

1  
00:00:08,330 --> 00:00:05,749  
a remarkable work has come to light

2  
00:00:10,490 --> 00:00:08,340  
written by the late Paul Hill for years

3  
00:00:12,290 --> 00:00:10,500  
Hill held a top job at the national

4  
00:00:15,589 --> 00:00:12,300  
advisory committee for Aeronautics which

5  
00:00:18,490 --> 00:00:15,599  
later became NASA while there he

6  
00:00:21,050 --> 00:00:18,500  
secretly compiled data in a private Jerk

7  
00:00:24,670 --> 00:00:21,060  
it may be the most comprehensive

8  
00:00:27,830 --> 00:00:24,680  
document ever written about UFOs

9  
00:00:29,509 --> 00:00:27,840  
NASA's official policy was that UFOs did

10  
00:00:32,569 --> 00:00:29,519  
not exist

11  
00:00:33,650 --> 00:00:32,579  
and my father just refused to go along

12  
00:00:36,110 --> 00:00:33,660  
without it

13  
00:00:37,430 --> 00:00:36,120

Julie Hill is Paul Hill's daughter she's

14

00:00:38,930 --> 00:00:37,440  
responsible for unearthing the

15

00:00:41,090 --> 00:00:38,940  
manuscript that her father secretly

16

00:00:43,190 --> 00:00:41,100  
wrote during his years at Nasa I knew

17

00:00:46,970 --> 00:00:43,200  
who my father was alive that he was

18

00:00:49,490 --> 00:00:46,980  
working on a manuscript about UFOs and I

19

00:00:51,470 --> 00:00:49,500  
got a bit curious I thought it was

20

00:00:54,170 --> 00:00:51,480  
something I didn't want to be lost

21

00:00:57,350 --> 00:00:54,180  
and so when I asked my mother where it

22

00:00:59,209 --> 00:00:57,360  
was she told me and I went to his desk

23

00:01:01,729 --> 00:00:59,219  
just to pick it up and look at it and

24

00:01:03,830 --> 00:01:01,739  
maybe put it in a safer place and when I

25

00:01:07,490 --> 00:01:03,840  
opened it and looked at it

26

00:01:09,469 --> 00:01:07,500

I was just astounded at what I saw

27

00:01:11,630 --> 00:01:09,479

Julie discovered a manuscript that

28

00:01:14,929 --> 00:01:11,640

presented clear and precise evidence

29

00:01:16,490 --> 00:01:14,939

about UFOs her father had meticulously

30

00:01:18,710 --> 00:01:16,500

gathered reports from numerous

31

00:01:20,810 --> 00:01:18,720

eyewitness testimonies the report

32

00:01:23,450 --> 00:01:20,820

provided specific information about

33

00:01:26,390 --> 00:01:23,460

alien spacecraft as well as physical

34

00:01:29,330 --> 00:01:26,400

details of the occupants he became sort

35

00:01:31,370 --> 00:01:29,340

of a Clearinghouse so when Pilots had

36

00:01:35,030 --> 00:01:31,380

sightings or aircraft spotters had

37

00:01:36,950 --> 00:01:35,040

sightings he would get those reports and

38

00:01:38,630 --> 00:01:36,960

he would interview the people to find

39

00:01:40,910 --> 00:01:38,640

out all the

40

00:01:42,050 --> 00:01:40,920

the different facts pertaining to the

41

00:01:43,730 --> 00:01:42,060

sightings

42

00:01:46,130 --> 00:01:43,740

there are many astonishing revelations

43

00:01:48,830 --> 00:01:46,140

in the book many defy our laws of

44

00:01:50,690 --> 00:01:48,840

physics observed accelerations at the

45

00:01:53,630 --> 00:01:50,700

order of 100 times Earth's surface

46

00:01:56,210 --> 00:01:53,640

gravity in 100 G turn

47

00:01:58,190 --> 00:01:56,220

it lasted for a second

48

00:01:59,050 --> 00:01:58,200

thing would be squashed you know it just

49

00:02:01,910 --> 00:01:59,060

before

50

00:02:03,410 --> 00:02:01,920

Dr Robert Wood headed up several highly

51  
00:02:05,990 --> 00:02:03,420  
classified projects with McDonald

52  
00:02:07,910 --> 00:02:06,000  
Douglas he is also a physicist who

53  
00:02:10,249 --> 00:02:07,920  
closely followed Hill's work clearly

54  
00:02:12,589 --> 00:02:10,259  
you're talking about hundreds of G's and

55  
00:02:15,530 --> 00:02:12,599  
you're talking about the occupants being

56  
00:02:17,390 --> 00:02:15,540  
able to withstand that or they don't

57  
00:02:20,210 --> 00:02:17,400  
feel it and so that was one of the

58  
00:02:22,130 --> 00:02:20,220  
things that caused Paul and I to both

59  
00:02:24,490 --> 00:02:22,140  
feel that clearly there was some sort of

60  
00:02:27,910 --> 00:02:24,500  
inertia and gravity control

61  
00:02:30,650 --> 00:02:27,920  
involved with high accelerations

62  
00:02:32,270 --> 00:02:30,660  
UFOs have Solid Surfaces this

63  
00:02:33,830 --> 00:02:32,280

characteristic is attested to by those

64

00:02:35,809 --> 00:02:33,840

who have touched them wrapped on them

65

00:02:37,550 --> 00:02:35,819

and listened to the thud or the wine of

66

00:02:39,470 --> 00:02:37,560

ricocheting bullets from rifle or

67

00:02:43,610 --> 00:02:39,480

point-blank pistol fire

68

00:02:46,190 --> 00:02:43,620

he and I were clearly of the opinion

69

00:02:48,350 --> 00:02:46,200

that these were solid craft they were

70

00:02:50,210 --> 00:02:48,360

not artifacts there were no question

71

00:02:53,270 --> 00:02:50,220

about hallucinations there were multiple

72

00:02:55,490 --> 00:02:53,280

Witnesses radar Returns the occupants

73

00:02:57,650 --> 00:02:55,500

come in three sizes diminutive about

74

00:03:00,250 --> 00:02:57,660

three or four feet human size five to

75

00:03:03,710 --> 00:03:00,260

six feet and giant eight or nine feet

76

00:03:05,570 --> 00:03:03,720

Paul Hill gets into the fact that

77

00:03:08,150 --> 00:03:05,580

obviously these things must be craft

78

00:03:10,850 --> 00:03:08,160

because you see little Pilots or beings

79

00:03:12,710 --> 00:03:10,860

or occupants along with them Richard

80

00:03:14,270 --> 00:03:12,720

Hall is an author and former director of

81

00:03:15,649 --> 00:03:14,280

the national investigations committee on

82

00:03:18,470 --> 00:03:15,659

aerial phenomena

83

00:03:20,830 --> 00:03:18,480

they're quite often not always about

84

00:03:23,570 --> 00:03:20,840

four to four and a half feet tall

85

00:03:25,850 --> 00:03:23,580

usually wearing light colored or silvery

86

00:03:27,589 --> 00:03:25,860

reflective Garb and quite often they

87

00:03:29,270 --> 00:03:27,599

have something that looks like a diverse

88

00:03:31,610 --> 00:03:29,280

helmet it's sort of a clear

89

00:03:33,350 --> 00:03:31,620

Dome like thing over their heads so they

90

00:03:35,990 --> 00:03:33,360

appeared to need some kind of life

91

00:03:37,729 --> 00:03:36,000

support system in our atmosphere other

92

00:03:40,309 --> 00:03:37,739

statements include detailed descriptions

93

00:03:42,350 --> 00:03:40,319

of the size and shape of UFOs the fact

94

00:03:44,089 --> 00:03:42,360

that UFOs have no externally visible

95

00:03:46,789 --> 00:03:44,099

engines power plants or other means of

96

00:03:49,729 --> 00:03:46,799

propulsion and that UFOs are highly

97

00:03:51,949 --> 00:03:49,739

radioactive after pouring through her

98

00:03:54,170 --> 00:03:51,959

father's manuscript Julie knew that she

99

00:03:56,509 --> 00:03:54,180

was sitting on Dynamite she felt she had

100

00:03:59,149 --> 00:03:56,519

to make the manuscript public

101

00:04:01,610 --> 00:03:59,159

well the first thing I did was I ran off

102

00:04:03,470 --> 00:04:01,620

30 copies of the book and I took them to

103

00:04:05,570 --> 00:04:03,480

a mupon convention in Richmond and

104

00:04:07,789 --> 00:04:05,580

that's the mutual UFO Network

105

00:04:11,210 --> 00:04:07,799

this is a large Gathering of scientists

106

00:04:12,729 --> 00:04:11,220

and this was just the type of person I

107

00:04:15,289 --> 00:04:12,739

thought would be interested in the book

108

00:04:17,689 --> 00:04:15,299

I didn't know if there was anything in

109

00:04:20,150 --> 00:04:17,699

the book that the government would be

110

00:04:22,009 --> 00:04:20,160

squeamish about seeing in print but I

111

00:04:23,629 --> 00:04:22,019

figured if I gave it away that it would

112

00:04:25,070 --> 00:04:23,639

be out there and no one could stop it

113

00:04:27,950 --> 00:04:25,080

after that

114

00:04:29,570 --> 00:04:27,960

Dr Wood was also in Richmond this

115

00:04:32,330 --> 00:04:29,580

attractive young woman came up to me and

116

00:04:34,129 --> 00:04:32,340

said are you Dr Wood and I said yes and

117

00:04:36,110 --> 00:04:34,139

then she whipped out this eight and a

118

00:04:40,010 --> 00:04:36,120

half by eleven thick manuscript and it

119

00:04:42,830 --> 00:04:40,020

was clear that here was someone who had

120

00:04:44,390 --> 00:04:42,840

really read her father's work enough to

121

00:04:47,450 --> 00:04:44,400

know that there was something really

122

00:04:48,890 --> 00:04:47,460

sound there Paul hill was a man years

123

00:04:50,870 --> 00:04:48,900

ahead of his time

124

00:04:52,790 --> 00:04:50,880

over the years he conducted experiments

125

00:04:54,909 --> 00:04:52,800

with his own unconventional propulsion

126

00:04:59,689 --> 00:04:54,919

machines seen here in these old films

127

00:05:01,790 --> 00:04:59,699

his legacy a remarkable manuscript calm

128

00:05:04,010 --> 00:05:01,800

rational scientific analysis of one of

129

00:05:06,469 --> 00:05:04,020

our greatest Mysteries

130

00:05:08,270 --> 00:05:06,479

thank you at this recent event at the

131

00:05:10,430 --> 00:05:08,280

national Press Club in Washington DC

132

00:05:12,110 --> 00:05:10,440

media from around the world met with

133

00:05:14,330 --> 00:05:12,120

former NASA scientists and photo

134

00:05:16,670 --> 00:05:14,340

analysts they revealed what they

135

00:05:18,710 --> 00:05:16,680

believed may be photographic evidence of

136

00:05:21,230 --> 00:05:18,720

extraterrestrial contact during the

137

00:05:23,450 --> 00:05:21,240

Apollo program and what is the official

138

00:05:26,210 --> 00:05:23,460

NASA response to Hill's book

139

00:05:29,150 --> 00:05:26,220

we contacted Dennis Bushnell NASA's

140

00:05:31,129 --> 00:05:29,160

Chief scientist at Langley his response

141

00:05:33,590 --> 00:05:31,139

Paul had some interesting speculations

142

00:05:35,570 --> 00:05:33,600

in that saucer-shaped objects can fly in

143

00:05:37,969 --> 00:05:35,580

a conventional manner knowledgeable

144

00:05:40,189 --> 00:05:37,979

people are still speculating these are

145

00:05:43,610 --> 00:05:40,199

still open issues for Paul's daughter

146

00:05:46,249 --> 00:05:43,620

Julie some things are very clear when I

147

00:05:48,950 --> 00:05:46,259

think about my dad I I think he'd be

148

00:05:51,529 --> 00:05:48,960

thrilled that his book is in print that

149

00:05:53,570 --> 00:05:51,539

finally some of his work

150

00:05:55,969 --> 00:05:53,580

will be out there for public consumption

151

00:05:58,850 --> 00:05:55,979

that people will know

152

00:06:01,010 --> 00:05:58,860

how brilliant he was and how hard he

153

00:06:02,180 --> 00:06:01,020

worked to bring all this knowledge
