

1
00:00:03,710 --> 00:00:02,270
I'm a student

2
00:00:04,749 --> 00:00:03,720
freshman up at Northern Illinois

3
00:00:10,089 --> 00:00:04,759
University

4
00:00:13,249 --> 00:00:10,099
1971 October it was a clear beautiful

5
00:00:16,849 --> 00:00:13,259
day with a couple of clouds in the sky I

6
00:00:19,370 --> 00:00:16,859
was on my way over to my Southeast Asian

7
00:00:22,849 --> 00:00:19,380
political systems class and I was taking

8
00:00:26,269 --> 00:00:22,859
a bus from the dormitory and I was

9
00:00:28,790 --> 00:00:26,279
around 11 A.M and I noticed a

10
00:00:31,669 --> 00:00:28,800
a strange object above the Student Union

11
00:00:32,630 --> 00:00:31,679
building which is about a 12-story

12
00:00:35,330 --> 00:00:32,640
building

13
00:00:37,370 --> 00:00:35,340

and it was like an aircraft without a

14

00:00:40,369 --> 00:00:37,380

fuse slash and it was just suspended

15

00:00:44,090 --> 00:00:40,379

above the building and it looked uh

16

00:00:45,590 --> 00:00:44,100

great non-reflective uh in coloration it

17

00:00:48,770 --> 00:00:45,600

kind of truncated

18

00:00:51,590 --> 00:00:48,780

at one end it was probably the twice the

19

00:00:54,529 --> 00:00:51,600

size of a normal commercial airliner

20

00:00:57,709 --> 00:00:54,539

and what was interesting about it was it

21

00:01:01,250 --> 00:00:57,719

was it just suspended there and it was

22

00:01:03,770 --> 00:01:01,260

like the gray color in the stealth type

23

00:01:06,350 --> 00:01:03,780

craft that you see today

24

00:01:08,149 --> 00:01:06,360

and what was interesting was that there

25

00:01:10,070 --> 00:01:08,159

were a lot of people who saw it but most

26

00:01:13,190 --> 00:01:10,080

people seemed to ignore it and just

27

00:01:15,710 --> 00:01:13,200

continue about their business and that

28

00:01:20,090 --> 00:01:15,720

was my first experience then I had a

29

00:01:21,950 --> 00:01:20,100

period of about two hours missing time a

30

00:01:25,130 --> 00:01:21,960

couple of weeks later

31

00:01:27,649 --> 00:01:25,140

I had a friend who has an art gallery

32

00:01:30,410 --> 00:01:27,659

and we were supposed to have a meeting

33

00:01:35,210 --> 00:01:30,420

that afternoon and I was up in my fifth

34

00:01:37,850 --> 00:01:35,220

floor dorm Stevenson South

35

00:01:41,390 --> 00:01:37,860

and uh

36

00:01:43,969 --> 00:01:41,400

he claims that he telephone me from the

37

00:01:45,170 --> 00:01:43,979

lobby downstairs continuously for over

38

00:01:47,390 --> 00:01:45,180

an hour

39

00:01:50,929 --> 00:01:47,400
and that there was no response from my

40

00:01:53,450 --> 00:01:50,939
room and that all I remember is that I

41

00:01:56,090 --> 00:01:53,460
was looking out the window out over the

42

00:01:59,330 --> 00:01:56,100
campus and it was slightly overcast out

43

00:02:01,429 --> 00:01:59,340
and I realized well that time has gone

44

00:02:03,789 --> 00:02:01,439
by but at first it seemed like about 15

45

00:02:08,710 --> 00:02:03,799
minutes and I wondered what happened to

46

00:02:11,990 --> 00:02:08,720
the guy who was meeting me for a lunch

47

00:02:15,470 --> 00:02:12,000
and so I tried to call him

48

00:02:19,130 --> 00:02:15,480
and he had left and told me he had tried

49

00:02:24,050 --> 00:02:19,140
to contact me and assumed I wasn't there

50

00:02:30,350 --> 00:02:26,710
and I had another experience

51
00:02:32,930 --> 00:02:30,360
I have a friend who is a working in the

52
00:02:35,330 --> 00:02:32,940
physics section of the uh Library

53
00:02:37,490 --> 00:02:35,340
Northern Illinois University

54
00:02:39,949 --> 00:02:37,500
and he wanted to show me the lightning

55
00:02:41,869 --> 00:02:39,959
bugs out over the corn fields and the

56
00:02:42,910 --> 00:02:41,879
stars in the sky he thought it was the

57
00:02:46,070 --> 00:02:42,920
most beautiful

58
00:02:49,729 --> 00:02:46,080
site and we drove out down this Farm

59
00:02:51,229 --> 00:02:49,739
Road and there are these fireflies and

60
00:02:54,830 --> 00:02:51,239
it's incredible

61
00:02:57,290 --> 00:02:54,840
and we're heading back towards town and

62
00:02:59,509 --> 00:02:57,300
we're by this huge oak tree and all of a

63
00:03:02,530 --> 00:02:59,519

sudden a large ball of white light

64

00:03:05,750 --> 00:03:02,540

with a 100 foot tail comes by

65

00:03:07,610 --> 00:03:05,760

soundlessly uh he loses control of the

66

00:03:10,550 --> 00:03:07,620

Volkswagen that he's driving we go into

67

00:03:12,170 --> 00:03:10,560

a ditch the thing disappears about three

68

00:03:13,190 --> 00:03:12,180

feet above the ground in front of our

69

00:03:16,009 --> 00:03:13,200

car

70

00:03:17,990 --> 00:03:16,019

and there's no no sound no nothing we go

71

00:03:19,790 --> 00:03:18,000

back to town we're not hurt

72

00:03:21,949 --> 00:03:19,800

we thought for sure this is about the

73

00:03:24,050 --> 00:03:21,959

time that the kuhotek comet was supposed

74

00:03:26,030 --> 00:03:24,060

to be coming through

75

00:03:27,770 --> 00:03:26,040

and which they had been reporting the

76

00:03:29,390 --> 00:03:27,780

press and we thought well maybe there's

77

00:03:31,610 --> 00:03:29,400

some connection to what we saw and it'll

78

00:03:33,830 --> 00:03:31,620

be on the news that evening we came back

79

00:03:35,390 --> 00:03:33,840

there was no mention whatsoever of any

80

00:03:37,430 --> 00:03:35,400

large object appearing over the

81

00:03:39,470 --> 00:03:37,440

cornfields of DeKalb

82

00:03:42,649 --> 00:03:39,480

and so we just talked about this among

83

00:03:44,630 --> 00:03:42,659

ourselves and uh okay that's one

84

00:03:48,289 --> 00:03:44,640

incident let's see two incidents the

85

00:03:51,770 --> 00:03:48,299

third incident uh slow moving red and

86

00:03:53,809 --> 00:03:51,780

orange Fireball going about 25 miles per

87

00:03:56,570 --> 00:03:53,819

hour over the Treetops near the

88

00:03:58,570 --> 00:03:56,580

dormitory towards downtown DeKalb

89

00:04:01,210 --> 00:03:58,580

towards an old deserted Park

90

00:04:04,970 --> 00:04:01,220

this object seemed to have like an

91

00:04:08,509 --> 00:04:04,980

underlining flame sort of like a plasma

92

00:04:10,970 --> 00:04:08,519

I was with two other girls one of my

93

00:04:13,009 --> 00:04:10,980

roommates said to me Valerie did you see

94

00:04:14,509 --> 00:04:13,019

that and I looked up and I saw the same

95

00:04:17,930 --> 00:04:14,519

thing she saw there were three of us

96

00:04:20,750 --> 00:04:17,940

that witnessed that we did not report

97

00:04:23,210 --> 00:04:20,760

any of this because back in 71 nobody

98

00:04:27,430 --> 00:04:23,220

reported anything but I was not

99

00:04:31,430 --> 00:04:27,440

interested in UFOs I was interested in

100

00:04:34,550 --> 00:04:31,440

politics I was going to a meeting

101

00:04:37,969 --> 00:04:34,560

of Libertarians I was involved in the

102

00:04:40,430 --> 00:04:37,979

libertarian party and was interested in

103

00:04:43,370 --> 00:04:40,440

let's say fair capitalism and the gold

104

00:04:46,370 --> 00:04:43,380

standard and I had other interests and I

105

00:04:48,469 --> 00:04:46,380

couldn't care less about UFOs because it

106

00:04:50,870 --> 00:04:48,479

kind of intruded into my personal life

107

00:04:52,850 --> 00:04:50,880

uh

108

00:04:54,650 --> 00:04:52,860

and I would say there was dramatic

109

00:04:56,830 --> 00:04:54,660

change in my life after this I was

110

00:04:59,749 --> 00:04:56,840

working for a publishing company off

111

00:05:02,870 --> 00:04:59,759

campus and they published a television

112

00:05:05,210 --> 00:05:02,880

guide and I was doing the proof reading

113

00:05:07,370 --> 00:05:05,220

uh and I did it for a science program

114

00:05:10,490 --> 00:05:07,380

that they were

115

00:05:12,590 --> 00:05:10,500

putting in the digest and they had two

116

00:05:15,590 --> 00:05:12,600

photographs an eight two eight by tens

117

00:05:18,170 --> 00:05:15,600

one of a galaxy and one of a micro uh

118

00:05:21,350 --> 00:05:18,180

microbe and I asked him if I could have

119

00:05:22,909 --> 00:05:21,360

all the science uh photos and they said

120

00:05:25,790 --> 00:05:22,919

sure you can have them so I put them in

121

00:05:29,510 --> 00:05:25,800

a manila envelope and I went down to

122

00:05:31,310 --> 00:05:29,520

this restaurant uh downtown DeKalb and

123

00:05:34,189 --> 00:05:31,320

this man came in

124

00:05:37,730 --> 00:05:34,199

and he was about in his 50s

125

00:05:40,129 --> 00:05:37,740

and he came in the waitress seated him

126
00:05:42,650 --> 00:05:40,139
across from me and he started talking to

127
00:05:44,749 --> 00:05:42,660
me in a friendly conversation and he

128
00:05:46,430 --> 00:05:44,759
knew everything about me and he knew I

129
00:05:48,409 --> 00:05:46,440
was an artist he knew what my interests

130
00:05:49,909 --> 00:05:48,419
were he knew my family he knew things

131
00:05:52,129 --> 00:05:49,919
that were personal which he shouldn't

132
00:05:54,590 --> 00:05:52,139
have no business knowing at all

133
00:05:56,270 --> 00:05:54,600
and he said he was a businessman from

134
00:05:58,790 --> 00:05:56,280
Sycamore and if I'd be interested in

135
00:06:01,249 --> 00:05:58,800
painting uh the brick brick in his

136
00:06:04,029 --> 00:06:01,259
living room in his Victorian house

137
00:06:06,950 --> 00:06:04,039
so I said well I was looking for work

138
00:06:08,629 --> 00:06:06,960

and I said I would be interested so we

139

00:06:12,050 --> 00:06:08,639

arranged for a meeting

140

00:06:13,730 --> 00:06:12,060

and he came in a Black Limousine picked

141

00:06:16,310 --> 00:06:13,740

me up at the house where I was staying

142

00:06:18,650 --> 00:06:16,320

he had a tape recorder in his car put a

143

00:06:21,350 --> 00:06:18,660

tape in the tape said he was an

144

00:06:24,950 --> 00:06:21,360

extraterrestrial on a type Peace Corps

145

00:06:28,070 --> 00:06:24,960

type situation and he was recruiting

146

00:06:30,770 --> 00:06:28,080

and he wanted me to work for him to

147

00:06:35,629 --> 00:06:30,780

manage a gift shop in Sycamore

148

00:06:37,309 --> 00:06:35,639

and I was a bit incredulous but no this

149

00:06:41,930 --> 00:06:37,319

man was very strange he knew too much

150

00:06:45,770 --> 00:06:43,909

but it was all connected in that time

151
00:06:48,050 --> 00:06:45,780
frame with the UFO sightings I had had

152
00:06:52,070 --> 00:06:48,060
he knew about the sightings

153
00:06:54,469 --> 00:06:52,080
so either he was truly on someone of an

154
00:06:56,210 --> 00:06:54,479
extraterrestrial origin or he was a

155
00:06:58,490 --> 00:06:56,220
government agent like he could have been

156
00:07:01,850 --> 00:06:58,500
CIA recruiting I don't know

157
00:07:04,670 --> 00:07:01,860
except that I I was 21 and I thought it

158
00:07:05,870 --> 00:07:04,680
was a little bizarre

159
00:07:09,290 --> 00:07:05,880
so

160
00:07:11,629 --> 00:07:09,300
um I packed up I decided to leave town

161
00:07:14,390 --> 00:07:11,639
now tell anyone where I'm going

162
00:07:16,309 --> 00:07:14,400
and I had accepted a job at an art

163
00:07:17,930 --> 00:07:16,319

gallery in Houston I hopped in the

164

00:07:19,610 --> 00:07:17,940

Greyhound bus I didn't tell my family

165

00:07:22,790 --> 00:07:19,620

where I was going went down to Houston

166

00:07:25,490 --> 00:07:22,800

Texas got to Houston Texas uh was at the

167

00:07:27,350 --> 00:07:25,500

art gallery the manager's son came in

168

00:07:29,510 --> 00:07:27,360

one afternoon and said there was a UFO

169

00:07:31,249 --> 00:07:29,520

over the art gallery

170

00:07:33,589 --> 00:07:31,259

and

171

00:07:35,629 --> 00:07:33,599

I didn't see that but that we had not

172

00:07:38,089 --> 00:07:35,639

discussed this either I had told him

173

00:07:40,070 --> 00:07:38,099

anything about my experiences back in

174

00:07:42,230 --> 00:07:40,080

Illinois

175

00:07:44,870 --> 00:07:42,240

I decided to go for a walk one afternoon

176

00:07:52,189 --> 00:07:44,880

I went over to this bookstore down by

177

00:07:57,770 --> 00:07:55,129

told me about a man who was a scientist

178

00:08:00,050 --> 00:07:57,780

who was with a corporation who was

179

00:08:01,969 --> 00:08:00,060

looking for an artist to do the logos

180

00:08:05,330 --> 00:08:01,979

for the corporation

181

00:08:07,430 --> 00:08:05,340

and she also knew I was having a

182

00:08:10,070 --> 00:08:07,440

terrible time with this uh

183

00:08:11,570 --> 00:08:10,080

art gallery and she offered me a place

184

00:08:14,210 --> 00:08:11,580

to stay so I moved out of the art

185

00:08:16,610 --> 00:08:14,220

gallery got away from them

186

00:08:19,969 --> 00:08:16,620

and she introduced me to the magnetic

187

00:08:22,850 --> 00:08:19,979

energy corporation in Houston Texas and

188

00:08:25,670 --> 00:08:22,860

this one man was a scientist and an

189

00:08:29,330 --> 00:08:25,680

artist in an inventor

190

00:08:31,490 --> 00:08:29,340

and he his name was Ashton Moshell

191

00:08:33,469 --> 00:08:31,500

and he had two birth certificates one

192

00:08:35,089 --> 00:08:33,479

German one American

193

00:08:37,250 --> 00:08:35,099

and I went out with him a couple of

194

00:08:39,230 --> 00:08:37,260

times I agreed to do the the corporate

195

00:08:41,149 --> 00:08:39,240

seals and have copies of these seals

196

00:08:43,909 --> 00:08:41,159

that I did and they paid me for them but

197

00:08:47,269 --> 00:08:43,919

in the interim I had an unusual

198

00:08:50,210 --> 00:08:47,279

experience with him because he also had

199

00:08:53,210 --> 00:08:50,220

a record which had the same

200

00:08:56,389 --> 00:08:53,220

uh message on it that the man in Dekalb

201

00:08:59,570 --> 00:08:56,399

I met whose name was Jeremiah Van Kirk

202

00:09:02,650 --> 00:08:59,580

uh Ashton Moshell had exact same message

203

00:09:04,970 --> 00:09:02,660

on this record that he was working with

204

00:09:07,670 --> 00:09:04,980

extraterrestrials on magnetic engines

205

00:09:10,730 --> 00:09:07,680

for spacecraft and was in communication

206

00:09:12,350 --> 00:09:10,740

with 100 scientists

207

00:09:14,930 --> 00:09:12,360

and um

208

00:09:16,370 --> 00:09:14,940

the location for his project is going to

209

00:09:19,009 --> 00:09:16,380

what's going to be the exact location

210

00:09:22,370 --> 00:09:19,019

where they had the superconducting super

211

00:09:23,750 --> 00:09:22,380

collider slated for which I found really

212

00:09:25,550 --> 00:09:23,760

unusual because I didn't know this until

213

00:09:27,470 --> 00:09:25,560

like 20 years later I'm a logical

214

00:09:29,690 --> 00:09:27,480

Viewpoint they say it's impossible

215

00:09:32,170 --> 00:09:29,700

because of large distances involved

216

00:09:34,910 --> 00:09:32,180

except if there are wormholes and

217

00:09:37,310 --> 00:09:34,920

terrors in time and like Bob Lazar said

218

00:09:40,490 --> 00:09:37,320

you can bend and stretch space

219

00:09:42,710 --> 00:09:40,500

in the time continuum then it would be

220

00:09:45,829 --> 00:09:42,720

feasible for people to travel from other

221

00:09:48,350 --> 00:09:45,839

galaxies and other planets and systems

222

00:09:49,910 --> 00:09:48,360

and there are billions of star systems

223

00:09:52,790 --> 00:09:49,920

and so if there are billions of star

224

00:09:55,009 --> 00:09:52,800

systems there must be billions of suns

225

00:09:56,230 --> 00:09:55,019

and there must be billions of planets so

226

00:09:58,670 --> 00:09:56,240

uh

227

00:10:01,490 --> 00:09:58,680

mathematically speaking the odds are in

228

00:10:02,829 --> 00:10:01,500

favor of intelligent life and I

229

00:10:05,329 --> 00:10:02,839

personally feel they probably

230

00:10:08,750 --> 00:10:05,339

intermingled with us in past

231

00:10:11,150 --> 00:10:08,760

civilizations previously and there have

232

00:10:12,889 --> 00:10:11,160

been encounters and they could possibly

233

00:10:14,829 --> 00:10:12,899

for all we know have some kind of

234

00:10:17,150 --> 00:10:14,839

arrangement

235

00:10:19,790 --> 00:10:17,160

trade-wise or

236

00:10:23,470 --> 00:10:19,800

in other respects I don't know it could

237

00:10:27,170 --> 00:10:23,480

be multiple interests it could be purely

238

00:10:30,050 --> 00:10:27,180

mercenary so self-serving

239

00:10:32,690 --> 00:10:30,060

it could be trade it could they could

240

00:10:36,470 --> 00:10:32,700

need our resources such as our water

241

00:10:39,470 --> 00:10:36,480

it could be for educational purposes

242

00:10:40,430 --> 00:10:39,480

it could be exploitive

243

00:10:42,710 --> 00:10:40,440

um

244

00:10:45,050 --> 00:10:42,720

just as there are different types of

245

00:10:48,069 --> 00:10:45,060

governments on this planet and different

246

00:10:52,490 --> 00:10:48,079

types of people it could be anything
