

1
00:00:03,889 --> 00:00:02,210
there are those who feel that the

2
00:00:07,130 --> 00:00:03,899
government has Hardware

3
00:00:08,629 --> 00:00:07,140
Gordon Cooper again indicated that he

4
00:00:11,930 --> 00:00:08,639
has heard some highly placed rumors

5
00:00:14,110 --> 00:00:11,940
concerning crashed UFOs a retrieval he

6
00:00:17,210 --> 00:00:14,120
says not only of just the UFO but

7
00:00:20,450 --> 00:00:17,220
remains of our bodies

8
00:00:24,170 --> 00:00:20,460
I came close closest to a report like

9
00:00:26,570 --> 00:00:24,180
this talking to an individual at GTE who

10
00:00:28,189 --> 00:00:26,580
holds a high managerial position who has

11
00:00:30,529 --> 00:00:28,199
a top secret clearance

12
00:00:32,749 --> 00:00:30,539
and who worked as a civilian for the Air

13
00:00:36,950 --> 00:00:32,759

Force back in 1953

14

00:00:42,170 --> 00:00:39,229

landing gear and also assessing the

15

00:00:44,030 --> 00:00:42,180

damage done to Crashed aircraft

16

00:00:47,030 --> 00:00:44,040

and he was on loan to the atomic energy

17

00:00:49,610 --> 00:00:47,040

commission out at Frenchman's Flats

18

00:00:52,369 --> 00:00:49,620

Nevada at the time and he was assessing

19

00:00:54,410 --> 00:00:52,379

Damage Done to Bridges and different

20

00:00:56,689 --> 00:00:54,420

types of buildings that were subjected

21

00:00:58,910 --> 00:00:56,699

to atomic bomb tests from different

22

00:01:01,610 --> 00:00:58,920

heights that'd be atomic bombs on towers

23

00:01:03,110 --> 00:01:01,620

and drop parachute and so forth

24

00:01:04,490 --> 00:01:03,120

and he claims that right in the middle

25

00:01:07,010 --> 00:01:04,500

of these tests that he was called away

26

00:01:09,850 --> 00:01:07,020

and told to report to a certain office

27

00:01:11,929 --> 00:01:09,860

that he was going to have to go on a a

28

00:01:13,730 --> 00:01:11,939

two-day mission to a three-day mission

29

00:01:16,969 --> 00:01:13,740

for something that he couldn't write a

30

00:01:18,770 --> 00:01:16,979

talk about and he claims just briefly

31

00:01:20,510 --> 00:01:18,780

The Story Goes Like This he was flown

32

00:01:23,710 --> 00:01:20,520

from Indian Springs Air Force Base to a

33

00:01:26,990 --> 00:01:23,720

civilian Airfield in Arizona

34

00:01:28,249 --> 00:01:27,000

I think it was I think it was Tucson or

35

00:01:30,410 --> 00:01:28,259

Phoenix I can't remember I'd have to

36

00:01:32,690 --> 00:01:30,420

look at the report but at the Airfield

37

00:01:35,450 --> 00:01:32,700

he was meant by an air policeman who

38

00:01:37,429 --> 00:01:35,460

escorted into a a military bus that held

39

00:01:38,749 --> 00:01:37,439

the windows blacked out he get on the

40

00:01:40,550 --> 00:01:38,759

bus and he was told not to talk to

41

00:01:42,050 --> 00:01:40,560

anybody to surrender all his valuables

42

00:01:44,690 --> 00:01:42,060

which he did and they put a little cloth

43

00:01:46,609 --> 00:01:44,700

bag put his name on it a full kernel

44

00:01:47,929 --> 00:01:46,619

after everybody was assembled I told

45

00:01:49,550 --> 00:01:47,939

them they were going to go for a long

46

00:01:50,450 --> 00:01:49,560

ride that they were not to talk to each

47

00:01:52,370 --> 00:01:50,460

other that they were going to

48

00:01:54,289 --> 00:01:52,380

investigate the crash of a super secret

49

00:01:55,969 --> 00:01:54,299

vehicle which they couldn't talk about

50

00:01:57,889 --> 00:01:55,979

they had taken oath

51
00:01:59,630 --> 00:01:57,899
and when they finally got there he think

52
00:02:00,889 --> 00:01:59,640
he thought they drove around for two or

53
00:02:03,289 --> 00:02:00,899
three hours he didn't know they took his

54
00:02:04,910 --> 00:02:03,299
watch away when they got there there was

55
00:02:06,709 --> 00:02:04,920
a bright light on the bus blinding

56
00:02:07,850 --> 00:02:06,719
bright light and it was his turn to get

57
00:02:09,650 --> 00:02:07,860
out he says he couldn't see anything

58
00:02:11,270 --> 00:02:09,660
with this light was just blazing when he

59
00:02:14,089 --> 00:02:11,280
finally got behind the light

60
00:02:16,309 --> 00:02:14,099
there was this 30 foot in diameter

61
00:02:18,229 --> 00:02:16,319
object shape like a bowl inverted upon a

62
00:02:21,589 --> 00:02:18,239
bowl with a slight Rim around it was the

63
00:02:23,449 --> 00:02:21,599

orifices and he was told to determine

64

00:02:27,710 --> 00:02:23,459

the falling speed and forward speed at

65

00:02:29,150 --> 00:02:27,720

time of impact and that was all and he

66

00:02:31,550 --> 00:02:29,160

wouldn't ask any other questions about

67

00:02:34,430 --> 00:02:31,560

the object he said that they were

68

00:02:36,170 --> 00:02:34,440

generators there there were power cables

69

00:02:37,729 --> 00:02:36,180

going into the object there was an

70

00:02:39,530 --> 00:02:37,739

opening and there were people inside

71

00:02:41,809 --> 00:02:39,540

doing something there was a tent pitch

72

00:02:43,490 --> 00:02:41,819

beside the object with remains of

73

00:02:44,949 --> 00:02:43,500

small

74

00:02:47,089 --> 00:02:44,959

beings

75

00:02:49,490 --> 00:02:47,099

but he wasn't allowed to ask any

76
00:02:51,650 --> 00:02:49,500
questions and so forth when he got back

77
00:02:52,850 --> 00:02:51,660
to the bus they were all told each

78
00:02:53,930 --> 00:02:52,860
person that went out and did their own

79
00:02:55,670 --> 00:02:53,940
thing that they were going to go back

80
00:02:57,890 --> 00:02:55,680
and they were going to hand write a

81
00:02:59,089 --> 00:02:57,900
report of their findings they were not

82
00:03:00,470 --> 00:02:59,099
to type it they would have called a

83
00:03:03,710 --> 00:03:00,480
number it would be reported and that

84
00:03:06,589 --> 00:03:03,720
would be picked up and there was one to

85
00:03:10,490 --> 00:03:06,599
secrecy now that's just a peripheral

86
00:03:12,350 --> 00:03:10,500
summary of what this fellow told me I

87
00:03:13,850 --> 00:03:12,360
conducted a character reference check

88
00:03:15,589 --> 00:03:13,860

went all the way back from where he

89

00:03:16,970 --> 00:03:15,599

works at GTE now all the way back to

90

00:03:18,830 --> 00:03:16,980

Wright-Patterson Air Force Base which

91

00:03:21,050 --> 00:03:18,840

was right field in those days talk to

92

00:03:23,390 --> 00:03:21,060

people Leia highly placed people still

93

00:03:25,009 --> 00:03:23,400

knew this individual everybody gave him

94

00:03:28,369 --> 00:03:25,019

a clean bill of health

95

00:03:31,250 --> 00:03:28,379

he didn't seek any publicity uh he was

96

00:03:34,790 --> 00:03:31,260

uh there was a movie called Hangar 18

97

00:03:36,530 --> 00:03:34,800

that came out put out by son Classics

98

00:03:38,030 --> 00:03:36,540

and they called me because they knew of

99

00:03:40,009 --> 00:03:38,040

this particular sighting that I had

100

00:03:41,930 --> 00:03:40,019

investigated they offered this fellow

101
00:03:44,770 --> 00:03:41,940
money through me to do a documentary he

102
00:03:47,809 --> 00:03:44,780
returned it down he didn't want to uh

103
00:03:49,670 --> 00:03:47,819
compromise you know the story at all in

104
00:03:51,830 --> 00:03:49,680
any way using his name because of his

105
00:03:53,330 --> 00:03:51,840
position at GTE and because what his

106
00:03:54,770 --> 00:03:53,340
peers would think of him because he had

107
00:03:57,530 --> 00:03:54,780
taken an oath

108
00:03:59,750 --> 00:03:57,540
so uh you have highly placed rumors that

109
00:04:01,190 --> 00:03:59,760
they actually have uh crash retrieval

110
00:04:02,690 --> 00:04:01,200
cases whether they're true or not we

111
00:04:08,089 --> 00:04:02,700
only can wait and see but they come from

112
00:04:13,250 --> 00:04:10,369
waiting for his friend to arrive Reign

113
00:04:14,809 --> 00:04:13,260

nervously fiddled with his telescopes

114

00:04:16,490 --> 00:04:14,819

he remembered his extensive

115

00:04:19,430 --> 00:04:16,500

investigations into the man's

116

00:04:22,069 --> 00:04:19,440

reliability as a witness a case of Fritz

117

00:04:23,689 --> 00:04:22,079

I started in 1973 when all the way back

118

00:04:25,129 --> 00:04:23,699

from the various companies he worked

119

00:04:26,510 --> 00:04:25,139

before right back to Wright-Patterson

120

00:04:27,890 --> 00:04:26,520

Air Force Base talked to people he

121

00:04:29,810 --> 00:04:27,900

worked with and they all gave him a very

122

00:04:31,670 --> 00:04:29,820

clean build of house a reputable man

123

00:04:34,370 --> 00:04:31,680

honest man not the type that would

124

00:04:37,850 --> 00:04:34,380

fabricate a hoax and a very efficient

125

00:04:39,409 --> 00:04:37,860

engineer manager as the man arrived Ray

126

00:04:41,090 --> 00:04:39,419

recalled the years his friend had

127

00:04:42,110 --> 00:04:41,100

wavered about breaking an oath of

128

00:04:44,390 --> 00:04:42,120

secrecy

129

00:04:46,010 --> 00:04:44,400

he recalled their long arguments about a

130

00:04:48,830 --> 00:04:46,020

greater public good

131

00:04:51,730 --> 00:04:48,840

would the years of patient persuasion at

132

00:04:53,749 --> 00:04:51,740

last pay off foreign

133

00:04:56,150 --> 00:04:53,759

you were working for the United States

134

00:04:59,810 --> 00:04:56,160

Air Force the story began late one night

135

00:05:01,790 --> 00:04:59,820

in 1953 at Frenchman's flat Nevada

136

00:05:04,430 --> 00:05:01,800

the man had been working as a consultant

137

00:05:06,409 --> 00:05:04,440

on blast effects of atom bombs when he

138

00:05:09,290 --> 00:05:06,419

was suddenly ordered to report for a new

139

00:05:11,990 --> 00:05:09,300

Mission what happened after that we were

140

00:05:14,210 --> 00:05:12,000

put on a um a bus Which the windows were

141

00:05:16,550 --> 00:05:14,220

all completely covered with curtains and

142

00:05:19,249 --> 00:05:16,560

in some cases a black paper taped for

143

00:05:21,409 --> 00:05:19,259

the windows and were driven for three or

144

00:05:24,469 --> 00:05:21,419

four hours and we're not sure just where

145

00:05:26,570 --> 00:05:24,479

we were going several of us tried to uh

146

00:05:28,490 --> 00:05:26,580

guess where we might have been

147

00:05:34,070 --> 00:05:28,500

we at that time came to the conclusion

148

00:05:38,570 --> 00:05:36,290

after getting off the bus as recreated

149

00:05:43,390 --> 00:05:38,580

here the scientists were taken to an

150

00:05:49,670 --> 00:05:46,670

they had no idea exactly where they were

151
00:05:51,710 --> 00:05:49,680
or what they were about to see we were

152
00:05:54,950 --> 00:05:51,720
told that we had been selected for

153
00:05:57,050 --> 00:05:54,960
various technical specialties and I was

154
00:05:58,969 --> 00:05:57,060
told if I was to ask any questions that

155
00:06:00,830 --> 00:05:58,979
had to do with Dynamic loads and nothing

156
00:06:01,850 --> 00:06:00,840
more than I wouldn't get any answers to

157
00:06:08,870 --> 00:06:01,860
any other questions

158
00:06:10,909 --> 00:06:08,880
[Music]

159
00:06:12,830 --> 00:06:10,919
it looked like two saucers I would call

160
00:06:16,629 --> 00:06:12,840
it the one on top of the other inverted

161
00:06:19,730 --> 00:06:16,639
probably 25 to 30 feet in diameter

162
00:06:21,170 --> 00:06:19,740
in terms of something known what kind of

163
00:06:23,809 --> 00:06:21,180

metal would it look like well it would

164

00:06:26,210 --> 00:06:23,819

look like a brushed aluminum I'm sure it

165

00:06:29,390 --> 00:06:26,220

probably wasn't that I say that because

166

00:06:31,790 --> 00:06:29,400

I noticed no scratch marks and anything

167

00:06:33,409 --> 00:06:31,800

that would penetrate into the sand 20

168

00:06:35,390 --> 00:06:33,419

inches that way would certainly have

169

00:06:37,189 --> 00:06:35,400

some scratch marks no signs of buckling

170

00:06:39,290 --> 00:06:37,199

fracture or anything not that I could

171

00:06:41,870 --> 00:06:39,300

see I accept that it was probably some

172

00:06:43,670 --> 00:06:41,880

United States government vehicle a

173

00:06:45,170 --> 00:06:43,680

highly classified vehicle in fact we

174

00:06:46,909 --> 00:06:45,180

were told that that's what it was

175

00:06:48,290 --> 00:06:46,919

interestingly enough one of the

176

00:06:50,450 --> 00:06:48,300

questions I need to know is what the

177

00:06:51,650 --> 00:06:50,460

mass of the vehicle was and I can tell a

178

00:06:53,390 --> 00:06:51,660

lot of things from the penetration into

179

00:06:54,650 --> 00:06:53,400

the desert sand and so forth but I

180

00:06:56,450 --> 00:06:54,660

needed on the mess

181

00:06:58,370 --> 00:06:56,460

and they told me that they weren't going

182

00:07:01,670 --> 00:06:58,380

to let me know that I'd say perhaps

183

00:07:06,830 --> 00:07:03,770

there was also a tent

184

00:07:08,990 --> 00:07:06,840

which uh I didn't get to look into but

185

00:07:10,610 --> 00:07:09,000

one fellow whom I did happen to talk

186

00:07:13,309 --> 00:07:10,620

with briefly until they told us to stop

187

00:07:16,189 --> 00:07:13,319

talking uh said that he had seen two

188

00:07:17,689 --> 00:07:16,199

bodies inside this tent two alien level

189

00:07:21,230 --> 00:07:17,699

bodies

190

00:07:24,950 --> 00:07:21,240

it was brown leathery skin I had a

191

00:07:28,950 --> 00:07:24,960

silver like a cap on without a bill like

192

00:07:34,490 --> 00:07:32,089

[Music]

193

00:07:37,070 --> 00:07:34,500

I realized what this really started to

194

00:07:39,110 --> 00:07:37,080

mean but also at the same time realized

195

00:07:41,749 --> 00:07:39,120

probably why the government was keeping

196

00:07:44,570 --> 00:07:41,759

it classified there are a lot of things

197

00:07:46,010 --> 00:07:44,580

that could be changed by our culture or

198

00:07:48,230 --> 00:07:46,020

religions there are a lot of things that

199

00:07:49,850 --> 00:07:48,240

could be affected by the release of
