

1
00:00:04,730 --> 00:00:03,230
now Paul told me on my first business

2
00:00:08,570 --> 00:00:04,740
and that was what I started with how did

3
00:00:10,970 --> 00:00:08,580
this all begin and he said that he was a

4
00:00:13,549 --> 00:00:10,980
worked for a power company in California

5
00:00:16,310 --> 00:00:13,559
south of Los Angeles someplace and that

6
00:00:17,390 --> 00:00:16,320
his his uh he was checking power lines

7
00:00:20,330 --> 00:00:17,400
and his

8
00:00:21,109 --> 00:00:20,340
route was south of Los Angeles along the

9
00:00:25,009 --> 00:00:21,119
coast

10
00:00:28,849 --> 00:00:25,019
and he said that he sat down uh on a

11
00:00:30,710 --> 00:00:28,859
beach at Rocky beach one time there was

12
00:00:34,430 --> 00:00:30,720
a Cove and a Cove to

13
00:00:36,530 --> 00:00:34,440

eat a sandwich and a man walked up to it

14

00:00:38,569 --> 00:00:36,540

and came around the big rock and walked

15

00:00:40,069 --> 00:00:38,579

up to him at the beach he was a tall man

16

00:00:42,170 --> 00:00:40,079

he was about uh

17

00:00:43,970 --> 00:00:42,180

six and a half to seven feet tall he was

18

00:00:47,690 --> 00:00:43,980

quite a bit taller than paw

19

00:00:49,190 --> 00:00:47,700

and he introduced himself gave him a

20

00:00:50,569 --> 00:00:49,200

name and I don't which I don't remember

21

00:00:53,150 --> 00:00:50,579

and uh

22

00:00:55,189 --> 00:00:53,160

uh Paula he asked him where he's from

23

00:00:57,410 --> 00:00:55,199

and he says not from around here he said

24

00:01:00,049 --> 00:00:57,420

I I come from elsewhere he said if you

25

00:01:03,229 --> 00:01:00,059

will step this way with me I'll show you

26
00:01:05,329 --> 00:01:03,239
my vehicle and Paul walked around the

27
00:01:08,030 --> 00:01:05,339
rock with him and there was a disc shape

28
00:01:09,170 --> 00:01:08,040
craft hovering up couple of feet off the

29
00:01:13,190 --> 00:01:09,180
water

30
00:01:16,429 --> 00:01:13,200
and the guy took Paul by the hand and

31
00:01:19,130 --> 00:01:16,439
and floated him to the ship

32
00:01:21,410 --> 00:01:19,140
and he was introduced to some others

33
00:01:23,749 --> 00:01:21,420
inside and he just remained there a very

34
00:01:27,230 --> 00:01:23,759
short time really he marveled at the

35
00:01:28,429 --> 00:01:27,240
fact that it wasn't in the water they

36
00:01:30,710 --> 00:01:28,439
told him that

37
00:01:32,390 --> 00:01:30,720
they would see him again

38
00:01:35,569 --> 00:01:32,400

and they let him out he didn't never saw

39

00:01:38,330 --> 00:01:35,579

him again in California but uh

40

00:01:40,249 --> 00:01:38,340

a year or so later he relocated to New

41

00:01:41,510 --> 00:01:40,259

Mexico where he became he worked for the

42

00:01:42,530 --> 00:01:41,520

highway department there and he was

43

00:01:45,950 --> 00:01:42,540

driving a

44

00:01:48,289 --> 00:01:45,960

a survey truck

45

00:01:51,310 --> 00:01:48,299

a pickup truck and his particular job

46

00:01:53,690 --> 00:01:51,320

was to drive the back roads and look for

47

00:01:57,109 --> 00:01:53,700

damage to

48

00:01:59,090 --> 00:01:57,119

Bridges Rural Road Bridges

49

00:02:01,370 --> 00:01:59,100

and he carried a Polaroid camera to

50

00:02:03,230 --> 00:02:01,380

photograph any any damage because it's

51
00:02:05,749 --> 00:02:03,240
easier to show the picture than to try

52
00:02:07,609 --> 00:02:05,759
to describe it in a lot of words

53
00:02:09,650 --> 00:02:07,619
when he was in this truck right here

54
00:02:12,770 --> 00:02:09,660
that that he used with the Polaroid

55
00:02:15,110 --> 00:02:12,780
camera on the seat when he drove down

56
00:02:17,809 --> 00:02:15,120
this dry riverbed and there's a lot of

57
00:02:21,170 --> 00:02:17,819
Willows and scrub that goes in there

58
00:02:22,790 --> 00:02:21,180
30 40 feet tall and the road winds

59
00:02:24,530 --> 00:02:22,800
around among these and he came around to

60
00:02:26,210 --> 00:02:24,540
turn and they're set to craft in the

61
00:02:28,250 --> 00:02:26,220
sand there's three women and four men

62
00:02:29,809 --> 00:02:28,260
outside they invited him aboard and he

63
00:02:31,850 --> 00:02:29,819

he went aboard and looked around with

64

00:02:33,770 --> 00:02:31,860

them they talked to him aboard there for

65

00:02:35,270 --> 00:02:33,780

about 15 minutes telling him who they

66

00:02:39,110 --> 00:02:35,280

were and how they had been watching him

67

00:02:40,790 --> 00:02:39,120

for some time that that they

68

00:02:42,170 --> 00:02:40,800

they had a special he had a special

69

00:02:44,390 --> 00:02:42,180

relationship with them or they had a

70

00:02:48,910 --> 00:02:44,400

special relationship with him that he

71

00:02:51,110 --> 00:02:48,920

had agreed to this these relationships

72

00:02:52,790 --> 00:02:51,120

sometime much earlier probably before

73

00:02:53,990 --> 00:02:52,800

birth but he didn't understand it that

74

00:02:58,009 --> 00:02:54,000

way

75

00:03:00,290 --> 00:02:58,019

um and that uh

76

00:03:02,570 --> 00:03:00,300

there there was a reason why all this

77

00:03:03,949 --> 00:03:02,580

was happening to him

78

00:03:06,050 --> 00:03:03,959

and

79

00:03:07,130 --> 00:03:06,060

they didn't have any children aboard he

80

00:03:09,290 --> 00:03:07,140

asked them if they had them they said

81

00:03:11,390 --> 00:03:09,300

yes but not on this craft they that

82

00:03:12,710 --> 00:03:11,400

craft came from a larger craft elsewhere

83

00:03:14,869 --> 00:03:12,720

in space

84

00:03:17,449 --> 00:03:14,879

they had been coming and going for some

85

00:03:19,190 --> 00:03:17,459

time they said they had other contactees

86

00:03:21,589 --> 00:03:19,200

but they never told him who the other

87

00:03:25,449 --> 00:03:21,599

contactees were and we've never heard of

88

00:03:28,190 --> 00:03:25,459

any other states they they did not

89

00:03:28,970 --> 00:03:28,200

encourage him to get any attention over

90

00:03:31,790 --> 00:03:28,980

this

91

00:03:33,110 --> 00:03:31,800

they they kept a low profile they did

92

00:03:35,750 --> 00:03:33,120

contact him

93

00:03:37,850 --> 00:03:35,760

on a frequency of maybe two to three

94

00:03:39,589 --> 00:03:37,860

times a year and and they weren't here

95

00:03:41,750 --> 00:03:39,599

all the time they would come and go when
