

1
00:00:04,070 --> 00:00:02,570
that he and his wife were at home after

2
00:00:05,570 --> 00:00:04,080
supper one time when a neighbor lady

3
00:00:06,410 --> 00:00:05,580
came to the door to borrow a cup of

4
00:00:09,049 --> 00:00:06,420
sugar

5
00:00:10,790 --> 00:00:09,059
and as his wife looked out over the

6
00:00:12,230 --> 00:00:10,800
neighbor lady's head she saw the pinkish

7
00:00:13,970 --> 00:00:12,240
orange light which she recognizes now

8
00:00:16,970 --> 00:00:13,980
she's seen it enough time she knows what

9
00:00:18,590 --> 00:00:16,980
it is it's Bill's friend so she says

10
00:00:19,970 --> 00:00:18,600
Bill your your friend is out here and he

11
00:00:21,890 --> 00:00:19,980
came and looked at his bike only it is

12
00:00:23,630 --> 00:00:21,900
he said I think I'll get my jacket and

13
00:00:26,269 --> 00:00:23,640

go out and take a look better look at it

14

00:00:28,070 --> 00:00:26,279

it was flying the what they have not

15

00:00:30,470 --> 00:00:28,080

recognized as a peculiar triangular

16

00:00:32,870 --> 00:00:30,480

pattern along the power lines that run

17

00:00:35,090 --> 00:00:32,880

down the Ashley River there and so he

18

00:00:37,549 --> 00:00:35,100

got his jacket on and a binoculars put

19

00:00:39,229 --> 00:00:37,559

him around his neck and walked out the

20

00:00:42,830 --> 00:00:39,239

door in his little trailer park where

21

00:00:45,770 --> 00:00:42,840

his trailer home was parked and across a

22

00:00:48,709 --> 00:00:45,780

shallow nearly dry damp ditch and up

23

00:00:51,290 --> 00:00:48,719

onto a railroad track that ran about uh

24

00:00:53,270 --> 00:00:51,300

15 10 or 15 feet above the level of the

25

00:00:55,189 --> 00:00:53,280

trailer park he got up on the track and

26
00:00:57,290 --> 00:00:55,199
started walking down the track watching

27
00:00:59,510 --> 00:00:57,300
it flying these triangular patterns over

28
00:01:02,569 --> 00:00:59,520
the power lines ahead of him probably

29
00:01:04,250 --> 00:01:02,579
two or three miles away which is not in

30
00:01:07,730 --> 00:01:04,260
the air that's not very far

31
00:01:09,890 --> 00:01:07,740
and he he had his binoculars out

32
00:01:11,510 --> 00:01:09,900
looking at the objects when it dropped

33
00:01:12,289 --> 00:01:11,520
out of the binoculars it dropped Like a

34
00:01:14,990 --> 00:01:12,299
Stone

35
00:01:17,570 --> 00:01:15,000
and he lured the binoculars to see where

36
00:01:19,670 --> 00:01:17,580
it crashed and he saw it just over the

37
00:01:22,010 --> 00:01:19,680
water of the Ashley River at water level

38
00:01:24,230 --> 00:01:22,020

and he thought oh my God it's crashed

39

00:01:26,690 --> 00:01:24,240

right into the river when at that point

40

00:01:29,630 --> 00:01:26,700

it it approached me it filled the sky

41

00:01:32,810 --> 00:01:29,640

like that and it came so fast and so big

42

00:01:35,450 --> 00:01:32,820

and and so close he shied back like that

43

00:01:37,670 --> 00:01:35,460

and caught his foot on the rail of the

44

00:01:40,010 --> 00:01:37,680

railroad track and began to fall

45

00:01:42,050 --> 00:01:40,020

and he put his hands out to see what you

46

00:01:43,670 --> 00:01:42,060

know there's a jagged rocks down there

47

00:01:45,350 --> 00:01:43,680

you can get skinned up pretty good to

48

00:01:47,510 --> 00:01:45,360

see what he was falling on and he

49

00:01:49,850 --> 00:01:47,520

noticed he was not falling he was Rising

50

00:01:51,710 --> 00:01:49,860

away from the rocks and the Reeds tall

51
00:01:54,649 --> 00:01:51,720
grass was broke blowing away from him in

52
00:01:56,149 --> 00:01:54,659
in waves and he looked back and he's

53
00:01:58,130 --> 00:01:56,159
above the railroad track and he's going

54
00:02:00,590 --> 00:01:58,140
up in a blue beam of light

55
00:02:03,950 --> 00:02:00,600
I was about like this just looking at it

56
00:02:09,130 --> 00:02:03,960
and then I just fell back like this and

57
00:02:13,430 --> 00:02:11,570
like this and then the light was all the

58
00:02:18,190 --> 00:02:13,440
way around me and I put I want to push

59
00:02:24,170 --> 00:02:21,949
because the object filled area from that

60
00:02:26,930 --> 00:02:24,180
bush to that bush it just filled the

61
00:02:29,089 --> 00:02:26,940
area The Light Came From the looked like

62
00:02:31,610 --> 00:02:29,099
it came from the edge didn't come at

63
00:02:33,589 --> 00:02:31,620

first I thought it came from the bottom

64

00:02:34,550 --> 00:02:33,599

but after the hypnosis and after the

65

00:02:36,410 --> 00:02:34,560

recall

66

00:02:37,790 --> 00:02:36,420

I realized that it didn't come so much

67

00:02:40,010 --> 00:02:37,800

from the bottom as it did from the edge

68

00:02:42,350 --> 00:02:40,020

of the object uh you know the rim around

69

00:02:44,050 --> 00:02:42,360

the rim he said that the the light felt

70

00:02:47,210 --> 00:02:44,060

like uh

71

00:02:51,949 --> 00:02:47,220

a low voltage electrical current

72

00:02:54,410 --> 00:02:51,959

like that a cyclic tugging up the beam

73

00:02:56,570 --> 00:02:54,420

of light until and he looked up and it

74

00:02:58,309 --> 00:02:56,580

looked like it went into a cloudy the

75

00:02:59,990 --> 00:02:58,319

beam was so coherent he put his arm out

76
00:03:01,190 --> 00:03:00,000
and the arm went out of the beam and he

77
00:03:02,270 --> 00:03:01,200
could pull it back in it's in the beam

78
00:03:03,170 --> 00:03:02,280
again he didn't touch anything going

79
00:03:06,410 --> 00:03:03,180
through

80
00:03:09,170 --> 00:03:06,420
and and he rose up and when he got into

81
00:03:12,350 --> 00:03:09,180
the cloud he passed out and woke up on

82
00:03:13,790 --> 00:03:12,360
an examining table and that's the time

83
00:03:16,130 --> 00:03:13,800
in between he didn't remember anything

84
00:03:17,330 --> 00:03:16,140
of course when he first came back he

85
00:03:19,729 --> 00:03:17,340
didn't really remember a whole lot of

86
00:03:22,610 --> 00:03:19,739
that either that took time to develop

87
00:03:23,630 --> 00:03:22,620
the details by stressing his memory to

88
00:03:25,369 --> 00:03:23,640

get it

89

00:03:27,530 --> 00:03:25,379

first thing I remember looking at was

90

00:03:29,690 --> 00:03:27,540

this bar of lights flashing slowly above

91

00:03:32,390 --> 00:03:29,700

my head now this is what the bar of

92

00:03:34,550 --> 00:03:32,400

lights look like laying on a table your

93

00:03:38,930 --> 00:03:34,560

head is up here yeah and you're looking

94

00:03:41,809 --> 00:03:38,940

up you see blue green red blue green

95

00:03:43,550 --> 00:03:41,819

blue red green blue you know back and

96

00:03:44,809 --> 00:03:43,560

forth flash flash flash flash flash

97

00:03:48,350 --> 00:03:44,819

flash flash flash flash flash flash

98

00:03:51,289 --> 00:03:48,360

flash flash flat and it was doing this

99

00:03:53,930 --> 00:03:51,299

and the slower this went

100

00:03:57,289 --> 00:03:53,940

the more conscious I became and we're

101
00:04:03,770 --> 00:03:57,299
able to wake up to look and look around

102
00:04:10,550 --> 00:04:07,250
it's like it's

103
00:04:12,110 --> 00:04:10,560
it's hard to really sometimes grasp but

104
00:04:13,970 --> 00:04:12,120
it was like

105
00:04:16,490 --> 00:04:13,980
I thought in my mind there were doctors

106
00:04:18,530 --> 00:04:16,500
or I've been hurt I've fallen I remember

107
00:04:20,030 --> 00:04:18,540
the train tracks I didn't remember the

108
00:04:21,830 --> 00:04:20,040
object as much as I remembered falling

109
00:04:24,110 --> 00:04:21,840
as the train tracks

110
00:04:25,850 --> 00:04:24,120
and I remember falling and I thought oh

111
00:04:27,290 --> 00:04:25,860
I must have broken my back I must have

112
00:04:29,629 --> 00:04:27,300
somebody must have found me and I'm in a

113
00:04:32,150 --> 00:04:29,639

hospital you know and all these thoughts

114

00:04:33,590 --> 00:04:32,160

are written in my heads until

115

00:04:35,749 --> 00:04:33,600

three people that were standing there

116

00:04:37,010 --> 00:04:35,759

turned and looked at me and I had

117

00:04:38,390 --> 00:04:37,020

noticed that before they had turned they

118

00:04:40,790 --> 00:04:38,400

were looking at this bar of lights

119

00:04:42,409 --> 00:04:40,800

flashing on the ceiling yeah and they

120

00:04:45,890 --> 00:04:42,419

were looking at a box that seemed to be

121

00:04:48,110 --> 00:04:45,900

off to the side at my feet

122

00:04:50,270 --> 00:04:48,120

and the box was connected to the bed you

123

00:04:52,070 --> 00:04:50,280

could tell it was connected by wires to

124

00:04:53,930 --> 00:04:52,080

the bed I was laying on at the table or

125

00:04:56,330 --> 00:04:53,940

whatever it was

126
00:04:58,189 --> 00:04:56,340
and when they turned and looked at me it

127
00:05:01,249 --> 00:04:58,199
was like

128
00:05:04,189 --> 00:05:01,259
all kinds of emotions this surged to the

129
00:05:05,450 --> 00:05:04,199
surface at once now this is a sketch of

130
00:05:08,270 --> 00:05:05,460
what I believe

131
00:05:10,010 --> 00:05:08,280
I saw standing next to my bed

132
00:05:11,450 --> 00:05:10,020
or a table or whatever you want to call

133
00:05:13,610 --> 00:05:11,460
it

134
00:05:15,710 --> 00:05:13,620
four and a half feet tall

135
00:05:18,350 --> 00:05:15,720
with a red garment looked like a

136
00:05:20,510 --> 00:05:18,360
pullover jumpsuit not not pajamas more

137
00:05:23,749 --> 00:05:20,520
military looking

138
00:05:27,129 --> 00:05:23,759

and uh the eyes were spaced apart like

139

00:05:31,010 --> 00:05:27,139

ovals with circles inside dark circles

140

00:05:35,090 --> 00:05:33,710

occupant when they like when they told

141

00:05:37,249 --> 00:05:35,100

me to get up

142

00:05:38,870 --> 00:05:37,259

and it was okay I heard the voice but I

143

00:05:41,590 --> 00:05:38,880

did not see the lips move

144

00:05:44,450 --> 00:05:41,600

I heard it as clear as you hear my voice

145

00:05:47,450 --> 00:05:44,460

in English I was in English perfect

146

00:05:50,510 --> 00:05:47,460

English not not accented not deep not

147

00:05:52,430 --> 00:05:50,520

high just English I felt afraid because

148

00:05:54,170 --> 00:05:52,440

I know what was going on I felt like

149

00:05:55,490 --> 00:05:54,180

this is totally foreign everything I

150

00:05:57,529 --> 00:05:55,500

believe

151
00:05:58,810 --> 00:05:57,539
uh what is going on here why am I here

152
00:06:00,770 --> 00:05:58,820
what is this

153
00:06:03,850 --> 00:06:00,780
all these thoughts going through my head

154
00:06:07,249 --> 00:06:03,860
and all he could say was don't be afraid

155
00:06:08,749 --> 00:06:07,259
you know it's like all my emotions and

156
00:06:11,749 --> 00:06:08,759
fears were just

157
00:06:14,029 --> 00:06:11,759
tossed aside by the comforting Assurance

158
00:06:16,010 --> 00:06:14,039
of what he said to me

159
00:06:18,230 --> 00:06:16,020
don't be afraid I have no fear or

160
00:06:20,029 --> 00:06:18,240
something of that effect uh come the

161
00:06:22,909 --> 00:06:20,039
time is limited or something about like

162
00:06:25,309 --> 00:06:22,919
that the object itself is like a

163
00:06:28,850 --> 00:06:25,319

like a

164

00:06:30,830 --> 00:06:28,860

round pancake shake with a dome on top

165

00:06:33,170 --> 00:06:30,840

and a dome on the bottom right but it

166

00:06:35,450 --> 00:06:33,180

looks sealed and metal in other words

167

00:06:38,270 --> 00:06:35,460

you didn't see no windows or no holes or

168

00:06:40,430 --> 00:06:38,280

nothing it moved in the circle above I'd

169

00:06:42,290 --> 00:06:40,440

say about 800 to a thousand maybe 1500

170

00:06:46,850 --> 00:06:42,300

feet above the ground

171

00:06:49,309 --> 00:06:46,860

and it moved and uh not as as

172

00:06:52,550 --> 00:06:49,319

obvious triangles but kind of in a

173

00:06:55,309 --> 00:06:52,560

flowing graceful dynamical fashion oh I

174

00:06:56,930 --> 00:06:55,319

mean just sliding in across the sky you

175

00:06:59,290 --> 00:06:56,940

know not doing anything that would give

176

00:07:03,110 --> 00:06:59,300

it an impression it would lose control

177

00:07:04,490 --> 00:07:03,120

in spite of its erratic Behavior you

178

00:07:06,469 --> 00:07:04,500

could tell it was in total control of

179

00:07:08,689 --> 00:07:06,479

itself I mean it was just

180

00:07:10,969 --> 00:07:08,699

it was it was the most one of the most

181

00:07:13,370 --> 00:07:10,979

beautiful displays of aerodynamics I've

182

00:07:14,570 --> 00:07:13,380

ever seen as far as being involved in

183

00:07:17,150 --> 00:07:14,580

this subject

184

00:07:18,350 --> 00:07:17,160

so you try to take a picture I tried the

185

00:07:20,330 --> 00:07:18,360

first shot I believe the first shot I

186

00:07:22,550 --> 00:07:20,340

took came out empty Sky it was moving so

187

00:07:23,930 --> 00:07:22,560

fast I mean it would go up like this and

188

00:07:26,570 --> 00:07:23,940

come back like this

189

00:07:29,210 --> 00:07:26,580

come around like that I'm just watching

190

00:07:30,950 --> 00:07:29,220

it was you know it was hard because when

191

00:07:32,930 --> 00:07:30,960

it would go that way I'd run across the

192

00:07:34,189 --> 00:07:32,940

field and I'm trying to get into the

193

00:07:36,350 --> 00:07:34,199

viewfinder

194

00:07:39,050 --> 00:07:36,360

and I took about four or five shots like

195

00:07:40,249 --> 00:07:39,060

that and I believe two or three of them

196

00:07:44,930 --> 00:07:40,259

came out

197

00:07:47,570 --> 00:07:44,940

to a control panel and sat him down in

198

00:07:50,390 --> 00:07:47,580

one of the seats his escort who is

199

00:07:52,610 --> 00:07:50,400

speaking to him in his language he hears

200

00:07:55,550 --> 00:07:52,620

it in his language he hears it in his

201
00:07:59,809 --> 00:07:55,560
ears just like surround sound and he

202
00:08:03,710 --> 00:08:02,210
look and they pointed to the screen and

203
00:08:05,870 --> 00:08:03,720
another ship just like the one they were

204
00:08:09,110 --> 00:08:05,880
in joined them and then the two ships

205
00:08:10,909 --> 00:08:09,120
went rapidly again south over continents

206
00:08:13,490 --> 00:08:10,919
or over countries and continents

207
00:08:15,469 --> 00:08:13,500
topography geography changing just like

208
00:08:17,629 --> 00:08:15,479
it's unrolling rapidly and they and they

209
00:08:20,570 --> 00:08:17,639
approached ground again the surface down

210
00:08:22,969 --> 00:08:20,580
over Argentina they took him to again to

211
00:08:25,990 --> 00:08:22,979
an underwater facility in the Rio Sal

212
00:08:30,650 --> 00:08:26,000
which runs out of a big freshwater lake

213
00:08:32,810 --> 00:08:30,660

a big lake in Northern Argentina and the

214

00:08:34,670 --> 00:08:32,820

river runs through Santa Fe a little

215

00:08:37,730 --> 00:08:34,680

town of the center not just a little big

216

00:08:39,769 --> 00:08:37,740

town of Santa Fe and his escort standing

217

00:08:41,149 --> 00:08:39,779

beside him now the escort's not buckled

218

00:08:43,430 --> 00:08:41,159

into anything he's just standing there

219

00:08:46,370 --> 00:08:43,440

and Turman is sitting in a seat but he's

220

00:08:48,650 --> 00:08:46,380

not fastened in either and the the craft

221

00:08:50,090 --> 00:08:48,660

he's in tilts down at an angle and goes

222

00:08:51,829 --> 00:08:50,100

into the water

223

00:08:54,110 --> 00:08:51,839

and goes under the water

224

00:08:55,790 --> 00:08:54,120

and uh and and there's no inertial

225

00:08:58,370 --> 00:08:55,800

change to him he feels no inertial

226

00:09:01,190 --> 00:08:58,380

changes in his Partners still standing

227

00:09:02,449 --> 00:09:01,200

there beside him and the partner touches

228

00:09:04,070 --> 00:09:02,459

him on the shoulder and says we were

229

00:09:06,130 --> 00:09:04,080

observed over Santa Fe there will be

230

00:09:08,030 --> 00:09:06,140

reports in the paper tomorrow about

231

00:09:10,670 --> 00:09:08,040

UFOs

232

00:09:12,949 --> 00:09:10,680

and uh

233

00:09:14,870 --> 00:09:12,959

they went to the underwater facility and

234

00:09:17,210 --> 00:09:14,880

and they're being explained to him that

235

00:09:18,610 --> 00:09:17,220

they they installed this facility to

236

00:09:21,230 --> 00:09:18,620

carry out certain

237

00:09:22,910 --> 00:09:21,240

hydrodynamic tests in our water because

238

00:09:27,050 --> 00:09:22,920

our water was different from their water

239

00:09:28,850 --> 00:09:27,060

on the way back they showed me uh the

240

00:09:31,430 --> 00:09:28,860

reactions of people observing their

241

00:09:33,470 --> 00:09:31,440

craft and he said walk over here and I

242

00:09:35,509 --> 00:09:33,480

walked up to the looked like a cross

243

00:09:36,490 --> 00:09:35,519

between an open window and a television

244

00:09:39,470 --> 00:09:36,500

set

245

00:09:41,150 --> 00:09:39,480

it looked like a TV in that it was like

246

00:09:42,710 --> 00:09:41,160

this but it looked like an open window

247

00:09:44,810 --> 00:09:42,720

that I could just stick my hand through

248

00:09:47,509 --> 00:09:44,820

it is what it looked like I looked it

249

00:09:49,610 --> 00:09:47,519

was a monitor and you could see that

250

00:09:50,870 --> 00:09:49,620

there was a road there was trees on both

251

00:09:53,389 --> 00:09:50,880

sides of the road

252

00:09:56,210 --> 00:09:53,399

and it looked like an orange Grove or

253

00:09:58,970 --> 00:09:56,220

some kind of Big Field and there was a

254

00:10:00,769 --> 00:09:58,980

road running adjacent to it and there

255

00:10:02,630 --> 00:10:00,779

was two cars pulled over one was a

256

00:10:04,190 --> 00:10:02,640

funeral station wagon a four-pinel

257

00:10:06,590 --> 00:10:04,200

station wagon and the other one was a

258

00:10:08,389 --> 00:10:06,600

Buick Electra

259

00:10:10,310 --> 00:10:08,399

and the uh

260

00:10:13,850 --> 00:10:10,320

it was a lady in the funeral and there

261

00:10:15,590 --> 00:10:13,860

was a man in the Buick and the lady was

262

00:10:18,050 --> 00:10:15,600

standing outside the passenger door

263

00:10:20,329 --> 00:10:18,060

looking up like this and the man was

264

00:10:22,130 --> 00:10:20,339

just standing there like this and I'm

265

00:10:25,370 --> 00:10:22,140

standing inside this object looking at

266

00:10:27,110 --> 00:10:25,380

that and it was like it zoomed up on the

267

00:10:28,910 --> 00:10:27,120

people and he says NOW Watch What

268

00:10:30,350 --> 00:10:28,920

Happens the one that was next to me he

269

00:10:33,230 --> 00:10:30,360

said watch what happens when we move

270

00:10:35,810 --> 00:10:33,240

closer the minute he said that he saw

271

00:10:37,550 --> 00:10:35,820

the girl it would seemed illogical but

272

00:10:39,829 --> 00:10:37,560

you could tell it was out of fear she

273

00:10:41,750 --> 00:10:39,839

ran around the front of her car and

274

00:10:44,329 --> 00:10:41,760

jumped in the passenger side reached

275

00:10:46,910 --> 00:10:44,339

over there and locked her door he did

276

00:10:48,230 --> 00:10:46,920

the man standing up he just calmly

277

00:10:50,690 --> 00:10:48,240

looked like he was trying to keep his

278

00:10:53,690 --> 00:10:50,700

cool just sat down and got in the car

279

00:10:55,850 --> 00:10:53,700

and locked the door now he says now

280

00:10:56,810 --> 00:10:55,860

watch her she's going to hold the lock

281

00:10:58,610 --> 00:10:56,820

down

282

00:11:01,310 --> 00:10:58,620

and the only indication of any hostility

283

00:11:04,670 --> 00:11:01,320

was what he said next when he said he

284

00:11:06,040 --> 00:11:04,680

says a foolish gesture if we wish to a

285

00:11:11,090 --> 00:11:06,050

direct observe

286

00:11:15,530 --> 00:11:13,250

after the examination in there escorting

287

00:11:18,290 --> 00:11:15,540

around the ship as they're starting to

288

00:11:19,509 --> 00:11:18,300

walk through the ship is his host his

289

00:11:23,269 --> 00:11:19,519

guide

290

00:11:25,370 --> 00:11:23,279

said that they would like him he said I

291

00:11:27,889 --> 00:11:25,380

wonder if you could make some

292

00:11:32,030 --> 00:11:27,899

arrangement with your government to

293

00:11:34,370 --> 00:11:32,040

release uh a damaged vehicle and one of

294

00:11:35,389 --> 00:11:34,380

our damaged ships on the bodies of our

295

00:11:36,650 --> 00:11:35,399

people

296

00:11:38,150 --> 00:11:36,660

and he said oh I don't have any

297

00:11:39,470 --> 00:11:38,160

connections like that there's nothing I

298

00:11:42,949 --> 00:11:39,480

can do for you there I don't know

299

00:11:45,829 --> 00:11:42,959

anybody I don't have any I'm a nobody

300

00:11:47,690 --> 00:11:45,839

I there's no way I can help you he said

301
00:11:49,670 --> 00:11:47,700
why don't you do it yourself and the

302
00:11:51,650 --> 00:11:49,680
alien said we have tried he said we send

303
00:11:53,810 --> 00:11:51,660
an emissary to try to negotiate a

304
00:11:55,370 --> 00:11:53,820
release they tried to capture the

305
00:11:56,810 --> 00:11:55,380
Emissary so it's got to successfully

306
00:11:58,550 --> 00:11:56,820
escaped got in his ship and took off

307
00:12:00,470 --> 00:11:58,560
they tried to shoot the ship down

308
00:12:02,509 --> 00:12:00,480
he said they they're too hostile we

309
00:12:05,569 --> 00:12:02,519
can't deal with them we're we're looking

310
00:12:07,130 --> 00:12:05,579
for an another way and he said well how

311
00:12:07,910 --> 00:12:07,140
did they crash anyway and they told him

312
00:12:10,069 --> 00:12:07,920
that

313
00:12:11,870 --> 00:12:10,079

they they were lost in the western part

314

00:12:14,810 --> 00:12:11,880

of your land they said in quotes and

315

00:12:16,970 --> 00:12:14,820

that uh they the first one they they

316

00:12:19,670 --> 00:12:16,980

lost was a big surprise to them then

317

00:12:22,670 --> 00:12:19,680

they noticed that there was a beam an

318

00:12:24,769 --> 00:12:22,680

energy beam being transmitted in the

319

00:12:26,269 --> 00:12:24,779

area there and they thought that it was

320

00:12:27,170 --> 00:12:26,279

a new weapon that we had used against

321

00:12:30,170 --> 00:12:27,180

them

322

00:12:31,790 --> 00:12:30,180

and when they lost the second one they

323

00:12:33,829 --> 00:12:31,800

became very concerned because they think

324

00:12:36,410 --> 00:12:33,839

we're shooting them down and they they

325

00:12:38,509 --> 00:12:36,420

had even gone

326
00:12:40,550 --> 00:12:38,519
to the trouble of contacting other

327
00:12:43,069 --> 00:12:40,560
Associated space traveling intelligences

328
00:12:45,590 --> 00:12:43,079
to consult with them on the nature

329
00:12:47,810 --> 00:12:45,600
retaliation should take for our hostile

330
00:12:50,269 --> 00:12:47,820
actions and while they were doing this

331
00:12:51,949 --> 00:12:50,279
they noticed that the beam continued to

332
00:12:53,690 --> 00:12:51,959
operate that the weapon continued to

333
00:12:55,370 --> 00:12:53,700
Fire and was running in a circle and for

334
00:12:57,350 --> 00:12:55,380
you know when it was running

335
00:12:59,690 --> 00:12:57,360
and it wasn't named at anybody and they

336
00:13:01,670 --> 00:12:59,700
decided that it was some was not a

337
00:13:05,090 --> 00:13:01,680
weapon it wasn't what they thought it

338
00:13:08,329 --> 00:13:05,100

was they calculated though that the the

339

00:13:11,810 --> 00:13:08,339

ships went out of control when that beam

340

00:13:14,329 --> 00:13:11,820

locked on the ship on the craft and

341

00:13:16,670 --> 00:13:14,339

stayed on for 90 seconds or more the

342

00:13:18,230 --> 00:13:16,680

computer control system would burn out I

343

00:13:19,790 --> 00:13:18,240

think we went to emergency automatic

344

00:13:21,410 --> 00:13:19,800

emergency landing

345

00:13:25,670 --> 00:13:21,420

and they didn't have any control of it

346

00:13:27,889 --> 00:13:25,680

at all and they devised the shielding a

347

00:13:30,050 --> 00:13:27,899

form of shielding and changed their

348

00:13:31,610 --> 00:13:30,060

flight pattern to this sharp angular

349

00:13:32,569 --> 00:13:31,620

changing direction that Herman was

350

00:13:35,389 --> 00:13:32,579

reporting

351

00:13:36,889 --> 00:13:35,399

so that the radar could not lock on and

352

00:13:38,150 --> 00:13:36,899

stay on for 90 seconds or more it

353

00:13:39,590 --> 00:13:38,160

couldn't stand for more than two or

354

00:13:40,970 --> 00:13:39,600

three seconds
