

1  
00:00:05,630 --> 00:00:02,690  
the Aurora UFO case is one of my

2  
00:00:08,030 --> 00:00:05,640  
favorite cases and when I I was working

3  
00:00:09,710 --> 00:00:08,040  
on the bullet that Steve my my good

4  
00:00:13,129 --> 00:00:09,720  
friend Stephen androsco just talked

5  
00:00:14,629 --> 00:00:13,139  
about uh it was my favorite chapter in

6  
00:00:16,730 --> 00:00:14,639  
the book to do

7  
00:00:18,590 --> 00:00:16,740  
um the Aurora case and I also did

8  
00:00:21,230 --> 00:00:18,600  
several chapters on the Airship

9  
00:00:24,109 --> 00:00:21,240  
Mysteries that were going on uh which

10  
00:00:26,630 --> 00:00:24,119  
Tui uh spoke about and we'll probably

11  
00:00:27,910 --> 00:00:26,640  
hear a little bit more from my good

12  
00:00:32,269 --> 00:00:27,920  
friend Nick

13  
00:00:34,910 --> 00:00:32,279

who is up next after me but uh you know

14

00:00:37,970 --> 00:00:34,920

like I say I just I just love the Aurora

15

00:00:41,510 --> 00:00:37,980

story and uh just being able to be here

16

00:00:44,569 --> 00:00:41,520

this weekend and at this event is just a

17

00:00:46,310 --> 00:00:44,579

tremendous thing for me now what I'm

18

00:00:49,790 --> 00:00:46,320

going to talk about today is a

19

00:00:51,889 --> 00:00:49,800

fascinating story it's probably the book

20

00:00:54,770 --> 00:00:51,899

and I've been involved in writing 12

21

00:00:56,750 --> 00:00:54,780

books about UFOs but this is probably

22

00:00:58,310 --> 00:00:56,760

the one book that I've written that I've

23

00:01:01,549 --> 00:00:58,320

gotten the most

24

00:01:03,650 --> 00:01:01,559

comments about we've been on Coast to

25

00:01:06,670 --> 00:01:03,660

Coast AM several times we've done a

26  
00:01:10,310 --> 00:01:06,680  
number of of TV shows and radio shows

27  
00:01:13,190 --> 00:01:10,320  
and uh the reason that this this

28  
00:01:14,990 --> 00:01:13,200  
particular book I think and I probably

29  
00:01:16,750 --> 00:01:15,000  
should avoid walking around too much

30  
00:01:19,370 --> 00:01:16,760  
because of the buzzing that happens

31  
00:01:22,929 --> 00:01:19,380  
every time the aliens see you walk

32  
00:01:26,630 --> 00:01:22,939  
around they press a button

33  
00:01:29,030 --> 00:01:26,640  
but uh every time that we are that we

34  
00:01:31,429 --> 00:01:29,040  
talk about this show about this book on

35  
00:01:33,770 --> 00:01:31,439  
any one of these National shows we you

36  
00:01:36,109 --> 00:01:33,780  
know the switchboard lights up

37  
00:01:37,789 --> 00:01:36,119  
and one of the reasons I think that this

38  
00:01:39,770 --> 00:01:37,799

has been

39

00:01:43,429 --> 00:01:39,780

um so impressive to people is because

40

00:01:45,710 --> 00:01:43,439

until just a few months ago Colonel

41

00:01:47,990 --> 00:01:45,720

Robert Burton Willingham was actually

42

00:01:51,170 --> 00:01:48,000

the the primary witness in this case was

43

00:01:54,590 --> 00:01:51,180

actually alive and with us and had Vivid

44

00:01:57,590 --> 00:01:54,600

recollection of the day that he saw this

45

00:02:01,190 --> 00:01:57,600

UFO that he was told by a squadron

46

00:02:03,710 --> 00:02:01,200

commander to follow it in this f-86 uh

47

00:02:06,709 --> 00:02:03,720

that he followed the vapor trail down

48

00:02:10,669 --> 00:02:06,719

toward the Texas Mexico border and saw

49

00:02:14,650 --> 00:02:10,679

the craft start to slowly descend and uh

50

00:02:17,650 --> 00:02:14,660

and then saw saw it make a crash landing

51  
00:02:21,470 --> 00:02:17,660  
near Langtry Texas

52  
00:02:24,369 --> 00:02:21,480  
on that day that spring day in 1955. so

53  
00:02:27,949 --> 00:02:24,379  
to have a living witness

54  
00:02:31,130 --> 00:02:27,959  
during you know as I said unfortunately

55  
00:02:35,510 --> 00:02:31,140  
Colonel Willingham passed away uh just

56  
00:02:37,610 --> 00:02:35,520  
last August at that one and we even had

57  
00:02:41,030 --> 00:02:37,620  
him on with us on a couple of radio

58  
00:02:43,430 --> 00:02:41,040  
shows and that was very impressive uh

59  
00:02:46,850 --> 00:02:43,440  
back in 2008

60  
00:02:48,410 --> 00:02:46,860  
I was driving to Archer City Texas how

61  
00:02:50,690 --> 00:02:48,420  
many of you know where Archer City is

62  
00:02:53,390 --> 00:02:50,700  
that's where the colonel lived for most

63  
00:02:56,570 --> 00:02:53,400

of his life up up near Wichita Falls

64

00:03:00,350 --> 00:02:56,580

just south of Wichita Falls so I I drove

65

00:03:04,309 --> 00:03:00,360

past here from Dallas Fort Worth on up

66

00:03:05,809 --> 00:03:04,319

to uh Wichita Falls to Archer City and I

67

00:03:08,990 --> 00:03:05,819

visited the colonel for the very first

68

00:03:10,970 --> 00:03:09,000

time this was 2008 and he told me this

69

00:03:13,190 --> 00:03:10,980

amazing story

70

00:03:15,290 --> 00:03:13,200

there you know he had tried to tell it

71

00:03:17,449 --> 00:03:15,300

in the past and there had been some

72

00:03:20,630 --> 00:03:17,459

small little Snippets of information

73

00:03:24,170 --> 00:03:20,640

from the colonel of him trying to tell

74

00:03:26,030 --> 00:03:24,180

this story but on that day when I was

75

00:03:29,690 --> 00:03:26,040

sitting in his living room in Archer

76

00:03:32,030 --> 00:03:29,700

City Texas when he told me this story

77

00:03:35,210 --> 00:03:32,040

for the first time it's in its entirety

78

00:03:37,910 --> 00:03:35,220

I said wow this is amazing and he made

79

00:03:41,149 --> 00:03:37,920

it clear to me on that day that he would

80

00:03:43,309 --> 00:03:41,159

not accept a single penny those are his

81

00:03:45,229 --> 00:03:43,319

words not a single penny from the

82

00:03:46,610 --> 00:03:45,239

writing of your book if you decide to

83

00:03:50,149 --> 00:03:46,620

write one because I told him we were

84

00:03:52,610 --> 00:03:50,159

interested in making his story into a

85

00:03:54,589 --> 00:03:52,620

book and he wanted it to be clear that

86

00:03:57,289 --> 00:03:54,599

he was doing this just because he wanted

87

00:03:59,930 --> 00:03:57,299

to share this story with other people so

88

00:04:02,270 --> 00:03:59,940

he was an amazing individual retired

89

00:04:04,190 --> 00:04:02,280

Colonel Robert Burton Willingham

90

00:04:06,289 --> 00:04:04,200

so as I mentioned this incident happened

91

00:04:08,330 --> 00:04:06,299

in 1955 I'm just going to tell you just

92

00:04:09,429 --> 00:04:08,340

briefly a little bit about Colonel

93

00:04:12,410 --> 00:04:09,439

Willingham

94

00:04:14,210 --> 00:04:12,420

he was at the time of the incident he

95

00:04:17,030 --> 00:04:14,220

was in the Air Force Reserve he had

96

00:04:19,550 --> 00:04:17,040

previously served in the U.S army and in

97

00:04:22,670 --> 00:04:19,560

the air force uh had served in the

98

00:04:25,370 --> 00:04:22,680

Korean conflict and before that he had

99

00:04:30,249 --> 00:04:25,380

been involved in the Reconstruction of

100

00:04:34,129 --> 00:04:30,259

Germany with the Army he was born in uh

101  
00:04:36,409 --> 00:04:34,139  
1926 in Holiday Texas and he served in

102  
00:04:38,510 --> 00:04:36,419  
World War II as I mentioned it so

103  
00:04:40,909 --> 00:04:38,520  
happens he served with 82nd Airborne and

104  
00:04:43,670 --> 00:04:40,919  
was part of the combat 288th combat

105  
00:04:47,210 --> 00:04:43,680  
engineers now what's really interesting

106  
00:04:49,550 --> 00:04:47,220  
is as you as you all know all UFO

107  
00:04:51,050 --> 00:04:49,560  
stories are you bring them out and

108  
00:04:53,689 --> 00:04:51,060  
they're immediately controversial

109  
00:04:56,570 --> 00:04:53,699  
there's the naysayers the critics who

110  
00:04:58,790 --> 00:04:56,580  
immediately jumped jump in and try to

111  
00:05:01,249 --> 00:04:58,800  
discredit and of course it was no

112  
00:05:04,450 --> 00:05:01,259  
different with Colonel Willingham he was

113  
00:05:07,310 --> 00:05:04,460

subjected to a lot of ridicule

114

00:05:09,710 --> 00:05:07,320

a lot of naysayers once our book was

115

00:05:11,650 --> 00:05:09,720

published people who came forward and

116

00:05:15,409 --> 00:05:11,660

said that he was faking his military

117

00:05:17,629 --> 00:05:15,419

credentials that he never served in the

118

00:05:20,689 --> 00:05:17,639

Air Force or the reserve that he wasn't

119

00:05:22,670 --> 00:05:20,699

really a pilot and I'm going to show you

120

00:05:25,430 --> 00:05:22,680

because

121

00:05:27,830 --> 00:05:25,440

we have the Good Fortune of inheriting

122

00:05:30,409 --> 00:05:27,840

all of his documents from the family and

123

00:05:32,570 --> 00:05:30,419

all of the photographs uh from his

124

00:05:34,150 --> 00:05:32,580

personal collection after his death and

125

00:05:36,950 --> 00:05:34,160

I'm going to show you

126

00:05:39,650 --> 00:05:36,960

some documents that show the pilot

127

00:05:42,770 --> 00:05:39,660

training he underwent and the thousands

128

00:05:45,409 --> 00:05:42,780

of hours of flying that he did in

129

00:05:46,610 --> 00:05:45,419

military aircraft it's all documented

130

00:05:47,210 --> 00:05:46,620

and

131

00:05:49,909 --> 00:05:47,220

um

132

00:05:52,490 --> 00:05:49,919

so but unfortunately as I say anytime

133

00:05:54,770 --> 00:05:52,500

you bring forward a UFO story that seems

134

00:05:57,670 --> 00:05:54,780

credible and there's a living eyewitness

135

00:06:00,950 --> 00:05:57,680

that people are going to jump on on you

136

00:06:02,870 --> 00:06:00,960

he served in their Journal patent he

137

00:06:05,510 --> 00:06:02,880

participated in the Reconstruction of

138

00:06:09,469 --> 00:06:05,520

Berlin and he was involved in the Korean

139

00:06:12,409 --> 00:06:09,479

War he began his flying careers flying

140

00:06:14,390 --> 00:06:12,419

P-51 Mustangs and then he was wounded in

141

00:06:18,290 --> 00:06:14,400

December 1950

142

00:06:22,370 --> 00:06:18,300

which uh he ended up after being wounded

143

00:06:25,249 --> 00:06:22,380

he ended up mainly flying uh missions

144

00:06:30,529 --> 00:06:25,259

for the Air Force Reserve and mainly he

145

00:06:33,409 --> 00:06:30,539

was involved in Cold War scenarios where

146

00:06:35,990 --> 00:06:33,419

um fighter jets in which he would pilot

147

00:06:39,529 --> 00:06:36,000

would accompany bombers

148

00:06:41,330 --> 00:06:39,539

making strategic runs in this case as

149

00:06:44,990 --> 00:06:41,340

I'm going to show you from Carswell Air

150

00:06:47,870 --> 00:06:45,000

Force Base here in Fort Worth uh heading

151  
00:06:49,670 --> 00:06:47,880  
toward El Paso and then up along the

152  
00:06:52,249 --> 00:06:49,680  
west coast of the United States toward

153  
00:06:54,650 --> 00:06:52,259  
Canada they were simulating what a

154  
00:06:57,050 --> 00:06:54,660  
nuclear bombing run would be like if the

155  
00:07:01,070 --> 00:06:57,060  
U.S had to respond

156  
00:07:03,529 --> 00:07:01,080  
um with nukes to a Russian attack so you

157  
00:07:05,570 --> 00:07:03,539  
had bombers that would take off they

158  
00:07:08,210 --> 00:07:05,580  
would refuel at various points along the

159  
00:07:11,270 --> 00:07:08,220  
way they would pick up various escorts

160  
00:07:13,249 --> 00:07:11,280  
fighter bomber escorts and so he was

161  
00:07:15,170 --> 00:07:13,259  
involved in those sorts of exercises

162  
00:07:16,730 --> 00:07:15,180  
during this period of Time When the UFO

163  
00:07:19,370 --> 00:07:16,740

incident occurred

164

00:07:21,409 --> 00:07:19,380

so as you see on this map

165

00:07:23,330 --> 00:07:21,419

I don't know if I have a laser pointer

166

00:07:26,089 --> 00:07:23,340

on this one yes I do okay

167

00:07:28,010 --> 00:07:26,099

he was assigned that day to escort a

168

00:07:30,890 --> 00:07:28,020

B-47 bomber

169

00:07:32,570 --> 00:07:30,900

from Carswell Air Force Base where his

170

00:07:35,770 --> 00:07:32,580

Squadron picked it up

171

00:07:40,909 --> 00:07:35,780

and he and three other fighter jets

172

00:07:43,129 --> 00:07:40,919

they were assigned to fly to El Paso

173

00:07:45,950 --> 00:07:43,139

where they were going to be picked up

174

00:07:47,510 --> 00:07:45,960

you know at that point the B-47 was

175

00:07:49,610 --> 00:07:47,520

going to be picked up by another

176  
00:07:51,890 --> 00:07:49,620  
Squadron and they were going to proceed

177  
00:07:55,790 --> 00:07:51,900  
on up north

178  
00:07:58,490 --> 00:07:55,800  
but he was you know part of the way down

179  
00:08:00,469 --> 00:07:58,500  
going down in his flight path when

180  
00:08:02,330 --> 00:08:00,479  
Colonel Willingham said there was

181  
00:08:04,430 --> 00:08:02,340  
suddenly this amazing amount of radio

182  
00:08:07,249 --> 00:08:04,440  
traffic on the Military Channel that

183  
00:08:10,969 --> 00:08:07,259  
they were monitoring and he was

184  
00:08:14,089 --> 00:08:10,979  
um let me just show you he was flying uh

185  
00:08:16,129 --> 00:08:14,099  
there were four fighter jets f-86s he

186  
00:08:18,890 --> 00:08:16,139  
was in the in the what they called the

187  
00:08:22,309 --> 00:08:18,900  
lead position this was willingham's jet

188  
00:08:24,050 --> 00:08:22,319

this is a B-47 and

189

00:08:26,089 --> 00:08:24,060

um there was this amazing amount of

190

00:08:29,749 --> 00:08:26,099

radio chatter on the Military Channel

191

00:08:31,550 --> 00:08:29,759

all of a sudden about an inbound bogey

192

00:08:33,469 --> 00:08:31,560

that had been spotted in the

193

00:08:35,029 --> 00:08:33,479

Northwestern United portion of the

194

00:08:38,029 --> 00:08:35,039

United States around Washington state

195

00:08:41,329 --> 00:08:38,039

was moving very very fast at speeds of

196

00:08:43,490 --> 00:08:41,339

over 2 000 miles and headed down toward

197

00:08:45,230 --> 00:08:43,500

their position

198

00:08:49,630 --> 00:08:45,240

um so it had been spotted along the way

199

00:08:52,250 --> 00:08:49,640

and they had been advised that this was

200

00:08:54,290 --> 00:08:52,260

inbound toward them toward that general

201  
00:08:56,329 --> 00:08:54,300  
area now

202  
00:09:00,250 --> 00:08:56,339  
um what Colonel Willingham said happened

203  
00:09:03,889 --> 00:09:00,260  
and let me go back to this map is

204  
00:09:06,050 --> 00:09:03,899  
there was a point at which everybody in

205  
00:09:07,970 --> 00:09:06,060  
this formation everybody in this

206  
00:09:10,730 --> 00:09:07,980  
formation all of these men who were

207  
00:09:12,650 --> 00:09:10,740  
later debriefed by the military and told

208  
00:09:14,930 --> 00:09:12,660  
that what they saw they didn't really

209  
00:09:18,170 --> 00:09:14,940  
see and they were not supposed to tell

210  
00:09:21,470 --> 00:09:18,180  
anybody about it ever

211  
00:09:23,210 --> 00:09:21,480  
what they actually did see though he he

212  
00:09:26,870 --> 00:09:23,220  
swore until the day he passed away

213  
00:09:29,210 --> 00:09:26,880

because this object came into view and

214

00:09:30,590 --> 00:09:29,220

it passed right in front of the entire

215

00:09:33,829 --> 00:09:30,600

formation

216

00:09:36,590 --> 00:09:33,839

and all these men sought the pilots and

217

00:09:39,170 --> 00:09:36,600

these fighter jets and the crew they

218

00:09:41,509 --> 00:09:39,180

were all talking about what they saw and

219

00:09:43,310 --> 00:09:41,519

they all all of them sat in later at

220

00:09:46,670 --> 00:09:43,320

briefings where they were told that they

221

00:09:49,329 --> 00:09:46,680

didn't really experience this at all

222

00:09:52,190 --> 00:09:49,339

and what it was was a bright object

223

00:09:53,750 --> 00:09:52,200

bright as a star of the colonel told me

224

00:09:56,389 --> 00:09:53,760

that day when I was in this living room

225

00:09:59,329 --> 00:09:56,399

in Archer City hearing the story for the

226

00:10:03,530 --> 00:09:59,339

first time Bride is a star that was very

227

00:10:09,050 --> 00:10:06,710

so uh he described it as a hugely bright

228

00:10:11,269 --> 00:10:09,060

intense light so bright he could hardly

229

00:10:13,490 --> 00:10:11,279

stand to look at it and the speed at

230

00:10:16,130 --> 00:10:13,500

which it was traveling and darting

231

00:10:19,130 --> 00:10:16,140

around in the sky the Maneuvers that it

232

00:10:22,250 --> 00:10:19,140

was making were just incredible

233

00:10:25,130 --> 00:10:22,260

um he was once again in his f-86 and he

234

00:10:28,190 --> 00:10:25,140

was given uh Authority by his squadron

235

00:10:30,050 --> 00:10:28,200

commander to give Chase to find out what

236

00:10:31,970 --> 00:10:30,060

this thing was that had just crossed in

237

00:10:34,910 --> 00:10:31,980

front of them and was heading South

238

00:10:37,610 --> 00:10:34,920

toward the Texas Mexico border

239

00:10:38,630 --> 00:10:37,620

so uh Colonel Willingham said that as he

240

00:10:41,329 --> 00:10:38,640

as he

241

00:10:44,449 --> 00:10:41,339

as his maneuvered his jet to hit on

242

00:10:47,389 --> 00:10:44,459

South in the wake of this object that it

243

00:10:49,730 --> 00:10:47,399

just crossed the line in front of them

244

00:10:53,690 --> 00:10:49,740

um as he saw that he noticed that the

245

00:10:56,210 --> 00:10:53,700

object began descending and he did he

246

00:10:58,490 --> 00:10:56,220

feels that there was some Sparks

247

00:11:01,730 --> 00:10:58,500

emanating from it and maybe it tilted

248

00:11:05,389 --> 00:11:01,740

slightly as it descended quickly toward

249

00:11:10,970 --> 00:11:08,449

and then the object crash landed he told

250

00:11:13,690 --> 00:11:10,980

us and we showed him satellite maps and

251  
00:11:16,009 --> 00:11:13,700  
we we got him to pinpoint the location

252  
00:11:18,829 --> 00:11:16,019  
of where all this incident we've been

253  
00:11:21,410 --> 00:11:18,839  
out there and just recently we went out

254  
00:11:23,750 --> 00:11:21,420  
there with a with a with a drone

255  
00:11:25,250 --> 00:11:23,760  
camera drone and I'm going to show you

256  
00:11:27,910 --> 00:11:25,260  
some video here in a moment very

257  
00:11:30,170 --> 00:11:27,920  
impressive of the actual location

258  
00:11:32,990 --> 00:11:30,180  
this right here for those of you that

259  
00:11:35,750 --> 00:11:33,000  
are out to uh the Judge Roy Bean Visitor

260  
00:11:37,490 --> 00:11:35,760  
Center in Langtry Texas it's right

261  
00:11:40,130 --> 00:11:37,500  
around these buildings right around here

262  
00:11:42,590 --> 00:11:40,140  
and then there's a little Circle Drive

263  
00:11:44,389 --> 00:11:42,600

it's a dirt road that you can tape it

264

00:11:45,710 --> 00:11:44,399

takes you right down close to the Rio

265

00:11:48,949 --> 00:11:45,720

Grande River

266

00:11:51,410 --> 00:11:48,959

and you'll you'll be able to tell better

267

00:11:54,290 --> 00:11:51,420

how everything is related to everything

268

00:11:56,329 --> 00:11:54,300

else in a moment when I show you the uh

269

00:11:58,910 --> 00:11:56,339

the video

270

00:12:00,470 --> 00:11:58,920

um and the impact side happened just on

271

00:12:02,569 --> 00:12:00,480

the other side of the Rio Grande there's

272

00:12:05,870 --> 00:12:02,579

a ridge here

273

00:12:08,030 --> 00:12:05,880

and then up uh there's a cliff where

274

00:12:10,430 --> 00:12:08,040

there the cliff falls down to the

275

00:12:12,889 --> 00:12:10,440

riverbank and then there's this little

276

00:12:18,230 --> 00:12:12,899

interesting wash just keep this little

277

00:12:20,810 --> 00:12:18,240

uh White marking in the canyon this wash

278

00:12:24,110 --> 00:12:20,820

um white marking area keep that in mind

279

00:12:26,090 --> 00:12:24,120

as as you look at the Drone footage here

280

00:12:29,030 --> 00:12:26,100

in a little bit

281

00:12:31,970 --> 00:12:29,040

so what Colonel Willingham was it what

282

00:12:34,389 --> 00:12:31,980

he did was he was in sf86 when he saw

283

00:12:37,850 --> 00:12:34,399

this happen he saw the object crash land

284

00:12:39,430 --> 00:12:37,860

he had of course been hearing all the

285

00:12:41,569 --> 00:12:39,440

stories about

286

00:12:44,629 --> 00:12:41,579

UFO incidents throughout the United

287

00:12:47,870 --> 00:12:44,639

States the mid 50s that was a hotbed of

288

00:12:49,550 --> 00:12:47,880

UFO activity we had had major waves of

289

00:12:53,750 --> 00:12:49,560

sightings all over the country

290

00:12:55,730 --> 00:12:53,760

Washington DC everywhere so he wanted to

291

00:12:57,829 --> 00:12:55,740

know what it was that he had just

292

00:13:00,590 --> 00:12:57,839

witnessed he wanted to go to the site

293

00:13:02,750 --> 00:13:00,600

and see for himself so what he did was

294

00:13:05,990 --> 00:13:02,760

he he got permission from his Commander

295

00:13:09,170 --> 00:13:06,000

to return this f-86 to Carswell and he

296

00:13:12,110 --> 00:13:09,180

went back down to the Del Rio area in a

297

00:13:17,150 --> 00:13:12,120

Trader trainer

298

00:13:19,069 --> 00:13:17,160

but uh plane called an Iran Veronica

299

00:13:22,430 --> 00:13:19,079

and uh

300

00:13:26,930 --> 00:13:22,440

he told us that he set that thing down

301  
00:13:29,210 --> 00:13:26,940  
right next to the object that it crashed

302  
00:13:31,430 --> 00:13:29,220  
right in here

303  
00:13:33,290 --> 00:13:31,440  
by the time he arrived back and it took

304  
00:13:35,870 --> 00:13:33,300  
him several hours to head back down

305  
00:13:38,389 --> 00:13:35,880  
there and to arrive by the time he

306  
00:13:41,150 --> 00:13:38,399  
arrived there the whole area was teeming

307  
00:13:43,790 --> 00:13:41,160  
with military men

308  
00:13:47,389 --> 00:13:43,800  
as far as he could tell the large part

309  
00:13:51,470 --> 00:13:47,399  
of the men were wearing Mexican army

310  
00:13:55,190 --> 00:13:51,480  
uniforms but there were other men on the

311  
00:13:58,009 --> 00:13:55,200  
scene who were wearing civilian clothing

312  
00:13:59,509 --> 00:13:58,019  
and some of them did not appear to be

313  
00:14:05,329 --> 00:13:59,519

Mexican

314

00:14:07,910 --> 00:14:05,339

them could have been Americans he said

315

00:14:10,250 --> 00:14:07,920

later when we were interviewing him we

316

00:14:12,710 --> 00:14:10,260

we spent hours talking to him prior to

317

00:14:14,449 --> 00:14:12,720

publishing the book he admitted to us

318

00:14:19,970 --> 00:14:14,459

that some of them could possibly have

319

00:14:22,850 --> 00:14:19,980

been CIA or U.S military intelligence

320

00:14:25,910 --> 00:14:22,860

operatives so the whole area was

321

00:14:27,230 --> 00:14:25,920

cordoned off by the time he landed a

322

00:14:31,129 --> 00:14:27,240

small plane

323

00:14:33,410 --> 00:14:31,139

and uh he had a a friend of his who went

324

00:14:36,530 --> 00:14:33,420

with him as a as a second

325

00:14:42,470 --> 00:14:36,540

a second party in in the erotica and

326

00:14:50,030 --> 00:14:46,430

uh this is this is hand-drawn by the

327

00:14:53,569 --> 00:14:50,040

colonel himself uh showing what he

328

00:14:53,579 --> 00:14:57,430

um

329

00:15:04,990 --> 00:15:01,790

we uh I I added a little bit I added the

330

00:15:07,490 --> 00:15:05,000

arrows and I added the computerized uh

331

00:15:09,829 --> 00:15:07,500

representation of vehicles and so forth

332

00:15:11,930 --> 00:15:09,839

but he did the uh most of the sketch

333

00:15:14,150 --> 00:15:11,940

work for this

334

00:15:17,750 --> 00:15:14,160

um here is the Rio Grande River there's

335

00:15:19,009 --> 00:15:17,760

a the cliff here that goes up to to the

336

00:15:22,790 --> 00:15:19,019

um

337

00:15:25,250 --> 00:15:22,800

to the area where this happened and uh

338

00:15:27,949 --> 00:15:25,260

he said he saw a skid path

339

00:15:31,009 --> 00:15:27,959

leading to a major concentration of the

340

00:15:33,590 --> 00:15:31,019

wreckage and then at the lead end of

341

00:15:36,410 --> 00:15:33,600

that concentrated wreckage was uh was

342

00:15:39,829 --> 00:15:36,420

what we would call the cockpit

343

00:15:43,610 --> 00:15:39,839

for the passenger compartment

344

00:15:45,350 --> 00:15:43,620

uh the area where he saw the beings was

345

00:15:47,569 --> 00:15:45,360

up here

346

00:15:49,850 --> 00:15:47,579

there were Mexican soldiers guarding the

347

00:15:52,189 --> 00:15:49,860

perimeter of the crash area

348

00:15:55,490 --> 00:15:52,199

he at first his impression was that they

349

00:15:56,810 --> 00:15:55,500

were all Mexican soldiers but later as

350

00:16:13,129 --> 00:15:56,820

he

351  
00:16:14,990 --> 00:16:13,139  
you'll see that Dry Creek or wash

352  
00:16:17,269 --> 00:16:15,000  
coming down like

353  
00:16:19,269 --> 00:16:17,279  
right around here

354  
00:16:22,610 --> 00:16:19,279  
and this is where Colonel Willingham

355  
00:16:27,410 --> 00:16:22,620  
brought his his ironic his small plane

356  
00:16:29,449 --> 00:16:27,420  
down and his friend uh an electrical

357  
00:16:31,670 --> 00:16:29,459  
engineer was with him

358  
00:16:34,730 --> 00:16:31,680  
so let me just do

359  
00:16:38,150 --> 00:16:34,740  
um let me just show you this video that

360  
00:16:40,970 --> 00:16:38,160  
we shot from a drone recently

361  
00:16:42,350 --> 00:16:40,980  
so you can get an idea of what's out

362  
00:16:45,350 --> 00:16:42,360  
there

363  
00:16:48,050 --> 00:16:45,360

so this drone is taking off from Langtry

364

00:16:48,829 --> 00:16:48,060

Texas near the Judge Roy Bean Visitor

365

00:16:50,870 --> 00:16:48,839

Center

366

00:16:54,769 --> 00:16:50,880

and just to give you a perspective here

367

00:17:00,170 --> 00:16:54,779

the Rio Grande river is down here

368

00:17:05,870 --> 00:17:02,509

this is what I mean this drop the sheer

369

00:17:09,650 --> 00:17:05,880

drop off these cliffs and then up above

370

00:17:13,309 --> 00:17:09,660

is you know where this incident occurred

371

00:17:16,750 --> 00:17:13,319

um the Drone is going to turn toward the

372

00:17:22,610 --> 00:17:16,760

area where uh Colonel Willingham said

373

00:17:26,569 --> 00:17:24,049

okay

374

00:17:31,490 --> 00:17:26,579

um so here

375

00:17:33,169 --> 00:17:31,500

the Drone is moving uh closer to this is

376

00:17:35,270 --> 00:17:33,179

the wash that Colonel Willingham

377

00:17:37,970 --> 00:17:35,280

described and what he identified for us

378

00:17:40,730 --> 00:17:37,980

in satellite pictures that we showed him

379

00:17:43,909 --> 00:17:40,740

and this right here is where all the

380

00:17:47,390 --> 00:17:43,919

activity was right in here

381

00:17:49,310 --> 00:17:47,400

so uh once again the Rio Grande river is

382

00:17:50,570 --> 00:17:49,320

down in here there's a sheer drop off

383

00:17:53,870 --> 00:17:50,580

right here

384

00:17:55,730 --> 00:17:53,880

and everything happened the area was

385

00:17:58,430 --> 00:17:55,740

cordoned off and there were Vehicles

386

00:18:00,830 --> 00:17:58,440

parked all along here

387

00:18:03,350 --> 00:18:00,840

and we're gonna swing back and take a

388

00:18:05,750 --> 00:18:03,360

look at where Lang tree is relative to

389

00:18:13,789 --> 00:18:07,850

okay now we're going to revisit the same

390

00:18:13,799 --> 00:18:18,409

here in just a moment

391

00:18:23,810 --> 00:18:21,350

it's this area here

392

00:18:26,570 --> 00:18:23,820

um here's the wash that I was describing

393

00:18:29,270 --> 00:18:26,580

and then there's a there's a ridge here

394

00:18:31,370 --> 00:18:29,280

and right in this area Colonel

395

00:18:33,529 --> 00:18:31,380

Willingham parked some uh parked his

396

00:18:41,690 --> 00:18:33,539

small plane somewhere around here Landed

397

00:18:46,250 --> 00:18:43,970

and we're gonna have one more View From

398

00:18:48,289 --> 00:18:46,260

Another angle here in a minute and we're

399

00:18:50,330 --> 00:18:48,299

swinging the camera back toward the

400

00:18:53,210 --> 00:18:50,340

Judge Roy Bean Visitor Center back in

401  
00:18:55,970 --> 00:18:53,220  
there and the loop that goes down by the

402  
00:18:58,789 --> 00:18:55,980  
river if y'all are ever in that area

403  
00:19:02,450 --> 00:18:58,799  
it's it's really neat to go up uh down

404  
00:19:06,230 --> 00:19:04,430  
I used to go down there before I knew

405  
00:19:09,529 --> 00:19:06,240  
anything about this UFO incident because

406  
00:19:12,529 --> 00:19:09,539  
I love historic buildings and stuff so

407  
00:19:14,450 --> 00:19:12,539  
and here's another angle this is where

408  
00:19:17,450 --> 00:19:14,460  
everything took place this is the wash

409  
00:19:19,490 --> 00:19:17,460  
that Colonel Willingham described uh

410  
00:19:22,430 --> 00:19:19,500  
Judge Roy Visitor Center is way down

411  
00:19:25,970 --> 00:19:22,440  
here so we're looking a little bit off

412  
00:19:32,330 --> 00:19:25,980  
this way and all of the activity that

413  
00:19:38,330 --> 00:19:35,150

okay so Colonel Willingham was able to

414

00:19:40,870 --> 00:19:38,340

give us a real good fix on where it was

415

00:19:42,890 --> 00:19:40,880

that he saw

416

00:19:44,150 --> 00:19:42,900

this happen

417

00:19:45,409 --> 00:19:44,160

and

418

00:19:48,770 --> 00:19:45,419

um

419

00:19:52,370 --> 00:19:48,780

I'm gonna just uh let you listen to a

420

00:19:57,770 --> 00:19:55,970

a radio show that we did with him

421

00:20:00,890 --> 00:19:57,780

um

422

00:20:03,890 --> 00:20:00,900

on the deference program and I'm hoping

423

00:20:05,570 --> 00:20:03,900

that this equipment will cooperate here

424

00:20:07,310 --> 00:20:05,580

all right so you're standing there with

425

00:20:10,370 --> 00:20:07,320

your arms up in your flight suit next to

426  
00:20:12,409 --> 00:20:10,380  
this little private plane and you're 150

427  
00:20:14,390 --> 00:20:12,419  
yards away from this crash disk how many

428  
00:20:16,010 --> 00:20:14,400  
soldiers were there approximately there

429  
00:20:20,510 --> 00:20:16,020  
and were they deployed in a circle

430  
00:20:24,650 --> 00:20:20,520  
around it or what no I was about uh I'd

431  
00:20:27,590 --> 00:20:24,660  
say 150 there when I got there all right

432  
00:20:31,630 --> 00:20:27,600  
took quite enough already and about 35

433  
00:20:35,450 --> 00:20:31,640  
vehicles wow all right could you see

434  
00:20:37,250 --> 00:20:35,460  
it was on both sides all right could you

435  
00:20:40,730 --> 00:20:37,260  
see the craft itself

436  
00:20:42,169 --> 00:20:40,740  
yeah yeah I went in there I'm talking to

437  
00:20:43,909 --> 00:20:42,179  
this uh

438  
00:20:46,070 --> 00:20:43,919

Spanish

439

00:20:49,669 --> 00:20:46,080

tenant

440

00:20:51,470 --> 00:20:49,679

anyway I talked to him and we walked

441

00:20:53,990 --> 00:20:51,480

down through there and he said I've

442

00:20:57,650 --> 00:20:54,000

never seen anything like it before and I

443

00:21:00,230 --> 00:20:57,660

said no I either but I said this that's

444

00:21:01,490 --> 00:21:00,240

a little different than some of them

445

00:21:06,049 --> 00:21:01,500

looked at

446

00:21:08,870 --> 00:21:06,059

this in here had solid Some solid pieces

447

00:21:10,970 --> 00:21:08,880

still scattered down through there all

448

00:21:13,669 --> 00:21:10,980

right so some of it was intact did it

449

00:21:16,669 --> 00:21:13,679

have any markings or anything on the

450

00:21:18,590 --> 00:21:16,679

exterior or was it just the skin of it

451  
00:21:21,230 --> 00:21:18,600  
well no

452  
00:21:24,830 --> 00:21:23,270  
I know I want to get there I want to get

453  
00:21:27,890 --> 00:21:24,840  
there in just a minute hold on with that

454  
00:21:30,350 --> 00:21:27,900  
please all right you walk up to this

455  
00:21:32,450 --> 00:21:30,360  
thing well the did the Mexicans let you

456  
00:21:34,290 --> 00:21:32,460  
get close to it or they hold you off a

457  
00:21:39,110 --> 00:21:34,300  
little bit oh they helped me off too

458  
00:21:44,330 --> 00:21:41,990  
I don't think they spoke uh very good

459  
00:21:45,710 --> 00:21:44,340  
English the rest of them did all right I

460  
00:21:47,029 --> 00:21:45,720  
hope they weren't putting their guns on

461  
00:21:49,909 --> 00:21:47,039  
you all this time

462  
00:21:52,850 --> 00:21:49,919  
well they haven't pointed that direction

463  
00:21:54,950 --> 00:21:52,860

I get it I get the picture all right so

464

00:21:56,930 --> 00:21:54,960

the lieutenant gets there you walk up to

465

00:22:00,110 --> 00:21:56,940

the craft itself how close did you get

466

00:22:02,149 --> 00:22:00,120

to it colonel I I wrote right up and

467

00:22:05,090 --> 00:22:02,159

kicked the piece of it

468

00:22:07,970 --> 00:22:05,100

wow all right were you how big was it in

469

00:22:09,830 --> 00:22:07,980

diameter about

470

00:22:11,750 --> 00:22:09,840

well

471

00:22:14,930 --> 00:22:11,760

Corey hipped

472

00:22:16,370 --> 00:22:14,940

it was a lot of small pieces like two

473

00:22:26,210 --> 00:22:16,380

foot by

474

00:22:29,270 --> 00:22:26,220

uh just different pieces off of it you

475

00:22:30,890 --> 00:22:29,280

know okay then they got on up to where

476  
00:22:34,730 --> 00:22:30,900  
it stopped

477  
00:22:37,909 --> 00:22:34,740  
it looked to me like that it was a piece

478  
00:22:41,270 --> 00:22:37,919  
of 10 each pack

479  
00:22:44,029 --> 00:22:41,280  
that was real shiny

480  
00:22:47,930 --> 00:22:44,039  
and I don't know if that was part of the

481  
00:22:51,770 --> 00:22:47,940  
fuel consumption part of it

482  
00:22:54,890 --> 00:22:51,780  
or what it was but he didn't know either

483  
00:22:56,810 --> 00:22:54,900  
the Mexican then

484  
00:23:00,049 --> 00:22:56,820  
okay just wanted to give you a little

485  
00:23:03,529 --> 00:23:00,059  
bit of um what Colonel Willingham how he

486  
00:23:04,970 --> 00:23:03,539  
described the crash scene that day and

487  
00:23:06,350 --> 00:23:04,980  
uh

488  
00:23:09,710 --> 00:23:06,360

um

489

00:23:14,390 --> 00:23:09,720

the other thing he talked about was

490

00:23:17,570 --> 00:23:14,400

he had just a moment during which he had

491

00:23:20,990 --> 00:23:17,580

a chance to look through a crack in the

492

00:23:24,770 --> 00:23:21,000

hull of the main part of the ship

493

00:23:27,110 --> 00:23:24,780

and inside he saw the bodies of these

494

00:23:28,789 --> 00:23:27,120

little beings which he's going to

495

00:23:31,610 --> 00:23:28,799

describe next

496

00:23:40,970 --> 00:23:31,620

was there was there any evidence of any

497

00:23:46,250 --> 00:23:43,669

they said don't look like people

498

00:23:50,090 --> 00:23:46,260

but says we can't let you go up there

499

00:23:51,169 --> 00:23:50,100

the general already said no nobody look

500

00:23:54,350 --> 00:23:51,179

at that

501  
00:23:58,070 --> 00:23:54,360  
so they didn't even let the boys it was

502  
00:23:59,930 --> 00:23:58,080  
guarding it look at it oh really yeah

503  
00:24:02,450 --> 00:23:59,940  
okay so the front of the craft that

504  
00:24:05,390 --> 00:24:02,460  
impacted the ground I ripped a hole open

505  
00:24:06,830 --> 00:24:05,400  
inside and and apparently people could

506  
00:24:08,810 --> 00:24:06,840  
see in there

507  
00:24:10,789 --> 00:24:08,820  
and there were dead

508  
00:24:12,950 --> 00:24:10,799  
et's or they weren't humans there were

509  
00:24:14,990 --> 00:24:12,960  
dead bodies in there of some kind right

510  
00:24:16,730 --> 00:24:15,000  
right and you couldn't get around there

511  
00:24:19,549 --> 00:24:16,740  
to see in there either

512  
00:24:21,950 --> 00:24:19,559  
well I kind of snuck around a little

513  
00:24:23,630 --> 00:24:21,960

you're a sneaky fella aren't you all

514

00:24:26,510 --> 00:24:23,640

right now tell it you snuck around there

515

00:24:29,210 --> 00:24:26,520

a little bit Colonel what did you see

516

00:24:33,590 --> 00:24:29,220

well it didn't look like the human

517

00:24:39,590 --> 00:24:33,600

beings to me how many of them were there

518

00:24:44,450 --> 00:24:41,870

all right I never did see the other one

519

00:24:46,490 --> 00:24:44,460

where the bodies mangled or were they

520

00:24:47,930 --> 00:24:46,500

relatively intact and what were they

521

00:24:49,430 --> 00:24:47,940

dressed in

522

00:24:51,529 --> 00:24:49,440

well

523

00:24:53,510 --> 00:24:51,539

dressed

524

00:24:56,090 --> 00:24:53,520

and they were they were in a lot of

525

00:24:59,330 --> 00:24:56,100

different pieces I didn't see but one

526

00:25:01,909 --> 00:24:59,340

that had a complete top

527

00:25:04,669 --> 00:25:01,919

but I wouldn't swear what he was eating

528

00:25:06,890 --> 00:25:04,679

all right what did the head look like

529

00:25:09,470 --> 00:25:06,900

anything like we've seen in the common

530

00:25:11,570 --> 00:25:09,480

research literature the the group big

531

00:25:12,950 --> 00:25:11,580

eyes the smooth skin or the little mouth

532

00:25:16,130 --> 00:25:12,960

did you see anything

533

00:25:17,750 --> 00:25:16,140

yeah at least some of them it looked

534

00:25:21,409 --> 00:25:17,760

like that they

535

00:25:22,430 --> 00:25:21,419

they just I don't know how you'd explain

536

00:25:27,529 --> 00:25:22,440

it

537

00:25:31,190 --> 00:25:27,539

but they just their heads and uh arms

538

00:25:33,230 --> 00:25:31,200

and stuff their arms are a little bitty

539

00:25:40,090 --> 00:25:33,240

uh

540

00:25:42,649 --> 00:25:40,100

oh okay but they have a big

541

00:25:44,570 --> 00:25:42,659

broomsticks all right no no I got you

542

00:25:46,310 --> 00:25:44,580

they had no uniform on they were just

543

00:25:49,490 --> 00:25:46,320

basically skin if that's what their

544

00:25:52,610 --> 00:25:49,500

outer covering is if yeah

545

00:25:57,970 --> 00:25:52,620

no any evidence of blood

546

00:26:04,490 --> 00:26:01,669

because he wouldn't let me go look in it

547

00:26:06,769 --> 00:26:04,500

I just happened to be walking by looking

548

00:26:08,330 --> 00:26:06,779

in there you know and he said no you

549

00:26:11,450 --> 00:26:08,340

can't do that you got to come over here

550

00:26:13,430 --> 00:26:11,460

you're a smart man I'm glad you did all

551  
00:26:16,250 --> 00:26:13,440  
right so um

552  
00:26:18,710 --> 00:26:16,260  
he was quite uh you know for the rest of

553  
00:26:22,010 --> 00:26:18,720  
his life he

554  
00:26:24,710 --> 00:26:22,020  
he was wondering what that was he had

555  
00:26:26,450 --> 00:26:24,720  
encountered and uh I'm fast running out

556  
00:26:28,850 --> 00:26:26,460  
of time but I just want to share with

557  
00:26:31,549 --> 00:26:28,860  
you one last thing and then uh Nick

558  
00:26:33,169 --> 00:26:31,559  
Redfern will be on shortly

559  
00:26:35,090 --> 00:26:33,179  
um

560  
00:26:37,610 --> 00:26:35,100  
there was a piece of metal that he

561  
00:26:40,130 --> 00:26:37,620  
picked up it was grooved and it had

562  
00:26:42,950 --> 00:26:40,140  
holes in it as if to dissipate Heat

563  
00:26:45,830 --> 00:26:42,960

uh he he tried to take it into a

564

00:26:48,049 --> 00:26:45,840

military life for analysis and then the

565

00:26:49,610 --> 00:26:48,059

lab closed and they claimed that he

566

00:26:51,409 --> 00:26:49,620

never had taken that piece of metal

567

00:26:55,130 --> 00:26:51,419

there and that the person he handed it

568

00:26:57,590 --> 00:26:55,140

to had never worked there and so then

569

00:27:00,950 --> 00:26:57,600

the military made it disappear Colonel

570

00:27:03,710 --> 00:27:00,960

Willingham fell but we found in his

571

00:27:06,289 --> 00:27:03,720

possessions after his death in looking

572

00:27:08,590 --> 00:27:06,299

through all his important papers we

573

00:27:12,110 --> 00:27:08,600

found a little piece of metal

574

00:27:15,409 --> 00:27:12,120

which you can see in this video that I

575

00:27:19,490 --> 00:27:15,419

that I shot we found it in a little coin

576

00:27:21,409 --> 00:27:19,500

purse and it looked like this

577

00:27:22,909 --> 00:27:21,419

um you all are the first to see this by

578

00:27:27,409 --> 00:27:22,919

the way we haven't shown it to anybody

579

00:27:29,930 --> 00:27:27,419

it was a smooth brushed two inch

580

00:27:32,930 --> 00:27:29,940

piece of metal

581

00:27:35,890 --> 00:27:32,940

and we thought it was really unusual

582

00:27:38,630 --> 00:27:35,900

because it was the only

583

00:27:40,730 --> 00:27:38,640

non-document the only item that was not

584

00:27:44,090 --> 00:27:40,740

a piece of paper

585

00:27:46,310 --> 00:27:44,100

that was in his possession at the time

586

00:27:50,330 --> 00:27:46,320

of his death why would he keep this why

587

00:27:51,830 --> 00:27:50,340

would he have a special container for it

588

00:27:55,490 --> 00:27:51,840

so

589

00:27:58,549 --> 00:27:55,500

um we waited and it weighed 11.6 grams

590

00:28:02,330 --> 00:27:58,559

just under half an ounce

591

00:28:08,690 --> 00:28:04,789

we subjected it to a number of tests the

592

00:28:16,970 --> 00:28:10,250

yeah we discovered that it was

593

00:28:20,810 --> 00:28:18,470

and

594

00:28:22,549 --> 00:28:20,820

um we of course tested it for

595

00:28:27,049 --> 00:28:22,559

radioactivity

596

00:28:28,390 --> 00:28:27,059

Thread that runs through UFO encounter

597

00:28:31,390 --> 00:28:28,400

stories

598

00:28:34,370 --> 00:28:31,400

and uh

599

00:28:38,330 --> 00:28:34,380

we uh subjected it to Radioactive

600

00:28:41,510 --> 00:28:38,340

testing with the Radix geiger counter

601  
00:28:44,710 --> 00:28:41,520  
and we discovered that there was no

602  
00:28:48,250 --> 00:28:44,720  
radioactivity it was inactive in Eric

603  
00:28:50,750 --> 00:28:48,260  
but the telling test was the X-ray

604  
00:28:53,409 --> 00:28:50,760  
diffractometer analysis that was done at

605  
00:28:56,750 --> 00:28:53,419  
our local University

606  
00:28:59,149 --> 00:28:56,760  
and here the specific

607  
00:29:01,669 --> 00:28:59,159  
placed

608  
00:29:04,070 --> 00:29:01,679  
and there were laser beams that were

609  
00:29:06,490 --> 00:29:04,080  
shot onto its surface and they traced

610  
00:29:10,070 --> 00:29:06,500  
out the surface and the computer

611  
00:29:13,669 --> 00:29:10,080  
interpreted the uh and Drew kind of a

612  
00:29:17,169 --> 00:29:13,679  
computer diagram of the various features

613  
00:29:22,630 --> 00:29:17,179

of the surface of this metal

614

00:29:30,169 --> 00:29:27,470

is what this turned out to be is a kind

615

00:29:34,010 --> 00:29:30,179

of a rare form of

616

00:29:38,750 --> 00:29:35,950

and what's interesting about graphite

617

00:29:41,510 --> 00:29:38,760

graphite is a form of carbon which

618

00:29:43,190 --> 00:29:41,520

astronomers and scientists tell us is

619

00:29:44,930 --> 00:29:43,200

probably the most common or one of the

620

00:29:46,490 --> 00:29:44,940

most abundant elements in the entire

621

00:29:48,470 --> 00:29:46,500

universe

622

00:29:52,190 --> 00:29:48,480

and what's really really interesting is

623

00:29:55,750 --> 00:29:52,200

how graphite is used on our planet in

624

00:29:58,730 --> 00:29:55,760

many military and Aerospace

625

00:30:01,190 --> 00:29:58,740

applications it had been used for

626  
00:30:03,769 --> 00:30:01,200  
surface tiles on space shuttles nuclear

627  
00:30:06,169 --> 00:30:03,779  
technology is a neutron moderator

628  
00:30:08,169 --> 00:30:06,179  
under extreme cold conditions is a

629  
00:30:13,370 --> 00:30:08,179  
cryogenic

630  
00:30:16,190 --> 00:30:13,380  
the properties of graphite make it

631  
00:30:18,169 --> 00:30:16,200  
perfect for spacecraft components it can

632  
00:30:22,029 --> 00:30:18,179  
withstand extreme temperatures it's

633  
00:30:26,149 --> 00:30:22,039  
resistant to abrasion high density

634  
00:30:27,409 --> 00:30:26,159  
self-lubricating stable in many ways

635  
00:30:29,169 --> 00:30:27,419  
so

636  
00:30:32,230 --> 00:30:29,179  
um

637  
00:30:35,570 --> 00:30:32,240  
graphite is being looked at

638  
00:30:39,110 --> 00:30:35,580

for constructing various structures in

639

00:30:40,029 --> 00:30:39,120

the future by NASA for when astronauts

640

00:30:42,710 --> 00:30:40,039

go

641

00:30:44,389 --> 00:30:42,720

to other worlds

642

00:30:46,549 --> 00:30:44,399

so

643

00:30:48,049 --> 00:30:46,559

another thing is that graphite has been

644

00:30:52,130 --> 00:30:48,059

used in the construction of stealth

645

00:30:58,730 --> 00:30:55,909

so the interesting thing is that yes

646

00:31:00,289 --> 00:30:58,740

graphite is an is an element that we

647

00:31:03,789 --> 00:31:00,299

find here on Earth

648

00:31:06,350 --> 00:31:03,799

it is not anything particularly obscure

649

00:31:08,510 --> 00:31:06,360

but then again it's an element that

650

00:31:12,470 --> 00:31:08,520

doesn't necessarily originate here on

651  
00:31:16,250 --> 00:31:12,480  
Earth and it is an interesting material

652  
00:31:17,289 --> 00:31:16,260  
that has many military and

653  
00:31:19,330 --> 00:31:17,299  
um

654  
00:31:22,250 --> 00:31:19,340  
Aerospace

655  
00:31:24,350 --> 00:31:22,260  
applications so we're still doing more

656  
00:31:27,130 --> 00:31:24,360  
research on this but

657  
00:31:29,750 --> 00:31:27,140  
um it's interesting that that was a one

658  
00:31:32,950 --> 00:31:29,760  
object that we found in Colonel

659  
00:31:36,289 --> 00:31:32,960  
willingham's um

660  
00:31:38,269 --> 00:31:36,299  
documents after his death Well we'd like

661  
00:31:40,549 --> 00:31:38,279  
to thank you all for coming to this

662  
00:31:42,590 --> 00:31:40,559  
wonderful event and you all have been a

663  
00:31:46,510 --> 00:31:42,600

great audience thank you very much don't
