00:05:30,479

um I didn't see any strobilizer as they

149

00:05:35,090 --> 00:05:33,300

were approaching so the only time I've

150

00:05:37,189 --> 00:05:35,100

seen them is on magnification on the

151
00:05:39,230 --> 00:05:37,199
film you should be getting exactly the

152
00:05:41,510 --> 00:05:39,240
same sort of background noise as we were

153
00:05:43,909 --> 00:05:41,520
getting but when I listened to the chip

154
00:05:45,650 --> 00:05:43,919
afterwards myself there is a Doppler

155
00:05:48,950 --> 00:05:45,660
effect on it you can nearly actually

156
00:05:51,170 --> 00:05:48,960
going away so it's got to be something

157
00:05:52,490 --> 00:05:51,180
associated with those two objects

158
00:05:55,249 --> 00:05:52,500
whatever they were

159
00:05:57,230 --> 00:05:55,259
I suppose it's increasingly began to

160
00:05:58,310 --> 00:05:57,240
question what it was I said are there a

161
00:06:00,529 --> 00:05:58,320
couple of stars we've never noticed

162
00:06:03,050 --> 00:06:00,539
before and things like that do you know

163
00:06:05,510 --> 00:06:03,060

whereabouts were you walking the dog out

164

00:06:07,550 --> 00:06:05,520

on Roundy Golf Course then we walk sort

165

00:06:09,590 --> 00:06:07,560

of down one Fairway up the other Fairway

166

00:06:11,510 --> 00:06:09,600

back down the original Fairway and these

167

00:06:13,610 --> 00:06:11,520

lights were still there

168

00:06:15,469 --> 00:06:13,620

um I can only describe them you know if

169

00:06:16,790 --> 00:06:15,479

you're standing in front of a plane as

170

00:06:18,590 --> 00:06:16,800

it's coming into London you've got like

171

00:06:20,210 --> 00:06:18,600

plain headlights and it looked like that

172

00:06:22,270 --> 00:06:20,220

but they just never moved absolutely

173

00:06:24,469 --> 00:06:22,280

still for at least five minutes

174

00:06:26,390 --> 00:06:24,479

whilst we said to a stationary for all

175

00:06:28,790 --> 00:06:26,400

that time when we as we got closer

176
00:06:31,490 --> 00:06:28,800
because they suddenly moved and they

177
00:06:33,170 --> 00:06:31,500
were one behind the other at that time

178
00:06:34,550 --> 00:06:33,180
the arriving side by side but when they

179
00:06:36,050 --> 00:06:34,560
were moving in the morning one in front

180
00:06:37,969 --> 00:06:36,060
of the alone again I've not seen an

181
00:06:40,610 --> 00:06:37,979
aircraft like that but normally the side

182
00:06:43,129 --> 00:06:40,620
side by side as they move

183
00:06:45,770 --> 00:06:43,139
Elsa I mean the speed they go across the

184
00:06:49,969 --> 00:06:45,780
sky as well was surprising yeah I mean

185
00:06:51,650 --> 00:06:49,979
no noise are very very faint noise so

186
00:06:53,150 --> 00:06:51,660
you know the only thing you could like

187
00:06:55,610 --> 00:06:53,160
the lights to is like when you see a

188
00:06:57,230 --> 00:06:55,620

helicopter hovering but then there were

189

00:06:59,270 --> 00:06:57,240

two of them and they suddenly moved at a

190

00:07:00,909 --> 00:06:59,280

speed the helicopter didn't move on no

191

00:07:03,590 --> 00:07:00,919

helicopter I've ever seen

192

00:07:06,650 --> 00:07:03,600

what you're basically saying is that

193

00:07:08,930 --> 00:07:06,660

these lights separated the dead work

194

00:07:11,090 --> 00:07:08,940

that they they start as they said when

195

00:07:13,370 --> 00:07:11,100

they started to move they came almost

196

00:07:15,650 --> 00:07:13,380

over the top of our heads one in front

197

00:07:17,270 --> 00:07:15,660

of the other and as they passed over as

198

00:07:19,010 --> 00:07:17,280

one of them carried on straight ahead

199

00:07:22,070 --> 00:07:19,020

and one of them went almost at right

200

00:07:23,510 --> 00:07:22,080

angles off left to the first one very

201
00:07:29,830 --> 00:07:23,520
quickly

202
00:07:32,150 --> 00:07:29,840
any idea at all to draw a comparison

203
00:07:33,890 --> 00:07:32,160
you can't put a speeder I mean I'm not

204
00:07:35,990 --> 00:07:33,900
I'm not technically minded enough to put

205
00:07:37,670 --> 00:07:36,000
an actual speed on it but we've all

206
00:07:39,890 --> 00:07:37,680
watched aircraft move across the sky and

207
00:07:41,450 --> 00:07:39,900
they seem to be very slowly don't they

208
00:07:43,309 --> 00:07:41,460
when when they move across a big Horizon

209
00:07:44,749 --> 00:07:43,319
these these went from where we were one

210
00:07:46,670 --> 00:07:44,759
went in the direction of Harrogate and

211
00:07:47,510 --> 00:07:46,680
we went their direction to garforth and

212
00:07:50,450 --> 00:07:47,520
then

213
00:07:52,249 --> 00:07:50,460

seconds almost they were on the horizon

214

00:07:53,749 --> 00:07:52,259

in different directions now that's

215

00:07:56,150 --> 00:07:53,759

quicker than I've ever seen anything

216

00:07:57,950 --> 00:07:56,160

move all I can say for certain is it's

217

00:07:59,029 --> 00:07:57,960

nothing I've ever seen before nothing I

218

00:08:02,210 --> 00:07:59,039

can explain

219

00:08:04,010 --> 00:08:02,220

I mean I think if you are a skeptic you

220

00:08:06,409 --> 00:08:04,020

try to explain it to yourself and I'm

221

00:08:08,029 --> 00:08:06,419

saying well there was some conflicts in

222

00:08:10,010 --> 00:08:08,039

Iraq stirring up again you know is it

223

00:08:12,710 --> 00:08:10,020

some sort of stealth fighter or

224

00:08:14,570 --> 00:08:12,720

something but the way it split from

225

00:08:17,629 --> 00:08:14,580

almost it looked like one

226

00:08:20,270 --> 00:08:17,639

thing to two suddenly I gotta explain it

227

00:08:22,249 --> 00:08:20,280

so I think people have to draw their own

228

00:08:25,010 --> 00:08:22,259

conclusions I won't be skeptical anymore

229

00:08:27,230 --> 00:08:25,020

without yeah

230

00:08:29,270 --> 00:08:27,240

I wouldn't have a clue what it is I mean

231

00:08:31,070 --> 00:08:29,280

we've seen the the traffic helicopter

232

00:08:33,769 --> 00:08:31,080

and the light from that regularly the

233

00:08:35,510 --> 00:08:33,779

noise with that it just wasn't that and

234

00:08:37,730 --> 00:08:35,520

I've seen reports that suggest it was

235

00:08:38,930 --> 00:08:37,740

microlights and I've also heard micro

236

00:08:42,589 --> 00:08:38,940

lights and it certainly wasn't

237

00:08:44,389 --> 00:08:42,599

microlites I would like to say so we see

238

00:08:46,030 --> 00:08:44,399

a lot of um lights at night which are

239

00:08:49,190 --> 00:08:46,040

usually sort of civilian aircraft or

240

00:08:51,170 --> 00:08:49,200

commercial Jets and a lot of military

241

00:08:53,269 --> 00:08:51,180

craft as well

242

00:08:54,650 --> 00:08:53,279

um and of course we don't uh bat an

243

00:08:56,630 --> 00:08:54,660

eyelid but on this particular occasion

244

00:08:58,750 --> 00:08:56,640

we did

245

00:09:01,550 --> 00:08:58,760

um that ended up being

246

00:09:03,470 --> 00:09:01,560

lasting about three minutes with an

247

00:09:04,630 --> 00:09:03,480

object appearing Over the Horizon in the

248

00:09:08,030 --> 00:09:04,640

distance

249

00:09:11,329 --> 00:09:08,040

there were two white lights with a a

250

00:09:14,810 --> 00:09:11,339

fair distance separating them which

251
00:09:17,930 --> 00:09:16,190
and so because they maintained that

252
00:09:19,850 --> 00:09:17,940
position for quite a while

253
00:09:23,509 --> 00:09:19,860
um I decided to get my binoculars out

254
00:09:26,810 --> 00:09:23,519
and they seemed to appear at a very slow

255
00:09:29,870 --> 00:09:26,820
rate and slightly ever so slightly get

256
00:09:31,550 --> 00:09:29,880
bigger but all of a sudden a red light

257
00:09:34,790 --> 00:09:31,560
appeared and at this point I was looking

258
00:09:38,870 --> 00:09:34,800
through binoculars and this red light

259
00:09:41,389 --> 00:09:38,880
um slowly began to rise above and

260
00:09:43,550 --> 00:09:41,399
between the other two lives to form a

261
00:09:45,829 --> 00:09:43,560
triangle and at this point the whole

262
00:09:47,990 --> 00:09:45,839
object had got quite a lot bigger and

263
00:09:50,829 --> 00:09:48,000

it'd began to turn

264

00:09:54,650 --> 00:09:50,839

and as it tilted this third red light

265

00:09:56,269 --> 00:09:54,660

actually rotated with all the other two

266

00:09:58,389 --> 00:09:56,279

as if they're on fixed points on a

267

00:10:00,650 --> 00:09:58,399

triangle and

268

00:10:03,230 --> 00:10:00,660

then they eventually kind of leveled out
