

1
00:00:05,930 --> 00:00:04,010
time that I saw it I said there was

2
00:00:07,490 --> 00:00:05,940
something in front of me that I were

3
00:00:09,710 --> 00:00:07,500
outside the spacecraft that I couldn't

4
00:00:11,270 --> 00:00:09,720
identify and I never have been able to

5
00:00:14,930 --> 00:00:11,280
identify and I don't think anybody ever

6
00:00:17,029 --> 00:00:14,940
will we were in drifting flights and my

7
00:00:19,670 --> 00:00:17,039
partner and like was asleep

8
00:00:21,290 --> 00:00:19,680
the spacecraft had all a flight control

9
00:00:22,910 --> 00:00:21,300
system turned off and almost all the

10
00:00:25,670 --> 00:00:22,920
electrical equipment turned off except

11
00:00:28,189 --> 00:00:25,680
the radio spacecraft was drifting around

12
00:00:29,689 --> 00:00:28,199
and I couldn't tell I still don't know

13
00:00:31,370 --> 00:00:29,699

which direction was pointing it wasn't

14

00:00:32,690 --> 00:00:31,380

pointing towards Earth but I couldn't

15

00:00:35,389 --> 00:00:32,700

see anything out in front of me except

16

00:00:37,490 --> 00:00:35,399

just the black sky and as it was

17

00:00:40,010 --> 00:00:37,500

rotating around I noticed something out

18

00:00:42,110 --> 00:00:40,020

in front that was a a white cylindrical

19

00:00:44,510 --> 00:00:42,120

shape with a white

20

00:00:46,250 --> 00:00:44,520

hole sticking out of one corner of it it

21

00:00:48,889 --> 00:00:46,260

had about the same

22

00:00:51,950 --> 00:00:48,899

dimensional relationship as a beer can

23

00:00:53,869 --> 00:00:51,960

with a with a smooth pencil sticking out

24

00:00:55,850 --> 00:00:53,879

one corner of it

25

00:00:58,490 --> 00:00:55,860

I couldn't tell how close it was and I

26

00:01:01,670 --> 00:00:58,500

couldn't tell what the size was that

27

00:01:02,990 --> 00:01:01,680

perception in space is uh not very good

28

00:01:04,729 --> 00:01:03,000

unless you know what the size of the

29

00:01:06,830 --> 00:01:04,739

object is that you're looking at I

30

00:01:08,510 --> 00:01:06,840

thought I might

31

00:01:10,130 --> 00:01:08,520

run into it so I turned on the flight

32

00:01:12,850 --> 00:01:10,140

control system it takes a while for the

33

00:01:15,830 --> 00:01:12,860

electronics to warm up and

34

00:01:17,330 --> 00:01:15,840

in the meantime I grabbed two cameras

35

00:01:20,030 --> 00:01:17,340

which were floating in the spacecraft

36

00:01:21,649 --> 00:01:20,040

and I grabbed one and took a picture and

37

00:01:24,830 --> 00:01:21,659

I let go of it and I grabbed the other

38

00:01:25,969 --> 00:01:24,840

one took a picture uh as the sun's

39

00:01:28,550 --> 00:01:25,979

chilling on the window I can no longer

40

00:01:30,310 --> 00:01:28,560

see out and the thing just disappeared I

41

00:01:33,410 --> 00:01:30,320

never did find out what it was and

42

00:01:35,510 --> 00:01:33,420

nobody else ever did either they checked

43

00:01:37,190 --> 00:01:35,520

the NORAD records to see what they had

44

00:01:39,770 --> 00:01:37,200

up on the radar and there wasn't

45

00:01:42,770 --> 00:01:39,780

anything within a very close range of

46

00:01:45,530 --> 00:01:42,780

this after we landed in the in the

47

00:01:47,210 --> 00:01:45,540

Atlantic Ocean the films were flown back

48

00:01:48,890 --> 00:01:47,220

to Houston I've seen the photos that

49

00:01:49,850 --> 00:01:48,900

were released I've seen them published

50

00:01:55,010 --> 00:01:49,860

in

51

00:01:56,569 --> 00:01:55,020

back and went through each frame of all

52

00:01:58,249 --> 00:01:56,579

of the pictures that we took after the
