

1
00:00:08,629 --> 00:00:05,990
we're up on uh uh right on the edge of a

2
00:00:11,629 --> 00:00:08,639
160 foot cliff above the water

3
00:00:17,210 --> 00:00:11,639
and I have an unexpected Jew at least

4
00:00:20,150 --> 00:00:17,220
180 degrees from my viewpoint and all of

5
00:00:21,769 --> 00:00:20,160
a sudden I saw this object

6
00:00:23,710 --> 00:00:21,779
coming from

7
00:00:26,750 --> 00:00:23,720
the North East

8
00:00:29,410 --> 00:00:26,760
do you know where catron island is yes

9
00:00:31,849 --> 00:00:29,420
oh okay it was coming from catron Island

10
00:00:34,790 --> 00:00:31,859
along that Shore

11
00:00:37,970 --> 00:00:34,800
which is belongs to it's a sportless

12
00:00:40,610 --> 00:00:37,980
reservation you know yes it was way out

13
00:00:45,830 --> 00:00:40,620

over there by that store and it was

14

00:00:49,790 --> 00:00:45,840

coming down the town at a at a fast clip

15

00:00:53,510 --> 00:00:49,800

and this was a half moon object

16

00:00:56,689 --> 00:00:53,520

not a flying saucer type yes but it was

17

00:00:59,330 --> 00:00:56,699

half moon and it was it was quite thick

18

00:01:02,450 --> 00:00:59,340

in the in the front part of it you know

19

00:01:05,810 --> 00:01:02,460

yes in other words there was half moon

20

00:01:07,730 --> 00:01:05,820

and it just uh it was going that forward

21

00:01:11,030 --> 00:01:07,740

in that direction

22

00:01:14,929 --> 00:01:11,040

then it was just coming on top the water

23

00:01:19,969 --> 00:01:17,390

as soon as we got disconnected I guess

24

00:01:23,170 --> 00:01:19,979

we can we're going through all this

25

00:01:26,210 --> 00:01:23,180

program I'll try to start all over again

26

00:01:30,170 --> 00:01:26,220

uh it was coming from the ketron Island

27

00:01:32,870 --> 00:01:30,180

area along the far Shore and I could see

28

00:01:37,730 --> 00:01:32,880

everything clear Beyond

29

00:01:41,810 --> 00:01:37,740

uh nesqualic Flats okay came along and

30

00:01:44,090 --> 00:01:41,820

it probably was about even with DuPont

31

00:01:45,890 --> 00:01:44,100

it dope into the water you know where

32

00:01:51,950 --> 00:01:45,900

Dupont is

33

00:01:55,429 --> 00:01:51,960

right across from where I live okay okay

34

00:01:56,990 --> 00:01:55,439

and I live on coal point and there's

35

00:02:00,590 --> 00:01:57,000

violent right

36

00:02:04,490 --> 00:02:00,600

when it got just about to DuPont

37

00:02:05,870 --> 00:02:04,500

it opens the water and left a big

38

00:02:08,930 --> 00:02:05,880

foam

39

00:02:12,830 --> 00:02:08,940

spray like deal when it went into the

40

00:02:14,869 --> 00:02:12,840

water yes and it had disappeared

41

00:02:18,229 --> 00:02:14,879

and I kept looking and the winter wasn't

42

00:02:20,210 --> 00:02:18,239

the heck it was you know did pretty soon

43

00:02:23,690 --> 00:02:20,220

oh maybe

44

00:02:25,130 --> 00:02:23,700

uh had a six seconds or so the surface

45

00:02:29,530 --> 00:02:25,140

began

46

00:02:31,970 --> 00:02:29,540

and the skin on top of the water a robot

47

00:02:34,430 --> 00:02:31,980

100 feet above the water

48

00:02:35,990 --> 00:02:34,440

and it continued on for

49

00:02:39,830 --> 00:02:36,000

quite a wave

50

00:02:42,830 --> 00:02:39,840

and then when it got to approximately

51
00:02:44,270 --> 00:02:42,840
even with the squat plants that drove

52
00:02:47,030 --> 00:02:44,280
in the water again

53
00:02:50,030 --> 00:02:47,040
and I lost I couldn't see it again after

54
00:02:53,390 --> 00:02:50,040
that if it came up again I don't know it

55
00:02:55,250 --> 00:02:53,400
disappeared and I couldn't stand beyond

56
00:02:58,430 --> 00:02:55,260
that point

57
00:03:00,110 --> 00:02:58,440
that's what it uh that's my version of

58
00:03:02,150 --> 00:03:00,120
the whole thing I see what would

59
00:03:03,770 --> 00:03:02,160
approximate what was the time last from

60
00:03:06,470 --> 00:03:03,780
the time you first saw it until it just

61
00:03:10,610 --> 00:03:06,480
disappeared the last time oh it was uh

62
00:03:14,390 --> 00:03:10,620
but uh not over two minutes very it was

63
00:03:17,809 --> 00:03:14,400

very fast it was moving at quite a speed

64

00:03:20,990 --> 00:03:17,819

and uh it just it was

65

00:03:23,149 --> 00:03:21,000

kindest thing I ever saw my life I can't

66

00:03:27,890 --> 00:03:23,159

it just was really

67

00:03:30,830 --> 00:03:27,900

I I always keep binoculars right by the

68

00:03:32,630 --> 00:03:30,840

window and we are leaving for uh Mexico

69

00:03:35,210 --> 00:03:32,640

for three months and

70

00:03:36,430 --> 00:03:35,220

the days we had both of them in our

71

00:03:39,710 --> 00:03:36,440

motorhome

72

00:03:41,869 --> 00:03:39,720

that's why I say I might have got a

73

00:03:45,770 --> 00:03:41,879

better view of it with our binoculars

74

00:03:47,509 --> 00:03:45,780

but it was very clear and it was very it

75

00:03:49,490 --> 00:03:47,519

was so uh

76

00:03:51,170 --> 00:03:49,500

if there was any doubt about what I

77

00:03:53,270 --> 00:03:51,180

thought yes well now your side of the

78

00:03:59,809 --> 00:03:53,280

island is that facing west I mean East

79

00:04:04,729 --> 00:04:02,210

and the weather was fairly good then and

80

00:04:07,490 --> 00:04:04,739

yes the weather was clear and the water

81

00:04:08,750 --> 00:04:07,500

was smooth there was there wasn't a

82

00:04:11,390 --> 00:04:08,760

ripple on the water it was just like

83

00:04:13,910 --> 00:04:11,400

glass yes now you were observing this

84

00:04:18,830 --> 00:04:13,920

from indoor from indoors yeah I see yeah

85

00:04:20,750 --> 00:04:18,840

we have uh 16 feet of glass here and uh

86

00:04:23,749 --> 00:04:20,760

on our front of our home

87

00:04:26,870 --> 00:04:23,759

and we have uh like I said obstructed

88

00:04:28,790 --> 00:04:26,880

you for at least 180 degrees I see were

89

00:04:30,830 --> 00:04:28,800

there any ships or boats on the water at

90

00:04:33,710 --> 00:04:30,840

the time not at the time when I was in a

91

00:04:36,530 --> 00:04:33,720

boat or ship in sight and surely after

92

00:04:39,650 --> 00:04:36,540

that there was a lot of boats I see but

93

00:04:41,810 --> 00:04:39,660

uh where they worked they can't figure

94

00:04:43,070 --> 00:04:41,820

it out but right after that it was more

95

00:04:45,350 --> 00:04:43,080

important than I've seen since last

96

00:04:47,450 --> 00:04:45,360

forever see well then somebody in

97

00:04:50,450 --> 00:04:47,460

Authority probably heard about that also

98

00:04:52,550 --> 00:04:50,460

sent boats out and there was a lot about

99

00:04:55,010 --> 00:04:52,560

a lot of boats that just seemed like

100

00:04:56,629 --> 00:04:55,020

they just were farming that shortly

101
00:04:58,310 --> 00:04:56,639
after that would that be in the area

102
00:04:59,689 --> 00:04:58,320
where this thing finally went into the

103
00:05:01,909 --> 00:04:59,699
water and didn't come out again yeah

104
00:05:03,830 --> 00:05:01,919
yeah

105
00:05:06,890 --> 00:05:03,840
and uh

106
00:05:12,430 --> 00:05:06,900
they uh do you know where well when the

107
00:05:16,490 --> 00:05:14,570
Southern Southern point of banner smile

108
00:05:20,930 --> 00:05:16,500
and that's uh yes I know of the island

109
00:05:22,670 --> 00:05:20,940
yes well there is uh I heard friends of

110
00:05:24,469 --> 00:05:22,680
mine there were they go fishing a lot

111
00:05:29,450 --> 00:05:24,479
they said there's probably 50 boats out

112
00:05:31,370 --> 00:05:29,460
there uh later after that but they were

113
00:05:34,730 --> 00:05:31,380

all fishing of course yes we're looking

114

00:05:36,529 --> 00:05:34,740

for what I saw yes now I want to get a

115

00:05:38,270 --> 00:05:36,539

confirmation of the date was that Sunday

116

00:05:40,730 --> 00:05:38,280

morning or Monday morning no that was

117

00:05:43,969 --> 00:05:40,740

Saturday Saturday morning the 18th the

118

00:05:46,610 --> 00:05:43,979

Saturday morning okay yeah the 18th at 8

119

00:05:51,110 --> 00:05:46,620

30 exactly 8 30 in the morning

120

00:05:56,330 --> 00:05:53,870

hollered at her but by the time she got

121

00:05:57,770 --> 00:05:56,340

there when it was of course not and of

122

00:05:59,270 --> 00:05:57,780

course you have you heard any discussion

123

00:06:03,890 --> 00:05:59,280

among your friends or Neighbors about

124

00:06:05,330 --> 00:06:03,900

seeing it at all no uh I told my I

125

00:06:06,650 --> 00:06:05,340

wasn't even going to report because I

126
00:06:10,550 --> 00:06:06,660
figured that people wouldn't believe me

127
00:06:12,230 --> 00:06:10,560
anyway so and uh but some of our friends

128
00:06:16,189 --> 00:06:12,240
that I should report it and that's how

129
00:06:21,309 --> 00:06:19,570
it was really it was really

130
00:06:23,570 --> 00:06:21,319
quite

131
00:06:26,570 --> 00:06:23,580
exciting or whatever you want to call it

132
00:06:28,969 --> 00:06:26,580
yes I know what you mean did you notice

133
00:06:32,210 --> 00:06:28,979
any aircraft in the area later

134
00:06:36,770 --> 00:06:32,220
I know I we didn't have any aircraft in

135
00:06:40,370 --> 00:06:36,780
the area at the time or or afterwards at

136
00:06:44,210 --> 00:06:40,380
all no uh I'm sure it wasn't an airplane

137
00:06:45,650 --> 00:06:44,220
because it was a big object I'd say it

138
00:06:49,790 --> 00:06:45,660

was uh

139

00:06:53,629 --> 00:06:49,800

oh maybe in front of a 75 feet long uh

140

00:07:00,730 --> 00:06:53,639

and the Half Moon yes still

141

00:07:06,110 --> 00:07:03,710

speed and how it could dive in the water

142

00:07:09,050 --> 00:07:06,120

and then serving the eye it just was

143

00:07:11,029 --> 00:07:09,060

quite a puzzling to me did you see any

144

00:07:13,670 --> 00:07:11,039

surface features or openings or lights

145

00:07:16,670 --> 00:07:13,680

or anything on this object no it was uh

146

00:07:18,950 --> 00:07:16,680

it was a white grade

147

00:07:21,469 --> 00:07:18,960

the collar

148

00:07:23,930 --> 00:07:21,479

that's kind of a white grayish color yes

149

00:07:28,790 --> 00:07:23,940

and I saw an old piece on it of course

150

00:07:31,550 --> 00:07:28,800

it was Shabbat imagine from my home

151

00:07:34,909 --> 00:07:31,560

across across to the other side is

152

00:07:37,070 --> 00:07:34,919

probably about two miles I see oh I

153

00:07:37,570 --> 00:07:37,080

could be any windows or anything if

154

00:07:40,430 --> 00:07:37,580

there was

155

00:07:42,650 --> 00:07:40,440

[Music]

156

00:07:44,749 --> 00:07:42,660

no electrical interference in your area

157

00:07:46,610 --> 00:07:44,759

that you noticed well I didn't know if

158

00:07:49,129 --> 00:07:46,620

any at that time I didn't have the radio

159

00:07:51,350 --> 00:07:49,139

on this thing

160

00:07:54,710 --> 00:07:51,360

uh although oh he talked about

161

00:07:59,089 --> 00:07:54,720

discussion uh the surprise him I said

162

00:08:00,230 --> 00:07:59,099

that uh from there to before that that

163

00:08:03,290 --> 00:08:00,240

there was

164

00:08:06,350 --> 00:08:03,300

some other signage around

165

00:08:08,689 --> 00:08:06,360

the narrow bridge and I didn't I don't

166

00:08:11,629 --> 00:08:08,699

know where that saw or not and that

167

00:08:12,950 --> 00:08:11,639

people said that

168

00:08:19,550 --> 00:08:12,960

uh

169

00:08:21,950 --> 00:08:19,560

Midway radio communication they could

170

00:08:24,170 --> 00:08:21,960

they couldn't get the radio to work for

171

00:08:26,330 --> 00:08:24,180

about 10 minutes yes we we heard about

172

00:08:30,650 --> 00:08:26,340

that report yeah yes that was another

173

00:08:33,589 --> 00:08:30,660

very large object yeah and that was uh

174

00:08:36,529 --> 00:08:33,599

the next day I believe after this

175

00:08:40,790 --> 00:08:36,539

happened that I what I saw

176

00:08:45,650 --> 00:08:43,310

oh well what was that old my wife said

177

00:08:48,829 --> 00:08:45,660

no that was just after Christmas I might

178

00:08:55,810 --> 00:08:52,009

but uh what I saw I know I saw and it

179

00:08:58,009 --> 00:08:55,820

was there there was no

180

00:09:01,009 --> 00:08:58,019

imagination because I'm not the type

181

00:09:05,690 --> 00:09:01,019

that magic things I've been to Pilot for

182

00:09:08,509 --> 00:09:05,700

uh reporting some mirrors 46 48 years

183

00:09:09,410 --> 00:09:08,519

and uh commercial pilot and that flew

184

00:09:13,490 --> 00:09:09,420

for the

185

00:09:16,610 --> 00:09:13,500

air force during World War II

186

00:09:18,889 --> 00:09:16,620

lost over 70 000 hours
