

1
00:00:05,809 --> 00:00:02,230
there's four levels in size four

2
00:00:08,150 --> 00:00:05,819
excluding the top level of the surface

3
00:00:11,390 --> 00:00:08,160
which is basically

4
00:00:14,030 --> 00:00:11,400
a hanger hangers uh with the satellite

5
00:00:16,490 --> 00:00:14,040
there's probably not too much too but

6
00:00:18,410 --> 00:00:16,500
the levels are all operators the first

7
00:00:21,650 --> 00:00:18,420
second levels are all elevator where

8
00:00:24,109 --> 00:00:21,660
they keep the flying disc

9
00:00:27,230 --> 00:00:24,119
ships whatever you can call it

10
00:00:29,269 --> 00:00:27,240
they bring it to the surface

11
00:00:32,389 --> 00:00:29,279
right when I was there they were trying

12
00:00:37,190 --> 00:00:32,399
to operate the disc

13
00:00:43,130 --> 00:00:40,190

there's scientists there there's I mean

14

00:00:49,250 --> 00:00:43,140

I've personally witnessed High

15

00:00:53,270 --> 00:00:51,290

right now I'm basically kind of scared I

16

00:00:55,970 --> 00:00:53,280

mean I'm on the run I don't know what

17

00:01:00,490 --> 00:00:55,980

everything holds for me I just want to

18

00:01:06,670 --> 00:01:03,789

the very best

19

00:01:11,710 --> 00:01:06,680

big place a big place

20

00:01:11,720 --> 00:01:19,270

there's four elevators

21

00:01:23,090 --> 00:01:21,770

security there are no centuries down at

22

00:01:25,030 --> 00:01:23,100

three or four

23

00:01:28,310 --> 00:01:25,040

and the levels of doing four right here

24

00:01:30,890 --> 00:01:28,320

don't know what goes on there

25

00:01:32,570 --> 00:01:30,900

I heard something about a heavy or EB

26

00:01:34,070 --> 00:01:32,580

down there I'm not too familiar with

27

00:01:39,770 --> 00:01:34,080

what it is but

28

00:01:44,569 --> 00:01:41,450

get off and

29

00:01:50,569 --> 00:01:47,870

you walk in the bays are over here

30

00:01:52,730 --> 00:01:50,579

they're all separated by like an

31

00:01:54,710 --> 00:01:52,740

automatic doors that open and close each

32

00:01:59,030 --> 00:01:54,720

Bay

33

00:02:03,230 --> 00:02:01,010

five on each side there's the hallway

34

00:02:04,789 --> 00:02:03,240

right there and they can each of these

35

00:02:06,590 --> 00:02:04,799

Bays have elevators it'll bring them all

36

00:02:08,330 --> 00:02:06,600

the way to the top

37

00:02:10,309 --> 00:02:08,340

it'll bring the whole floor all the way

38

00:02:13,250 --> 00:02:10,319

over the hydraulic system

39

00:02:16,369 --> 00:02:14,809

as you walk down there's a lot of

40

00:02:19,250 --> 00:02:16,379

machine here that's here which I have no

41

00:02:21,110 --> 00:02:19,260

recollection of what it does

42

00:02:23,449 --> 00:02:21,120

I believe it's

43

00:02:27,110 --> 00:02:23,459

I've never been in that area my job was

44

00:02:29,449 --> 00:02:27,120

to Center be a century oh

45

00:02:31,610 --> 00:02:29,459

for these three gates and up above and

46

00:02:34,610 --> 00:02:31,620

the level complex and sometimes I would

47

00:02:37,850 --> 00:02:34,620

be walking down here escorting people

48

00:02:40,190 --> 00:02:37,860

now over on this there's a hallway down

49

00:02:44,150 --> 00:02:42,110

and it brings off which is a lot of

50

00:02:46,790 --> 00:02:44,160

there's a big computer system right here

51
00:02:51,830 --> 00:02:46,800
I believe it's a computer system say for

52
00:03:03,890 --> 00:02:54,229
right here is a level

53
00:03:11,210 --> 00:03:06,350
these tubes are about two feet and width

54
00:03:16,369 --> 00:03:14,570
stand on it they stand or end on it

55
00:03:23,809 --> 00:03:16,379
now as you're walking and you look at

56
00:03:29,089 --> 00:03:26,449
I'm Central official one they're all

57
00:03:29,990 --> 00:03:29,099
exactly the same to end uh the Yum and

58
00:03:39,410 --> 00:03:30,000
the

59
00:03:41,210 --> 00:03:39,420
no way that I can see of identifying

60
00:03:44,830 --> 00:03:41,220
each and every one of them

61
00:03:49,789 --> 00:03:48,110
now there's a aluminum part right here I

62
00:03:51,830 --> 00:03:49,799
don't know if it's covering

63
00:03:53,809 --> 00:03:51,840

genitals of them

64

00:03:55,610 --> 00:03:53,819

or not but the rest is filled with the

65

00:03:59,030 --> 00:03:55,620

solution is

66

00:04:00,710 --> 00:03:59,040

a couple tanks right here

67

00:04:03,190 --> 00:04:00,720

I don't know if they're oxygen I don't

68

00:04:06,710 --> 00:04:03,200

know what they hold there's no

69

00:04:08,570 --> 00:04:06,720

identifying marks on them whatsoever

70

00:04:11,089 --> 00:04:08,580

there's no absolutely no air in the

71

00:04:13,729 --> 00:04:11,099

tanks it's all solution

72

00:04:17,210 --> 00:04:13,739

and uh

73

00:04:18,650 --> 00:04:17,220

the Grays are are just in here right

74

00:04:20,629 --> 00:04:18,660

here

75

00:04:22,610 --> 00:04:20,639

they're suspended so I imagine they're

76
00:04:24,230 --> 00:04:22,620
being clamped somehow some way to hold

77
00:04:25,850 --> 00:04:24,240
them in this completely where their feet

78
00:04:28,790 --> 00:04:25,860
is completely off the ground and stuff

79
00:04:30,710 --> 00:04:28,800
like that and under here there's about a

80
00:04:32,749 --> 00:04:30,720
one foot pedestal

81
00:04:35,510 --> 00:04:32,759
of uh

82
00:04:36,469 --> 00:04:35,520
black Iron steel like uh it's really

83
00:04:39,409 --> 00:04:36,479
it's

84
00:04:44,570 --> 00:04:39,419
polished but it looks like a black

85
00:04:44,580 --> 00:04:54,530
now the things inside

86
00:04:59,629 --> 00:04:57,050
and they resemble what everybody sees

87
00:04:59,639 --> 00:05:08,210
uh

88
00:05:11,390 --> 00:05:09,890

the only thing that's different about

89

00:05:16,670 --> 00:05:11,400

them from what I see on all the pictures

90

00:05:16,680 --> 00:05:19,850

or

91

00:05:24,770 --> 00:05:22,670

they're they look like prunes

92

00:05:27,170 --> 00:05:24,780

they're uh like your fingers here

93

00:05:28,850 --> 00:05:27,180

they're all shriveled up and

94

00:05:31,730 --> 00:05:28,860

you can't see no ice arcs then there's

95

00:05:36,650 --> 00:05:31,740

no visible eyelids or anything like that

96

00:05:41,930 --> 00:05:40,070

a grayish pigmentation it's not scary

97

00:05:44,029 --> 00:05:41,940

scaly or anything it's like a

98

00:05:46,610 --> 00:05:44,039

pigmentation there's no apparent hair on

99

00:05:55,490 --> 00:05:51,469

there's little holes uh not really slits

100

00:06:01,310 --> 00:05:55,500

but a little cold maybe an air cartoons

101
00:06:05,330 --> 00:06:03,650
really kind of small for the nose and

102
00:06:07,969 --> 00:06:05,340
the mouse

103
00:06:12,350 --> 00:06:07,979
the bodies themselves

104
00:06:18,529 --> 00:06:16,670
they don't they appear not to have any

105
00:06:21,529 --> 00:06:18,539
breasts

106
00:06:22,790 --> 00:06:21,539
or navel or anything like that not that

107
00:06:25,249 --> 00:06:22,800
I can see

108
00:06:28,670 --> 00:06:25,259
I've done I mean I wasn't

109
00:06:33,290 --> 00:06:28,680
able to sit and study them and

110
00:06:39,110 --> 00:06:36,529
one day I mean I don't think I've heard

111
00:06:42,170 --> 00:06:39,120
talked there that I know their systems

112
00:06:44,029 --> 00:06:42,180
aren't like ours

113
00:06:48,170 --> 00:06:44,039

but they're very thin and they look very

114

00:06:55,010 --> 00:06:51,350

he was assigned to Seal Team Six

115

00:06:58,610 --> 00:06:55,020

uh he what he said that he was a

116

00:07:03,230 --> 00:06:58,620

security guard at level two of S4 in

117

00:07:07,210 --> 00:07:03,240

area 51. and he described the area

118

00:07:10,010 --> 00:07:07,220

as far as a facility

119

00:07:12,110 --> 00:07:10,020

occupying at least four levels he was

120

00:07:13,790 --> 00:07:12,120

aware of four he worked on level two he

121

00:07:15,830 --> 00:07:13,800

had passed through level one

122

00:07:18,469 --> 00:07:15,840

he never saw level three or level four

123

00:07:21,890 --> 00:07:18,479

because no military people were allowed

124

00:07:24,409 --> 00:07:21,900

below those levels only very people with

125

00:07:27,350 --> 00:07:24,419

very specific clearances could go to

126
00:07:29,930 --> 00:07:27,360
level three and level four he described

127
00:07:33,950 --> 00:07:29,940
level two in considerable detail to us

128
00:07:35,870 --> 00:07:33,960
and he said level two consisted of nine

129
00:07:37,610 --> 00:07:35,880
Hangar Bays I guess you would call them

130
00:07:38,930 --> 00:07:37,620
because they were the size they would

131
00:07:40,909 --> 00:07:38,940
hold a small airplane

132
00:07:43,490 --> 00:07:40,919
and there were circular disc shaped

133
00:07:45,350 --> 00:07:43,500
craft in seven of the nine Bays he

134
00:07:48,950 --> 00:07:45,360
described the floor layout he described

135
00:07:51,290 --> 00:07:48,960
the security post the guard positions a

136
00:07:54,589 --> 00:07:51,300
an area where our bodies were stored in

137
00:07:57,170 --> 00:07:54,599
large glass cylinders he described

138
00:07:59,870 --> 00:07:57,180

special equipment they described the

139

00:08:02,749 --> 00:07:59,880

monitoring equipment the security system

140

00:08:04,370 --> 00:08:02,759

to go down to levels three and four he

141

00:08:05,570 --> 00:08:04,380

said that they were never allowed down

142

00:08:07,909 --> 00:08:05,580

there only

143

00:08:10,969 --> 00:08:07,919

especially cleared people with very

144

00:08:13,550 --> 00:08:10,979

specific clearances which included at

145

00:08:17,330 --> 00:08:13,560

least included a plastic card with a

146

00:08:20,390 --> 00:08:17,340

magnetic information in it a hand print

147

00:08:22,969 --> 00:08:20,400

and a right eye retina scan and put

148

00:08:25,790 --> 00:08:22,979

their eye to a little camera

149

00:08:27,290 --> 00:08:25,800

and if they passed they could go down if

150

00:08:29,510 --> 00:08:27,300

not their instructions were to arrest

151
00:08:31,730 --> 00:08:29,520
them immediately and have somebody from

152
00:08:33,829 --> 00:08:31,740
above come down and get them

153
00:08:36,469 --> 00:08:33,839
what convinced you the Tennessee told

154
00:08:42,110 --> 00:08:40,250
we we only have uh

155
00:08:42,829 --> 00:08:42,120
look at them in the eye and talking to

156
00:08:46,490 --> 00:08:42,839
him

157
00:08:47,570 --> 00:08:46,500
with we've analyzed his voice during the

158
00:08:50,389 --> 00:08:47,580
narration

159
00:08:53,329 --> 00:08:50,399
doesn't show any signs of stress uh

160
00:08:56,269 --> 00:08:53,339
we've had we've heard rumors of some

161
00:08:57,650 --> 00:08:56,279
details inside from others that has

162
00:09:00,290 --> 00:08:57,660
never been released or published so

163
00:09:03,350 --> 00:09:00,300

unless they were on the inside Circle

164

00:09:04,850 --> 00:09:03,360

and and knew what was being held back

165

00:09:06,590 --> 00:09:04,860

most people would never know the

166

00:09:09,829 --> 00:09:06,600

information that he gave us

167

00:09:12,170 --> 00:09:09,839

checked with other information we

168

00:09:13,670 --> 00:09:12,180

already had and it has checked since

169

00:09:15,410 --> 00:09:13,680

with other information that we have
