

1  
00:00:08,089 --> 00:00:05,870  
on January 8 1981 in southern France

2  
00:00:09,049 --> 00:00:08,099  
there was only a single witness to that

3  
00:00:13,850 --> 00:00:09,059  
event

4  
00:00:16,070 --> 00:00:13,860  
he was working in his small farm

5  
00:00:17,150 --> 00:00:16,080  
late one afternoon he heard a whistling

6  
00:00:19,189 --> 00:00:17,160  
sound

7  
00:00:22,130 --> 00:00:19,199  
he looked up and just above the trees

8  
00:00:26,509 --> 00:00:22,140  
was this strange craft it descended and

9  
00:00:33,049 --> 00:00:29,089  
City

10  
00:00:38,950 --> 00:00:34,549  
he told his wife about it in the evening

11  
00:00:43,310 --> 00:00:41,270  
it went back in the morning to look at

12  
00:00:51,650 --> 00:00:43,320  
the area and they found traces on the

13  
00:00:57,889 --> 00:00:54,110

AC

14

00:00:59,830 --> 00:00:57,899

ientists came out in a week or two and

15

00:01:03,529 --> 00:00:59,840

they took further

16

00:01:06,590 --> 00:01:03,539

samples of soils they also took samples

17

00:01:08,030 --> 00:01:06,600

of plants and the analysis of the soil

18

00:01:09,890 --> 00:01:08,040

and plants were very interesting They

19

00:01:12,950 --> 00:01:09,900

carried out quite professionally

20

00:01:13,969 --> 00:01:12,960

and there was evidence of compression of

21

00:01:16,490 --> 00:01:13,979

the soil

22

00:01:19,190 --> 00:01:16,500

and there was a clear evidence of damage

23

00:01:21,830 --> 00:01:19,200

to the plants the kind of injury that

24

00:01:23,810 --> 00:01:21,840

could happen because of heating

25

00:01:25,789 --> 00:01:23,820

the microwaves for instance

26  
00:01:27,770 --> 00:01:25,799  
so there was good physical evidence in

27  
00:01:29,690 --> 00:01:27,780  
that case and moreover there were two

28  
00:01:32,510 --> 00:01:29,700  
kinds of physical evidence injury

29  
00:01:35,030 --> 00:01:32,520  
damaged the soil damaged the plants

30  
00:01:37,550 --> 00:01:35,040  
despite the physical evidence the small

31  
00:01:39,590 --> 00:01:37,560  
town of Tarzan Provence labeled the

32  
00:01:49,810 --> 00:01:39,600  
farmer as a flying saucer fanatic

33  
00:01:59,690 --> 00:01:51,590  
yeah

34  
00:02:09,229 --> 00:02:03,230  
I was working in the fields when I saw a

35  
00:02:14,449 --> 00:02:10,570  
S

36  
00:02:17,949 --> 00:02:14,459  
I tried to get closer I was about 30

37  
00:02:21,589 --> 00:02:17,959  
meters from it when I saw it

38  
00:02:25,010 --> 00:02:21,599

only when it took off 30 or 40 seconds

39

00:02:27,790 --> 00:02:25,020

later could I really notice its shape

40

00:02:32,449 --> 00:02:27,800

and form it is probably the first time

41

00:02:35,270 --> 00:02:32,459

that after a very well characterized

42

00:02:38,770 --> 00:02:35,280

event concerning a UFO

43

00:02:42,729 --> 00:02:38,780

there was a full scientific study

44

00:02:47,930 --> 00:02:42,739

showing that some changes were brought

45

00:02:51,290 --> 00:02:47,940

to the plants near the place where the

46

00:02:55,070 --> 00:02:51,300

UFO landed and that this biochemical

47

00:02:59,630 --> 00:02:55,080

changes were decreasing with increasing

48

00:03:01,910 --> 00:02:59,640

distances from the trace so that all the

49

00:03:04,490 --> 00:03:01,920

findings the biochemical findings could

50

00:03:06,890 --> 00:03:04,500

be put into equations and be

51  
00:03:08,930 --> 00:03:06,900  
mathematically characterized in a very

52  
00:03:12,830 --> 00:03:08,940  
accurate way

53  
00:03:15,649 --> 00:03:12,840  
then these findings were compared with

54  
00:03:16,970 --> 00:03:15,659  
the same result obtained several years

55  
00:03:21,710 --> 00:03:16,980  
later

56  
00:03:25,309 --> 00:03:21,720  
so that these controls led us to to

57  
00:03:29,509 --> 00:03:25,319  
realize that on the same area two years

58  
00:03:34,070 --> 00:03:29,519  
after the event or the findings all the

59  
00:03:37,250 --> 00:03:34,080  
things were recovering a normal shape a

60  
00:03:40,490 --> 00:03:37,260  
normal pattern of biochemical

61  
00:03:45,530 --> 00:03:40,500  
characteristics so it's now possible to

62  
00:03:49,550 --> 00:03:45,540  
say that in time and in distance

63  
00:03:52,970 --> 00:03:49,560

all the biochemical findings are

64

00:03:55,250 --> 00:03:52,980

consistent with the description given by

65

00:03:58,670 --> 00:03:55,260

the witness and it is probably the first

66

00:04:01,490 --> 00:03:58,680

time in the world to my knowledge that

67

00:04:05,750 --> 00:04:01,500

such a complete set of data has been

68

00:04:06,910 --> 00:04:05,760

obtained on such cases of UFO landing on

69

00:04:10,369 --> 00:04:06,920

a fair

70

00:04:13,130 --> 00:04:10,379

in effect we were in the presence of an

71

00:04:15,830 --> 00:04:13,140

unidentified phenomenon which had been
