

UFO'S: GOVERNMENT COVER-UP?

**UFO CAUGHT ON FILM DURING MISSILE TEST
LAUNCH AT VANDENBERG AIR FORCE BASE**

**LARRY
KING
LIVE**

1
00:00:03,470 --> 00:00:01,850
I was officer in charge of optical

2
00:00:06,249 --> 00:00:03,480
instrumentation at Vandenberg Air Force

3
00:00:09,169 --> 00:00:06,259
Base from 1963 to 66.

4
00:00:10,190 --> 00:00:09,179
photograph that's California so right

5
00:00:12,169 --> 00:00:10,200
there on the coast

6
00:00:14,089 --> 00:00:12,179
and our job was to photograph with

7
00:00:16,070 --> 00:00:14,099
high-speed instrumentation every missile

8
00:00:17,930 --> 00:00:16,080
launched from from from Vandenberg going

9
00:00:19,910 --> 00:00:17,940
down the test range

10
00:00:21,769 --> 00:00:19,920
they wanted to find out if we could

11
00:00:23,689 --> 00:00:21,779
figure out a place to put a telescope

12
00:00:25,070 --> 00:00:23,699
where we could get a side view of the

13
00:00:27,050 --> 00:00:25,080

missile so that we could see all three

14

00:00:29,929 --> 00:00:27,060

stages of powered flight

15

00:00:31,849 --> 00:00:29,939

so I went up to Big Sur California I

16

00:00:34,250 --> 00:00:31,859

found an air on a U.S forest Service

17

00:00:36,950 --> 00:00:34,260

Road on Anderson Peak and I installed a

18

00:00:39,889 --> 00:00:36,960

telescopic site up there the Air Force

19

00:00:44,270 --> 00:00:39,899

flew in a huge cat adoptic telescope

20

00:00:47,209 --> 00:00:44,280

from the cape was built by Dr Walter

21

00:00:49,670 --> 00:00:47,219

Manning at at the Boston University they

22

00:00:51,889 --> 00:00:49,680

put to tell us the cope up there and

23

00:00:55,310 --> 00:00:51,899

with that thing with which had a focal

24

00:00:57,770 --> 00:00:55,320

length of 2500 inches we photographed an

25

00:01:00,110 --> 00:00:57,780

Atlas missile raising up out of the The

26
00:01:02,150 --> 00:01:00,120
Fog cover and flying down range we get

27
00:01:04,969 --> 00:01:02,160
all three stages of powered flight and

28
00:01:06,830 --> 00:01:04,979
as the dummy Warhead and the package

29
00:01:08,810 --> 00:01:06,840
flew on down range we were all

30
00:01:10,550 --> 00:01:08,820
celebrating the fact that we had seen a

31
00:01:12,770 --> 00:01:10,560
thing and accomplished the mission

32
00:01:14,270 --> 00:01:12,780
and I got to cut back to the base with

33
00:01:17,030 --> 00:01:14,280
the film the next day I was called into

34
00:01:19,070 --> 00:01:17,040
the office of major Florence J manzman

35
00:01:21,350 --> 00:01:19,080
and there were three people in Gray

36
00:01:24,230 --> 00:01:21,360
suits standing in there there was a 16

37
00:01:25,850 --> 00:01:24,240
millimeter camera and a screen setup

38
00:01:27,410 --> 00:01:25,860

major management said Lieutenant sit

39

00:01:29,330 --> 00:01:27,420
down and watch this and he turned down

40

00:01:30,950 --> 00:01:29,340
the lights turned on the camera on the

41

00:01:32,510 --> 00:01:30,960
projector and the film came on and I

42

00:01:35,090 --> 00:01:32,520
recognized it as the film The Weed shot

43

00:01:37,190 --> 00:01:35,100
of Big Sur the previous day

44

00:01:38,630 --> 00:01:37,200
toward the end of the flight I was

45

00:01:40,609 --> 00:01:38,640
looking at Major men saying pretty good

46

00:01:42,170 --> 00:01:40,619
stuff uh sir and and suddenly he said

47

00:01:45,230 --> 00:01:42,180
just watch this

48

00:01:47,990 --> 00:01:45,240
and as I watched the the Warhead the

49

00:01:51,410 --> 00:01:48,000
dummy Warhead the chaff that was put out

50

00:01:53,690 --> 00:01:51,420
in front of it as a decoy to to deflect

51
00:01:55,249 --> 00:01:53,700
uh the Russian anti-missile missile

52
00:01:57,109 --> 00:01:55,259
tracking radar

53
00:01:58,670 --> 00:01:57,119
everything was flying along and suddenly

54
00:02:01,609 --> 00:01:58,680
in the same direction this stuff was

55
00:02:04,490 --> 00:02:01,619
flying at about 8 000 miles an hour the

56
00:02:06,530 --> 00:02:04,500
object came into the frame shot a beam

57
00:02:08,210 --> 00:02:06,540
of light at the Warhead flew up to the

58
00:02:09,889 --> 00:02:08,220
top shot another beam of light at the

59
00:02:11,449 --> 00:02:09,899
Warhead flew around the direction it was

60
00:02:14,150 --> 00:02:11,459
flying shot another beam of light at the

61
00:02:16,190 --> 00:02:14,160
Warhead flew down to another beam of

62
00:02:18,070 --> 00:02:16,200
light at the Warhead and flew out the

63
00:02:20,330 --> 00:02:18,080

same way it came in

64

00:02:21,710 --> 00:02:20,340

why didn't you see this when you were

65

00:02:24,229 --> 00:02:21,720

shooting it

66

00:02:26,330 --> 00:02:24,239

well it was uh six 800 miles away from

67

00:02:29,150 --> 00:02:26,340

us oh I got you it's the only day

68

00:02:32,809 --> 00:02:30,830

well first of all the major management

69

00:02:35,210 --> 00:02:32,819

said to me what was that were you guys

70

00:02:37,190 --> 00:02:35,220

screwing around up there I said no sir

71

00:02:40,190 --> 00:02:37,200

and he said then tell me what that was

72

00:02:42,470 --> 00:02:40,200

and I said we got a UFO and he said

73

00:02:43,790 --> 00:02:42,480

Lieutenant you are never to speak of

74

00:02:46,009 --> 00:02:43,800

this again

75

00:02:48,410 --> 00:02:46,019

as far as you're concerned this didn't

76
00:02:51,650 --> 00:02:48,420
happen you mind if I speak Mr comedian

77
00:02:53,930 --> 00:02:51,660
go ahead I was there I was there I saw

78
00:02:55,729 --> 00:02:53,940
the film with my own eyes I'm not lying

79
00:02:58,190 --> 00:02:55,739
why would I I'm a university Professor

80
00:03:01,070 --> 00:02:58,200
with a PhD and a lot of years of good

81
00:03:02,930 --> 00:03:01,080
respectful research so

82
00:03:04,610 --> 00:03:02,940
they the guys from officer may not have

83
00:03:07,009 --> 00:03:04,620
seen the UFO but they saw the results of

84
00:03:09,410 --> 00:03:07,019
it I saw the damn thing on film with my

85
00:03:11,330 --> 00:03:09,420
own eyes so don't call me a liar and you

86
00:03:12,890 --> 00:03:11,340
weren't there and I was with all due

87
00:03:15,530 --> 00:03:12,900
respect not calling your liar it's just

88
00:03:17,809 --> 00:03:15,540

quite a step to say there's a film with

89

00:03:21,130 --> 00:03:17,819

remarkable images on it that the CIA

90

00:03:26,509 --> 00:03:24,170

yeah which quite a step from there to

91

00:03:28,910 --> 00:03:26,519

say it was definitely a spacecraft from

92

00:03:30,649 --> 00:03:28,920

another civilization that's the leap it

93

00:03:33,410 --> 00:03:30,659

was that the skeptical identity is

94

00:03:34,910 --> 00:03:33,420

reluctant to take hey pal listen to me I

95

00:03:36,470 --> 00:03:34,920

didn't say it was a spaceship from

96

00:03:37,550 --> 00:03:36,480

another civilization I said it was

97

00:03:38,990 --> 00:03:37,560

something in the air that we couldn't

98

00:03:41,750 --> 00:03:39,000

identify therefore it was an

99

00:03:43,430 --> 00:03:41,760

unidentified flying object it was shaped

100

00:03:45,770 --> 00:03:43,440

like two saucers put together with a

101
00:03:48,289 --> 00:03:45,780
golf ball on top and it fired a beam

102
00:03:49,970 --> 00:03:48,299
that we assumed was a plasma Beam at a

103
00:03:52,009 --> 00:03:49,980
dummy Warhead and knocked it out of

104
00:03:54,530 --> 00:03:52,019
space tell me what happened tell me who

105
00:03:56,509 --> 00:03:54,540
did that tell me in 1964 who had that

106
00:03:58,910 --> 00:03:56,519
technology pal not us and not the

107
00:04:01,190 --> 00:03:58,920
Russians and nobody I know of there's an

108
00:04:02,949 --> 00:04:01,200
old joke in broadcast are you gonna do

109
00:04:05,690 --> 00:04:02,959
this with baking soda and vinegar Bill

110
00:04:08,030 --> 00:04:05,700
hold on we're running out of time it's

111
00:04:10,610 --> 00:04:08,040
an old joke in broadcasting whoa It's

112
00:04:12,710 --> 00:04:10,620
like trying to photograph a car wreck

113
00:04:14,750 --> 00:04:12,720

at one time considered an impossible

114

00:04:16,849 --> 00:04:14,760

thing to do if you send out a news crew

115

00:04:19,670 --> 00:04:16,859

go let's go shoot a car wreck that was a

116

00:04:22,129 --> 00:04:19,680

joke well now routinely on the Nightly

117

00:04:23,749 --> 00:04:22,139

News we see car wrecks we see car wrecks

118

00:04:26,210 --> 00:04:23,759

on the freeway we see car wrecks behind

119

00:04:27,590 --> 00:04:26,220

us because there's because they're used

120

00:04:30,350 --> 00:04:27,600

there didn't used to be a camera

121

00:04:32,090 --> 00:04:30,360

everywhere there are millions and

122

00:04:34,610 --> 00:04:32,100

millions of cameras there are billions

123

00:04:36,170 --> 00:04:34,620

of digits taken every week you're not

124

00:04:37,610 --> 00:04:36,180

you're not saying there are no UFOs

125

00:04:39,950 --> 00:04:37,620

you're saying that haven't been proven

126

00:04:41,629 --> 00:04:39,960

I'm saying that it's quite a step to see

127

00:04:44,530 --> 00:04:41,639

something you don't know what it is in

128

00:04:47,270 --> 00:04:44,540

the sky to say that there are aliens

129

00:04:49,550 --> 00:04:47,280

they're monitoring our nuclear weapons

130

00:04:51,110 --> 00:04:49,560

Dr Jacob well I understand that now so

131

00:04:53,330 --> 00:04:51,120

you'll if you're questioning what he's

132

00:04:55,490 --> 00:04:53,340

seen no well I'm questioning his the

133

00:04:59,090 --> 00:04:55,500

conclusion that the technology did not

134

00:05:01,909 --> 00:04:59,100

exist in 1964 to produce images on film

135

00:05:04,010 --> 00:05:01,919

that the CIA would want to confiscate if

136

00:05:05,870 --> 00:05:04,020

I may well in 1974 you were trying to

137

00:05:07,249 --> 00:05:05,880

figure out what in 1964 you were trying

138

00:05:08,770 --> 00:05:07,259

to figure out the girls where I was in

139

00:05:21,409 --> 00:05:08,780

the in the service

140

00:05:25,490 --> 00:05:23,749

if I may one at a time please we've got

141

00:05:27,650 --> 00:05:25,500

two months left the other person the

142

00:05:29,390 --> 00:05:27,660

other former Air Force officer retired

143

00:05:32,090 --> 00:05:29,400

Air Force officer involved in it was

144

00:05:34,610 --> 00:05:32,100

charged with photo analysis of this film

145

00:05:37,370 --> 00:05:34,620

Florence mansman he's now deceased

146

00:05:39,590 --> 00:05:37,380

through his widow I have correspondence

147

00:05:42,950 --> 00:05:39,600

private correspondence between Dr Jacobs

148

00:05:44,990 --> 00:05:42,960

and and Dr mansman actually and 20 years

149

00:05:47,450 --> 00:05:45,000

later they are marveling over what they

150

00:05:50,029 --> 00:05:47,460

saw mansman's professional assessment at

151

00:05:52,310 --> 00:05:50,039

Vandenberg in 1964 was that this was an

152

00:05:55,969 --> 00:05:52,320

extraterrestrial craft okay so he made

153

00:05:57,830 --> 00:05:55,979

that that's correct and I can send you I

154

00:06:00,290 --> 00:05:57,840

will give CNN I'm trying to get the

155

00:06:03,230 --> 00:06:00,300

national media involved in this uh as

156

00:06:05,330 --> 00:06:03,240

much as possible I will send anyone any

157

00:06:07,490 --> 00:06:05,340

correspondent for any newspaper any

158

00:06:09,590 --> 00:06:07,500

radio station TV station any scientist

159

00:06:12,050 --> 00:06:09,600

any member of your group all of the

160

00:06:13,610 --> 00:06:12,060

original documentation where these

161

00:06:15,170 --> 00:06:13,620

gentlemen are discussing the subject 20

162

00:06:17,210 --> 00:06:15,180

years later we're gonna do a lot more on

163

00:06:18,770 --> 00:06:17,220

this because we do a lot on UFOs we
